W. T. C. OF C. CONVENTION HUGE AFFAIR

Estimates place the Hereford attendance at the West Texas Chamber of Commerce convention at Amarillo Tuesday at 300, including the Hereford band. The stores did not close, but a large part of the population went to Amarillo during the day or that night, and there were many Hereford people at the convention on every day of the three the convention assembled.

There was much disappointment locally over the fact that the new uniforms for the band failed to arrive in time and for that reason the boys could make no showing and could not hope to participate in the band contests at Amarillo. Miss Ruth Elliston and her escort, Hank Ramey, represented the city in the parade of cars and floats and the band did the best it could under the handicaps it carried.

The local Chamber of Commerce desires The Brand to express its appreciation to the Regent Store at Amarillo for the many courtesies extended the Hereford delegation. Regent's was the official headquarters for Hereford.

A crowd estimated to reach at least 40,000 swarmed all over Amarillo for the three days of the famous West Texas annual gathering. Amarillo took care of the huge overflow in spite of her congested conditions, due to the oil activities there, and nothing but praise for the way the convention was handled has been heard. At the business sessions of the organization Wichita Falls was winner over San Antonio and Lubbock for the next annual convention, and Homer D. Wade, assistant manager of the organization, was promoted to succeed Porter A. Whaley, manager, resigned to accept the work at San Antonio.

Galbraith Pitches A Fine Game Sunday

The Hereford baseball team, under the management of Ralph Smith, put up a bitter battle last Sunday against the Lubbock All-Stars than they have shown recently, and lost a good ball game to the visitors by the close score of 4 to 2 only because they faced a more experienced team and one that had better team work. The feature of the game was the magnificent pitching of Charles Galbraith, who whiffed twelve Lubbock batters and allowed them only six hits. Hereford scored both their runs in the first inning and fast support saved Mueller from other scoring especially in the ninth. Gober of Lubbock smashed out a homer.

Next Sunday the Whiteface bunch is scheduled to go to Clovis. The score by innings Sunday read:

Lubbock	000 022 000—4 6 0
Hereford	200 000 000—2 4 1

Batteries: Lubbock, Mueller and Hargrove; Hereford, Galbraith and Young.

Clarence Smith Makes Money on Feeding of Hogs

Another "old timer" in the Hereford country, who has solved the problem of how to live and make money here contributes a story to Deaf Smith county's list of successes this week. He is Clarence Smith, former postmaster, and now farming just across the creek south of town.

Mr. Smith milks eleven cows single handed. He feeds the skimmed milk to his Duroc hogs and sells the butter kerf. This week he sold G. W. Erumley, local hog buyer, fourteen hogs, seven of which were two days under six months old, and the other seven days over six months old. These hogs had been run on pasture, had all the skim milk they wanted, and had eaten just a little less than 170 bushels of maize.

They weighed out 2840 pounds, an average of nearly 203 pounds each, and brought \$15.00 per hundred, or a total of \$366.25.

Mr. Smith was highly pleased with the outcome of this transaction and has another batch of young hogs coming on all the time. He says there is money in the hog business in the Hereford country when they are handled in conjunction with dairy cows.

Dr. LeGrand and Family Are Back From Outing

Dr. and Mrs. G. F. LeGrand and their son, George, Jr., and wife, returned Tuesday night from a trip of several weeks overland to Bay City, Palacios, and other South Texas points. All are back rejuvenated and rested after their vacation. Dr. LeGrand has property at Bay City, and at Palacios the party enjoyed the beach bathing offered at the Texas seaside resorts.

Purcell Grocery Robbed of \$60.00 Thurs. Morning

Burglars, apparently two of them, broke into the Purcell Grocery store sometime Thursday morning, after the rain, worked the combination on the safe, prized open the inside sheet iron door of the safe and made their get-away with something like \$60 in cash. About \$50 of this was in the safe, and the remainder in the cash register. Checks were not taken. Nothing else of any importance was disturbed.

Sheriff Benton and Mr. Purcell, ex-shepherd, put in Thursday morning running down clues. The robbers were apparently on foot, and the tracks were traced over several streets in the city but finally lost.

A sledge hammer which was used in the operations was found two blocks west of the store. It had been taken from the Clark blacksmith shop, where the lock was smashed. A crow bar was also taken here and evidently used in prising open the window on the south side of the building where the entry was made. The burglars had first tried the south door, but failed to break it. They inserted the crow bar under the window and forced it up, breaking the catch loose.

Mr. Purcell is still scratching his head over the way his safe was opened. It was still on the combination when found. The officers have several clues to trace out, but have no information to give yet until they get further into the case.

Milt Hardy Has First Load Wheat: Gilbreath Second

Hereford's first two loads of wheat for the season of 1926 arrived Tuesday, and a Castro county man had the honor of being first. Milt Hardy, who resides in the Farrot neighborhood, christened the new Harrison elevator with the first load of 1926 wheat. It was slightly green and tested out fifty-six pounds.

