

Splinters

Been on the fly so much lately that we haven't had time to do much for this column. Have quite a nice collection of comic strips, since the fire. The one where Mr. Quad of "Gasoline Alley" blew up his plant with the benzine can. If there are more of these around town that haven't been destroyed we would like to have them to make our collection compete.

Quite a change since the rain. Green stuff already popping out of the ground. This is the kind of weather that makes us appreciate good roads.

Every so often we run across a former Benjaminite who tells us that he still claims Benjamin his home and wished that he could come back to live. Benjamin friends are fast friends as we have had occasion to learn recently. We now know what that something is that sets the old home town apart from the majority.

District Court juries that have been making the medicine this week seem to have suspended sentences to let. Once Knox County had the reputation for sending every bootlegger tried to the pen. Sentiment has changed so they still give them a sentence but allow the legger to serve it at home. In Dallas recently in the trial of a liquor case, all the jurymen disqualified on the grounds that they didn't think a man ought to have to serve a term for just selling liquor. Yet Texas still has her Dean Law.

We are in favor of changing the duck and goose season to spring instead of fall. It seems that more of them come in after the season is closed than when it is open.

About the time that the commercial companies were getting ready to sling it into the army for losing lives flying mail, one of the commercial planes crashed. That's bad advertising for both. But the plane is here to stay and they are getting safer all the time. Car wrecks are so common that they hardly make a headline anymore yet everybody wants to drive a car. Wouldn't you like to have a new one?

Notice our subscription offer in another part of this paper this week. We believe that it is one of the most liberal every offered in the county. Every person in the county should read the county seat newspaper and at this price everyone can afford it. Tell your neighbor about our offer.

We ought to say something about the \$10.00 a day boys but there ain't much to say so we'll leave 'em alone this week.

Reuben Bates and Leo Jones if Goree were visitors in Benjamin Wednesday.

W. L. Barber of Knox City was in Benjamin the first of the week.

Tom Masterson of Truscott was attending court here this week.

W. W. Coffman of Goree was a visitor in Benjamin Wednesday.

District Court has Busy Week. Many Cases Tried

Several cases were disposed of during the third week of the winter term of the District Court this week.

The grand jury reconvened Monday and were discharged Tuesday. No bills were returned. Below is given the cases disposed of: State of Texas vs June Stark, wife desertion, 2 year sentence suspended; State of Texas vs Floyd Groner, liquor, 1 year; Jones vs Wright, judgment for plaintiff; Masterson vs Myers, et al. judgment for plaintiff; State of Texas vs Sam Dabner, liquor, 5 years suspended; W. W. Coffman vs Vera State Bank, judgment for plaintiff; Glevis Hamner, divorce granted; Fannie Mae Wiswell vs Walter A. Wiswell, divorce granted.

New Grocery Store To Be Installed Here

Carpenters are busy this week building and installing fixtures in the Beavers building preparatory to the opening of a grocery store. John Edwards of Seymour, who owns stores at Knox City, Goree, Bomarton and Seymour, is installing the store in Benjamin. Mr. Edwards is a merchant of wide experience and this new addition to his system should prove a success.

Brazos Valley League Organized for Season

Those interested in the Wichita Valley League met Sunday afternoon at the Tonkawa hotel at Haskell. At which time it was definitely decided that the teams that would constitute the circuit for the coming season are Munday, Haskell, Stamford, Hamlin, Peacock, Aspermont, Rule and Knox City. It was decided that another meeting will be held at Hamlin next Sunday afternoon at which time the schedule for the season would be adopted. Plans call for the opening of the season about April 15, with a split season, and the season will close about August 15. It was stated that the teams at Knox City, Aspermont and Stamford will be sponsored by the local posts of the American Legion.

Each club will be required to post a forfeit of \$25.00 to bind themselves to complete the schedule adopted, and the rules adopted for the season do not restrict clubs from employing salaried players, the only exception being that no player is eligible to play who has played professional baseball during 1934.

Geo. Bender of Hamlin is president of the league and Paul Cain of that city is secretary.

Thieves Carry Off Tank and Lube Oil From Local Station

Thieves on Sunday night carried away a large tank containing lubricating oil from the front of the Gulf Service Station operated by Avis Maples. In addition to the tank they also took a quantity of hose from both this station and the Gulf station operated by Bud Roberts. The tank was located Tuesday southwest of town, having been dumped out of a truck after the oil had been removed.

