Slow Rains Add Good Moisture Over Territory

Light showers up to two inches were added to the fairly good moisture already in the Hereford territory in slow rains Thursday night and Friday.

As has been the case in nearly all previous rains, the fall was lightest to the northeast. Only light showers were reported by R. Nottingham, eight miles northeast, and W. A. Long, 45 miles northwest. States that the total precipitation in his district from Wednesday to Saturday had been one and one-half inches.

The heaviest rain reported for the week comes from Frank Pinckert, 16 miles southeast, who estimates two inches fell there during Friday and Saturday.

Around one and one-half inches seem to have been general in Castro county to the south of Hereford. S. M. Allen, 12 miles south, and W. H. Craig, 10 miles south, claim as much as one and one-half inches of rain.

VEGA GOLFERS BESTED BY HEREFORD SUNDAY

Vega golfers were defeated Sunday afternoon on their home course by the Hereford golf club, 13 to 7. Happy will have its golf membership here next Sunday for a tilt on the Tierra Blanca creek links.

Small Needs of Hereford Make Lunch Parley

Not Hereford's greatest need, perhaps, but needed, was the subject before the luncheon members Monday noon, presided over by W. E. Dameron, first vice president. There were 45 members in attendance.

"We have been constructing 13 million dollar railroads, building \$600,000 paved highways, erecting eight-story hotels, and listening to the big leaders of the community," Mr. Dameron remarked in opening the program. "We will now hear about our smaller needs from the lay-members."

Upholds Fair Profits.

Legitimate profits in all lines of endeavor, including farmers, tradesmen and middlemen was put forth by Jesse Carter, associated with Alex O. Thompson in the abstract business, as a very urgent need locally. He claimed that the propaganda directed against profits should be countered, believing that only a fair profit for everybody would bring back better times.

John Olson, lumberman, suggested there was danger in concentrating on a few big projects to neglect of the small needs and details. He wanted "good approaches" made into the city on the theory that first impressions are lasting, and particularly in the rough condition of South Main street as we cross Tierra Blanca creek.

Need More Light Programs.

A few more programs as the present one in which the members who are generally reticent and inarticulate might speak out their opinions and advance their ideas, was a need called to attention by S. P. Rosson.

Other three-minute speakers were George Stambaugh on the Ft. Banner good will trip; Rev. V. M. Cloyd, who extended an invitation to attend the Baptist revival now in progress; Rev. M. J. Johnson, visiting Christian minister of Mississippi; R. O. Dunkle on the tree-planting campaign at Dawn; Sherman Williams, introduced as the only Republican sheriff Deaf Smith county ever had, who extolled Missouri, but said he was glad to be back on the great Plains; Claude Ricketts, and Dr. R. E. Perkins, who commented on the new telephone rates.

Thompson Presides Next.

Alex O. Thompson, second vice-president, will be in charge of the chamber of commerce luncheon program next Monday at Stockman's cafe.

Move to Dimmitt.

W. A. Smith and family left the latter part of last week for Dimmitt where they will make their home. Mr. Smith has a position with a wholesale oil company at Dimmitt. J. L. (Buck) Richardson succeeded Mr. Smith as driver of the Hereford Bakery wagon.

FARWELL WINSTON ADDED TO SYNDICATE TRUSTEES

Farwell Winston, Cook county, Illinois, was elected trustee of the Capitol Freehold Land & Investment company at a meeting in Chicago April 15. The election was unanimous, with 186,616 shares represented. Mr. Winston took the place of Charles Harding, who resigned a few months ago.

Effective last Friday, according to an instrument filed here by L. H. Foster, county clerk, Frederick French, another trustee, resigned from the syndicate, leaving Frances Farwell and Farwell-Winston in charge of the company's land interest in Texas, spread out over Dallam, Hartley, Oldham, Deaf Smith, Parmer and Bailey counties.

Buffalo Band Spends Three Hours In City

A tour of the Canyon college band was opened here Thursday morning when a concert was given at the high school assembly, followed by a street entertainment at one o'clock. Luncheon was served the 28 members by the chamber of commerce at Stockman's cafe.

Six numbers were played by the visitors at the high school. Meredith Ashby gave a violin solo and a whistling solo was given by "Jo Boy" Hill. George Heard played a piano solo. The college musicians went from here to Friona and Farwell, returning by way of Dimmitt and Tulla to Canyon Friday evening. The band is composed of 22 boys and six girls, and is under direction of C. E. Strain, who organized a band in Hereford 29 years ago. George Heard is the only Hereford boy in the present membership.

A rousing welcome was extended to the students at the luncheon by Judge C. F. Kerr, toastmaster; Joe L. Pope, secretary - manager of the chamber of commerce; E. S. Ireland, mayor, and Ralph Smith, local band director.

Response was made by Mr. Strain and M. G. Hunt, publicity man for the trip. The directors spoke highly of Hereford's contributions to the band's personnel, mentioning Urin Stren, Edgar Ireland, Edgar Pickett and George Heard.

