HAPPY BIRTHDAY — Brigidia Salinas, smiling as well wishers wish her a happy birthday just before she was wheeled into the courtroom to testify in the Rojas murder trial this week. She was 14 Thursday. Brigidia was paralyzed from the neck down by a wild shot from the gun of Ambroso Rojas. The Muleshoe Jaycees have started a fund here to assist in the expense of hospital care for the injured girl. Persons wishing to donate should contact any Jaycee.

Will Muleshoe Area Farmers Have Farm Labor Problems This Season?

Two of the most prominent words used by President Lyndon B. Johnson in his State of the Union speech were "Unemployment and Poverty." The President said, "What ever the cause, our Federal-local effort must pursue poverty where it exists — be it in city slums, in small towns, in share-cropper shacks, and in migrant workercamps." etc. Concerning employment he said, "Our goal is to create more jobs."

"First, to enable every individual to build his earning power to full capacity. Second, to assure all citizens of decent living standards, regardless of economic reverses and vicissitudes of human life and health." Since the U. S. population now totals one hundred ninety million, thirty-eight

million live in poverty according to President Johnson. In view of such a pronouncement, and because of certain directives now being issued by the Department of Labor, it appears certain that agriculture in the area will be forced to utilize to the greatest possible extent the presently unemployed or underemployed in place of Mexican nationals.

The California Tomato Growers' Assn., has stated that the growers of California's eighty-eight million dollar tomato crop believe that 1964 may well mark the beginning of the end of this most vital crop. This conclusion was reached after anticipating that no nationals would be available in 1965.

After reading testimony ap-

pearing in the Congressional Record during the debate on Public Law No. 78, it appears that many of those who voted favorably for the Mexican national program are now on record as opposing any future extension of Public Law No. 78.

With the above in mind, it is necessary to investigate other possible sources of labor to replace the Mexican national whom we have enjoyed in past years. The first source of supply for California appears to be a larger recruitment of domestic Mexicans in Arizona and Texas. I am informed that 18 new labor licenses have been issued to California Associations who had not previously been licensed, and those who had not previously been licensed, and those who had been

licensed are extending their recruitment from El Paso into the lower Rio Grande Valley. Many additional California orders have been placed with the Texas Employment Commission for labor who are to be employed at a much higher rate than is presently being offered in any other areas of the United States. The higher wage, plus more continuous employment will, in all probability, cause a larger migration of domestic workers to the West Coast than has previously been the case. There also will be an added desire on the part of the Texas Mexicans to remain in Texas inasmuch as the average hourly rate has risen 4 per cent in the past two years.

With a larger migration of workers from Texas to California, the Mountain States will undoubtedly experience a decline in the number of workers that we will be able to recruit, thus necessitating the extension of our recruitment to other areas designated by the Dept. of Labor. Tentatively the areas suggested for recruitment of labor are in the states of Louisiana and Mississippi, and in order to be given certification for a needed number of nationals, it will be required to recruit these workers with a guaranteed hourly wage of \$1.00 per hour.

Directives from the Department of Labor in Washington indicate (See Farmers Page 5)

Local Lions To Greet Dist. Gov.

The Muleshoe Lions Club will welcome Bert Belcher, District Governor, District 21-2, Lions International, which includes 57 clubs in this section of the state tomorrow. Lion Belcher is in the Home Furnishing Business in Seagraves and is a member of the Seagraves Lions Club. He is a 15 year Monarch, Key Member, has 12 years perfect attendance and has served on three Governors' cabinets. He is active in the Methodist Church, Seagraves Chamber of Commerce and other civic affairs.

District Governor Belcher will visit the Muleshoe Lions Club at 12:00 noon tomorrow. The purpose of his visit will be to advise and assist President, N. L. Johnson, secretary, Guy Kendall, the officers, directors, and members of the club on matters pertaining to Lions' administration and the Lions' program of humanitarian service.

INDUSTRY FOR MULESHOE WILL DEPEND ON MEETING

Farmers To Voice Immediate Industrial Future of Area

Today the Muleshoe and Bailey County area has the opportunity of obtaining its first major industry. The opportunity is here—but the area's residents must first prove they really wish to have and will support it.

