To Feed A Hungry Nation

Hereford potatoes and carrots were moving full blast this week as harvest reached the mid-way point on potatoes and began picking up momentum on carrots.

ESTIMATED GROSS: \$3 1/2 MILLION!

Carrots, Potatoes Rolling To Market

Vegetable growers are busy these days harvesting potatoes and carrots, which should gross into a figure of \$3 1/2 million for the area.

Around Town

Tomorrow is Dollar Day and, among other things, it should put the hex on several sales.

Urlin Streu says Monday is absolutely the final day on his "Quit Business Sale" and that he still has for sale "one eagle."

Bob Lamm was celebrating Saturday morning after he opened a letter and learned that he won twelfth place in a nationwide Westclox display contest.

Potato growers right now are doing their best to "get their money back"...

Carrots started off well, bringing \$35 a ton last week. The average yield is running "10 tons or better" to the acre...

Potatoes have been mixed this season, but the price has been sharply down during the past two weeks, running from \$1.50 and \$1.75 to \$2.00 on reds...

variety: a white, Idaho Russet type potato, are showing some profit, however, and fortunately most of the growers did include a small acreage of this variety in their planting.

Shippers and handlers estimate that 50 to 60 percent of the 1961 spud crop has gone to market. A total of some 6,000 acres of potatoes were planted in the Hereford district...

Even at the low price of 1.75 a bag, potatoes will gross something like \$2 million in the district this year. Carrots, if the present \$35 price should hold, will gross close to \$1 1/2 million.

'Mystery Car' Driver Turns Up In Hospital

The mystery of the mystery car has been solved. Jim Johnson, 33, 212 North St., was resting comfortably in Deaf Smith County Hospital Wednesday morning...

According to Johnson, he fell asleep at the wheel of his 1954 model car sometime between 10 and 10:30 Tuesday night. The car overturned after running into a bar ditch and striking a culvert.

Thieves Aim At Castro Farmers

An estimated \$600 worth of tires, wheels and various farm equipment has been taken from area farmers during the last week. Sheriff's officers report no luck in apprehending the thieves...

Formby To Enter Governor's Race

A former Hereford man, Marshall Formby, co-owner of local radio station KPAN, has unofficially thrown his hat into the ring as a candidate for governor of Texas.

Formby, who came to Hereford in 1948, built KPAN in partnership with John Blake of Brownwood and then remained in Hereford for three years as manager of the station.

PERMITS TOP \$750,000

Building Boom Hits Hereford

Building permits issued during the first seven months of 1961 in Hereford have jumped almost 50 per cent over those issued during the same time in 1960.

Morgan Construction Co., \$14,000. N. L. Wesson took out a \$2,500 permit to build a real estate office, James Bradley, Jr. was granted a \$5,000 permit for a storage building.

Eighty-eight permits totaling \$754,880 were issued by City Clerk H. N. Benson this year. In 1960 permits totaled \$342,700 for the first seven months.

City records show the following figures on building permits: 1960 PERMITS ISSUED

Table showing 1960 building permits issued by month: January (\$67,850), February (\$69,750), March (\$83,000), April (\$85,480), May (\$85,500), June (\$77,800), July (\$43,000), TOTAL (\$754,880).

1961 PERMITS ISSUED

Table showing 1961 building permits issued by month: January (\$96,200), February (\$59,930), March (\$125,400), April (\$119,600), May (\$112,250), June (\$148,100), July (\$103,400), TOTAL (\$754,880).

Twelve building permits were issued during July, 1961, totaling \$103,400. Repairs and additions accounted for five of these permits with new constructions being responsible for the remaining seven permits.

Receiving permits for remodeling jobs or additions were Jim Scott, \$400; Wayne Shaw, \$750; Mrs. J. F. Ward, \$250; Floyd Waeton, \$1,000; E. A. Thomas \$5,500.

Permits for building new residences were issued to Leo Wilkowski, \$35,000; D. & R. Builders, \$12,000; Virginia Wallace, \$7,000; F. H. Lindsey, \$20,000;

A CASE OF

All Work No Pay

If you don't believe in gremlins, you had better convince the folks out at the A&P vegetable sheds that the mischievous little imps do not exist.

Several times during the past week, A&P employees have arrived at work only to find that the freight cars they had loaded the evening before were mysteriously unloaded during the night.

The motive is not theft, for the unloaded potatoes are all ways found neatly stacked by the dock. It's not so much that the A&P people mind loading all the cars again, it's just that they hate to see all that nighttime energy going to waste.

Six County Boys Attend 4-H Lab

Six Deaf Smith County 4-H Club members will attend the 1961 Texas 4-H Junior Leadership Training Laboratory at Lake Brownwood Christian Retreat, August 14-20.

Attending from Hereford will be Dick Plank, 15, son of Mr. and Mrs. Earl Plank, who live east of Hereford; Lu Anne Higgins, 18, daughter of Mr. and Mrs. A. B. Higgins, east of Hereford; Larry Hill, 15, son of Mr. and Mrs. Elmer Kimbell, 521 Star; Caroline Brumley, 16, daughter of Mr. Homer Brumley, east of Hereford; Jimmy Higgins, 14, son of Mr. and Mrs. Karroll Higgins, Frio; and Sharon Beizer, 17, daughter of Mr. and Mrs. A. J. Beizer, Dimmitt Highway.

Drop President Kennedy A Line

Here's your chance to write the President. James W. Witherspoon, chairman, and members of the sugar beet committee, urged this week that everyone in this area write President Kennedy, direct, urging him to ask Congress this session to pass a law which would give the American farmers the right to produce sugar, especially in view of the war scare.

"We are urging the administration to take hold of the matter," Witherspoon said, "and if everyone will write, it will help. People all over West Texas are also joining the movement. The address, in case you don't recall, is: 'The White House, Washington, D. C.'"

Because of a lack of complete information concerning the new farm bill, passed Thursday in Congress and to become effective in 1962, The Brand called Con. Walter Rogers and requested a summary of the new program as it specifically affects grain sorghums and wheat, the two major crops of this area which come under the new bill.

By WALTER ROGERS Member of Congress

Lower Acreage Mandatory On \$2 Wheat Prop Grain Farmers Must Cut Acres To Get Supports

1962 Wheat Program Provides: (1) A mandatory reduction of ten percent in wheat acreage and offers incentives for producers to reduce acreage voluntarily another thirty percent to maximum forty percent acreage curtailment on individual farms.

(2) An exemption from marketing quotas is limited to 13.5 acres per farm or the highest acreage planted for harvest in 1959, 1960, or 1961. The present exemption is 15 acres.

(3) Price support is limited to producers who do not exceed their reduced 1960 acreage allotment and who divert an acreage at least equal to ten percent of their previous acreage allotment to conservation uses, with payments in cash or in kind on up to 45 percent of normal production for such diversion.

(4) Payments in cash or in kind up to sixty percent on normal production on wheat acres voluntarily removed from production above the mandatory ten percent diversion.

(5) Authority for producers to plant castor beans, guar, sunflower, safflower, or sesame, if designated by the secretary, subject to the conditions that no payments shall be made with respect to diverted acreage devoted to any such commodity.

(6) Increases the marketing penalty from 45 to 65 percent of parity price and establishes stricter computation of amount subject to penalty in cases of noncompliance with allotments.

(7) Provides that where producers can prove their 1959 and 1960 acreages and yields, these figures shall be accepted. (Continued on page 9)

HEREFORD'S FIRST Edwin Thomas Chosen To Play In All-Star Game

In exactly four more days, Edwin Thomas will become the first Hereford athlete in history to play in the Texas High School All-Star Football Game.

Thomas, 18-year-old son of Mr. and Mrs. Henry Thomas, 322 Ave. J, has been a familiar figure to local gridiron fans for the last three years. He will play in the all-star game on the night of August 10.

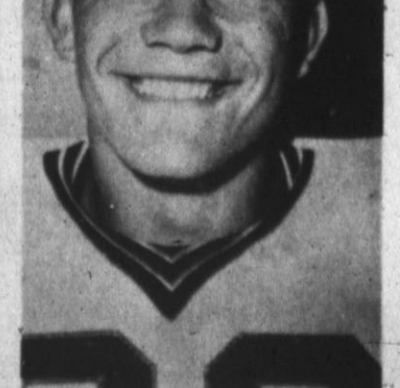

The contest, which features the top football players in the state, is held annually in conjunction with the Texas High School Coaching Clinic. This year the clinic is being held in San Antonio.

Thomas, twice selected on Texas Sports Writers Association Class AAA All-State team, is a three-year letterman for Hereford High School in both football and baseball. He will join Steve Slagle, 1959 basketball star, as being the only Hereford athletes ever chosen to play in a state all-star game. Slagle is now a regular member of the West Texas State basketball squad.

After signing a letter of intent to play football for Southwest Conference member school Rice University, Thomas decided that the Big Eight Conference held more fortune and has chosen Oklahoma State University as the place to display his talents. Thomas selects Dimmitt

fullback Junior Coffey as the best opponent, he has ever faced and Hereford fullback, Eddie Skypala, as his best Whiteface teammate. Coffey is headed for the University of Washington, Skypala will attend West Texas State.

Thomas is one of three area players chosen to play for the North squad. His area teammates will be George Tiffany, Amarillo High School fullback, and Donnie Anderson, Stinnett halfback.

## Special Sewing Class Is Sponsored By H-D Agent

Mrs. Argen Draper, Deaf Smith County Home Demonstration Agent, is conducting lessons in basic dressmaking to a class of eight Negro women. Mrs. Draper is using the laboratory method for the six-lesson course at the Bull Barn.

Three lessons have been completed and the course will continue next week. After the students have finished their garments, a style show is planned. A definite date has not been set for the modeling.

Each of the students has agreed to teach someone else to sew. Mrs. Draper reports. Presently there are three Negro churches in Deaf Smith County and 56 students attend the Parkview Elementary School.

An intensive Clothing Program has been in operation in Deaf Smith County for 12 years with most of the construction done through the leaders.

The Clothing Program Building Committee is made up of nine committees, one of which is the Clothing Committee. The Clothing Committee purpose is to help the Extension Service meet the needs of the local

### Garza Funeral Held Saturday

Funeral services for Antonio Garza, son of Mr. and Mrs. Abel Garza of the Labor Camp, were conducted August 5 at 1:30 p. m. in San Jose Mission with the Rev. Raymond Gillis officiating.

Interment was in St. Anthony's Cemetery.

