XXIII No. 49

Development Goes Forward

Progress is Now Being Made Number of Important Wildcat Tests in This Territory

Oil for Oil Industry Improves as beginning to see a clearing in the clouds due to the big effort in the daily production of the field, and a disposition to get together to curb overproduction. They now say it is a question of time until the oil is on its feet once more.

They have to wait a little longer than we planned, for the big development in our county but we are impatient. We know certainly that an immense oil field has been defined by prospect wells; a territory long and narrow enough to keep oil men for many years to come. We are waiting for the wildcat wells being drilled in other portions of our county and other pools and there is nothing what these tests will show. Our days of doubt are over, we know there is oil and it is in Howard County. It is better for the county if we are doing the development and had owner to keep this development until it can be sold at the cost of production.

They have to be patient until the big gusher fields have been drilled before Howard County can get the play but we can afford to wait. With oil at three dollars a barrel, our fields will one day be independent and the major part of the county. A good grade of oil is being produced in Howard County, and they are going to produce for years according to oil men.

At the Kelly Chalk 5. The Marland Oil Co. completed Kelly Chalk No. 5 on section 25, W. & N. W. survey for part of last week. The well was brought in as a small producer of 1263 feet.

At the Reed No. 1. The test well on the Reed ranch in Sterling County has temporarily suspended at 2000 feet. The crew is instructed to test daily so that work may be resumed when instructions are received. This test is to be drilled to a depth of 3000 feet.

At the Rigging Up On Guitart. The Marland Oil Co. is rigging up Guitart No. 2 on the Guitart ranch, seven miles northwest of Big Spring and drilling operations are to be started shortly.

At the W. S. Martin No. 1. The test well on the Martin ranch has been going forward steadily on the W. S. Martin ranch, 12 miles northwest of Big Spring. It is now drilling below 2000 feet in a broken formation.

At the Haynes No. 1. The Marland Oil Company Haynes No. 1 is being drilled four miles northwest of Big Spring. It is now the test to our city. The well is now pounding away at a depth of 400 feet.

At the Quinn No. 1. The test well on the Quinn ranch, about 10 miles southwest of Big Spring and is being watched by the Marland Oil Co.

At the Edith K. Fisher 1. The Marland Oil Co. has replaced the standard rig with a rotary rig on the Edith K. Fisher test, about 10 miles southwest of Big Spring and is drilling past the 1400 foot mark.

At the E. and J. Fisher 1. The California Co. is getting ready to make a deep well on the ranch of Joe and Bertha Fisher. A 24 inch diameter casing of 16 inch casing has been installed and drilling is now being started. They are taking every precaution to prevent the well from caving in while drilling through the sand.

SLIGHTLY INJURED WHEN AUTOMOBILE OVERTURNS

Dr. L. E. Parmley and C. A. Long escaped with slight injuries when the automobile in which they were returning from Ackerly, overturned, about midway between that point and Big Spring, about 11 o'clock Wednesday night.

The accident was caused by a broken shaft on the steering gear. C. F. Hathway and J. O. Hughey happened along and assisted in righting the car, and after the broken rod was wired up they drove the auto into Big Spring, but at a rather modest gait. Mr. Long was driving the car when the accident took place.

W. W. CRENSHAW PREPARING BUILDING FOR OLDS AGENCY

W. W. Crenshaw is having the large garage, 50x100 feet, near his residence on East Fifth street remodeled and will make this the Oldsmobile headquarters in the future. A concrete floor has been completed and an attractive stucco front is being added.

In addition to maintaining a salesroom and service station for the Oldsmobile Mr. Crenshaw will sell gasoline and oils, tires, and auto accessories, and operate washing and greasing racks. He expects to have his new headquarters completed by Sept. 1.

found in the W. R. Settles field, but if not the well will be drilled to a depth of 3500 feet.

At the Smith Et Al Test

The Smith et al test on section 6, is showing oil above the bridge. A small shot was placed at 1320 feet last week. A star rig is replacing the rotary and cleaning out the well is to be started.

The rotary rig is being moved one mile east, to section 135 where another test well will be drilled.

At World Oil Co. McDowell No. 1

Drilling out a chunk of steel off the hailer has slowed up progress on the World Oil Co. McDowell No. 1, on the L. S. McDowell ranch, 20 miles south of Big Spring the past week.

Everything was moving along nicely the drill pounding away in a hard lime at 2980 feet when the hard luck befell this test. It is expected that an oil sand will be encountered before this well is drilled 300 feet deeper.

California Co. W. B. Currie No. 1

The California Co. is drilling below 1200 feet in the W. B. Currie No. 1, southeast of Big Spring. A brown shale which looked rather encouraging to oil men was encountered around 1100 feet.

Texon-Marland Settles No. 2

The Texon-Marland Settles No. 2 is now drilling below 1100 feet and is due to reach the level in which oil was encountered in Settles No. 1 in a very short time.

Humble and Magnolia Cut Price

Increasing production of crude oil in West Texas was reflected this week in crude oil price, cuts announced by Humble Oil & Refining Co. which is the principal buyer of oil in the territory affected.

The price cut announced affects Crane, Upton, Crockett and Pecos Counties in the Edwards Plateau and Trans-Pecos areas and Carson, Hutchinson and Wheeler Counties in the Panhandle.

Crane, Upton, Crockett and Pecos crude will command a flat price of 60 cents per barrel for oil regardless of grade. The major part of the production formerly brought 84 cents per barrel, so the cut of 24 cents is the heaviest cut the district has ever experienced.

In the Panhandle the Humble put a flat price of 75 cents per barrel on crude as compared with the former price of 95 cents.

The Magnolia Petroleum Co. followed the Humble in authorizing this cut in crude.

New Oil Company to Invade W Texas

Organization of a new oil company is planned by E. L. Doherty of Los Angeles, and his associates, for the development of leases in West Texas, to be known as the Pan-American Western Petroleum Co. of Texas. Additional acreage, proved and wildcat territory is to be developed. Drilling will be started as soon as necessary equipment can be placed on the ground.

Schools to Open September 12

Two-day Institute to be Held in Midland Prior to Opening of School in This City on September 12

The opening date of the city schools of Big Spring will be Monday, September 12, according to a statement from Supt. P. B. Bittle Monday morning. Details that could not be worked out to determine earlier the opening date have been cleared and everything is being put in readiness for the opening of the fall term.

It has been decided that teachers will attend a two-day institute to be held in Midland, Texas, on Thursday and Friday, September 8 and 9, prior to the opening on Monday, the 12. This institute will do away with the one usually held during the Christmas holidays and will meet with more favor from the teachers and other school officials.

The new state law requires teachers to attend a two day institute prior to the opening of school, for which they will be paid. The other three days of the institute will be conducted at the school and at a time set by the superintendent during the school session.

The institute will be held at the Midland high school conducted by W. W. Lackey, superintendent of Midland schools. Prominent educators from all over the state will have parts on the program, namely: S. M. N. Marrs, state superintendent of public instruction; Dr. P. W. Horn, president of Texas Tech; Hon. J. D. Green, president of the State Teachers Association and others. Members of the Big Spring faculty will also fill parts on the program.

County institute will be held at some later date, possibly in November.

ENGINEER GIVES VIEWS ON RECKLESS DRIVERS

At the meeting at the courthouse, Wednesday, Ed Merrill, T. & P. engineer, made a fine talk on "What Fools These Mortals Be," when they get behind the steering wheel of an automobile, and he admitted he knew no way to cure them except force the manufacturers to sell only slow speed motors.

At railroad crossings the reckless drivers take chances every day that no sane man can afford to take. At the crossing at Abilene he has seen them almost run over the flagman who was trying to stop them and protect them when a train was approaching. The pity of it is that their lives are needlessly sacrificed because of the craze for speed. Most of these folks are not going anywhere in particular, yet they act as if it were a life and death case to beat the train to a crossing. He said he knew of a case where a driver raced a T. & P. train for 38 miles and then tried to beat the train to a crossing only to be killed for his foolhardiness.

This craze for speed seems to make folks lose their reason. They do not seem to value their life nor the lives on those in the car with them. He said it would take a wiser man than him to solve the problem of how to make folks be careful when driving an auto. He suggested an automobile signal device as a means of lessening accidents in Big Spring.

J. S. PERRY, EDITOR, DIES AT TEMPLE HOME

John Simeon Perry, 67, pioneer newspaper man, passed away at his home in Temple, Texas, at 6 o'clock Sunday evening, August 14, after a critical illness of several months. Funeral services were held the following Monday afternoon with burial in the Temple cemetery.

Mr. Perry was a former editor of the Big Spring Herald, having served in this capacity from October 1, 1926 until the early part of April this year, when he returned to his old home at Temple. He has been actively engaged in the journalistic field about forty years, was well known among Texas editors, and was held high in his profession. While serving as editor of the Herald Mr. Perry made many friends in Big Spring who will be grieved to learn of his death.

Mrs. W. J. Garrett of Lubbock visited her mother, Mrs. Dora Roberts in this city the past week-end.

Traffic Cops—To Be Or Not To Be?

Commissioners Court Hear Arguments "Pro and Con" Saturday and Again on Wednesday

There have been so many rumors going the rounds as to what the traffic cops were doing, or were not doing, everyone adding a little to it while passing the rumor along until it was thought best that a general meeting be called so that every citizen who desired to express his opinion on the proposition might do so.

At the meeting Saturday afternoon only those who were in favor of retaining Traffic Cops were in evidence so Judge Debenport set Wednesday, Aug. 24 for the general meeting and 1:30 o'clock the hour.

Nearly one hundred citizens and the traffic officers were present when Judge Debenport called the meeting to order in the county court room. In order that all should be calm and serene, Com. Rosser had asked the officers to park their side arms in the sheriff's office. Ray Wilcox went a step further and suggested that the officers be requested to absent themselves from the room so that those who had complaints to register against said officers would feel free to voice them and the judge requested the officers to remain in the sheriff's office until they were called.

Commissioner Sneed made a brief talk in which he stated the position of the court and requested all to feel free to voice their sentiments on the matter.

It was a rather friendly meeting, everyone taking the attitude that the other fellow had a right to his opinion and no one favored throwing down the bars and running things wide open.

Those who favored a modification of the traffic regulations did so because they really and truly believed that Big Spring was being black balled and discriminated against by tourists and oil men because of the activities of the traffic officers. In most instances they were basing their complaints more on hearsay evidence than on facts. Only one affidavit was placed in evidence by an oil supply man who believed he was unjustly arrested. Other letters and affidavits said to have been received were not produced because the man who had them in charge was out of the city.

Among those who spoke in favor of trying to be a little more lenient with tourists and oil men, if their only offense is speeding when the road is clear, most everyone was in favor of law enforcement. Everyone of them admitted that the traffic regulations in the city limits ought to be more rigidly enforced because traffic is much heavier and there is more danger of accidents. In favor of some change, but not in favor of dispensing with the officers entirely was the general sentiment. Among the speakers favoring some steps being taken to keep Big Spring and Howard County from getting a black eye were S. R. Weaver, Harry Lester, Ray Wilcox, T. S. Currie, and others.

Among those who spoke in favor of strict enforcement of the law and the protection of the lives of our people against reckless and drunken drivers were A. G. Hall, Rev. D. H. Heard, Rev. W. C. Hinds, M. W. Harwell, and others.

Judge H. R. Debenport discussed the proposition at length and stated the court was trying to do the proper thing and protect the citizenship against the class of crooks that follow the real oil men and prey on them and the citizenship. He said it meant more that we keep these law breakers away from our county than that the business interests lose a few customers. He said there was not a citizen who would favor a loosening of restrictions so that our community might win the reputation of being a wide open town such as Borger used to be. He said the traffic officers were not hounding tourists and oil men as a list of the violators would show a greater percentage of Howard County folks. He stated that until the court could be convinced that the citizenship was not in favor of law enforcement it was quite likely that the traffic officers would be retained.

A letter was read from one of the

CHARLIE BYNUM IN CRITICAL CONDITION

A deplorable tragedy was enacted in our city about 8:30 o'clock Monday night, as a result of which Charlie Bynum is at the hospital in a critical condition, due to a knife wound in his left lung, and his brother in law, Reece Hildreth, is under a \$2000 bond to answer to a charge of assault with attempt to murder.

