## THE UBIQUITOUS PROPAGAN DIST

From time immemorial the mail oox of every newspaper in the land has been filled to overflowing with all kinds of literature from various parties who had an ax to grind, and believed the news paper man was the right person to turn the handle.

As a general rule these numetous communications -were from parties who wanted advertising, and they rang every scheme on the gamut of the schemer, in order to get their products before the public for little or nothing-at the expense of the dispensor of news.

Since the commencement of the this glorious work." war the greatest sinners along this line have been paid pencil pushers of the governmnt, who have loaded the mails to overflowing, at the cost of a tremendous amount of money, the waste of thousands of tons of good paper-when paper has been scarce and hard to get hold of-and to the annovance of very newspaper man in the coun-

It has been generally acknowledged that the newspaper of the hand have been generous with their space as the most exacting could expect. Thousands of columns have been freely donated to to the government, for the general good, without the slightest expectation or desire for returns. This work has been done freely and willingly, with the expectation that when the war was brought to a close that the avalanche would cease. But like the brook is seems as though it would flow on forever.

The latest thing, and one of the most annoying, is a fake "interview." Some prominent citizenand their name seems to be legion -receives a communication from Dallas, Washington, or some far away country; and enclosed is a made to order "interview." And there is a request that the recipient fill out the blank spacesvery conveniently placed-take the wonder to the local paper and ask that same be published.

The News has received three of these "made to order" interviews this week. They are all on the same subject; they are all gotten up on the same general lines, and the three would take up two or more columns of space.

Why should the newspaper be pestered all the time with matter of this class?

Presumably these government propagandists—all drawing big salaries-have to earn their money in some manner. As so many of their direct efforts have met with a flat failure they are now going to take the newspaper men on the flank, and either make him publish. their screeds, or run the risk of offending some prominent citizen by turning down the matter brought into the shop. In words, they are now engaged on a campaign of forcible persuasion. And it won't

SAYS SENATOR SHEPPARD IN IN TERVIEW ON METHODIST CENTENARY DRIVE MAY 18-25

is a preacher worth as much ociety as a Ford?

apparently, because at least 200 out of 850 Methodist preachers in Texas are drawing less every year than the price of a Ford.

The Southern Methodist Church re cently made a survey of salaries paid to 6,150 preachers and discovered the fact that \$19 of them received less than \$400; 1,268, or more than one-fifth, received less than \$500; and 1,585, or more than one-fourth, received less than \$600 a year.

It was these figures that United States Senator Morris Sheppard had in mind when in a recent interview on the Methodist Centenary, which will make a drive for \$35,000,000 in eight days, May 18-25, he said:

"The small remuneration allowed so many American preachers of the Gospel, who are also teachers in the highest and holiest sense, is one of the handleaps on the spread of knowledge and progress, which the Methodist Centenary campaign will help to remove."

The Senator also said:

The Centenary Campaign of the Methodist Episcopal Church, South, should have the earnest, practical and prayerful co-operation, and support not only of every Methodist, but of all other citizens as well. The funds raised by this campaign will do more for humanity, civilization and democracy than can be measured in words.

"If the world is to reap the benefits of the war that has been fought and won for its emancipation; if the cause for which so many million gave their lives and blood and treasure is to be made of concrete value to mankind, men, women and children must be given a spiritual and educational basis on which the structure of liberty and progress may be permanently based. The inhabitants, of the stricken regions will be unable to catch the spirit of the new time, if they remain strangers to Christianity. Neither will the own country be in position to receive Hon. Cone Johnson of Tyler, for the message of true democracy, with such low standards of knowledge and education as too frequently prevail. The Methodist Centenary is a movement born in heaven, and dedicated to the noblest, purest interests of the human race.

