Hereford school children will have their second holiday of the year Monday, Sept. 17.

FOR TRANSPLANT

Residents Will Eyes To Others

Two Hereford residents are among the first in the area to give one of life's most precious possessions.

Because of the pledges of these two, and similar promises from hundreds of others in the future, many persons who are now blind may see.

Hi-Plains Eye Bank Inc. recently launched a drive to obtain eye donors. Sponsored by some 60 Panhandle Lions Clubs, the eye bank enables area residents to will their eyes to be removed after death.

These eyes can mean the difference for another person between blindness and good vision. Following their removal from the deceased donor, portions of the eyes may be transplanted into another human's eye to repair visual difficulties.

Around Town

It just wasn't Hereford's night at Canyon. Threatening clouds finally gave way and started dropping scattered rain on the crowd when it gathered in Buffalo Stadium.

Director Ben Gollehon, by that time, didn't really care one way or another. With a larger band for this year, more uniforms were needed and ordered.

Officials of Holly Sugar Company flew back to Colorado Springs Friday night with elation and briefcases bulging.

They were carrying back signed applications for more than 75,000 acres of sugar beets in Deaf Smith, Castro, Parmer, Curry and surrounding counties.

The request will be used to back up a petition by Holly and the Texas Sugar Beet Growers Association to locate a beet refinery in or near Hereford.

The joint petition will be presented at a hearing of the U. S. Department of Agriculture in Washington, D. C., on Sept. 25. Making the presentation will be officials of Holly Sugar and the TSBGA.

Likely to be on hand from this area are Lee Benefield, president of the Association, James W. Witherspoon, Henry Sears, all of Hereford, and Bob McLean of Dimmitt.

They will be seeking permission to assign the 1964 special allocation for 65,000 tons for new areas to a proposed \$20,000,000 plant in Hereford. Many expect the 1963 allocation will go to California, which has a refinery under construction.

Five offices were established in this area Wednesday afternoon. The Hereford office was swamped with applicants before it was officially opened Wednesday afternoon.

On Thursday, Dimmitt, Friona, Bovina, and Clovis, N. M. During the two days, hundreds of farmers came in to find out about the sign-up with the great majority signing the tentative agreements.

Of the acreage requested by area farmers, about 40,000 acres are located in Deaf Smith. In addition to the four-county area where offices were located, many farmers from counties adjoining these signed up.

Included were farms in Lamb, Bailey, Potter, Randall, Oldham, Hale, Swisher and Lubbock Counties.

There are about 16 "new beet areas" which are seeking the 1964 allocation, which is allowed under the recently approved Sugar Act.

Immediately after the new Sugar Act was approved, Holly announced plans to build a mill in Hereford if possible.

The company has optioned a two-section tract near Hereford for its plant and a cattle feeding operation.

One company official said engineering was nearly complete on the proposed mill and that a contract likely would be let within hours after the area gets approval.

At present, Texas grows only about 2,200 acres of beets, the majority of which is produced in Deaf Smith County. The beets are contracted by the American Crystal Sugar Company of Rocky Ford, Colo.

Witherspoon pointed out Saturday morning that only 25,000-30,000 acres would be needed to

pledging the donation of their eyes last week.

All local residents will have the opportunity to give this same gift, according to Cleo Meharg of Hereford, a member of the High Plains Eye Bank Board of Directors.