He died August 4 at 7 a. m. in Deaf Smith County Hospital and was born Sept. 12, 1957 in Mathes, Tex.

Survivors include his parents, two brothers and one sister.

Nearly 40 per cent of the population of Sweden, or about 2.75 million people, have been vaccinated against polio since 1957.

Smith County residents better and appropriately dressed, Mrs. Draper points out.

The committee seeks to achieve its purpose by teaching the selection of designs for figure types, how to match colors and colors that flatter, how to match fabric and design, wardrobe planning and efficient storage.

Those enrolled in the present clothing workshop include Mesdames Clydean Scott, Mattie Whitten, Gladys Gaines, Valaska Eastman, Lorene Peters, Sylvia Mae High, Ethelene High and Laura Walker.

### Services Held Saturday For Wallace Hill

Funeral services were held for William Wallace Hill at 10:30 a. m. Saturday in Rose Chapel of Gilliland Funeral Home in Hereford with the Rev. Russell Wingert, pastor of the First Presbyterian Church, and the Rev. B. L. Davis, pastor of the First Baptist Church, officiating. Mr. Hill, 71, Hereford, rancher and farmer, died at 2:30 a. m. Thursday, Aug. 3, in Northwest Texas Hospital in Amarillo, where he had been a patient

three months. Burial was in Rest Lawn Cemetery in Hereford under direction of Gilliland Funeral Home. Born in Hartwell, Ga., on April 16, 1890, Mr. Hill married Blanche Dale on March 8, 1913 in Pawnee, Okla. He came from Oklahoma to Ochiltree County Texas in 1907. The Hill family moved to Deaf Smith County in 1932. As a building contractor, Mr. Hill was responsible for numerous constructions in Oklahoma, Texas, Kansas and New Mexico. In 1940 he became interested in the development of farm and ranch properties in Hereford. He was an early-day aviator and interested in the development of aviation in the

Panhandle area. Mr. Hill was a member of the Methodist Church, and a Master Mason for 35 years. Survivors in addition to his wife, are three sons, Charles and Francis Hill of Hereford, and Forrest Hill of Amarillo; one daughter, Mrs. Nelle Luck of Roswell, N. M.; one brother, Charlie C. Hill of Holtville, Cal.; three sisters, Mrs. B'Arcy Quinn of Alhambra, Cal., Mrs. C. E. Wise of Los Angeles, Cal., Mrs. Edward Ricou of Bakersfield, Cal., and eight grandchildren. Pallbearers include Earl Plank, Stanley Sigman, Grady Rogers, Ralph Hastings, Tandy Legg, Jim Witherspoon, Oscar Easley and J. P. Jones, all of Hereford.

### It Costs \$10 To Throw Beer Cans

Throwing beer cans on streets, lawns and driveways may be fun, but it can also be an expensive pastime. The charge is "litterbugging," and it cost three men \$10 each when they were intercepted by a police patrolman in the wee hours of Thursday morning.

City officials said the trio is the sixth group to face such charges this year, and that each of the offenders have paid fines. In some instances

Have you ever had a litterbugging experience?

His brand new boat never had offenders have been "caught in the act;" in others they have been arrested after interested citizens took down license numbers and relay the information to city officers. Litterbug fines can run to a maximum of \$200, the amount being assessed by the judge, and depending on circumstances involved in the case.

### Dead Man Turns Out Dead-Drunk

A 44-year-old Plainview laborer was found dead Friday night . . . dead drunk.

A frequent visitor to county jails, he was spotted by a passing motorist as he lay in the front yard of a home on 25 Mile Avenue. Thinking he was a victim of a speeding automobile, the motorist falgged down Highway Patrol officer Carol Parker and Deaf Smith County Deputy Bill McCarver. The officers investigated and found the laborer passed out on the grass with his feet hanging over the curb. He was

issued a ticket to Deaf Smith County Jail until he can be tried by Justice Of The Peace C. B. Miles on Monday.

### Household Scrapbook

By Roberta Lee  
**Do-It-Yourself Blackboard**  
Blackboards can be made on a smooth plastered wall or a shellacked wooden panel by applying several coats of the following paint: Fine lampblack, two ounces, mixed with fine pumice stone, eight ounces, and boiled linseed oil, 16 ounces. To this, add enough turpentine to make four pints. Let the surface dry, and sand it smooth between coats.

**Glass Stopper**  
If a glass stopper sticks, revolve the neck of the bottle slowly in the heat of a burning match. The heat will cause the neck to expand, thereby releasing the stopper.

**Sardine Sandwiches**  
When making sardine sandwiches, chop a pickle into the sardine paste. This will add materially to the taste.

**Warped Records**  
When phonograph records become warped, they can be straightened out by weighing them with books, or other objects that cover the entire disk. Before attempting to straighten them, however, make sure that they are room temperature, since a cold record could crack. Usually the process takes about 24 hours or so.

**Vinegar Cruet**  
If your vinegar cruet looks cloudy and a mineral deposit has accumulated in the bottom of it, fill it with water, add a little ammonia, and let stand for several hours, or overnight. Then rinse with clear, hot water.

**French Jewelry**  
French jewelry that has become tarnished can be cleaned and polished by using any good toothpaste.

**Fresh Dishcloths**  
Coffee and tea stains are the commonest cause of dingy-looking dishcloths. Keep your cloths sweet-smelling and clean looking by putting them into a wide-mouthed jar filled with half water, half laundry bleach, whenever the cloth isn't in use.

**Sticky Gum**  
Chewing gum can be removed from clothing by rubbing the spot with pure lard, then rubbing on a quantity of soap. Follow by washing alternately with water and turpentine.

**Screen Repair**  
You can make a pretty substantial repair on your screens by just covering the holes with mosquito netting and then coating over this with some shellac.

**Starch**  
If there is any leftover starch, use it for scrubbing hearths and tiles. It will give a nicer finish than soap and water.

Heifer is the modern spelling of two Anglo-Saxon words, heaf meaning "high ox." It probably got that name because a heifer seems to stand high on her legs compared to a grown cow.

BY RICHARD LEGGITT  
Ray Todd, a man with a reputation for rebuilding football squads, is preparing to try his carpentry on the 1961 Hereford Whitefaces.

Todd, newly hired backfield coach of the Whitefaces will be taking his place this fall alongside head coach Jack Meredith and line coach "Willie" Williams as they attempt to rebuild a football team which was torn down by graduation.

As they prepare their offense for this fall, "Meredith-Williams and Todd Inc.," are planning a wide open attack that will run up the score and please the fans. They also hope that it will win 10 foot-

ball games. Describing the new offense, Todd says, "It's easier to say what it won't be. It won't be the type of offense where the ball is snapped, the fans see a cloud of dust and the officials signal second down and seven yards to go."

"We will be trying for long gains," Todd says, "I guess you could call it a 'T' formation with flankers." Explaining further, Todd said that this year's offense will be geared around veteran halfbacks Dennis Hodges and Mack Casler.

Todd was a school mate of Meredith at Daniel Baker in Brownwood. Since those days, Daniel Baker has joined forces

with Howard Payne — also a Brownwood college, keeping the latter name. The 32-year-old backfield coach of the Whitefaces received three letters for his football efforts at Daniel Baker.

His first coaching job was at Danbury a class B school where after, one year as assistant, he was named head coach for football and basketball.

After a four-year stay in Danbury, Todd moved to Moody where again he was head mentor in two sports. Winless for 23 games in Moody, Todd put his rebuilding talents to work and during his last three years there he lost only three

conference ballgames and won one district title.

As he takes his backfield into action for the first year here, Todd feels that he has moved into one of the toughest loops in the state. "Any team in the district could take the title," he stated.

When asked if he thought there was quite a bit of difference in the ball played in the higher classification, Todd nodded. "Boys get specialized coaching in AAA ball, where in the lower brackets they can only benefit from the knowledge of one or two coaches."

Todd feels that the first task in rebuilding a team is to build confidence in the players. "It is easy for the players to get a defeatist attitude when they lose so often," he said.

Knowing that the quarterback slot is the big question this year, Todd said that with the right quarterback the Whitefaces could go a long

way this year. "Deception will be the key to our offense and I believe it will go he said."

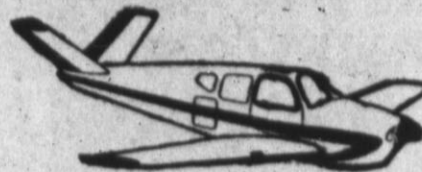

Along with his coaching duties this year, Todd will teach

social studies. His wife Dink will teach reading in Stanton Junior High. They are the proud parents of two girls, Barbara, 11 and Debbie 9.

RAY TODD, Hereford's new backfield coach, likes to see his boys in motion with an open attack designed to run up high scores.

JUST A FENDER BENDER was this accident but it totaled \$1300 worth of damages. The Chevrolet belonging to Mrs. Clara May crashed into the parked Lincoln of V. O. Hennen.

## Two Car Accident Causes \$1,300 Property Damage, Minor Injury

A two-car accident Friday morning caused \$1300 worth of damages and sent a Hereford woman to Deaf Smith County Hospital where she was treated for minor lacerations about the face.

Mrs. Clara Rector May, 38, 708 B Miles was issued a ticket by city police officers for improper observation after she crashed into a parked car at 511 Miles at 8:37 a.m. Friday. According to reports, Mrs. May reached down to remove a pebble from her shoe losing control

of the car she was driving. Investigating officers listed the owner of the parked car as V. O. Hennen, 703 Lee St. Damage was estimated at \$900 to the Hennen car and \$400 to Mrs. May's automobile. Mrs. May was treated and released at Deaf Smith County Hospital.

