60 Per Cent Of United Fund's Goal Reported

Seventh annual Deaf Smith County United Fund campaign gathered steam here late last week.

Actual counting was difficult as area captains started making more frequent reports on their collections.

"We are still hopeful that we can finish up the drive on time and have our goal by Wednesday," Carver said.

"A lot of work still remains to be done and much of the remainder will have to come from employees and rural areas"

Around Town

We agree that dawn is probably the best part of a Golden Spread Day, with gorgeous sunrise the rule instead of the exception.

Football fans who rode the chartered bus to Phillips Friday night probably were wondering Saturday why dawn had to come at all.

Those who saw the halftone show will agree that Herford's Big Domino Band, in contrast to earlier appearances, did look like a First Division winner.

A training course for Camp Fire and Junior High Camp Fire Guardians and assistant Guardians will be given Friday, Nov. 2, at the Camp Fire Hut.

350 Youngsters Will Trick Or Treat Here For CROP

More than 350 junior and senior high school students in Herford will join Wednesday night in a campaign to collect money for the Christian Rural Overseas Program.

In the annual "Trick or Treat" Halloween canvass, the students will contact all Herford residents in a door-to-door drive to solicit funds for CROP.

Goal for the drive is \$1500, slightly over the \$1400 plus amount Herford youth collected last year.

Adult chairman of the Trick or Treat drive, Virgil Dodson, met with junior and senior high officers of the CROP committee last week to outline plans for the campaign.

THE SIXTH TRAFFIC FATALITY of the year was reported in Deaf Smith County as a Plainview woman, Mrs. Jeff Moore, 70, was fatally injured in a car-truck accident just south of Herford on U. S. 385.

By GARDNER COLLINS
Brand Staff Reporter
The sixth traffic fatality of the year was added to the Deaf Smith County record Thursday as Mrs. Jeff Moore, 70, of Plainview died of injuries received in a car-truck collision just south of Herford city limits on U. S. 385.

This is the second major wreck in the Herford area during a two-week period. In a two-car collision southwest of Herford on Oct. 9, an 81-year-old Muleshoe woman was also fatally injured.

Mrs. Moore was fatally injured as the 1959 model sedan she was riding in rammed nearly head-on into a semi-truck tractor trailer combination. The accident occurred about 10:45 a. m. Thursday.

The woman, most seriously injured of the seven persons involved in the accident, was taken to Deaf Smith County Hospital. Her injuries were described as "serious."

Shortly after 1 p. m. she was placed on the critical list. Mrs. Moore was pronounced dead at 4:35 p. m. Funeral arrangements are being handled by Gilliland Funeral Home.

Funeral services for Mrs. Moore are to be conducted in the College Heights Baptist Church of Plainview at 2:30 p. m. Monday with the Rev. John Traylor officiating. Burial will follow in Plainview cemetery.

Also injured were Mrs. Burt Williams, 40, of Portales, N. M., driver of the sedan listed in good condition; Gayla Williams, 15, good condition; and Jeff Moore, 77, serious condition. Johnny Ray, 35, 1013 N. Roosevelt, driver of the truck, was also injured, but has been released.

Held for observation at Deaf Smith County Hospital were Mrs. Williams' two sons, Billy, 13, and Troy, 12. Both were being treated for bruises and lacerations.

According to an eyewitness who saw the collision as it occurred, the Amarillo Hardware Co. owned truck was turning into the implement company parking lot as the Williams vehicle

topped the hill and started down.

"I looked up when I first heard the brakes of the car squealing," said Ben Plummer, a Hays Implement Co. employee standing at the parts counter. "The truck was turning."

One Acquitted; Two Sentenced In County Court

One man was acquitted and two Herford negroes were sentenced as jury trials were held beginning Tuesday in Deaf Smith County Court, Judge H. C. Williams presiding.

Found not guilty and acquitted by a jury in a day-long trial held Tuesday was Albert Robert Treadway, 38, 120 Bradley. He had been charged with driving while intoxicated, first offense.

Robert Weldon Mercer, a 19-year-old Herford negro, was tried by jury in the court on Wednesday. The man was found guilty of charges alleging sale of liquor in a dry area.

Mercer was sentenced to 30 days in jail and fined \$200 plus court costs.

Entering a plea of guilty to a similar charge here Thursday in the court was Lonnie D. Prince, 47-year-old negro, also of Herford.

He was sentenced to 10 days in the county jail and fined \$177.95 including court costs. The trials were held here as the county court met for its regular October session.

Halloween Parade Wednesday

Ghosts, goblins, witches and monsters will be just a few of the more ordinary entries Wednesday for Herford's Halloween Parade.

Sponsored by the Trade Promotion Committee of the Deaf Smith County Chamber of Commerce, the parade will march three blocks down Main Street, starting at 5 p. m. Entrants in the parade will be children of pre-school age through sixth grade students.

Latin Americans Plead Guilty To Assault Charges

Two Latin Americans charged with assaulting a police officer were sentenced to 90 days in jail as they pleaded guilty to charges Friday in Deaf Smith County Court, Judge H. C. Williams presiding.

Entering pleas of guilty were Jesus Maldonado, 27, of Bowie Street, and Raymond Diaz, 21, 109 E. Sixth. Both had been arrested here Monday and were being held on \$1000 bonds set by Judge Williams on Wednesday.

judges will be able to pick the winners from among the large group expected.

County Microfilms All Old, Vital Documents

An evidence of the modern era may be seen in the future at Deaf Smith County Court-house as all county records are stored in a two-drawer filing cabinet.

Dating back to March 20, 1878, all deed records, birth certificates, probate records, and other vital documents recorded in the Deaf Smith County Clerk's office can now be condensed into the small space through the use of microfilm.

More than 400 volumes of the county's records have been microfilmed, according to county clerk B. F. Cain. The bulky volumes, each one containing well over 700 pages, were photographed, page by page, on 35 millimeter film.

Available storage space for county records would last only about one more year, according to Cain, before all room would be filled. But with the use of microfilm, storage room is no

problem. County commissioners recently approved the plan to microfilm all county records.

County Microfilms All Old, Vital Documents

At the present time, records are being microfilmed for two reasons," Cain explained. "Microfilming county records is a safety measure. Although the chance seems very small, something could happen which would destroy county records under the present system."

"The county is having two copies of microfilm made of all records. One of these will be filed in the courthouse, and the other will be stored elsewhere. This way we will eliminate the possibility of losing these records due to fire, theft, tornado, or war."

"Our storage space for records will all be used up in about a year," Cain added. "When it is gone, we will switch to using microfilm altogether. Record books will then be stored elsewhere."

Cain pointed out that the (Continued on page 8)

The judges will have their work cut out for them as they try to select first, second and third place winners in each of three categories. The divisions will include "Funniest," "Scariest" and "Most Unusual."

The parade is to form on the parking lot of the First Baptist Church at Fifth and Main. Entrants are to be in place not later than 4:45 p. m. Parents of children too young to march in the parade alone will be allowed to accompany the children.

Kiddie emphasized that the parade would disband at Second and Main and that parents would be responsible for picking up their children after the parade.

First place winners in all three categories will receive certificates for \$5 in trade at any retail store in Herford. Second place winners will get \$3 certificates and third place winners will receive \$1 certificates.

Entry blanks have been distributed through the schools.

Hawks Too Much For Herd In Conference Start: 20-6

Phillips' small Blackhawks gave Herford a thorough lesson in hard-hitting football there Friday night. After the middle of the second quarter, there was little doubt as to the outcome.

Phillips hung up a quick score in the first period, broke a tie in the waning seconds of the first and tacked on a third score to win 20-6.

The statistics were equally as impressive as Phillips chalked up 251 yards on the ground while holding Herford to 82. Each team got 44 yards on

passes. It was the conference opener for both teams and Phillips let the loop know it was a contender.

What hurt almost as badly as the loss was the injury of Herford's two top backs. Fullback Jim Haney, ineffective because of a sore neck, was put out of the game with a bad shoulder midway through the second period. Then halfback Arnold Powell, who had carried the majority of the time, got a neck in-

jury and came off in the fourth period.

Herford took the opening kick-off with Powell returning 14 yards. Powell and Haney carried for a first down, but Powell lost seven and had to punt.

