## AROUND TOWN

Lights and Faces Seen

Several persons have attempted to poke fun at us for listing trips made by Roy Hastings before last. They know we made a blunder of some kind. The truth of the matter is, the list listed only half of his trips for the week because to mention all of them seemed, even to us, to be too much. Roy actually made separate trips during the week to Farwell, Lubbock, Dalhart, Friona, Canyon and to Amarillo twice.

One of Hereford's men who grew up here, out grew the town and pulled away, has returned to this his home and to find a place grown up, too, and many of his old friends scattered. He is Perry Wheeler, who came to Hereford from Blackwell, Oklahoma, to become parts manager at Ireland Motor Co.

Ralph Smith was the first to remind Perry of the home run he socked through a hole in the fence to give Amarillo a 13-inning victory over Hereford back in the good old days.

Attention has been called to the fact that for some time it has not been a traffic violation to make a "U" turn on Main street at Third. Perhaps most motorists didn't know that, or else it has caused them to go to second before turning. We always kept a close lookout for Newell Cox when making the turn there, and now find out that it is perfectly permissible.

Arnold Long is blaming everybody in town for scattering tracks along 25-Mile Avenue, especially in front of his house. The cause of his belligerent attitude seems to be the fact that he had no less than eight flats from Sunday morning until Tuesday night.

Bill Davis at the Hereford Poultry and Egg Company has acquired five cats during the last day two. Judging by his attitude toward the unknown contributor, is none too fond of the gift.

We understand that "Skell" is to keep his mouth shut from now on, even when visited by a fat and dumb person.

## Absentee Voting Ends August 19

Absentee voting, with its time set almost in half by the latest certification of state candidates, playing the printing of local ballots, will close on August 19, three days prior to the second primary election on August 22.

The second primary closes the political activities for the month for voters, but candidates will still have two assignments before they are through with the primaries. August 24 is the first day for filing expense statements for the second primary, and September 1 is the final day.

Mrs. S. E. Fisher of Lamesa is sitting in the W. F. Gillis home a few days before going on to the Centennial. Her two daughters, Melva and Mrs. N. W. Pruitt, are with her.

## 6-YEAR-OLD TRACTOR BRINGS BACK OLD DAYS

Remember way back when tractors split in the middle, and concrete covered wheels and 10 forward speeds, controlled by an electrical rheostat? Those days were recalled Saturday when a 6-year-old tractor was brought in by E. Hartman for repairs. It has been used frequently for the last 16 or 17 years.

It is about four feet wide and 18 feet long, with large wheels at rear and front, the latter centered with concrete from which run its short spokes. The front end turns when it's pulling a load, but when it runs alone, the rear ends turn around.

## Government Weather Station Placed Here

BROTHERS MEET HERE FOR FIRST TIME IN 27 YEARS

Brothers met for the first time in 27 years here last week end when R. O. Anthony of Miami, Arizona, came Friday for a short visit with his brother, W. B. Anthony, who resides in North Hereford. The last time they saw each other was when both attended the funeral of a sister in East Texas 27 years ago. R. O. has lived in Arizona for the last 15 years, and they just never got to visit one another.

## Court Disposes of 11 Non-Jury Cases In Week

JUDGMENTS RENDERED FOR PLAINTIFFS IN CIVIL CASES

Eleven non-jury cases were disposed of last week during the first week of the August term of the 69th District Court. The cases were tried before District Judge Reese Tatum. Three were divorce cases and eight civil cases.

Judgments were rendered favoring plaintiffs in each of the following cases: Panhandle Construction Co. vs. L. Dowell; John V. Farwell et al vs. James P. Wilson, Jr. et al; Frank F. Perry et al vs. W. C. Shaffer et al; Frank F. Perry et al vs. Claudice Sherrill et al; Frank F. Perry et al vs. J. H. White et al; George P. Turrentine et al vs. Besieie Werner et al; W. E. Dunlap vs. D. R. Humber, and Laura Murphy vs. J. L. Sharman et al.

Jury cases opened the second week of court. Jurymen called for the third week included W. S. Kerr, R. L. Dowell, D. O. Hendrick, R. J. McMurry, Henry Hellman, Noel Andrews, Troy Womble, W. A. Stanley, J. J. Clark, S. L. Harman, Lee Norman, J. A. Roe, Paul Mattoon, C. J. Cockrell, George Funk, R. P. Conway, A. J. Raiston, W. C. Nix, J. T. Gilbreath, R. A. Fullwood, L. A. Smith, C. W. Bennett, C. H. Hammer, R. M. Moore, O. K. Higgins, W. M. Mitchell, H. R. Seed, John Patton, Dow Mercer, J. T. Davis, George Stambaugh, Elmer Mathies, Lester Galley, E. C. Gatlin, E. H. Little and John Beufre.

