

Fire Marshall Wants Fireworks Reduction

DAN WELTY
Brand Staff Writer

A "get tough" policy towards fireworks in the Hereford city limits has been adopted by Hereford Fire Marshal Jay Spain. Spain cites the number of firework-related fires last year as the reason for the campaign against fireworks in the city.

According to Spain, in the period from June 26, 1973 until July 16, 1973, the Hereford Fire Department answered alarms on six grass fires, two dumpster fires, and a fire that destroyed a barn. Spain said all were caused by fireworks. The fire marshal also pointed out this year is dryer than last year, and fires will ignite easier.

As part of the campaign against fireworks, Spain said the Fire Department would seize and destroy any fireworks found in the city. In addition, the Fire Marshal will enforce a city ordinance banning the manufacture or storage of fireworks within the city limits, and 5000 feet beyond the city limits.

City ordinance 286 under section XI-A of the Zoning and Building Permit Ordinances of the city of Hereford, amended in 1964, says: "No building or land, located within 5000 feet of the city limits of the city of Hereford... shall be used, and no building hereafter be erected or structurally altered... which is arranged or designed for... the manufacture or storage of explosives."

Spain said according to the Department of Transportation, fireworks were classified as Class B and Class C explosives, and that some fireworks might contain Class A explosives, though in limited amounts.

Tuesday Spain checked highways to 5000 feet beyond the city limits, and locations in the city limits where fireworks are usually sold. The fire marshal said he found fireworks stands in violation of the city ordinance on Highway 385 north, and on Highway 385 south.

Operators of the stands were warned to move the stands outside the 5000 feet limit by 4 p.m. Tuesday afternoon, or face a warrant and \$200 per day fine until complying with the law.

"The law is an old one that hasn't been enforced, said Spain," but due to the number of fireworks related fires last year and the number of fireworks-related annoyance calls, we decided to do something about them."

Spain continued, "The whole point of making the fireworks stands move outside the 5000 feet limit is to make the fireworks inaccessible to the young kids. We are hoping that the parents will have to take the kids to the stands, and the parents supervise the lighting of the fireworks. This should keep the kids from buying two or three dollars worth a day and then shooting them off in the city limits."

"The fireworks stands are not supposed to sell to kids under ten years of age anyway. And what some parents don't realize is that they are liable for whatever damage their kids cause with the fireworks."

"Last year we had nine fireworks stands around Hereford, and we warned them we would enforce the 5000 feet limit this year. We have only four fireworks stands operating now, and as dry as it is this year, every little bit helps."

A ban on the sale of most fireworks was enacted earlier this summer by the Consumer Product Safety Commission. The ban was lifted for 30 days, however, by a court injunction. The injunction would allow more than \$150 million in fireworks to be sold during the Fourth of July holiday.

Fireworks Regulations

Firework vendors must locate their stands at least 5,000 feet outside posted city limits locally if they wish to sell firecrackers for the upcoming

July 4 holiday. The stand shown above was moved to comply with the city ordinance.

Commissioners Study Proposals

Deaf Smith County Commissioners decided Monday to learn if refusal to comply with recommendations of a criminal justice agency means no federal funding for proposed county jail improvements.

In a recent letter to Ron Barblitt, a San Angelo architect retained by the county to design plans for jail improvements, the National Clearinghouse for Criminal Justice Planning and Architecture made 37 modifications to be included in plans before it would recommend release of funds.

AMONG OTHER things, the NCH recommended women's rooms should not contain showers, the avoidance of closed circuit television for monitoring purposes, the replacing of barred windows with secure window frames and glazing, phasing out of the trustee program and an outdoor recreation program for inmates.

Commissioners, agreeing the cost of such a program would be prohibitive if undertaken by the county alone, told Sheriff Travis McPherson to confer with a national consultant in San Antonio to learn if absolute compliance with the recommendations is necessary to qualify for federal money.

In other business, Mrs. Argen Draper, county extension agent for more than 27 years, gave the commissioners

her resignation, effective Aug. 31, 1974.

IN HER resignation statement, she said, "I ponder my retirement as many happy years have been spent in Deaf Smith County. I appreciate the splendid cooperation while working here—the cooperation of club women, commissioners court, merchants, the Hereford Brand K-PAN Radio and other citizens. Everyone has been very good to me both personally and professionally."

Mrs. Draper added, "I will continue to live here and continue to work for the betterment of our community."

A permanent replacement has not yet been named by the county extension service, but one is expected to be named by July 15, Mrs. Draper said.

COMMISSIONERS approved a request from Pioneer Natural Gas to install a three-quarter inch pipeline across a road in the southwest corner of Sec. 51, Block K-3 of Deaf Smith County.

Nell Miller, county tax assessor, asked for a counter to be installed in the new county tax office—the west portion of the old library on the ground floor—to provide a work area for employees.

A COMMITTEE representing the 4-H Clubs complained to the commissioners of a lack of planned activities for 4-H Club

members. The commissioners referred the committee to Justin McBride, county agricultural agent.

Commissioners also tabled the purchase of a maintainer for Precinct 4. Commissioners went into executive session Monday afternoon to discuss 1975 budget requests from all county offices and salary adjustments for 1974 and 1975.

ANDY SHUVAL, district attorney, met with the commissioners earlier Monday to present his office's budget request, which included \$4,687 in non-salary expenses in addition to salary adjustments for all personnel, including himself.

Shuval requested for himself the same general increase which the commissioners may grant to other county officials. For his assistant, Shuval requested a \$50 per month increase. The county pays \$1,600 of the assistant district attorney's current salary, with the remainder paid by the Texas Criminal Justice Council.

For his full time secretary, Shuval requested a salary increase of \$40 per month in addition to whatever general increase may be given to other county employees. Shuval also requested a \$40 per month increase for each of his two part time secretaries.

Cof C Holds Quarterly Meet

After acknowledging previous accomplishments by the Deaf Smith County Chamber of Commerce, Roy Faubion, president, urged Chamber members Tuesday to continue striving to make Hereford and the county a better place to live and work.

FAUBION, guest speaker for the chamber's quarterly report to members, compared Hereford to a lumberjack whose production had fallen because the lumberjack had been too busy to sharpen his axe.

"I think this is what has happened to Hereford and Deaf Smith County and perhaps some of this area around here," Faubion said. "Hereford always has been and is now, the enchantment spot of the Panhandle. And in large part, I think the Chamber of Commerce through the years can take much of the credit which means the people have done the work."

He continued, "But we've arrived at a time in the last two or three years when the world has begun to change and we are being forced to change with it. And we are not content, as I think you feel, along with me, just to stay up with the crowd, we want to be out in front."

TWO AREAS the chamber is especially interested in, Faubion said, is industrial development and development of people resources. He said an industrial team formed of local people has had training to sell Hereford and the county as an attractive industrial area to companies looking for relocation sites.

Bill Albright, executive vice president of the chamber, reviewed chamber activities for the first half of 1974 and enumerated tasks yet to be completed. Upcoming chamber events include a July 4 celebration, tennis tournament, AAU Junior Olympic Track Meet, agricultural tour for visiting students, West Texas Chamber of Commerce Convention, and a number of seminars on various topics.

ALBRIGHT said the chamber would continue vigorous efforts to obtain a YMCA-type facility for Hereford.

The chamber members extended a wish of good luck to Susie Hickman, Miss Hereford of 1974, who will compete for the Miss Texas title July 4 in Fort Worth. Special recognition was given to Mr. and Mrs. Pete Caviness for their remodeling of the chamber facilities at 701 N. Main. Faubion presented them with a plaque.

HISD Gets Grant For Bilingual Education

Hereford Independent School District received word Tuesday from U.S. Congressman George Mahon the U.S. Department of Health, Education and Welfare has granted \$70,400 to the district for bilingual education.

According to Title 7 of the Elementary and Secondary Educational Act (ESEA), the grant's purpose is the "development and operation of new programs, services and activities which meet the special educational needs of children 3-18 years of age who have limited English speaking ability and who come from environments where the dominant language is not English."

THE PROGRAM is to start July 1, 1974 and extend through June 30, 1975. The nationally funded grant is the first part of a proposed five-year project for bilingual students.

Ed McCreary, director of federal programs for Hereford schools, said Tuesday the money would be used to hire 12 bilingual teacher aides for first grade and to buy \$9,000 worth of bilingual materials for students.

McCreary said the bill making bilingual education compulsory in public schools having 20 or more students in any grade whose dominant language other than English was passed in the last session of Texas legislature.

"WE, and schools like us, due to state lawmakers," he said, "must go into bilingual education, but very few state funds are available. The state's money is now used for teacher training for 1974 plus \$10 per student to buy bilingual materials."

McCreary, who wrote the proposal for the Title 7 grant, said the HISD's plan is to have typically one bilingual and two monolingual teachers in elementary schools and two bilingual aides. "This team of five people, with team teaching, will conduct the bilingual program," he said.

Six Hereford bilingual teachers attended a workshop conducted here by the Texas Education Agency June 11 to June 14. Monolingual teachers are attending a workshop here which began Tuesday and will end Aug. 2.

ALL OF the Hereford first grade students will be involved in the program, McCreary said.

The bilingual act as passed by the state calls for the program to be continued from grade one to grade six, McCreary said, but most school districts interpret the bill to say the continuance of the program after the third grade is up to local school boards.

Texas League Head To Speak Here

Bobby Bragan, president of the Texas League, will come to Hereford Friday to speak at the Bronco League Awards Banquet. The feast will be held in the Bull Barn beginning at 8 p.m. Bragan will award All-Star caps to players who received the award in both

the Bronco and Pony Leagues. Also to be named are coach of the year, most valuable player, and a trophy will be given for sportsmanship.

USDA Names Local Man In Complaint

Arvel L. Baker, a Hereford livestock buyer named Monday by the United States Department of Agriculture as being charged with violation of the Packers and Stockyard Act, said Tuesday he had "no comment" about the complaint.

In a USDA news release, Baker was

cited as being charged with violating financial, payment, and record keeping requirements of the Act.

BAKER, operator of the Art Baker Cattle Co. of Hereford, the news release said, is registered as a market buying agency buying on commission and as a

livestock dealer making livestock purchases in Texas, Oklahoma, Missouri, Kentucky, Minnesota, North Carolina and Georgia.

baseball all his life. He began playing baseball as a boy in Birmingham, Ala., and was recruited by the Philadelphia Phillies. After a year with Philadelphia's farm club, he was called up and played shortstop for the Phillies until 1943.

In '43, Bobby was traded to the Brooklyn Dodgers and became back-up catcher to Leo Durocher. Bobby became a player-manager with the Fort Worth Cats, Brooklyn's AA farm club in 1948.

Between 1956 and 1969 when Bobby became president of the Texas League, he managed the Pittsburgh Pirates, the Cleveland Indians, and the Milwaukee Braves, and scouted for the Montreal Expos.

MANY NAME players have been under Bragan's guidance, including Hank Aaron, who devoted a chapter to Bragan in his autobiography. Dickie's Restaurant will cater the banquet, with fried chicken and all the trimmings on the menu. Tickets will be sold at the door for \$2.

(Continued From Page 1A)

Administration charged Baker: Had current liabilities exceeding current assets by more than \$401,000 as of March 31, 1974.

Issued insufficient funds checks for more than \$159,000 worth of livestock from October, 1973 through February, 1974.

Failed to pay, when due, for more than \$430,000 worth of livestock from Aug., 1973 through Feb., 1974, including those listed above, and still owed more than \$270,000 as of March 31, 1974.

Failed to maintain sufficient accounts and records to fully and correctly disclose all transactions involved in his livestock business.

AS NOTED in the USDA statement, filing of the complaint does not prove Baker to be in violation of the Act. A hearing will be necessary to determine whether the evidence supports the charges. However, should the charges be substantiated, Baker would be placed under a cease and desist order and his registration could also be temporarily suspended.

Under the Act, described by the USDA as a fair trade practices law, market agencies and livestock dealers are required to maintain a solvent financial position and pay promptly for livestock, unless credit has been arranged in advance.

Rotarians Host Ladies Night

Food, music and awards highlighted the Hereford Rotary Club's Ladies Night Banquet Tuesday night at the Hereford Country Club.

After the dinner, Charlie Bell and his band played selections set to a hand-clapping rag-time beat for the listening pleasure of the Rotarians and their "Anns."

New directors and officers for the year were introduced at the banquet. Introduced were Buddy Peeler, president elect; Roland Saul, program chairman; and directors Charles Wagner, Buff Benson, Roger Rudin, Alex Schroeter, Lynn Jones, Stan Simon and Johnny Price.

Outgoing Rotarian President Marcus Hoelscher was presented with a gavel in honor of his year of service. Other awards included a plaque to Buff Benson as Outstanding Rotarian of the Year and a gift to Taffy Herr, club sweetheart.

Sister Of Woman Is Buried

Funeral services for Mrs. Mayve Weaver, 58, of Albuquerque, sister of Mrs. Carroll Whiteside of Hereford, were conducted Tuesday morning in Amarillo, her former home for 30 years. Burial was in Llano Cemetery.

Mrs. Weaver is survived by her husband, a daughter, a son, her father and the sister here.

Do high radio and television towers have a tendency to draw lightning and thereby lessen the danger to lower structures and trees nearby? High metal towers will often draw electrical discharges from clouds passing low overhead. So will especially tall buildings. Since the electrical charges of clouds are attracted by the nearness of high grounds, like transmission towers, these towers often pull the lightning that would otherwise discharge later, elsewhere.

Grain Market Trends Available By Phone

AUSTIN--Automatic telephone answering equipment in Amarillo, Lubbock and Vernon will give grain producers and buyers immediate access to the latest market trends 24 hours a day, according to Agriculture Commissioner John C. White.

Taped messages include prices paid to use farmers FOB elevator and elevator selling prices on grain sorghum.

Other commodities covered daily by area are wheat, soybeans and corn north of the Canadian River, the Plainview-Canyon-Farwell triangle, south of the Muleshoe-Plainview line and the Rolling Plains. Chicago and Kansas City cash and futures closing prices and Houston export prices are quoted also.

Daily information will be provided during harvest from the Lower Rio Grande Valley, the Coastal Bend and other major crop production centers.

A service of the Texas Department of Agriculture's Market News, the equipment

was added "to satisfy the growing demand for daily information," said White. "The erratic grain market of today creates the need for immediate, up-to-date information gathered by an objective agent."

Telephone numbers are: Amarillo (806) 352-7411, Lubbock (806) 763-3285, Vernon (817) 552-7541.

The service is also provided on other commodities and weekly summary reports are published for those requesting them.

Telephone numbers are: livestock, Amarillo (806) 372-3494, San Antonio, (512) 223-4100, Sealy (713) 885-2050; fruits and vegetables, Weslaco, September-July after 5 p.m. (512) 682-3351, Hereford, July-October, (806) 364-0129; poultry, eggs, seasonal pecans, peaches and watermelons, Austin, (512) 475-3845.

Users of the telephone answering service may request additions or changes by writing the Market News Service, P.O. Box 12847, Austin, Texas 78711.

The Hereford Brand, Hereford, Texas, Thursday June 27, 1974 Uniform Meat Labeling Needs Consumer Push

AUSTIN--Consumer pressure may hasten the adoption of voluntary meat label standardization which will reduce the names of meat cuts from 1,000 to 300, said Agriculture Commissioner John C. White.

According to White, the Texas Department of Agriculture is encouraging the use of standard names at meat counters across the state.

The department has distributed beef charts with the new nomenclatures as a consumer aid and meat identity standard manuals to meat department managers. The charts, printed in small and large sizes, are also available to individuals.

"In a mobile society such as ours, standardization will cut down on the confusion a consumer faces after a move from California to Texas," White said. "As it is now, cuts of meat are called by different names in every region of the country."

The National Livestock and Meat Board, which has coordinated the program, reports that response has been favorable where standardization has been adopted. Most major chains and local markets are expected to comply eventually.

New labeling first identifies the species of meat (for example, beef), the primal area (rib) and the recommended retail name (eye steak). Gone will be such misleading terms as Beauty, Spencer and His 'n' Her Steaks. Names like Porterhouse Steak and Filet Mignon that have become traditional and accepted nationwide may be used on the label in addition to the other information.

"For consumers to get the best buy, it is important that

they know as much as possible about the meat they select," White said.

Three grades of beef are currently marketed at the retail level, U.S. Prime, U.S. Choice and U.S. Good. Choice is the favorite of most consumers and is sold in most retail stores.

Prime beef is liberally marbled, tender, juicy and flavorful. Choice is of high quality with less fat than Prime. Good is lean beef of fairly good quality. It has less flavor than Prime and Choice but because of its high proportion of lean to fat it contains more protein per weight.

White said there is a move to introduce a new grade of beef between Choice and Good into the market. As yet unnamed, the grade would have less marbling than Choice beef and would include the best meat now marketed as Good.

