The Brand office will be closed Monday, July 5, in observance of the Independence Day celebration.

All persons who want ads in the Tuesday edition should turn them in by noon Saturday. Advertising deadline for the Sunday paper will be 4 p.m. Friday.

national

Trenton, N.J. (AP) - An estimated 100,000 students were shut out of summer programs today by a state Supreme Court order to shut down the entire public school system in New Jersey.

The court order took effect after the state legislature failed, by midnight Wednesday, to adopt tax legislation needed to fund a new state school aid law.

WASHINGTON (AP) - The Supreme Court ruled today that states may not require a woman to obtain the consent of her husband, or a girl under 18 to receive permission from a parent, to get an abortion.

SAN FRANCISCO (AP) - Tank trucks that usually haul milk and wine are being rounded up to bring water to 11 drought-parched coastal communities north of San Francisco.

Some communities have already given up on simple measures such as bans on washing cars and watering lawns. In the picturesque town of Bolinas, for example, officials met recently to discuss whether to shut off water to commercial establishments on weekends - in effect closing the town to tourists.

international

BEIRUT, Lebanon - Gains by the Christians in the Lebanese civil war prompt U.S. call for restraint. Developing, early morning lead expected.

weather

West Texas: Scattered thunderstorms with above normal temperatures Saturday through Monday. Highest in the 90s except near 106 Rio Grande Valley. Lowest in the 70s except upper 60s Panhandle and mountains.

That feller on Tierra Blanca Creek says when we forget ourselves, we do things that will be remembered.

000

THE INVOLVEMENT of people from all walks of community life in the July 3 Bicentennial celebration is one of most gratifying things about the whole project. The Bicentennial committee, headed by Margaret Formby and Peaches Reinauer, has worked for a year to give proper recognition of the nation's 200th birthday.

With this in mind, we hope citizens do not allow rumors to put a damper on the celebration here. Rumors have been heard around town that acts of violence are planned by radical elements. However, Sheriff Travis McPherson and Police Chief Don Brush say their investigations indicate there is no foundation to such rumors.

The rumors apparently started as a result of national publicity that subversive groups had threatened acts of violence in some metropolitan areas of the country. While local law officials place no validity to such rumors here, they are taking precautions and will be ready to quell any disturbances.

Law officials feel many residents are over-reacting to the rumors, which seem to grow with imagination as they are passed along. We feel it is part of a

# Commissioners Approve Plat, Tractor Bid

BY BOBBY TEMPLETON  
Brand News Editor

The Deaf Smith County Commissioners Court Monday accepted a bid for a tractor, approved a plat for a subdivision located on the Deaf Smith and Castro county line and authorized the City of Hereford to construct a water line under a

county road. The actions occurred during a regular bi-monthly meeting of the commissioners. It was presided over by Commissioner Austin Rose Jr. since County Judge Sam Morgan was attending a county judges' convention in Salt Lake City, Utah.

OTHER BUSINESS by the court

included a discussion on a budget for the adult probation department, review of the city-county monthly fire report, routine renewal of certificates of deposit, a request to buy a bus for the juvenile probation department and a possible land purchase in precinct two.

Bruce Coleman, commissioner in precinct three, received bids for a tractor

from three different sources. It would have been a routine bid approval except one of the bidders failed to notice that a trade-in was a part of the deal.

The Amarillo Ford Tractor dealer bid \$7,985 for a diesel engine tractor and \$7,795 for a gas powered vehicle. After, he discovered that a trade-in was specified in the legal notice for the bid, he

inspected the proposed trade-in and returned to the meeting with a readjusted bid of \$6,485 for a 4600 Ford tractor. This was \$15 under the bid that was accepted.

Since the Ford dealer heard the price quotes of the other bidders early in the meeting, the commissioners unanimously decided to accept the Case Power and Equipment Co. bid of \$6,500 for a 950 Case tractor. The court approved the bid following Coleman's recommendation for it.

The third bid was from Oglesby equipment Co., Inc. of Hereford in the amount of \$7,638 for an International 574D model.

RAY COWSERT, a local attorney, presented a plat for land straddling the Deaf Smith and Castro county border. Under a new Texas law, commissioners courts must approve subdivision plats for land located more than five miles from city limits. Otherwise, city commissions approve the plats.

The land is located on Highway 385 South near the Big Daddy's cutoff. It is being sold in five-acre tracts by the executor's of the O.G. Hill Sr. will. They include Bessie Foster Hill, Orville G. Hill Jr. and William Foster Hill.

The plat was unanimously accepted after the commissioners were assured that the county would not have to provide services to the subdivision in later years.

The city of Hereford was granted an easement for a water well supply line it is building 829 feet south of Tierra Blanca Creek and under the S. Kingwood Street. Rose said the city will drill under the pavement.

Harold Wheeler, 69th Judicial district adult probation officer, presented a proposed budget for his department. It was required by an order from district Judge Mike Metcalf of Dumas.

However, the county budget has already been approved for the next fiscal year. Rose said the court would wait until Metcalf could visit with the commissioners concerning the budget proposal. Since the county changed its fiscal year to coincide with the tax year, Metcalf may not have been aware of the latest budget approval.

JIM GRIMES, county juvenile probation officer, asked the commissioners if about \$450 could be used to buy a bus from the Hereford Campfire Girls organization. It would be used to transport participants and motorcycles of the NYPUM mini-bike program to area events.

No action resulted on the request since some doubt existed concerning Campfire Girls' approval to sell the vehicle. Grimes said that another \$450 might be needed to repair the bus so that it can meet insurance standards.

Rose briefly told the other commissioners about three acres of land that is available for sale. He needs it to construct a county building. The matter will be considered at the next meeting.

The fire report listed 16 city fires and nine county fires. These include four trash container fires, two false alarms, six car fires, one grass blaze and one trailer fire.

## City Commission To Meet Friday

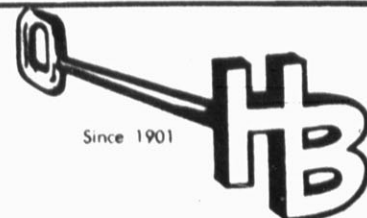

The Hereford City Commission is meeting in a special session at 9 a.m. Friday at city hall to act on city's paving program and to appoint a member to the Tax Equalization Board.

Mayor Jim Sears said the meeting is

being called to approve legal business concerning the street paving program and the appointment and that no other business will be considered.

City Commissioner members include Sears, Emory Brownlow, Paul Abalos, Frank Barrett, and Stan Fry.

## Police Seize Weed, Arrest Oklahomans

### Checking Evidence

Hereford police officers Loy Smith, O.K. Neal and Phil Scumbato sort through grocery bags of marijuana seized by the HPD when officers arrested four Oklahoma men at a local motel Saturday evening. Police found several small

baggies of marijuana in the possession of the Oklahoma men at the time of the arrest, and discovered five grocery sacks filled with the weed in the car used by the men. In all, over six pounds of marijuana was seized in the arrests.

Hereford police received a tip Saturday night that eventually led to the arrest of four Oklahoma men on charges of possession of marijuana.

ACCORDING TO police reports, a call was received about 7:30 Saturday evening informing officers that several men were in possession of a large quantity of marijuana at the Holiday Motor Hotel on West Highway 60.

Officers observed a room at the scene for some time before moving in and confiscating over six pounds of marijuana.

Arrested Saturday night were Richard Jack Foster, 19, Herbert Matthew Hudson, 18, and Martin A. Hamay, 18, all soldiers on leave from Ft. Sill, Okla. and John Everett Hudson, 19, of Lawton, Okla.

The Hudson brothers are former Hereford residents.

BOND FOR each of the men was set at \$5,000.

Officers Phil Scumbato, O.K. Neal, Sgt. Loy Smith, Larry Burlsmith, Ken Carley and David Wheeler confiscated six baggies of marijuana from the motel room occupied by the men and also found five large grocery sacks of marijuana in a car used by the suspects.

An estimate as to the street value of the illegal weed was not available.

Hamay posted bond in the incident, while the other three men remained in custody in the Deaf Smith County jail at presstime.

In other police matters, a burglary was reported at the Texaco station at 503 East First Wednesday.

A window on the west side of the station was broken and \$1 in pennies and a money tray valued at \$20 were taken.

Harold Morgan, manager of Forest Ave. Apartments reported Monday that a coin tray on a washing machine at the apartment complex was broken into and an undetermined amount of money was taken.

Both incidents remain under investigation by city police.

## Board To Accept Hartman's Resignation As Superintendent

The Hereford School Board of Trustees will meet in called session at 4 p.m. today in the board room of the school administration building.

The meeting was called by Jim Conkwright, school board president, to act on a request from Superintendent Roy Hartman, to resign his present position in order to accept the superintendent's job of the Grapevine School system, located north of Dallas. Also, the board is scheduled to swear in David Hutchins, who was appointed to fill the unexpired term of Alex Schroeter, who resigned last month to become county auditor.

CONKWRIGHT SAID the special session agenda would include only the two items of business and that no other actions are expected.

The Grapevine School Board met Monday night and officially offered the system's superintendent's job to Dr. Hartman, who has served the Hereford system for the past 20 years in varying positions. He was first appointed superintendent here in 1969 and has served as the permanent superintendent since 1970.

Hartman was awarded a three year contract by the Grapevine School Board. It begins with the approaching school year.

He confirmed the decision to take the Grapevine job on Thursday, June 24 after four members of the Grapevine School Board came to Hereford to question several Hereford citizens concerning Hartman's job here.

Conkwright explained last week that no immediate changes are planned since Hartman does not move to the new job until Aug. 1. Plans include finding a replacement by that date although he said, "We will not let time press us into a quick decision."

No acting superintendent will be appointed unless one is not found by the first of August. Already, six or seven suggestions and applications for a superintendent have been submitted. Chances are that the board will go outside the school system to find a replacement.

THE SCHOOL BOARD president said the summer is a good time to look for a new superintendent since education

personnel move during the vacation months.

The Grapevine School System, which surrounds the Dallas-Ft. Worth Regional Airport, has approximately 3,500 students with a 3-A high school. The

(See HARTMAN, Page 4A)

## Melodrama Kicks Off Bicentennial Events

The weekend's bicentennial activities begin Friday with an old fashioned melodrama at 8 p.m. It will be the first of a three day celebration marking the nation's 200th birthday.

At the Friday night event, a coin auction and sing-a-long will be held. It is set for the Bull Barn with tickets costing \$1 for adults and 50 cents for children.

At 2 p.m. Saturday, the parade will begin at Sugarland Mall and then proceeding down Main Street. At 3 p.m., a time capsule will be buried and special awards presented on the courthouse lawn.

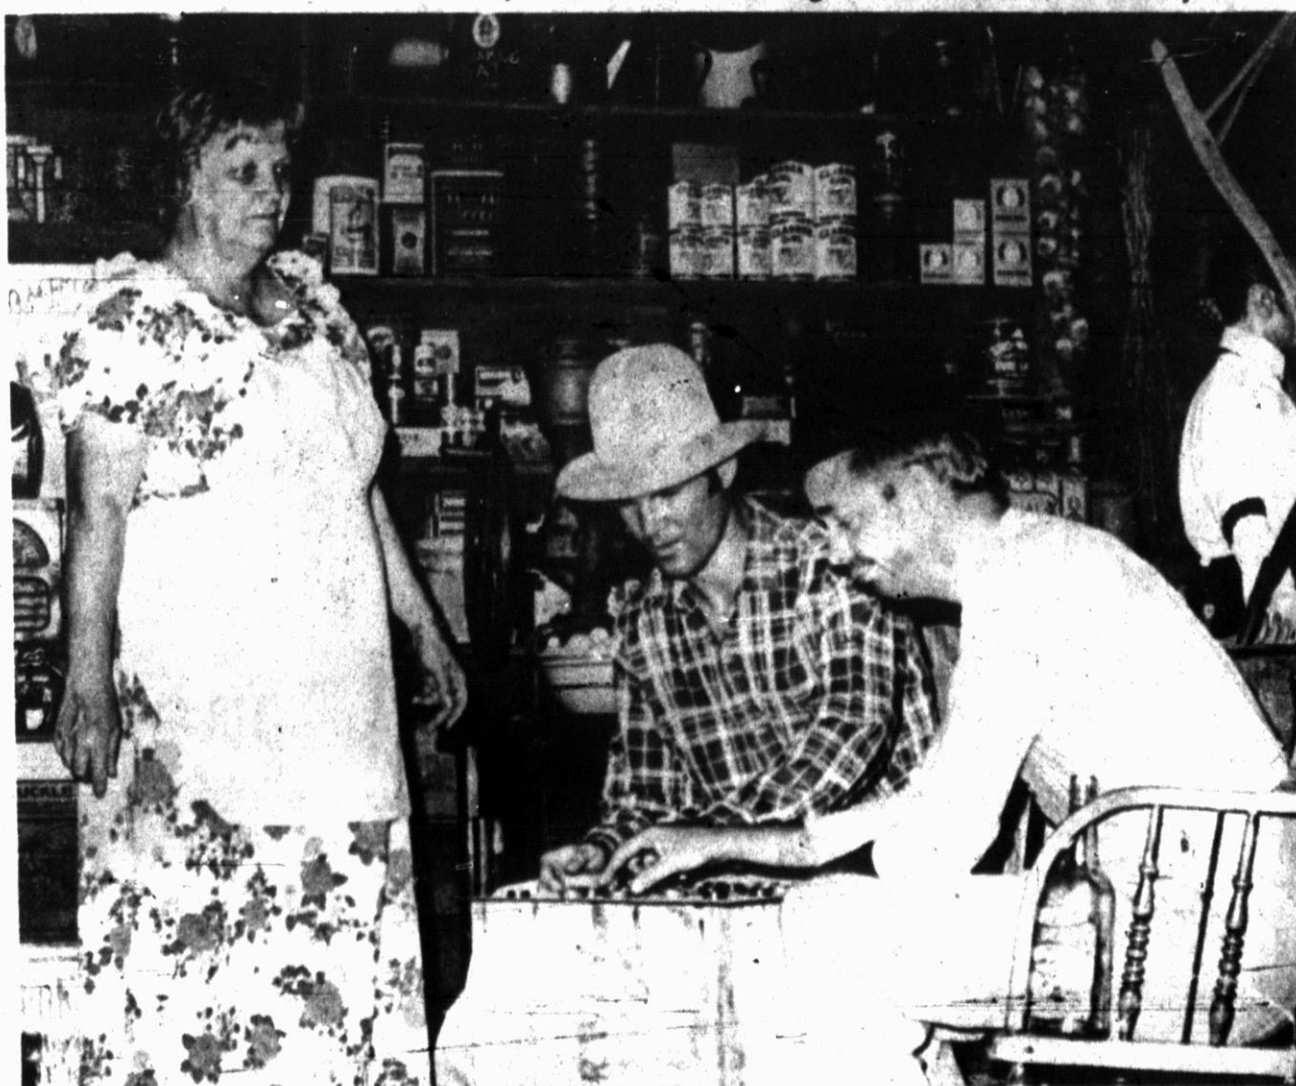

A bicentennial cake will be on display at the Hereford Community Center

following the event at the courthouse.

A nature trail dedication will be held at 8:30 p.m. Saturday at Veterans Park. The giant fireworks display will begin at 9 p.m. at the park. The Hereford Volunteer Fire Department will conduct the display.

At 1 p.m. Sunday, a nationwide bell ringing will be observed here with all resident encouraged to ring a bell or make a loud sound. At 6 p.m., a community picnic will be held at the Tierra Blanca Creek park at the South Main bridge. The cake will then be served. Those attending must provide their own food and drinks.

At 7:30 p.m. Sunday, a Vespers Service will be held under the direction of the Hereford Ministerial Alliance.

### 'Shootout-at-Hole-in-Wall'

Kicking off the Bicentennial Celebration locally will be members of the Hereford Community Players who will be presenting a Melodrama entitled "Shoot-Out-At-Hole-in-The-Wall."

There will be fun for all ages at the Bull Barn Friday night beginning at 8 p.m. Members of the cast pictures are Polly Bullard, Ma Fritter, John Gilliland, Pa Fritter, and Robert Stewart, Abner.

# 12.4 Million Spent For Food Locally

For most Deaf Smith County families, incomes were up in the past year and the rise was reflected in the amount of business done by local retail stores.

According to a new market report, consumer outlays for goods and services in the local area compared favorably with expenditures made in the previous year. To a considerable extent, however, inflation contributed to the increase in the dollar volume.

The findings are contained in a study just released by the Standard Rate and Data Service. It shows just how much was

spent locally and in other sections of the country for food, cars, clothing, furniture and general merchandise.

In Deaf Smith County, a large part of the outlay was for food. Out of every dollar spent in local retail stores, approximately 27 cents went to supermarkets, bakeries, butcher shops, grocery stores, delicatessens and the like.

Elsewhere in the United States, 21 cents was so-spent and, in the West South Central States, 23 cents.

All in all, the sales volume in stores selling food for home preparation and consumption added up to a grand total of \$12,464,000.

This was solely for take-home food. It does not include the amount spent in restaurants and in other eating and drinking places.

