JC's Will Aid Poll Tax Sales

The Hereford Jaycees are jumping on the bandstand to raise the amount of poll taxes sold in Hereford.

According to statistics at the county clerk's office Wednesday only 809 persons have purchased their right to vote.

Hereford Jaycees will begin selling poll taxes Sunday and will work all that day.

Jaycees will work all over the town and will also sell receipts by person-to-person calls.

Purchase of the tax entitles a person to vote in April's scheduled general city election for posts of mayor and two city commissioners.

County residents are urged to purchase their poll tax receipts at the office of the county clerk or from any Jaycee member.

Sewer Pipe, Stop Light Bids Sought

The Hereford City Commission Monday night set a deadline of 2 p.m., Feb. 9, for the opening of sealed proposals for construction of approximately 3,000 feet of six-inch and eight-inch sewer line west of Hereford and for the furnishing of four two-way corner-mounted signals and 12 traffic lights at the intersection of Highways 51 and 60.

The City Commission will meet in special session at 5 p.m. after bids are tabulated and will award bids for the two projects.

Included in the sewer line, which will be constructed in the Westhaven Addition and Brownlow subdivision, will be 1,400 feet of eight-inch line and four manholes toward the new elementary school, now under construction northwest of Hereford. The line will be from six to seven feet deep.

In the Brownlow subdivision, a sewer line will be installed in the section between Aspen and Emma streets.

Materials and labor costs are to be included in bids, the commissioners decided. As cost of installations would exceed \$2,000, commissioners decided to let bids for contract. Commissioners will award

contract for intersection traffic lighting for Highways 60-51 at the same time sewer construction bids are considered.

Four two-way corner-mounted traffic signals will be placed at each corner of the intersection. Included in the installation will be one two-movement traffic controller and four one-way traffic signals.

Turner Hurt In Machine Mishap

Reported in "satisfactory" condition at Deaf Smith County Hospital Wednesday after falling beneath a moving ditch digging machine north of Hereford Monday morning is Fred Turner, 57, James St.

Turner received three fractured ribs and abrasions of the chest and face while he was using the ditcher to cut a foundation for a barn on the Charley Hill farm about four miles north of Hereford.

According to other workers at the scene, Turner apparently was standing on the ground alongside the ditcher when the heavy machine jumped into gear and threw Turner underneath it.

Mois Bridges, an employee of the Carl McCallin Lumber Company, who was at the scene, ran to the ditcher and turned off the ignition key, killing the motor.

Turner told relatives at the hospital: "Everything happened so quickly that I can't remember what happened."

Turner was taken to the hospital by Gus Holland, also an employee of the lumber company. Turner is a part-time employee of the J. R. Barrett Plumbing and Heating Co., Jesse R. Barrett, 342 Ave. D, said the ignition of the machine had not been switched off. Turner would probably have been dragged into the ditcher's bucket.

MOD Bottle Drive Collects More Than \$100

The "SOS for SPB for MOD", Hereford High School students' slogan for their pop bottle drive for the March of Dimes, did not reach the hopes for expectations of Dimes, did not reach the hopes that involved last Saturday, but still netted about \$100.

In answer to the students' distress call Hereford residents placed all empty soda pop bottles on their porches early Saturday morning to be picked up by the students.

Courthouse Remodeling Is Studied By Commissioners

It now appears that Deaf Smith County voters will be faced with two bond issue votes, instead of one, as the result of action taken during a Commissioners' Court meeting Monday afternoon.

During the special session, commissioners agreed to expand a recent contract with Municipal Securities Company to provide funds for extensive courthouse remodeling and renovation, in addition to funds already committed for

a new jail building. The courthouse is more than 50 years old.

The new contract provides that \$175,000 could be made available for courthouse renovation by Municipal Securities Company, if the issue is passed by voters. The company already had agreed to furnish up to \$200,000 for the construction of a new county jail.

The issues, if both are called for in a special bond election, would be voted on separately,

according to County Judge Homer E. Henslee. The bond election, if called, would be held sometime after Feb. 9.

In addition, the court retained Bob Davis, representing Municipal Securities Company, as financial advisor for the proposed courthouse remodeling. Davis previously had been retained in the same capacity for the purchase of east Highway 60 right-of-way purchases.

Win Puts 'Faces In District Lead

Led by the scoring talents of Ken Clearman, the Hereford Whitefaces captured their second 1-AAA district game from the Littlefield Wildcats at Littlefield Tuesday night by a 73-39 margin.

Using their full-court press throughout the four quarters, the Whitefaces left the Wildcats practically helpless in their attempt to get down the court for field goal tries. During one part of the last quarter, the Herd hawked the ball three consecutive times for field goals before the Wildcats could claw their way into their own scoring territory.

The Whitefaces stamped to first place in conference play when they recorded the win.

Sparked by Clearman with 23 counters, the Herd led in scoring throughout the contest. Aggressive Donnie Renfro hit six field goals and two free throws to follow with 14 points.

Wildcat scoring was dominated by Hilton Hemphill and James Goldston, with 12 and 11 points, respectively.

Holding a 16-11 lead at the end of the first quarter, the Whitefaces jumped to a 36-19 margin at the end of the half. As tempers began to flare a major players of both teams during the third quarter, the Wildcats were still trailing by 37-27 at the end of the quarter.

Faced by Roy's Bolts with 13 points, the Whitefaces' squad took a 45-20 win over the Littlefield B's. Bolts was

followed by Charley Thomas with 10 counters, Littlefield's top scorer was Max Ball with 11 points.

The Whiteface squad will take a breather Friday and will meet the Dumas Demons here for their third game in conference play Tuesday.

The Phillips-Dumas game, scheduled Tuesday, was postponed because of weather. The contest will be played sometime in February.

Auto-Scoter Crash Hurts One

Fourteen-year-old Gerald Hollenstein, 411 Blevins, Monday was released from Deaf Smith County Hospital after being treated for injuries received when the motor scooter he was riding was struck by a car at the intersection of Union Ave. and Ave. C. The accident happened at 7:52 a.m.

Driver of the car, Jan Davila Wallace, 17, 118 N. Jackson, was not injured.

Hollenstein, treated in the emergency room of the hospital, suffered fractures of the left hand and left ankle. He was taken to the hospital by Kreis-Marens ambulance.

Wallace was cited for failure to grant the right-of-way by Hereford police. Hollenstein received a ticket for no driver's (Continued on page 3)

## Zimmerman

(Continued from Page 1)

He was married to Ernestine Tripp of Norman, Okla., after graduation and starting teaching in Lefors. For five years he was Communications Appraiser for the State of Oklahoma, becoming manager of a bottling plant in Oklahoma City in 1940.

Called to active duty in 1941 as an Army Second Lieutenant, Zimmerman saw extensive action in the South Pacific, rising to the rank of Major before he was released in 1946. He was retired in 1956 from the Reserves with the rank of Lieutenant Colonel. Zimmerman bought a sporting goods store in Elsa after his release, and came to Hereford as owner of the Hereford Hardware in 1947.

He and his wife have three sons, all Eagle Scouts and all students at Texas Tech.

He has been director and president of the Hereford Lions Club, district zone chairman and currently is Deputy District Governor of Lions International.