17-21 LABOR PROVIDED BY ERECTION OF CHURCHES

> Nearly a million dollars will be spent by the Methodist Episcopal Church, South, in the erection of churches, schools, and settlement houses in the South during the next few months. This announcement was made at the office of the Board of Missions of that denomination to-

day. Dr. O. E. Goddard, Secretary of the Department of Home Missions, stated the money would be spent as follows: For foreigners in this country. \$70,000; mountain work, \$600. 000; textile workers, \$150,000; foreign population in New Orleans, \$118,000. The spending of this money on buildings in the South means work for laborers in many places. It will be the direct result of the Centenary Campaign of the M. E. ON EVE OF GREAT CAMPAIGN FOR \$35,000,000 THEY MAKE SNAPPY STATEMENTS TO TEXAS METHODISTS

More than 400,000 Texas Metho dists are to be asked to contribute more than \$5,000,000 fewards the \$35,000,000 thank-offering of the Southern Methodist Church, which is now celebrating the centennial of its missionary activities.

Texas Methodism has been organized down to the last man, and Texas will probably give more like \$8,000,-000 before the eight day drive cor cludes on May 25.

On the eve of the great drive, the greatest ever undertaken by any church since the days of Christ, prominent business men of Texas, widely known as leading Methodist laymen also have given out snappy interviews forecasting state-wide vic- Tells Story Of

R. M. Kelly, successful manufacturer of Longview, president of the Kelly Plow Company, said:

"The Centenary idea is influencing our whole people and slowly, but surely transforming the Methodism of Texas. No such spirit ever gripped this section, and no such results ever followed any church activities.

"Our business men are impressed with the fact of a preliminary world' survey, and a detailed and rational needs, and exactly what the work will cost. They join the church authorities in the belief that this work is now imperative."

Judge Q. W. Barcus of Waco said: "The Centenary Movement appeals to all classes and the program is one that commands the attention of the business world. The entire Methodist Church in Texas, as elsewhere, is lining up as one man. Texas Methodists never fall to do their duty either by their country or their church."

Judge C. M. Smithdeal of Dallas

"The mere statement of our aims arouses the old-time Methodist enthusiasm which I had vainly imagined we had lost. Our own generation will profit greatly by this drive, but generations remote from us will be blessed. Of course, Texas Methodists will rally like a moving army to one objective, victory."

If we endow its present projects with the sum requested, and we shall do that without a doubt, it will have its first real opportunities to manifest to mankind what it can do for the spread of the Gospel. Every Methodist with a spark of loyalty to the history and blessed traditions of our church will be in at the drive.

Ira J. Ayers, a government official on the border, at El Paso, said;

"The tide is rising. We're going over! The idea of celebrating the Centenary of established missions by American Methodists in such a firing from the first. For West Texas and New Mexico I can speak with certainty. They will go over in gallant style when the returns are all in." Judge John W. Woods of Abilene,

"As was recently said, \$35,000,000 or more for Christianity, but not one cent for Bolshevism. Better five hundred young men and young women in mission helds, than twenty million in the trenches. The laymen who have long been asking for something to do, recognize in this a real opportunity for service commensurate with their ability to do

## STILL PURCHASE WIVES.

Miss Kathron Wilson, of Dallas, Texas, a missionary of the M. E. Church, South, to Africa, has written recently to her friends that the missionaries are having a hard time getting enough little African girls together to form a school. Miss Wilson walked a long distance to another village in an effort to get a few girl children to come to school. The chief told them very politely, but firmly, that all the little girls of his village had been purchased as wives and their fathers had no further jurisdiction over them. One of the results. of the Centenary Movement of the M. E. Church, South, will be the establishment of schools in Africa in the hope of uplifting degraded womanhood on the Dark Continent.

Contains No Alum-Leaves No Bitter Taste

TEW cars are going to be few and far between for some time to come. We've had a war on our hands that shut down on automobile building.

Anyway, the old car is just as good as newengine is in first class shape and everything runs like a top. You will want your car to look as good or better from now on than it looked last year. You can have a car that is new to all appearances by refinishing it the Berry Way.

Berry Brothers Auto Color Varnishes are made in attractive colors and in black and white. You can have the hood and fenders of your car in one color, the body in another and the wheels in a third, or you can finish the entire car in one color-any way you wish to satisfy your personal taste.

As a matter of protection against rust and decay and also as a matter of pride you will find refinishing the Berry Way is an investment-not an expense.