A three pronged company, Western Food Products, will decide whether or not to locate a new \$250,000 plant in Muleshoe practically on the basis of a meeting scheduled to be held in Production Credit Building here at 8 P.M., April 2nd, according to Elvon DeVaney.

The decision will rest almost entirely on the success of the meeting of local farmers, because George Berscheidt, president of the firm, believes that the success or fall of his company depends upon the farmers with whom he deals and them alone.

In this instance, he does not believe the chamber of commerce, local businessmen or other public media, can assist them only the local farmers.

The plant, which will produce tomato paste is expected to employ 200 persons during peak season, according to the report. It is expected the plant will can about 800 acres of tomatoes during its first operating season.

The April 2nd meeting is to find out local farmers' thoughts in three areas. They are:

1. Is the Muleshoe area a potential vegetable producing area?
2. Is Muleshoe a potential vegetable processing area?
3. Are local farmers interested in raising vegetables on a large scale, and are they interested in questions one and two?

Thus the immediate progress of the entire Muleshoe area may well depend on two things.

1. The number of local farmers who turn out for the meeting.
2. The thoughts expressed by local farmers at the meeting. There are two other areas in which the company is interested. The open invitation letter to area farmers follows:

Dear Mr. Farmer,

The questions below must be answered by you, and your neighbor as the first proposed step to securing this enlarged in-

Defense Stunned By Rojas' Life Sentence

A jury of ten men and two women sentenced Ambroso Rojas to life in the state prison — after about 10 hours of argument Thursday.

The courtroom spectators were stunned and surprised by the extent of the verdict. Earlier a poll of 20 observers by the press had guessed the penalty at 2-5 years. Others named the penalty at 5-10 years.

No one who observed the trial and was interviewed expected a death or life imprisonment verdict.

Defense Attorney Karl Lovelady, stunned by the verdict and choked by emotion said, "It's my fault. The blame is mine. I should have told Rojas to get another lawyer so he could get a fair trial in Bailey County."

Friday morning Lovelady was in close contact with high state officials discussing possible trial irregularities. Lovelady believes Rojas may have not received a fair and impartial trial in Muleshoe because of prejudice against the defense council.

Lovelady, who at one time was regarded as a brilliant lawyer and politician, was tried on four counts, which stemmed from alleged irregularities in his handling of certain cases he had accepted.

Lovelady was never found guilty. The case was dropped as the result of a mistrial. Later, however, his attorney's license was

suspended by the state bar association for a period of three months.

Lovelady resigned the position of county attorney. Prior to his election to the county attorney's office Lovelady had been the youngest county judge in the history of Texas and the youngest state representative, according to his statement.

Lovelady believes that in addition to the possible prejudice against himself another error exists in the trial.

The defense council has asked for a True Bill on the handling of the jury. He believes that because the jury was allowed to split, travel in public, speak to individuals and move out of the sight of bailiffs for extended periods of time, a reversible error was committed.

State law states that no juror shall be removed or be allowed to remove himself or herself (See Rojas Page 5)

Bargain Bonanza Sale Wall To Wall Success

Muleshoe Friends of the Library, in a continuing effort to raise money for the permanent Muleshoe Area Library, held a Rummage Sale in the new library building.

At press time Friday the organization had raised \$407.95. The sale committee, headed by Mrs. Larry Hall and Mrs. Vic Benedict expects that amount will be greatly increased by yesterday's sale which cleaned out the donated stock from wall-wall. Total figures of the amount of money raised were not available at press time.

The sales were further evidence

Little League Forms 1964 Organization

Muleshoe's Little League held a major reorganization meeting this week and elected Lonnie Bass as the groups new president. There were no other nominations for the office so Bass was elected by acclamation.

The 12 interested parties present at the meeting also elected Cleve Bland vice-president, Owen Jones, secretary-treasurer; Garland Crosby, director and public relations man; Bob Glass, director and purchasing agent; Robert Hooten, director and player agent and Jack Rials, director and manager.

