Just a hint to anybody thinking of entering that Chamber of Commerce "what to do and how to do it" contest: Start off with some constructive suggestions about what to do with the bumper crop of dandelions adorning the courthouse lawn (and plenty of other places in town). Seriously, anything that grows as well as dandelions ought to be turned into the "big money crop" of this area.

The fishing stories get better and better.

This week Mr. and Mrs. Jake Boydston are taking high honors, with a combined catch of eight nice bass. Mr. Boydston caught one that weighed four and one-half pounds.

But getting out of the strictly Tierra Blanca competition, Lyle Blanton went down to the Possum Kingdom Dam last week and came back with a couple of beautiful catfish—weights 18 1-2 and 13 1-2 pounds. Joe Bishop took one look at those fish, puffed up and walked off without even getting the story.

Miles Roberson was showing off a prize ear of corn this week—and Jesse Stanford comes up with the information (which we didn't know till now) that there are always an even number of rows on an ear of corn. Sure enough, that was right—at least about the ear under inspection. But we'd still welcome any theories on why this is so.

The "five o'clock shadow" adorning S. B. McAllen's upper lip is not an accident. In fact, nobody can doubt Mac's seriousness about that mustache after hearing some of the kidding he has had to take from the girls over at the Penney Store.

Rain Measured One Half Inch

Rainfall yesterday afternoon measured .48 of an inch in Hereford and was reported this morning to have been general over the Panhandle and South Plains.

Wheat prospects were brightened by the rain yesterday and the prospect of continued wet weather.

Price Ceiling Lists Available to Housewives

Community Price Ceiling lists are available at the OPA office. It was announced this week and any housewives interested in procuring the lists of official ceilings on practically all grocery items may get a list by calling by the ration office or by phoning or writing the local office, where clerks will be glad to mail out the lists.

WILL CONVINCe BATEMAN

Kelly Gray's Big Guns Levelled at Rivals

Education is a wonderful thing, believes Kelly Gray, and approaching the matter in a calm and reasonable way, he has hit on a way to educate Alex Bateman on prairie dog habits. Kelly is not backing down a bit from his original statement that prairie dogs dig to water, no matter how deep they have to go, and just to prove it, he's going to send some snakes and prairie dogs down to Texas A&M College, let the learned professors observe the little animals, and by the time the water gushers are gushing all over the campus and the faculty have prepared a few monographs on the subject of the life and habits of the prairie dog, Alex Bateman will be a believer. "Because," says Kelly, "everybody knows that Alex believes anything with an A. & M. label." "Naturally," Kelly continues, "I'm not saying that prairie dogs drink as much as a horse,

John B. Honts Announces for Attorney Post

John B. Honts, district attorney, this week, authorized The Brand to announce his candidacy for reelection. In making his announcement, Mr. Honts made the following statement:

"The citizenry as a whole, and the many jurors called for duty in the several district courts of the 69th Judicial District, have been very cooperative with me in administering the office of district attorney. Let me assure you that I appreciate this fine spirit on your part.

"I have tried hard to see that equity and justice was meted out to those coming before the courts for trial. This I shall continue to do so long as you continue me as your district attorney.

"Your advice and counsel is solicited at all times. Thank you for the fine support heretofore given me, and I solicit a continuation of that support.

Sincerely yours,
John B. Honts, District Attorney,
69th Judicial District, of Texas."

Enjoying the surprise entertainment feature of the evening, Friday night at the USO sponsored coronation dance at the recreation hall at the P. O. W. Camp, Hereford girls and their soldier escorts are shown, in the top picture, taking a little time out from the dancing while they thoroughly enjoy the singing of one of the Italian prisoners of war.

The second picture shows Sgt. Jack Walsh placing the crown on the head of May Queen Lilye London, while small Eugenia Knox and Mary Lou Snelson, who took part in the ceremony, look on.

The queen, her attendants and their escorts are pictured, left to right, Miss Troyce Stambaugh, Sgt. Grant Hanna, Miss Seleta Robinson, Cpl. Harold Rhea, Miss Lilye London, Sgt. Jack Walsh, Miss Agnes Albracht and Pvt. Bill McDuffie.

Dairy Payments for March, April Made Now

Payments are now being made on March and April sales of milk and butterfat. It was announced this week at the county AAA office; and dairymen are requested to come in as soon as convenient and submit records of March and April sales.

The rate of payment for the two months is eight cents a pound for butterfat and 60 cents per cwt. for milk.

Revival Meeting To Close Sunday Night

Revival services at the Church of Christ will continue through Sunday. It was announced today by Minister L. H. Andrews who says that the revival has met with marked success.

The public is invited to attend the remaining services in the series and to enjoy the messages of C. C. Morgan, the evangelist.

Plenty Rain This Month And Next—But Look Out For July and August

It's been a little slow getting started, but there will be plenty of rain in May, according to Uncle Andy Thomas, Hereford's official weather prophet, who adds that June, also, is scheduled to be a wet month.

"But look out for July and August," warns Uncle Andy. "They're going to be the two driest months in the year—and that means some sure-enough hot weather."

However, Uncle Andy says that the rains this month and next will just about make the wheat crop; and dry, hot weather will make for a good harvest season.

Anyone interested in finding out the exact dates of forthcoming rains, can find it all checked on Uncle Andy's calendar, which he filled out in December with weather predictions for the entire year of 1944. "So far, I've hit it about 75 per cent of the time," he declares.

Senior Class Plans For Commencement Week

Wheat Loan To Be 85 Percent Of Parity Price

In reply to many inquiries which have been received at the county AAA office in regard to 1944 wheat loans, F. G. Collier, administrative officer, this week repeated the announcement that the loan has been set at 85 per cent of the parity price as of July 1, 1944, and both warehouse and farm storage loans will be available. A specific schedule of loan rates, with differentials for location, grade and quality, will be announced later, Mr. Collier said, adding that the loans will be available until Dec. 31, 1944 and will mature on April 30, 1945 or earlier, upon demand.

Grain Sorghum Loans

Grain sorghum loans also will be available, according to the AAA announcement, which states that non-recourse loans on grain sorghums stored on farms or in the warehouse will be made available to farmers.

The loan rate will be 95 cents (Continued on Page 12)

Intermediates In Charge of Baptist Services Sunday A. M.

The intermediate department of the First Baptist Church will observe Intermediate Day, Sunday morning, with special services in the department and at the morning worship hour. The intermediates are planning the service in honor of their parents and all children and their parents who do not attend church elsewhere are cordially invited to the Baptist services.