Small Amount of Money Has Made Real City Park

With an expenditure of only \$500 Lake park has been brought to its present attractive state by the city commission.

There are now 1360 feet of callie walks leading from points of ingress, and five bridges span the artificial rivulets installed to drain the grounds into the storm sewer.

To give a forest effect to the entire park, and hedges have been set out.

To make the park a more attractive center for the children three swing frames have been put up and set in concrete by the Lions club which expects to have the full swinging equipment ready for use within a few days. Since installation of the new drainage system, no heavy rains have fallen to test out the sewer carrying capacity. The old two-foot drain was left intact when the three-foot concrete sewer was put in last winter. The combined outlet is now over 10 cubic feet compared to slightly over three cubic feet before. In addition the fall from the lake to the railroad has been increased which will give greater impetus to boat waters on their way to Tierra Blanca creek.

Soon the park will be crowded in the early evenings and Sunday afternoons by the young folk who will find amusement and recreation in a real beauty spot of the town.

Congratulates Progressive.

Congratulations are extended by Mrs. John Boling, of the Fairview-Palo Duro district, to the Progressive club in winning the Brand's \$150 cash prize. "We found that we could do no creditable work in the contest and asked that those who would subscribe to help some other club," said Mrs. Boling, who writes the news for her community.

Scott, Neeley Leave for Pen to Serve Terms

Roy Scott and Clarence Neeley were started on their way to the penitentiary Saturday morning, under escort of an officer from Huntsville. Transportation was furnished in way of a specially built caged car providing protection for the accompanying officials from an attack by the prisoners.

Scott was convicted last term of court on a charge of stealing R. J. Kibbe's car, and Neeley was found guilty on a liquor charge. While confined in the county jail here awaiting trial the prisoners made two futile attempts to break out. The first effort at freedom was frustrated by Mrs. John Miller, wife of the sheriff, who heard sawing in progress in the jail quarters.

The second try for liberty got the two outside the cells. A note was left to the sheriff that they had gone to Mexico, but they were soon located on top of the steel cages, covered with blankets.

The penitentiary police car picked up a convicted man at Vega and several were added at Amarillo before proceeding to Huntsville.

Alex Thompson to Lead 'Sense and Nonsense'

Interest is at once aroused by the announcement that Alex O. Thompson will have charge of the chamber of commerce luncheon next Monday noon at the Stockman's cafe annex, and that the events to be presented have been assembled under title of "Sense and Nonsense".

This mere announcement is probably enough to guarantee a full house, taxing the capacity of the cafe, and cause an early gathering for fear of not being able to find a seat at the luncheon tables.

Mr. Thompson's entertaining ability is well known and he requires little press notice to get a crowd. In reference to this future event made at the last meeting, W. F. Dameron said the second vice-president, Alex Thompson, would stage a second-rate program. This is the kind of program best liked by the membership. It was indicated by the keen interest shown Monday, when several so-called lesser lights, which turned out to be misnomers, brought to the front Hereford's lesser needs.

Mrs. H. A. McCoy left Saturday for her home in Moberly, Missouri, after several days visit in the home of her parents, Mr. and Mrs. S. A. Miller, who live about 20 miles northwest of town.

Baptist W. M. U. to Hold Session Here Next Week

District convention of the Woman's Missionary society of the Baptist churches of 15 counties will assemble here at the First Baptist church next Thursday evening for a two-day session.

This is the first time Hereford has been accorded the honor of entertaining the district delegates, and a fine reception is being prepared for many visiting ladies who will be here from the neighboring counties.

The convention opening will be featured by a pageant Thursday night at the church, beginning at eight o'clock.

Mrs. Lon Smith is president of the district association, Mrs. A. J. Manfrot is president of the local unit.

State Official Will Speak at Rural Exercises

S. M. N. Marrs, state superintendent of public instruction, will be in Hereford May 13 to give the main address at the closing exercises of the rural school seventh grade pupils, according to Earl W. Wilson, county superintendent.

The program will be held in the evening at the high school auditorium.

BUDDIES PROMISED BEST TIME EVER AT PAMPA MEET

Veterans of Pampa claim theirs is the only town in Texas ever to attempt and put over an unofficial department convention. Last year the convention was a success and Voiture Locale No. 953 is determined to make another a reality. The time is April 25 and 26.

"We're going to show you buddies a good time if it takes the hair, hide and all," says Daniel W. Thurman, official spokesman for the Pampa ex-service men.

The famous wreck crew will do its stuff, and after the "wreck" a dance will be held at the Elks club. Rev. C. E. Lancaster, post chaplain and advertised as a "foot-washing Baptist", will preach to the convention at the First Baptist church.

All buddies and their wives are invited to make the time ever had at a convention is promised by the veterans, assisted by the citizens and merchants of Pampa.

Reservations On Special Should Be In April 28

Reservations for tickets on the special train to run to Carlsbad May 24 must be made at the Brand office by next Tuesday, April 28, the closing date announced for pre-sale of tickets.