The Blackhawks moved to attack quickly, from their 46. Jerry Newcomb opened with a 15-yard slash, then alternated with Lynn Johnson to gain a third first down on Herford's eight. With fourth and one, half-

Absentee Vote Fairly Heavy

Early absentee voting has been fairly heavy for the November General Election, county clerk B. F. Cain reported Friday. About 25 persons already have voted absentee, he said.

Last day to vote absentee will be Friday, Nov. 2, with the office closing at 5 p. m.

Persons wishing to vote absentee are asked to come by the Clerk's office and surrender their poll tax receipt or exemption. Those requesting absentee ballots by mail, must turn in their poll tax receipt or exemption with the request.

On the ballot for the Nov. 6 General Election will be a full slate of state offices, district and county posts, plus 14 proposed amendments to the state constitution.

ALL OF THE COUNTY RECORDS shown in this picture, plus information contained in some 200 additional volumes, can be stored in county clerk B. F. Cain's desk through the use of a new microfilming system. Illustrating the value of the microfilm system, Cain (left) holds a film reel which contains photographic reproductions of every page in the three bulky record volumes shown.

Speakers Tie At Toastmasters

Traweek spoke on "Emergency Alert" while Miller's was "The 14 Amendments to be Voted on in November".

General critic was Virgil Dodson.

John D. Zahn of Farwell was a guest at the meeting.

Members of the club and their wives who attended a recent meeting at Amarillo Air Force Base included: Messers and Mesdames Milton C. Adams, Curtis Traweek, J. Raymond Flores, Kenneth Rudd and Rex Lee. Lee was a contestant in the Humorous Speeches event at the Amarillo meeting, winning a certificate award.

Instructor Commends Fire Department After School

Hereford's Volunteer Fire Department drew high praise last week for its interest and high degree of proficiency.

At the end of a five - week training school, the instructor commended the Department for a number of its results.

The 15 - hour course of instruction was taught by Tom W. Robinson, on the staff of the Texas A&M College firemen's training school. Robinson commended that average attendance at the school was 91 per cent, the highest he had ever had at a local training program.

Of the total number of firemen, 22 attended every course, while seven others attended one or more sessions. Of a possible 435 man - hours of instruction, the Department recorded 405 hours.

In a letter to Chief Dub Reeves, Robinson said, "Your city and fire department are to be complimented for the good equipment and your plans for future improvement. Your men have a good knowledge of efficient firefighting and I am sure that they are courageous and capable enough to handle any emergency that may arise in the City of Hereford."

"I found that your department's training program was of the highest standard and it was indeed a pleasure to have the opportunity to have worked with your department."

Robinson knows the demands upon a small, volunteer department, having been chief of the Denton Fire Department for 12 years before joining the Texas A&M firemen's training school staff about four years ago.

Among the subjects covered during the instruction were: pump operation and maintenance, efficient fire streams, sizing - up fires upon arrival at the scene, ventilation of burning buildings, entrance, rescue

operations and techniques, salvage, use of ladders, use of chemicals, controlling chemical fires, electrical hazards and inspection of public buildings.

Robinson was in Hereford during Fire Prevention Week and took part as volunteer firemen took first and second grade school children on rides aboard Hereford firetrucks. He also commended the Department for its use of available literature and aids through the school to

check for fire hazards and stress the importance of fire prevention.

Robinson also commended Earl Phillips, past Chief of the local department and current fourth vice president of the Texas Firemen's Association, for his leadership in a fund - drive that resulted in the purchase of a \$20,000 fire truck for Boys Ranch.

In his summary, Robinson stressed that the Department

faceted potential hazards in the large number of dangerous chemicals used in and around Hereford in connection with agricultural activities. He urged that additional self - contained breathing apparatus be purchased. (Continued on page 3)

He also urged that the intensive local training given throughout the year by the Department be continued.

Reeves said, upon receipt of Robinson's letter, "We feel that this letter of commendation is a reflection upon the City of Hereford, its administration and the public for giving the Hereford Volunteer Fire Department such fine support, both in equipment and in other ways. Our current low fire insurance rate, we feel, is evidence that we have both the equipment and the men trained to handle any emergencies which might arise. We feel that periodic training of our volunteers, both through schools such as this and attendance at the annual fire school in College Station, is of great value to this community."

Turner continued by listing the qualifications for a job with the Santa Fe, and the benefits to which employees are entitled. During the program he gave the boys the opportunity to ask questions.

Members present were Stephen, Kevin, and Neil McAndrews, Stephen Hoffman, Leon Kreuger, Glen and Wayne Polan, Jon David and Dion Miller, Gary, Robert, and Ted Jr. Richardson, Jack Thomas, Tommy Betzen, Robert Galley, and Mike Engler.

Near the end of the 17th Century, the monks at St. Bernard acquired dogs. The animals guarded the monastery, turned spits in the kitchen and carried supplies. About 1750 the monks began to train the dogs for rescue missions.

Double 25th Anniversary Celebration Held By Guild

A double 25th anniversary observance was held here Sunday, Oct. 21, at a banquet in St. Anthony School gym. The banquet was sponsored by St. Anthony's Guild.

Observed by church members at the banquet were the anniversaries of the guild and Father Angelus' entrance into the priesthood.

The banquet was opened by Mrs. A. H. Reinart, president, serving as mistress of ceremonies. The blessing was given by Father Angelus.

Following the dinner and opening program remarks by Mrs. Reinart, entertainment was furnished by Edward Dziuk singing four solo numbers. He was accompanied by Mrs. Darrell Hershey.

Main speaker of the program was Mrs. Joe Reinauer, reviewing the 25 years that St. Anthony's Guild has served the church.

"We are truly grateful to Father Nathaniel and the pioneers who have given us the ideas which we have carried through," she commented.

When asked to review the past 25 years, said Mrs. Reinauer, looking through the yearbooks, revealed there were many projects carried out by the guild.

"I discovered that I only knew the half of all that has been accomplished," she stated. She pointed out that the organization was formed in 1937 for the purpose of church welfare and the glory of God.

The guild has grown as the church has grown, she continued, and now has 79 members. In honoring past officers of the organization, she presented each with a key, a symbol of service for their work in the church.

Guild officers were compared with the colors of the rainbow.

Mrs. Loerwald also presented him with a key to symbolize "the key to the city and the key to our hearts."
Father Angelus, speaking briefly, told of his recent trip to Europe, commenting on his visit in Rome and at Lourdes. "My impression of Europe is that the people wanted to know what we are going to do," he commented. "They have their eyes on us and are particularly concerned about what will be our policy toward Cuba."

Another of the impressions, he said, is that churches are well attended in Europe. But, there is no place where church attendance is like that in our own country.

The anniversary celebration closed with the singing of "God Bless America" and "Auld Lang Syne". Closing the session the Christopher Prayer was repeated.

HONORED DURING A DOUBLE 25th anniversary celebration is Father Angelus Delahant, S. A., pastor of St. Anthony's Catholic Church, who is celebrating the anniversary of his entrance into the priesthood. Also celebrating its 25th anniversary during the banquet held Sunday, Oct. 21, was St. Anthony's Guild. Past accomplishments of the guild were reviewed and former officers honored. Presenting the key to Father Angelus is Mrs. Joe Reinauer. (Staff Photo)

IN THE FARMING BUSINESS

RESERVE, Kan. — John L. Thomas, 90 years old, figures he has a permanent job in farming. He's been at it for nearly 60 consecutive years.

To prove he isn't coasting, he took care of a small herd of yearlings on his farm last winter. In addition, he hauled cattle feed from Verdon, Neb., 17 miles away. And before this spring's planting season he painted his farm home.
Born in Wales, Thomas came to Kansas in 1903 and has been farming ever since.

MEMBERS OF THE Deaf Smith County Child Welfare Board recently were commended for their work by District Judge Harry Schultz. Seated, from left, are: Mrs. Henry Hastings, Mrs. O. G. Praise County Child Welfare Board

Members of the Deaf Smith County Child Welfare Board recently received a letter of commendation from District Judge Harry Schultz of Dalhart for their services.

All of the members are serving without pay, having been appointed by the County Commission. One of the Commissioners also serves on the board at all times, having started recently on a six-month basis per Commissioner in order that they might become better acquainted with the problems of the group.

In a letter to members of the board, Judge Schultz said, "Several times I have tried to express my gratitude to you for the vital services you have rendered to the children of this district, and to the District Court. However, on each occasion it seemed that to properly evaluate the importance of your services it would be necessary to mention the many ways in which your services have been significant. The limitations of time would not permit this to be done."

