New 'Through' Streets Made By Sign Changes

Work began Wednesday on establishing eight through streets here and eliminating many of the town's stop signs. Police Henry Aycock said, "The police usually carry the most traffic through Highway 60, State Highway

51, Park Ave., Miles, McKinley, Ave. K, Third and Fourth. Aycock said where two through streets intersect — such as Fourth and Miles — the street which usually carries the most traffic will have right-of-way.

All eight through streets will be protected by stop signs, Aycock said. "Other than these streets, there will be very few stop signs in Hereford after we get through," he added.

"We have a bunch of unjustified stop signs and drivers are losing their respect for them. The traffic has been over-controlled," the chief said.

Yield right-of-way signs will be installed on Star and Ave. J at their intersections with Union and Grand Avenues, Aycock said.

HE ADDED that permanent four-way stop signs in school areas will be eliminated and replaced with temporary signs for school time.

The chief pointed out that there had been only one accident anywhere east of Ave. K in the last 15 months and none west of Highway 51 in the length of time. He said stop signs in those two areas will be eliminated.

"This will take time and some study and the stop signs that are up must be observed until they are pulled out," Aycock added.

Youths Involved In Two-Car Wreck

Traffic tickets were issued to both drivers following a two car collision at the intersection of Grand Ave. and Ave. B at 11:18 a.m. Sunday.

Oliver N. Sumner, 15, 545 W. Second, was cited for speeding and Doretta K. Albracht, 15, 319 Ave. B, was given a ticket for failure to grant right-of-way.

Investigating city police estimated \$225 damages to the Sumner car and \$185 to the Albracht auto.

FFA Teams Leave Today for Contest

Two Hereford High School FFA judging teams qualified for the state contests at Texas A&M, to be held Saturday, at the Area I FFA judging contest last week in Lubbock.

The most outstanding achievement accomplished by the local delegation at the Texas Tech campus was by Ken Waiser, who set an all-time high scoring record in grain judging in the crops division, with 1,706 points.

Waiser's team, however, will not get to attend the state contest because there is no crop category on that level.

Actually, four teams placed at Lubbock. One placed fifth in crops, third in poultry, 10th in livestock and ninth in meats. The poultry and livestock teams will make the A&M trip.

Members of the poultry team are Gary Guseman, Herman Jesko and Jim Uselton.

Livestock judging team consists of Jody Beizer, Pete Plank and Joe Reinauer.

Waiser, J. V. Perrin Jr., and John Hammert are members of the crops judging team and Bill Johnson, Alphonse Brorman and Eugene Vasek are on the meats judging team.

The two teams will leave with instructor Jess Robinson this morning for A&M, stopping on the way down for the night and continuing tomorrow morning on the last leg of the trip.

Robinson and Ed Dwyer are the FFA teachers in high school.

Wilkins Elected To Park Board

C. O. Wilkins, 108 Ave. G, Tuesday evening was elected at a joint meeting of the VFW and American Legion organizations to the three-man board of directors which governs the Veterans' Park transactions.

A member of the Legion, Wilkins replaces retiring board member Roy Smith. L. H. Lookingbill will take Smith's place as chairman of the board.

Crows Invade County, Hamper Rural Phones

County Commissioners Monday were informed that there has been an alarming number of crows to invade the area, stopping rural telephone service by the weight of their bodies when landing on wires.

Two representatives of the REA, Leo Forrest and George Stambough, appeared before the court to ask for any type of suggestion or action to alleviate the situation.

Forrest said the trouble began "about 10 days ago," when rural telephone users started complain-

ing they could get no answer when telephoning during the early part of the evening.

"We had crews out checking the lines but couldn't find anything wrong," Forrest continued. "Finally Norman Minx who lives on the Bill Dameron ranch noticed hundreds of crows on the lines and told us about it. The weight of so many birds was causing two or more lines to touch, shorting them out as long as they were touching."

AFTER ASKING that the com-

missioners might set a bounty on the crows, or something of that nature, commissioner Donald Hicks suggested that the court might call in the Game Warden living in Vega on the case.

"We could get the warden to determine whether the birds are migratory or if they are going to stay, have him make a survey of how many there are, and a possible way to get rid of them," Hicks suggested.

All agreed and Hicks is to obtain the warden's services.

In other court business, proposed plans by two Amarillo architects for a new jail were made, a pickup for Precinct One was purchased, plans to purchase five new tractors were made, and a plea for the opening of a road was made by three citizens.

Two architects from William A. Townes and Associates of Amarillo, acting on their own and not at the request of the court, presented their plans used last year to build a new county jail, plan presently under construction at Perryton, and a new, one-story, plan for Deaf Smith.

The architects, William Townes and Jim Bailey, said they estimated the new plans for the county's new jail they had drawn would cost approximately \$111,000, equipped, and that Perryton's new construction was costing \$166,000.

"We have months and months of work on this before we can decide definitely on how we are going to go on this thing," stated one member of the board, and another said he felt that if there were to be another issue to come up, it should be presented by citizens and not the court.

TWO HOMEOWNERS and the man who sold them the land asked the court to open a road giving driving access to their homes.

Lucio Blea and Manuel Mata, homeowners, and S. E. Burselson, said a road had been closed in 1946 which was supposed to have fronted homes purchased by the two men and Joe Garcia in Block 10 of the De Atley Subdivision, in the Womble Division on the west side of town.

The men said a wrecking yard had taken over on the north side of their property and the south side, where they had been driving to their yards, was to be fenced off and a warehouse to be built, cutting them off from the north-south road.

The court said a study of the situation would be made immediately to determine what solution could be made, but that the property owners would have a street.

Osborn-Norwood Chevrolet submitted the lowest bid on a new half-ton pickup, and it was accepted by the court. The bid was on a 1958 Apache model, six-cylinder and has a 145-horsepower motor. The bid, there were only two, was for \$1,305.96, after allowing \$849 trade in on a 1953 International pickup.

EACH PRECINCT is to purchase at least one new tractor, and Precinct One will buy two. Final specifications were not worked out for bids during the session.

County attorney Ed Line was instructed to obtain from the state capitol a ruling on the specific duties of the county clerk and treasurer.

A breakdown on the county's part of the Hereford Volunteer Fire Department's expenses was presented in letter form to the court. Instead of \$383.37 monthly payments, the revision calls for only \$254.77, based on one-third per cent of the fires occurring last year.

Payments were retroactive in.

JayCee Officers To Be Installed

Installation of new Hereford JayCee officers will be held Saturday evening in the Jim Hill Hotel, and the ceremonies will be followed by a dance.

Replacing out-going president Don Fudge will be Paul Schroeter, Jesse Click will replace Stanley Slagle as second vice president, and Mike Elliott replaces Click as third vice president.

New directors will be Don McNeese, Johnny Hancey, Windell Morton and Bob Hamilton. Out-going directors are Dennis Lonus, Mike Elliott, Guy Bogle and Dale Barkley.

As retiring president, Fudge will replace Gerald Hale as state director.

The dinner will begin at 8 p.m. Guest speaker will be Woody Bray of Amarillo, who is the Texas delegate to the national board of directors. Another Amarillo man, Harold Cliver, vice president of Region I, will be the installing officer.

Entertainment for the evening will be presented by Mr. and Mrs. Pee Wee ball in Hereford.

51 Turn Out for Spring Training

A total of 51 players reported for football spring training at Hereford High School Monday and immediately went into exercising, blocking and tackling.

New head coach Bobby Williams has 31 candidates, including 12 returning lettermen, out for the varsity squad and 20 players on the B team.

Workouts will continue through May 12.

ASSISTING WILLIAMS are Dick Mabry, back coach; Joe Silverii, line coach; Alex Glass, end coach, and Cuby Kitchens, B team coach. Williams was hired March 3 to replace Jack Harris, who resigned to take the head coaching position at Pharr-San Juan-Alamo High School.

Last Rites Held For Dianne Harper

Funeral services for Dianne Harper, 10-month-old daughter of Mr. and Mrs. James Harper, 115 Norton, were held Monday afternoon in St. John's Baptist Church with the Rev. H. B. Whitten, pastor, officiating.

The baby died Sunday in Deaf Smith County Hospital after a short illness. She was born June 29, 1957, in Friona.

Burial was in West Park Cemetery. Kreig-Marcum Funeral Home was in charge of arrangements.

Survivors other than the parents are three sisters, Margaret, Cora Lee and Carla; two brothers, James Jr. and Larry, and the grandparents, Mr. and Mrs. Abe Harper of Schriner, Tex., and Mr. and Mrs. A. M. Jackson of Friona.

Pee Wee League Is Organized Monday

A Pee Wee baseball league was organized Monday for boys who are too young for Little League or who fail to make a team. Forty-nine players began practice Tuesday.

There will be four teams: Cardinals, Giants, White Sox and Braves. Managers have been named for each club. They are E. H. Loerwald and John Snyder, Cardinals; Ted Higgins and Edwin Bridges, Giants; Leon McCutcheon and Bill Price, White Sox; Albert Maxwell, W. H. Andrews and L. B. Russell, Braves.

