Confident Con Man Turns an Easy \$200 in Hereford

By STERLIN HOLMESLY
A smooth-talking professional crook parlayed his suave looks and a storehouse of medical jargon into an easy \$200 in Hereford recently.

the good "doctor" was gone and the woman shortly was out \$200 paying the local bank.
THE CASE was turned over to the Deaf Smith County sheriff's office on Aug. 7 and investigation revealed "Dr. Richards" to be Van Wyck, a man with a multitude of aliases and a criminal record longer than Route 66.

According to Sheriff Charles Skelton, Van Wyck is "a real professional" and a look at the thick file on the man backs up that statement.
THE CHARGES here read swindling with a worthless check and forgery and passing a forged instrument. They constitute a felony, but look at some of the charges and convictions Van Wyck has had against him since 1932:

such exotic-sounding ones as Blake Lionel Parkion and Tex Van Ruth.
Currently, he is wanted in three other Texas cities, California and Missouri.

and cash for the rented car. Coming to Hereford on July 25, he stayed at a motel, again paying cash.
He didn't try to cash a check at any of the three places. He entranced the motel owner and others with tales of great surgical feats in Chicago. He laced his conversation with medical terms.

arillo said the same thing. This \$200 check he cashed was almost the mark of a pro; he slipped but nobody noticed until it was too late. The name and sum of the check were typewritten and the check was signed Charles Simmons, M. D., in a slanting script. The check was for "clinical services."

That's when Van Wyck almost bobbled: He endorsed it Bruce Roberts instead of Bruce Richards. Passing it off by saying he had worked for a Roberts clinic in Los Angeles, he blithely scratched the Roberts signature and signed it as Richards.

VAN WYCK checked out of town on July 26, checked in the car at Amarillo and vanished.
Following the tracks left by Van Wyck, Skelton talked with the rent-a-car man in Amarillo. The culprit had left a copy of an Iowa driver's license. The town was Marengo.

PHA Exhibit at Tri-State Fair Is Recommended

The homemaking advisory committee met Aug. 20 in the high school homemaking lab to discuss plans for 1957-58.
The committee recommended that the two Future Homemakers chapters have an educational booth at the Tri-State Fair starting Sept. 16 in Amarillo.

SMOOTHING OUT—Municipal golf pro Bud Posey and a passenger inspect the dirt now being spread over the rough fairways at the local course. A "pick up the rocks" day is being planned for the course in the near future. (Staff Photo)

Former Resident Suffers Stroke

Mrs. Gordon Frye, former Hereford resident now of Berryville, Ark., suffered a heart attack at her home on Sunday, Aug. 10, and was taken to a Eureka Springs hospital. Her condition is reported as improving.

Cancer Death Rate Is Below Average

(Special to The Brand)
NEW YORK — Of 10 deaths resulting from cancer in Deaf Smith County during the year ending Jan. 1, 1956, four resulted from lung cancer, or 40 per cent.
How does the local rate compare with that in other areas?

DESPITE lung cancer's relatively small toll when viewed against the 240,681 lives taken by cancer as a whole in the year, it has become a matter of great concern to heavy smokers.
Although the tobacco industry denies there is an association, the American Cancer Society and the Public Health Service have released statements to the effect that there is strong evidence that excessive cigarette smoking is a causative factor in lung cancer.

Labor Camp Road Debated in Merchants' Special Session

County and city officials met with the Hereford Merchants Assn. Friday morning in the ballroom of the Hotel Jim Hill to discuss a proposed new road from the Labor Camp to Hereford and an increase in shoplifting in town.
Purpose of the called meeting was for information about the proposed road and to see if a uniformed policeman could patrol downtown Hereford on Saturday afternoons.

City Manager Dudley Bayne and Chief of Police Henry Aycock attended for the city. About 35 persons were present.
A PETITION with 123 signatures requesting the road was presented to the commissioners court on Aug. 12. Action on the petition has been tabled by the court until tomorrow.

leave you would buy property there after it was built," Clearman said.
"It is an unhappy situation. I'm not against progress. I hope it is worked out satisfactorily," he added.

ED DZUIK, president of the Hereford Housing Project, then gave a brief summary of the organization's operations. He said the volume on the present dirt road to Highway 60 is terrific and the road is difficult to maintain.

AIRPORT PAVING START EXPECTED BY SEPT. 5

Paving work at Hereford Municipal Airport is expected to start by Sept. 5, according to City Manager Dudley Bayne. The paving contract, given tentative approval in mid-week by the Civil Aeronautics Authority, specifies 45 working days for completion of the 4,400 by 75 foot runway and parallel taxistrip, and parking area.
Potest Construction Co. of Dallas, low bidder at \$96,138.85 for the asphalt paving work on the 600-acre airport site two miles east of town will have 10 days in which to begin work after receiving formal notification from city officials to start work.

Earlier, on Dec. 18, 1956, a proposal that called for city and county participation in the airport was approved in a city election but turned down by county voters.
The master plan for the airport calls for completion of the paved areas, plus a short cross runway for east and west landings. The alternate runway will be graded and seeded to grass, rather than paved, Bayne said.

The total investment in the airport and facilities will be just over \$188,000, exclusive of engineering and maintenance costs when the paving project is completed. The city commission has begun preliminary consideration of building hangars to shelter airplanes to be based on the field. A total of 14 hangar spaces was proposed recently by City Manager Bayne.

Interest in the proposed Labor Camp road has not been confined to men. A group of wives and mothers on Friday presented the following to The Brand:
Dear Sir:
The opening of a road from the Labor Camp onto Highway 51 entails more than one or two property owners in this residential area on the hill south of the creek.

Around Town

J. Doyle Rose, 61, of 610-B Miles was released by Deaf Smith County Hospital Friday after being treated for encephalitis since Aug. 14. Rose had the third case of encephalitis in the county this year. No new cases of the disease have been reported.

Rio Soli Service, specializing in soil and plant research, is to be represented in Hereford by Abe Davis. Charles A. Zamzow of San Juan, general manager, has been here for the past several days to aid Davis in setting up his new business. Davis was formerly associated with Harley Davis and Clarence Williams, who will continue operation of their firm. The

3 Men Make Bond on Liquor Charges

Three Negro men charged with bootlegging were released on bond Thursday.
Leon Baker of Amarillo was freed on \$2,000 bond. He is charged with transporting liquor into a dry territory and illegal possession of liquor for sale.
Leroy Brown and James Hawkins of Hereford were freed on \$1,000 bonds each. They are charged with illegal possession for sale. The three men had been picked up by sheriff's officers Monday.

Insurance Provisions To Aid Worker

THE CITY'S residents on Jan. 8 approved issuance of \$100,000 in insurance provisions to aid workers.
Benefits for business and industrial employees in Texas will be increased Sept. 1 when revised workers' compensation insurance coverage laws become effective. Employers will have to pay a 12.2 per cent increase in rates to provide the greater protection.

Elementary School Zones Realigned

Shirley Elementary School zone has been expanded slightly this year, picking up 6 1/2 blocks from Central Elementary School zone.
The expansion is to the west, with Shirley now including the blocks from Park Ave. to 15th. The new area is between two alleys, one between Highway 51 and Ave. A and the other between Ave. A and Ave. B as far north as 13th St.

Women's Views on Road Given in Statement

The opening of a road from the Labor Camp onto Highway 51 entails more than one or two property owners in this residential area on the hill south of the creek.
We as housewives and mothers in this area are in complete agreement on community progress and agree a good road is very necessary, but not at such a very dangerous intersection. Lives are at stake!

Past 13th, the area includes from the alley between A and B to Highway 51. At 14th it expands to take in blocks between Ave. B and the highway.
THE ZONE for Alkman school remains the same. A map of the zone appears on page 5.
Registration for students at St. Anthony's School will be held from 3 to 5:30 p.m. today in the school.

Funeral services were held at 3 p.m. Saturday for Mrs. Lena Bell Lomas, 224 Ave. B, who died at 3:45 a.m. Thursday in Deaf Smith County Hospital. She had been ill several months.
Mrs. Lomas was born at Frost, Texas, on Jan. 3, 1887, and came to Deaf Smith County Dec. 7, 1901, from Frost. She was married to Harry Lomas Sept. 7, 1921, in Hereford.

Club Members Financed First of 3,000 Wells

Nearly a third of Deaf Smith County's million acres are now under irrigation, according to a recent extension service report. The extent of the irrigation development here has undoubtedly exceeded the dreams of the most optimistic land speculator who viewed the granddaddy well of them all, that drilled in 1910 by D. L. McDonald.
McDonald's well, the first drilled in the Panhandle, was financed by a group of men who were members of the Hereford Commercial Club.

McDonald's success was supplemented by the price boosts which accompanied World War I. He bought two rigs and started drilling irrigation wells here and in other places over the Panhandle. His firm, now headquartered in Amarillo, is still active.
"Everything went well during the war with good prices for grains," Oberthier said, "but in October of 1920, the bottom fell out of the price of milk — it dropped from a dollar to 45 cents per hundred. That killed irrigation for everyone knew they couldn't pump water and raise

Homemakers Plan Picnic in Park
The two Hereford Future Homemakers chapters are inviting all girls who will be taking Home-making I to a swim and picnic at Dameron Park Thursday at 5 p.m. The picnic supper will be at 5:30.
Each girl will need to bring money to go swimming and a sack lunch with the necessary eating equipment. Drinks will be furnished.
Members of the committee to plan entertainment are Susie Loerwald, Dolores Andrews, Bonnie Wagner, Betty Paetzold, Sandra Roberson, Margaret Boomer, Peggy Bumpass and Donna Sue Guseman.

(Continued From Page 1)
and joins another dirt road coming into Highway 51 from the west.
Judge Henslee said the court would like to have the alternate proposals given to the court before its meeting Monday.
Faezold then spoke to the group urging that action be taken now. "It's going to keep coming up and keep coming up and let's do it now," he said.

FROM THE ROAD, the group moved to the problem of shoplifting and petty thievery in local stores.

Woody Wilson, merchantman, chairman, phrased the problem: "On Saturdays during the summer, some of our visitors have been stealing the merchants blind, and it has been suggested that a uniformed policeman patrol up and down Main St. when

there are so many workers in town."

D. E. Cleveland, manager of Perry Bros., said he needed a full-time policeman in his store six days a week to do any good.

Johnny Pool of Western Auto said he had lost at least \$100 via stealing on one Saturday.

THEATER OWNER Francis Hardwick said it is up to the individual merchants to inform the police when a shoplifter is caught.

Chief Aycock agreed with Hardwick. "Let us know about these shoplifters, we can't help unless we know. We are eager to help but need cooperation," he said.

Aycock said only three cases of shoplifting had been reported to his department this year.

CLYDE CAVE of Cave's Variety store and Paul Harvey of C. R. Anthony's chimed in that it is up to the individual merchant and making an example of one shoplifter is a deterrent.

Aycock noted that it is sometimes difficult to make a case against a shoplifter after he has left the store.

Harvey said "We have a whole lot of local people stealing in addition to the laborers and the laborers get the blame."

Dudley Bayne said the city would be glad to go along with a uniformed policeman would "whatever we can, but I doubt if help much."

It was suggested that the merchants group hire an off-duty policeman for downtown patrol, but Bayne and Aycock vetoed the idea immediately.

The group then discussed the Labor Camp road some more and the meeting was adjourned.

Poindexter Named Head Coach for Amarillo School

John Poindexter, coach and teacher in the Hereford school system since 1952, has been named head coach in Nixon Junior High School in Amarillo.

Poindexter, 28, resigned this summer after Jack Harris was hired as athletic director replacing L. B. (Scat) Russell.

After graduation from West Texas State in 1952, Poindexter was hired as B team football coach here. He also taught and was track coach.

He was a regular lineman at West Texas State for two years. He is married and has one child.

Poindexter will replace Otis Sanders at Nixon Junior High.

Airport...

(Continued From Page 1)
in filling the limited amount of hangar space.

THE PROBLEM of managing the airport has not yet been decided. Three persons have indicated to city officials a desire to operate it under a lease agreement. Bayne reports.

No tax increase has been made, or is expected to be necessary to pay off the 12-year bonds issued by the city to finance its share of airport costs. Sold to Columbian Securities Corp. of Texas, San Antonio, at 3 1/2 and 3 1/2 per cent interest, the bonds can be paid for in part by \$5,000 annual payments. The city expects to realize from putting most of the airport acreage in the soil bank conservation reserve program.

Just \$6,100 was included in the estimated disbursements for operation of the field when the current fiscal year budget for Hereford was adopted. The operation cost was described as "a pure guess" at that time, due to lack of experience in operation of an airport facility.

So far, operation costs have been practically non-existent. A dirt temporary strip was graded out by a city maintainer operator late in April. Agricultural plots have been using the facility since May 1.

Two possibilities for cost-cutting that were discussed in the early planning stages for development of the airport have since been discarded. These involved the use of city road equipment in the construction of the paved areas — the CAA won't allow it under the cost-sharing agreement; and the use of caliche from the city dump, which adjoins the airport — tests of the caliche showed it wouldn't meet paving standards.

Club...

mill for 22 cents per bushel so we were asleep at the switch for a long time."

The slump in irrigation continued until 1935 when the smaller, more efficient Johnston pump was introduced. Since that year

a mushrooming of irrigated agriculture has resulted in an increased number of wells each year, according to Virgil Dodson, district director for the High Plains Underground Water District.

"We're digging more irrigation wells now per year than we've ever dug before," Dodson said. "The number of wells dug in the district has increased each year since 1935, and 1957 shows promise of being the biggest year yet." Dodson estimated the number of wells in Deaf Smith County at about 2,500 or 3,000. In 1910, he said, there were fewer than five.

About 305,000 acres are under irrigation.

Irrigation has facilitated the change from a few-crops system to our present highly diversified agriculture structure. "Very few different crops were farmed in 1910," Byrle Elliston, another old-timer, said. "About the only crops were wheat, corn and maize."