Charlie and Rye Bynum and Reece Hildreth had been riding around in an automobile together and the supposition is that they had been drinking.

The trouble took place near the intersection of East Tenth and Nolan streets, where their automobile had been parked. Residents of the neighborhood were attracted to the scene by cries for help, and they found Charlie Bynum lying on the ground and bleeding profusely from a deep gash near the heart. He was moved to the hospital at once.

Hildreth sought the officers shortly after the trouble to surrender.

"THE MAN'S STORE" TO OPEN AT NOON TODAY (FRIDAY)

"The Man's Store," located in the Ellis building on East Second street, Big Spring's newest establishment for men, will have its formal opening today at noon. All of the new fixtures for the store have arrived, have been installed and the shop is ready for business.

Elmo Washburn is proprietor of the Man's Store, and he is catering to the needs of the public. Elmo is well informed on the newest fashions for men and boys and he has stocked his store with the latest things out. Elmo is experienced in buying for men and selling to men and he knows what they want and has it for them. An attractive line of silk hosiery for ladies is also kept in stock.

A cordial invitation is extended the general public to attend the opening.

NEW DUPLEX APARTMENT UNDER CONSTRUCTION

Mr. and Mrs. Chas. Ruhrop have let the contract to G. O. Foley for the erection of a handsome duplex apartment at the corner of East Sixth and Runnels street and work was started this week. This building will be 30x56 feet, will contain eight rooms and be equipped with every modern convenience.

MORE FINE BUILDINGS FOR BIG SPRING

Two more handsome brick buildings are being planned for our city. W. R. King recently purchased a lot 75x100 feet at the corner of East Third and Johnson streets where he will have a two story brick building erected. Mr. King is owner of the King Chevrolet Co. and the building will be used as the home of the Chevrolet.

Jim Allen is planning on having a two story brick building erected at the corner of East Third and Runnels streets. Plans and specifications for this building are now being prepared.

JOHN MCKINNON INJURED

John, the four year old son of Mr. and Mrs. Smith McKinnon who live on a farm south of Big Spring, is reported to be getting along nicely from injuries received in a fall last Saturday. John was preparing his bath and in some way slipped and fell, causing him to bruise his back painfully.

FREE INSTRUCTION FOR THE MEXICAN CHILDREN

Beginning Tuesday, Sept. 6 Mrs. Lucas will open a class for Mexican children, kindergarten and primary. Free instruction will be given the children in English. The classes will be held in the Mexican Church. Mexican parents are urged to send their children to this school.

state highway commissioners complaining the commissioners of Howard County for employing traffic officers and he stated other counties were being urged to do so. It was decided at a later meeting of the court that the services of one of the traffic officers be dispensed with.

Luncheon Club Enjoys Big Feed

Talks on Important Propositions, Accept Invitation to Attend Meeting of Commissioners Court

An especially fine feed was enjoyed by members of the Wednesday Luncheon Club before tackling the business of the day. No set program had been arranged and before the meeting closed, the traffic cop proposition, as usual, started the spirited discussion.

E. A. Kelley was first called upon to tell something of the increased business on the Texas & Pacific Ry. as indicated by the re-icing of carload shipments of perishable products at Big Spring.

Mr. Kelley stated that officials of the Texas & Pacific planned to increase the handling of perishable goods from 50 to 250 cars per day when the ballasting of the line west was completed and more power secured and special inspectors were sent to California. It was finally agreed that the season's run would average about 100 cars per day and this proved an accurate estimate. E. A. Kelley convinced the inspectors that the Southern Ice & Utilities plant in Big Spring would be able to re-ice 250 cars per day and did in fact make improvements which will enable them to re-ice 400 cars per day if necessary.

The re-icing program has been carried out in a most satisfactory way and to the entire satisfaction of railway officials, the refrigeration officials and the owners of the perishable products. So satisfactory has the shipments been handled this year, it is certain the business is to increase from year to year.

T. S. Currie made a plea for the citizenship to back up the Municipal Band. The donations seem to have shrunk from \$125 to \$90 a month and more money must be raised if the band is to have a competent instructor. The committee consisting of Mr. Currie, T. E. Jordan and J. B. Pickle were requested to make another canvas to secure additional funds.

J. F. Wolcott made a plea for the Cemetery Association and asked all present to donate a little monthly to keep the organization operative. He said it would be impossible to pay a sexton at Mt. Olive cemetery if Big Spring folks didn't come forward.

S. R. Weaver read a communication from County Judge H. R. Debenport extending an invitation to the members of the Wednesday Luncheon club to attend a meeting at the courthouse at 1:30 p. m. Wednesday at which time the proposition of taking the traffic cops off the highway would be discussed. A motion prevailed that all present attend the meeting.

Mr. Rosser, county commissioner, made a brief talk in which he explained the object of the meeting and extended every citizen an invitation to attend as the members of the Commissioners Court desired to hear both sides of the proposition.

Various phases of the traffic cop discussion were discussed by B. Reagan, C. W. Cunningham, S. R. Weaver, Bernard Fisher, Harry Lester and others.

Several in their talks made it plain that the secretary of the Chamber of Commerce was not to be censured for the part he has taken any more than any other business man who has tried to prevent Big Spring getting too much hurtful notoriety.

The following resolution submitted by President J. B. Pickle, was adopted:

"In order that the public may know the position of the Wednesday Luncheon club with reference to the employment of the traffic cops and of their activities, and because our position as individuals and as citizens has been misunderstood by some, and, we fear, misrepresented by others, we desire to make this public statement in the form of the following resolution:

"Be it resolved by the Wednesday Luncheon Club that we favor now and have at all times favored and advocated the enforcement of all laws, and any statement to the contrary by any person or persons, is either made ignorantly or maliciously."

(Continued on page 8, sec. 1)

QUESTION BOX

ON HEALTH subjects Edited by
STATE DEPARTMENT of

HEALTH
J. C. Anderson, M.D. State H.O.

THIS column will be given to discussion of matters pertaining to public health. Any questions regarding public health administration, prevention of diseases, child care, sanitation, etc., will be answered in succeeding issues of this paper. Questions in regard to curable diseases will not be answered as the scope of this Department includes only disease prevention. Address Question Box, State Department of Health, Austin.

QUESTIONS

1. My little boy does not like milk. How can I overcome this dislike? (Mrs. J. B. M., Bay City)
2. How can cancer be prevented? (J. D., Belton)
3. Which has the highest death rate in Texas, heart disease or tuberculosis? (Mrs. X, Henderson)
4. I have 3 children, and I find that none of them are registered. We had a physician at each of these times and paid his fee promptly. As registration of births is part of a physician's duty, would I not have been justified in withholding such fees until my babies were registered? (Mrs. B)
5. What foods are recommended for fat people? (Anxious)
6. If smallpox can be prevented, why do we hear of so many cases scattered over the state and country?
7. Should a baby be allowed to suck a pacifier? (Mother)
8. Why is it that some children will take a communicable disease when exposed to it, and others will not? (Mrs. L. Plano.)

ANSWERS

1. A dislike for milk is often acquired by children through having been given at some time, milk of bad odor or taste. It is the natural thing for a child to like milk, and the first time the child refuses to drink his glass of milk, the mother should immediately find out the reason. The milk may be of bad quality, and if so, the child shows good sense in not liking it. If this is the reason, be sure that the next milk given him is of good quality, as if he once gets it fixed in his mind that he doesn't like milk he will thereafter refuse any that is given him. Children are great imitators and often refuse milk because some other member of the family doesn't drink it. Every child should drink a quart of milk every day.
2. There is no known prevention of cancer, such as used in the prevention of smallpox, diphtheria, and some other diseases. Cancer is usually a disease of middle and late life, and this is one of the reasons why a person should have a health examination once each year after reaching this age. Cancer may be cured in the early stages, but in advanced stages, it becomes a more difficult problem.
3. More people died in Texas last year of heart disease than of any other disease.
4. The mothers of Texas can assist materially in putting this state in the registration area of the United States, if they will call their physicians and insist that their children be registered.
5. Eat freely of cabbage, lettuce, tomatoes, onions, turnips, greens, carrots, and other filling foods. Eat sparingly of meat, eggs, bread, cereals, and other foods made from grain and grain products. Eat no desserts and no sweets of any kind. Extreme dieting is not recommended for reducing overweight, as the body becomes undernourished, and disease resistance diminishes. Proper physical exercise is the correct method of getting rid of excess fat.
6. The reason that smallpox exists at all is because people refuse to be vaccinated. In Germany, vaccination is compulsory at birth and again in early youth. During the last 10 years, there has been less than 40 cases of smallpox reported in that country, and these were mostly tourists.
7. Mothers long ago learned that a baby should not be permitted to suck its thumb, but many have yet to learn that a pacifier is also harmful to the welfare of the child. A pacifier alters the shape of a baby's mouth, helps cause adenoids and protruding teeth, as well as causing digestive trouble.
8. Not everybody takes communicable diseases who are exposed to

them. The disease resistance agencies of the body may be able to conquer disease germs entering the system, and in this case, one escapes infection. One may also obtain immunity from certain diseases by vaccination and other methods.

PICTURE OF J. B. D. BOYDSTUN APPEARS IN STAR-TELEGRAM

The exact likeness of J. B. D. Boydston, probably the oldest citizen of Howard County appeared in the Monday issue of the Fort Worth Star-Telegram. Heading the picture was the title, "Active at 90," and following is the story accompanying the photo:

Do you think when you get to be 90 that you will have enough "pep" to climb a flight of stairs? That is what J. B. D. Boydston of Big Spring did the other day. He made the ascent for the sole purpose of having the above picture taken. Boydston is a real West Texas pioneer. He has lived in Howard County 46 years. In the yesteryears he gathered from the pasture and sold more than \$5,000 worth of buffalo bones. He was for 20 years district surveyor of 11 West Texas counties, and was the first cotton farmer of Howard County, growing his first crop in 1885. He hauled it to Sweetwater, 75 miles, to a gin. In 1887 Boydston received commendation from the congressional committee that was on a fruit inspection tour going through Texas and California, selecting climate and soil suitable for fruit growing. He had the first orchard in West Texas, and at that time had more than 30 acres in fruit. Boydston walks to town two or three times each day. He lives approximately one mile from the business section of the city.

J. E. Price returned last Friday night from a business trip to Dallas.

"RESURRECTION" NOT A BIBLICAL STORY

Widely read as Leo Tolstoy's classic novel, "Resurrection," has been in the past thirty years, Edwin Carewe, director and co-producer with Inspiration Pictures of the picture which will be shown at the R. and R. Lyric theater on Monday and Tuesday, August 29 and 30, discovered innumerable film fans in rural districts and even in bigger cities of America who believed any film or novel entitled "Resurrection" must be a tale of the Christ. Carewe wrote more than three thousand letters in reply to filmgoers who queried him while he was directing Rod La Rocque and Dolores del Rio in the film, made in California. To each he explained that "Resurrection" is not a religious story, not a biblical tale—and that Leo Tolstoy's flesh-and-blood drama makes splendid reading in any language.

Carewe said that "Resurrection" is simply a very human study of hard souls under the lash of selfish passions, and of great sacrifice to which a higher, cleaner love of man for woman and woman for man lifted prince and peasant.

Rod La Rocque, in the role of Prince Dmitri Nekhludof, very nearly plays three characters in one, giving the changes that take place in the soul of the Prince and their reflection in his physical appearance. As the dashing, impulsive young Prince who declares his love for the peasant girl, Katusha Maslova, he is as boyish and innocently carefree as an undergraduate off the campus. Sketching cinematically the transition to the sophisticated, almost-savage courtier of a few months later, La Rocque is another man, a devil-may-care type to whom nothing is sacred, for whom the whole perspective of life is changed. Finally, as the lover, a fine, upstanding and worthy Prince whose soul has been purged in the fires of understanding love, La Rocque reaches the peak.

The star is perfectly balanced by Dolores del Rio as the young peasant girl who bears the brunt of the Prince's sin. A finished performance by this versatile senora in the famous part of Katusha Maslova proves

her dramatic ability and smashes home to the audience the true meaning of unselfish love. Somehow, one does not hesitate to hazard the belief that this is the finest work of Mias del Rio seen to date.

The acting is uniformly intelligent and highly entertaining, with veterans like Marc McDermott, Vera Lewis, Lucy Beaumont, Clarissa Selwynne and Eve Southern in the cast.

