Interest Grows In Beauty Show Here July 27-28

After learning of the opportunities to be afforded winners, Hereford girls are showing a lot of interest in the 1938 Beach Fashion Parade and Beauty Pageant, which will be staged at the Star Theatre July 27-28, says John Roberts, manager. He asked that girls who are not already entered get in touch with him at once.

To the winner will be given the title of "Miss Hereford" and a trip to New Mexico, all expenses paid. The trip includes visits to the western part of the stafe and the Indian Pueblos, White Sands, Carlsbad Caverns, Bottomless Lake, and to Roswell to represent Here ford in a final contest for the selection of "Miss Southwest."

The winner at Roswell will be given a free trip to Hollywood, where she will be given a screen test and will be honored with parties and dinners with movie stars. Rehearsals for the big event will start in a few weeks, and Mr. Roberts again urged all girls in this territory to contact him at the Star Theatre and join the contest, which is open to all unmarried

NEW WATER MAIN ON

That 400 feet of three-inch water mains will be laid on Roosevelt Texas, and she became one of the pioneer residents of the Panhandle She lived there 30 years. Mrs. Hamlin died at 10 o'clock Sunday night, July 3, and was the mother of nine children, four of whom preceded here in death.

Mayor C. J. Paddock, who said that the completion of this new line will give practically every point in Hereford adequate mains.

Postal Receipts Gain \$2,293 Over 1937 Report Here

GROSS RECEIPTS FIGURE \$17,536.59 DURING FISCAL YEAR

Postal receipts in Hereford conan increase of \$2,293.83 over the total for June 30, 1937.

A check of the figures showed the gross business in the local office was \$17,536.59 on June 80; the gross business report at the same time last year was \$15,242.76. The increase is all the more emphasized by the fact that the office showed an annual increase of \$981.25 in 1937 over 1936, when a

total of \$14,261.51 was reported. The post office department operates on quarterly periods, each of which reported an increase this (Continued on Page 12)

Cousin Reunion Held Sunday At **Dickerson Home**

One of the most unusual reunions in recent months was held Sunday at the home of Mr. and Mrs. J. W. Dickerson, seven miles southeast of Hereford, when the cousins of Mrs. Dickerson gathered for a celebration.

Among those attending were Mr. and Mrs. N. B. Quarels of Dallas, Mrs. W. M. Caraway, Miss Mar- ther station in Hereford. garet Nell Caraway, Msis Jane Day Caraway and Miss Annie Caraway, all of Amarillo; Dickerson, Jr., and Mr. and Mrs. Saturday J. W. Dickerson of Hereford. Mr. and Mrs. Wes Bradly, friends of the Dickerson's, also attended Tuesday

as special guests.

PREDICTIONS INDICATE. HARVEST SEASON TO CLOSE BY JULY 15

With harvest now at a p of acivity, grain men and timers in this area estimate this week that Deaf Smith County will produce between 1,000,000 and 1-500,000 bushels of wheat this or A general average from e sets the county down for a mately 1,300,000 bushels.

Although they are handling much wheat as last year, local vators are not awamped vators are not swamped trucks as they were last sen and trucks are coming in a few at a time rather than in droves. Tests Run High

Reports from every source indicate that tests are running higher than seen here in recent years. Practically all of the wheat e into Hereford is testing 60, some higher, Good tests have be recorded all season, and are exp ed to continue.

With continued favorable weath er, the bulk of the present harveseason will be over early next we and by July 15 and 16 only a fee scattered loads will likely ren over the territory, according estimates of grain men. Cuts 25 Bushels

One of the most outstanding dry land yields reported is that of A. J. Blakemore, south of Summe field. He is cutting an average better than 25 bushels to the ac and his son, Forbus Blakemore, averaging around 20 bushels. ter Nix is averaging arou bushels on dry land wheat, is west of here. Several othe cutting 10, 12 and 14 bushels ral averages are much lowe ever, and the fact is attrib damage from the late from this section.

Frank Axe of the Jun munity, was reported to be tinued to climb as the fiscal gear ting 40 bushels to the acre av-of the department closed June 30, erage on his irrigated wheat. Some 1938, giving the Hereford office of this wheat was said to have cut up to 50 bushels, but the av-

erage was around 40.

