Phillips Batters Hereford's Hopes Of Upset Win, 65-0

Led by aggressive full back Gary Bullard, the Phillips Blackhaws put a sad ending to Hereford Whitefaces' winless season by downing the Herd 65-0 at Whiteface Field Friday night.

Seemingly moving the ball whenever they wanted, the powerful Hawks killed about 2,000 spectators even more than the near freezing weather did.

Posting a 27-0 score in the first half, Phillips ran up the score even heavier in the second half, using reserves and starters throughout most of the game.

ended the season on the bottom berth in district play and posted the worst season record in modern football history at Hereford.

The Whitefaces handled the leather during much of the game, but were unable to cope with the long runs and punt returns by the strong visitors.

In a game played at the same time in Littlefield, the Leveland Lobos won their bid to represent District 1-AAA in state playoffs by stopping Littlefield 30-15. The two teams are co-champions of the district and both ended the season 8-2 records. Leveland will play Andrews in the bi-district game next week.

Dumas and Phillips earned 2-2 records in the district. Hereford has a 0-4.

Phillips halfback Tommy Carter drew first blood with 7:29 left in the first quarter by running a handoff for one yard and the Blackhaws' first touchdown. Hereford guard Edwin Thomas plowed through the Phillips line to

The current census will yield information on the number and size of farms, acreage and harvest of crops, livestock production and inventories, selected farm facilities and equipment and selected farm expenditures. All information about individuals and their farm operations furnished in the census is held in absolute confidence under Federal Law. The information on an individual report cannot be furnished to any one other than sworn census employees and thus cannot be used for investigation, taxation or regulation. Mrs. McDowell reviewed the book "Mrs. Arris Goes to Paris" by Paul Gallico, a warm and loving story of a London char-woman whose feminine desire for a beautiful dress took her to Paris. How her presence

affected the lives of those with whom she came in contact, and how she came to realize in the end, that she had not bought a dress, but an experience that would last always. Never again would she feel lonely and unwanted. A city and its people had bestowed on her a priceless memory and a treasure of understanding and friendship and humanity.

Special guests attending the tea were Mesdames Charles Trautmann, Joe Smith, Robert Veigel, Bill Hampton, Stanley Sigman, Jack Kassahn, O. X. Golden, Fred Cunningham, Reuben Knox, Paul Lyons, Eugene Noel, Jack Rogers and Oscar Easley.

How Can I?

By Anne Ashley

Q. How can I mend some holes in the bottom of an aluminum pot?

A. Buy some copper or aluminum rivets, 1/16-inch in diameter and 1/8-inch long. Enlarge the hole so you can force the rivet through from the inside, then rest the head of the rivet on some hard metal surface, and tap the other end with a hammer until it flattens out and tightens up in the hole.

Q. Can you suggest a way to prevent a cigarette lighter from constantly slipping out of a blouse or skirt pocket?

A. Try wrapping a rubber band around it a few times, and this should provide the necessary friction to prevent its slipping out easily.

Q. How can I remove ink stains from a carpet?

A. By rubbing a paste of cornmeal and sweet milk on the spot, allowing to soak for a full day, then sweeping off.

Little's of Hereford

By JIMMIE GILLENLINE to looking over magazines in a nearby rack. The general opinion was that maybe the pub-

lishers are going a little bit too far these days, probably in an effort to hold circulation against the pull of TV. Anyway, when a bunch of roughnecks get fed up, it is time to take a second look. I realize that you cannot legislate morals, but some of those pictures and catch lines are getting pretty rough — or the stories must be a great disappointment.

One time the Ministerial Alliance broached this subject and I did not help them much. In fact a few of them are still mad at me. Probably I was wrong . . . again. Anyway, it will take an enraged citizenship across the nation to help the situation and, if things keep on just that way, it might be like Elvis Presley's wiggling — and make the questionable magazines all the more popular. Meanwhile, the U. S. Army slowed Elvis down, and the comic book publishers got together and put in their own censorship board, which helped the situation more than anything else. Like I said, when you get the roughnecks aroused something usually develops, good or bad.