There was but a single nomination for each office and all officers were elected by acclamation.

In other business, the group voted to field two additional teams this year. Both will be major leagues. The vote brought the number of major teams in Muleshoe to six. Minor teams will remain at six this year.

Under the new organizational plans, Little League will encompass about 210 boys this year, according to Owens.

Registration of boys for the various teams will begin April 2nd and continue through the fourth at Muleshoe Motor Company. One parent should accompany the boy.

Vows Exchanged In Church Chapel

Donna Kay Anderson became the bride of Dwight Burkhead in a ceremony read at the First Baptist Church at 7:30 p.m. Saturday night. Rev. Don Murray read the service before an archway of greenery entwined with wedding bells and Easter lilies.

Parents of the couple are Mr. and Mrs. L. C. Anderson and Mr. and Mrs. Jim Burkhead.

Presented in marriage by her father, the bride was attired in a street-length dress of white tulle and she carried a bouquet of feathered carnations with white streamers atop a white Bible. Her veil of net was caught to a circular headband.

Beverly Anderson was her sister's bridesmaid.

Greg Blackwood served as best man.

Background music was provided by Miss Susan Birdsong who also accompanied Yvonne Layman as she sang "Always" and "The Lord's Prayer."

A reception followed the ceremony in the home of the bride's parents.

The serving table was centered with a three tier wedding cake, topped with a miniature and groom. Mrs. Tom Schleich assisted Mrs. Anderson with the hospitalities.

Relatives of the couple attended the wedding and reception.

The bride and groom will be exchanged at 8:30 a.m. April 10 at the First Baptist Church. A reception will follow in the church social hall.

WEDDING SET — The approaching marriage of Patricia Irene Pruitt to Jerry Wayne Osburn is being announced by her parents, Mr. and Mrs. Elma M. Pruitt, Muleshoe. The future bridegroom is the son of Mr. and Mrs. George C. Osburn. The wedding is to be held at the First Baptist Church. A reception will follow in the church social hall.

FRANKLY SPEAKING
By J. Frank Peery

EDUCATION IN MODERN AMERICA

Public education in America facing overwhelming demands, and in our town of Muleshoe is our schools have had to cope with the "population explosion" and the "knowledge explosion" in a period of very rapid social and technological advance. It is not an easy job for today's educators to select what to teach, and how to teach it most effectively. Naturally, the basics will always be a part of the study pattern, but should a senior in our high school system be handed a "sheep-skin" and placed out in modern America without some exposure to the vast fields of technological and sociological change? This cannot be done with any real degree of effectiveness unless we, the citizens, and parents give our approval to the call of our approval to the call of our School Board for immediate physical school improvements.

It is a trite phrase, yet mostly true: "You get what you pay for." Passage of the Bond Issue will cost us a few extra dollars. Actually, it will be nothing more than the "widow's mite" in proportion to the return given by our children and young people. I do not want to carry on my conscience that I am responsible for sending children to school in an unfit building — a building that is and has been called dangerous.

The world of today and tomorrow calls for a tremendous variety of talents. The volume of the world's knowledge is doubling every ten years — expanding so rapidly that no one can assimilate it all.

No matter what One's chosen calling may be, his education must prepare him for occupational efficiency and civic competence. Regardless of what technological devices are adopted, what organizational patterns prevail, what curricular content emerges, the three basic foundations of education — social, psychological, and philosophical — are central in the making of

PROPERTY SHOULD BE RENDERED TO TAX AUTHORITIES

April 1 and May 1 are important deadlines for Texans to render their property to various taxing agencies. State laws require all real and personal property to be rendered for taxes on or before prescribed dates. Those who fail to comply can blame on themselves for the money loss they may consequently suffer.

Some Texas cities set their own tax deadlines. These are the cities of more than 5,000 population which have incorporated under the "Home Rule" provisions of our statutes. All other cities are governed by the general laws of Texas.

In towns operating under the general laws property must be rendered for taxes between January 1 and April 1 each year. A number of home rule cities set up the same requirements in their ordinances, while others prescribe different periods.