"The importance of your services can, perhaps, be summarized by briefly relating a recent experience. On October 5th I attended a day-long seminar on the subject of Domestic Relations conducted by

the Judicial Section of the Texas Bar Association. Among the judges participating in this seminar I was the only one not from a big city court.

"All day long problems of protecting the rights and welfare of the children of divorcing and divorced parents were brought up and discussed. That the courts should more adequately protect the rights and welfare of such children was acknowledged by all as a well-known fact and repeatedly mentioned by these judges.

"Just as often was mentioned, in tones evidencing feelings of frustration, the need for additional legislation and additional court staffs to aid our courts in rendering more complete and effective services and protection to such children.

"As one after another of the problems of these judges was mentioned, I was pleased to think of the effective services and protection that are being supplied by you, the members of the County Child Welfare Boards, to the children in

this district. Each of these problems which caused these judges to feel helpless to properly handle them is being effectively dealt with through your sacrificial, unpaid work — with the assistance of only one full-time Child Welfare Supervisor.

"After hearing what I did at this seminar I am more than ever convinced that the services you are rendering fill a critical need — and they are not equalled anywhere.

"Again, in behalf of the children you are serving and protecting and, the Court you are assisting, I say a hearty thank you."

Members of the Deaf Smith County Welfare Board include: Mrs. O. G. Hill Sr., chairman, Mrs. Robert Higginbotham, Robert L. Thompson, Denzil Pullman, Mrs. Henry Hastings, Bruce Coleman and Mrs. Carl Springer.

Assisting the local board are Mrs. Jewel Smith, county welfare administrator, and Bey Crompton — of Dumas, district child welfare supervisor.

A white woman, Mrs. Rosie Lee, took them and helped them clean up their shack and made them clothes from her old ones. She made it possible for them to work for her and be able to attend school and college. The author of this book is now a teacher in Los Angeles."

Society Marks War Vets' Graves

"Every unmarked grave of a Civil War Veteran in Deaf Smith County will be officially marked and recorded", Mrs. Henry Sears of Hereford, president of the Deaf Smith County Historical Survey Committee announced today. The Committee will determine the location of the graves, mark them with an official government marker and report the erection of all such markers to the Texas State Historical Survey Committee to be included in a master file.

Other members of the Deaf Smith County Historical Survey Committee are: Will G. Harris of Friona, J. B. Elliston, Mrs. Clara Shore, Mrs. Reed Williams, Mrs. Clint Formby, Miss Lucille Park, Mrs. Lee Newman, and Mrs. Art Manjeot of Hereford.

"The marking of every Confederate grave in Texas is a main objective of the Confederate Memorial and Civil War Centennial Programs", stated Dr. Rupert N. Richardson, president of the Texas State Historical Survey Committee, sponsor of the project.

"This recognition by the state is long past due, and we feel that the information will be invaluable to the historian, scholar, and genealogist and will be of real interest to the tourist," Dr. Richardson said. "We urge anyone knowing of the graves of Civil War Veterans in the area to notify this Committee." The Texas State Historical Survey Committee is sponsoring

as part of the Civil War Centennial Observance the erection of Travel Information Markers on highways near important sites of action and events. Texas Historical Building Medallions have also been placed on buildings and homes associated with the Confederate period in Texas history.

Injured...

(Continued from page 1) ing in at the north entrance. The car caught the truck tractor at the rear drive wheels. I ran out of the building and saw the wheels had been knocked off the truck. It also knocked a gasoline tank off and the gas was pouring out of the tank.

According to the Highway Patrol officer investigating the accident, the truck tractor combination apparently turned in front of the Williams vehicle. Mrs. Williams did not have time to stop and the car slide only 95 feet before the collision.

The investigating officer's report showed that the truck tractor - trailer combination was apparently on the wrong side to the highway at the time of the collision. He pointed out that the only reason the two vehicles did not collide head-on was that the truck cab was turned to enter the drive.

Point of impact on the truck was at the rear drive wheels of the cab. The automobile then slide in under the trailer. With seven persons injured in the accident, the victims were carried to Deaf Smith County hospital in a Gilliland Funeral Home ambulance, a Hereford Police Department patrol car and two privately owned station wagons.

Driving the privately owned vehicles pressed into service were J. L. Marcum of Hereford and a passerby, Wayne Billington of Borger. Units of Hereford Volunteer Fire Department were also summoned to the crash scene because gasoline from the ruptured truck tank had soaked the highway.

After the pavement was washed down, the two vehicles were separated.

Due to the seriousness of the accident and the danger of fire, help was summoned by the Texas Highway Patrol. Assisting in traffic control and blocking of the highway were units of Hereford Police Department, Deaf Smith County Sheriff's office, and Texas Liquor Control Board.

The highway was closed off for approximately 20 minutes as the injured were taken to the hospital and wreckage was cleared away.

The 1960 model sedan was reported to be a total loss and the Amarillo Hardware Co. truck was very heavily damaged, according to the investigating officer.

Survivors of Mrs. Moore include her husband, Jeff, of the home; three sons, Joseph of Brookings, S. D.; Boyd, Sedan, N. M. and David of Oregon; two daughters, Mrs. Burt Williams, Portales, and Mrs. John Gaithers, Brookings, S. D.; five brothers, two sisters, and 12 grandchildren.

DEPARTMENTS DIMINISH CLEVELAND (8) - In these days of growing communities the Cleveland police and fire departments are cutting down. During a three and a half month campaign, men of the two departments trimmed off one ton of excess weight.

Herd...

(Continued from page 1) back Newcomb powered over right guard for the score with 3:45 left in the first period. P. R. Stiles kicked low on the conversion attempt.

Powell carried twice after Duncan had returned the kickoff 16 yards. Then quarterback Frank Cain passed 23 yards to Powell. As the team drove inside Phillips' 30, Haney fumbled and Richard Renuau recovered for the Hawks as the first quarter ended.

Aided by a penalty, Hereford held and forced Phillips' only punt. Hereford added another first down, then punted into the end zone.

On the next play, Newcomb fumbled and Charles Kelly recovered for the Herd.

Haney, Powell, Kelly and Cain drove 23 yards before Cain pushed over center for Hereford's TD with 3:43 left in the second quarter. Cain's option lateral to Kelly on the bid for two points was foiled and the game was tied, 6 - 6.

Newcomb returned the kickoff 13 yards to the Hawk 33 as time ran short in the first half. Newcomb and Johnson alternated for 19 yards. Then Dickie hit Charles McNeese with a sideline pass. McNeese tip-toed down the line for a total of 18 yards before being stopped. Newcomb got four to Hereford's 26.

Two passes went astray before Dickie hit Lynn Johnson at the goal - line for a 26-yard scoring play with 24 seconds remaining. Stiles' kick again was low, but Phillips led 12 - 6.

As the third quarter opened, Dickie returned the kick from his 20 to Hereford's 49. Phillips picked up four and five yards at a time and took advantage of a 15 - yard penalty against the Herd. Dickie kept the drive going with a 15 - yard keeper.

With fourth and six, Dickie passed and saw it grabbed off by Hereford end Mike Ferguson at the five.

Hereford punted and Phillips started another drive 38 yards from paydirt. Johnson got four and Newcomb picked up 13. Then each repeated for identical yardage.

It was first and goal from the four then. Newcomb got half the distance before Dickie score over right guard for the third period. Reserve quarterback Glen Roe passed to P. R. Stiles for the two - point play and the scoring was finished.

Hereford got one first down, then had to punt. The Hawks got a first down on Dickie's 17 - yarder, then David Dowell dived on a tumble on the Herd's 43.

Kelly and Powell drove for two first downs before Powell got hurt and Phillips took over on downs on its own 26.

The Hawks stayed on the ground and chewed up the remaining time. They drove to Hereford's 35 before losing possession on downs.

Cain hit Dowell for two five-yard pass plays, then Phillips stiffened and took over near midfield. The Hawks ran five plays before the game ended.

In other district action, Dumas used its stable of swift backs and its big line to crush Levelland 34 - 0 while Littlefield was knocking off undefeated Perryton in the latter's conference debut 33 - 0.

Although the machine is relatively inexpensive, commissioners decided to wait until existing storage facilities are gone before obtaining a viewer for the county. Until then, record books will continue to be used for research.

Two local abstract firms, A. O. Thompson Abstract and Deaf Smith County Abstract, are also obtaining microfilms of the county records. There is a viewing machine in the Thompson Abstract Office at the court house which may be used.