Shortly afterwards Jeff Gilbreath brought in the second load of the season from his field just west of Hereford. It was good wheat and tested sixty pounds. And, by the way, it came from the magnificent field which was recently badly damaged by hail. Original estimates placed the yield on this field at from forty bushels up, but notwithstanding the severe hail damage it is now turning out fifteen to seventeen bushels to the acre.

E. B. Black is planning extensive alterations and improvements in his furniture store in the immediate future. The present plan contemplates the removal of the partition between the departments, the extension of the upper deck across both sides of the building, and the construction of a new loading room in the rear of the northeast corner of the building. When completed the store will have greatly enlarged storage and display space and will be modernized in many other ways.

Harold Lloyd in "For Heaven's Sake"—Star

If you have tears, prepare to hide them; if you have cares, prepare to shed them; and if you have troubles, prepare to forget them, for Harold Lloyd is coming!

Harold—with his lenseless spectacles and ingratiating smile; his shy, appealing manner and wholesome, contagious humor—is coming to the Star Theatre Thursday, Friday and Saturday, matinee and night, June 24, 25 and 26, in his latest funfest, "For Heaven's Sake!" to make you laugh and chuckle and grin and guffaw and roar at his antics, adventures and thrilling experiences as a missionary in the slums of a big city.

Yes, Harold is a psalm-singing evangelist in his new comedy opus—a mighty crusader, who comes to the conclusion that the underworld can stand a lot of uplifting. Just picture him trying to persuade the toughs and gangsters to tread the straight and narrow and slippery path and you'll have a faint idea of the uproarious action, the hysterical excitement and the delicious fun concentrated in "For Heaven's Sake!"

Of course, there's a girl at the bottom of Harold's strenuous soul-saving efforts—a lovely and lovable girl, charmingly personified by Jobyna Ralston, who furnishes the love interest so necessary to every well-balanced photoplay. Noah Young, James Mason and Paul Wiegert are others in the capable supporting cast. "For Heaven's Sake!" was especially written for Lloyd by Ted Wilde, John Grey and Clyde Bruckman. Sam Taylor directed.

Mrs. E. P. Floyd, aged 76, died at her home in this county June 23. Funeral services were held from the Methodist church, conducted by the Rev. J. O. Haynes, Thursday afternoon. More detailed information will be secured for The Brand next week.

DAN MOODY'S ADDRESS IS WELL LIKED

Hon. Dan Moody, attorney general and candidate for Governor, addressed and overflow crowd at Hereford last Thursday afternoon, in the district courtroom. He arrived by automobile and left immediately after the address for Canyon and Amarillo.

He was greeted by the Hereford band and a special local committee. Mayor Ireland presided and the distinguished guest was introduced by Attorney W. E. Dameron in a graceful speech.

Mr. Moody was worn out and tired from the long grind of the campaign, but full of pep and confidence notwithstanding. He spoke along the usual line, as carried in the daily papers, and devoted the major portion of his time to paying particular attention to Fergusonism.

The young candidate made a most favorable impression upon an audience that the district courtroom and galleries would not accommodate, and made many friends and supporters during the afternoon.

Party of Twelve Left For Big Outing Trip

Mr. and Mrs. E. B. Black and Mr. and Mrs. James E. Black left overland Thursday for a two weeks vacation trip to Colorado, the National Park, Grand Canyon and other tourist centers. During their absence Mr. and Mrs. Jesse Stanford of Black will come to Hereford and look after the household and Mr. Stanford will help at the store. Mr. and Mrs. Stanford are just back themselves from a trip to Cleburne and other Texas points.

Mr. Black's party was accompanied on the trip by several other cars, and a gay party that totaled twelve. The other tourists in the party were Misses Ora Hammer, Elizabeth Corbett, Mabel Gass and Leona Hood, and Messrs. J. W. Hendryx, Travis Dameron, Lamar Beavers and David Broadwell.

The party is traveling together and are out for a real vacation and a glorious good time.

A. & M. Athletic Business Manager Is Visitor Here

James E. Sullivan of College Station, Texas, Business Manager of the Athletic Department of the A. & M. College of Texas, spent several days in Hereford this week, visiting in the home of his sister, Mrs. George Cloyd.

"Suzy," as he is familiarly known to thousands of ex-students of the state school, has a unique record of accomplishments in the A. & M. He took a debt-ridden athletic department several years ago, built it up, financed it successfully, and today has one of the most modern athletic fields, finely equipped, in the south.

Mr. Sullivan has many friends in Hereford who were glad to shake his hand again.

Owen P. Smith Returns To Make Home Here

Mr. and Mrs. Owen P. Smith and children arrived Tuesday from McKinney, Texas, where they have resided for two years, and resumed occupancy of their home here. It is understood that Mr. and Mrs. Smith were "home sick" and just couldn't stay away from Hereford.