"Good," White said, "has become a catch-all for cattle of different sizes and ages. Therefore, quality within the grade varies considerably."

A consumer bonus if the category is adopted might be lower beef prices. Cattle would be fed for a shorter period than Choice animals, and the savings would be passed along.

TDA beef charts are available by writing to Commissioner of Agriculture John C. White, Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711.

Agriculture Commissioner John C. White reported that one serving of sweet potatoes supplies the body with its daily Vitamin A requirements and approximately one-third of its Vitamin C needs.

Manpower Programs Tailored To Local Needs

By PETER J. BRENNAN
Secretary of Labor

QUESTION: I've read in the newspaper about the manpower program called CETA. What does CETA stand for and how does it work?

ANSWER: CETA stands for the Comprehensive Employment and Training Act, which was signed into law in December 1973 by President Nixon. Under CETA, federal funds which the Labor Department has used to finance manpower training programs will be given to states, counties and cities, allowing them to tailor manpower programs to meet the particular needs of their citizens. Funds will go to prime sponsors - generally a state, city, county or a combination of such local government units - to provide manpower services to the people of a geographical area. The Labor Department will also provide technical assistance to prime sponsors in preparing and implementing their local plans. For more information about CETA, write: Manpower Administration, U.S. Department of Labor, Washington, D.C. 20213.

QUESTION: My boss says there are so many rules to follow under the federal safety and health law that he thinks he will have trouble obeying them. Are the rules really that complicated?

ANSWER: It's true there are a great many rules, but there must

be to cover the many hazards in the thousands of different types of businesses covered by the Occupational Safety and Health Act. There aren't that many rules to worry about for any single business. A recent study shows that just 15 job safety and health standards cover 40 percent of all serious violations of the law, and 5 percent of all the rules account for more than 80 percent of all violations cited by inspectors. Most of these are simple, easy-to-follow rules on housekeeping, fire prevention and sanitation. For more information on OSHA standards, write: Occupational Safety and Health Administration, U.S. Department of Labor, 1726 M St., N.W., Washington, D.C. 20210.

Editor's note: If you have a question regarding job training and placement, labor-management relations, job health and safety, equal employment opportunity, wages and hours, employment and unemployment, prices and earnings and other matters involving the U.S. Department of Labor, send it to:

Navy Duty Takes Betzen To Egypt

Navy Fireman Apprentice James A. Betzen, son of Mrs. Agnes Betzen of 1101 Union, visited Alexandria, Egypt, as a crew member of the amphibious assault ship USS Inchon.

As part of the US force in the Mediterranean, he will participate in training exercises with Sixth Fleet units and visit several other Middle East countries.

A 1973 graduate of Hereford High School, he joined the Navy in June 1973.

Clarendon Hosts 4th Celebration

Free beef, radio-TV and recording stars will be added attractions at the annual July 4-5-6 Celebration in Clarendon, annual event of some 75 years.

A free whole beef will be given on rodeo stubs at each rodeo performance Thursday, Friday and Saturday nights.

Friday night, July 5, Dave McCall and his band, The Tennessee Volunteers, will play for dancing on the outdoor floor at the Rodeo Arena. This band is often referred to as "The Best Dance Band in Texas." With the band will be Red Stegall, star of the TV show "Music Country USA." Red is a native of Fritch, and a former student at West Texas State University. He is also a recording star.

There will also be a Country Craft Fair featuring handicrafts, Indian jewelry and foods on the Courthouse lawn from 9 a.m. to 6 p.m. July 4th.

Other attractions July 4th will include The Old Settlers meeting from 11 to 12 o'clock noon, a Western Parade at 1 p.m. and a Fiddlers Contest with a \$300 purse at 2:30 p.m. on the Courthouse lawn.

Dances will be held each night at the Rodeo grounds. Playing Thursday and Saturday nights, July 4th and 6th, will be Tiny Lynn, well known in this area for his dance music.

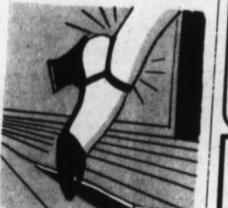

Stock for the rodeo performances will be furnished by Fred Cordell of Childress. Books open at 9 a.m. July 3rd at rodeo headquarters and close at 6 p.m. the same day.

Everybody is invited to come to Clarendon and join in the fun and festivities July 4-5-6, stated Bob Boston, president of the Clarendon Outdoor Entertainment Association.

THE FAMILY LAWYER

Off Guard

Erma was all too familiar with the cracked floorboard in her apartment, and she usually stepped over it with care. But one day her attention was diverted by her pet parakeet, as it made a sudden beeline for an open window. Momentarily off guard, Erma tripped on the floorboard and sprained her ankle.

Could she collect damages from her landlord for not keeping the apartment in good repair? In a court test, the landlord argued that Erma herself was guilty of negligence for forgetting about the faulty condition of the floor. But the jury absolved her of negligence and granted her claim. Reason: the "distraction doctrine." Under this doctrine, behavior that would ordinarily be considered negligent may be excused if the person's attention was distracted from the danger. But not every kind of distraction is enough to constitute an excuse. It must be quite sudden, quite unusual, and quite compelling. Something less won't do.

Gracefully delicate crafted with the master's touch from GOLDMASTER

Cowan Jewelers

Earnings High Locally

The lifetime earning capacity of the average male resident of Deaf Smith County has expanded greatly in recent years and has reached new heights.

Under current conditions of employment, of national productivity, of education and life span, the typical local man who is just entering the labor force has a prospective lifetime income of no less than \$405,000.

THIS IS NO PIPE DREAM. It is based upon a recent Department of Commerce study of lifetime income, as determined by educational attainment and other factors.

The estimated earning power of the average young man working, takes into account the amount of schooling he has received and the present level of income in the area, as related to incomes in other parts of the country.

From the standpoint of education, the latest Census Bureau figures show that 9.5 per cent of the local male population, age 25 or older, have gone through elementary school, that 21.5 per cent have completed four years of high school and that another 10.0 per cent have had four years or more of college.

SOLELY FROM a dollars and cents consideration, the government study indicates, whatever investment of time and while. It produces a high rate of return.

In general, the average high school graduate will earn approximately \$135,000 more during his lifetime than a person with only an elementary school diploma.

By the same token, the college graduate stands to make \$279,000 more than the man who has completed only high school, the report states.

IN DEAF SMITH COUNTY, the educational level of the population is relatively high and is steadily moving higher. The median amount of schooling being acquired by local men by the time they reach age 25 is 11.0 years. This is more than in many sections of the country.

Nationally, there has been an upward trend in the proportion of males going beyond high school. It rose 50 per cent in the last 15 years.

Seiglers Make Memorial Gift On Wall Street Risks Fill Deep Wells

"Living Memorials" to the American Lung Association of Texas have been received in memory of Mr. T.E. Seigler, Jr. of Hereford.

Funds from these memorial gifts will support research, public and professional education and community services of the Association.

Formerly known as the Texas Tuberculosis and Respiratory Disease Association, the Lung Association has now turned major attention to lung diseases such as emphysema, asthma, chronic bronchitis and other less commonly known crippling respiratory diseases in adults and children. The Association also maintains a vigorous anti-smoking program for school-age youngsters in Texas.

Memorial gifts may be mailed to the American Lung Association of Texas, 514 East 9th Street, Amarillo, Texas 79101.

What a snow job! Early man believed that storms were due to the wrath of a supernatural beast!

BOB HILL
 LENTZ, NEWTON & CO.,
 AMARILLO

Critics of oil company profits, the cost of natural gas and the depletion allowance will be interested in the outcome of a gas well recently drilled just 80 miles west of Oklahoma City.

The "deepest well yet" was drilled by Lone Star Gas with three other minor partners and the tab was \$8-million for the dry hole. The well had gone to a depth of 31,441 ft. (just a few feet short of 6 miles into the earth's crust) before hitting liquid sulfur. Hydrogen sulfide began eating away the drill string and

the well had to be plugged at the 14,000 ft. mark.

THE WELL USED enough steel drilling pipe to erect a 14 story building and also required an expensive high-tensile-steel drill pipe and special drilling fluids. This well happened to be just 19 miles from another dry hole which went down over 30,000 ft. and cost \$3.5 million dollars. Lone Star Gas headed that venture also.

The number of wells drilled to depths below 30,000 ft. were 74 in 1973 compared to 49 in 1972 and 57 in 1971. The wells averaged \$2-million a piece and the success ratio is about 46 per cent.

It's human nature to take things for granted, just as the U.S. took the rich oil production of the Mideast for granted. It will be only a matter of time before natural gas reaches a price level which will make imported liquefied natural gas from North Africa and Russia competitive with our own gas production. Will we then be potential victims of a natural gas embargo?

We must demand that Congress carefully evaluate and study the depletion allowance and exploration incentives to U.S. oil and gas producers. Unrealistic pricing of natural gas by the Federal Power Commission should be reviewed much more thoroughly before the oil and gas industry is criticized for excessive profits which resulted from a situation over which

they had little control. Second guessing is a luxury this country can't afford when it comes to the best ways to develop a diminishing vital natural resource.

The south trade winds are those below the Equator and the north trade winds above. They tend to blow out of the east toward the west, especially nearer the Equator. They become more southerly in origin nearer 30 degrees north and south.

Further north, above the north trades, and south, below the south trades, blow the westerlies. They come out of the west and blow to the east, and are found to about 60 degrees north and south. In the north they really come from the southwest and blow slightly north and east.

Horse Club

Members of the 4-H Horse Club rose bright and early Saturday morning to load their horses in trailers at Sugarland Mall for a trail ride north of Vega. Twenty-one 4-Hers camped Saturday night on the LS ranch north of Vega and spent four hours Saturday and Sunday riding trails.

Nothing short of independence, it appears to me, can possibly do.
-George Washington.

It is my living sentiment, and by the blessing of God it shall be my dying sentiment,—independence now and independence forever.

STATE CAPITAL Highlights AND Sidelights
by Lyndell Williams

AUSTIN, Tex. — A flood of Mexican aliens, estimated at more than a million a year, is pouring into Texas, according to a new Texas Good Neighbor Commission report.

More than half the illegal entrants cross the Rio Grande into Texas. Good Neighbor Commission said the number of such entries is greater than the total number of immigrants who entered the U.S. legally from all the countries of the world.

Last year, the GNC noted, 875,000 deportable Mexican aliens were found in the U.S., and immigration officials figure one escapes for every one apprehended.

Sophisticated smuggling techniques aid the crossings. Immigrants have a social and economic impact in virtually all regions, since the aliens move on to metropolitan areas all over the U.S. in search of better jobs and safety from arrests.

Top AFL-CIO officials promptly called for tough new state laws making it an offense to hire illegal aliens, punishable by stiff fines or prison terms.

DEMOCRATS TO DELAY — Democrats are still in a dither about whether they should "recess" their September 17 state convention until September 19 to avoid a conflict with a high Jewish holy day.

A rules change to allow the delay will be aired at a special meeting of the State Democratic Executive Committee in Austin July 16.

If hotel rooms can be made available September 19, SDEC will consider the change (to keep the convention from falling on Rosh Hashana, the Jewish

New Year). But a three-fourth majority is necessary to order the rules amendment.

APPOINTMENTS — Clyde Johnson of Bulverde and San Antonio was named by Gov. Dolph Briscoe to the Texas Water Quality Board, succeeding the late Gordon Fulcher of Atlanta.

Briscoe also named E. Carl Dillard of Pearall to the State Judicial Qualifications Commission. He reappointed five State Health Advisory Committee members and appointed as new Committee members Mrs. Edd Henard of Wellington, Mrs. Emma Nugent of Orange, Mrs. H.L. Long of Kilgore, Mrs. Marie Bynum of Longview, Rogers Wilson of Austin, W.W. Manley of Terrell, Rev. Claude Black of San Antonio, Domingo Pena of Corpus Christi, Ernest Coker Jr. of Conroe, Ronnie Boules of Pecos and Ed Baker of Arlington.

AG OPINIONS — Atty. Gen. John Hill held a newspaper's donating free space to an official's column when he is a candidate for reelection is not a campaign contribution under the law.

In other recent opinions, Hill concluded: A county commissioner may not be paid for serving as appointed lawyer for an indigent defendant.

Texas Water Development Board has a duty to approve or disapprove plans for proposed levees along any stream subject to floods or overflows.

An appointed attorney who represents both an indigent criminal defendant in district court and a juvenile in juvenile court the same day may not receive more than one fee.

WELFARE ROLLS DECLINE — Fewer Texans got welfare benefits last year, the Department of Public Welfare reported.

The department's annual report showed Old Age Assistance was down from an average of 210,000 monthly in 1972 to 182,000 in 1973.

Aid to Families with Dependent Children declined from a peak of 121,588 in February 1973 to 118,681 families in July.

COURTS SPEAK — The State Supreme Court held unconstitutional a new state law regulating juke boxes and other coin-operated amusement machines.

The Hereford Brand, Hereford, Texas, Thursday June 27, 1974

Attorney General Hill called on the U.S. Supreme Court to accelerate a Texas case challenging impoundment of water pollution funds by President Nixon.

Austin, San Antonio and Lower Colorado River Authority called on the Third Court of Civil Appeals to require the Texas Railroad Commission to force Lo Vaca Gathering Company to live up to its gas supply contracts.

The Court of Criminal Appeals upheld a life sentence given a Dallas man for assault to murder a police officer.

A hearing was set in the Supreme Court for July 17 on whether two elderly sisters can get back \$100,000 and 7,500 acres of land they gave to the Stephens County Museum, Inc.

The high court ordered the Dallas Court of Civil Appeals to take another look at adequacy of a \$4.146 damage award given a Van Zandt County man who was bitten on the hand by a neighbor's hog.

OIL ALLOWABLE SET — The statewide oil allowance for July was fixed by the Railroad Commission, for the 28th straight month, at 100 per cent level.

Major crude oil buyers asked for 3,843,362 barrels of oil daily in July, a decrease of 36,087 from June.

Commission Chairman Jim Langdon pointed out that the U.S. still imports 1.5 billion barrels of crude annually — a "very long way" from self-sufficiency.

Exceptions to the 100 per cent order were East Texas and Kelly-Snyder fields which were restricted to 86 per cent production.

BEAUTIFICATION AWARDS MADE — Seven cities received Governor's Community Achievement Awards for outstanding community beautification projects during the last year.

Winning cities were Stanton (under 2,500), Eastland (2,501 - 5,000), Athens and Jacksonville (5,001 - 10,000), Lufkin (10,001 - 20,000), New Braunfels (20,001 - 60,000) and San Antonio (over 60,000).

Eighty-six communities submitted entries in the competition. Awards were made at the seventh annual meeting of the Beauty Texas Council here.

BUDGET HEARINGS START — Hearings of the 1976-77 state budget — the first to use the new zero-based system — are under way.

Some of the early requests by state agencies reviewed by the Legislative Budget Board and the governor's office are running almost twice current spending.

Requests, under the new plan, are divided into three levels — bare minimum, middle bracket and highest feasible.

SHORT SNORTS
Twenty key state agencies report substantial employment increases for blacks and Mexican-Americans.
New textbooks considered for school use will go on display July 1 in 20 regional education service centers.
A \$48,000 state award from the Department of Mental Health and Mental Retardation will assist Attorney General Hill in legal research on rights of the mentally retarded.
Texas is seeking more than \$17 million in federal funds to help finance public school programs for children of migrant farm workers during the 1974-75 school year.
More than 175 Texas areas are eligible for flood insurance through a new special program administered by the National Flood Insurers Association.

Fungus Gives Big Bonanza

By BOB HILL
Lentz, Newton & Co., Amarillo
 Suddenly a fungus, isolated by government research scientist seeking an answer to the nagging problem of jungle rot, has become the hottest discovery of the past 50 years. The super-fungus (*trichoderma viride*) will grow in any substance containing cellulose. After 5 to 10 days, the solids are filtered out and the resulting liquid or residue will turn cellulose into glucose in 48 hours. The glucose can then be converted to food or fuel.

The scientists have converted old newspapers, cardboard cartons and even manure into yeast and ethanol. The ethanol can be blended with gasoline on a 90 per cent gasoline to 10 per cent ethanol mixture. Some chemists have successfully run automobiles on a 90-20 mixture.

The potential of the super-fungus is mind-boggling. It means that 1,000 lbs. of city trash can be converted into 500-700 lbs. of glucose per month in the laboratory. Scientists estimate that 3-million tons of city and farm trash will convert into enough ethanol to offset a shortage of 5-million barrels of oil per day. Although ethanol (grain alcohol) is more expensive than gasoline today, the super-fungus process will make it competitive with gasoline.