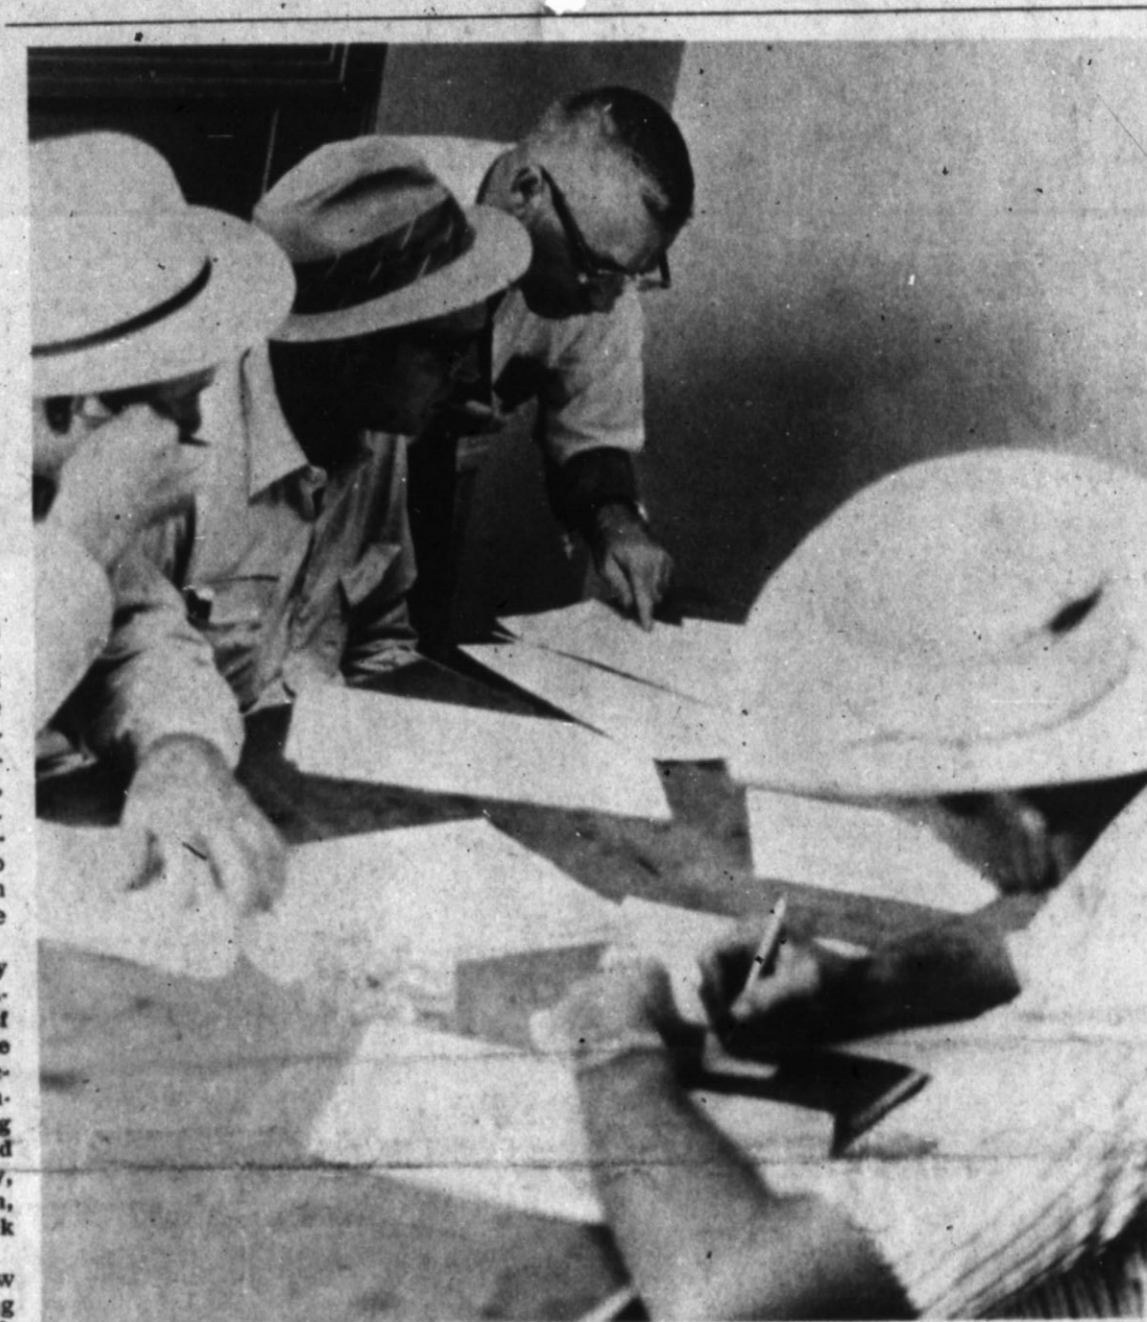

Donor cards are available in Hereford and the surrounding towns, he pointed out. The High Plains Eye Bank will also operate a booth at the Tri-State

Pete Plank Leaving For Study In South America

By Wain Miller Brand Staff Reporter

A Deaf Smith County youth travels in October to South America as an official representative of the United States.

Pete Plank has been selected

as a member of the International Farm Youth Exchange. He left Saturday for Washington, D. C., where he will receive final instructions before traveling to Uruguay for a six-months visit.

But his trip will be more than a visit. Plank will learn of farming techniques and life in the South American country, as well as telling the people there of the way Americans and Texans do things.

A "grass roots ambassador", Plank will be one of more than 100 young men and women embarking on similar trips to foreign countries.

"I can't visualize what things will be like when I get there," Plank admits, "But I know that it will be an experience I will never forget.

Applying for the trip more than a year ago, Plank did not learn that he had been accepted until May. "I have been busy since then trying to get prepared, and I almost decided I wasn't going to 'make it,'" he confessed.

During the time since then, he has had to refresh his memory of Uruguay's national

Thunderous Canyon Eagles Blast Past Hereford 23-14

Lightning crackled outside Buffalo Stadium in Canyon Friday night. But the real thunderbolts were those unleashed by the Canyon Eagles as they eased past Hereford 23-14.

Rain fell intermittently during the game, helping dampen Hereford's enthusiasm for its opener. Canyon now has a 2-0 record.

The Hereford Junior Chamber of Commerce announced plans to "look into the possibility" of holding a Sabine Oral Polio Vaccine mass inoculation in Deaf Smith County, according to Bruce Fink, president.

Following the announcement by Hereford Jaycees, Dr. Clarence A. Hicks, spokesman for Hereford Clinic, stated that the clinic probably would actively support a mass oral inoculation drive.

However, support of a mass inoculation drive by doctors will depend on the outcome of a meeting of the U. S. Polio Advisory Committee investigating action taken by the Canadian Health Minister temporarily withdrawing the vaccine in Canada, Dr. Hicks commented.

The announcement of the proposed project of the Hereford Jaycees came Wednesday after a group from the club attended a planning session held in Dimmitt.

Tentative plans called for investigating the possibility of holding a simultaneous inoculation drive in a four-county area. These counties are Deaf Smith, Castro, Parmer and Swisher.

Area doctors have been assured, Dr. Hicks stated, that all three types of the oral vaccine should be available here for the drive, although delivery may be delayed.

When the vaccine is given, it is administered in three doses approximately six weeks apart. According to information available, the first dose immunizes against 80 per cent of polio. A second dose, given for the third type of the disease will give 15 per cent immunization. And the last dose, will give the person taking the vaccine 100 per cent immunization.

An immunization drive in this area would be conducted by the area's doctors and nurses. A pharmacist would also participate. (Continued on page 8)

Campfire Girls Fight Untidy Park

A legion of Campfire Girls moved into battle here Saturday morning.

They are now asking for reinforcements after a day of fighting, however.

Almost 100 girls invaded Veterans Park, beginning early Saturday morning. Object of the mission was to clean up a nasty battlefield.

Half a day later they had filled more than half a dozen trash barrels. They called the City of Hereford for more supplies — barrels to fill.

They weren't about to give up.

So they piled it — the trash, left over watermelon rinds, and unburned firewood — in dozens of neat little piles.

In the middle of the battle, one girl cried, "I've never seen so many beer cans!"

Then they turned over the cause to the Veterans of Foreign Wars, and summoned aid from the city.

All the Campfire Girls in the city, it seems, decided that Veterans Park was past due for a promotion — promotion of picnicking and playing in a clean atmosphere.

So they took their problem to the VFW, who cooperated by furnishing trash barrels for the project and promising to mow the much-too-tall grass and weeds in the area.

With the trash cleared from the picnic area, the VFW will soon mow the grounds. (Continued on page 8)

# Dickinson-Heavin Marriage Vows Read In Nuptial Mass

Miss Dianne Marie Dickinson, daughter of Mr. and Mrs. Gordon A. Dickinson, 2 High Street, Lincoln, Me., and Bobby Gayle Heavin, son of Mr. and Mrs. Malcolm L. Heavin Jr., Rt. 4, Hereford, were united in marriage at 10 a. m., Wednesday, Sept. 12, in the sanctuary of St. Mary's Catholic Church in Lincoln, Me.

The Rev. William Nelligan, pastor of the church, read the double ring ceremony before the altar that was flanked with vases of white gladiolas. The church pews were marked with white satin bows and white pew ribbons.

Mrs. Harvey Lane, organist and soloist, played and sang "The Wedding March" by Lohegrin as the bridal party entered the church. During the ceremony "Ave Maria", "Mother At Thy Feet Is Kneeling", and "Mother Beloved, On This Day O Beautiful Mother" were presented. Mendelssohn's "Recessional" concluded the wedding music.