Burglars last week also ransacked the offices of the Farmers Elevator Company, but failed to procure anything of value. —Munday Times.

County Meat Show Scheduled Saturday At Munday

The Knox County Meat Show, the first of its kind ever held in Knox county, will be held in Munday on Saturday, March 3, at which time the 4-H club boys of the county will place on display of the cured and canned meats that have been put up by members of the Home Demonstration clubs of the county under the supervision of Miss Jewell Faulkner, county home demonstration agent.

Prizes, which have been made possible through the cooperation of the chambers of commerce at Benjamin, Goree, Knox City and Munday, will be awarded as follows:

Junior Calves
First, \$6.00; second, \$5.00; third, \$4.00; fourth, \$3.00; fifth, \$2.00 sixth and all other awards, \$1.00.

Senior calves: first, \$6.00; second, \$5.00; third, \$4.00.

Judging in the baby beef division will begin at 10 o'clock Saturday morning.

The Knox County Meat Show is to be held in Munday, Saturday, March 3rd. The cured and canned meats division will be in the Tull building just west of the Bauman Motor Company. Judging will begin promptly at 10:00 o'clock on the following products:

Pork:
Roast in No. 2 or 3 cans (plain).
Sausage in No. 2 plain cans.
Liverpaste in No. 2 plain cans.
Minced meat in No. 2 lined cans, (enamel).

Chicken:
In No. 1 or 2 cans, any type of boned chicken.

Beef:
Roast in No. 2 or 3 cans (plain).
Steak in No. 2 plain cans.
Chili in No. 2 plain cans.
Cured hams and bacon.

Cash prizes will be awarded to first and second winners and ribbons to third on canned products. These cash prizes are 40c first, 20c for second.

At 2 o'clock the 2 girls 4-H teams will give demonstrations on the preparation and canning of mince-meat and the preparation of an attractive and appetizing finished product. These girls are: Mary Helen Partridge, Jimmie Lois Frasure, Margaret Shannon and Dolly Nix, all of the Sunset 4-H club.

Beginning at 2:30, eight Home Demonstration Club women, each representing an organized club, will give demonstrations on Utilization of Canned Meats. They will use the prize winning products of each of the 8 entries and prepare them into interesting and attractive dishes or platter meals. These will be on display until 5:00 o'clock.

Thirty-five of the best entries in this show will be taken to the Quality Meat Show, Lubbock, March 28-30. The best of the 4-H demonstration on meat will also be taken to the Lubbock show to represent Knox County in the district.

Everyone is invited to spend the entire day at the show, hear the judging and see the demonstrations.

Mr. and Mrs. J. C. Veale and son spent the week end with the former's mother at Graham.

M. F. Bilingsley of Munday was in Benjamin this week on legal business.

Mrs. J. R. Craig, Pioneer Knox Citizen, Buried Thursday

Mrs. J. R. Craig, 71, pioneer Knox County citizen, died Wednesday morning at 4 o'clock following an illness of many months. She had been confined to her bed since September. Mrs. Craig had lived in the county about 49 years—most of the time on the ranch. She is survived by six children, nine grandchildren and six great-grandchildren and one sister, Mrs. Duke Rushing. The children are Henry Craig of Munday, Mrs. Myrtle Smith of Truscott, Mrs. F. E. Moorhouse of Benjamin, Mrs. Homer Barham, Mrs. Mable Browning, Mrs. Madge Woods all of Truscott. One daughter, Mrs. Lee Coffman died at Benjamin 23 years ago. The funeral was held Thursday with interment in the Truscott cemetery.

School Play Postponed Until Tuesday, Mar. 6

The Senior play, "The Pajama Girl" which was to have been presented this week has been postponed until next Tuesday. Considerable time has been spent in preparing the play and the public is promised a good evening's entertainment.

Fire Destroys Garage and Servant House In Benjamin Friday

Fire Friday destroyed the garage and servant house at the residence of Mrs. W. E. Moorhouse in the north part of the city. The blaze started about noon and was well under way before it was discovered. The fire department answered the call but unable to connect with a plug in reach of the hose had to fight the blaze with chemicals.