Today Deaf Smith County agriculture is made up of more than 20 vegetable and row crops which include alfalfa, barley, bell peppers, cabbage, carrots, certified seeds for grass and grain plantings, corn, cotton, forage sorghums, hybrid and standard grain sorghums, lettuce, melons, millet, onions, permanent and improved pastures, potatoes, rye, soybeans, sudan, sugar beets, tomatoes, turnips and wheat.

County farmers sold 35 1/2 million dollars worth of these crops in 1956.

School...

cafeteria.

Enrollment in all Hereford public schools will be held Thursday and Friday. An enrollment schedule was published in last Sunday's Brand.

First grade students enrolling for the first time in public schools must furnish a birth certificate. They must be six years old on or before Sept. 1 to be admitted, according to Superintendent Fred Cunningham.

shots if possible, Cunningham said. Buses for rural students will begin running on Sept. 3, the first day of classes. The school lunch program begins on the same day.

Students in Stanton Junior High school will be required to take physical education this year unless excused by a doctor's certificate, Cunningham said.

Beginning freshmen in high school will have a new set of requirements for graduation in 1961. A minimum of 20 credits will be required with three years of English, two of mathematics (including Algebra I), world history, American history, civics, two years of science and physical education as required courses.

The old graduation requirements of 16 units will apply for upperclassmen now in school. Credits will be given for co-curricular activities such as sports, music and physical education under the new system. New teachers in the public

Select Twirlers for School Band

Selection of six twirlers to perform with the Whiteface Band was announced Friday, by Charles Bell, band director, following tryouts for the positions at the high school.

Thirteen girls entered competitive baton twirling exhibitions that preceded the selection. Ella Marie Williams, Joan Brown, Betty Paetzold and Jeanette Rayburn, who were twirlers during the last school year retained their positions. Zell Crump and Glenna Gault were named to fill positions left by graduating seniors.

Bell said that two band rehearsal sessions have been scheduled for the coming week. On Tuesday woodwind players will begin practice in the band hall at 7 p.m. to be followed by a full band rehearsal at 8 p.m. The second rehearsal will begin at 8 Thursday evening.

Mrs. Troy Fowler Feted by Shower

A mother-to-be shower was given for Mrs. Troy Fowler Thursday at 3 p.m. in the home of Mrs. Floyd Messenger.

After games were played and gifts opened, refreshments of cakes decorated with pink booties and pink fruit punch were served. Favors were pink diaper nut cups with nuts and mints.

Hostesses were Mesdames Messenger, Willis Dufur, George Sumner and Veleria Kelly. Others present were Mesdames Earl Cole, Billy Wall, D. R. Grimes, Lester

Fowler, Bobby Pulliam, Otis King, Doyle King, Oscar Esterwood from Tipton, Okla., and Gracie Mann from Birmingham, Ala.

Adrian Schools Open Sept. 2

Schools in Adrian will open Monday, Sept. 2, with a full day of school.

Buses will make their regular run at the usual times and the school lunchroom will serve a meal that day. Lunch prices are the same as last year.

First faculty meeting will be held at 9:30 a.m. Friday, Aug. 30. Paving in front of the school building and sidewalks and curbs have been added this summer.

School calendar for this year: Sept. 2, first day of school; Sept. 17, holiday for Tri-State Fair; Nov. 28-29, Thanksgiving holidays; Dec. 23-Jan. 1, Christmas holidays; March 7, district teachers meeting in Amarillo; April 4, Easter holiday; May 18, baccalaureate services; May 21, last day of school and graduation exercises.

Ladies lunch: Sliced baked ham with a salad of apple, celery and mayonnaise garnished with water cress and salted pecans.

Jantzen: JAN-FURA LEADS THREE LIVES

The same three you lead: One at the office, one after hours, weekends away—and into each life it brings new luxury. Jan-fura

is a kitten-soft sweater fur-blend that is Jantzen's exclusively. Shown, "Facade" cardigan 15.98, and slip-on 10.98, with color-ensemble skirt in loomed tweed 14.98. "Boutique" torso slip-on 14.98. Matching watch-pocket skirt in wool Bermuda Flannel 14.98. Sweaters 32 to 40 sizes, skirts 10 to 18.

—Selected as Hereford's GLAMOUR "Show Case" for the Second Consecutive Year!

By JIMMIE GILLENTE

If you are one of those people who is consistently looking for greener pastures, here is a little test concerning the cashier bank teller business.

A certain banker tests applicants for the position of teller in the following way, says "Management Briefs." The banker says, "Here is a check for \$63. Please give me that amount in exactly six bills and I don't want any dollar bills." If the applicant cannot satisfy him within 30 seconds, he doesn't get the job.

The solution is so simple that I won't print it until later in the column. However, I can tell you for sure that some of the bank tellers around here couldn't work for this guy. Even some of the presidents would be on the waiting list. I had to call 12 of them before I found the answer.

Hereford now has a policeman

with a sense of humor (at least, I hope that's what it was). His name is Henry Dale Walderscheid. He closed a telephone conversation the other day as follows: "Come to see us. Don't wait for an invitation."

During the past two weeks I have been pinch-hitting for Melvin Young, Brand advertising man, while he vacationed down on the Texas gulf. This job has its drawbacks, but it also a lot of fun. You get to visit and talk with most of the community's business leaders and naturally pick up quite a few ideas. I was surprised at the number who are talking about taxes and tax costs. Most of the discussion centers on local levels. Few of them ever mention income taxes, which are far more vicious. I guess they have just come to take federal tax payments for granted as a necessary evil.

FRANK MARRS was telling me that I should check with Cliff Estes for a real fishing story, but I never got around to it. However, it centers around a tree which has been giving Cliff more trouble than those Elms on 25-Mile Ave. gave the city commission.

Thirty years ago, Cliff went to Colorado with a group of local fellows to camp out and fish. He was standing in front of the tent, testing his line, and hooked the fly in the branches of the tree. Cliff had Judge Landis bring him a pistol and, after taking careful aim, shot the hook loose. Some 10

years later he was in the same place with his son John — and hooked his fly in the same tree on the same limb. John brought the gun this time and, once again, Cliff shot his line free. Last year, Cliff happened back to the same place and for the third time hooked his fly in the same tree on the same limb. The only difference was that he used a rock instead of the pistol to free the hook.

Maybe his shooting eye isn't so good anymore. Anyway, the tree is quite a big fellow now and Cliff has a warm place in his heart for the old pine, despite the fact that it has given him so much trouble down through the years.

TOWNSEND DOUGLAS has a big stack of questionnaires which the Hereford State Bank collected through a survey mailed out with bank statements. Without question, the most popular feature on the long list was the bank parking lot. A lot of people also checked the coffee room as a service frequently used. Down below, where they asked for remarks, one wit, inscribed:

"Please make the coffee a little bit stronger."

Thanks to all of those people who checked the place where it says they read his bank ad in The Brand. After looking over the returns, it looks to me as if we have got that boy where we want him — and it is mighty seldom you ever get a banker in that shape.

Which reminds me: the bank teller in the first paragraph would hand back the following change: 1 fifty dollar bill, 1 five and 4 two's. Total, 6 bills — \$63.

If you are a radio die-hard who refuses to accept the arrival of television, things are looking up. Both N. B. C. and Columbia report more business than in the past four years. Low cost chain programs, says a trade journal report, is overcoming the fact that they have fewer listeners. A half

hour of evening time on N. B. C. now costs \$5,625 as compared to \$12,000 five years ago. TV's costs are still, kiting. An average half hour costs \$85,000 to \$90,000 for time and talent, which pretty well eliminates any sponsor with a modest to lean budget.

A friendly Amarillo resident (his signature looks like C. C. Lurderhohn) was vacationing up in Maine and ran across the following clipping in The Boston Traveler. It appeared under the syndicated column by-line of Neil O'Hara and reads:

"Thoughts while shaving: 1. We like the name of the newspaper published in the town of Hereford, in the heart of Texas cattle country. It's called The Hereford Brand. . . ."

FISHING IS GOOD in Colorado, according to Glenn Edwards, who got back recently. He reports nice catches in both lakes and streams on west of Red River. They were accompanied by the Bill Bowmans. However, he said the fish were small. . . . "more the Abe Martin size" than real fish. Which reminds me, the Martins and James Edmondsons got back last week from Valcifa Lake near Gunnison and, regardless of anything Abe tells you, his 11-year-old granddaughter, Sherril, caught the biggest fish. This is the second straight year she has outfished her

Mrs. Coleman's Sister Visiting

By MRS. S. N. THWEATT
Mrs. Josie Busby of Lubbock is visiting in the home of her daughter, Mrs. Bruce Coleman. Mrs. Busby had just returned from a visit in South Dakota and Minnesota.

Mr. and Mrs. Leroy Busby and Susie of Lubbock were visitors in the Bruce Coleman home last week. They went fishing at Conchas Dam in New Mexico.

Mrs. Eldred Brown was released from the hospital Wednesday and returned home. She is reported to

dad and her granddad.

I notice where the "Wives and Mothers" are getting riled up about the proposed Labor Camp road which would empty into Highway 51 south of town. They have a protest letter this week. Just as a matter of observation, I would say the commissioners may have thought the tax league was giving them trouble, but they "ain't seen nothin' yet" — until a bunch of wives and mothers get hold of them. The only thing more rabid than a "wife and mother" is a calm little man with a receding chip who hears someone say something bad about his dog.

he doing nicely. Mr. and Mrs. S. N. Thweatt were in Amarillo Tuesday. Mrs. Thweatt is taking shots for her back. Mr. and Mrs. Phillip Miller returned from a week visit in Missouri where they visited Mrs. Miller's relatives. They said there was lots of rain and the crops were late.

Mr. and Mrs. Don Guseman and children Donna Sue and Gary are settled in their new home in Hereford. They live next door to Bud Morrison.

Barbara Brown spent Monday night with Mrs. Rose Corwell of Rosedale, N. M.

Mrs. Wayne Lady wrote her brother, Johnnie Buse, that she expected to be in Hereford in about three weeks, as Wayne was being

shipped out, but they don't know where he will go. Dale Smith spent the weekend at Red River. He went with friends from Friona.

Mr. and Mrs. Cecil Bass visited in Amarillo Tuesday night.

Mrs. N. A. Brown and Mrs. Floyd Brown were in Amarillo Wednesday. Mrs. N. A. Brown cooked a fish dinner for the doctor and nurses at Can Clinic. In the afternoon they returned home,

bringing Mrs. Eldred Brown home from the hospital.

Mrs. Rose Corwell, sister of Mrs. Eldred Brown, is staying in the home of the Browns helping out until Mrs. Brown is able to carry on.

Frank Ford returned Monday from a three weeks vacation.

Mr. and Mrs. S. N. Thweatt and Spain spent the weekend in Levelland visiting Mrs. Thweatt's people, and also in Lubbock.

Monterrey Wins Little League Championship with Perfect Game

EDITOR'S NOTE: The following story appeared in several daily papers Saturday. Since the story is outstanding, as was the baseball game itself, and the Hereford Little Leaguers advanced into the sectional play-off before losing, we thought Hereford sports fans might like to read about the Little League "World Series."

By BOB CONSIDINE
WILLIAMSPORT, Pa., Aug. 23 (AP)—Little Angel Macias, a 12-year-old Mexican boy with the physique of a matador and the pitch savvy of a Don Larsen, flung a perfect game today and led his Monterrey Little League team to a 10-0 victory over the hulking lads representing La Mesa, Cal.

Over a thousand fans witnessed the genuine 18-karat baseball game which climaxed the annual "World Series" of the farflung youngsters' baseball empire. Hundreds rushed on the midged-sized field to lift the handsome Macias to their shoulders and carry him off in ecstasy.

HE IS OLIVE-SKINNED boy, is a shoveline boy in his native Monterrey when he is not attending school or playing in the Monterrey Industrial Little League. He struck out 11 of the 18 batters faced in the regulation 6-inning game. He was behind the hitter twice, the second time under dramatic circumstances.

With two away in the sixth and first inning, and facing Barney Maggard, the American team's second baseman, Macias momentarily lost control of his high arm and quick-ducking curve ball and the count rose to three balls and one strike.

But then he burned a called strike over the middle, and sent the California boy down swinging on a third strike.

It was the second perfect game in the 11-year history of the "World Series."

Angel is ambidextrous. He chose to pitch right-handed today. He pitched one-hitters in his previous four starts in Little League play. It was Mexico's first time in the World Series, the Monterrey team having won not only its own country's laurels but having taken the measure of eight Texas teams, plus Bloxi, Miss., and Owensboro, Ky.

As representatives of the "South" region of league play they were, as usual, seemingly outlast-

DAWN NEWS

Daughter Born to Rev. and Mrs. McClung

By DELLA RUTH DOW
The Rev. and Mrs. Paul McClung are the parents of a baby girl born Aug. 15. Her name is Cheryl Dawn and she weighed 7 pounds, 11 1/4 ounces.

Sandie Moore returned home last Saturday from a two weeks visit to McLouth, Kan., with the Rev. and Mrs. Thomas Bandy.

Mrs. H. E. McCabe of Amarillo is visiting in the home of her son, H. V. McCabe, this week.

Mr. and Mrs. William Wimberley and Billy visited in Canyon Thursday night with E. A. Oberst to help him celebrate his birthday. Oberst is Mrs. Wimberley's father.

Mr. and Mrs. Kenneth Stickney and Kenton Grace of Amarillo visited in the Henry Dow home last weekend.

The Bruce Browns of Borger spent last week on their farm here. Mr. and Mrs. Tony Benson of Roswell, N. M., are spending a few days visiting in the Alfred Smith home. Mr. and Mrs. Benson and Mrs. Smith visited Sara Jo Smith and Bobby Jones and son Mike in Amarillo on Wednesday.

Vicki and Ralph Oglesby of Canyon spent Saturday night and Sunday in the Reece Stewart home.

Mr. and Mrs. Rea Cox, Susan, Beth and Tim visited in Plainview Sunday with the T. B. Coxes, the J. T. Mellas and Mrs. Rosie Camden.