Miss Lynda Nelson, cousin of the bride, of West Enfield, Me., was maid of honor. She wore a street-length gown of white taffeta fashioned with a scooped neckline, short sleeves, bouffant skirt complemented with a wide bustle bow of white chantilly lace. Her headdress was a white circular veil attached to a white satin crown. Her bouquet was a cascade of white carnations and red roses.

The bridesmaids were Amy

Walcott, Joan Bragdon and Marie Willette, high school classmates of the bride, all of Lincoln, Me.; and Carolyn Stevenson of Presque Isle, Me., a college classmate of the bride. They wore gowns identical to that of the maid of honor. Their headdresses were white circular veils attached to tiaras of white satin. Each bridesmaid carried a long-stemmed red Duchess rose.

Robert Petteys of Chica, N. Y., served the groom as best man. Ushers and groomsmen were Robert Henning of Rochester, N. Y., and Richard Stevens of Springfield, Vt.

Mrs. Dickinson, mother of the bride, wore a gold brocade satin dress with matching accessories and a corsage of cymbidium orchids. Mother of the groom, Mrs. Heavin, wore a light green Italian dressmaker suit with matching accessories and a corsage of cymbidium orchids.

The bride, given in marriage by her father, was attired in a formal wedding gown featuring regal lines, interpreted in chantilly lace and satin with long pointed sleeves, Sabrina neckline and bouffant skirt fashioned with satin side panels, caught in a double pouf by lace designer roses, terminating in a sweeping chapel train. She wore a lucky slipper in her shoe. Her only jewelry was cultured pearl earrings, a gift of the bridegroom. Her fingertip length veil of imported silk illusion fell from a tiny princess

After a short wedding trip, the couple will leave for Texas to make their home. For traveling, the bride chose a dark green linen suit, matching velvet hat, brown accessories, and the white orchid lifted from the bridal bouquet as her corsage. They will be at home in Hereford after Oct. 8.

The bride was feted at several pre-nuptial showers. Hostesses for the showers were Mrs. Harold Kneeland, Misses Dianne Greene, Joan Bragdon and Mrs. Clarence Bates.

WHAT CAN HAPPEN when irrigation water the grade is excessive and the land is not is not used properly is graphically shown prepared properly to control excess water. here. Erosion from tail water results when (SCS Photo)

## SCS Makes Suggestions On Wise Use Of Water Supply

Are we using our irrigation water wisely? As farmers approach the end of another irrigation season they should think about this question and make preparations to assure that water will be used properly in the next irrigation season.

With the weakening of the water supply and increasing cost of pumping, it is very important to take another look at irrigation systems to see that best use is being made to produce crops efficiently and to conserve water. Soil Conservationists point out:

Before starting irrigation wells this year it would be wise to consider the following points concerning irrigation systems:

1. What type of soil do you have? Will it take water fast or slow? If the soil takes water slow the run length may be increased. If it takes water fast the length of run needs to be shortened.
2. Is the slope of the land gentle or steep? On gentle sloping land water may be run further without danger of losing water or soil. On steeper slopes water cannot be run as far without some means of checking to prevent tailwater and erosion.
3. How long should each set be? On tighter soil usually

from 12 to 24 hours sets are desirable, while on lighter soils 6 to 12 hour sets should be used.

4. How much water should be applied each irrigation? Three to four inches every 10 to 15 days is a pretty good rule.

All of these questions point to the need for a conservation plan

and a conservation irrigation system. Through better management of irrigation water, better crops can be produced at lower cost and for a longer period.

For additional information or any questions you may have concerning this practice contact your local Soil Conservation Service in Hereford.

**'Get-Acquainted' Supper Opens Aikman PTA Year**

Aikman School Parents and Teachers Association met Thursday, Sept. 13, at 7:30 p. m. in the School Cafeteria. Some 250 were present for the annual "Get-Acquainted" basket supper. After dinner the officers for the coming year were introduced as were the teachers and administrative staff.

The remainder of the meeting was spent in visitation. The next regular meeting will be held Thursday, Oct. 11, in the School Cafeteria. At that time, Dr. C. L. Kay from Lubbock Christian College will be guest speaker. The public is invited to attend.

**SQUIRRELS DISPOSSESSED**  
COLUMBUS, Ohio — The gray squirrels, residents of Ohio's Statehouse lawn and trees for half a century, have been evicted in the face of progress.

The trees, which hold about 85 nest boxes, will be removed in the construction of an underground garage.

The squirrels have been distributed among four parks of the Columbus Metropolitan Park board.

**UNWELCOME VISITOR**  
CARTHAGE, Mo. — Williams Barksdale didn't complain right away to police when a neighbor's dog tore open a doorscreen to enter his home.

But two days later he called them when he found a large collie dog asleep in his son's bed and 5-year-old Bill curled up on the floor.

Take time to rinse a grater right after using it because this saves time in the long run.

## School Traffic Enforcement Merits Cooperation From Entire Community

Notice has been served that school zone violations will draw strict enforcement and more severe penalties. To us, this sounds like an action which should be loudly greeted in the "Amen corner".

Most of the officers, we believe, are polite and efficient — but their job is to protect the lives of our youngsters by enforcing traffic laws, and they deserve our cooperation down to the last ounce.

Most of the violations, we feel sure, have

Welcome, Elks! Formal ceremonies this past week put into operation Hereford Lodge 2269 of the Benevolent Order of Elks, marking another milestone of progress for the community.

The Elks, as the order is popularly known, represent a widespread organization with chapters all over the nation. In addition to a crippled children's home, the Elks are responsible for numerous other welfare projects. The organization also affords social activities for members and provides a "home away from home" atmosphere for visitors in other cities which boast chapters.

Due to the nature of the organization, Elks are not so numerous as civic clubs, which makes establishment of the Hereford chapter an important accomplishment. With something like 100 charter members, leaders predict that the Hereford lodge should grow and progress.

True, not too many smaller towns can boast an active Elks lodge, but those who do always seem proud of them.

## More Respect For Air Rifle

There is an old saying that every boy should have a dog, and we are afraid that many parents and grandparents hold the same sentiments for guns, especially air rifles.

Rarely does the news carry an item covering accidents inflicted by shotguns and rifles, but with regular frequency, we hear and read about accidents from BB guns. The whole trouble seems to rest in the fact that the air rifle is viewed as a toy, rather than as a lethal weapon. Meanwhile, minor injuries are multitude, and hundreds of eyes are lost each year as a result of accidents with air rifles.