He is a deacon in the First Presbyterian Church, was city commissioner, two terms, school trustee one term and is a former director and president of the Chamber of Commerce. He also is a district officer in Boy Scouts, is serving on the City Board of Adjustment and is chairman of the proposed Community Center. Not the least of his efforts were called upon when he helped organize the United Fund in the county in 1957.

MC duties were shared by Marcus R. Latham, retiring Chamber president, and his successor, J. R. "Monk" Johnson.

With a voice to match his 6-2, 300-pound frame, Roe Bartle kept his audience enthralled for 90 minutes. Even in its smallest volume, Bartle's speech was heard in the most distant corner of the cavernous Whiteface gymnasium.

His humor winged from one topic to another, but most of it pivoted around his beloved Kansas City, Mo. He drew applause when he told his outstanding Hereford cattle, which he declared were the best in the world, although the judges never seemed to agree.

His difficulties in getting from Galveston to Hereford Tuesday also provided some humorous moments.

But Bartle's great sincerity came as he spoke of the citizens of America, and of the world.

"You cannot build a great nation in any nation's capitol," he roared. "It is made in the farms, in the ranches, in the factories, in the cities and the communities of a nation."

The power and the future of the country, he pointed out, rests with our youth and with our faith in God. "Russia fears more our moral fiber than any weapon we might possess," he said.

C of C members should regard the annual meeting as a stockholders meeting in a large corporation; as a time for reviewing accomplishments and outlining future works, he said.

"The most important aim of a Chamber of Commerce," Bartle declared, "is to set up a human symphony with groups of different backgrounds, religions and ideals. A Chamber should harmonize the lives of men and women in the community."

Talking about the many wars of history, and within his lifetime, Bartle drew tremendous laughter when he commented, "One of my Missouri acquaintances said Korea was just a police action, but I finally got Harry straightened out on that."

Referring to the functions of a Chamber of Commerce, he stated that its job is to spearhead religious understanding and to ensure good government and good public officials.

Two ovations swept across the gymnasium when Bartle said he crossed party lines if he felt the other party had the best candidate and when he revealed that he had returned a coveted decoration to Venezuela after Vice President Richard Nixon was attacked during his tour of South America.

Recognized during the program were the new officers and directors of the Deaf Smith County Chamber of Commerce. They include Johnson, president; Palmer Norton, vice president; C. C. Acker, treasurer; and W. T. "Bill" Thompson, manager. Directors for 1959 are H. C. Baird, Earl Cole, Charles Noiland, Curtis Roach and John T. Sims. Paul Schroeter represents the Junior Chamber of Commerce on the board.

Attending the banquet from outside the county were persons from Canyon, Amarillo, Lockney, Friona, Tulia, Littlefield, Bovina, Borger, Vega, Dimmitt and Kansas City.

The filet mignon dinner was served by Fort Worth caterer Walter Jetton in slightly more than 30 minutes. Dinner music was provided by organist Mrs. John T. Sims. Yellow rose cen-

Three lights will be installed on each corner pole. One traffic light will be placed on the extension of each pole for overhead signals. Clearance of the overhead lights from the highway will be about 16 feet.

The commissioners first considered installing corner signals only, but they felt that overhead signals would add safety factors to the installation. They also felt that the overhead signals should be placed on extensions of the poles rather than being hung on cables.

In other business, the commission approved the purchase of a "Dozer TD-18" for use at the city dump.

More than a year ago, the city purchased a TD-11 implement, but it is now in need of repair. Since purchase, the implement has cost \$1,300 in repairs.

Using the TD-11 unit in the transaction with Plains Machinery in Amarillo, the "Dozer TD-18" will cost the city an additional \$5,500.

City Manager Dudley Bayne recommended that the commissioners approve the purchase as the new bulldozer is larger than the TD-11 unit. The new bulldozer will be put in operation on trial basis, sometime this week, Bayne said.

The commission also approved street lighting at the intersection of Douglas and Westhaven streets. As 75 per cent improvement had not been made on Douglas street, the commission agreed that it was not possible to approve lighting for the entire block on Douglas St.

Commissioners voted down a request that the alley behind the old Furr Food warehouse be used for drive-in service for a cleaning business.

Lloyd Neill, owner of Neill's Cleaners, asked the commissioners to consider allowing him to install a service window at the alley entrance of the building if he should lease the building as a new location for his business.

The old Furr Food warehouse is located in the 100 block of W. 3rd St.

Bayne said that he was getting ready to prepare the city budget for 1959-60, and asked the commissioners to consider recommendations to be presented at the next meeting. Bayne will present the budget sometime in March.

Bayne told the commissioners that four-way stop signs had been placed at intersections of

Only 12 high school students contributed their time and efforts for the all-day campaign. This campaign was the second one of its type to be scheduled by the students. The first campaign, set for Jan. 3, was postponed because of bad weather.

At the close of the day Saturday the 12 students had collected more than 3,000 pop bottles

with a net gain of almost \$100 to be added to the tally of the March of Dimes.

The students turned the money over to Jesse Click, campaign chairman of the March of Dimes, Saturday.

Chairman of the teen-age drive was Margaret Burrus, with Linda Hair as co-chairman. Others on the student committee included Karen Albracht, Gwin Morris, Danny Martin, Betty Hagar and Carolyn Lee. Billye M. Buck was faculty sponsor for the drive.

"I want to personally thank the 12 students who showed up for the drive. It was really hard work for only 12 boys and girls to cover the whole town and I think they did a remarkable job," said Mrs. Buck after the close of the drive.

# Spotlight On Broadway Makes Move To East

By WILLIAM GLOVER  
NEW YORK (AP) — Broadway's taste in leading ladies took on an Oriental cast this year. Two of the year's brightest feminine stars were Miyoshi Umei, Japanese charmer in the new Rodgers-Hammerstein musical hit, "Flower Drum Song," and France Noyan, Marseilles-born daughter of a French mother and a Chinese father, who takes the bows in "The World of Suzie Wong."

Saving the day for American stars was the jazzing Anne Bancroft, a native of the Bronx, who won the highest critical acclaim for her starring role in "Two for the Seesaw."

The year saw established queens of the glamor scene parade to new triumphs, but a fresh crop of talent and an exotic trend won the greatest attention.

Backstage, Ketti Frings, a matronly Hollywood script writer, swept up all the honors including the Pulitzer prize for her play, "Look Homeward, Angel," based on the Thomas Wolfe novel.

New laurels were won by Helen Hayes, with an American Theatre Wing Tony as the top star for "Time Remembered," plus a bevy of critical bouquets for "A Touch of the Poet."

Among the other great ladies were Katharine Cornell, back after six years, in "The Firstborn," Judith Anderson in "Comes a Day," and Lynn Fontanne, giving in "The Visit" one of her most mordantly memorable portrayals.

Gwen Verdon and Thelma Ritter shared honors as the top disaffiliated musical stars of the season for their performances in "New Girl in Town."

Also on the song-and-dance stage, Jacquelyn McKeever was cited for her debut in "Oh, Captain!"

A gaggle of girls earned more than passing critical attention in smaller parts of major value. Included were Zohra Lampert, Collin Wilcox, Jan Brooks and Urdien Forrest. Also noted were Joy Harmon, a miss with Jayne Mansfield dimensions, and Dolores Hart, who bested 500 trout rivals for initial opportunity in "The Pleasure of His Company."