An index of the county records which have been microfilmed will provide for a fast, convenient method of locating records, Cain explained. All microfilm reels, each of which contains copies of three of the record volumes, will be numbered and filed accordingly.

Persons using the microfilms will view county records on a lighted glass screen. Cain pointed out that when the system goes into operation, persons wishing to see county records will use the microfilm viewer.

Another feature of the new system will be the ability to obtain photostats almost "automatically" of any county record. When the film is inserted into the viewer, a photostat of the record may be obtained simply by pressing a button on the viewer.

The county clerk stated that after the office begins using the microfilm for reference work, the records storage area in the courthouse could be reduced to a desk containing two filing drawers.

Anyone desiring information from the records will then simply look over the index and select the desired reel, insert the reel in the compact viewer, and turn to the reproduction of the desired page.

According to the deputy sheriff, he was attempting to stop the fight on the dance floor when the two men "jumped" him. They then ran from the dance.

Both Maldonado and Diaz were arrested on Monday as charges were filed.

Until then, record books will continue to be used for research.

Two local abstract firms, A. O. Thompson Abstract and Deaf Smith County Abstract, are also obtaining microfilms of the county records. There is a viewing machine in the Thompson Abstract Office at the court house which may be used.

An index of the county records which have been microfilmed will provide for a fast, convenient method of locating records, Cain explained. All microfilm reels, each of which contains copies of three of the record volumes, will be numbered and filed accordingly.

Persons using the microfilms will view county records on a lighted glass screen. Cain pointed out that when the system goes into operation, persons wishing to see county records will use the microfilm viewer.

Another feature of the new system will be the ability to obtain photostats almost "automatically" of any county record. When the film is inserted into the viewer, a photostat of the record may be obtained simply by pressing a button on the viewer.

The county clerk stated that after the office begins using the microfilm for reference work, the records storage area in the courthouse could be reduced to a desk containing two filing drawers.

Anyone desiring information from the records will then simply look over the index and select the desired reel, insert the reel in the compact viewer, and turn to the reproduction of the desired page.

Arrest of the two Latin Americans came following an incident Saturday, Oct. 20, as Deputy Sheriff Kenneth Maxwell attempted to break up a fight during a dance at Playhouse Skating rink.

According to the deputy sheriff, he was attempting to stop the fight on the dance floor when the two men "jumped" him. They then ran from the dance.

Both Maldonado and Diaz were arrested on Monday as charges were filed.

county has not yet purchased the viewer which must be used to see microfilmed records. Although the machine is relatively inexpensive, commissioners decided to wait until existing storage facilities are gone before obtaining a viewer for the county. Until then, record books will continue to be used for research.

JOHN ZAHN, a native of Haskell County, resides in Farwell, Texas with his family including two sons. JOHN ZAHN is a graduate of Baylor with a B. A. degree and many years successful business and farming experience. JOHN ZAHN BELIEVES in leaving for our children the heritage and high principles given us by our founding fathers.

Another Step Toward Centralized Government

On July 13, 1961, Andy Rogers, John Zahn's opponent introduced Senate Bill No. 8, to force all Commissioners Courts to buy all their road building, road maintenance equipment, tires and tubes through the State Board of Control.

JOHN ZAHN BELIEVES this is a drastic and dangerous step to deny local government and to place control of county government in the hands of the State. If YOU believe as JOHN ZAHN BELIEVES, that local progress can be realized cheaper, more efficiently and better by local citizens, go to the polls November 6th and

YOU MAY VOTE AS YOU PLEASE ON NOVEMBER 6TH!

There is no legal requirement—no moral obligation

Regardless of how you have ever voted...
Or in which primary you voted...
Or whether or not you voted...
Or how your poll tax receipt was stamped...

YOU CAN VOTE FOR ANY CANDIDATE OF ANY PARTY ON THE NOVEMBER 6TH BALLOT

Governor Price Daniel, while Attorney General, wrote an opinion on the question of party loyalty in which he said, "The courts of Texas have answered this question by holding that the pledge taken at the time of voting in the primary election DOES NOT create a legal obligation."

Recently Governor Daniel repeated that opinion by saying that the pledge on the primary ballot does not obligate anyone "legally or morally" to vote for the Democratic ticket in the general election.

MRS SHIRLEY GARRISON is preparing one of her family's favorite desserts. Everyone enjoys this Upside Down Date-Nut Pudding when she serves it at her various club meetings and parties. (Staff Photo)

LET'S COOK SOMETHING!

Favorite Recipes Become Quickly Prepared Meals

Walking into the Early American kitchen of Mrs. Mildred Garrison immediately makes one feel the warm, congenial atmosphere that exists. The weather being a bit frosty outside made it even more appealing.

Mildred is the usual active mother of this century. She has three children; a son, Harvey, is married and he and his wife are attending Texas Tech at Lubbock, where they are Juniors, and two daughters, Sharon and Pam.

As a garden enthusiast, she takes great pride in her flowers and has a big garden every summer. Mildred keeps herself busy in her spare time with PTA; teaching a Junior Sunday School class at the First Meth-

odist Church; as a member of the Hereford Study Club, of which she is secretary; president of the Easter Club, and formerly worked with the Bluebirds and Campfire for four years.

Moving here from Hart five years ago, they built the beautiful home in which they are now living 11 miles south of Hereford in the Easter Community. From every angle one can tell what an immaculate house keeper Mildred is. Her taste in decorations compare to any that is found in any of the home and garden magazines.

Mildred has a warm-hearted personality. Over a cup of coffee the conversation turned to favorite recipes. It was agreed that any recipe

that could be turned into a quick and easy meal and still be delicious was the favorite.

Some of the recipes Mildred shared were:

Spaghetti Skillet Dish
2 tablespoons oil or fat
1/2 cup chopped onion
1 pound ground beef
1 can spaghetti with tomato sauce
1 teaspoon salt
1/2 cup grated cheese

Melt fat in pan. Cook onion, salt and beef until meat is lightly browned. Add spaghetti with tomato sauce and cook on low heat five minutes. Add grated cheese and simmer for 15 minutes.

Mildred enjoys this salad because it can be mixed up

and stored in containers in freezer for later use.

Frozen Fruit Salad
1 pound can fruit cocktail
1 tablespoon fresh or frozen lemon juice
16 marshmallows
1 - 3 ounce package cream cheese

2/3 cup mayonnaise
1 cup heavy cream (whipped)
1/2 cup cherries
Drain fruit cocktail, reserving 1/4 cup syrup. Cream the cream cheese; add marshmallow mixture. Add whipped cream.

One of her favorite dessert is good to serve for clubs or company and is also an excellent Christmas-time recipe.

(Like brownie pudding—only it's date - nut cake atop, and butterscotchy beneath!—)

Upside - Down Date Pudding:

1 cup pitted dates, cut up
1 cup boiling water
1/2 cup granulated sugar
1/2 cup brown sugar
1 egg
2 tablespoon butter or margarine, melted
1 1/2 cup sifted enriched flour
1 teaspoon soda
1/2 teaspoon baking powder
1/2 teaspoon salt
1 cup chopped California walnuts

Combine dates and water. Blend sugars, egg and butter. Sift together dry ingredients; add to sugar mixture. Stir in nuts and cooled date mixture. Pour into 11 x 7 x 1 1/2 inch baking dish.

Top with brown - sugar sauce: Combine 1 1/2 cups brown sugar, 1 tablespoon butter or margarine and 1 1/2 cups boiling water. Bake in moderate oven (375°) about 40 minutes. Cut in squares; invert on plates. Serve warm with whipped cream. Makes 9 servings.

YEP—TO TRY AND CAPTURE A CERTAIN KIND OF ANIMAL THAT DOESN'T EVEN EXIST IS NO EASY JOB, TIM—

BUT, SPUD, PATROL HEADQUARTERS HAS RELIABLE INFORMATION THAT A SMALL HERD OF PYGMY GIRAFFES HAS BEEN SEEN IN OUR TERRITORY!

THE GOVERNMENT NATURALLY WANTS TO MAKE A SCIENTIFIC STUDY OF THESE ANIMALS, AND—

LET'S QUESTION THAT NATIVE—

YOU ASK DID ME EVER SEE LITTLE GIRAFFES THAT NEVER GROW TALLER THAN THIS HIGH? NO, NEVER!