Mr. and Mrs. Carl Wimberley, Phyllis and Ted have just returned for a week's vacation. They visited in Sweetwater, Brownwood and Comanche with relatives.

Mr. and Mrs. H. H. Hartland and girls of Stratford and Mr. and Mrs. W. P. Caraway of Hereford were supper guests of the Johnny B. Caraways on Tuesday.

Mr. and Mrs. Don Bauer and Brady of Amarillo spent Tuesday and Wednesday visiting with Mr. and Mrs. Norman Tucek.

Pfc. and Mrs. Bob Morgan of El Paso visited with the Joe Vintons from Saturday until Tuesday.

Mr. and Mrs. Robert Oglesby and children of Canyon and Mr. and Mrs. Ray T. Stewart and children were supper guests in the Reece Stewart home Tuesday night. The Reece Stewarts were celebrating their anniversary.

Mr. and Mrs. M. D. Durham and Marvyn of Whitharrel visited the Paul McClungs Tuesday afternoon.

Mr. and Mrs. H. V. McCabe, Mrs. Mary Byrd, Mrs. H. E. McCabe and Mrs. Jim McCabe and Tom visited in the Bill Carthel home in Black Friday.

Mr. and Mrs. Alfred Smith and Pat attended the graduation exercises of the Northwest Texas School of Nursing in Amarillo last Friday night. Mrs. Bobby Jones, the former Ginger Smith, was a graduate.

The nominating committee met Tuesday night at the church. On the Committee are Mr. and Mrs. William Wimberley, Mr. and Mrs. Edgar Lemons, Henry Dow and Della and the Rev. Paul McClung.

It was a game that would have saved baseball in New York, had it been played there.

Legal Notice

NOTICE OF HEARING ON CITY PAVING ASSESSMENTS THE CITY OF HEREFORD DEAF SMITH COUNTY, TEXAS

Notice is hereby given to all abutting property owners and persons interested in the properties on the hereinafter mentioned streets, that on the 18th day of August, 1957, McMorries and Associates, Engineers, have filed with the City of Hereford, the estimated amounts per front foot proposed to be assessed against the owner or owners of abutting property and such property, on each street to be paved by the City of Hereford, as well as the total cost of the improvements on each street or portion thereof, and that the same has been duly approved by the City Commission, and the same was ordered filed and shall remain on file with the City Clerk in the City Hall in Hereford, Texas, as well as all of the plans and specifications pertaining to such proposed improvements, and that any and all property owners and persons interested therein within the City of Hereford or elsewhere may inspect the same; and further that the City of Hereford, by Resolution adopted, has fixed the second day of September, 1957, at 7:30 o'clock, P. M., in the City Hall in Hereford, Deaf Smith County, Texas, as the time and place for all of such owners and persons interested in such paving, and in such properties, to appear and make objections thereto; if any there be, and to contest the amounts of the proposed assessments, the lien and the liability thereof, the special benefits to the abutting property and owners thereof, by means of the improvements for which assessments are to be levied, the accuracy, sufficiency, regularity and validity of the proceedings, and contract in connection with such improvements and proposed assessments, if it is so desired; and this notice is given as provided in Section 9 of Article 1105b of the Revised Civil Statutes of the State of Texas, in that the City proposes to levy such costs against the respective properties as are shown in said proposed paving assessments as so filed by said City Engineers with the said City of Hereford, and against the owners of such properties.

Said streets to be paved, and the cost of the improvements on such portions thereof, with the amount per front foot proposed to be assessed for such improvements against abutting property and the owners thereof of each such portion, is as follows, to-wit:

On Avenue A, from the North line of the existing paving on Union Avenue to the North property line of Grand Avenue, width of 37 feet, triple asphalt surfacing on 6 inch flexible base; the amount per front foot proposed to be assessed against abutting property and the owners thereof for improvements exclusive of curb and gutter is \$2,339.87; the amount per front foot proposed to be assessed against abutting property and the owners thereof for curb and gutter is \$1,705.2; the total amount per front foot proposed to be assessed against abutting property and the owners thereof is \$4,045.07; the estimated cost of the improvements is \$8,896.10;

On West Second Street, from the existing paving on Jackson Street to the East property line of Ross Street, width of 51 Feet, triple asphalt surfacing on 6 inch flexible base; the amount per front foot proposed to be assessed against abutting property and the owners thereof for improvements exclusive of curb and gutter is \$2,394.8; the amount per front foot proposed to be assessed against abutting property and the owners thereof for curb and gutter is \$1,705.2; the total amount per front foot proposed to be assessed against abutting property and the owners thereof is \$4,100.00; the estimated cost of the improvements is \$8,896.10;

On Bradley Street, from the existing paving on Knight Street to the East property line of Texas Avenue; width of 31 Feet; triple asphalt surfacing on 6 inch flexible base; the amount per front foot proposed to be assessed against abutting property and the owners thereof for improvements exclusive of curb and gutter is \$1,705.2; the total amount per front foot proposed to be assessed against abutting property and the owners thereof is \$3,994.1; the estimated cost of the improvements is \$2,549.05;

On Ross Avenue, from the existing paving on West Third Street to the existing paving on West Fourth Street; width of 37 Feet; triple asphalt surfacing on 6 inch flexible base; the amount per front foot proposed to be assessed against abutting property and the owners thereof for improvements exclusive of curb and gutter is \$2,288.9; the amount per front foot proposed to be assessed against abutting property and the owners thereof for curb and gutter is \$1,705.2; the total amount per front foot proposed to be assessed against abutting property and the owners thereof is \$3,994.1; the estimated cost of the improvements is \$2,549.05;

On Bradley Street, from the existing paving on Knight Street to the East property line of Texas Avenue; width of 31 Feet; triple asphalt surfacing on 6 inch flexible base; the amount per front foot proposed to be assessed against abutting property and the owners thereof for improvements exclusive of curb and gutter is \$1,705.2; the total amount per front foot proposed to be assessed against abutting property and the owners thereof is \$3,994.1; the estimated cost of the improvements is \$2,549.05;

On Bradley Street, from the existing paving on Knight Street to the East property line of Texas Avenue; width of 31 Feet; triple asphalt surfacing on 6 inch flexible base; the amount per front foot proposed to be assessed against abutting property and the owners thereof for improvements exclusive of curb and gutter is \$1,705.2; the total amount per front foot proposed to be assessed against abutting property and the owners thereof is \$3,994.1; the estimated cost of the improvements is \$2,549.05;

On Bradley Street, from the existing paving on Knight Street to the East property line of Texas Avenue; width of 31 Feet; triple asphalt surfacing on 6 inch flexible base; the amount per front foot proposed to be assessed against abutting property and the owners thereof for improvements exclusive of curb and gutter is \$1,705.2; the total amount per front foot proposed to be assessed against abutting property and the owners thereof is \$3,994.1; the estimated cost of the improvements is \$2,549.05;

On Bradley Street, from the existing paving on Knight Street to the East property line of Texas Avenue; width of 31 Feet; triple asphalt surfacing on 6 inch flexible base; the amount per front foot proposed to be assessed against abutting property and the owners thereof for improvements exclusive of curb and gutter is \$1,705.2; the total amount per front foot proposed to be assessed against abutting property and the owners thereof is \$3,994.1; the estimated cost of the improvements is \$2,549.05;

On Bradley Street, from the existing paving on Knight Street to the East property line of Texas Avenue; width of 31 Feet; triple asphalt surfacing on 6 inch flexible base; the amount per front foot proposed to be assessed against abutting property and the owners thereof for improvements exclusive of curb and gutter is \$1,705.2; the total amount per front foot proposed to be assessed against abutting property and the owners thereof is \$3,994.1; the estimated cost of the improvements is \$2,549.05;

Youth-Sponsored Revival Set at First Methodist Sept. 1-6

DUNNAM

The First Methodist Church's youth-sponsored revival, Sept. 1-6, begins Sunday with guest preacher Harral Dunnam preaching at the regular 10:55 a.m. and 7:30 p.m. services. The revival, completely youth-planned and promoted, is for members and visitors of all ages.

Dunnam is a student at Perkins School of Theology, Southern Methodist University, Dallas. He is the son of the Rev. and Mrs. S. M. Dunnam of Dumas and formerly of Hereford.

Song leader for the services will be Robert Davis, a sophomore ministerial student at McMurry College, Abilene. A member of Wesley Methodist Church, he is the son of Mrs. H. L. Lane of Hereford.

Juanella Rose, a music major at West Texas State College, and new choir director for the church, will be organist for the meeting. The daughter of Mr. and Mrs. C. W. Rose of Tulsa, she will be a senior at WT this year.

A breakfast will be served Monday through Friday at 6:45 a.m., with morning services following. The services will be over by 8 a.m. Evening preaching services will begin at 8 p.m. after prayer groups at 7:30. Following the evening services, recreation will be held for the young people at different homes.

Sunday School Classes will be working on attendance for each night. The young people will be in charge of the breakfasts, prayer groups, ushering and other duties.

At 6:54; the amount per front foot proposed to be assessed against abutting property and the owners thereof for curb and gutter is \$1,705.2; the total amount per front foot proposed to be assessed against abutting property and the owners thereof is \$3,994.1; the estimated cost of the improvements is \$2,549.05;

At 6:54; the amount per front foot proposed to be assessed against abutting property and the owners thereof for curb and gutter is \$1,705.2; the total amount per front foot proposed to be assessed against abutting property and the owners thereof is \$3,994.1; the estimated cost of the improvements is \$2,549.05;

Christian Women's Fellowship Meets

"Let's Begin Over," was the theme of the Christian Women's Fellowship Group I study Wednesday, Aug. 21, when the First Christian Church group met with

Mrs. Bert Brown and Mrs. J. B. Elliston for study and worship and morning coffee.

Mrs. V. E. Dodson led the study session, assisted by Mesdames Ira Ricketts, F. S. Smith, Ida May Vaughn and S. O. Wilson. Mrs. Smith led the worship program, assisted by Mesdames Ricketts and Elliston.

WESTWAY NEWS

Diedra Thomas on Camp Fire Trip

By MRS. T. B. THOMAS

Mr. and Mrs. Gene Jones and David of Midland drove by to visit with her uncle and family, the G. C. Merritts. The Jones family had visited with relatives in Amarillo and was en route home.

Diedra Thomas left on Sunday for a five-day camping trip to Ceta Glen with the local Camp Fire and Bluebird groups. Diedra is a member of the Wawee-sup group, led by Mrs. J. T. Gilbreath Jr.

Mr. and Mrs. T. B. Thomas, Danny and Deborah visited on Sunday afternoon in Hereford with Mrs. Edwin Morrison and Edwin Jr.

Mr. and Mrs. G. C. Merritt and G. C. Jr. were hosts for a classmate get-together on Sunday with a dinner. Mr. and Mrs. Jim McGinnis, Gladys Lee, Wayne Smith and Charlotte Moore were guests. The young people played monopoly and watched TV.

Allan and Johnny Wilson, small sons of Mr. and Mrs. Glenn Wilson of South Hereford, have been visiting their grandparents, Mr. and Mrs. R. L. Wilson, and son Nathan.

Mrs. Chester Minyin was taken to the Deaf Smith County Hospital recently for observation. She became ill suddenly at her home.

The Joe Wagoner family hosted a cookout supper on Wednesday night. Guests were Mr. and Mrs. G. C. Merritt, G. C. Jr. and Gladys Lee.

Mr. and Mrs. Henry Behrends and Michael of New Holland, Ill., were guests of Mr. and Mrs. Merlin Kaul, Walter and Larry on Wednesday night.

Mr. and Mrs. C. A. Sauley left on Thursday to attend the Old Settlers Reunion at Roaring Springs over the weekend. Mrs. Lester Mullins returned to her home at Matador after spending some time here with the Sauleys. She plans to meet her husband

in San Diego Sept. 26. Seaman Mullins is in Youkska, Japan, at this time.

Other news of servicemen from the community comes from Teddy Alsop, who is attending sonar school at Key West, Fla. Seaman Harley Alsop is attending radio school at Norfolk, Va. Airman Ralph Morrison is stationed in Iceland.

The executive board of the American Legion Auxiliary will meet on Monday night with the new president, Mrs. C. A. Sauley.

The nominating committee of the Westway Union Sunday School met on Tuesday night in the Jack Renfro home. Members of the committee were J. C. Morrison, Elmer Combs and Mrs. Renfro.

Mrs. Lester Mullins accompanied Mrs. C. A. Sauley to Amarillo on Tuesday to visit with Mr. and Mrs. Jimmy O'Dell and children.

Mr. and Mrs. George Turrentine and girls had relatives as their guests on Wednesday. They were Mr. and Mrs. Norbert Roach and three daughters of Arkansas and Mr. and Mrs. Ambrose Adams of Okeene, Okla.

G. C. Merritt Jr. and Walter Kaul, football players at Oklahoma A&M at Stillwater, left on Saturday for early fall practice. Both are sophomore students.

ENGAGEMENT IS ANNOUNCED

Mr. and Mrs. Earl W. Head are announcing the engagement, and approaching marriage of their daughter, Jessie Ann, to Claude M. Hicks, son of Mr. and Mrs. John C. Hicks, Ave. A.

Wedding vows will be exchanged on Friday, Aug. 30, in the Westway Methodist Church.

LEAVE AFTER VISIT

Mr. and Mrs. Ronnie Durham and sons David and Donny have returned to their home in Landers, Wyo., after visiting with their parents, the Byron Durhams and Mr. and Mrs. Bill Knox.

GALA MOOD SET AT REUNION OF CLASS OF 1947

CLASS MEMBERS were feasted and entertained Saturday night, Aug. 17, when the 1947 graduating class of Hereford High School held a reunion dinner at the Jim Hill Hotel. Jack Brumley of Lubbock gave the invocation.