## Stewart Placed On Drouth Body

Judge W. M. Stewart of Deaf Smith county has been named to a committee of seven county judges to draft resolutions of drought needs of Texas, to be presented Monday to the Presidential committee that will be in Amarillo to study drought needs of this section.

The meeting, called by the Amarillo Chamber of Commerce, was held at an Amarillo hotel Monday. It was attended by County Agent Alex Bateman, Judge Stewart and Commissioners Dick Allred and Wiley Robertson.

A request was drafted to President Roosevelt urging that Texas be included in the meeting of governors from drought states to study the emergency and that Governor Allred be invited to represent Texas. In a direct conversation with Governor Allred, he said he would be glad to represent Texas if he were invited, and that a large portion of Texas should be included in the drought area.

## COUNTY RECEIVES OVER MILLION IN PAYMENTS

Deaf Smith county has received \$1,125,268.40 in rental and benefit payments in the three years since the creation of the Agricultural Adjustment Administration. It has been announced by H. P. Drought, state director of the National Emergency Council.

TO KEEP DAILY RECORD FOR DEPARTMENT OF AGRICULTURE

Hereford is to have a Government cooperative weather bureau, stationed at the Brand office. The shelter for the delicate instruments that will register variations in the weather arrived last week end and has been mounted atop the Brand office. Thermometers and rain gauge are expected soon from the weather bureau at Houston.

The local station, the only one between Amarillo and Clovis, was secured through the cooperation of Congressman Marvin Jones after the Brand agreed to keep daily statistics for the Department of Agriculture. Several government rain gauges are located on the Soil Conservation project in Deaf Smith county and another is maintained at the First National Bank, and the West Texas Gas Company has a temperature recorder, but no daily records have been kept for government use.

The shelter, which was sent directly from Washington, D. C., is a "bird house" type structure with shuttered openings on all sides to expose the instruments to the weather. It is not known at the Brand office what type of instruments will be secured for the making of records, but they will be of standard type used by the Department of Agriculture, and will be within a very small fraction of perfect accuracy. The records will include maximum and minimum daily temperatures and the measurement of rainfall and snowfall throughout the year.

The Brand is delighted to have this opportunity to provide this service for its readers as well as for the Government, and extends its appreciation to Congressman Jones for his service in aiding the newspaper in securing the cooperative weather bureau.

## Public Hearing On 1937 County Budget Is Set

COMMISSIONERS TO HEAR DISCUSSIONS, IF ANY, ON AUGUST 24

A public hearing on the Deaf Smith county budget for 1937 has been set for Monday, August 24, in the commissioners court room at the court house, Judge W. M. Stewart has announced.

Estimated figures on the proposed 1937 budget as compared with estimates for this year are virtually unchanged. The estimated valuation of the 1936 tax roll is \$7,000,000, and the total county tax levy is 75 cents.

The estimated balance on January 1 has been set at \$7,000. Re-

## Scouts Will Reorganize This Month

TROOP 1 EXPECTED TO BE FUNCTIONING BY SEPTEMBER 1

Scouting will be renewed this month by Hereford Troop 1, sponsored by the Lions Club. Plans include renewing the troop's charter before its expiration date, August 31, and having the troop at full strength and functioning properly by September 1.

Rev. J. C. Thorns, pastor of the First Presbyterian church, will act as scoutmaster, with Adrian Odum, editor of the Brand, acting as his assistant. The troop committee is composed of B. N. Shepherd, Ray Conway and John McLean.

For the first time local scouts will have a club house of their own that will be worthy of the organization and provide space for their equipment, library and activities. The club house in the City Park has been turned over to the scout leaders for this purpose. It will be arranged, according to plans, to best meet the requirements of the group.

Considerable interest has been manifested among boys of scouting age, after a lay-off throughout the summer, when they could be getting the most out of their organization. All youngsters over 12 years of age who are interested in scouting should be making their plans now to respond to the first general call when it is issued next week. Scoutmaster Thorns will be out of the city this week, conducting a vacation Bible school at Silverton, but the movement will gain momentum immediately after his return this week-end.

## FAST STOCK TRAIN TO RUN TO OKLAHOMA CITY

The Santa Fe and Rock Island railroads have announced the inauguration of a new fast special stock train to Oklahoma City from Clovis, Slaton and Lubbock, and Pampa. The train will arrive in Hereford about noon and stock placed on the train will reach Oklahoma City at 7 o'clock the following morning. The Clovis-Hereford train will run Tuesdays, Thursdays and Saturdays.