The ladies were prominent

in many backstage assignments, with Betty Coe Armstrong, Ruth Morley and Virginia Volland among the busiest costume designers, and Jean Rosenthal and Peggy Clark all over Broadway as lighting experts.

A number of damsels from foreign parts added new allure to the scene. These included the 50 pretty and accomplished Russian girls of the Beryoska Dance company; the frou-frou femmes of "La Plume de Ma Tante" and assorted lasses of Oriental heritage answering the White Way's sudden demand for Far Eastern entertainment.

# Indiana Pioneers Had To Survive Both The Illness And The Remedy

By DON REEDER  
INDIANAPOLIS (AP) — Know somebody who wants to stop stammering? Try smacking him in the face with a piece of liver. Got lumbago pains? Boil an old shoe and drink the residue.

The Indiana Historical Bureau reports these and similar home remedies were common among Indiana citizens of a century ago — and even more recently.

It is a noble tribute to the hardness of Hoosier pioneers that they survived not only their illnesses but their cures.

W. Edson Richmond and Elva Van Winkle, two Indiana University staff members, went searching for remedies that were a part of Indiana life 100 years ago. Here's the list they compiled:

It somebody with blue gums bites you, rub the bite with some black hen litter, and the biter will lose his teeth.

For a cut, bind on a poultice of fresh cow manure.

Asthma — Drink a tea made by boiling a hornet's nest.

Head cold — Take nine whiffs from a dirty sock.

Leg cramps — Tie some eel skin around the leg.

Croup — Rub the throat with skunk oil and take a dose of oil.

Inflamed finger joints — Catch a weasel and squeeze it to death.

Golter — Pass a dead person's hand over the throat.

Headache — Drink a stiff shot of water mixed with wood ashes.

Influenza — Drink hot milk laced with pepper.

Measles — Rub with sheep dung.

Rabies — Burn the bite for at least eight seconds with a red-hot iron.

Rheumatism — Rub the afflicted parts with the blood of a freshly killed rattlesnake.

Not all the cures were so disagreeable. Many ailments — including cholera, fever, lung fever and others — called for a liberal dose of whisky or gin.

That particular remedy undoubtedly went down easier than the hornets' nest tea.

Other proper prescriptions fell into the category of "spells" instead of medicine. Like these:

Bleeding — To stop bleeding, pronounce the Biblical verse Ezekiel 16:6 silently three times.

General diseases — Lay on the afflicted part a hair from the head of a man who has never seen his father.

Freggles — Remove them by washing in dew the first of May.

Leg pains — Wear a dime around the ankle on a string.

Corns — Put shaving soap in the shoes.

Chills — Step across a creek backwards.

Rheumatism — Carry a potato or a chestnut in the pocket.

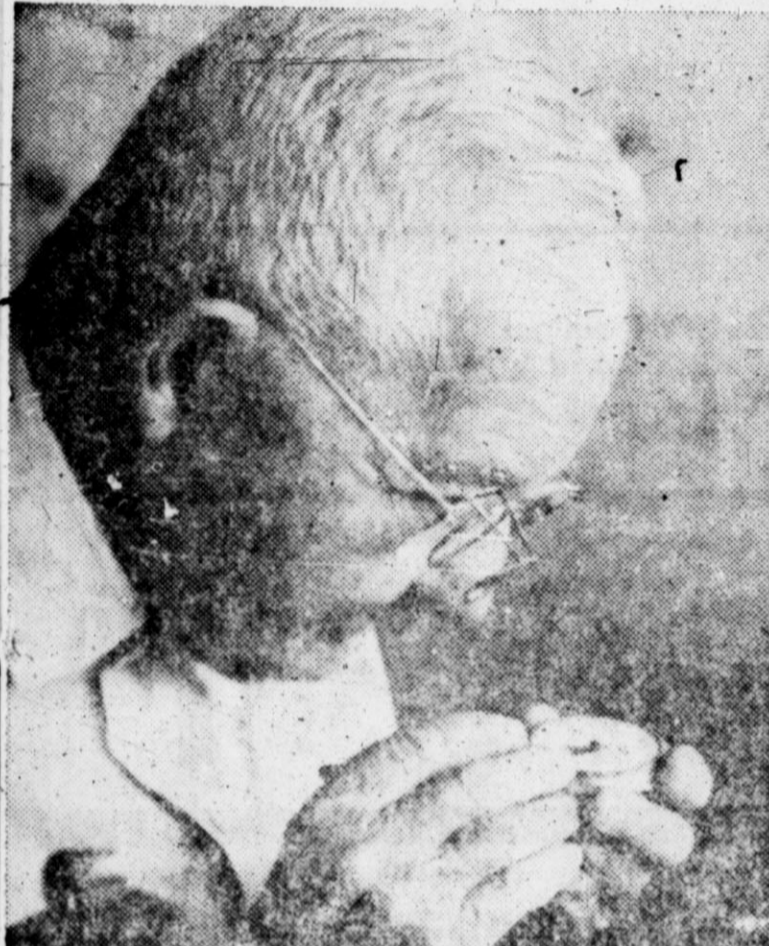

Toothache — To prevent toothaches, trim fingernails only on Fridays.

Warts — Rub the wart with a stolen dishrag and then hide the dishrag in a tree stump.

# One Welty Wins In Plainview GG

The Welty brothers of Hereford formed Hereford's team in the Tuesday night Golden Gloves bouts at Plainview. But they didn't fare too well, as two of the boys were knocked off their feet and the smallest of the trio had to uphold the family name.

Donnie Welty, a 75-pound bantam, won a decision over Gary Graham of Lockney in the Pee Wee division.

Brother Robert Welty took a first knock-out loss at the hands of Ross Bond of Canyon. Bond won the 147-pound high school fight in 1:11 of the first round.

And Johnny Welty lost to smooth Robert Viatile of Leveland in a 135-pound high school fight. Viatile earned a TKO in the second round.

Hereford coaches have eight fighters still battling for honors in the Plainview tourney, which will close Friday night.

Fighting are: Jeff Gomez, 163, high school; Richard Hodge, 145, open; R. C. Welty, 135, high school; Don Bomar, 151, high school; Donnie Welty; Glenn Nelson, 120, high school; Donny Lesly, 118, high school; and John Cordero, 123, open.

Michigan State has a new 18-hole golf course.

# Car Overtakes Sunday; 3 Hurt

A Hereford youngster was admitted to Deaf Smith County Hospital and two others were treated for minor injuries and released after a 1948 model automobile overturned in a ditch near the intersection of Highway 60 and Progressive Road Sunday afternoon.

Released Tuesday morning from the hospital was Larry Barela, 16, Hereford, a passenger of the car. He was admitted to the hospital after receiving a fracture of the upper right arm, lacerations of the chin and nose and injury to his left knee.

Treated for minor injuries in the emergency room of the hospital were Daniel Barela, 19, driver, and Gorgio Madrid, 23, Hereford.

Investigators, Hereford police officers said the Barela car, traveling south on Progressive Road, failed to stop at its intersection with Highway 60 and hit a ditch beside the highway.