It was a happy company of approximately 75 including husbands and wives of members that assembled for the occasion. The now staid business men and mothers and housewives heard about each members activities during the past 10 years as introductions were made and individual reviews were given, and throughout the program which turned back the clock a decade, laughter rang through the ballroom. Bill Brady served as master of ceremonies.

Mrs. J. W. Robinson, formerly Virginia Lyons, read letters from classmates unable to attend the reunion, and Mrs. Robert Barkley of Bellaire read the account of the graduation exercises in 1947 which, with 75 members, was the largest class to graduate from Hereford

High School to that date.

THE CLASS favorites were Linnea French and James Higgins, Mr. and Mrs. Hereford High; Round-Up Queen, Ramona Gunstenson; Football Queen, Jeannine Singletary; Best Looking, Barbara Burney and Joe Lyons; Most Versatile, Wayne Newsom, and Cherry Ann Forrest; Smile King, Freddy Close; Smile Queen, Virginia Lyons; Most Intellectual, Anne Morgan and J. L. McFarling Jr.; Selected For Who's Who; Jim Worrell, Jeanette Euler, Betty Walker, Aleen Rudd, and Roger Corbett; Best All-Around student, John S. Coombes, Cecelia Guseman, Cameron Gault, Bill Brady, Beverley Barkley and Beth Scott.

Movie films and colored slides of the senior trip to Ruidoso, N. M., were shown by Glenn Russell of Dallas and in conclusion Mrs. Edwin Goodall of Breckenridge, the former Barbara Burney, led

(Continued On Page 3)

REGISTRARS—Mr. and Mrs. J. W. Robinson, seated, and Charles Frye register the guests as they arrive.

COMMITTEE—Charles Frye, left, Mrs. Charles Frye, started plans for the reunion in 1956 and Mrs. J. W. Robinson, Cecelia Timberlake and Bill Brady tied them through to conclusion. Brady made up the arrangements committee. They

BACHELORS—Here are the five bachelors of the class who have just been presented consolation prizes of pin-up girls. They include Clifford Kerr, left, John Samuel Coombes, Roger Corbett, Peyton Ramey, and Cameron Gault.

WINNERS—Mr. and Mrs. J. D. Poarch are each holding a pair of baby shoes which were the prizes won by the couple present having the most children. They qualified with five sons.

TRAVELERS—Mr. and Mrs. J. B. Sowell Jr. of Houston and Mrs. Robert Barkley of Bellaire receive a prize for traveling the greatest distance to attend the reunion.

FOOD'S ON—Charles Frye, left, Mr. and Mrs. James E. Higgins and Joe Lyons serve themselves from the bounteous buffet table.

Legislature Casts Wondering Glance At State-Wide School Methods and Results

When school opens next week, the beginning of another record breaking term will be underway. Hereford schools will operate on a new all-time high budget with more teachers and more classes than ever before; they will shatter all previous enrollment records.

All of these things will be done under compliance and in cooperation with State of Texas authorities to meet required standards. The Hereford schools, in addition, will not differ greatly from hundreds of others in the state.

Despite the tremendous growth, however, there appears to be some doubt concerning modern day school methods in a few minds. This doubt appeared recently in the halls of the Texas Legislature, which recorded a need for improvement in Texas Schools and resulted in the following editorial which appeared in The Dallas News:

"The need is becoming more obvious every year, as graduates fail to show grasp of the three r's. That a legislative committee, even with outsiders on it, can do much

about the situation is doubtful; yet the need for action remains.

"We have taken pride in our fine school buildings and our stadiums and have overlooked the fact that much of the teaching was degenerating. Exponents of the misnamed Progressive Education have diverted attention to frills and have done away with discipline. The result has been that many pupils fail to learn to read and write correctly and are unable to use the multiplication table.

"Not uncommon are instances like that of a recent graduate of SMU, an English major, who made three mistakes in grammar in the first sentence of a letter. Yet the main fault is not with the colleges but with the grade and high schools. College teachers can hardly be expected to spend all their time on what should have been taught before graduation from high school.

"Watching television has taken the place of home work, and the hickory stick has been banished; but the outcome does not justify these backward steps. A day of reckoning in education can not long be postponed."

modeled buildings are apparent on every hand. Many of the churches have even moved into new locations, while attractive parks now stand where boys and girls once gathered to fly their kites and play ball each spring.

Recognizing these changes recalls the old adage of not being able to see the forest because of the trees. It is very much like the time grandmother sees your small daughter after a year's absence! She just cannot understand how Little Susie grew so much.

The important thing, though, is the fact that our community is changing. If it remained ever the same, it would be a rather drab place to live, and certainly it would diminish, rather than expand in size, scope of service or future potential. So long as the youngsters come home with "Ohs" and "Ahs," we might conclude that things are well. In fact, they might look so good that one or two of these boys and girls would decide to move back—and that is when you are really getting somewhere.

Those Dear, Sweet Disgusting Wives

Wives are the most perplexing, disgusting, sweetest, dearest things in the world. They are undoubtedly the most valuable asset a man ever became the property of.

Just what those old boys thought up in Amarillo when their wives put up a squawk about the V. F. W. bar we will never know but, if they think it over carefully, they are bound to agree that maybe the little woman was right—after all. How are the kids going to eat and buy school clothes if the bread winner squanders his pay check in some club bar? How is he going to make the monthly car payments when there is nothing but sugar in the sugar bowl?

Time was when a man could kick in his wife's teeth and go gayly along with his philandering. Today, however, public opinion has swung too far to permit such tactics. Besides, the gals are too smart. They retaliate by calling in the cops!

The modern wife likewise contributes much toward keeping the family life on an even keel. If the husband wants to vacation in the mountains, she prefers the sea shore; if he mentions the coastal region, she invariably holds out for the mountains. The family goes where she says, of course, but it still results in a more balanced situation.

The average wife, while adopting this extra-curricular authority, has managed to hold tightly to that which she already possessed. The family still eats what she dictates and wears the clothes she picks out for them; mom is also the one who decides when it is necessary to call the doctor. The husband has fairly well hung onto one thing, though, he is the fellow who still empties the trash.

Gaillard Begins with Button

By JOSEPH E. DYNAN

PARIS (AP)—French Finance Minister Felix Gaillard, a scholarly young economist with a head-start in this nation's political sweepstakes, is bearing down on his greatest hurdle: Putting France's public accounts back in order.

At 37, the tennis-playing boy wonder of French economics is the youngest French finance minister of his century. If he succeeds in his present task he can become the most notable as well. By almost universal judgment the nation's shakiest stages since the century began.

Today, while he pushes through new taxes and browbeats other ministers into trimming their budgets, Gaillard keeps an ordinary underwear button on his desk as a reminder of the torturing problems ahead. An aide found the button in a drawer of the minister's office when the Gaillard team took office in mid-June.

"SEE THAT," says Gaillard pointing to the button, "that's all my predecessor left for me."

Even that is an exaggeration. Before the new tax and economy program was adopted, experts estimated that the national reserves of gold and foreign currency would be gone dry by the end of the summer. Despite the Gaillard economy program the budget still has a deficit of about \$2,280,000.

Relatively tall, well-groomed with closely cropped dark hair over his studious horn-rimmed glasses, Gaillard got off to an impressive start as finance minister when he persuaded a reluctant National Assembly to endorse new taxes totaling 420 million dollars.

It was all the more impressive because the same program topped the preceding Guy Mollet cabinet, and Premier Maurice Bourges-Maunoury had fumbled awkwardly in presenting the taxation bill. Before Gaillard took the rostrum, Assembly veterans were already thinking of Bourges-Maunoury as an ex-premier in his first month of power.

CALMLY, lucidly, without oratorical dramatics, Gaillard presented the situation. He pulled no punches. A person who believes in letting facts speak for themselves, Gaillard simply read out the grim report on the country's finances. Applause showered on him and when the bill came up for a vote it passed with an unexpectedly large margin.

In France the Finance Ministry is looked upon as a grooming ground for potential premiers. In a sense it is the equivalent of the New York governorship. And from that afternoon

FELIX GAILLARD

In the Assembly, the name of Gaillard went on everyone's list of eventual premiers.

Gaillard has already won laurels as a person of unusual ability, intellectual brilliance and skill in economics. He is one of a new, postwar generation, nurtured in the despair of Nazi occupation but

matured in the inspiration of the resistance movement.

Gaillard came out of the war convinced, like his mentor Jean Monnet, that France must modernize her industrial plant and methods, and must take the lead in joining her ancient enemy across the Rhine in building a unified Europe. From this conviction stems his reputation as a "strong European," and an advocate of new techniques and wider horizons for French businessmen.

IN JULY of 1955 Gaillard headed the French delegation to the Brussels Conference which eventually produced the common market and Euratom plans. A few weeks ago he had the pleasure of sitting on the government bench as Parliament ratified both treaties by heavy majorities.

Married, Gaillard has one son and his wife is expecting. The minister likes both tennis and music, and rates better than fair at each. He frequently starts off the day with an early match against his "boss," Bourges-Maunoury — their aides decline to reveal who usually wins — and finishes up in the evening by pounding out-classes or jazz on the piano at home.

TEXANS IN WASHINGTON

Johnson Pushes for Conservation of Texas' Water

By TEX EASLEY
AP Special Washington Service

WASHINGTON (AP)—Ever since coming to Congress in 1937 Senate Democratic Leader Lyndon Johnson has pushed for water conservation through harnessing of streams to control floods and store up water for use in times of drought.

Coming to the House from the Austin district, Johnson worked for flood control and power dams. Lake Buchanan and Marshall Ford dams were built with funds he helped obtain soon after taking office.

Some time ago he asked the Interior Department to make a long range study of water utilization possibilities, in the way of reclamation projects, throughout Texas. Now about two-thirds finished, the detailed report of the Reclamation Bureau is due in about two years.

In recent months he has repeatedly told the Senate that more flood control-water storage projects are needed not only in Texas but elsewhere in the nation.

HE POINTS out that less than 17 billion dollars has been spent on such improvements by the federal government since 1776, while almost four times that much has been raised for foreign aid in the last 12 years.

"Our investments in water development projects have not been large enough," he says. "We are going to have to do more."

In his latest move he sent a memorandum to Maj. Gen. E. C. Itchner, chief of the corps of Army Engineers, and to Wilbur A. Dextheimer, reclamation Bureau commissioner. Subject: Intergrated federal water program in Texas.

He told them Texas must have a "predefined, realistic Federal water program" giving the state maximum benefits and assuring the federal government maximum return on its investment. He noted that Texas has suffered drought damage estimated at \$2,700,000, (\$3 in the past decade, and that flood losses earlier this year amounted to 106 million dollars.

"WATER SUPPLY is the controlling key in the future of Texas," he continued. "Unless effective action is taken immediately, Texas will literally run out of water in 10 to 15 years. The water problem is the only limiting factor on the continued growth and economic expansion of Texas."

Then in language which government agency heads might interpret as a virtual command, coming from a lawmaker who has much say-so over appropriations of money with which they operate, Johnson added:

"I urgently request that the Corps of Engineers and the Bureau of Reclamation, working together, devise and submit to me, not later than April 30, 1958, a 'mock up' (outline) of a Texas statewide water program where Federal funds are involved with an initial division of responsibilities as between your two agencies.

"This is to be a coordinated Corps-Reclamation program, particular where water supply is involved in an integrated, inter-basin activity."

Johnson estimated the "probable total cost" of such a federal water supply program in Texas over the next 25 to 30 years as approximately 1,300,000,000.

QUESTION OF THE WEEK

No Changes Would Be Made If Past Could Be Relived

What would you do if you had the past five years of your life to live over?

HAROLD LOERWALD—This is kinda hard to answer but probably I would do about the same things I have done.

MRS. W. T. VERNON—I just don't know, because the last five years have been perfect. I think I'd do the same things.

DOC COWAN—Oh, I don't know. I guess I'd do the same thing and follow the same course.

MRS. KENNETH WEAVER—I wouldn't do anything differently. I don't have a thing to regret that would amount to anything.

LYNN KESTER—That question is too complicated and can't be answered on the spur of the moment.

MRS. M. C. ADAMS—I don't know of any specific changes I would make. I believe the last five years have been a very nice five years and have been satisfactory. I don't think of anything specifically that I would change.

MRS. F. M. CAMPBELL—Go to church more often, I guess, and just try to live a better life in general.

LLOYD NEILL—Oh, gosh, boy, I don't know how to answer it exactly, but I guess I would do the same things again.

MRS. S. L. EASLEY—I've had such a wonderful time I don't know if I'd change anything or not. I've had sorrows, such as deaths, but all in all, I've had a wonderful life the last five years.

ed with gadgets, today's housewife finds an array of frozen foods and canned delicacies to lighten her household tasks. She is a far cry from the pioneer mother, who wiped sun-bleached strands of hair from a sweating brow as she carried water up the hill to the family shack or dugout. Modern womanhood, you might say, has benefitted most from all progress in this era of American life, generally considered the world's highest degree of civilization.

Like the instance in Amarillo, where the

wives protested the open bar, you generally have to admit that the wife is right. This is especially true after you mull things over, and loss in the fact that she is, in many instances, a co-bread winner for the family. A survey on the Continent recently found European women branding their American counterparts as the "most spoiled women in the history of the world."

Actually, it seems to us that the description might better fit the average American man.

Panhandle Paragraphs

DEPUTIES RESCUE STRANDED BOYS

Hutchinson County deputies Thomas Ramby and Noel Newberry maneuvered a motorboat in swift and treacherous water to rescue four boys stranded on an oil well rig in the Canadian River Saturday, Aug. 17. The boys, Roy Jones, James Hayes and Don and David Boyer, had swum out to the abandoned rig, about 50 yards from the bank, and found that the river had risen and become so swift they were not able to swim back. Two other boys, Larry Harlen and Duane Moore, who were also swimming with the group, notified the sheriff's office. Firemen accompanied the deputies, and tried to steer the boat with a cable tied to it, but objects in the fast moving water broke the cable. After a four-hour stay on the rig, the boys were brought to shore about 8 p.m.—BORGER NEWS-HERALD.