### Higgins Attends Range Program

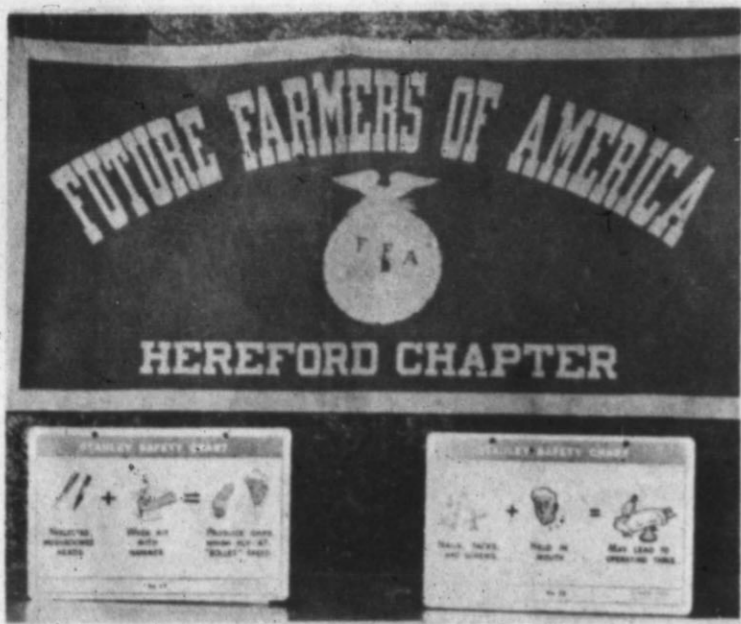

Jim Higgins of Hereford is attending the seventh annual Youth Range Camp at the Texas A & M Adjunct near Junction. Higgins is the Deaf Smith County representative, sponsored by the county Leaders Council.

The week's camp is for outstanding 4-H and Future Farmers of America boys and is sponsored by the Texas Section of the American Society of Range Management. The boys were selected on a basis of outstanding 4-H and FFA work and interest in or projects with range management.

Expenses for each boy attending the camp were secured from local banks, service clubs, soil conservation districts, livestock associations, farms and other organizations.

The program will include study, judging range conditions, wild-life management, ranch planning and field trips to the Awbrey Kothman and Peirce Hoggett ranches and the Ranch Experiment Station at Sonora.

Boys will take notes on the instruction received and prizes will be awarded on Saturday morning, Aug. 5, on the notebooks and herbariums prepared.

Hi-Plains Savings and Loan Association sponsored this booth. (Staff Photo)

### Beauty At Home

BY LYNN CARTER

Q. Although I have a fairly good figure, my legs are so skinny I hate to wear a bathing suit. How can I build up my "bird legs?"

A. If your figure is already good, you cannot eat your way to heavier legs. But here's a good ballet dancer's exercise that might help: Hold to a door frame or the back of a chair, and extend the other arm from shoulder. Turn one foot slightly outward. Bend opposite leg at knee and keep raised throughout exercise (no cheating). Raise up on your toes and then back down flat on your foot, and do a DEEP knee bend with that leg. Use a smooth motion. Return to original position, and keep repeating . . . at least 10 times daily.

Q. Just for the sake of harmonizing shades, would it be a good idea, when tinting the hair, to give some of the same treatment to the eyebrows?

A. Never NEVER . . . not around those precious and sensitive eyes! Any coloring that you add to your brows should be performed with the eyebrow pencil.

Q. How can this office gal remove some carbon paper stains from her clothing?

A. For washables, launder in heavy suds of soap and water. Unwashables can be sponged with a liquid of one cup alcohol and two cups water, then rinsed with cold water.

### Season Tickets On Sale Monday

Season Tickets for the 1961 Hereford Whiteface football home games will go on sale Aug. 10. Tickets may be purchased at Dub's Man Shop, 303 N. Main, Cuby Kitchens, athletic director said Saturday.

The price for a five-game ticket this year will be \$7.50. This is the same price as last year. This year the Whitefaces will play one more home game than they did in the 1960 season.

Fans who have purchased season tickets in the past will have priority on seats. After allowing time for all previous purchasers to get their tickets, the seats will go on sale to the general public on September 1. The 1961 schedule is as follows:

Sept. 1	Brownfield	There
Sept. 8	Canyon	Here

# Deaf Smith Research Lab Prepares World Survey

BY DOT BOWLES  
BRAND STAFF REPORTER

From the little-known community of Hereford, located in sparsely settled West Texas may come some day discoveries which can conceivably change the lives and habits of millions of people all over the world. The vehicles for such a discovery would be research, science and medicine — and all three of these elements are the basis upon which the Deaf Smith County Research Foundation is operated under direction of O. Z. Golden.

Already, the foundation has extensive studies on bone composition, and present plans include expansion of this research on a world-wide basis with which to compare the phenomenal findings already on record in Deaf Smith County. Many observers, in fact, have indicated ever greater possibilities along this line than in the State of Texas dental survey which upset the civilized world a few years back when Hereford's low calories rate was announced.

Like the "prophet with out honor in his home town," the research foundation has been accorded little more than passing attention in Hereford and on the High Plains, where it investigates and operates. In addition to bone research the foundation has done extensive research on soils, cattle and other phases of agriculture, according to Golden, who reviewed some of the activities before the Hereford Lions

Club Wednesday. Golden is an advanced laboratory technician at the foundation and a member of the board of directors. The Hereford laboratory on unequalled facilities anywhere closer than Dallas or El Paso, he pointed out.

At least \$30,000 has been invested in equipment for the research and clinical laboratory, with one instrument, a dual source ratio recording spectrophotometer, costing \$10,000. Other specialized equipment includes a radiation counter for radioactive analysis and a delicate balance which can measure one ten thousandth of a gram.

The clinic is another example of the fine community spirit and awareness in Hereford Golden said. It is completely a local project with no state or federal financial aid. It is financed through local contributions and grants from institutions interested in research.

The research and clinical laboratory would never pay for itself as a commercial venture, the director said. It is a non-profit organization, chartered with the state.

Dr. L. B. Barnett first began working toward such a research lab for Hereford 11 years ago. In 1951 he and Dr. Golden did basic chemistry in Hereford. Golden worked at the Deaf Smith County Hospital before becoming director of the laboratory.

Finally in June 1958 the laboratory began operation. It is located behind the Hereford Clinic at 343 North Miles Ave. The scope of work done at the laboratory includes agriculture, livestock and medicine. Although a small fee of \$4 is charged for special tests done for doctors, farmers and veterinarians, data is collected on all work for future research.

The foundation received a grant from Shamrock Oil Company for work in soil production. Golden explained that a 20 per cent wheat yield increase can often be realized by adding the proper fertilizers. Spot checks have been made in the county on the protein values of milo. When the value falls below eight per cent, it should be corrected by proper fertilization, he pointed out.

The foundation hopes to begin protein analysis on every maze field in the county this fall. An automatic analyzer re-

cently developed has decreased the time needed for an analysis to 14 minutes instead of the four hours usually required.

In soil analyses done for local farmers, Golden said the top eight inches of soil is best for a sample. He explained that one sample might be sufficient for an area if the soil is uniform throughout.

One of the primary projects in livestock research presently is the development of a formula for the prevention of wheat poisoning among cattle, Golden said. With a formula they have already developed about 50 per cent of the wheat poisoning can be prevented.

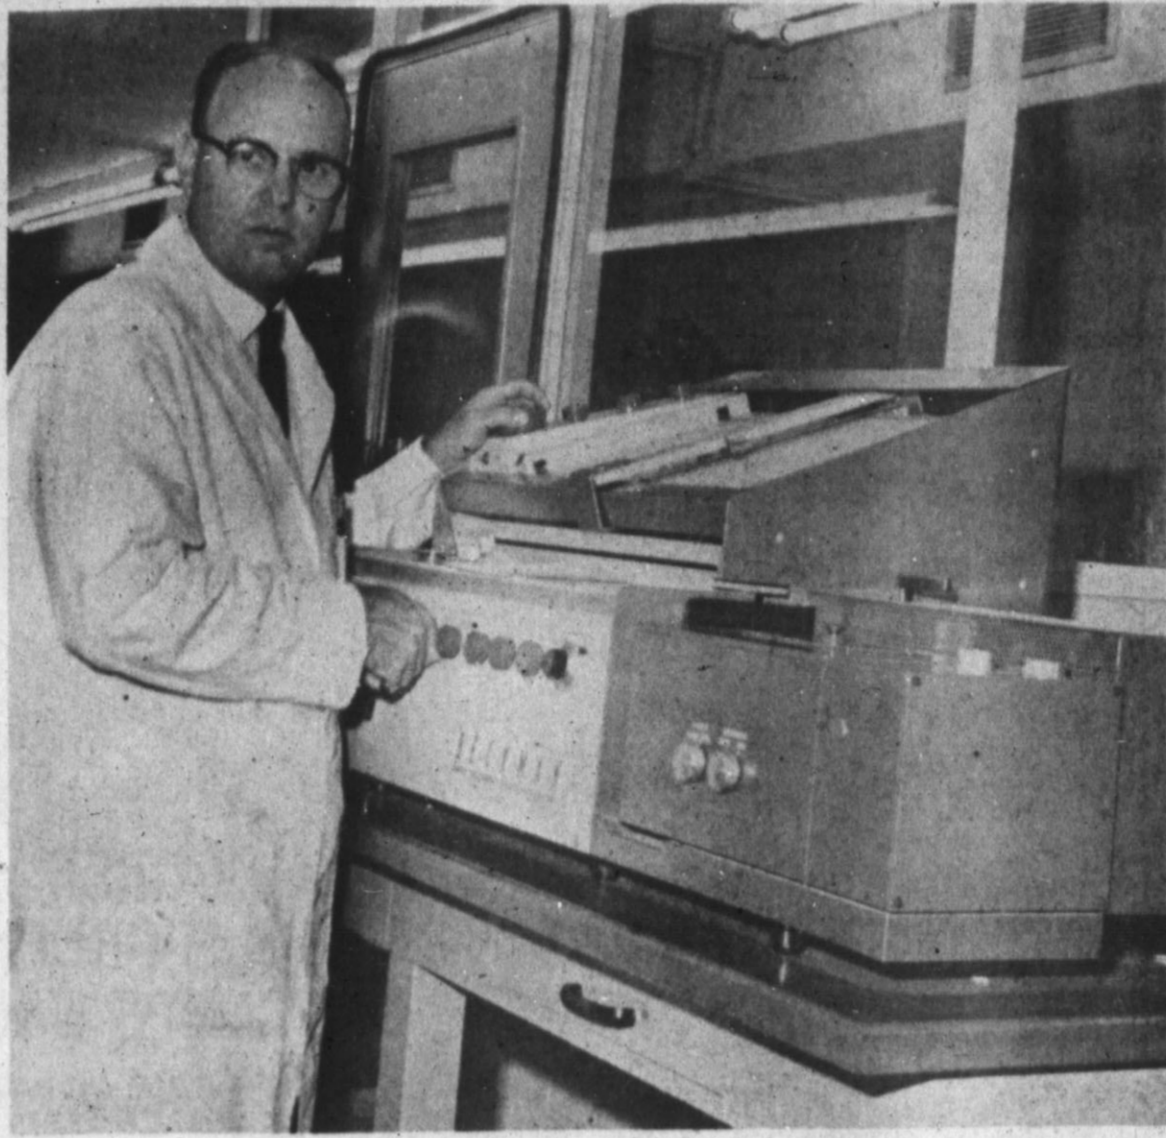

The foundation is working on feed lot cattle programs to prepare certain type rations. Special tests required by veterinarians are also handled at the foundation. All data gained from tests is kept for research files, Golden reminded.

