

## AROUND TOWN

Sights and Faces Seen.

There has been quite a mixing on houses around here lately, with a number of people moving or planning to move in a short while. Only this week, Miss Nettie Lee Oliver, CHDA, moved from the Gilliland apartments to Mrs. Charley Donald's rent house, and Alex Bateman, County Agent, moved into the home formerly occupied by Preston Walker and his family. In the near future, Mrs. Anna Holman and Joe Kendall plan to swap houses. The Benefields are repairing the old Welliver place. There are a number of rumors and threats of building being spread, but the only real start made so far has been by Speck Wupford, Theatre manager, who is building on the lot north of Cliff Acker.

If anybody asks, the handsome metal container in the middle of the china display in Anderson's window is a vegetable rack. They are reputed to be quite handy contraptions.

The site for the new Post office across the street north from the Star Theatre is already attracting a lot of attention. A number of interested parties have taken pictures of the site from the roof over the

### Legion Picnic At Campa On Labor Day

The Kerley-Crossman Post of the American Legion at Campa selected Labor Day, September 4, as the date for its annual free community picnic, it is announced this week by M. Rouche, picnic chairman. It will be an all-day affair and plenty of entertainment has been planned. Games and contests, all with prizes for the winners, have been planned for all ages.

It has been requested that everyone who attends the picnic bring a filled basket in order that food for the occasion might be furnished in that way. Everyone in the Panhandle is being cordially invited, and it is hoped that neighboring towns of both Campa and Berger will be well-represented at the occasion.

### Decide Who Plays The Plowboys In Tonight's Game

When the Lions and the Odd fellows finish their fray at the football field tonight, the semifinal eliminations will be over, and the winner will meet the plowboys tomorrow night in the first game of the championship series.

The game tonight starts at 8:30. The Lions and the Oddies have each captured one game in the elimination series, and each team is confident that it can do it again tonight. This promises to be the best game yet.

The Plowboys have proved themselves to be the best so far, with the score 9 to 4 in the last of the seventh last night, the

### International Parks Hi-Way Commission To Meet Here On Sept. 4

Announcement has been made at the International Parks Highway Commission will meet here on Monday, September 4. Dinner will be served to delegates in the Club House at the County Park by local ladies.

Prominent among important items present will be Dr. H. W. Forelock, president of Sul Ross State Teachers College at Alpine, who will address the group at 7 p. m. Also to address the group is Jim Douglas, Division Highway Engineer.

About twenty counties along the route of the highway are expected to be represented. State Highway 51 is the route taken of the International Parks Highway.

### O. G. Hill And Family Seriously Hurt In New York

O. G. Hill and four members of his family are in the Knickerbocker Hospital in New York City as the result of a wreck which occurred there late Saturday night when their car and a bus collided on a downtown street. Their condition is reported serious.

The accident occurred during a heavy rainstorm. Mr. Hill was operating his automobile south on West End Avenue and was making a left turn into 102nd St. when the car was struck by a northbound bus. No police action was taken against either of the drivers.

A hospital report issued Monday gave the following account of the injuries: O. G. Hill, 51 years old, who was driving, severe ear cuts and hemorrhagic shock, given a blood transfusion, condition critical.

Mrs. Bessie Hill, 39 years old, wife, broken pelvis, possible skull fracture, internal injuries, condition critical. Orville Hill, 16 years old, daughter, broken pelvis, possible skull fracture, internal injuries, condition serious.

O. G. Hill, Jr., 15 years old, son, possible skull fracture, condition good. Young Foster Hill, 13, apparently escaped injury. A later report obtained by wire from Austin Hill, brother of O. G. Hill who rushed to New York by plane Monday, stated that Mr. Hill and O. G. Jr. were out of

### Pay Rabbit Bounty On Wednesdays And Saturdays Only

County Judge A. J. Schroeter has announced that rabbit ears will be accepted at the Court House for bounty payment only on Wednesdays and Saturdays. On these days each week the janitor will accept the ears in the basement of the Court House between the hours of 9 a. m. and 5 p. m.

Rabbit hunters are warned that ears will be accepted only on Wednesdays and Saturdays of each week, and they have been asked not to attempt to have them taken at other times.

A bounty of 2 cents for each dead rabbit is paid on rabbits killed in Deaf Smith County by Deaf Smith County residents.

### Alderson Variety Holds First Sale

In observance of his third anniversary in Hereford, Tom Alderson today announced an anniversary sale, beginning Friday, August 25, and continuing through Saturday, Sept. 2.

"Although we have been operating our variety store here for the past three years, this will be the first sale we have ever held," he said. "We are featuring bargains on all types of merchandise throughout our store, and invite you to visit us during the big sale. Our first sale is a big event with us and we have spared nothing in bringing you high quality merchandise at prices that will result in savings throughout the entire season."

### Contractors To Bid On \$75,000 Post Office Here

The Public Building Administration of the Federal Works Agency, Washington, D. C., advertises on page 10 of this issue for contractors' proposals to build the new Post Office in Hereford.

According to the statement issued from that office, the proposals, which must be submitted in duplicate, will be examined in Washington at 1 p. m., September 20.

Each contractor who desires to bid on the contract will receive free on application to Washington a set of plans and specifications for the building. These plans are to be returned to the office of the Federal Works Agency in Washington together with the bid.

Requests for plans are to be mailed to W. E. Reynolds, Commissioner of Public Buildings, Federal Works Agency, Washington, D. C.

It is expected that construction of the new building will begin around October 1. The new Post Office will be built with Federal funds authorized two years ago by Washington officials. The sum listed as available for the construction of the building is \$75,000.

Last year, after the construction of the Post Office had received official designation from Washington, eight bids for lots to be used as a site for the new building were submitted to

### Rural Students To Enroll Sept. 1 or 2

Students who plan to attend school in Deaf Smith County rural schools this fall were requested this week to note that they will enroll in their respective schools on September 1 or 2.

County Superintendent A. J. Schroeter, who made the announcement, stated that all rural schools would enroll on one of these days. The students in the various communities are to learn from their teacher or from the trustee in their community on which day they are to enroll.

All rural school students are urged to pay attention to the time of their enrollment and attend to the matter on schedule. All schools in Deaf Smith County will open on Monday, September 4.

### Hereford Laundry Remodels Helpy-Selfy

The Helpy-Selfy department of the Hereford Laundry and Dry Cleaning Co. has just been completely remodeled and housed in a room entirely separate from the main plant of the laundry.

One of the most attractive features of the new department is the fact that the washroom is air-conditioned, making it no longer necessary for those washing to work in tiring, uncomfortable heat.

Employees of the laundry keep the machines clean and filled with fresh water after the user finishes. The floor is kept free of all trash and excess water at all times. Each machine is thoroughly sterilized with live steam after each use. There is no limit to the

### Min. E. M. Borden To Leave Hereford

E. M. Borden, who has been minister of the Church of Christ in Hereford for the past two years, has accepted a call to Porterville, Calif., to begin about the first of October. Minister Borden and wife will leave Hereford about the fifteenth of September, in company with their daughter and son-in-law, Mr. and Mrs. Swinney and grandson, Jimmie. Mr. and Mrs. Swinney live in San Diego, Calif., where Mr. Swinney has a position with the Safeway Store Co.

Minister Borden was at Hawthorn, California, before coming to Hereford two years ago

### Insurance Law Puts Butane Tanks Outside Of House Using Gas

Attention has been called to the provisions of a law given in the Insurance Commission's Law of the State of Texas which applies to individual gas systems using butane, propane or other similar gases and which makes it impossible to collect damages from any cause on a dwelling using such gas system if the pressure cylinders are installed inside the house.

The law in full states: "Permit is hereby granted, when not in violation of any law, statute, or municipal ordinance, to

### Haile Drug To Open Removal Sale This Week

Announcing that preparations are being made as rapidly as possible for Haile Drug to occupy their new location, Meade Haile today said that a store-wide removal sale will open Friday morning.

"We are anxious to reduce our stock as much as possible before we start moving," Mr. Haile said. "Hundreds of items have been reduced for the removal sale; we invite the public to visit our store and to inspect the bargains we have to offer during the big sale."

Mr. Haile also stated that he hopes to make the new store one of the most modern and most complete drug stores in the Panhandle. New fixtures, a new fountain and new displays will be featured throughout the store, which they hope to occupy within the next two weeks.