Charles Hanson, general live stock agent of the Oklahoma City Junction Railway Company, and William Conway of the Rock Island lines, Amarillo, were here Wednesday in the interest of the proposed special stock train. The trains will arrive in Amarillo between 3 and 4:30 o'clock and converge into one train to Oklahoma City. Operation of the special is expected to start about the middle of September.

Mrs. Frances McCleendon spent the week end in Amarillo visiting relatives.

## Two Camps Placed Under Local Head

HEREFORD SOCS HAS ADMINISTRATION OF CCC UNITS

Administration of two Civilian Conservation Corps camps has been transferred from the regional SOCS offices at Amarillo to the local Soil Conservation Service. The addition of five members to the local staff to handle the excess work will be made by Civil Service examinations.

CCC camps at Lamesa and Littlefield were placed directly under the administration and technical supervision of O. T. Williams, head of the Hereford office. The change was made for the purpose of effecting erosion control measures in the work of the camps. In addition to setting the work in the same manner in which the local project is handled, all payrolls, supplies, etc. for the two camps will go through this office.

Nine conservation officials were here yesterday to effect the transfer. Six were from the regional office and three from the two camps involved. The camps were officially placed under the local office on July 28, but the actual transfer was not completed until yesterday.

It will be some time before the Civil Service secures additional employees, which will include four clerks and a stenographer, and

Collum has issued a call for training to start Monday, August 31. Equipment will be issued that morning. Training will start in the afternoon, and the boys will be sent through their paces twice daily during the first week. With the opening of school September 7, practice will be cut to once daily. All boys who wish to participate are urged to apply for equipment at the proper time.

Captain Wilbur Willett, all-region tackle, will head the squad. Clyde Posey, an end who probably will be shifted to the backfield; Jasper Vaughn, end; Sylvester Loerwald, who is likely to see much service at full or as a blocking back, and Louis Hagar, tackle who may be shifted to an end, are the lettermen returning. The others of last year's regional run-up are gone, taking away all backfield standbys. Posey, Loerwald and Paul Foster, a recruit, will be groomed to do the signal calling.

Among last year's squadmen and to build the team will be marked at first by inexperience. It will be light, but out of the 40-odd candidates McCollum hopes to evolve speed.

Hereford schools will open on Monday, September 7, the date set last spring for the opening of the 1936-37 term. School authorities have been assured by contractors that work at Central school will be sufficiently complete to permit the use of the main building, the east wing and all of the plumbing in the entire building. With that much of the building available for use, school can be opened with little disturbance or interference because of building operations, Superintendent C. H. Dillehay stated.

High school students may begin enrolling on Friday, August 14, at 10 o'clock. The office will be open practically every day thereafter from 10 until 12 o'clock and from 2 until 4 o'clock in the afternoon, except on Monday, August 17. Mr. Dillehay said that since these hours have been set for the accommodation of students, they will be expected to arrange to enroll at the time indicated. "Please do not ask to be enrolled before or after the hours named," he said, "for those who assist with the enrollment must have free time for other matters." Parents are cordially invited to accompany their children when they enroll.

Graduation Requirements. Subjects and units required for graduation are: English, four units; history, two or three units, including American History; chemistry or physics; one other science (for which agriculture or home economics may be substituted); first year algebra, plane geometry, and civics. Foreign language is not required here, but some colleges still require it for entrance. Other colleges may require two years of algebra, for instance. The student should plan to meet re-

## Recommends Dam For Frio Draw

A dam for the Frio Draw, near Friona, and another for the South Canadian River, north of Amarillo, will be recommended to the Texas Planning Board, according to W. W. Hamer, representative of the National Resources Board, who is inspecting this region.

Frio Draw is regarded as one of the most dangerous of the Panhandle's ordinarily dry streams, its waters often flooding wide areas and blocking traffic over Highway 90 into Eastern New Mexico. The Canadian is one of the principal, and most dangerous, tributaries of the Arkansas River.

"Water and soil conservation, flood control and recreation are the three objectives uppermost in our survey," Homer said, according to an Associated Press dispatch from Amarillo. "It should be understood we only recommend projects and they must be carried out by other agencies of government, local communities and states."

## Mercury Nears Summer's High

Temperatures pointed toward the season's highest mark during the first three days of this week, as the area was gripped by the heat wave that swept over the Southwest. Mounting from Sunday's high of 101 degrees, the wave reached maximum intensity Wednesday afternoon at 108, only one degree below the summer's high mark set on July 19.