If the expenditures were to be divided equally among the local population they would average out to \$2,105 per household.

Stronger consumer buying was also in evidence in other local stores, the report shows.

Sales of automobiles, trailers, motorcycles, boats and other automotive equipment reached \$13,440,000.

Department stores and other stores carrying general merchandise recorded a total of \$5,602,000.

Apparel and specialty shops, including those selling hats, dresses, coats, shoes and other articles of clothing, had a gross of \$2,553,000.

Furniture and home furnishings establishments accounted for \$1,511,000.

In recent months there has been a further increase in business activity generally. Consumers, less worried about the economy, are spending more and saving less.

Work may be a great blessing to man, but there're times when we have doubts.

# Obituaries

## JOE G. EVANS

Joe George Evans, 86, a pioneer Deaf Smith County farmer, died Tuesday night at Deaf Smith General Hospital. He had been a resident at Westgate Nursing Home in Hereford.

Funeral services were scheduled today at 2 p.m. in the Rose Chapel of Gilliland-Watson Funeral Home with J.L. Bozeman, pastor of Temple Baptist Church, and Dewitt Seago, chaplain of King's Manor, conducting. Burial will be in the Happy Cemetery at Happy, Tex.

Born Jan. 16, 1890 in Vernon, Mr. Evans came to Deaf Smith County in 1929. He was married to Minnie Mulkey on Oct. 30, 1937 in Claude. A retired farmer, he was a member of the Temple Baptist Church.

Survivors include his wife, Minnie; two sons, Wayne of Fort Worth and Raylan of Colorado Springs, Col.; a brother, Charles of Happy; a sister, Myrtle Cox of Dumas; six grandchildren and six great-grandchildren.

**LARRY SANDERS**

Funeral services for Larry Bob Sanders, 20, were held Wednesday in the Temple Baptist Church with the Rev. Jim Bozeman officiating.

Burial was in West Park Cemetery under the direction of Smith & Co. Funeral Home.

Sanders died Monday in Northwest Texas Hospital in Amarillo of injuries he suffered on Sunday in a one-car accident in Amarillo. Sanders had been a resident of Hereford for nine years and was a 1973 graduate of Hereford High School.

He was the manager of Pro Sports Center here, and a member of Lambda Chi Alpha social fraternity at West Texas State University.

He was also a member of the Temple Baptist Church.

Survivors include his wife, Melissa Ann; his parents, Mr. and Mrs. Ray Allen Sanders and

one brother, Ronald Allen Sanders, all of Hereford, and his grandparents, Mr. and Mrs. Jake Sanders of Plainview and Mrs. Dollie Williams of Amarillo.

## ROY W. BOYSFORD

A longtime Deaf Smith County citizen, Roy Wesley Botsford, 82, died Wednesday at Deaf Smith General Hospital after a lengthy illness.

Botsford came to Deaf Smith County in 1907 from Iowa. He was a pioneer farmer of the area and member of the Assembly of God Church. He was born Feb. 5, 1889 in Pierre, S.D. He married Eva Rice in Hereford on Nov. 20, 1916.

Funeral services will be held Friday at 3 p.m. in the Assembly of God Church with Homer T. Goodwin, pastor, officiating. Burial will be in Rest Haven Memorial Park under direction of Gilliland-Watson Funeral Home.

Survivors include his wife, Eva; three sons, Irvin of Waxahachie, Loy of Odessa and Thomas of Fontaine, Calif.; two daughters, Aldyth Harrison of Hugoton, Kan., and June Neel of Amarillo; one brother, Floyd of Hereford; 10 grandchildren and 11 great-grandchildren.

## IRMA PARTEN

Mrs. Roy (Irma L.) Parten, 45, died Tuesday at Deaf Smith General Hospital following a short illness. Funeral services

are scheduled for 2 p.m. Friday in the First Baptist Church.

The Rev. Doug Manning, pastor, will officiate at the closed-casket service. Burial will be in West Park Cemetery under the direction of Smith & Co. Funeral Home. Mrs. Parten will lie in state until 1 p.m. Friday.

Mrs. Parten had lived in Hereford since 1967, moving here from Killeen. She was born in Intake, Mont., Aug. 18, 1930.

For the past seven years, Mrs. Parten was a bookkeeper for the accounting firm of Cotton & Warrick. She was a member of the National Secretaries Association and treasurer of the Tierra Blanca chapter. She was a member of the First Baptist Church.

Survivors include Her husband, Roy; two sons, Roland and Robin Ray, of the home; two daughters, Mrs. James Rhyne of Killeen and Cynthia Mae Parten of Dalls; six sisters, Mrs. Lynn Sorrensen and Mrs. Lawrence Webb of Williston, N.D., Mrs. Jean Fischer of Fargo, N.D., Mrs. Saron Damm and Mrs. Jerry Knowlton of Billings, Mont., and Mrs. Larry Recrod of Yakima, Wash.; two brothers, Irvin Fay of Salt Lake City and James Fay of Bemidji, Minn.; and her stepmother, Mrs. Helen Fay of Sidney, Mont.

Friends announced Wednesday that a memorial fund has been established for Mrs. Parten at both Hereford banks.

are scheduled for 2 p.m. Friday in the First Baptist Church.

# Jr. Hereford Assoc. Meeting, July 7-8

Texas Junior Hereford Association members will have their annual meeting at the West Texas State University Nance Ranch east of Canyon on July 7-8. The event is co-sponsored by WTSU and the Panhandle Hereford Breeders Association.

Preliminaries begin July 7 and include an open house sponsored by the PHBA and visitation of member ranches in the Texas Panhandle. The TJHA state showmanship preliminaries begin at 4 p.m. at the WTSU Nance Ranch, and the Texas Hereford Auxiliary will host an ice cream supper at the Villa Inn in Amarillo.

Registration of contestants and special entertainment will be at 8 a.m. Thursday. At nine the welcome will be given by Dr. Charles Smallwood, dean of the School of Agriculture at WTSU. The remainder of the morning will consist of the showmanship

finals, a judging demonstration, judging contest and weight guessing contest.

The noon luncheon, sponsored by the PHBA, will feature barbeque for all. Guest speaker for the luncheon will be Lori Longacre, American Junior Hereford Association director from Eureka, KS. Also included on the afternoon agenda will be a fund raising auction, public speaking contest for interested TJHA members and a skit presentation entitled "Revolutionary Herefords--The Breed Herd 'Round the World."

The winners of the judging, showmanship, public speaking, weight guessing and achievement contests will be presented awards during ceremonies in the mid-afternoon.

A late 1975 registered Hereford heifer will be the big award given to the highest placing TJHA individual judge. Calliham Ranches of Panhandle will donate the heifer which was sired by SHW Michief D4.

A trophy will go to the high individual judge and belt buckle to the high individual judge who is a TJHA member.

Dr. Smallwood urges all 4-H and FFA members to attend.

Many who flee from evil don't understand that it's in their hearts.

## Melodrama To Be Presented

Members of Hereford Community Players will present a melodrama entitled "Shoot-Out-A-Hole-In-The-Wall" Friday evening at the Bull Barn. The production will begin with a sing-along at 8 p.m. that evening. Admission will be \$1 for adults and 50 cents for children and members of the Whiteface Kiwanis Club will provide popcorn to throw at the villain while Linda Gilbert will provide piano accompaniment. Pictured from left, are cast members, David Emerick, portraying Horace Beamer, and Archie Dwyer, enacting the part of Slick Mason.

## Holly Sugar Holds Annual Meeting

Lack of a national sugar policy affects not only the consumer, but the processor--Holly--the industrial user and the farmer, President John B. Bunker told stockholders attending Holly Sugar Corporation's annual meeting at Colorado Springs, Colo. last week.

He gave as the reason for this the "attendant uncertainties of the supply and price of imported raw cane sugar which set the price of refined sugar in this country."

"While the absence of the Sugar Act has had no adverse impact on our operations, thus far as can be seen by our annual

reports for the past two years, the administration has shown no inclination to enact new sugar legislation which would protect the American consumer," the fourth generation sugar man said.

As a matter of national interest, Bunker believes a significant part of our sugar needs should be obtained from domestic sources.

"This, in turn, would lead to a healthy and reliable industry. Furthermore, consumers must be assured of a continuing supply of sugar at reasonably stable prices."

He said these two minimum requirements should form the foundation of any sugar program.

"I doubt that the price of sugar can fall much below the current level and still provide the income needed to support current production. Without production increases, the chronic shortages and consequent volatility of price may be with us for some time," Bunker said.

Bunker concluded his report by saying he had no qualms about the future of the sugar industry--with or without a sugar program.

## Outstanding Student Named

The top students of the Baptist Memorial Hospital System's para-medical schools were recognized during commencement exercises June 25 at the First Baptist Church in San Antonio.

Herbert Paul Lovan of Hereford was named Outstanding Medical Technology Student. He was awarded a \$100 savings bond, presented by Ortho Diagnostic Co., Scherer Kyle Co., and Curtin-Mathison. The award is based on scholastic achievement and adaptability to medical technology.

A total of 79 students graduated from the six BMHS para-medical schools. In addition to the School of Nursing, School of Medical Technology, and the School of Radiologic Technology, graduates were named from the School of Histologic Technique, Center for Clinical Pastoral Education, and Dietetic Traineeship Program.

Harvey Erben, chairman of the BMHS Board of Trustees, along with the director of each school, presented the diplomas and certificates to students completing graduation requirements.

The commencement address was given by the Rt. Rev. Harold C. Gosnell, D.D., Bishop of the Episcopal Diocese of West-Texas.

Employment in engineering occupations is expected to grow faster than average for all occupations, with about 52,500 annual job openings through 1985, according to the "Occupational Outlook Handbook in Brief" of the U.S. Department of Labor's Bureau of Labor Statistics.

## Lamb County Musical Due

It's not the Mississippi River Festival or Washington's Wolf Trapp Farm where the audience sits on the grass. It's on the banks at the head waters of the Brazos river, 6 miles north of Olton.

"Giants of the Great Plateau" will be produced by the Historic Preservation Society of Lamb County on July 30 and 31st at 8:30 p.m.

The musical drama, written by Bettye Givens depicts the life on the Texas plains in the early 1900's. It is the story of the cowboy, the nester from the north and the foreigners who settle the area and their triumph over the frontier.

# City Man Facing Manslaughter Charge Following Accident

Richard Irwin Gilmore, 18, of Hereford, was charged with a felony count of involuntary manslaughter Tuesday following a one-vehicle accident Saturday night which fatally injured 20 year old Larry Bob Sanders, also of Hereford.

**GILMORE WAS THE** driver of a van which overturned as it exited the Canyon Expressway to Fillmore Saturday night. Gilmore and four other Hereford residents, Ed Belling, 19, Gene Shipley, 18, Diana Watkins, 19, and Barbara Poindexter, 18, were not seriously

injured, although Gilmore was the only individual not thrown from the vehicle.

According to witnesses, the van blew a tire as it exited the expressway and overturned three times after striking a light pole.

Police reports indicated that the front tire on the passenger side of the vehicle was thrown off and the two wheels on the driver's side were broken off.

**GILMORE WAS** taken into custody by Amarillo police following the accident. He was arraigned before Potter County Justice of the Peace Cliff Roberts

Tuesday and placed on a \$2,000 pre-trial release bond.

Gilmore is accused of driving and operating a motor vehicle on a public road and highway while intoxicated, and by reason of the intoxication, causing the death of Sanders, according to the complaint on which the charge is based.

Sanders died about 4:25 p.m. Monday in Northwest Texas Hospital in Amarillo after suffering head injuries from the accident.

## Hartman

from page 1

town's population is about 11,000.

Hartman expressed gratitude for the years spent in Hereford, but looks at the new position as a challenge since it is a rapidly growing area due to the airport. It is expected to grow to a 4-A school system within two or three years.

The Hartman decision is the second major administrative change within a month after Jim Holmes, assistant superintendent, decided to accept the superintendent's job in Panhandle effective this month.

School board members include Conkwright, Clark Andrews, Mrs. Sallie Strain, Lynton Alfred, David Hutchins, James Gentry and Jim Arney.

## Postal Service, Government Offices To Close Monday

The United States postal system is taking two official days off for the July 4th holiday and the celebration of the nation's 200th birthday.

The Hereford post office will be closed Sunday and Monday as a part of the bicentennial observance, Nolan Grady, postmaster said.

Also, the school district, county and city government offices will be closed on Monday. The only exceptions are the county sheriff's office and city police department.

Both Hereford banks are planning to

close doors Monday as well as most businesses. A few retail establishments will remain open for business Monday according to the Deaf Smith Chamber of Commerce, which also will be closed.

No delivery or boxing of mail at the post office on those two days will be made. Normal transportation, delivery and window services will be resumed on Tuesday, July 6.

Postal customers are requested to make their postal transactions prior to the holidays.

## 100 Captives Freed

# Israel To Negotiate Release

KAMPALA, Uganda (AP) - Diplomats said pro-Palestinian guerrillas freed 100 more captives at Uganda's Entebbe Airport today as Israel, abandoning its traditional refusal to deal with terrorists, said it was ready to talk about releasing prisoners held in Israeli jails.

Israeli government sources in Tel Aviv said Prime Minister Yitzhak Rabin was empowered to "negotiate with readiness to release prisoners" in exchange for freedom of Israel held since a French airliner was hijacked over Greece Sunday night and flown here.

Diplomats said the hostages were taken from a disused terminal where they were held for four days to a new terminal where they joined the French ambassador to Uganda.

An Air France plane was expected from Nairobi, capital of neighboring Kenya, to take the group to Paris.

The hijackers said they would continue to hold about 100 persons, including Israeli citizens, the crew of the airliner and persons of dual nationality. They freed 47 old persons, children and sick people Wednesday and they were flown to Paris.

A guerrilla communique broadcast by the official Uganda radio said a new deadline for compliance with their demands was 8 a.m. EDT Sunday. The previous one was to have expired today.

The hijackers vowed the Popular Front for the Liberation of Palestine, in which they claim membership, will "take all steps necessary for the complete success of our military and political plan" to free their homeland from imperialism and Zionism, adding: "Death to all supporters of surrender."

The Israeli announcement reversed a long-standing government policy of refusing to negotiate with terrorists no matter how many Israeli lives were threatened.

Prime Minister Yitzhak Rabin's cabinet

retreated after more than 50 angry relatives of Israelis among the hostages mobbed the prime minister's office in Jerusalem demanding that he surrender to the hijackers' demands.

The hijackers had given Israel until 8 a.m. EDT today to deliver the prisoners to the East African airport where they were holding the hostages and the Air France jetliner they hijacked four days ago.

As the deadline approached, there was no sign of unusual activity at the airport. "There is total peace here," said an

airline employe. "We're all waiting. So far nothing special is going on."

Ugandan President Idi Amin said there were 145 Jews from Israel and other countries aboard the French Airbus which the five or six Palestinians and Palestinian sympathizers took over Sunday on a flight from Tel Aviv to Paris.

The hijackers, who were reported armed with grenades, dynamite and machine guns, said they would blow up the plane and their prisoners unless their demands were met.

## Hereford Bull

from page 1

newspaper's job to dispel rumors by going to the source and disproving idle statements. These stories have been so generalized that there is no source to be found.

As far as we can determine, no local groups have any gripes that could lead to demonstrations or violence. We can only surmise, along with law officials, that no violence is planned here, even from outside agitators.

It's been a hectic week around The Brand office as we prepared for the start of our 5-days a week publication. This is the issue we've been waiting for and it is our goal to build from this beginning and produce a daily publication of which our readers will be proud.

We've hit a few snags and there are some "bugs" to be worked out, but we're off and running! We've had much encouragement and most folks are enthusiastic about the new format. We encourage our readers to call in news events...we need your help in presenting all the news that's fit to print!

**SADIE LEE OLIVER**, the country's

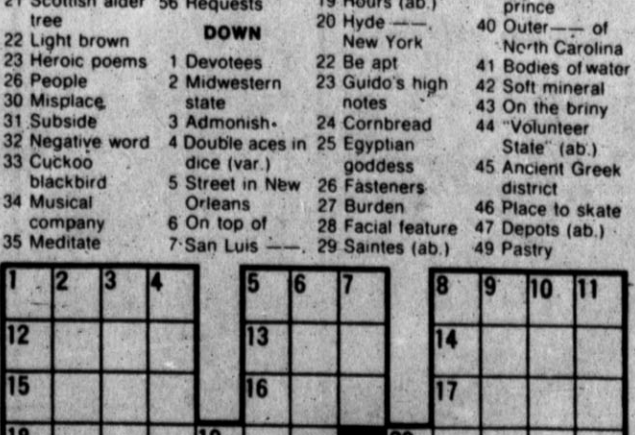

Home Demonstration Agent in 1938-1946, was in town Sunday and Monday and we had the opportunity to visit with the lively and alert woman. We didn't ask Sadie her age, but a friend reported she is near 90 years young. The way she recalls events and names in the past, you know age hasn't dimmed her wit or outlook. It was her first visit to Hereford since leaving in January 1947, and many old friends were delighted to see her.

**SANDY PANKEY**, a reporter and photographer for The Brand, is out for a week after having a tonsillectomy. She is recovering rapidly and should rejoin the staff next week.