VISITS CARLSBAD CAVERN

G. T. Page, George W. Page, Henry Erman and family of Fort Smith, Ark., returned last Wednesday from a visit to the Carlsbad Cavern. They, too, say the wonders of the cavern are indescribable. Two hundred and fifty visited the cavern the day they went through it, with representatives from ten different states in the party. Five hundred visitors were at the cavern the day before this party went through it.

A. B. Winslow and son, Guy, returned Monday from a business trip to Dallas.

ATTEND BIRTHDAY PARTY IN STANTON WEDNESDAY

W. R. Purser, son of Mr. and Mrs. Bev Purser of Stanton celebrated his fifth birthday anniversary with a delightful party at his home in Stanton Wednesday afternoon. Quite a few folks from Big Spring attended this happy affair, namely: Mrs. D. Purser and children J. W. and D. Purser, Mrs. Erskine Jones, Misses Marie and Elizabeth Vick, Mrs. Don Griffice and son Charles Wayne, and Mrs. Jim Hayley and children May Della and J. C. They report a delightful time.

WILL ATTEND WASHINGTON U.

Dick Collins left Thursday morning for Lamesa where he joined Buck Bailey head coach of the University of Washington, and will accompany him to Seattle where he will attend the Washington University this fall. Dick will enter training for football this fall. Buck Bailey, the coach, is a friend of Alfred Collins, they having played professional football together in California.

LEANS ARE "QUITTERS" CONTEND THE FATS

The big argument is not over. The Fats are quoting two lines of the famous poem which runs as follows: "It is not whether you won or lost, But how did you play the game." And they are quoting it often and with a vengeance! The Leans insist that the write-up of the game published last week does not tote fair with the game as it was.

The facts really are as follows, according to the Fats. The umpire, Bob Oakley, forfeited the game 9 to 0 in favor of the Fats when the Leans, like little boys, got mad and would not play any more. And remember this was at the first half of the fifth inning. This means that the Leans had five "bats" and the Fats had only four "bats." The Leans were not willing to quit on even terms but took this advantage when ahead to get all peevish about a foul ball. The umpires stand ready to make an affidavit to the above facts. In the language of Andy Gump the Fats are saying "right is right." "It is the principle of the thing." There are no finer men than the Fats. They do not like to be involved in a scandal like the one that has just happened. Each one of the Fats is memorizing Kipling's famous poem called "IF." A few lines of that poem run something like this:

"If you can keep your head when all about you
Are losing theirs and blaming it on you;
If you can meet with Triumph and Disaster,
And treat those two imposters just the same,
If you can bear to hear the truth you've spoken
Twisted by knaves to make a trap for fools...
...You'll be a man, my son!"

The Fats, to show they are in the right and will stay in the right, regardless of the crooked Leans give out the following: The Fats challenge the Leans to another game—letting the Leans pick the umpires, the time and place. The Fats agree to play out the entire game (they are no quitters) and furthermore the Fats agree to abide by the decisions of the umps. All on the understanding to "accept no quarters and grant none." It is now up to the Leans to "put up" or "shut up."

NATHAN LEADS DAVID TO REPENTANCE

LESSON TEXT—II Sam. 11:1, 12:13.
GOLDEN TEXT—A broken and contrite heart, O God, thou wilt not despise.

PRIMARY TOPIC—God Shows David His Sin.
JUNIOR TOPIC—Nathan Calls David to Repentance.

INTERMEDIATE AND SENIOR TOPIC—Confessing and Forsaking Sin.
YOUNG PEOPLE AND ADULT TOPIC—Repentance: What It Is, and What It Does.

I. David's Crimes (II Sam. 11).

1. Adultery (vv. 1-5).

He by his kingly authority brought Bathsheba, the beautiful wife of Uriah, one of his brave soldiers, into his harem.

2. Murder (vv. 14-15).

David sought to cover up his shameful act of adultery with Bathsheba by calling Uriah from the field of battle and giving him a furlough at home with his wife. (He first gave him honorable recognition by sending a portion of meat from the royal table—v. 8.) Uriah's high sense of military duty and propriety would not allow him to do this.

Failing in this, David corrupted him by making him drunk, with the expectation that Uriah would thus go home. When these schemes would not work he resorted to the terrible crime of exposing Uriah to the most dangerous place in the battle where he would surely be killed.

II. Contributing Factors in David's Fall.

1. Idleness (11:1).

It was the king's responsibility to go forth with his army to battle. David tarried at Jerusalem because of indolence or self-indulgence.

2. He looked upon a beautiful woman (11:2).

As he was lounging in idleness, this temptation was too great for him. He yielded to his lustful impulse and sent his servants to bring the woman to him. This action on the part of David is absolutely inexcusable. David had the power to turn from this sin and thus escape temptation.

III. David Rebuked by Nathan, the Prophet (12:1-12).

What David had done displeased the Lord (11:27). What he had done gratified his own carnal lust, but the serious thing is that it displeased the Lord. Because David was God's own, God could not let the matter rest. He therefore sent Nathan, His prophet, to him.

1. The parable of the ewe lamb (vv. 1-6).

Among the Jews it was customary to have pet lambs which were brought up with the children of the family and therefore regarded with tender affection. Nathan pictures before David a poor man whose sole possession consisted of one such lamb, and a rich neighbor when entertaining a guest had appropriated unto himself this lamb instead of drawing upon his numerous flock. This so aroused David's anger that he declared that the rich man should restore fourfold, and in addition forfeit his life. Nathan declared: "Thou art the man." In spite of David's awful sin, he had burning indignation against the wrongdoer.

2. Sentence of judgment (vv. 7-12).

Perhaps no history records an indictment so terrible as this one.

(1) He recounted unto David God's peculiar favor (vv. 7, 8).

God had taken him from the sheepcote and lifted him to the throne, made him king over all Israel. He had delivered him from Saul's murderous plots and he had inherited Saul's royal possessions.

(2) David's shameful treatment of God's law (v. 9).

He pointed out that he had violated both tables of the law by worshipping the God of passion and had practiced covetousness, robbery, lying and murder.

(3) The awful judgment pronounced (vv. 10-12).

The prophet declared that the sword should never depart from David's house. He had used the sword to slay Uriah. God in His retributive justice permitted the sword to remain in David's house.

IV. David's Confession (vv. 13-23).

The confession of sin was so real to David that he declared that it had been committed against God (Ps. 51:4). He now was made fully conscious of his broken condition. He realized what it meant to be without innocence. Though he confessed his sin as recorded in I Sam. 32 and God for gave him, he had to suffer its consequence. "Whoever a man soweth that shall he also reap."

The Coward

To die in order to avoid the pangs of poverty, love, or anything that is disagreeable is not the role of a brave man, but of a coward. For it is cowardice to shun the misfortunes and trials of life, not undergoing death because it is honorable, but to escape evil.—Aristotle.

Prayer, a Golden Key

Prayer is a golden key which should open the morning and lock up the evening.—Bishop Hopkins.

A RAILROAD FROM CORPUS CHRISTI TO PANHANDLE

It is certain a railroad is to be built from Corpus Christi to San Angelo. It is up to towns further north to get busy and have this line extended to the Plains section. It is now apparent that the Missouri Pacific system is anxious to keep a tight hold on the southernmost corner of Texas and is proposing an extension of the Abilene Southern to San Antonio. The Santa Fe and the Southern Pacific will also take a hand in the game when it is certain a line is going to be built from Corpus Christi to tap the oil fields, cotton fields and wheat fields of West Texas, the Plains and the Panhandle.

Big Spring should get in the game and be prepared to stay in, for the cities which are fortunate enough to get this new railroad are going to be well paid for their trouble.

ROAD HOGS

In Kansas truck and bus drivers who refuse to move over and let other motor vehicles pass them on the highways will be deprived of the privilege of driving, according to a warning just issued by the Kansas state highway commission.

Complaints have been coming into the commission office, telling of truck drivers who cling to the middle of the road and refuse to budge.—Albany News.

Bus and truck drivers in Texas should take a tip from this and play the game fair so it will not be necessary to invoke the law. The roads are for the benefit of all and no one should play hog because he has the heavier car.

ASTHMA ON THE RUN

At least a couple of million Americans will be directly interested in the announcement that asthma is destined soon to follow yellow fever and cholera into the limbo of forgotten ailments. Without being fatal to any great extent, asthma is the cause of infinite human misery. The news that it is about to be beaten is nothing but good.

While it may require several years before a definite cure is on the market, alleviation is possible today if the patient submits himself for examination by a competent specialist. The source of asthma attacks, we are told, is not the same with all individuals. To one the presence of a dog will cause acute suffering; to another, it is a cat; to a third, a particular weed. A medical bulletin says that one asthmatic who is afflicted by the presence of a dog has been known to feel distressed when the picture of a dog is brought to her attention.

The fact to bear in mind is that even today most asthmatics suffer considerably more than is necessary. If they have been "treated" for any length of time, they can be certain that their own particular difficulty has not been attacked with all the weapons medical science has at its command today.—Fort Worth Star-Telegram.

CITY MANAGER DISCUSSES WATER PROBLEM AT SWEETWATER

W. V. Montin, city manager of Big Spring, spent last Friday in Sweetwater the guest of L. J. Geer, district manager of the Texas Electric Service Co. While in Sweetwater Mr. Montin visited the city lakes and wells and also looked over the dam project under consideration there. Since Mr. Montin is a water engineer of authority, having had charge of several large projects prior to coming to this city, in Oklahoma and Arkansas, he could speak with authority on the possibilities of the dam project. He advised the Sweetwater people to go forward with this work.

Mr. Montin states that Sweetwater is developing rapidly into a city, and has progressive ideas that they are putting into action. Paving and many new public buildings are under construction there.

A RELIGION OF KINDNESS

"A religion of just being kind would be a pretty good religion—don't you think so? But a religion of kindness and useful effort is nearly a perfect religion. We used to think it was a man's belief concerning a dogma that would fix his place in eternity. This was because we believed that God was a grumpy, grouchy old gentleman, stupid, touchy, and dictatorial. A really good man would not damn you, even if you didn't like him; but a bad man would. As our ideas of God changed, we ourselves changed for the better. Or, as we thought better of ourselves we thought better of God. It will be character that locates our place in another world, just as it is our character that fixes our place here. We are weaving character every day, and the way to weave the best character is to be kind and to be useful.

"Think right, act right; it is what we think and do that makes us what we are."—Elbert Hubbard.

A New Car Built for American Use and Sold at an American Price

Open American roads—congested American streets—towering American hills—trails deep with American sand.

Oakland engineers had them all in mind when they designed the new All-American Six—when they gave it hurricane power and never-failing reliability—when they made it a car for the world to admire.

It's entirely new—new bodies—new chassis—new engine—and new low prices.

New bodies by Fisher—fashionably smart—longer, lower and reflecting the best American traditions of motor car beauty.

In the new chassis—new length and strength from a longer, deeper frame—new comfort and high-speed roadability from a longer wheelbase (117") and a lower center of gravity.

And the engine—the largest used in any car of Oakland's price! 212 cubic inches displacement—

78½ lb. crankshaft—bridge truss crankcase construction for rigidity.

Oil, air and gasoline filters, new vacuum-type crankcase ventilation and gasoline pump to the carburetor for economy and peak performance. Oakland's rubber-silencing principle and the Harmonic Balancer to eliminate vibration. Never before such an engine! Prove it yourself at the wheel.

All America is enthusing about the All-American Six. Come in today—and join the crowd!

**Former Roxana Men to
Engage in Oil Game**
D. H. Thornburg, assistant chief
geologist, and M. E. Croom, assistant
superintendent of the land depart-
ment of the Roxana, with headquar-
ters at Dallas, have resigned their
connections with that company and
henceforth are to operate independ-
ently. They expect to have an office
at San Angelo and perhaps one at
Dallas.—San Angelo Standard.

The Alleman & Bell No. 2 Shut Down
The Allsman & Bell riverbed No.
2 remains shut down at 1509 feet,
with the operators undetermined if
they will drill deeper. The contract
depth was 1500 feet. This test has
been watched closely by all the op-
erating companies in the Yates field
area by reason of determining a
northeastern marker for the field. It
is about two miles north of the riv-
erbed producer.—San Angelo Standard.

lously and without a full knowledge of the facts.