### FHA Officials Meet Here August 28th

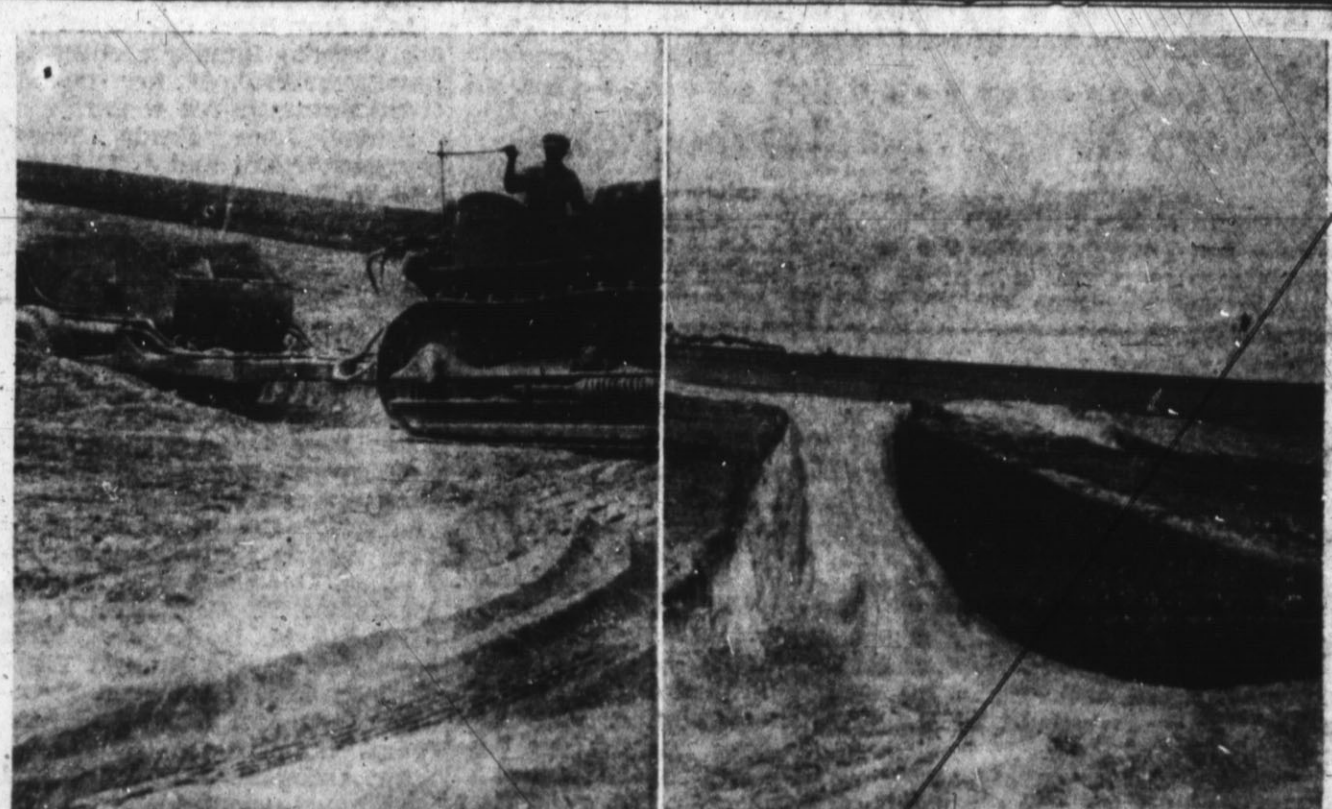

DALLAS, TEXAS, August 16—In order to acquaint lenders, dealers and others with new FHA legislation passed during the recent session of the Congress and to provide them with detailed information concerning loans for building and modernizing homes, a program has been announced by P. S. Luttrell, State Production Manager of the Federal Housing Administration calling for visits by FHA Mortgage Conference Representatives to 79 towns in Texas during the remainder of August. The schedule calls for a visit to Hereford on Monday, August 28.

Mr. Luttrell said, in announcing the field activities for August, "The recent reduction of

### North Hereford H-D To Be Host To Clubs

The North Hereford Home Demonstration Club will be host to all Home Demonstration Club Members and their families and friends at a picnic supper at the club house in the Hereford State Park on Thursday, August 31, at 6:30 P. M. A basket supper will be served.

Those who wish to spend the night also, will bring bedding and enough bread, bacon, eggs, etc., for breakfast.

JUST COMING OUT OF THE TRENCH is the big engine pulling the pneumatic-dump Fresno used in digging the trench silos which have been proved so efficient in storing good ensilage. On the right is one of the trenches completed on the Wiley Roberson farm. It is fifty feet long, and it will hold over 640 tons of ensilage. A large number of trench silos are being constructed in Deaf Smith County this year.

### DITCHES BEING DUG FOR FEED STORAGE

With the time for cutting feed almost at hand, a number of Deaf Smith County feed growers and cattlemen plan to make use of facilities to store silage for the first time this year. The advantages of the trench silo have been demonstrated both by actual use and in experimental stations, and a number of these trenches are being dug in Deaf Smith County this year.

Prospects for one of the largest feed crops ever cut in this county make this season ideal for the introduction of ensilage storing and feeding in this section. Crops such as the corns, sorghums and the new atlas sorgo cover a large acreage in this region, and thousands of tons of ensilage will be placed in trench silos in this county this fall.

Wiley Roberson already has one silo completely filled and is working on another one. He has been dug on the Ky Lawrence and John Pitman places four trenches on his farm. Silos and are under contract to be dug on the following farms: Joe Evans, Cecil Guseman, Sylvester Slagle, Oscar Easley, J. M. White, Cecil Gunter, Roger Brumley, Rufus Sewell.

Those whose silos have not been dug are advised to place them in such a position that water can be turned in on the trenches if necessary. The trench should be dug with sloping walls in order to prevent loss form shrinkage away from the walls and seepage. Desiccated feed can be placed in a trench silo and watered with results so satisfactory that it is almost impossible in some cases to distinguish ensilage treated in this manner from that prepared from feed stored immediately after cutting before

### Streu Announces Kohler And Eljer Plumbing Fixtures

Streu Hardware Co. opened a new department of merchandise at their store in Hereford this week when they introduced a complete line of Kohler and Eljer plumbing fixtures into their large line of hardware and household stock.

The new department features reliable plumbing fixtures at moderate cost. The public is invited to inspect the merchandise as it is displayed in the Streu Hardware Store.

In association with the new department, Streu's announce that H. C. Aulick will do plumbing work with offices in the hardware store. Mr. Aulick came to Hereford from Amarillo, where he has spent the past two years with Roy Burke and Co. He has twelve years plumbing experience and is capable at all types of plumbing. New installations and repairs are offered by him at reasonable prices.

### Bradly Announces Life-Saving Badges

Bud Brady, official Red Cross Life Saving Instructor, has announced the names of those who passed their Junior and Senior Lifesaving tests at Buffalo Lake recently. Those who have passed the tests receive badges and also labels to go on their bathing suits.

The following boys passed the Junior tests: Jeff Burk, Bobby Jennings, Billy Massey, Quentin Williams, Glenn Smith, George Walker, John Estes, Thurman Williamson, David Phillips, Wayne Phillips, Billy Davis, Riley Carlton, and Edward Ray Roberson.

Jack Cox was the only member of the class to obtain his badge. (Continued on Page 12)

### Crop Insurance For 1940 Being Written

With more than half million dollars repairing the damaged purchasing power of nearly 2,000 Texas wheat farmers who had had luck with their crops this year, county AAA offices this week began taking applications for insurance on wheat crops to be harvested in 1940.

E. R. Duke, state crop insurance supervisor at Amarillo, emphasized that farmers this year must apply for the insurance before they seed their wheat. Premiums are payable when the application is filed.

Meantime, adjustment of 1938 crop losses continued throughout the wheat belt. Jess Watson, Newcastle farmer and member of the State Agricultural Conservation Committee with headquarters here, predicted a sizeable increase in the

### PROCLAMATION

TO ALL MOTHERS AND FATHERS OF THIS COMMUNITY: Whereas, Days have been set aside honoring virtually everyone, and Whereas, Mother's and Father's Days are prominent among these, and Whereas, Daughters receive little notice and less consideration, let it be

Known, Our daughters deserve more time and consideration from their parents if they are to become the high type of parent and citizen we would have them become.

With this in mind, I, as mayor of the City of Hereford, take great pleasure in proclaiming Sunday, August 27, 1939, DAUGHTER'S DAY.

(Signed) C. J. PADDOCK, Mayor.