Benjamin and Vicinity Receive Good Rain This Week

Better than an inch of rain which fell this week over this part of the country has put the farmers and ranchmen in a more optimistic frame of mind. The wheat men especially were needing rain. Grass and weeds on the range will be of great benefit to the stockmen who, because of the mild winter, have had but little feeding to do. Much of the land over the country has been broken and the precipitation which fell did not run off.

RHINELAND 4-H CLUB

The Rhineland 4-H Club held its regular meeting Friday, February 23, 1934, in the school auditorium.

Our demonstrator, Miss Faulkner, gave an interesting talk on the different ways in which we may put up our fifty containers of tomatoes. She also gave a demonstration in tile-making. Several of the girls expressed the opinion that to lay twenty-five feet of tile should prove very profitable.

We are sure our club will be very successful this year because we have a large number of interested members, and they all seem to stick together and do their best.

The next meeting was announced to be on March 9th.

Reporter.

TODAY and TOMORROW

By Frank Parker Stockbridge

The year 1935 ought to be a good year for red clover in New England. The winter has been the most severe in years. Comparatively few of the little animals of the fields and woods survive a winter when the crust of the snow is frozen hard. There will be fewer field mice to rob the bumble-bee's nests in the spring. More bumble-bees will come to maturity and seek honey from the red clover blossoms. The clover crop will thus be thoroughly pollenized, and the red clover seeds will be fertile. That will make for a good red clover crop in 1935.

To me this example of the cycle of life, first pointed out by Charles Darwin, has always seemed one of the most interesting of all natural phenomena. I think that many well-meant efforts to disturb Nature's ordinary course are calculated to do more harm than good to a world that has adjusted itself to the normal cycle.

TEETH—Now and then

Tooth decay has little to do with tooth cleanliness or the lack of it, according to the British Medical Research Council, which has been digging deep into the subject. What makes children's teeth decay is not enough sunshine, too high a percentage of cereal foods, not enough meat, eggs, milk, cheese, fats and fresh vegetables in the diet, these medical men say.

The whitest and soundest teeth are found among savage and half-civilized people who live largely out of doors and eat whatever they can find that is edible.

In my boyhood toothbrushes were just beginning to come into general use and not more than one or two dentrifices were advertised. Most folks never brushed their teeth at all, yet the human race had survived for a good many thousand, perhaps millions, of years.

Clean, white teeth are desirable, but nothing to worry about if one doesn't have them.

MONSTERS—Men have seen

The amount of evidence that some strange sea-monster lives in a Scottish loch, and the many reports of a seaserpent seen in Vancouver Sound, have encouraged many folk to tell of strange things they have seen at sea, about which they had kept quiet for fear of being ridiculed.

Officers of the Mauretania saw a seaserpent on a recent Caribbean cruise, and drew a picture of it in the ship's log. Now the Rev. J. E. Rockliff, who is a sort of traveling missionary to seamen and voyages some 50,000 miles every year, tells of seeing a yellow serpent about sixty feet long in mid-Pacific two years ago.

It seems to me we are on the verge of demonstrating once more that there is more to ancient beliefs than a skeptical modern age has been willing to believe.

Mrs. Henry Craig and son, Virgil, of Abilene were in Benjamin Wednesday.

Library Conference Will Be Held in Abilene March 10

Miss Tommie Dora Barker, regional field agent for the South with headquarters at Atlanta, Georgia, will be the distinguished speaker at the district library conference to be held at the Hilton Hotel in Abilene in March 10th beginning at 5 a.m.

Miss Barker works under the direction of the American Library Association and is employed through a special grant from the Carnegie Corporation to lead library workers in planning better library service for

the South. She was formerly head of the Carnegie Library of Atlanta, Georgia, and is a contributor to a number of periodicals.

The district library meetings are held under the auspices of the Texas State Library. Two conferences have already been held in East Texas at which the attendance of librarians and trustees was augmented by representatives from service and literary clubs, county and city school superintendents, and county agents. A county judge, a chamber of commerce secretary, a professor of rural sociology were among the library minded citizens who attended. The afternoon discussions were notable in that prac-

tically every one present took part.

The trustees and staff of the Carnegie Public Library in Abilene extend a warm welcome to friends of libraries in all the counties in their region and guests are urged to visit their splendid library as well as attend the sessions of the conference. Presidents of clubs are urged to appoint members to attend and report back on matters of importance in improving library service. City and county officials, city managers and Chamber of Commerce secretaries, are especially urged to be present and discuss the place of the library from governmental angles.