Scientists are even more enthusiastic about the food possibilities of the superfungus. Asian countries with large quantities of rice hulls (rich in cellulose) are anxious to begin converting these into protein using the super-fungus process, which will produce a single-cell yeast, suitable for livestock today, and hopefully for humans tomorrow.

A pilot plant is in operation now and economic feasibility tests are underway. A key problem is preparing the raw waste for mixing with the enzyme solution. Two methods of grinding up trash are being used and researchers are studying other methods.

The super-fungus process is already competitive in price with glucose produced from corn starch treated with acids. Experts believe that super-fungus glucose will be much less expensive than the corn starch product when produced in large volume.

Grand Opening
 Ribbon cutting ceremonies Friday celebrated the grand opening of a new clothing factory outlet named Ashley's on the Sugarland Mall. On hand for the occasion from left to right Jesse Howell, district manager; Jim Tucker of KPAN; Fred Rodriguez, Ashley store manager; Bill Robinson, regional manager; Irene McKinster of the Hereford State Bank; Dorell Jones of the Chateau Inn; Roy Faubion of KPAN and president of the Chamber of Commerce; Frank Prins, president of the Ashley group; Don Tardy of the Lone Star Agency; Gene Ried, field operators director; Don Childers of the Lone Star Agency; and Melvin Jayroe of the Lone Star Agency and chairman of the Hereford Hustlers.

AC Schedules Term

July 15 is enrollment day for the second summer session of day and evening classes at Amarillo College.

Sign-up procedures will begin at 9 a.m. in the Biological Sciences Building at the Washington Street campus.

Evening class registration will be held from 7 to 8 p.m. in the Administration Building.

A late fee will be assessed students who register after the July 15 enrollment date, said J. Fred Balderston, registrar.

Second session classes will be held July 16 through Aug. 16. Most day sessions will last 90 minutes Monday through Friday.

The first AC summer session, which will end Friday, July 12, attracted 1,281 students.

A list of summer course offerings and application forms will be available from the registrar's office in the Administration Building.

AMERICANS & CANDY
 Commerce Department figures showed that Americans paid \$2,192,000,000 for 3,921,600,000 pounds of chocolates, candy bars and other confectionery goods last year. The amount paid was 8.3 per cent above 1973.

The General Accounting Office says the development of 55 new weapons systems has brought on cost overruns totaling \$26.3 billion so far. It was reported 24 of the 55 systems are one year behind the planned delivery schedule.

LOUISA'S LETTER

Dear Louisa,
 Just a few words to ask your opinion on something. Well I was going with this girl for 5 months. Then for some reason she broke up with me. She said because she had found out that I had went out with another girl, well all I did was dance with the other girl at a dance.

But here, a few weeks ago, she came to see me after she found out about I am going in the service. We have gone out a few times since then, and she says that she still loves me but she will not take the ring back. What should I do? I love her alot.

Depressed-Miss.

Answer:
 Perhaps she thinks it will be wiser for both of you to feel free to date other people

RECIPE

Almond Chicken with Rice
 You probably know that ce, so versatile and acceptable, is economical and delicious.

3 c cooked rice
 1/2 c sliced mushrooms
 1/2 c almonds blanched
 3 T salad oil
 1 clove garlic cut
 1 t salt
 1 c cubed bamboo shoots (canned)
 1/2 c thinly sliced water chestnuts (canned)
 1/2 c thinly sliced celery
 1 c diced cold chicken
 2 T liquid (1 tablespoon each from bamboo shoot and water chestnut cans)

Brown almonds in 1 tablespoon oil. Set aside. With a fork, mash garlic into salt in skillet. Add 1 tablespoon oil and then bamboo shoots and mushrooms. Brown lightly. Add liquid. Cover tightly. Cook over low heat 5 minutes. Add water chestnuts, celery and 1/2 of the almonds. Just heat through. Celery and chestnuts should remain crisp.

Make gravy by mixing 2 teaspoons cornstarch, dash salt, 1/2 teaspoon sugar, 4 tablespoons water and 4 teaspoons soy sauce. Cook until liquid thickens and is smooth. Garnish with green onions and almonds. Serve with hot fluffy cooked rice.

Try It
 If you think fascism can rule America try telling your wife that your first duty is to the State instead of her.
 -Times, Louisville.

TV COMMENTARY

By John Smiley

CANNON and "Barnaby Jones" fans probably have heard that the sets for these two shows received more than a hot-foot from the recent fire at Goldwyn Studios. An expensive penthouse suite was completely charred away from Cannon. Barnaby Jones lost his main office, outer office, laboratory and many props.

JUNE 24 is a time in life when lookers may wish to rest on one's oars a bit and visit with PBS for some sharp-sighted insight. The program to view is "The Male Menopause: The Pause that Perplexes." Included will be some original music written for the occasion by folksinger Oscar Brand.

THE PAST-MASTER of pantomime, Red Skelton, may be coming back to home-sweet-television as host of some specials next season.

FROM SEA TO SHINING SEA is an on the anvil series which will be hammered into final completion over a three year period. Consisting of historical dramas, it will take stock of America from her challenging colonial days to her equally challenging, rip-snorting present. Hopefully the series will be equal to the subject it is to scrutinize.

RODNEY DANGERFIELD will tote his long-faced humor to "Dean Martin's Comedyworld" every week this summer on NBC. Viewers will visit sad-sack land with him via taped performances from his New York night club.

WITH THE BAD NEWS is good news, however. Production for next season's episodes will not be held up.

Bronco Champs

Members of the Bronco League Major division Champions, the Yankees are: top row, left to right, Keith Adams, Felix Mungia, Joe Hill, Johnny Reyes, David Moreno, Steve Kindler, Dan Ford and Kevin Johnson. Kneeling left to right, Ernie Suarez, Doug Kelley, John Ken-

drick, Gary Parman, Jesse Gonzalez, Ricky Pena and Jamie Frausto. Standing at the rear are Coach Mickey Bishop, left, and assistant coach Bobby Weaver. The team was sponsored by Woodmen of the World.

Yanks Win ***** *****Bronco Title

By DAN WELTY
Sports Editor

The Bronco League major division Yankees put together a 7-run third inning Tuesday night to down the Dodgers 12-5 and win the Bronco League major division by two games to one over the Dodgers.

Both teams were unbeaten throughout the season with the exception of losses to each other. The championship game Tuesday night was the fifth meeting of the teams this season, and the fourth time in eight days. The Yanks were victorious in the end, however, sporting a 15-2 record to the Dodgers 14-3 season mark.

The Dodgers were plagued with pitching problems in the final game. Paul Torres started the contest, but was pulled out in the third inning after giving the Yankees seven runs. Dick Torres went on the mound for the Dodgers with the bases loaded, and gave up three more runs before the inning ended.

David Moreno went the distance for the Yanks, giving up eight hits and five runs. Moreno pitched three innings of the first game of the best of three series and pitched the third game. Earnie Suarez was the losing pitcher of the second game.

The Yanks opened the game Tuesday by scoring three runs in the top of the first-inning.

The Dodgers evened the score in the bottom of the second. Kyle Bruton walked, stole second and then scored on a Paul Torres double. Torres stole third, and scored on an overthrow. Ron Plummer singled, and then scored to tie the game at 3-3.

When the Yankees came to bat in the top of the third, Paul Torres was on the mound. Johnny Reyes walked, and went to second on an Ernie Suarez single. Reyes stole third, and then scored on a Kevin Johnson single. Torres decked Dan Ford to put him on first and load the bases and then walked Keith Adams to force Suarez in. Gary Parman singled, and Kevin Johnson scored on an overthrow at home. Jamie Frausto walked, forcing in Ford and Paul Torres

was pulled from the game. Dick Torres took to the mound, but three runs were scored before the Dodgers could make two more outs. Steve Kindler singled forcing in Adams. Moreno popped up but it was dropped by the outfielder, and Parman scored. Reyes singled driving in Frausto, giving the Yanks seven runs for the third inning, and a 10 to 3 edge over the Dodgers.

The Yanks scored again in the fourth, when Dan Ford doubled, and then came in on an Adams double.

The Dodgers went scoreless until the fifth when they added one by Bryan Peeler. Peeler walked, and then came in on a Danny Estrada single.

The final scoring came in the seventh inning. In the top of the

seventh, Johnson doubled, and came home on a Keith Adams double. The Dodgers added their final tally when Plummer scored on a Don Lauderback single.

The Yanks had won the first game of the best of three series 4-1, and the Dodgers had won the second game 5-1, setting up the third and final game of the series.

The minor and peewee divisions of the Bronco League were won outright by the Giants of both divisions.

All-Stars of the Bronco League will be announced Friday night at the special awards banquet held in the Bull Barn (see front page story). The Bronco League All-Stars will meet the Altus, Okla. All-Stars later in the summer.

Softball Teams Open Season

Men's slow pitch softball opened competition in Hereford last Thursday night under the

sanction of the Hereford Amateur Athletic Association.

The slow pitch league has eight teams that will compete in two halves of season play and two tournaments. After one round robin session of play, a mid-season tournament will be held. A second round-robin session will follow, climaxed by a city tournament. A champion will be named after each round robin and following each tourney.

USE ITCH-ME-NOT TO STOP THAT ITCH!
Acts like a local anesthetic. Apply quick-drying ITCH-ME-NOT (contains 0 itch-stoppers) for eczema, insect bites, toe itch, other surface rashes. Antiseptic kills germs, speeds healing. If not pleased in 15 MINUTES, your \$6c back TODAY at Harold Close Walgreen Drug

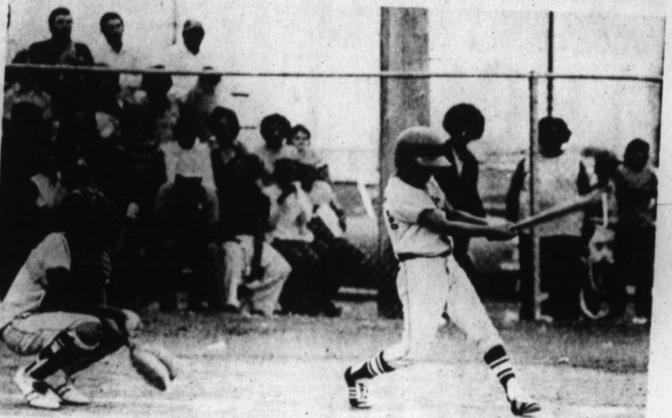

All games will be played on the Veterans Park diamond. Two games will be played each weeknight, except Wednesday, with one beginning at 7:30 and the next to follow at 9 p.m.

In the season openers, BJM Service and Equipment, K-Bob's, Caviness Packing, and Armour all won. BJM downed Jim's Plumbing 19-0. The game was called in the fifth inning on the 15-run lead rule. Robert Wagner hit three homers for BJM, and Terry Poindexter knocked a homer for the winners.

K-Bob's beat Temple Baptist 25-4, with John Stoy collecting two home runs for the winners. Caviness packing defeated

John Deere 9-8 in an extra inning game Ray Martinez hit the winning home run in the bottom of the eighth inning with two outs.

Armour outscored Arrowhead Mills 12-6 in the last game Friday night.

Strike!

David Moreno, pitcher for the major division Yankees, takes a cut at a pitch during a championship game for the Bronco League title. The Yankees downed the Dodgers two games to one to win the title. Moreno pitched the deciding game which the Yankees won 12-5.

Track Club, C of C Host AAU Prelim

The Deaf Smith County Chamber of Commerce will host its second annual Junior Olympic Preliminary Track Meet on June 29 at Whiteface Stadium. Field events will begin at 9 a.m. and preliminary running events will begin at 10 a.m.

Hereford Track Club director Dr. Joe Whitley expects 400 youngsters from the Panhandle region to compete in the meet. The meet, sanctioned by the Amateur Athletic Union, will be part of a program designed to encourage age-level competition between boys and girls up to 18 years of age.

The District AAU champion-

ships will be held in Borger at Bulldog Stadium July 6. All events held in the district meet will be held at Saturday's meet.

The Hereford track club competed in Brownfield this past weekend in preparation for the preliminary meet. The club scored 15 first places in events, and gathered 17 second places. Although no points were officially kept, the Hereford club would have garnered 503 points.

At Brownfield, in the bantam boys division, Steve Barret was first in the high jump, fifth in the 100-yard dash and long jump, and was second in the 50-yard dash. Steve Barkowsky was second in both the long jump and high jump, and third in both the 50-yard dash and 100-yard dash. James Pittard was fourth in the long jump, and David High was third in the high jump. The team of Barret, Barkowsky, Pittard, and High was second in the 440-yard

relay.

In the bantam girls division Joyce High was first in the long jump, second in the high jump and 50-yard dash, and third in the 100-yard dash. Michelle Osborn was first in the 50, fourth in the 100, and fourth in the long jump. Carla Baxter was second in the long jump, and Jolisa Barrier was fifth in the 50. The team of Baxter, High, Osborn and Barrier was first in the 440-yard relay. The team of DeDe Whitley, Marilyn Osborn, Kathy Lane, and Angela Roddy was third in the 440-yard relay. Whitley was sixth in the long jump, and Lane was fourth in the high jump. Michelle Clark was sixth in the high jump.

Zane Barber won first in the 100-yard dash and the long jump, and second in the high jump, and third in the 50, all in the midjet boys division. William Wolfe was second in the long jump, Julius Sanders was sixth in the 100, with Wayne High winning second in the 50 and fourth in the 100. Wolfe, Sanders, High and Barber teamed to win second in the 440-yard relay. Randy Vogel was fifth in the 100, and Damon

Jones was third in the high jump. Vogel, Jones, Trent Thomas, and Jeff Coup won third in the 440-yard relay. Wolfe, K. Coup, High, Barber, Thomas, J. Coup, Vogel and Jones won the 880-yard relay.

In the midjet girls, Darlene Sanders won fifth in the 50 and high jump, and third in the 100, and long jump. Lynette Walker was sixth in both the 50 and 100, and was sixth in the high jump. The team of Sanders, Walker, Mays and Roddy won the 440-yard relay.

Bud Hughes, competing in the junior boys division, was second in the 70-yard high hurdles, fourth in the long jump, and third in the high jump. Gerald Vaughn was second in the 100-yard dash and Richard Olson was second in the shot, both in the same division.

Sandy Whitley was the only competitor from Hereford in the junior girls. She won first in the 100-yard dash and first in the long jump.

In the intermediate girls division, Susan Duvall was first in the 100, and third in the long jump. Grace Abalos was second (cont.—Results, Pg. 9A)

Texans To Observe Safe Boating Week Comment On Sports

Governor Dolph Briscoe has proclaimed the week of June 30 through July 6 Safe Boating Week in Texas.

The Texas Safety Association, along with boating groups across the State, urged Texans to pay special attention to boating safety during the July Fourth holiday when water traffic is always heavy.

The officials proclamation pointed out that there are now 432,558 boats registered in Texas. "This increase in recreational craft greatly intensifies the water safety

problem," reads the proclamation. "It is imperative that all boatmen observe the basic rules of boating safety if we are going to keep the loss of life and property at a minimum."

In 1973 there were 74 boating deaths in Texas. Sixty-five of these contributed to drownings. Deaths like these can be prevented, according to TSA officials, if boaters will take the simple precaution of wearing a personal flotation device.

At least half of the recreational drowning victims

in the United States last year never intended going into the water in the first place. Either they were involved in a boat sinking or they slipped, tripped or fell into the water. Most of these "surprise victims" were not wearing a flotation device and none was handy.

Keeping personal flotation devices handy not only makes good sense safety-wise, but Texas law requires that on recreational boats sixteen feet and longer, there must be a Coast Guard approved wearable device must be

carried.

For smaller boats and all canoes and kayaks, one buoyant cushion is required for each person on board. However, the Coast Guard recommends the use of wearable devices.

TSA also urged Fourth of July boaters to begin thinking safety on the way to the water. Familiarize yourself with the basic rules of boat trailoring, buckle your safety belt, observe the 55 mph speed limit and have a good holiday, says the safety group.

BY PETE FRITCHE

WASHINGTON, D.C.—Saddest note to come from this year's National Open at Mamaroneck, New York, was the news that Sam Snead had been forced to withdraw from play.

This was the big one Sam never won in his heyday. The 62-year-old veteran was playing good golf this year, however, and had often been in the top five or ten, despite his age and the admitted fact that he is past his peak.

So Sam would have been

a sentimental favorite at the Open this year. If he had won, it would have been golf's biggest story in decades.

But Mr. Sam broke a rib—no one knew how—and that continued his National Open jinx. It's tough to "wait til next year" at 62, but that's what Slammin' Sam's fans must do.

Most people would consider it a major feat and triumph to be competing at age 62, and so it will be in 1975, at age 63, for the Swinger.