The maximum was reached at 4 o'clock. Monday's and Tuesday's high was 104 degrees, reached at about the same time of day. Wednesday started toward the record mark early, the temperature passing the century figure at 11 a. m.—this despite the fact that from 5 until 8:30 o'clock the mercury stood at only 94.

J. D. Saunders left today for Amarillo where he will be employed with the Hearst paper.

# CAUGHT IN THE WILD

By ROBERT AMES BENNET

(Continued from last week.)

As the heap of fuel on the beach burst into flame he heard the girl's gasping murmur, close behind his shoulder: "It can't be a mistake? You're certain—certain that it's really—"  
 "A steamer," he replied.  
 "But what if they don't see us? It's night."  
 "Darker the better, if no fog. They can't miss seeing this fire." Garth turned to eye her in the glare of the upflaring fire. He looked at her worn moccasins

and lynskin leggings, at the crude spirit of moose-calf skin and the tattered upper part of the sports dress. He looked at the girl's dope-smearred face and the tight pigtail of the semi-bobbed hair that had once been so frozen in that modish permanent wave. His gray eyes twinkled in the firelight.  
 "Well, I'd say you're less a sight than when I first met you." Her eyes did not twinkle. They flashed. "You'll not have much longer to insult me!"  
 "I may if you don't fetch the blanket," he said. "A fire on the shore means nothing of itself. Just an Indian camp—John Buck and his quaw. We'll have to signal."

The word sent her bounding up the bank. She came flying back with the blanket. Garth ordered her to hold one corner. He took another. They stood in front of the fire, with the blanket stretched between them. Mr. Ramill called irritably from the top of the bank. What did they mean, waking him and taking away his bedding? Lillith cried out the glad news. Garth gave her a curt order to pay attention. At his commands, she began to stoop and rise in unison with him, lowering the blanket to the sand and jerking it up again in front of the fire, at regular intervals.

After some time he ordered a halt, with the blanket on the ground. He added an explanation: "Those were dots and dashes. We've given the SOS—and my name. They may not have made it out. That light is nearer, but it has not turned. Ready now. We'll repeat."

Above the low-hung star another star flashed on and off. Across the silent, glimmering flood of the river came the hoarse blasts of a steamer's whistle, muffled by distance, yet unmistakable.

"All right, Miss Ramill," Garth said. "Tell your maid to pack your luggage."

She asked in a low voice: "Haven't I tried to play up? It is sporting of you to mock me?"

Her face was shadowed. He could not see the look that went with the questions. After a moment, he answered soberly. "It is not, and you have. Permit me to apologize."

"Is that all?"  
 "What else?" he replied. "You are of course relieved and pleased to be rid of a man you so thoroughly hate. You may rest assured I will not intrude, once you're aboard ship."  
 "Yes," she murmured, "when Dad and I no longer have any need of you to—"  
 Her father came staggering down the bank and thrust in be-

tween them: "I say, Garth, don't lie. Is it true the steamer is putting in for us?"

Doubtful of a safe night landing at this unvisited beach, the steamed captain lay off-shore and sent in a canoe. Garth steadied Mr. Ramill into the birchbark. At the same time Lillith stepped in ahead of her father. She repeated the maneuver when the two Indian paddlers drove the canoe alongside the little river steamer. Garth saw no more of the girl until after the steamer tied up at Fort Simpson, the trading post at the mouth of the Liard river. Taken into a stateroom by the wife of a missionary from Fort Norman, she remained in complete seclusion.

Her father kept almost equally close to the skipper's own room. The canny Scot had welcomed the American millionaire to his bunk—for a consideration. The cabin was jammed with fur traders and Fort Norman oil-field officials, who were going outside for the winter. Garth messed and berthed forward with the crew.

When the building-topped bluff of Fort Simpson was sighted in the distance, Mr. Ramill left the cabin and came forward.

He stopped before Garth, bland-faced, shrewd-eyed.

"I've just heard, my boy, that you think of stopping off at this post. I trust it's not on account of any feeling against me or my daughter. You can't blame her for a bit of resentment. She's a woman, and you certainly put her through the mill. As for myself, I called it quits when you pulled me out of the hole this last time. What d'you say?"

He held out his now firm-muscled hand. Garth gave it a hearty grip.

"All accounts squared sir, and no hard feelings against either of you. Miss Ramill proved herself far more plucky and sporting than could have been expected. I wish you both bon voyage."

"But for you to be leaving the boat, my boy. There's no need of it. I can arrange for you to get into the cabin. In fact, I'd like the opportunity to talk over matters. We might still get together on those terms you offered."

"We might," Garth agreed, but then his smile hardened. "That side of the matter will have to wait. I shall first settle with your friend Hurxy."