In addition to running tests for doctors in Hereford, the foundation is conducting various bone research. The presence of the foundation in Hereford was a deciding factor in the decision to locate a Golden Age Home here, Golden explained.

The entire research council of the Shriners is expected in May to examine the possibilities of locating a Shriners Hospital for Cripple Children in Hereford. A Shriners representative has already been here and was impressed with the foundation and other aspects about Hereford.

Directors of the foundation hope to begin a world-wide survey on bone composition, Golden explained. Data on the bone, soil, water and living conditions in every country of the world will be collected. Particular emphasis will be placed on the element magnesium, which has been called the "hardener of bone." In tests made on water, grain and bone samples, those from Hereford proved to contain more magnesium than those from other areas.

Golden reminded that the superior bone structure of Hereford people can not be pinned down to a single element but the abundance of magnesium could be a strong factor. There are approximately 25 grams of magnesium in most human bodies.

EXPLAINING THE OPERATION OF a dual source ratio recording spectrophotometer is O. Z. Golden, director of the Deaf Smith County Research and Clinical Laboratory. (Staff Photo)

## Wolf Serves Aboard Frigate

Lloyd C. Wolf, commissaryman second class, USN, son of Mrs. Bessie Schultz of Hereford, participated in exercises "Tail Wind" involving aircraft and 21 Navy ships off the coast of California while serving aboard the guided missile frigate USS Coontz.

The five-day exercise featured an attack aircraft carrier, four cruisers, destroyers and replenishment ships in a fast carrier striking force maneuver opposing shore-based patrol planes, medium jet bombers and submarines.

Vice Admiral Charles L. Melson, Commander of the U. S. First Fleet, scheduled "Tail Wind" and participated in it from his flagship, the heavy cruiser USS Helena. Rear Admiral Charles T. Booth II, Commander of Carrier Division Five, conducted the exercise from the aircraft carrier USS Ranger.

**RECOMMENDATIONS FROM THE TAXPAYERS OF DEAF SMITH COUNTY**

- It is recommended that the elected officers of Deaf Smith County practice the trust placed in them by their election, as regards the spending of tax money.
- It is recommended that the various taxing agencies be condemned for their actions in forcing an appraisal program by outsiders upon the tax payers of this county without their approval.
- It is recommended that future Grand Juries be encouraged to continue such investigations as the immediate past Grand Jury conducted.
- It is recommended that a committee be elected by the tax payers to investigate future budgets and tax evaluations and to carry out any other duties that the tax payers deem beneficial to all concerned.
- It is recommended that the present equalized renditions be reduced to the 1960 totals.

News Editor H. A. Tuck called in from San Angelo Saturday morning to announce that The Brand was awarded first place in editorials in the West Texas Press meet in a; also honorable mention in pl-

Mark Benefield is back home after a couple of nights in the hospital as a result of burns, which occurred while he was cooking on a backyard charcoal grill. The accident resulted from dashing gasoline on the coals. Benefield was admitted to the hospital Tuesday afternoon and

released Thursday, and the burns were not considered too serious.

Home Demonstration members and other friends of Sadie Lee Oliver, former Deaf Smith Home Demonstration Agent, have been asked to show Mrs. Oliver's mother with 100 "Happy Birthday" cards. The occasion is the lady's 100th birthday, and her address is: Mrs. Eunice Oliver, Rt. 2, Box 296, Belton, Texas. The suggestion comes from Mrs. Gus Theile, a former county resident who is now a neighbor of the Belton woman. Additional information may be secured by calling Mrs. Ira Ott.

Guy Newsom says that he was quoted in a Brand article covering the Citizen's tax meeting as wanting to abolish school athletics. He says he meant that "we are spending too much money and time on athletics;" abolishing them entirely, he thinks, may be too severe, but he feels that they are over-emphasized.

From Collingsworth County comes word that a reunion of all former residents will be held Aug. 19, at 6 p.m., on the north side of Ellwood Park in Amarillo. Bring supper and silverware; paper plates, cups and drinks will be furnished.

Hereford patrolmen are riding in a new patrol car these days. It replaces one of three units operated by the department, and is a white 1961 Ford. As in the past, the patrol cars are leased by the city on an annual basis.

### Postal Receipts Hold Their Own

There has been little over-all increase in the value of postal receipts this year as compared to last year, Nolan Grady, Hereford postmaster said. Receipts for the first seven months of 1960 totaled \$58,124.07, while receipts for the same period of 1961 amounted to \$58,441.51.

Receipts for the fiscal year 1961 which ended July 1, were \$115,056.59. In the fiscal year 1960 they totaled \$108,330.30, for a 1961 increase of \$6,726.29.

Most areas of postal sales will increase slightly he said, but he expects to see a small decrease in at least one area. Grady believes permit mailing will fall off this year because of the increase in permit mailing rates and because more Hereford firms are using other media for advertising purposes.

Other areas compared to last year include stamp sales which netted \$81,432.37 in 1960 and \$82,991.22 in 1961. Postal meter sales for 1961 are slightly up with \$16,196.55 being sold in 1960

and \$19,345.59 this year.

Permit mailing is still slightly over last year's total but Grady says next year's figure will be less. In 1960 there was a total of \$4,989.12 for permit mailing and in 1961 there was \$4,945.10.

Values of second class mailing total to \$1,025.66 in 1960 and \$1,373.56 in 1961. The 692 post office boxes in Hereford brought in \$4,409.90 in 1960 and \$5,358.25 in 1961. Grady reminded that the boxes are all filled and there is a long waiting list for them.

Hereford had 3,449 people being served by rural routes as of June 30, 1960 and 3,579 people in 1961. The rural carriers travel 373 miles per day to reach the out-of-town people.

An estimated 2,718 families are being served by the city delivery, Grady said. The Hereford Post Office employes 26 people.

Many primitive peoples practice asceticism as a means of acquiring supernatural power. They abstain from food, drink, or sleep, or inflict pain upon themselves through winter bathing, whipping or blood letting.

### McElwee Funeral Rites Thursday

Funeral services for Earl McElwee, 70, former Hereford resident, were held Thursday, Aug. 3, at 10:30 a.m. in Sulphur, Okla., where the McElwees have made their home for the past year.

Mr. and Mrs. McElwee moved to Hereford in 1956, when he retired from the U. S. Forest Service, and remained here until Sept. 1, 1960, when they decided to move back to Oklahoma. During his residence here, Mr. McElwee severed several months as city judge, and was widely known in the community.

He is survived by his widow, Edith McElwee, and one brother, Raymond of Breckenridge, Texas and two sisters in Bonham. Mrs. McElwee is a sister of Mrs. Bill Davis Sr. of Hereford.

Attending the funeral from Hereford were Bill Davis Jr. and Mr. and Mrs. Jim Lipscomb.

## Deaf Smith May Fall In Minuteman Missile Area

Deaf Smith County farms could become sites for installation of Minutemen Intercontinental Ballistics Missile silos. Government field men of the US Corps of Engineers have been in the Panhandle area seeking easements to give the government access for core drilling and seismograph testing.

No farmers or ranchers in Deaf Smith County have reported being contacted by government agents but the county is definitely under consideration for storage of missiles, but several Castro County farmers had been contacted regarding sites.

Reese Air Force Base at Lubbock and Tinker Air Force Base at Oklahoma City are being considered as possible Minuteman missile base sites. Should Lubbock be chosen, an area of a-

bout 150 miles radius will be needed for storing the missiles. Strategic Air Command personnel would man the site.

A definite decision between Tinker and Reese will not be made for five or six months. It has been estimated that 50 Minutemen will make up a base. In that case, Deaf Smith County will probably be in line for several of the silos.

Twelve missiles per site is probable and sites would be about five miles apart. Present exploration includes 17 counties surrounding Lubbock and 190 sites.

A base would cost at least \$40 million and the storage area would extend to Amarillo on the North, New Mexico to the West and to Midland on the South, if Lubbock is selected.

The Minuteman is expected to become the backbone of the nation's ballistic-missile weapons system. It is powered solid fuel, a type of rocket engine much simpler to construct and fire. It is also much cheaper than the liquid-fueled Titan and Atlas and it will carry an atomic payload of one half a megaton.

Most of the Minutemen will be installed in hardened bases while others will be mobile and deployed around the country on highways and railroad tracks. The Minuteman has been fired a distance of 4,600 miles and should be ready for combat by 1962.

The contracts being signed by some farmers in the possible area for the site give the government 24 months in which to enter the land and make tests. Damages to land will be paid for the contracts specify.

Forty acres are specified in the contract but probably no more than five to twelve acres will be needed. The silos would be 80 feet deep and probably

fifteen miles apart. Maximum range of the rocket is 5,500 to 8,000 miles and the speed is 1500 miles an hour using an internal guidance system.

#### WALL AT FORT ORD

Charles A. Wall, son of Mr. and Mrs. Raney Jackson Wall of Friona, is undergoing basic infantry training at Fort Ord, Cal.

Wall attended Hereford High School for two years.

The eight week program consists of rifle marksmanship, infantry tactics, first aid, military justice and the conservation and maximum utilization of military supplies. Upon completion of his basic training, Wall will go on to either advanced infantry training or to an Army specialist school.

#### FLYING DOG

KENT, Ohio (AP) — Herman is a 3-year-old black dachshund who logs almost as much flying time as some birds. His owner is Ray Van Devere,

manager of Kent State Airport, who takes the dog with him on many flights including a recent 5,800-mile trip to Texas and Mexico.

### Mrs. Kelly Is Buried Aug. 5

Funeral services for Mrs. Billie Kelly, 9400 Maple, Wichita, Kan., were conducted Saturday, August 5 at 4 p.m. in the Presbyterian Church here with the Rev. Russell Wingert officiating.

Interment was in West Park Cemetery.

She died August 3 in her home after a short illness.

Mrs. Kelly was born Jan. 3, 1915, in Hereford. She married John Kelly in 1944. She is the former Billie Valentine, daughter of Mr. and Mrs. Wink Valentine of Hereford.