They will be gladly welcomed by their many friends. Mr. Smith may be specially welcomed by the county Democratic committee, in view of the near primary elections. It will be remembered that Mr. Smith several years ago established a unique record here when he handled the county convention alone and single handed.

R. C. Shuford of Dimmitt Is Dead; Masonic Services

Dimmitt and Castro County were shocked Wednesday morning to learn of the death of R. C. Shuford, aged 48, prominent citizen, farmer and stockman. Mr. Shuford had been ill for some time but his death was unexpected.

Funeral services were conducted at Dimmitt Thursday morning by the Rev. Fronabarger, with Masonic rites following. The body was brought to Hereford by the E. B. Black Undertaking Co., with Masonic escort, and shipped to Bellview, Texas, Mr. Shuford's old home, Thursday afternoon. The Masonic lodge of Bellview will receive the body upon arrival.

Mr. Shuford is survived by his wife and two children, one daughter married, and one young son. His passing is mourned by the entire community.

NEW GARAGE BY BEAVERS IS POSSIBLE

An important deal involving a half block of business property and the possible erection of another modern garage building was scheduled to come to a head Thursday afternoon. The property involved is the J. D. Burkett home place, 150x300 feet running through from East Third to the street south and across the street just east of the Brunley-Chevrolet Garage. The probable purchasers of this valuable property are the Rev. M. M. Beavers of Canyon and his sons, Hall and Lamar, now owners of the Beavers Bros. Garage, Dodge Agents, at Hereford. At present they are occupying the Broadwell property on West Third, where the Hereford Laundry used to be.

Hall Beavers stated Thursday that the news of the intended purchase had leaked out prematurely. Rev. Beavers was here one day the first of the week and was due back Thursday, when, if the title proved good, the papers would probably be signed.

Mr. Beavers would not discuss building plans, saying that was all in the future, but the property is being bought for that purpose, of course, and should the deal go through, a portion of the Burkett place not needed for garage purposes will be placed on the market.

Building activities continue in Hereford with unabated energy. A big crew of men are busy on the foundation of the new International Harvester Company's brick building, opposite the Courthouse on the west; the Buckner-Lambert building next the Star Theatre is rapidly nearing completion. J. E. Beyer, Santa Fe agent, is moving this week into his new home in East Hereford. The house he now occupies, across west from the Central school, will be taken by J. L. Penny, new attorney here. Ray Conway of Black has let a contract for a new residence on East Third.

The paving work on West Third is progressing. The curbing and gutter work is almost completed from Main to 25-Mile Avenue, and the foundations for the concrete are rapidly nearing completion.

Hatchery Has Placed 40,000 Baby Chicks

The Golden Rule Hatchery, which was established here last fall by H. H. Hawkins, placed 40,000 baby chicks among poultry men of this section during the past season. The hatchery started operations last February, with a capacity of 12,000 eggs. The plant will be doubled before another season, according to Manager Henry Williamson. He states that more orders were turned away than were filled.

White Leghorns proved to be the popular breed. Fully 70 per cent of the orders were for S. C. White Leghorns. R. I. Reds and Barred Rocks came next in demand. Customs hatching was done during the season for nearly twenty different breeds.

"White Slavery" Subject Lecture Sunday

The Rev. C. C. Montandon of O'Donnell, Nazarene minister, has been conducting a revival in a tent tabernacle on the vacant lot opposite The Brand office this week. The revival will continue through next Sunday, at least. While the Amarillo convention and other things have interfered somewhat, still the revival has maintained interest and is growing in attendance and spirit.

Rev. Montandon will lecture next Sunday evening on the subject of "White Slavery." A cordial invitation to the public to attend is extended.

R. W. Baird Buys 50 Head of Registered Herefords

Another Deaf Smith county farmer-stockman has entered the registered Hereford field. R. W. Baird, former sheriff, and son Horace C. Baird, who live in the Jumbo community, recently purchased fifty head of well bred registered Hereford cows, and one registered bull from Messrs. Foster and White, of Roswell, N. M. The cattle were inspected and sold at Clovis.

These cows are of very fine breeding and will be handled on the Baird 4-section ranch at Jumbo. Mr. Baird and his son have always run a nice bunch of high grade Herefords, and have an ideal place for an enterprise. Those who are acquainted with their careful and conservative methods of handling cattle are confident that the ranks of the registered breeds have gained two recruits who will reflect credit upon the industry.

Republicans Put Out County Ticket For Primary

The Brand carries a unique Political Column this week, the first of its kind in the history of this county. The Republican party blossoms out with a full political announcement of candidates for several state and most of the county offices. In some instances more than one Republican candidate for a given office has announced.

This revolutionary step in Texas political history grows out of the fact that last election year the Republicans polled over 100,000 votes in the general election in Texas, and under the provisions of the Terrell Election Law, are now required to hold separate primaries, just like the Democrats. Practically every county in the state, it is understood, is putting out its Republican Primary ticket this year.