We do not say that the air rifle should be outlawed. On the other hand, we feel that it provides a basis of training for the average youth. It merely deserves the same respect we show toward other firearms and, before a youngster is turned loose with a BB gun, he should be carefully warned concerning its danger and instructed thoroughly in regard to safe and sensible use of the weapon. In this manner, it can become an important step toward instilling respect for other guns of greater lethal abilities.

## Summer Vacation Ends With Trip To Northwest

By Mrs. Merlin Kaul  
The World's Fair was fine — with its Space Needle, which was over 600 feet high, the Monorail, the Science exhibit, the displays of many countries, a million silver dollars all in one pile, the "Bubbeator" in the Ford building, the Library of Tomorrow, and the many other attractions.

## Farmers Plan Formation Of Irrigation Districts

Under the new irrigation law of Texas, any number of adjoining farmers may be placed in an irrigation district and bonded for the purpose of building storage dams, making ditches, installing pumping plants, or providing for irrigation by any of the usual means. This gives the opportunity to Hereford and already a number of bonded irrigation ditches are being planned. The first one talked of will take in the east part of town, a part of Evans addition and as far east as the R. L. Elliston tract, all north of the railroad tracks. It is proposed to incorporate this district, and issue sufficient bonds to install a pumping plant to furnish water for every land holder within the limits described. If successfully done, this will provide the funds at a cheap rate of interest as the law limits the rate to six per cent.

### 25 - YEARS AGO

Members of the commissioners' court Monday afternoon met with Oldham commissioners at Vega in an effort to rush completion of the two and one-half mile strip of Highway 51 from the Deaf Smith County line to Vega. Those attending the meeting were Jack Rose, E. T. Allred, T. W. Roberson and Judge Earl W. Wilson. Grading work on Highway 51 has been completed through this county, and as soon as a few drainage structures are completed, this county will be through. When the Vega strip is finished, the State Highway Department has contracted to take over and maintain the entire road. Featuring a 100-foot right-of-way and concrete culverts the road has been built to state specifications. A recent appropriation of \$25,000 has already been allotted for improving and paving the road two and one-half miles south of Hereford, but no definite work orders have been issued, and construction is not expected to start until the highway is completed into Vega. The state will maintain approximately 30 miles on Highway 51 when they take it over.

doubtedly continue to draw visitors to the area.

At the time of my visit — about the middle of August — it was reported that the Fair had paid for itself and that all proceeds from then on would go to the city of Seattle.

The "trade dollars", which were issued to be used as currency during the Fair in the state of Washington, are proving very popular with coin collectors.

However, the Fair was not the major attraction for me in the Northwest. First was a visit with relatives that I hadn't seen for twenty-five years, meeting all those cousins and in-laws for the first time, and visiting with former neighbors of this area.

I left the train at Pendleton, Oregon, and was met by Mr. and Mrs. Burdge Kaul for a visit with them at Pasco, Wash. Across the river from Pasco live the Earl Scotts at Kennewick, former residents of Hereford and the Westway Community.

Earl is employed at the Hanford Atomic Works in Richland, the third of a Tri-City area. Their daughter, Gail Quarles and her family, lives next door and at the present time she is acting manager of the Chamber of Commerce at Kennewick. Virginia decided to take me to Seattle — 236 miles from Pasco via Chinook Pass. We visited another Scott daughter Margaret Ann (Mrs. Noubur Nalbadian), her husband and three little daughters.

We spent a day together at the Fair, then she and the granddaughters took me to visit my relatives in Everett.

One of those "first time to meet" cousins, Irene Stoner Buchanan, lives at Tacoma. She came home a day early from her vacation to take me and all my luggage and boxes for a visit in Tacoma. Enroute we visited the locks at Lake Washington and the large International Airport Sea-TAC.

Cousin LaCreta Dalsing and husband, Larry, gave me flower seeds and plants — one plant called "Rabbit Ears" which I think will be especially appreciated by first graders. They took me to visit in the homes of Mr. and Mrs. P. G. Clay and Mr. and Mrs. Tom Vaughn. Mrs. Clay is the mother of Mrs. Irving Willoughby, the former Ida Schulz, and Mrs. (Continued on page 4)

### 'AFTER HOURS' EQUIPMENT USE PROBED

The City of Olton — which has had its share of troubles over the years — faced a new problem Wednesday. This one unfolded as District Attorney Jack Young of Muleshoe began an investigation Tuesday into alleged misuse of Olton city equipment. "It involves the use of city equipment by city employees after normal working hours on jobs for which the city did not receive any pay," the district attorney said. Young said he had received "several complaints" on possible irregularities, but he added that no formal charges have been filed. He pointed out that his investigation does not involve jobs or transactions which were handled through the city office. The work in question was done after normal working hours, he said, and money paid for it did not go to the city.

### NEW RECORD SCHOOL ENROLLMENT SET

Friona schools enrolled a record number of students as classes for the new school term began Monday. As of Tuesday, a total of 1180 had enrolled in the 12 grades. The number represented an increase of 29 students over the number which enrolled at a similar time a year ago. The enrollment at the close of the 1961-62 was 1154, or 26 less than had enrolled by Tuesday of this week. Last year's average daily attendance at Friona schools was 1083. "New students will continue to come in all this week. Our enrollment should top 1200 by the end of the week," predicted Superintendent of Schools Alton Farr.

### POST OFFICE, VARIETY STORE ROBBED

Burglars got only trouble for their efforts when they robbed the Bovina Post Office and variety store early Sunday morning. Alertness of two Bovina men, Billy Don and Darrell Read, kept the burglars from getting away with five sacks and a pouch of incoming mail and several hundred dollars worth of variety store merchandise. As it turned out, all mail and the store's merchandise were returned. The burglars escaped on foot, however, after wrecking their car while being chased by the Read brothers.

### COMMUNITY TV SOLD

In one of the biggest commercial transactions in Perryton's history, the Great Plains Community Television Company was sold Friday to Wentronics, Inc., a corporation headquartered in Casper, Wyo. The announcement was made Saturday morning by I. R. Buchanan, one of the stockholders of the community television company. Other stockholders of the community TV corporation include Carl Ellis, Virby Conley and Mrs. Jessie K. Stewart. The contract for the sale of the company was signed Friday afternoon between local owners and Gene Schneider, president of Wentronics, Inc. The purchase price was not announced. Schneider stated that there would be no change in personnel at the local company and that I. R. Buchanan would continue as manager.