Mrs. Kelly is survived by her husband; two sons, Billie Joe Harris and John Michael Kelly; and four sisters, Mrs. Roy Thompson, Clovis, N. M., Mrs. Zephia Lloyd, Hereford; Mrs. Gilbert Hooper, Amarillo, and Mrs. Mary Fraser, Hereford.

FROM THE MOMENT A FIANCEE becomes a bride-elect, there is never a dull moment. Pat Robbins probably didn't realize the chaos he was starting when he slipped the engagement ring on the finger of his bride-elect, Miss Kay Sims.

Mrs. Fred Sims, mother of the bride-elect Mrs. Jimmie Johnson, fits a wisp of a hat on the matron of honor.

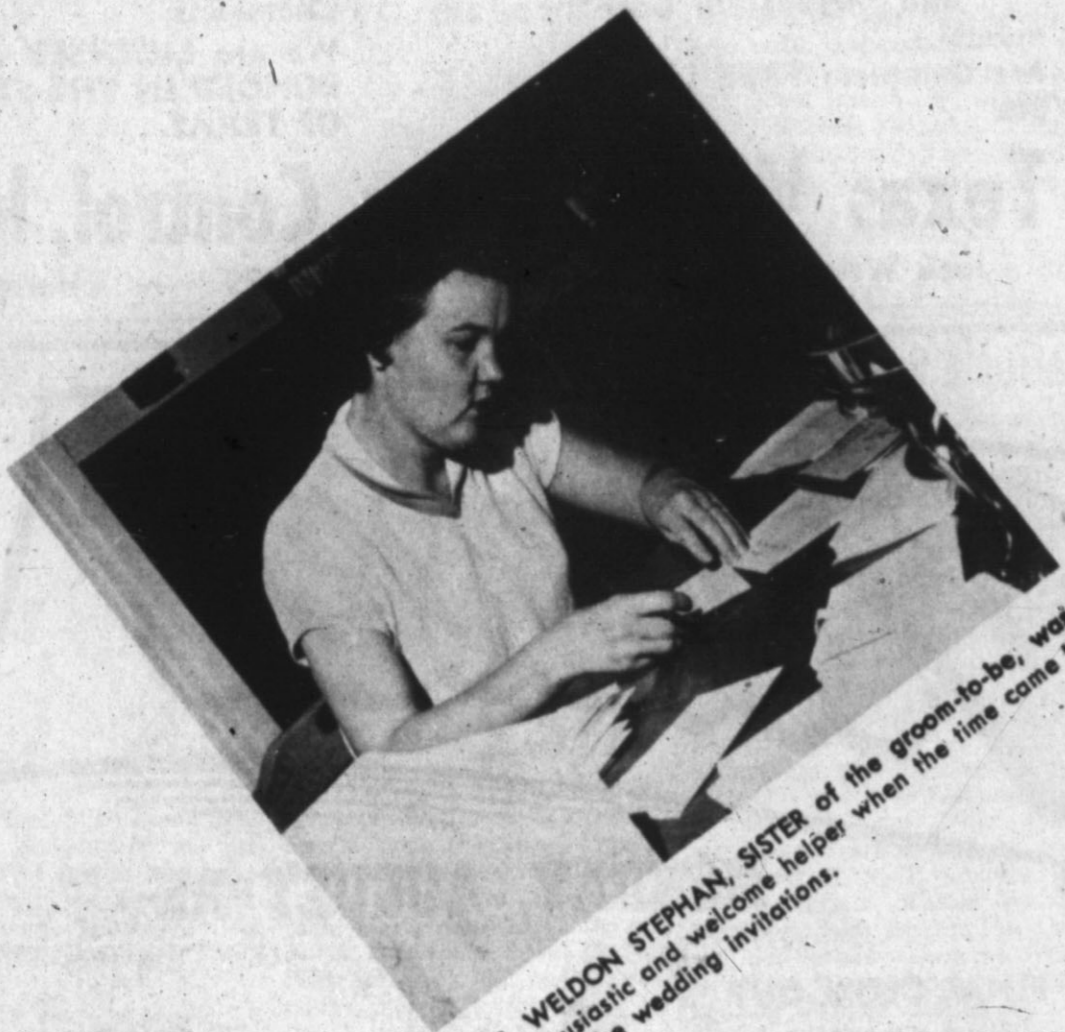

A

## Bride-Elect's

"HAPPY THE BRIDE, the sun shines on today!" But very few people realize all the work and planning it takes to make a beautiful wedding. From the time the engagement is announced, friends and relatives are enlisted in "the cause." And, though it is fun and exciting, it isn't all play-as-shown by today's pictures.

## Dilemma

MRS. WELDON STEPHAN, SISTER of the groom-to-be, was an enthusiastic and welcome helper when the time came to address the wedding invitations.

MRS. O. B. TRIMBLE, aunt of the bride-elect works feverishly but lovingly and willingly on one of the trousseau dresses.

BRIDESMAID JUDY McGEE AND bride-elect consult the latest magazines for ideas on trousseaus, silver, china, etc. Planning is half the fun in a bride-elect's routine.

BRIDEMATRON MRS. VAN ROBINSON presents Kay with an unusual punch bowl set with complete instructions on how to prepare and serve the beverage. She thinks she ought to know — she's a recent bride herself.

AT THE END OF A LONG, BUSY and exciting day, members of the bridal party relax or collapse — each with her own thoughts "Isn't it exciting!" or "Is it worth it?" And that's the story of a bride-elect's dilemma.

MRS. JACK BRADLEY and Mrs. Doc Cowan crumple and regift wedding gifts.

# Here and There

**with Mrs. Merlin Kaul**  
Mrs. Kenneth Rouselle and son Steven of Paducah, Kentucky were guests from Friday until Sunday in the home of her aunt Mrs. Bess Werner. Mrs. Rouselle is the former Sue Ridgeway and spent much time in her aunt's home when she was growing up. She and Mrs. Werner attended the Harvest Festival where she met many old friends. She is also visiting in the home of her parents Mr. and Mrs. Gordon Ridgeway at Amarillo.

Mr. and Mrs. H. D. Blythe and daughters of Amarillo were guests here last Saturday in the home of their daughter and sister Mrs. Jerry Malone. They al-

so attended the Harvest Festival and Rodeo.  
Mrs. Charles Owens and sons, Dennis and Stanford, and Mrs. Fred Barrett and children of Seminole are visiting this week in the Fred Barrett and Mrs. W. H. Russell homes.

Mr. and Mrs. T. D. Alston have returned after a vacation trip which included stops in Iowa, Colorado and Nebraska. They were guests at Rockwell City, Iowa, in the home of Mr. and Mrs. John Aden. The Adens home is located on Twin Lake near Rockwell City. At Lincoln, Neb., they visited in the home of Mr. and Mrs. Lloyd Smith and then spent a week touring in the Colorado Rockies. Enroute home they were guests of the Earl Cole family near Spearman. The Alstons spend some time each winter at Truth or Consequences, N. M., and it was there that they became friends of the folk whom they

have been visiting. These families always try to meet at the New Mexico spot the same time each year.  
Mr. and Mrs. Guy Lawrence were hosts at a supper Saturday night at their home, honoring Mr. and Mrs. Bert Gunn of Wewoka, Oklahoma, Gunn is a cousin of Mrs. Lawrence. Guests included the Gunns, Mr. and Mrs. Joe Landers and Ross Joe of Westway and R. M. Gunn.

**WALSER REUNION**  
The Walser Reunion was held at Ceta Glen Canyon last weekend. About sixty relatives gathered on Saturday afternoon and enjoyed supper together. The rest of the group arrived on Sunday morning to bring the total present to 110. They came from Berger, Longview, Wellington, Plainview, Amarillo, Chillicothe, Lubbock, Hardesty, Okla., Littlefield, Wheeler, Quanah, Sudan, Hereford and Summerfield. A basket dinner was served at the noon hour and many took advantage of swimming and other recreational facilities provided at the camp. Officers for next year were elected at the business meeting held Sunday afternoon. Guy Walser of Hereford is the retiring chairman.

Those attending from Hereford and Summerfield included Mr. and Mrs. Guy Walser and family, Mr. and Mrs. W. H. Walser and family, Mr. and Mrs. S. L. Walser, Mrs. and Mrs. C. R. Walser, Mr. and Mrs. Jim Clark, Mr. and Mrs. C. J. Crump and Mr. and Mrs. Richard Clark.

Mr. and Mrs. N. E. Tyler of Garcia and Mrs. Clinton Jackson sponsored a group of young people to the National Farmers Union Youth Camp near Bailey, Colo., this week. The group left Hereford Sunday morning and will return the last of the week. About 50 youth from Texas, between the ages of 14 and 21, will attend the camp where they will study Farmers Union programs. They will prepare themselves to return home and organize Farmers Union youth work in the state. In addition to the educational program, the young people will also participate in a well planned recreational program.

Those attending from Hereford are Kent Glenn, Patsy Green, Bob and Becky Jackson, Kathryn and Elizabeth Burrus, Nancy Tyler, Linda Hart, Kelly and Jerry Tyler, Robert Mooneney of Hale Center and Terry Gerhart of Amarillo will also accompany the Hereford group.

Mr. and Mrs. Charles Hoover and daughters and Mr. and Mrs. Clinton Jackson attended a picnic in McKenzie Park in Lubbock last Sunday. The occasion was a reunion of members of the Farmers Union and their families who had made the bus trip to Washington in 1960. About 65 attended from over the state.

This reporter received a picture this week clipped from the Tri-City Herald, a newspaper which covers the cities of Pasco, Richland, and Kennewick in the state of Washington. The clipping was sent by Mrs. Kaul's sister-in-law, Mrs. Burdige Kaul of Pasco, reads: "Richland visitor, Cindy Wilson, right (in the pic-

ture) enjoyed a game of croquet at the George D. Barr home with Connie Walker, Bill Barr and Bill Trumble. Cindy, whose home is in Hereford, Tex., is visiting in the home of her uncle and aunt, Mr. and Mrs. George Barr." Cindy is the daughter of Mr. and Mrs. Ed Wilson of this city. She had accompanied her grandmother Mrs. A. B. Barr of Altus, Okla., to Richland. Mr. Barr is a brother of Mrs. Wilson, Cindy and her grandmother made the trip by plane.  
Mr. and Mrs. Robert Bell and family are visitors this week in the home of his mother Mrs. A. G. Bell.

Mr. and Mrs. Guy Lawrence and Ross Joe Landers went to Amarillo Friday night, where they visited in the Benny Cooper home and Guy attended a meeting of the AAA Highway Association.