No opening date has been set. Albert Maxwell and Morris Easley were appointed to find playing fields for the league. Games will be played four days a week from 6 to 7:30 p.m.

Paul Harvey is in charge of obtaining equipment for the league. This will be the second year for Pee Wee ball in Hereford.

May 5 Is Deadline For Tourney Entry

EIGHT ENTRIES in the Hereford Invitational Tennis Tournament had been received as of Wednesday. The tourney will be held on the city courts May 9-10.

Deadline for entering the tournament is May 5. There is a 50-cent entry fee per player. Trophies will be awarded to winners in each of the 10 divisions. Sponsors of the tournament are the Hereford Athletic Club and The Brand. An entry blank will be found on page 2 of this section.

Singles and doubles competition will be held in the following divisions: Boys (10 to 15 years old), Men (16-40), Senior Men (40 and older), Junior Girls (10-15) and Girls (15 and older).

Pairings and times will be published in the May 8 issue of The Brand. Players must be on the court within 10 minutes of the set time or be dropped from the tourney.

Fifth Annual Quarter Horse Show At Bull Barn Saturday

THE FIFTH ANNUAL Quarter Horse Show will be staged in the Bull Barn Saturday, starting at 1 p.m., according to Bill Kendall, show chairman of the sponsoring Hereford Riders Club.

This will be the first year trophies will be presented, as ribbons have always been used in the past. There will be 16 trophies presented, 62 ribbons and two belt buckles.

Glen Casey of Amarillo will serve as judge of the show.

Some of the most noted quarter horse breeders in the nation will be on hand for the event, which is fast-rising as one of the toughest in the quarter horse circles.

Some of the breeders expected to appear with entries are Jimmie Randall of Montoya, N. M.; Doyl Sauls of Plainview, Elmo and Jack Caudel of Hale Center, Pat McDowell of Dumas, J. D. Kitchens of House, N. M., and O. G. Hill Jr. of Hereford. Several states are represented in the show every year.

"This show is approved by the

American Quarter Horse Association under direction of the Hereford Riders," stated chairman Kendall.

Eligibility: Horses, all entries, must be registered with the American Quarter Horse Association (permanent, tentative or appendix); foals, yearlings and two-year olds in the appendix are eligible, provided their sire and dam are both registered; geldings in the appendix do not need to have a registered sire and dam. Horses three years of age and over (except geldings) must have a registration number.

ALL HORSES must be at the Bull Barn by 11 a.m. Saturday. Judging will begin promptly at 1 p.m.

Entries in the reining Classes must be shown at halter, except former Grand Champions of the show.

Trophies will be awarded to the Grand Champion Mare, Grand Champion Stallion and Grand Champion Gelding, as

Little League Rosters Tentatively Completed

TENTATIVE PLAYER rosters for Little League baseball teams in both the major and minor leagues are being worked out by managers this week following player auction last Friday.

Originally the auction was scheduled for tomorrow but was moved up in order to give managers more time with their players before the season opens May 12.

Managers must have rosters completed by May 7. They have two weeks to trade players after the season opens.

Major league teams are limited to 15 players and minor league clubs may have 20 players.

Each major league team is allowed six 12-year-old, five 11-year-olds and four 10 years or younger.

Dr. John Channer, league president, said Wednesday that managers are needing more adult assistants to work with the players. Channer said persons wanting to help should go to the Little League practice field at 14th and Ave. I after 5 p.m.

Following are tentative rosters

for the 1958 season. They are subject to change until May 7.

MAJOR LEAGUE
GIANTS: Red Merrill, manager; Ronnie Duncan, Paul Morena, Wayne Edwards, Richard Patton, Jim Higgins, Freddy Miller, Robert Higgins, John Pool, Joe Parker, Jerry Sheppard, Mike Moore, Jerry Ross, Charles Wills and Jerry Hulsey.

New Hope for Babies With Heart Disease

By DOROTHY V. WHIPPLE, M.D., AP Newsfeatures

About one child in every 300 is born with a heart that isn't just right. Some of these children have hearts in which there is so little the matter that the defect never interferes with their activities and they may live long and healthy lives. On the other hand some defects of the heart are so serious that a baby may live only a few months or even a few minutes.

In the last ten years there have been great advances in the treatment of some kinds of congenital heart disease. Surgical techniques have been developed by which children with defective hearts can be made normal or nearly so.

There are several different kinds of defects of the heart that may be present at birth.

Patent ductus arteriosus is a defect that can often be treated surgically. This is a condition that exists normally before a baby is born and before he breathes air through his lungs. Before birth very little blood flows through the lungs; instead it goes through a passageway directly into the aorta, the big vessel that carries blood around the body.

Normally this passageway closes when the baby takes his first breath and it grows tight shut a few weeks after birth. When it fails to close, as sometimes happens, blood which should stay in the aorta and pass to the whole body slips through this hole and goes to the lung.

In patent ductus too much blood goes to the lung and not enough is left over to nourish the child. As a result the child does not grow well, is thin and lacks energy.

Within the last dozen years surgery for a patent ductus has been perfected so that many children with this defect can be made perfectly well and normal. The best time for this operation is decided for each individual child after a careful study of his particular case.

The blue baby defect (called by doctors Tetralogy of Fallot) is quite the opposite of the patent ductus. In a blue baby an opening inside the heart permits blood that should go to the lungs to get oxygen, to go instead directly into the aorta and to the body as a whole. Not enough blood goes to the lung in a blue baby, so blood with very little oxygen circulates around the body. Blood with too little oxygen has a bluish cast. This is why these babies develop their peculiar color.

The general effect on the child is somewhat similar to that in patent ductus, though the causes are quite different. Although enough blood gets around his body, the blood is lacking in the most important substance, oxygen. Without oxygen the various parts of the child's body cannot grow normally. So the child who starts out as a blue baby does not grow normally and is weak and tired and irritable.

Modern surgery can correct the defect in many blue babies. Unfortunately not all blue babies can be successfully operated on. It depends upon just where and how the defect in the heart is located and this very delicate

Let Them Eat Cake

When the American kitchen has that appetizing aroma of something good baking, what's most likely to be in the oven? Cake, say U. S. Department of Agriculture home economists.

Almost 40 per cent of the families questioned in the 1955 USDA Household Food-Consumption Survey had been served homemade cake at least once during the survey week. Biscuits were second, with about 30 per cent of the homemakers reporting they had baked them during the week.

Nearly as many homemakers (28 per cent) had served homemade pie, while 24 per cent had griddle-cakes or waffles or had baked cornbread. Cookies were not so common; with only 12 per cent of the homemakers baking them during the week. Rolls and bread were each baked in only about 5 per cent of the homes, and muffins and gingerbread each in about 3 per cent.

The survey showed that homemakers were more likely to bake than to buy most kinds of baked products. Exceptions were bread, rolls, sweet buns, and doughnuts, which were nearly always purchased.

surgery be performed until the child is about two years old.

Another type of congenital heart disease is called coarctation of the aorta. This means the aorta is pinched or narrowed in one place. Symptoms depend upon the severity of the defect. This type of heart defect can also be successfully treated by the experienced heart surgeon.

Surgery on the heart is relatively new. Most large cities have cardiac centers where a child with congenital heart disease can have his defect minutely analyzed and where he can have surgical treatment if such treatment is indicated.

Soraya Only Latest in Long List of Ex-Queens

CAIRO — The trouble with being a queen in the Middle East is that it isn't often a permanent job.

Around here there are more ex-queens than reigning queens. Some of the world's most beautiful women have been discarded by Arab monarchs in the past few years. Among the ex-Queens are Soraya and Fawziya of Iran, Farida and Narriman of Egypt, Dina of Jordan, two ex-wives of Imam Ahmed of Yemen and an estimated 200 women divorced by King Saud and his fabulous father King Ibn Saud.

The chief duty of a queen in the Middle East is to bear sons. Daughters are unacceptable as substitutes. There must be at least one male heir, and the more sons the better. Outside Saudi Arabia, most modern Middle Eastern queens have failed to produce. Moslem traditions recognize failure of a wife to bear a son as grounds for divorce or marrying a second wife.

Latest royal divorcee is the beautiful Soraya, who lost her throne because she was childless.

The Shah's first queen had likewise failed. She was Fawzia, most beautiful of a lovely set of sisters of Egypt's ex-King Farouk. Fawzia bore a daughter, the Princess Shahzad, but no sons. Fawzia quarreled with the Shah and returned to Cairo in 1945 to live in lonely misery nearly four years till she learned the Shah had divorced her. She later married Colonel Ismail Sherin of the Egyptian army.

Farouk had to try two queens before fathering a male heir. And then it was too late to help his dynasty very much.

Farouk's first wife was Farida, a beautiful and respected woman. She bore Farouk three daughters, but no sons and has remained single for the nine years since her divorce. She lives in a villa near Cairo on the pyramids road and rarely sees her daughters, who live with their father in Europe.