We'd like readers to know that The Brand does not have anything to do with the distribution of other newspapers. We often get calls at our office concerning the delivery of other daily newspapers. We're happy to give the names of other paper distributors, but we are not involved in the delivery of any paper except The Brand.

FRANK AND ERNEST

by Bob Thaves

## Bank Closed Due To Mismanagement

CARRIZO SPRING, Tx. (AP) - The State Banking Commission had to close the Citizens State

Bank of Carrizo Springs because it had been mismanaged, the banking commissioner said.

## The Hereford Brand

ESTABLISHED 1901

Entered as second class matter at the Post Office in Hereford, Texas under the act of March 3, 1879. Second class postage paid at Hereford, Deaf Smith County, Texas.

Published every Tuesday, Wednesday, Thursday and Friday afternoon and Sunday morning at 130 W. 4th St., Hereford, Texas, 79045, by The Hereford Brand Inc. Subscription rates: Deaf Smith and adjoining counties-\$24 per year, other points-\$29.40 per year (tax included). Home delivery by carrier-\$2.90 per month, or \$29.40 per year, tax included.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation, which may appear in the columns of this newspaper, will be gladly corrected upon due notice of same being given to the editor personally at the news office.

This newspaper is a member of The Associated Press, Newspaper Enterprise Association, Texas Press Association, National Newspaper Association, Panhandle and West Texas Press Associations.

Management: O.G. Nieman, president and publisher-editor; Lynn Brindline, assistant publisher and advertising manager; Bobby Templeton, news editor; Althea McIvor, accounting; Charlene Brownlow, circulation.

Commissioner Robert E. Stewart said Wednesday that "any kind of problem you can think of" forced the closing.

The commission ordered the bank closed Monday. However, State District Court Judge James Kazen of Laredo reopened it for a few hours. Stewart then convinced the judge to amend the order and keep the bank closed pending a July 7 hearing.

"The judge merely prevented us from liquidating the bank then," Stewart said explaining that that was the commission's intention.

The bank, with assets of about \$13 million, is owned by Enrique Salinas Gonzalez of Eagle Pass.

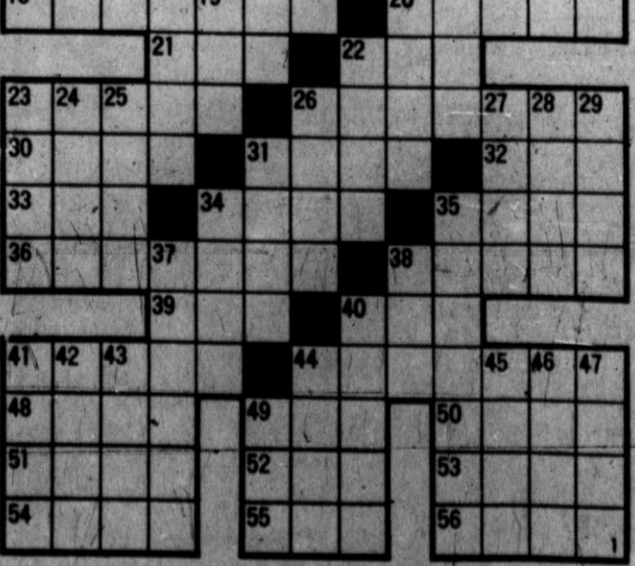

Stewart said the bank was ordered closed following an investigation that turned up loan losses and "differences that could not be reconciled."

Stewart said the judge's order may have caused a delay in the processing of deposits insured by the Federal Deposit Insurance Corp.

**Easter Lions Officers**

Officers for the coming year were installed by the Easter Lions Club Monday night at the Easter Community Building. Officers pictured from right to left include Roy Parten, Boss Lion, David Hutchins, first vice president; Wayne Walsler, secretary; Don Tindal, treasurer; Earl Gunther, Lion tamer; Harlan Barber, tall twister; Clark Andrews, song leader; and Lynette Andrews, sweetheart. Not pictured is Gene King, second vice president. Jim Hale of Hereford conducted the installation ceremonies.

**Increase In Taxes Delayed**

WASHINGTON, AP - With little time to spare, the House gave final congressional approval to a bill protecting Americans for another two months against a \$15-billion-a-year increase in income taxes.

The House agreed unanimously to send President Ford a Senate-passed tax-cut extension freezing payroll withholding rates for income taxes at current levels until Sept. 1. Ford is on record in favor of an even-larger tax cut.

The action gives Congress more time to finish work on a comprehensive tax-revision bill. Without the extension, the package of antirecession tax cuts enacted last year expires at midnight Wednesday, meaning higher taxes for virtually every family and, 'experts say, a heavy blow to the economy.

Hardest hit by a lapse in the tax cuts would be the nation's poorest families: A four-member family earning \$6,000-a-year would face a \$445 tax hike.

A family of four earning \$15,000 would face a \$180-a-year tax increase, as would a single person earning \$25,000.

The increase would be \$182 for a single person earning \$8,000, and \$204 for a couple with no children and earning \$10,000.

On a voice vote with no debate or dissent, the Senate agreed Monday to extend the tax cuts through Sept. 1.

**Patriotic Program Heard**

JOHN HANSARD

Patrick Henry's famed call to arms in 1775, which ended with the immortal words of "Give me liberty or give me death", was re-created for the Hereford Lions Club Wednesday by John Hansard, a Baptist minister from Pampa.

Hansard recalled the events leading to the speech and gave examples of Bible phrases which were used by Henry in his address at St. John's Church in Richmond, Va. He then re-created the inspirational speech which helped spark the writing of the Declaration of Independence.

Rev. Hansard sang "The Impossible Dream" prior to the speech, then led the audience in singing "God Bless America" at the close of the talk. He was accompanied at the piano by Mrs. Jeff Anderson of Pampa. Also accompanying Hansard were his wife and Ralph Thomas, a past Lions' district governor from Pampa. The line introduced the patriotic program.

Club president Weldon Dickson presented membership achievement pins to Tommy Bowling and L.B. Worthan, and also presented a secretary's plaque to James Gentry. New officers of the club will assume their posts next week.

The club installed seven new members, with Major Schroeter acting as installing officer. The new members are Charles Loomis Jr., James McKnight,

Jim Tucker, Royce Kirby, Ray Slaton, Ros Osborne and Jerry Heller.

A summary of activities for the club year were also presented by Dickson. Donations by the club totalled \$12,827 for the 1975-76 year.

Ships built in Maine have been famous for more than 300 years. The clipper Red Jacket, built in Rockland, set a speed record of 13 days, New York to Liverpool, England. The record was never broken by a sailing ship.

The nation's first union railway station was established in Indianapolis in 1853.

# Congratulations

to the readers, advertisers,  
staff, and publisher of

## The Hereford Brand

on becoming a daily publication.

Congratulations and best wishes are in order for everyone associated with the Hereford Brand in its decision to give its community a daily newspaper.

Soaring gains in circulation among the nation's weekly or hometown newspapers in the past decade coupled with declining circulation among big metropolitan newspapers provide convincing proof of the appeal of local news to local readers.

The Hereford Brand, since its very beginning, has traditionally placed top emphasis on keeping its readers informed about news events in Hereford and Deaf Smith county. No one, but no one, cares as much about Hereford events as Hereford people.

That it draws strong advertising support from its merchants and strong readership from Deaf Smith residents is proof positive that the successful newspaper of today relies on a formula of providing first, last and always local news.

We are confident that the staff of the Hereford Brand will continue to place heavy emphasis on the local news and succeed gloriously in providing Hereford and the immediate area with a hometown newspaper that prints daily rather than weekly.

Again, best wishes in your new undertaking . . .

## Black Powder Demonstration Due at Heritage Center

Black powder weapons used during 1700-1860 will be demonstrated at Texas Tech University's Rancing Heritage Center, July 3-4, 1976.

A flint-lock pistol, pepper box and Manhattan revolvers, and a Plains rifle will be loaded with blanks and fired by David Eckles, archaeologist and gun collector from Bloomington, Ill.

The earliest weapon demonstrated at the center will be the flint lock pistol. "It takes about 90 seconds to load and fire these weapons. In the flint-lock system, the final 'bang' is preceded by a 'whoosh', when the flint ignites a small amount of gun powder. That explodes the main charge behind the lead," Eckles explained.

The 24-year-old archaeologist said that the flint-lock pistol was used for approximately 50 years til 1840. It was more common in South Texas.

"But its accuracy was very erratic, varying from 25 yards to just five feet," he said.

The flint-lock system was

replaced by percussion guns like the pepper box and the Plains rifle around 1840. In the percussion system, a specified amount of black powder is poured into the barrel. A lead ball is then pushed down with a wooden 'ramrod', after which the percussion cap is placed near the hammer. When the trigger is pulled, the hammer strikes the cap, causing an explosion, which fires the main charge, Eckles said.

"The pepper box was one of the first six-shot revolvers produced and used in this country. It was introduced when some of the first settlers moved to the West, and it became very popular because of the low price and accuracy."

It lasted for about 20 years, til 1860, when the Manhattan revolver became common. The Manhattan revolver was a much better weapon, more accurate, easier to load and not as cumbersome as the pepper box. It was also called the "cap and ball" revolver and was similar in design to the Colts and

Remingtons. Eckles is working at The Museum of Texas Tech University on the Lubbock Lake Site project, an archaeological dig uncovering evidence of life dating back to Clovis man, 10,000 to 12,000 years ago.

He has been collecting old guns for the last ten years. "It's my main hobby. I buy them, dismantle them and find out how they work," he said. Eckles plans to enroll at Southern Illinois University, Carbondale, in a master's degree program in archaeology this fall.

On July 3, Eckles' demonstration will take place from 11 a.m. to 1 p.m., and on Sunday, July 4, he will fire a different weapon each half hour.

The interpretive program for the Rancing Heritage Center was made possible by a grant from the National Endowment for the Humanities, Washington, D.C.

### Clayton Seeks Special Session

AUSTIN (AP) - House Speaker Bill Clayton and three committee chairmen said they have come up with a batch of bills and resolutions that could save consumers more than 10 per cent on their utility costs if Gov. Dolph Briscoe calls a special legislative session.

Ways and Means recommendations would: Eliminate the 4 per cent state and 1 per cent city sales taxes on utility bills, which would cost the state about \$104 million and cities about \$26 million in the coming fiscal year.

Set a minimum natural gas severance tax of four cents per 1,000 cubic feet (mcf) on gas selling for less than 53.3 cents per mcf. This would add an estimated \$58.7 million to the treasury next year by boosting revenue from gas sold out of state.

Provide special credits for privately owned utility companies that do not pass on to consumers their gross receipts, sales and corporate franchise taxes.

### President's Gavel

Receiving the Hereford Rotary President's gavel in ceremonies Tuesday night is Roger Ruland, left, from past president Johnnie Price. The presentation was made at the club's annual Ladies Night at the Country Club. Others receiving recognition were Ruland with a five year perfect attendance pin, a Jack Nunley with a 20-year perfect attendance pin and Nick Milburn with a one-year pin.

## Hill Plans Investigation Into Hughes' Last Days

AUSTIN (AP) - Texas will conduct an "intensive investigation" about the last days of the late Howard R. Hughes, Texas Atty. Gen., John Hill said Tuesday.

"We believe such investigation will prove facts material to our allegations that Howard Hughes was 'in contemplation of law,' at all time domiciled in Texas," he said.

Hill has filed a petition asking a Houston probate court to declare Hughes a legal Texas resident and to probate a purported handwritten will in Houston. Others want the document probated in Nevada because that state has no inheritance tax while Texas does.

Hill said that his investigators, in close cooperation with the Attorney General of Mexico, has determined Hughes arrived

in Acapulco, Mexico, by private plane on Feb. 10, 1976. He was taken in a wheelchair to an Acapulco hotel and remained there until April 5, when he was flown to Houston where he was declared dead on arrival.

"It appears that he Hughes was never hospitalized while in Acapulco, and that no outside medical care was solicited, except for one lab report," Hill said in a statement Tuesday.

"The local doctor who saw Hughes' shortly before his

departure stated that he was suffering from lack of care." "We are further advised that a handwriting expert has determined that the purported signature of Howard Hughes on his immigration form was not the real signature. We will seek to determine why Mr. Hughes was brought to Mexico, his state of health, and why outside medical attention was apparently avoided in spite of his failing health," Hill said.

### Short Course Due

Registration for West Texas State University's numerous three-week and regular courses will be July 8 from 9 a.m. to 2:20 p.m. in the WTSU Activities Center.

Classes will begin July 9, and will conclude August 12 with

final exams. Students may late register until July 14 at 4 p.m. in the WTSU registrar's office.

For more information, contact the registrar at 656-3331.

The average dishwasher uses 14 gallons of hot water per load.

## Former Resident To Be Manager

Harold Anderson, a former local resident and son of Mr. and Mrs. R.C. Anderson of Hereford was recently named district sales manager for Wallace Laboratories in the Denver Colo. area.

Anderson has been a sales representative for the firm for the past six years. His territory has included the Texas Panhandle, South Plains and Eastern New Mexico.

As a district manager, he will be supervising eight salesmen from throughout the Rocky

Mountain area, with his district including Arizona, New Mexico, Colorado, Wyoming and Western Kansas and Nebraska.

He and his wife, Ada, who is the daughter of Mr. and Mrs. M.A. Bettis, former Hereford residents, have a four year old daughter, Holly.

**QUOTH THE RAVEN**  
NEW YORK (AP) - When the ancient Norse explorers set out to sea they often carried a cage full of ravens in their long boats.

According to "Navigation" (Time-Life Books), the Vikings did this because they lacked a compass and "at periodic intervals when they felt they might be near land a bird would be released and the direction of its flight would guide the Norsemen west to discover Iceland and, in succeeding generations, to Greenland and North America."

"Peasant style blouses with gathered neckline and wide sleeves are popular for the summer months."

### Grace Vasek Named To Dean's List

Grace Ann Vasek of Hereford has been named to the spring semester Dean's List at Sam Houston State University in Huntsville, Texas.

Miss Vasek earned a 3.4 grade point average.

A perfect record with all "A's" computes to a 4.0 at Sam Houston.

### 50 Yd. Dash

These youngsters are straining toward the finish line in the 50 yd. dash event at last Saturday's A.A.U. Track Meet at Whiteface Field. The Hereford Track and Field Squad is traveling to

Canyon today for another meet and will close out the summer at Borger on July 10 at the West Texas Junior Olympics.

## Hereford Track Squad Places At A.A.U. Meet

Hereford's Track and Field Teams, competing against very stiff competition from all over the Panhandle put together a good performance in the Kiwanis Club sponsored, AAU Track meet at Whiteface Field last Saturday.

The Hereford Squad came away with six first place and seven runner-up finishes in the meet in which no team totals were kept.

DeDe Whitley competing in the Bantam (9 and Under) girl's division led the squad with three 1st and 2nd place finishes as she took the high jump with a 3ft. 8 in. effort and was runner-up in the 50 and 100 yd. dash with times of 7.2 and 13.7 seconds respectively.

Beverly Mixon also placed in

the top two in more than one event as she took 1st in the Intermediate (12-13) girls 100 yd. dash with a time of 11.9 and 2nd in the 220 with 27.4.

Hereford's gal's came away with the top spot in one other event. The Midget (10-11) Girl's 440 relay squad consisting of Marilyn and Michelle Osborn, Jo Lisa Barrier and Cathy Lane took that event.

Not to be outdone, the Hereford boys had three 1sts as James Mays won the Senior Division 880 with a 2:01.9, Jackie Mercer took the Intermediate 220 with a 24.6 and Chad Stephen won the Bantam High Jump.

Other Hereford runner-up spots came from the Senior Girl's 440 relay squad with a

55.0. They are Debbie Albright, Pam Whitley, Renee Payne and Suzanne Duvall.

The boys had three other 2nds as Jackie Mercer and Joe Walker were runner-up in the Intermediate High Jump and Long Jump respectively and Scott Calkins was 2nd in the Bantam High Jump.

Other Hereford finishers by division are as follows.

Senior Division Boys: James Mays, 4th High Jump.

Junior Division Boys: 440 Relay Squad (Bruce Clark, Zane Barber, Harold Terry, Shannon Ritchie), 5th; Harold Terry, 6th, 220; Bruce Clark, 4th, High Jump.

Junior Division Girls: Colleen Keating, 4th, 220.

Intermediate Division Boys:

Joe Walker, 4th, 220; Jackie Mercer, 5th, 100; Joe Walker, 6th, 100.

Midget Division Boys: 440 Relay Squad (Casey McBroom, Alfred Ball, Alan Ritchie, Joel Terry), 3rd.

Midget Division Girls: Cathy Lane, 4th, Long Jump; Jo Lisa Barrier, 4th, High Jump; Michelle Osborn, 4th, 50 yd. dash; Marilyn Osborn, 6th, 100 yd. dash.

Bantam Division Boys: 440 Relay Squad (Scott Calkins, Steve Boyd, Chad Stephan, David Burfield), 5th; David Burfield, 7th, 50 yd. dash.