For state and county tax purposes, property must be rendered to the County Tax Assessor by April 30, and homestead exemptions must be claimed by the same time.

In some localities a third taxing unit is involved — the independent school district. In other places school taxes are collected by the city or county. In addition, some localities have water, irrigation, or levee districts which assess and collect taxes. Make inquiry as to where these various taxes are assessed, and as to applicable deadlines for rendition.

What property must be rendered for taxes? If Texas laws were strictly enforced, we would be required to render to all taxing units nearly every piece of real and personal property which we own, down to the very clothing on our backs.

An exception is the constitutional exemption of \$250 worth of household furniture. However, no taxing unit carries its requirements this far, and it will be necessary to inquire of each tax assessor when rendering your property whether specific types of property are ordinarily rendered in that locality. Some cities and counties collect ad valorem taxes on automobiles, television sets and other personal items, while others ignore practically all personal property. Business and professional men are

generally required to render all merchandise, furnishings, fixtures, business automobiles and equipment.

If property is not rendered by the tax payer, it may then be placed upon the unrendered tax roll, and the taxing agency places such valuation thereon as it considers fair. One advantage of rendering your property is that you can set your own valuation. Then, if the county or city decides a higher valuation is in order you will be given an opportunity to appear before a board to explain why the higher figure should not be used in computing your taxes.

Thereafter, an appeal to the courts is possible in some instances. Generally speaking, however, the courts are unable to strike out a valuation unless the agency or board has acted arbitrarily and placed on the property a valuation higher than that placed on comparable property owned by others. If you do not render, the valuation set by the taxing agency is final.

Remember these facts: You may need to render your property at three or more different tax offices. Ask each tax assessor if in doubt concerning the deadline or the renderer get specific personal items.

(This newsfeature, prepared by the State Bar of Texas, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved.)

Parcel Post Rates Are To Increase

Parcel post rates go up April 1 — Wednesday of next week. The post office announced this week that new domestic parcel rates increase at that time.

That parcel post increase — approved recently by the Interstate Commerce Commission and averaging about 13.1 per cent — is expected to yield about 75.4 million annually.

Catalog rates will be increased approximately 13 per cent and will produce added revenue of about \$2.4 million of 1962 volume is maintained.

The higher rates do not affect air parcel post or international parcel post.

The decision of the ICC will assist the Post Office Department in carrying out its objective of reducing the drain on the Federal Treasury by \$1 million.

The last parcel post increase was on February 1, 1960 the postmaster pointed out.

To illustrate the effect on the new rates here, the post office because a slight variance in facts may change the application of the law.)

EASTER DAY

CHRIST our Passover is sacrificed for us: * therefore let us keep the feast, Not with old leaven, neither with the leaven of malice and wickedness;

* but with the unleavened bread of sincerity and truth. (1 Cor. v. 7.)

CHRIST being raised from the dead dieth no more: * death hath no more dominion over him.

For in that he died, he died unto sin once: * but in that he liveth, he liveth unto God.

Likewise reckon ye also yourselves to be dead indeed unto sin, * but alive unto God through Jesus Christ our Lord. (Rom. vi. 9.)

CHRIST is risen from the dead, * and become the first fruits of them that slept.

For since by man came death, * by man came also the resurrection of the dead.

For as in Adam all die, * even so in Christ shall all be made alive. (1 Cor xv 20)

Glory be to the Father, and to the Son, * and to the Holy Spirit;

As it was in the beginning, is now, and ever shall be, * world without end. Amen.

 that certifications for nationals will be reviewed very closely. Sec. 503 of Public Law No. 78 will be implemented and strictly adhered to before certification for nationals is made. This Section states, "No workers recruited under this title shall be available for employment in any area unless the Secretary of Labor has determined and certified that: (1) sufficient domestic workers who are able, willing, and qualified are not available at the time and place needed to perform the work for which such

workers are to be employed, (2) the employment of such workers will not adversely affect the wages and working conditions of domestic agricultural workers similarly employed, and (3) reasonable efforts have been made to attract domestic workers for such employment at wages, standard hours of work, and working conditions comparable to those offered to foreign workers."