**CHDA NOTES**

By Sadie Lee Oliver

After the Fairview Home Demonstration Club Adjourned on August 8, the fifteen acre irrigated vegetable garden on the Elmer Womble place was visited. This has been planted by O. A. Crotwell formerly of Portales. Pumpkins, onions, cantaloupe, carrots, beans, turnips, beets, black eyed peas, cucumbers, okra, yellow crookneck squash, tomatoes, peppers, and banana squash were among the vegetables coming into production. The garden visitors were Mesdames Womble, W. O. Comingoer, O. J. Grabbe, Griffith Wynn, Sam McCraw, Doyce Griffith and the agent.

Over the week end Mrs. Elmer Womble canned 82 quarts of fruits and vegetables including apples, peaches and greens. Her seasons canning runs to several hundred containers. She uses tin cans and glass jars. She considers tin cans less trouble but more expensive.

The members of the home demonstration club enjoyed seeing the plumbers at work installing running water in the home of their hostess Mrs. Sam McCraw. The kitchen and yard will have connections.

That old idea of "roses round the door" is not only sweetly sentimental but of scientific value, says Mrs. Bernice Clayton, specialist in Home Improvement for the A. and M. College Extension Service. Vines on trellises used as screens do not cut off the air from farmhouse windows and doors, and they are effective in reducing solar radiation on the walls of the house. Recent experiments have proved because the vines are lower in temperature than the house, it is also believed that they take the heat from the wall by radiation, she says.

The delightful difference in the air inside and outside the home of Mrs. Jim Mauck has frequently been commented upon by Mrs. J. T. Guinn. The vines are planted away from the windows and so do not prevent the circulation of air. Shrubs and trees shadow the back lawn and cool the air in that manner.

When Mrs. Carl Wimberley was showing callers the several varieties of Buffalo grass found in the natural growth on her lawn she learned that 2000 types are being grown in a plot at the U. S. D. A. Dry Land Field Station near Woodward, Okla.

For continuous flowering a hedge of the following five plants planted in the order given and repeated as needed to complete the planting has been found satisfactory:  
Vitis - agnus - castus - Chaste tree.  
Vitis negundo incia - Cut leaf Chaste-free.  
Chilopsis linearis - Desert willow.  
Culutea arborescens - Common Bladder-senna.  
Tamarix hispida - Kashgar Tamarix.  
Such hedges grow tall unless cut back each season.  
Most of these plants can be seen in flower at the homes of Mr. and Mrs. G. E. Thiele and Mr. and Mrs. Dennis Barnard where they were planted in the spring of 1939.

What Goes On Here? A Column of Fun and Amusements BY MARY JANE MORGAN

Did any of you happen to see smoke and fumes issuing from the port holes of the local "cabaret" last Thursday morning? Yes? Well, weren't nothing except Shorty Van and Dave Purdue fumigating the show building after "ZAZA" finished her can-can, and left! It was that lousy. Or maybe you know...

If this column led you astray in believing that picture might be good, we apologize. How were we to know it reeked, when two people whom you might remember we quoted said the thing was O. K.? Also, this week's column apologizes for last week's column. It reeked. Next week's column will apologize for this week's. It reeks.

Now that the social amenities have been rottenly wrought, it is our job to convince you skeptics that something really happened around here last week. In the first place, Mayor Paddock issued a proclamation declaring a Daughter's Day, August 27. That is, he signed a ready written one, and he remarked that he'd do anything for the girls, so the future ought to hold a great deal... Maybe even

a town-wide "Sadie Hawkins Day." Not saying one is needed, but it does appear evident that there is quite a surplus of unclaimed blessings roaming the local terrian. Tying in nicely, but perhaps not comparably, is the flicker coming up today and tomorrow, "THESE GLAMOUR GIRLS." Lana Turner, Anita Louise and Lew Ayres stick up for their rights in this, we hope. This is a dark horse, and after that slip-up mentioned earlier, any opinion hazarded is dangerous. We'll bet on a cinch, or something, and tell whether it's good or not after we see it.

Roger Corbett has the right idea on how to entertain ones self! Win things all the time. Minnie Dea Smith has birthdays—we know, because she said so, and showed us some congratulatory cards she got from some of "them Yankees up there in New York." What's more she thinks she's smart because they weren't sympathy or condolence cards like lots of people in town are beginning to get when a birthday creeps unobtrusively up and past. Besides all this, the other Smith sisters, Ona Fays and Lilla Mae, staged a blow-out in her honor at an Amarillo hotel. Some stuff, too. It was a dilly with flowers, more than one course at dinner, and company manners, Minnie said.

Fred Brown has the toughest luck as a ball player. The other night at the Fireboys-Oddfellow game, the Fireboys were in a critical situation. Somebody was about to get on first, and somebody was about to get home... maybe... so the ball was thrown in to the hind-catch, Mr. Brown. That stopped the home stuff, or something, so Mr. Brown reached for the ball to throw over to first to stop that guy, when Dr. Wiltshire, umpire, beat him to it and threw it away... clear to right field for a fumble. Isn't it awful the way Umpires interfere in ball games and won't let people do their own throwing? Of course there are some who contend that Fred threw that ball, but knowing his game... we hardly believe it.

Charlie Cogdell said Frank wasn't any brother of his after that game, but it did not seem as if his trials at batting were so awful. Jimmy Robinson asked J. M. Posey to ump the first base when the game started. Against his better judgement J. M. agreed, and then if players on the other side didn't dispute some of his decisions... You can knock him for a row of cocked hats. An Oddfellow named Tubby, especially, thumped as how he was wrong about a well executed slide by Pack London. So did the fans. So did the players, and before it was all over, so did J. M. We bet.

Topping off a month of a varied assortment of cowboy stars in Saturday shoot-'em ups, Roy Rogers appears in "FRONTIER PONEY EXPRESS." This is a story about a rider who likes a gal whose brother is a Confederate spy. Bob reckons as how it's the Union or nothin', so he dislikes the fellow. The spy is under the dastardly Senator Lassiter, who, instead of trying to win the allegiance and supplies of California for the South in the war, is trying to win it for himself. The man actually planned to make himself ruler of it as a sovereign

territory, and Bob just couldn't stand that at all. Ha! what more could you ask... with Mary Hart in it? Don't tell us. It's more fun to guess. Back at the ball game, Rosy Russell, Mrs. Onias Carroll, and some others razzed Cotton Harrington so much that Faye Crosthwaite wanted to leave. This reminds us of a pun at her expense Brat Trimble made. It's pretty lousey, but the Brat's gone so it doesn't matter. Brat said: "Well, you may like Cotton, but Alpaca Bunky." Hmmh.

Some other smart guy was listening to an explanation which he doubted, so he just looked smug and fell back on that traditional: "Well, I'm from Missouri!" Squelcher gave him a once over in surprise discovery, and sneered: "Oh, a Mule. Huh?" This really happened, but who the two were, we don't remember. Unless Gorgianna B. Pugh is correct when she calls us an "Old Deaf," we heard Spec Lunsford say that in observance of Daughters' Day, all mothers who accompany daughters under the age of fourteen to the show Sunday and Monday get in free. That looks a trifle ambiguous: That is, the daughters must be under 14, not the mothers. And both, we reckon, will get a free pass. Blame us, if the details are mixed up.

The Daughter's Day show is a lulu. Walter Winchell says that "DAUGHTERS COURAGEOUS" is even better than "Four Daughters." The same cast appear in both flickers: Lola, Rosemary, and Prigella Lane, Gale Page, John Garfield, Fay Bainter, Claude Rains, Jeffery Lynn, and May Robson. This is definitely a "sour-puss-staw-away" picture... They might like it. Although this story runs along the same line of the first picture with this cast in it, it is entirely separate from it. Instead of continuing the "Four Daughters" story it starts all over again, and this time the daughters have a mother, Fay Bainter, instead of a father, Prigella Lane warble "They Say" on the screen.

Akim Tamiroff does another bit of neat acting in the Tuesday picture, "MAGNIFICENT FRAUD." The story concerns a dictator who was blown up, and an actor who was forced by a conspirator trying to get an American loan through to impersonate the dead dictator. This is a little off the beaten track, and the difference might be refreshing. Wednesday, Gene Krupa fans have a chance to get enough of him, his drums, his orchestra, jitterbugging, Bob. Hope and Shirley Ross, along with "The Lady's in Love With You" in the picture, "SOME LIKE IT HOT." This is a comedy with a floy, floy. It's as light and as empty as your favorite enemies head.

HYAR and THAR: Sayde Rigger about to have a clean-up job done on her teeth... Helpful friends tried to paralyze her with fear by horrible stories of dentists, but it didn't work... She stood it... Billie Self says that when playing five pins at bowling she reverses the procedure of three-pins, and picks 'em off one at a time, but at three-pins, she knocks 'em all down at once. Sounds logical.