The car overturned, officers said. The accident was reported at 3:40 a.m.

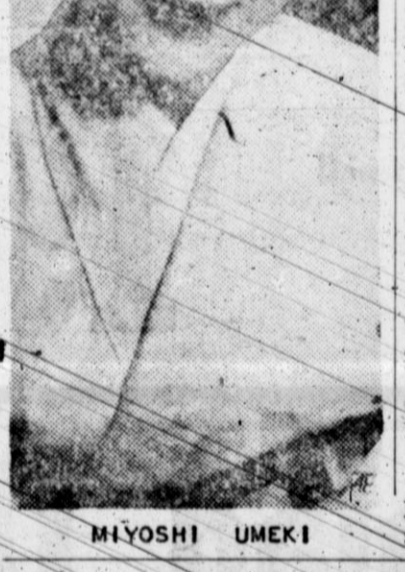

The driver was issued tickets for disregarding a stop sign and negligent collision by improper observation.

Occupants of the car were taken to the hospital by private car. No estimate of damage to the car was made by investigating officers.

STARRED IN HOLLYWOOD  
PITTSBURGH (AP) — National League hitters who were surprised with the pitching of Pirate rookie George Witt this season only had to look at his 1957 record for a rating. The 24-year-old native of Long Beach, Calif., hurled 29 straight scoreless innings for Hollywood last year. He had an 18-7 record and a 2.24 earned run mark. During one stretch he hurled 58 frames without allowing an earned run.

ROSE BOWL SPLIT  
PHILADELPHIA (AP) — Ivy League teams have a 2-2 record in Rose Bowl competition. Brown lost the first game to Washington State, 14-0, and in 1917 Penn lost by the same score to Oregon. Harvard scored 7-6 over Oregon in 1920 and Columbia turned in a major upset with a 7-0 victory over Stanford in 1934.

Thomas F. Keane has been Dartmouth's varsity golf coach since 1922.

**Bible Words for Today**

MARK 8:35 — "For whoever would save his life will lose it; and whoever loses his life for my sake and the gospel's will save it." (RSV)

No words of Jesus are harder for modern man to accept than these. Every individual instinctively shrinks from losing his life. The will to live is one of the strongest impulses in man. Suicide is abnormal.

Nevertheless no words of Jesus are truer or closer to the heart of Christianity than these. For this saying also speaks of the finding of life. By "life" Jesus means true happiness. This every healthy individual desires.

Jesus asserts that true happiness results from losing oneself in a cause and in a person. The greatest cause is the Kingdom of God; the greatest person is Jesus Christ. Therefore, the ultimate happiness of man lies in losing oneself in the service of the Kingdom and in devotion to Christ.

**By JIMMIE GILLENTE**  
 One of the cutest little column paragraphs I have run across in a long time centers around a group of officers who got a tip that a body had been buried near Hereford — and made a rush trip to inspect the grave and exhume the body. As the story goes, it turned out to be a neighbor's pet cat. The only trouble with the story is the fact that it did not happen at all. I checked with every law department, county, city and highway patrol, and they all agreed that it was a good story — but not one of them had ever heard anything about the deal.

A lot of rumors turn out that way. Some of them are so interesting that you wonder how anyone ever justifies that old saying about "truth is stranger than fiction". Take the present space age cativities for instance. They are pretty well running along the fiction lines of a generation past. They are talking about a human rocket passenger in 1959 — but guys like Charley Seed, Lowell Sharp, and W. B. Wilson sweated out the same ordeal with Buck Rogers 10 to 12 years ago. I doubt if many of us will ever live to see the day when the world actually catches up with Tom Swift, who dates even further back. However, I always want to protest when someone says that truth is stranger than fiction. It just doesn't pan out that way.

We have had several calls about the stop signs on Fourth and Fifth Streets, resulting from the City Commission action in making McKinley a through street. Since I live on McKinley, I take a rather dim view of the whole thing and am probably prejudiced in not wishing to see the street made into a speedway. However, I guess the traffic safety boys have it figured out — and I hope they are right. The triangle down on Park and McKinley, however, could easily present some in-

teresting problems. Meanwhile, I hope everyone took my advice and didn't let the "Little Woman" put their overcoats in one of those rummage sales. It got cold enough Tuesday night to convince even the hardened skeptics that I am reasonably fair on this weather predicting business. And still, don't let those overcoats get away. We will have at least one more cold snap, maybe two, before the rains come.

The call show this weekend is scheduled to be the "biggest and best" yet. Entries from surrounding counties are pouring in and we have a tremendous amount of interest here in Deaf Smith. The show opens Friday and runs through Saturday, and is expected to be a honey. Once again, the Rotarians deserve a big hand.

It will also be a big weekend for the March of Dimes. They will sponsor the wrestling matches Saturday night, with proceeds benefitting the drive. They also have a lot of interest. Mrs. Roy Grubbs says one port Sunday, proceeds of which will also benefit MOD.

Mrs. Roy Grubbs says one person heard the tornado siren for sure, and that was her small baby. He not only woke up, but got so frightened that it took her an hour or so to get him back to sleep. My wife also took me to task on the statement that the sirens need to be louder.

"It's just like a lot of other things," she said. "For some reason, you probably didn't want to hear it — and I don't know anybody who hears less than you, when he doesn't want to hear something."

All in all, I would rather think that the siren was just coming in strong on McKinley street, where these two live. It was probably bouncing back and forth and echoing off those stop

signs. Honest, I never did hear even one tiny groan.

Progress leaves a lot of fatalities in its wake. I notice where they recently perfected a method of extracting a tasteless cooking oil from rice. This is good for the rice growers, but it could be tough on the cotton and peanut growers, who are already considered to be having serious marketing difficulties. It would be a trick of fate if rice should place them in the same position they put the dairyman and the bird man with oleo and newfangled, shortening products.

The January Reader's Digest has an interesting article on school construction. I read it carefully, and did not find too many places where Hereford Schools failed to qualify in the overall economy plans. The best suggestion they had, in my opinion, was an advisory board composed of contractors, builders and lumbermen to help the trustees and administrators check and double-check proposed construction. It sounded like an excellent idea, and was cited as the first step toward keeping school construction safe, adequate and at reasonable cost figures.

Here we have used citizen's committees, but few of the citizens actually knew much about needs, construction costs and building details. They also suggested starting construction well in advance in order to take advantage of off seasons, whereas we usually wait until we have students overflowing the schools and into churches before we decide to do any more building.

Congratulations to Don Zimmerman on his selection as Citizen of the Year. Over a long period of time, Don has been contributing to the community through service in various connections. He is one old boy who really deserves the plaque.

Mayor Roe Bartle of Kansas City also gave the Presbyterians a plug or two which was well deserved. Many people classify Bartle as the outstanding speaker of all time, and certainly he was one of the best to ever appear in Hereford. He even made Mike Baird an honorary citizen which, to me, was a sort of coincidence.

Mike literally grew up in the saddle and comes about as near to being a bonafide cowboy as

anybody I know. He went to Childress after Mr. Bartle Tuesday, when plane schedules went haywire, and all the Mayor could talk about was Mike's ability as an automobile driver. He even said that Mike was as good as his own chauffeur, although not quite so dark complected. It is funny, though, for an old cowboy to become famed as an auto driver. Sometimes, I have the feeling that the automobile is really here to stay.