J. O. Miller was nice enough to give me a bottle of home-squeezed carrot juice, fresh from genuine Hereford carrots. He has a regular little mill and turns the stuff out by the gallon. I don't feel a lot better, but I haven't yet screwed up my courage enough to try the stuff, so you can't blame the carrot

juice. I am trying to sell the kids on giving it whirl first.

I notice where the big city restaurants claim they can feed people almost as cheap as the people can eat at home. They estimate modern over-all restaurant cost at around \$2,000 per seat, which is a pretty fair investment, especially for a big layout.

Luther Lesly says that Bill McCarver can handle one of those animal callers to the point where it is unbelievable. He says he once saw Bill call a bobcat within 15 yards of an automobile and that an owl actually landed on top of the car. He also said that rattlesnakes would respond to the calls, which sound much like the wail of a dying rabbit. This was the point where Jack Brown, Robert Veigel and I decided to check out. Not one of us seemed to care much for snakes.

We did decide, however, that it would be a nice way to hunt. Just sit in the car and wait until the game comes to you, instead of traipsing all over the country. It's sort of like having one of those electric carts to make it around the golf course. A real nice way to get your exercise.

For an automobile man, I guess Charlie Seeds is the best

airplane pilot with whom I have ever ridden. Real good on navigation, too.

Charley Morris and Abe Martin have said for a long time that they get customers from all over the country. Even they were surprised, however, when the mail arrived the other morning and contained a \$5.00 return check signed "Fidel Castro, Route 1, Cuba". It was marked "Insufficient Funds - No Account", which leads Charley to believe that Mr. Castro no doubt used the wrong bank. However, Abe says they called the other bank, and Mr. Castro has no bank account in this town. He figures maybe if he writes Washington they will pay the check out of the next U. S. loan they are going to let Cuba erect to Cuba, because they might pay him in pesos. At this point in the game, Charley says pesos might not be so bad at that.

Bill Decker says he once got a check drawn on the "West Bank of the Mississippi".

Folks who come in on Highway 385 north were a bit surprised one day this week when they discovered a dead coon and a coyote along the road. Either the animal population is getting careless, or someone was really making knots along

Everett-Houston Vows Exchanged

Mrs. Theodore G. Houston, formerly Miss Judith Ann Everett
(Sperry-Tyler Dingee Photo)

The Episcopal Church of the Holy Faith was the setting Saturday afternoon for the wedding of Judith Ann Everett of Santa Fe and Theodore G. Houston of Hereford. The Rev. Henry F. Seaman officiated.

The bride wore a princess style gown of silk taffeta featuring a hand-clipped lace neck line, full princess style skirt with a chapel train and Chantilly lace appliques. The ensemble was completed by a pill-box half hat of silk taffeta outlined with seed pearls, and a finger-tip English illusion veil.

Miss Everett is the daughter of Mr. and Mrs. Richard W. Everett of Santa Fe. The bridegroom is the son of Mrs. V. O. Hennen of Hereford and the late Theodore Brown Houston.

Attending the couple at the candlelight ceremony were Miss Lucy Everett, maid of honor; Mrs. Terry Kirby of Hereford, sister of the bridegroom, matron of honor; and Terry Kirby as best man. George Houston of Boulder, Colo., and Richard Cook of Canyon, served as ushers.

The maid and matron of honor wore identical dresses, with rose velvet bodice, wide cummerbund and full skirts of silk organza in contrasting color.

Mrs. Everett chose a pure silk chiffon dress in cloud beige, with French cuffs and softly pleated skirt. Her hat was an original Parisienne by Claude St. Cyr, fashioned with white and brown feathers.

Mrs. Hennen wore a hyacinth blue dress featuring a Chantilly lace bodice and pleated chiffon skirt. A blue satin hat fashioned in leaf design completed the ensemble.

Miss Everett, a 1955 graduate of Santa Fe high school, attended the University of New Mexico and is a member of Phi Beta Phi sorority. Until recently she was employed in Santa Fe by the Associated Contractors of New Mexico.

Mr. Houston attended West Texas State College, Canyon, and the University of Colorado at Boulder. His fraternity is Beta Theta Pi.

Following a reception at LaPosada Inn, the couple left immediately on a trip which took them to Las Vegas, Nev., and points of interest on the west coast. After several weeks they will be at home in Twin Falls, Ida., where Mr. Houston is associated with the Houston Lumber interests.