The squad will travel to Canyon today to compete in an A.A.U. Jr. Olympic Track and Field Championship Meet.

## Mat Action Set

Personal feelings are again mixed with professional attitudes in wrestling tag action at the Hereford Bull Barn next Saturday night, sponsored by the Hereford Lions Club.

Action at the Bull Barn begins at 9:00 p.m.

Ricky Romero, down to a sleek 212 pounds, joins his speed and agility with a dazzling newcomer, Pez Whatley. Whatley is a squat 230 pounder who may turn out to be one of the best athletes arounds. In high school he was a state wrestling champion in his native Tennessee at 191 pounds and in open classes, and wrestled four years for the University of Tennessee at Chattanooga.

He and Romero both have a grudge against Davey O'Hannon, one half of the team they will face. O'Hannon at 250 is a tough New Jersey brawler. His partner, Dennis Stamp, at 245, is a former all-american in both football and wrestling, and was Minnesota state champion in the simon-pures at 175.

The Super Destroyer, the 250 pound Los Angeles powerhouse, once again will try the mettle of superbly-conditioned Reggie Parks, former Canadian who now lives in Nogales, Arizona. Parks steps on the canvas at 228 pounds. Super Destroyer has never been unmasked in seven years of wrestling, but Parks has made the effort to expose the former boxer's face in past matches, and will be trying again Saturday night.

The opener will see tough Abe Jacobs, former olympic wrestler from Wellington, New Zealand, measure the strength of young Wayne Hammer.

### The High Jump

It was a real effort to get over the bar at the high jump pit in last Saturday's A.A.U. Track Meet at Whiteface Field. It looks like this fellow just barely made it.

## Hereford Ropers Win At Happy

Several youngsters represented Hereford at the Happy Jr. Rodeo last weekend and placed in different events. Thornton Monroe and Bill Blasingame teamed up in the team roping event and took the top prize while Tania Wilson managed a 3rd place in the goat tying and a 4th in both the barrels and the poles.

Earlier in June, Miss Wilson took part in the High Plains Junior Rodeo Assoc. event at Clovis, N.M. and came home with 4th in barrels and 5th in poles.

The next rodeo ahead will be the summer's second Little Britches Rodeo in Amarillo on July 9-10.

## Redbirds Drop Two Contests

Hereford's American Legion Redbirds dropped two ball games this past week to run their season's mark to two wins and four losses.

On Monday night they traveled to Borger and came out on the short end of a 5-4 score. Vance Hennington went all the way on the mound for the

Redbirds and gave up only two hits. He was victimized by a shaky defense which committed seven errors however.

Last Saturday at Whiteface Field, the Hereford squad lost a free scoring game to Canyon by the score of 19-11.

Chirs Hill started on the mound and went 4 1/2 innings, Vance Hennington then took over and went 1 1/2 frames with Mike Foster finishing off the last inning.

Hereford's scoring consisted of three tallies in the first inning, three more in the fifth frame and a final five runs in the seventh.

Canyon opened with a single run in the first then broke the contest open in the second with eight more. They added another marker in the third, six more in the fifth and three final runs in the sixth.

Hereford committed six errors in the contest.

Vance Hennington led the Redbird offense with a double, a homerun and five rbi's.

Mike Pittard also had two hits, one of which was a double and Mike Foster chipped in with a double.

### WHAT'S IN A NAME?

DETROIT (AP) — Guests at the Detroit Athletic Club do a double take when they look at the courtroom attendant's name tag. The attendant is Betty Hatrack and she's been the club's chief hat and coat racker for the past 20 years.

"We need another bathroom!"

FIRST REALTY OF THE SOUTHWEST

# Tilleez

PROCESSED CATTLE MANURE

## Great for this year's crop ... and the next and the next and the next.

Unlike raw manure, Tilleez nutrients are available for plant uptake for this year's crop. And, it builds the soil and moisture-retaining capacity for future crops.

Tilleez benefits your soil and gives it improved tilth. The bacterial mass developed in the Tilleez process makes use of the locked-up nutrients, already in your soil, by converting them to readily usable plant food.

And, with all of these advantages, you still get a good supply of nitrogen — usable nitrogen!

Tilleez is the result of a unique process of aerobic bacterial digestion that converts raw manure into a valuable soil conditioner and fertilizer. In the big million-dollar plant at Summerfield, aerobic microorganisms create the heat that kills weed seeds and changes the manure into a form that makes its natural nutrients readily available to plants.

Tilleez is a product of the BioCon Division of Searle Agriculture.

For more information call, collect, W. J. "Wop" Lueb, BioCon Division (806) 357-2252, Summerfield, Texas

### SPECIAL INTRODUCTORY PRICE!

For the next 90 days (until October 1), Tilleez is available at a special low price... competitive with commercial fertilizers.

## Texas Sports Briefs

ARLINGTON (AP) - Catcher Jim Sundberg, who has been hitting lightly lately, socked two run-scoring singles Wednesday night as the Texas Rangers beat the Oakland A's 3-2 behind the clutch pitching of Gaylord Perry. Sundberg only had 10 RBI going into the game.

SAN ANTONIO (AP) - The San Antonio Spurs have named Doug Moe as their new head coach. He has been assistant coach with the Denver Nuggets and says he plans to pattern the Spurs after the Nuggets.

The teams were the first to play United States football in Europe.

KINGSVILLE, Tex. (AP) - Mike Greathouse, who has cleared 15 feet in the pole vault, has signed a Lone Star Conference letter of intent with Texas A&I. Greathouse was graduated from Calallen High School and finished third in the Class 3A state meet in 1973. He attended Baylor for one year and vaulted 15 feet while there. He will be a sophomore on the A&I squad.

Dollars and sense laid the foundation for fortunes.

SAN FRANCISCO (AP) - Gary Thomasson hit a double and single to drive in three runs Wednesday as the San Francisco Giants beat the Houston Astros 10-2. Ed Halicki fired as even-hitter for the Giants.

KINGSVILLE, Tex. (AP) - Texas A&I head football Coach Gil Steinke says there were problems taking two football teams across three European countries but he's ready to do it again. Texas A&I and Henderson State of Arkansas played five exhibition games during the three-week trip to Austria, Germany and France, and A&I swept the series 5-0.

### Sports Shorts

GOLF'S BROTHER ACT  
HOUSTON (AP) - Four sets of brothers played in this spring's Houston Open. They included Jackie and Jimmy Burke, Lionel and Jay Hebert, Dave and Mike Hill and Don and Rik Massengale.

The Houston Open board also had three Millers - Johnny, Allen and Larry, but they are not related.

RUTH OR STENGEL  
NEW YORK (AP) - Early returns in baseball's Most Memorable Moments poll seem to indicate that the Most Memorable Personality will be a tossup between Babe Ruth and Casey Stengel.

Both have been imitated but never duplicated, according to some baseball experts.

## Nastase Reaches Wimbledon Finals

WIMBLEDON (AP) - Ilie Nastase beat Paul Ramirez of Mexico 6-4, 9-7 6-3 today in the first semifinal of the men's singles at the Wimbledon Tennis Championships.

The match lasted just short of two hours and kept a jammed center court crowd on excited throughout. Nastase, of Romania, was seeded third while Ramirez, of Mexico, was seeded eighth.

It will be the second time the temperamental Romanian has reached the final here. In 1972, he was beaten in five sets by Stan Smith in what many fans still regard as one of the great finals of modern times.

Nastase's final opponent Saturday will be the winner of the match between American Roscoe Tanner and Bjorn Borg of Sweden.

NEW ARMY ATTACK  
WEST POINT, N.Y. (AP) - Coach Homer Smith is installing a new football attack for the Army team. It could be an air game since he has quarterback Leamon Hall of Apopka, Fla., back next fall.

Hall passed for 1,107 yards, fifth best in Army history, last fall. However, the Cadets, in Smith's second campaign at the Point, won only two of 11 games.

### Football Physicals Due

All boys from the 7th grade through High School who intend to play football this fall should have a physical examination as soon as possible according to Coach Fred Upshaw.

After the physical, they should have medical forms filled out. These forms are available at both local clinics.

The completed forms should either be mailed to Upshaw or be brought by the High School Fieldhouse.

NEW YORK (AP) - The Detroit River between Detroit and Windsor, Ont., has been stocked with chinook salmon and steelhead and brown trout. According to Sports Afield magazine, the restocking is an apparent result of a successful cleanup of the river.

Detroit River forms the link between lakes Erie and St. Clair.

## Hereford Men Attend Kiwanis Convention

Ed Coplen, Tom Templeton and Dean Herring of Hereford were among more than 18,000 people attending the 61st convention of Kiwanis International in San Diego, California, June 20-23, 1976.

Members of the Kiwanis Club of Hereford, Coplen Templeton, and Herring attended the annual convention which saw the election of new Kiwanis International officers and trustees, the passing of resolutions upon which the organization's 1976-77 community service programs will be built, and the amending of the Kiwanis International constitution. Kiwanis International, a worldwide men's service organiza-

tion has over 282,000 members in 6800 clubs located in 50 countries or geographical areas of the world.

Among noted individuals speaking before the convention were famed Olympic track star Jesse Owens, Phoenix, Arizona; Virginia Graham, well-known television and fashion show host; Dr. Robert H. Schuller, nationally-recognized television evangelist on "The Hour of Power"; and Kiwanis International President Ted R. Osborn, Lexington, Kentucky.

A series of conferences on contemporary issues headed by experts in various socio-economic fields included Harold Russell, chairman of the President's Committee on Employment of the Handicapped; Lila McCray, national field director of CROP, the Community Hunger Appeal of Church World Service; Edward M. Davis, chief of police of the city of Los Angeles; and Randall H. Meyer, president and chief executive of Exxon U.S.A.

Other convention activities included various awards luncheons and banquets; workshops and clinics; youth tours and dances for the young people; special ladies programs for the Kiwanis wives; and sight-seeing tours to the famous San Diego Zoo and Sea World.

Founded on January 21, 1915, in Detroit, Michigan, Kiwanis International is dedicated to serving youth, community, and nation, and operates under the motto "We Build."

The U.S. Department of Labor's Bureau of Labor Statistics predicts good job opportunities for chemistry graduates at all degree levels, according to the "Occupational Outlook Handbook in Brief."

# 'Good Luck' Party Honors Miss Hereford

BY LAVON NIEMAN  
Brand Staff Writer

"Search For The One" is the theme of this year's Miss Texas Pageant and with this in mind, citizens of Hereford think the pageant judges need not look any further than Hereford for the winner.

Delfine Ulibarri will be representing Hereford in the pageant scheduled July 7-10 at the Tarrant County Convention Center Theatre at Fort Worth. She won the honor of representing Hereford by winning the Miss Hereford Pageant sponsored by the Women's Division of the Deaf Smith County Chamber of Commerce.

It was that same organization that presented Miss Ulibarri with a "Good Luck Party" Tuesday night in the Community Center. Mrs. W.E. Sparks,

president of the Women's Division, presented the honoree with a gift and a good luck arrangement of flowers.

The meeting also served as a quarterly membership meeting for the organization. Approximately 60 attended the affair. Mrs. J.W. Robinson was in charge of the program.

Miss Ulibarri modeled part of the wardrobe she will be wearing in Fort Worth. Mrs. Terry Caviness served as fashion coordinator and described the clothing Miss Ulibarri modeled. Mrs. Dwight McGee played selections on the piano during the evening.

She modeled clothing donated by the Pants Cage, Tree House, Anthony's at Sugarland Mall, Harman's Downtown, Littles and Gibson's Discount Center. Her cosmetics were from Merle

Norman Cosmetic Studio.

Miss Hereford entertained the group with violin selections she will play in the Miss Texas Pageant. Also entertaining at the party were Michelle Moore, Miss Teenage Hereford, who played violin selections and Melinda Matson who sang and was accompanied by Amy Cox.

Mr. and Mrs. Bill Albright will accompany Miss Hereford to Fort Worth and act as her chaperones. Albright announced that she will be in gown competition, on Wednesday night, talent on Thursday night and swim suit on Friday night. The crowning of the new Miss Texas will be aired locally July 10 on Channel 11 at 9 p.m. The top ten girls will perform their talent. Sixty contestants will be competing for the crown.

### ANOTHER HIGHLIGHT OF

the quarterly membership meeting was the presentation of the first Torch Light Award. This award is to recognize women who are involved in leading and encouraging other women to develop their individuality and personhood. The award is to be made at each quarterly meeting.

Recipient of the first Torch Light trophy was Mrs. Bill Howard. Known as Pauline by her many friends, she is assistant manager of the Hereford Texas Federal Credit Union and will have been employed there 30 years in August. She is a member of the Hereford CowBelles, Women's Division, Women's Golf Association and the Amarillo Area Credit Union Association.

The award was presented by Mrs. Joe Henry who is serving as chairman of the committee. In making the presentation, she said "by sharing your business experience, by your concern and friendship you have held the torch high to help light the way for other women to realize their personhood."

DURING A SHORT business session, Mrs. Sparks invited everyone to the Summer Youth Program open house which will be held Friday from 9:30 to 11:30 a.m. in the Community Center. Mrs. James Hamby has served as chairman of the program. Patti Hendon was hired by the city to assist volunteer workers in making the program a success. During the four weeks the program has been functioning, there have been 1,200 children in attendance. The open house will give citizens an opportunity to see what the children have made.

Mrs. Sparks also announced that the Women's Division is building a float for the July 3rd parade and encouraged members to help with the decorations. Anyone wishing to help is asked to be at the building across from the Bull Barn at 1:30 or 7:30 p.m. Friday. Winners from the Miss Hereford pageants will ride on the float. Miss Hereford will leave for Fort Worth after the parade.

Refreshments were served during an intermission of the meeting and party.

### Torch Light Award Presented

Receiving the first "Torch Light Award" is Mrs. Bill Howard, at right. The award was presented by Mrs. Joe Henry at the quarterly meeting of the Women's Division of Deaf Smith County Chamber of Commerce.

### Landers On Dean's Honor Roll

A local youth has been named to the dean's honor roll at Wayland Baptist College for the spring semester.

He is Gary Landers, son of Mr. and Mrs. Ray Landers, 205 Higgins St. The Wayland biology major is a 1975 graduate of Hereford High School. Landers, a freshman, earned a

perfect 4.00 GPA for the semester.

The chief reason why the Constitution provided for a census of the population every 10 years was to give a basis for apportionment of members of the House of Representatives among the states.

### Historical Movie To Be Presented

The Fourth of July is the birthdate of the United States of America and also the date that "America the Beautiful" and "Last King of America" will be shown at the Panhandle-Plains Historical Museum.

The first film combines photographs of America's scenery with the song "America the Beautiful" played in the background. Lasting only three minutes, the film begins at 2:30 p.m.

"Last King of America" will be shown following "America the Beautiful." In this 60 minute film, George the Third of Great Britain is interviewed by CBS Newsman Eric Sevareid. The first interview is during the Revolutionary War. Peter Ustinov, as George the Third, answers Sevareid's questions in a manner that makes history come alive.

July 11 will be the date for the award-winning movie "The Howards of Virginia." Cary Grant and Martha Scott co-star in this rousing adaptation of Elizabeth Page's "Tree of Liberty," which received two Academy Award nominations. Beginning at 3 p.m., the 117 minute-long movie is rated G.

### Receives Good Luck Arrangement

Miss Delfine Ulibarri was honored Tuesday night with a "Good Luck" Party by the Women's Division of Deaf Smith County Chamber of Commerce. She is shown with Mrs. W.E. Sparks as she receives a flower arrangement and a good luck charm before she makes final arrangements to leave for Fort Worth Saturday.

## Homemakers Given Pickling Pointers

COLLEGE STATION -- Summer means pickling -- and following a few important steps ensures a good quality product. Mrs. Sally Coble, a foods and nutrition specialist advises.

She is with the Texas Agricultural Extension Service, The Texas A&M University System.

Get ready -- with the right equipment:

"Select standard canning jars and canning closures. Check the jars to be sure they're free of nicks, chips or cracks. Jars and closures should be thoroughly clean.

"For heating pickling liquids, use unchipped enamelware, stainless steel, aluminum or glass utensils. Utensils made of copper, brass, galvanized or iron materials should not be used since the pickling liquid may react with the metal," she explained.

Handy small utensils for food preparation include measuring spoons and cups, sharp knives, tongs, colander and wooden cutting board.

A long-handled wooden spoon, cheesecloth for spice bags, rubber spatula, jar lifter and a glass measuring cup are needed for the cooking and filling procedures.

A water bath canner is necessary for processing the pickles.

Get set -- with the right ingredients:

Produce: "Select top-quality produce, free from blemishes, uniform in size and slightly underripe. Remove the blossoms and pickle within 25 hours."

Salt: "Use coarse salt, sometimes called dairy or pickling salt. Iodized salt may cause pickles to darken."

Water: "Soft water is recommended."

Sugar: "Brown or white granulated sugar may be used."

Spices: "Use fresh spices for best flavor. Whole spices, tied in a cheesecloth bag, are preferred. Remove spice bag from pickling liquid before filling jars."

Vinegar: "Use a high-grade cider or white distilled vinegar of four to six per cent acidity (40 to 60 grains)."