Narriman, Farouk's second wife, bore a son, Ahmed Faud, who became King of Egypt when he was barely a year old. The infant's reign lasted less than a year. It was terminated when Egypt became a republic.

Narriman divorced Farouk after he had abdicated. She later married Egyptian physician Dr. Adham Nakh, whom she subsequently divorced. Narriman now lives with her mother in Beirut. Jordan's Queen Dina lives in Cairo in an uncertain position. Friends of King Hussein confirm that he has divorced Dina. The Queen never has confirmed this, however. There seems to remain some doubt the divorce formalities have been completed.

Old King Ibn Saud married an estimated 150 women and divorced most of them during his lifetime. The old Saudi king normally had only three wives at a time, one below the limit allowed by Moslem law.

Estimates are he had forty sons and an uncounted number of daughters.

Ibn Saud's son and successor, King Saud, has followed in his father's footsteps, but exact statistics on the number of women he has divorced are hard to get. Most estimates place the number at around 50.

Ex-wives of the Saudi rulers are well taken care of, especially if they have borne sons. The royal family provides them with a subsidy adequate to meet their needs. If they are mothers of princes, they usually have palaces of their own.

The Imam Ahmed, King of Ye-

men, has been much more temperate than the Saudis regarding wives. The Imam keeps his harem strictly out of the public eye.

Texans Shop for Label on Dresses

When you shop for a dress, do you look for tags or other labels to help you in buying?

"Yes," said 80 per cent of 1,000 town and city women in Texas when asked this question recently in a state experiment station study of consumer use of dress labels. More than half the women who looked for labels said they "always" or "usually" did so. Others said "occasionally." Only a fifth expressed little or no interest in labels.

The station reports that women are in special need of informative labels today because of the new finishes, fibers and blends of fibers in ready-made clothes. Retailers, dress manufacturers and fabric distributors have expressed interest in knowing what women want in labels and how much they use labels.

Most useful label information, according to these Texas women, concerns care of the dress — whether to dry-clean or wash, how to wash, whether ironing is needed and, if so, how hot an iron to use. The women also said information on shrinkage, colorfastness, size, and finish of fabric was helpful.

More than 80 per cent of the women who looked for labels when purchasing a dress said they always followed label instructions about dry cleaning or washing. Nearly 70 per cent laundered dresses according to label directions, and over 40 per cent used information on fiber content as a guide to laundering and ironing temperature. More than half the women who said they read labels before buying, shaved the label from the new dress to refer to in laundering and cleaning.

Hang tags are much more likely to carry the information these women wanted than sewn-in labels, the study showed. A survey in local retail stores showed that less expensive dresses were more likely to have informative tags than the more expensive dresses, even though more of these women wanted information on higher cost dresses.

Women who look for labels when dress-shopping were likely to be in the upper income groups, high school graduates or college trained, and between 30 and 50 years of age, the Texas station reports.

February, at which time the city and county commissions held a joint meeting and the new basis on which the county would pay for part of the department's expenses were arrived.

Ed Dziuk Sr., asked the county to pay for dragging the west road to the labor camp, a job which was hired to be done recently by the camp's governing committee. Precinct Two's maintainers were too far from the immediate area to do the work. Commissioner O'to Massie said the undetermined amount would be paid.

All members of the commissioners' court were present for the regular meeting.

to a minor consideration. This is a senior party and the desires of the students should be considered along with those of the parents. The big idea, after all, is to show them such a good time that they won't be interested in some of the other things.

Dub Hair and Blue Turpin got back the other night from Possum Kingdom and brought in 156 bass. Needless to say, this has all of the local fishermen in a dither. Grady Rogers and Don Zimmerman are doing a lot of speculating and, in my opinion, are due to take off at any time. Slim Wester, likewise finds it a bit difficult to keep his mind on his work. A few more stories like Dub and Blue are spreading, and a lot of people will be hard to find.

Mostly, though, I get there a week too late - or a week too early. If I ever stumble into one of those times when the fish are biting it will be just my luck to fall down and break an arm or a leg.

L. J. Clark made a strictly un-official estimate this week that the new underpass on Highway 51 will be open by July 4. He had a lot of "ifs" about weather, break-downs and the like, but really seemed to think it is rolling along. When you stop to think about it, that's only 60 days off. I also notice that they are busy widening Highway 51 from Springlake into Littlefield. Wonder when the same thing will happen on this end? The road is carrying more and more traffic and, before long, may even rival U. S. 60 on traffic count.

Dr. J. W. Channer says the Little League managers are having a hard time locating coaches and assistants. They need some help. If your husband knows anything about baseball, call Dr. Channer and turn in his name. Maybe it will help him into a more congenial fellow around the house. I get a grapevine report that Sterlin Holmesly is trying to do this to me in the senior tennis tournament. However, I've got news for the boy! "It just ain't gonna work." Cliff Acker and Urlin Streu are the two characters he needs to recruit.

Inventory shortages are big headaches around the country these days, according to the Wall Street Journal, which reports that employee-thefts are hitting unusually high levels. It cites new employes, along with the old trustees. A Chicago department store planned to award one of its faithful employes a 25-year service pin, and he was caught stealing a \$250 evening gown. His excuse: "I wanted my wife to have something nice to wear to the recognition banquet."

Did you ever see so many give-aways? Most of them are on a national level, although the local food stores have done a pretty fair job. A lady dropped into The Brand office Monday complaining because we don't have one.

"In the last 10 minutes," she said, "I've been invited to sign up for a Cadillac full of cash, a radio, an Esther Williams swimming pool and a foreign make car. I think The Brand should get on the ball."

Galveston Plans Marine Aquarium

GALVESTON (AP) - A major public attraction in this Gulf Coast resort city will be a marine aquarium, patterned after those so popular in California and Florida.

Jack Dismukes, Austin businessman who heads Galveston Marine Aquarium, Inc., a new firm created to install the three quarter million dollar project, said he has been assured adequate local backing. He added that "substantial support" also will come from the Houston metropolitan area whose populace throngs into this scenic water showplace.

The oceanarium will provide a panoramic display of hundreds of fish species in huge salt water tanks. A feature will be a special underwater glassed area for sharks, rays, moray eels, barracuda and other notorious deep sea denizens. There will be a pool and stadium where crowds, including touring school children, may watch trained porpoise acts.

Dismukes said a particular accommodation would be made for the growing photographic enthusiasts by installation of special portholes in the sides of the tanks. A special attraction for the "foto fans" as well as for all present will be periodic trips into the tanks by divers to mingle with the man-eating sharks and other hostile specimens. Dismukes said surveys leading up to decision to proceed with the project included one by Dr. Paul Rigby, Director of the University of Houston's Bureau of Business Research, on potential revenue to be expected. Another study was supervised by Newton, Ebaugh, whose firm helped launch the highly successful "Marineland of the Pacific" at Los Angeles, on water conditions and other technical factors.

Marine Studios, Inc. of Florida, will share sponsorship of the Galveston venture and will provide technical assistance, general know-how, several patents on water treatment and two copyrights, said Dismukes.

Dismukes said major factors leading to selection of the Galveston site included Galveston's established name as a resort city and as a Gulf Coast tourist venture with adequate housing. "It is close to the greater Houston metropolitan area," said Dismukes. "Large quantities of sea

Marsha Cockrell Wins Press Award

A Hereford student attending West Texas State College was one of the college's newspaper staff who won honors at the Texas Intercollegiate Press Association annual contest held recently at East Texas State College in Commerce.

Marsha Cockrell, daughter of Rev. and Mrs. Alby Cockrell, won third place in the feature stories division. Miss Cockrell's winning feature was written about recording artist Buddy Knox, a WT graduate, who visited the campus last year.

The Prairie, a weekly student publication at WT which won first place in judging, was edited by Dan Mudd of Amarillo. Mudd is to join The Brand staff this summer after graduation.

NEW YORK VISITORS Mr. and Mrs. J. T. Cronin, formerly of Hereford, now of Syracuse, N. Y., are visiting in the home of their parents, Mr. and Mrs. Jimmie Allred and Mr. and Mrs. J. D. Bruner.

ELECTED—Gerald McCaskill, assistant vice president of the Hereford State Bank, Saturday night was elected president of the Panhandle Chapter, American Institute of Banking, which includes representatives from some 20 banking houses in the area. Texan Recalls World's First Motorized Rural Mail Route

SAN BENTIO (AP) - Speed (downhill): 20 miles per hour. That's the kind of auto E. C. Dodson, now of San Benito, used when he delivered mail on what is believed the nation's first motorized rural route.

His use of an automobile for delivering mail not only was unofficial but unauthorized and got him into a peck of trouble. He came very near not making history at all when 35 patrons petitioned the postoffice department to make him give up his new-fangled gas buggy.

