"50% of all motor wear occurs during the starting period"

... say automotive engineers

Measuring cylinder wear with a precision gauge accurate to a hundred-thousandth of an inch!

*Motorists who know these facts will save money:

Motor oils refined by the usual methods have some oiliness and film strength, but they may form carbon and sludge, which lead to expensive motor repairs. Other oils may form almost no carbon and sludge, but are so over-refined that they are robbed of oiliness and film strength they need to prevent motor wear. Germ Processed Oil is refined to eliminate carbon and sludge troubles and then the Germ Process adds extra oiliness and 2 to 4 times more film strength than any straight mineral oil, as tests on the Timken machine have proved.

• Only the oil with the "Hidden Quart" will stay up in your motor and cut down this starting wear!

Here are the facts: Oils not Germ Processed drain back into the crankcase when your motor is idle. Bearings, pistons and cylinders are dry when you start. Even in warm weather your motor makes at least a thousand revolutions before the quickest flowing oil can reach all parts. Bare metal grinds against bare metal—destructive wear occurs. Conoco Germ Processed Oil cuts down this costly starting wear! The patented Germ Process—adding concentrated oily essence to highly refined oil—makes it penetrate and combine with metal surfaces. That penetrative film, forming the "Hidden Quart", becomes part of the metal itself and never drains away. Hundreds of dry-crankcase runs have proved the "Hidden Quart"

lubricating value. Cars using Germ Processed Oil were driven 15 to 75 miles with the crankcase empty but without motor damage! Germ Processed Oil protects your motor another way. All cars built since 1931 have greatly increased pressures and must have oil of extra high film strength for safe lubrication. Straight mineral oils have no more film strength than they had 10 years ago—some have less! Conoco Germ Processed Oil, with 2 to 4 times the film strength of mineral oils, gives modern motors the lubrication they need. Only Conoco Germ Processed Oil gives full motor protection—when you start, while you drive. You will cut motor wear if you use it!

HOUSE JOINT RESOLUTION

proposing an Amendment to Section 15, of Article I, of the Constitution of Texas, and providing that the Legislature may authorize the temporary commitment of mentally ill persons, not charged with a criminal offense, for treatment and/or observation without the necessity of a trial by jury.
BE IT RESOLVED BY THE

A LONG TIME AGO IN HEREFORD

(From The Hereford Brand, June 17, 1904.)

Finis Blair and two young ladies had been forced to walk to town most of the distance from Boom when the horse they were driving ran away after the buggy struck a phone pole. The horse was found next morning in a dying condition.

C. S. Richards and D. E. Weaver of the Peoples' Grocery Company had dissolved partnership.

A rather wild horse had kicked Claud Norton, breaking his left arm.

F. L. Vanderburgh announced that he had sold his interest in the Brand to Charles B. Googer and T. S. Barnett. J. Ray remained as a member of the firm.

Another good rain had fallen.

Allen Bell was up and about again after an attack of slow

fever. J. A. Fox was still "down" with the malady.

A. H. Elliston had gone to Collin county to dispose of property there. He was willing, after three years, to risk what he owned in the way of property in the Panhandle.

A story on the back page announced that F. L. Vanderburgh had been named editor of a new paper in Amarillo, a combination of two former papers.

(From The Hereford Brand, June 12, 1914.)

Two new irrigation wells had been brought in by D. L. McDonald. One was nine miles northeast of Hereford and carried water at 46 feet. Water was found in abundance at 39 feet in the other, seven miles northeast.

W. B. Dameron was in Oklahoma on business.

J. H. Williams had made a

tractor out of an old Buick, to do the first power farming in this area.

Editorial: "That great body of water in the heart of the town has been called a number of names either from purely sentimental or business point of view. But now since the water level has fallen so low as to show the tails of the tillion tad poles therein, a more suitable name could not be found than Tad Pole Lake."

Item: "J. T. Jowell, who took the scholastic census for the Hereford Independent District, reports 409 enrolled for the year 1914."

An epidemic of new Fords had hit Hereford. Among the owners were W. S. Higgins, H. G. Conkwright, W. I. Valentine, Lan Shore, D. R. Gass and Oscar Shore. John Fuqua got high toned and bought a Metz.

I. H. Spratt had gone to work for the Gass store.

LEGISLATURE OF THE STATE OF TEXAS:

"Sec. 15. The right of trial by jury shall remain inviolate. The Legislature shall pass such laws as may be needed to regulate the same, and to maintain its purity and efficiency. Provided, that the Legislature may provide for the temporary commitment, for observation and/or treatment, of mentally ill persons not charged with a criminal offense, for a period of time not to exceed ninety (90) days, by order of the County Court without the necessity of a trial by jury."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified electors of the State, qualified to vote on the Constitutional Amendments, at an election to be held throughout the State on the 4th Saturday of August, A. D. 1935, at which election each ballot shall have printed thereon the words:

"For the Amendment of Article I, Section 15, of the State Constitution by adding to said Section a provision to the effect that the Legislature may provide for the temporary commitment of mentally ill persons not charged with a criminal offense by the County Court without the necessity of a jury trial."