LITTLEFIELD "LATCH STRING" MOVEMENT

Littlefield business and professional men recently inaugurated what they called the "Latch String" movement to invite area residents to do their shopping in Littlefield. Visitors were made to farmers around Earth, Olton, Whitharal and Anton. The businessmen distributed pencils and balloons to the farm homes they visited, and discussed with their hosts mutual problems, ways of improving service and ways of helping the farmers. The movement is being carried on until every farmer in the area around Littlefield has been visited.—COUNTY WIDE NEWS.

VOTERS APPROVE WATER BOND ISSUE

Both propositions of the \$650,000 water bond election held Tuesday were okayed overwhelmingly by the voters of Canyon in a turnout that topped 500. The vote on the first proposition, which will provide cash to purchase water rights to the Mack Forrester land, was 406 for and 88 against. The vote on the second proposition, which will provide money to develop the waterfield, was 397 for and 91 against. Total number of voters was 503. The next step in obtaining water for Canyon will be taken by the city commission when the vote is canvassed and the bond company, Underwood and Company of Dallas, is notified. No dates have been set for selling the bonds or for taking bids for construction work.—THE CANYON NEWS.

FEDERAL VET TESTS LIVESTOCK

A Federal Department of Agriculture veterinarian is testing the livestock in Donley County for tuberculosis. The livestock are tested for TB every six years. Dr. R. N. Allison is running the tests.—THE DONLEY COUNTY LEADER.

The BOOTLEG Philosopher

Editor's note: The Bootleg Philosopher on his bindweed farm has discovered a new angle on the farm surplus situation, his letter this week reveals.

Dear editor: I don't know whether or not I can wait that long, but if I can hold on to my farm out here for a few more years, things ought to be going my way.

The reason I say this is because of an article I read in a newspaper last night which showed up on this place without explanation. There it was in the front yard when I came in yesterday afternoon and I picked it up without asking any question. When a newspaper turns up unaccountably, or when your bank balance shows more than you thought you had, or your income tax return goes unchallenged, a smart man knows it's time to keep quiet and not look back.

According to it, the cities and suburbs of the United States are expanding at the rate of a million acres a year—that's right, a million acres a year—and anybody can see if the process keeps up the problem of farm surpluses eventually will be solved.

It's for this reason I am calling on the farmers of this nation to get off their tractors for a minute and join all the chambers of commerce and civic progress clubs they can in pushing for bigger towns. Every town and city in the United States wants to grow, to expand, to industrialize, and everybody knows the way to make a city, man happy is to tell him he's going to be twice as crowded next year as he was last year.

Up to now, I have sat back and let the cities fight for this goal on their own, but it has now occurred to me the more land the cities take up, the less there'll be to farm, and the less there is to farm, the more a farm ought to be worth.

With a million acres a year going into city property, this beats the Soil Bank all to pieces for taking laid out of cultivation, without costing Congress a cent.

As I see it, all us farmers have to do to finally get in the rider's seat is sit back and egg the cities on. If you know where I can join a chamber of commerce or a booster's club on credit, let me know.

Yours faithfully,
J. A.

HERE'S HOW

Housebreaking an Outdoor Cook

By VIVIAN BROWN
AP Newsfeatures Writer

WOMEN HAVE SPENT the last 10 years saving themselves work by wooing men to the outdoor barbecue. Now many have a problem on their hands: how to keep a glory-thirsty chef from ruining their kitchen indoors.

When a man is performing culinary acrobatics over the garden grate, he's a hero to family and friends. Drunk with praise from hungry guests, at summer's end he often wants to graduate to the kitchen. Many a housewife has learned to her sorrow that he will not easily let go of skewer and grill.

OUTDOORS he has been able to cook with convivial abandon — grease flying and charcoal and burnt hamburger lost to the lawn. Spilled goodies? Just leave them for the squirrels.

Indoors his bout with Escoffier may reach hysterical proportions. Mashed potatoes may be whipped to the ceiling. The stove becomes a fiery inferno from spilled fats. The refrigerator looks like it has been attacked by hungry leopards. And the floor, resembles a thawed ice skating rink from splashed water and sundry liquids.

To top everything, the average man rearranges things to suit his own convenience, even if he only gets into the kitchen weekends. Tall? He'll move staples to the top shelf even if the little woman slaves in the kitchen all week long. If shorter than she is, he'll move all to within his easy grasp. Glasses, ice buc-

ket, soda and what have you will dot the counter for easy reach. Saucers become ash trays.

He'll make pronouncements about how the food should be preserved, whether coffee and bread belong in the ice box, how long to keep hamburger. He'll dispose of leftovers and anything else that annoys him — empty jars (saved for a reason) and bottles that have another serving of catsup, milk, pickles. A man can't bear tidbits.

THERE ARE ways to discourage his cooking aspirations though. It may take a little time, but most women will agree it's worth the effort. Here's how:

1. Tell him you are ill when the meal is over and ask him to please clean up his 18-pot dinner himself.
2. Invite your mother-in-law for dinner and tell her your husband is too bashful to admit he enjoys company in the kitchen when he cooks.
3. Forget to buy an essential ingredient of his culinary specialty when he is cooking for favorite guests.
4. Move the baby's play pen into the kitchen just before he starts the meal. Or sic the older children on him from time to time with requests for orange juice, cookies, milk.
5. Invite his best friends to dinner and then converse in low tones in the living room while he sheds onion tears in the kitchen.
6. Tell him you are on a budget and cannot afford steak, cream, wine, shallots, butter and other

fancy fixin's a man needs to produce a meal. Suggest a complicated casserole.

7. As a final insult, if nothing else works, cover the walls and floors with old newspapers before he begins his cooking session.

THE TYPE OF HOUSE you're going to build is more important than its style. You can visualize how the house is going to look and you can even make changes in its style later on if you want to do so. But its type of construction will determine how well it is going to fit your needs over the years.

There are many styles in houses — ranch style, bungalow, Cape Cod, Tudor colonial, early American and Georgian, just to mention a few. However, there are only four basic types of houses.

Each basic type can be varied to suit a particular style. Also each basic type has certain advantages as well as some drawbacks.

Advantages of the one-story house: There are no stairs to climb. Housekeeping fatigue is reduced. The single floor reduces repetition of installations required in houses with more than one floor such as baths, linen closets and telephone extensions. An impressive length of front exterior is possible. Outdoor living areas as well as off the other rooms. Its low height provides ease of maintenance.

Disadvantages of the one-story house: Bedrooms are not removed from the living and service areas and the bedroom windows are close to street eye level. This reduces bedroom privacy. Construction costs may be higher because of the size of the foundation and roof required and because of the additional land required for a greater house length. It is costlier to operate because of the heat loss in winter and the close proximity of the roof and sun to living quarters during the summer months.

THE STORY-AND-A-HALF Here habitable rooms are on two floors, one above the other and the roof usually is high pitched with the eave just above the first floor windows. The high roof houses the second floor and because of its pitch the room area under it is smaller than the room area below. The room arrangement usually follows this pattern: the living and dining rooms plus the kitchen, bath and one or more bedrooms on the first floor; two or more bedrooms and a bath on the second floor.

This should be considered when you're deciding on the type of house you're going to build.

The following guide can be helpful in selecting the type best suited to your needs.

Advantages of the story-and-a-half: There is a saving in construction cost. The foundation size is much less than it would be if all rooms were on one floor. Exterior wall framing is minimized because the roof does two jobs; it is a cover and it forms the second floor living area. The second floor takes advantage of heat which normally would be lost through the roof of a one story house. Some bedrooms may be removed from living and service areas to permit privacy and quiet.

Disadvantages of the story-and-a-half: The housekeeper must climb stairs. The height of the roof is such that it gives a top heavy appearance. With heat coming up from the first floor, it is more difficult to cool the second floor. Maximum insulation is required for the upper area because of its proximity to the roof.

THE TWO STORY: In this type habitable rooms are on two floors, one above the other, and its floors usually are of the same square footage. All bedrooms usually are on the second floor. Its upstairs rooms usually have level ceilings, and the roof sits on top of the upstairs rooms.

Advantages of the two story: You get maximum square foot living area for the cost of the house; the foundation and roof are just half the size of the overall square footage. All bedrooms can be removed from the living and service areas for quiet and privacy. Heating costs are reduced because the second floor gets the advantage of rising heat from the first floor. This type permits a large house to be built on a modest sized lot.

Disadvantages of the two story: Its tall, narrow exterior appearance usually demands an additional expenditure to "dress up" its facade. Exterior maintenance is difficult because of the height of the second floor and the roof. The housekeeper must climb stairs. Resale may be difficult because statistics show that the two-story house is not the preferred type of home for the average American family.

Advantages of the story-and-a-half: There is a saving in construction cost. The foundation size is much less than it would be if all rooms were on one floor. Exterior wall framing is minimized because the roof does two jobs; it is a cover and it forms the second floor living area. The second floor takes advantage of heat which normally would be lost through the roof of a one story house. Some bedrooms may be removed from living and service areas to permit privacy and quiet.

Disadvantages of the story-and-a-half: The housekeeper must climb stairs. The height of the roof is such that it gives a top heavy appearance. THE TWO STORY: In this type habitable rooms are on two floors, one above the other, and its floors usually are of the same square footage. All bedrooms usually are on the second floor. Its upstairs rooms usually have level ceilings, and the roof sits on top of the upstairs rooms.

Advantages of the two story: You get maximum square foot living area for the cost of the house; the foundation and roof are just half the size of the overall square footage. All bedrooms can be removed from the living and service areas for quiet and privacy. Heating costs are reduced because the second floor gets the advantage of rising heat from the first floor. This type permits a large house to be built on a modest sized lot.

Disadvantages of the two story: Its tall, narrow exterior appearance usually demands an additional expenditure to "dress up" its facade. Exterior maintenance is difficult because of the height of the second floor and the roof. The housekeeper must climb stairs. Resale may be difficult because statistics show that the two-story house is not the preferred type of home for the average American family.

THE SPLIT LEVEL: Here habitable rooms are on three or more levels, each level being about a half flight up or down from its adjacent level. The grade level, with its concrete floor, usually is occupied by the garage, a play or family room and other areas for informal living. The living and dining rooms and the kitchen are on the next higher level. The next level up provides bedroom space and, occasionally, still another level above offers additional bedrooms space.

Advantages of the split level: The various areas of the house can be set apart effectively. Stair climbing is held to a minimum because adjacent levels usually are only half a flight up or down. Garage cost is reduced

by having an area within the main structure for auto storage. Many possibilities for interesting exterior design are offered because of the different roof heights.

Disadvantages of the split level: Construction is more costly because the various levels complicate framing and break up continuous finishing. Heating installations are complicated because of the length of the house and the various levels; insulation becomes an important factor. Exterior grading of the land is more involved.

Brown chicken pieces in deep fat and then finish the cooking in a slow oven, basting with a little stock.

LIVING in the modern manner

5 Piece "Style Setter" Dinette Suite

Here we present a completely new line designed from scratch to meet the 1957 requirement of American Families in Modern Living.

Guided by an exclusive "Demand Evaluation System," each of these suites have been designed and built and priced to occupy a definite position in a practical, workable and thoroughly enjoyable way of everyday life in America. Price-wise, service-wise and looks-wise, they just can't be beat.

Shown above is one of several patterns now in our large selection, featuring "Woodgrain" and other decorative types. Plastic and chrome are combined in the most pleasing manner you have yet seen. The table, 36"x48"x60", is large enough to handle most emergencies... yet, just right to make the average family happier at mealtime.

Come in Monday... and let us show you through our wonderful selection of modern-day dinettes.

Miss Strafuss, Tony Urbanczyk Wed in St. Anthony's Church

ALTAR CANDLES, white and blue chrysanthemums and white petals decorated St. Anthony's Catholic Church Tuesday, Aug. 20, when Miss Loretta Strafuss became the bride of Tony Urbanczyk. The 8 a.m. ceremony was conducted by the Rev. Leon Moczygomba of San Antonio, uncle of the bridegroom featuring the double-ring service.

Parents of the couple are Mr. and Mrs. L. J. Strafuss, who live on a farm north of Hereford, and Mr. and Mrs. Felix Urbanczyk who live south of the city.

Mrs. Arhart Reinart, sister of the bridegroom, was organist and Edward Dzuik Jr., gave the vocal offerings. Mrs. Reinart played the wedding marches and accompanied Mr. Dzuik who sang "Panis Angelicus." "Mother At Thy Feet Kneeling" was played softly as vows were exchanged.

ATTENDING the bride as matron of honor was the bridegroom's sister, Mrs. Sam Mazurek, and bridesmaids were Mrs. Carl Strafuss, Joan Paschel and Mary Ann Rohrbach of Kansas City. Linda Stengel, niece of the bridegroom, was flower girl.

Mrs. Mazurek wore a ballerina length dress of peacock blue crystalline over taffeta. The dress was styled with matching cummerbund with a long panel at the back. The bridesmaids dresses were fashioned identical to that worn by the honor matron, in a darker shade of blue and the flower girl's dress matched the honor matrons.

All the attendants wore matching hats of velvet and crystalline and carried dainty white fans topped with blue pom pom chrysanthemums. The flower girl carried a basket of blue taffeta and crystalline filled with tiny white chrysanthemums.

Carl Strafuss, brother of the bride, was best man and groomsmen were Ed Rohrbach, Sam Mazurek, and Bobby Dzuik. Richard Stengel carried the rings on a satin pillow and ushers were Jim Meyer and David Dzuik.

THE BRIDE was escorted to the altar and given in marriage by her father. She was attired in a gown of white Chantilly lace and

tulle designed with fitted bodice having a Sabrina neckline and long petal point sleeves. The voluminous skirt of tulle was detailed with a deep tunic of lace and terminated in a graceful chapel train in the back. A heart-shaped bonnet brim of lace embellished with seed pearls held her tiered fingertip length veil of illusion and her only ornament was a single strand of pearls. She carried a cascade bouquet of white bridal roses.