Local Republicans are "peppy" and full of fight, and while they concede the ultimate victory to the Democrats, they declare themselves ready to enter the local political lists and "make a good showing" for their party this year.

E. Cook of Guthrie, Okla., owner of the Hereford Cotton Gin, paid Hereford a visit last Saturday. Mr. Cook looked into the local cotton acreage situation with County Agent Dunkle and others, and laid his plans for the opening and operation of the gin for the fall business.

Three Candidates Fail to File for Offices Sought

A most unusual and puzzling political situation among the candidates for county offices on the Democratic ticket was revealed last Saturday when the Democratic county committee met to consider the ticket for the July primary.

When the lists of applications were prepared it was found that three candidates had neglected to file formal applications with the committee, and therefore lost a place on the ticket, unless some legal remedy can be found. The three affected are Mose Baker, candidate for district and county clerk, and Mrs. Ed Connell and J. H. Weems, candidates for county treasurer.

It appears that the three overlooked the fact that Saturday, June 19, was the last day for filing.

Following the discovery of the omission County Chairman Travis wired the Attorney General asking if something could not be done to remedy the trouble. The Brand is informed that all of Mr. Baker's opponents agreed to sign a release from the provisions of the law, if that would enable him to continue in the race.

So far the matter has not been definitely decided, but friends of all three candidates are working on the problem and hope to find a way so that they may carry their campaign through the primaries July 24.

Brunk's Comedians Open Here Monday, June 28th

The Brunk's Comedians, under the personal management of Mr. Fred G. Brunk, will open a week's engagement in Hereford on Monday, June 28, showing on the lots across the street from the Brand office on Main street.

This season Mr. Brunk has a company of over 30 people, including a concert band under the direction of Frank Hyler, some real big feature vaudeville acts and one of the best casts of dramatic actors ever seen under canvas, who play the latest royalty hits, such as "Why Men Leave Home," "How Hearts Are Broken," "Meet the Wife," "Just Married," and "The Red Shadow."

The opening play Monday, June 28, will be Avery Hopwood's latest New York comedy dramatic success, "Why Men Leave Home," a play of the modern American home. This bill will be played in Hereford just as it was presented at the Broadhurst Theatre in New York for one solid year.

Jerry Barnes and his Eight Melody Makers will furnish the musical part of the program and all those who attend are assured a real musical treat for all of the Melody Makers are high class union musicians and have recently closed an engagement on one of the leading vaudeville circuits of the east.

Mr. Brunk formerly lived in Hereford and still claims Hereford as his home town. Since leaving here he has been connected with some of the leading amusement companies of the United States and Canada. Mr. Brunk buys only the best and most popular plays, and employs the best of union actors who are members of the Actors Equity Association.

There will be a free band concert in front of the huge tent each evening at 7:30, at which time the doors will be opened and the show will start promptly at 8:30.

LUNCH WITH COMMUNITIES IS NEW PLAN

The beginning of a campaign to make luncheon trips to the various school centers of the county was started Monday at the Chamber of Commerce dinner, held at the Hereford Hotel.

Secretary Moss gave S. P. Rossen of the I. H. Co., credit for the idea. Mr. Rossen said Plainview had tried it several years ago, with marked success. The general plan is to get a crowd of the business men one night in each week and meet at a certain schoolhouse. Every community has its need for money for local activities and the ladies will be asked to furnish the meal and let the merchants pay for their plates, just as they do in town. That will give the rural communities funds for working purposes of their own. After the luncheon a program can be put on, including music by the band, or orchestra.

Mr. Moss said that the money made by the rural ladies could be used by the "P. T. A." or some other local organization. Mr. Parker objected to the "P. T. A." on the ground that it must mean "Pa takes Action," and he wanted the ladies to have the use of any money they might make. Whereupon E. W. Harrison accused Mr. Parker of being for "Ma" and a near riot was the result.

The chair appointed Mr. Rossen, E. W. Harrison and G. W. Brunley as a special committee to work with the regular Trades Committee in developing details. Secretary Moss and County Agent Dunkle will also help.

Mr. Dunkle made an enthusiastic report on the interest being taken in the county over the forthcoming fair. He said all of the different communities are even now accumulating exhibits and getting ready for hard competition in the county booths next fall. He urged continued aid and encouragement from the business men of Hereford.

A. O. Thompson, Secretary Moss, E. W. Harrison and others discussed the West Texas Chamber of Commerce trip Tuesday of this week. It was finally determined to meet at the old ice plant, near the Rock Island depot in Amarillo at 1:00 p. m. Tuesday, where lunch and organization for the parade at 2:00 could be participated in cooperatively. All those planning to make the trip were urged to leave about 7:00 a. m., to get badges from the secretary, and to wear white shirts, so as to make the delegation as uniform as possible. Mr. Moss facetiously suggested that Hereford badges be pinned on any man, from anywhere, wearing a white shirt, but the Rev. Hill sternly opposed any such apparent deception. He was not quite sure, apparently, whether the secretary was "kidding" him or not.