An elaborate rehearsal dinner was hosted by Mr. and Mrs. V. O. Hennen preceding the Saturday afternoon wedding in the Coronado Room of the LaFonda Hotel. Relatives and intimate friends attended the partridge and wild rice dinner.

Present were members of the wedding party and other out-of-town guests, including: T. G. Mason, Bartlesville, Okla.; Mr. and Mrs. John F. Simms Jr., Albuquerque, N. M.; Mrs. Helen Stearns, Los Alamos; Mr. and Mrs. Max A. Houston and Bob and Billy Houston, Wichita, Kan.; Miss Kathy Houston, Boulder, Colo.; Mr. and Mrs. Houston Frith, Wichita, Kans.; Mr. and Mrs. W. D. Lawrence, Mr. and Mrs. Bill Lawrence and Dave and Ann Lawrence, of Tyler; F. H. Oberthier, Hereford; and Miss Lisa Kirby, also of Hereford.

La Madre Mia Group Holds Guest Day Tea

The La Madre Mia Study Club annual guest-day tea was held Thursday afternoon in the Community Room of the First National Bank. Hostesses were Mesdames Harold Morton, club president, Joe Henry, Eugene Sparks, Joe Hacker, Buddy Pickens and Ted Hardwick.

The refreshment table carried out an autumn theme, with appointments in gold and crystal. Centering the table, laid with white lace over gold satin, was a crystal bowl filled with golden fruit flanked by gold peacocks. Mrs. G. C. Merritt Jr., attended the tea service.

Mrs. Harold Morton welcomed the guests and gave a brief history of the club which was organized in 1952 for the study of child guidance. She told of the club's activities since some of the projects carried out.

Highlight of the tea was a review of the book "Act One" by Moss Hart, given by Mrs. Clint Formby.

In her own inimitable fashion Mrs. Formby brought to life the story of the author's life and his desire to be a part of the American Theatre.

The autobiography reveals how he was born into poverty and as he learned to hate poverty he became bitter. The first part of the book deals with his life to the point of his first Broadway play and tells how he came to write comedy. The second part deals with his book "Once in a Lifetime" and his collaboration with George Kaufman.

In conclusion, Mrs. Formby gave excerpts from his book, "The Man Who Came To Dinner," as an example of his work as a playwright.

Special guests included were Mesdames John Sevier, W. G. Owen, Rob Groves, Otis Lee, G. C. Merritt Sr., Bill Hardwick, Eugene Noel, Howard Hunter, Ray Cowsert, Don Viegler, Robert Veigel, W. G. Revel, Lindy Daniels, Herman Drake, Roy

Blackburn, Ed Baxley, John Ralley, Cecil Morrison, Jon Fraser, Lewis Yulis, Don Fudge, C. E. Leasure, Glenn Wilson, Hershel Miller, Jerry Landers, Cubby Kitchens, D. R. Johnson, Bruce Beene, Rex Lee Georgia Bartlett, Joan Scott, Joe Locke and Troyce Riddle. Members present were Mes-

dames James Brownlow, Joe Hacker, R. V. Hale, Ted Hardwick, Joe Henry, Dean Herrling, Dennis Lomas, Harold Morton, Bobby Owens, Buddy Pickens, Paul Schroeter, Eugene Sparks, Bobby Williams, Lee Drake, G. C. Merritt Jr., John Smith, Charles Frye, and Jean Pittman.

MRS. CLINT FORMBY, who was guest entertainer, reviewed the book, "Act One," by Moss Hart, at the guest day tea.

Other members of the house party included Mesdames O. Wertenberger, Earl Plank, Joe Lyons, Darrell Blanton, Clay Ridgway, Paul Lyons, Noel Clemmons, Charles Newell, Robert Thompson and Urlin Streu.

Out Of Khaki Into Classroom

FT. KNOX, Ky. — Orrie P. Gruelle, A. B., M. A., Ph. D. and M/Sgt. will return to teaching next year when he retires from the Army.

For 17 years Gruelle, 70, was a Kentucky educator. Part of that time was spent as superintendent of two county school systems. In 1942 the World War I veteran enlisted in the Army.