Members of the department will make up the choir and have prepared special music for the morning program.

County Students Graduate From Five Hi-Schools

Several Deaf Smith County boys and girls will graduate this month from high schools in other counties. It was revealed today by County Judge Fred W. Baird, who said that the county has graduates at high schools in Canyon, Friona, Vega and Adrian and at Rosedale, N. M.

The graduates are Wanda Grantham, who will complete work at West Texas Demonstration School, Canyon; Wanda Price and Imogene Hobbs, Vega; Glenn Fortenberry, and Wayne Thomas, Adrian; Rosalie Messenger, Friona, and Ruby Welch, Rosedale, N. M.

Grammar School Grades
At Wakecot, only rural school in the county which teaches through the grammar school grades, Earl Bradford and Billy White will complete eighth grade work.

Army Doctors Optimistic For Wilde's Recovery

Pvt. James Wilde, 21-year-old son of Mr. and Mrs. Frank Wilde, is feeling pretty optimistic about his chances of recovery from serious leg wounds received in recent battle action in the South Pacific. "The doctors say that I won't even have a scar on my legs," he writes.

However, the treatment has been painful and will probably have to continue for some time. Wilde now wears casts, from his toes to above his knees; and has had three operations, including some plastic surgery in which sound flesh was grafted to injured parts of his legs.

No Interest In Politics Shown By Conventions

A presidential election year has failed to stir up any political interest in Deaf Smith County. Judging from the lack of interest in precinct and county democratic conventions scheduled to have been held on Saturday and Tuesday of the past week.

According to County Chairman C. C. Acker no one attended precinct conventions on Saturday, no delegates were chosen to the county convention and there was therefore no reason to have a county democratic meeting. "The county convention would have been without authority," Mr. Acker said, "since no delegates were chosen by the precincts."

Commencement activities for the 38 members of the Hereford High School senior class will begin tonight with the annual entertainment of the juniors, with other activities on the program to include a class night, the Baccalaureate service and the graduation.

Ruth Tucker, valedictorian, and G. P. Owen, Jr., salutatorian, were elected as honor representatives by this class out of a group of the five highest-ranking students, judged on a basis of both scholarship, and participation in extra-curricular activities. Other high honor students were Marie Moreman, Edward Young and Kathryn Acker.

Father Albert, pastor of St. Anthony's Catholic Church, will preach the Baccalaureate sermon on the night of the 21st; and the class night program will take place on May 23.

The class has arranged their own commencement service and will have no guest speaker.

The 1944 class, smallest in several years, has sponsored several successful activities during the term and has provided leadership in all phases of high school life.

Ruth Tucker, the valedictorian, is president of Tri-Hi-Y and editor-in-chief of The Whiteface Roundup. She is also president of the Spanish club and a member of the honor society.

Salutatorian G. P. Owen, president of the class, is also a member of the honor society and is president of Hi-Y.

Mrs. O. J. Beene and Miss Kathryn Davies are class sponsors.

Plan Union Prayer Service For "D" Day

As a spiritual preparation for "D" day, members of the Methodist, Christian and Presbyterian churches are planning a union prayer and worship service to be held at 8 o'clock Sunday night at the Methodist Church.

Further announcement concerning a prayer service to be held when the invasion actually starts, will be made at the service Sunday evening.

"The general public—and especially the parents of servicemen, have shown interest in a union prayer service for "D" Day," says Rev. James Algen, Jr., Presbyterian pastor, pointing out that the three cooperating churches invite any interested persons to attend the worship service Sunday night and (Continued on Page 12)

Junior Red Cross Completes Variety of Service Projects

Junior Red Cross work in Hereford and Deaf Smith County is almost finished for the current school year. Mrs. Clyde Cave, chairman of the executive council stated today, in a summary of the work of the local Junior Red Cross chapter whose activities will be ready to start again in August.

Salvage Drive

The fat salvage drive sponsored by the Junior Red Cross has resulted in the collection of \$11 thus far, and the money will be taken up again Monday morning. Sam Hershey has been in charge of collecting the money and Kathryn Acker and Jane Harris have served on a committee to purchase magazines and newspaper subscriptions for the camp hospital and day room.

Though activities of Junior Red Cross will cease for a few months, members urge that housewives continue to salvage fats, which continue to be vitally needed in the war effort.

Other Activities

Other activities of the Junior Red Cross include: The mounting of 348 cartoons and puzzles—which was done by

Central School students under the direction of Mrs. W. C. Hromas.

Students under the sponsorship of Miss Marie Glaspy collected 37 games including jigsaw puzzles, checkers, standard card games and many others—and in addition raised \$18 for the purchase of cards and games.

Students in Mrs. Cave's room have knit an afghan. Both boys and girls have worked at the job, Mrs. Cave said, and every child will have a block in the completed afghan. The work was done during the children's last period and rest period at school and took no time from regular school work.

An outstanding achievement in the high school division of Junior Red Cross is the enrollment of 90 students in a first aid class which is being taught by Miss Madge Lawrence. Each student in the class has prepared a chapter and performed a first aid demonstration, according to the Junior Red Cross report, and four weeks will be devoted to the course.

Do You Remember?

MAY 6, 1904

From the statement of Col. S. T. Howard, candidate for the state legislature: "The school law for the free education of children should be carefully guarded and amended so as to admit all children between the ages of 6 and 21 years. Railroads in Texas should be required to furnish free transportation to all legislators and state officers. . . . A branch of Texas A & M College, located somewhere on the staked plains in this district seems to me a feasible proposition and essential to the best interests of this peculiarly located portion of the state."

John A. Johnson, Groceriesman, advertised: "Our groceries are a sure cure for rheumatism, dyspepsia and all other ills of the body."

Galbreath and Fox advertised 24 collar buttons for five cents—also ladies 25 cent vests at ten cents.

ranch on the banks of the Tierra Blanca, five miles east of Hereford, has succeeded in building a dam across the creek a few hundred yards west from his residence and now has water enough stored to successfully irrigate some 60 or 75 acres.

At a meeting on Saturday last the following teachers were elected to instruct the youth of our town during the sessions of 1904-05:

D. W. Hawkins, principal; Miss Millie Griffith, assistant principal; Miss Kathrine Nunneley, 6th and 7th grades; Miss Alma Bates, part of the 4th and 5th grades; Miss Pearl Turrentine, 3rd and 4th grades; and Miss Mina Dameron, who will have charge of the primary department.