"What has been said in this organization about traffic cops and traffic law enforcement has been almost altogether a statement of facts and alleged facts, that has been called to our attention by those, especially persons who live outside Howard County, who have come in contact with the law, and such statements as we have heard lead us to believe that Howard County has acquired a lot of notoriety that will very materially hurt us in the eyes of the public, in fact we are convinced that we have already lost very much in a material way from the policy that has been pursued by those who have to do with the enforcement of the traffic laws.

"It is not for us to say whether the policy pursued is right or wrong, we leave that to the public and their officials. We are not attempting to dictate the policy to be pursued by any State, Federal or County officers. We have had to do with this matter only as we have considered that it effected the public welfare, and we feel that as citizens we have had, and still have this right.

"Furthermore, we wish to offer this proposition for the serious consideration of every citizen of Howard County and that is that if Howard County cannot afford two traffic cops and a County and Home Demonstration Agent at the same time, but can afford at least two of these officers, we would prefer to have the County Agent and Home Demonstration Agent, for we believe that our success in town and on the

farms very largely depends on the success of the farmers.

"We believe that a County Agent and Home Demonstration Agent would, if employed and actively engaged in their work, in Howard County, would make a more prosperous and contented citizenship, less inclined to violate any law. Such a policy, we believe, would look ahead to the conservation of the farms, the neglect and improvement of which, in very recent years has become alarming to everyone who thinks seriously and deeply about the welfare of our great country.

"We stand for a constructive program and invite all who believe in that policy to join us in our efforts."

PILES

By T. E. Jordan

XXIII No. 49

TEXAS HOPEFUL FOR NEW LINE TO GULF

Aug. 21.—Following the agreement from Austin that a new line had been granted to the Gulf Texas Railway Company by the State, and which, as stated in the report, plans to build a railway from San Angelo to San Antonio to connect with a lease line from Christl, business leaders here stated that the project is bright for the project of the Plains section of West Texas.

It is proposed that the line would run from San Angelo westward to the City over the Santa Fe's line, and then a stretch of about 100 miles would be covered by building from that point to Lamesa, and then to Slaton at Lamesa and Slaton where the Santa Fe's line would be reached.

Plains to Gulf Railway Development Association, recently organized at Tahoka, includes officials from several towns between Slaton and San Angelo. Carl E. Stagg, head of the Lamesa Chamber of Commerce, is president of the association. Slaton is represented by S. E. Etzges, member of the board of directors. Stagg is president of the Slaton Chamber of Commerce, and is a veteran in railroad matters. Other members of the body of the new association are leaders in this part of Texas who are of great value in advancing the interests of the Gulf-to-Gulf line. It is pointed out by members of the group that the idea of forming a link between this part of the state and the Gulf is very important, that it is needed and that the association organized at Tahoka is in the project very material. It predicts the move will attract attention of the larger railway companies now operating in Texas.

The various connections along the line can be formed, culminating in the building of a new line which would bring in the benefits to the Plains, according to universal expressions from the leaders. A direct approach to the Gulf would give advantages in the West Texas that have been known before, they contend. Incidentally, the construction of the line would be of marked importance to Slaton. This city would be provided with a second trunk line, the two traversing practically the whole of Texas in four directions, east, west, north and south. Slaton would quickly become an important railway point, and would justify, in a larger proportion her present position. "The Santa Fe Center of Texas." It is probable a passenger division would be created on the San Angelo stretch of the line and a new freight division would be organized. Slaton would be the center of these divisions, and the city would greatly enlarge its facilities already established.

Other cities along the route, such as Big Spring, Sterling City, Angelo, and of course, San Angelo and Corpus Christi, would reap the benefits from the completion of proposed connections. North Texas, points to Amarillo would be added advantages. All territory now served by the Santa Fe, the Slaton-Amarillo line, the Slaton-Crosbyton connection, and the Slaton-Sweetwater section would be furnished with a much shorter route to the Gulf ports and corresponding benefits would be realized in all these Plains cities and adjacent territories.

where subject is so much talked of. The Plains at this time as is the latest proposal of linking the Gulf with the Gulf seaboard by a new line. The belief appears to be general that no other line would furnish so logical a point of contact with the Plains as would the Santa Fe line. In fact, little is being given to any other line on account of the strongly apparent advantage in this connection, and the main line of the Santa Fe line, thus securing the shortest and meeting needs and connecting interests in the best possible manner.

It is pointed out by members of the group that the idea of forming a link between this part of the state and the Gulf is very important, that it is needed and that the association organized at Tahoka is in the project very material. It predicts the move will attract attention of the larger railway companies now operating in Texas.

PETE HEZLIP, 52, DIES OF INJURIES RECEIVED

Pete Hezlip, 52, passed away in this city about 9 o'clock last Thursday evening as a result of injuries received while at work with a crew of men with the Texas Electric Service Company near Odessa. Mr. Hezlip was brought to this city for medical attention and was given treatment for two fractured legs. He was injured internally and the injuries were of such nature that he could not recover.

The body was prepared for shipment by the Rix Undertaking Company and was taken to Lubbock Friday morning. Funeral services were held at the Rix chapel Saturday afternoon and the remains were laid to rest in the Lubbock cemetery.

Deceased is survived by his wife and several children of Lubbock.

\$700,000 IN TAX VALUATIONS

Tax valuations in Howard County were increased to \$6,500,000 for the present year, as compared with \$5,800,000 for 1926.

The boost in valuations is due mainly to oil development in our county.

NEW GIN AT ACKERLY

The new gin of A. D. Brown at Ackerly, Texas, is about completed. All new machinery of the latest improved design has been installed and this gin will do a splendid business the coming season.

LEARNING THE GAME OF GOLF

When asked how he made out on his first trial at the Big Spring golf links, Vic Mellinger replied that he made it in fifty.

"Fifty," ejaculated his friend, "that is really remarkable. J. F. Wolcott, B. B. Fox and others would envy you on that score. You'll surely be an enthusiast from now on."

"Yes," said Vic, condescendingly. "I'm going back tomorrow and try the second hole."

MARRIAGE LICENSES

Fred L. Martin and Miss Brydie Hazel Cowley of Lamesa, Texas, Aug. 21; Eckell M. Hughes and Jettie Digsby, Aug. 22.

IN SOCIETY

MISS LILLIAN BELL OF EL PASO BRIDGE HONOREE

Complimentary to her niece, Miss Lillian Bell of El Paso, Mrs. C. W. Cunningham gave two delightful parties the past week end, entertaining five tables of players on last Thursday afternoon and three tables of players Friday evening.

Late summer blossoms gave pretty adornment to the rooms of the lovely Cunningham home on Scurry street and in a setting of rare charm the tables were arranged for the play. In the series of interesting card games played Thursday afternoon high score award was presented to Mrs. Lee Rogers who received a box of bath powder. Miss Irene Knaus was consoled for making low score with a dainty bracelet. Guest prize was an incense burner and was presented to Miss Bell.

Dainty linen luncheon covers were spread at the tea hour and a delectable plate luncheon was served to Misses Irene Knaus, Dorothy Ellington, Frances Sullivan, Ruthe Miller, Clara Jones, Alice Dawes, Elza Jeanette Barnett, Lillie Mae Hayden, Zou Hardy, Jena Jordan, and Mesdames Ralph Rix, James Little, M. H. Bennett, Lee Rogers, Herbert Stanley, and Cline. Out of town guests were: Miss Lillian Bell of El Paso; Mrs. Wade Meadows of Abilene; Mrs. McCall Cary of New York City; Billie Nell Pirtle of Amarillo, and Miss Vivian LaJennesse of Ann Arbor, Mich.

Again on Friday evening, the Cunningham home was the scene of a gay hospitality honoring Miss Bell. Three tables of players contested in the games for high score honor and Miss Zou Hardy was winner among the young ladies; Milburn Barnett made high score among the men; Miss Donna Norton of Fort Worth made low score among the young ladies and Elmo Wasson for the men. A dainty plate luncheon, served at the close of the games was a pleasant aftermath to the play.

The guest list to this complimentary hospitality included: Misses Elza Jeanette Barnett, Donna Norton of Fort Worth, Helen Wolcott, Zou Hardy, Jena Jordan, and David Crockett, Blake Anderson, Elmo Wasson, Carroll Barnett, Robert Parks and Milburn Barnett.

BILLIE MERCER HAS THEATER PARTY ON HIS BIRTHDAY

In celebration of his seventh birthday anniversary Billie Mercer was host to a number of his friends on last Saturday afternoon entertaining with a theater party at the R. & R. Lyric. After a pleasant hour at the picture show the little folks were invited to the drug store where they were served ice cream.

Those enjoying this happy time with Billie were: Mary Jane and Margartie Reed, Virginia Hilliard, Jane Lee Hanna, and Tom Sherman.

The honoree was the recipient of many useful gifts from his little friends.

SWIMMING PARTY ENJOYED AT NEW POOL AT MIDLAND

A delightful outing of the past week end was the swimming party last Friday evening given at the new swimming pool at Midland. A group of young people from Big Spring motored to Midland where they enjoyed a delightful swim after which they attended the E. P. James Carnival, showing there. They report a delightful time.

Those attending the swimming party were: Misses Louise and Lillian Shive, Nell Davis, and Aline Crowley of Yoakum, and Pete Flannigan of Stanton, Buell Cardwell, Charles Sebaine and Tyree Hardy.

GEORGE GENTRY, HIGH SCHOOL MATH TEACHER IS MARRIED

Mr. and Mrs. George Gentry are expected to arrive the early part of September to make their home in this city during the coming school year. Mr. Gentry will again teach Math in the Big Spring High School. Mr. Gentry and Miss Coleman were married in Dallas last week and after a honeymoon trip they will come to Big Spring.

DELIGHTFUL BRIDGE PARTY GIVEN WEDNESDAY MORNING

One of the very loveliest summer hospitalities given this season was the one of Wednesday morning, when Misses Clara Jones and Alice Dawes delightfully entertained friends at bridge. Five tables of players were guests and contested in the interesting card games for the top score.

Gorgeous rose buds in a lovely silver vase gave adornment to the living room and colorful zennias in artistic arrangement adorned the dining room and in this pretty setting guests were received.

During the cool hours of the morning five games of bridge were enjoyed and when scores were compared Miss Donna Norton of Fort Worth was declared the winner of high score, and Mrs. Ralph Rix made low score. Miss Norton was presented with a handsome silver powder jar and Mrs. Rix was consoled with a lovely bottle of perfume.

Dainty linen luncheon covers were spread at the noon hour and an attractive plate luncheon consisting of combination salad, sandwiches, olives, potato chips, and frosted lime phosphate was served in a dainty way. Bud vases holding beautiful rosebuds centered each table during the refreshment time. Novelties were passed each guest for party favors.

The guest list to this delightful function included: Misses Helen Wolcott, Aubrey Phillips of Lubbock, Wanda True, Winona Taylor, Lucille True, Andree Walker, Lillian Shick, Virginia Whitney, Elizabeth Northington, Vallia True, Elza Jeanette Barnett, Donna Norton of Fort Worth, Lillie Mae Hayden, Jena Jordan, and Mesdames Ralph Rix, Owney Queen, Lee Rogers and Wolford Hardy.

A WEEK'S OUTING ON THE PECOS

Mr. and Mrs. J. J. Low and family of the Elbow community and Mr. and Mrs. A. J. Oliver and family of Luther with some of their friends spent last week on the Pecos river. During the week three different camps were made. Two days being spent near Grand Falls, two near Pecos and two near Arno. Each place afforded a little better grounds for fishing, swimming and diving.

The men were very successful in landing a number of nice fish. Fletcher McKinnon taught some of the party some new methods in the art of cooking them.

Mr. Oliver it seems was swimming leader. Refreshing plunges were enjoyed by all the party, and those who could not swim soon learned. All returned home with blistered shoulders and a few more freckles, but reporting a wonderful time.

Others who enjoyed this outing were: Misses Ethel and Irene Cotter, Messrs Fletcher McKinnon, Oscar Renshaw, Reuben, Douglas and Clifford Cotter, all of Elbow; Mr. and Mrs. Gist Gault and two children of Chalk; Arthur Foley and Miss Ben Adams of Lamesa; Miss Zella Wheat of Dallas, and Dug Stum of Winters.