The Brand office has been supplied with the required receipts which will be issued to those planning to take advantage of the reduced rates put in effect for this occasion. The round trip fare for one person from Hereford is \$9.75, and free transportation to the caverns will be furnished in comfortable cars by the citizens of Carlsbad.

The special is being sponsored by the Brand and other newspapers of the Nunn-Warren Publishing company, on the railroad lines from Pampa to Carlsbad, purely as an educational trip for many who want to see the scenic wonders at a much less expense than regular train fare.

Carlsbad caverns are recognized as one of the big assets of the Southwest. These caves draw more tourists than any other feature, and every town along the route benefits from such traffic. It is a concern of the entire Southwest to advertise and exploit its own great show place, which will never deteriorate but is becoming more accessible under government improvements, and the sole purpose of the special is to accentuate this point of common interest and start the whole territory to working together.

If a Pullman is desired, reservations may be made for a standard at \$6.00 and \$7.50, tourist at \$3.00 and \$3.75. One berth may be occupied by two people. Children five years old and under 12 are charged half fare. Admission to the caverns is \$2 for each adult; children under 16 years are admitted free.

The special will leave Hereford at midnight of Saturday, May 2 arrive at Carlsbad at 6:30 the following morning, and start on return trip at eight o'clock in the evening of the same day, reaching Hereford Monday morning at 4:30.

Every effort will be made by a people of Carlsbad to make the stay there pleasant and comfortable. Not only will they furnish transportation to the cave, but the Crawford hotel invites visitors on the special to use its lobby and rest rooms during the intermissions, before and after seeing the vicinity's natural wonders.

Miss Nell Hall and Miss Edah Park were first to make reservations on the newspaper special. Call at the Brand office or phone 30 and a place on the train will be reserved. Selection of the Pullman is optional, as day coaches will also be attached.

Enjoy Gift Cake.

Employees of the Hereford Brand have the Progressive club and Miss Olive Perkins to thank for a large cake which came as a surprise from these good ladies last Saturday. The donation was in appreciation of the \$150 cash prize the club earned in the Brand's cash distribution plan which was closed the first of the month.

Members of the newspaper force made no attempt to name the cake, and when asked what kind it was unanimously exclaimed, between bites, that it was a "good one".

Baptist Revival Opens With Five Church Additions

The revival meeting at the First Baptist church opened here Sunday morning with a good start, and there were five additions to the church on the first day. Rev. V. M. Cloyd, pastor, is doing the preaching, assisted by an orchestra, with local singers in charge.

The Sunday services drew big crowds, and in spite of the bad weather the first of the week there has been splendid attendance for both morning and evening services.

At the morning hours, from 10 to 11 o'clock, the minister is discussing the beatitudes, taking up one each morning. The day services are closed promptly at the expiration of the hour.

The evening services are carried out on a similar schedule, opening at eight and concluding at 9:10.

The congregation and pastor extend a cordial invitation to the general public to attend the services and take part in the worship.

There will be no services on Saturday mornings.

National Rule Gives Hereford Band 2nd Place

The Hereford high school band has won the right to compete in the national band music contest in Tulsa the latter part of May by being given second place in the Panhandle music festival competition, held last month in Amarillo.

This information reached Ralph Smith, local director, from C. M. Tremaine, secretary of the National Bureau for Advancement of Music, New York, in answer to a request for a ruling on the eligibility of bands from Amarillo and Wellington, which were announced immediately following the contest to be winners of first and second places respectively.

Amarillo had a class A team in class B, and Wellington played an ineligible man, against which Mr. Smith and other directors protested. The question was referred to the national association for settlement of the protesting towns was upheld.

Perryton now holds first place and Hereford second. The two bands have the privilege of playing against musicians from all over the nation in the Tulsa meet. It was also ruled that should one of the winners decline to make the trip to Tulsa that Wellington would be allowed to enter, providing the ineligible member was left off.

Westway Given First Defeat from Midgets

Westway's young baseball boys made their first appearance here Thursday afternoon in their new suits, only to be defeated in a good game by the Midgets, a group of Hereford youngsters, with a score of 9 to 6. Seven innings were played.

This was Westway's first defeat for the season. The community has a good team of fine boys, who are fine sportsmen and brilliant players. The Midgets were able to take the victory by playing tighter baseball. L. B. Russell pitched the full game for the Hereford team.

The Midgets will be in Tulla Friday afternoon for a game with the junior high school nine there.

Hold Services At Christian Church Sunday

Preaching services at the First Christian church are announced for both morning and evening hours, with Rev. M. J. Johnson in the pulpit.

Subject for the morning service is "The Good Samaritan", and at eight o'clock "A Faith You Can See" will be delineated.

The public is cordially invited to both these services.

COLLEGE PRESENTS IN RECITAL HEREFORD BOY

Charles Ferguson, son of Mr. and Mrs. C. C. Ferguson, Hereford, was recently presented by Prof. Wallace R. Clark, head of the music department at W. T. S. T. C., in a sophomore song recital. "His program establishes Ferguson's reputation as one of W. T.'s singers," states the Prairie weekly newspaper of the college.