Woman to friend: "George and I like the same things, only he wants to save it all I like to spend it."

Wyche HD Club Has Program On Women In Religious Work

The Wyche Home Demonstration Club met last Thursday in the home of Mrs. W. P. Axe for a program on Women In Religious Work. Presenting the program were Mrs. Ramey Elliston and Mrs. J. V. Pickens. Mrs. Elliston, who spoke on the Women of the Bible, traced outstanding work of women throughout the Bible. Mrs. Pickens spoke on A Woman's Part in Religious Work and stated that in Bible days woman's place was mainly that of providing physical comfort but today women help carry out almost every phase of religious work. Visitors present at the meeting were Mrs. Nolan Jones and Mrs. Norman Hodges. Members attending were Mesdames H. L. Ward, Ira Ott, Ramey Elliston, J. V. Pickens, C. R. Dameron, E. C. of the cotton industry and all have worked to improve their industry. Since 1946 the average lint yield per harvested acre has been increased from 134 pounds to the 1958 record yield of 387 pounds. Last year, county agents in 204 Texas counties assisted producers with various phases of the Seven-step program. Elliott says that special emphasis was placed on the use of cotton burs for soil improvement and also to reduce gin fire hazards. Burs were spread, he says on 9,735 farms in 129 counties. A few years ago most of the burs were burned as waste. Cotton followed phosphated legumes on 20,326 farms in 151 counties; barnyard manure was used on 7,685 farms in 151 counties to increase yields and defoliants or desiccants were used on 37,885 farms in 162 counties as an aid to mechanical harvesting. In posting the \$64 million plus savings in labor, cotton producers used 26,662 stripper harvesters and 1,831 spindle pickers in 133 and 78 counties respectively. The weed and grass control savings were made through the use of 44,496 rotary hoe equipped tractors in 157 counties and the use of spot treatment for Johnsongrass control in 148 counties. Lateral oiling with post emergence chemicals for weed control was used in 47 counties. Elliott gives full credit to the Seven-Step Cotton Committees and the county agricultural agents for the achievement record made under the program. The economy of the entire state has materially profited from the results of this cooperative effort, Elliott said.

7-Step Program Aids Cotton Crop

College Station — Texas cot- ton producers saved an estimat- ed \$50,000,000 in labor costs by harvesting approximately 2,000,- 000 bales by mechanical means during 1958. Too, reports Fred C. Elliott, extension cotton spe- cialist, they saved another \$14 million plus through the use of machines and chemicals for controlling grass and weeds in their cotton fields.

While these savings were be- ing made, Elliott adds, they al- so set an all-time high of 387 pounds of lint an acre. The spe- cialist credits the Seven-Step Cotton Program, initiated 13- years ago by the Texas Agri- cultural Extension Service, as a major factor in the progress made by the producers of the State's most important crop.

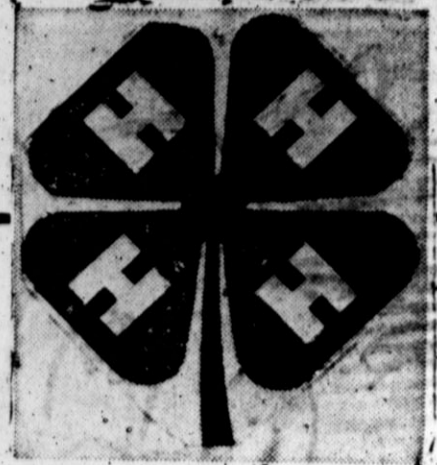

The program, says Elliott, brought together on the county and state basis committees representing every segment

204 Texas counties assisted producers with various phases of the Seven-step program. Elliott says that special emphasis was placed on the use of cotton burs for soil improvement and also to reduce gin fire hazards. Burs were spread, he says on 9,735 farms in 129 counties. A few years ago most of the burs were burned as waste. Cotton followed phosphated legumes on 20,326 farms in 151 counties; barnyard manure was used on 7,685 farms in 151 counties to increase yields and defoliants or desiccants were used on 37,885 farms in 162 counties as an aid to mechanical harvesting. In posting the \$64 million plus savings in labor, cotton producers used 26,662 stripper harvesters and 1,831 spindle pickers in 133 and 78 counties respectively. The weed and grass control savings were made through the use of 44,496 rotary hoe equipped tractors in 157 counties and the use of spot treatment for Johnsongrass control in 148 counties. Lateral oiling with post emergence chemicals for weed control was used in 47 counties. Elliott gives full credit to the Seven-Step Cotton Committees and the county agricultural agents for the achievement record made under the program. The economy of the entire state has materially profited from the results of this cooperative effort, Elliott said.

## Landscape, Windbreak Programs Next Month

By ARGES DRAPER

The Landscaping and Windbreak programs have been set for the middle of February. Those of you who are interested in attending should call the office so we can invite you when we are sure about the dates.

This will be a meeting explaining the planning of windbreaks and the trees recommended and also landscaping with shrubs that are recommended for this area. We are hoping this will be good and will answer the needs of a lot of families in the area.

Those on the program will be Howard Armstrong, Don Newman and J. W. Thomas. Too, there are still order blanks for windbreak trees.

There are some new bulletins in the office which you may want. We have plenty of bulletins on "Committees" and "8 Steps in Making and Carrying a Motion." The newest bulletin is "Rabbit Raising" by Edwin H. Cooper, extension specialist in Wildlife Conservation. This includes selecting a breed, selecting foundation stocks, housing, care and management, feeding and preparing for the market.

The bulletin is based largely upon research findings of Robert B. Casady, superintendent of the United States Rabbit Experiment Station, U. S. Department of Agriculture, Fontana, Calif. (Continued on Page 2)

## Donny Lesley Wins In Borger Golden Gloves

Only one of three Hereford boxers managed to win final matches in Borger's annual Golden Gloves Saturday night.

Donny Lesley, 118-pound high school brawler, won a decision over tough Joseph Johanson of Borger in one of the featured events of the evening.

R. C. Welty, who fights in the 135-pound high school class, suffered a TKO in 1:39 of the third round, going down before the battering fists of Charles Coffee of Pampa.

Richard Hodge lost a decision in the 147-pound open class to classy Gary Wills of Pampa, one of the finest boxers in the area.

Hereford's boxing team is participating in the four-day Plainview fist-tourney this week. The bouts started Tuesday and will continue through Friday.

SLATED TO APPEAR in the 1958-59 high school yearbook, The Roundup, are Bill Pander and Linda Hair, chosen "Most Intellectual" and Emily Ann Pavlick and Joe Reinauer, selected as "Most Versatile." Shown with "Koobraey" ("yearbook" spelled in reverse), they were presented in a special assembly program at the high school recently. (Staff Photo)

## AUSTIN HIGHLIGHTS

### Legislature Opening A Suspenseful Day

By VERN SANFORD

AUSTIN — Some cheered and some wept, but none will soon forget the eventful, suspenseful opening day of the House of Representatives of the 56th Legislature.

Waggoner Carr became the third man in recent history to win a second term as Speaker of the House; and Joe Burkett became the only one in many years to lose by so close a vote — 79 to 71.