ROYAL RECEPTION TO BE GIVEN COL. LINDBERGH AT ABILENE

When Colonel Charles A. Lindbergh arrives in Abilene on Monday, September 26 for his visit to West Texas, he will be officially greeted by a group of truly representative of West Texas and of the forces impelling the development of this section of the Southwest.

Big Spring will have a part in the ceremony Hon. R. D. Matthews mayor, and T. E. Jordan, editor of the Herald, have each been given an invitation to serve on the reception committee for this affair.

Mayor Matthews has been asked to designate some young lady of this community to serve on the reception committee. This feminine representative will be designated as the "Spirit of Big Spring" and together with sponsors from other West Texas towns, will, in addition to taking part in the official, welcome to be given the distinguished flier; be guests of honor at a number of elaborate social functions which will be arranged for them by Abilene people.

J. R. Canterbury sold to Ethel Canterbury lots 8, 9, and 10 in block 6 in Tennyson's addition.

Mr. and Mrs. J. S. Benson sold to Texas Electric Service Co., 40 acres of land.

REVIVALS AND SINGINGS BEING HELD IN COUNTY CHURCHES

C. C. Nance, Steve Baker, Truitt Thomas, Mr. and Mrs. John Marchbanks and daughter attended an all day singing at Valley View 30 miles southwest of Big Spring last Sunday. Singing there from 10 a. m. until 3 p. m., then driving across the country to Panther Draw where they joined W. R. Purser and others in another song service until late in the afternoon. These singers are carrying the gospel in song to the destitute places of this and adjoining counties where people have but little chance to hear the gospel. They sing somewhere every Sunday and almost every Sunday night. Wherever these people sing men and women are raised to higher planes of Christian living, the unsaved are touched and some are saved. They have a full house wherever they go and eternally alone can reveal the great blessing W. R. Purser and these singers are bringing to the world through the gospel in song.

The writer has just closed a meeting at Lomax resulting in 20 professions, 15 baptisms and organized a Baptist Church with some 50 charter members. We are now in a great revival at Panther Draw, had 20 professions at Sunday evening service. The meeting will continue through this week.

Rev. Sam J. Horton.

SAN ANTONIO CITY PRELECTS BIG DEVELOPMENT

Fred Glascock, enroute from Steamboat Springs, Colo., where he had been attending a theatrical school, to his home in San Antonio, was a visitor in Big Spring last Saturday. In addition to his work as a theatrical manager Mr. Glascock also plays the oil game and is interested in oil development in Howard County. The four Glascock brothers own valuable holdings between the Clay and Settles oil fields and if everything pans out as they anticipate they will drill in the neighborhood of twenty wells in Howard County.

Mr. Glascock plans to move his family here from San Antonio when the oil development gets on a going basis. He predicts a big development for the Howard County fields.

MRS. H. SPARENBERG KEEPS PLACE CLEAN AND ATTRACTIVE

In spite of her years Mrs. H. Sparenberg, pioneer resident of this city never feels too tired to work out in her yard and to keep up the clean and neat appearance of her home at 202 Runnels. Mrs. Sparenberg's yard is always filled with blossoming flowers as well as pretty shade trees and she keeps her place in trim, doing most of the work herself. This home place is outstanding because of its clean and neat appearance and because of the pretty flowers and trees, always found growing here.

No matter how much trash and rubbish shows on Mrs. Sparenberg's property she is careful to see that none of it stays there and keeps her alley equally as clean as her front yard.

If more of our citizens took pride in their home place as Mrs. Sparenberg does what a clean and attractive town Big Spring would be, and what a healthful place it would be to live in. Civic pride is one quality our citizens should cultivate, and Mrs. Sparenberg has set a good example of civic pride for us to follow.

BUILDING PERMITS AMOUNT TO \$149,815 DURING AUGUST

Building permits during the month of August amounted to approximately \$150,000, as recorded in the office of the City Secretary. Prior to this time the total of building permits granted amounted to only \$123,139, this amount dating back to April the first, when the first permit was granted.

The exact amount of building permits granted the first three weeks of August was \$149,815. Included in this amount was the building permit for the Crawford hotel and several brick residences.

BRICK VENER HOME

The work of converting the A. G. Hall residence on South Scurry street into a modern brick veneer residence was started this week. Cliff Talbot was awarded the contract for remodeling this home and the J. M. Morgan Construction Co. will do the brick work.

TAKING CARE OF THE FARM

Professor Todd, an eminent economist of England, on a recent trip to Texas made the statement that farming in our state was disgraceful. He made this charge after he learned the fields were producing less cotton every year. There is not a doubt but that his charges have weight.

Farmers are mising, instead of farming their lands. What happens to land when you crop it in cotton year after year is told in the story of root rot in the rich black land section. The farmers of West Texas are making the same mistake, and it is going to be but a few years until it will be necessary to use fertilizer on farms in our county if cotton is planted in the same soil year after year. Very few of our land owners never plan on planting a cover crop; going on the theory that the soil here is naturally rich, and will so continue no matter how it is mistreated.

You can't continually withdraw money from a bank unless you deposit money in the bank occasionally, nor can you continue to draw fertility from the soil without ruining your land, unless you rotate crops to add humus to your land. A good farm is worth taking care of. A farm that can be made to produce more cotton or more any other crop, to the acre, is the farm that will bring greater rewards to the owner.

You may have ready the story of the acre of diamonds—the factory that was properly cared for and operated on an efficient basis. Its the same with your farm. The soil must be built up by proper cultivation and rotation of crops if the farm is to be kept at its highest point of efficiency. Some men may tell you that they have planted cotton in the same field for twenty years and running without hurting the land but a check on the production of the field would prove otherwise.

You must take care of the farm if you expect the farm to take care of you.

Mrs. E. O. Ellington is visiting in Dallas this week. Margie Louise Hurt who has been visiting Mrs. Gordon Phillips here this summer, accompanied Mrs. Ellington as far as Baird, her home.

The Big Spring Herald

BY T. E. JORDAN

\$2.50 A YEAR OUTSIDE COUNTY
\$2.00 A YEAR IN COUNTY

Entered as second class matter at the Postoffice, Big Spring, Texas, under Act of Congress, May 8, 1897.

Big Spring, Friday, August 19, 1927

NOTICE TO THE PUBLIC: Any erroneous reflection up the character, standing or reputation of any person, firm, or corporation, which may appear in the columns of this paper, will be gladly corrected upon its being brought to attention of the editor.

Turning at the stake is too good for some long tongued gossipers who continually starting lies simply to arouse trouble and discord.

That railroad from Corpus Christi to San Angelo must be extended to tap the Plains section. Let's go after it.

A number of oil companies are going to have their district offices worn to a frazzle the way C. of C. secretaries keep moving them from one town to another by the hot air process.

"No corporation is so powerful or rich that it can afford to keep on its pay roll people who are continually stirring up the ill-will of the public against it." Corporations may get by with their hardboiled policy for a season but there's a pay day coming.

There is a rumor that an office building may be erected in Big Spring before a great while. Such a building is certainly needed and it should prove a good investment for those who put their money into the proposition.

Many other cities in West Texas are urging clean up campaigns in order to prevent a recurrence of small pox. In some places they are going to require school children to be vaccinated as a further prevention of the spread of this disease.

We understand a gasoline war, similar to the fights on at Colorado and other points, is scheduled for Big Spring in the very near future. Automobile owners will welcome this engagement as it will mean cheaper gasoline while it lasts.

The present generation may imagine it is getting a great deal out of life but in the end they will learn their mistake. Pleasure is the great object, but the sort of pleasures they are seeking and finding these days will eventually bring troubles and sorrows to those who have their fling.

Employing a rock crusher to provide material for the future paving program in our city may be the starting of a new industry in Big Spring. We have millions of tons of rocks right on the surface which can be crushed for road building purposes, ballasting railroad tracks, etc.

Just hoping Big Spring will double in population within the next few years is a mighty poor way of aiding in the promotion of this development. Yet many a property owner who hopes to benefit greatly as a result of increased values due to a growth of our city contribute nothing but hope to the cause.

It takes enthusiasm to put over any worthy proposition. If you can't interest enough folks your task is a failure from the start. In these days and times most folks seem solely interested in providing comforts and pleasures for A No. 1 and it is doubly difficult to interest them in community betterment.

If everyone would make an extra effort to pay their overdue debts and obligations, thereby enabling those who favored you to pay their creditors, we would have much better times in Howard County this fall and winter. If you keep your credit good you can always secure accommodations.

We have two opportunities to have gas piped to our city and should be able to make a deal with one of the two corporations. While the city commissioners are right in going into the matter of awarding a franchise thoroughly, they should not overlook a good bet should one of the corporations become over anxious to get in and make a specially attractive trade.

Master will continue to attend these airplane contests as long as they get in such a hurry to speed up the starting. Letting planes enter when they have not been properly tested is a crime. We have an example on the part of Dallas folks insisting that Bill Irwin start on his trip across the Pacific even though his plane was not in condition.

With a North and South railroad secured for Big Spring we could begin to talk of a real city. Such a railroad and a paved highway from Amarillo to Corpus Christi would put us on the map in box car letters.

Patching the Bankhead Highway helps somewhat, but placing another topping of chat and asphalt on the road before it goes to the bad would prove a big saving to the State. The patching is being done by one crew, and up to the present they have covered the distance from the east county line to Big Spring.

Most of us have the wrong jobs. We can look about us and see the other fellow doing his task dead wrong. Listen to the conversation of nine-tenths of us any day and you will hear us criticising the way the other fellow is handling the job. Yes, we can do most anything to hear us tell it.

There's one thing about the Big Spring bunch which will forever save us from the after effects of a boom, and this is because our folks are mighty conservative. With the oil prospects already in sight in our county most any other place would have gone hog wild in the belief that another Tulsa would result in fifteen minutes.

The makers of the present brand of bootleg booze all seem to have the same recipe and the stuff is guaranteed to cause a man to do anything, from making him act like a jackass to committing murder. In any daily paper any day you will find a revolting murder committed in some portion of the United States in which the murderer laid his crime to liquor.

A traffic cop on a highway, even though he never makes an arrest, is a good investment for his presence prevents law violation. The average person is not a law violator intentionally and folks will speed as long as the manufacturers put speed in the motors. Yet you can't turn them wild loose for even a sane man seems to lose a good deal of his judgment and common sense when he grabs the steering wheel of an automobile.

Every life is its own excuse for being, and to deny or refute the untrue things that are said of you is an error of judgment. All wrong recoils upon the doer, and the man who makes wrong statements about others is himself to be pitied, not the man he vilifies. It is better to be lied about than to lie. At the last no one can harm us but ourselves.—Elbert Hubbard.

The man who can keep pleasant when everything goes dead wrong is a bigger man than most of us, for we let every little thing worry us to death. The world certainly needs a whole pack of folks who can smile and keep a smiling.

"The old order changeth," and the merchant or others who fail to realize this are going to be left at the post. Folks are not going to continue to transact business as they did 20 and 30 years ago and you might just as well realize this and get in step.

Some of our farmers are going to try fighting the worms with other means than poisoning. Fastening arms to a cultivator and driving same down the cotton rows to agitate the stalks, and knock off the worms, is said to be giving satisfactory results in some fields. Keep in after them is the main point.

When towns begin to talk about parks and playgrounds, keep your eyes open and watch the progress those towns make. The town that is dead never cares whether it has a park or not. It does not care whether it improves or not. It is dead and does not mind one bit if its funeral is held in the middle of Main street on a day when other places are rushed with business. It is a hard task to bring a dead town to life. New blood in its veins is the only hope.—Higgins News.

EX-CATS BARNSTORMING TOUR

A team composed of ex-Fort Worth players will stage a barnstorming tour through West Texas immediately after the season closes. Ed Konetchy, former Cat first baseman, is now lining up games and requests any West Texas teams desiring to play the ex-Cats to get in touch with him.

Present day Cats may also take the road through West Texas and the two teams are not unwilling to meet, provided some fair desires to use the game as a feature.

On the ex-Cat team, managed by Konetchy, will be Koney himself, Clarence Kraft, Ziggy Sears, Cecil Combs, Stump Edington, Joe Pate, Bob Stow, George Bischoff, Dick Kerr, Art Phelan and several others.—First Worth Star-Telegram.

This team is scheduled to be in Big Spring Sept. 18 to meet the Big Spring T. & P. team.