"With my Army retirement pay," he explains, "I can return to teaching in Kentucky secondary schools." There is no mandatory age limit for school teachers in Kentucky unless they are covered under the voluntary teachers' retirement system.

When World War II started Gruelle tried to enlist in every branch of the armed forces. "But I was 53 and they thought that was too old," he says.

Finally he managed to get into a newly formed military police battalion for handling prisoner of war camps. Soon he was overseas, where he joined a military government unit administering occupied towns in Italy.

Gruelle rose to the rank of captain, but took a reduction to master sergeant during the military reduction of forces in 1947.

Now he's assigned to the education center here as head of the records room. But he describes himself as a jack of all trades, doubling as teacher, counselor, "and anything that needs-to-be-done."

"We planted nine different types of hybrid sorghums and both Texas & Arizona Martin this year. Each variety was given the best possible chance by fertilizing and plenty of water. Frontier 400 was by far our highest yielder at 8000 pounds per acre. Frontier is the best yielding sorghum we have ever grown and takes no more care. The Frontier did not lodge while others did. I highly recommend Frontier 400."

Community Rest Home Continues As No. 1 Challenge In This Territory

People like to dream about things but, too seldom, are the best of our dreams carried out. Such seems to be the case of the proposed home for old people which held general interest a few months ago. Meanwhile, literally scores of elderly people with close connections in this area are housed in rest homes in Amarillo, Lubbock and other larger cities. When you consider the extended span of life, new scientific improvements and the resulting number of older people, it is logical to expect that the problem will continue to become more complicated and more acute.

thinking has been directed toward the community project level.

While it is much easier to let nature follow its course, we cannot but wonder occasionally if most of us are not like the ostrich which buries his head in the sand, refusing to look around and recognize the things that are happening in our immediate vicinity.

Meanwhile, unless something is done on the local levels of the country, we can definitely expect action on the federal level. The need for care of older people is with us in a new and emphatic pattern. It is something most of us will sooner or later face personally and, like other community necessities, it can be met more efficiently and economically on the local level.

Just as a previous generation solved the hospital problem, it is up to us to meet and solve the challenge of a modern rest home in the community.

Precinct Lines Create Interest

A topic which appears more and more when people get together these days is that of re-districting commissioner's precincts. The matter, of course, would demand extensive thought and would have to originate with the Commissioner's Court.

At this early stage most people seem to favor re-districting, chiefly on grounds of more equitable representation from all areas of the county. This would primarily consolidate areas in such a manner that more voters would more equally participate in each of the four precincts, whereas some of the precincts now have fewer than 100 votes, while another may contain upward from 1,500. Since each of the commissioners have an equal vote in session, the situation naturally results in unequal representation.

Some of the larger precincts also create an undue chore for the commissioner who often has to check three or four times as many road miles as does his contemporary.

As we have said before, re-districting would merely bring our county government out of the horse-and-buggy age into the automobile era—and we are glad to see the average man consider these things and express himself in behalf of what he believes to be better government.

4-H Awards Vs. Juvenile Crimes

Presentation of 4-H awards here this week, for some reason, brought to our mind the continuous barrage of crimes which are daily attributed to our nation's "juvenile delinquents."

As we check over the scores of achievements of Deaf Smith County boys and girls, we inevitably contrast these attainments against stolen cars, store burglaries and occasional murders which are committed by their city counterparts.

We doubt if our boys and girls are basically much different from those of the crowded cities. Their environment, on the other hand, has a tendency to channel them in a different direction. They are not exposed to so much temptation, perhaps, and the opportunity is always present for the farm youth or small town boy who wants to work.

People, especially boys and girls, are prone to be good instead of bad but, placed in the wrong environment, we feel sure that many of those youngsters who received recognition this week might have easily have gone in some other direction. This accounts for the situation whereby most of our cities are generally dominated by men and women who were reared on farms and in smaller towns.

Needless to say, we are proud indeed of the youngsters who received some 150 awards here Monday night. Most of our lives are dedicated to our children and to other children of the community, a fact which is testified to through our schools, recreation programs and career organizations such as 4-H and F. F. A.

When we compare the results with things which are happening in many other places, we are doubly convinced that the program is worthwhile—and that "Grassroots" American is still the best place in the world to rear our boys and girls.