Geo. Robertson, who made a 56-bushel yield last year on some of his wheat, is this year repo (Continued on Page 12)

Local Group To **Greet President** In Amarillo Band

All band members who wish to play in the Amarillo Band next Monday, when President Roosevelt visits the city should meet at the high school Friday morning at o'clock for rehearsal, Raiph Smith, director, announced today.

"This applies to grade so members as well as high school members," Mr. Smith said, "We will have to do considerable rehearsal on the numbers and it important that you attend

Hereford Garden Club Entertains With Open House at Coneway Home

Simultaneous with the summer nonths, garden parties, teas and er outdoor hospitalities become the favorite mode of entertaining. The Hereford Garden Club, now

in its first year, and in keeping with the purpose of its organization, held "open house" as its initial form of entertainment with a delightful garden party at the home of Mr. and Mrs. R. P. Coneway. Friday night.

The back-yard flower garden was ighted by Japanese lanterns, which created a fantastic atmosthere for the occasion, while bobbing back and forth in the summer breeze. Tall baskets of cut flowers seemed growing there so harmoniously did they blend with the natural background of trees and shrubs. Not far from the rustic fireplace and near the lily pool, was the lace-covered refreshment table, decorated with purple larkspur and centered with the punch bowl. Assisting with refreshments, were Mesdames Mark Hanna, W. J. Smith, A. Petersen and Ellis ed with an old-fashioned picnic Goombes. Making up the informal at Hereford State Park, Thursday receiving line, were Mesdames Coneway, Homer Brumley, F. M. Kester, N. E. Gass, C. C. Ferguson and A. O. Thompson.

Features of the program were In beginning her talk Miss Oliver

said that Gardening is an incur. able mania but harmless. She stressed the need for intelligent co-operation with nature and several hardy perennials and ornamental trees and shrubs suitable for this locality. Among them: Glossy Buckthorn, Shining sumac, Smoketree, small leaved sumac, iden currant, spirea, Van Houtte pirea, coral berry, Chinese lilac, arix, lilac chaste-tree, heart-leaved cutleaf chaste-tree, ivy, Boston ivy, flowering willow, oneysuckle, mock orange, butterfly bush, Seibold forsythia, pink varrow, Italian bugloss, tawny daylily, Japanese Daylily, Hibiscus, Russian iris, Torrey Pentstemon shell-pink Pentstemon, balloon

flower and many others. Helpful books for gardners as given by Miss Oliver, Story of Gardens," by Richardson Wright and the Farmers Gov't. bulletin No. 138.

Those registering were Mrs. J. J. Clark, Mrs. Della Crawford of of the past week, was the bridge Denver, Colo.; Mrs. W. E. Dame- party given by Mrs. Woodrow Ireron, Mrs. J. B. Providing Cash for the community

Nickels, dimes, quarters—coins and bills of all des nominations—are in constant demand for payrolls and merchants' tills. Providing this cash is an exacting task which requires much time and preparation.

This bank service, while usually taken for granted, is very necessary to the smooth and uninterrupted flow of community business. It is another example of the many ways in which banks-quietly, efficiently and faithfully-serve community progress.

First National Bank

OF HEREFORD FEDERAL RESER

Naturally, that appeals to all the ladies, because there are so many things—both in and out of the house—that any homemaker could do IF she had the time.

out of the Kitchen

Briefly, that explains the popularity of electric cookery. It eliminates the drudgery and makes cooking a joy. Sooty pots and pans...smoke and grime... smutty woodwork and walls... all become a thing of the past with electric cookery.

Today's living centers in the kitchen and your kitchen depends on your range. Be proud of your kitchen and cook electrically. Your electrical dealer will be glad to tell you more about this modern method of cooking. Investigate today!

RANT FULLER'S TEAM DOWNS OPPONENTS IN LOP-SIDED GAME

A & M. 14. Merchants 12 (elev-K. of C. 15, Lions 20.

Firemen 11, Merchants 3, The Standings

Thurs., July 7-A-M vs. Sunday

Mon., July 11-K of C vs. Mer Wed., July 13-Sunday School

Thurs., July 14 Laundry

June 29-The A-M team edged at a 14 to 12 victory over the ats in eleven innings, the st game in the history ereford softball. An error by aul Foster, Merchant third sacker, ase. L. B. Russell then poled out home run over the center field for the winning two runs in the last half of the eleventh. The ants failed to score in their alf of the inning.

