

# THE BENJAMIN POST

A WEEKLY PUBLICATION PURPORTING TO PRESENT THE FACTS AS THEY OCCUR AND DEDICATED TO THE LIVESTOCK AND AGRICULTURAL INDUSTRIES OF KNOX COUNTY AND ALL WEST TEXAS

VOLUME 25

BENJAMIN KNOX COUNTY, TEXAS, AUGUST 28, 1931.

NUMBER 9

## SPLINTERS

General Jakes Light Brigade is fixing to go home. The little oil war was so pleasant that the men had to roll high dice to see who was going to get to stay awhile longer. They seem to doubt the truth of Shermans statement.

\*\*\*

Governor Long wants a one year cotton holiday. We have just had our year holiday. What we'd like would be a year of work.

\*\*\*

Mahatma Gandhi of shirt-tail fame has received word from his "inner Voice" telling him to go to London. This caused a rise in the stockmarket, shirt tail stocks remaining firm.

\*\*\*

Pope Pius and Premier Mussolini are about to come to terms of a settlement by which 15,000 Catholic action clubs will be opened in Italy. Il Duce closed the clubs last May on account of their political beliefs conflicting with the Fascist organizations. If the Clubs wont behave Il Duce will probably give them a spanking and send them to bed with out supper.

\*\*\*

Since the innovation of the state tax on cigarettes which took effect this week, our local drug store, anticipating the return in popularity of the snuff dipping habit, has stocked some plain and fancy tooth brushes which are to retail at a quarter for twelve. Made of the best woods, they are available in a wide range of styles, the more daring flapper type to the sedate grandmother type being included in models displayed. Highly decorated and jewelled snuff boxes of the Queen Anne Period will be stocked if the demand for them comes up to expectations.

\*\*\*

Following State Press's suggestion that one way to beat the cigarette tax was to get one of the new fangled gadgets that would roll enough cigarettes before breakfast to last all day, we have procured one and the fruits of our labor are astonishing. The first few coffin tacks that rolled from the machine closely resembled hot tamales, the next few enchilladas and the next few match stems. Warming to the task and gaining proficiency at every roll, we then turned out an assortment of plain and fancy cigarettes varying in shape and flexibility. We now have become so adapt that we can roll'em that will fit in a cigarette case very nicely if the proper care in handling is exerted. We are now shopping about for some tinted and perfumed papers and when these are procured, the conventional cigarette will have no place in our base.

\*\*\*

Our forefathers went out in the Boston harbor one dark night and threw a bunch of tea overboard to keep from paying an excise tax on it. We get the same feeling working our new cigarette rolling machine.

## MRS. H. T. MELTON HONORED WITH PRETTY SHOWER

Mmes. Frank Patton, W. T. Ward and Misses Joy Sams and Frances Moorhouse honored the late Bride, Mrs. H. T. Melton in a miscellaneous shower given at the Sorosis Club room Tuesday the 25th. The Club room was decorated with many beautiful bouquets of Zinnas and Bluebells. An appropriate program was rendered and little A. B. Sams ushered in an Airplane laden with lovely gifts for the honoree followed by Erdice Elaine Galloway with a parachute bringing more gifts.

The bride was attractively dressed in orchid and lace wearing one of her most winsome smiles opened the packages and her many friends shared the pleasure of viewing the contents of each with her.

Kathleen, more commonly known as "Sis" gave a response in words of appreciation. Refreshments of ice cream and cake were served to the many guests all of which wished the bride happiness.

## WORK ON HIGH SCHOOL NEARING COMPLETION

Work on the high school building is going forward rapidly and the necessary repairs will be completed some time next week according to the contractors, Thompson and Qualls. A meeting of the teachers has been called for September 5th. School will open officially on the 7th of September.

## FIREMEN TO ATTEND SEYMOUR CONVENTION

Local Firemen are looking forward to attending the West Texas Firemen's Association meeting at Seymour September 29. Winners of the engraved nozzle at the Munday convention held in the spring, the local club will have a team at Seymour to defend their title and to enter the water polo game. The association offers many things in an educational way to the firemen that they do not get at the state convention, due to the large attendance and lack of time at the state meetings. The local association, composed of the fire companies of this section of West Texas, meet twice a year and are able to work out many problems that come up from time to time.