Dodson, now 87 and owner of a small grocery store here, recalls with amusement the controversy he stirred up when he first started delivering mail with his "Orient Buckboard" at Waukomis, Okla., six miles south of Enid. That was in 1902.

RECENTLY arrived from Kentucky where he was born and raised, Dodson had a job in Waukomis postoffice and was named to deliver mail on rural route No. 1. It was one of the first such routes in Oklahoma and one of the few in the nation. For rural free delivery was in its infancy, he says. It took Dodson from 11 a.m. until 5:30 p.m. to drive the 27 miles with his team of ponies and mail wagon over what was little more than a prairie trail.

He saw an ad describing the miracle of the gas buggy and the more he looked the more fascinated he became by the idea of using an auto.

Dodson ordered the car, which cost \$600. He found that it weighed 600 pounds. A dollar was a lot of money in those days and a dollar a pound looked like a considerable sum to pay for a contraption of any kind.

The car had a one-cylinder, four-horsepower gasoline engine in the rear which drove the rear wheels, by two sprocket chains. Steering was done with a tiller instead of a wheel.

DODSON recalls that he got about 20 miles to the gallon of fuel and that the car would make 20 miles an hour provided the going was downhill.

Came the day when Dodson first delivered the mail. Nothing short of an earthquake could have caused more commotion.

Teams of horses broke and ran upon seeing, hearing and smelling the evil contraption. Farmers learned to take the side trails when they knew Dodson was due. They would unhitch their

teams and lead them away from the road and still some of them bolted.

"You can hold a bad horse but not a scared horse," Dodson observed.

It seems that the horses just couldn't get used to the car and before long a petition went into Washington asking that Dodson be forced to give it up. Mail patrons claimed that he caused 27 run-aways in one day, Dodson recalls. An inspector was dispatched and he arrived at the Waukomis post-office while Dodson was on his route.

THIS THEN took place, Dodson recalls: "Are you Dodson?" the inspector asked when the mail carrier came in.

"Yes," said Dodson. "Are you carrying Route one?" the inspector continued.

"Yes sir." "I have charges enough against you to hang anybody in the world," the inspector said. "It doesn't make any difference," Dodson replied. "The sun will come up tomorrow morning anyway."

"They tell me you drive an au-

to. Who said you could?" "Nobody told me to or not to," Dodson answered. "Why do you run over people's horses?" the inspector demanded. "I DON'T," retorted Dodson. "I can't get within a hundred yards of them." "I just wanted to know if you have a good reason for using an auto," the inspector continued. Dodson was ready for that one.

"Almost every day there is a notice from Washington asking for suggestions for better service," he said. "When I use a team and wagon, I leave at 11 o'clock and sometimes it is 5:30 before I get back. When I go in the car I leave at 11 and get back at 1. I leave to you if that is better service."

The inspector looked at his watch hastily. "It's time for me to go. I'm going to leave it to you. Be careful."

TOO FAR FROM HOME BLOOMINGTON, Ill. (AP) - State Police arrested John R. Hirsch, city employee, while he was driving a 1926 Reo truck which belongs to the city. The truck did not have license plates - not even for 1926. Alvin Keller, city finance director, paid the \$9 fine and said the truck is used at the water and light plant and is not supposed to be taken from that place.

ADRIAN NEWS

Juniors Honor Seniors With Banquet Friday

By MRS. R. L. PINNELL
The Adrian junior class honored the 1958 seniors with the annual Junior and Senior banquet Friday night in Neal's Charcoal Grill in Amarillo.

Theme for the banquet was built with the old West in mind. Favors were colorful sombreros with cowboy nateups. Toastmaster for the evening was Phillip Pinnell. Invocation was by Oscar Bronniman and welcome by Loyd Homfeld. Response was by Glenda Taylor. The prophecy was read by Mary Jean Jackson and the class will be with Don Morgan. The evening's guest speaker was the Rev. Johnnie Williams and the benediction was by Davis Brown.

Class members and their guests were Pegi Leslie and Lowell Landrum, Glenda Taylor and Finis Brown, Carol Heaton and Sheldon Proctor, Don Morgan and Vickie Sorrenson, John Henry Gruhley and Twilla Story, Edd Pinnell and Mary Jean Jackson, Jerry Heaton and Linda Gruhley, Davis Brown and Wanda Pinnell, Phillip Pinnell, Oscar Bronniman and Gail Brown, Loyd-Homfeld and Barbara Sweeney, Jimmy Zaring and Cynthia Kromer. Others present were the Rev. and Mrs. Williams, Supt. and Mrs. A. P. Jones, Coach and Mrs. Joe Cullender, Mr. and Mrs. Pat Shipp and Mr. and Mrs. Clyde Williams.

Mrs. Clyde Williams, sponsor of the senior class, honored the class Thursday night with tickets to the Fasston Play held in the Amarillo Auditorium. Making the trip with the class were Vickie Sorrenson, Mrs. D. W. Morgan and Kippy, Clyde Williams and Mrs. Bessie Shipp.

The seventh and eighth grades held theater party Friday night and saw Walt Disney's "Ole Yeller" in Amarillo. Sponsoring the group were Mrs. Hazel Clifton, Mrs.

Top Nationally-Known Speaker on Lions Club Ladies Nite Program

Highlight of the annual Hereford Lions Club Ladies Night evening at the High school auditorium will be the guest speaker, Dr. William H. "Bill" Alexander, who is rated as one of the top ten public speakers in the nation today.

Because beef dinner will be as last year, by the Sun-Lions Club. Master of ceremonies will be retiring president local organization, D. C.

Entertainment for the evening will be furnished by a small group of the Hereford High School Mixed Chorus. Performing their recent hit performance "Oklahoma" will be presented.

Participating on the program will be Mrs. Noland, Carol Willoughby, Mrs. Morris, Sharon Slaugh, Mrs. Sue Crosthwait and Em-Pavlicek.

Guests Eugenia Alexander and Betty Jean Noland will accompany the vocalists and will play the two-piano introduction to the musical. They will present musical selections throughout the dinner.

Arranging on the program will be Mrs. Noland, Carol Willoughby, Mrs. Morris, Sharon Slaugh, Mrs. Sue Crosthwait and Em-Pavlicek.

Dr. Alexander has been called one of the nation's greatest Protestant youth preachers and a leader in the college campus.

Dr. Alexander organized in Oklahoma what has been called one of the nation's largest Protestant youth programs in the nation. Much in demand at college campuses, Dr. Alexander has consistently been at the top of the list of the National Chamber of Commerce poll of top speakers of America.

Dr. Alexander crusade for better facilities for mental illness was a major factor in the organization of the Oklahoma Health Association of Oklahoma, which he served as president for six years. He has also served as state chairman of the Oklahoma Fund, president of the Oklahoma Symphony Orchestra for four years and for years chairman of the Oklahoma City Community Chest.

Dr. Alexander's dream has now come true with the Edgemere and Country Club, the new site covers 41 acres of land—27 of which is entirely devoted to young people with swimming pool, tennis courts, building and camping area for 2,000 individual operations in the sanctuary are finished Sunday.

Modern architecture of the buildings—sanctuary, educational and music and fine arts tracting visitors from all over the world. Escalators transport worshippers to the sanctuary, and many leading men feel that this church will lift the level of what should do for its command and congregation.

Evening services are conducted in the large amphitheatre summer, overlooking the 150-foot tower on top of which hours a day a torch represents religious freedom. Dedication of the Church of Christ in 1956, it was pictorialized in Life Magazine and leading journals.

Dr. Alexander is planning to clear from Lake Michigan with a fleet barge, of a type no longer used on the Great Lakes, an up onto a reef about 1/2 mile offshore from Point St Ignace, Mich. It is estimated to be one that sank in many years ago.

Lake Michigan calms the Coast Guard will try to wreckage, since it is too heavy any available towing equipment to pull from the reef.

Cyclone Anaya, Don Evans Head Wrestling Card

Clycone Anaya, winner over Bob Geigel in last week's matches will tangle with Dirty Don Evans in one of two main wrestling events at the Bull Barn Saturday night. Rickey Romero and the Great Bolo will supply the other main event. Both matches are scheduled for two out of three falls with 60 minute time limits. Last week Geigel took the first fall by pinning Anaya in 20 minutes. Anaya came back to win the second and third falls and the match. Evans and Dory Funk continued their feud with Evans winning the last two falls. Funk won the first one with his spinning toe hold.

STRAPPING PHILOSOPHY
DECATUR, Ga. — John C. Cragg, 38-year-old principal of Southwest DeKalb High School, has his own, old-fashioned preventive for juvenile delinquency.

It is a two-inch-wide leather strap which he uses on boys of any grade when he feels their misconduct deserves it. The dosage usually is 10 licks and the offender is given his choice of accepting suspension in lieu of the whipping but few ever take that way out, Cragg says.

He estimates that not more than one per cent of approximately 1,800 students ever feel the strap but "every one of them knows I have one." Cragg believes that the leather has "straightened out many a would-be delinquent" and says many whom he has whipped have later thanked him for it.