The A. & M. spotted the Merond inning featured the K-C's nts 8 runs in the first inning making five errors. They tied re with two in the first and cond, and four in the third. Two ases on balls and a double by Barnett netted two more runs in he fourth. The Merchants scored hree runs in the last half of the fourth on a single by Carlyle and a J. Albright. double by Climer, plus an error. Two errors by Bainum and Knox the score at 11 all in the 18h inning. Errors gave each team a run, A-M in the sixth inning and Merchants in the seventh. The game was then scoreless from the eventh until the elevnth.

L. B. Russell and J. D. Clayton uns with each getting a single, is yielding less. and a home run.

A drizzling rain during the first se innings failed to stop the two of her wheat.

Maintenance Basis of Operation **Future Phases of Soil Conservation**

AMARILLO—Soil Conservation ork in the wind erosion area of the Texas Panhandle will enter to a phase on July 1, when all ration projects change from ds, H. H. Finnell, director of

with the original plan adopted yard demonstrations. The group when erosion control demonstrations showed interest in candletion projects were set up through-wicking, and planned to attend the tablished, farmers entered into dishes for lunch. five-year agreements with the Soil

with the Service co-operating with served. tour furrowing pastures, setting up proper cropping plans, and otherwise establishing a complete erosion control demonstration.

Mr. Finnell says. In some areas ix months more may be required to complete these field operations. However, no new agreements will entered into with farmers on

After all construction work is pleted, a sufficient number of full Conservation Service techniadjustments in the original crop-ping and land use plans when ary and to accumulate data and information for more widespread use in soil conservation districts and in other ways. Farmers will be expected to assume increasing responsibility for continuing actices outlined in their co-operative agreements.

Today, the Soil Conservation Service is co-operating with 1,622 wind erosion region, including the Panhnadles of Texas and Oklama, eastern New Mexico, southcest Kansas and eastern Colorado.

Demonstration projects in Texas, rhich are scheduled to go on a naintenance basis on July 1, are located at Channing, Hereford, Stratford and Vega. The Dalhart project, oldest in the wind erosion region, has been on a maintenance nsis since July 1, 1937.

OCC camps working in co-operervice in demonstrating erosion introl practices are located at Lademphis, and will continue in ield operations work for an inefinite period.

Under the conservation district aws already enacted in Colorado, Kansas Oklahoma and New Mexico. farmers are expected to assume ore responsibility for controlling rosion in their areas, Mr. Finnell

WEST TEXAS FEED and SEED the mouth. You either eat or drink the germs. Typhoid is transmittable through the use of water, milk or other foods that are contaminated by typhoid germs passed on by someone ill with the disease or one who has had the disease

"Vigilant protection and private water supplies from pollution, pasteurization of milk, protection of food supplies from contamination and such sanitary precautions have and such sanitary precautions have reduced greatly the incidence of typhoid fever in Texas.

"But there are certain other sources of danger that cannot be reached by public precautionary measures. Certain persons who have had typhold fever continue to pass the germs that cause the disease long after they have recovered from the illness - these persons are called typhold "carriers." When they are careless in their personal habits they are likely to leave typhoid germs on any food they touch. In recent years some of the more serious outbreaks of typhoid over the state have been due to careless carriers.

"A Penny Saved . . .

ays the adage, "is a penny earn" Thinking of that thrifty prinle in terms of the farm, making the crop is not completed until it is saved. It is saved only when it as been either safely stored for future use, or consumed by live-stock and transformed into a sale-able product. Tons of meat and nfik, eggs and wool are produced on some farms merely by "saving" which go to waste on neighboring farms for lack of animals or fowls to utilize them when available.