### INDICTED ATTORNEY SAYS, "I WON'T QUIT"

County Attorney Karl Lovelady indicted on three counts last Thursday by district court grand jury which also asked that he be removed from office will not resign because he feels he has not "violated any laws, and nothing against me as yet has reflected on my office as county attorney..." District Attorney Jack Young, on the other hand, said, "some action must be taken," on both the indictments and the grand jury's request that Lovelady be removed. Specifically, the indictments include one charge of giving a worthless check for \$50 and two charges of embezzlement.

## THE BOOTLEG —Philosopher

(Editor's note: The Bootleg Philosopher on his bindweed farm explains how to read a newspaper, his letter this week indicates.)

Dear editor:  
A friend of mine came by this place yesterday and said: "Well, have you heard the good news? Russia has had five rocket failures recently."  
According to him — I didn't see the account myself — Russia has tried five times to send a rocket to Venus and Mars and has failed.

"I'm sure glad to know this," he said, "I was beginning to believe they never failed over there."  
What this proves is that a lot of people don't know how to read the newspapers. They read only what's printed instead of going between the lines. This way they miss about half the news.

For example, nobody has ever read that one of Mr. Khurshchev's automobiles had a flat tire, but regardless of how many times a Russian astronaut orbits the earth, you can't make me believe Russian tires don't go flat.