The Texas conferences are based

upon the conference of Southern leaders which was held in Chapel Hill, North Carolina, last April in which Southern leaders representing many occupations and organizations took part in defining the place of the library in the Southern scene.

Mr. and Mrs. E. W. McGlothlin and Mrs. H. A. Pendleton went to Mineral Wells the latter part of last week, where Mr. McGlothlin will remain for some time for treatment and where Mr. Pendleton is undergoing a series of baths for the benefit of his health. Mr. and Mrs. T. G. Benge are also in that city where Mr. Benge is undergoing treatment.

Hal Pendleton spent the week end in Haskell visiting in the home of his sister, Mrs. Roy Sanders.

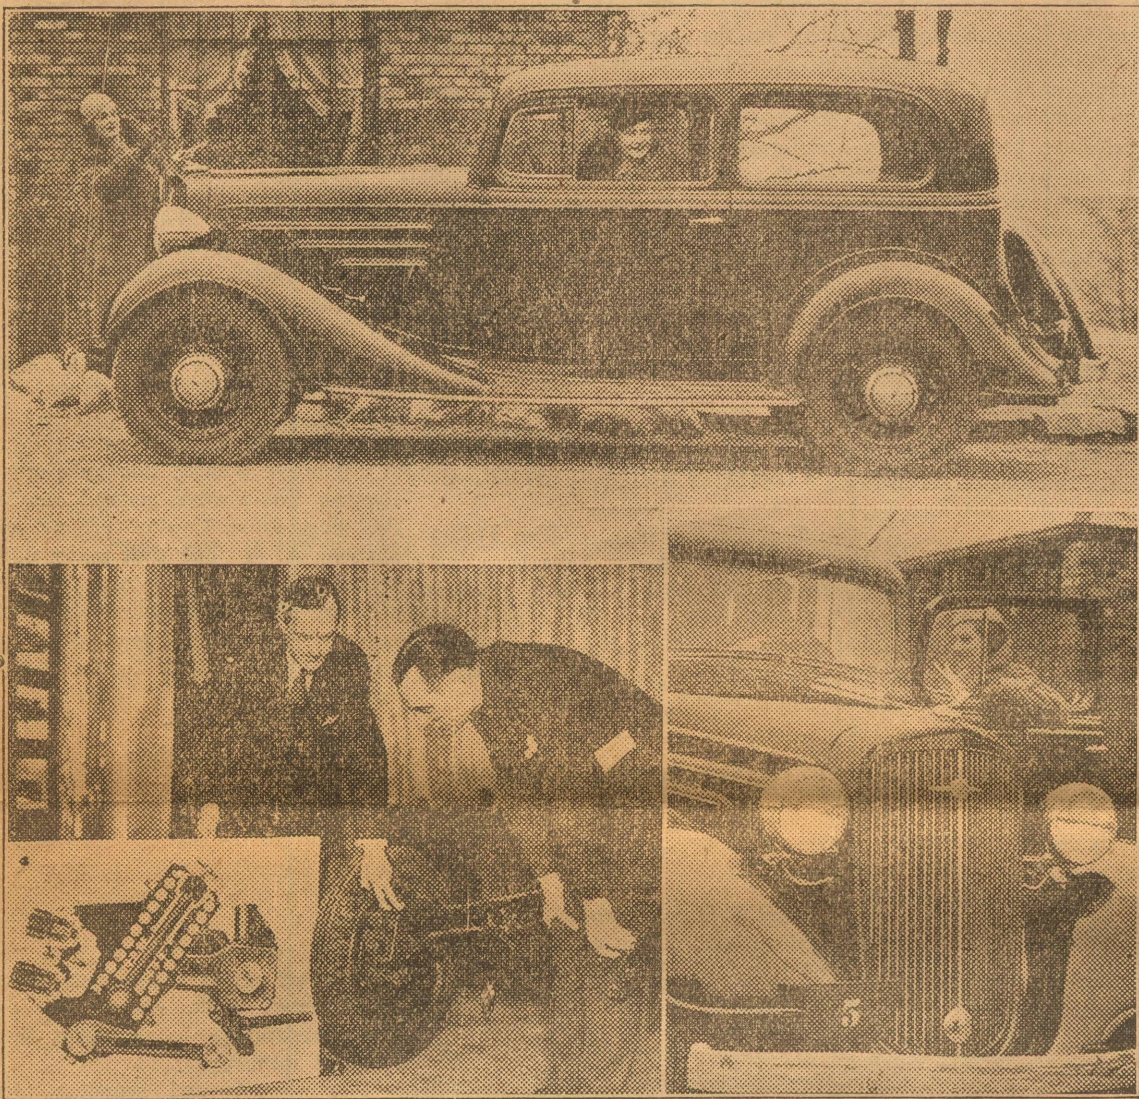

Loss of Appetite

May Mean You're Rundown!