The POWER of FAITH by Howard Brodie

"In the name of God, amen, we . . . having undertaken for the glory of God, and advancement of the Christian faith . . . a voyage to plant the first colony . . . do by these presents solemnly and mutually in the presence of God . . . combine ourselves together."

So wrote our founding fathers as they composed the Mayflower Compact before landing at Plymouth. Thus the Pilgrims began in faith, and it strengthened them to endure cold, starvation and disease.

Fifty of the 100 colonists died the first winter. Yet, when the Mayflower sailed for England, no one elected to return. They worked hard and reaped a bountiful harvest. Then they rejoiced in thanksgiving, sharing their bounty with the Indians, in days of feasting and sport. Other colonies began to celebrate the day and in 1789 George Washington, officially proclaimed the holiday as one of public thanksgiving and prayer.

FOR A MUSEUM:

Local Residents Have Many Antique Relics

By MRS. R. L. CRISWELL. The Museum again. A few people are beginning to be conscious of the fact that we do

have quite a few relics, some beautiful and some odd and a few so old they date back to 1850 or before.

Now that isn't as old as the last remaining veteran of the Civil War, but it is coming pretty close.

It is shaped something like a spout oil can, but without the spout. It has a handle on the same order and a round wick about half the size of a lead pencil with a tiny toothed lever to turn the wick up or down.

There is no globe or glass chimney—just the wick and it burns much as a candle. The lamp was used by her great-grandmother, who was born in 1850, but it is probably much older than that.

There is an iron mixing spoon used by a chuckwagon cook for so many years that one side of the spoon is worn away, but it could still do a lot of mixing or stirring in an old iron dutch oven. Also there is a set of Alaskan Silver (knives and forks) of beautiful design, and coupons and from Arbuckle Coffee bags.

Arbuckle Coffee was a variety in the chuckwagon, and the cook was treated with great consideration by the ladies who visited the chuckwagon to get him to save the coupons for them.

He used pounds a day, and there was only one coupon to the pound.

Cutglass and many other things were on the premium list and all were coveted by the ladies. There is a spoon holder of pressed glass used for more than 70 years at the cookshack on the ranch, and many many more if there was a place to display them.

Again we think of the old jailhouse, built in 1904 or perhaps earlier. As Lloyd Sharp put it, that old house is a relic itself. What more appropriate place could it be used?

Lowell Sharp says the upper floor plan is just one huge room, and with the steel equipment removed, there would be plenty of room for a rather large display. Some of the steel could be left to verify the authenticity of the building as having been a jail. It, too, would have enough room for a caretaker's apartment if and when it was needed.

BOY SCOUTS EXPOSITION

The Annual Scout Exposition held in Dalhart last Saturday was a splendid success, it is learned from Nathan Perry, camping and activities chairman for this tri-county district. "Exhibits were very good," he said. "They showed activities in scouting and skills, and crafts taught in the scouting program. Attendance was also good." Each participating unit received a participation award. Each Cub or Scout who sold six or more tickets received a neckerchief slide. Each boy participating in the exposition in any way received a pocket patch. Awards for the best exhibit went to Cub Pack 41, and Scout Troop 42.

COURT CALLS ELECTION

Swisher County Commissioner's Court Monday morning ordered an election for Saturday, Nov. 28, at which time county citizens will be given an opportunity to vote an ad valorem tax not to exceed 30 cents on each \$100 valuation for the purpose of financing that cost of operating Swisher County hospital which is not provided by patient revenue. The court pointed out that this proposed 30 cent tax would not be as much as it appears in that the county tax has been reduced three cents this year because of paying of part of the bonded indebtedness on Highway 87 right-of-way. It will be reduced another five cents in 1960 because more bonds will be paid off. This reduces the amount of interest each year. So, in reality, the county will be paying only 22 cents above what was paid in county taxes in 1958, if the proposal carries.

LIBRARY ANNOUNCES GROWTH

Moore County Library has announced a full-scale, county-wide expansion of its services. The library, of which Mrs. J. H. Perdue is head librarian, is now offering bookmobile services on a limited scale to Cactus, Natural Gas Pipeline Camp, Exell Helium Plant, the Middlewell Community and the Bivins plant. In addition, Mrs. Perdue is now helping to establish a part-time library service for Sunray in the community center of that city. Mrs. Perdue, assisted by Mrs. J. D. Harvey, began last Friday taking books to Cactus to the social center there. The book will be available at the Natural Gas Pipeline Community Center from 9:30 until 10:30 a. m. On Wednesdays the books will be at the Exell Helium Plant from 10:15 until 10:45 a.m. The librarians, in making the trips, will be using their own car, Mrs. Perdue said.