Times Set For City Tourney

Playing times have been decided in the City Tennis Tournament sponsored by the Deaf Smith County Chamber of Commerce. Tournament directors Steve Thomas and Burns Hamilton announced the pairings after registration closed Tuesday evening.

Finals will be played on the Avenue H courts beginning at 9 a.m. Sunday, with an awards picnic to follow. Entrants in the tourney will be allowed at the picnic, and extra tickets can be bought at the Chamber of Commerce or at the Brogue in Sugarland Mall for \$2 each.

All divisions will meet and begin play at the Plains Avenue courts Thursday at 6 p.m.

Friday at 8 a.m. all 16 and under divisions will meet at the High School courts. Friday and Saturday, 9 a.m., men's open singles and doubles, and junior veteran singles and doubles will play at the Plains courts.

Friday and Saturday at 9 a.m., boys 18 and under, singles and doubles, women's singles and doubles, girls 18 and under singles and doubles, and mixed doubles will meet at the Avenue H courts.

--Results

In the long jump, and Shari Strauss was fourth. Pam Whitley was sixth in the 100-yard dash. The team of Whitley, Duvall, Abalos, and Strauss was first in both the 440-yard relay and 880-yard relay. Micky Merrit, Lol Taylor, Frankie Wells and Paula Spurland were third in the 440-yard relay.

In the intermediate boys division, Steve Cortez was fourth in the 100-yard dash, Daryl Wells was sixth in the 70-yard high hurdles, and Jay Montgomery was fifth in the shot. Cortez, D. Olson, D. Wells, and G. Vaughn teamed to take fifth in the 440-yard relay. Cortez, Olson, Wells, and J. Mays teamed to take second in the 880-yard relay.

Gussie Sanders won first in the 100-yard dash in the senior girls division, with Debbie Albracht placing fourth. Renee Payne won third in the long jump. Payne, T. Lawson, Albracht and Sanders won the 440-yard relay, and Payne, Sandy Whitley, Albracht and Sanders won the 880-yard relay.

The only senior boy competing was Bobby Fields, who was second in the mile run.

Sixty-one members of the Hereford Track Club competed in the Brownfield meet. Total participants of the meet was 450.

Birds Record Now 3-4

The Hereford Redbirds took a 6-5 win over Amarillo High Saturday, and finished off the weekend with a 2-1 loss to Palo Duro Sunday afternoon.

The Birds, Hereford's entry in the American Legion District, pitched Lynn Tarr Saturday. Coach Aaron Bourland praised Tarr's performance, saying he did well considering the small amount of work he's had on the mound this year. Tarr went the distance for the Birds, giving up only five hits.

Hereford grabbed nine hits off losing pitcher Scott Woolery. Pete Hale had three hits, and

Steve Loerwald hit a crucial triple in the sixth inning to give the Birds the lead by scoring two runs. Both teams had two errors each.

Harvey Torres started for the Birds Sunday against Palo Duro, but was relieved in the fourth by Roy Martinez. Palo Duro got to the two hurlers for only four hits.

Pete Hale scored the only run of the afternoon for Hereford on a sacrifice fly. Mike Fort was given the win for Palo Duro. He pitched only six innings, and was relieved by Craig Jolly. Hereford will play a make-up

game against Palo Duro Tuesday, July 2. The original contest set for June 7 was rained out. The Birds will play their next game Saturday, July 29. Memphis will travel to the Hereford diamond for that contest.

Legend claims Charlemagne could bend three horseshoes at once—with his bare hands!

Jubilation On The Field

Members of the Yankees rush on the field and embrace each other and members of the Dodgers at the end of the championship game in which the Yankees won the Bronco League Major division title. The Yankees downed the Dodgers to win the title, and finished the season with a 15-2 record.

nourishing. Take a tip from superstar Billie Jean King. She often drinks Carnation Instant Breakfast for quick energy because she knows that "it's equivalent to having bacon and an egg..."

Says Billie Jean King, "I know most players would like Carnation Instant Breakfast because it's like having a milk-

shake. It is essential that you be in good physical condition to play tennis, and you don't get that way with a weekly game. Daily exercise is a must. Work on your legs and your wind every day by jogging or running. Above all, don't rush from a sedentary job to your summer vacation and plunge into a ten-

nis marathon. Ease into it with short games at first.

Whenever you're playing in the hot sun, it's a good idea to wear a tennis hat. It protects the whole head and may prevent heat exhaustion and headaches to say nothing of protecting your eyes. The hat helps not only your vision and your tennis game, but also your face. Squinting in the bright sunlight for a couple of hours will give you "whiskers" of suntan around the eyes and outer cheeks. That's not very flattering. Wouldn't you rather keep the wrinkles off your face while taking the wrinkles out of your game?

Billie Jean King, who knows all the do's and don'ts of tennis.

Heavy Tipper
This bum walks up and says, "Say buddy, can you spare \$5 for a cup of coffee?" And I say, "\$5 for a cup of coffee? Are you nuts?" And he says, "Yeah, I'm a heavy tipper!"

Very Last
Corner—And what were your husband's last words? Widow—That gun doesn't scare me—you couldn't hit the side of a barn.

Allowable Spending
It's all right to save money, but too many are trying to save it from people they owe it to.

Single To Right Field

Pete Hale of Hereford's Redbirds of the American Legion, takes a hit off the pitching of Amarillo High's Scott Woolery. Hereford won the game 6-5 on a triple by Steve Loerwald that drove in two runs in the bottom of the sixth. Memphis will travel to Hereford Saturday for an American Legion contest.

His brow is wet with honest sweat,
He earns what'er he can,
And looks the whole world in the face,
For he owes not any man.
—H.W. Longfellow.

Mad dogs and Englishmen aren't the only ones who go out in the noonday sun. Look at any tennis court on a sizzling summer day. You'll find a number of tennis buffs racing back and forth at top speed, seemingly oblivious to the heat.

If they're smart, they'll have taken some precautions before exposing themselves to the hottest sun of the year. This is equally true for men and women tennis players. All should be protecting their skins with a carefully chosen sun preparation.

If you tan easily and want a lot of color, choose a sun cream or lotion that blocks out only the burning rays and lets the tanning rays come through. If, however, you have a fair skin

that burns easily, by all means wear a sun cream that gives maximum blockage.

Don't apply the cream to the bridge of the nose and cheekbone and stop there. Use it on arms, legs and over every inch of exposed skin. Remember too that more skin is exposed when you're moving than when you're standing still. So spread the sun cream under waistbands, under a midriff tied shirt, and higher under the hem of shorts, or skirt, than you think necessary.

Even if you don't sunburn at all, you'd be smart to settle for a light tan and wear some skin protection in the form of a modern sun block. People who get deep, dark suntans year after year wind up with sea captain complexions at an early age—and sometimes with serious skin

disorders.

You can't go wrong by pampering your skin out on the tennis courts. Following the after-game shower, everyone should apply a moisturizer to face and body. Modern moisturizers do a quick disappearing act. They won't be visible or feel sticky.

Another favor you can do yourself is to drink several glasses of liquid before the game. This will help avoid severe dehydration as you perspire. Salt tablets are another method of preventing dehydration. Some athletes like them, and some don't. Ask your doctor's advice on taking salt tablets before a midsummer match.

You won't want to eat heavily before a tennis game—or right afterwards either—but you need a light refreshment that's very

Overstreet To Be In Concert Here

Tommy Overstreet, country singer who has had four songs ranked number one in the nation, will be appearing in the Hereford Bull Barn on August 2, according to Wayne Lady, Noon Lions Club president.

All proceeds of the concert, which is slated in conjunction with the Lions Summer Carnival, will be given to Girlstown in Borger and Whiteface, said Lady.

No newcomer to the country music profession, Overstreet entered the business over 20 years ago, but lists 1973 as his biggest success. Last year, these Overstreet tunes hit the tops of the charts: Gwen (Congratulations), I Don't Know You Anymore, Ann (Don't Go Running To Him) and Heaven is My Woman's Love. Newest in circulation are his album, My Friends Call Me T.O., and a single titled Jeanie Marie You Were A Lady.

The Texas native has become one of the most popular credits to the Dot Recording label. Together with his back-up group, called the Nashville Express, Overstreet has crossed the United States, visited Canada and toured Europe. His concert travels have totalled nearly 150,000 miles during 1972 alone.

The Hereford Brand, Hereford, Texas, Thursday June 27, 1974

I don't know anything I'd do rather than what I'm doing now. "What other job can you have that you're doing what you love to do, you get paid for it, and you get to see all kinds of places and meet the people."

Mrs. Nick Milburn and son, Phillip display unusual decorating scheme

Let's Cook

Shooting Wild Game Is Hobby Of Housewife

By SANDY INMAN
Brand Staff Writer

"WHEN my husband and I first married I had to decide if I wanted to stay at home alone or learn to hunt and spend leisure hours with him," says Mrs. Nick Milburn.

Lynda Kuper before her marriage in 1968, the blonde housewife recalls never having thought about having to get up at the crack of dawn, put on hunting boots and get her rifle ready for a day's shooting.

"I had never even shot a shot gun before I married Nick," laughs Mrs. Milburn. "Now I love to go every chance I get." On the west wall of the den in their home, the Milburns have mounted stuffed antelopes and deer they have killed. Stuffed quail and pheasants are arranged on built-in cabinets on the south wall of the room.

THEIR three-year-old son Phillip also enjoys the family's hobby and is allowed to go rabbit hunting with his parents.

Much of their weekend deer hunting is done in mid-November and during the Christmas holidays near San Angelo where they have a deer lease. Looking back on her hunting experiences, Mrs. Milburn reflects an incident in which she ran upon a rattlesnake at the hunting area.

"I found myself looking straight into the face of a big rattler and instead of shooting it, I froze. I suppose it was more afraid of me than I was because it drifted away. What is ironic about the situation is that that was the first rattler anyone had spotted in that particular area."

QUITE a contrast to her love of hunting is her unique ability to decorate cakes. Mrs. Milburn has been trimming cakes for the public for three years. She is vice-president of the Sweet 'N' Fancy Decorating Club and is also serving as vice-president of Young Homemakers Extension Club.

"I always enjoyed making and decorating birthday cakes for my family when I was living with my parents," she says. "I had many opportunities since I had three brothers and two sisters."

Another joint hobby the family shares is raising a variety of animals. In their household at the present time are bird dogs, a variety of fish, two week-old baby birds and a beautiful white Persian-Siamese cat named Salt.

APPARENTLY, Mrs. Milburn's love of animals started when she was growing up on her parent's farm at Summerfield. "I milked cows and we kids always had animals around the house that we cared for."

The Milburns reside at 234 Ave. B. and have recently completed remodeling their kitchen. They had the wall

taken out between the kitchen and dining area and had a built-in snack bar-table put in.

At the present time, they are building shelves in the den where Milburn will put his reloading equipment.

They attend the St. Anthony's Catholic Church and Milburn is employed with his father at Milburn's Used Cars.

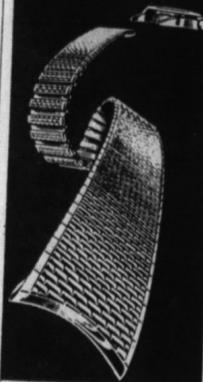

A recipe Mrs. Milburn received from her mother-in-law is Chop Suey. To add variety to the dish, she uses wild game but mentions beef may also be used.

CHOP SUEY

1 lb. cubed meat, browned
1 chopped onion
2 cans chop suey vegetables
1/4 small bottle soy sauce
Worcestershire sauce,
cumin, thyme, salt and
pepper to taste

Place all ingredients in a medium size sauce pan and allow to thicken slightly over moderate heat. Simmer 45 minutes or until meat is tender. Serve over rice and top with chop suey noodles.

4. Where may this verse be found?

Answers To Bible Verse

1. Jesus.
2. To the eleven disciples.
3. After the Last Supper, while Jesus and the eleven were en route to the Garden of Gethsemane.
4. John 15:8.

Delta Xi Officers Go To Conference

Orientation to new positions they will fill in Delta Xi Chapter, Delta Kappa Gamma, was given three officers-elect who attended a state conference of the society in McAllen last weekend.

Mrs. Charles Bell, beginning a two-year term as president; Mrs. Joe Bradley, vice president, and Mrs. Tolbert Painter, correspondent, went to the South Texas city for the meeting of officers from over Texas. Each attended workshops to acquaint her with

duties of her office.

Plans for the coming year in Delta Xi Chapter will be affected by ideas brought from the sessions, Mrs. Bell said. Meetings were held Thursday through Saturday, and the Hereford party returned Sunday.

Now in summer recess, the local chapter is scheduled to resume meetings Sept. 16. Delta Kappa Gamma is a national society for women educators and has a local membership of approximately 50.

Wedding Planned

The marriage of Miss Rita Esther Meyer and Melvin Burges is to take place July 6 in St. Anthony's Catholic Church, her parents, Mr. and Mrs. Vincent J. Meyer of Umberger, announce.

Miss Meyer is a teacher in Hereford Public School system, on the faculty of La Plata Junior High. Her fiancé, son of Mrs. Willie Burges, is a farmer north of the city.

A man who sticks to his principles is stubborn; the man who doesn't is a hypocrite. What's your answer?

A man holding public office can hardly expect to please those who want special privileges and extra favors.

Golden Gleams

Independence is good, but isolation is too high a price to pay for it. -Benjamin R. Tucker.

To be independent is the business of a few only; it is the privilege of the strong. -R.W. Nietzsche.

For twenty years I have worked and struggled in absolute independence, and so it will be to the end. -George Gissing.

Marriage Announced

Mr. and Mrs. Roy Oscar Parten, 227 Greenwood, announce the marriage of their daughter, Libbie Rae, to James Edward Rhync, son of Mrs. Charles Edward Clark of Hereford and Donnie Olsen Rhync of Atlanta, Texas, on June 13.

The couple is residing in Hereford. The bride is a 1974 graduate of Hereford High School and will attend West Texas State University this fall. Rhync had two years of service in the United States Marines after attending HHS.

Painting The Civic Center

These Big Brothers, Big Sisters and their young counterparts gathered Saturday afternoon for a "Painting Party" at the Civic Center. Tina Lopez, left photo, and Nancy Pacheco, right photo, combine smiles with their tasks. In center photo, Rodger Ruland,

his little brother Jeffrey Sireun and Kenny Jeter survey the newly covered walls. After completing the project, members of Alpha Iota Mu and Bill Fowler served refreshments to the 25 painters.

Driving Course Offered At AC

Amarillo College, in conjunction with the Texas Safety Association, will help Texans save their necks and their money with an eight-hour defensive driving course to be offered Saturday and July 27.

The one-day Community Service classes will be held in Room 111 of Building A at the School of Vocational Arts, 6222 W. 9th.

Walter Eubanks, AC law enforcement director, and Lee Bradshaw, AC law enforcement instructor, will teach the two classes which meet from 8 a.m. to 5 p.m.

Those successfully completing the course, will receive a 10 per cent discount on their automobile insurance premiums.

This discount, good for a period of three years, applies to auto liability, collision and medical payment coverages written by insurance companies who are rate-regulated by the State Board of Insurance.

Anyone interested in the course may call Charlie Gaither, supervisor of Community Service courses at AC.

Miss Anstey Is Feted At Shower

Rainbow colors which will appear in her wedding July 5 were used to decorate Saturday for a shower complimenting Bobbie Anstey, fiancée of Ricky Nunley. The party was given in the home of Mrs. Quentin Martin.

Her mother, Mrs. A.L. Anstey, and Nunley's mother, Mrs. W.B. Nunley, received callers with Miss Anstey and Mrs. Martin. The honoree's sister, Cherie Anstey, was at the registry table.

Denise Moseley and Mrs. Ronnie Nunley served cake and punch from a table centered with garden flowers in rainbow

shades. Sections of net in all the colors were stitched together to make the bouffant skirt of the tablecloth. More of the flowers were arranged in bouquets throughout the rooms.

Mrs. Danny Thompson of Dumas, one of the hostesses, was in the gift display room.

Also in the hostess group were Mmes. Elmer Combs, Eugene Combs, Joe Wagoner, Marshall Wilson, Jack Weaver, C.F. Burk, J.E. Sorrells, W.W. Thomas, G.C. Merritt Sr., Roy Bell, W.W. Gilbreath, M.C. Kaul, Ellen Carter and Ermitt Johnson.

NEWS NOTES

WORKABLE SYSTEM

Small Talk

By SUE COLEMAN
Women's Editor

THERE was a family reunion at the N.R. Jones home, 816 Ave. K, on the weekend, as children and other relatives of Mr. and Mrs. Jones gathered Friday.

Children and their families were Mr. and Mrs. Elwood Jones with Diane and Steve, of Celeste; the Paul Dan Jones family of Baker, Ore., the Dan Walls of Dalhart and the Bob Sessums of Hobbs, N.M.