ASKS FARMERS TO COOPERATE

Cooperation of all agricultural, commercial and industrial associations, bankers and others was asked by the Farmers' Marketing Association of America in its efforts to maintain a fair price for the 1927 cotton crop. With a minimum of 25c a pound, in resolutions adopted at a business session of the organization at the Baker Hotel Wednesday of last week. This meeting followed a general public cotton price conference held under auspices of the association Tuesday.—Dallas News.

WHAT COOPERATION BUILT THROUGHOUT THE U. S. A.

Neighborhoods grow into villages,
villages into towns, and towns into
cities as a result of cooperation,
which means people working to-
gether for a common purpose.

Lower Manhattan, that part of
New York City where Wall Street
deals its fabulous wealth, was laid
out by cows tramping paths across
the field. Cooperation has built
there the most magnificent sky-line
of brick and stone and steel that the
world affords.

In the last five years Miami, Fla.,
has jumped from a population of
29,000 to a city of population well
into the six figures. Circumstances,
you say, is the answer. But with-
out cooperation riding on the crest
of the wave, no community could
gather its forces and capitalize on
its resources in a manner as to mul-
tiply at such enormous rate.

A few decades ago Los Angeles
was a small Mexican pueblo, whose
principal industry was hides, whose
harbor was dreaded by sailors, and
whose brown hills and humming
birds created a drowsy atmosphere
for any self-appointed goddess who
dared to predict its glorious future.

These are but illustrations. Big
cities are taken because they afford
examples of cooperation in a big way.
They were all small once. Cooperation
built them all!—Stephenville
Tribune.

IN MEMORIAM

In memory of my dear husband,
J. A. Barnhill, who passed away
February 5.

How I miss him, no mortal tongue
can tell.

But God in His own wisdom, doeth
everything well.

You are gone precious one, never
more can I see your face.

You can sleep a peaceful sleep until
the resurrection morning, then be-
yond those veils of sorrow you will
wake from every care.

We will clasp glad hands once more
on that happy peaceful shore.

We shall meet in that home beyond
the skies, where there's no more sad
parting nor goodbyes.

His wife, Mrs. Parlina Barnhill.

Chet Miller returned Sunday from
Cisco where he had been working
in the American Railway Express Co.
the past month, relieving the ex-
press agent there who was on a vaca-
tion.

ANOTHER BUNCO GAME

If a lingerie salesman tries to
solicit an order at your home or
office, giving the address of a con-
cern located far away as that of his
employer, asks a deposit of half the
sale price and the balance, on deliv-
ery, think twice before accepting his
offer.

The Better Business Commission
of a nearby city has been exposing
this fraud and the get-rich-quick
boys may be coming this way. Don't
let your name be appended to their
sucker list. If the concern is legiti-
mate the salesman will be able to
show ample proof as to his honesty
and the merit of his proposition. If
he cannot, show him the door pronto!
—Scurry County Times (Snyder).

A NOTE FROM A READER

Big Spring Herald:

Dear Sir: I am proud to see so
many news items and so appropriate
general make up of your paper. My
wife and I are visiting our son in
law and his family, M. S. Warren of
the Richland community. Our home
is at Lamesa with our son in law,
A. H. Merrick. My wife is an in-
valid with rheumatism and has not
walked in eight years. Crops in this
settlement look good and only a few
insects are working. We have just
returned from Clyde, Texas, where
we stayed six weeks with our daugh-
ter, Mrs. T. J. Hollingshead. The
crops there are suffering from the
hot dry weather, and will not be so
good this year. We are glad to see
this cool spell. I believe after all
the farmers will come out O. K. this
fall. G. T. Howell.

Sam Miller, who has been in ill
health the past several months, suf-
fering from rheumatism was able to
resume his work at the Nall and
Lamar feed and fuel yard last week.
Mr. Miller recently bought one acre
of land and a three room house, just
out of town on the highway.

SHOULD LEAVE LIGHTS BURNING

Following the deplorable accident
west of the city Saturday night
which cost the life of a man, it
seems to the Tribune an opportune
time to call attention of motorists to
the importance of letting their lights
burn while on the highway. If it
happens that you are compelled to
stop along the highway, leave your
lights burning. From what we are
able to gather this fatal accident was
in a large measure due to an un-
lighted car being stopped on the
highway. It is always advisable to
put your lights on dim while stopped
and make sure that the tail light is
burning.—Farewell State Line Tri-
bune.

Mr. and Mrs. B. F. Robbins left
last week for a two weeks stay in
Corpus Christi, San Antonio and
Austin. Mr. Robbins was called to
Los Angeles, Calif., by the death of
his brother and he left for that
place. Mrs. Robbins remained at
Corpus Christi.

for Economical Transportation

World's Lowest Ton-Mile Cost

Tens of thousands of users have learned by
actual comparison that Chevrolet provides
the lowest ton-mile cost* in the history of
the commercial car industry!

This matchless economy is due to advanced
modern design . . . extremely low opera-
tion and maintenance costs . . . excep-
tionally slow depreciation . . . and the most
amazing price ever placed on a modern,
gear-shift truck—a combination of economy
features found in no other commercial car
in the world.

Whether you operate one or many trucks,
*Ton-mile cost is the cost of transporting a ton of
material one mile—or its equivalent.

come to our salesroom and learn for your-
self how Chevrolet is designed and built to
save you money. Go over the chassis, unit
by unit. Note the advanced, modern engi-
neering—typified by a powerful valve-in-
head motor, with three-speed transmission
and sturdy single-plate disc-clutch. Mark
the rugged, quality construction through-
out; heavy channel steel frame—massive
banjo-type rear axle—long, extra-leaved,
heavy steel springs, set parallel to the frame.

Then, go for a trial load demonstration—and
see how perfectly Chevrolet meets your own
haulage requirements!

Any number of jobs—electricity does them
if you'll let it. Which means dependable
appliances as well as adequate wiring in your
home. We're here to advise you on how to
get the most out of electrical energy as well
as to supply it.

"Your Electric Servant"

TEXAS ELECTRIC SERVICE COMPANY

**WHAT'S DOING
IN
WEST TEXAS**
By
West Texas Chamber Commerce

Loraine — The people of Loraine have organized into a Citizens League the purpose of which is to promote upbuilding of Loraine and the surrounding country. C. E. Green is president and Alonzo Phillips secretary. Meetings are to be held semi-monthly. The League will affiliate with the West Texas Chamber of Commerce.

McCamey — The McCamey Chamber of Commerce is working upon a membership drive. Though the movement has not been completed, already 80 new members have been added to the roll. There are more than 250 paying members in the organization at this time.

Wichita Falls — The nationally known Kraft Cheese Company will establish a large cheese factory at Wichita Falls. Contract with the concern was effected through efforts of J. A. Kemp and other workers for the "City That Faith Built."

Trent — Despite decrease in business at the oil field and usual inactivity of this section, Trent is continuing to grow, and is preparing to take care of a big business this fall. Several business buildings and residences are undergoing improvements or are under construction.

Wellington — Elaborate plans are underway for entertainment of Panhandle-North Plains delegates who will attend the district convention of the West Texas Chamber of Commerce here August 25. A number of prominent speakers have been obtained, and an interesting agricultural program provided.

Slaton — The sixth monthly luncheon of the Slaton Chamber of Commerce was staged this week, and proved to be one of the most enthusiastic held this year. The program was in charge of the industrial committee of the organization and brought to light many phases of industrial development in this section.

DeLeon — A record purchase of fourteen carloads of fine Hereford and other pedigreed stock of cattle has been made in the DeLeon territory within the last thirty days. The purchase indicates a part of the movement here toward greater diversification.

Sweetwater — Sweetwater's handsome \$200,000 Municipal Auditorium has been formally opened. The Sweetwater Gold Medal Band, official music makers for the West Texas Chamber of Commerce this year, played at the opening program and has been given an official headquarters in the building where it will hold practice hours Wednesday nights of every week.

Graham — Major Turner E. Camp has been officially installed as secretary of the Graham Chamber of Commerce and has started work on a program of progress for this place.

Ballinger — Twenty-five blocks of new paving have been ordered by the City Commission here. Work on this project will start within thirty days. A cost of \$75,000 is represented by this movement.

Bowie — The Oak Grove Hatchery has opened for business in this city. The hatchery will do a regular commercial hatching business. A number of electric incubators having a capacity of 6,000 eggs have been installed already, and larger units and incubators are to be added later.

White Deer — Contract has been let for three blocks of brick paving. A white way system is to be installed as soon as the paving program will warrant the same.

Lamesa — The new Lamesa National Bank has opened up and a good business has been resumed.

Oscar Wise, a merchant at Moran, says he is doing a pretty good business selling bacon, butter, eggs and condensed milk to some of the farmers in the Moran trade territory. But he has also said that he would have a whale of a lot better business if these same farmers would raise these farm products themselves so they would have money to buy other things instead of just being able to have a few necessities. Yes! Sir! It's hard to get along on the farm when you don't raise your own vegetables, milk, butter, eggs and meat. That is one advantage a farmer has over other folks that he should make use of by all means. — Albany News.

Jack Tyler who is working for A. P. Kasch Plumbing and Electrical Shop at Odessa, spent Sunday in this city visiting his sister, Miss Katie Tyler. Jack stated that things are certainly booming in that prosperous little oil city.

THE STATE OF TEXAS
To the Sheriff or any Constable of
Howard County—Greeting:

You are hereby commanded to summon E. L. Hand by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Howard County, Texas, to be holden at the Court house thereof, in Big Spring, on the first Monday in September, A. D. 1927, same being the 5th day of September, 1927, then and there to answer a petition filed in said Court on the 30th day of July A. D. 1927, in suit numbered 1113 on the docket of said court, wherein Temp S. Currie is plaintiff and Florence Black Hand; E. L. Hand; Hubert Black; Grace Wingo and her husband, Joe Wingo; Tommie Joe Black; J. D. Black and The State National Bank of Big Spring are defendants and, also, to answer the answer and cross action of said The State National Bank of Big Spring filed in said Court on 30th day of July, 1927, praying for judgment against its co-defendants, Mrs. Florence Black Hand; E. L. Hand; Hubert Black; Grace Wingo and her husband, Joe Wingo.

Plaintiff's suit is for judgment establishing his debt for the amount of principal, interest and attorney's fees represented in notes numbered six to ten, inclusive, each for \$500.00, of the series of ten notes dated January 2, 1923, executed by T. A. Black, payable to said plaintiff, those declared on herein on or before six to ten years, respectively, after date, each bearing interest from date until maturity at the rate of 8 per cent per annum, the interest payable annually; each stipulating that said note and all past due interest to bear interest at the rate of 10 per cent per annum; for accelerated maturity for failure to pay any note or installment of interest when due and for the usual 10 per cent attorney's fees, if placed in the hands of attorney for collection, if collected by legal proceedings or through Probate Court. \$3,510.00 of the note number one, which was for \$4,000.00, transferred to the Federal Land Bank of Houston, Texas, balance of said note and numbers two to five, inclusive, having been paid off and discharged, and by reason default in payment of the annual interest due January 2, 1925, 1926, and 1927, respectively, plaintiff has elected to declare all of said notes due and payable and, also, prays for foreclosure of vendor's lien retained in deed by him to T. A. Black to secure payment of said notes on the South 1-2 and North-East 1-4 of Section No. 7, Block No. 33, Twp. 1-North, Cert. No. 1925, T. & P. Ry. Co. survey, comprising 480 acres, in Howard County, Texas, but subject to deed of trust in favor of the Federal Land Bank of Houston, Texas, securing payment of note originally for the sum of \$3,800.00.

Plaintiff, also, alleges that defendants failed to pay the semi-annual interest and amortization installment maturing on first day of March, 1927, amounting to \$123.50, and that he was forced to pay same in order to prevent foreclosure proceedings by said bank and to protect plaintiff's lien and that said installment, with lien securing its payment, was transferred by said

Federal Land Bank to plaintiff. He asks for judgment for said sum, \$123.50, with interest at 8 per cent from March 1, 1927, with foreclosure of lien securing payment of same.

Plaintiff makes The State National Bank of Big Spring party to suit for the reason that said bank holds deed of trust on 3-4 interest in said parcels of land, but inferior to and subject to plaintiff's said vendor's lien.