Partial Report Of AAA Farm Officials In the terraces built by Texas farmers who took part in the AAA farm program in 1938 were put to end like a rope, they would reach across the widest point in the United States and double back five times. A final recapitulation of 1938 soil-building practices disclosed that these farmers decorated 208,528 acres of sloping cropland with 20,000 miles of terraces, did 3,580,500 feet of farm pasture riding on the contour, and in this manner and otherwise, improved an estimated 8 million acres, or more than half the tillable surface of Texas.

The report did not list results of the '38 range program, which were to be tabulated later this week. Although nearly twice as many farmers carried out soil-building practices under the program last year, compared with 1937, Texas operators failed by \$2,913,000 to earn the maximum available for this purpose. Strictly soil-building features of the 1938 farm program in Texas cost the government \$3,677,000. But the value of terracing alone in three years would more than exceed the cost of the entire soil-building program, according to Extension Service estimates on terracing benefits.

George Slaughter, chairman of the State Agricultural Conservation Committee, remarked that "a good deal has been replaced of the soil fertility mined Saturday as it was still too wet to get in the fields at home. Mrs. Cassels and children visited Friday and Saturday in the home of her parents, Mr. and Mrs. G. P. Owen. Mr. and Mrs. S. J. Barclay and children visited in the T. P. McCollister home Sunday night. Mrs. Barclay and children and Warren Owen spent last Tuesday in the Malcom Cassels home. Mrs. Barclay stayed with Mrs. Cassels and children while Mr. Cassels went to Amarillo with Mr. Barclay.

Mr. and Mrs. S. J. Barclay and children visited in the T. P. McCollister home Sunday night. Mrs. Barclay and children and Warren Owen spent last Tuesday in the Malcom Cassels home. Mrs. Barclay stayed with Mrs. Cassels and children while Mr. Cassels went to Amarillo with Mr. Barclay.

in the 20's and wasted on glutted markets in the early 30's," and that the AAA is stressing even more this year the idea of "conserving soil and moisture and reinforcing land against wind, water and tractor erosion." Among items qualified for 1939 soil building payments: Approximately 125 water tanks on farms; 3,580,502 acres of contour farming, summer fallowing, contour listing or contour seeding of small grains; 6,177 acres of tree planting; 28,915 acres of sod replacement; 7,709, 861 acres of green manure crops turned under or legumes planted; 2,171,803 acres of permanent pasture mixtures seeded; and nearly 4 million pounds of slag, phosphates, or ground limestone applied to ailing cropland.

Young Couple Will Live Near Wayside Announcement has been made of the marriage, June 12, in Tucumcari, N. M., of Miss Bernice Harris, daughter of Mrs. L. M. Harris of Dawn and Mr. Henry Hamblin, son of Mr. and Mrs. Will Hamblin of Wayside. Miss Ocie Lou Hamblin, sister of the bridegroom attended the wedding. Both the bride and bridegroom are graduates of High School at Canyon. Mr. Hamblin attended W. T. College where he was prominent in athletics. Mr. and Mrs. Hamblin will make their home at Wayside where he farms.

Farmers now pay city people \$1,500,000,000 annually for power machinery, whereas, before the World War, they sold power

in the form of work animals worth several hundred million dollars annually. If the 20 million families receiving less than \$2,000 a year spent as much for cotton goods as those receiving between \$2,000 and \$3,000, the cotton farmer would have a home outlet for an additional 2 million bales annually.

# HOMER TELLS HOW FIREBOYS THREW AWAY 4TH PLACE TO ODDIES

## IOOF Wins 3 to 2 To Cinch Place In League Play-Offs

By HOMER FOX

Monday night the IOOF and the Firemen drug out all the artillery they could muster, and every pocket full of horse shoes and rabbits feet marched to the softball grounds and stood toe to toe in a battle of errors that the fans will long remember trying to decide which team would hold fourth place in the semi-finals of the City Worlds Series, and it was almost a tie; in fact it should have been a tie; 'nary one to nothin'.

The Spark Hunters lost the toss when Tubby Robinson-guessed the wrong side of the coin and couldn't talk Pack London out of it.

Willard Witherspoon crashed an easy fly to Stuart in left, Babe Russell singled, Robinson was safe on an error by first and Russell was out at second. L. B. Russell was out to third when Johnson made a nice catch of his line drive.

The goat herders started after a ball game in their half, Wilson walked, McCollum popped to short, Herrington walked, Johnson popped to third, B. Robinson forced Wilson at second for the third out. Brown was first man up for the smoke eaters and went out second to first. Brown has gained the name of having the best arm of any catcher in the league and it's a well earned honor. With the bases loaded he can throw a ball farther into left or center field than any man that has ever been under our lights. Cogdell was out second to first, B. Witherspoon popped to third for the third out.

Morris was an easy out to short fielder, Stuart was out short to first, Pack London, the chief herder was safe on a bobble by Carroll, Dean was safe on an error by W. Witherspoon and London advanced to third. Morris now running for Dean and London on third with two outs, this meat-head Brown decided he should sprinkle a little water on that hot corner and whammed the ball over third into left field. Both men scored easily, in fact by the time Knox, in left field, had chased the ball down

and got back into position to play ball they had burned up three dollars worth of electricity. This Water Sprinkling outfit wasn't one bit discouraged. Carroll popped to first of course; Knox made it to first on an error by Herrington and was forced by Brock at second. W. Witherspoon singled but their speed king Babe Russell hit to Doc McCollum and that was the wrong place.

The goat riders slipped on their spurs, passed around a few more horse shoes and proceeded to cinch a ball game in their half of the third. Wilson was safe on an error, McCollum flew out to right, Herrington was out to third, Johnson singled into left and Knox, in a frantic effort to get the fire out lost the ball in the smoke and Wilson scored, but Johnson was caught at the plate for the third out.

Big Chief Robinson (he really is not the Chief, but to watch him run this ball club you would get the impression that you would have to ask him before you could get put in jail) anyway, Tubby singled, L. B. Russell doubled. Robinson scored some way, maybe he cut across but it counted, Russell was scored on Browns, F. C. Cogdell walked with two men on and no one out and forty thousand fans yelling firemen, firemen save my child. Buddy Witherspoon stumbled to the plate, his whole body shaking like a sheet and his face as white as a sheet, the cold sweat stood out on his forehead, but you could see that cold look of determination on his face, that cold glassy glint in his eyes you will always find when these boys mean at least to save the lot or use all the water in the well. You could hear a pin drop when Bud came in there with his fast curve ball, and the crash of Buds bat against that fast ball sounded like a keen clap of thunder at midnight; it was a smashing, crashing line drive that almost meant a ball game, but it headed straight for Herrington who either had to catch it or get killed. It was a beautiful catch, and Brown, who was trying his best to suit the fans, headed for home and was doubled. Carroll made it finally, Buck walked him, but the fire had gotten away from the boys and Knox hit one to McCollum.

That was all there was to it.

The Spark Hunters threatened again in the sixth, but Buck pitched air tight ball in the clutches, and Brock pitched winning ball all the way holding the Odd people to 2 hits while the Smoke Smotherers collected six off Buck. It was a bitter defeat for the Firemen and of course they cried and cried, and I just found out that they are mad, and they are mad at those Meat Eating, Shaggy-headed, Roaring Lions. Don't know why but old Chief Robinson has challenged them to a post season game regardless of how the City League comes out, and Tubby has offered to bet the big pumper (not old Nappy) against Doc Willis fishing glasses on the outcome. Robinson says he will put hand cuffs on Brown and they won't have a chance to lose.

# J. I. CASE CO.

announces a new tractor!

Such expedients as giving an old tractor a touch of streamlining and other outside redressing and publicizing it with new model nomenclature have always been taboo with this institution. A new model thus becomes a landmark in company history, and such a role is fore ordained for the new D (standard) and DC (tricycle) series which enter in field as the new Flambeau Red Case Tractors.

### New Oiling System

The new design has no network of oil pipes inside the engine. All oil passages are drilled in the solid metal, including new provisions for positive pressure oiling to valve rocker arms and push rods. New external tubes take oil pressure to steering post gauge and provide flood oiling for the governor. Even the pump intake strainer has greater capacity for still greater certainty of lubrication under extreme temperatures.