Mr. and Mrs. Jess Russell of Houston are guests this week in the home of his mother Mrs. W. H. Russell and his brother L. B. Russell.

Mr. and Mrs. Paul Webb, Steen and Beth of Bartlesville, Okla., were visitors last week in the home of Mr. and Mrs. Ed Wilson. Mrs. Webb is a sister of Mr. Wilson.

Mrs. W. H. Russell accompanied her daughter, Mrs. Jack Jeffkin. Mr. Jeffkin and family of Levelland on a trip to Kansas City, Mo., recently. They went to see her son Jack Russell and

family; Jack is a salesman for a Wholesale Drug Company in Kansas City. While there they attended four ball games. They saw the Kansas City A's play Detroit twice, the Washington Senators, and the Cleveland Indians.  
Mrs. Russell, who is an avid sports fan, was enthusiastic over the playing of the A's and then she says they even got home in time to watch the fights.

Perhaps Mrs. Russell's enthusiasm for sports accounts in part for the fact that all six of her sons made headlines for their activities in the sports field. L. B., who will be principal at the High School this year, played football and signed with the Philadelphia Eagles baseball team. This was after he was married, and he decided he didn't want to stay in professional baseball. Jack, played football with the Rice Owls for 3 years, Jess played football, basketball, and baseball with Texas A & M.; Artis, who now lives in Coronado, Calif., participated in all sports during high school; William (Babe) set records in the 100 yard and 200 yard dash during high school. He attended State University. Daniel played basketball at San Diego State College in California. Daniel will get his degree at Colorado State College in August. He is a member of the Air Force and has been stationed at Colorado Springs; he was

given a six months leave in order to complete his college work. He plans to make the Air Force his career.  
Mr. and Mrs. Byron Durham have returned home after spending two weeks at Arlington in the home of their daughter Mrs. David Harmon. They made the acquaintance of a new granddaughter, Susan Leigh Harmon, who arrived on July 22. The little miss weighed 5 pounds 3

ounces. Her mother was Lou Durham. Mr. Harmon is employed in the personnel department of Chance-Vaught Aircraft. This is the first child of the Harmons.  
Mrs. Paul Creek and children, Ronnie and Carolyn, of Wink are guests this week in the home of her parents Mr. and Mrs. Byron Durham. Also visiting in the Durham home is her sister, Mrs. Gordon See and Mr.

See of Los Angeles, Calif. Friday the Durhams and their guests went to Amarillo where they spent the day in the home of their sister Mrs. Earl Braudt. Another sister Miss Faye Otis of Canyon was also present.

New Jersey's first conservation law was enacted in 1875. It provided a bounty for killing predatory wolves.

LOOK-OUT BOYS, HERE I COME! Another entry in the bull riding tries his luck at the Hereford Riders Rodeo last week. His mount seemed intent on getting back into the chute he'd just left. (Staff Photo)

## Shower Honors Mrs. Jay Payne

Mrs. Jay Payne, nee Miss Mary Martin, was honored recently with a miscellaneous bridal shower in the home of Mrs. Floyd Driver, 829 South Texas.

Mrs. Payne is the daughter of Mrs. Clara Martin, 606 Ave. K.

Guests called between the hours of 3 and 5 p.m. Miss Pat Ketchersid secured names for the bride's book which was a gift from the hostesses.

The entertaining rooms were decorated in a blue and white motif, carrying out the bride's chosen colors. The honoree and her mother wore corsages of blue and white flowers.

The bride's table was laid with a white lace cloth and centered with an arrangement of gladioli. Napkins were engraved with "Mary and Jay." Miss Ketchersid and Mrs. Harold Manning presided at the refreshment table.

## Antonian Circle Talks Over Plans

Mesdames Duane Albracht, Tony Urbanczyk, Alfred Reinart and John Warren were hostesses for the recent call meeting of the Antonian Circle held in St. Anthony's School auditorium.

Mrs. Alfred Reinart presided at the business meeting, at which time plans for the new year were discussed.

Father Angelus spoke to the group and gave them his blessing.

Members present were Mesdames Vincent Walterscheid, Jon Fraser, Johnny Jesko, Jimmy Jesko, Darrell Hershey, Elmer Reinart, S. T. Loerwald, Lester Wagner, Walter John Paetzold, John Birkenfield, Oskar Schwertner, Leonard Walterscheid, Herman Schumacher, Leander Reinart, Wern Koelzer, Edward Schilling, Mary Schlabs, Gilbert Yosten, Clarence Betzen, Jerome Noggler, Jack Rogers and Carl Last.

## Legion - Auxiliary Hold Installation

Joint installation services for the new officers of the American Legion and the American Legion Auxiliary were held Tuesday night, August 1, at the American Legion Hall.

Mrs. Ira Ott was installing officer for the Auxiliary. Using a candlelight theme, she installed the following officers: Mrs. Carlos Vaughn, president; Mrs. Gertrude Neill, vice-president; Mrs. Ike McCutcheon, secretary-treasurer; Mrs. F. S. Smith, chaplain; Mrs. Mabel Wagner, historian and Mrs. Walter Frost, sergeant at arms.

Rhea Smith of Amarillo was installing officer for the Legion. Grant Hanna was reinstated as commander along with the following other officers: Ellis Coombs, first vice-commander; Ike McCutcheon, second vice-commander; Marvin Kearns, adjutant; C. C. Acker, secretary-treasurer; Ita Ott, chaplain; Cecil Wilkins, service officer; Johnny Haney, child welfare chairman; Lawrence Carlson, sergeant at arms; Arch Dobbins, A. H. Swigart and J. W. Duncan, trustees.

Troy Don Moore gave a report of his recent trip to Boy's State as the Legion's representative.

Refreshments of home-made ice cream, cake and coffee were served to about 65 members and guests.

Out of town visitors included Mr. and Mrs. Rhea Smith and Mrs. Ada Abbott, all of Amarillo; Patricia Maybury, Portales, N. M.; Troy Don Moore; and Toni Rae, Verlin Kay and Tommy Lynn Thompson of Clinton, Okla.

### SHOW OF AUTHORITY

HEARNE, Tex. (S) — The city of Hearne fired all its six policemen — and hired them all back 30 minutes later.

The move, said Mayor H. C. Kelly, was to establish the city manager's authority over the police department.

### WANDERING BULLET

POWELL, Wyo. (S) — A .22-caliber bullet which struck 17-year old Bruce Lamb while rabbit hunting apparently was pumped by his heart into an artery and moved through the blood stream all the way to his knee.

Dr. Ray Christensen said the bullet struck a rib, pierced the boy's left lung, lodged in his heart and was then pumped in-

to an artery. Christensen said he first thought the bullet had disintegrated, but after taking a series of X-rays nearly 24 hours after the accident found the slug in the back of Lamb's left knee. The boy recovered.

**MORE THAN \$38 MILLION IN COUNTY**

**Average Insurance Is \$9,585 Family**

The amount of life insurance held by the average Deaf Smith County family is at an all-time high. The protection in force is estimated at \$9,585 per family.

Total holdings locally, for all covered families, stands at \$38,340,000 on the basis of the latest figures.

The expansion of this type of insurance locally is typical of the trend nationally. It represents one of several steps that people have been taking in recent years to add to their financial security. Other steps have been to increase their bank savings and to put money into investments.

The fact that the Social Security system covers most of them with old-age pensions and with disability insurance and is steadily broadening the scope of its protection has not stopped Deaf Smith County residents from adding to their life insurance.

How much does this come to on the family level? From data on income, provided by Sales Management, it represents 18.6 months' net earnings, after taxes, for each household in the state.

Applying this yardstick to Deaf Smith County, where net income averaged \$6,184 per household in the year, the size of life insurance holdings locally amounts to \$9,585 per household.

This is more than in the United States as a whole, where it stands at \$9,500. In the State of Texas it is \$8,700.

The grand total, for all local families having insurance, is \$38,340,000.

While men own the great bulk of life insurance in force, ownership among women continues to gain, according to the fact book. At the end of the year, coverage on the lives of women comprised 15 percent of the total.

Some 127 million Americans, over 70 percent of the total population, now have some form of life insurance, the report states.

**ATTENDANCE RECORD**

JOHNSTOWN, Pa. (AP) — Irvin G. Hildebrand, 80, probably holds some sort of record for attendance at school board meetings. Since 1910 Hildebrand has attended some 595 monthly sessions of the Conemaugh Township School Board, missing only about five times.

A retired steelworker, Hildebrand explains that "Besides keeping up on school business, I just like to go to the meetings." He has 8 children, 12 grandchildren and 9 great grandchildren.

**Shower - Tea Fetes Mrs. Zimmerman**

Mrs. Donald Lee Zimmerman was honored Monday afternoon with a miscellaneous bridal shower in the home of Mrs. Austin Rose Jr., 108 Beach.

Mrs. Zimmerman is the former Miss Molly Beddo of Roby.

The serving table was laid with an ecru linen cutwork cloth and featured appointments in silver. An elaborate arrangement of two shades of red roses in a silver sompote centered the table and was flanked by white candles in silver candelabra.

Mrs. Evelyn Winget, Mrs. G. W. Suggs and Mrs. M. J. Noel of Canyon took turns at the silver punch service. Mrs. Eugene Noel and Mrs. Lynn Jones and Mrs. Alvin Kovar, both of Lubbock, registered the guests.

Mrs. Howard Gault and Mrs. Roy Calvert greeted the guests and presented them to Mrs. Donald D. Zimmerman who in turn introduced them to her daughter - in-law.

Mrs. Rose provided organ music throughout the afternoon. Hostesses for the occasion were Mesdames Austin Rose Jr., Cleo Meharg, Robert Wagener, H. E. Wester, O. Wertenberger, Roy Calvert, Jack Brown, Earl Springer, Frank Daniel, G. W. Newsom, J. B. Snead, Roger Brumley, Howard Gault, Worth Covington, Delbert Kinsey, H. V. Crawford, John McLean, and Grady Rogers.

Out of town guests included Mrs. Dale Winget of Amarillo, Mrs. Ron Zimmerman of Canyon and Mrs. Lynn Jones and Mrs. Alvin Kovar of Lubbock.

**INDIAN FILMS**  
NEW DELHI (AP) — India is the world's second largest film producing country, beaten only by the United States.

In 1959, India produced 402 full length films, 310 feature films, 112 documentaries and 52 newsreels.