ME, CHIEF OTOMO, CAN TELL YOU ONLY WHERE GIRAFFES TALL AS THE HIGHEST TREE CAN BE FOUND, SGT. TYLER—

THANKS, CHIEF, BUT THE KIND WE'RE SEARCHING FOR CAN'T GROW TALLER THAN THIS—

IT'S HOPELESS, TIM— FOR DAYS WE'VE BEEN ASKING PEOPLE—NOT ONE HAS SEEN OR HEARD OF PYGMY GIRAFFES!

Anniversary Flower Show Theme Is "Time"

Presentation of The Hereford Garden Club's Annual Flower Show was one of the main highlights of the past week. The showing was held at the

Community Center designating its 25th Anniversary. "Reflections of Time" was the theme carried out in the show through the medium of

clocks, displays, flower arrangement and color. Entries in the Yesteryears Classes were grouped underneath a large hour-glass of silver; those of the To-

day Class were grouped around a large wall clock in gold; those of the Tomorrow group were arranged with a large black modern clock as the fo-

cal center. Mrs. W. C. Hromas was chairman of staging and co-chairman was Mrs. Hugh Clearman.

Entry to the show room was marked with a three-way mirror which reflected an antique clock, marking the time. Autumn foliage and chrysanthemums were banked at the foot of the mirrors and formed the background.

O. G. Hill Sr. displayed the Educational Division, which was both interesting and informative. The featured idea in this division was Food For Our Plants. The showing was divided into three classes: No. 1 class commercial plant foods were featured; No. 2 - the natural or readily available plant foods were displayed; No. 3 - materials, formulas and methods were shown on how to make a compost pile. In doing this they could make their own fertilizers or plant foods, therefore, not feeding the kitchen sink or the garbage collectors. The

finished product was exhibited, and is excellent food for plants grown in this area.

Another feature was the display arranged by Ms. A. L. Manjeot. In it were shown specimens and floral arrangements grown by Mrs. Manjeot. Many of the specimens shown were new introductions of 1962 and a few of the old favorites which have been grown over a period of years in this local area. Featured was an excellent and beautiful Peace Rose, which is the adopted flower for Hereford.

Another interesting feature was the Junior Division. Both the Horticultural and Artistic Divisions showed good garden practices and floral artistry.

Mrs. S. S. Williams, project chairman, had a book corner in which National Council Handbooks, Lone Star Gardeners and the 1963 National Flower Council Handbooks, Arrangement Calendars were shown and sold.

Artistic Divisions of the show featured chrysanthemums, since this was the flower specially grown for the fall show. Many lovely and outstanding specimens were shown in the Horticultural division. In the Artistic Division, the Signs of the Times, was evident in that missiles, astronauts, space men, crescents, moons and various other interesting features were shown in the arrangements.

Winners in the Horticulture Division were: Mesdames Emmett Hale, R. W. Mitchell, J. V. Pickens, G. W. Newsom, Jennie Clark, R. L. Wilson, M. T. Rutter, O. G. Hill, Robert Viegel, Roy Calvert, Ray Johnson, Hugh Clearman, Colby Conkright and John Jacobsen Jr.

Mrs. Ray Johnson was Sweepstakes Winner in the Horticultural Division and Mrs. R. L. Wilson was runner-up. Those placing on the winning list in the Artistic Division were: Mesdames J. V. Pickens, S. S. Wil-

liams, Emmett Hale, R. W. Mitchell, W. C. Hromas, G. W. Newsom, R. L. Wilson, O. G. Hill Sr., M. T. Rutter, Ray Johnson, Roy Calvert, Colby Conkright, John Jacobsen Jr. and Robert Viegel.

Sweepstakes winner for the Artistic Division was Mrs. M. T. Rutter. She also won Tricolor Award in the Class 'Signs of the Times.' Mrs. John N. Jacobsen Jr. was runner-up. She was winner in the National Judge's class entitled, "Steps Into the Future."

Award list for the Junior Division is as follows: Artistic Division - winning blue ribbons were Mary Stoy and Lynda Jacobsen; second place winners were Mary Stoy and Jan Scott; third place winners were Billie Jo Witherspoon and Camilla Pavleek. Honorable mention ribbons were awarded to Billie Jo Witherspoon and Susan Ballard.

In the Horticultural Division (Continued on page 7)

SILVER ANNIVERSARY of the Hereford Garden Club was observed last week with a flower show and, appropriately enough, inauguration of a new silver award. From left are: Mrs. W. C. Hromas, staging chairman; Mrs. R. L. Wilson, president of the club; Mrs. Ray L. Johnson, high-

point winner and recipient of the Gladys Manjeot Award; Mrs. A. L. Manjeot, donor of the award; and Mrs. M. T. Rutter, artistic division sweepstakes winner and show chairman. (Staff Photo)

Sondra Brumley, Roger Munn Wed

In an impressive candlelight ceremony at 6 p. m. Friday evening in the bride-elect's home, Miss Sondra Anice Brumley, daughter of Mr. and Mrs. Roger Brumley, 303 Sunset Drive, became the bride of Roger Wayne Munn, son of Mr. and Mrs. Marvin J. Munn of Tahoka.

The Rev. B. L. Davis, minister of the First Baptist Church

of Hereford, performed the double-ring service before a corner fireplace flanked by two spiral candelabra, with white votive cups, two arrangements of white stock and white beauty asters. Centered on the mantel was an arrangement of greenery and white wedding tapers. In front of the fireplace was an arrangement of jade and emerald greenery.

Miss Suzy Woodford, pianist, played a prelude of nuptial selections as guests arrived. She accompanied Sargent Munn, brother of the groom, of Denver City, as he sang "Because," by d'Hardelot; "I Love You Truly," by Bond; and "The Lord's Prayer" by Malotte. Miss Woodford played the traditional wedding march for the professional and recessional. Candles were lighted by Mike Brumley, brother of the bride.

Mrs. Paul Larson of Littlefield, aunt of the bride, was matron of honor. She wore a pretal pink satin brocade sheath dress, fashioned with brief jacket and dome overskirt with matching shoes. Her headdress was a pink lace tiara studded with pearls and complemented with a circular nose veil. She

carried a colonial nosegay of white carnations with pink satin streamers tied with love knots.

Donald Crooks of Hereford served the groom as best man. The bride, given in marriage by her father, was attired in a designers gown of white chantilly lace and tulle over silk taffeta. It was styled with a portrait neckline outlined with iridescent sequins, and fashioned with elongated bodice enhanced with seed pearls. Complementing the ruffled tulle skirt, was a triple back puff of white bridal satin, which cascaded into a graceful train. Her fingertip veil of silk illusion fell from a coronet of pearls.

The bridal bouquet, a cascade arrangement to white cymbidium orchids and feathered carnations on a base of maline, tied with satin streamers and strands of pearls was carried atop a white lace covered bible. The bride carried out the tradition of wearing something old, new, borrowed, blue and a penny in her shoe.

Mother of the bride chose for her daughter's wedding a dress of blue silk with accessories to match, and the mother of the groom wore a navy crepe accented with accessories to match. Both wore corsages of white carnations and silver tuffs.

A reception was held in the bride's home immediately following the ceremony. Guests were registered by Miss Jani Brumley, sister of the bride.

Appointments were in silver and crystal. The serving table was laid with a floor-length pink tiered net cloth over pink taffeta, and centered with a silver candelabra entwined with white roses, stephanotis and smilax that also encircled the base of three tiered wedding cake which was topped with a miniature bride and groom. A silver service was used to serve the punch and coffee. Mrs. Kenneth Coker poured and Mrs. Louis Woodford served the cake.

When the couple departed for a honeymoon trip to points in New Mexico, the bride was attired in a light blue wool suit complemented with a cerulean mink hat with black accessories. Her corsage was orchids lifted from the bridal bouquet.

When the couple return from their honeymoon they will be living at Tahoka. Mrs. Munn is a graduate of Hereford High School and attended West Texas State College in Canyon and is now attending Texas Tech at Lubbock. The groom is a graduate of Denver City High School and attended West Texas State College and

Texas Tech. Out-of-town guests attending were: Mr. and Mrs. Urban Brown and Sharon, Mrs. Stella Throckmorton, Mr. and Mrs. Marvin Munn and Miss Sheryl Neull of Tahoka; Mr. and Mrs. Joe Marshall of Post; Mr. and Mrs. Paul Larson and Keith of Littlefield; Mr. and Mrs. Sargent Munn, Neal and Kevin of Denver City; Miss Sammie Evans, Mr. and Mrs. B. E. Brumley of Lubbock; Miss Nina Mae Gragg of Pottsville, N. M.; Mr. and Mrs. George Robertson of Amarillo; Mr. and Mrs. Elvin Wilson, Darlene and Diana of Friona; Mr. and Mrs. C. E. Crooks, Mary Lou, Daniel and Dale of Plainview.