When your appetite goes back on you and you feel weak, tired and depressed, it's a sign you're rundown and in need of a good tonic. There is nothing better than Grove's Tasteless Chill Tonic.

Grove's Tasteless Chill Tonic contains both iron and tasteless quinine in highly concentrated form. Iron, to build the blood; quinine, to act as a blood purifier. These two effects make Grove's Tasteless Chill Tonic an exceptional medicine. Try it for three days and notice the results. Appetite restored, pep and energy renewed. Grove's Tasteless Chill Tonic is pleasant to take. Absolutely no taste of quinine. Even children like it. Get a bottle today and enjoy the vigor that makes life worth while. Sold by all stores.

New "Knee-Action" Chevrolet Gives Passengers Ride Like a Glide

In the design and development of the new 1934 Chevrolet, particular attention has been given to driver and passenger comfort, all annoying sensations of disagreeable sound and feeling having been eliminated. The upper photo shows the new Chevrolet coach with its long, sleek lines. Wind rush has been eliminated by the Fisher No Draft Ventilators and the new streamlined bodies. Chevrolet's "Knee-Action" wheels enjoy the advantage of being

completely enclosed in a weathertight housing the coil springs and shock absorbers ride in a bath of oil. William E. Holler, Chevrolet's general sales manager, is shown at the left holding a chart which shows the internal construction of the system. The radiator of the new car has added beauty through its graceful and sharply pointed design. Smartness has been the theme in every line of this year's Chevrolet.

The driver and passengers in the new 1934 Chevrolet get a ride like the glide of an airplane. One of the main factors in improving the riding qualities of the new car to such a great extent is the "Knee-Action"—or independently sprung front wheels, to use the technical term.

So much has been written about independent springing that the public has doubtless concluded that it is something too technical to understand. As a matter of fact, there is nothing complicated about either the principle involved or the construction of the system. Chevrolet's "Knee-Action" enjoys the advantage of being enclosed in a welded weathertight housing in which the entire spring mechanism and shock absorbers ride up and down in a bath of oil.

An automobile gives a perfect ride when both the front and rear springs have the same "frequency," or tension. Actually this has been impossible to carry out in the past because the front springs had to be over twice as "stiff" as the rear springs in order to hold the front axle, wheels and brakes in place. In independent

springing, the wheels and spring mechanism are rigidly attached directly to the frame and there is no front axle. By relieving the front springs of the task of carrying wheels and axle, therefore, it became possible to make the front springs as "soft" as the rear springs. When the new Chevrolet strikes an irregularity in the road, both front and rear move up and down with the same frequency—there is no inclination on the part of the rear end of the car to leap into the air and throw the passengers forward and upward.

Chevrolet's "Knee-Action" has additional advantages all contributing to a comfort in riding never before thought possible in a motor car. There is a decided improvement in handling, steering, safety at high speeds and tire economy.

In design, the front spring is a neat, compact and efficient unit, as Mr. Holler points out in the above picture. The entire spring mechanism is attached rigidly to the frame. From this enclosed unit the wheels spring vertically at the ends of strong, steel horizontal arms.

HOOD NEWS

A large crowd attended the singing convention here Sunday.

We had some real winter weather here the first of the week.

Mr. and Mrs. R. B. Jones visited Mr. and Mrs. Harry Garrison Sunday.

Mr. Tom Cowsar celebrated his birthday February 20th. He had as his guests Mrs. Aaron Betterton and daughter of Tuscola, Texas; Mr. Freeland Cowsar and family of Silverton, Texas; Mrs. Annie Mabry and Mr. and Mrs. Charlie Evans and Bill Machen and family of this community.

Mrs. Opal Hendrix visited Mrs. Ira Owens Friday.