Doris and Joyce Sessums had spent a three-week vacation with their grandparents here and with relatives in Amarillo and Dalhart, and accompanied their parents back home to Hobbs.

The Paul Jones family is moving soon from Oregon to Greenville, where he will work at the Johnson Street Church.

Other visitors for the reunion were the S.G. Jones, Mrs. Bill Boling and daughters, Cheryl and Terri of Farwell; the Dan Janssen family, Mr. and Mrs. Tommy Barnett of Amarillo.

WE ALL like to talk about our nice summer climate up here on the high plains, as contrasted with that swampy country below the Caprock. Sometimes we get our opinion bolstered by a trip like the one some Delta Kappa Gamma members took last week.

They went to McAllen, and Margaret Bell says it was hot! hot! hot! with a lot of exclamation marks, which is only to be expected down there in summer. But she, Sue Painter and Dean Bradley enjoyed the trip anyway. Maybe that was partly because they had a good chauffeur — Margeret's husband Charlie.

They all felt sorry for the DKG members at McAllen who

had expected only 250 or 300 to come to the conference, since that city is at one extreme end of the state and the gasoline shortage has been well advertised.

Well, more than 900 turned up, and if you've ever been a hostess with only so many beds available and more overnight guests than that, you know the situation. It's surely to their credit that the visitors can say they had a mighty good time.

ONE FROM Hereford and one from Adrian, Mrs. Jim Perrin and Mrs. Howard Engle were in Abilene Tuesday for a meeting of the Texas CowBelles nominating committee of which they are members.

That was a state committee that met here last week, you know, to start the Beef For Girlstown project. Marn Tyler is state chairman.

The local chairman, Kay Hall, is losing no time getting the drive for donors underway

and is already lining up donations of beef from ranches and feedlot operators. Of course if you don't happen to have a yearling handy, they'll always be happy to take money.

A GREAT-granddaughter born last week is the sixth of Calla Mountz's "great-grand", but she is excited and pleased as much as if it were the only one.

The baby is Cayen Hartley Crosthwait, born June 17 in Ukiah, Calif. to Mr. and Mrs. Buford Dean Crosthwait. She is the granddaughter of Mrs. T.J. Keeling of Amarillo. Buford Dean grew up in Hereford and has a lot of friends here to add congratulations on his daughter's arrival.

Two other great-granddaughters, Delta and Terry Rutherford of El Centro, Calif., have visited Mrs. Mountz lately and are now visiting the Keelings in Amarillo.

Turkey Tips At Grocery

"Trot on down" to the turkey market for this week's best buy, one authority says.

She's Mrs. Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

"Turkey supplies this year are expected to be six per cent above 1973. Big birds are generally the best buy—you can serve a family of five or six several different meals from a large turkey," the specialist noted.

Fresh fruit and vegetable items in greatest supply at lowest prices include oranges, bananas, cantaloupes, watermelons, pineapples, cabbage, squash, sweet corn, okra, green beans, carrots, dry yellow onions, radishes and green onions, Mrs. Clyatt said.

Potatoes are still lower than normal supply, and prices remain relatively high, she said.

"At meat counters, look for best beef values on chuck roasts and steaks, ground beef, round steak and roasts, and rump roasts.

"Pork values include smoked hams, picnics, shoulder roasts and steaks, and end-cut loin roasts and chops," she noted.

BAPTISTS & WOMEN
DALLAS—Southern Baptist Convention delegates have turned down all recommendations for increased participation of women in church services and on boards, especially ordination of women as ministers.

Wetly To Head Lung Campaign

Run Wetly of H.T. Kingwood has been named chairman of the Health of Life Campaign to fight children's lung disease, according to Mrs. J.H. Grinnel, president of the Lone Star Chapter, National Cystic Fibrosis Research Foundation.

Wetly will lead local volunteers in raising funds to support research and care programs for children afflicted by lung-damaging diseases like cystic fibrosis, severe asthma, chronic bronchitis, hemochromatosis, and a condition called "childhood emphysema."

Cystic fibrosis, an incurable genetic disease, is inherited when both parents carry the recessive gene for C.F. It is believed that one in 20 persons or 10 million Americans may carry the C.F. gene, usually without knowing it. Current research funded by the National Cystic Fibrosis Research Foundation is seeking a practical test to identify these carriers.

Because of improved therapy and constant research, many C.F. patients are living beyond infancy to their teens and into young adulthood. But some kind of therapy is relieving and often curing children suffering from other respiratory afflictions whose symptoms resemble those of C.F.

"Most people don't realize that there are six million children in the U.S. afflicted by pulmonary illness," said Wetly. "For some of these children, smoking is not the national function we, who are lucky, take for granted."

The Health of Life Campaign supports not only research but over 100 C.F. Centers for diagnosis and treatment across the country, six of which are located within Texas.

Strain Was 4th

At 4-H

Round-Up

Wetley Strain, son of Mr. and Mrs. Robert Strain of Dumas, mobilized the round-up of the Round-Up at College Station, Texas A&M University. Strain was one of 18 Beef South County 4-H members to participate in the annual state contest which was held June 5. Twenty-six students entered the money management category. Accompanying the 4-Hers was Mrs. Joyce Shipp, home demonstration agent.

Miss Brink On VFW Sponsoring

TCU Honor List

Nancy Brink, daughter of the Rev. and Mrs. Eugene Brink of 211 Sunset Dr., has been named to the Dean's Honor List for the 1974 spring semester at Texas Christian University at Fort Worth.

To be eligible for this honor, a student must earn credit for at least 12 semester hours and achieve a 3.5 grade-point average on the University's 4.0 scale.

Miss Brink was valedictorian of the 1973 graduating class of Hereford High School.

A total of 886 students were named to the TCU lists for the spring semester of the University's 101st year. Four hundred and eleven of those were from Adolphus College of Arts and Sciences, 181 from M.E. Neasey School of Business, 107 from the School of Education, 130 from the School of Fine Arts and 77 from Harris College of Nursing.

Benefit Dance

All proceeds from a benefit dance, to be held Saturday under the sponsorship of VFW, will help to defray the medical expenses of a local heart patient.

Doc Hinkle and Don Gann will provide the music for the dance, which will take place from 8 p.m. to 11 p.m. in VFW Hall in Veterans Park.

"We urge the public to come and enjoy themselves while helping in this worthy cause," said a VFW member.

Admission price will be \$1 per couple.

FULL-TIME HUNT—The United States Steel Corporation, the nation's largest steel maker, has announced price increases on products used mainly in the auto and construction industries. The new prices take effect immediately.

To all the many folks who made our Grand Opening Week such a success:

Send-off For Trip

A hamburger supper Monday evening at Community Center honored seven 4-H Club members of this county who left Tuesday for a National 4-H Citizenship Short Course in Washington, D.C. Families of the club members were guests at the outdoor supper. Lined up at the serving table are, from left, Sam Finley, Britt Hicks, Sandra Stallings and Kandy Newman. Others making the trip by chartered bus are Terry Barrier, Tom McCabe and Ricky Coleman.

County Sends 4-H'ers On Heritage Tour

Seven members of Deaf Smith County 4-H left Amarillo Tuesday by chartered bus for the first leg of the two-week National Citizenship Short-course and Heritage Tour. Joining 20 other 4-H'ers from District 1, the group traveled to Dallas where they linked up with the rest of the Texas delegation. On Wednesday morning, the 122 youth and 10 adult leaders began a journey across Tennessee and Virginia which will take them to the National 4-H Center in Washington, D.C. During a week at the center, the students will tour various monuments and the White House and will meet Congressmen. Delegates will

participate in workshops covering contemporary issues. Some of the topics to be discussed in these sessions include: Man's Freedom and Dignity, International Affairs, Human Relations, Government, Ecology and Conservation, Family Life and Dating, Community Development, Drama and Creative Experiences. On the return trip, the 4-H'ers will cross West Virginia, Kentucky and Arkansas. The county group raised nearly \$1,000 to meet travel expenses by sponsoring a garage sale, car washes, bake sales, and concession stands at a square dance, boxing tournament and wrestling matches.

The Deaf Smith County representatives are Terry Barrier (group chairman), Ricky Coleman, Sam Finley, Britt Hicks, Tom McCabe, Kandy Newman, and Sandra Stallings.

MINNEAPOLIS—The Interior Department reports a transplant of bald eagle eggs from Minnesota to nests in Maine. One egg broke as it was being put in the Maine nest, but the others hatched healthy eaglets.

FRESNO, CALIF.—After a man walked into a coffee shop and ordered a bag of donuts from the clerk, he pulled a gun and demanded money. He left a dollar for the donuts.

Girlstown Open House Announced

The 25th anniversary of Girlstown U.S.A. will be observed at the annual open house July 13 in its original location at Whiteface. Everyone interested in this residence for girls of all ages who have no other suitable home, is invited to visit the facility for an afternoon program and barbecue.

Highlight of the program, which begins at 2:30 p.m., is the crowning of Miss Girlstown 1974. The barbecue dinner will be served afterward, beginning about 4 p.m. The event is scheduled this year on a Saturday afternoon instead of on Sunday as in the past. Viola Williams, a member of the board of directors and a longtime supporter of Girlstown, announces that persons

here who have contributed to Girlstown, either individually or through clubs or church groups, are especially invited to attend the open house. A number of organizations here have been substantial contributors to this home for girls during its 25-year history. Notably, Hereford Lions Club has made large donations and presents gifts to the residents each Christmas, and Beta Sigma Phi Sorority has made Girlstown a national project with regular support in addition to the aid which separate chapters including those in Hereford give to the girls. Merchants of this city and many individuals make gifts, especially at Christmastime, and several clubs and classes "adopt" girls to assist in various ways.

Look Who's New

Mr. and Mrs. Thomas Edwin Bullard are the parents of a daughter, Kara Denise, born June 25. She weighed 8 lbs. Mr. and Mrs. Michael Gerald McCathern are parents of a son born June 25. He weighed 8 lbs. 5 1/2 oz.
Mr. and Mrs. Roberto Suarez are the parents of a daughter, Lori Ann, born June 25. She weighed 6 lbs. 14 oz.
Mr. and Mrs. Larry Elmore Carver are the parents of a daughter born June 24. She weighed 5 lbs. 6 oz.
Mr. and Mrs. Claudio Jimenez Jr. are the parents of a son, Felizano, born June 24. He weighed 8 lbs. 2 1/2 oz.
Mr. and Mrs. Victor Robert Davis are the parents of a daughter, Kelley Lynn, born June 22. She weighed 7 lbs.
Mr. and Mrs. Juan Luiz Elizondo are the parents of a daughter born June 23. She weighed 6 lbs. 9 1/2 oz.

Guest Night Scheduled

Guest night was scheduled for next Tuesday with Odd Fellows Lodge members invited to attend, at the meeting of the Rebekah Lodge Tuesday evening in IOOF Hall.
Mrs. R.E. Curtsinger presided over the short business meeting and Mrs. Arthur Rogers was hostess to 18 members present.

THIS MEAGER FARE

When the season is right, the young boys head for the lake or river to fish. Out only for a good time, they don't depend on their catch for food. Even when their luck is bad, the outing is worthwhile.

Many years ago another small boy went fishing for his evening meal. His luck was not very good, for he only caught two fish. Luckily he had some bread with him to go with his fish. But not much, it would seem.

On his way home, he saw a crowd following a preacher. He was intrigued by the Man and followed Him. After reaching a grassy hill, the Preacher spoke to them. It was late when He finished His message. The people were all hungry but there was no food.

Sensing their hunger, the small boy offered Jesus his meager fare. Then Jesus multiplied it until it became enough for all five thousand people. The catch that had earlier seemed so very small, with God's help, became very big indeed.

Sometimes we seem to hold back, feeling that we have so little to offer. But like that little boy, we should give our meager fare. With God's help, the results can be fantastic.

Swim Togs

Models of the International Water Follies demonstrate the evolution of swim fashions for ladies from 1850 to modern times. "The Evolution of the Bathing Suit" will be one of the attractions of the show, to play in Amarillo July 12, 13 and 14.

International Water Show To Appear In Amarillo

International Water Follies, a two-hour water carnival featuring musical comedy, circus and ballet, will play to audiences in Amarillo July 12, 13 and 14. The show, sponsored by the Rotary Club of Amarillo, Inc., will have performances by world champion divers, swimmers and water comedians. Water Follies was one of the features of the Brussels World's Fair, where it was an entertainment hit for months. It has played to audiences in Australia, New Zealand, Japan, Hong Kong, South Africa and Indonesia. Tickets may be purchased by contacting the Rotary Club of Amarillo, 1006 Jackson, Amarillo, 79101. Funds from the show will be donated to the Regional Speech and Hearing Center.

Hearty Vegetable Soup

- 3 pounds beef shanks, cut crosswise
- 3 teaspoons salt
- 10 whole black peppers
- 1 bay leaf
- 2 celery stalks with green tops, sliced
- 1 onion, quartered
- 3 parsley sprigs
- 1 pound 12-ounce can tomatoes

CLIP 'N' COOK

- 1/2 cup barley
- 1/2 cup sliced carrots
- 1/2 teaspoon dried tarragon leaves
- 1/2 teaspoon curry powder
- 1 teaspoon monosodium glutamate
- 1 package frozen peas
- 1/2 cup sliced leek
- 1 cup shredded cabbage

IN LARGE KETTLE, combine beef shanks, 2 teaspoons salt, peppers, bay leaf, celery, onion, parsley and 1 1/2 quarts water. Bring to boiling; reduce heat and simmer covered, 2 hours. Remove shanks. Strain stock; let cool. Skim fat from surface. Remove beef from bones; cut into 1-inch pieces. In same kettle, combine beef stock, beef, tomatoes, barley, carrots, tarragon, curry, monosodium glutamate, and rest of salt. Bring to boiling, reduce heat, and simmer covered, 20 minutes. Add peas, leek, and cabbage; simmer covered 10 minutes. Makes 8 to 10 servings.

Bippus Singing

There will be no Fifth Sunday Singing at Bippus Community Church this month.
 The old-fashioned singings, filling the afternoon of each fifth Sunday after church services and a covered dish dinner at noon, have been customary in the Bippus community for many years.

Because several families in the neighborhood will not be able to attend the June singing it has been canceled, C.F. Homfeld says. The next month with a fifth Sunday will be September.

WASHINGTON NOTES

INGERSOLL NOMINATED
 President Nixon has nominated Industrialist Robert S. Ingersoll to be deputy secretary of state in one of two moves to fill key vacancies at the State Department.

DEFICIT HOPES
 Kenneth Rush, President Nixon's chief economic adviser, said he did not expect a balanced budget in 1975 but hoped to cut the deficit below the projected \$11 billion.

ON TROOPS ABROAD
 The Senate has rejected proposals for reducing the number of American troops overseas, giving the Nixon Administration a major foreign policy victory.

FIRE & NURSING HOMES
 A study of 7,318 nursing homes by the Department of Health, Education and Welfare showed 59 per cent had fire safety deficiencies, a House subcommittee was told.

The Lieutenant Governor's Report

By Bill Hobby

A few weeks ago my wife Diana and I had the opportunity to spend almost a week in Israel. We were there at an eventful time: Mrs. Golda Meir had just resigned as Prime Minister, and Israel's former ambassador to

Washington, Ytzhak Rabin, was trying to form a new government. Secretary of State Henry Kissinger was trying to work out an agreement between Israel and Syria to stop the fighting along

Israel's northeastern border. Palestinian terrorists killed almost 30 Israeli children with hand grenades and injured many more in the northeastern town of Malot. You read about all

these things in the newspapers, and I shall not try to retell those stories. You have read about the fantastic growth of Israel's economy and population, and I shall not here retell those stories. But there is one story

about Israel I must share with you because there is a lesson and a warning for us all in it.

That is the story of the scores of thousands of Jews who have risked imprisonment or worse to emigrate from Russia to Israel. Last year alone, 33,000 overcame every difficulty a hostile Russian government could put in their way and moved to Israel. Three of every five Jews that emigrated to Israel last

year came from Russia. Before a Jew can even apply for permission to go, he or she must have an invitation from the Israeli government. Last year, Israel received 135,000 requests for these invitations. Each emigrant from Russia brings with him new names of Jews still there who want to leave.

When a Russian Jew applies for this invitation, he is asking for trouble. He may lose his job, if he

is not, say, a doctor in an area where there is a shortage of doctors. He may be imprisoned, just to frighten others who may be thinking about applying.

There are 3,000,000 Jews in Russia. Were it not for these ruthless efforts at repression, who knows how many would try to leave their hostile homeland for a new life in a free democracy?

Once the Russian Jew gets the invitation from

Israel, his problems have just begun. Regardless of age, he must get a letter of consent from his parents. For reasons you can easily imagine, they may be reluctant to give that letter. After all, the parents and their other children may well be staying behind.

