**PRINCIPLES OF PUBLIC SERVICE**

The rates you pay for Electric service are based  
 on the cost of the service, which includes a fair re-  
 turn on the amount of capital represented by value  
 of the property employed in the service.  
 —This is in accord with informed public opinion  
 and is incorporated in the franchise obligations of  
 the company. Another obligation of the Electric  
 company is that it must serve all who come well and  
 without favor.

This is a picture of mutuality of interest between  
 the utility company and the people who need its  
 services. The company is entitled to earn wages  
 for the capital it employs. The consumers are en-  
 titled to good service all alike under like condi-  
 tions.

Recognition of this truth and the good will that  
 goes with understanding is what builds cities and  
 makes them good places to live in.

**Trade Your City Property  
 On a Cotton Farm**

On Saturday morning, March 1st, the beautiful Gardner Sheep Ranch at Bovina,  
 Texas, known as the old X. I. T. Headquarters place, consisting of 5,000 acres  
 of the best land in the Panhandle, will go on the market. This ranch is located  
 north of the Santa Fe Railroad and runs parallel with the road for over five  
 miles, the Southwest Trail also runs along the land for the same distance which  
 makes it very desirable.

**Trade Will Be Taken in**

From \$5.00 to \$17.50 per acre can be taken in, but it must be worth the money  
 and stand a rigid investigation. If you have the cash to buy this land, you can  
 buy it at a better price. What ever trade you may have to offer will be con-  
 sidered, so don't hesitate to say what you have. Would consider merchandise  
 stock also.

**Terms**

AFTER THE CASH payment is made, you will have two full crop years before  
 you make the first annual payment, and then you have seven more years to  
 pay the place out at one eighth of the balance due. The interest rate is six  
 per cent.

**Agents Wanted**

Real Estate agents will have an opportunity to bring their clients to see the  
 land, and they will have full co-operation and will get their usual commission  
 for making the deal.

**Sale Starts**

Saturday morning, March 1st, at Bovina, Texas, come up to the headquarters  
 place and you will be shown over the place. It is only two and one half hours  
 ride from Amarillo, thirty miles west from Hereford, and ten miles from  
 Farwell-Texico on the main line of the Santa Fe. Meet me there Saturday.

"More People—More Farms"

## Society

Mrs. R. H. Womack entertained at her home Friday, February 29, with an elaborate 12:00 o'clock dinner, in honor of her husband's birthday. The dinner was a complete surprise for Mr. Womack, the arrival of the guests being the first intimation that celebration was "in the air." The feast was in keeping with the occasion, February 29th, which

comes only once in four years, in that it was four-fold in quantity and quality, several delicious courses being served. The guests present at this enjoyable occasion were: Messrs. Dick Kimmons, A. M. Jones, N. C. Vogeley, Wallace Cox, Frank Gyles, Rev. J. R. Sharp and Dr. J. M. Farrell.

"More People—More Farms"  
Mrs. Arthur Thompson was hostess to the Mothers' Club at her home, Tuesday, February 28. A large number was present, and the afternoon was most pleasantly spent. Plans for a reception to be given by the Club at a near date, were formulated. At the close of a most enjoyable social hour, tempting refreshments were served. One of town guests for this occasion were Mesdames Fred Davis of Clarksville, Arizona, and L. E. Russell of Perry, Oklahoma.

## Just Suppose

There are few, indeed, who realize the place of insurance in the work and the life of the world. If insurance suddenly should be eliminated as a factor in modern civilization, its fundamental importance at once would be appreciated. Such a catastrophe would bring about the collapse of our whole well-knit industrial system, would paralyze transportation and distribution, would throw back credit to the pawn-shop stage of existence, would ruin banks, stop building, increase prices enormously and destroy at a single stroke most of the material progress of the world during the last hundred years.