Miss Mary Belle Mills visited Miss Opal Booe Sunday.

Messrs Cecil Temple and Leslie Polson visited in the home of Mr. Dave Bingham and family Sunday.

Mrs. Della Hambrick and daughter of Munday spent the week end with Mrs. Jessie Mae Bason.

Mr. Elmer Hendrix and family visited in the home of W. J. Swain and family Sunday.

HOW ONE WOMAN LOST 20 LBS. OF FAT

LOST HER PROMINENT HIPS, DOUBLE CHIN, SLUGGISHNESS.

Gained Physical Vigor—
A Shapely Figure

If you're fat—first remove the cause.

Take one half teaspoonful of KRUSCHEN SALTS in a glass of hot water every morning—in 3 weeks get on the scales and note how many pounds of fat have vanished.

Notice also that you have gained in energy—your skin is clearer—you feel younger in body—KRUSCHEN will give any fat person a joyous surprise.

Get an 85c bottle of KRUSCHEN SALTS from any leading druggist anywhere in America lasts 4 weeks. If this bottle doesn't convince you this is the easiest safest and surest way to lose fat—your money gladly returned.

The party at the school house Friday night was enjoyed by all present.

Copies Great Paintings To Be Exhibited at Sunset School Soon

J. L. Hughes of the Sunset Consolidated School has announced that an exhibit of 150 of the finest reproductions of recognized masterpieces of art has been engaged to be placed on display to local students and the general public within the near future. The exact date and place of exhibition will be announced in the next few days.

A small admission charge will be made, and the fund thus raised will be used to purchase pictures for the study hall and class rooms.

In making the announcement, Mr. Hughes said, "It has been the privilege of students and the general public to enjoy the masterpieces of music and literature for generations; but an enjoyment of the masterpieces of art has, until very recently, been restricted to those who were wealthy enough to travel throughout the world, visiting the museums in which the original paintings hang.

"Recent improvements in color photography and printing now make it possible to bring the art of the world to even our smaller towns and villages through the medium of faithful reproductions. These reproductions are true to the originals in all respects, with the possible exception of size. Even the most delicate variations in color are maintained. In most instances the brush strokes in the original picture are clearly discernible.

"I feel that we are fortunate indeed to be able to bring to Sunset a collection of these splendid pictures."

BABY CHICKS—Reds, Wyandottes, Minorcas, Leghorns are now ready for delivery. All chicks from 23-ounce eggs. Place your order now.—MUNDAY HATCHERY, D. N. Mauldin, Prop.

RHINELAND

Our news column seems to have taken on a new life, judging from the reports of the last two weeks. It may have been a surprise to some of you, but our school was as active as ever. This renewed life is, if you are not cognizant of that fact, due to the fact that we have shifted the origin of the phraseology in this column. Although this shifting was unavoidably necessitated by circumstances, we are much alive and elated over the progress our school is making. Not being like our predecessors who wouldn't do "outside" reading because the weather wasn't very pleasant outdoors, we shall endeavor to fill this column with real news. Watch our smoke.

Examinations are over. The results were exceptionally good. They seemed not to have been dreaded by many of the pupils on account of the good work these pupils had done during the month. We are all, nevertheless, glad that they are over.

The following made trips to Wichita Falls, either on business or for pleasure: Mr. and Mrs. Francis Albus and children, Misses Mary Rudy and Leona Albus, and Messrs Victor Diersin, Albert Loran, Clement and Vincent Albus.

—Reporter.

NEW HOPE CHURCH

We are requested to announce that Rev. W. H. McGregor of Weinert will preach at the New Hope Baptist church Sunday morning at the eleven o'clock service, and every member of the congregation is urged to be present. Rev. McGregor is a former pastor of the New Hope church.

Wednesday—Gilliland girls and women; Dixon girls.
Thursday—Expansion work; visit demonstrators.
Friday—Rhineland girls; Hood women.
Saturday—Council meeting, postponed from first Saturday.

PANTRY DEMONSTRATORS
EXPERIMENTING WITH NEW
TYPE CORN IN COUNTY

Since corn can be grown successfully in Knox County, Dr. P. C. Mangelsdorf, Texas Agricultural Experiment Station corn breeder, has sent samples of a new sweet corn to be given to the 4-H pantry demonstrators to experiment with this year.