Japanese economy reported in a deep slump.

U.S. Steel increasing prices of products.

Farm News

Damaged Sorghum Does Best When Left Alone

Grain sorghum crops that are damaged hail in most cases should be left alone rather than replanted, says a Lubbock-based agronomist.

Dr. James Supak, area specialist with the Texas Agricultural Extension Service,

says that replanting sorghum when it is damaged by hail is generally unnecessary and unprofitable.

Hail damage varies from partial to complete defoliation of the plant to bruised and broken stems and occasionally, shattering of seed from emerged heads. These injuries can reduce yields from 10 pe to 95 per cent, he adds.

EMERGENCE TO 10-LEAF STAGE

From emergence to the time the sorghum plants display 7 to 10 fully extended leaves, the terminal bud of the plant is located at or near the soil surface. A hailstorm during this stage of development may strip leaves, but because of its

rather protected position, the terminal bud is seldom injured.

If approximately 75 per cent of the plants survive, Supak says, replanting is unnecessary since tillering will compensate for the reduced stand. If replanting becomes necessary, the limited growing season in this area may necessitate the use of an earlier maturing hybrid.

Even if replanting can be avoided, he points out, hail damage during the 7-to 10-leaf stage will have detrimental effects on yields. Research conducted at Panhandle State College in Goodwell, Okla., has shown that when 25, 50 and 100 per cent of the leaves are destroyed during this

vegetative growth stage, grain yields are reduced by approximately 8, 10 and 25 per cent, respectively. In addition, the susceptibility of the plant to disease and insects (especially the sorghum midge) is increased by reduced vigor and delayed maturity.

The agronomist cautions that replanting will not necessarily alleviate these pitfalls since the faster maturing hybrids generally have lesser yield potentials and are also susceptible to midge if planted late in the season.

REPRODUCTIVE GROWTH STAGE Following the 7-to-10-leaf stage, the sorghum plants enter the reproductive growth stage and hail damage becomes a more serious problem. A severe storm can not only destroy leaves but also may damage or destroy the head in its formative stages. Still, recovery tends to be rapid.

Plants with injury to the growing point and forming heads develop tillers at the uppermost non-damaged joints and these will eventually form heads. On the other hand, some plants will escape injury to developing heads; although these plants may also tiller, the original heads will still emerge, bloom, and mature.

A producer faces at least three alternatives when his crop is damaged: (1) leave things as they are and settle for a crop that will mature unevenly, (2) shred the stalks to a height of about 6 inches and force all plants to tiller uniformly, or (3) destroy the grain crop and plant millet or other alternate crop.

The producer's decision rests largely on when the damage occurred and its severity. Supak explained. Panhandle State College research has shown that when 25, 50, 75 and 100 per cent of the leaves are removed from healthy plants during the boot stage, yield reductions of approximately 10, 40, 70 and 95 per cent, respec-

tively, can be expected.

However, if most of the leaves remain on the plant, even though they are severely mutilated, the yield reduction will be less severe. In this case, it would be profitable to allow the damaged crop to go to completion.

BLOOM AND MILK STAGES "Grain sorghum is most vulnerable to hail injury during the bloom and early milk stages," the specialist notes.

"Obviously, the heads are fully exposed to the full brunt of blows administered by flying ice. This effect, however, may be relatively minor compared to the impairment of photosynthetic activity caused by defoliation.

"Reduced photosynthesis during the bloom and early milk stage will adversely affect seed development and result in shrunken seed and low test weights. Additional problems also are created by subsequent tillering which results in uneven maturity.

"There is not much a producer can do about this type of damage," he emphasizes. "Unless he has an early planting of a fast-maturing hybrid, it is generally too late in the season to shred and make a uniform second crop.

"If the damage is so severe that the crop has little or no yield potential, a grower might consider overseeding the stubble with small grain for early grazing, or he might destroy the crop and prepare the land for wheat."

Supak says that hail injury incurred after the milk stage is usually less damaging than at the bloom stage. Complete defoliation during the soft dough stage cut yields in half, according to the Oklahoma research studies, whereas removal of 75 per cent of the leaves reduced yields by only 15 to 20 per cent. Although damage during the later growth stages can be expensive, it is not nearly as devastating as that which can occur during the bloom stage.

Stumped

"I don't know how to fill out this question, sir."

"What is it?"

"It says: 'Who was your mother before she was married?' I didn't have any mother before she was married."

Butz Blamed For Beef Bind

In a statement released from the Waco office, Texas Farmers Union President Jay Naman charged that Secretary of Agriculture Butz "has little understanding of the severity of the livestock price situation," which Naman says is a direct result of government policy.

"Since the depression which has struck the livestock industry was set into motion by government policy, it is the responsibility of government to correct the situation," Naman said.

The head of the Waco based general farm organization charged the Nixon administration with starting the long down-trend of livestock prices by imposing price controls on beef and suspending the import quotas.

"Secretary Butz's program to talk the chain stores into reducing red meat prices along with a token purchase program will have little more than a temporary effect on livestock prices, if any," according to the farm leader.

"If Butz wants to help

livestock producers, he must convince the President to rescind the order suspending import quotas until livestock markets begin to react. He must then show his determination to help the producer with a meat purchase program by requiring the processors who contract with the government to supply the meat to pay a fair price to producers for the live animals.

"A massive meat purchase program without a guarantee that the processors will pay a fair price will provide windfall profits to the packers and not help the producer."

"The Administration should support the proposals in Congress to provide emergency low-cost disaster loans to the cattle feeders. Stocker and feeder cattle are going begging because the feedyards have lost confidence in the future and are in such a serious financial predicament that they are unable to move back into market to refill feedlots.

"A loan program that is designed to provide incentive for livestock feeders to continue

their operations would go a long way toward bolstering the prices on stocker and feeder cattle that are being moved from drought stricken pastures in the southwest," the state farm leader said.

Naman said that he felt that it was time for the Administration to move decisively and without delay to correct the situation for which it is in part to blame. He pointed out that today's livestock market conditions parallel very closely what happened when Secretary of Agriculture Ezra Taft Benson was in office.

"The situation today is worse than in the early '50's when Secretary Benson and then assistant, Earl Butz, stood idly by while livestock prices declined 100 per cent in a matter of a few months.

"I hope that Secretary Butz has learned something since then, and will do something other than preside over the bankruptcy of thousands of livestock producers," Naman said.

County Cotton Crop Exceeds 2,000 Bales

Official figures from the Texas Crop and Livestock Reporting Service in Austin show 2,100 bales of 490 pounds of net weight cotton produced in Deaf Smith County during 1973.

The production came from 3,000 harvested acres for an average of 333 pounds per acre. In the 25 counties represented by Plains Cotton Growers (PCG), 2,800,000 bales were recorded from 2,700,000 harvested acres. This averaged just over 490 pounds per acre.

The figures were given to PCG by phone on June 20. The TCLRS publication "Texas Cotton Statistics" for 1973 is expected out in about 10 days. The total production was the highest ever for the Plains, well above the previous record of 2,440,900 bales set in 1961. The yield per acre was the second highest in history, falling

behind the 513 pounds per acre made in 1965.

The joint PCG-Lubbock Cotton Exchange Estimates Committee in its final 1973 guess on December 1 of last year placed production at 2,725,000 bales.

Dawson County, with 315,300 bales, for the second year running edged out Lubbock County as the area's top producer. Lubbock's total was close behind at an even 310,000 bales. In third place was Lynn County where 275,000 bales were harvested, compared to only 210,500 bales grown in Gaines County, the 1972 third ranking county.

The highest per-acre yield in 1973 was achieved by farmers in Borden County where each harvested acre turned out 644 pounds of lint. Following

Borden in this category was Martin County with 590 pounds per acre and Howard with 593 pounds. Floyd, Crosby and Borden Counties were the top per-acre producers in 1972 with 616, 605 and 559 pounds per acre, respectively.

The joint PCG-LCE Estimates Committee will meet early in July for its first estimate of what are acknowledged as greatly reduced 1974 crop prospects. Most observers are agreed that drought, hail and winds have cut Plains acreage for this year to around 2.1 million acres, and that yields can't possibly equal the excellent outturn of 1973. At least one knowledgeable source is placing production potential at 1.5 million bales, but there are others considerably more pessimistic.

Predators Face Uncertain Fate

Predator control work in the United States is caught in a crossfire. The crossfire is between those who advocate no control at all and some who want to eliminate all pests.

Between these two extremes are many varying shades of opinion.

"Research by Texas Agricultural Experiment Station scientists is striving to clear up many of the unproved ideas that have evolved from years of unevaluated predator control work. Our goal is to gain data and information for sound decisions," said Dr. Jarvis E. Miller, director of the TAES, the state's agricultural research agency.

A TAES scientist, Dr. Samuel L. Beason, assistant professor of Wildlife and Fisheries Sciences at Texas A&M University, did an intensive, objective study on the impact of predation on game animals and rodents in South Texas in 1971 and 1972.

Beason gathered data on the selectivity and efficiency of M-44's, hunting, strychnine baits and steel traps.

"The M-44 and hunting proved to be the most selective, each taking only target species. The M-44, which is a string-loaded device that ejects a sodium cyanide capsule, was the most efficient tool for taking coyotes while bobcats were taken more efficiently with steel traps. Hunting is obviously very selective, but the time involved weighs against it as a practical management tool, except in the case of sport hunting," Beason said.

Beason's experiment was conducted on the Santa Ger-

trudis Division of King Ranch in Kleberg County. Data were taken from two study areas similar in vegetation, soil, water, and predator and prey populations. A five-mile separation minimized inter-area influences.

Beason compared results of predator removal on the experimental area to a check program on the control area where no predators were removed.

His experiment showed that an intensive short-term predator control program to improve reproductive performance of white-tailed deer and wild turkeys could be successful if started just prior to the breeding season. But environmental conditions are also an important consideration, the research indicated.

"During drought years it seemed that predator removal could mean the difference between virtual failure or relatively high reproductive success for the deer and turkeys. In years of abundant rainfall, however, reproductive success was relatively high without intense predator removal, indicating that removal may not be justified in these years unless a more intensive game harvesting program created a need," Beason said.

Another finding showed that the intensive, short-term removal program did not harm the biological balance in this particular study area.

Predator populations were apparently affected very little, since they repopulated the experimental area each year

Census Reports Need Records

"Farmers and ranchers, get ready for the 1974 Census of Agriculture! Keep good records of your farming operations this year!"

This is the request of the Bureau of the Census, the Federal agency that will conduct the 20th nationwide Census of Agriculture during the first part of 1975. The Bureau is part of the U.S. Department of Commerce's Social and Economic Statistics Administration.

Farmers will receive their report forms by mail early in January. They should fill them out and mail them back promptly. Having accurate and detailed records will make it easy for farmers to do this. Questions will be much like those in the last previous agriculture census which covered farming and ranching during 1968.

Questions will ask for acreage of cropland harvested; quantity and market value of major crops produced; acres irrigated and means of irrigation; acreage treated with pesticides, lime and other chemicals; acreage fertilized by kind of fertilizer (dry, liquid, gas).

Questions on livestock and poultry will cover the number of each kind on the farm as well as the number sold and the sales value. Quantities and sales value of their products will be sought. Details will be requested about farm products produced or marketed under contract. A few questions will be included about hired and contract labor, the number of workers and cash wages paid; also about any injuries to workers.

Further expenditure questions will cover amounts spent for feed, fertilizer, pesticides, lime, gasoline and other farm fuels, machine hire, and livestock and poultry purchases.

There will be questions about the various types and uses of land, such as cropland not harvested, other pasture and woodland, and about the value of land and buildings on the farm.

Operators will be asked about farm related income such as recreational services, customwork provided other farmers, or payments for participation in Government farm programs.

Two types of report forms are being prepared: one for farms with sales of \$2500 or more, and another less detailed form for places with sales of less than \$2500. No matter which form a farmer receives, he need answer only those questions that apply to his operation. He should skip questions that apply only to other types of agricultural operations.

By Federal law, every report is confidential. It may be seen only by sworn Census employees and may be used only for statistical purposes. The mail method reinforces confidentiality. It also allows the farmer to complete the report at his convenience with accurate information from his records.

USDA Eyes Beef Grading

The American National Cattleman's proposed "New Grade" addition to the current grading system deserves "careful consideration" by the U.S. Department of Agriculture and the beef industry, members of the 27th Annual Reciprocal Meat Conference learned Monday.

Dr. Z.L. Carpenter of the Texas Agricultural Experiment Station and the A&M University Animal Science Department said there is little doubt that the transfer of conformation from the quality grade criteria has merit. Conformation has little bearing on meat palatability.

New Grade is proposed for a slot between Choice and Good in the current beef quality grading system.

Carpenter said New Grade offers opportunity to various segments of the industry, especially if future conditions are such that a lower percentage of the fed-beef supply will qualify for the Choice grade under present standards.

"It is clear that a new system for objectively determining ultimate palatability must be developed and incorporated into our grading system," the speaker said. "Until this happens, it appears that the American National Cattleman's approach to modifying grade standards merits careful consideration."

When people lose confidence in the leaders of the nation, the country is threatened with revolution.

If you want to find out how important news is, read a month-old newspaper.

Some think that crocodiles lure people into their mouths by sounding like others in distress.

Heritage Program To Honor Farmers

Farmers and ranchers in Deaf Smith County whose families have held the same land since 1874 or before will be honored by the Texas Department of Agriculture's "Family Land Heritage Program", according to Commissioner John C. White.

The program, which will be initiated July 1, will "pay tribute to those families who have proved their respect for and dedication to the land," White said.

This county has some of the oldest establishments in the state, with a long history of dedicated service to the agricultural community and I hope that every qualified family will take this opportunity to be recognized by the people they have served, White said.

Applications and rules for the program may be obtained by writing Commissioner White, P.O. Box 12847, Austin 78711.

Any family who is certified by Judge H.C. Williams will qualify for the honor. An applicant need only show a continuous family relationship between the founder of the homestead and the present owner.

The land must have been in use for agriculture by the family since 1874 or before, must be at least 10 acres and producing \$50 or more from agricultural products.

Those who do qualify by August 31 will be recognized in a special ceremony at the State Fair this year and short history of their family and land will be published in a land heritage directory. In addition, local recognition will be provided to the families for their long dedication to agriculture.

Texas Third In Vegetable Production

AUSTIN—Texas was first in the nation last year in harvested acreage of cabbage spinach and watermelons, Agriculture Commissioner John C. White has announced.

The state ranked in the top five in cantaloups, carrots, green peppers and onions and was third nationwide in total production of fresh market vegetables.

These and other facts are contained in a new Texas Department of Agriculture publication, 1973 Texas Vegetable Statistics.

Statistics were compiled by the Texas Crop and Livestock Reporting Service. They contain a detailed breakdown of 16 vegetable crops grown for fresh marketing and processing in Texas. Estimates are also made for Irish and sweet potatoes, beets for canning and snap beans for processing.

With maps, charts and graphs, the booklet breaks down vegetable production into eight major growing areas, planting and harvesting dates, principal counties, areas, acreage, yield, cash value survey methods and other information pertinent to the state's vegetable industry.

According to White, commercial vegetable production is centered in 13 principle areas which include 105 counties. Of these, three counties grow more than 10,000 acres of vegetables a year—Hidalgo, Zavala and Frio.

Anyone interested in a copy may write to Commissioner John C. White, Texas Department of Agriculture, P.O. Box 12847, Austin, Tex. 78711.

Watermelon Weather Hits Texas

It's watermelon pickin' and eatin' time in Texas, and, as any old-timer will tell you, a good thump is one way to find the best melon in the lot.

According to Agriculture Commissioner John C. White, however, there are other—and possibly better—ways to judge a ripe, juicy melon.

"The best one is to cut a plug so the meat can be seen and tasted," White said. "But your neighborhood grocer or supermarket manager may not understand when you start cutting away at his melons before you buy. So here are a few other tips to go by."

Though nothing offers proof positive, several outward signs are a guide to ripeness and quality. These include a firm, symmetrical shape, fresh attractive appearance and good color. Color will vary from a deep solid green to gray, depending on the variety.

Mature melons have a velvety bloom or dull rather than shiny surface. The underside is yellowish.

White noted that Texas is first in the nation in watermelon production. This year, however, the yield is expected to be down because planting dropped 10,000 acres and the growing season was dry. Growers expect quality to be high.

Though recent predictions indicated melons will be smaller and prices higher this season, the early harvest has not borne them out. Charleston Grays and Stripes or Jubilees from South Texas have been in the 16-28 pound range and prices per hundred pounds have been \$3.50-\$4.50.