Come in today and get a descriptive folder showing color combinations and giving explicit directions for refinishing your car with Berry Brothers Auto Color

them by the aggression of the enemy states.

The total obligation of Germany to pay, as defined in the category of damages, is to be determined and notified to her after a fair hearing and not interchan May 1, 1921, by an interallied reparation commission. At the same time a schedule of payments to discharge the obligation within thirty years shall be presented. These payments are subject to postponement in certain contingencies. Germany irrevocably recognizes the full authority of this commission, agrees to supply it with all the necessary information and to pass legislation to effectuate its findings. She further agrees to restore to the nilles cash and certain articles which can be identified.

As an immediate step toward restoration Germany shall pay within two years 20,000,000,000 marks in either gold, goods, ships, or other specific forms of payment, with the understanding that certain expenses, such as those of the armies of occupation and payments for food and raw materials, may be deducted at the discretion of the allies.

may be deducted at the discretion of the ailies.

While the grand total of damages assessed against Germany may exceed her ability to pay, she undertakes to make compensation for all damages caused to civilians under seven main categories; (a) Damages by personal injury to civilians caused by acts of war, directly or indirectly; (b) damages caused to civilians by acts of cruelty ordered by the enemy and to civilians in the occupied Territory; (c) damages caused by maitreatment of prisoners; (d) damages to the allied peoples presented by pensions and separation allowances capitalized at the signature of this treaty; (e) damages to property other than navel or military materials; (f) damages to civilians by being forced to labor; (g) damages in the form of levies or fines imposed by the enemy.

In periodically estimating Germany's capacity to pay the reparation commission shall examine the German, system of taxation, first to the end that the sums for reparation which Germany is required to pay shall become

heavy proportionately as that of any of the powers represented on the commission.

The commission may require Germany to give from time to time, by way of guaranty, issues of bonds or other obligations to cover such claims as are not otherwise satisfied. In this connection and on account of the total amount of claims, bond issues are presently to be required of Germany in acknowledgment of its debt as follows:

Twenty billion marks, gold, payable not later than May 1, 122, without interest; forty billion marks, gold, bearing 26 per cent interest between 1921 and 1925 and thereafter 5 per cent, with a 1 per cent sinking fund payment beginning in 1925; and an undertaking to deliveriforty billion marks gold bonds bearing interest at 5 per cent, under terms to be fixed by the commission.

SHIPPING.—The German government recognizes the right of the allies to the replacement, ton for ton and class for class, of all merchant ships and fishing boats lost or damaged owing to the war, and agrees to cede to the allies all German merchant ships of 1,600 tons gross and unward: one-half of her ships between 1,600 and 1,600 tons gross and one-quarter of her steam trawiers and other fishing boats. These ships are to be delivered within two months to the reparation copmittee, together with documents of the allies to the anount of not exceeding 200,000 tons gross annually during the mext five years. All ships used for inland navigation taken by Germany from the allies are to be restored within two months, the amount of not exceeding 200,000 tons gross annually during the next five years. ## Don't Forget to Vote Saturday. COOPERATIVE MARKETING DEMANDS MEMBERS' AID

Much has been accomplished by the American farmer through co operative marketing, and organized activities are gaining rapidly in popularity in rural communities. While much may be done through cooperation, it is not a remedy for all marketing difficulties, say cooperative organization men of the Bureau of Markets, United States Department of Agri culture. One of the precautions which must be observed in the demand for organized effort should come from those who unite to form the organization. Another important point to be observed is that the organization should grow from a strong foundation.

The mistake is frequently made of attempting to form a large central organization before organized effort in a small way has been tried out successfully worked out, One of the causes of failure among cooperative organizations is lack of support from members, and on that account every care should be taken to hold them together. # Cooperation

You often hear folks talk of "co-operation." To co-operate you must have friends. No one lives to himself. The same is true in a business sense. A merchant depends on his friends for business. Then if one succeeds he must make money off his friends.

That is one reason why we treat our customers right—they are our friends and we do our best to please them, not just because it pleases them to treat them right, but because it is RIGHT that we should treat them that way. If you are not one of our regular customers, let's get acquainted.