Dr. Mangelsdorf has contributed a type of corn combining the good

qualities of sweet corn and field corn. The ears of good length, having 12 to 16 rows of plump, white kernels. This sweet corn has been named Honey June, and is a cross between Country Gentleman and Mexican June.

Those experimenting with this new type of corn are: Mrs. Louis Cartwright, Munday; Mrs. Clyde Warren, Goree; Mrs. H. L. Cannon, Hood; Mrs. Leslie Melton, Gillespie, Mary Howell, Knox City; Mrs. Marion Ryder, Gilliland; Mrs. J. H. McGee, Union Grove; Mrs. J. J. Stark, Benjamin; Mrs. R. N. Smith, Vera and Mrs. R. M. Almanrode, Gillespie.

"With my hotbed, I am sure I will have plenty of plants for my garden," said Mrs. Marion Ryder, 4-H pantry demonstrator in the Gilliland Home Demonstration Club. "My problem now is to have a garden, which I believe I can have if I lay some tile, I have had my garden plowed deep and plan to make and lay at least 100 feet of concrete sub-irrigation tile. It is a problem to have enough water for a garden here and what we pour on the surface makes the ground hard, white, and seems to burn the plants. Since

sub-irrigation takes less water, does not cause the ground to bake and seems to be a sure way of raising tomatoes, at least, I must try some of it."

Mrs. Ryder stated also that she was planning to save the wash water and clear waste water from the kitchen to use in the tile.

4-H BEDROOMS

"I have been making plans for improving my bedroom and I think I am going to like it very much when it is completed," said Bernice Crawford, 4-H bedroom demonstrator in the Dixon club.

There is a fireplace in Bernice's room and it is possible for a closet to be built between the fireplace and the side wall, making it have the appearance of having been built into the wall. She plans to have a dressing table added to her room as another of the main features. The room will be papered and the woodwork refinished and the entire room will be rearranged making it more convenient and more easily cleaned.

Twelve other girls in the Dixon club are busy improving their bedrooms by cleaning them, adding closets, small pieces of furniture where needed, and each one is working toward a standard bed which includes a slat for every row of coils, spring and mattress cover, mattress pad, 3 sheets 3 yards long, light covers and the entire bed made correctly. Each girl in Knox County 4-H clubs plans to make a bedspread this year.

HOOD H. D. CLUB

The Hood Home Demonstration Club met at their regular meeting place, the Hood school house, on Friday afternoon, February 23, at which time the club lesson was discussed by Mesdames A. L. Roden, J. D. Smith, A. A. Brown, H. L. Cannon, S. E. Brown, J. D. Palmer, C. R. Hendrix and Miss Myrtle Crouch.—Mrs. A. L. Roden, president and reporter.

In the District Court of the United States for the Northern District of Texas, Wichita Falls Division

In the matter of Author John Jungman, Bankrupt
No. 728, in Bankruptcy.

Notice of first meeting of creditors.

To the creditors of Author John Jungman, of Knox City, Knox County, Texas:

Notice is hereby given that on the 24th day of February, A. D. 1934, the said Author John Jungman, was duly adjusted bankrupt and that the First Meeting of the Creditors of the said Bankrupt will be held at my office, 714 Staley Building, Wichita Falls, Texas, on the 9th day of March, A. D. 1934, at 10 o'clock in the forenoon, at which time and place the said creditors may attend, prove up their claims, appoint a Trustee, examine the Bankrupt, and transact such other business as may properly come before said meeting.

Dated the 26th day of February A. D. 1934.

WALTER NELSON,
Referee in Bankruptcy

SINGING SCHOOL

A singing school is in progress this week at Lone Star, under the direction of Edwin Frasure, and everyone is cordially invited to attend. If interest justifies the school will continue throughout next week with sessions nightly. It is said.

County Federation Meets
in Goree

The County Federation of clubs met in Goree on Tuesday afternoon. A number of women from over the county were present and an interesting program was rendered. The feature speaker of the afternoon was Mrs. Roach of Seymour and her subject was "Birds."

CARD OF THANKS

We wish to express our sincere thanks and appreciation to our many friends who assisted in any way during the recent illness and death of our dear father, J. G. Horne. We also wish to express our thanks for the beautiful floral offerings.