In the funniest political convention ever held in any man's county, presided over by the county chairman and participated in by just two men, Deaf Smith County's two votes in the state democratic convention to be held at Waco, May 27, were instructed for McAdoo for president, and the delegates ordered to support McAdoo in the national convention.

Owen P. Smith made the motion, Owen P. Smith seconded the motion, Owen P. Smith carried the motion with his ten votes against Carl Cockrell's four.

Capt. Lowell Yerex and Lt. Robert H. Gray, both famous British "aces," piloted two huge Liberty motor planes over Hereford Wednesday and Thursday and took up many local people for their first ride in the air. The airmen arranged a landing place on the Smith farm south of town and great crowds of people thronged the grounds on both days.

The 60,000 acre Landergin Ranch, lying partly in Deaf Smith county, partly in Oldham county and partly in New Mexico, is going on the market at once to bona fide settlers in small tracts.

Ice prices were 90 cents per hundred pounds, 25 pounds or less at one cent a pound.

A badly needed civic improvement this week is the laying of additional sidewalk in front of the places of business of the Williams Bros. Grocery and the City Drug Store. . . . There has been an unpaved gap in these sidewalks for years, ever since the pavement was first put down in fact.

SONS In the Service

Geatz at Rest Camp

Cpl. Donald Geatz, who has been in action against the Japs in the Admiralty Islands, is now in a rest camp, according to a recent letter received by his wife, Mrs. Lena V. Geatz.

Donald writes: "We have been pretty busy for the past two months and no one was ashamed to say he was scared or that he prayed; but after awhile it got to be like hunting rabbits—only rabbits don't shoot back."

Donald has been advanced to corporal since arriving overseas.

Ambition Achieved Dunlap Drives Jeep

Dean Dunlap always said he wanted to own a jeep sometime after the war—but he may be cured of his ambition before hostilities cease, for he is now driving a jeep—in addition to his duties as company clerk—at his base in England.

Returns to Idaho

Alfred A. Reinart, S 2-c, has returned to the Naval Training Base at Farragut, Ida., after spending a 15 day leave here with his parents, Mr. and Mrs. Joe Reinart, and family.

Seaman Reinart has three brothers in the armed services. They are Staff Sgt. Arhart H. Reinart, who is stationed at the Yuma (Ariz.) Army Air Base; Cpl. Elmer F. Reinart at the army air base at Herington, Kans., and Pvt. Esidor N. Reinart, who is with the Quartermaster Corps at Antigua, British West Indies.

Receives Discharge

Sgt. Ben Miller, who has been stationed at the Hereford P. O. W. Camp, recently received his medical discharge from the army. Sgt. Miller, who had been in service for three years, was at the army hospital in Santa Fe, N. M., when his discharge papers came through. His home is in Allred, Tex.

Takes Basic Training

Aviation Cadet Richard A. Petersen, son of Mr. and Mrs. A. Petersen, has reported to the AAF Basic Flying School at Courtland.

At Courtland he will learn the stage of his flight training.

His course of instruction will include instrument flying, night soloing and a thorough study and application of aerial navigation.

Gas Railroad Job

Pfc. Robert G. Curtis of Hereford is one of the army "Casey Joneses" who is doing a big job to lick the transportation problem in the Mediterranean war theatre according to a recent news story from Allied Force Headquarters, describing the activities of the 759th Railway Operation Battalion, of which Pvt. Curtis is a member.

A year ago the 759th., mostly veteran railroad men, came to North Africa after completing their army training at Camp Claiborne, La. During the Tunisian campaign, they wore steel helmets over their engineer's caps. Pistols and carbines had equal stature with oil cans and coal shovels and trains were run in blackout conditions as war supplies and troops were rushed to the front—with train crews ever certain that enemy paratroopers had not blown up the next bridge or tunnel.

Now with the enemy gone from the immediate area, tremendous problems still exist. In one 50-mile stretch there are 20 tunnels, one of them two miles long and horseshoe-shaped. While 2.2 per cent grades over the Rocky Mountains are the usual maximum on American railroad lines, these soldier railroads have several 2.5 per cent grades along their 300-mile run. Impurities in the water mean that firemen usually must work like fiends to produce steam, instead of mere foam, in the boilers.

Pvt. Curtis has probably developed a fair working knowledge of French, as the line is still directed by the French and their system of signals, schedules and regulations are in effect.

THIS WEEK . . . AT THE USO

The Coronation Dance is only a memory now but it is a very pleasant one. The USO Council wishes to thank all those who helped in any way to make the dance a success. Hats off, first of all, to T-Sgt. Red O'Brien for his work with the musicians. It is hard enough to lead an orchestra but when one has to do it through an interpreter and has to double as the drummer in addition, it really becomes an accomplishment.

Pfc. Mike Konesky, who decorated the USO Club for our Christmas season, was in charge of decorations for the dance. He had a staff of prisoners of war to help him this time. Cpl. Harold Rhea was the "Jack of all trades" that day and deserves some kind of a decoration for all his work. Alex Thompson took 11 fine pictures of the event. They are on display at the USO. Anyone desiring to own one or more of them is asked to leave his order at the desk.

The entertainment committee met on Monday night and planned the following:

May 15—Dance at the Clubhouse—8:30. There will be a Cake Walk during the evening. Home made cakes will be given away.

May 22—Picnic—at the creek 7:30—9:30. Dance at the Fireman's Hall from 9:30—11:15. Each GSO girl will bring a sack lunch.

May 29—Fatigue Dance—at Camp. Prizes for the best costumes. Tickets will be required for this dance. These tickets will be taken up at the entrance gate to the camp. No one will be allowed to pass the gate without a ticket.

Did you know that there were

three special numbers on the dance program? We didn't know that Pvt. John DiMaccio had such a fine voice. He sang two numbers which were enjoyed by everyone. One of the prisoners a former pupil of Toscanini, gave a masterful rendition of "The Blue Danube." Still another, who cannot speak English, made Frank Sinatra a thing of the past. His "Star Dust" and "Besame Mucho" were "out of this world."

Mrs. Overacker is the latest wife to come to Hereford to be with her husband. Welcome!

Two service men left on emergency furloughs Sunday. We hope they find conditions at home much better when they arrive. Another, Cpl. Kleinman,

left for Utah on his regular furlough. We will miss him and his daily game of "Hide and Seek" that he plays with "Shorty."

Monday afternoon Mr. Garner, assistant to Dr. Jackson, USO Regional Executive, called on us and complimented us on our set up. We always appreciate a call from our "Bosses."

A Switch in Time saved Mine . . .