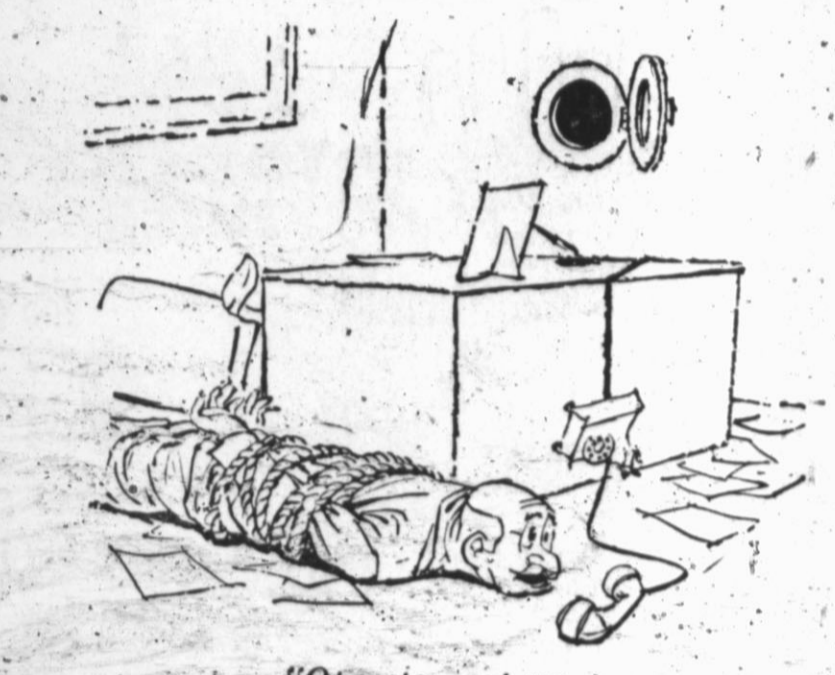

MEETING PLACE—Architect's drawing of the now-completed Boys Ranch Independent School, which was partly financed by funds raised by United Peace Officers of America.

will house some of the meetings when the UPOA members hold their convention at the famous Boys Ranch May 8.

MEMO TO ADVERTISERS

Coal—by the ton
Lumber—by the foot
Wheat—by the bushel
Land—by the acre
Gasoline—by the gallon

There are standards for advertising, too!

What a fix we'd all be in without those standards of measurement for the goods you buy and sell. Imagine the confusion, waste and doubt in business transactions if we didn't have accepted standards of weights and measures—known values.

We believe it is just as necessary for us to tell you what you get for your advertising dollars, in terms of known circulation value, as it is for you to do business with your customers on the basis of recognized standards. That's why this newspaper is a member of the Audit Bureau of Circulations.

WHAT IS THE A.B.C.? The Bureau is a cooperative and nonprofit association of 3450 publishers, advertising agencies and advertisers in the United States and Canada. Organized in 1914, A.B.C. brought order out of advertising chaos by establishing a definition for paid circulation, rules and standards for measuring, auditing and reporting the circulations of newspapers and periodicals.

WHAT A.B.C. DOES FOR YOU. At regular intervals one of the Bureau's large staff of experienced circulation auditors comes to our office and makes a thorough audit of our circulation records. He has access to all of our books and records to obtain the FACTS that tell you what you get for your money when you advertise in this newspaper.

WHAT A.B.C. REPORTS TELL YOU. The circulation FACTS obtained by the A.B.C. auditor are condensed in easy to read A.B.C. reports which tell you: How much circulation we have; where the circulation goes; how it was sold and many other FACTS about the audience we provide for your sales messages. Make your advertising investments on the basis of this audited information. Ask for a copy of our A.B.C. report.

Over four centuries ago the enterprising Frenchman Jacques Cartier discovered the St. Lawrence river and the present site of Montreal. One day, pointing to an Indian settlement, he asked what it was called. A native answered Kanata, which meant village.

The French took up the word and soon were calling the St. Lawrence by the name Kanata or Canada. Later it was applied to the Quebec colony of New France. Today the term embraces a country larger in area than the United States.

This Man Sees Hereford from 8 Miles Up

That throbbing speck seen frequently at 40,000 feet above Hereford is piloted by a man.

Chances are, the speck—trailing a miles-long spume of white—is a F100 supersonic fighter-bomber stationed at Cannon Air Force Base, Clovis, N.M.

The pilot may be 1st Lt. Robert Craigmyle, shown in these pictures. Craigmyle is a full-time pilot in the 388th Fighter-Bomber Squadron of the 312th Wing. He is also equipment officer.

Saturday Craigmyle spoke to visiting newsmen on the equipment necessary to keep a man alive on the rim of the atmosphere and to help him survive if he bails out anywhere in the world. His squadron, as a member of Tactical Air Command, is ready to go anywhere on the globe and fight on a moment's notice.

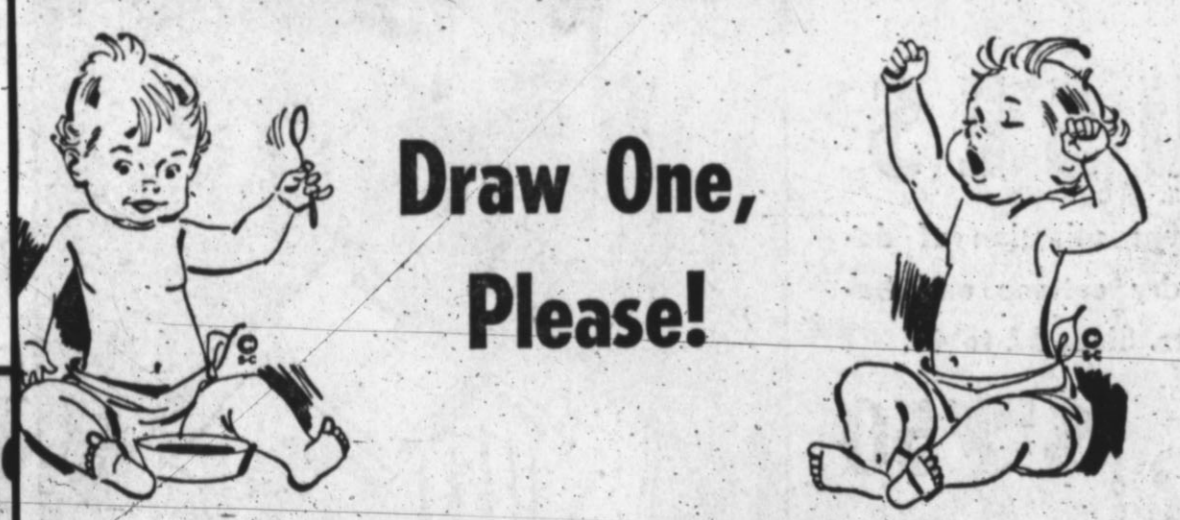

At left Craigmyle holds arctic survival suits while wearing his regular flying gear. On the floor are articles contained in a survival kit which the pilot takes with him on any flight of great distance. The kit will help him live in the arctic, the desert or in the tropics.

At far right, the pilot demonstrates his oxygen mask—a most necessary item. Top right, Craigmyle gestures to emphasize the importance of being alert and knowing how to use all the equipment. A pilot fully loaded with helmet, oxygen mask, survival suits and kit and parachute carries 90 pounds of extra weight.

Right, Craigmyle is lifting his F100D off the runway for a cross-country flight to Phoenix, Ariz., just slightly over one hour's flying time away. (Staff Photos by Sterlin Holmesly)

Townsend Douglas Is Honored by West Texas C-C

FORT WORTH — Townsend Douglas, president of the Hereford State Bank, was honored Tuesday morning by the West Texas Chamber of Commerce for "outstanding personal achievement" in securing new members for the 132-county regional chamber.

For his efforts in obtaining new members, the WTCC awarded Douglas a set of inscribed marble bookends made from a core sample of a West Texas oil well. Douglas is a director of the regional organization.

The award was made at the closing session of the WTCC's 40th annual convention in Fort Worth. Three other WTCC officers were similarly honored for their achievements in signing up new members. They were Bill Mattox of Pecos, a farmer; W. H. (Bill) Collins, editor of the Midland Reporter-Telegram; and Champ Rainwater of Big Spring, district manager for Pioneer Natural Gas Co., Empire Southern division.

Prior to the presentation of awards, WTCC convention delegates heard Durwood Manford, chairman of the State Board of Water Engineers, discuss the new water resources planning program for Texas.

The convention program also featured an address by State Sen. Otis Lock on Texas' tax problems, a report on the new impact of agriculture on the economy of Texas by eight agricultural economists from Texas A & M, and a discussion of the industrial potential of the Southwest as related to the national industrial development picture by Dr. Lloyd D. Black of the U. S. Department of Commerce in Washington.

Other convention features included addresses by Thurman Sensing, executive vice president of the Southern States Industrial Council, Nashville, Tenn., and William Gove, executive vice president of EMC Recordings, St. Paul, Minn. The convention, which opened Sunday evening, closed Tuesday at noon.