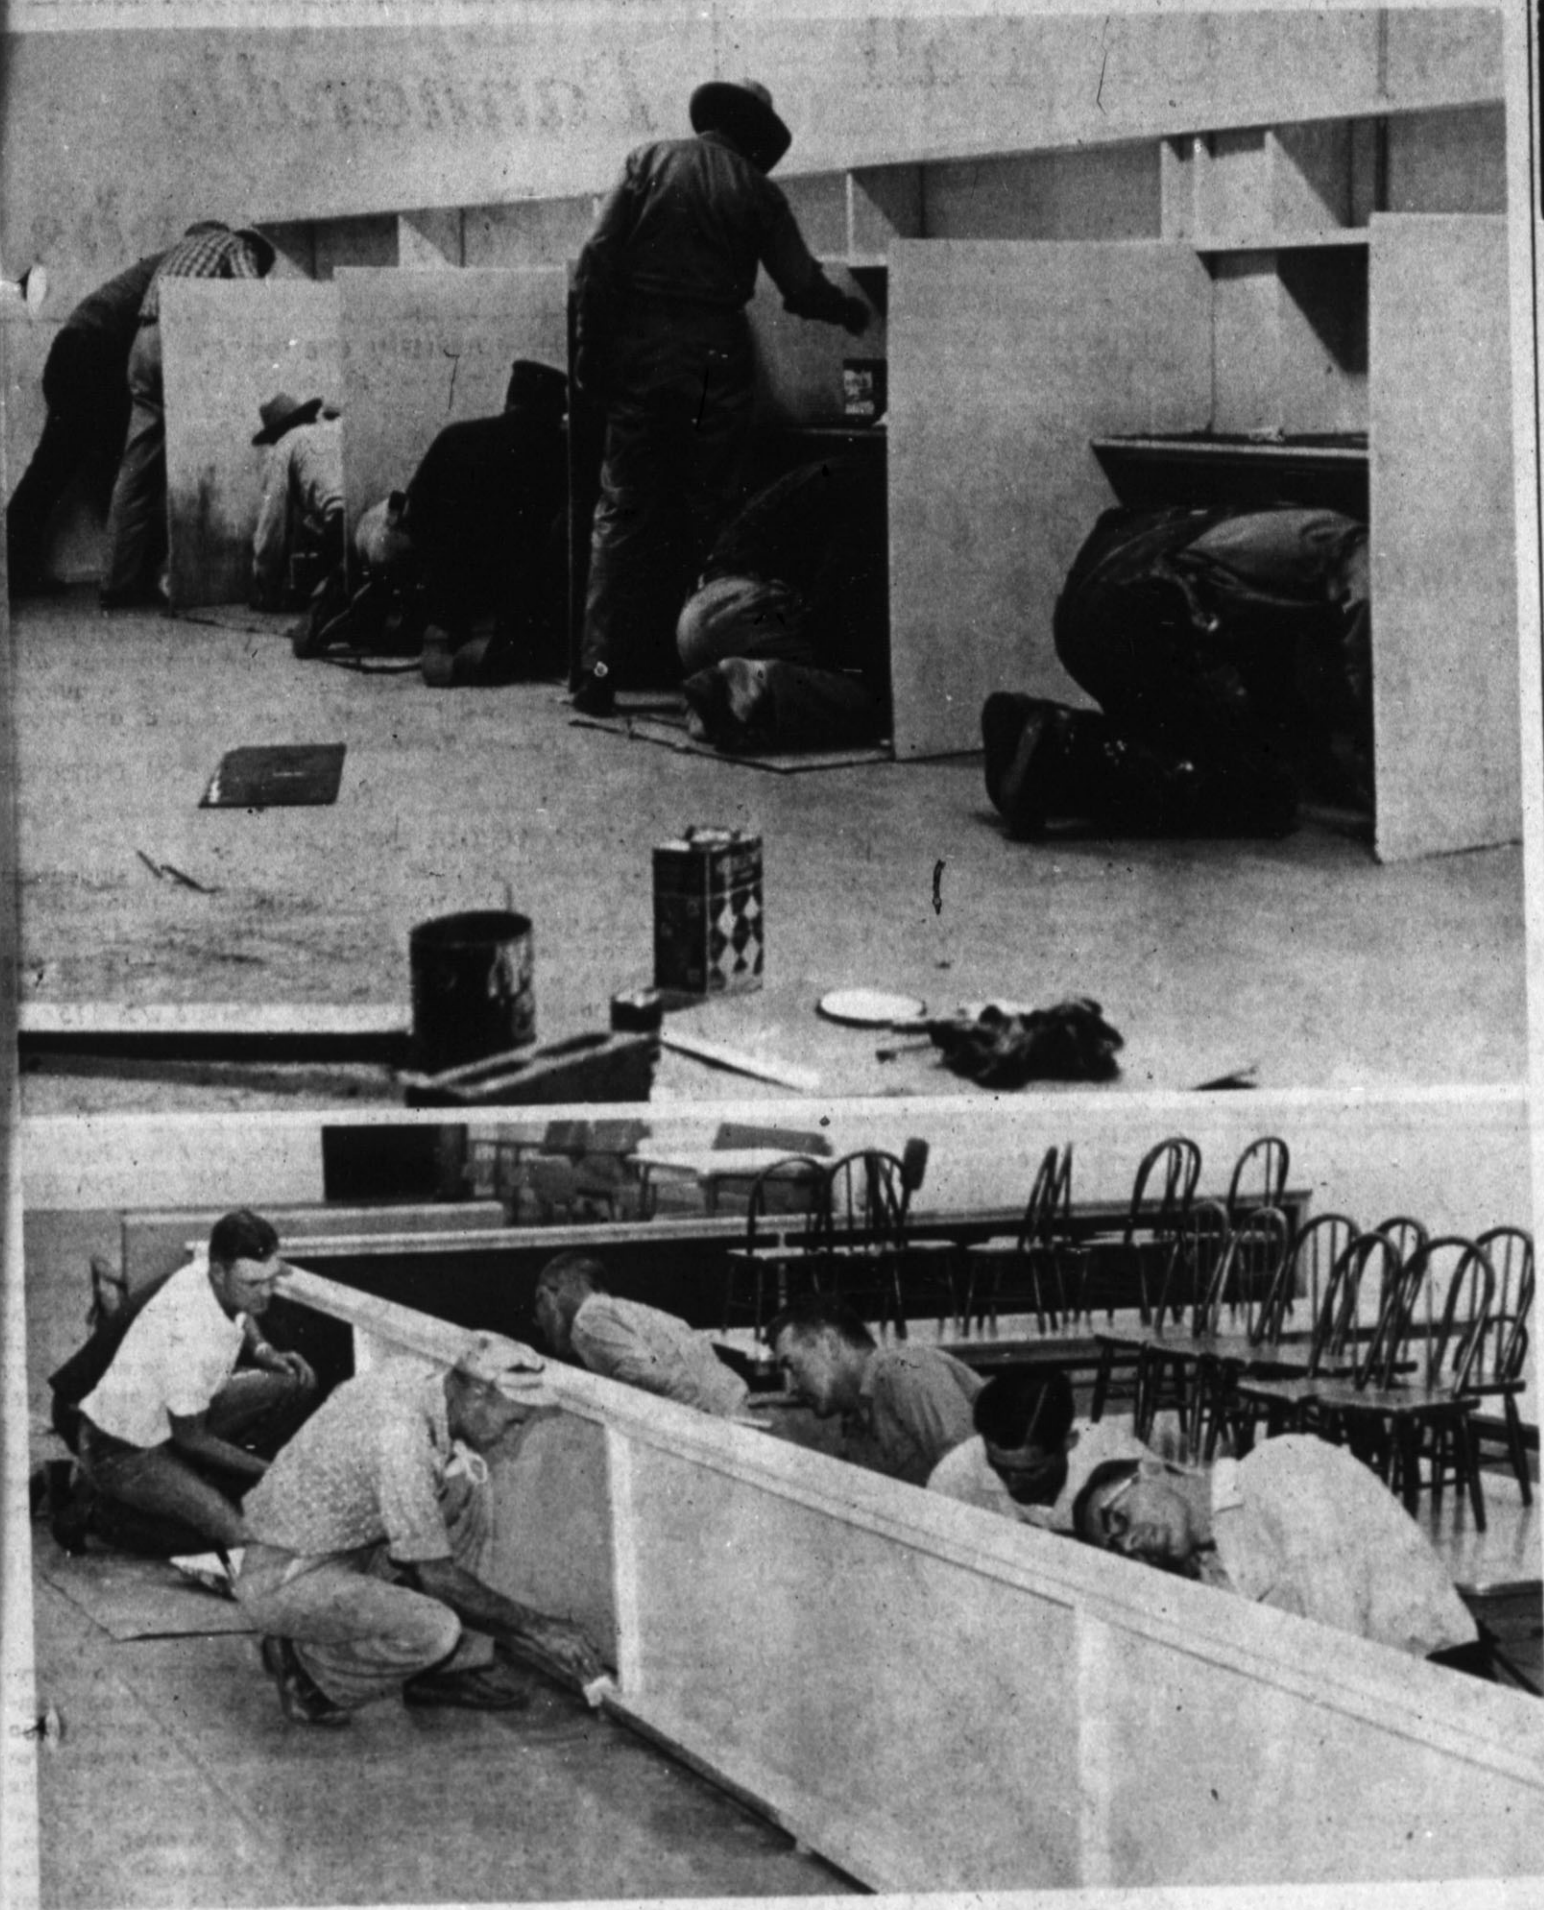

I have known for years that any time a man gets up every morning to drive a tractor, sooner or later he's going to get up one morning and find one of the tires flat. There is no system of propaganda and one-sided reporting that will keep a tire from going flat, and by using this same understanding I've known for years that some of Russia's rockets have fizzled.

Moreover, you never hear about any Russian planes cracking up, but I'm as sure as I am that my tractor battery is going dead eventually that Russian planes have trouble too.

What was the traffic accident toll last week-end in Russia? According to what you read from that country, they apparently don't have wrecks over there, but if Russia had only two cars, sooner or later they'd run together, and I've seen pictures showing they've got a lot more than that.

I'm not discounting Russia's ability, but engines miss and cars run out of gas and generators burn out and mufflers fall off and people get mad at each other and women gossip and school kids' shoes wear out over there the same as they do any place else. I don't have to read it in a paper but I can sit right here on this bindweed farm and tell you for a fact at least 1,000 Russian farmers couldn't get their tractors started this morning. Why wouldn't a few rockets sputter too?

Yours faithfully,  
J. A.

## OFF THE Shelf

BY H. A. TUCK

The rather drab job of transporting troops and supplies to battle areas forms the background of conflict between two Naval officers.

The Golden Vanity by Lonnie Coleman is set during World War II, first in Europe, then in the South Pacific.

Lt. Wesley Mason, after a long tour of duty to the beaches of Italy and Normandy, is grateful to be back in the United States.

Then Captain Pine is replaced by Captain Winter, new skipper of the USS Nellie Crocker.

Winter brings with him a hand-picked officer who takes an instant dislike to Mason, who serves as First Officer. From the first meeting, the Captain also senses that he will be opposed by Mason.

The men like Mason, who takes their side and works with them when necessary to get a dirty job finished. Mason particularly feels kinship with young

Busby, who has already served a term in Navy prison for hitting an officer.

The Captain and his First Officer's contest for power is personal, bitter and one-sided. The Captain holds all the cards but one. He cannot run his ship without Mason and both of them know it.

At one point, the Captain even demands that Mason transfer from the Nellie Crocker, but Mason refuses to go.

In a short book, Coleman draws deft characterizations of the conflict between ideals and wills among men at war. Both have The Golden Vanity that refuses to be changed.