S. J. R. No. 14.  
Proposing an amendment to the Constitution of the State of Texas as fixing the salaries of certain constitutional officers by amending Section 5 or Article 4 of the Constitution of the State of Texas fixing the salary of the Governor at Twelve Thousand (\$12,000.00) Dollars per annum; by amending Section 22 of Article 4 of the Constitution of the State of Texas fixing the salary of the Attorney General at Ten Thousand (\$10,000.00) Dollars per annum; by amending Section 23 of Article 4 of the Constitution of the State of Texas fixing the salary of the Comptroller, Treasurer and Commissioner of the General Land Office at Six Thousand (\$6,000.00) Dollars per annum; by amending Section 21 of Article 4 of the Constitution of the State of Texas fixing the salary of the Secretary of State at Six Thousand (\$6,000.00) Dollars per annum; providing for its submission to the voters of the State of Texas as required by the Constitution, and making an appropriation therefor.  
Be It Resolved By the Legislature of the State of Texas:  
Section 1. That Section 5 of Article 4 of the Constitution of the State of Texas be so amended as to hereafter read as follows:  
"Sec. 5. The Governor shall, at stated times, receive as compensation for his services an annual salary of Twelve Thousand (\$12,000.00) Dollars and no more, and shall have the use and occupation of the Governor's Mansion, fixtures and furniture; provided that the amendment shall not become effective until the third Tuesday in January, 1937."  
Section 2. That Section 22 of Article 4 of the Constitution of the State of Texas be so amended as to hereafter read as follows:  
"Sec. 22. The Attorney General shall hold office for two years and until his successor is duly qualified. He shall represent the State in all suits and pleas in the Supreme Court of the State in which the State may be a party, and shall especially inquire into the charter rights of all private corporations, and from time to time, in the name of the State, take such action on the courts as may be proper and necessary to prevent any private corporation from exercising any power or demanding or collecting any species of taxes, tolls, freight or wharfage not authorized by law. He shall, whenever sufficient cause exists, seek a judicial forfeiture of such charters, unless otherwise expressly directed by law, and give legal advice in writing to the Governor and other executive officers, when requested by them, and perform such other duties as may be required by law. He shall reside at the seat of government during his continuance in office. He shall receive for his services an annual salary of Ten Thousand (\$10,000.00) Dollars, and no more."  
Section 3. That Section 23 of Article 4 of the Constitution of the State of Texas, be amended so as to hereafter read as follows:

They and the Secretary of State shall not receive to their own use any fees, costs or perquisites of office. All fees that may be payable by law for any service performed by any officer specified in this Section, or in his office, shall be paid, when received, into the State Treasury."  
Section 4. That Section 21 of Article 4 of the Constitution of the State of Texas be so amended as to hereafter read as follows:  
"Sec. 21. There shall be a Secretary of State, who shall be appointed by the Governor, by and with the advice and consent of the Senate, and who shall continue in office during the term of service of the Governor. He shall authenticate the publication of

the laws, and keep a fair register of all official acts and proceedings of the Governor, and shall, when required, lay the same and all papers, minutes and vouchers relative thereto, before the Legislature, or either House thereof, and shall perform such other duties as may be required of him by law. He shall receive for his services an annual salary of Six Thousand (\$6,000.00) Dollars, and no more."  
Sec. 5. Said proposed Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at the next general election to be held throughout the State on the first Tuesday after the first Monday in November, 1936, at which election all voters favoring such proposed Amendment shall write or have printed on their ballots the words:

If it appears from the returns of said election that a majority of the votes cast are in favor of said Amendment, the same shall become a part of the State Constitution.  
Sec. 6. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution and Laws of this State.  
Sec. 7. The sum of Five Thousand (\$5,000.00) Dollars or so much thereof as may be necessary, is hereby appropriated out of the State Treasury to pay for the expenses of said publication and election.

### NOTICE TO PUBLIC

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation, which may appear in the columns of this paper, will be gladly corrected upon due notice of same being given to the editor personally at the office at 402 Main Street, Hereford, Texas.

### KNOWS HOW TO VOTE

Strange as it may seem to those who are familiar with the mysteries of the ballot, there are a few people in Deaf Smith county who evidently do not understand how they should go about making their ballot choices. This was indicated in the recent primary election.

A few ballots were incorrectly marked. Some placed a check mark beside the name of the candidate they wished to support. At least one person scratched only one name in each race, leaving in some instances as many as half a dozen unscratched candidates. Of course, these ballots could not be counted. However, in the latter case, when one name was scratched in a two-man race, it was evident from the remainder of the ballot that the person wished to vote for that candidate. But the election judges had no choice in the matter and were forced to award the vote to the other candidate.