He prays for order of sale; for application of proceeds of sale to costs of suit and payment of his debt, praying, also, for costs of suit and general and special relief.

Defendant The State National Bank of Big Spring alleges that on February 19, 1927, its co-defendants, Florence Black Hand; Grace Wingo and husband, Joe Wingo, and Hubert Black, executed to it note in the sum of \$2,871.00, payable on demand, with interest at 8 per cent per annum and for 10 per cent attorney's fees, if placed in hands of attorney for collection, or if suit is instituted thereon, or if collected through Probate Court, securing payment through deed of trust to T. S. Currie, Trustee, on 3-4 interest in the aforesaid parcels of land, and prays for judgment for its debt represented in said note and for foreclosure of its said deed of trust lien, subject to deed of trust in favor of the Federal Land Bank of Houston, Texas, and to plaintiff's vendor's lien.

It, also, alleges that defendants made default in payment of semi-annual installment number six maturing on 1st day of September, 1926, on loan by said bank to T. A. Black, payment of which was secured through deed of trust on the land above described and that this defendant paid said installment amounting to \$123.50, and prays for judgment for said sum, with interest from September 1, 1926, at 8 per cent per annum and for foreclosure of lien securing payment of said judgment. Reference is made to plaintiff's original petition and to original answer of defendant The State National Bank of Big Spring for fuller and more specific allegations by them, respectively.

Herein fail not but have before said Court, at its next regular term, this writ, with your return thereon showing how you have executed the same.

Given under my hand and seal of said Court, at office in Big Spring, Texas, on this 30th day of July A. D. 1927. 46-4t
(Seal) J. I. PRICHARD,
Clerk, District Court, Howard County, Texas.

Trying to stop speeding on the highways while permitting auto builders to manufacture cars capable of making from 60 to 90 miles an hour is as senseless as trying to stop the sale of beer and whiskey without prohibiting the operation of breweries and distilleries. What's the use of this race to make speedier cars when the law of most states in the union prohibit driving an auto faster than 35 miles per hour. Take the speed out of the motor and thousands of lives will be saved in the United States every year.

REVIVAL MEETING AT COMMUNITY CHAPEL BEGINS SUN.

Rev. W. M. S. Southerlon

A revival meeting will be held at the Community Chapel of the Church of God at the corner of Tenth and Main streets beginning Sunday, August 28, and services will be held each evening throughout the week. Rev. W. M. S. Southerlon will be in charge of the preaching services and you will learn after hearing one sermon that he is a real gospel preacher. He has some soul stirring and inspirational sermons to deliver and much good will be received from his messages. Mr. and Mrs. Fred Whitaker of this city will conduct the song services during this meeting, with Mrs. J. E. Davis, pianist. These Big Spring folks are well known and need no introduction nor recommendations as to their ability in this work. Services will begin each evening at 8:15 o'clock and following is a list of the sermons to be preached during the week:
 Monday night—"A Great Salvation."
 Tuesday night—"The Great Supper and Excuses."
 Wednesday night—"Preparedness."
 Thursday night—"The Immortal Soul."
 Friday night—"Will It Pay to Become a Christian."
 Saturday night—"The New Birth."
 Sunday night—"The Second Coming of Christ."
 A cordial invitation is extended everyone to come and help make these revival services soul-saving. A cordial welcome is extended all to attend each and every service.

YAQUI JOE WINS MATCH

Yaqui Joe had the Indian sing on Silvio Checco, army and navy welterweight champion, last Friday night and what he did to Checco was a plenty. A large crowd was out to witness this interesting match at the Miller Skating rink, just north of the city. Yaqui Joe was just too strong for Checco and he had to take some real punishment when Joe began to get up steam. After a series of flying mares which took all the pep out of Checco, Yaqui landed a body slam, and it was all over but the shouting. Checco was completely knocked out and the match had to be called off. The time required for this first fall was fifty-three minutes.

On account of being in splendid physical condition Checco quickly recovered—and after treatment and adjustment by Dr. Cox he states he is in perfect condition for his match here Friday night with Nick Karavas.

NATIONAL BANK
HIG SPRING, TEXAS

Two Amarillo firms paid \$3,675,000 the past year for dairy products to farmers in Amarillo's trade territory. That is the equivalent of 36,750 bales of cotton at \$100.00 per bale. The production of milk and butter for the market has become no mean business. The south plains section is just as well adapted to the production of these valuable commodities as the north plains, and there is no reason why this should not become, in time, one of the greatest dairy regions in Texas. — Lynn County News (Tahoka).

You attention is called to the fine showing of the State National Bank as per statement in this issue of the Herald.

**SILVIO CHECCO TO WRESTLE
BOSTON STRONG BOY HERE**

Nick Karavas, the Boston (Mass.) Strong Boy, was for four times the welterweight champion of the New England States, and is considered by both the press and public as being one of the toughest little fellows on the padded mat. Nick has a host of medals and cups that he won as an amateur, and since he entered the professional class has met and defeated the best of the boys in his class. He is as sly as a fox and as quick as a cat, and uses plenty of science. He has a variety of holds that gives the majority of the bone benders plenty of agony when he clamps on the pressure and his press book shows that most of his matches in the past year have been won by dangerous holds causing his opponents to pat the mat in order to gain relief from the torture that he inflicts. Nick is considered one of the strongest of the welterweights, and his "moniker" as the Boston Strong Boy was given him when he was in the amateur ranks, as most of his matches were won by his super strength. While some of the sporting editors say that Nick gained his strength from eating the famous "Boston Baked Beans," Nick has been on the Pacific Coast for the past several months and was very successful in the oil game as well as in the movies, playing opposite the great George Kotszonas, the man that rolled "Bull Montana" for his job in playing the ape man parts. Nick has acquired the "Hollywood" habit and is somewhat of a sheik. Since he entered Texas he has caused the wrestlers who hibernate in these woods plenty of grief. Karavas will meet Silvio Checco, the former Army and Navy champion in a finish wrestling match at Clyde Miller's skating rink arena Friday night, August 26 (tonight) in a finish wrestling match with no time lime under the ever popular Police Gazette rules, two best out of three falls. Silvio needs no introduction to the followers of the mat game in Big Spring as in his match with the sensational Indian wrestler Yaqui Joe he showed the stuff that champions are made of. Silvio had his injuries treated by Dr. Brittle Cox, who stated that he would be in tip-top shape to test out the Boston boy's strength.

EMERGENCY POISONING

As recommended by the United States Department of Agriculture, calcium arsenate should be applied to cotton at the rate of five to seven pounds per acre in each of three or four dustings four days apart. The department states that cotton to be dusted should promise at least one-half bale of lint per acre. If rain should fall within twenty-four hours after dusting, the field should be dusted again promptly. While it is best to dust during the evening when the air is calm and when there is dew on the plants, this is not absolutely necessary, since it has been found that there is usually sufficient but invisible moisture on the cotton plants to make the dust adhere. In emergencies daytime dusting when the air is calm can be resorted to. At a cost of 8c a pound for calcium arsenate, four dustings will cost about \$1.60 an acre at the rate of five pounds per acre, not counting labor and time. While grown bollworms can not be poisoned successfully with this method, the new brood of worms emerging from the eggs and crawling over the plants at random can be destroyed. The same dusting will control young bollworms, boll weevils and leafworm.—Dallas News.

Mr. and Mrs. J. Fred Phillips, and Mr. Phillips' father of Marlin returned Sunday night from a visit to the Carlsbad Cavern.

**WANTS TO SEE
NAMES FROM AIR**

Washington, Aug. 26.—Instructions have been issued by the aeronautics branch of the United States Department of Commerce for posting the names of cities on roofs of prominent buildings throughout the United States, with the announcement that it is the most immediately important aid to aviation. Preference should be given to tile, shingle, tin or other metal, or slate roofs, and the marking in chrome yellow with black background. If the roof has a slope of more than 30 degrees, the sign should be placed on both sides. The width of such letters as M or W should be two-thirds their height with other letters in proportion. The spacing should be one-fourth the height. The letters should not be less than six feet in height, preferably as large as possible, the department rules. Where gravel or pitch roofs offer the best location, the department says, wooden letters may be elevated above the roof or the sign may be painted on a dull black background, formed of wood raised on legs above the roof proper. The name of the city should be used with an arrow pointing in the direction of the airport. The department calls attention that it is of importance that the names be illuminated at night. Ordinary flood lights may be employed, the number depending upon the area to be illuminated, and the type of floodlight used.

**HOLDING MEETING
AT CENTER POINT**

The Rev. George McGraw, pastor of the Greenwood and Valley View Baptist Churches is holding a revival meeting at Center Point, out north of Big Spring.—Midland Reporter.

RETURN FROM NEW YORK

Mr. and Mrs. Victor Mellinger and children returned last Friday morning from New York. Vic has been in the New York markets buying fall and winter goods for the Grand Leader. Mrs. Mellinger and children had been in New York spending the summer with relatives and friends. They were all glad to get back to Big Spring.

**CITATION BY PUBLICATION
THE STATE OF TEXAS**

To the Sheriff or any Constable of Howard County.—Greeting: You are hereby commanded, That you summon, by making publication of this Citation in some newspaper in the County of Howard if there be a newspaper published therein, but if not, then in a newspaper published in the nearest County to said Howard County, for four consecutive weeks previous to the return day hereof, Cecil Wheeler, whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Howard at the Court House thereof, in Big Spring, Howard County, Texas, on the First Monday in September, 1927, 5th day, then and there to answer a Petition filed in said Court, on the 3rd day of August A. D., 1927, in a suit numbered on the Docket of said Court No. 1115, wherein W. E. Wheeler, is plaintiff and Cecil Wheeler, is defendant. The nature of the plaintiff's demand being as follows, to-wit: That Plaintiff is an actual bona fide inhabitant of the State of Texas, and has been for more than one year and an actual bona fide inhabitant of Howard County for more than six months next preceding the filing of this suit; that Plaintiff and defendant were married January 19th, 1911, and the marriage relation still exists; that at the time of the marriage the Defendant had three children, one girl and two boys; that Plaintiff loved them and educated them, and treated the defendant with love and kindness; but after the children were about grown Defendant became estranged and entered in upon a series of cruel treatment towards Plaintiff continuously

nagged and falsely accused him of improper relations with other women and together with their oldest son forcibly ejected him from his own house and ordered him to leave, and about the 15th of January, 1927, Plaintiff abandoned Defendant with the intentions of never living with him again; that her course and series of continuous nagging false accusation and forcible ejection constituted such cruelty as to render their living together further as insupportable. Plaintiff prays for judgment of divorce. Herein fall not, And have you before said Court, on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed the same. Given under my hand and seal of said Court, at office in Big Spring, Texas, this, the 3rd day of August, A. D. 1927. (Seal)
J. I. PRICHARD, Clerk.

Do Unto Others--

Paying your bills promptly is one good way to follow the Golden Rule.

In fairness to the professional man or merchants who have invested cash and time in the merchandise or service you have received--you should reciprocate the favor of credit by meeting your obligations in reasonable time.

In fairness to your own good name and reputation your account should be paid on time.

You are granted credit in accordance with your past record. Your character is the basis in which is placed confidence in your ability to pay.

DO YOUR PART. Pay your accounts promptly. If you can't pay all--pay half or whatever you can and see that your creditor knows that you are dealing fair.

THAT is one way we can add greatly to the good name of Big Spring and vicinity.

The best oil stoves are designed for women's convenience and comfort. Their cooking surface is 25 inches from the floor, just like a kitchen table. This makes bending or stooping totally unnecessary.

Veal Birds
 Try veal birds once, and you'll want to cook them often in the way suggested by Mrs. Kate Braw Vaughn, director home economics department, Los Angeles Evening Express.
 4 slices veal off loin cut thin (1 1/4 lbs.)
 Flour, salt and pepper to taste
 2 tablespoons bread crumbs
 Savory Dressing
 1 tablespoonful lemon juice
 1/2 onion
 2 tablespoons butter
 Brown well on one side. Dredge with flour, salt and pepper and put in the center of each a tablespoonful of bread crumbs seasoned with savory dressing and a few drops of lemon juice and onion (1/4).
 Bring the birds together as nearly in the shape of a bird as possible and tie with a strong string. Fry slowly until a golden brown in two tablespoons butter in a pudding pan. Then cover with 1/2 cup cream. Place in hot oven for 20 minutes (450° F.). Remove the cover from the vessel and allow to brown for seven minutes. The drippings in the pan may be used for gravy, if liked.