Approximately 75 signed the guest register.

Seven Members Attend District B & PW Meeting

Mrs. Cordya Jarvis of Brownwood opened the meeting of the District 9 Conference banquet of Business and Professional Women's Club at the Holiday Vic Mon Hotel last week - and by saying, "This is the first time in history that women outnumber men."

There are 13 clubs in District 9, and delegates registered from Borger, Pampa, Panhandle, Perryton, Canadian, Shamrock, Plainview, Lubbock, Hereford, Dimmitt, Dumas and Amarillo. Mrs. Jarvis keyed her theme to six areas: civic participation, citizenship responsibility, educational opportunities, public health and safety, civil defense and continuity of government.

Tips On Hair Care Given At BSP Meet

Kappa Iota of Beta Sigma Phi met in the club room of the Community Center recently with Mary Jean Gore, president, calling the meeting to order. Plans for the Preferential Breakfast on Oct. 21 were completed.

New pledges were voted into the chapter with rituals planned for Nov. 6 at the Community Room of the First National Bank.

Mrs. Bruce Fink presented the program on "Her Crowning Glory" giving the proper care and beauty tips for the hair with many different styles. Hostesses, Mrs. John Schneider and Mrs. Delbert Bainum, served refreshments to the following: Mesdames Delbert Bainum, Don Baugous, Doc Carter, Bruce Fink, Howard Gore, Robert Hickman, John Schneider, and Larry Summers. One guest, Mrs. Joan Scott, was present.

Mrs. Alexander Discusses Americanism At Oct. 26 Meet Of Pioneer Study Club

"Time for Americanism" was the theme of the meeting of the Pioneer Study Club on Oct. 23 in the Japanese Room of the Western Wheel Inn. Mrs. Dave Alexander, guest speaker, presented a timely address on the subject, "What Americanism Means to Me."

"Americanism has a different meaning for each person; yet all are valid and point to a way of life, a desire to be free and to achieve self-realization," she said in commenting on the results of a poll of seven American citizens. Mrs. Alexander asserted, "Americanism is revolution. Revolution in the 20th century is different from colonial revolution, but America must always be in revolution or our way will lose ground."

She gave a number of interesting observations by O. W. Brogan, professor at Cambridge University, in his book "The American Character." He pictures America as a neighbor to the world; the quickest to convert plowshares into swords, but equally quick to convert swords into plowshares. He states that the greatest changes in America during the last twenty-five years have been in the armed forces and wealth of the country; and he poses the question of what is to become of a country that can afford leisure on such a large scale.

Reminding the clubwomen of the November elections, Mrs. Alexander urged them to exercise their voting privilege, emphasizing the importance of the vote in the renewal or weakening of Americanism in the years to come. Mrs. Alexander concluded by saying, "Americanism does have a future and we are looking toward the future."

A devotional by Mrs. P. B. Sowell opened the meeting. Mrs. Ralph McCullough, president, presided over a brief business session. She reminded the club that the date was Constitution Day and commented on observances that were being held in the area. A new member and guests were welcomed by the president, Mrs. Ted Panciera was the new member welcomed and Mrs. H. M. Cogswell of Sarasota, Fla., formerly of Hereford; Mrs. R. N. Smith and Mrs. Alexander were guests. During the meeting the club voted to sell decorated postcards to secure funds for the improvement of Mother's Park, a club project. The Federation report was given by Mrs. H. E. Miller. Depicting the Halloween motif, the tables were attractively decorated with arrangements of gold and bronze chrysanthemums, candles and large black ceramic cats. Places were marked with Halloween place cards. Hostesses were Mesdames A. L. Manjeot, Burl France, William Wimberley and Fred Barrett.

Sorority Pledges Honored On Sunday

Western Wheel Inn was the scene Sunday for the Preferential Breakfast given for the pledges of Kappa Iota. Guests and members were welcomed by the president, Mary Jean Gore. Yellow rose buds were given to the following pledges: Jo Ivis, Paula Wright, Mesdames Preston Hagans, C. D. Fitzgerald, Pat Ferguson and Ted Fangman. Mrs. Augusta McCarter, a transferee from Hart, was also present. Members attending were: Mesdames Delbert Bainum, Don Baugous, Doc Carter, Gene Cope, Robert Fillpot, Howard Gore, Harold Miller, John Schneider, Larry Summers, Jim Thomas, C. C. Williams and Glenn Wilson.

Bay View Program On 'American Character'

Bay View Study Club met at the Community Center Oct. 18 with Mrs. Jack Gilliland, vice-president, presiding over the meeting. Mrs. J. W. Kirby served as hostess. Mrs. D. H. Alexander presented the program on "Americanism." She gave a summary of "The American Character" by D. W. Brogan. She introduced her summary by saying, "Brogan is a professor at Cambridge University in England. He is respectful of and interested in the American people. Living in this country for seven years and having made 35 trips over for various reasons qualifies him to analyze our national character."

Bay View Club has had two previous meetings prior to this one. The year was opened with a coffee held in the home of Mrs. Richard Barnard, Mrs. D. H. Alexander, Mrs. R. B. Miller and Mrs. W. S. Kerr, social committee, assisted with the meeting. Yearbooks were distributed and explained by yearbook committee chairman, Mrs. Barnard. Mrs. Howard Gault arranged a tour of the Panhandle Plains Historical Museum for the Texas Heritage Day program for the club's second meeting. Members present at the meeting were: Mesdames D. H. Alexander, Phillip Barkley, Richard Barnard, Colby Conkright, Howard Gault, Jack Gilliland, Frances Hardwick, A. M. Jones, W. S. Kerr, J. W. Kirby, Ansel McDowell, R. B. Miller, Carl Perrin, and J. W. Spradley.

Hardwick Named As Consultant In RC Program

Bill Hardwick, along with a group of other Panhandle residents, is taking part in an experimental program designed to broaden voluntary Red Cross services in the Golden Spread. The group, consisting of experienced Red Cross trained first aid and water safety instructors, have been designated as program consultants through the St. Louis area office upon recommendations of H. H. Gilliam of Brownwood, Red Cross First Aid, Small Craft and Wa-

ter Safety field representative. Coordinating the consultant program with Gilliam is R. M. Blackburn of Amarillo. Gilliam stated the program is designed to give better service to smaller Red Cross chapters in the area through a larger

central chapter where a paid administrator can serve as coordinator. "These volunteer consultants will be giving of their time by traveling in the area and contracting Red Cross volunteers in several counties in an effort

to further activity in first aid and water safety training," said Blackburn. In many instances, the chapters to be called on by consultants already have hard-working volunteers who carry on the Red Cross programs, he added.

New Cuban Policy Carries General Support, Regardless Of Consequence

For the third time in one generation, people of the United States nervously face the tension of a possible war. It is a situation that none of us want but, nevertheless, one which few Americans would alter under existing circumstances.

Republicans hastily joined forces with the Democrats when President Kennedy made his announcement that this country would adopt a rigid stand concerning Russian missile installations in Cuba and, most important of all, Americans responded favorably from coast to coast. This territory, without doubt, backs the administrative decision with an overwhelming majority. Endorsement from other nations of the world, though not so overwhelming, appears unanimous, and we feel sure that the President was heartened by the stand in Latin America.

Despite the furor raised by Russian and Cuban representatives in the United Nations Security Council hearings, the United States is not making any effort to starve the already hungry people of Cuba. President Kennedy carefully pointed out that his "quarantine" would cover offensive weapons only, and later he made a list of these weapons. For us to sit idly by until Russia armed the island of Cuba with missiles aimed at every city in this hemisphere would be foolish — even stupid. If that time ever came, in fact, we would be in no position to enforce the quarantine now in question, and Russia could dictate their terms to all people throughout the world.

In this particular situation, the United States has a responsibility not only to itself, but to all other free nations for, once U. S. power is denied, no other nation has the might to face or defy Communist dictatorship. And if Cuba were fully armed, our only possible form of retaliation would be to wipe the island off the face of the map. Certainly the present measures, though stringent, would be nothing to compare with an action of this type.