I'm bugs on cars.

I'd hardly think I'm a real American if I didn't always hanker after the latest thing in automobiles. Most everyone feels the same—wanting a new car. So even with Peace, is some new car with my number on it coming right off the assembly line? Who knows? I'm well off, though—still riding handsome—because I kept thinking of all the different oils to help a car. And I noticed ad after ad agreeing that your engine always burns extra inside. Risky. Bad danger of corrosion. But a station man showed me a can of Conoco Nth motor oil, and it said that a modern synthetic in Conoco Nth furnishes the working parts with OIL-PLATING—like a special surfacing to resist the acids; not letting them easily eat metal away. So you needn't fret too much for a new car, when a switch to Conoco Nth oil will safely OIL-PLATE your engine right now. Let the future car improvements try beating that!

James C. Mercer, son of Mr. and Mrs. J. R. Mercer of Central City, Ky. Rev. W. E. Barnes read the double ring service as the couple and their attendants stood before an arch of greenery flanked by baskets of tulips and lighted tapers.

Mrs. Arthur Housley, sister of the bride, was matron of honor. She wore a shell pink crepe dress and a corsage of roses. Pfc. Arthur Housley served as best man.

The bride was attired in a powder blue crepe dress with white half-hat and veil. Her

Deaf Smith County Federated Clubs Close Season; Mrs. Wilson President

Activities for the year were concluded for the Deaf Smith County Federation of Women's Clubs at the fourth quarterly luncheon held Friday at the Methodist Church.

Hostess clubs included the Garden Club and Music Study Club.

The luncheon table arrangements corresponded with the Texas Day theme for the program. Beginning with the early Texas dugouts the story of the development of Texas homes was suggested as the huts and makeshift farm house gave way to the modern farm home of the present day. Mrs. A. L. Manjeet was in charge of table arrangements.

The luncheon program consisted of a report given by Mrs. Liston Wilson, delegate to the Texas Federation of Women's Clubs district convention held in Plainview on April 18.

The Texas Day program was directed by Mrs. Homer Brumley. The Music Study Club provided musical entertainment consisting of two chorus selections given by the club and two violin solos presented by Mrs. Norman Harris. Mrs. Floyd Benson told the life story of Miss Laura V. Hamner of Amarillo, author of "Short Grass and Longhorns." A. O. Thompson showed moving pictures of

Hereford flowers and flower gardens.

Mrs. Robert Veigel, outgoing president, conducted installation rites for incoming officers, presenting each new officer with a flower corsage as new duties were assumed. Officers installed were Mrs. Liston Wilson, president; Mrs. D. C. Walser, 1st. vice-president; Mrs. George Benson, 2nd. vice-president; Mrs. E. W. Harrison, recording secretary; Mrs. Homer Brumley, corresponding secretary; Mrs. A. O. Thompson, treasurer and Mrs. P. H. Gilliland, parliamentarian.

After a vacation during the summer months activities of the club will be resumed sometime in September.

PRESBYTERIAN LADIES MEET FOR PROGRAMS.

Group sessions of the Woman's Auxiliary of the Presbyterian Church were held at the homes of members Tuesday afternoon.

Mrs. H. L. Broadwell was in charge of the devotional lesson on the Lord's Prayer at the meeting held by Group One at the home of Mrs. Seth B. Holman. She also led the program for the afternoon on Christmas Fellowship. Reports on the Presbyterian meeting held recently in Canyon were given and Mrs. Broadwell reported on the Wichita Falls Presbyterian meeting.

Group Two met in the home of Mrs. E. S. Ireland with Mrs. Ireland giving the devotional lesson. Mrs. D. H. Alexander discussed the lesson topic.

Group Three met for a program in the home of Mrs. Bivins with Mrs. H. A. Close and Mrs. Paul Mathess in charge of the mission study program.

HEREFORD

BULL

The other day I got a letter, a pamphlet and several folders urging us to save paper. The letter came from an official government bureau and weighed five ounces on the postal scales. The very fact that they wasted that much paper in telling us to save paper seemed a little bit inconsistent, but I gritted my teeth, wondered what could be done about it—and soon the incident passed from my mind. Actually, there isn't much you can do about these things—or, so it seems. On the other hand, this may be a real threat to democracy. These little things don't make much difference one way or another, but when the people shrug their shoulders, take the things for granted and no one

does anything, then our form of government is facing the greatest hazard possible.

Anyway, it is something to think about—and more people are thinking and talking about politics than at any time in many, many years.

I noticed by their ads in The Brand where the Santa Fe is encouraging their employees to use the right-of-way for victory gardens, and I have been trying to get Joe Beyer to plant one down by the depot. Joe happens to be one of my neighbors and he keeps me in the dog house all of the time, along with Ike Crosthwait, Colby Conkwright and Ezra Norton. Joe keeps his yard in the best of shape and our wives figure if Joe can do this we should also be able to keep ours up. J. A. Buckner is the only one around who can even compete with Joe. It got so bad that J. A. Loerwald even planted a hedge around his lawn—but he still gets in the dog house with us.

Anyway, Joe says there is not enough room around the depot for a garden. I am going to take this up with the Santa Fe. If all of the agents would cooperate, they could give a vegetable lunch with every ticket. All joking aside the Santa Fe has a real idea and lots of people are putting out gardens along the line. They are to be commended for using their land in such a worthwhile manner.

Meanwhile, the cigar shortage continues. I wondered why C. C. Rockwell left a few months ago for Marlin. He is a prolific smoker of cigars and I guess he must have foreseen

the shortage in this section. They say Bill Teter is pulling his hair, due to the shortage. Bill Kerr picked off a few cigars at Littlefield the other day and has been boasting ever since about the "dumb little girl who sold 10 cigars to one man." Just think how ill-tempered everyone would be if a cigarette shortage developed, not that I have heard of any such possibility. It is amazing to realize what a hold tobacco has on the people of this country.

An old joke that is still popular:

Mistress: "Marie, you were entertaining a soldier in the kitchen last night, weren't you?"

Marie: "That's for him to say, Ma'am. But I tried my best."

Joe Bishop says he captured his first "hoss thief" Sunday.

An old fellow wheeled his horse up on South Main Street and went in to purchase a loaf of bread, leaving the reins in the hands of a soldier. The soldier had had several drinks, including three or four too many, so he mounted the cayuse and fore out down the pavement. Sparks were flying as the iron shoes clanked on the pavement and the soldier was "jerking leather" and screaming at the top of his voice. When he was finally captured by three or four members of the law enforcement group, the soldier was inviting them to bring on some more broncs. He said he never rode a horse before, but according to witnesses, he made a real ride.