## Upholstering

**THERE IS NO SUBSTITUTE  
FOR  
SKILLED HANDS**

By Mass production methods it is possible to save man hours and material costs in manufacturing furniture, and by this method furniture is made that functions reasonably well - but not with dependability and durability. The most modern techniques and machines of course are used in making furniture but to the critical eye there is just no mechanical substitute for the hands of a skilled craftsman.

You may be sure that when you send your furniture to R. J. Cramer to be upholstered, the work will receive the individual attention of a dependable and reliable custom craftsman. There are no supplies too good, no improvements too expensive if only they will produce something better of something equally desirable at less expense to our customer.

You will see the difference in the patiently hand fitting, the precision fabricating and the painstaking installation in Cramer's custom upholstery.

(Continued from page 2)  
 Schulz.  
 The Vaughns lived at Westway before moving to Tacoma. We enjoyed being in their attractive, comfortable homes and brought their greetings back to all their friends and neighbors in this area.  
 The "antiques," which were added to my souvenirs, were the result of the visit to the home of an aunt and uncle—Mr. and Mrs. Frank Evans who live near Marysville, Wash. Her home is furnished in antiques and my interest was stimulated. Also my trip with them to watch the Indians fish for salmon added a piece of driftwood—complete with barnacles, a piece of fishing net, shells, and the glass float, which had drifted into their little cove from a Japanese fishing net, to my "collection." An uncle in Seattle sent Merlin a cup and saucer in "Texas" size. Texans get much ribbing about being from the largest (?) state (?).  
 My aunt and uncle in Everett, Mr. and Mrs. Joe Cook, who two years ago visited us here, took two other cousins and me on a two day trip to Vancouver, British Columbia, over the Kingsway to Penticton, Canada, down to Grand Coulee Dam, on through Wenatchee, Wash., back to Everett over Stevens Pass.  
 We went into Vancouver through the Deas Tunnel, which is under the Fraser River. It costs 60 cents for toll which is used to pay for the tunnel. At New Westminster, Canada, one crosses the Fraser River by a bridge to travel Kingsway.  
 At the Peace Arch which is

located at the International Boundary of the United States and Canada, these words above the gates at the Arch were impressive "May These Gates Never Close." This Arch was erected in 1914.  
 In Vancouver, Canadian flags were flying from every building. Many tourists were there. One sign we noted read: "Tourism is Vancouver's Second Largest Industry."  
 We visited "Hudson's Bay Store" which was incorporated on May 2, 1670, and is still one of the leading stores. Couldn't pass up the souvenirs here—especially those for my plate collection.  
 Okalla Prison off the Kingsway is called the "Alcatraz of Canada." Prisoners are still whipped into obedience here.  
 East of Hope, Canada, in the Rockies is a burned off area of 5700 acres caused by the carelessness with one cigarette. This is called a "tragedy in forests" for in the 35 years or more since the fire occurred, there has been very little growth. A sign on the highway through this area is a huge cigarette and read: "The One Who Dropped This Cigarette Should Also be Hanged."  
 The little town of Nespelem, Wash., is the burial place of Chief Joseph—chief and peacemaker of the Nez Perce Indians. The story of his life and his people makes interesting reading.  
 As we left Grand Coulee Dam, we were especially interested in the man-made lake created by water siphoned through several 16-foot flumes from the Columbia River at the dam. This lake is 45 miles long and follows the original Columbia River bed. It is known as Banks Lake and provides water irrigation of many acres of desert land.  
 A trip to Portland and Eugene in Oregon resulted in some delicious fish dinners, more relatives, more scenery, and more souvenirs.  
 We made the trip to Seattle without train reservations, but when we started back there was no chair on the Streamliner until after September 1st. Therefore, we came back through Omaha, Nebr., and Hiawatha, Kansas. My husband, Merlin, met us in Sabetha, Kan., and we visited our mothers, Mrs. Essie Kaul and Mrs. Nannie Stoner, there. With all our newly learned geography and we hope, renewed energy, we should do very well until it is time to go to the Fair in New York in 1964-1965.  
 So far we have the following list of visitors to the Fair at various states throughout the summer. They are: the A. R. Dillard family; Mr. and Mrs. Clinton Jackson; Mr. and Mrs. Irving Willoughby; Mrs. Ronald Matthews; Mr. and Mrs. R. A. Wells; Mr. and Mrs. Jimmy Allred; Mr. and Mrs. Otis Lee; Mr. and Mrs. V. D. Dodson, Madeline Bell; Mr. and Mrs. Jack Nunley; Mr. and Mrs.

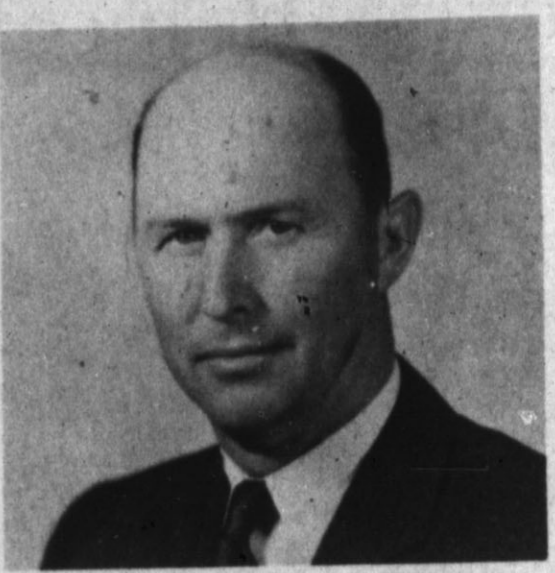

Jay Schaw, and Mr. and Mrs. C. A. Saucy.  
 Guests in the home of Mrs. Lois Rutter for Labor Day included her aunt, Mrs. L. P. Clayton of Cyril, Okla.; her daughter, Mrs. Alonzo Hays and Mr. Hays of Chickasha, Okla.; and their son Lonnie Hays and wife of Oklahoma City; her sisters, Mrs. H. E. Hershey and Mr. Hershey of Dimmitt; and Mr. and Mrs. C. T. Ward and son, Phil, of Leveland; Mr. and Mrs. Roy Dean Henderson, Connie and Cindy, and Mr. and Mrs. Clayton Gene Rutter, Allan and Steve of Amarillo, Mr. and Mrs. Horace Hershey of Progressive, and Miss Cieta Kay Rutter.  
 Some of the group arrived in Hereford on Sunday so that they could be together for the dinner which was served at the Rutter home at noon on Monday. All the group left Monday evening with the exception of Mrs. Clayton Gene Rutter and boys of Amarillo who stayed to spend a few days here.  
 Mr. and Mrs. Floyd Blackburn of Sherman spent several days last week with his brother, Arthur Blackburn and family.  
 Mr. and Mrs. Andy Thomas are residing at present in the home of their daughter, Mrs. Viola Griswold at Lubbock. Their address is 1210 Avenue R, Lubbock, for those wishing to write to them. Mrs. Griswold has charge of a nursing home in Lubbock.  
 Hereford's four National Garden Club judges were in Clovis last Friday where they judged a flower show. These women are Mrs. Lois Rutter, Mrs. O. G. Hill Sr., Mrs. John Jacobsen Jr., and Mrs. A. L. Manjeot. On Saturday Mrs. Hill, Mrs. Jacobsen, and Mrs. Manjeot judged a show at Dimmitt. This Saturday, Mrs. Rutter and Mrs. Manjeot have been invited to judge the show at Vega.  
 Mrs. June Marian Freeman, Sharon and Terri Ann, and Mr. and Mrs. Dean Garrett of Vega spent last week in Willow, Okla., where they visited their grandfather, Isaac Skaggs.