REP. WALTER ROGERS WRITES:

Press Conference Quiz Ruffles the President

To the people of the 18th District; The President's proposal to reorganize the Pentagon seems to become more controversial each day. Some are taking a position that it is being made into a political issue and that partisanship petticoats are beginning to show in the Armed Services Committee. The general agitation about the proposal was reflected by the sharp exchange that took place between a Texas newspaper reporter and the President in his recent news conference.

representing a Texas newspaper, asked the President a question concerning the possibility of a "Prussian" type organization being created if his plan was adopted. The President shot back an answer in the nature of a question. He asked the newspaper woman, "Have you read the law?" The reporter replied, "Yes, sir." The President is then quoted as having said, "No you haven't, I don't think."

Another question put to the President by one reporter that was credited by the local newspapers as having raised his ire had to do with the President's recent suggestion that the people buy. The reporter, after getting the President to confirm that he had asked the people to buy, then asked the President if he would tell the reporters what he had bought.

It was then that the President

became obviously annoyed and said that he had not discussed the matter with his personal aide who took care of his buying needs. Another reporter, who asked some questions concerning the President's position on the unemployment benefits bills in the Congress, was cut off by a statement by the President that "he thought the reporter knew something about the matter."

All of this left many of the reporters wondering what the next news conference would produce and when it would be held.

HEARINGS ARE now being held on a bill to amend the Interstate Commerce Act as it concerns the right to haul agricultural products without being subject to regulations. The battle as to what is an agricultural product and what is not an agricultural product has been going on for some time. In recent years the question arose as to whether or not a chicken that had been killed and cut up or frozen was still a chicken that could be hauled under the agricultural exemption, or if it became a manufactured produce and had to be hauled in accordance with certain ICC regulations.

A case went to the Supreme Court involving this question, and the Court held that the chickens retained their identity as chickens even after they were killed and could be shipped without the hauler complying with rules and regulations of the ICC. The Supreme Court in its decision said, "A chicken that has been killed and dressed is still a chicken."

All of this was brought out in the hearings before the Interstate Commerce Committee of which I am a member. When the language of the Supreme Court

was quoted by one witness, it brought to my mind the fact that a very serious situation could arise on this subject in Texas. I recall that while serving as district attorney, we were investigating a man who was charged with chicken stealing. Under Texas law he could be sent to the penitentiary for this.

However, he argued that he was not guilty of chicken stealing, although he had stolen the carcass of several chickens. At that time dressed chickens were selling for about 75 cents each. He had stolen three of these dead chickens. If the chickens had ceased to be chickens because they had been killed, the largest penalty that could be put upon the thief would be a fine, because the value of what he stole was less than \$5; but, if the chickens had continued to be chickens even though they had lost their lives, the theft of only one of them would have subjected the man to conviction of a felony for which he could have gone to the penitentiary for several years and would have lost his citizenship.

It is my recollection that the Texas Courts have held that a dead chicken is no longer a chicken under the Chicken Law — the same as a cow is no longer a cow after it is slaughtered. This being the case, I am wondering what will happen in the future in view of the language of the Supreme Court in the frozen chicken case. If the Justice of the Supreme Court who wrote that opinion and used the language, "A chicken that has been killed and dressed is still a chicken," ever steals a dead chicken in Texas and gets caught, he might wish he had never used the language.

La Madre Mia Studies Club Improvement

La Madre Mia Study held a regular meeting in the Friendship Room at the Hereford State Bank April 24. Roll call was answered by members citing their most embarrassing moment with their children.

During the business trip members heard of the recent dinner meeting in Amarillo and plans were completed for the May dance which will be held at the Veterans Memorial Park on May 17. Mrs. Troys Riddle, chairman, Mrs. Glen Hopson and Mrs. Walter Kirkland were named to serve on the nominating committee for new officers and Mesdames Dean Herring and Bobby Owen were appointed to work out amendments to the constitution.

The program was presented by Mrs. Richard Pickens who conducted a round table discussion on changes for improvement in club programs. Some of the things included were: attendance, dues and fines, programs and the constitution and by-laws.

Those attending were Mesdames Harold Morton, James Brownlow, Ted Hardwick, Dean Herring, Glen Hopson, Dennis Lomas, Hershel Miller, Bobby Owen, Biddy Pickens, Troys Riddle, Donald Shipley, Eugene Sparks, and Paul Schroeter.

Father of Local Man Succumbs

Jackson H. Leasure, 84, father of Clarence E. Leasure of this city, died in the Enid General Hospital in Enid, Okla., Tuesday, April 22, following a short illness. Funeral services were held Thursday, April 24, in the Fossett Funeral Home Chapel with the Rev. Robert E. Rill officiating. Burial followed the services in the Enid cemetery.

Survivors included his wife, Mary of Enid, two daughters, Mrs. Vernon Sowle of Enid and Mrs. Bud Beavers of Hutchinson, Kan., four sons, Clarence of Hereford, James of Enid, Bob and Ray of Oklahoma City, 20 grandchildren and 21 greatchildren.

Mr. and Mrs. Clarence Leasure and Mr. and Mrs. C. E. Leasure Jr. and Jon Steven attended the funeral of Clarence Leasure's father, last Thursday in Enid, Okla. Merle and Loyd Leasure of Denver, Colo., met their parents, the Clarence Leasures, in Enid.

SELF-ARREST
GASTONIA, N. C. — Police Sgt. J. E. Mosteller, after lecturing a Boy Scout troop on safety, ran a stop sign and hit a car. Acting as the investigating officer, the embarrassed police veteran quoted himself that he thought the stop sign was one block away. He charged himself with running it. Both cars were damaged, but no one, including a startled Scout riding with the sergeant, was injured.

The Thinker... are you one?

A lot of drivers give very little thought to the care of their cars. Most any gasoline will do, or indifferent service. Not so the thinking man!

He knows his car is a big investment. He wants the best gasoline and motor oil and the best service he can get to prolong his car's life, improve its performance, maintain its value.

We believe that most of the men and women who come to Phillips 66 Stations are the thinking type... people who appreciate expert service performed by trained men.

Volunteer Wheat Keeps Popping Up After Rain

MRS. CARL WIMBERLEY

Number of farmers have had to try to kill volunteer wheat. Some have plowed it as three times and each time it starts to grow again. Farmers are plowing and fertilizing now. The high of recent days caused a little blowing of dirt in this unit.

Wheat varying from light sprouts to .60 of an inch fell here today night. The heaviest occurred on a narrow strip south of Dawn to Jewell.

Switch. Hall varying from small to chunks about the size of golf balls fell, however, there was not enough to do damage.

The banquet for the pupils in Mrs. Ray Wells' and Mrs. J. N. Killingsworth's rooms will be Friday night at the school. The mothers are sponsoring the event.

Mrs. Ray of Elk City, Okla., mother of Mrs. H. C. Dow, died Thursday afternoon. Mrs. Ray who was 97 years old had been ill several months. Funeral services were held Saturday afternoon in Elk City. Dow returned home Sunday afternoon. Mrs. Dow and Della Ruth remained here.

Mr. and Mrs. Red Hensley of Borger visited Friday night in the home of Mr. and Mrs. Alfred May. The Hensleys were en route to Lubbock to visit their daughter, Mrs. May and Mrs. Hensley are sisters.

Phyllis Ann and Billie are seniors, Lucy Beth is a junior.

Visiting Mr. and Mrs. R. A. Frye over the weekend were Mr. and Mrs. Richard Frye who have been at Ft. Leonardwood, Mo. They left Monday for Ft. Bragg, N. C., where he will be stationed.

Hereford Ladies Go Chemise

By SANDRA GLENN
Chemise or not to chemise? That is the question. Well, ladies, according to our local dress shops and also the personal opinion of several of the town residents, the answer is to go chemise.

Husbands, we might add for your interest that a statement made by one of the sales clerks in town leaves the impression that the women just don't seem to care if this new fad meets with your approval or not. "I have noticed that the wives don't seem to pay any attention to what the husbands might say. They buy them anyway," Gladys Lee, sales clerk for The Vogue, stated.

ALL OF THE local stores questioned said that the chemises are "hot stuff" and also that they are here to stay. Each store said that they had made plans for a fall line of chemise dresses because predictions had it that they would be even better for the fall. Fabrics for fall are predicted to be much prettier than those for summer wear.

Irving Alexander of the Popular Store said that several times people confused the chemise and the sack. "The chemise is definitely the more stylish of the two and women are wearing them everywhere now," he said. "When we say 'sack' we think of the baggy style. The chemise is more fitted and it really suits the style of today. At first we were selling several of the chemise dresses but I noticed that the women were really reluctant to wear them. They were first seen at teas and parties and now, as I said before, they can be seen almost everywhere."