At this season of the year the uthwest is often threatened with corn begins to "bun up" and its failure is indicated. Since the introduction of the trench silo it is quite possible to avoid a total loss by cutting the corn and storing it in the trench before it dries np. That is not merely a penny saved and earned, but dollars on dollars, for the ensilage will keep indefinitely and can be turned into eash through livestock whenever you are ready. If rainy weather interferes with curing hay it need not be lost. Put it in a trench silo, which can be dug in a few hours, or at most a few days. You can't blow away or deteriorate from wea-There is nothing mysterious or

complicated about ensiling a crop. A few simple rules must be observed. Green crops with a reasonable sugar content need nothing but close packing to exclude the air, either cut or ensiled in the rhole stalk. Other crops, such as alfalfa and other non-saccharine forage crops, require some cheap molasses to start fermentation. The size and shape of the trench, how to fill it and treat each crop, and how to insure its keeping, can be learned from your county agent or your neighbor who has had silo A few cross fences, either tem-

porary or permanent, are indissable to the full utilization of what grows on the farm. Grass, either in field or pasture, and crop residues have no market value on the ground, and usually will not pay for the harvesting unless the livestock do the work. It is poor business to lose this potential cash return, whether for lack of livestock to use or for lack of fencing so they can use it.

An Arkansas authority says an acre of good grass has made up to 400 pounds of beef, and the steer did, the work. Few acres will make so much, but every day's good grazing represents a pound of or butterfat; to "save" it eans the animal must be on the ground when the grazing is ready. Precinct No. 4: Like some factories, the value of by-products saved on the farm ften means the only profit in the manufacture of the main product.

A Pennsylvania Dutchman lives well and gets rich by saving what e in the Southwest too often waste - the straw, grass and manure. None of them can be sold in the market place as such, but what a difference they make when Slated aved and used on the farm where Mondey in each month. they are! The difference between necess and failure, profit and loss, A penny saved is still a penny

The Rockwell TUBA

Published Once in a While by ROCKWELL BROS. & CO., Lumbermen

Stack 2—Piece 7

Hereford, Texas

Thursday, July 7, 1938

There has been a considerable "pick-up" business in the last couple of weeks. A "pick-up", in case you don't know, and you probably do, is a cross between a passenger car and a truck, and is designed to baul light loads. It's such a darn handy thing for hauling wheat that when a farmer buys one he usually comes to the lumber yard and gets a carpenter to put extra side boards on it to double its capacity. That, no doubt, will make business "pickup" for the tire merchant.

Mr. C. V. Burges, who has recently bought a place out in the Progressive community, is setting out to prove that a good farmer can do a better job with good buildings and equipment. Last week he a first class granary built. Jim Young and Charlie Robinson did the work. It's built out of Long Leaf Yellow Pine lumber on concrete foundation, so it's bound to last for a good many years. Incidentally, we'd like to mention that Mr. Burges has one of the best farm gardens we have seen in a long time.

Competition is the life of business. It gives you two choices: Price appeal and Quality appeal. We've staked our reputation on Quality Lumber.

We know a fellow who once asked his doctor if it wouldn't be a know of that gives you so much good idea to pack up and go to for the little it costs as high qualiome place where the climate is ty paint. warmer, "Good Heavens, no," said the doctor, "that's just what I have been trying to prevent."

a five-inch rain one night before it was in 1931, when we couldn't the job was finished, and he says get in or out for three weeks. he had to go a mile and a half to round up all the lumber carried It's our observation that the having one where you need it w away by the flood. Oh yes, Bill service gets better at the elevator cost you a whole lot more Gentry did the work. It always every year. Ten years ago the av-rains whenever that man goes to erage truck hauled about as much granaries and make a list of the country to any building. as a pick-up carries today. But lumber repairs.

Our prices have not changed any since our summary of price conditions in the last issue of the TUBA. You remet pointed out that building ma-terial prices, taken straight through were about 15 per cent below the prices of June, 1937. Now we are not going to climb out to the end of a limb by making any hard and fast state-ments about what building ma-terial prices are going to do. But we can say this: The lum-ber market followed the stock harket down beginning last fall and continuing on to June this year. The stock market has reversed itself and is making rapid advances upward. We do not say that lumber is going up. We simply say we are making all quotations on the basis of immediate acceptance, and subject to change without notice.

Our good BPS House Paint has been selling fast this summer. Lester Galley reports complete satisfaction with BPS Outside White, since he repainted the exposed woodwork on his newly stuccoed farm house. Much of the lumber had not been painted for many years, but two coats of BPS made it pure white.

There is hardly anything we

Wheat harvest gets right-of-way over everything and we are glad paper: Mr. R. J. Allison built a one it is so. We only hope the traffic room addition to his ranch house jam gets so thick in front of this north of town last month. He got lumber yard that it will be like

most trucks now carry much large loads with less delay at the ele tor than the smaller loads to years ago.