Go -- with a favorite recipe from a reliable source:

"For some tasty pickle recipes, write for B-188 Pickles and Relishes, available from the Texas Agricultural Extension Service for 25 cents. Send your request for the pamphlet and money directly to the department of Agricultural Communications, College Station, Texas 77843, or contact your local county Extension agent for an order form.

Following are a few recipes from this publication you may want to try.

### BREAD AND BUTTER PICKLES

25 large cucumbers  
12 medium white onions  
1/2 cup salt  
1 quart vinegar  
2 tablespoons white mustard seed

2 tablespoons celery seed  
2 tablespoons tumeric  
2 cups sugar

Soak unpeeled cucumbers in water overnight. Slice cucumbers and onions and place in pan and sprinkle with salt; let stand one hour and rinse. Add vinegar, sugar, mustard seed, celery seed and tumeric powder. Bring to a boil. Pack pickles in boiling water bath five minutes. Start to count processing as soon as water returns to boiling.

### PICKLED OKRA

3 pounds uncut and washed young okra pods  
celery leaves

6 small hot peppers  
cloves of garlic  
1/2 cup salt  
large heads of dill and stems or 1/2 teaspoons dill seed per pint  
1 quart water  
1 pint white vinegar

Pack okra into hot pint jars with a few celery leaves, pod of pepper, clove of garlic and head of dill or dill seed in each jar.

Make brine of water, vinegar and salt; heat to boiling. Pour over okra. Close jars. Process in boiling water bath 20 minutes. Start to count processing time as soon as hot jars are placed in actively boiling water. Makes six pints.

### CHOW-CHOW RELISH

1 peck or 12 1/2 pounds green tomatoes  
8 large onions  
10 sweet green peppers  
3 tablespoons salt  
6 small hot peppers, chopped  
2 teaspoons tumeric  
4 cups vinegar  
1 1/2 cups sugar  
3 tablespoons salt

4 tablespoons dry mustard  
3 tablespoons celery seed  
2 tablespoons mustard seed  
Chop tomatoes, onions and sweet green peppers, and sprinkle with salt. Let stand four to six hours in cool place. Drain well; add hot peppers, vinegar, sugar, salt and spices tied in thin cloth bag. Boil 15 minutes. Remove spice bag. Pack into hot jars. Close. Process in boiling water bath 15 minutes. Begin counting time as soon as water returns to boiling.

## Hospital Notes

SADIE OLIVER  
...Former HD Agent

## Former HD Agent Visits After 29-Year Absence

A former Home Demonstration Agent in Deaf Smith County, Sadie Lee Oliver, was honored with a Sunday afternoon reception and a Monday breakfast in her first visit to the community since leaving in 1946.

Now a resident of Belton, Miss Oliver was the HD Agent here from May 1938 to December 1946. She was succeeded in the home demonstration post by Argen Draper, who served until August 1974.

The reception honoring Miss Oliver was held Sunday afternoon in the home of Mr. and Mrs. Ira Ott. Assisting with the hosting duties were Mrs. Tom Draper, Mrs. F.G. Collier, Mrs. G.H. Logan and Mrs. J.G. Gandy. Refreshments were served from a table covered with a red Bicentennial cloth and a Bicentennial arrangement as a centerpiece. Appointments were silver and crystal.

Guests attending were Mr. and Mrs. Tom Draper, Mr. and Mrs. N.G. Elliston, N.G. Elliston Jr., Mrs. Nancy Duncan, Mrs. Troyce Carmichael, Mr. and Mrs. Major Schroeter, Mrs. E.C. Hewitt, Mrs. Ada Hollabough, Miss Evelyn Bell, Mrs. Iva Saltzman, Charles Higgins, Jimmie Bradley, Paul Rudd, Grady Parsons, Ella May Childers, Bess Werner, Glenn Hetzler, G.H. Logan, Mina Mae Love, J.G. Gandy, Alice Cox, George Turrentine and Mr. and Mrs. Ott.

An "old-fashioned country breakfast" honoring Miss Oliver was held Monday morning in the home of Mr. and Mrs. Tom Draper. This event, like the reception, gave Miss Oliver opportunity to visit with acquaintances and recall happenings during her residence in Hereford.

Guests at both of the functions were Miss Oliver's traveling companions--Mrs. Ruby Mashburn Worthen and Gus Oliver. Mrs. Worthen is a former district HD agent for this area and now resides in Terrell.

Guests at the breakfast included Goose Ramey, Mrs. Vernis Parsons, Ella Mae Childers, Mr. and Mrs. Ira Ott, Speedy Nieman, and Mr. and Mrs. Draper.

Visiting with so many old friends was a great experience, according to Miss Oliver. "If I

did half as much good as people have been giving me credit for, I really should feel proud," remarked Miss Oliver.

Watch for signs of food spoilage in the hot summer months when illness-causing bacteria multiply rapidly. Unless properly refrigerated, salads with mayonnaise and cream-filled baked items are especially good sources of bacteria that cause food poisoning, reminds Frances Reasonover, foods and nutrition specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

## Church Slates July 4 Fun

The Summerfield Baptist Church will host activities which bring back memories of the turn of the century on July 4 with picnic lunches and an afternoon of fun.

July 4 activities will begin with worship services at 10 a.m. and a basket lunch will be held at noon.

At 1 p.m. games and contests for all ages groups will be held with ribbons awarded as prizes. A watermelon eating contest will also be held and homemade ice cream will be served.

In Duxbury, Mass., the John and Priscilla Alden house is probably the only house still standing that was occupied by Pilgrims who arrived on the Mayflower. It was built about 1653.

## Fabric Classification Procedures Developed

Since cigarettes are acknowledged as the source of frequent fires on upholstered furniture, testing procedures for classifying upholstery fabrics by the resistance of a piece of furniture to a smoldering cigarette are being developed.

"This procedure, developed by the federal government, tests how fabric and cushion material withstand ignitions of several cigarettes which are covered with a light cloth and allowed to burn out on the furniture," Mrs. Patricia Seaman, a housing and home furnishings specialist, reports.

She is with the Texas Agricultural Extension Service, The Texas A&M University System.

"Fabric classifications of 'A,' 'B,' 'C,' and 'D' would be the standard. Fabrics have to be sorted by the char length produced when cigarettes were placed on them.

"Velvets, cotton blends and other fabrics which produce char lengths in excess of three inches will be classified 'D.' Fabrics which produce char lengths of one and a half to three inches are to be called 'C.'"

She said that remaining fabrics are to be put through another test over untreated

cotton batting. Those which ignite after being subjected to smoldering cigarettes are to be classified "B" and those which fail to ignite are classified "A."

"Testing procedures for upholstery manufacturers would include quarterly tests of representative 'A,' 'B,' and 'C' fabrics over all types of padding material constructions used by the producer.

"Fabrics in the 'D' category are to be tested similarly, but every different type of fabric is required to be tested over every construction. It is expected that many class 'D' fabrics will be discontinued because of the expense of testing, even if it is possible to treat them to make them less flammable," the specialist said.

## WHO'S NEW

Mr. and Mrs. Jimmy Ancira of 909 Prospect Friona, are the parents of a girl, Monica, born June 26. She weighed 6 lbs. 7 1/2 oz.

Mr. and Mrs. Johnny Sierra, Box 1211 are the parents of a girl, Loraine, born June 26. She weighed 6 lbs. 1/4 oz.

Mr. and Mrs. Terry Morgan of 415 Ave. H are the parents of a girl, Brandi Michelle, born June 26. She weighed 6 lbs.

Mr. and Mrs. Tommie Dewey of 112 Ave. H are the parents of a girl, Teri Ann, born June 26. She weighed 6 lbs. 3 1/2 oz.

Mr. and Mrs. Danny West of 509 Schley are the parents of a girl, Krista Lynn, born June 27. She weighed 7 lbs. 10 oz.

Mr. and Mrs. Burke Inman, Jr. of 519 Ave. K are the parents of a girl, Moni Marylinh, born June 27. She weighed 6 lbs. 14 1/2 oz.

Mr. and Mrs. Benigno Ramirez of 320 Ave. D are the parents of a boy, David D. born June 27. He weighed 8 lbs.

Mr. and Mrs. Johnny Tijerina of 315 Norton are the parents of a boy, Juan Jose Jr., born June 28. He weighed 7 lbs. 2 oz.

## Arts, Crafts Sale To Be Held Soon

In conjunction with the Hart Day celebration August 14th, Chi Si Sorioty is sponsoring an Arts and Crafts Sale to be held this year in the Hart Schools. Exhibitors will be charged \$10 for table and space to display items for sale.

Table and chairs will be furnished and displays should be set up by 9 a.m. on Saturday morning, August 14th. Exhibitors will be responsible for their own displays. Please contact Nita Hooper, 938-2520 or Daisy Huntsinger 938-2426, by August 11th if you plan to participate.

### SQUASH CASSEROLE

6 yellow squash  
 1/2 cup butter  
 1 cup whole kernel corn  
 1/2 cup chopped onion  
 1/2 cup chopped green chilies  
 Salt and pepper to taste  
 1 cup grated cheese

Dice squash and onion; saute in butter until tender. Add salt and pepper. Add drained chilies and corn. Place in buttered casserole dish and cover with cheese. Bake at 350 degrees until cheese melts. Yield: 6 to 8 servings.

The first census in 1790 recorded the American population at 3,929,213.

In 3100 B.C. Egypt was a united kingdom under a ruling family. Its capital was at Memphis on the Nile River.

Iron was coming into use for the first time in the Near East in 1500 B.C. and was considered the most precious of all metals.

# Struggles of Families Seen in Books

"Missouri Blue", by Joseph E. Finley, and "Son Rise" by Barry Neil Kaufman are the two books being featured this week at Deaf Smith County Library. "Missouri Blue", by Joseph E. Finley, is a journey into America's past, set in the era before and during the presidency of FDR. It deals with a family and the struggles and pleasures of some very hard times.

"Son Rise by Barry Neil Kaufman deals with one of the most disturbing behavior prob-

lems found in children--infantile autism. It tells of a most unusual way one family beautifully handles a situation which often ends with the child forgotten in an institution.

Deaf Smith County Library is open free to the public from 9 a.m.-9 p.m. Monday and Thursday; from 9 a.m.-6 p.m. weekdays and until noon Saturday.

**MISSOURI BLUE**  
by Joseph E. Finley

In 1931 Braz. Marvin, like

millions of Americans, found himself out of work as a fireman on the once prosperous "Frisco" Railroad. With the days of steady paychecks achingly distant, the Marvins find brutal, backbreaking work in the cotton fields, a sharecroppers' shack for a home...and each other. They are undaunted by the near-deathly malarial fevers, and their simple pleasures shimmer like small perfect diamonds--the big Sunday meals with all the families, the delights of

hog-killin' time, Christmas with its single delectable orange, and young Tom's surprise victory over adults in a country spelling bee.

And as FDR enters the White House, Braz Marvin, stronger from his struggle, secure in the simple dignity of his family's survival, hears again the haunting call of the whistle on a Frisco freight. Will he answer it? Alive with all the humor and poignancy of a simpler era, Missouri Blue is an enchanting journey into the American past.

**SON RISE**  
by Barry Neil Kaufman

Son-Rise is the extraordinary journal of Barry and Suzi Kaufman's successful effort to reach their "unreachable" child. It is a sensitive portrayal of people who refused to be daunted, refused to stop loving, but facing the mountain, decided to move it.

The record of Raun's development from a lifeless, noncommunicative child into an active, loving and verbal little boy is astonishing and poignant. When he was a year old, Raun began to withdraw from human contact. Oblivious of his surroundings, at times he

appeared deaf and blind, staring silently for hours, examining his fingers, rocking endlessly, totally selfstimulated.

The diagnosis suggest itself: infantile autism -- a subcategory of childhood schizophrenia -- an irreversible category of the profoundly disturbed and psychotic. Most autistic children are fated to live their lives lost and forgotten in institutions; Son-Rise is the very different story of one of these children.

The experts offered the Kaufmans little hope for Raun, and as they watched their beautiful son slipping further and further behind his impene-

trable shell, they sensed time was critical. They decided they must act on their own...alone.

Raun himself would lead them, showing then how to penetrate his world. They would not judge him or measure him by external standards of achievement; they would accept him completely, respecting his behavior, reaffirming their attitude of approval...to love is to be happy with."

The journey of exploration, understanding and caring they embarked on is unique and remarkable. It suggests a beautiful, alternative way to helping children--any children--to fulfill of their being.

ikat, a popular fashion term, is an Indonesian word for warp printing. Warp threads are dyed before being put on the loom, producing an irregular, blurry look in the finished fabric. This process, called kasuri in Japan, is a traditional method of textile design in ancient civilizations and can still be found in South America, according to Beverly Rhoades, clothing specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

# Fall Fashions Illustrated

Variety is the key to fall fabrics and fashions. Rather than one important new look, many different trends and influences are in style, Margret Ann Vanderpoorten, a clothing specialist, reports.

"Major trends are the layered look, classics, naturals and the ethnic look," she said.

Miss Vanderpoorten is with the Texas Agricultural Extension Service, The Texas A&M University System.

Layered looks will be most evident in active sportswear. Layers will be functional as well as decorative. Terry cloth, corduroy and fleece, muslin, poplin and shirting fabrics will be popular in both natural and bright colors, she reported.

"Classics, termed the 'thoroughbred look,' will be seen in neutral colors and new basics such as luggage red and spruce

green. Refined tweeds, herringbone patterns and pin stripes will combine with solids to give an elegant tailored look to favorite separates. Blazers, vests and simple skirt or pant styles will be front runners," she said.

Natural looks such as wrap skirts and dresses, easy-fit styles and casual wear will make this look top fashion. Texture will be important with crinkled muslins, slubbed fabrics and denims

Americans place little prestige on growing older—but a positive attitude about aging relieves concern and anxiety about old age, Dorothy Taylor, family life education specialist with the Texas Agricultural Extension Service, The Texas A&M University System, says.

being among the most popular. Many of the natural look fabrics will be made of synthetics for easy care and permanent crinkles, she added.

"Ethnic looks will range from restrained delicate Oriental styling to bold fiery Guatemalan stripings to African wood block prints. Emphasis is on the world's variety of cultures with imagination the only limit to what consumers will wear this fall," the specialist said.

## Fashion

Scarfs are definitely in style this season—it may be a tiny handkerchief type to tie around the throat or a longer one to throw over the shoulder. Or by combining a number of scarfs, attractive garments can be fashioned.

Stylists are working on sport clothes and trying to give individuality to different garments. Clothes for different climates are a must for the wearer who travels.

## Auxiliary Members Hold Installation

Members of the Ladies Auxiliary of VFW met Monday evening in the VFW clubhouse for its formal installation of officers.

Serving as the installing officer was Mrs. Jim Loving. She installed Mrs. P.B. Powell as president; Francis Parker as Senior Vice President; Mrs. Marshall Padgett as Junior Vice President; Mrs. Leonard Davis

as conductress; Mrs. Ada Hollabaugh as Treasurer; Doris Coffin as Chaplain; Beatrice Cox as Guard; Bessie Saucy as One Year Trustee, and Alma Coursey as two year trustee.

Mrs. Loving will act as corresponding secretary for the coming club year.

A short business meeting with Mrs. Sowell presiding was held in which it was decided the group would have a garage sale and also a bake sale sometime in August.

12 members were present.

## State Officers Visit Here

Members of Hereford Canton and Ladies Auxiliary, Patriarch Militant No. 36 met at the Odd Fellows temple recently for a regular meeting and covered dish supper and to honor the State President, Lady Ora Little, of Waco.

The president of the Department association of Texas Ladies Auxiliary, Patriarch Militant, I.O.O.F., Lady Ora Little, was accompanied by her husband, Col. Waymon Little, High Priest of Texas Grand Encumbent and Chief of Staff of Texas Patriarch Militant. The couple was honored as special guests.

President Lady Ora Little gave a program and gave each member of the group her year book.

Other out of town members attended the meeting from Amarillo No. 38.

MRS. THOMAS EDWARD TALAMANTEZ  
...nee Rosa Maria Rodriguez

## Church Ceremony Unites Couple

Rosa Maria Rodriguez became the bride of Thomas Edward Talamantez in an afternoon ceremony Wednesday in the Temple Baptist Church with the Rev. J.L. Bozeman, pastor, officiating.

The bride is the daughter of Mr. and Mrs. George Galvez of 309 Ave. F, and the bridegroom is the son of Mr. and Mrs. Jose Sandoval of 513 Whittier.

The main altar of the church was decorated with baskets of white mums where Miss Rodriguez was given in marriage by her grandfather, Benigno Ramirez.

Miss Lorena Reyes acted a maid of honor while Mrs. Martin Alejandro, Mrs. Estevan Martinez, and Mrs. Martin Ramirez served as bridesmaids.

George Luna was the best man and groomsmen were Estevan Martinez, Martin Ramirez, and Martin Alejandro. Escorting guests to their seats was Abelardo Talamantez.

Miss Carmen Alejandre was the junior bridesmaid escorted by Johnny Gomez.