**Public Relations Course Is Planned**

The art of building good public relations in business organizations is the subject of a course entitled "Public Relations" to be taught in Hereford beginning Oct. 8 for four nights. Nuel Childs, training specialist from the University of Texas, will conduct the course. The course is specifically designed for owners, managers,

and employees of retail, wholesale, and service organizations in the city.  
 In announcing the course, Clint Formby, Chamber of Commerce president, explained that each person will find this course meaningful to him. Public relations is focused on the level in which each person is involved.  
 Topics to be covered in the sessions include what is public relations, you and public relations, seeing yourself as others see you, getting along with people, and why people behave as they do, plus discussions of various public relations problems.  
 The Deaf Smith County Chamber of Commerce is sponsoring this course in cooperation with the Distributive Education Program of the University of Texas and the Texas Education Agency.  
 All meetings will be held in the Distributive Education room at Hereford High School, beginning at 7:30 p. m. each evening. A small registration fee will be the only charge for the course. Enrollment is open to any person employed in retail, wholesale, or service businesses.

# Future Homemakers Hold 1962 Officer Installation

**By Ann Beavers**  
The Adrian Future Homemakers of America had their formal installation of officers on Friday, Sept. 7, at 7:30 p. m. The evening was opened by Mrs. Don Johnson, the Adrian F. H. A. sponsor.

Each officer lit a candle symbolizing one of the eight purposes of the organization. Mrs. Glenda Sifford, last year's president of the Adrian Chapter, then installed the incoming officers of the 1962-1963 year.

Those installed were: Paula Crietz, president; Kathy Kromer, vice president; Vicki Burns, treasurer; Dorris Horton, historian; Phyllis Heaton, parliamentarian; Sharon Sear, reporter; Linda Pinnell, photographer; Jolene Betts, pianist; and Marsha Burns, song leader.

The decorations were red and white symbolizing the organization's colors and each officer received a red rose, the organization's flower. The room was also decorated in red and white.

Mrs. Johnson then conferred Junior Chapter Degree on seven girls. The installation was closed with the F. H. A. Creed and the F. H. A. Song.

Refreshments also carried out the colors of red and white, with a white cake and red punch.

Following the installation, the informal initiation of the incoming freshman girls was held. Those initiated were Marsha Burns, Suzette Sisk, Phyllis Heaton, Linda Pridmore, Jolene Betts, Ina Sue Ferguson, and Brenda Ozuna. There was also an election of F. H. A. Chapter Parent of the Year for each class: Mr. and Mrs. Leland Burns, freshman class; Mr. and Mrs. John Horton, sophomore class; Mr. and Mrs. Marion Ferguson, junior class, and Mr. and Mrs. Loren Crietz, senior class. The girls all gave the mothers rose corsages. These parents are elected to help sponsor all F. H. A. activities and also to honor them.

Charlie Cross and E. B. Pounds recently were moving cows across a fence, when Charlie's horse got tangled up in the wire, and knocked him down and started pawing him. Charlie was taken to the hospital and released after four days, with a broken arm and seven stitches in his head and a bad cut on his leg. The horse was also badly cut on the leg.

Miss Paula Crietz, daughter of Mr. and Mrs. Loren Crietz, was a contestant in the Miss Grain Sorghum of the Nation Contest last Thursday night in Dimmitt. The 34 participants

Survivors include his wife Loraine of the home, and five sons W. A. and D. G. Smith of San Francisco, Cal., W. D. of Perryton, P. A. of Clovis and G. I. Smith of Fort Walden Beach, Fla.; one daughter Mrs. Sue Rush of San Francisco; a brother, William Smith, a sister, Mrs. Gertrude Gage, both of Oklahoma City; 11 grandchildren and one great grandchild. **GET THE FOOT WEATHERMAN**  
**ARCADIA, Fla.** — It should be explained at the outset that weather forecasts for this part of Florida come from the U. S. Weather Bureau office in Tampa.  
 Now, recently at an Arcadia lunch counter, a local character was reading his newspaper.  
 "What's the weather look like for tomorrow, Charlie?" asked a friend.  
 "Dunno," said Charlie without even looking up. "Used to be able to tell when the Good Lord

was in charge, but since they gave it to that Tampa feller, I'd hate to make a guess."  
**MAKING EXTENDED VISIT**  
 Mr. and Mrs. F. S. Smith of Hereford left Saturday, Sept. 15, for an extended visit with their daughter and family, Mr. and Mrs. Joe S. Weber of Woodland Hills, Calif., and will visit in the home of a daughter-in-law, Mrs. A. L. Hallum and Lynda of Canoga Park, Calif.

**THE MINISTRY AT WORK** might be the title of this picture, as these three pastors discard their suits and ties in favor of paint brushes and working clothes. The trio was among a large group of volunteers who applied finishing touches of paint to the Hereford Good-Will Center for Latin Americans, sponsored by the Amarillo Baptist Association. In the foreground is the Rev. Bob Ware, pastor of the Temple Baptist Church; at left is the Rev. Clayton Watkins, pastor of the Summerfield Baptist Church; and at right is the Rev. Charles Davenport, pastor of the Dawn Baptist Church. (Staff Photo)

**BEST TIME**  
 AKRON, Ohio — Patrolman William Koegle flagged a woman driver to the curb when she was clocked driving 47 miles an hour in a 35-mile zone.

Writing the ticket, Koegle asked the woman when she'd like to appear in court. "How about June 29 at 1 p. m.?" Koegle asked.

The woman reached into the glove compartment for an astrology book, flipped through it briefly, then answered: "That will be fine."