Burkett and Carr had been in a hard-fought contest for a year and a half. Burkett, from Kerrville in the Hill country, is a staunch conservative. Carr, from Lubbock in the South Plains, had more liberal support.

When the day came, every representative was present, and the floor and galleries were jammed with spectators. Secretary of State Zollie Stradley served as temporary presiding officer. An elaborate voting procedure was agreed upon to safeguard secrecy and assure fairness.

Representatives filed to the front of the chamber, one by one, had their folded ballots initiated by the clerk and then placed them personally in the ballot box. Six watchers, three representing each candidate, stood by.

The ballot box was opened and results called out, one by one. Only sound in the large chamber was the scratching of the pens of many score keepers, and the occasional fidgeting or gasping as the lead seceded between the candidates.

A cheer went up as Carr received his victory — assuring 76th vote. A round of hand shaking, back slapping and congratulating began. Following the final count, a procession composed of Carr's family and supporters escorted the Lubbock representative to the rostrum to take the oath of office.

After the opening dust had settled, Legislators turned to their everyday concerns.

Most immediate and pressing problem was finding money to operate the Legislature. Since the state's main monetary cupboard, the general revenue fund, was bare (worse still, in debt), there wasn't so much as a nickel on hand to pay salaries of the lawmakers and their helpers, nor even for stamps, stationery, phone calls and travel. A bill was offered to appropriate \$2,300,000 that had accumulated in two special funds.

Several plans were being talked about to solve the even more vexatious long-term problem of overall budget balancing. To do so will involve finding money to pay off an expected general fund deficit of \$65,000,000 plus some \$130,000,000 in new money to meet expected expenses for 1960-61. Only alternative would be numerous and painful economies.

Generally, there seem to be two schools of thought developing on taxation: (1) those who hope to avoid a new tax by upping many present levies, such as selective sales taxes, removing several exemptions and re-shuffling funds here and there and (2) those who say the present tax blanket can't be stretched any further and that "pot shot, patch work" taxation should be replaced by an overall plan to distribute the increasing cost of government among more people.

Other items for the record of what promises to be an historic Legislature: Senator George Parkhouse of Dallas is new president pro tempore of the Senate, and as such, third in line to the governor. An outdoor advertising executive, Parkhouse is beginning his third Senate term.

No free overtime, resolved Senators in one of their first official acts, a resolution to quit on the dot May 12 when the 120-day pay period runs out. House members cheered the announcement.

A famous name returned to public life as Martin Dies Jr. of Lufkin took the oath as senator. Former Congressman Martin Dies Sr., long identified with the Dies Un-American Activities Investigating Committee, came to see his son sworn in.

"Baby of the house" is Rep. Jack Connell Jr. of Wichita Falls, youngest person ever to sit in the House. Connell was 21 years old plus 14 days on general election day.

A football star when he's not a lawmaker is Yale Lary, freshman representative from Fort Worth. Lary, a defensive back for the Detroit Lions pro team, was a college star for Texas A&M.

One governor's son succeeded another as W. P. Hobby Jr. was named parliamentarian of the Senate, a post held last session by Dan Moody Jr. An early crisis was averted when the House sergeant-at-arms rushed a spittoon to the desk of snuff-dipping Rep. Jerry Sadler of Perella. Spittoons, once a standard accessory, had gotten lost in the chamber's re-vamping.

Folks with money spending ideas had best be armed with money-finding ideas when they come to the Legislature this year. This warning was issued by Sen. William S. Fly of Victoria in an Austin address.

Third house has its own ceremonial this year as, for the first time, lobbyists are required to register under the new law. From the length and variety of the list, there's a lobbyist for practically everything and everybody — teachers, farmers, businessmen, policemen, labor unions, industries and even

## REP. WALTER ROGERS WRITES: Inflation Is Gaining Foothold In Nation; Must Be Checked

To the people of the 18th District:

Communism cannot conquer this nation. Inflation can.

The preservation of a strong economy in any country requires a constant vigilance on the part of the people against inflation. In our time we have seen the ravages of this economic disease in many countries throughout the world. It is now eating at the vitals of many nations.

It has gained a foothold in this country, and unless it is checked, it could become the economic cancer that could disastrously soften us. Thus, we could become fair game for the Communists. We in our time have watched a number of countries that permitted inflation to go unchecked.

In every instance an economic revolution was necessary, and the result was a change in the form of government. Under the circumstances, we should at least recognize the fact that, unless we are willing to pay the price to check inflation, we, too, are running the risk of losing our form of government as we have known it. This is not intended to be an alarmist statement, but it is simply for the purpose of facing up to the facts.

We heard our own President, in his recent State of the Union Message, speak of a balanced federal budget. This remark resulted in extended applause, as it should have.

Everyone is for a balanced budget, but somehow it never seems to get balanced. The question is, "what is going to be done about it?" We look at the estimates and figures of the Bureau of the Budget for the past several years and we see a claim that the budget for 1956 produced a surplus of 1.6 billion dollars; that 1957 actually produced a surplus of 1.6 billion dollars.

It was estimated in that report that the 1958 fiscal operations would result in a deficit of 400 million dollars, and that 1959 would result in a surplus of 500 million dollars. Adding all of these figures and subtracting the deficits from the surplus claimed by the Administration, we find that we should have three billion 300 million dollars in extra cash.

Yet, in 1958 the Administration came to the Congress and said we have no money. We must have additional authority to borrow money. At that time the debt ceiling was 275 billion dollars. The Congress, in response to the pleas of the Administration, authorized a temporary increase of the national debt to 288 billion dollars until June 30, 1959, and a permanent increase thereafter to the sum of 283 billion dollars. Now, according to one set of Administration figures, the country should be three billion 300 million dollars in the black on its operations since 1955; yet, by another set of figures it is necessary for the federal government to have borrowing authority of an additional 13 billion dollars until June 30, 1959, in order to meet its financial requirements. I have been unable to find out what happened to the 3.3 billion dollar surplus.

During this period of time between 1955 and the time that the authority to increase the public debt was allowed, we find that the American taxpayer was required to pay the sum of one billion 429 million dollars in additional interest charges for the same amount of money. The interest charges for the fiscal year 1955 amounted to six billion 438 million dollars. The interest charges for 1958, according to the Budget Bureau figures, were seven billion 867 million dollars.

This means that in 1955 the taxpayers were paying approximately 6 1/2 billions of dollars in interest each year for the use of approximately 275 billion dollars. Less than three years later, the American taxpayer was paying almost eight billion dollars for this same amount of money, and this will increase next year. It occurred to me that if these folks are really serious about balancing the budget, the increased amount of interest that the taxpayers had to pay might make the difference between a balanced and unbalanced budget.

Some people will argue that (Continued on Page 2)

of each session. Rep. Obie Jones of Austin said House secretaries should receive \$12 a day because the \$10-a-day figure was embarrassing to House secretaries when they met their Senate counterparts during coffee breaks. Rep. R. H. Cory of Victoria pointed out that the state couldn't afford the increase. "Maybe," he said, "we'll have to pay them out of our own pockets," and he pointed out that not all Senate secretaries received \$14 — that some of them were paid as low as \$7

per day. rates operate to control inflationary trends. This may have been true a number of years ago, but the reverse is true today. Such a policy under our present economy is fuel for inflationary trends.