The bride's mother wore a navy blue lace dress with pastel blue accessories and the bridegroom's mother chose a dusky rose dress with matching accessories. Their corsages were of white pom pom chrysanthemums.

Following the ceremony Mrs. Albert Stengel and Mrs. J. W. Stengel were hosts for a wedding breakfast for the wedding party at St. Anthony's School. A dinner was served at 1 p.m. for relatives and close friends and at 7:30 in the evening the couple was honored at a reception and dance. Miss Linda Rohrbach presided at the guest register.

For the honeymoon trip to points in Colorado, the bride donned a black and white suit with black accessories and she wore a corsage of white rosebuds.

The bride is a 1957 graduate of Hereford High School, and the bridegroom was a graduate with the class of 1954. Upon their return they will make their home on a farm south of Hereford.

Out-of-town guests attending the wedding were Mr. and Mrs. Ted Cox and family, V. T. Glenn, and Mr. and Mrs. Herb Peek of Amarillo. Mr. and Mrs. Henry Rohrbach and family and Thresa Meyers of Kansas City, Mo., Mr. and Mrs. Johnny Kotam and family, Mr. and Mrs. Ben Urbanczyk, and

Mr. and Mrs. John Urbanczyk, all of White Deer, E. J. Moczygomba, and Lucian Urbanczyk of Panna Maria, and the Rev. Leo Moczygomba of San Antonio.

WHELANS MOVE

Mr. and Mrs. Jim Whelan plan to move to Bovina Monday where both have accepted positions in the Bovina Schools. Mrs. Whelan will teach high school homemaking while he will teach mathematics and science in the elementary schools.

The Whelans moved to Hereford 10 years ago. He was manager of the Kemp Lumber Co. for six years and since that time has been attending WTSC where he received a B. A. degree in June. He has done six hours toward a masters degree during the past summer.

Mrs. Whelan has taught homemaking in the Junior High School here for the past 3 1/2 years, resigning the position here so both could teach in the same school. Both have been active in the Methodist Church and she has taken active part in Club work since coming to Hereford. They have two children, Michael, 9, and Beverley, 7.

HEP COP

PUEBLO, Colo. — Pueblo Police Officer C. E. Bosley was suspended from his job for 48 hours. The reason: Bosley left his beat for one he liked much better. Acting Police Chief Robert L. Mayber, who announced the suspension, said Bosley went to a dance hall — to listen to rock 'n' roll music.

Ever serve celery root? Just peel and dice it, then cook rapidly in boiling salted water until just tender. Drain and serve hot with butter or cold with mayonnaise.

DISPOSABLE PROPERTY CINCINNATI — The cost of getting rid of your wife can be tax deductible, the U. S. Sixth District Court of Appeals has ruled.

The Court said F. C. Bowers of Battle Creek, Mich., was entitled to write off \$45,000 in lawyers fees acquired during his recent divorce litigation because the money was spent "for the protection and conservation of Bowers' property."

Cereals that are kept covered while cooking are more evenly

moist than those that are not covered. A cover also prevents the cereal from forming a dry coating on top.

ROW CROPS NEED NITROGEN!

APPLY PHILLIPS 66 AMMONIUM NITRATE NOW

Corn and other row crops need plenty of nitrogen to return bigger yields and profits at lower unit production costs. Phillips 66 Ammonium Nitrate contains a guaranteed 33.5% nitrogen. Half is quick-acting nitrate nitrogen for fast, healthy growth right from the start and half is ammonia nitrogen to provide long-lasting continued plant feeding.

This high quality fertilizer promotes stronger deeper root systems which make better use of available sub-soil moisture to help you beat the drought. And it helps increase the protein content of grain and feed crops which put more money in your pocket.

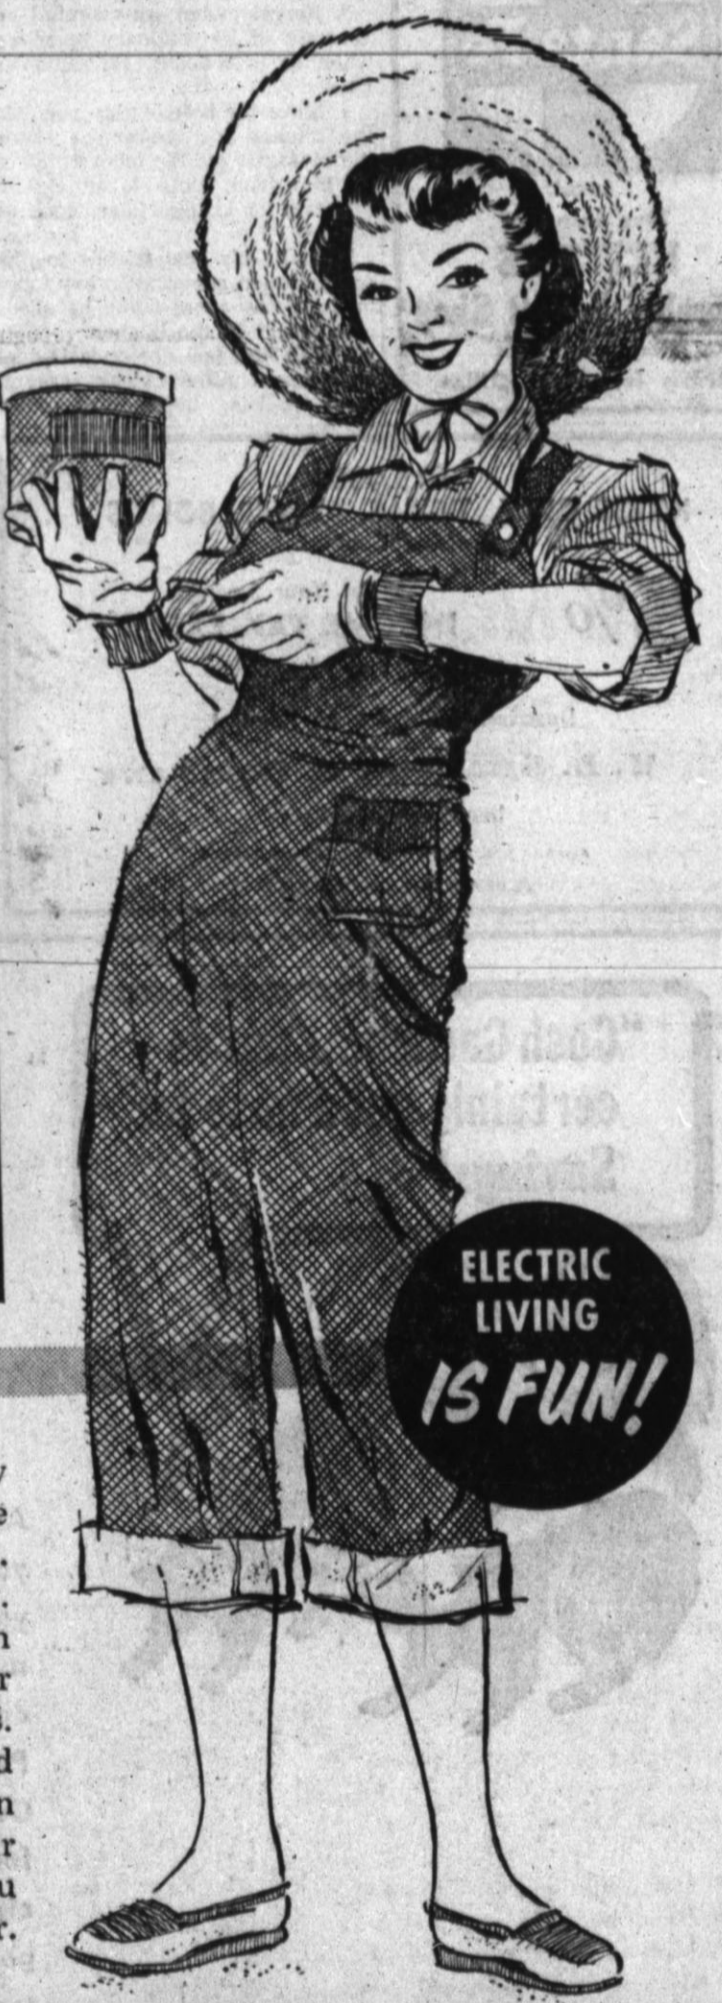

SEE US TODAY FOR YOUR FERTILIZER REQUIREMENTS At The Same LOW PRICE

"I have the freshest garden patch...in my
ELECTRIC HOME FREEZER!"

It's almost as if I had a garden in my house, all winter long. But, it's lots more fun... no weeds, no cultivating... just happy and healthful eating. Anytime I care to, I can have fresh peas, corn, beans, and dozens of other good-tasting, fresh vegetables. Electric living is certainly fun and it's lots more fun when an electric home freezer serves as your home "garden patch". You'll see when you start using your new home freezer.

Vows Said Sunday Afternoon by Miss Evelyn Lee, John Hix

Miss Evelyn Lee, daughter of Mr. and Mrs. J. M. Lee, 118 Ave. H, and John Hix, son of Mr. and Mrs. Thomas Hix who live near Hereford, were married Sunday at 2 p.m. in ceremonies held at the Avenue Baptist Church with the Rev. A. C. Hamilton, pastor, officiating.

Mrs. Carl Jackson served as musician for the wedding playing the traditional wedding marches and "Because" as vows were exchanged.

Miss Frances Thomas, maid of honor, was the bride's only attendant. She wore a pastel blue dress with a corsage of pink carnations. Jerry Hix, brother of the bridegroom, served as best man.

THE BRIDE, given in marriage by her father, wore a white nylon-taffeta and lace frock fashioned with a fitted bodice featuring a bateau neckline and short sleeves. The bouffant ballerina length skirt was attached to the low waistline and a matching balera jacket completed her costume. Her veil of illusion was held by a lace bandeau encrusted with flowers and rhinestones. She wore her mother's heirloom pearls and carried the bridal bouquet of white Frenched carnations on a white Bible showered with white-satin streamers.

Following the double ring ceremony a reception was given in the home of the bride's parents. The bride's table was laid with an imported linen cloth and the three-tiered wedding confection was topped with tiny pink rosebuds and blue forget-me-nots done in sugar-spin-icing.

Mrs. Mack Heaven presided at the punch bowl and Mrs. R. L. Rhomas served cake. Mrs. E. A. Thomas kept the bride's book of names.

WHEN THE couple left on a short wedding trip to Colorado Springs and other Colorado points, the bride was wearing an iridescent cinnamon brown orlon suit with small white hat and white accessories.

Mrs. Hix graduated from Hereford High School and is presently employed with the Southwestern Bell Telephone Company.

Hix is a graduate of Dimmitt High School and spent four years in the U. S. Air Force. He is employed at the Brown Sheet Metal Co.

When the couple return from the honeymoon trip they will live at 606 Texas.

Colorado's first sugar factory was established in Grand Junction in 1899. Sugar beets are one of Colorado's main crops.

Spanish conquistadors brought the first chicken to the Americas. They were the red-jungle fowl of India.

Mr. and Mrs. John Hix (Dickerson Photo)

SITTER AND INSTITUTION
CLEVELAND (AP)—A 23-year-old mother who left her baby with a sitter five or six nights a week while she attended the movies was cleared of neglect charges here because baby sitting is "an American institution."
Juvenile Judge Albert W. Wolman in dismissing the charge said: "Baby sitting is now an American institution. To find this mother guilty of neglect would mean that millions of American mothers are guilty of neglect."

TELEPHONE TALK

by W. L. Leavy, Manager

MECHANICAL BRAIN ARRIVES
The new mechanical brain, that will be Hereford's dial system, has begun arriving. The Western Electric Company is putting it in place. Putting it in place consists of running some four million feet of wire and making over 2,500,000 soldered connections.

We call the system "Crossbar" and I'd like to tell you a little about it.

It will be the first such switching system in West Texas and will allow telephone customers in Hereford to dial their own long distance calls. Only two other cities in Texas, Denison and Harlingen, at present have this unique service.

The switching system in such large cities as Dallas, Fort Worth, Houston, San Antonio, and Amarillo is called "step-by-step" switching, and while modern and efficient, these systems are not as up to date as Hereford's will be.

In "step-by-step" switching, telephone calls progress through the switches in steps, each being made in response to the dialing of a dial "step" switch, which is encased in a protective dust cover that gives it the general appearance of a rural mail box.

"Crossbar" dial switching is quite different. To begin, a crossbar system had to be made on custom designs for Hereford. There is no other crossbar system exactly like it. It was tailored to fit the calling patterns of Hereford telephone users.

In crossbar switching the switches are not tied together as links in a chain, nor do they respond to the step signals as you dial a number. In step switching you generally hear a click in the telephone receiver after each twist of the dial—in crossbar there are no clicks audible to the dialing party until all the letters and numbers have been dialed.

In crossbar there are two main divisions of equipment, each with different functions: (1) control equipment, which establishes "talking paths" by causing the proper switches to operate, and (2) the switching network through which the talking paths are set up.

In other words, when you dial, you tell the control equipment the number you want, and this equipment finds the proper path through the switching network and closes the necessary switches to complete that path.

The crossbar dialing system can be compared very favorably with a busy railroad yard, with the dispatcher in his control tower being the crossbar control equipment and the maze of tracks being the switching network.

The crossbar switch is rectangular in appearance with horizontal and vertical bars crossing in front of it in lattice work fashion.

Coming to Hereford along with the most modern dialing system will be customer long distance dialing, or "Direct Distance Dialing."

When the system goes into service Hereford telephone customers will be able to dial long distance calls directly to about 750 cities across the nation.

This dialing will be done without the caller in Hereford ever speaking to an operator in any city whatsoever.

Call by number. It's twice as fast.
SOUTHWESTERN BELL TELEPHONE COMPANY

WALCOTT NEWS

School Will Open Tuesday

By MRS. T. L. COLLINS
The Walcott School Board met again on Monday night, Aug. 19, with all three members present, Jack Weaver, Glenn Burrus and G. V. Hall, and Principal Thomas L. Collins. At this time it was decided to start Walcott School on Tuesday, Sept. 3, having Labor Day free this year. However, this means that there will be a full day of school on the first day.