These were shown in the country's 4,200 movie houses with an estimated 700 million attendance.

There are 63 film studios, mostly concentrated around Bombay, Madras and Calcutta. They employ more than 100,000 people.

## Mr. Krushchev Wouldn't Like It... But

### Recent Tax Meeting Was Usual American Pursuit

More than 400 citizens of Deaf Smith county gathered in the Bull Barn this week to discuss taxes and tax evaluations. Frankly, we doubt if there will be any immediate results from the meeting, but it is wonderful to live in the only country in the world where a meeting of this type can be held.

The meeting, at the same time, points up the importance of keeping government as near as possible on the local level. City and county citizens did have an opportunity to express themselves and to talk over the situation with elected officials, which is far better than writing a letter to Washington; we recall recently where our own elected Congressman from this district was denied the privilege of an audience with the Agricultural Committee when he desired to present the grower's side of the sugar beet question.

Certainly, a few of those who attended the gathering left with the feeling that most of our officials and administrators are sincerely doing their best to serve the people. The officials, on the other hand, are bound to have been impressed with the ever-present demand for economy in government — and on all levels. The very fact that such a large crowd turned out was sufficient to emphasize this point. In addition, it is probable that everyone who attended the session left with a better understanding of problems in general.

The fact that all concerned were able to control tempers when they did flare occasionally was another important facet of the gathering. Only once or twice did any degree of ill feeling creep into the discussions, and then only to be quickly dispatched. When you stop to consider that most people who come to the Bull Barn

### Paving Program Near Completion

Many things are taken for granted these days, and such is the case concerning Hereford's street and paving program, which is currently being expanded through a \$180,000 bond issue in cooperation with property owners.

When this program is completed, our commissioners tell us that Hereford streets will be in excellent condition; also that the town is well covered with the possible exception of Grand Avenue, which was omitted at option of property owners. Few communities, we feel sure, can honestly make such a boast.

Twenty years ago citizens of Hereford inaugurated the present paving program, and this is the first time that it has approached anything like a state of near sufficiency. Additional growth may alter the situation, but it is good to know that the program is near completion at this time.

Needless to say, there is probably no other single improvement which provides greater service or more pleasure for so many people as do good streets. Hundreds of people use any given strip of pavement each day as they travel to work, to market and various other places, while thousands will use the strip during the week in the course of ordinary travel about town.

The circumstance of adequate paving speaks well for the initiative, pride and resourcefulness of the citizens of Hereford. This very spirit, no doubt, has accounted in a large measure for the growth of our community — as compared with many others which have lost population and gone down hill during the past two decades.

definitely held strong feelings on the subject of taxes and tax evaluations, the situation is all the more remarkable.

All in all, we would say that the meeting was a healthy, American enterprise, and we would even go so far as to declare that it should happen more often. People will control their government, be it on local or federal level, only so far as they show an interest and take part in public affairs.

It is our government — and it is worth considerable attention, thought and effort. The same is true of meetings. If we do nothing but let off steam, the right to gather in public, and to hold such meetings is truly worthwhile.

### 'One Stop' Office To Handle Taxes

A group of citizens recently passed a resolution to adopt a "one-stop" tax assessing, collection and evaluation center. The idea is based on the theory of cutting expenses and, at the same time, maintaining uniform evaluations in the county, school and city tax rolls.

The idea is a good one. In addition to support from an overwhelming majority of those present, it was at the same time approved by representatives of all three agencies concerned. Besides several thousands of dollars saved each year, the plan would provide a more convenient situation for tax payers in each of the three governmental subdivisions.

As usual, there is a catch, however, and this time it is the fact that the plan will likely wind up in "File 13". In other words, this is probably the last we will hear on the subject, which would require extensive cooperation on the state level, as well as among the three local agencies.

The circumstance once again points up a tremendous need for reforms in our obsolete state governmental methods, which often prevent progress. At the same time, we are apparently faced with a circumstance where we must "lead our so-called elected leaders" if we expect to get anything accomplished.

The same situation occurred in regard to the proposed sales tax now faced by our legislators. The people have generally been six to 12 months ahead of the law makers and elected officials and, in some cases, are still further out in front.

Now, more than ever in history, the people of Texas need strong, courageous leadership. We would pay special attention in coming elections to platforms recommending improvements. Only by electing reform candidates can we hope to correct those defects to which so many people seem to object.

### Riders Perform Unique Service

Perhaps we have said it before, but the fact remains that there is no other organization in the area which contributes more to this territory than does the rider's Club.

While the activity provides personal entertainment and recreation for most of the members, it also fills an important place in community affairs, parades, rodeos and general gatherings. In addition, much publicity for the area results from activities of the riders; this is chiefly because of the town, quality of performance by our own group, and the active program which it has continuously waged.

Being a member of the club is an expensive personal pursuit, probably more so than any other club in the community. At the same time, let us appreciate efforts of club members to interest youngsters and help them to appreciate this important phase of Western life.

Meanwhile, we do appreciate their accomplishments — and we should tell them so each time the opportunity presents itself.

Instead of worrying about where the next international crisis will occur, we might concentrate on being ready to meet one.

The number of people killed on our highways is testimony to the general carelessness of those that escape death or injury.

The listener finally had all he could take when the braggart described how he could bend a horseshoe with his bare hands. "That's nothing," he remarked, "My wife can tie up 10 miles of telephone wire with her chin."

## The POWER of FAITH by Howard Brodie

### PROPHETS and TEACHERS—1

St. Luke's faith manifested itself in his Gospel and the Acts. The "beloved physician" and friend of St. Paul wrote of women with a spirit "so tender it saw further than almost any save the Master himself into the soul of womanhood." He wrote of compassion for suffering humanity, of the universality of Christianity, and he revealed the "neighbor" whom we are to love as our fellow man in need, in the parable of the Good Samaritan.

## Fruit Trees Serve Double Purpose To Their Owners

BY MRS. R. L. CRISWELL

Speaking of trees that bloom, we did not mention the fruit trees and shrubs or deciduous trees, which means they drop their leaves in the fall and remain in a dormant stage for a period of time. The fruit trees not only furnish man with food, but also give him the opportunity to feast his soul upon the

most beautiful of sights: that of an orchard of fruit trees in bloom. If there is a favorite, I would hazard to guess the wild plum. Their blossoms are small but very fair; in masses they are a snowdrift in shining beauty when the time for snow has vanished and a single one is full of beauty as a miniature. There is one "plum patch"

as they are called, that was the most delicate shade of pink; so lovely that it took your breath away, and it came unexpected. No! it wasn't dust or something of that type to change its coloring, it was just a delicate shading or the faintest blush of pink. There was never much fruit on the bushes, but they bloomed year after year and always the faintest blush of pink, so soft it is impossible to describe it. The peach, with its variation of colors in white, rose and almost red, and the flowering peach which is the most gorgeous of all.

The Apple tree blossom often has inspired authors to write songs, poems and sonnets. Who will ever forget the lilting music of the song, "In the Shade of the Old Apple Tree," or the fruit that is so delicious in so many ways. The cherry tree has a legend in Japan that is the reincarnation of a beautiful princess, Konohama Sakura. Its petals are said to assume the bluish color of the princess' cheek. From this legend the cherry derived its name of Sakura or Zakura.

According to the Japanese the double flowering cherry has been known and cultivated for more than a thousand years.

In 1912, Mrs. William Howard Taft entertained the Japanese consul, Dr. Takamine, with Miss Eliza Seidmore, an authority on Japanese subjects. Upon his return to Japan the consul presented to the City of Washington, 2000 Cherry trees of twelve varieties. Washington is at its most beautiful stage in the spring, when the cherry trees are in bloom. There are many varieties and one of the most attractive is said to be the Weeping Cherry, which is one of the most beautiful of all the weeping trees.

The most stately in form, rich foliage and large flowers with a haunting fragrance, are Magnolias. It is the Mississippi state flower, chosen by the school children. There several different types of this tree in the south, and into the north as far as New York. Their fragrance fills the air with a perfume that is delightful and they are one of the few trees or plants that can be transplanted when they are in flower. This is the best time for transplanting, as the roots are very active and stand a better chance of living. It is also best not to tamp the soil; water it on and keep moist until it has a chance to recover from being uprooted.

The Crab apple or ornamental Crab is also a thing of great beauty with its branches covered so thickly with bloom that

### ENLIST IN GOP MOVEMENT

Approximately 100 Republicans and past Democrats met in Littlefield Monday night and organized the Lamb County Republican Club. Jack Barton, local egg producer was elected chairman of the group. Buddy Hedges of Olton was elected vice-chairman and Mrs. J. R. Fain secretary-treasurer. Howard Horne, district manager of the Southwestern Public Service Co. of Littlefield opened the meeting by explaining that several conservatives had got together about a week ago and had discussed the possibilities of organizing through either the Republican or Democratic party and had decided to go with the Lamb County Republican party and actively work to organize precinct chairmen and to work within the framework of the party to secure and obtain conservative platforms and candidates in all levels from precinct to President. A by-laws committee of Horne, Bob Manley and Hedges was also appointed by new chairman Barton. The theme of the meeting was "a declaration of independence from the socialistic principals endorsed by the Democratic party." They discussed the possibility of forming or joining a third party, Horne said, but rejected it because "we would lose valuable time" and the Republican party has demonstrated it is "predominantly conservative."

### CONFERENCE FOR COLLEGES' LEADERS SET

Some twenty top junior college administrators from the West Texas, nine of them presidents, gathered here Tuesday for a day-long session in which they will discuss state junior college finances for the next biennium and study new forms for reporting state records. The session was held at South Plains College, the second such meeting to be conducted at the local institution, with B. W. Musgraves, executive director of the Texas Education Agency's junior college division. Musgraves first visited Levelland with Dr. C. C. Colvert in 1956 to help conduct the Colvert survey, which led to the establishment of South Plains College. He has returned to the campus on several occasions previous to this week's meeting. The day-long workshop was one of four regional meetings being held in Texas by junior college officials. All members of the conference were guests of the college at Tuesday's noon meeting of the Rotary Club and Musgraves was the guest speaker for the club.

### SCHOOL BUDGET OKAYED

A budget, calling for an expenditure of \$413,914.75, has been set for the Friona School District for the year 1961-62, according to Supt. Alton Farr. School will start this year on August 28, four weeks from Monday, the superintendent said. The budget was recently approved by the school board, and it is an increase of \$14,000 over the budget of a year ago. Farr says the budget increase came about mostly from two things — the purchase of two new school buses, which are scheduled to be delivered to Friona this week, and an additional teacher being added to the school system. Friona will be receiving one additional teacher this year because of an increase of daily attendance during the past year. The attendance was up from 985 in 1959-60 to 1004 in 1960-61, Farr said. The school board has not yet set the tax rate for next year, but it is expected to do so Saturday following the equalization board meeting.