It is a contention of the Department of Labor that those workers recruited to replace Mexican nationals must be guaranteed the guaranteed hourly rate previously determined by the U. S. Department of Labor. These rates are \$1.00 per hour in California, Texas, Wyoming and Montana

and 90 cents per hour in Colorado. The use of school children in agricultural work, will be considered as replacements for Mexican nationals and thus must be employed at the guaranteed hourly rate for all 16 years of age and over — according to the Department of Labor the growers will be expected to expand an amount on this program equivalent to that which would be spent for the importation of Mexican nationals to do a similar amount of work.

District Attorney Jack Young retorted to the defense motion for a mistrial by taking the stand that his was an old law which was written before women jurors were used.

In addition, he believes that because it was not proven that the trial was discussed at any time during the jury separation, the defendant's rights were not prejudiced.

Hereford Newest Industry: Children's Dress Factory

Hereford is to have another industry, a factory to manufacture children's dresses, it was announced Wednesday by James W. Witherspoon, one of the directors of the firm.

Dolly Textile, Inc., largely "locally controlled", is moving its plant to an upstairs building at Second and Main, and when in full operation will employ 60 women to make dresses for children 1 to 6 years of age.

Hereford was picked as the location for the plant after a "blind" questionnaire in The Brand brought in 20 replies. The coupon asked that women who

knew how to sew fill out the coupon and mail it to the Chamber of Commerce there.

"Response was so good," Witherspoon said, "that we knew we would be able to provide the necessary people to make the dresses."

At the start, 20 to 30 women will be employed. Sewing machines are being moved to Hereford from near Las Vegas, N. M., where the factory has been located for the past year. Actual production of dresses is expected to get under way in April.

Designer of the dresses is Lucy Jane Funk who has been designing dresses for Sears Roebuck and Co. for the last 14 years. Prior to that she had a dress factory in Kansas. The dresses are marketed under the label "Lucky Jane" but additional labels will be added to the line as the market is expanded to include many retail outlets, Witherspoon explained.

Mrs. Funk has 75 different designs, and dresses for the most part will be medium-priced. Eventually the operation will be expanded to 100 machines as sales justify.

Meantime, workmen were busy

rewiring the building and making ready for the arrival of the first machines. Mrs. Funk and the director are screening applicants, preparing for the opening of the factory next month.

Directors, in addition to Witherspoon, are Herb Tucker, Clavis Jerry Detwiler, Paul Engler and Don Baugous. A finance committee and a sales organization also are being set up.

NOTICE

Last week's issue of the Journal carried a story concerning the Study Club members attending the Federated Women's Club Convention in Levelland. In the story it read, due to typographical error, that 17 clubs were represented. The figure should have been 107 clubs attended.

Things have changed a lot since a Chevy was only a Chevy. Especially your ideas of what you want a Chevy to be.

So now you have the Jet-smooth Chevrolet—17½ feet of pure luxury, bumper to bumper. The size alone might make it a luxury car, even if nothing else did. And everything else does, but the price.

Or you can choose the thrifty Chevy II, a 15¼-foot family car with all kinds of passenger and luggage space—and three kinds of engines (4, 6 or extra-cost V8) to choose from, besides.

This year, your choice might be the new 16-foot-plus Chevelle, sized to fit nicely between Chevrolet and

Chevy II (and between parking meters, with five whole feet left over), but with its own special looks and room.

Then, too, there's the sporty 15-foot Corvair, so right for so many people (you girls, in particular) that we've never touched an inch of it—except for things like bigger rear engines for '64. And finally, Corvette—still 14½ feet and still too much for any true sports-car lover to say no to.

The long and short of it is, you don't have to go to any length to find exactly the size and price and kind of car you want. Just see the five different lines of cars at your Chevrolet dealer's.

THE RESURRECTION OF CHRIST

Easter refreshes the memory of the resurrection of Christ . . . a day set aside by churches to commemorate this great event. From early Christian times it has been observed with great solemnity.