The chemise is regarded as just another style. For some time the only type styles which could be bought were the tight-fitted and full skirt, but now women and girls also have a choice of the chemise. Almost every sales clerk is of the opinion that it will not replace the fitted or the full skirt, but they do predict that its popularity will be as great.

"EVERYBODY wants at least one for their wardrobe but it isn't the only style. It is only one style among others," Mrs. Arthur Thompson of Little's said. Representatives of Little's, Popular Store and The Vogue all remarked that they had been re-ordering on the chemise style.

Mrs. Draper Talks To Westway H. D.

Mrs. Argen Draper presented a talk on "Selection of Furniture" to the Westway Home Demonstration Club when it met with Mrs. G. C. Merritt April 24.

"It is thrifty to save ahead before you buy. Cash buying prevents over buying and makes carrying charges unnecessary. To furnish a small apartment on a limited budget or to spend several thousand dollars in completely outfitting a home, requires a sense of harmony in assembling furniture. A general background of when, where and how to buy, an understanding of woods and workmanship that go into furniture construction and an appreciation of the importance of care in getting the best value from money spent," Mrs. Draper told the group.

Present were Mesdames George Turretaine, Harold Rudd, Ken Rudd, T. B. Thomas Jr., J. C. Morrison, Argen Draper and G. C. Merritt.

FIVE-STATE TOUR

Mr. and Mrs. Dick Walker returned Friday from a sight-seeing tour through points in South Texas, Louisiana, Alabama, Arkansas and Oklahoma. Walker reported, "It is very beautiful this time of year. Blue Bonnets are in full bloom and the Red Bud trees are all blossomed out. Fishing down that way this time of year is beyond compare."

Hereford Woman's Daughter Slates 1-Man Art Show

CANYON, (Special) — Charlotte Lee of Roswell, N. M., will be honored with a one-man show of her paintings during the annual Festival of the Arts, which opens May 4, at West Texas State College.

Mrs. Lee is the daughter of Mrs. J. R. Moore of Hereford.

Mrs. Lee's exhibition will be on display in the West Texas State library, where a tea honoring the artist will open the show at 1:30 p.m. Sunday. Besides Mrs. Lee's works, there will be displays of paintings and other art works and crafts by WTSC students and faculty.

A banquet Friday, at 7:30 p.m. in the cafeteria, will officially open the festival. Three speakers, Mrs. Orna Link Rowley of Amarillo Little Theatre, A. Clyde Rolier, conductor of the Amarillo Symphony, and Dr. Bill Lockhart, associate professor of art at Texas Tech, will address the banquet group.

The festival will also feature a concert by the college's band, choir, and Madrigal Singers Sunday at 4:30 p.m. in the Administration Building auditorium. A third major attraction is the six-night run of Shakespeare's "The Merchant of Venice," in the Branding Iron Theatre. It opens May 5 at 8:15 p.m.

The public is invited for all events of the Festival. Mrs. Lee's paintings are semi-abstract designs in pastel oils. She studied painting with Carl Compton at North Texas State College, where she earned her B. A. degree in art, with Mrs. Jane Davison at Eastern New Mexico University, and with Dr. Emilio Caballero at WTSC.

A member of the Art Group in Roswell, where she and her husband teach, Mrs. Lee has exhibited paintings at the Eastern New Mexico State Fair, the Roswell Art Group's annual sidewalk show, and had a painting selected for the regional annual Circle Exhibit at the Roswell Museum.

Mrs. Lee's hometown is Dimmitt, where she was graduated from high school.

TOUGH EGGS
BETTSVILLE, Ohio — They hatch a tough egg in these parts. A truck owned by the North Central Egg and Poultry Co. careened off Ohio 12 near here, slid 537 feet along a roadside ditch and knocked down two utility poles. Police said not a single egg was broken.

Chemise...
(Continued From Page 1)

said, "We have been getting in reorders almost every day, some modified and some extreme. The average customer likes the chemise after trying it on because it is stylish and women are style-conscious. I think every woman will want one in her wardrobe."

The Vogue has already ordered two lines of chemise wear for fall which they will start selling at the mid-summer sale.

How do they rate with the high school teens? According to Gladys Lee, senior student at Hereford High and sales clerk for The Vogue after school, they are really great.

"You see girls wearing them every day. Lately there have been as many as six to eight chemise dresses at school and then sometimes more."

The chemise is predicted to come out in all type-of costumes, blouses and two piece suits are now being made on the style. Sports wear is expected to take up with this new style in the very near future.

After answering questions about how the chemise was selling, Alexander remarked, "How do you say better than very well?"

At The Movies

STAR THEATER
Lafayette Escadrille: There are sixty-one known survivors of the famed Lafayette Escadrille, the flight squadron of American volunteers with the French forces in World War I, scattered throughout the world. They were known as the Yanks who wore French uniforms, fought in French planes and loved French women. The story centers mostly around the young rebel, Thad Walker, who escapes to Paris and joins the French Foreign Legion because of trouble in the States. He meets and falls in love with Renee and together they work out his problems. Tab Hunter and Etchika Choureau. Booked for Friday and Saturday.

TOWER DRIVE-IN
Joe Butterfly: The story concerns the desperate efforts of the staff of an army magazine to get out its first issue after the occupation of Japan, efforts seem doomed to failure when the correspondent of a powerful American news magazine uses all his influence to commandeer the only presses available. After a hilarious series of misadventures, the soldier boys triumph, mainly because of the help given them by a wily, not too scrupulous but altogether charming Japanese sharpie whose nickname is Joe Butterfly. Thursday and Friday. Audie Murphy and George Nader.

Gunslinger: Western. Story of a man who was hired to kill a man, but is soon to find out that the person he seeks is a woman. To make the task even harder he falls in love with her, but together they work out the trouble. John Ireland stars and it is booked for Saturday.

BEST SELLER
MONTREAL (M) — The Montreal Auxiliary Bible Society at its 137th annual meeting reported 23,000 copies in 42 languages were sold in the Montreal area last year, an increase of 2,000 over 1956.

LICENSE ERRORS

SAN DIEGO, Calif. (M) — Melvin Sykes' new driving license, valid until 1962, lists his date of birth

as March 23, 1957. His wife isn't quite pleased with her license. It lists her height as 6 feet, 1 inch; she's 5-feet-1.

A CONTRACT

A contract is a promise... a compact... an agreement between two or more persons. It simply binds the contracting parties to abide by the conditions set forth therein. It could be a marriage contract, or a business contract. *It may be a contract with your church and your God.* A contract is a serious piece of business. Do you fulfill the terms of the contracts you make? You promised to be true to your life partner until death. You signed to discharge your financial obligations on a certain date. You contracted to be a faithful member of your church... to attend regularly and support its work. Are you doing that? Do you honor your contract... your word? *The integrity of your own soul determines the value of all the contracts you make.* They are as good as you or as bad as you. Church attendance will help you prove yourself worthy of the confidence of both man and God. Attend every worship service.

YOU IN THE CHURCH THE CHURCH IN YOU
Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fortify and influence for a better citizenship and a stronger democracy. In the church the ministerial are molding religious character. Statesmen today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we on Sunday, "You in the Church and the Church in you" form a combination for good. Be a regular church-goer and a daily Bible reader.

OUR CHURCHES ARE THE FOUNDATION OF OUR COMMUNITY. ATTEND REGULARLY - TAKE A FRIEND WITH YOU.

Traffic Safety, Tax Needs Lead Capitol Topics

By VERN SANFORD
Texas Press Association

STIN. — If you drive a car, you will be a good year to pay more attention to how you drive it.

Gov. Price Daniel's "Texas Plan" to reduce highway traffic deaths will be on the spotlight in the coming session. The plan calls for more strict driving practices as well as more and drunken drivers as prime targets.

Gov. Daniel is heading a drive to mobilize all the state's resources to combat the threat of disaster. Annual loss of life and property in traffic accidents, he said, "is greater

than the loss sustained in all our natural disasters combined."

Five-point "Texas plan" involves (1) cooperation between all safety and enforcement officials, (2) formation of local traffic safety councils, (3) public education to the problem, (4) road improvements at hazardous spots and (5) more rigid enforcement and certainty of punishment for violations, especially drunken driving and speeding.

Last year 2,539 persons were killed in traffic and 132,000 were injured. Even so, 1957 ratio of fatalities to miles traveled was down — from 6.5 deaths per 100 million miles in 1956 to 6 deaths per 100 million miles in 1957. Department of Public Safety Director

Bible Words for Today

REV. 3:20 — "Behold, I stand at the door and knock..." (RSV)

Translators who were seeking to put the Bible into the language of an aboriginal tribe found that the translation of these words posed a problem. In the culture of this particular tribe, friends do not knock at one's door; they call. There, only thieves rap on doors to see if the residents of the house are at home. So the translators had to say "Behold, I stand at the door and call."

"Knock" has a different connotation at times for us, too. Sometimes we use the word to mean "to criticize negatively." Many in our society stand at the door — or far from it — and knock. They knock the church, its members, and its efforts.