Small members of the wedding party were Nancy Tijerina, daughter of Mr. and Mrs. George Tijerina, flower girl, and Fermin Liscano, son of Mrs. Sara Liscano, ring bearer.

Organists, Joan Waters, played the traditional wedding march and "We've Only Just Begun".

Feminine attendants wore long gowns in rainbow colors of blue, yellow, and pink and green and carried matching bouquets with ribbon streamers.

Miss Chela Gonzales invited guests to register at the reception in Fellowship Hall of the church, where Mrs. Abelardo Talamantez served the tiered wedding cake. It was decorated with the rainbow colors the bride had chosen and topped with doves and bells.

Mrs. Benigno Ramirez and Mrs. Sylvia Silerio, assisted by Estela Martinez poured punch for the guests.

The refreshment table was covered with a white cloth centered with a bouquet of yellow daisies, pink carnations and blue bachelor buttons.

Leaving on a wedding trip to San Antonio, the bride chose an outfit of orange with white accessories. The couple will be at home after July 9 at 508 Brevard.

The bride was a May graduate of Hereford High School and the bridegroom graduated in 1975. He is employed by V and V Carpentry.

Out of town guests included Mr. and Mrs. Joe Maldonado of San Antonio, Mr. and Mrs. Gene Neely of Amarillo, and Mr. and Mrs. Frank Hopper of Dimmitt.

In the late 17th Century, American colonists were ambivalent about piracy. Pirates who docked in colonial ports replenished needed supplies in the colonies and paid in much needed gold and silver coin. But American ships were often victimized on the high seas and piracy became a crime punishable by death. One of the most notorious of the buccaneers was a woman. In 1717 when there was a spirit of leniency toward pirates, she was caught and jailed instead of being executed. She finally died in jail. Who was she? Mary Read.

Receiving Shower Guests

Receiving guests at a bridal shower recently honoring Miss Susan Cannon are from left, Mrs. Allen Cansler, Mrs. Chester Wiggins, the honoree, and Mrs. Sue Cannon.

## Shower Honors Miss Cannon

A miscellaneous bridal shower honoring Miss Susan Cannon of Olton was held Saturday in the home of Mrs. Allen Cansler. Miss Cannon is the August 6th bride-elect of David Wiggins of Hereford.

Approximately 45 guests were served refreshments from a table covered with a white satin cloth overlaid with sheer organza fabric. The table was centered with an arrangement of pink carnations accented by tufts of maroon maline, carrying out the honoree's chosen colors of pink and maroon. Guests

enjoyed finger sandwiches, cake, mints, and nuts, along with pink frothy punch which was served from a silver punch bowl. Mrs. Zearl Cansler and Mrs. A.R. Dillard attended the table while Mrs. Vance McGee invited guests to sign the guest register.

Among the out of town guests were Mrs. L.R. Lockett of Pampa the prospective bridegroom's aunt, and the honoree's aunt, Mrs. Jo Hoover and daughter from Clebourne.

Hostesses included Mmes. Wilbur Axe, N.D. Bartlett, Tom

Burdett, Allen Cansler, Zearl Cansler, A.R. Dillard, Jim Hale, Alton Hollingsworth, Armon Lauderback, Lloyd McGee, Vance McGee, Charles Minchew, Elmer Patterson, and Bob Wear.

How many die yearly from drug reactions? ... I.M. Surprisingly few when you consider the amount of medicine consumed each year. The Pharmaceutical Manufacturers Association has two categories for listing deaths from adverse drug reactions: (1) deaths of patients who are suffering from nonlethal diseases and (2) deaths of patients who are suffering from lethal diseases. In each category about 3,000 people die from adverse drug reactions.

Will stilbestrol arrest cancer in women? Also, what are its side effects? - J.M. Stilbestrol is one of approximately a half-dozen medicines which is used to treat breast cancer. It is used primarily when women are past the menopause. Stilbestrol or diethylstilbestrol as an estrogen (female hormone). Nausea and vomiting are common side effects. There are numerous other side effects which may occur less frequently. These can be minimized by reducing the dosage. Dosage adjustments should only be made by your physician.

# Program Is Scheduled To End

An open house for all parents and children who were involved in Hereford's Summer Youth Program will be held in the Community Center Friday morning from 10:00-11:30. The open house will mark the end of the program, which was regularly scheduled to end July 9th.

All children who participated are asked to bring arts and crafts items they made to be displayed. After the parade scheduled on July 3, all children who will be riding on the float are invited to have refreshments in the park.

## CALORIE COUNTDOWN

BY SUSAN DUFF MASTRO

### GETTING BACK ON THE DIET

When we have gone off our diets for one reason or another, most of us find that our appetites are harder than ever to control. It's quite likely that the body's metabolism has changed to the extent that it got used to all that input of food and is now making greater appetite demands than before.

person's "appetate" is altered when your eating habits change, especially if you eat a lot more sugar than usual, and this can make dieting all the more difficult just at a time when it seems to be all the more essential.

Every dieter knows how quickly weight gains can accelerate when we lose control of our appetites, so now, RIGHT NOW, is the time to evaluate your eating behavior and start cutting down. Now is not the time to impose a very strict, almost impossible to stick to diet on yourself, because your body will rebel at being cut off from food so drastically. But, it is the time to start being reasonable about how much you're eating.

Instead of setting up a lot of hard and fast unbreakable rules for yourself right now, try gradually to ease down by initiating some easier rules that you know you can stick to. Start with the old dieter's favorite, eat nothing between meals. Eat as much as you want (except dessert) at the three regular mealtimes, but don't snack in between. If you find this really difficult, fill up on diet sodas or suck on sugarless hard candies between meals. But don't allow yourself anything more than that outside of normal mealtimes.

Delaware was the first state to ratify the Constitution.

### Fun For All

The Hereford Community Players will present a Melodrama entitled "Shoot-Out-in-the-Wall" Friday night at the Bull Barn. The production will begin with a sing-along at 8:00. Admission will be \$1.00 for adults and \$.50 for children. Pictured are members of the cast from Left: The villain, Sick

Mason, played by Archie Dwyer; Cattle Kate, played by Amy Gilliland; Daffy Harper, played by Sylvia Emerick, Prudence Pringle, played by Rose Ann Smith, and Julie Harper, played by Nancy Stewart. Lying on the floor looking very distressed is Pinky, played by Gordon Gearn.

### PROTECTING YOURSELF AGAINST LOSS

This information has been supplied by experts at The Society of Chartered Property & Casualty Underwriters, the national professional society whose members have earned the CPCU designation by meeting high educational, ethical and experience requirements.

Q. My neighbor says that my regular automobile policy applies not only to my own car, but also to the one I rent for two weeks each summer. Can this be?

A. Your neighbor is right. Most automobile policies cover you when driving a rented vehicle so long as the car hasn't been rented for a long term.

If you rent for under three weeks, that could hardly be considered a long term. But check with your insurance representative before leaving.

## Ann Landers Putting the Blame Where Deserved

Dear Ann Landers: I felt compelled to write when I read the letter signed "Turned-Off and Guilty," from the guy who called his wife a "fat slob" because she couldn't control her eating.

You've been much harder on others than you were on that creep. Why didn't you clobber him for his lack of compassion? The problem may not be in her head, as you suggested, but in the fact that she is married to a conceited, insensitive jerk. He is the one who is disgusting and stupid. The man has obviously driven his wife to food for comfort while he works out on the golf course and looks for excuses to enjoy extramarital fun and games. Meanwhile she feels rejected and goes for the cake and fudge sauce to compensate for the attention she isn't getting from him.

I know about these things, dearie, because I've -- Been Down The Same Path. Dear Path: You are right, as dozens of readers pointed out. I was not as compassionate to the wife as I should have been. She deserved more than I gave her, and her critical husband deserved less. Thanks for hauling me up short. I had it coming.

Dear Ann Landers: Recently someone wrote in about the compulsive habit of biting her cheek. She feared it might cause cancer. It may be that all

the woman needs to beat the habit is a mild tranquilizer, prescribed by any doctor, not necessarily a psychiatrist.

I had a different type (but also compulsive) habit. My kindly allergist prescribed tranquilizers for me. They worked like magic and the habit was soon a thing of the past. After a few years, I encountered a tense situation in my life and the habit reappeared. I called immediately for a refill of my prescription. Only one or two tablets were necessary before the habit was again dropped.

How wonderful that a person can contact Ann Landers confidentially and draw from the experiences of others, and nobody has to reveal his identity!

Hang in there, Baby! -- You Ever-Lovin' Fan

Dear Fan: I'm glad tranquilizers broke your compulsive habit, but actually the habit was a symptom of a deeper problem.

Medication can be very useful to get a person through a crisis, but it should never be mistaken for a solution. Thanks for the warm words, Lovey.

Dear Ann Landers: Since everyone seems to toss their pet peeves and private annoyances in your direction I think I will, too. Even if you can't help me, it will make me feel better.

Whenever my husband introduces me to anyone, or refers to

me in conversation, he calls me "the wife." It's never "MY wife" -- it's always "THE wife." Doesn't that sound cold and impersonal?

The word "MY" is definitely in his vocabulary. He uses it in connection with his secretary, his office, his newspaper, his dog and sometimes his son.

Why does my husband do this to me? Is there a solution? -- Arm's Length Life Partner

Dear Partner: Speech patterns can mean something -- or nothing. Often they are established out of habit.

If it bugs you to be called "the wife," speak up, first privately, then publicly. But in a nice way. Example: "Please, dear -- I'm YOUR wife. Have you forgotten so soon?"

Don't flunk your chemistry test. Love is more than one set of glands calling to another. If you have trouble making a distinction you need Ann's booklet, "Love or Sex and How To Tell the Difference." Send a long, self-addressed, stamped envelope with your request and 50 cents in coin to Ann Landers, P.O. Box 1400, Elgin, Ill. 60120.

Touching a pig on New Year's Eve is good luck in Hungary where Budapest restaurant parties sometimes turn into a wild scramble when a live pig is turned loose at midnight.

Call on Ray Slaton for prompt attention in handling all your Ins. needs, including Life Ins. 205 S. 25 Mile Ave. 364-6633

By ERMA BOMBECK

While Erma Bombeck takes a well-deserved one-week vacation, we welcome the opportunity to offer some of her most popular past columns.

Do you know what the odds are against polishing off every opened box of breakfast cereal in your cupboard? Well, we've done it. The hard way. With kids.

For the last 15 years, we have had no less than a dozen or so half-eaten boxes of Fortified Blinksies, Cackly Krunchies, Captain Sugar, Dry Ryes, Toasted Wriggles, Heap of Honey and Cavity Krispies. Regardless of what you have been told, these cereals didn't snap, crackle, or pop. They just laid there on the shelves year after year and turned stale.

About a month ago, I made an announcement at breakfast. "There will be no more cereal purchased in this house until we eat up every single box that is opened."

They were shocked momentarily. Then, "Why?"

"Because I can no longer afford to support 12 boxes of unopened cereal. Take this box of Bloating Oats (I wish someone would). Originally, I bought it for 39 cents. As you will remember, it contained a full-size nuclear submarine, complete with a crew of 120, and secret plans for occupying Connecticut. As you may also remember, I inadvertently ate the sub causing a chipped tooth that cost me \$85.

"When the cereal didn't move at our breakfast table, I ran out into the snow one morning in my bedroom slippers to hustle it to some starving birds who pecked once at it then migrated forever. The antibiotics for my cold cost me \$13.

"This cereal has also been with us through three moves which, counting the packing, shipping, and crating, cost around \$15.42. It also attracted ants in the new house which put me back \$2.72 for traps. All told, this crummy box of cereal has cost us \$116.53. Eat up!"

This morning, we went to the grocery store. At the cereal shelves, they scattered. "Hold it!" I said. "We are all going to agree on one box of cereal." What ensued may set retelling back 30 years.

"I hate Bran Britties. They're for old people with irregularities."

"And I hate Chock Full of Soggies that turn your teeth purple."

"Let's get Jungle Jollies. They don't have any nutrition whatsoever."

Miraculously, they appeared with a single box. "We've all decided on Mangled Wheat Bits."

"That's great," I said. "Any particular reason?"

"Yeah, there's a magic kit inside guaranteed to make anything disappear."

### FERTILIZERS

Nitrogen is the component most essential to plant growth; it produces the most rapid and most noticeable effect. It motivates growth above-ground and enhances foliage color, in addition to regulating the plants' usage of phosphorus, potassium and other nutrients. Plants lacking in nitrogen are often stunted in growth, have undeveloped root systems, and lose their leaves. Dramatic changes occur when nitrogen is added to the soil of a plant which shows these ailing symptoms. Too much nitrogen, on the other hand, can produce undesirable effects on plant growth. Flowering and fruiting can be inhibited due to the excess of vegetative or foliage growth. Tomato plants are particularly susceptible to this. Excess nitrogen in the soil can also make plants less resistant to disease.

The sleeveless dress with coat or short jacket continues its popularity. For the older woman the dress with a short sleeve is more practical.

# Tips on Fighting Kitchen Fires

Most kitchen range fires occur when cooking oil, fat on meat or clothing touches a hot element or burner.

The Food and Drug Administration's Bureau of Product Safety estimates that about 100,000 burn accidents from kitchen ranges occur each year.

Mrs. Lillian Chenoweth, a family resource management specialist with the Texas Agricultural Extension Service, The Texas A&M University System, offers some practical guidelines for dealing with a fire in the kitchen.

"If a fat fire should start in the cookware on the range's surface units -- or in a fondue pot -- or electric skillet -- immediately cover the pan and turn off the source of heat.

"Use a fire extinguisher if the fire should spread. Or baking soda may be thrown on the fire if an extinguisher isn't available.

"Never try to carry flaming cookware outside or to the sink, and do not throw water on a grease fire. Water only causes grease fires to spread," she cautioned.

If a fire starts in the oven or broiler, close the door, turn off the source of heat and keep the door closed. With limited air, the fire should go out within minutes, the specialist said.

"You can minimize the risk of a broiler fire by using slotted solid racks which allow good grease drainage but shield the fat from the heat source. Do not use a broiler pan with an open wire rack unless it is deep enough to add water beforehand to cool the fat," she explained.

"Some simple precautions can reduce chances of a range fire," she pointed out.

--Cookware used on the surface units of a range should be large enough so that none of the electrical element is exposed.

--A gas flame should be adjusted so that it does not run up the sides of the cookware.

--Never wear long, loose sleeves when cooking.

--Only use cookware that is both large and deep enough to hold the meat and any fats and juices that will accumulate during cooking.

In large part, many topics which have been explored, have had a rather concrete basis; for example, not only is the American work ethic an ideal, we see it in operation everyday. The same can be said about the ethic of the business place. However, the concluding theme is far less concrete and considerably more idealistic.

**SUMMER LUNCH**  
Cold Cucumber Soup  
Strawberry Toast Beverage

**STRAWBERRY TOAST**  
2 eggs  
2 tablespoons milk  
1/2 teaspoon salt  
1/4 teaspoon nutmeg  
8 slices bread, regular or French  
1/4 cup butter or margarine  
1/4 cup orange marmalade  
1 pint fresh strawberries, hulled and sliced

Beat together well the eggs, milk, salt and nutmeg. Coat bread on both sides with mixture. Using moderate heat, in a large skillet in the hot butter, brown the bread on both sides. Mix together well the marmalade and strawberries; top toast with mixture. Makes 4 servings.

# Joyce's Journal

BY JOYCE SHIPP  
Deaf Smith County  
Extension Agent

For the past several months, Americans have been focusing on themes to be part of the celebration of our country's 200th anniversary. We have considered America as a business place, America as a work place, America as it interacts with countries through out the world, America as place to grow up and raise a family and many other issues that have emanated from these major topics.

These are themes which we live by in America and are, thus, goals to use for ordering our lives. They should not be striven for as "goals" which drive us, nor should they be cause for remorse if they are not reached. They should be the themes by which we work, by which we order our business

and personal lives and by which our country seeks to take its rightful leadership role in world affairs.

If American history has taught us anything, it has taught us to learn from our mistakes, to build on our successes and to strive for our goals. These are real lessons from the past. They speak to us through our literature, our museums, our music, our great documents, and in many other ways. Let us pledge this month to pause and hear these messages, reflect on them and learn from them. If our country persists for another 200 years, it will be because succeeding generations learn from our mistakes, build on our experiences, and strive for the same promises which have motivated Americans since 1776.

One of our greatest documents, the American Constitution, has promised us Life, Liberty, and the Pursuit of Happiness. As we try to bring substance to these ideals, let us be sure that we do so with respect for our fellowman, for the wisdom of history and for

those that succeed us.

It is good to take time, such as during this Bicentennial celebration, to examine again issues raised relative to individualism, success, pleasure and wisdom. These ideas will probably continue to be prominent when we celebrate our next anniversary. The ways in which these issues come to be resolved will be largely the result of the decisions which we, the American people, make, and are making.

**BICENTENNIAL RECIPE**  
Remember when you used to make your own butter?? How many of you take time to do that today?? Lois Etheridge was kind enough to share this easy, delicious recipe with us:

**BUTTER**  
1 pound (any kind) lard or margarine (softened at room temperature)  
2 cups butter flavored cooking oil  
2 cups buttermilk  
Add a few drops of yellow food coloring, if desired. Whip with electric mixer until light and well whipped. Store in plastic tubs or desired containers.