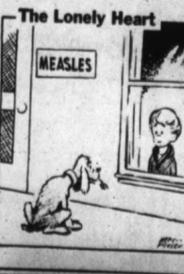

Wheat Yield To Plummet

AUSTIN—Texas wheat production is expected to decrease from a record 98.6 million bushel yield in 1973 to 63 million bushels, a drop of 35.6 million bushels, Agriculture Commissioner John C. White has announced.

White's projection was based on field studies of wheat conditions by Texas Department of Agriculture inspectors and U.S.D.A. statistical data.

Most of the decrease is due to the failure of the dryland wheat crop on the Texas High Plains. Growth of dryland wheat has been slow because of drought conditions throughout most of the area.

Nationally, winter wheat production is estimated 1.5 billion bushels, a five percent drop from May figures.

At The Library

Mystery Is New Summer Reading

Suspense and mystery, standard content for light reading in the summer, feature two new novels at Deaf Smith County Library which is open now for circulation of books although its formal dedication will not be held until July 4.

New hours are in effect, with one open evening a week for the convenience of employed persons who cannot easily get to the library during ordinary business hours.

The library is open at 9 a.m. daily except Sunday. It closes at 9 p.m. Monday, 6 p.m. Tuesday through Friday and 12 noon Saturday.

The public is invited to use its reading rooms, reference section and other facilities now that there is adequate space in the new building at the corner of East Fourth and Schley Streets. There is no charge for library use or for cards to check books out.

ISLAND OF THE SEVEN HILLS

By Zoe Cass

Island of the Seven Hills is a wonderful tale of romantic suspense set on Gozo, an island neighboring Malta.

Alexa Prescott has come to Gozo after the terrible news of her father's sudden death. Apparently Mr. Prescott, though an experienced yachtsman, had drowned in the calm sea off his anchored boat.

Alexa cannot believe in her father's fate and has come home to settle his affairs and to try to lay his spirit to rest.

Shortly before his death her father had bought a lovely old stone farmhouse on Gozo. Alexa, over the objections of Michael Brent, her former fiancé who also lives on the island, takes up residence in the deserted farmhouse.

Here, exploring the almost empty rooms, she comes upon what seems to be a great painting—what, in fact, looks like an original Modigliani. Its presence in the house is bewildering to Alexa since she knows her family's income would hardly have paid for the frame of such a painting.

That Alexa lives in the house seems to arouse in the island's peasants the greatest fears for her safety. Her encounters with Michael Brent and his new girl friend's family are perplexing and frightening.

Finally a great storm at sea turns Gozo, a tourist paradise, into a prison for all of the characters. In a tense and surprising climax Alexa realizes how close she has been to her father's murder and to her own death.

A lovely and touching love story is played out beneath the lines of this drama and the colorful and luscious background adds to the reader's enjoyment of this suspenseful tale.

THE UNKNOWN AJAX

By Georgette Heyer

What a dilemma for Lord Darracott! The loss of two heirs in one boating accident has left him in an unthinkable awkward predicament, one from which even he, whose whim is generally law, can find no escape.

For unquestionably, Hugh Darracott, the grandson he has never seen, now stands next in line of descent. And is not this Hugh the offspring of his lord-

ship's second son, who disgraced himself by marrying—it must be confessed—a weaver's daughter? What then must the weaver's brat be? Why, a boor and a bumpkin, and hardly fit to inherit either the proud Darracott title or the rambling and dilapidated baronial estate that goes with it.

Making the best of a ticklish situation, Lord Darracott summons Hugh to meet the family and determines that the only way to ensure the future respectability of his name is to marry off Anthea, his pretty and intelligent granddaughter, to the new heir.

Arriving, Hugh finds himself

confronted by one disagreeable grandfather, on disgruntled Uncle Matthew and two unamiable male cousins, but he is less perturbed by the unfriendly atmosphere than by the matrimonial project arranged for him with a young lady he has never set eyes on.

In desperation, he adopts the ruse of living down to his relatives' expectations, and by the time Anthea comes upon the scene it is too late to reverse his rustic role.

By now he is not the only person concealing true feelings and much misunderstanding and mischief take place before heart and head clime together in old Darracott Hall.

H³ HUSTLE HUSTLE

By Bill Albright, Executive Vice President
Deaf Smith County Chamber Of Commerce

There is always a great deal of activity at your chamber office. Membership is a continuous campaign. We are very pleased with the number of members who are increasing their investment in the chamber and new members who have enrolled over the past few weeks—the strength of our organization is solidly built on the many members of Deaf Smith County who have a share in the quality growth of our community thru participation in the Chamber of Commerce. Another project which is gaining momentum is interest in a recreational facility. Probably the most widely talked about need for Hospitable Hustlin' Hereford is a place for young people and adults alike, to go for recreation. Leading the list of requirements is a consistent cry for an indoor swimming pool. Some have suggested a YMCA which of course includes much more than just a pool. Others advocate a municipal indoor pool, administered on the same basis as our municipal golf course. Still others feel that a private corporation could build and operate a pool. I believe the need exists and it's evident that there is a strong community desire for such recreation. It may be that we have an opportunity just around the corner.

Your Chamber of Com-

The Hereford Brand, Hereford, Texas, Thursday June 27, 1974

Best Of Press

Definitely! Speeches are like steer horns, a point here, a point there, and a lot of bull between.

-Tiger, U.S.S. Barry.

Challenging

If life is worth what it's costing now, then it was certainly a bargain 30 years ago.

-Times, Marshalltown, Ia.

Elementary

Many a girl is just attracted by the simple things in life—men.

-Algonia, Des Moines.

Words of Wisdom

Wisdom is knowing what to do next, skill is knowing how to do it, virtue is not doing it.

-Tribune, Chicago.

True

Nothing great was ever achieved without enthusiasm.

merce supports these activities designed to improve and promote the community. The safety of all our citizens certainly qualifies, so our compliments to the municipal officials who are working to enforce safer bicycle riding in Hereford and while we're on the subject of safety many of our drivers could set a better example of good driving thru a more consistent and timely use of turn signals, use of head lights at dawn, dusk and in rain and fog, turning into the correct lane, and complying with posted speed limits and stop signs. Next time YOU drive look for these violations it's surprising how many of us really need to brush up on good driving practices.

How much profit do you think a super market operates on? I'll bet most people will be as surprised as I was to learn how small the margin really is. Who profits from profits? Let's take a quick look at the system. Profits are a vital part of free enterprise. And of course free enterprise is the American way

Cemetery Assn. To Meet Tuesday

Members of the Hereford Cemetery Association are invited to attend the annual business meeting Tuesday at 3 p.m. in the Civic Center, 141 E. 3rd.

Gerald R. Ford, Vice President: "Our greatest threat comes from no foreign foe but from those at home who seek to impose the power of negative thinking."

Charles Evers, civil rights leader: "I think if we hooked George Wallace up with Ted Kennedy or Mondale, we'd have a winner."

Congress Corrals Cattle Problems

By BOB PRICE
U.S. Congressman

The Congress appears now to be moving to help cattle producers and feeders, and thus encourage a continuing beef supply for American consumers.

On Tuesday and Wednesday the House Livestock Subcommittee conducted hearings on bills to establish a loan guarantee and loan insurance fund to help cattlemen and feeders to obtain credit with which to re-stock feedlots. I first offered such legislation last May 30, with 17 co-sponsors.

Since then other bills have been introduced utilizing the same concept but making modifications in details. These guarantees and loan insurance contracts would be made available only to borrowers who are no longer able to obtain credit through normal lending channels.

This previous week, the full committee laid important groundwork for this bill, introduced May 30, by conduct-

ing general investigative hearings on livestock and food prices.

Agriculture Secretary Butz was among those who testified and I participated in these hearings throughout the week. I thought the Secretary made it clear that while he felt any cattle loan guarantee should be of an emergency and temporary nature, he also recognized that the industry is suffering a severe economic depression which threatens to put many out of business.

IN THE MEANTIME, the Senate Agriculture Committee, acting quickly, held hearings on a bill offered by Sen. John Tower and others which were patterned after my cattle loan guarantee bill. I testified at those hearings early last week, along with others, and on June 19 the committee approved a modified version of the bill. At this writing the Senate was expected to call up the bill for passage on Monday.

Meanwhile, action was being taken along other fronts to help deal with the same problem of long-depressed on-the-hoof beef prices. A number of Congressmen evidenced interest in my bill to require a temporary beef import embargo.

Shortly after Secretary Butz' testimony to the House Agriculture Committee Thursday, the committee approved a resolution I submitted expressing sense of the committee that the President should rescind his earlier order which lifted meat quotas. The Senate Agriculture Committee also approved such a resolution.

FOREIGN TRADE action, of course, is complex and we should not take action which would result in reprisals from our trading partners which might decrease the volume of our own agricultural exports.

But pressure from Congress toward a beef import embargo is giving our trade negotiators a "Big stick" to use in their

negotiations and it should help them to obtain voluntary reductions in our beef import levels.

After his testimony to the House Committee, I also urged Secretary Butz to: revise the grading system for beef to include the upper one-third of beef currently graded "good" in the category known as "choice"; and, to re-institute the sales promotion program terminated last August known as the "Plentiful Food Program".

The beef grading system has not been substantially revised for nearly a quarter of a century. In that time, technological advances have been made in the cattle industry which justify this modernization.

ADDITIONALLY, I have introduced legislation which would institute a voluntary check-off of one dollar per head among cattlemen to establish a fund for use of retail beef sales. This would work similarly to

promotion programs in operation for a number of other agricultural commodities.

The program would begin only after a national referendum showed approval by a majority of cattlemen who felt the fund was not worthwhile could have their contributions returned in full upon filing for a formal request.

In sum, I sense in the Congress a growing recognition that the plight of the cattlemen and cattle feeder is of concern to consumers and I now expect the Congress to be able to pass some form of emergency assistance which will help in the fight to return the cattle industry to a profit position and thus insure a continuing supply of high quality beef for consumers.

The beauty about youth is its faith and confidence... the two worthwhile possessions of the human race.

NOTES, COMMENTS

The majority isn't necessarily right.

A good neighbor is one who loans but never borrows.

If you have surplus money, use it to pay your debts.

One of the most misused words in the language is the word "love."

Almost anyone is enthusiastic over a new job, with more pay.

The idea that wild animals live at peace is not to be relied upon.

Leaders get credit for the work they can persuade others to do.

Work performed ahead of schedule is a pleasure, when completed.

TSTA Satisfied With Proposals

Leaders of the Texas State Teachers Association (TSTA) at this point are well satisfied with the provisions of the proposed document related to public education and teacher retirement" before the Texas Constitutional Convention.

Jimmy Hooser, director of governmental relations for the association, made the statement as he reported on prospects for a new educational finance bill in Texas at the Business Services Workshop at Texas Tech University Wednesday.

He also presented the association's 1975 legislative program which has as its goal "educational rights for all Texas children."

Approximately 150 persons are attending the two-day workshop sponsored by Texas Tech University, the Texas

Association of School Business Officials, the West Texas Association of School Business Officials, the Lubbock Independent School District, the Education Service Center Region XVII, and the school equipment exhibitors.

Hooser reported the education act, as approved by the convention Tuesday, required the Legislature to establish and provide for the equitable support and maintenance of an efficient system of free public schools below the college level and that the system "must offer each individual an equal educational opportunity, but a school district may provide local enrichment of educational programs consistent with general law."

Hooser pointed out that Gov. Dolph Briscoe has not yet made a decision on calling a special session of the Legislature, but that he "is fully aware of the needs of Texas school districts and retired teachers."

Hooser called on school officials to contact their state senators and representatives about "the need for additional state funding for 1974-75 for the public schools and the need to increase retirement payments."

The association's legislative goals are designed to help solve problems of: raising the level of school programs to provide an acceptable educational program to every Texas child; equity in tax administration; inflation and its effect on school budgets, revenue, and costs; improvement of teaching salaries; continued improvement of the Teacher Retirement System; and additional financial burdens on schools, resulting from new state laws such as workmen's compensation for public employees, state-supported kindergarten, vehicular liability, tort claims, maintaining and improving existing programs, as well as court-ordered busing.

Dumas school district business manager J.C. Shepherd presided over a panel discussion on "Workmen's Compensation." Panelists were Lubbock insurance men John Shropshire, Ken Gilmore and Boyd Mears.

Afternoon panel discussions dealt with wages and hours and the Occupational Safety and Health Administration (OSHA), and developments and problems in purchasing. Dr. Kelly Hamby, director of Research, Governor's Office of Educational Research and Planning, Austin, spoke in the afternoon on "Unique Costs of Different Types of School Districts."

The workshop continued through Thursday noon.

Conference coordinators are Dr. Berlie J. Fallon of the College of Education, Texas Tech; and Rupert Pearce and Harold Glascock of the Lubbock Independent School District.

And then there was the cynic who said an appropriate wedding march would be "The Battle Hymn of the Republic."

CITY OF HEREFORD, TEXAS
By: /s/ James H. Sears, Mayor
T-26-2c

To any Sheriff or any Constable within the State of Texas - GREETING:
You are hereby commanded to cause to be published once each week for four consecutive weeks, the first publication to be at least twenty-eight days before the return day thereof, in a newspaper printed in Deaf Smith County, Texas, the accompanying citation, of which the herein below following is a true copy.

CITATION BY PUBLICATION TO:

Henry Heinlein, Sophia Heinlein, John Heinlein, Henry Heinlin, Jr., Frank Heinlein, George Heinlein, Phillip Heinlein, Antin Heinlein, Carl Heinlein, Anna Heinlein, Edward Heinlein, Joseph Heinlein and Ema E. Mercer, and also the heirs, their heirs and legal representatives of Henry Heinlein, Sophia Heinlein, John Heinlein, Henry Heinlin, Jr., Frank Heinlein, George Heinlein Phillip Heinlein, Antin Heinlein, Carl Heinlein, Anna Heinlein Edward Heinlein, Joseph Heinlein and Ema E. Mercer.

Defendant, Greeting: YOU ARE HEREBY COMMANDED to appear before the Honorable District Court of Deaf Smith County at the Courthouse thereof, in Hereford, Texas by filing a written answer at or before 10 o'clock A.M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 5th day of August A.D. 1974 to Plaintiff's First Amended Petition filed in said court, on the 18th day of June A.D. 1974 in this cause, numbered 5640 on the docket of said court and styled Betty Fay Kearns Neely et vir, R.C. Neely, Jr. Plaintiffs, vs. Henry Heinlein, Sophia Heinlein, John Heinlein, Henry Heinlin, Jr., Frank Heinlein, George Heinlein, Phillip Heinlein, Antin Heinlein, Carl Heinlein, Edward Heinlein, Joseph Heinlein and Ema E. Mercer, Defendants.

A brief statement of the nature of this suit is as follows, to-wit: Being a suit in trespass to try title to recover title and possession of that certain land and premises in Deaf Smith County, Texas, being the Northwest one-fourth (NW-4) of Section Eight (8), Block Seven (7), BSAF Surveys, containing 160 acres, more or less, asserting title also by adverse possession under Article 5507, 5508, 5510, 5519, and 5519a, V. T. C. S. and under any other limitation statute applicable to the ownership of real property as is more fully shown by Plaintiff's First Amended Petition on file in this suit. If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved. The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs. Issued and given under my hand and the seal of said court at Hereford Texas, this 18th day of June A.D. 1974.

Attest: Lola Faye Veazy Clerk, District Court Deaf Smith County, Texas. (SEAL) By Virginia Easley Deputy. T-25-4c

A vacation isn't going away from your work; it's getting your work out of your mind. Government will cost more money as long as people demand more services, free of charge.

PROCEEDS WILL GO TO GIRLTOWN U.S.A.

Fish Is At Home On The Campfire Or On The Range

Getting back to nature and away from it all makes a great family vacation. There's lots of time and energy for swimming, hiking and especially eating. Preparing the food is part of the fun—if it's shared. Make sure everyone gets a job and keep the food simple, yet interesting.
Camping isn't a carefree vacation unless you plan well in advance. Checklists of foods, equipment and menus are a must to get everything on the road. If you're planning to fish or can carry frozen fish in your ice chest for a day, you'll want to include French Fish Fillets on your campout cooking menu. Dipped into a flavorful, "tomatoey" dressing, and coated with crunchy cracker crumbs, it's the kind of simple, hearty fare that's just right for cooking over an open fire.
Ingredients and equipment are minimal, and preparation and cooking time are short. Bottled French dressing and cracker crumbs are easy to transport in your travelling kitchen, as they take up little space and do not require special storage. As for equipment, this recipe calls only for standard camping supplies—a bowl for the dressing, a plastic bag for the cracker crumbs, and your faithful iron skillet for cooking.
If French Fish Fillets become a favorite on the trail and you want to repeat the recipe at home, or if you're just not an outdoor cooking buff, try the indoor variation. You'll find this convenience recipe a welcome change of taste at the end of a busy working day.