To Our Friends and Customers

An adequate supply of reliable electric power is necessary to the growth and prosperity of every city and community. One of the first questions asked by industrial managers, seeking new locations, relates to the power supply. In the post-war period, the type of electric service available will become increasingly important, since the location of processing plants will depend largely upon the availability of adequate and reliable electric power.

Our facilities in Hereford are connected to and are a part of an electric system consisting of generating plants furnishing power to a network of transmission lines. These facilities are operated as a unit and constitute a pool from which power from the combined resources of the system is available to every city and community in the territory served by the Company.

This arrangement makes ample quantities of electric power available to each city and community and, because of economies in operating costs, makes possible industrial electric rates which will attract additional businesses.

The Southwestern Public Service Company operates an integrated power system. Its power resources are available to the people of Hereford and to all industrial users, large or small, now located here or which may be attracted here in the future through the efforts of all of us who are interested in the progress and development of Hereford.

In 1942, the Company emerged from the administration of the Public Utility Holding Company Act with flying colors. It now does not have any holding company over it whatsoever. Its securities are widely held by thousands of people without dominating investment control centered anywhere. Its management is in position to cooperate in all matters for the betterment and development of Hereford and the surrounding territory. Our program is to be helpful and aggressively active in the development of Hereford in future years.

Southwestern PUBLIC SERVICE Company

Dogs and Chickens MUST BE KEPT PENNED Pets and chickens running at large are a public nuisance and must be taken care of by owners. We hope that everyone will show their patriotism and cooperation to the fullest extent of this request. It is far from any city official's desire to enforce the law regarding this but it will be followed to the letter in any case where it is not obeyed. Officials will enforce to the letter laws concerning pets, chickens or cows running at large... prepare now to properly take care of them. CITY OF HEREFORD

SEEDS of ADVICE

from
The Garden Club

Note—Continuing an article previously begun on the care and cultivation of gladiolus. Mrs. A. O. Thompson prepared the following hints on Gladiolus—Diseases and Insects—for the Garden Club.

Gladiolus diseases as now known are of comparatively recent development, and most diseases show plainly on the bulb so the infected stock can be detected and discarded.

Although the gladiolus diseases are few they are persistent and difficult to control. No really satisfactory cure has been found for any of them, however methods of prevention are quite successful.

CAN YOU TELL IF YOU SUFFER FROM a Vitamin Deficiency?

You can't for sure—unless you're a doctor. But you can do the best thing. Insure yourself from suffering such B-Complex deficiency symptoms as lack of pep, nervousness, constipation or skin disorders. Take B-VYTS which do TWO things for you. 1. By giving you the full adult minimum daily requirements of B-Complex as such they cause B-VYTS PREVENT B deficiencies. 2. B-VYTS, along with your normal food, help CORRECT lack of pep, nervousness, constipation and skin disorders due to lack of B-Complex. What's more, you get a full 90-day supply of B-VYTS for only \$1.00. Think of the savings when similar products cost as much as \$1.95. Take this thrifty 2 way step, get B-VYTS today. Phone, write or call at
Halle Drug Co.—Phone 99

The four diseases of most importance are hard rot—dry rot—Fusarium rot and scab or neck rot. The first three are fungus diseases. Scab is caused by bacteria. Infection takes place for the most part, if not entirely, during growth in the garden.

The three fungus rots progress rapidly during storage. The scab or neck rot distinguished by its shallow circular depressions, is not likely to develop further after bulbs are stored. During growing season the scab is more

JOHN GARFIELD is pictured in a scene from "Destination Tokyo," in which he co-stars with Cary Grant. It's the story of the Submarine Copperfin, her crew and their dangerous mission right into Tokyo Harbor and it carries on the tradition of such fine service pictures as "Air Force"... "Destination Tokyo" will come to the Star Theatre Sunday, Monday and Tuesday.

noticeable than any of the rots. The disease is carried to the garden on the bulbs and develops later, causing the decay of 6 or 8 inches of the lower part of the plant, which falls over. The fungus rots sometimes cause plants to turn yellow and die through lack of nourishment as it destroys the old bulb before the new is formed.

Control Methods

1—Checking the development of the several rots in storage. 2—Disinfecting bulbs at planting time to prevent carrying the fungus or bacteria to the garden and 3—prevention of infection from the soil by treating the soil.

A good disinfectant for bulbs is corrosive sublimate (mercuric chloride). Make a 1-to-1,000 solution (1 oz. to 7 1-2 gallons of water) or if the tablet form is sold, dissolve 1 tablet in 1 pint of water. Soak the corms for 30 minutes to two hours. Metal containers should not be used.

Insects

There are only a few insects that bother gladiolus. The two most likely to bother them in this part of the country are:

1. Cutworms—Should cut worms cut off the tops of the young plants as they come through the ground no real damage will be done for new leaves will push up and the flower spike will not be injured, but when you see that cut worms are at work on your young plants make a mash of 1 quart of wheat bran, 1 teaspoonful of Paris Green or White Arsenate and 1 teaspoonful of cheap molasses. Spread this in small quantities near the plant late in the afternoon. The worms usually work late at night or very early in the morning.

2. Thrips—If thrips appear on your plants they must be controlled before the bud spikes emerge from the foliage. If permitted to increase unmolested they will extract juices from the buds resulting in a burned appearance. Preventive spraying once every 10 days after the plants are up 6 or 8 inches until blooming usually does the trick. Make a sprak by combining 1 oz. Tartar Emetic, 2 oz. brown sugar and 3 gallons water. After the blooms appear change the Tartar Emetic to Rototox, thus avoiding sticky

Mummy must've forgot to OIL IT

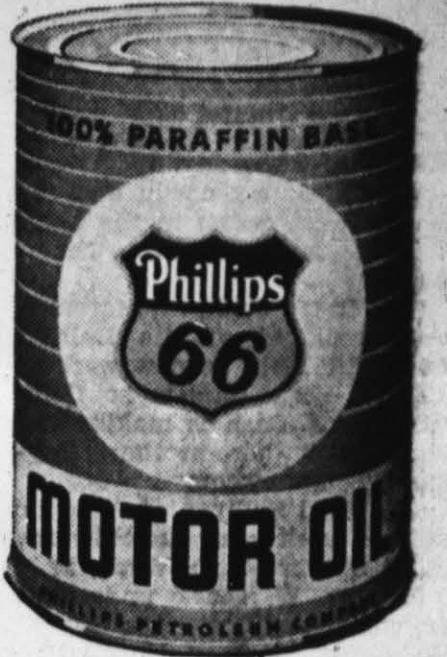

American mechanical genius shows itself at an early age. Youngsters are hardly out of their diapers before they know that today's world moves on a film of oil.