# ABOUT YOUR HOME

By April Rhodes

If you want unfinished wood to have a soft mellow glow, apply several coats of linseed oil.

We suggest that camper vacationers take along a large box of baking soda. It's a good medication for sunburn and mosquito bites, it will extinguish small fires and it's a quick cleaner for cookware.

Let your small children enjoy eating soup by putting the vegetables and meat in a bowl and the liquid in a cup to drink.

To prevent crushed collars on shirts when packing for vacation, place socks in the ring of the collar.

**Castro County Celebration Due**

All Castro County residents, former residents, and others who are interested are invited and encouraged to attend an old fashioned 'Picnic On The Ground' with all the games, music, and singing reminiscent of the early days of our county. The Sunnyside Community is hosting the Jubilee at a site about 1 1/2 miles west of the main community crossroads. The marked trail will lead to a site overlooking historic Running Water Draw. The ground will be walked over and readied by

the Sunnyside Lions and relief stations will be provided. For safety's sake, parents are asked to attend with their children. The area is large enough to accommodate activities such as volley ball, badminton, soft ball, horseshoe and washer pitching, frisbee, sack racing, or just about any other type game or competitive foolishness. The trail should be well worn and dusty by about 6 o'clock p.m. as the pioneering spirited county residents begin to arrive. Games, exhibitions, demon-

strations, and just plain visiting are scheduled for the first couple of hours of the evening. Chow time will begin around 8 o'clock and each family is asked to bring a picnic lunch for their family. The Sunnyside Community will provide water, tea, and coffee all evening. No alcoholic beverage will be allowed, please. If the prospect of sitting on the ground seems too low, too rough, or too dirty, better bring along blankets and/or chairs to provide these comforts.

After the vittles and vessels have been put away, the campfire will be lit about 8:30 or 9:00 p.m. and the entertainment will begin. The 76ers choir, bluegrass music, story telling, group singing, individual community histories, an impressive Pledge to the Flag Service, a bicentennial skit, and square dancing will be the entertainment features. This good ole' folk type goings on will last until 12:00 midnight when again we will hit the trail back home and leave

the moonlit prairie to the coyotes and prairie dogs and other wild life. It is hoped that you will want to and can attend and participate in the whole evening's activities, but if you can't, you are welcome to come on out whenever you can. If any one of you out there has know-how on any of the early day skills needed for survival or relaxation, and would be willing to give an exhibition or demonstration (I'm thinking of things like soap making, weaving, whittling, lariat throwing, candle making and the like) please contact Kenny Barnes at Hart - 938-2172.

**July 4th Gas Supply OK, Prices Increase**

HOUSTON (AP) - Texas Fourth of July holiday motorists will find ample supplies of gasoline in Texas but will have to pay an average of two cents a gallon more than they did for the Memorial Day weekend five weeks ago. The Texas Division of the American Automobile Association said Tuesday most service stations will remain open through the weekend.

The survey showed average prices at full-service stations 56.3 for unleaded and 60.4 for premium. Just before the Memorial Day weekend, the AAA said the same stations had regular selling for 54.3, unleaded for 56.5 and premium for 58.2. Motorists can save an average of 4.1 cents a gallon at self-service pumps, the AAA survey found.

### Polly's Pointers

Some solutions to sticky situation

By Polly Cramer

#### Polly's Problem

**DEAR POLLY** — A pleat down the front of my little girl's 50 per cent cotton and 50 per cent polyester dress was held together with a piece of clear plastic tape. When I removed the tape the adhesive remained on the dress and I do not know how to remove it. Any advice would be appreciated. — MARY.

**DEAR POLLY** — My little girls have colored shirts with rubberized numbers on them. When first washed, parts of the numbers peeled off so they look terrible. I

have tried to remove the remaining numbers but failed, so I would like to have some ideas on how this could be done. — BRENDA.

**DEAR MARY and BRENDA** — You both might try the following but do be sure to first test anything for its effect on the fabric and color of your clothing. Sponge with water and then with white vinegar. Rinse well and wash. Washable fabrics might be soaked in warm water. Lighter fluid is also a possibility but handle with care. Lacquer thinner will often do this job but again be careful to be away from a flame. — POLLY.

**DEAR POLLY** — When cleaning the bathtub and the tile around the tub use a flower watering can with a small spout (preferably plastic) to rinse thoroughly with no splashing. — JOAN F.

**DEAR POLLY** — People are getting fed up hearing excuses for the increase in vandalism. We all realize the problem of finding ways to curb violence is a difficult one. I am sure your blood boils when you hear some supposedly intelligent person putting it all down to a lack of recreational facilities. Does not the parental rearing of children play the major part? When are we going to admit that those who wreck things for want of

something better to do simply are not normal? — ELMER.

**DEAR READERS** — Do remember that Elmer's Pet Peeve expresses HIS opinion and not necessarily ours. — POLLY.

**DEAR POLLY** — I have an answer for Carol N. and others who want to use paper towel cardboard rolls. Cut the entire roll lengthwise, put over the bottom of a coat hanger and tape together again. Of course the roll could be covered with adhesive backed paper if one wishes. These are great for hanging either pants or skirts without getting a crease. — LEE.

**DEAR POLLY** — Carol N.'s small boys might make scissors cases out of paper towel rolls as my father does. He wraps them with scraps of colored yarn going from one end to the other and a length across one open end makes the hanger. This is a decorative answer to the where to keep the scissors problem. Nice for small gifts and favors, too. — DENISE.

**DEAR POLLY** — I solved the problem of keeping my embroidery hoops hung on heavy crewel work such as the satin stitch, by using narrow adhesive bandages loosely wrapped around the hoops. They fill in the bare spaces on the cloth and they have just enough give to keep the cloth in the hoops smooth and tight. — LEILA.

(NEWSPAPER ENTERPRISE ASSN.)

### NEWS NOTES

#### LARGE COCAINE HAUL

The U.S. Customs agents confiscated 170 pounds of cocaine after it was unloaded through a porthole of the boat that had come from Colombia. The smugglers were not apprehended.

**ROME** — The Christian Democrats have beaten back a strong Communist election bid to gain power in this NATO country and maintained their dominant position in Italian politics.

### Recyclable Is Not Recycled

**NEW YORK (AP)** — Is "recyclable" a synonym for "recycled"? No, says the National Association of Recycling Industries (NARI), warning the public to beware of being misled by shopping bags, containers, packaging and other paper materials that bear logos and slogans implying that they have been made from recycled fibers when they actually have not.

M.J. Mighdoll, NARI's executive vice president, says there has been an increase in recent years in the misuse and misdirection of symbols connoting recycling and such messages as "This is Recyclable."

Another way some firms confuse the recycling issue, the association claims, is to use such slogans as "Recycle This Paper" or similar phrases. Others, NARI says, actually misrepresent the recyclability of a product, implying that it can be recycled when it cannot.

"An item may be recyclable, but that does not mean it has been made from recycled materials," says Mighdoll. To genuinely serve the public interest in conserving natural resources and improving environmental management, NARI believes manufacturers should use maximum amounts of recycled materials in their products, he adds.

Many companies are striving to maximize recycled fiber content in their products and they legitimately use the recycling identification, Mighdoll says. Over 40, he points out, now subscribe to the "NARI Consumer Identification Program" by utilizing a symbol indicating that they use significant amounts of recycled materials in accordance with the association's criteria. In many cases, the symbol is accompanied by a line indicating the percentage of recycled fiber actually contained in the product.

### TV tips

#### SOLID STATE

Which is better? A TV with tubes or one that's "solid state?" The experts at General Electric would like you to understand the differences so you can make an intelligent choice when you're in the market for a new set.

**YOU'RE IN SOLID**—When you choose advanced TV technology of Solid State.

1. Solid state means that transistors are used instead of tubes. A major advantage of transistors is that they "build up" less heat than tubes. With less heat build up and no filaments they don't burn out as readily.

2. Solid state TV conserves energy. In fact, some 100% solid state television sets use about half as much electricity as comparable tube type color TV sets.

3. For easy service, many of the newer solid state sets are designed with plug-in modules. The modular design simplifies in-home diagnosis and repair and reduces the need for shop service.

4. The newest solid state TV's will probably not be outdated for a long time. Coupled with other technological features, they should represent the standard for many years.

# Karen Quinlan Remains 'Stable' After Removal Of Life Supports

BY CHERYL MORRISON  
Associated Press Writer

MORRIS PLAINS, N.J. (AP) — Karen Anne Quinlan couldn't survive without a respirator, said the physicians who testified last fall at her "death with dignity" trial, but five weeks after the machine was disconnected she was still holding her own.

"She remains stable," Stephen Hansbury, assistant administrator of the Morris View Nursing Home, said Tuesday. "There has been no change in her condition."

The comatose Miss Quinlan was transferred to the county-operated facility June 9 from St. Clare's Hospital in nearby Denville, where she was admitted April 15, 1975, suffering from the effects of tranquilizers and liquor.

Doctors put her on the respirator almost immediately

when her breathing began to fail.

Miss Quinlan's appearance has been variously described during the past year.

At the week-long trial last October, physicians described her as contorted, emaciated and in a chronic and vegetative state. One neurologist said she "too grotesque to be described."

But people who have seen her recently say she looks much like a normal 22-year-old woman except for tubes running into her nose and throat for feeding and removing wastes.

Her parents, Joseph and Julia Quinlan, first asked doctors to disconnect the respirator last July 31 and, when they refused, asked a judge of the Superior Court to order it turned off.

Physicians said at the trial that Miss Quinlan would be unable to breathe for more than a few minutes without the

machine, but doctors also agreed that she was not dead by any accepted medical criteria.

Judge Robert Muir denied the family's request, saying, "There is no constitutional right to die that can be asserted by a parent for his incompetent child."

The New Jersey Supreme Court on March 31 disagreed and authorized Joseph Quinlan, as his daughter's guardian, to discontinue medical treatment.

Withdrawal from the machine was gradual, and not until May 23 was she breathing completely on her own.

Hansbury gave no details of Miss Quinlan's care at the modern, brick nursing home except that she was not

receiving supplemental oxygen. Little information is available on the current costs of Miss Quinlan's care. Before her transfer to the nursing home, she occupied an intensive care hospital room costing \$435 per day.

Medicaid picked up most of that bill, and officials at St. Clare's Hospital said they absorbed the rest. Miss Quinlan's two treating physicians never submitted a bill.

Doctors have said recently that although she may be stronger physically, her prognosis remains unchanged. The front of her brain, which controls "cognitive functions" such as thinking, will never recover, they say.

## Vegetables in Heavy Supply

Fresh vegetables in "heavy supply"—some with lower prices than a year ago—are in Texas grocery stores, and they make the "best buys" currently in produce departments, Mrs. Gwendolyn Clyatt says.

Among them are cabbage, carrots, green peppers, corn and cucumbers, along with yellow squash and potatoes.

Another "good choice" is dry yellow onions.

"Consumers can expect price decreases on Southern varieties of peas—and on okra—as supplies increase," she said.

Mrs. Clyatt is a consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

"Watermelons continue in good supply and quality, but present prices probably will remain until after July 4th."

"Honeydew melons are not as plentiful—due to a hail in the Rio Grande Valley earlier in June."

"Texas cantaloupe are plentiful, mostly in small size."

Soft, summer fruit is increasing in supply, and prices are more attractive. Items in particular are peaches, plums, grapes, nectarines and cherries.

At meat counters, consumers can find forequarter cuts reasonably priced, the specialist said. She cited warmer weather accompanied by less consumer demand as one reason for lower prices on those cuts, "making chuck cuts economical buys."

Cuts she termed "moderate to economical" in price are a few of the quick-cooking beef steaks, ground beef and liver.

"Pork prices remain high—with Boston butt roasts and smoked picnics generally the best value."

"By carefully comparing prices, good values can be found on quarter-loins cut into chops, semi-boneless hams, bacon, roll sausage and liver."

Fryer chicken prices remain about the same "with very good values offered," the specialist said.

### Completing Parade Entry

Mrs. Bud Kelley, left, donated her time to paint the sign shown here which will be used by the Association of the "W's" in the July 3rd Bicentennial Parade. Also pictured is Mrs. Dennis Farley, Vice President of the group. The association of the "W's" [Women Who Want to be Women] is a non-profit voluntary educational corporation officially chartered under Texas Laws.

### Welfare Services Project Due

A pilot project to identify and measure benefits of direct-welfare services will be undertaken in Region 01 of the State Department of Public Welfare this fall, according to Nathan C. Martin, regional administrator. The project will be funded with a \$20,000 research grant approved by the department's special projects committee, and will be conducted in 40 counties in the Panhandle and South Plains.

The initial grant will cover a three-month study in the area of social services to aged, blind or otherwise disabled persons. If results are promising, the project will continue through the year, expanding into family services, child welfare and other programs in the region, Martin said.

"Very little research has been undertaken anywhere to develop a system of measuring benefits," Martin said. "We can tell you what services we offer, how many people we serve, and how much it all costs. But measuring the benefit a client receives from a social service, as related to its cost, is a much more complex matter."

"However, the public wants to know about results. We agree that the public has a right to know that its tax dollars are being spent effectively and efficiently. This project will be a further step toward answering the questions of those who want to know what benefits come from large expenditures for welfare."

### Borrowed Energy

With our energy supplies decreasing increasingly, it will probably be good news to many that scientists have found a way to get some fuels to do double work.

The first, and still favorite fabrics to "take" HTP are those made from 100 per cent polyester yarn because the process prints on top of the fabric and not through it, the dyes executive explains. But textile engineers have also discovered ways to print on other fabrics such as cotton blends, and flax.

What women are finding to love in all this, says Ferracone, besides the stunning colors and patterns of the HTP prints, is the free-wheeling variety of 100 designs to choose from instead of maybe ten.

AMERICAN SCIENTISTS have found ways to derive energy from unusual sources these days.

## Print Designs Have Big Impact

FAIR LAWN, N. J. (?) — What started as a fad of T-shirts several years ago is having a sizzling impact on the fashion industry today. It could change the way you dress, says an expert on fabric dyes who has watched Heat Transfer Printing (HTP) go from Beethoven sweatshirts to haute couture fashion.

With HTP, claims W.J. Ferracone, manufacturers can economically turn out smaller quantities of clothes, featuring an almost limitless array of print designs, with incredible speed.

"They can get a new line on the street in as little as 10 days, where it used to take weeks or months working with conventional techniques," says Ferracone, vice president of Crompton & Knowles Corp., a manufacturer of dyes used for HTP.

And because their inventory doesn't pile up the way it does with the big runs, he adds, they can save money — passing the

saving on to the customer.

"What it all means to the average woman," says Ferracone, "is that she will have an enormous selection of pleasing fabrics, printed with some really astonishing designs."

During the remainder of 1976, the big news is paisleys, florals, plaids, stripes and scenic designs.

Just what is Heat Transfer Printing? Ferracone explains it: "If the term makes you think of pressing transfers onto kids' clothes with an iron, you're right. But it's a very sophisticated process now. Even name designers such as Yves St. Laurent are working with HTP and we're way past the T-shirt image."

This is how it works. Ink containing special dyes prints the design on special paper. The paper is then pressed under very high heat onto the fabric. "That, basically, is all there is to it," says Ferracone, "although special machines, pro-

duction know-how and high quality dyes are necessary."

The biggest use of HTP so far is on women's clothes — both outerwear and innerwear — plus men's sportswear and shirts. But heat transfer printing is also finding its way into nonapparel uses, such as tote bags, upholstery fabrics, draperies and rugs.

The first, and still favorite fabrics to "take" HTP are those made from 100 per cent polyester yarn because the process prints on top of the fabric and not through it, the dyes executive explains. But textile engineers have also discovered ways to print on other fabrics such as cotton blends, and flax.

What women are finding to love in all this, says Ferracone, besides the stunning colors and patterns of the HTP prints, is the free-wheeling variety of 100 designs to choose from instead of maybe ten.

## A 10-minute call to San Francisco doesn't take a lot of dough.

For just \$2.44 or less, you could take down these recipes by Long Distance.

We're printing these recipes to make a point: a Long Distance call lets you say so much, for so little.

In a 10-minute phone call to San Francisco, between 5 p.m. and 11:00 p.m. tonight, you could take down the recipes below. And by dialing 1+, the most you pay is \$2.44, plus tax.

So enjoy a pleasant visit tonight by Long Distance. Whether you call to get a couple recipes... or just to find out what's cookin'.

**1. SOURDOUGH STARTER**

1 package active dry yeast 2½ cups warm water (105° to 115°)	1 cup instant nonfat dry milk 2 tablespoons sugar 4 cups all-purpose flour
--	--

a) Stir yeast, water, dry milk and sugar in 2½-quart crock or non-metallic bowl until yeast is dissolved. Stir in flour gradually until a smooth batter forms. Let stand loosely covered in warm place, 3 to 5 days. Stir down batter occasionally. Store loosely covered in refrigerator.

b) Replace exact amount of starter used for each recipe by stirring equal amounts of homogenized milk and flour back into starter. (For example, replace 1 cup starter with ½ cup homogenized milk and ½ cup flour.) Let starter loosely covered until it bubbles, overnight or longer. Each time this process is repeated, the starter becomes more active and develops a more soulish character. Note: If stored as much as two to three weeks between usings, just pour off the watery layer on top and replace following procedure in (b).