Charles is a bass singer, now a sophomore majoring in music. In the recital he gave the following numbers: I wonder this summer morning, The pine tree, On the lake so calm, so placid, The runc rock to star, deceive me not, and The romance, all by Robert France.

Belief Pecans Unfruitful Here Is Discounted

The old claim or theory that paper shell pecans will not bear in this part of the Panhandle has been discounted or exploded by a tree at the H. H. Hawkins home, 400 Lee avenue. Discovery of the fact was not made until last week when Mrs. Hawkins noticed a pecan on the ground. Upon investigation several clusters were observed clinging to the limbs.

The nut was well matured and of medium size, large enough to be merchantable. Several years ago—the exact date is not known, but it was no longer than 20 years—owner of the property planted several nuts and only one of the trees has survived. It is now taller than the house and makes a good shade.

No fruit had ever been noted before. Over a year ago L. P. Landrum, local nurseryman, informed Mrs. Hawkins that the paper shell variety would not bear until topped. Last fall was the first year after topping, and the resultant fruitage, though not in large quantities, is probably the forerunner of a long life of heavy annual crops.

This discovery is extremely valuable if it means ultimately introduction of desirable shade trees that will yield a money crop each year.

Grimes Home Lost In Fire As Wind Rages

The farm home of Dave Grimes, half mile west of 25-Mile avenue and half mile north of Harrison highway, was totally destroyed by fire Monday morning at the height of a raging north wind.

The fire probably started from an oil stove in the kitchen, according to Mrs. Grimes. She was in the house at the time but Mrs. Grimes and her small child were in the garden. The contents of furniture saved was one trunk. Mrs. Grimes stated that when she reached the building she could not enter as smoke and fire had filled every room.

The kitchen was on the north side of the house and a draft caused either by the door blowing open or a possible explosion of the oil stove shattering a window, caused the blaze to spread immediately the full length of the house.

The residence telephone could not be reached and Mr. Grimes fired his pistol several times and Mrs. Grimes ran to the home of W. A. Ricketts nearby where the fire alarm was turned in at 10:30 and the Hereford fire equipment was soon on the scene, pumping water from the two reservoirs, but the structure could not be saved.

The barn, windmill and other buildings were on the north side and were in no danger. Had the home not been isolated, it is the opinion that a disastrous fire of great proportions would have resulted.

The baby of the family had been in the habit of taking its morning nap from about 10 to 11 o'clock, said Mrs. Grimes, but fortunately it accompanied her to the garden Monday morning. She said it would have been impossible to have rescued the little daughter had she been in the house when the flames started.

Some insurance was carried on both the building and furnishings, according to Mr. Grimes. This is his second loss from fire.

Form Group to Get State Road to South Texas

Assurance that a state highway designation would be granted for a road between Vega and Abilene, running through Hereford, Dimmitt, Hart and Plainview, is expressed by J. E. Hill, who attended a meeting in Plainview Friday.

An association was formed at the Friday meeting and Judge Jno. P. Slaton, president of the chamber of commerce here, was elected president of the road body whose object will be to present the matter to the highway commission for favorable action.

If this state highway designation is secured Hereford will occupy a strategic position on a north and south route that leads mapped highway, leaving Plainview, would pass through Petersburg into the Rio Grande valley. The burgh, Lorenzo, Crosbyton, Dickens, Spur, Jayton, Aspermont, Anson and Abilene. From Abilene the route includes Santa Anna, Brady and San Antonio and then into the winter garden belts of Texas.

Part of the proposed road is already under state designation and is improved. It is the plan to hard-surface the new state road, if obtained, as soon as practicable.

Joe L. Pope and J. E. Hill represented Deaf Smith county in forming the association and were instrumental in having a fellow-townsman elected to the presidency.

Elliston Motor Car Found; Man Is Under Arrest

The Studebaker car stolen from A. H. Elliston was recovered Saturday in Sweetwater—and a man giving his name as Sturgeon Steffins, Haynesville, Louisiana, was arrested by Nolan county officers.

Sheriff John B. Miller was notified of the arrest and left Tuesday, accompanied by J. C. Allred, deputy sheriff, to bring the prisoner back to Deaf Smith county. They were expected to return Wednesday afternoon.

Mr. Elliston was informed that the insurance company would have his car brought back to Hereford and repaired if damaged any.

The car was found in a Sweetwater garage where Steffins is alleged to have pawned it for \$15 after having tried several days to sell it at a cheap figure. It is reported that one of the front bearings had been burned out in the drive from Hereford to Sweetwater.

Park Men Meet In Amarillo To Talk Palo Duro

An important Palo Duro park meeting was held in Amarillo Wednesday, attended by men of the bureau of national parks, state park board members, and representatives from counties interested in conserving and improving the scenic places of Palo Duro canyon.

The ultimate plan of the association of this district, through which efforts are being directed, is to have the legislature appropriate funds to buy several thousand acres, designate it a state park, and assist in building a scenic highway through the canyons that are at present inaccessible.