It was announced that trial bus runs would be made the last of this week and the first of next. Any questions pertaining to school may be asked of the driver when he makes a brief stop at each home. Information can also be obtained by calling Westway 2174.

Teachers will be the same for the 1957-58 term. Mrs. A. L. Shelton will have first and second grades; Mrs. T. L. Collins, third and fourth; A. L. Shelton, fifth and sixth; T. L. Collins, seventh and eighth.

Mr. and Mrs. Joe Rader are still with the school. Mrs. Rader is cook, and her husband is bus driver and custodian. He has been busy this summer getting the school property ready for the opening of school, doing painting, varnishing, waxing, repair work weed cutting and grass watering.

Other bus drivers are Mrs. Jim Stocks (who drove last year) and Mr. and Mrs. Floyd Brown. Driver for the high school bus to Hereford has not been hired as yet.

Walcott received a total of 2.75 inches of rain Friday and Saturday. Farmers are really busy now. Mrs. J. V. Ferrin is with her mother, Mrs. H. M. Stone, at Haskell. Mrs. Stone is getting along fine, but is still weak from a serious operation. Mrs. Ferrin left home Tuesday, Aug. 6. Her husband and sons expect to go after her this weekend.

Mrs. Minnie Miles from Pampa, mother of Mrs. Jack Weaver and Mrs. Jim Stocks, visited recently in their homes. The women and children spent a day at Buffalo Lake.

Mr. and Mrs. Joe Rader spent the weekend visiting in the home of their son and family, Mr. and Mrs. Gene Rader and Ron. Their daughter and family, Mr. and Mrs. M. C. Davis and girls, and Mrs. M. C. Davis Sr. from Cotton Center were there on Sunday also.

Thomas L. Collins and son Bruce made a short stop with

friends, Mr. and Mrs. Henry Price, at Floydada on their return home from Durant, Okla., with a new school bus.

Mrs. J. M. Payne, Larry and Darla of Hereford were Monday night guests in the home of her parents, Mr. and Mrs. Joe Rader. Larry stayed for a longer visit.

Mr. and Mrs. Dwight Troyer of Littlefield were weekend visitors in the T. L. Collins home. Raymond ate Sunday dinner and spent the afternoon there. Other visitors were Mr. and Mrs. Bob Shields and Travis, and Don Bomar.

A new family has moved to our community on the Wilson Ranch. They are Mr. and Mrs. A. R. Hassell, who moved from Fannin County. They have three children: Rickey, 11, seventh grade; Frances, 10, fifth grade, and Mary, 7, second grade.

Kelly Tyler, son of Mr. and Mrs. N. E. Tyler, had his tonsils removed in the Deaf Smith County Hospital on Tuesday, Aug. 20. Mrs. Tyler has been sick in bed all week.

NAMED TO AGRICULTURAL POST—John E. Hutchison, State Agricultural leader for the Texas Agricultural Extension Service since 1954, has been named acting director of the service, effective Aug. 20. He succeeds G. G. Gibson, who resigned to accept an assignment with the United States operation mission, Karachi, Pakistan. (AP Photo)

"No...Belief in God Is NOT Enough!"

Many people are risking their eternal salvation on a "religion" of their own... which is actually no religion at all.

"Oh, I believe in God," they say, "but I don't go to church. I'm just not the religious type."

Almost everybody, of course, believes that there is a God. Common sense tells us that this is so. But if we actually believe there is a God, should not this same common sense tell us we must do something about it? And how can we give expression to our belief in God if not through religion?

Religion is simply the consequence of our realization of Who God is. It is our striving to be honest and consistent with this knowledge—to learn and fulfill our duties to our Creator.

Catholics believe that God created us for a definite purpose... that He gave us the intelligence to recognize what that purpose is—and the means to fulfill it. It is through our religion that we give evidence of our desire to honor and serve God. It is through religion that we approach God in faith, repentance, love and gratitude.

If you are living in the belief that you don't need religion... that all you have to do is to believe in God and live a moral life... we urge you to ask yourself these questions—NOW: "Why am I living? Why did God create Me?" The most elementary common sense answer is that you are living because God created you... and that God has a purpose in doing so. Catholics believe it is our duty to find out what God's plan is for our lives—and do our best to live it.

If you have been living without any deep religious convictions... it will pay you to read a specially-prepared pamphlet which we will send you in a plain wrapper, without cost or obligation... and nobody will call on you. It discusses such questions as: Can the truth of Christianity be proved? Is it honest to ignore religion? Is science, ethics or education a substitute for the Church? Also other topics that should concern you deeply. For free copy write today... ask for Pamphlet No. KC-18.

POTPOURRI

Alton Brock Goes to Camp

By MARSHA COCKRELL

S. Sgt. Alton Brock left Hereford Wednesday after spending a month with his parents, Mr. and Mrs. Arthur Brock, 711 Park Ave. S. Sgt. Brock has been stationed in France for 13 months. He left for California, and he will go from there to Spokane, Wash., where he will be stationed.

Mrs. J. S. Orr's son and family, Mr. and Mrs. Duane Orr and Dan of Corpus Christi, are to arrive today for a week's visit. Duane, who is district engineer of the Neuges County Navigation District, made a trip to Europe in July as U. S. delegate to a navigation conference in London.

Mrs. Orr had other visitors last week. Mr. and Mrs. R. H. Nickell of Cleburn left Friday, Aug. 16, after spending a few days.

Mrs. W. N. Leamon had company recently from Trenton, Mr. and Mrs. Walter Huff.

Mrs. Luther Weber and daughter Mary Elise from Marshall were guests from Tuesday until Friday in the Arthur Tietel home. Mrs. Weber is Arthur's sister.

Una Jean Withrow of Grand Junction, Colo., has been here for two weeks with her grandparents, Mr. and Mrs. Frank Tarkett. She came Aug. 11 and plans to leave Monday.

Mr. and Mrs. James Garner have been in Fort Worth to visit her mother, Mrs. Rosalee Hill. Mrs. Hill has visited in Hereford several times.

Mr. and Mrs. Ky Lawrence and their daughter and family, the J. B. Nolands, gave a Lawrence family reunion over the weekend with the family spending Friday at the Rock Clubhouse. Present were brothers and sisters of Ky, as well as nephews and nieces who live in and around Hereford.

Two sisters have been in the Lawrence home since Monday. They are Mrs. Mattie Wadden of Chico, Calif., and Mrs. Lela Pirtle, Albuquerque, N. M.

Mr. and Mrs. Aubrey Smith of Barstow, Calif., and Mrs. Richard Pinkert and children Patti Jayne, Larry and Lorri Lynn of San Bernardino, Calif., were recent visitors in the homes of Mr. and Mrs. C. D. and F. L. Pinkert.

Guests for dinner last Sunday in the home of the C. D. Pinkerts, Mr. and Mrs. L. C. Montgomery have returned to their home in Dallas after spending two weeks here with her sister, Lucile Hughes. Mrs. Montgomery is the former Aileen Hughes of this city. While here the couple was enter-

tained by many old time friends and relatives.

Miss Hughes was hostess for a family get-together last Sunday. Present were Mr. and Mrs. Montgomery, Mr. and Mrs. T. M. Yelverton of Portales, N. M., Mrs. G. W. Millard and Myra Nancy Millard and Arline Willson of Amarillo, Mr. and Mrs. C. R. Morgan of Wichita Falls and Mr. and Mrs. J. L. Pevley.

Mrs. I. H. Spratt has had as a guest the last few days her daughter-in-law, Mrs. Katie Mae Spratt from Abilene. Mrs. Katie Spratt teaches in the Abilene public schools.

Colline Brown, daughter of Mrs. C. O. Brown, has returned from her stay in Georgia this summer doing work with rural youth groups in Methodist churches.

Mr. and Mrs. Claude Francis and family have just moved to Clovis, N. M., and will be teaching in the Clovis school system this year. Mrs. Francis, who taught here last year, will be teaching home economics at Clovis Junior High, and her husband will teach sixth grade at James Bickley Grade School. They are living at 208 West Manana.

Mrs. Colby Conkwright and Mrs. Jay Boston attended a seminar for mission training in Amarillo Tuesday at St. Paul Methodist Church. Mrs. Conkwright is president of the Amarillo District Woman's Society of Christian Service, and Mrs. Boston is secretary of missionary education in the local organization.

Mr. and Mrs. Bert Boomer and Margaret are back from their vacation in Colorado. Mr. and Mrs. Boomer picked Margaret up at Camp Truchas near Taos, N. M., where she has been serving as a junior counselor, and their son Lynn at Moriarty, where he has been farming this summer.

The family met Mrs. Boomer's parents, Mr. and Mrs. Walter Taylor of Clarendon, and her sister and nephew, Mrs. Steve Matthews and Steven of San Antonio, at the Flying W camp at Pagosa Springs, Colo. Mrs. Boomer reported that "Fishing was good and we had a good rest." Lynn returned to New Mexico after the trip but came home Friday.

Mr. and Mrs. W. S. Fluitt recently made a trip to Denver, Colo., and relatives there joined them on a trip to Washington. The Fluitts visited their daughter, Mrs. D. H. Whitehead in Prosser, Wash., and brought their granddaughter, Jackie Brown, back to Hereford. She had been visiting her aunt for two months.

While in Washington, the group fished for salmon in the Strait of Juan de Fuca. Mrs. Fluitt reported that the party of ten caught 42 salmon, ranging from 15 to 24½ pounds.

Ethel Womble returned Wednesday night from a visit in Tulsa, Okla., with her sisters, Mrs. Jessie C. Hasley, Miss Womble

Get Ready for School With Health Check-up

stayed with her sister two weeks.

Mrs. William F. Smith of Brawley, Calif., arrived Wednesday for a visit with her parents, Mr. and Mrs. C. O. Wilkins. Suzanne, daughter of Mrs. Smith, has been here the past six weeks and will return home with her mother the first of next week.

Sammy McLaiben will spend next week vacationing in Marble, Colo., with an aunt and uncle.

Mr. and Mrs. Terry McRight are here for a three weeks visit with their parents, the Neise McRights and M. R. Kimbroughs. He attends Northwestern University in Evanston, Ill., and they will return for the fall semester.

Mr. and Mrs. J. C. McCracken left Saturday for Houston to visit their daughter and son-in-law, Mr. and Mrs. Pat McCullough. En route they will attend the wedding of Corinne Cameron and Joe Easley in Fredericksburg today.

color in their faces. This is an individual matter and you cannot change it by pouring in vitamins and iron: A good red color to the mucous membranes is evidence of rich healthy blood. A tanned skin looks well on a child but do not confuse a tan with the rosy look of health. Anemic children sunburn and tan just the same as healthy children. If your child's color is not as good as it should be, be sure to ask your doctor to do a blood test. Find out how low the hemoglobin is and what should be done to improve it.

It may be that your child needs some improvement in his diet. He may need more protein, more of the foods rich in iron and vitamins. Maybe he needs a tonic for a while.

On the other hand it may be that your child needs more sleep and rest or perhaps it's more exercise he needs.

Occasionally a child may be anemic because he has had tonsils or an infection lurking around in his body somewhere.

YOUR DOCTOR will determine whether or not your child is in A-1 condition. If the doctor is not satisfied that your child is in the best of health he will determine first why your child is below par. Then the doctor will know how to tell you what to do to improve your child's health.

The below-par child is likely to be pale, to tire easily, to slump in his posture, to be cross and irritable. Such a child is not going to be a good student.

El Salvador, in Central America, is Spanish for "The Saviour." Its capital, San Salvador, means Holy Saviour.

NOTICE CONCERNING CHANGES IN BENEFITS UNDER WORKMEN'S COMPENSATION INSURANCE COVERAGE

Effective Sept. 1, 1957

1. Maximum weekly benefit raised from \$25.00 to \$35.00 for death and disability;
2. Unlimited Medical Care;
3. Payment to second-injury fund for no-dependent death case raised from \$1,500 to \$3,000.
4. Weekly benefits for permanent partial "Other Cases" to be computed by taking 60% of average wage, limited to the weekly maximum of \$35.00 and then multiplied by the percentage of disability.

The above changes will go into effect Sept. 1, and the State Board of Insurance has issued an order increasing the present rates 12.2% . . . also effective September 1, 1957 on all new, renewal and outstanding policies.

Because of the above changes, the State Board of Insurance has issued an order increasing present rates 12.2% effective September 1, 1957. This rate increase is applicable as of the above date on all new, renewal and outstanding policies.

We are preparing at the present time endorsements for all outstanding policies and these will be sent you just as quickly as possible.

It should also be pointed out that the new unlimited medical care eliminates the need for additional medical and, for this reason, September renewals which had previously had such coverage have been prepared without it.

HARVESTS GRASS—Ernest Bostick, on his farm just south of Hereford, used a modified binder last week to cut his flourishing crop of sorghum alnum. Yield will not be known until the seed has been headed and cleaned after drying in shocks. Sorghum alnum, a new forage crop here, has attracted much attention due to its vigorous growth and some controversy due to its resemblance to Johnson grass. (Staff Photo)

TIERRA BLANCA S. C. D.

Planting Legume Is Good Business

By MAX SCHRADER

Many farmers on the Llano Plains are finding that including a legume in their crop rotation is a good sound business. The legume itself doesn't contribute to income but the effect it has on the soil more than makes it profitable.

"We're getting well into our present planting season. It won't be long until our soil will need a cover on it for protection from blowing. We have many high residue producing cover crops that give adequate protection to the soil. Crops such as barley, rye and wheat will give the soil all the protection needed, but for best results a soil improving legume might well be interplanted with them. Interplanting doesn't give the same results as a pure stand of legumes but given a couple of years they will provide considerable soil improvement.