The increase in the cost of money in Wall Street is reflected very quickly in the price of a product that you and I purchase in our daily living. This, of course, constitutes an increase in the cost of living index. The increase in the cost of living index, in turn, triggers the escalator provisions in wage contracts tied to the cost of living index. This increase in the wage requirements is soon reflected in the money market and the inflationary spiral continues onward and upward.

The people who get hurt first are the old-age pensioners and those people who are living on small, fixed incomes, and who cannot absorb the increase in the cost of living. The others are those on small, earned incomes who do not operate under a cost of living escalator cause, and who are also unable to absorb the impact of the cost of living increase.

This illustration could go on and on until the entire government blows up; which is exactly what will happen if the inflation is not checked.

Of course, this does not mean that easy money and the issuance of more money by the government is the answer to inflation. It is not. It is one of the causes. The control of the medium of exchange of any country

must be geared to the economy of that country. This requires the constant maintenance of a very delicate balance.

# Mystery Fire Destroys Trailer House Sunday

By MRS. R. L. PINNELL

Many residents were awakened in the early morning hours Sunday to see a deep red sky filled with billowing smoke clouds from the trailer home of the Chester Kidders in east Adrian. The night staff at the Phillips service station called in the alarm to the Vega Fire Department who immediately responded.

The trailer was a complete loss and the John Proctor home which joins them to the north was in danger for a time. The wind was comparatively mild from the north which greatly aided in holding down the fire.

The Kidders family had been away from home on an extended visit in Dallas since Nov. 8. All gas and lights had been turned off and the cause of the

blaze is still a mystery.

Both circles of the W. S. C. S. met this week on Wednesday. The day circle met in the Methodist parsonage Wednesday afternoon. The program was on Hawaii and Alaska and was led by Mrs. Leland Burns. Mrs. Lorin Creitz told a story, Mrs. E. N. Jacobson compared the problems of Hawaii and Alaska and Mrs. Ernest Frank showed slides made by the Franks this summer while touring the northwest country. Mrs. Johnnie Williams closed the program with the devotional, "In My Hand."

Attending were Mesdames Vic Lemke, Anna Witt, Hazel Chilton, Joe Cullender, Bill Leslie, Lorin Creitz, John Skaggs, Nellye Davis, Ernest Frank, Leland Burns, Johnnie Williams, E. N. Jacobson and N. L. Ja-

cobson.

The night circle met in the country home of Mrs. Jim Cavin. Mrs. Johnnie Williams reviewed the book, "Understanding Other Cultures".

Present for the evening meeting were Mesdames Wilbur Harris, Alfred Jobe, Robert Jacobson, A. P. Jones, Hazel Chilton, E. L. Pinnell, Johnnie Williams and the hostess, Mrs. Cavin.

Mr. and Mrs. Vic Lemke attended a birthday dinner Wednesday night for their granddaughter, Mary Ella Stinnett, in the family home of her parents, Mr. and Mrs. D. R. Stinnett, at Channing.

The Mator Basketball teams met Channing on their home court Friday evening. The final score for the girls' game was Adrian, 58, Channing, 53. High pointers were Betty Cavitt with 26 points and Wanda Pinnell with 22. Karen Marple of Channing scored 26 points.

The boys' game ended with the final score of Adrian 76, Channing, 59.

## 'Whiteface Whims'

We'll begin with a box, and the plural is boxes.

But the plural of ox should be oxen, not oxes.

Then one fowl is a goose, but two are called geese.

Yet the plural of moose would never be meese.

You may find a lone mouse or a whole set of mice.

But the plural of house is houses, not hices.

If the plural of man is always called men.

Why shouldn't the plural of pan be called pen?

If I speak of a foot and you show me your feet.

And I give you a boot — would a pair be called beet?

If one is a tooth and a whole set are teeth.

Why should not the plural of booth be called beeth?

The one may be that and three would be those.

Yet hat in the plural would never be hose.

And the plural of cat is cats and not cose.

We speak of a brother, and also of brethren.

But tho' we say mother, we never say methren.

Then the masculine pronouns are he, his and him.

## An Educational EDITORIAL

Students and Faculty: This is an editorial. Perhaps that is rather a rude beginning, but it is a very important statement.

In the past week or so, I have been reading up on the "art of writing an editorial." Also, I have read a few written by a friend of mine. Through him, I have discovered a very important fact: a nose averages from two to two and one-fourth inches in length. So you see, editorials can be very educational.

Because this is an editorial, I am privileged to state my opinions and questions.

Take music for example: Do you enjoy Elvis Presley as much, or more, than when he first became a star? What about Ricky Nelson? How do they compare in your book? Personally, I enjoy both very much, but I look for another singer to "be discovered" in the very near future. And when he is, there'll be war in camp for Germany, whichever the case may be.

Speaking of Germany, I read where the Reds are angry with Uncle Sam. They say Elvis is causing a great commotion among the young Frautins. But what else can Uncle Sam do? Show favoritism and bring Elvis back to the U. S.? Then, every other mother would want her boy at home . . . where he belongs.

I am afraid this is the end of our little session for this week. However, I do have a bit of closing information for you.

1. Next week, Wednesday will follow Tuesday.

2. The Hereford Whiteface will be out again the 12th of February.

3. Remember the "Golden Rule."

# About Your HEALTH

A precedent-setting venture in chronic disease management has been launched by the State Department of Health. Immediate beneficiaries are 12,000 patients housed in Texas' 587 licensed nursing and convalescent care homes.

Built around nutritional and nursing needs of oldsters, the program promises to be the biggest boon to their health and comfort since passage of the nursing home licensure law in 1953. It works like this:

On request of county health officers and local health department directors, a nutritionist, a chronic disease nurse and two sanitarians instruct local health department staffs and nursing home operators in proper care of elder citizens, many of them disabled by chronic illness to the point of being bedfast.

A physio-therapist will be added to the team later. Many people are lying helplessly in bed, dependent on others for every need. With help they might learn to feed and bathe themselves—making the difference between optimism and despondency.

The program is purely educational, intended solely to help local communities meet their responsibilities toward aged and infirm citizens.

Half the course is spent in explaining and demonstrating to local health department staff members what their tasks are regarding nursing homes in the county, and in detailing how those tasks can be accomplished.

Standards which homes must meet before being licensed are carefully discussed. Nurses are taught how to handle chronic disease patients. Sanitarians are encouraged to make frequent inspections, and to impress on home operators the importance of scrupulous personal and premise cleanliness and improved nursing care.

The object of such instruction is to help local health department personnel become proficient in assisting and advising

nursing home operators in providing higher standards of care. Operators come in for their share of attention in a section of the course designed to meet daily problems they encounter. Discussion subjects, selected by operators themselves, range from records the law requires to be kept to special diets.

As an adjunct service, the Department provides food purchasing guides showing the amount and type of food needed for aged men and women, and evaluation guides for weekly menus.