The luncheon was attended by a good natured crowd, everybody joking and having a good time. Next week they will meet again at the Stockman's Cafe.

Rain Falls Here Twice; No Damage From Strong Wind

Two installments of rain have visited this community since last week. On Friday of last week five-tenths of an inch fell, and Wednesday night of this week another five-tenths was recorded. The last rain was accompanied by a hard, sharp wind and vivid lightning, but if any damage was done it had not been reported Thursday up to time of going to press.

Expert Teamster To Demonstrate June 28th

County Agent R. O. Dunkle has succeeded in obtaining an expert Teamster, who has had several years experience in handling big teams in Montana and Washington, to demonstrate in Hereford the proper system of hitching and handling big teams.

This demonstration will be given on the vacant lot near Jones & McClean's store, at 2:00 p. m., Monday, June 28, and will be held under the auspices of the American Horse Association. The demonstration will include an 18-horse Dalkington hitch.

Mr. and Mrs. Joe B. Elliston Move West

Mr. and Mrs. Joe Bailey Elliston left Hereford last Friday night for their new home in Alhambra, a suburb of Los Angeles, Calif., where Mr. Elliston will enter upon a business career. Mrs. Elliston's parents, Mr. and Mrs. D. C. Laird and brothers, Harroll and Carroll, of Plainview, came over to bid the young people goodbye. A large crowd of relatives and friends gathered at the station to wish them success and a happy journey.

**13 MILES A SECOND!
SATURN AND THE MOON.
IN BYRN MAWR AT 12.
BOOM COMING! GET READY!**

Millions noticed the planet Saturn sailing through the sky in company with the moon, a beautiful, unusual display. In the eastern sky they saw the beautiful blue star Vega, toward which our sun is supposed to be traveling, the star that in course of time will be our "north star."

A few years ago it was believed that Saturn and the moon were not far apart, and that both had been created to contribute light for man.

Every child knows now, that Saturn is millions of miles from the moon and that the moon is only a little cosmic "donkey engine," lifting the tides of our oceans, keeping them sanitary through constant motion.

Elizabeth Benson, twelve years old, is ready for college, reads Cicero in Latin; studies many things, including science, modern languages. She thinks her mind was developed by talking to her mother, a highly educated woman.

This young woman admits that she is "lasy and careless and needs to be scolded." She will probably be in Bryn Mawr before she is thirteen.

Where is the boy of fifteen that, ten or twenty years hence, will be worthy of this intellectual girl prodigy.

Doctors, experimenting at Cornell, say that many diseases, sciatica, neuritis, lumbago, neuralgia, angina pectoris and others are really all caused by "mechanical nerve irritation."

They "discover" that injury to a small bone at the base of the back can cause pressure on nerves that in one man will cause pain in the foot, in another chronic headache. Their remedy is to set this bone in place.

Mr. Rabbe, a mechanic, sixty-two years old, worked hard for years, while he and his wife took care of his twenty-two-year-old daughter, paralyzed from her waist down, unable to move. Two nights ago he wrote "Oh, God, forgive me. I can't stand this mental agony any longer."

Then he shot his daughter dead while she slept, and killed himself with the same weapon. Where do you suppose he is now? What is his punishment?

Until his wife died a year ago she took care of the paralytic daughter, never complaining. Women do that.

Judge Gary, head of the United States Steel corporation, biggest industrial enterprise on earth, told other steel men yesterday that "business is sound and growing, and prosperity is perhaps greater than ever."

That puts it conservatively! Nothing can hurt this country but its own foolishness, eagerness to mix in Europe's affairs, investing billions in doubtful European bonds, etc.

We have wealth, industrial knowledge, skill, most of the money in the world and about all the substantial credit, outside of Switzerland and the British Empire.

And we haven't even scratched this country's wealth. The biggest boom ever seen is due next fall. Write that down, and get ready for it.

Yesterday Kansas scientists with a Leyden jar electrically charged to 4,000 volts made it possible to hear the actual sound of atoms dashing against each other. It's useless denying any statement about the atom, or its construction, for all that scientists tell you is beyond human comprehension.

The hydrogen electron charged with negative electricity, revolves around its positively charged nucleus one thousand trillion times in a second. The atom is small, but even so, that electron travels thirteen miles a second in its tiny orbit.

Some day the INFINITELY SMALL seen through a microscope, will be as familiar to every educated man as the infinitely great seen through the telescope, but it is bewildering now.

NOTICE

By order of the County Judge of Deaf Smith County, Texas, this the 15th day of June, A. D. 1926.

What's Doing in West Texas

Washington, D. C.—The West Texas Chamber of Commerce, through their Washington representative has intervened in the hearing regarding the control of the Thurberia weevil of Arizona. This weevil, a dry land insect, is even more destructive to cotton in dry uplands such as West Texas than the Mexican boll weevil has proven in more humid sections. The U. S. Department of Agriculture has framed a rigid system of regulatory measures similar to those employed to combat the pink boll worm and a quarantine of Arizona cotton is contemplated unless the pest has been brought under control.