In addition, it seems to us that the present fiasco should pretty well write an

Hereford Band Is Area Asset

Once again, the Hereford band has brought recognition and honor to the community. It is an organization of which we are all proud.

More important still remains the fact that the band program is being expanded in Hereford Schools. Addition of a part-time instructor is probably the most important step which will contribute to early training of interested youngsters. Because the program encompasses so many individuals, it is definitely a school and community asset.

Most band members and parents will tell you, too, that untold hours of practice and drills are necessary in the successful band, such as that which we have in Hereford.

For more than 25 years this community has been privileged to boast one of the best band organizations in the Southwest and, certainly, 1962-63 is no exception.

end to the United Nations. This body today serves chiefly as a Communist propaganda medium and, until all nations adopt the attitude of cooperation and a desire to do the right thing, its chief asset to the world would seem to be that of a discussion panel. When the chips are down, however, it is invariably the nation involved which must salvage its own destiny. This, we have seen in Korea, at the Suez Canal and now Cuba. Should President Kennedy agree to lift his embargo two weeks, as suggested by U. N. for instance, Russia could most easily fill Cuba with missiles during the period.

The present "showdown" between the United States and Russia, we hope, will establish a precedent for future negotiations. We further hope that President Kennedy will settle a few other questions, including Berlin, while he is wearing the iron glove.

The United States is a peace loving nation. It also loves liberty, even beyond its love for peace. Tremendous nation-wide endorsement for the current handling in Cuba proves this point without a doubt. The only criticism we hear, in fact, centers around the idea that we did not take the step sooner. It further proves once again the old saying that the people of this nation are generally one or two steps ahead of the nation's leaders.

Airport Key To Local Progress

While municipal operation of the Hereford airport has been satisfactory, we are glad to see the City Commission take steps to lease the airport once again.

In the first place, this country and nation were built on a basis of competition and private enterprise. In the second place, an energetic private operation should contribute to improved facilities, better service, and more equipment.

Many airports, for instance, today furnish used cars for incoming pilots, many of whom are business people who will spend a few hours in the community. If the Hereford airport does not operate on a parallel with other ports in the territory, the very excuse for its existence has been defeated.

Despite much opposition in its initial founding, the airport has consistently operated on a break-even or better basis. We have one of the finest small town ports in the country and, with current interest in aviation, it is highly important that the community keep stride with advancement in this direction.

The existence of a strong secondary airport can, in the future, mean as much to the community as highways and rail service have meant in the past. Hereford has an excellent start in this direction and, we feel, a sound, aggressive airport operation will contribute to continued growth and progress for the territory.

SURPLUS FOODS

Things Could Be Much Worse

We note with interest that Mr. Krushchev's farmers have let him down once again. Russian farm production this year, according to reports, will be little or no better than the disappointing harvests seen in the nation since 1955.

This situation, it seems to us, tells an even greater story than the failure of agriculture under communism, because it emphasizes the fact that prosperity in this nation is always parallel to prosperity of the country's farmers. While we do not understand the economic basis of this condition history pretty well records the parallel down through the years.

The soil, and what it produces, is unquestionably basic, and closely allied with the happiness of the entire population. For this reason, it appears that many critics of American agriculture — and they are growing daily in cities and union circles — might well pause and take a second look, lest they impair their own welfare.

United States over-production in recent years has provided innumerable problems. At the same time, we feel sure that almost any citizen will agree that over-production is a far better situation than under-production, and the possibility of war with the communists may be averted more on the basis of food shortage in Russia than on knowledge of nuclear warfare or guided missiles.

Meanwhile, most of our problem centers around "division of spoils" and practical distribution, rather than lack of food. All in all, things could be a lot worse.

What Now, Coach?

Hereford Also Offers Delightful Fall Colors

By Mrs. R. L. Criswell
Fall is here and nature begins clothing and unclenching for the long cold nights ahead. We keep hearing and reading about Aspen trails and other colorful drives to take, but I wonder just how many have taken the trouble to drive around our own home town and see the many lovely things we have right at home. Sometimes we forsake home searching for beauty in other

places and fail to see what is almost in our own window's view.

Have you seen the golden lace frocks of our locust trees, highlighted by the brown seed pods that sway in the fall breeze? Our bright golden days that have increased the joy of living in October for its bright blue weather? No wonder the poets wrote sonnets to one of the loveliest times of the year.

It won't be long until Tierra Blanca Creek will blaze forth in all its golden glory, when the cottonwoods put on their bright frocks with touches of red to highlight the gold. If you haven't been in the habit of taking time out to drive out that way in the fall you have been missing something.

There is a golden vine on Star street that highlights the home with a light that seems to welcome one or to say hello. Another home a bit farther up the street has a terrace flower box that flashes a bright welcome with flaming red geraniums. Their color more intense than in the summer's hot sun.

Roses? The beautiful Peace rose is at its height of beauty when the nights turn cool and tinge the pale yellow flowers with a deep glowing pink. Of course there are many, many others if one will just take the time to look for them. The shrubbery, too, is in its brightest coat of the year.

Now I want to tell you of a few more things that are ready and waiting for a museum. Especially two dutch ovens. Both of these were made before the 170s as they have handles like ordinary skillets; while those made later than that have handles crossing from either side of the round oven. I have been told that all the old ovens, although quite heavy, only had the straight skillet handles, even if it was almost impossible to lift one off the fire with the straight handle.

One of these has been handed down in the Hopson family and it was used for baking bread by Mr. Hopson's grandmother as late as her fifth child. She cared for five children and did all the cooking on her fire place for her family. Hopson says he remembers his grandmother baking bread for supper in the oven as it was much easier than firing up the big wood range hot enough to bake bread. The bread baked in these ovens surpass in flavor any (Continued on page 5)

INTERIM ZONING ORDINANCE PASSED

Public hearing and adoption of the interim zoning ordinance for Littlefield was a highlight of Thursday night's City Council meeting. The ordinance created furor several months ago, and since that time was completely re-written. There was no one present for the final reading of the ordinance which was adopted by the Council. Under terms of the ordinance the city established regulations for the use of land, buildings, and structures within the city limits for the operation of business, industry or other purposes which create or produce offensive or obnoxious odors, dusts, gas fumes, smoke, noise or vibrations or in any other manner adversely affect the health, safety and general welfare of the citizens of Littlefield. The ordinance does not affect existing businesses or industries. Councilmen also appointed nine members of a Building Code Committee to begin work on a building code for the city.

SOAKING RAINS HALT HARVEST

Soaking two-inch rains brought the fast-closing grain harvest and onrushing cotton gathering to a standstill throughout the area Wednesday. The weather threatened to hurt quality of the area's fine cotton crop, but farmers apparently retained their optimism "It hasn't hurt much, and if it clears up, everybody will be in a good humor again," said one. Olton itself recorded an even two inches of rain through Wednesday to about 6 p. m. according to James Gallagher of Pioneer Natural Gas in the Circle area, the same amount was reported, but totals to the north and south were slightly higher.

HIGHWAY PROGRAM STILL BOGGED DOWN

Little progress is still made on the proposed four-lane widening of U. S. 84-70 northwest of Muleshoe to the county line, it was learned Thursday as unfinished preliminary details in the state highway department continued to create a stalemate. In the meantime, Bailey County can make no move until these details are disposed of. County Judge Glen Williams said, Bailey County's share in the project, \$250,000, is tucked away in the bank drawing interest on the bond-provided money, he explained. The state department, it was explained, must appraise "every tract" to be covered by the new road. All engineering and planning must be completed before this step can be taken and Judge Williams said that phase of the highway department's work has not been finished.

DAM SITE HEARING DELAYED

Spearman and Hansford County haven't secured a permit for the Palo Duro Dam yet, and it may be some time before they do. The public hearing, which was set for Monday, Oct. 29, may be postponed after Ochiltree County requests more information regarding the amended application for a permit. Judge Gene Steed has said that he and the commissioners court would like to know what the new cost will be for redesigning the dam and spillway and how much it will cost to move oil and gas wells that would be covered by the reservoir.

THE BOOTLEG — Philosopher

Editor's note: The Bootleg Philosopher on his bindweed farm seems to be a little moon-struck, his letter this week indicates.

Dear editor:
I don't like to stand in the way of scientific progress, I don't care how much progress the world makes so long as it goes around me, but I read in an article last night that the best brains are predicting that we'll put a man on the moon by the end of the 1960's, and there are a lot of people who can't wait. I can.