COUNCIL STAYS BUSY

Prospects for a spring street paving program and discussion of bond money with representatives of Dittmar and Company of Dallas kept members of the city council busy at the special meeting of that body Monday night. Deadline for signing up for the spring paving program has been set for Dec. 7, according to council members. This must be known by December in order that bids and contracts can be prepared for the spring paving. Red Smith, consulting engineers, pointed out. Although the city tentatively plans for about 25 to 30 blocks of paving to be on the schedule, only a few property owners have definitely signed petitions asking for paving. The paving will be at a better price, the more of it we can get at one time, Smith told the council. City Manager Albert Fields asked that residents make their desires known for paving as soon as possible in order that by Dec. 7 the council can have information to pass on to the engineers and the paperwork for the bid-letting can get underway.

The BOOTLEG Philosopher

Editors note: The Bootleg Philosopher on his bintweed farm discusses a big Cuban cattle deal this week.

Dear editor:

While I don't own any cattle in Cuba, a head or two of my livestock have been known to turn up on, while not exactly foreign soil, at least on soil not my own, as my neighbors have been quick to point out, still I have been very interested in what Dictator Fidel Castro has been doing to some American cattle he found over there.

As I understand it, some Americans own a big ranch and about 7,000 head of cattle in Cuba, and Senor Castro, now that he has won his revolution and discovered keeping it won takes a lot more money than mountain fighting did, has decided to appropriate the ranch.

Well, maybe appropriate isn't the right word. He's paying for the land and cattle, but not in cash, in bonds, the land to be paid off in the next 20 years, the cattle in the next 5, provided the Castro government survives.

I don't think the Americans who owned the ranch will like this; in the first place they probably weren't interested in selling at this time and in the second place if they had to sell nothing beats cash and probably a lot of things beat Castro bonds, but Senor Castro's idea has great possibilities for this country.

For example, Senor Castro himself was in Washington not too long ago and he wasn't there for the social season. What Washington ought to do is tell him it has finally decided to make him a loan, but in lieu of cash we're sending over a large stack of Civil War Confederate currency. When that runs out, we'll send over a large stack of Russian bonds we've been holding for 30 or 40 years. If that isn't enough, I'm sure we have a good many old World War I notes put up by a wide assortment of European countries, and he can take his pick. Stuck away in the inactive files, Washington must have enough old notes to keep Castro in television time for years to come, if he can get the stations to accept them. If Washington runs out of old notes, I imagine private banks all over the country, including those around here, could dig up a few. Whose, I won't say.

Yours Faithfully, J. A.

Judge Henslee suggests that the upper story be removed and the lower used as a museum, and that is not a bad idea either. The building was not condemned as unsafe, but the State Legislature passed a law in 1956 giving a definition of what a county jail must be, and Deaf Smith County (and others) had only four years to make the change.

The Judge reminds us that we only have one year left and it seems that we will make that deadline. The building was so small and could not be added to, so our addition to the courthouse resulted.

Without a doubt, the old building has served the county well, but it could still serve and house the historical relics of past years. It is in a very good location. What more could we ask? Only that something must be done about it, either in this location or another.

There must be a committee, a chairman, a meeting. Shall we do something about it now or wait?

Mrs. Draper pointed out three things about storing vegetables. First, to store cabbage and carrots, bury them in the ground, where it is cool and moist. Second, to store onions and potatoes, store them in a cool, dry place. Temperature should be from 50 to 60 degrees.

Third, to store dry beans and peas, put them in a well ventilated dry place.