### New Fourth Gear

The new tractors are provided with a new fourth gear which with rubber tires gives from 2 to 10 miles an hour at rated engine speed—a time-saver between jobs and for hauling, a fuel-saver in light field work when engine can be operated at half speed or less. On steel wheels with engine running at rated rpm, the four gears give speeds at 2 1-4, 3 1-4, 4 1-4 and 9 miles per hour. However, these are only four of the many rates of travel which can be secured by use of the governor control and the full pulling ability of the engine at slow speeds.

### Case Implements

The following tractor mounted implements are available: Two-way, one-furrow tractor-mounted plow; 2-row lister; 2-row lister and middle buster; 3-row middle buster; 2- and 4-row loose ground lister planters.

### Regular Equipment

Regular equipment for the D includes fenders, platform, swinging drawbar, belt pulley, transmission and pulley brakes, starter gear on flywheel, radiator shutter, engine temperature gauge and gasoline or kerosene-distillate manifold. All these units are also standard equipment for the DC, which also includes a power take-off with "ambonnet" and operator's clutch, 12-inch extension hubs and differential turning brakes. Special equipment listed includes electric starter, battery, generator, and lights; cushion seat with backrest; muffler; the well-known CASE motor lift and various types of wheel equipment.

## Five Hostesses Compliment Mrs. A. R. Posey With Going-Away Shower Here

Five hostesses, including Mesdames; C. F. Moore, Louie LeGrand, Sank Ramey, E. W. Young and Owen Stagner, entertained at the Moore home Thursday afternoon to compliment Mrs. A. R. Posey who is leaving soon for Abilene to spend the winter.

A short program was enjoyed before a surprise shower of gifts was presented.

A toast to the honoree in the form of a tribute from church associates and neighbors, was given by Mrs. Louie LeGrand. Miss Bernadine Phillips entertained with readings and Mrs. Troys Carmichael furnished vocal music, accompanied at the piano by Mrs. A. J. Schroeter.

Mrs. Sank Ramey who was in charge of games, introduced the shower with a travel game. Luggage when opened revealed the gifts.

Roses predominated in the floral decorations both in the living room and dining room where refreshments were served from an attractively appointed tea table. Mrs. Lawrence Womble and Mrs. E. B. Posey poured punch.

Attending the shower were Mesdames; L. L. Womble, A. O. Thompson, A. J. Schroeter, Jack Roberson, W. T. Womble, E. B. Posey, G. P. Owen, Harry Whitechurch, Troys Carmichael, J. D. Bourn, Walter Ayers, J. M. Posey, W. L. Alexander, A. W. Covington, Billie Roberson, Allen Powelson, E. B. Hicks, J. W. Witherspoon, C. O. Phillips, John Hacker, J. C. Ricketts, R. A. Daniel, E. B. Hedrick, T. W. Roberson, Claude Longbottom, Robert Thompson, Lee Lambert, H. G. Conkright, Joe Kendall, Abe Martin, Nelson McRight, Jim Higgins, W. A. Long, L. A. Ricketts, J. E. Cockrell, Clarence Strange, Otto Massie, Phil Radovich, Miss Bernadine Phillips and the honoree.

Those unable to attend who sent gifts included Mesdames; E. K. Hyers, W. E. Barnes, Earl Lance, Ed Mosley, Carl Wimberley, Allee Woolery, Lonnie Kelly, Aubrey Daniel, Colby Conkright, J. C. McCracken, Ben Wolgemuth, W. F. Gillis, Ida Davis, Jimmy Alfred, Cliff Estes, Lillburn Ray, L. R. Bradley, Maurice Mitchell of Amarillo, Geo. Muse, E. W. Womble, Misses Ruth Conkright, Nedra Clayton, Nancy Conkright, and Mary Ruth and Rayburn Strange.

### PARTIES FOR VISITORS HOLD INTEREST OF HEREFORD SOCIETY

With visitors coming and going in hospitable homes, parties, picnics and informal gatherings are occupying the attention of the socially minded in Hereford.

One visitor from Boise, Idaho, Mrs. Ted Houston, was honored Friday afternoon at a bridge party given by her mother, Mrs. F. H. Oberthier at the Oberthier home, 208 F. Avenue.

Profusions of late summer garden flowers in attractive bouquet arrangements were used throughout the house in decoration. Nine tables of players, made up for the most part of friends and classmates of the honoree, a former Hereford resident, enjoyed informal games of contract. Prizes went to Mrs. J. A. Pitman, high and a guest gift was presented to Mrs. Houston. Grand slam awards were made throughout the afternoon.

Those playing were Mesdames; Will S. Kerr, W. J. Stanford, J. W. Witherspoon, E. B. Hedrick, Beulah Mercer, Jeff Gilbreath, Seth B. Holman, Gaston Baer, A. R. Bateman, H. A. Close, R. P. Conaway, Colby Conkright, C. H. Dyar, W. E. Dameron, Travis Dameron, Woodrow Ireland, W. L. Davis, C. C. Ferguson, E. T. Brooks, Frances McClendon, Knox Kinard, Paul Fathers, John H. Olson, A. M. Jones, J. A. Pitman, C. C. Rockwell, S. P. Rosson, Jack Wayland, Grant Fuller, Clara McLean, Bob Pipkin, E. B. Hicks, Glenn Snyder, Tom McCollum, Misses Lois Maddox, Eloyse Pitman, Frances Dameron and the honoree.

A delectable salad course was served after the games.

### POLLYANNA CIRCLE IS ENTERTAINED

An interesting program entertained members and guests of the Pollyanna Circle of the Woman's Missionary Society of the Methodist Church Thursday afternoon at the home of Mrs. M. L. Steele, sponsor.

Yellow and orchid were combined in arrangements of garden

animent by Mrs. John Jacobson. Mrs. A. C. Thompson played a violin solo and interesting round table questions and answers were led by Mrs. B. M. Wiltshire.

Patsy Wiltshire, Sylvia and Jack McCracken sang a group of songs which were followed by piano and vocal solos given by Mrs. J. C. McCracken and Mrs. B. M. Wiltshire to conclude the program.

Out of town guests included Mrs. Sallie Rayborn of Terrell, Mrs. K. P. Clark and Miss Barbara Lee Clark of Wichita, Kan., Mrs. S. S. Boutwell of Terrell, Mrs. E. U. Johnson of Higginsville, Mo., Mrs. Lucretia Works, Dallas, Mrs. L. A. Stanberry of Midlothian and Mrs. J. C. Ely of Texarkana.

Members and others present were Mesdames A. C. Thompson, M.

H. H. Hawkins, M. M. Beavers, L. J. Bennett, Walker, E. J. Hudson, Cliff Hicks, J. C. Cummings, J. B. Hammer, Olive Smith, Alice Swaggert, Fred Millard, Ellen Bowsher, W. T. Bachelor, White, Margaret Heifner, Troy Womble, W. A. Allen, E. W. Harrison, J. E. Beyer, G. R. Conklin, H. M. Benefield, John Jacobson, Wm. McGeehee, B. M. Wiltshire, J. F. Ward, J. C. McCracken, Miss Adda Ramsey, Patsy Wiltshire, Sylvia and Jack McCracken and the hostess.

One of four national offices handling the cotton export subsidy program is located at Houston, with Andrew J. Bohart in charge.

Lois Agnes Gilbreath returned last week from Tucumcari, N. M., where she visited relatives.

### MRS. WILTSHIRE IS CLUB HOSTESS

A one o'clock luncheon at a down town cafe followed by bridge games in the afternoon was the order of the day for members and guests of the Wednesday Luncheon Club last week when Mrs. B. M. Wiltshire was hostess at the home of her sister, Mrs. J. C. McCracken.

Summer blossoms in attractive arrangements furnished the floral accent with Mrs. Kellar Muse playing high for score award.

Those attending included Mesdames; Jack Weyland, W. L. Davis, C. C. Rockwell, J. C. McCracken, R. R. Willis, J. W. Witherspoon, Kellar Muse and the hostess.

Mr. and Mrs. D. H. Alexander were in Amarillo Sunday.

### SENIOR B. Y. P. U. ENJOYS WATER MELON FEAST

A water melon feast at Hereford State Park entertained members and guests of the Senior B. Y. P. U. of the Baptist Church Thursday night.

The group met at the church and went to the park in a body where outdoor games were played before the watermelon party.

Attending were Avis Matthews, Molly Jo Roberson, Woodrow McCarmack, Lottie Allred, Audrey Cockrell, Imogene Roberson, Peggy Valentine, Loraine Valentine, of Amarillo, Mildred Curtsinger, Lee Renfro, Gerald Willson, Cecil Boyer, Bill Boyer, Chas. # Quiet Ceremony Marks Wedding Of Anna Conklin and George Paetzold

Miss Anna Conklin, daughter of Mr. and Mrs. Clarence Conklin, became the bride of George Paetzold, son of Mr. and Mrs. John Paetzold, Thursday morning at St. Anthony's Church in a quiet and simple ceremony.