I suppose there are people who are itching to be able to say, "By the way, I spent last week-end on the moon," but it's sort of like the people who brag about eating breakfast in New York and having lunch in London. That's going a long way to get something to eat that's no better than what you could have had at home. You can't make me believe any lunch on earth is worth flying 3,000 miles over the ocean to get to. I always have a meal at noon on this bindweed farm, and sometimes between breakfast and it I don't travel over a hundred steps. I could never see any point in going after something which, if you sat still, would come to you anyway.

Furthermore, I've been reading some things about the moon which make me less and less enthusiastic about it. For example, one article I read said the temperature up there varies from 214 degrees below zero to 250 above. That sure seems like going a long way to burn up in the daytime and freeze at night. It doesn't seem like a place I'd be interested in trying to farm. Furthermore, I'll bet the television reception up there is terrible.

What I'm saying is, certainly man ought to try to explore moon, if his tax money holds out. But just don't expect too much to come of it. The race to the moon may be like next week's football game — awfully exciting at this stage but not very important after it's over. Now if the coach would just take my advice, we could win that game.

Yours faithfully,
J. A.

Residents Attend Fair In Dallas, See Sights

By Ann Beavers
Mr. and Mrs. L. E. Garrison and Kathy and Kirk, along with Mr. and Mrs. John Horton, left Adrian Tuesday for the State Fair in Dallas. Justin McBride joined them at Childress and rode the rest of the way.

Kathy showed her calf on Thursday morning in a class of heavy-weight Herefords. Her steer was one of 12 out of a total of 78 to grade superior and won a blue ribbon. The calf sale was held on Friday with some 383 club pound calf brought 37 cents per pound.

Clint Homfeld hasn't missed a basketball game in six years, but he almost missed one last Friday night when he ran into a bull calf on the way to the ballgame. The accident occurred eight miles south of Adrian on state highway 214. The Angus bull calf, belonging to Robert Knowles, was killed, and there was some \$500 damage to the car.

Mrs. Jess Robinson has a very, very old whale oil lamp that has been handed down in her family for at least 300 years or more. Did you ever see one? I know there are pictures of them but this copper lamp is indeed a curio of the past. It is shaped something like a modern oil can, but the hole in the top is smaller to keep the wick from sliding down inside and also to keep too much oil from oozing through the wick, causing it to smoke too much. I am sure they all smoked to some extent as candles do but there were ways of cutting down the smoke.

There are so many things for the children to see; the whale oil lamp as well as the first oil lamp, the old Rayo lamp which was so much brighter than the mantle lamps. We have improved our lighting so much, it is almost impossible for the children to imagine life without electric light; or the many, many other things have been improved for making life more pleasant. These need to be on display, where the children could study them and learn just who had used them in those long ago days. Again, museums are not only for profit, but for learning about other days.

New Zealand is assisting in Nepal's agricultural development by providing implements, fodder, sheep and cattle. The Swiss are aiding dairy development there.

Fossils, hippopotamuses and pygmy elephants found in shadowy caves on Malta suggest that Malta was once part of a land bridge between Europe and Africa.

MONA'S COFFEE BREAK

Husbands Fall Into Different Categories

By Mona Jette
What kind of husband do you have?

Is he the "Grass Is Greener In My Yard" type? This specimen looks forward to each weekend with enthusiasm, when he can get out in the yard and push the lawn mower over an acre of green, un-dandelioned grass. After he finishes the lawn, he pulls the weeds from the flower beds and builds a compost pile or two, singing "Whistle While You Work" all the while in a lusty baritone.

Or perhaps your husband falls into the category of the "Kitchen Putterer". This type (whom some experts claim to be extinct) loves nothing better than to get in the kitchen and whip up a seven-course dinner, topped off by Baked Alaska for "a little something sweet". He refuses to let his wife help with the dishes and quickly shoos her out of the kitchen as soon as she ties the apron securely around his waist. (I know for a fact that this type still exists. I saw a commercial the other day on television.)

The lucky wife who possesses a "Garbage Dumper - Outer" is doubly blessed. Every time her garbage can gets half-way full, this fastidious little help-mate totes it willingly out to the trash can with a cheerful countenance that is a joy to behold. He never clutters the house with empty cigarette packages, cigar ashes or old candy wrappers; and what's more, he is a shining example to his offspring.

Then, there is the "Do It Yourselfer", to whom every day is Pick Up, Paint Up, Fix Up Week. (Any woman having one of these is the envy of the neighborhood, for he is coveted by all.) He can texstone and put a room with the skill of a professional, builds knotty pine bookcases on weekends and hand-hooks rugs in his spare time.

Unfortunately, my husband is none of these. (Ooh... he's going to hate me for this. I may be seeing Jimmy Witherspoon about some legal work!) Our house is easy to spot. It's the one that looks as if it had been homesteaded for three months - or a family of nesters had just moved in. Sure, my husband works in the yard; once a year! Right before his mother pays us her annual visit. About five ticks before she arrives, he rushes out with the lawn mower and gives the grass a quick shave, not even bothering with the haircut and bay rum. Then do you know what he does? The minute his mother sits down, he props his feet up on the footstool and talks about how hard he works in the yard, while he furtively admires the new blisters on his hands and tries to pick the grass out of his hair without anyone taking notice.

But he is a born kitchen putterer. He putters in the mashed potatoes, he putters in the salad and green beans. (He calls it eating!) But he leaves the dishes to me, knowing I wouldn't do anything to aggravate his allergy to dishwasher and detergent.

And the Garbage! How I utterly loath that garbage! Sometimes I wonder how a family of five can accumulate so much junk. The man of our house means well on this subject, but somehow manages to "forget" about it. Our dog does a pretty good job as a garbage

disposal with the left-overs, but somehow, he hasn't learned to digest tin cans, paper towels, milk cartons or corn cobs. Maybe I should trade him in on a goat. (The dog... not my husband!)

But a "Do It Yourselfer"? Here is a category where my hubby really shines. He is a born fix-it man. He painted the bathroom, or rather started it. He got nearly finished, except for a two-foot area around the wash basin, when he took a short break to watch Arnold Palmer on Championship Golf. That was two months ago! Nothing thwarts a do-it-yourselfer like interruptions... like the World Series, the Green Bay Packers... Championship Bowling.

I know he's not the only one with failing. One of my best friend's husbands started a cellar last year. (Or was it the year before that?) Anyhow, she has come to the conclusion that the only way it will get finished is for him to come home some dark night, and forgetting about the deep hole, drive off into the darn thing!

But I shouldn't gripe, because my husband is a wonderful mate and father. Honest! He writes beautiful poetry, which more than makes up for the piled up garbage and our ratty landscape. For instance, here is a poem he wrote on my recent birthday:
Money for a present?
Sorry, we have none.
But our love for you
is as big as the sun.

for Juniors, Jan Scott and Camilla Pavlicek were first place winners.

This being the Silver Anniversary Year of the Hereford Garden Club, Mrs. A. L. Manjeot presented to the president, Mrs. R. L. Wilson, a silver trophy, which in turn was awarded to Mrs. Ray Johnson, who won it on highest number of Ribbon Award Points. This trophy is to be awarded in each succeeding year at the Annual Flower Show and will be known as the "Gladys Manjeot Award."

Judges for the show were: Mesdames W. T. Graham, LeLand Abbott and D. C. Blatniem, all of Amarillo. Serving as clerks for them were: Mesdames Colby Conkright, R. W. Mitchell and Hugh Clearman. The judges, national accredited, scored the over - all show as a Blue Ribbon winner.

Mrs. John N. Jacobsen Jr. was chairman of hospitality and refreshments were served from a beautifully appointed table featuring fall colors. The floral centerpiece was of chrysanthemums and succulents. Mesdames O. G. Hill, Jennie Clark, J. V. Pickens and Roy Calvert presided at the tea table.

Approximately 300 guests attended the show with many out-of-town guests present.

The Dome of the Rock in Jerusalem is a spot sacred to Jew, Christian and Moslem. Here Solomon built the great temple; Christ cast out the money changers; and Mohammed ascended to heaven on his horse.

About 300 million gross of bottle caps are used each year for capping soft drinks and beer in bottles and cans.

To us you are no older, only wiser, my dear. We hope to keep you the happiest, year after year. Now, you tell me. Could I ask for more?