How CHRIST Makes CHRISTIANS

What Christ Commands:

"Go ye therefore, and teach all nations, baptizing them in the name of the Father, and of the Son, and of the Holy Ghost; teaching them to observe all things whatsoever I have commanded you; and, lo, I am with you always, even unto the end of the world. Amen." (Matthew 28:19-20) "Whosoever therefore shall confess me before men, him will I confess also before my Father which is in heaven." (Matthew 10:32)

"... Go ye into all the world, and preach the gospel to every creature. He that believeth and is baptized shall be saved; but he that believeth not shall be damned." (Mark 16:15-16) "... Thus it is written, and thus is behoved Christ to suffer, and to rise from the dead the third day; and that repentance and remission of sins should be preached in his name among all nations, beginning at Jerusalem." (Luke 24:46-47)

Summary:

Jesus commands preaching the gospel. It must be believed and there must be repentance, a confession of faith and baptism. The results are summed up in all that is suggested in the word "Saved." Here is how Christ made Christians 1900 years ago. And He makes Christians through the same obedience today! Have you obeyed?

REMEMBER WHEAT?

By Charlie Seeds

He had been in the U. S. Senate for eight years. But in his first time he didn't get too much public attentions. Then Senator Joe McCarthy began to rise to prominence through his investigations of Communists in government and out of it. His career reached its peak when he clashed with Secretary of the Army Stevens in the now famous televised hearings before the Senate Investigations Committee. Remember the dramatic days of those hearings? They sparked more controversy than any other political event in years. Almost everyone in the country took sides, for or against. Work stopped so millions could watch the drama on TV and the deep voice of the big, dark bearded Senator from Wisconsin was a familiar sound.

A new word was added to the language. . . McCarthyism. Remember those hearings?

Remember the year? In the automobile business that year, new models were plentiful. It was a good market for the car buyer. . . and he made his own careful investigations to "expose" the best deal!

The year was 1954. Investigate before you buy! That makes sense any year. And when you investigate all the facts, you'll find you can't beat our deal on a new 1960 FORDS - for trade - for price - for terms! Investigate our deal now at CHARLIE SEEDS MOTOR CO., INC. 146 E. Second, Phone EM 4 - 2727.

Rotarians Hear Of Foundation Project

Jim Wilson of Floydada, past district chairman of Rotary Foundation, was guest speaker at the noon meeting of Hereford Rotary Club Monday in the ballroom of the Jim Hill Hotel.

Speaking during the Rotary Foundation Week, he said the organization's international exchange student is very important to the world today as it promotes understanding between countries.

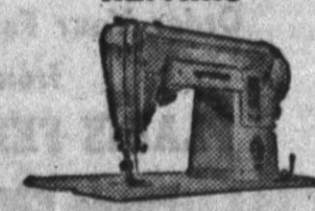

He said the Foundation was started 40 years ago as a service to education around the world. In 1928, Rotary International approved the Foundations program, and in 1932 the first foundation committee was approved. In 1937, the Foundation began to grow around the world and had expanded to an international program.

Fellowships provide one year of study in another country for each university student selected. Purpose is to give the student a chance to be a good will ambassador for his country.

He explained that college students are constantly seeking solutions to international problems. He concluded by saying, "A contribution to the Foundation is an investment in the future of the world."

WATCH THE PUFFS

CHICAGO (AP) — The National Safety Council suggests that, when passing, watch the exhaust pipe of the car ahead for smoke puffs. A lazy puff means the driver

has taken his foot from the accelerator. Perhaps he's slowing for a turn.

A sharp gust of smoke may mean the motorist ahead is speeding up so that you will be unable to pass.

FT. SILL, Okla. (AP) — A challenge to any team in the area was issued by the 2nd Battle Group of the 30th Infantry. The weapons were to be ping pong paddles.

Beauty At Home

Q. How can I prepare a good skin bleaching lotion at home? A. Mix one tablespoon of rose water with three tablespoons of pure lemon juice. Leave this on the skin for about five minutes, then rinse off with warm water, and apply some almond oil.

Q. Why does my hair always seem to feel sticky right after a shampoo?

A. This could be due to hard water. Try cutting this with some lemon juice mixed with the water if you are a blonde, or with vinegar if you are dark. Use these mixtures as a second rinse — then rinse again with warm water.

Q. What is the best way to dry fresh polish on the fingers quickly?

A. Don't make the popular mistake of breathing on the nails to hasten the drying, since your breath is moist and can very well spoil your polish job. Instead, hold your hands around a lighted electric bulb for a quick drying of your polish.