Always clearly mark out those candidates to whom you are opposed, leaving untouched only those (one in each race) whom you wish to support.

### WHAT'S HAPPENED TO BUGABOO?

Election year. Mid-summer slump. Depression. They have lost their sting, so to speak, and business seems to have forgotten the bugaboo that election year is a poor money-making year.

August opened with general trade conditions throughout the country on an upward trend, reports the Department of Commerce. While the drought and extremely hot weather continued in some sections the effect on trade was not as pronounced as might have been expected. Building is at a high level, and food prices are about to move upward. Farm prices are bringing big revenue to those who did or are producing. The old bugaboo has been well avoided.

### SPEECH BECOMES MORE IMPORTANT

Something always seems to exceed in importance the actual qualifications of the man or platform upon which he stands while seeking public office. Now it is his voice. Because of the radio, it is necessary that the candidate be forceful in addressing unseen audiences so that he might better impress the voters.

Democrats and Republicans are waging quite a battle of words over the comparative effectiveness of Landon and Roosevelt over the airwaves. Landon is a poor speaker; Roosevelt is a past master. A Hearst editorial, in the New York Evening Journal, call the President a "crooner". The New York Herald-Tribune finds "the honey of the President's voice seems a little sticky and insincere". Landon's voice, however, is found by the Herald Tribune to have "the refreshment of a tin dipper of cool water . . . after so much rhetorical sweet champagne and essence of wormwood". And the Portland Oregonian finds it "as common as the Kansas soil. He might have been talking to a farmer at the fence".

Unfortunately for this "folksy" buildup, the Kansas City Journal-Post, a pro-Landon paper, reveals that it wasn't a farmer at the fence at all, but a coach in the stands at Topeka—a professional coach who had worked on Landon's voice for weeks, and who signaled him, not with a tin dipper but with a white hat, when he was talking too loud. The real significance about Roosevelt's eloquence is that when he speaks HE SPEAKS STRAIGHT FROM THE SHOULDER; WHEN HE SAYS SOMETHING HE MEANS IT—

And so, the voice of the candidates has become a political issue!

### NO PROVISION FOR DEFENDANTS

Because so many inquiries have been addressed to the regional office of the Social Security Board at San Antonio from mothers with dependent children, relatives and friends of crippled children and the blind, the unemployed and many who are in need but have not yet reached the age of 65, the following statement has been issued for their information:

Until Texas passes the necessary legislation and has its several plans approved by the Social Security Board, it is not possible for the blind, dependent children to receive Federal aid, and the unemployed to receive compensation provided for under the terms of the Social Security Act. Texas has qualified for old age assistance only, and those who are 65 and over who wish to make application for assistance under the Social Security Act should apply directly to Orville S. Carpenter, executive director, Texas Old Age Assistance Commission, at Austin, and not to the regional office.

# A LONG TIME AGO IN HEREFORD

(From The Hereford Brand, August 11, 1905.)

"Northwest Texas Press Association in Session in Hereford," said a big headline, and the story was stopped without further particulars.

Hereford friends were completely surprised by the wedding of Chas. B. Googer and Miss Mae Eagle.

Improvements in buildings and equipment were under way, and it was hoped the coming term would be the most successful in Hereford's history.

The Brand was printing a 24-page book for the Hereford schools, containing rules and regulations, course of study and other valuable information, and a copy was to be placed in the hands of each patron before the opening of school in September.

Large loads of lumber going out of Hereford daily testified to the progress of this region.

J. L. Fuqua, president of the Hereford National Bank,

had moved his family here from Amarillo.

(From The Hereford Brand, August 13, 1915.)

Amarillo was preparing for the Third Annual Panhandle State Fair, September 21-25. The cream of this exhibit was to be taken to Denver to the International Dry Farming Congress.

Mr. and Mrs. L. D. Shepard, living near Dimmitt, had been attacked by an angry bull, and the timely arrival of a neighbor with a loaded shotgun was all that saved them.

From 175 acres of wheat near Black, Jacob Bros. threshed 3,950 bushels. A yield of 24 bushels per acre was obtained from 100 acres of this tract.

Hereford school district had purchased the old Christian college building, and was to convert this property to use of the district as a high school building.

"John Fewelthorpe left this evening for Morganton to spend a short visit," reported

one paper, to which Judd Lewis, of the Houston Post, replied that John likely would visit in Houston, as he had seen several of his sisters on Houston streets quite frequently of late.

W. H. Russell and W. E. Dameron had formed a new law partnership.

Mrs. L. R. Brady has presented "Ye Editor" a basket of apples, plums, peaches and grapes, for which he was duly thankful.