Miss Elizabeth Caudle was operated on for the removal of her tonsils last Tuesday at the Knox County Hospital.

Wallace Moorhouse left Friday for Ft. Worth to attend school in Brantley-Draughns Business College.

Jim Bob Bisbee had his tonsils removed at the Knox Co. Hospital Tuesday.

Mrs. Leroy Melton and son "Bozo" left Thursday for Roby to visit relatives.

## FIELD MEET IS A BIG SUCCESS

Although the first of its kind to be held in Knox County, the Agricultural field day held on the Bush-Burnett ranch west of Knox City last Friday was a big success judged by the attendance and interest shown. The morning program was conducted by Mr. E. R. Eudaly, Extension Livestockman. Mr. Eudaly gave a talk on feeding, care and management of swine and concluded the discourse with a tour of the feed lots, where self feeders, sanitary water troughs and other equipment were in evidence. Mr. Eudaly parsed the management of the ranch for the feeding practices, lot equipment and management in general for the correct method in which all work of this character is being carried on.

The afternoon program included a talk by Mr. O. L. Jamison of Knox City on Live-at home program and the main discourse of the evening was given by Mr. R. E. Dickson, Superintendent of the Spur Experiment Station, on soil conservation and moisture conservation in West Texas. He touched on alfalfa and practices that were being used to create an interest in alfalfa growing in this section. Following Mr. Dickson's talk, a tour of the poultry yards and houses and the cattle feed lots was made. Mr. Eudaly called attention to the Creep feed and its value. The day's program was concluded with a tour of inspection over the fourteen hundred acres of cultivated land on the ranch 1100 acres of which are terraced.

The Knox City Chamber of Commerce served barbecue lunch.

County Agent Jones is to be congratulated on putting over a demonstration of this kind and securing the able and experienced men for speakers, men who rank high in the state in their different agricultural departments.

Brooks Campsey of Knox City was a visitor in Benjamin Friday.

R. M. Cowden of Truscott was in the city Friday on business.

## CHRISTIAN CHURCH NEWS

Next Lordsday, August 30 being the fifth Sunday of this month, the pastor will preach at Benjamin at 11 A. M. on the subject, "What Does the First Christian Church Here At Home Stand For?" A large new message. Have we forgotten the plea? Are we preaching it? Are we living it? What do our people know about the plea? Are our members being taught the reason for their faith or are we going astray? What is the plea that makes the Disciples a peculiar people different from all others? Come and hear the answers to these questions. Let every member be present and bring others.

Bible School at 10 A. M. Endeavor at 7:30 P. M.

No night preaching, pastor at Knox City at 7:30 P. M. A. R. Caudle, Pastor

## GEORGE MOFFETT RETURNS FROM AUSTIN

George Moffett, member of the Legislature from the 114th District, composed of Hardeman, Foard, Knox and King Counties has returned to his home at Chillicothe from Austin, where he attended a special session of the state law-making body. Mr. Moffett had the following to say:

"My honest belief is that a large majority of the members of the Legislature are both willing and anxious to pass whatever legislation would really benefit the cotton farmer. But it is mighty hard to look into the future and foretell just what would be best. Many of the members believe that the regulation of the people's private affairs by law has gone entirely too far already, and therefore they are slow to tell a man what to plant or what not to plant.

Personally, I am strongly opposed to plowing up every third row of cotton, and I doubt very much if I would favor a law prohibiting the planting of any cotton at all next year. The plan of planting not over half the land in cotton, and rotating, seems to be the most practical and sensible solution yet offered and if adopted at once, it would undoubtedly mean an immediate and substantial increase in the price of cotton."

Mr. and Mrs. Hunter and daughters of Munday were visiting in the home of Mr. and Mrs. Roy Phillips Tuesday.

## Notice to City Water Customers

A late ruling of the City Council requires all water customers to pay the current months water bill together with at least half of any delinquent bills before the 5th of September and the water bill with the remaining half of the delinquent bills before the 5th of October or water service will be promptly discontinued after each of these dates.