The nuptial mass was read by Rev. Father Stanley with Miss Edna Urbanzycyk, organist, furnishing the wedding music.

Miss Eleanor Paetzold, sister of the groom, was the bride's only attendant and Edward Paetzold, brother of the groom, was best man.

The bride was attractive in white satin with a shoulder length veil held in place with a wreath outlined with seed pearls. Miss Paetzold wore a dress of pink chiffon with wreath to match that worn by the bride. Immediately after the ceremony a wedding breakfast was held at the home of the bride's parents and a dinner was served at the home of the groom's parents for relatives and close friends.

When they return from a short wedding trip to the Carlshad Caverns, the young couple will live in Hereford until their country home is completed where he is engaged in farming. Both Mr. and Mrs. Paetzold have lived in Hereford for many years. Mrs. Paetzold has been employed at The Chocolate Shop for several months.

Out of town guests at the wedding included; Andrew Acker and children of Nazareth, Mr. and Mrs. Joe Paetzold and family of Slaton, Mr. and Mrs. Joe Loper and family, Mr. and Mrs. Roy Ritter and children, Mrs. Chas. Carney and family, all of Groom and Mrs. Anna Korstjens of Kingfisher, Okla.

### PICNIC SUPPER PARTY COMPLIMENTS THE ELMER MATHIES

A welcome back to Hereford courtesy was extended to Mr. and Mrs. Elmer Mathies and family Thursday night when friends gathered at Hereford State Park for a picnic supper to celebrate their return from Los Angeles, Calif., where they have been making their home for the past several years.

Those enjoying the occasion were; Messers and Mesdames Boyd London and Jack, Carl Jennings and Bobby, Homer Henslee and children, Owen Stagner and children, W. J. Smith, and children, Orpha Click and Jesse, Harry Lomas and Dennis, Earl Phillips and children, Roy Jewell, B. R. Dixon and Polly, Chris Renfro, Mrs. Buford Farmer, Miss Worth, Mr. and Mrs. Mathies and Elmer Jr., Mary Jo and Tommy.

### LOCAL CHURCH GROUP TAKES PART IN BAPTIST ENCAMPMENT

Approximately 700 young people from Baptist Churches all over the Panhandle gathered last week at Ceta Canyon for a three days encampment. The Y. W. A. and G. A. conference furnished religious training, recreational and worship features as well as hiking and explorative expeditions in the canyon.

Featured speakers were Miss Lean Lair, missionary to Africa, home on furlough, Miss Juliet Mather of Louisiana, southwider young people's leader and Miss R. L. Mathis of Dallas, state young people's leader. Hereford won the banner for the largest enrollment with a total of 63.

Others attending besides members of the organizations included Mrs. A. O. Thompson, Mrs. Art Manjeot, Mrs. Ben Wolghemuth, Mrs. Billie Roberson and Mrs. Jack Roberson, Y. W. A. sponsor.

### WECOCANTEWASTE CAMP FIRE GROUP ELECTS OFFICERS

New officers for the coming year were elected at the regular meeting held by Wecocante waste Camp Fire Girls at Mothers Park Monday morning. Those chosen were; Betty Dunlap, president; Mary Nicks, vice-president; Mary Ellen Henslee, secretary-treasurer; Jessie Ann Buckner, parliamentarian; Mary Anna Thompson, scribe; and Jo Ann Rosson, song leader.

A short business meeting was held with discussions on different phases of the work of the organization as program topics.

### FAMILY REUNION IS HELD AT LUBBOCK

Mr. and Mrs. F. D. Ferguson were in Lubbock Sunday to attend a family reunion honoring Mrs. Ferguson's mother, Mrs. J. S. Allman.

A picnic dinner in Lubbock Park featured the get-together. All of the members of the family were present except one brother in San Francisco, Calif. Relatives from Washington, D. C., New Mexico and six Texas towns were present to enjoy the occasion, including Mr. and Mrs. Ferguson, a son and a daughter.

# Young People Are Entertained At Frye's

A Jolly time was had Sunday when a crowd of old school mates and friends gathered at the Carl Frye home in Easter community. With Louise Frye, assisted by her mother, as hostess, a cafeteria luncheon was served at noon.

The afternoon was spent playing games, talking of High School days and planning for this year in College.

Those attending were Messers and Mesdames Jack Dean, Carl Oldham, and Wayne Evans, Roy Hastings and Bill McLean.

### MR. AND MRS. W. HARRIS ARE PARTY HOSTS

Mr. and Mrs. Woodson Harris were hosts to a dinner, Friday evening at their home in Hereford honoring their friends in Jumbo where they formerly lived.

After dinner, various games were played and at a late hour ice cream and cookies were served.

Those enjoying the affair were Bessie Bowman, Lonnie Wayne and Winston Adams, Delton Lovelace, Ruth Mildred and Hubert Baird, Billie Dyer, Clyde and Homer Battles, Mary Dean Brown, Aline Ford, Pauline Owens, and Mr. and Mrs. J. B. Cocougher, Mr. and Mrs. Bill Bowman and the hosts.

### LUTIE FOX CIRCLE MEETS AT McCracken Home

Mrs. Katherine Parker was leader for the program Friday afternoon when the Lutie Fox Circle of the Woman's Missionary Society of the Methodist Church met at the home of Mrs. J. C. McCracken. The subject of the lesson dealt with Missionary Service. Mrs. Bob Wilson and Mrs. B. M. Wilshire gave talks relative to the lesson subject.

The next meeting will be held at the home of Mrs. Homer Brumley.

### AMARILLO VISITOR IS HONORED AT RECENT PARTY

Harry Lee Johnson of Amarillo was the honoree at a recent party given by his aunt, Mrs. C. H. Dyer at her home on Kibbe Street.

# WHY Humble Oil & Refining Co. Reduced the Price of Crude

This statement is published as a paid advertisement by Humble Oil & Refining Company for the benefit of those who are interested and not acquainted with the facts.

On August 11 the Humble Company posted reductions in the prices at which it purchased crude oil in Texas and New Mexico by amounts ranging from 5c to 32c per barrel, and averaging 18.5c per barrel. In view of the fact that this action on our part has been severely criticized before the public, we outline below the facts and reasons on which it was based:

1. On August 1 the quantities of crude oil listed below, aggregating 218,920 barrels daily in Texas, Louisiana and Arkansas, were moving to market at prices substantially below the Humble's postings for similar crudes:

AREA	BBLs. DAY
Texas—	
West Central .....	37,000
Gulf Coast .....	22,600
Southwest .....	16,900
East Central .....	12,800
East Texas Field .....	6,850
Panhandle .....	1,500
Total Texas .....	97,650
South Louisiana .....	81,920
North Louisiana and Arkansas .....	39,350
Total .....	218,920

2. The amount of crude moving below Humble's postings was greatly increased when on August 10 the Sinclair-Prairie Company posted a reduction of 20c per barrel affecting the oil produced and purchased by it in Texas, New Mexico, Oklahoma and Kansas, which action was followed immediately by reductions in the price made by a number of smaller purchasers. These reductions applied to more than 150,000 barrels of oil. This, added to that mentioned in the preceding paragraph, equals 368,000 barrels. In the three States in which Humble operates, Texas, New Mexico, and Louisiana, the aggregate volume of oil moving below Humble's prices approximated 17 1/2% of the total current production in those States.

3. The movement of constantly increasing quantities over the past year or more of crude produced in the new Illinois fields, reaching a total of 300,000 barrels daily on August 1, on a price basis substantially lower than Humble's postings in its territory, exerted a progressively depressing effect on the crude oil market. The effect was felt in Texas; and actually since April 1 Humble has lost 10,000 barrels per day of business absorbed by Illinois crude. This loss of business was in addition to that lost by Humble as a result of the movement of crude at low prices in the territory where we operate.

4. On August 11, therefore, the total volume of oil moving at prices below those of the Humble was approximately 668,000 barrels.

5. The crude oil market has been under pressure for more than a year. The price adjustments made last October did not remove fully the disparity between Humble's prices and those of some oil moving in its markets. Since that time the volumes of crude moving below our prices have increased steadily, with the result that when the reductions of Sinclair-Prairie and others came on August 10, affecting approximately 150,000 barrels of crude per day, conditions were so bad that we were compelled to reduce our prices to meet this competition. In no case are our new postings lower than the Sinclair-Prairie postings for similar crudes.