## THE BOOTLEG —Philosopher

Editor's note: The Bootleg Philosopher on his bindweed farm takes a look at the world situation this week. He may need better glasses.

Dear editor:

"Well, what do you think Russia is going to do about what we're going to do about West Berlin?" a man in town who keeps up with world affairs and is no more in the dark than the average Congressman asked me yesterday when I went in to get something to keep my tractor radiator from leaking.

I told him I didn't know and then, just to be doing, asked him if he thought there was anything to the report I'd just heard on the radio that serious trouble will break out next in Kuwon.

It's hard to say," he asked, "I've been expecting it. The world is full of potential trouble spots and Kuwon very easily could be the next one. It's worth watching." I didn't say anything much, but came on home, not having the heart to tell him that as far as I know I'm the only one who ever heard of Kuwon, since it was a word I made up on the spur of the moment.

Don't laugh. I have a notion there are people in Washington who would fall for this too, and if somebody didn't stop them would vote for foreign aid for the fictitious place and then take off in an airplane hunting for it.

Understand, I'm not opposed to foreign aid, the last four Presidents we've had, from both parties, have argued foreign aid is cheaper than war, and a lot safer, and I imagine they're right, but I'm not sure we're making all our money count. A neighbor of mine, who doesn't pretend to keep up with world affairs but keeps up with human nature, says this country's reputation abroad reminds him of a rich boy in college with plenty of money but not much personality — he attracts lots of people around him, but has very few friends.

On the whole though the problem is too big for me and I'm happy to have somebody else making the decisions. Say, the joke sure would be on me if there is such a place as Kuwon. Is there?

Yours faithfully,

J. A.

### Fruit Trees...

(Continued from page 1) the foliage is hardly noticeable. There is a poem from Germany and I do not know the author, but it pictures the apple tree as a wayside inn. I hope you enjoy reading it.

#### THE WAYSIDE INN

**AN APPLE TREE**  
 I halted at a pleasant inn,  
 As I my way was wending.  
 A golden apple was the sign,  
 From a knotty bow depending.  
 My host - it was an apple tree -  
 He smilingly received me  
 and spread his choicest, sweetest fruit,  
 To strengthen and relieve me.

Full many a little feathered guest,  
 Came through his branches springing;  
 They hopped and flew from spray to spray,  
 Their notes of gladness singing.

Beneath his shade I laid me down,  
 and slumber sweet possessed me;

The soft wind blowing through the leaves,  
 with whispers low carressed me.

And when I rose and would have paid,  
 My host so open-hearted,

He only shook his lofty head,  
 I blessed him and departed.

#### SPRINGERS GET TOGETHER

Mr. and Mrs. Earl Springer and Sue have returned from Boulder, Colo., where they visited their daughters, Miss Twyla Springer of Hereford and Mr. and Mrs. Paul Wallace and family of Stevens Point, Wis. Miss Twyla Springer is a sophomore student at the University of Colorado and Wallace is there this summer working on his doctorate in music. While in Boulder, the Springers were joined by a son, Mr. and Mrs. Franklin Springer of Amarillo who were enroute home from a vacation in Montana. Miss Sue Springer will leave Tuesday, August 8, for Cleveland, Ohio, where she will begin a year's internship in youth leadership at Shorehaven Lutheran Church.

#### ILLINOIS GUESTS

Mr. and Mrs. Marshall Kwick and Brair of Cuba, Ill. were guests this week in the home of his cousin, Mr. and Mrs. Joe Story and family. His aunt, Mrs. Ruth Florey of Amarillo, was also a guest in the Story home.

# For Best Results In Freezing Fruit

**BY ARGEN DRAPER**  
 "Wear More Cotton" reminders are given 5 times on highways into Hereford. I appreciate Marie and Clinton Ward for wanting to help the industry that supports them. If I were a ginner or piece-goods merchant I think I'd try to have a gigantic cotton style show—a selling program for wearing cotton.

Soon the women and girls will begin on the Make-It-With-Wool contest. There's a division for everyone. The rules we're in the Brand. The sheep pro-

ducers in the county could help with the county contest. It's distressing but a merchant told me that 264 woolen mills closed in the United States in 1960. Some promotion could help here. New woolen piece goods are arriving at the local stores.

**Freeze to Preserve**  
 Freezing is a quick and easy way to preserve fresh vegetables and fruit. Freezing keeps the natural color, fresh flavor and food values of most vegetables and fruits better than other methods of food preservation. For best results, select fresh,

tender vegetables right from the garden or market while they are at the right stage of maturity for eating.  
 Other factors that influence quality are preparation, packaging, freezer loading and length of storage.

Latest information on how to freeze, and how to cook frozen foods is given in extension bulletins, FROZEN FOOD. Get a copy from the agents' office.

Edna Earle Smith, Secretary, in the Extension office is on vacation this week. Nothing seems to be going right without her; Loreta Fowler and I have agreed to take off the next time she does.

You lose time, labor and money when your canned food spoils. If quality is poor, the food may lose appeal and nutritive value.

Three causes of food spoilage are: under-processing, faulty seals and improper handling. Work for top quality in your canned products by following these suggestions:

Use young tender products — as fresh as you can get. Gather and can in the cool of the morning.

Can in small amounts. Clean food thoroughly — keep all utensils and containers clean.

Use aluminum, unchipped enamel or glass for holding or precooking food.

Aim for speed in preparation "One hour from the garden to can is ideal."

Use proper type of can or jar for food being canned.

Have food hot when sealed unless canning vegetables by one-step cold-pack method.

Get a good seal.

Do not overcook or underprocess.

Cool quickly.

Store in dark, dry place.

Store in cool place — 50-70 degrees F.

You can get the latest information on canning from the office. Also ask for the latest methods of freezing foods, pickling and preserve making.

**DEER RESCUE**  
 ARLINGTON, Va. (AP) — A frightened little deer on a floating ice cake in the Potomac River caused a lot of excitement. The Navy responded to civilian calls and tried to blow the ice to shore with a helicopter. Then a Coast Guard tug rescued the animal. The Washington Animal Rescue League gave it shelter before releasing it on a Virginia farm.

**How Can I?**

Q. How can I prevent my homemade jams from crystallizing?

A. By adding a tablespoonful of glycerin to each pint of jam. This makes the jam more transparent, and reduces the amount of sugar required.

Q. How can I clean ivory objects?

A. If these ivory objects are all in one piece, it's safe to clean them with soap and water. If, however, they are glued together, it is better to take a piece of raw lemon, dip it into salt, and rub the surfaces with this. Let the juice dry on the ivory before wiping off with a damp cloth.

Q. How can I remove some light scorch stains from white materials?

A. By sponging the fabric with hydrogen peroxide and sodium perborate. Add one teaspoonful of sodium perborate to one pint of peroxide. Rinse with plain water.

Q. How can I make the application of enamel easier and smoother?

A. By placing your can of enamel in a pan of hot water for awhile before beginning your paint job.

Q. How can I relieve the pain of a wasp or bee sting?

A. One usually - quick reliever is a piece of raw onion rubbed over the affected part.

WHERE BOY SCOUTS HAVE FUN! The scene above is typical of many beauty spots to be found at Camp Don Harrington, located on the outskirts of Palo Duro Canyon. Attending the camp from Hereford are scores of boys each year, some for a night, others for several days or a week. Scenery at Don Harrington is acclaimed as some of the best to be found in West Texas. (Staff Photo)

### Beauty At Home

Q. Does it make any difference, when one is trying to reduce, how the daily intake of calories is divided up among the three meals?  
 A. No. Just be sure to hold your daily allowance to not more than 1,400 calories. Many women

reduce successfully, and without discomfort, on about 1,200 calories per day.  
 Q. How can I encourage the growth and thickness of my eyelashes?  
 A. One good way is to dip a soft brush into lanolin or baby oil that contains lanolin, and apply this lightly to the lids at the roots of the lashes every night before retiring.  
 Q. Please — a makeup hint for reducing the prominence of

my bulging eyeballs!  
 A. Try using a touch of eye-shadow over the entire surface of your eyelids, and wearing a heavier eyebrow line. This will seem to subdue your eyes.  
 Q. My eyes, I think, are my best feature. How can I make them more noticeable?  
 A. After a careful and judicious use of eye makeup, you might consider the possibility of accenting the color your eyes with a matching scarf, hat, or

jewel. This always adds a pretty effect and has a way of attracting other eyes to your eyes.  
 Q. I'm 38, and wonder if it's too late for me to have my front teeth straightened. They're in good condition, but they bulge in front, and I'm very self-conscious about them.  
 A. It's not a bit too late! Ask your dentist to recommend a good orthodontist, and I'm sure he can make the corrections that will beautifully your smile.

 CHURCHVILLE, Va. (AP) — W. W. Ashby, Augusta county farmer, has one of the oddest flocks of sheep in the country. They were captured in 1958 on an island off the North Carolina coast and are thought to be survivors of a ship wreck. Ashby says they have extremely small bones and can run like deer.

**REMEMBER WHEN?**  
 BY CHARLIE SEEDS

He was a Wall Street lawyer who had become fairly well known for his speeches and articles. He demonstrated his effectiveness as a writer later on in his best selling book, *One World*. But at the time of the Republican Convention in this memorable year, Wendell Willkie was a comparative unknown. He was not a professional politician. Never in his life had he held or run for political office. He got no help from the professional politicians at the Convention... and he really shouldn't have had a chance for the nomination to run against President Roosevelt, who was seeking a third term. But something happened at that convention... a sudden, spontaneous swing to Willkie after a series of close ballots. The ardent amateurs who backed him campaigned vigorously... and Willkie's own honesty and sincerity brought him victory and the nomination. Remember the year? People will often vote for a political unknown, if they like what he says and how he says it. But in those days wise car buyers knew better than to buy a car, new or used, from an "unknown" dealer. The year was 1940. Whether you're in the market for a powerful new Ford or a dependable used car, you're sure of an honest deal, without any tricks or fast talk, when you buy from your established Ford dealer. See us... for a reliable deal! CHARLIE SEEDS MOTOR Co. Inc., W. Hwy. 60 at Miles. Phone EM 4-2727.