A few years more, and they have learned that the life of any mechanical device depends, in large part, on the quality of the lubricant. But even grown-up car owners are sometimes late in finding out a simple clue to choosing a quality motor oil.

It is contained in this plain, straightforward statement: If you want our best oil, remember we specify that Phillips 66 Motor Oil is our finest quality...the highest grade and greatest value...among all the oils we offer to average motorists.

Regular oil change has never before been so important, now that you must "Care For Your Car For Your Country." Authorities state that, with today's reduced driving, every two months is the safest change period. So get rid of winter-worn, contaminated lubricant... get quality, by asking for Phillips 66 Motor Oil.

The Railroad LAND GRANT

* To speed the settling of the West, our nation wanted railroads pushed across great unsettled areas to develop rich but distant regions and to bind the country together for military and other reasons.
In the 1850's and 1860's, to encourage railroads to push their tracks into the undeveloped territory, Congress granted the odd sections on each

side of the track to the railroads, with certain "strings" attached, and these grants varied in depth up to several miles.
The even sections retained by the government were for the most part sold to settlers at a substantial investment.
The Land Grant policy was very helpful in getting the railroads started in those early days. BUT...

Isn't it out of date today?

In return for their Land Grants, the railroads originally were required, and are still required to do so in respect of military and naval property and personnel, to haul government passengers, freight, and mail at rates far below those applicable to ordinary traffic.
Since the Land Grants were made, railroads have paid out in reduced rates on government traffic many times the amount they have received from these Land Grants.
In the case of the Santa Fe, here are the figures: In more than 80 years which have elapsed since the

Land Grants were made, Santa Fe's net realization from these lands has been about \$23,000,000. In 1943 alone, the government received from Santa Fe, in the form of rate reductions, approximately \$40,000,000.
Many governmental agencies as well as private shipper groups are convinced that the time has arrived for the entire repeal of these burdensome Land Grant requirements.

TRI-HI-Y MOTHER-DAUGHTER BANQUET, Tues. May 16

The Whiteface Round-Up

Remember MOTHER on HER DAY — Sunday May 14th

Prince Hereford

Homer says that he still laughs when he thinks about how the lights came back on at the play the other night. He says it reminded him of the mice scampering down the hall when the school house has a visitor late at night. I understand that Edward Young ruined his older brother's shirt when he fell over his gun. Did it tear any deeper than the shirt?

I am indeed sorry that Ellen Posey has to miss school because of an appendectomy. "Boots" has certainly been missed and especially by the members of the staff since she is such a faithful worker. We all hope that she will be well in time to receive her diploma.

It seems to me that there are going to be several lonesome girls in these corridors next year. Could some of these be Peggy Barnard, Wanda Lee Lloyd, and Barbara Smith? I am afraid also that L. W. Bridges and Lloyd Manjeot will be running around like chickens with their heads cut off.

The shorthand class has been having some interesting lessons in the form of student lectures. Homer says that Kathryn Davis can really teach shorthand as well as play the violin very skillfully.

Homer says he was down town the other day and saw Mr. Crutchfield limping around. He wondered if Mr. Crutchfield's trip to Lubbock affected him in this manner.

Homer was simply heartbroken when he found that Barbara LeGrand was absent from school the other day. I understand this was the first time she has been absent in three years. It's a shame that you had to miss Barbara.

Have you noticed how well Duane Williams and Johnny Sexton get along? They both look at each other with moon-eyes and never seem to have an argument. (Could it be love?)

Could someone please tell me why about five World History students failed a true-false test recently? Helen Tucker has been vowing all sorts of vengeance against Charlene Davis since that day.

David Sowell seems to be a very good friend of a certain girl in the eighth grade.

Spring fever is grabbing these summer days and I don't get around much anymore. Hope to see you next week. Hohum!

Grandma Beauford: "Oh, Juanita, darling, I am surprised! Aren't you going to give Clarence part of your apple?" Juanita: "No, Grandma. Eve did that and she's been criticized ever since."

Tribute Is Paid To All Mothers

Most of us are eager to pay our debts as soon as they are made. Indebtedness is a burden that we generally want to shun; but there is one debt that we enjoy paying by the installment plan—day by day, week by week, year by year—that is the debt we owe to mothers, not only to our own mothers but to all mothers.

Mother, home and heaven are said to be the sweetest words in our language. Home is sweet largely because Mother is there. Poets and prose writers have commemorated the love of Mother. Joaquin Miller well expresses our sentiments about Mothers whom we shall especially honor on Mother's Day, May 14.

THE BRAVEST BATTLE
The bravest battle that ever was fought;

Shall I tell you where and when? On the maps of the world you will find it not; 'Twas fought by the mothers of men!

Nay, not with cannon and battle shot,
With sword and nobler pen;

Nay, not with eloquent word and thought,
From the mouths of wonderful men!

But deep in a walled-up woman's heart,
A woman that would not yield,
But bravely, silently bore her part—
Lo! there is that battle field.

No marshalling troops, no bivouac song,
No banners to gleam and wave;
But, oh! those battles that last so long,
From baby-hood to grave!

Yet faithful still as a bridge of stars,
She fights in her walled-up town,—
Fights on and on in the endless wars;
Then silent, unseen, goes down.

O, ye with banners and battle shot,
With soldiers to shout and praise,
I tell you the kingliest victories fought
Are fought in these silent ways!

O, spotless woman in a world of shame!
With splendid and silent scorn,
Go back to your God as white as you came,
The kingliest warrior born!

Band Contests Prove Helpful To Participants

The District Band contest was held at the high school auditorium on Thursday, May 4. Those participating were: the Friona High School band and also their grade school band; the Hereford High School band, orchestra, and the Central school band. The Canyon High School band was supposed to come, but at the last minute a message stated the band could not come.

The program started with the Hereford High School orchestra. They played three numbers and sight read two numbers. Next on the program was the Central School band which played three numbers.

The Friona Grade School band was next and played three numbers, and Friona High School band was next on the program. They played three numbers. At assembly period the high school students came in to hear the bands.

Next on the program was the Hereford High School band. They played three numbers which are: "Hall of Fame" (march); "Croica" (Overture); and "Hongroise" (Overture). Then they sight read two numbers. After this the Hereford band went to the football field for the marching event.