The editor was grieving because the Wabash railroad, worth \$200,000,000, had been sold for only \$18,000,000 and he knew nothing about it until it was too late.

Mr. and Mrs. E. B. Posey moved the first of the week into the residence recently purchased from O. E. Thomas.

Somebody had lost a cow. Alex Thompson was county clerk, and vowed, in a legal way, that if the owner didn't show up and claim the critter he, or somebody, was going to sell 'er.

Prior to date she has been teaching public school music in the Vernon schools, but she plans to conduct a private class at Vernon this fall. She is one of the most talented musicians in the city, and her ability at the piano is recognized over a wide area.

quirements of the college he probably will attend. Prospective engineering students should take all the mathematics offered and also physics, Mr. Dillehay advised. Those weak in mathematics would probably do well to select another course or be prepared to put in extra time on mathematics and physics, he said.

First year algebra may be taken by those having two or more high school credits. Students who are weak in English should not take Spanish until their second year if they take it at all, he stated. Doubling in English, Mr. Dillehay said, is very unsatisfactory and will be permitted only in unusual cases where it is necessary for graduation. Those who are weak in English will certainly save time by taking only one English course each year.

**New Course Opened.**  
A new course in general mathematics will be offered this year in the eighth grade. It will consist of a full year of work for which one unit of credit will be offered. It is intended to bridge the gap between seventh grade arithmetic and algebra, and at the same time give an insight into the field of mathematics in general with special emphasis on the practical application of mathematics.

Students may take subjects only one year below their regular classification for credit. Senior girls may take second year home economics with the permission of the teacher concerned. Senior boys should not take agriculture unless the projects can be completed and records turned in in ample time for them to get their diplomas at the close of school. Four regular subjects constitute a normal load of work though either band or orchestra may be taken in addition, but both band and orchestra cannot be taken with four subjects unless the student has an average of "B" the preceding semester. No students will be permitted to take five subjects in addition to band or orchestra unless he be given special permission by vote of the faculty. Seniors who are candidates for scholarship honors must take three regular subjects each semester.

Subjects offered by grades are as follows: Eleventh grade, English 4, civics, public speaking, physics, commercial law. Tenth grade, English 3, American history, plane geometry, Chemistry, home economics 3, agriculture 3. Ninth grade, English 2, modern history, world history, Spanish 2, home economics 2, biology, algebra 1. Eighth grade, English 1, ancient history, Spanish 1, general science, home economics 1, agriculture 1, occupations-commercial arithmetic, general mathematics.

### Rest From Work Among Mexicans

Five Sisters of the Catholic Church are here for Retreat, which begins Saturday and lasts one week, during which time they will devote their thoughts to themselves, looking into their past, reviewing their work and also looking into the future for their own good. It is the only time during the year that is devoted to themselves, for during the remainder of the time they have a difficult task of educating and training.

They are from missions in Southern California, their headquarters in Lelona in San Joaquin Valley, where there are two settlements, one of whites and one of Mexicans. The Sisters give their time to spiritual and educational training of these people. The Mexicans are "drifters" and it is the duty of the Sisters to follow wherever the imaginations or desires of the Mexicans lead them. The Mexicans drift around, stopping at first one place and then another, working at anything on starvation wages, living in poverty and squalor.

The Sisters follow in their own cars and after the Mexicans make camp, they gather with different groups of children and young people, teaching and administering to the poor and sick. They have visited as many as 13 camps in one day. They have given up their own identity in order to render this service to a poor people.

Their visit here is their vacation and their revival meeting at which they consider themselves, for during the remainder of the year their entire attention is given to others. They will visit here until August 23.

**A JOINT RESOLUTION** proposing an Amendment to Article XVI of the Constitution of the State of Texas by striking out Section 20 thereof; providing for local option on the question of the sale of intoxicating liquors for beverage purposes; providing that spirituous liquors, or liquors composed in whole or in part of the products of distillation shall not be sold for private profit, except to the State; providing that the Legislature shall pass laws relative to the sale, possession, transportation and manufacture of such spirituous liquors; providing for the establishment of State dispensaries; providing for the manufacture, sale, transportation, and possession of all liquors which are exclusively products of the fermentation process; providing that intoxicating liquors shall not be manufactured, sold, bartered, or exchanged for beverage purposes in any county or political subdivision wherein the sale of intoxicating liquors had been prohibited by local option elections held under the laws in force at the time of the taking effect of Section 20, Article XVI of the Constitution of the State of Texas, until a majority of the qualified voters of such county or political subdivision shall determine such to be lawful at an election held for that purpose; providing for an election on the question of the adoption or rejection of such amendment and making an appropriation therefor; providing for the proclamation and publication thereof; and prescribing the form of ballot.