Early plantings of Vetch and Austrian Winter Peas must be made to get the desired results in regard to soil cover. We would suggest planting them no later than the middle of September. In this manner the plant can still get the needed warm weather before winter sets in.

What is really desired from a cover crop is both protection from erosion and improvement on soil condition and fertility. To get the desired protection they must be put into the soil early. It often happens that one season's growth fails to provide the desired results. Many times to obtain the greatest soil improvement they must be given an additional year for growth. When a legume, such as vetch, fails to give maximum improvement it is usually related to the condition of the soil

itself. It's very likely low in the soil organisms and residues needed to provide the vetch with plant food for growth. It, then, must first build up the soil before it can make its greatest growth and contribution to soil fertility.

By the second year a cover crop will have usually literally filled the soil with roots, built up its fertility and increased the ability of the soil to absorb moisture far faster than before. This in itself will help the soil hold far more of our rains by taking up moisture more rapidly and help make each irrigation more effective by providing greater capacity for storage in the soil.

Class Is Feted in Clovis, N.M.

Faithful Workers Class of the First Baptist Church were entertained in the home of Mrs. Roy Thompson, a former member, in Clovis, N. M., Monday.

Following a luncheon held at a Clovis restaurant, the group held a business meeting at the Thompson home. Mrs. Joe Kendall presided with Mrs. Roy Calvert opening the program with a prayer. The nominating committee for new officers was named to include Mesdames Grady Parsons, Goldie Criswell and Miss Della Stanger. Games were conducted by Mrs. Jeff Roberson.

At the conclusion of a social hour light refreshments were served to Mesdames Roy Calvert, O. H. Herring, Ruby Verdin, Hazel Bruner, Louie Olson, Sanford Smith, Jeff Roberson, Goldie Criswell, Joe Kendall, and Miss Della Stanger.

AMBITION REALIZED

NORFOLK, Va. (AP) — Jimmy Whyte of Fife, Scotland, a sailor on the British aircraft carrier Ark Royal, realized his ambition on the visit of his ship to this port.

Jimmy wanted to ride in an American police car with the lights flashing and sirens screaming. On his first night ashore he told police about it. He rode with two officers, S. E. Cherry and E. W. Farr. He liked it and they liked him, so Jimmy spent every night of his four-night liberty with them in the police car.

SUIT'S AUTO SUPPLY CO.

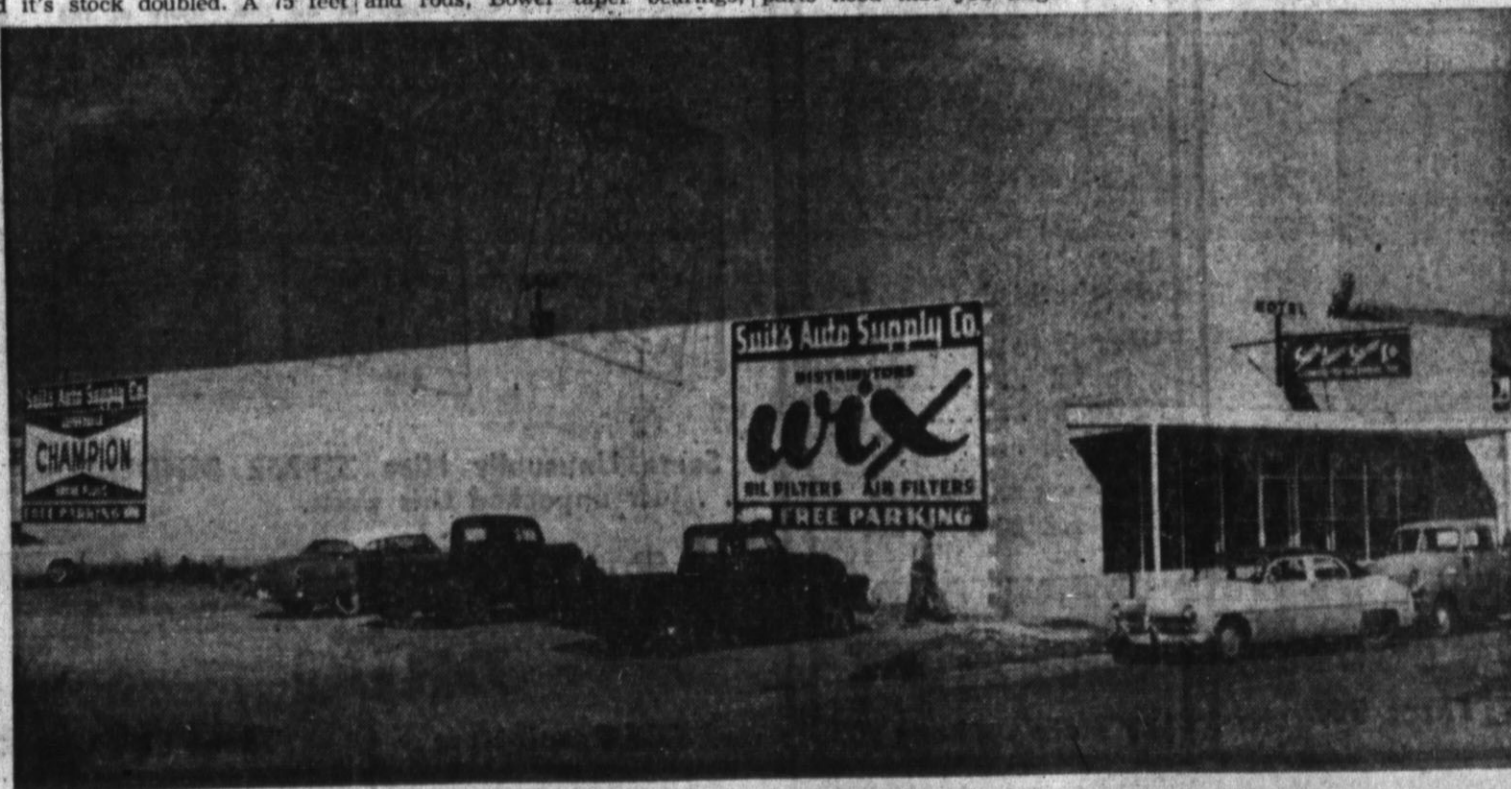

Suit's Auto Supply Co., a one hundred per cent home owned business, was originally established in February, 1947 on North Main street. This firm, under the able management of Ray Suit, grew to such an extent that in May of this year it was moved to a new building at 115 Schley where its stock room area was more than tripled and its stock doubled. A 75 foot by 140 feet parking lot is free for customers of Suit's.

Included in famous name brands handled by this firm are Sealed Power engine repair parts, Auto Lite batteries, Wix oil filters and supplies, a complete Thermoid line, Carter carburetors and parts, Federal Mogul engine bearings and rods, Bower taper bearings,

B. C. A. ball bearings, Victor gaskeets and the famous re-manufactured Mustang motors.

The quality and service of Suit's Auto Supply is not only known in Hereford but to an ever increasing area around it. The fully experienced staff of trained employees are well able to help you in any parts need that you might have.

All have attended clinics and special schools, are backed by practical experience and are specialists in the parts line. When asked for a statement concerning the objective of his firm, Mr. Suit said, "Our desire is to be able to better serve our customers. It is always our objective to give better service, quality and competitive pricing to all."

Wedding Vows Exchanged by Miss Seagler, Darold Baldwin

MARRIAGE VOWS were exchanged recently by Miss Anita Seagler, daughter of Mr. and Mrs. G. C. Seagler Rt. 1, Plainview, and Darold Baldwin, son of the Rev. and Mrs. E. H. Baldwin of this city. The double ring ceremony was performed by the father of the bridegroom in the Happy Union Baptist Church.

An arch of ferns, entwined with yellow carnations, at the altar was flanked by tall candelabra holding lighted tapers and baskets of yellow gladioli and carnations on satin columns were placed at either side. Large palm trees in the background completed the decorations and the bridal aisle was marked by white satin bows and greenery.

Wedding music was provided by Mrs. Carl Rambo, organist. Selections included "I Love Thee," "I Love You Truly" and "Indian Love Call." Miss Linda Haggard at the piano accompanied John Hawkins, vocalist, who sang "Always" and "Because." Traditional marches were used for the processional and the recessional.

Miss Mary Lynn Johnston of Shamrock was maid of honor and bridesmaids were Vondelle Germany of Petersburg and Janelle Seagler of Morton, cousin of the bride.

ALL THE attendants wore identical sheath dresses of wedge-wood blue satin-cotton with matching net overskirt. They wore matching headbands and white gloves. Miss Johnston carried a nosegay of yellow carnations accented with white streamers and the bridesmaids carried yellow nosegay carnations with yellow streamers. Candles were lighted by Sydney Kerr of Idalou, the bride's cousin, and Mrs. Olagene West, sister of the bridegroom.

Robert Baldwin served his brother as best man and ushers were Stanley Seagler and Godfrey Baldwin, brothers of the couple.

The bride, given in marriage by her father, wore a full length gown of white acetate brocade-tafeta designed by her mother. The fitted bodice was fashioned with empire waist, scalloped neckline and cap sleeves. The voluminous skirt was caught by flowing pleats at the sides which draped into a Cathedral train in the back, and she wore matching mitts of the taffeta. Her elbow length veil of tulle was joined to a cap of pearl beads and seed pearls and her bouquet was of white rosebuds cascaded with stephanotis and satin streamers tied in love knots. Traditional customs were carried out by the bride for sentimental reasons.

Mrs. Seagler chose a beige silk shunting dress with brown accessories for her daughters wedding and the bridegroom's mother was attired in blue wearing white accessories. Their corsages were of white carnations.

A RECEPTION was held in Fellowship Hall of the church following the ceremony. Guests were registered by Miss Linda Haggard and Misses Marzee McLaughlin, Jodelia Culp and Sandra Seagler presided at the refreshment table. Others assisting in the house party were Mesdames Weldon Boydand, C. R. Seagler, and Miss La Donna Lane.

Centering the bride's table which was laid with a white lace cloth, was the wedding cake decorated with yellow roses and wedding bells on an antique cake stand, an heirloom in the bride's family. Yellow flowers and lighted tapers completed the setting.

When the couple left on a wedding trip to points in New Mexico, the bride was dressed in a brown and white suit with white accessories. After Aug. 30 they will be at home in Canyon.

Mrs. Baldwin is a 1955 graduate of Petersburg High School and at-

Mrs. Darold Baldwin (formerly Miss Anita Seagler)

tended West Texas State College, where she is a member of the Baptist Student Union, Buffalo Gals and Kappa Tau Sorority.

Baldwin was graduated from Wellman High School and attended W. T. where he is a member of the Baptist Student Union, and

the Buffalo Bills. Both are senior students at W. T. and plan to continue their college work there. Baldwin is also employed with the Canyon Public Schools.

Fortenberry Family Has Clovis Reunion

The descendants of the late Mr. and Mrs. J. C. Fortenberry of the Cedar Hill Community, held their sixth family reunion in the IOOF Hall in Clovis, N. M., recently.

Brothers and sisters attending were Jack and Hugh Fortenberry of Adrian, Mrs. C. V. Lemons, Mrs. J. R. Kelly, Mrs. Mae Taylor and Tom Fortenberry of Lockney, and Joe Fortenberry of Carlsbad, N. M.

Officers serving the past year were reelected. They include Joe Fortenberry, president; Mary Dorris, secretary and Donald Fortenberry and Norma Dean Welch were chosen to compile a family history.

A luncheon, served by members of the Rebekah Lodge, was featured at the noon hour.

Those attending were Mr. and Mrs. Joe Fortenberry of Carlsbad, N. M., Mr. and Mrs. Jimmie Bradley and daughter of Amarillo, Mr. and Mrs. J. M. Fortenberry and Mr. and Mrs. Charles Higgins and son of Hereford, Hugh and Donald Fortenberry, Mr. and Mrs. Jake Fortenberry and children, Mr. and Mrs. Jack Fortenberry and Christine of Adrian, Mr. and Mrs. C. V. Lemons, Mr. and Mrs. Fred Fortenberry, Mr. and Mrs. Robin Fortenberry,

Mr. and Mrs. Eldon Fortenberry, and daughter, Mrs. Louise Durham and sons, Mrs. Norma Dean Welch, Mrs. J. R. Kelly, Lawanna Ann Taylor, Mrs. M. H. Taylor, Mr. and Mrs. Tom Fortenberry, Mr. and Mrs. Cephus Fortenberry and daughters, of Lockney, R. Fred Brown of Floydada, Modrell Williams, Mr. and Mrs. Geo. Halliday and Carl of Clovis, Cecil Van Hoesen of Bridgeport, Mrs. Patsy Boone of Childress, Mr. and Mrs. Gus Wesley of Plainview, Mr. and Mrs. Frank Taylor and son of Hollis, Okla., Mrs. Stella Sevier and children of El Paso, H. Roy Brown of Silverton, Mr. and Mrs. Richard Fortenberry of Bellevue, N. M., Mrs. Alma Douglas of Clovis, N. M., Mr. and Mrs. E. J. Dorris and sons of Wagon Mound, N. M.

Members of the group decided that the annual reunion will be held in Clovis again next year.

PRODUCTION OR LEISURE

FLINT, Mich. (AP) — Automation with a 40-hour work week could double the standard of living in the United States in the next 25 years, says Prof. William Haber, University of Michigan economist. Haber says the determining factor will be whether automation is used to increase production or provide greater leisure.

West for One (1) mile between sections 21 and 22, Block K-8, and ending at the southwest corner of section 21 and the northwest corner of section 22 in Commissioners Precinct No. 2, the whole distance being approximately three (3) miles.

And we do hereby notify Mrs. Lillie E. Garrett, of 1873 Grand Ave. Fort Worth, Texas and any and all persons owning lands through which said road may run, that we will at the same time proceed to assess the damages incidental to the opening and establishment of said road, when they may, either in person or by agent or attorney, present to us a written statement of the amount of damages, if any, claimed by them.

Witness our hands this 22nd day of AUGUST A. D. 1957.