The national government has also been importuned to accept the defined area as a bird sanctuary and national memorial, and when these objectives have been attained, Palo Duro canyons would become one of the great show places of America, taking place alongside Carlsbad caverns, Grand Canyon, and the petrified forests of Arizona.

Judge C. F. Kerr, who is a member of the park association, and Joe L. Pope, attended the meeting yesterday.

Mr. and Mrs. J. J. Moise, Santa Rosa, New Mexico, were guests Tuesday and Wednesday of Mr. and Mrs. Gaston Baer. Mr. Moise is an uncle of Mr. Baer.

Farmers often feed the world and starve themselves and families. Texas' commissioner of agriculture, J. E. McDonald, is urging the farmer to try first feeding his family this year. This need cannot be too much impressed upon the minds of all thinking persons. If the farmer can so plan to raise foodstuffs for use the coming winter, many of the surplus crops at present will swing back to normal, in both production and price.

The vast grain and livestock section which has achieved picturesque and distinctive unity under the name of West Texas, would perhaps be the greatest beneficiary of the farm census bill pending in the legislature, according to its sponsors.

It was pointed out that an annual census of natural resources, such as is planned, would be of special benefit in the industrial and commercial development of this area of potential great value as farming and ranching sections. The census would furnish authoritative statistics to railroads planning to penetrate new territory, to flour mills seeking new locations, and to a hundred other industries whose interests are closely tied to the land.

At present Texas has no

means of collecting data annually on crop acreage, prospective acreage, production of principal crops, numbers of livestock, and other vital farm and ranch resources by counties. Had the proposed measure been in effect last year, towns along the proposed line selected by the Texas & Pacific Northern could have saved thousands of dollars, and the hearing for the permit could have been expedited. Guesswork and so much contravening testimony would have been unnecessary.

Our young generation often astonishes us with its knowledge. But it is well for them to recall Josh Billings' words: "Better not know so much than to know so much that ain't so".

Two examples of how hard up America is have been presented. The government needed a billion or two in money, and within a short time the amount was oversubscribed about two billion dollars, at a very low rate of interest, too. About one hundred million dollars worth of bonds of the city of New York was subscribed within 30 minutes, amidst sharp rivalry to make the investment.

Some fowl philosophy is being recommended in a boy scout bulletin of Eastern New Mexico Council to help all of us: Did you ever see a pessimistic hen? Regardless of business prognosticators she keeps on laying eggs. She will never starve to death waiting for worms to dig themselves to the surface. Whether eggs are 30 cents or nine cents a dozen, she saves her breath for digging and her cackles for eggs.

It is just a little more than a pastime now gathering tip eggs for the market, but studying the old hen's philosophy is about as valuable as reading Victor Emmanuel Kant or Will Durant in their search for what is truth.

FORD RELIABILITY

THE FORD TUDOR SEDAN

Long, hard use shows the value of good materials and simplicity of design

EVERYWHERE you go you hear reports of the good performance and reliability of the Ford.

One owner writes—"The Ford Tudor Sedan I am driving has covered 59,300 miles through all kinds of weather. It is still giving perfect satisfaction."

Another owner describes a trip of 3217 miles in 95 hours over bad roads and through heavy rain and sleet in the mountains. "Throughout the entire trip," he writes, "the Ford performed excellently and no mechanical trouble of any kind was experienced. The shatter-proof glass undoubtedly saved us from serious injury when a prairie chicken struck the windshield while we were traveling at 65 miles an hour."

See the nearest dealer and have him give you a demonstration ride in the Ford. Then, from your own personal experience, you will know that it brings you everything you want or need in a motor car at an unusually low price.

Ford Doings

BY MISS EDITH MANN

Light rain last week end was greatly appreciated by the farmers. Between one-half and three-quarters of an inch fell in this immediate vicinity Friday.

The club social will be given at the school house Saturday night, April 25. Ed and Jim Sprouse and Godwin, all of Vega, have charge of the program.

There was an attendance of 115 at Ford Sunday. Rev. V. M. Lloyd delivered an inspiring sermon and the young men's Bible class orchestra played several numbers.

About 32 guests enjoyed a party in the D. B. Mann home Saturday evening. Games were enjoyed until a late hour when refreshments of cake and cocoa were served.

Mr. and Mrs. Geo. Benson and Mrs. J. L. Hight returned from a visit at Memphis Thursday.

Messrs. and Mmes. O. D. Frazier and John Rempel were Sunday dinner guests in the H. W. Williams home.

Mr. and Mrs. Chas. Donald and daughter of Hereford spent Sunday in the W. M. Stewart home.

Misses Ruby Reupel, Mildred Melvna Stewart took supper at the T. R. Langley home Sunday night.

Mrs. J. D. Jenkins is greatly improved.

Mr. and Mrs. Rye Casey spent the week end in Childress with relatives.

Mrs. H. Cramer spent Sunday and Sunday night in the W. M. Stewart home.

Miss Ymetta Simpson spent Saturday night with Miss Ruby Reupel.