John Hacker worked over a fare house for Nestor Gass last we Since Nestor quit the dry-g business he has gone "back to farm" in a big way.

Most wheat farmers we tall with were not expecting big ye before they started cutting, just lots of them are finding to yields to be better than they pected. It's a lot nicer when it's that way instead of like this ye crop in Oklahoma and East T where they were looking bumper yields and got about hal or less of what they expected.

Remember 1931 and 1932, who wheat was around 25 cents a b el? The reason we bring that up because 60 cents may not much, but it is nearly 2 1-2 ti as much as 25 cents.

Detectives questioning a ne charged with stealing a typewrit were not getting anywhere. T brought in the machine.

"Lawzee, man," he exclain "You calls dat a typewriter? A was stealin'."

"It looks like a storm; you had better stay for dinner."

"Oh, thanks, but I don't this it's bad enough for that."

Let's Go On A Picnic

But First Lets Go To - -FURR FOOD

. . . Where We Get ALL THE FINER THINGS to Eat at LOWEST PRICES!

● FRESH MEATS ● CANNED FOODS ● LUNCH MEATS

• FRESH VEGETABLES ● FRESH FRUITS

Low price is a vital factor to any woman seeking to maintain a good table within the means of her budget. But no thinking housewife will ever allow quality to become endangered in her search for bargains!

For that reason we have always stressed all of our facilities to provide the utmost in quality, freshness, taste and absolute reliability to the people who trade with us. We can confidently say that no the said by us falls

below our rigid quality requirements.

Our methods are modern, our stores clean, our employees courteons and careful and the merchandise handled is always exactly as represented. That's your assurance of complete satisfaction—satisfaction you might expect to pay a premium for. Yet, our prices are never higher. What more could any food store give you?

past year. This year the July, August, September quarter totals \$4,373.30 as compared to \$3,497.19; October, November, December \$5,-301.60, as compared with \$4,244.55; January, February, March, \$3,945.31 as compared with \$3,635.41; April, May and June \$3,916.38 as compared with \$3,865.61.

Stamp sales were credited with the bulk of the increase reported through the Hereford office, since second class, permit matter and box rent contribute only a small portion of the business of the of-

record for the Gang.

The Water Sprinklers scored 2 in the first on three bingles, 2 in the second with one lick, 4 in the third on one blast, one in the fourth on nothing, and two in the sixth in two hits. The Merchants scored one in the second on nary a lick, and two in the fifth on one hit, and a sack full of fielders choices — and most of the time FC should be scored BH, but there is not place for bone head so they just call them FO; anyway you can still score on them.

A. Carroll had to go out of the game in the third frame, when he cut so hard at Bud's fast ball that he sprained his ankle; Arnie Stelzer took his place and missed the third one, Fred Blown also received a slight injury in the fourth frame when he cut at the third one so hard and missed it so far that he had to limp out of the box, Brown says he claims a record and is anxious to share it with his teammates-Brown claims that he is the only Catcher in the league that has ever fallen off a Garage, and if this doesn't stand up he claims an all time record of being the only softball player that ever fell off a garage and landed on a post and didn't even tear his pants - I mean the seat of his pants and still received a serious injury.

Don't fail to vote on this All-Star Team stuff. Let's get that over with from now on, but what ever you do please don't vote this Faulkner, Saturday, July 2. They fors and Mrs. O. L. McKee of Tubby Robinson as an All-Star Hereford; also 15 grandchildren, pitcher, because the Committee in charge has decided that if he does Mrs. Hamlin was a devout Chris- pitch, they will have to arm the tian and had been a member of infield with protectors and Frog the Ohristian Church for 62 years. Nets and mount the outfield on

B. BLACK CO. **FURNITURE and UNDERTAKING**

Polo horses, and they still can't get 'em out. That is too much trouble for a guy that can't pitch hay. One thing will come out for sure in this game though, Doc Janes, Kellar Muse and W. C. Pitman are blamed poor pickers—for their ball team sold out—and if we have a bunch of ball players that would throw a game for even a joke, the fans should know the Anyway, Grant says he is sure it was honest. The boys just don't know how to pick 'em.

Told and Retold for Centuries ... BUT Never Before Like This!