## Long Time Ago

45 Years Ago

Mrs. J. E. Ferguson was hostess to the Bay View Club on last Thursday afternoon, having as special guests Mrs. D. A. Shirley of Canyon and Mrs. E. M. Haile of Chicago. Mrs. Shirley was a member of this club while living in Hereford and her attendance at this meeting was a mutual pleasure. Other guests were Mesdames A. W. Gregg, T. E. Shirley, A. L. Gibson and P. W. Price. The club interest has been sustained this year and the next book in the course, "How to Look at Pictures," promise valuable information to the amateur art lover. After a most enjoyable social hour, an appetizing salad course was served.

25 Years Ago

In a nip and tuck battle, at the high school gym Tuesday evening, the Whiteface eagles returned to their winning ways by eking out a 31 to 29 victory over the Canyon Eagles.

It was an exciting affair in the last half when the Eagles all but won after erasing a six-point deficit that existed at half-time. The locals, however, managed to be two points ahead when the final gun sounded.

Walter Seed and J. D. Clayton led in the scoring with 10 points each, although Seed went out in the last half on fouls. Elliston, Canyon's center, led his team in tallying, with eight markers. He also went out on fouls. Hereford led 22 to 16 at half-time.

The girls did not fare so well, bowing to the Canyon sextette, 25 to 22, after leading 13 to 12, at the half.

## OFF THE Shelf

By H. A. TUCK  
Elick Moll uses a first-person narrative to tell the story of Seidman and Son.

Meeting a writer in New York City's Central Park, Morris Seidman pours out the story of his success and his conflict with his son. Seidman is a wholesale dress manufacturer, with a devoted group of employees.

When son Harold returns from a prison camp in North Korea, Seidman's happy world begins

to fall in around his ears. He suspects his son has fathered a son in Korea, that he is full of communistic ideas and that he will wreck the dress factory.

Mrs. Seidman is equally worried, mostly because her son no longer wants warm milk and definitely doesn't want to be tucked into bed. Daughter Jenny, still in high school, provides more worries with her advanced ideas of sex.

Harold closets himself away and writes a book, which Morris reluctantly decides to have published. The stories are morbid, with unhappy endings. Harold even goes so far as to move to a hotel, take a job in an all-night garage and then leave a prison camp in North Korea, New York for California.

tion to his son and to his business.

Eventually, Harold becomes more reasonable, although his on-and-off romance with one of the factory's models provides some rocky moments.

Moll has written a basically happy book, with some delightful interludes of gaily and insight into the dress-making business. The characters are realistic, although not the type usually found west of Chicago. The motives which provoke the characters are elemental and easily understood.

Altogether, Elick Moll's Seidman and Son will give the reader a few pleasant hours, with a minimum of brain-stretching required.

Sure, styling is important in a new car. You expect a new car to be sleek and smart — but not at the expense of comfort. Yet in trying to design a car as low and modern looking as the Swept-Wing Dodge, some '59 cars have practically designed out the people. Not Dodge. It's designed around you. It's easier to get into (no protruding door posts), easier to get out (no high door sills to trip over), more comfortable to sit in (there's room to spare). All this and Swivel Seats, too!

## The Man who Appreciates the Finest

BUYS HIS WIFE GAS APPLIANCES!

Elegance in one word... Chinchilla! The man who understands the language of quality is the kind of man who wants his wife to have a new built-in GAS Range. Like chinchilla, it bespeaks quality at a glance! Beautiful finishes and styles fit the decor of the most fashionable kitchen. But the real language of quality is a language of results! A modern built-in Gas Range is so accurate as to add slide-rule precision to the art of fine cookery. Completely automatic, it takes over the routine chore of pot-watching. It places complete control in the hands of the cook, following her instructions to the letter. Yes, in every way (economy included), GAS gives you more. And where the finest is truly appreciated... GAS belongs.

## My Plight

Could it be the accident of birth that 'caved-in' her world? Does God discriminate between His people? Could it be that her home located 'across-the-track' determines her plight??? An empty bowl, sure, but a compassionate heart. Almost despondent that's what she is. If you are one of those who has plenty and haven't yet given... then, maybe you are partially responsible for the situation we find here. God may take from your store-house the 'just' amount. He said, *inasmuch as you have done it to the least of one of these little ones, so have you done it to me.* Her plight may be our responsibility. May we see that she has the opportunity to attend church regularly for we are, our brother's keeper.

## William D. Hall Slated To Hold Services Here

Prof. William D. Hall of Brite College of the Bible, the graduate seminary of Texas Christian University in Fort Worth, will be the guest leader of a Missions Institute to be held at First Christian Church, Jan. 23, 24 and 25.

Hall was a Missionary to India and later director of Missionary Education for the Christian Churches (Disciples of Christ) of the United States and Canada. He is currently serving as professor of Missions in the Seminary of Texas Christian University.

Hall will speak at a Family Night Dinner Friday at 7 p.m. in the Fellowship Hall of First Christian Church. He will lead sessions for children and youth on Saturday morning and evening.

He will occupy the pulpit of First Christian Church at the morning worship service at 10:50 a.m. Jan. 25. His final appearance here will be at the Sunday evening worship service, which begins at 7 p.m.

Hall is in great demand as a speaker in Christian Churches throughout the southwest and is a frequent speaker at interdenominational gatherings.

Those interested in attending the services are invited.

deep in your heart: You must come to God through Christ, and believe in God in and by Christ; for until you come to God in this way, you have no saving faith, no Scriptural hope. But if once you are brought to this state of trust in the Lord Jesus, whatever you may have been, or whatever you may have done in times past, God's promises are made to you and shall be fulfilled in you, for in Christ these are yea and amen.

A most cordial welcome to you.

**OUR NEW YEAR'S RESOLUTION TO YOU**

Happy New Year to everyone in Hereford from all of us at the Telephone Company.

Since this is the season for resolutions, I thought you might want to know a little bit more about a resolution that we try to follow 365 days a year in providing telephone service to you and your neighbors.

Here it is—

**WE DEFINE OUR OBJECTIVES**

"Our objective is to furnish the best possible telephone service at reasonable cost—a cost consistent with financial safety and fair treatment of employees.

"Service ranks above everything else in this policy. And the only good service is one that is continually improving. To furnish this service we need the best people, the best equipment, the best methods, and the best management we can develop.

"Reasonable cost has been defined as one that produces an ever-growing public demand. Our equipment, training, and methods would net us nothing if the cost of service became so high that people would not buy it.

"Financial safety should not be endangered by setting the price of service too low. In the long run, a price that provides profit enough to undertake new research and development results in better, cheaper service to the public.

"Fair treatment of employees means good pay, good working conditions, reasonable job security, and opportunity for advancement based on merit. It is people—employees—who are the most important element in the success of any business.

**WE ACCEPT THESE RESPONSIBILITIES**

"TO THE EMPLOYEES... provide machines, methods, equipment, direction, leadership, job training, incentives to progress, selection for promotion.

"TO THE PUBLIC... more and better service at a reasonable cost. Contributions to public welfare and national defense.

"TO THE OWNERS... run business in a sound, profitable manner.

**LOOKING AHEAD**

"Progress has long been the keynote of the telephone business. And, if business forecasters are anywhere near correct, the next 20 years will bring more growth and development than we have ever seen before.

"The future can be faced confidently with a policy of equal consideration for owners, employees, and the public." That's probably the longest resolution you've ever heard about, but it takes a lot of effort to give you the best in telephone service.

Call by number. It's twice as fast.