City Council

## ROAD WORK STOPS UNTIL RAINS FALL

Work on the hardsurfacing of Highway 24 is at a standstill due to the lack of moisture necessary to properly put down the base of the road. Working orders are expected daily for that part of the Highway extended from the eastern city limit and around the the public square. The rock for the topping has been hauled out of Seymour for half the contract and the remaining rock will be shipped from Jacksboro to Benjamin and distributed from here to the job. Conditions are shaing up favorably for an immediate letting of the remainder of 24 through Knox County upon the completion of the present work. Encouraging report lead us to believe that with the completion of 24 we may expect an early letting of the contract for the grading and drainage of Highway 51 which transverses the county North and South. When this highway is hardsurfaced it will give Knox County three all weather roads.

## FOARD COUNTY TAX STEAL RUMORED

Reports Are Apparently Unfounded

The rumor that the Foard County Tax Collector was checked short the sum of approximately \$42,000 in State and County Tax Money Thursday of this week has, so far as visiting in the home of Mr. and Mrs. Roy Phillips Tuesday. A telephone conversation with some of the Foard County officials failed to divulge either the truth or falsity of the report. It was also reported that the collector had resigned but we are informed that this too, is untrue. The present incumbent is now serving the second term in this office.

Misses Kathryn and Elizabeth Boehmer, who have been visiting in the home of Mr. and Mrs. Fred Glover, left Friday for their hone in Chicago, Ill.

C. H. Burnett and W. T. Ward were in Abilene this week on business.

## Telegram

August 25th, 1931.

"Honorable Herbert Hoover, President of the United States, Washington, D. C.

If government would buy this years cotton crop at twelve cents and have farmers sign up they would not plant more than 25 per cent, or 50 per cent of their 1931 crop in 1932, such contract would insure government against loss, would insure millions of our people against hunger and discontent, would enable our tax payers to wipe out delinquent taxes, that are already reaching alarming proportions when so much needed to keep our schools open, and for all other governmental operations. Stop. If the main arteries of our government are to be sustained the redemption lies in three requisites, action, time, and management, and such redemption might be more essential and constructive now than ever before, or after.

(Signed)

A. H. Sams, Ex-President, First National Bank Benjamin, Texas."

**SLAVEMASTER COTTON CRACKS HIS WHIP**

Since the government report came in and their predictions exceeded all expectations, the price of cotton went into a tail spin and the people of the South and the businesses depending on the prosperity of the cotton farmer for their survival and welfare have become dazed, confused and addled. To add to the tumult and confusion every body from the Farm Board down, or up we should say, have been offering suggestions on how to raise the price of cotton. Most of the plans advocated would raise the price of cotton, but the advocates of these plans have their eyes glued on the price of cotton to such extent that they fail to see the farmer at all. At best, any of the plans offered so far are only makeshift and would leave the situation fundamentally unchanged. It is true that the cotton acreage must be cut and cut drastically if the farmer is to receive a living wage, an income that will enable him to maintain a standard of living such as any American aspires to. A continued overproduction of cotton and consequent glutted market will eventually place the standard of living on par with that of the Russian peasant who wants for nothing in a material way but who is like a well kept animal so far as individuality is concerned.

Legislation, even emergency legislation, borders on Socialism. What are the 6,000,000 farmers who are dependant on cotton going to do? They will continue to raise cotton and be faced with this same situation until they have become educated to the fact that until the industry, itself, devises a system of marketing which will not allow the movement of this product to stop moving as is the case with the three million bales which the Farm Board now holds, but be taken off the market as it is produced. To do this the cotton farmer of the South must cease raising cotton for export. As long as he raises for home consumption he can control his market but as long as his price is set on a world market and the price of the commodities he must purchase are sold on a protected home market, the farmer is going to be in financial straits, it makes no difference what the price he receives for his cotton.

\*\*\*\*\*

**LET'S SNAP OUT OF IT**

True, the outlook for business this year is not as bright as in times past but when the merchants sit in front of their stores and talk hard times to their customers, they are cutting their own throats. Many a sale is lost because the merchant himself discourages the customer from buying. Business should not and cannot be allowed to stagnate. There is not a commodity that the merchant has that could not be used by someone to an advantage. If both parties profit by a trade then all business is benefited. Idle money and idle invoices are doing as much to hurt the condition of the country as any other one thing. When the merchant quits trying and makes only a half hearted effort to run his business, he is getting himself in a position to have his business sold on the block or in the court of bankruptcy. It is not to the interest of the merchant alone to keep the trade moving. It affects all society. In fairness to ourselves and everyone directly or indirectly connected to us, let's make every effort to snap out of it and instead of talking hard times, spend our energies in doing something constructive for our businesses and the country as a whole.