Ham and Raisin Sauce
 Ham with raisin sauce is delicious, and can be cooked in 50 minutes according to Mrs. Vaughn's recipe.
 1 slice ham (1 lb. 10 oz.)
 1 cup brown sugar
 2 tablespoons cornstarch
 1/2 cup water
 1/4 cup vinegar
 1/4 cup raisins
 Place slice of ham in oven 400 degrees F. in a small baking pan. Mix sugar, cornstarch in saucepan and add water and vinegar slowly, stirring until thick. Add raisins. Cook ham for 40 minutes, pour the raisin sauce over ham and continue to cook for 10 minutes longer.

Mildewed linens may be restored by wetting and soaping the spots. Then cover with finely powdered chalk and rub it in well.
 (Be sure to read next week's cooking column for more good recipes.)

CITATION BY PUBLICATION THE STATE OF TEXAS
 To the Sheriff or any Constable of Howard County—Greeting:
 You are hereby commanded, That you summon, by making Publication of this Citation in some newspaper published in the County of Howard if there be a newspaper published therein, but if not then in a newspaper published in the nearest County to said Howard County, for four consecutive weeks previous to the return day hereof, Ella West whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Howard at the Court House thereof, in Big Spring, Howard County, Texas, on the 5th day of September, the same being the first Monday in September A. D. 1927, then and there to answer a Petition filed in said Court, on the 9th day of August A. D. 1927, in a suit numbered on the Docket of said Court No. 1123, wherein E. H. West is plaintiff and Ella West is defendant. The nature of the plaintiff's demand being as follows, to-wit: Suit by plaintiff for divorce from defendant on the ground of Three years voluntarily abandonment by defendant from plaintiff.
 Herein fail not. And have you before said Court, on the said first day of the next term thereof, this writ, with your endorsement thereon, showing how you have executed the same.
 Given under my hand and seal of said Court, at office in Big Spring, Texas, this, the 10 day of August, A. D. 1927. (Seal)
 J. I. PRICHARD, Clerk.
 District Court, Howard Co., Texas.

SAVE THE COTTON
 The threat of insect damage to cotton in Texas is reported increased during the past few days. Prompt and thorough measures are urged upon farmers, and the necessity of cooperation and leadership is suggested to local business men in the cotton growing communities by experts who declare that the loss will be much greater than expected.
 The boll weevil and other insects which prey on cotton played an important part in cutting down the prospective size of the present cotton crop, and therefore, had a hand in raising prices. But it is another story if the pests carry their work further than is necessary. They already have saved farmers of the South from overproduction. But to cut the crop much more will mean loss instead of gain.
 Widespread and prompt use of poisons to kill the insects is advised. Farmers should have the cooperation of every interest. Cotton is still the lifeblood of business in the greater part of Texas.—Fort Worth Star-Telegram.

SWEETWATER AFTER PERMANENT WATER SUPPLY
 The City Commission of Sweetwater has called an election for September 19 at which time the citizens will vote on a \$750,000 bond issue for a permanent water supply.
 A combined lake and well water system is planned if the bond issue carries. A dam will be built across Butter creek to form an artificial lake and give the city an immense water supply.
 Mrs. W. G. Mims and son, Bobby of Big Spring, spent Monday and Tuesday, here, the guests of Mrs. Mims sister, Mrs. C. D. Jones. They were enroute home from Memphis, Tenn., where they visited Bobby's grandmother, Mrs. Laura Mills. —Baird Star.

MORAL HEROES
 Angel is an emotion in which few of us can afford to indulge even if it were not written that "anger roseth in the bosom of fools." Nine times out of ten it is the result of foolish or stupid pride. Righteous anger is as scarce as hen's teeth, and when we make this excuse our refuge for boiling over we are usually dodging the truth. "He that is slow to anger is better than the mighty and he that ruleth his own spirit is greater than he that taketh a city." The man who can stand up calmly in the knowledge that he is right and bear the brunt of misunderstanding and injustice is mightier than any general that ever won a battle. The man who can keep his mouth shut and his hands down when pelted with misrepresentation and calumny has it on Alexander or Napoleon. Self control is one of the rarest virtues of this or any age. "Having done all to stand" is real heroism.—The Battery Man.

J. H. Pritchett, representative of the Western Reciprocal Underwriters of Kansas City, Mo., was a business visitor here last Friday and Saturday.

Dreaded Aches, PAINS Disappeared
 "My health had been poor for ten years, before I took Cardui," says Mrs. Anna Cronin, of Rockport, Ind. "I was lifeless and 'no account'. I dragged around day after day, every move an effort, and never feeling the joy of being well."
 "At times, I had a dreadful ache across my back, and my sides hurt me. I worried along, sometimes hardly able to leave my bed, but the demands of a growing family had to be attended to; so I would get up, do what was absolutely necessary, and then lie down again."
 "One day, someone suggested Cardui to me. I took it for several months, and all the time I was growing stronger, and less nervous. My aches and pains finally disappeared."
 "That was two years ago. My improvement has been permanent. The good health, which followed the taking of Cardui, is still with me, so I do not hesitate to recommend it to my friends." —C-154

TAKE CARDUI
 Helps Women to Health

Bill Johnson was here last week from his home in Martin County, bringing his son here to be placed under treatment. The boy who has been suffering from an abscess in his side, is said to be getting along nicely.

Miss Donna Norton of Fort Worth arrived last Friday morning for a visit in this city with Miss Elsa Jeanette Barnett. Miss Norton and Miss Barnett were college friends at T. W. C.

Are you using the right oil?

YOUR car's life can be prolonged by using the right kind of oil. On the other hand, it will be materially shortened if you use the wrong kind. Conoco Motor Oil is made to meet specific requirements. For instance, there's one grade of Conoco Motor Oil made especially for your car. You'll find it listed on Conoco chart. Use the proper grade of Conoco and forget your lubrication worries.

**NOTICE TO BIDDERS
FOR SCHOOL DEPOSITORY**

Notice is hereby given that a depository for the funds of the Independent School District of Big Spring Texas, will be selected at the next regular meeting of the School Board to be held the latter part of August. All bids for the selection as depository must be in the hands of the President of the Board, or the Secretary of the Board, not later than 10:00 a. m., August 30th.

Dr. E. O. Ellington, President.
Mrs. Fox Stripling, Secretary.

G. Y. Wilson, that optimistic Scotchman of the Morris community, was in Big Spring Saturday from his ranch and reports that his section of the county is in pretty good condition. We have been knowing G. Y. ever since we came to this county and in all these years, even when it was the driest and things looked darkest, G. Y. could always see the silver lining. Regardless of how adverse conditions were he always came through alright. Mr. Wilson came to this country so long ago that he can't count the years but he has kept faith in the country and has made a success. Things that he told us a quarter of a century ago are coming true as time goes by. We only wish that we had more men in Howard County like G. Y. for it would indeed be a paradise to live with folks who could always see the bright side of things no matter how discouraging things seemed. A talk with this optimist just naturally makes one feel better.

Tourists from the East say it is indeed a pleasure to encounter Howard County's fine paved road twenty miles east of Big Spring. You surely do appreciate a good stretch of road after navigating more than one hundred miles of roads in the process of building or in poor repair.

Miss Katherine Homan left Wednesday morning for a visit to Niagara Falls, New York, Washington, D. C. and other noted eastern cities.

FLOWERS WIRED ANYWHERE

When you want flowers wired to other towns in your state or out of it, why not do this as other towns do...through your home florist? Not through agents who have a salary or good paying business. Your home florist is the only one in your town who does or can honestly hold a fixed florist directory, consequently the one through whom to get your flowers.

The Couch Floral Company is trying through this hot weather to keep flowers in season which is a very heavy loss. When out of flowers I can get them as quickly, a better grade, and cheaper than anyone.

Those who have never met the Golden Rule, I ask them kindly to form its pleasant acquaintance immediately.

MRS. DOVE A. COUCH
1206 Gregg St. Phone 323. 11

SALEM NOTES

Remember our Baptist revival starts Saturday night, August 27. Every one has a cordial invitation to attend.

Our farmers are quite busy this week poisoning worms and harvesting their feed.

Mrs. Harvey from Gatesville and her two sons one from Lockney and one from Abilene and his family were pleasant week-end visitors with Mr. and Mrs. W. H. Robinson.

Ford Coates has cotton ready to pick. Those who were fortunate enough in the spring to not get blowed out by the sand storm Mother's day are beginning to pick cotton.

Mr. and Mrs. W. C. Rogers and family spent Sunday with Mr. and Mrs. W. H. Forrest at Fairview.

Mr. and Mrs. S. L. Hull and family spent Tuesday with Mr. and Mrs. A. J. Wilson; also Mrs. Warren and Mrs. Sterling Echols of Coahoma, and Mrs. Clyde Hull and son of Dallas were pleasant afternoon callers.

The Literary Society was well attended Wednesday night. The Bishop brothers furnished some good string music and a real good program was well rendered.

On account of the revival that is to start at Salem it was voted to have our program the 24 and there will be no more programs until September 14 at which time we will render an old fashioned concert.

Mrs. W. H. Powell is reported to be able to be about her household duties.

Mr. and Mrs. Bernard Lay have moved to Coahoma where Mr. Lay has accepted a position with the Roberts Grocery company.

Miss Catherine and Isabell Lay of Coahoma attended B. Y. P. U. Sunday night at Salem.

Mr. and Mrs. Hubert Smith have as their guests his sister, Miss Smith.

Mrs. Clyde Hull and son who have been visiting relatives in our community returned to her home in Dallas Saturday night.

FOR HOME AND STABLE

The extraordinary Borosone treatment for flesh wounds, cuts, sores, galls, burns and scalds is just as effective in the stable as in the home. Horse flesh heals with remarkable speed under its powerful influence. The treatment is the same for animals as for humans. First wash out infectious germs with liquid Borosone, and the Borosone Powder completes the healing process. Prices (liquid) 30c, 60c and \$1.20. Powder 30c and 60c. Sold by

CUNNINGHAM & PHILIPS

Mr. and Mrs. Ford Coates were called to Snyder Sunday to attend the funeral of their uncle Claud Williamson.

Mr. and Mrs. Shirley Fryar and little daughter, Bettye Ray of Hi-way spent Saturday night with their brother and family Clarence Fryar.

Mr. and Mrs. Albert Edens entertained the Literary Society Friday night with a party and all report having a very pleasant time.

Reporter.

BETTER WATCH

REPAIR SERVICE
We are now running four repair benches and give you prompt and top-notch service. The entire shop electrically equipped. All this means a "Better Job for Less Money" Wilke's Jewelry and Optical Shop.

When we raise farm products which can be marketed every week through the year we will have a more prosperous community. This old idea of pinning all our faith on one crop is too risky. Sometimes the crop freezes out and sometimes it is produced at a loss. Bumper crops and high prices are rare birds these days and times.

Must have been a bunch of rich men or "nuts" on the Dallas grand jury which "no-billed" a wealthy youth who admitted stealing \$5,000 in bonds "to get a thrill." And yet they wonder why people are losing respect for law. The rich can do no wrong, seems to be the order of the day.

It Pays to Read Herald Want Ads.

Mrs. Da Sheila of Roscoe is in this city visiting her son Harold Da Shields and friends.

Hubert Glover of Dallas after spending a few days in this city with his family and with A. C. Walker and family returned to his home Thursday.

All kind of TRELLISES ready made and painted. Rockwell Bros. & Co. Phone 57.

Mrs. Hubert Glover and daughter and Miss Andree Walker left Friday morning for a visit to Colorado Springs and other points of interest in Colorado.

Misses Mattie and Spencer Leatherwood left Monday evening for a visit in Dallas. While there Miss Mattie will go through the clinic for physical examination.

Miss Sallie Buchanan arrived this week from Commerce where she has been attending summer school at the State Teachers College to spend the remainder of the summer in this city with her parents. Mr. and Mrs. W. B. Buchanan.

Star Parasite Remover

Given in water or food kills chickens and turkeys of intestinal worms, cures parasites, blood-sucking lice, mites, fleas, blue bugs; improves their health, reduces losses, increases egg production. Eggs hatch better with stronger young chicks or money back.