Popular observances, past and present, connected with the day are innumerable. In some churches it was one of the special days for baptisms: in others, the faithful greeted each other with the kiss of peace, and the salutation "Christ is risen," to which the response was, "He is risen, indeed." Some of the medieval customs were solemn games of ball played by bishops, cannons, and other dignitaries of several French cathedrals.

The use of eggs is of the highest antiquity, the egg having been considered a symbol of resurrection. Easter fires formerly celebrated the triumph of spring over winter.

Jesus saith unto her, "I am the resurrection, and the life: he that believeth in me, though he were dead, yet shall he live. (John XI : 25)

The debut of new spring styles on this day each year has become as much one of America's traditional symbols of the blossoming of new life at this time of reverence as the Easter fires were in olden days.

The Easter Parade has made its place ushering in the beauty of spring at Easter tide.

Muleshoe area people join Christians the world over in this observance today, for . . . CHRIST IS RISEN.

MOTHER AND DAUGHTER — Mrs. Kenneth Hall and Karla have joined the parade in fashionable attire. Karla, 6 years, is wearing a pink dress of cotton satin under a bodice and side ruffles of white eyelot. Her bonnet is white straw enhanced with a floral band. Mrs. Hall is wearing a three piece dress of contrasting, light and dark green. Her hat is black straw and she wears black accessories.

Picture B
STRAW ROLL BRIMS — Mrs. Herbert Sowder and daughter, Shannon, celebrates this special occasion wearing popular roll brimmed hats of straw. Mrs. Sowder's dress is tan and features embroidered scrolls of matching tan, tiny button down the center bodice and a low belt. Shannon's dress is pale green and is designed with a tucked bodice above a gathered shirt. Her accessories are white.

Picture C
BROAD BRIM STYLE — A broad brim hat of deep orange with matching floral crown was the highlight of the Easter ensemble worn by Mrs. Stanley Williams. Her dress is sheath style and of alternating stripes of bone nylon and a nubby weave with pale orange and brown flecks. She added bone and brown accessories. Mrs. Williams is the mother of two children, Michelle and Patrick.

Picture D
SOLID AND COLORS — Wearing this smart two piece dress of bone, designed with a button and bow jacket, is Mrs. Robert Hooten. The predominate color in the matching clutch bag and shoes is deep orange with black. She adds the same orange shade of gloves and a narrow brim hat featuring flowers in varied shades of orange. Her jewelry is in tones of orange and black.

Picture E
YOUNGER SET — The younger set also has a place in the Easter Parade. Here Sheila, 3 years & Curtis Hunt, 1 yr. are most stylish for today's festive events. Sheila is wearing a sheer turquoise dress of checked designed over matching taffeta. Her accessories consist of white patent shoes, ruffled straw and nylon purse and a white straw bonnet with turquoise petals. Curtis is wearing a smart pin stripe jacket of white and black with black pants.

MUSTARD HISTORY
It was Mrs. Clements of Durham, England who discovered in 172, that mustard seeds could be powdered. This this day the English mix mustard and water, just minutes before it is to be used. This releases the full pungency of the spice. Unused mustard is discarded after the meal.

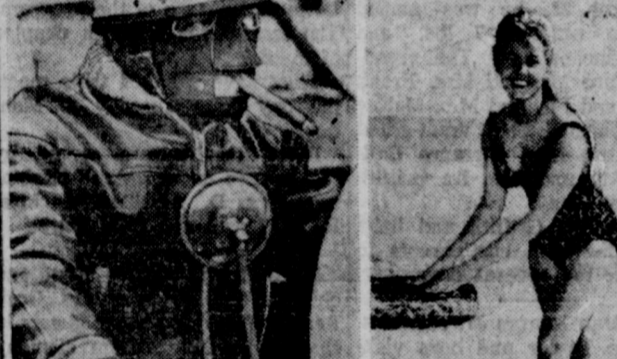

A January thaw in New England is mentioned in literature as early as 1798.