6. The Humble Company is primarily a producer of oil. Its crude oil properties constitute its principal asset. Its net production averages 133,000 barrels a day. We are also crude oil merchants and purchase, at our posted prices, 251,000 barrels of crude oil daily in Texas and New Mexico. These prices also govern the price at which we sell the oil which we produce. Because of our large production we are vitally interested in the maintenance of fair prices.

Our refineries consume something near the amount of oil which we produce. As a consequence, with respect to our purchases we are in the same position as a merchant dealing in any commodity. To continue in business, we can not over a long period of time pay higher prices than our competitors. We are compelled to meet competition. The price of oil, like that of other commodities, is subject to change with market conditions. These are simple and fundamental business principles. We were reluctant to cut the price of crude, not alone because of its adverse effect on our own earnings, but also because of its effect on our customers and upon the industry and the state at large. Under these circumstances, we could not continue to pay the prices we had been paying.

7. As a matter of policy the Humble Company maintains stocks of crude oil very slightly in excess of the amount required as working stocks to carry on operations. We do not believe in storage of oil above ground but in production of oil currently as required for market. We do not speculate in oil. We have no desire to buy oil at any price to accumulate for storage.

8. We think the price for oil brought about by the competitive conditions above mentioned is lower than should be realized. In our opinion the flood of oil from Illinois and Louisiana, most of which is being produced wastefully, in violation of conservation principles, is primarily responsible for the market conditions which necessitated our price reductions. It is our hope that these conditions will be corrected and that the market will improve.

The Performance of the Bank Check

Over ninety per cent of all the business of the nation is carried on by means of bank credit. It is in the form of deposits which are transferred by checks in settlement of business transactions, ranging from a few hundred to several million dollars.

For large amounts and small, for short errands within the community and long ones to distant points, the bank check performs its work, swiftly, surely, safely and economically. In addition, bank checks help in the bookkeeping of those who use them and establish a legal record of payments.

# TEXAS OUT-OF-DOORS

A 15,000 to 20,000-acre tract of land in East Texas is being sought by the Texas Game, Fish and Oyster Commission to be used in an effort to preserve the pure strain of eastern wild Turkey, of which there are not more than 150 birds remaining in the Lone Star State and probably not that many additional from Texas to the Atlantic Seaboard. The game refuge, if obtained, will also be used for projects tending to restore deer, turkey, quail, doves and fur-bearing animals. The game management project is one of those being considered if the use of federal funds made available under the Pittman-Roberston Act is restored to the game department.

Many of the wild turkey in Texas, as well as in other states have become mixed with the domestic turkey, but game department biologists have found approximately 150 eastern wild turkey of a pure strain in south-east Texas. The unmixed wild turkey is a richer dark brown than the birds which are inbred with domestic turkeys. The bars on the tail are very faint.

Landowners asking too high prices for their land either on sale or lease basis has kept the department from going ahead with its plans for saving the eastern wild turkey, a truly game bird, which is believed, could be brought back in large numbers in eastern Texas.

White quail are extremely rare, although found occasionally in Texas. One was seen recently on the ranch of Mrs. Hal C. Peck, game commission member, south of Odessa.

Damage done to wildlife by motor cars was emphasized recently when State Game Warden Tom T. Waddell of Eagle Lake reported fifteen birds and animals found dead on a highway during a sixty-three mile drive. They included two doves, three skunks, two opossums, two cottontail rabbits, one jackrabbit, an English sparrow, one female quail, a night hawk and a water moccasin.

Harold Barrow and Ernest Porter of Oak Grove Community in northeast Texas, are warning fishermen to wear sneakers, boots or some other form of foot-wear when wading while fishing. Barrow, while walking in Sulphur River recently, was grabbed by a large turtle. The turtle's lower beak cut a large gash in the bottom of Barrow's foot. The top of his beak went completely over the foot and mashed it. An X-ray examination later revealed a broken bone.

Porter, seeing Barrow being dragged under water, went to his rescue. The turtle turned loose Barrow's foot and grabbed Porter's foot in exactly the same way, cutting a large gash in the bottom of it. It is reported by State Game Warden H. R. Morell of Mount Pleasant, where the men were brought for treatment by Dr. A. Grissom.

How fast can mourning doves

fly? Their greatest speed has probably not been clocked, but you hunters will know why those delectable little birds are so hard to hit when you learn that a pair of mourning doves were clocked at exactly seventy miles an hour for more than 300 yards recently by Charles E. Friley, Jr., regional game manager for the game department.

Not all predators of wildlife are blood-hungry creatures of the wild, and with a new crop of birds in the field, Will J. Tucker, Executive Secretary of the Game Department, this week requested every Texan to look after his so-called domesticated animals which are allowed to run loose.

That you cannot blame a good rabbit or bird dog for hunting when he gets a chance and that the damage done to wildlife might well be charged to owners of the animals is the opinion of game experts. Hunting dogs can do almost as much damage as semi-wild house cats. They can hardly be expected to know when the legal hunting season ends and they normally will continue the pursuit for which their masters praised and trained them at other times.

The number of loose running dogs can, however, in no way compare with a large number of semi-wild house cats which range the woods and fields, especially near the urban centers, and unless citizens stop dumping unwanted cats and kittens along highways, return of wildlife to Texas fields and woodlands will be appreciably hindered.

The Game Department today took steps on two fronts to combat deadly salinity in the upper Laguna Madre along the Texas Gulf Coast, which last year destroyed millions of fish in what is considered one of the greatest spawning grounds in the world. Advice reaching the Department indicates fish by the thousands are again dying in the lagoon.

A. E. Wood, chairman of the Game, Fish and Oyster Commission, today issued orders for the earliest possible dredging of an artificial pass through Padre Island at Murdock's Landing to allow Gulf waters to freshen the lagoon waters and also announced that bids had been received on a project to construct a bulkhead at Corpus Christi pass, recently reopened by the Commission's coastal dredge.

The dredging of the Murdock Landing Pass, long advocated by coastal sportsmen and others interested in protection of marine life, will be made possible by enactment by the recent Legislature of a law, sponsored by the commission, which gives the Game Department the right to condemn lands for construction of passes leading from one body of tidal water to another. While fish were being destroyed wholesale in the lagoon last year, Wood explained, the Commission was powerless to dredge the Murdock Landing pass because it

could not secure the necessary easements on the required land. Some coastal sportsmen at that time even discussed the feasibility of dynamiting a channel through the island to save the fish.

Enactment of the recent law, Wood said, gave the Commission a free hand to remedy a situation that long has been the concern of Texans living on the coast.

The Commission's dredge, which recently completed the Corpus Christi pass and thus in some measure gave relief to the Laguna Madre situation, was thereafter moved to Cedar Bayou where a channel three miles long is now being opened. Wood today said the dredge would move to the Murdock Landing location and begin work as soon as possible. Earlier action toward dredging at Murdock Landing was impossible, because the commission first had to institute and complete condemnation proceedings. Meanwhile the dredge was ordered into action at Cedar Bayou because of a popular demand.

Wood said the Department and interested citizens of Corpus Christi would cooperate in the bulkhead project at Corpus Christi Pass. It will cost \$7,800 of which the Department will contribute \$5,000. Corpus Christi citizens, Wood said, had agreed to furnish the remainder. Wood said a contract for the bulkhead work was being drawn up by the Attorney General.

Purpose of the bulkhead is to keep sand from choking up the pass, which allows fresh Gulf water to enter the northern portions of the upper Laguna Madre. Not enough fresh water gets into the lagoon from this source, however, Wood added, thus making the Murdock Landing pass an acute necessity.

The bulkhead is to be constructed of 2x12 creosoted sheet piling, and will extend 150 feet into the Gulf from the water's edge at zerotide, and will extend 500 feet inland, Wood said. The Gulf portion of the bulkhead will be reinforced.

Wood said the measures now being taken to meet the emergency might fall to save the situation this year, but that they could not be attempted earlier because it was necessary to wait for the passage of needed legislation, in the case of the Murdock Landing pass, and because time was required to work up the bulkhead agreement with officials at Corpus Christi.

The Murdock Landing pass and other projects that might be completed this year would, however, be of great aid in preventing future loss of fish life in the lagoon, he said.

People all over town are positioning me to turn this column over to Homer Fox—but after reading his columns of the past two weeks it's the last thing I intend to do. Homer picks on me worse than I pick on Bob Higgins—and I wouldn't do a dog that way. Not even if he was a sheep dog.