Miss Edith Mann spent Friday in the O. D. Frazier home.

Misses Oleta Reeves, Dorothy and Marine Norton took supper in the D. S. Larson home Sunday.

Lloyd Roberson of Hereford took supper with Mr. and Mrs. H. L. Ford Sunday.

Mr. and Mrs. J. E. Hill of Hereford called in the D. Hill home Sunday.

Mr. and Mrs. J. L. Hight called in the F. W. Brunson home Saturday.

Sidelights ON Ranch AND Farm Activity

R. O. DUNKLE
County Agent

W. R. Scheihagen, four miles west of Hereford, culled his flock of 500 White Leghorns Wednesday of last week. Club boys of Summerfield assisted in the culling. Mr. Scheihagen is practicing a year-around system, culling four times a year, fall, winter, spring and summer.

Layers are lag-banded with a different color each time they are culled. This will enable the owner to know which hens are all season layers. The culled are not banded, but they may have a leg band from one of the previous cullings.

Club boys of Ford visited the W. A. Williams hog farm near Vega Tuesday. Some of the boys intend to buy club pigs from Mr. Williams.

Much interest is being expressed by dairymen of the county in construction of trench silos. Indications are that five dairymen will dig silos this summer and fall for the year's crop.

The Kansas experiment station shows that where cane and kafir are made into silage instead of being fed in dry state, a saving of 123 per cent is realized. In other words, value of forage was more than doubled when made into silage.

W. R. Scheihagen planted nine acres of alfalfa last Wednesday. Run-off water from the highway will be used for irrigation on this alfalfa field.

Club boys of Summerfield made a tour of inspection Wednesday, visiting the homes of each member of the club who is feeding calves or pigs as a club project.

BY MRS. L. JOHNSON

Rev. Close of Amarillo held services here last Sunday morning and night.

Dr. Frye of Austin closed his school of instruction on the Bible last Saturday night. Those who attended were more than pleased with his interpretations.

Mr. and Mrs. J. B. Davis, Mmes. L. L. Cannon, Lee Curry and L. Johnson attended the Rebecca lodge at Hereford Tuesday night.

Miss Mildred Beck of Roswell is visiting her parents, Mr. and Mrs. George Beck.

Mr. and Mrs. Denison Hill of Vega visited in the parental B. A. Atchley home Monday.

Eat Everything without Fear of Indigestion

Are there lots of foods you can't eat for fear of gas, bloating, pains in the stomach and bowels?

Do you have to pass up favorite dishes while the rest enjoy them?

That's a sign you need Tania! For more than 10 years Tania has restored to vigorous health thousands who suffered like you do.

Mrs. Arvena Bowers, of 1230 Jackson St., Topeka, Kans., says: "Five years I was troubled with gas, bloating and dizzy spells. But Tania toned up my whole system and increased my weight 10 lbs."

If you suffer from indigestion, gas, dizziness, headaches, or torpid liver—try Tania. One bottle often brings the needed relief.

Tania is a good, pure medicine, made of roots, barks, and herbs. Get it from your druggist today. Your money back if it doesn't help you.

Mr. and Mrs. Clayburn Carr visited in the Crawford home at Black last Sunday.

The Home Makers Study club met with Mrs. Wayne Murdock last Thursday afternoon. The program was led by Mrs. Brit Clark. Roll call was "Tips on shopping". Mrs. J. B. Davis and Mrs. Andrew Behrens were on the program. The hostess served delicious refreshments to about thirty members and three visitors, Mmes. Axtell, Flagg, Mrs. J. H. Murdock and Leatrus Waiser.

Mr. and Mrs. Harris of Forst, New Mexico, and Mr. and Mrs. Troy Wertz and son of Shamrock were called to the bedside of their father, Mr. Wertz, who underwent an operation at Hereford hospital last Thursday.

Miss Thelma Humphries enjoyed a visit with her brother from Brownwood over the past week end.

Mr. and Mrs. Jett of near Portales, New Mexico, were visitors in the L. L. Cannon home recently.

George Flowers of Sweetwater visited in the home of his brother, Adam Flowers, over Sunday.

J. A. Noland and daughter, Miss Maude, and Miss Thelma Humphries visited relatives at Lockney last Saturday.

Mr. and Mrs. Walter Hawkins and children visited at Vega Friday night.

The Home Makers Study club will meet with Mrs. J. L. Lookingbill Thursday, May 7.

Summerfield baseball boys played at Flagg last Sunday and were defeated 4 to 2. It was a good game and both sides played some real ball.

Morton Editor Here.

George E. Lance, editor of the Cochran County News at Morton, was a visitor in Hereford Friday. Mr. Lance is an old-time newspaper man. Although his town will not be reached directly by the Texas & Pacific Northern railroad, he has taken an active part in all the meetings of the territory effected. He said if the main line could be secured, feeder lines would be built later and Morton would then likely get a rail line.

HOW ONE WOMAN LOST 20 POUNDS OF FAT

Lost her double chin
Lost her prominent hips
Lost her sluggishness
Gained physical vigor.
Gained in vivaciousness
Gained a shapely figure.