Stamford.—Reduced passenger rates have been granted by the Rock Island, Santa Fe, T. & M-K-T, and the Denver Roads on labor moving to West Texas during the harvest season. Fare of two-thirds the regular one-way rate has been granted by these roads on parties of twenty-five or more moving into the grain belt of West Texas. These rates are now in effect and will continue until July 17.

Chillicothe.—A great July 5th celebration will be held here. The celebration is sponsored by the American Legion and is supported by the Chillicothe Development Club. Fireworks and other entertainment is to be provided.

Ranger.—The old Ranger Refining plant here has been rehabilitated and will be operated by the Petroleum Products Corporation of Pittsburgh, Pa. These people are considering the establishment of a mineral rubber factory here in connection with the refinery.

Cisco.—R. C. Lee, president of the West Texas Chamber of Commerce has returned to his home following the completion of his campaign thru the Heart of Texas district in behalf of his program of diversified and intensive farming.

San Antonio.—Porter A. Whaley, manager of the West Texas Chamber of Commerce for the past seven years, will assume his new post as manager of the San Antonio Chamber of Commerce on July 15.

Hamilton.—The Hamilton Chamber of Commerce has reorganized after a period of inactivity and has selected Chas. McMorte as secretary. E. H. Whitehead publicity manager of the West Texas Chamber of Commerce was principal speaker at the regu-

lar banquet of the Chamber of Commerce held this month.

San Saba.—The greatest oat crop in the history of this section is now being threshed. Fields of more than 100 bushels per acre are common and the average yield is nearly eighty bushels per acre.

Breckenridge.—This city is to have a new five-story hotel to cost four hundred thousand dollars.

Olney.—Boyce House, well known West Texas newspaperman, formerly staff correspondent for the Ft. Worth Record, is the new editor of the Olney Enterprise. House will also serve as general publicity man for the town, working in co-operation with the Olney Chamber of Commerce.

Cross Plains.—Fifteen thousand dollars has been appropriated by the state highway commission for the purpose of improving the corner of State Highway 23 through this county. This gap is the only weak link in the chain from San Angelo to Fort Worth, via the Bankhead Highway.

Simple Reason

"Hi say, old chap, 'an where were you born?"

"In Dublin."

"My word that's a long distance away. And why did you pick out that spot?"

"Sure, just to be near to me dear old mother!"

PROPOSED AMENDMENT TO THE CONSTITUTION.

HOUSE JOINT RESOLUTION NO. 9
 A resolution proposing an amendment to Art. 7, of the Constitution of the State of Texas by changing Section 3, eliminating the provision authorizing the Legislature to create special districts and making an appropriation therefor.
 Be It Resolved by the Legislature of the State of Texas:

Section 1. That Section 3, Article 7, of the Constitution be so changed as to read as follows: (creating new Section.)

"Section 3. One-fourth of the revenue derived from the State Occupation taxes and poll tax of one dollar on every inhabitant of the State, between the ages of twenty-one and sixty years, shall be set apart annually for the benefit of the public free schools; and in addition thereto, there shall be levied and collected an annual ad valorem State tax of such an amount not to exceed thirty-five cents on the one hundred (\$100.00) dollars valuation, as with the available school fund arising from all other sources, will be sufficient to maintain and support the public schools of the State for a

period of not less than six months in each year, and it shall be the duty of the State Board of Education to set aside a sufficient amount out of the said tax to provide free text books for the use of children attending the public free schools of this State; provided, however, that should the limit of taxation herein named be insufficient to meet the deficit may be met by appropriation from the general funds of the State and the Legislature may also provide for the formation of school districts by general laws; and all such school districts may embrace parts of two or more counties, and the Legislature shall be authorized to pass laws for the assessment and collection of taxes in all said districts and for the management and control of the public school or schools of such districts, whether such districts are composed of territory wholly within a county or in parts of two or more counties, and the Legislature may authorize an additional ad valorem tax to be levied and collected within all school districts heretofore formed or hereafter formed for the further maintenance of public free schools, and for the erection and equipment of school buildings therein; provided that a majority of the qualified property tax paying voters of the

district voting at an election to be held for that purpose shall vote such tax not to exceed in any one year one (1.00) dollar on the hundred dollars valuation of the property subject to taxation in such district, but the limitation upon the amount of school district tax herein authorized shall not apply to incorporated cities or towns constituting separate and independent school districts, nor to independent or common school districts created by general or special law."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of the State at an election to be held throughout the State on the first Tuesday after the first Monday in November, 1926, at which election all voters favoring said proposed amendment shall write or have printed on their ballots the words, "For the amendment to the Constitution of the State of Texas eliminating the provision which authorizes the Legislature to create special school districts," and all those opposed shall write or have printed on their ballots the words, "Against the amendment to the Constitution of the State of Texas eliminating the provision which authorizes the Legislature to create special school districts."

Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution and existing laws of the State.

Sec. 4. That the sum of two thousand (\$2,000.00) dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas not otherwise appropriated, to pay the expenses of such publication and election.

Did This Ever Happen to you?

Did you ever have an argument over the payment of a bill with your grocer, druggist or doctor—you protesting that it had been paid, and he insisting it hadn't?

These things are annoying and can only happen when bills are paid in cash and no proper receipt preserved. They cannot happen when bills are paid by check, as the canceled check positive proof of payment.

YOUR BIRTHDAY

JUNE 26th-26th.

If your birthday is this week you have a gay, happy and talkative disposition—you are kind, sympathetic and generous to a fault. You are very tactful, even-tempered, and intuitive, and make many friends. You are a brilliant conversationalist, but at times are silent, dignified and reserved. You have a good deal of self-reliance, show much persistence and pertinacity regarding your undertakings. You are shrewd and lay your plans with admirable caution. Your aims are always high—your judgments just and impartial. You decide questions quickly, but never jump at conclusions.

Women born during these dates are active in church or society work, and are always dependable, helpful friends to those in trouble. They make exceptionally fine teachers. They are very domestic in their desires, however, and seldom succeed in a business career. Men become judges, lawyers, physicians and brilliant speakers. Both men and women are students.

The Sunday School Lesson

(Notes prepared by Rev. W. R. Hill, Th. M. Baptist Church.)

Subject, "Messages from Genesis—A Review."

Golden Text: We know that to them that love God all things work together for good, even to them that are called according to his purpose.—Romans 8:28.

Devotional Reading (Hebrews 11:4-22.)

4 By faith Abel offered unto God a more excellent sacrifice than Cain, by which he obtained witness that he was righteous, God testifying of his gifts: and by it he being dead yet speaketh.

5 By faith Enoch was translated that he should not see death; and was not found, because God had translated him: for before his translation he had this testimony, that he pleased God.

6 But without faith it is impossible to please him; for he that cometh to God must believe that he is, and that he is a rewarder of them that diligently seek him.

7 By faith Noah being warned of God of things not seen as yet, moved with fear, prepared an ark to the saving of his house; by which he condemned the world, and became heir of the righteousness which is by faith.

8 By faith Abraham, when he was called to go out into a place which he should after receive for an inheritance, obeyed; and he went out not knowing whither he went.

9 By faith he sojourned in the land of promise, as in a strange country, dwelling in tabernacles with Isaac and Jacob, the heirs with him of the same promise.

10 For he looked for a city which hath foundations, whose builder and maker is God.

11 Through faith also Sara herself received strength to conceive seed, and was delivered of a child when she was past age, because she judged him faithful who had promised.

12 Therefore sprang there even of one, and him as good as dead, so many as the stars of the sky in multitude, and as the sand which is by the sea shore innumerable.

13 These all died in faith, not having received the promises, but having seen them afar off, and were persuaded of them, and embraced them, and confessed that they were strangers and pilgrims on the earth.

14 For they that say such things declare plainly that they seek a country.

15 And truly, if they had been mindful of that country from whence they came out, they might have had opportunity to have returned.

16 But now they desire a better country, that is an heavenly: wherefore God is not ashamed to be called their God: for he hath prepared for them a city.

17 By faith Abraham, when he was tried, offered up Isaac: and he that had received the promises offered up his only begotten son.

18 Of whom it was said, That in Isaac shall thy seed be called.

19 Accounting that God was able to raise him up, even from the dead; from whence also he received him in a figure.

20 By faith Isaac blessed Jacob and Esau concerning things to come.

21 By faith Jacob, when he was a dying, blessed both the sons of Joseph; and worshipped, leaning upon the top of his staff.

22 By faith Joseph, when he died, made mention of the departing of the children of Israel; and gave commandment concerning his bones.

More than half of the time of the world's history up to the time of the last writings of the New Testament is under consideration in the lessons of this review. From creation to the death of Joseph is recorded by chronologists as 2369 years. This is a longer time than from the birth of Christ to the present time by more than 400 years. The first line of our Bible was written by Moses, under Divine inspiration, more than 2500 years after the events occurred. And Genesis is the only record of creation-events offered. How fortunate the world is to have such inspired writings. These we are to review in our lesson today.

1. Our first message from Genesis is that God is the Creator and Sustainer. The spotlight of heaven is thrown on the process of creation from Hebrews 11:3. "The worlds have been formed by the word of God, so that what is seen hath not been made out of things which appear." All the species of the earth were created during those "six days" of creation, and no new species have appeared on the earth since. The vegetable and animal creations were wonderful, but were preparatory to a more wonderful being to come immediately from the hand and heart of God. Man, of the sixth day, constituted the climax of creation, for he was made "a living soul." Man was constituted as to especially honor his Creator in the sight of all creatures. How far man failed of this is a matter of Biblical history and profane history as well. But that history is illuminated by such characters as Abel and Enoch, Seth and Noah, and Abraham and Joseph. They were real men who struggled and won. They are stars of the first magnitude!