Christ at the door will not be heard unless we too stand at many doors and knock — not as critics, but as callers to bring the good news.

SCHOOL BOYS' FRIEND

GAINESVILLE, Fla. (AP) — F. B. Plimmons is a specialist in a full-time job that used to be allotted to bad boys in grammar schools. He's a blackboard eraser cleaner. It's not exactly a light job for the 61-year-old employee of the University of Florida. Each school-night from 5:30 p.m. to 1:30 a.m. he collects dirty erasers from 10 big classroom buildings and replaces them with clean ones. He cleans about 1,400 a night in his supply room where he has a special brush-and-air gadget that draws the chalk dust out.

ASSOCIATED GROWERS of Hereford

Director Homer Garrison Jr. attributes the reduced rate to lower average speed. Texans saved 111 lives, he said, by slowing down average speed by 1.6 miles per hour.

Goal for 1958 is more ambitious — to save 254 lives or one for each Texas county.

It's up to every Texan, said the governor, to "accept traffic safety as a do-it-yourself project."

TOWARD SAFER ROADS

An important arm of the anti-accident campaign is a \$43,000,000 program to rebuild some hazardous spots in the highway system.

Governor Daniel and State Highway Engineer DeWitt Greer formally launched this work by placing a "drive carefully" sign by a narrow bridge on a farm road near Austin. Scene of previous accidents, the bridge is to be widened.

State Highway Department allocated \$25,000,000 to the emergency safety construction fund, and \$18,000,000 will come from federal funds.

MONEY HUNT

Gloomy predictions abound as government and industry leaders look toward the state's 1959 financing problems.

A "conservative estimate" by Sen. William S. Fly, chairman of the Texas State Tax Study Commission, is that \$45,000,000 per year in new revenue will be needed just to maintain present state services.

Latest report by the Tax Commission calls the situation "a fiscal crisis of major proportions" and "not a temporary condition."

State and local taxes have tripled since World War II, says the report, but not fast enough to keep pace with spending needs. This is attributed to a sharp upsurge in population, especially in the under 18 and over 65 brackets. These ages require expensive services (schooling, pensions) but net little in taxes.

Oil industry spokesmen served notice that oil, even if it pulls out of its present slump, cannot produce nearly enough revenue to save the day.

Charles W. Alcorn, president of Texas Mid-Continent Oil and Gas Assn., predicted a need for as much as \$65,000,000 a year in extra revenue. "Even if all imported crude oil were cut off from the U. S.," he said, "we would stand to gain only about \$20,000,000 a year."

MORE NEEDED

Further complicating the fiscal picture are

statements, such as that of the State Board of Corrections, that it will need more money from the Legislature next year.

Chairman H. H. (Pete) Coffield said the Board will ask for \$8,000,000 in building funds and a \$1,500,000 increase in its operating budget.

State prisons are overflowing, says Mgr. O. B. Ellis, with more to come. Prison population (10,400) has doubled in the past seven years while population as a whole increased 24 per cent.

ANCHORS AWEIGH

After 115 years, Texas again has a Navy. Governor Daniel has reactivated the Texas Navy and called on the some 286,000 owners of powered craft to join up. Nucleus of the fleet will be the Texas Game and Fish Commission's 180 boats.

Their purpose will be to defend, if necessary, the 10½ miles of tidelands claimed by Texas and assist with civil defense in time of disaster.

A large early response by boat owners and previously commissioned admirals "convinces me we're going to have the largest Navy in the world," said the governor.

Texas had a vigorous, if small, navy in the days of the revolution and Republic. It thwarted Mexican efforts to blockade the Texas coast and boldly raided Mexican ports. It ended its last expedition in 1843 and after annexation was incorporated into the U. S. Navy.

20,000 NEW JOBS

State Highway Commission will start taking bids next month on \$36,000,000 in "extra" road building projects made possible by the new federal aid bill.

Texas gets \$24,000,000 in federal funds, puts up \$12,000,000 in state money.

These extra projects will mean 20,000 new jobs in the state, says Commission Chairman Marshall Formby. Each million-dollar project brings an estimated \$1,000 a day for six months into the affected community, he said.

"Times have been so good since World War II," commented Formby, "that most people have forgotten the impact of a highway dollar."

SHORT SNORTS

Major crimes committed in Texas increased from 104,451 in 1956 to 116,899 in '57, reports the FBI. It was an increase of approximately 11 per cent for Texas compared to 9 per cent nationwide. Unemployment figures moved up again in Texas

Employment Commission's latest report. Total number of persons filing claims was 91,328 compared to 91,214 for the previous week. Total payments were \$1,875,520 compared to \$1,830,794. Texas Court of Criminal Appeals has the task of deciding whether Promoter BenJack Cage got a fair shake in the trial that brought him a 10-year sentence on charges of embezzling \$100,000. Defense attorneys contend the money, withdrawn from ICT Corp. and channeled through a maze of Cage enterprises, never went to Cage personally. Prosecutors retort the route was purposely devious. Building construction awards for March increased 29 per cent — almost three times the expected 10 per cent seasonal increase. Dollar-wise, construction for the first quarter of '58 was within one per cent of the same period in '57 says the University of Texas Bureau of Business Research. But, allowing for higher costs, the volume was four per cent below '57.

National H.D. Week Will Begin Sunday

By ARGEN DRAPER

Texas Home Demonstration club women — more than 36,000 of them — will be among the 47 million homemakers throughout the nation who will observe National Home Demonstration Week May 4-10. "TODAY'S HOME BUILDS TOMORROW'S WORLD" is again serving as the national theme of the week.

Mrs. H. L. Hershey, Mrs. H. S. Fuller and Mrs. Earl DeHart are serving as the committee in Deaf Smith County to work out programs for the celebration in this county. There will be pictures in the paper, radio programs and a program on May 8 to honor the club women who have served in home demonstration clubs for 25 years. Also, Mrs. LeRoy Williamson will enter the KGNC contest in Making Navy Bean Soup. Mrs. Williamson served in the Navy during World War II.

Tuesday night of this week, the annual exercises of the Day school was held. Miss Bertha Dameron, the teacher, has taught a successful eight months' term judging from the patrons of the school and the many nice things said about her work. The exercises consisted of readings, songs, recitations and dialogues, with music interspersed. The program as rendered was both a credit to the teacher and the pupils.

Drilling is progressing satisfactorily at Garcia Lake oil test well, according to E. H. Blood, on whose land the well is being sunk. The drilling crew is working 24 hours every day, and has now reached a depth of about 1200 feet. The well is located 32 miles west and three miles north of town.
At the city park, just east of the county hospital, 700 feet of water pipe is being laid this week for the purpose of watering the trees and a community garden spot of about one acre. W. L. Pickett is in charge of the park activities and said that plenty of water will now be available for the trees and garden plot.

2,000 Texas home demonstration clubs will plan special activities to highlight their programs. Special exhibits, radio and television feature stories will tell the world about the program. Tours are used by many counties to inform other homemakers and families of the purposes of home demonstration work and show its contribution to family and community life.

The county program is supported cooperatively by the Extension Service, the land-grant colleges and the county government. New research information in all phases of homemaking is brought to women and families through specialists, home demonstration agents and local leaders. Programs and demonstrations in foods and nutrition, housing and home improvement, home management, health and safety, recreation, family life, clothing, consumer buying and public affairs are developed to fit local needs and interests.

The highlight in Deaf Smith County during this week will be the announcement of The Brand's Award to the Outstanding Home Demonstration Club Woman of the Year.

The style show for the club women was good. A lot of things happened to some of the folks who had planned to be in the program but we had a good representation anyway.

Attend the District Contest on the West Texas Campus in Canyon May 3. The assembly will be in the auditorium of the administration building beginning at 9 a.m. Everyone is welcome.

BIG BIRCH
MILWAUKEE (3) — A Milwaukee attorney believes he has found the largest white birch tree in the country.

Raymond Zillmer said the tree has a circumference of 7 feet 9 inches, compared with the present record tree in New Jersey of 4 feet 7 inches. The height of the Wisconsin tree, located at Mud Lake in the Cedarburg swamp north of here, is estimated at 62 feet.

Zillmer has submitted the measurements to the American Forestry Assn.

Arney Class Visits With Mrs. Ward

Mrs. J. F. Ward served as hostess for a surprise session of a Baptist Sunday School class from Arney Sunday afternoon.

In 1900, Mrs. Ward's brother settled in Arney and Mrs. Ward visited there often and helped with church work there. A long-time friend, Mrs. Kitty McFarland, sponsored the trip for the class assisted by the teacher, Miss Rose-dale Clark, a student at Wayland College.

The group presented a program and were presented with New Testaments. Refreshments were also served.

Purpose of the trip was to bring clothing, toys and Bible pictures for a needy family, and Mrs. Ward accompanied the group to the Hereford Labor Camp where a Spanish missioner directed them to a one-room house where a family of six children lived. The little visitors sang songs and showed the pictures and toys and watched as the clothing was suit-