If you're fat—remove the cause! KRUSCHEN SALTS contain the 6 mineral salts your body organs, glands and nerves should have to function properly.

When you perform their work correctly, your bowels and kidneys can't throw off that waste material—before you realize it—you're growing hideously fat.

Take half a teaspoonful of Kruschen Salts in a glass of hot water every morning—cut out pastry

and fatty meats—go light on potatoes, butter, cream and sugar.

In 3 weeks get on the scales and note how many pounds of fat have vanished.

Notice also that you have gained in energy—your skin is clearer—your eyes sparkle with glorious health—you feel younger in body—keener in mind. Kruschen will give any fat person a joyous surprise.

Get the 3c bottle of Kruschen Salts at the City Drug Store (lasts 4 weeks). If this first bottle does not convince you this is the easiest, safest and surest way to lose fat—if you don't feel a superb improvement in health—so gloriously energetic—vigorously alive—your money gladly returned.

Make Your Gas Bills Thrift Bills

While we cannot regulate the amount of gas that you use, we do urge you to take care that your consumption does not exceed your actual needs.

In other words, we want you to get the most out of the gas you use; we want you to make your gas bills thrift bills.

We desire this because a careless, wasteful use of gas results in big bills, complaints, delayed payments and other expenses which, when taken together, mean dissatisfied customers.

Satisfied customers constitute our best asset. They are worth more to us than any revenue derived from gas which is wasted.

Book Reviews

It is probable that records show most readers shy away from histories when borrowing books from a public library. History has too much the savor of school textbooks to be popular with the general public, but one notable exception should be "The Story of Mankind," by Hendrik Van Loon, in the Deaf Smith county library.

This is the most fascinating running history of the world ever published, printed in large type and condensed into one volume. It is as readable as fiction, is in fact just a story, as the title implies, of the world from the beginning of things to the present, in which the hero or villain is mankind as the ages unfold.

The mature person who would rapidly review most of the worthwhile events of the past, in which they are most admirably linked, beginning with the time when glaciers slipped down from the north and wrought havoc among our cave-dwelling ancestors to the age of electricity when man has begun in earnest to conquer the elements instead of being conquered, will enjoy the book.

And the student who is wading laboriously through ancient, medieval and modern history textbooks, covering a study period of several years, will find "The Story of Mankind" a most valuable aid in showing relationships of events and growth of nations. It should be in every school library where all class members may refer to it at least once a week, reading just enough chapters to show how his or her studies form a chain in the world's progress.

All chapters of the book are short, some only two or three pages. And another feature is the illustrations or pictures, drawn by the author. These pictures are rather pointed and are liberally

scattered through the book. Van Loon's production is a treasure, and nothing can keep you from taking it home if you will drop into the library and read the first few pages.

Home Demonstration News

MISS EMMA GUNTER, C.E.D.A.

Girls in the 4-H clubs have been having their team demonstration tryouts this month and will continue to do so until each club has had them. At Westway the winning team was Odessa Campbell and Stella Mae Gore; at Ward, Gladys Lewis and Doris Lady Ford, Sims and Dawn will have their eliminations the coming week. In each club the girls were asked to choose partners to work with and to give the demonstration given to all, and it was "A well-equipped sewing box". It was a very simple demonstration, but one that was common to them all and one that was practical.

This coming week some of the girls will have their first foods lesson. Yeast breads will be studied first, then salad dressings, and the two lessons will be combined into one and given by the girls using the bread they bake for sandwiches and the salad dressings for salads. The clothing work of the girls is being handed in to the agent to be kept for future lessons on button holes and laundering, and finally for the club exhibits in September.

Miss Gunter has been talking to the women's clubs in the county about their one-day home demonstration club women's short course to be held at W. T. S. T. C. April 28, with Mrs. Maggie W. Barry as main speaker. The college band will give some numbers and the dramatic department will give a one-act play. The club women are to meet at the court house Tuesday morning by 9:00 o'clock in order to get to Canyon for the program, beginning at 10. Every rural club woman is invited to go and take her husband if he cares to go.

On account of the rainy weather the county home demonstration council did not meet this past Saturday, but will meet Saturday, April 25, in the club room as usual.

Miss Gunter says now is the time to begin canning your nice tender stalks of rhubarb before the high acidity develops, as is the case with the older stalks. This may be canned as a sauce or as plain rhubarb—it requires only 5 minutes to process if canned as a sauce. Also the young, tender asparagus tips should be canned now, as they have a different flavor now than later on. Only the green tips should be canned in pint jars with the tips up. Cook 30 minutes at ten pound pressure. In water bath method it requires two hours to cook in boiling water. Asparagus should be cut every other day until the cutting season is over.

Card of Thanks.

We wish to thank all those who called, phoned, sent flowers, or in any way tried to make the load less hard to bear during the illness of Mr. Fridley. Especially would we remember the doctors, and nurses at the county hospital, and members of the Odd Fellow and Rebecca lodges.