Mr. Newman from West Texas State College at Canyon was the judge, and a very capable judge he was.

The Friona High School band played in Class C. They got a second division in concert and a second division for sight reading. Also the grade school got a first division in concert.

The Hereford organizations placed as follows: orchestra, first division in everything; grade school band, first division in everything; high school band first division in concert, sight reading, and marching. Mr. Smith said that all in all this was a very good contest.

This is the second time in three years (there was no concert last year) that the high school orchestra and band and the grade school band have made a first division in everything. That is really a worthwhile record.

Soph Picnic Ends Social Activities of the Year

The social activities of the Sophomores were climaxed by a picnic Friday, May 5. Thirty some odd assembled in front of the school. The lucky ones rode horses and bicycled, but the foot was the main source of travel. Everyone "lugged" his sack-lunch.

All were hilarious! J. B. Sowell, Wendell Roberson and Virgil Young were really in a bicycle mood. They raced up one hill and tried to reach the top of another. Poor Virgil didn't reach the top but he came tumbling down. Lucky enough he wasn't injured. The horseback riders had a good time, but Dorothy Williams often wished her horse wouldn't drink so much water. She was in constant fear of being baptized. Ayeene Malm was angry because Thomas wouldn't let her ride her own horse. She finally got her wish, but rode behind Thomas.

Elizabeth Benson's life was threatened several times. She was to be hanged or burned at the stake. (I wonder why.)

If anyone were to receive a prize, Wanda Smith should get it on eating. She admitted enjoying her lunch as well as the remains of others. Many pranks were tried such as throwing Jesse Ann in the creek. Joan Smith was the "Lone Female Bicyclist." She was the only girl smart enough to ride a bicycle, or lucky enough.

Much of the time was spent in the usual way eating. The afternoon passed all too rapidly for the students and no one seemed to take the hint of departure from our sponsors, Miss Hall and Miss Easter.

The end of a perfect social year was sore feet!

Students Fill Out Schedule Sheets

All the classes except the Seniors had class meetings last Wednesday. They had one very important item to attend to at their business meetings. This business was the discussion of subjects to be taken in school next year.

Each student was given a sheet of paper on which were listed requirements for graduation, entrance requirements of some colleges and at the bottom of the sheet the subjects offered in this school. These subjects were arranged according to the requirements of the four classes. The students were asked to check the subjects they wanted to take and then turn the sheets in at the office or give them to their class sponsors.

The purpose of having students fill out these sheets is so that a tentative schedule can be arranged for next year. There are some courses which are not offered each year, but if at least ten people sign for any course, it will be offered if at all possible.

Senior Personalities

Rosalee Johns, who started life January 16, 1927, in Hereford, with the name of Rosalee Powelson, went to five schools before she decided to settle down in Hereford High. She is now 5 feet, 5 1-2 inches tall, weighs 120 pounds, has blonde hair and green eyes.

Her favorites are: food, spinach; song, "O What a Beautiful Morning"; color, green; and subject, business arithmetic. Her greatest dislikes are snobbish, conceited people. Her hobbies are: collecting poems and snapshots, horseback riding, and reading. After graduation, Rosalee will probably keep house but may do some work on the side.

Pretty Iona Marie Moreman made her personal appearance May 25, 1926, near Hollis, Oklahoma. Marie's blonde hair and shining blue eyes along with a radiant personality help to make her one of the most attractive and respected girls in H. H. S. Marie is five feet three and one-half inches tall and is 112 pounds of good nature.

She has been active in many extra-curricular activities during her high school life and while holding a high scholastic record has made an efficient officer in several organizations. When she was a freshman, Marie represented her class in the Student Council, and as a senior, she has successfully filled the office of secretary of her class. She has a beautiful soprano voice and was a member of the Glee Club for two years. As a member of the National Honor Society, she served as vice-president of that organization, and Tri-Hi-Y is proud to claim her as its historian.

Among her favorites are: song, "No Love, No Nothin'"; colors, pink and blue; food, spinach; sport, tennis; saying, "Oh, my goodness!" Although Marie has a few dislikes, her pet peeves are: eggs, "Pistol Packing Mama," and people who brag about what they would do in a situation in which they have never been.

Marie's collection of paper napkins, her hobby, boasts over 160 different designs. What leisure time she has she spends embroidering.

Of high school, faculty and students in general, Marie says, "They're all swell!"

Take heed, you dashing boys! Laura Mae Buchanan's favorite song is "Put Your Arms Around Me, Honey." She is another comparatively new addition to our Senior class, coming here from Knox City, Texas, last October. It was a little late for Laura to join any clubs in Hereford, but in her former home, she was a Pep Club member and an F. H. T. member. This seventeen-year-old-girl is five feet, seven inches tall, has blue eyes and dark brown hair. She weighs 120 pounds. Among her favorites are Miss Miss Hancock as a teacher, and strawberry ice cream as a food. After graduation, Laura plans to go to business college, but as yet, she hasn't decided which one.

Sr. Class Selects Tucker, Owen As Honor Students

A special Senior class meeting was called Friday, May 5, the object of which was the election of the valedictorian and salutatorian. Mr. Ford, the principal, certified the highest five pupils of the Senior class, according to grade points given for scholastic and extra-curricular activities. The class then voted on these students for valedictorian and salutatorian. Those voted on were Marie Moreman, Edward Young, G. P. Owen, Kathryn Acker, and Ruth Tucker. Ruth Tucker was elected valedictorian and G. P. Owen, salutatorian. These are two of the highest honors given a person during his Senior year.

Mary Ruth Russell gave a report from the social committee; a picnic to be given Thursday night, May 11, for the Juniors, in gratitude for the Junior-Senior Banquet.

Mrs. Beene announced that Father Albert, the Catholic priest, would be the baccalaureate speaker, Sunday night, May 21.

Boulter, Deputy Supt., Visits Local Schools

"It seems that most of your teachers are of the pre-war edition," said E. H. Boulter, Deputy State Superintendent of Schools, as he visited Hereford High last Thursday, May 4. In order to prevent aspersions, he went on to explain this statement by saying the instructors all seem to be teaching in their major fields and doing good work.

With his office in Lubbock, Mr. Boulter represents the State Department of Education in this district. It is his duty to visit the schools of the district each year for two main purposes. (1) He checks regularly with each school to see that it is complying with State Department regulations regarding affiliations and other matters. (2) He also strives to assist all schools in any way possible.