**2. SOURDOUGH BREAD STICKS**

1 cup instant nonfat dry milk 1 cup warm water (105° to 115°)	2 teaspoons salt 2 teaspoons sugar ½ teaspoon baking soda ½ to 1 cup all-purpose flour ¼ cup butter or margarine, melted
---	--

a) Mix dry milk, water, Sourdough Starter and 2 cups flour in non-metallic bowl; cover loosely. Let stand in warm place until mixture is coarse and bubbly, at least 8 hours.

b) Mix oil, salt, sugar and baking soda into sourdough mixture. Stir in enough of the remaining flour to make dough easy to handle. Knead dough lightly on well-floured board, about 2 minutes.

c) Roll dough into rectangle, 15 x 10 inches, on well-floured board. Cut into fifteen 1-inch strips. Roll each strip into egg-roll strand about 14 inches long. Double strand over and bend to form bread stick. Place bread sticks on greased baking sheet. Brush with melted butter. Cover with plastic wrap. Let rise in warm place until double, 1 to 1½ hours.

d) Heat oven to 375°. Bake bread sticks until golden brown, 30 to 35 minutes. Makes 15.

### Government Agency, OSHA Recommends Restrooms In The Fields For Farmers

—News Item

## Cattle Plasma Could Ease Protein Shortage

A Texas Agricultural Experiment Station scientist has developed a food grade protein from the plasma of cattle blood.

Its use offers great promise in controlling such things as juiciness, tenderness and firmness in ground meat products. It also might help lessen food protein shortage in some areas of the world.

The developer, Dr. C.W. Dill of the Texas A&M University Animal Science Department, said the world in recent years has become acutely aware of the shortage of food proteins. The National Science Foundation has studied the situation and believes the eventual solution must be some form of population control.

"Most of us accept that premise. In the meantime, we must do what we can to meet the world's protein needs at this, or any particular moment," Dill said.

The world cannot afford to waste edible proteins, he said. Yet, there probably is no animal protein so poorly utilized as blood protein.

There were periods when large amounts of blood were completely discarded, but those times are gone because of regulations and restrictions, the Experiment Station researcher explained. Some of the by-product is now used in feeds and fertilizers, but profits probably are marginal. What is required, then, is to move the blood from the slaughter house into profitable channels where it will be in demand because there is a need.

Dill said a foodstuff must be recognizable as a food by the person who needs it. As a corollary, industry is reluctant to use a new product simply because it is available and offers no real advantages.

"A new product must offer outstanding advantages, and the economics of its use, must be strongly compelling. Blood plasma protein goes a long way on both counts," he pointed out.

The plasma fraction developed by the Texas Agricultural Experiment Station has proven to be an excellent binder in ground meat products. It produces a closer-knit structure and improves juiciness of the cooked product.

Use of plasma proteins in meats is fairly common in Europe, Dill said. Research has shown that addition of 1 to 2 per cent of dried plasma to a raw hamburger mix produces very good binding properties. The effect is so marked that blast-frozen hamburgers can be

fried with no breakdown in structure or excessive shrinkage.

He said the studies also have shown that cooking loss in meat cubes can be reduced by 29.5 per cent by soaking the meat 30 minutes in a 10 per cent plasma protein solution before cooking.

Dill emphasized, however, that much research remains to be done to bring blood plasma protein to its full use as a food-

## Amarillo Livestock Dealer Suspended

James T. Harmon, operator of Harmon Cattle Co., Amarillo, Tex., has been suspended as a registered livestock dealer for violating bonding requirements of the Packers and Stockyards Act, the U.S. Department of Agriculture (USDA) said today.

### Fruit, Pecan Publication Available Free

AUSTIN—Texas ranked among the top five states in production of pecans, grapefruit and oranges, according to figures in the recently published 1975 Texas Fruit and Pecan Statistics book.

The book contains information on production, value and seasonal movement of Texas citrus, pecans and peaches.

The publication is available free by writing Commissioner John C. White, Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711.

### BEEF PRICES DROP

DENVER—The price of beef in supermarkets across the nation was down sharply this month from a year ago, shoppers were even saving a few pennies from what they paid in May, the American National Cattleman's Association said.

Harmon purchases livestock throughout the Texas Panhandle, western Oklahoma, and eastern New Mexico.

Harmon consented to issuance of the order and waived oral hearing. He neither admitted nor denied the charges in an administrative complaint filed by USDA's Packers and Stockyards Administration.

Administrative Law Judge John A. Campbell suspended Harmon's registration until he complies fully with bonding requirements under the Packers and Stockyards (P&S) Act. He may not operate as a market agency or as a dealer during that time.

Harmon was also ordered to cease and desist from operating as a market agency or dealer without filing and maintaining a reasonable bond. The order—like a permanent injunction—was issued to insure future compliance with the P&S Act.

Dealers and market agencies are required—under the P&S Act—to maintain a reasonable bond as a measure of financial protection for the sellers of livestock.

The P&S Act is a fair trade practices law. It promotes and maintains fair and open competition in the marketing of livestock, poultry and meat.

The record in this case is open

to the public. Copies of the order, P&S Docket 5291, may be obtained from the Information Office, Packers and Stockyards Administration, USDA, Washington, D.C. 20250.

## Depletion Research Vital

Ground water depletion—widespread throughout the Great Plains—is an overriding problem in efficient resource utilization, according to Dr. Jack Runkles, water research scientist and director of the Texas Water Resources Institute.

"It's vitally important,"

stressed Runkles, "to initiate research on problems like these and the land subsidence situation along the Gulf Coast." He also is a water resources scientist with the Texas Agricultural Experiment Station.

The Water Resources Insti-

tute is a statewide research agency established in 1964 by the Water Resources Research Act.

"In the last 18 months," explained Runkles, "we have developed the National Association of Water Institute Directors (NAWID), in an attempt to align state institutes with the National Association of Land Grant Colleges."

NAWID's council of representatives, of which Runkles is a member representing the Southern Plains region, includes directors from Texas, New Mexico, Arkansas, Louisiana and Oklahoma.

The national association began formulating regional participation as a basis for solving problems a year and a half ago. Previously, state institute programs were conducted individually under the auspices of the U.S. Department of the Interior.

"Our primary goal," said Runkles, "is to improve the effectiveness of water resources research programs on a national basis."

One outgrowth of NAWID's activities is the national newsletter, "Water Research in Action", started in May of this year to reflect accomplishments of the institute network. A local counterpart, the "Texas Water Resources" newsletter, has been in publication 19 months.

## Ag Credit Still Rated Good In Texas

Agricultural producers in need of financing have a fairly good chance of getting a loan.

"There is plenty of money for agricultural loans, and a majority of lenders are actively seeking new farm and ranch loans. Furthermore, interest rates are down," says Dr. Wayne Hayenga, who conducted an agricultural credit survey recently in Texas.

Hayenga, an economist for the Texas Agricultural Extension Service, points out that more than 60 per cent of the 161 agricultural lenders responding to the survey said they are serving the same number of customers and have the same number of loan applicants as they did a year ago. Twenty per cent said they had more customers.

"Most of the people borrowing money are paying it back at about the same rate as last year," Hayenga says. "Twenty-three per cent of the lenders even reported a higher rate of loan repayment."

However, more bankers are

requiring good financial records from borrowers before they loan money. Lenders reported that more than 60 per cent of all borrowers furnished cash flow budgets, operating budgets and past income statements when applying for a loan. Last year, only 50 per cent of the borrowers supplied these records.

Most of the banks in Texas have the same collateral requirements as they did a year ago, according to the survey.

"One advantage for people who borrowed money during the past year was the lower interest rates," says the Texas A&M University System specialist.

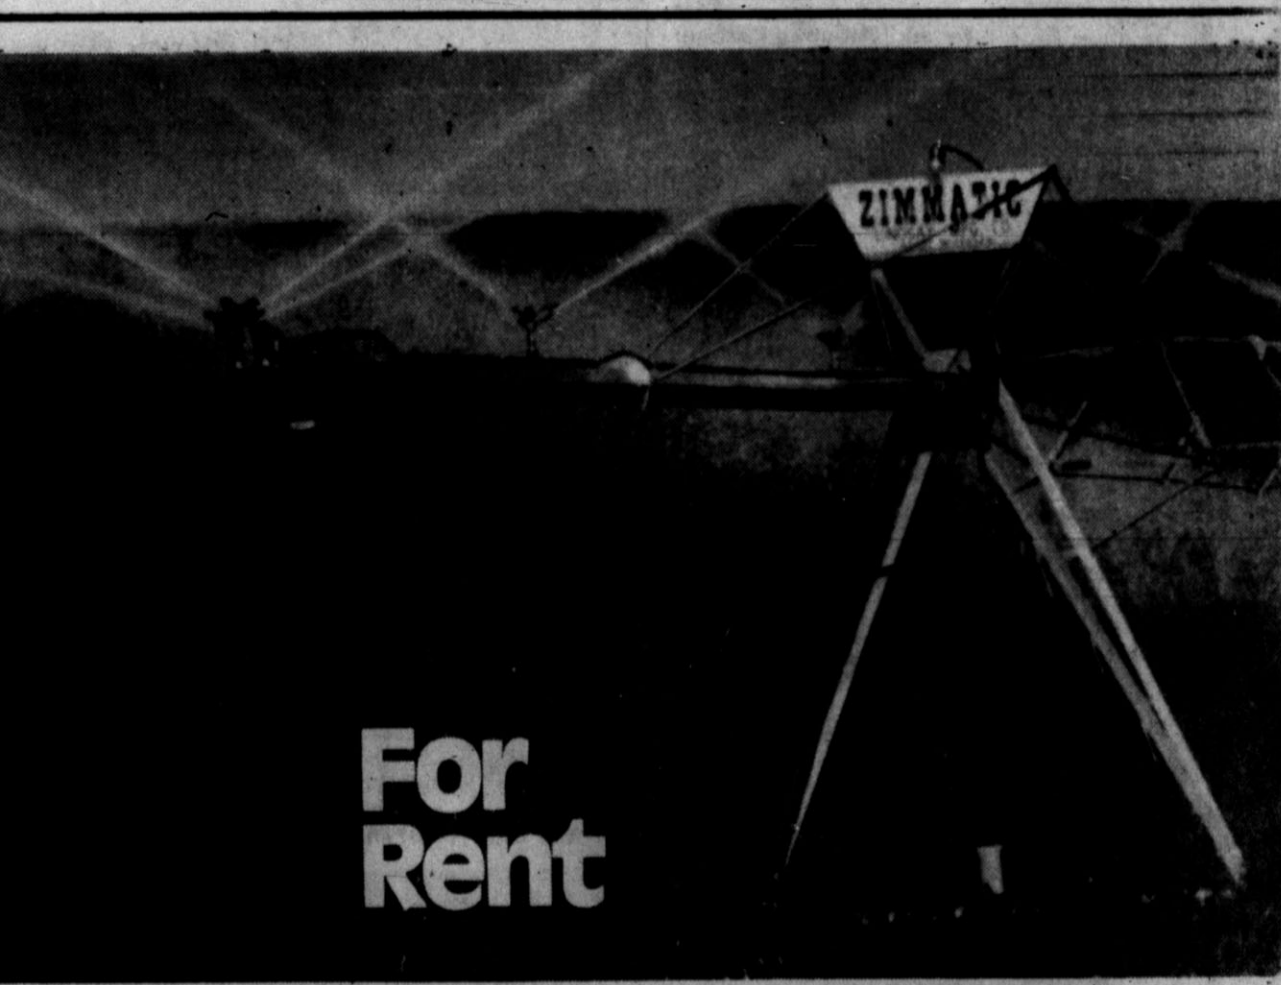

"Interest rates for feeder cattle loans, real estate loans, and farm and ranch operating loans were all down slightly from 1975."

According to the survey, most lenders said they thought interest rates would stay the same but had more chance of going up than down.

**For Rent**

You're doing without a Zimmatic center pivot. Saving your hard-earned capital for other improvements. Don't want to borrow right now. But it's costing you money every year you wait. Two ways. First, you're losing the extra crop production you get under irrigation. Second, inflation is at work. Boosting prices, dropping the value of your dollars. Why not rent a Zimmatic under our new lease plan? Let the system pay for itself and put some extra money in the bank for you at the same time. Our rates are reasonable. You can include freight, installation, pump...

other "above ground" items in one flexible package, tailored to your needs. Why wait to irrigate? It's just costing you money. Call us today for details on our new lease plan.

 HEREFORD-DIMMITT-FRIONA

There have been dramatic changes in agriculture during the last 60 years... new machines, new crops, new methods. But the real production miracle is still the American farmer or rancher himself—one dedicated individual with a willingness to take chances with success or failure. We are proud that when a man of this caliber needs long-term credit, he looks to his Federal Land Bank Association.

American agriculture's real strength has always been the man and the land.

## 14. CARD OF THANKS

CARD OF THANKS We wish to express our appreciation to those who shared with us during the illness and death of our loved one. Thank you for your many expressions of sympathy. Love in Christ The Grady Parsons Family

## CARD OF THANKS

As the wife, sons and mothers of the late J.D. Poarch, we wish to express deep appreciation for all the kind acts shown to us during our time of sorrow. Thank you for the visits, prayers, cards, flowers and the out of town Niends that were so thoughtful. Special thanks to Rev. B.L. Davis for the comforting words and to Gilliland-Watson Funeral Home for their kindness shown. And to the women from the First Baptist Church who prepared the food and special thanks to the ones who served. Mary Catherine Poarch Jerry Don poarch & Family Craig Poarch ? Family Randy and Debbie Poarch Doug & Cathy Poarch Kim & Joan Poarch Mary Poarch & Families Mr. & Mrs. V.H. (Hoot) Poarch & Families.

## NOTICE TO CONTRACTORS

Sealed bids addressed to the City of Hereford, Texas, will be received at the City Hall, Hereford, until 2:00 p.m., July 19, 1976, and then publicly opened and read for furnishing all plant, labor, material and equipment, and performing all work required for heat, scarify and 1 1/2" hot-mix overlay on 4,400 lineal feet of runway, parallel taxiway and apron, 1,000 lineal feet of new runway and taxiway paving, VASI lighting, fencing and miscellaneous items at the Hereford Municipal Airport located east of the city.

Bids shall be submitted in sealed envelopes upon the blank form of the proposal attached hereto and marked in the upper left hand corner. All proposals shall be accompanied by a cashier's check or certified check upon a national or state bank in the amount of five (5 percent) of the total maximum bid price payable without recourse to the City or a bid bond in the same amount from a reliable surety company, as a guarantee that bidder will enter into a contract and execute performance bond within ten days after notice of award of contract to him. The bid security must be enclosed in the same envelope with the bid. Bids without check or bid bond will not be considered.

The successful bidder must furnish performance and payment bonds upon the forms which are attached hereto, each the amount of 100 percent of the contract price from an approved surety company holding a permit from the State of Texas to act as surety or other surety or sureties acceptable to the Owner.

The right is reserved to reject any and all bids and to waive any informality in bids received. Plans, specifications and bidding documents may be secured from the office of the City Manager, or at the office of Bill R. McMorries & Associates, Inc., 6300 Canyon Dr., Amarillo, Texas 79109, on deposit of Twenty-five (\$25.00) Dollars per set which sum so deposited will be refunded, provided: (1) All documents are returned in good condition to Bill R. McMorries & Associates, Inc. not later than 48 hours prior to the time for receiving bids; or (2) The Contractor submits a bid and all documents are returned in good condition to Bill R. McMorries & Associates, Inc. not later than five days after the time that bids are received.

CITY OF HEREFORD, TEXAS By: James H. Sears, Mayor T-51-2c

## NOTICE TO CONTRACTORS

Sealed bids addressed to the City of Hereford, Texas, will be received at the City Hall until 2:00 p.m., July 19, 1976 and then publicly opened and read for furnishing all plant, labor, material and equipment, and performing all work required for drilling and equipping one water well. All proposals shall be accompanied by a cashier's check or certified check upon a national or state bank in the amount of five (5 percent) of the total maximum bid price payable without recourse to the City or a bid bond in the same amount from a reliable surety company, as a guarantee that bidder will enter into a contract and execute performance bond within ten days after notice of award of contract to him. The bid security must be enclosed in the same envelope with the bid. Bids without check or bid bond will not be considered. The successful bidder must furnish performance and payment bonds upon the forms which are attached hereto in the amount of 100 percent of the contract price from an approved

## VOTE FOR YOUR FAVORITE FLOWER! Help America Pick an Official National Flower

The U.S. does not have an Official National Flower. To correct this, FTD Florists are conducting a Bicentennial Flower Election during July '76. So you can vote for your floral favorites. Results will be presented to Congress, which must act to name a national flower. To vote, just visit our show during July. Everyone is eligible and no purchase is necessary.

FLOWER'S WEST Park Plaza Center 364-6452