"Against the Amendment of Article I, Section 15, of the Constitution by adding to said section a provision to the effect that the Legislature may provide for the temporary commitment of mentally ill persons not charged with a criminal offense by the County Court without the necessity of a jury trial."

Each voter shall scratch out with pen or pencil the clause which he desires to vote against so as to indicate whether he is voting for or against the proposed Amendment.

Sec. 3. The Governor of this State is hereby directed to issue the necessary proclamation for said

election, and have the same published as required by the Constitution and laws of the State of Texas.

GOLD DIGGERS OF 1935
COMING TO STAR THEATRE

"Gold Diggers of 1935." First National's latest mammoth musical spectacle, opens at the Star Theatre midnight preview Saturday night and shows through Sunday, Monday and Tuesday.

The picture is said to carry more unique and unusual numbers, greater song hits and more hilarious fun than any other musical produced by this company. The story by Robert Lord and Peter Milne is a rollicking comedy with three separate love tangles. There is a play within the play, a wealthy widow producing a milk fund show at a swanky summer hotel.

Dick Powell and Gloria Stuart have the romantic leads, with Frank McHugh and Dorothy Dare in a semi-comic love affair and Glenda Farrell taking an eccentric millionaire over the jumps. Alice Brady has the role of a rich widow who is bilked of a considerable fortune by a theatrical producer, a part-play-

"NO SUCH ANIMAL"

Some folks are so accustomed to expect the worst that they are actually loath to believe something good in store for them. One landowner hunted up this writer and wanted to know who had told us about the Mollie Low well making a good showing. When told that we had seen it ourselves, he left shaking his head. We suppose if he had been at the well he would not have believed his own eyes.

ed by Adolphe Menjou, Joseph Cawthon in the role of a scenic and costume artist and the hotel manager, Grant Mitchell.

Winifred Shaw, the former musical comedy stage star, sings in the show. Dick Powell also sings catchy airs which were written by the famous song team of Warren and Dubin.

In addition to the regular cast, Ramon and Rosita, dancers, and 300 beautiful girls appear in the dance numbers.

ELECTRICITY

There are only 320,000 people in this country who use electricity for all power in their homes. Only 1,000,000 use power for cooking, 5,000,000 for refrigeration, and 13,000,000 homes have electric lights.

The Federal power commission has dug up this data to push the agitation for cheaper electrical rates. It is furnishing strong inspiration on the inside for fulfillment of the Roosevelt power policy. The new dealers believe it shows that the field is wide open for vast expansion in the use of electricity by cheapening it.

Want New Shop.

Instead of taking two class rooms in the present building and fitting them for permanent dressing rooms, officials believe it would be more economical to convert the present shop into dressing rooms and build a new shop across the north end of the building.

It would then be possible to enter the gymnasium directly from the dressing rooms and much noise and confusion in passing from and through the halls would be eliminated.

It would also be possible to use the gymnasium and dressing rooms without opening the main part of the building as at present. This arrangement would also provide overflow dressing room space for large groups of the smaller children who cannot get into the small stage dressing rooms when their grades give a program in the auditorium as was recently done.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article XVI of the Constitution of Texas be amended by striking out Section 20a to Section 20e, both inclusive, and substitute in lieu thereof the following:

"ARTICLE XVI, Section 20.

(a) The open saloon shall be and is hereby prohibited. The Legislature shall have the power, and it shall be its duty to define the term 'open saloon' and enact laws against such.

Subject to the foregoing, the Legislature shall have the power to regulate the manufacture, sale, possession and transportation of intoxicating liquors, including the power to establish a State Monopoly on the sale of distilled liquors.

(b) The Legislature shall enact a law or laws whereby the qualified voters of any county, justice's precinct or incorporated town or city, may, by a majority vote of those voting, determine from time to time whether the sale of intoxicating liquors for beverage purposes shall be prohibited or legalized within the prescribed limits; and such laws shall contain provisions for voting on the sale of intoxicating liquors of various types and various alcoholic content.

(c) In all counties, justice's precincts or incorporated towns or cities wherein the sale of intoxicating liquors had been prohibited by local option elections held under the laws of the State of Texas and in force at the time of the taking effect of Section 20, Article XVI of the Constitution of Texas, it shall continue to be unlawful to manufacture, sell, barter or ex-

change in any such county, justice's precinct or incorporated town or city, any spirituous, vinous or malt liquors or medicated bitters capable of producing intoxication or any other intoxicants whatsoever, for beverage purposes, unless and until a majority of the qualified voters in such county or political subdivision thereof voting in an election held for such purpose shall determine such to be lawful; provided that this subsection shall not prohibit the sale of alcoholic beverages containing not more than 3.2 per cent alcohol by weight in cities, counties or political subdivisions thereof in which the qualified voters have voted to legalize such sale under the provisions of Chapter 116, Acts of the Regular Session of the 43d Legislature."

Section 2. Such proposed Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at a special election to be held throughout the State of Texas, on the fourth Saturday in August, 1935, at which election all voters favoring said proposed Amendment, shall write, or have printed on their ballots the words:

"FOR the amendment to the