God is shown in all the lessons of the quarter as concerned about his people. The Immanence of God is a Bible doctrine as truly as His Transcendence. He is not only superior to all his creation and to be identified with it, but he dwells among us unseparated by exercising loving and real and providential care. That Enoch could walk with God and enjoy such fellowship with the Divine is a wonderful providence. This man was translated after having the testimony that he "pleased God." God miraculously sustained Noah and the others in the ark. He providentially sustained Jacob and

his offspring during the terrible famine. And marvelously did his sustaining grace go out to Jacob in every need. God fed their souls with his wonderful presence as he later fed their bodies with the Manna from Heaven. And it is our joy that he declares unto us for all time, "I will never leave thee nor forsake thee."

2. Another message to us from our studies of the second quarter is one that we must not lightly consider—Sin is the awful blight of God's wonderful creation. What sorrow and anguish was wrought during those 2500 years! Disobedience early in human history brought grief to God and disaster to man. It always does. Ambition within unselfish bound is worthy, but mixed with selfishness it is ruin. "By it fell the angels", and man fared no better. How soon did lust conceive and bring forth death! Soon envy and hatred had stained the earth and fratricidal blood. Lying and killing and drunkenness and polygamy and oppression were the order of the day. But God was looking on. He always is! Justice, slow but sure, appears. God is aroused! "He will not always chide, neither will he keep his anger forever." A terrible flood, world-wide, expresses God's repulsion of sin. But God's grace cares for his followers in the midst of calamity and ruin; and "eight souls were saved by water," i. e., by the ark of God's gracious provision. Sin is essentially selfishness. "Sin is lawlessness." Let us learn that sin is sure of punishment—God has so decreed. Let us all be wise and not foolish.

3. God blesses all the world thru his trusting and obedient people. The blessings that Abel brought the world can never be estimated. Such an example of faith and explicit obedience

can never cease to do good. Though he die, as Abel, one will yet speak in blessing. This man Abel relied upon a promised redeemer who was to die for his sins 4000 years in the future. But it was nevertheless real to him, and when he came to offer worship to God his bleeding offer showed where his faith centered. Enoch, who walked with God in an unholier generation, has been an inspiration to all who wanted to "please God," and thereby have rewards of righteous living. Enoch is a rebuke to all materialists and man-pleasers. He occupied no place of power or prominence, but he did "please God" and his name is recorded on the Royal Scroll of Fame. And let us not overlook the fact that God walked with Enoch, too.

And Abraham, who just trusted God! His great fame rests not in that he was greatly blessed, but in that he was a great blessing. His great wealth is forgotten, his great prowess as a warrior is forgotten, but his faith and loyalty to God is an inspiration to believers always. And Joseph, the pure and diligent young man. How mysterious were the divine providences of his career. He taught the world to stay hopeful and pure and helpful under the most adverse conditions. His life was not embittered by the maltreatment he had endured. He just "kept on keeping on" doing right and magnanimously. Such a life is needed always and everywhere, and is worth a thousand. How many youths in all ages and all lands have been held to purity of person and loyalty of service by this fine young Hebrew lad! He would not harbor resentment in his life even against those who had terribly wronged him. He was too big to be little.

4. Some other lessons briefly stat-

- a Faithfulness leads to certain success.
- b Parents should not be partial to any child, as there are not many Josephs.
- c Brothers should love and help each other.
- d God uses folks to carry out his plans.
- e Unselfish self-sacrifice will win out at last.
- f God is sovereign and we should seek to get on his side.

Meeting the "Bull" Durham Smoker Face to Face

I am just making, as the Politician says, "A swing around the Circle," to see what was going on in "Real America." I had been in New York so long, I was getting a kind of a Subway "Slant" on things. I was becoming as narrow as a Metropolitan Newspaper Editorial Writer. My eyesight was getting so poor I couldn't see beyond the Hudson River, and my mind wouldn't function farther away than Albany, N. Y.

I knew that New York was "amusing the world," but I wanted to meet the fellow who was "feeding it." I am kinder oddly constituted. You can cut off my amusement, but if my food stops you are going to have an argument on your hands.

I, as Editor and Proprietor of the Bull's Eye, wanted to meet not only the readers, but the consumers of THIS Wonderful Product of OURS. (The American Tobacco Company and me.) Well, I wish you could see the type of Men they were, Big fine healthy upstanding He-Men. They were not the little Anemics that has to tap his Cigarette on the box before he can smoke it. They were our Producers of our Necessities of Life. When I saw the type of He-Men smoking "Bull" Durham, it almost made me cry, that I wasn't a smoker myself.