May God's richest blessing rest upon each and every one of you.
Mr. and Mrs. J. E. Horne and family
Dan E. Horne and family
Mr. and Mrs. Jack Horne and family
Mr. and Mrs. H. M. Baird and family
Mr. and Mrs. Author Horne and family.

PARTNERSHIP DISSOLVED

STATE OF TEXAS
COUNTY OF KNOX

Notice is hereby given that the partnership of lately subsisting between Lynn Waldrup, and Jack Benton of Munday, Knox County, Texas, under the firm name of Waldrup and Benton was dissolved by mutual agreement or consent, by the purchase by Lynn Waldrup of Jack Benton half interest. On the 8th day of February, A. D. 1934. All debts owing to the said partnership are to be paid to, and received by Lynn Waldrup, and all demands on said partnership are to be presented to the said Lynn Waldrup.

Witness our hands this the 8th day of February, A. D. 1934.

JACK BENTON.

CHIX, CHIX, CHIX

Notice, we have our incubators running. We set twice each week on Monday and Thursday. Place your orders for baby chicks and bring your eggs to set to us.

REPORT OF DIXON 4H CLUB

The Dixon 4H Club met February 21 at 9:30 a.m. at the Dixon school building. Several of the members were absent including the sponsor. Miss Jewell Faulkner gave the club a demonstration on how to make tile, which was very interesting. The club is planning to make tile and lay in our gardens.

Reporter—Bernice Crofford.

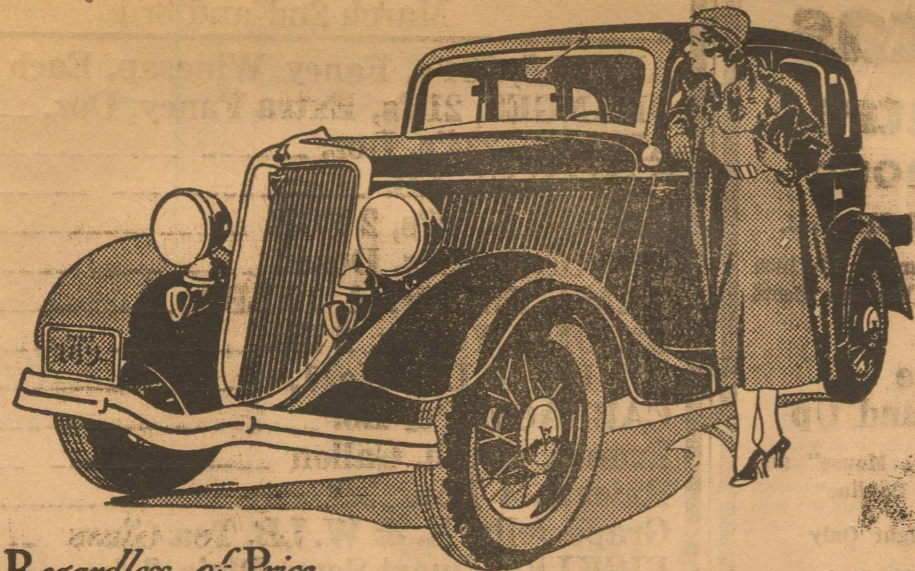

Henry Coffman of Goree was a Benjamin visitor this week.

Ross Bates of Goree, prominent Knox County farmer and stockman was in Benjamin this week on business.

THE CASH MARKET

Regardless of Price
Judge the new FORD V8
on what it will do

Thousands of people who can afford to spend two or three times as much for a car, are today choosing the Ford V-8 for 1934, instead. Here are some of the reasons.

POWER. The Ford V-8 for 1934 gives you better than 80 miles per hour with the quicker acceleration and greater smoothness of an 8-cylinder motor. Power has actually been increased by 12 per cent over last year's model.

COMFORT. The Ford V-8 for 1934 offers more actual body room than many other cars that cost considerably more. It offers you new Clear-Vision

Ventilation, with the window in one piece. It offers you free action for all four wheels—plus the comfort of Ford Cantilever Springs and the proved safety of a front axle.

SAFETY. With the new Ford V-8 you get an all-steel body, safety glass, welded steel-spoke wheels, exceptionally low center of gravity and more braking surface per pound of weight than any other American-made car we know of.

ECONOMY. Gasoline economy is increased by two or three miles per gallon with the new Ford V-8. Test runs show that the new engine will give 20 miles per gallon at 45 miles per hour.