Mr. Boulter complimented the school on the fact that things were in order and the student body for carrying on its work and other activities in a businesslike and commendable manner.

Blue Is Chosen Tri-Hi-Y Prexy

Marcella Blue was chosen president of next year's Tri-Hi-Y club when the club met May 2, 1944. For vice-president, the club chose Beverley Barkley.

The theme of the program was leadership and emphasized the essential qualities of a good Tri-Hi-Y officer. Some of these qualities are: (1) high standards of Christian living, (2) enthusiasm, (3) adaptability, (4) initiative, (5) tact, (6) unselfishness, (7) willingness to work, (8) faith and (9) the very important quality of dependability. These were discussed by Ellen Posey and Madelle Beavers. The group song was "He Leadeth Me" followed by an appropriate Scripture for the occasion read by Beverley Barkley. Mary Ruth Russell led the group in prayer.

Other officers chosen were: Rosemary Phillips, secretary; Helen Tucker, treasurer; Betty Jane Robinson and Cecelia Guseman, program chairmen; Virginia Lyons, reporter; Jackie Wright, historian; and Bettye Morrow, song leader. These officers will be installed at the Mother-Daughter Banquet. New members will also be inducted at this meeting.

At the next meeting the losing side for the year will entertain the winning side. The points that make up this contest are: attending church, being present and being on time.

FHT To Give A Tea For Mothers Sunday

May 14, at 4:30 the F. H. T. girls plan to entertain their mothers at a Mother's Tea. Plans were discussed at the weekly meeting last Thursday evening.

Until school is out, the F. H. T. will have important meetings. The meeting scheduled for May 18th is very important because the club plans to elect the officers for the next year. In order to elect competent officers, qualifications necessary for each office will be discussed this evening. Last Thursday evening the girls adjourned to the gym where they learned new exercises. They did these exercises under the direction of Ann Bateman.

An enjoyable and educational evening was closed with the singing of "Sing Your Way Home."

Bridges and Rose Chosen King and Queen of 'Fiesta'

One-two-three, no this is not to represent a beginner learning his numbers, but rather a dignified Freshman, Sophomore, Junior or Senior counting the days until the gala event which was to climax the year's activities of Los Viajeros Club would arrive.

On Friday night, May 5, at 8:30 o'clock, members of Los Viajeros Club with their guests began to arrive. There were forty-two or three who came. The group went to the gym where some enjoyed folk-dancing, while others looked on in fascination.

About 9:00 o'clock, nominations were made for king and queen of the "fiesta." Those nominated for queen were Dorothy Williams, Barbara Burney, and Wanda Rose. V. C. Hopson and L. W. Bridges were nominated for king of the "fiesta." Ballots were counted by Mr. and Mrs. Tucker who assisted Miss Milam in sponsoring the group.

Then everyone went to the Spanish class room where refreshments were served buffet style. Many of the students over-estimated the capacity of their stomachs when they filled their plates with cheese sandwiches, fruit-jello and cookies. After adding a coke to all this, the meal was quite complete.

Then the group returned to the gym where it was announced that Wanda Rose had been elected queen of the "fiesta" and L. W. Bridges king of the "fiesta." The group entertained the king and queen by singing "El, senor es Mi Nina" ("Yes, Sir, She's My Baby") and "Brazil." The party came to a close when the group sang "God Bless America," first in Spanish and then in English. Everyone voiced his approval of the gala event.

"I think that I shall never see A "D" as lovely as a "B"— A "B" whose rounded form is pressed Upon the records of the blessed. A "D" comes easily—and yet, It isn't easy to forget: "D's" are made by fools like me, But only God could make a "B".

Mr. Smith (Barbara's father) "The man who marries my daughter will need a lot of money." John David "Then I'm just the man."

How About Your Bills?

be sure you're rated

"GOOD PAY"

There's mighty little excuse nowadays to let bills become overdue, or to have a lot of debts outstanding.

So budget your income and start paying your bills NOW. Or at least talk with your creditors and let them know when they may expect payment. To be rated "good pay" is one of the best reputations a man or woman can have. It's a record that must be earned, but it's worth all the careful management and self-sacrifice required.

"Plenty of times," says Fred, "I have seen prairie dogs come out of their holes soaking wet, shake themselves and lie down in the sun to dry off. They probably have swimming pools in those holes."

But John Calhoun has just about the most constructive idea thus far. "Why don't they call those animals prairie squirrels?" John asks, "then these sportsmen would hunt them down and pretty soon there wouldn't be any prairie dogs to start arguments."

the speaker pointed out, and cited Papal letters to show the Catholic stand.

After the enrollment into the confraternity of Christian Mothers, the new members took the pledge of the order, and breakfast was served in St. Anthony's Hall by the officers of the Sodality, who include Mrs. Felix Urbanczyk, president; Mrs. G. Hund, vice-president, and Mrs. G. Schlabs, secretary.

SONS In the Service

In New Guinea

Pfc. Edwin Eugene Osburn has written relatives here that he is now in New Guinea. Pfc. Osburn, who is a brother of W. P. Osburn of Hereford, says that people there tell him that cooler weather is due for that part of the country soon and he's almost counting the days until it arrives.

Shirley Home

Pfc. Karl Shirley came in last week for a ten day furlough with his mother, Mrs. Jeff Gilbreath, and other relatives. Pfc. Shirley, who was with the Specialized College Training Unit at the University of Oregon, has been transferred to Camp Cook, Calif.

Rescues Crewmen

With his coat as a shield against the heat of a burning airplane, Pvt. Wiley A. Gentry, Jr., former Hereford resident and a nephew of Mrs. O. T. Bailey of Hereford, helped effect a dangerous rescue of two mem-

bers of the crew of a British bomber which crashed and burst into flames near an Italian city. Gentry and two others of the 15th Army Air Force dragged the tall gunner from the wreckage of the ship as part of the plane's bomb load blew up. Afterwards Gentry and a companion returned to the plane and found an unconscious member of the crew and pulled him to safety. As they were putting the second man into an ambulance, the remainder of the bomb load exploded. Several spectators suffered serious injuries but Gentry and his companions escaped unhurt.

Pvt. Gentry, whose home is in Tulsa, Okla., had not been heard from in nine weeks when the account of his heroic rescue work was received by his family.

Olson and Wilson With Pacific Fleet

transportation leave for a visit with his grandmother, Mrs. J. W. Beene, and other relatives. He has just completed the storekeepers course in the U. S. Navy at Toledo, Ohio, and is enroute to the west coast for future assignment.