French Fish Fillets
1 lb. fish fillets
Kraft French Dressing
Cracker crumbs
Coat fish with dressing; dip in crumbs. Pan fry in Kraft Pure Safflower Oil, 10 to 12 minutes, or until fish flakes easily with a fork.
Variation: Place fish in a greased baking dish; bake at 450°, 10 to 12 minutes, or until fish flakes easily with a fork.

BIBLE VERSE
4. Is the invitation recorded elsewhere in the Bible?
Answers to Bible Verse
1. Matthew 4:19b (Living Bible).
2. To Simon and Andrew, who were fishing.
3. By Jesus.
4. Mark 1:17.

By The Garden Gate With Glad

By Mrs. Art Manjeot

Garden friends, garden enemies. Spring and summer merge during June, giving gardeners many rewards.

Our calendars mark the first day of summer, roses burst into a riot of color, annuals start their blooming season and many perennials add color and interest to gardens. The trees are at their peak of beauty, having put on their full dress of luxurious foliage and the birds add their song as we work in the gardens.

Recently I have been with many groups of people and was delighted to hear them talking about one of our garden friends. The singing birds. Each morning and evening while I work in the yard the mocking bird sings and entertains me.

Two of my friends who are excellent horticulturists and lovers of nature were discussing the birds that were seen in their trees and gardens. When a mocking bird was seen searching out a nesting place, bits of straw and lengths of yarn and twine had been placed so that the bird would have extra building materials for the nest.

Soon the nest was completed, and eggs were laid. Then all was quite around the tree in which they had nested. Boys passing by had shot and killed the father bird, and the mother bird had to leave the nest to search for food. Yes, birds have enemies too.

In a letter from a friend in a distant state, she discussed how pleased she and her husband were when they noticed singing birds nesting in a tree in full view from their dining room window.

The husband was so pleased that he aided the birds by supplying some yarn. He unravelled an old sock and placed threads in view of the busy birds so that the nest would be strong and sure for the mother bird and the little ones. As the mocking birds flew from place to place they would often stop and sing, even sometimes at night when the moon was bright.

Yes, birds are our garden friends. They aid in keeping down bad insects and add color, beauty and music.

During these extremely dry days water should be accessible for the birds. Scraps of toasted bread, corn bread and other bird food can be shared to add to their diet of seeds and worms. Garden enemies can be controlled by various means. One of these is to keep plants healthy. A weak straggly, undernourished plant is an excellent place for insects to attack and hibernate in.

There are many insects this year and dry weather makes it more difficult to grow healthy strong plants, and keep shrubs and trees in good condition.

Weeds are another enemy which we must constantly battle. Keep weeds, grasses and other foreign growths out of flower beds and from around vegetables. It is important that these are not permitted to mature and drop their seed, which will cause another crop.

Special attention should be given to many growing plants. Chrysanthemums and asters perform much better when their growing tips are pinched back. Nip the soft tip of growth from each young plant when it reaches six inches, and again when resulting branches have grown another five or six inches.

Pinching forces young plants with only single stems to branch, and the more branches produced on the growing plant the more blossoms they will produce. I have found that if petunias are pinched, when set out, they will grow much better and be a stronger plant.

Tiny new buds will be appearing on the chrysanthemums, the first ones should be pinched or rolled off. This will produce a more profuse flowering and better quality blossoms.

Tall varieties of chrysanthemums should be staked when they have reached 12 inches in height. The stakes should be strong enough to support the plant when in full flower. Asters can also be staked, and a more perfect bloom will be produced.

Drought and heat will seldom kill older, well-established shrubs, but can seriously affect

new ones. To aid shrubs, cultivate the soil around them, removing weeds and grass.

After the soil crust has been broken around the plant spread a light dressing of a well balanced plant food in a broad band around the perimeter. This should be done especially for shrubs which flower and make berries.

Water thoroughly and slowly after adding the plant food. Water will carry the food to roots of the plants. Let the hose run slowly until soil is thoroughly saturated.

Frequency of this care depends on rainfall; during extreme dry weather this should be done for new plants every two weeks, once a month will probably suffice for older ones check to ascertain needs.

Soil crust should not be more than four inches. Friable soil always pays off. To save on maintenance a mulch should be used to keep soil from crusting deeply and will aid in retaining moisture for either old or new plant.

During hot, dry summer months extra care should be given trees. Do not water at the base of the tree, but water at the edge of the drip line of the tree spread. You can expect feeder roots anywhere within this area, often even beyond. Food when applied should also be placed at the drip line.

The old saying, "a stitch in time saves nine" is applicable to gardening. It takes much time and effort to grow a tree. Care for them.

Good grooming is essential if healthy plants are grown, and the beauty we want is achieved in our gardens. Remove old flower blooms, do not allow seed pods to form if you want a continuous bloom. Seed pods should be removed from peonies now, and a light feeding given them.

There are many lovely showings of daisies in town. Those at the front of the pizzeria have been unusually nice. Large full blooms, and straight, sturdy stems with lush green foliage. Also many attractive showings of geraniums are around town. These will be attractive until frost if properly maintained.

Activities have gained momentum during the last week as preparations are made for the July 4 celebration. Planter boxes at the new library building have been planted. Bright red petunias are prevalent at First National Bank. Grounds at the Garden Center are being groomed for open house. New roses have been added to the memorial rose garden at First Baptist Church. Lawns and new trees at D.S. General Hospital are beautiful, and the memorial rose garden is adding color and beauty.

However there are eye sore places where weeds have taken over and trash accumulated. A hoeing and raking crusade would be very beneficial for all of us. Want a good physique? If so try hoeing each morning or late evening. Keeping busy, cheerful and alert creates happiness and contentment. GLAD.

WHO KNOWS?

Democratic Telethon

Senator Max R. Sherman signs pledge card for the upcoming Democratic Telethon June 29th and 30th over CBS-TV while co-chairman of the Texas Telethon Committee George Brison of Austin looks on. The giant pledge cards used during a press conference held earlier that same day by Gov. Dolph Briscoe who signed the first card in Texas donating \$100 toward the fund raising event. The telethon will be the longest ever held on network television in the United States and will last from 9 p.m. Saturday, June 29 until 6 p.m. Sunday, June 30. Texas' portion of the telethon will consist of 10-minute Texas-oriented live segments originating from the Fairmont Hotel in Dallas during which time many political figures, celebrities and others of interest to viewers will be interviewed and up-to-the-minute Texas totals will be telecast. In Amarillo, station KFDA will carry both the national and Texas' portions of the mammoth telethon.

"Not Now, Norman"

An encounter three years after their graduation from high school leads to a romance filled with frustration for Norman and Stephanie in "Not Now, Norman," a "Wide World: Special" on the ABC Television Network, Wednesday, July 3 (10:30 p.m.-12:00 Mid. night).

Patricia Hawkins, who starred in the film "American Graffiti," stars as Stephanie, and Alan Cauldwell stars as Norman—a couple who have sharply contrasting views as to what constitutes proper conduct during courtship. Stephanie's priorities are love after marriage; they continue dating in the hope that an accommodation can be found in each other's position, each of them looking for a weak spot in which a breakthrough can be made.

While, Norman's best friend and fellow employee in the bank where Norman works, doesn't help matters by scoffing at his chum's platonic encounters with Stephanie.

Stephanie's unyielding position leads to their separation. But when they meet again, at a party, she has second thoughts.

"Tonight Show" Director Anticipates Ad Libs

How do you anticipate the ad lib moves of a host on what is one of the few extemporaneous shows on television?

Five nights a week, for more than seven years, Bobby Quinn has been able to do just that: Quinn is the director of NBC Television Network's "The Tonight Show" starring Johnny Carson. (Mondays-Fridays, 10:30 p.m.-12:00 Midnight).

"It's a combination of things," Quinn comments. "I know Johnny quite well personally, and I've been with the show both as a director and an assistant director for ten-and-a-half years."

"Also, we have a fine crew. They function as one. We seldom are not in a position to handle what is happening on stage and it's a tribute to the guys on the floor."

Quinn is so familiar with Carson's moves—or what he might do in a given situation—that in many instances, he's telling Carson to move before Johnny actually does something. This instinctive reaction is one of the reasons the program runs smoothly from an audience's point of view.

"When we have a guest host, or someone who is not as well-known to me or as predictable, we have to move even faster and sometimes we get caught," says Quinn. "The Green for examples, who sometimes don't know what they're going to do until they are actually doing it!"

"I've been doing 'live' TV for so long," Bobby continues, "that much of what I do is by instinct."

Late-night ABC shows include 'In Concert'

Procol Harum, Jim Stafford, Foghat and the Sensational Alex Harvey Band are the stars of the first of four "Wide World: In Concert" programs taped in London for presentation on the ABC Television Network. The show is one of the attractions on ABC's late-night schedule during the week of July 1-5.

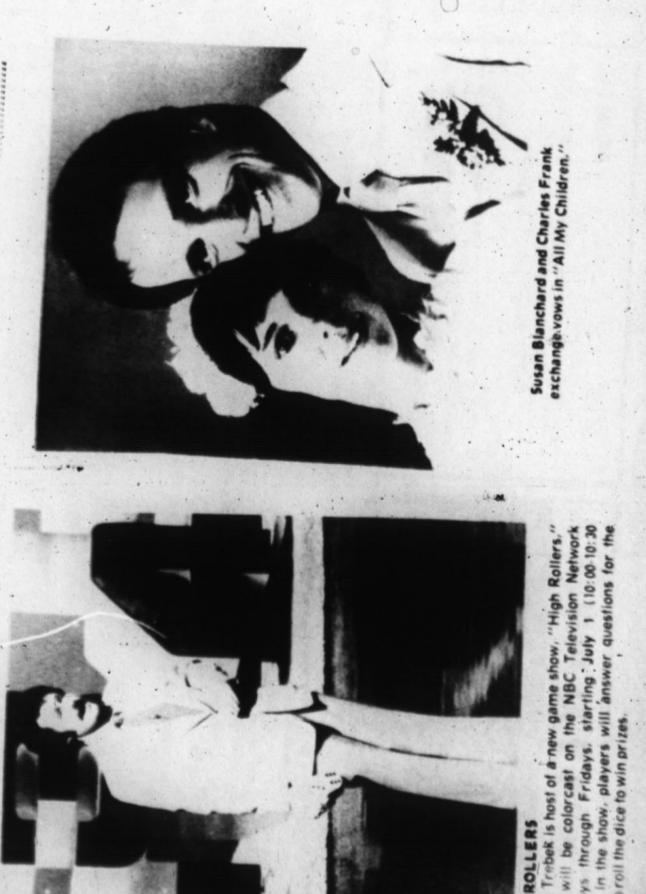

This "Wide World: In Concert" and the other made-in-London shows, which will be seen July 19, Aug. 2, and Aug. 16, originated at London's Rainbow Theatre, England's leading rock music mecca, and were the first television programs to be produced there.

A two-part presentation of "The Strange Case of Dr. Jekyll and Mr. Hyde," starring Jack Palance; a new edition of "Geraldine: Good Night America," and "Not Now, Norman," the comedy story of a courtship, are ten other attractions to be aired during the week.

All programs will be seen in the 10:30 p.m.-12:00 Midnight time period.

"The Strange Case of Dr. Jekyll and Mr. Hyde," the award-winning adaptation of the classic Robert Louis Stevenson novel, will be seen in two parts, Monday, July 1 and Tuesday, July 2 as a "Wide World: Mystery," July 1 and Leo Genn, Tessie O'Shea, Billie Whitelaw, Oscar Homolka, Denholm Elliott and Torin Thatcher co-star in the television adaptation, for which writer Ian Hunter won an

10:30...ABC...WIDE WORLD MYSTERY...THE STRANGE CASE OF DR. JEKYLL AND MR. HYDE...Jack Palance stars in this classic tale by Robert Louis Stevenson. (R)

Bill Cullen hosts "Winning Streak" Bill Cullen, host of NBC TV's new daytime game series, "Winning Streak," has compiled one of broadcasting's longest winning streaks—he has never been unemployed since he entered the medium at the age of 19. The witty and personable performer began his broadcasting career in his native Pittsburgh, when he took a job at a local radio station while enrolled as a pre-med student at the University of Pittsburgh. Quickly realizing that a radio career was what he really wanted, Bill quit school after a year as a student.

In 1944, Cullen moved to New York and snared a position as a staff announcer on NBC. His first game show was "Winner Take All," which was on radio from 1946 to 1950, when it moved to television.

Never at a loss for words or the bestowing of prizes, Bill's perhaps best remembered for the very successful show, "The Price is Right," which he hosted on network television for nine years. He also was host for "Eye Guess" on NBC-TV for four years.

Friday Program Notes

7:00...ABC...THE BRADY BUNCH..."Quarterback Speak," with guest star Chris Beaman. Marcia gets some new attention from the quarterback of a rival football team who is after Greg's play book. (R)

8:00...NBC...NBC FRIDAY NIGHT AT THE MOVIES...WORLD PREMIERE: TRIPLE PLAY...In "The Bear and I," Soopy, Sales discovers a talking bear and puts him on his show. "Tupper Returns," stars Roddy McDowall as Tupper's nephew, who is involved with his uncle's spirit. "The Kerbys," John Fink and Stephanie and Norman sit in in "Going Places," the story of a writer who comes to New York thinking a publisher plans to publish his novel. "Mum Buzzi hosts" (R)

8:00...CBS...THE CBS FRIDAY NIGHT MOVIE...ALPHEE...Michael York in a biographical drama of the desperate times and life of Alpheus that led to the unification of England. (R)

8:30...ABC...THE ODD COUPLE...Sleeping policeman Felix develops a wide variety of remedies offered by Oscar. (R)

9:00...ABC...TOMA...A funeral for Max Fabian. Dave poses as a investigator on the East Coast to investigate corruption and murder, aided by warring factions of a union leader. (R)

10:30...NBC...THE TONIGHT SHOW STARRING JOHNNY CARSON...John Davidson is guest host. Guest: Sandy Duncan.

10:30...ABC...WIDE WORLD SPECIAL...FANTASIES FILLED...Peter Marshall and Bobbi Tetel host their show, which grants seven cherished wishes. Their introduction of the seven fantasies are interspersed with comedy sketches and readings.

A list of more than 150 personalities are scheduled to appear, and film and video-tape segments are being prepared to "articulate," according to the producers, "the America, America" theme, which seeks to both reaffirm America's basic values and give people the chance to take an active part in political life.

This special marks the third consecutive year that the Democratic Party has employed a telethon to raise money from the general public for candidates in national and local elections. The first broadcast was carried in June 1972 on

Democratic National Telethon to fill 21 hours

ABC and the second last September on NBC. A special display panel is being designed and constructed to show the proposed fund-raising goals for each of the 30 states, and a running tally of sums actually raised will be listed next to each goal to give viewers a clear indication of the progress being made on a state-by-state basis.

Eric Lieber is executive producer for the telethon. He produced the eight-hour 1973 telethon, "America Goes Public," which raised more than \$4.3 million from more than 250,000 contributors, according to the Democratic National Committee. More recently, he produced "The Orange Blossom Special" and "Grammy Salutes Oscar," as well as three Jerry Lewis telethons.

Hai Kanter is head writer for "Answer, America!" and Peggy Lieber is the producer. Don Davis and John Darcy are the directors, with Jack Elliott and Allyn Ferguson the musical directors. Tom Whedon and John Stewart assisting with script, and Ken Harris the talent coordinator.

HERE'S YOUR KROGER
RECIPE OF THE WEEK

APPLE STEAKETTES

Another old-time
FAVORITE RECIPE from
Family Circle

1. Cut steak in long strips about 1/2 inch wide; following label directions.
2. Thread each strip, accordion style, with pineapple chunks between holes. Use 1/2 inch skewer; stick a cherry to the end of each.
3. Grill over hot coals, turning once and basting with sauce about 3 minutes; for meat should be done.
4. As steaks are done, push off skewers with fork; onto roll. Heavy eaters may have to a roll twice as good.

HONEY-SOY SAUCE:

1. Combine 1/2 cup soy sauce, 3 tablespoons honey, mixed small pieces garlic, and 1 teaspoon ground ginger in a small bowl. Makes about 2/3 cup.

FOR OTHER RECIPES SEE
FAMILY CIRCLE
ON SALE AT KROGER.

GREAT NEWS! MANY KROGER MEAT PRICES ARE
**LOWER THAN
LAST YEAR!**

Roast Beef, pork and many other meats are being sold here at Kroger for less than they were last year. In fact, many of our meats are now priced at the same level as they were last year. Why? Because Kroger's People's Choice meats are so good, so tender, so delicious, so economical that we can afford to sell them at the same price as last year. And that's the best news of all. It means you can enjoy the same great meat prices at Kroger as you did last year. And that's the best news of all.