Wichita Falls Division

In the Matter of Frank Ross Bankrupt.

No. 589, In Bankruptcy

Notice of first meeting of Creditors.

To the creditors of the above named bankrupt, of Munday Knox County, Texas:

Notice is hereby given that on the 20th day of August, A. D. 1931, the said Frank Ross, was duly adjudicated bankrupt and that the first meeting of the Creditors of the said Bankrupt will be held at the office of the Referee, 714 Staley Building, Wichita Falls, Texas, on the 8th day of Sept. A. D. 1931, at 10 o'clock in the forenoon, at which time and place the said creditors may attend, prove up their claims, appoint a Trustee examine the Bankrupt, and transact such other business as may properly come before said meeting.

Dated this the 25th day of August, A. D. 1931.

Walter Nelson,  
 Referee in Bankruptcy.

Van Earl Sams returned this week from Lubbock where he has been attending summer school.

Frank Patton of Guthrie was a visitor in Benjamin Thursday.

Mrs. J. D. Goodrich, Miss Alga Goodrich and Ray Goodrich returned Tuesday to Benjamin after a visit with relatives in Clayton New Mexico.

C. R. E. Weaver of Lubbock is visiting relatives here this week.

Mrs. J. A. McCanlies and children were visiting relatives in Dickens last week.

Mrs. R. F. Ward of Abilene was in Benjamin this week visiting relatives.

**HAROLD SMITH TAKES OVER MANAGEMENT PANHANDLE STATION**

Harold Smith has taken over the management of the Panhandle Service Station here. The place was formerly under the management of Mr. June Stark. Mr. Smith is an experienced operator and has many friends in Benjamin and this part of the country who wish him well in his venture.

**MANY INNOCULATIONS GIVEN UNDER CO. HEALTH OFFICER**

Under the direction of the County Health Officer, Dr. J. E. Stover many of the school children of the county are taking advantage of the free vaccine and serums. Over three hundred were vaccinated at Vera Thursday. Knox County ranks with the foremost in the amount of work done along this line and it is expected that before school opens over the county for the fall term that the percentage of children that have not been immunized will be small.

**DR. E. M. HUGHES**  
 Physician and Surgeon  
 Office in  
 Eiland Drug Store  
**TRUSCOTT, TEXAS**

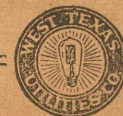

Mrs. J. H. Milam and daughter, Miss Mary Grace, and son, Tom, left yesterday for Austin, to be there for an indefinite time. The residence here has been left in charge of Mr. and Mrs. J. H. Blackaller. Miss Mary Grace will be a senior this fall in the University of Texas, while Tom will be a sophomore there. He attended S. M. U. for the first year in college. Mrs. Milam has had an idea for sometime that she might move to Austin, at least while the children were there, but is has been impossible to make suitable arrangements till now. She says she began applying four years ago for a position in the state highway department as file clerk, and at last her efforts have been successful. Her friends here are glad for her to be with the daughter and son, but they will be greatly missed, and the sincere hope is extended that when the matter of education has been attended to they will all be back in Seymour.

Your Comfort is Our Pleasure

*Today's Preparation Is Tomorrow's Progress*

FORWARD-LOOKING towns must consider their power supply. Is it reliable? Is it ample? And can it be increased quickly when industrial growth calls for more power?

These requirements are met when a town is served by an inter-connected electric power system. New demands are met at once, because power is available from many different sources.

Making this elastic, dependable and ever-ready type of power supply available throughout West Texas, it is the privilege of the West Texas Utilities Company to serve 124 prosperous cities and towns in this "Land of Opportunity." Three major generating stations, nineteen auxiliary plants and over 2,500 miles of high tension transmission lines place inexpensive electric power at your command every minute of the day.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and adds only a small amount to your total bill?