Be It Resolved By the Legislature of the State of Texas:

Section 1. That Article XVI of the Constitution of the State of Texas be amended by striking out Section 20 thereof and substituting in lieu thereof the following:

"Article XVI, Section 20:

"(a) It is hereby declared to be the policy of this State that the open saloon shall not be re-established. The sale of spirituous liquors, manufactured in whole or in part by means of the process of distillation and/or liquors compounded and/or composed in part of such spirituous distilled liquors, for private profit, is prohibited within this State except when such sale is made to the State. The State of Texas shall have the exclusive right to purchase at wholesale and to sell at retail such distilled spirituous liquors. Such sale shall be made only in unbroken packages and so such liquors shall be consumed on the premises where sold. The Legislature shall pass laws to prescribe regulations relative to the manufacture, sale, transportation, and possession of such spirituous liquors and relative to the establishment of State dispensaries; provided, however, the Legislature shall have the power to regulate the sale for private profit and possession of distilled liquors for medicinal, scientific and mechanical purposes.

"The manufacture, sale, transportation, and possession of all liquors, the alcoholic content of which is entirely and exclusively the result of the fermentation process, is hereby authorized under such restrictions as may be authorized by law.

"(b) The Legislature shall enact a law or laws whereby the qualified voters of any county, justice's precinct or incorporated town or city, may, by a majority vote of those voting, determine from time to time whether the sale of intoxicating liquors for beverage purposes shall be prohibited or legalized within the prescribed limits; and such laws shall contain provisions for voting on the sale of intoxicating liquors of various types and various alcoholic content.

"(c) In all counties, justice's precincts or incorporated towns or cities wherein the sale of intoxicating liquors had been prohibited by local option elections held under the laws of the State of Texas and in force at the time of the taking effect of Section 20, Article XVI of the Constitution of Texas, it shall continue to be unlawful to manufacture, sell, barter or exchange in any such county, justice's precinct or incorporated town or city, any spirituous, vinous or malt liquors or medicated bitters capable of producing intoxication or any other intoxicants whatsoever, for beverage purposes, unless and until a majority of the qualified voters in such county or political subdivision thereof voting in an election held for such purpose shall determine such to be lawful; provided that this subsection shall not prohibit the sale of alcoholic beverages containing not more than 3.2 per cent alcohol by weight in cities, counties or political subdivisions thereof in which the qualified voters have voted to legalize such sale under the provisions of Chapter 118, Acts of the Regular

Session of the 43rd Legislature." Sec. 2. Such proposed Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at a special election to be held throughout the State of Texas, on the third day of November, 1932, at which election all voters favoring said proposed Amendment, shall write, or have printed on their ballots the words:

"For the Amendment to the State Constitution providing for the establishment of a State Dispensary System having the exclusive sale of distilled liquors, and providing for local option."

And those voters opposed to said proposed Amendment shall write or have printed on their ballots the words:

"Against the Amendment to the State Constitution providing for the establishment of a State Dis-

pensary System having the exclusive sale of distilled liquors, and providing for local option." If it appears from the returns of said election that a majority of the votes cast are in favor of said Amendment, the same shall become a part of the State Constitution.

Section 3. The Governor shall issue the necessary proclamation for such election, and shall have the same published and such election held as provided by the Constitution and laws of this State.

Sec. 4. The sum of Eight Thousand and (\$8,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of the State Treasury to pay for the expenses of said publication and election.

**Why Gulf is the Gas for August**

WHY NOT BEAT AUGUST HEAT by driving someplace for a swim? And if you want to keep your gas bills down, don't forget you need a fuel with a formula that fits hot weather. Otherwise your gas doesn't burn completely—part of it escapes through the exhaust unburned, wasted. Stick to That Good Gulf in August—it's "Kept in Step with the Calendar"—especially refined for summer driving. All of it goes to work, none of it goes to waste. Try Gulf and cool!

## Public Hearing

ceipts from tax collections, current and delinquent, automobile registration fees, sale of time warrants and all other receipts, plus the balance, have been arbitrarily set at \$73,456, as compared with slightly more than \$87,000 for 1935.

Total disbursements for the year are expected to amount to \$85,545.15, leaving a deficit on December 31, 1937, of \$12,089. Judge Stewart pointed out that the estimates were made to meet emergencies that might arise, and barring such emergencies that would allow collections in excess of the estimates, the county would end the year in much better financial condition than indicated on the budget. The estimated 1938 disbursements are nearly \$4,000 less than the budget estimate for 1937, showing the saving that has been effected over budget estimation, which set a maximum expenditure.