Earl Wilson, new bookkeeper at Brumley-Woodford Motor Co. says we should put Homer on the pay roll. Everyone is sure thinking about Homer's suggestion for a swimming pool... and a lot of people seem to agree that Deaf Smith County should take some action along this line. The county owns a large State Park, which is nicely located for a pool. The county also has some expense on WPA projects, and this expense might be diverted to a WPA Swimming Pool. Anyway, it's a starter. Let's hear from some of the rest on this subject.

What do you think about a swimming pool, and how do you think it should be constructed. Send your ideas in to the Bull Column.

This is Tuesday night and by the time the paper goes to press there should again be considerable war excitement. Most persons in this area seem to have the idea that France and England will again give away to the demands of Hitler. War, even though it be in Europe, is a tragic thought—but if Hitler takes Poland, I believe war will be declared. England and France have played checkers with Hitler... and they have lost on every jump. Now it's Hitler's time to back down. If he isn't bluffing war should be declared within the next 45 days.

Did you ever stop to think how your life is changed by sentiment? For that reason President Roosevelt should never have changed the date of Thanksgiving. At its best Thanksgiving is a sentimental gesture; changing the date not only results in general confusion, but also threatens to weaken one of the nation's traditions. The whole thing strikes me about like the Representative who read the news and wired Roosevelt: "When are you going to change Christmas to your birthday?"

While the entire community is upset over the misfortune of the O. G. Hill family, as a result of their accident in New York last Sunday, Mrs. Edna Fincher says that she is now a strong believer in premonitions. Just before leaving on the trip to Rochester, Minn., and to the World's Fair, Mr. Hill happened to remark in her presence that he was going to put his car up as soon as they arrived in New York—and not take it out again until they were ready to leave. His remark was followed by considerable jesting, because everyone considers him as an exceptionally good driver.

However had the accident may have been, it is certainly lessened by news that all members of the party are improving rapidly and are resting nicely.

The accident was the culmination of a two-weeks vacation which the family had spent visiting points throughout the north-eastern United States. They had gone to New York to see the Fair from Rochester, Minn. where Orvella had been treated at the Mayo Clinic.

and every indication points to an accelerated building program throughout Texas during the remainder of the year. Our present field program will enable those in the smaller towns to avail themselves of all information needed in connection with the FHA loan program."

### Crop Insurance

(Continued from Page 1) number of insured wheat crops for 1940. He pointed out that farmers may draw against future AAA payments if short on funds to pay insurance premiums. To do so, the farmer files a request with his county committee, which will determine the amount of premium due. Value of the premium will be deducted from the next AAA payment due the producer after the insurance is taken out. Where more than one person is interested in a given field, any one of them can insure his interest in the crop, Watson said. Separate contracts are made with each individual without affecting the interest of other parties.

### Decide Who

(Continued from Page 1) Plowboys came to bat and the first two men up struck out. Then the ginger started to take effect on the dirt-movers, and they brought the score up to 10 to 9 in their favor before they quit. This put the game on ice and placed the Plowboys definitely in the championship series and also in the favor of the fans. The championship series, the details of which are as yet incomplete, will begin tomorrow night when the Plowboys meet the winner of tonight's game between the Lions and the Odd Fellows.

August 22—The Plowboys scored two runs in the first half of the eighth inning and then held the Knights of Columbus in the last half to edge out a 9 to 7 victory in the first game of the semi-final play-offs. Jimmy Bell's home run was enough to put the game on ice although a single by M. A. Kelly and an error scored another.

After holding a 6 to 3 lead in the first two innings, the Plowboys' defense fell to pieces in the third inning to let the KC's gain the lead. Four Plowboys' errors and hits by L. Loerwald, A. Stelzer, and Tup Loerwald accounted for four runs. The Plowboys tied the game in the seventh inning on an error, a hit and a fielder's choice. Larry Loerwald had two doubles and a single to lead the hitters.

Plowboys 330 000 12 9 10 13 KC 124 000 00 7 7 6 Batteries: Plowboys, G. Fuller and Clayton; KC, H. Loerwald and V. Stelzer. August 22.—The Lions scored six runs in the last three innings to nose out the Odd Fellows 7

to 5 in eight innings. An error by Marris and hits by Thompson, Springer, and Schroeter accounted for two runs in the first half of the eighth inning enough to win the game. The IOOF tied the game in the last half of the seventh inning on hits by London and Dean and an error by Springer.

### Legionnaires

(Continued from Page 1) noon. A large number of prominent State Legion officials will be there. Plans for the 18th District's part in the program at the State Convention were formulated at a district meeting held in Amarillo on Tuesday, August 15. The local post is a member of the 18th District. Scheduled to attend the State Convention from Hereford are: Jim Black, Reed Williams, Frank Gyles, and possibly Leonard Foster. They will leave Sunday by car.

### Bradly Announces

(Continued from Page 1) Senior Lifesaving certificate. In order to pass the tests satisfactorily the students had to demonstrate their ability to carry, break holds and rescue. The proper strokes to use under various conditions had to be demonstrated. This is the first Lifesaving instruction that has been conducted in Hereford, and it has met with enthusiastic approval from all corners. Bud was in training near Kerrville for several weeks before he began work at Buffalo Lake.

### Insurance Law

(Continued from Page 1) use of Gas System for lighting, heating, cooking, or refrigeration in the above described premises; it being understood and agreed that when the system is subject to control in whole or in part by the insured, said insured hereby warrants that the cabinet containing the high pressure cylinders, or the underground tank, if any, as well as pressure reducing valves and other control and safety devices connected therewith, are installed outside the building in which the Gas System is used, at least ten feet from all openings where gas may enter or accumulate, otherwise this policy is null and void." Persons installing and using butane systems are warned to comply with the provisions of this law in order to have full coverage on their property in case of accident.

### Trench Silos

(Continued from Page 1) It had time to dry out. Irrigation and the feeding of ensilage go hand in hand. Much of the success of feeding ensilage depends on the kind of feed placed in the silo and on the time of the year the feed is cut. Irrigation enables the proper types of feed to grow and ripen at the right time for best ensiling. Experienced farmers and agricultural experts have repeatedly shown that there is no better feed than properly prepared ensilage. Of course, ensilage is not a complete feed, and to get the most from it, dry hay and cottonseed meal should be fed with it. Ensilage is the best substitute available for green pasture. Best results are obtained if an ensilage cutter is used in preparing the feed for the silo.

### Around Town

(Continued from Page 1) Brand Office. Contractors from far and near are expected to submit bids. Elmer Womble recently made one of the best Hereford sales reported when he sold 12 purebred bulls and 36 heifers to Walter Young, Morganfield, Ky. In addition to being one of the best cattlemen in the Panhandle, Elmer, also has one of the best truck gardens in several counties on his place twenty miles northeast of town. The garden was grown by O. A. Crowell and his family, and it is now furnishing excellent fresh vegetables for sale.

Dick Coffee is much wiser concerning the effects of over exposure to ultra-violet radiation than he was three weeks ago. He went fishing on Amarillo Lake one Sunday with the happy thought of catching a big lot of fish and getting a beautiful sun-tan at the same time. He took only his fishing pole and swimming trunks. He still grits his teeth when he walks. Figures from the County Agent's office show that over 900 wheat loans have been approved for payment by that office this season. That office is full of good people who are doing a hard job well.

### Boy Scouts

(Continued from Page 1) when scheduled classes and discussions are held. In many of these activities the boys themselves take the leading parts, bringing their own experiences to the rest of the group. Wednesday night was designated as Parent's Night and many of the boys enjoyed the presence of their parents at camp. Parents were entertained with a Jam Session, songs

and stunts. Attending from Hereford were: Mrs. Dewey Lawrence, sons Billy and Lee of Tyler, Mrs. Lyle Blanton and daughter, Lila Beth, Mr. and Mrs. Elmer Dameron and daughter, June, Mr. and Mrs. Clifford Cox, Mrs. Urlin Streu and son Raymond Oliver, Mr. and Mrs. Cliff Estes, Mr. and Mrs. Walker Nicks and daughter, Mary, A. H. Streu, Jack Boydston and Dean Dunlap. Friday has been set as the day

for an all-day hike. This is a feature of the trip, and all the boys are looking forward to it with keen anticipation. The afternoons are devoted to recreation and study. Nights are spent around the council fire. Attending the camp besides the leaders are John Estes, Leonard Burleson, Darryl Blanton, Clifford Cox, Thurman Williamson, DuBols Walker, Wayne Phillips, Billie Dameron, Douglas Walker, and Billie J. Jackson.