THE FRIDLEYS.

Club Woman of Ford Realizes Profit On Hens

Beating the state standard for February by 10.3 eggs, a hen on the monthly average from her flock, Mrs. Herman Koch, poultry demonstrator of the Ford club, has been making an attractive profit in selling eggs.

Her 153 white leghorn hens produced 3255 eggs during March, an average of 21.3 for each hen during the month. This is considered good in view of the kind of weather experienced here in March, characterized by three blizzards.

Mrs. Koch had 200 hens November 1, and was getting 4.3 eggs a hen for each 30-day period. In December R. O. Dunkle, county agent, and Miss Emma Gunter, the home demonstration agent, culled the flock down to 100, and the average production rose to 14 3/4 eggs. In January it was 14 3/4; in February 18 1/4.

For the periods over which she kept records, Mrs. Koch figures that she has made \$122.96, including sale of hens and eggs, above all expenses. Profits on egg sales alone have average \$22.39 a month.

This demonstrator has an average building for her flock. She has been feeding ground and whole wheat, skimmed milk and cabbage tops for some time. Oyster shells are kept before the chickens all the time, and a dust box is maintained for the hens. She painted the roosts with Black Leaf Forty to eliminate lice. For the past three months she has lost only eight hens through death.

Over a four-months' time the 153 hens, according to Mrs. Koch, have laid 10,739 eggs.

E. Carter of Dallas arrived here last week to inspect his farm southeast of town. He will remain here several weeks.

Special equipment extra. Chevrolet truck chassis, \$355 to \$390. Low delivered prices and easy terms. All prices f. o. b. Flint, Michigan.

If you could see the new Chevrolet Six being built, you would understand why it performs so well, lasts so long and brings so much satisfaction and pleasure to its owners. The quality of raw materials is held to standards unsurpassed anywhere in the automotive industry. In the manufacture of the engine alone there are hundreds of separate inspections. Pistons are matched in sets to within one-half ounce. Piston pins must be within 1 1/4 tenths of one one-thousandth of their specified size. Connecting rods are matched to within one-quarter ounce and are individually fitted by hand. The special alloy steel crankshaft is the subject of truly amazing care and precision in manufacture and cannot vary from perfection in balance more than 1/4 inch-ounce!

These few examples of Chevrolet standards indicate the care used in the manufacture of every part of the car. Soundly built to serve you long and well! No compromise with quality means no compromise with satisfaction in ownership.

HOW TO PRAY

Luke 18:1-14

1. And he spake a parable unto them to the end that they ought always to pray, and not to faint; 2. Saying, There was in a city a judge, who feared not God, and regarded not man: 3. And there was a widow in that city; and she came oft unto him, saying, Avenge me of mine adversary. 4. And he would not for a while; but afterward he said within himself, Though I fear not God, nor regard man; 5. Yet because this widow troubleth me, I will avenge her, lest she wear me out by her continual coming. 6. And the Lord said, Hear what the unrighteous judge saith. 7. And shall not God avenge his elect, that cry to him day and night, and ye he is long suffering over them? 8. I say unto you, that he will avenge them speedily. Nevertheless, when the Son of man cometh shall he find faith on the earth? 9. And he spake also this parable unto certain who trusted in themselves that they were righteous, and set all others at nought. 10. Two men went up into the temple to pray; the one a Pharisee, and the other a publican. 11. The Pharisee stood and prayed thus with himself, God I thank thee that I am not as the rest of men, extortioners, unjust, adulterers, or even as this publican. 12. I fast twice in the week; I give tithes of all that I get. 13. But the publican, standing afar off, would not lift up so much as his eyes unto heaven, but smote his breast saying, God, be thou merciful to me a sinner. 14. I say unto you, This man went down to his house justified rather than the other: for every one that exalteth himself shall be humbled; but he that humbleth himself shall be exalted.

Golden Text: Lord, teach us to pray.—Luke 11:1.
Time: March, A. D. 30, a month before Christ's crucifixion.
Place: Perea. The healing of Bartimaeus at Jericho.

Introduction.
Jesus had said much about the kingdom of God in the preceding chapter, Luke 17:20-37. Now the Pharisees come asking him when it shall come, and he gives an unsatisfying answer. The disciples

also are puzzled, and Jesus turns to them with certain statements about things that must take place before "the day of the Son of Man." The when and the where and the how and the what of that glorious future suggested by the kingdom of God? they could not fully know. Jesus knew their perplexity, and he knew also that they would be tempted to give up looking for it, and give up prayer, or likewise. Hence this parable, the Unrighteous Judge, calling to persistent prayer.

"The parable of the Pharisee and Publican was designed to teach humbly, not only in prayer, but in every estimate of oneself and in every approach to God. It further contrasts the religion of form with the religion of the heart."
Earnest Prayer.
"No man ever accomplished so many tasks in so brief a span of time as did Jesus. And yet no man ever spent more time in prayer than did he. Perhaps it would be better to say it in this way: No man ever accomplished more than did Jesus because no man ever devoted so much time to prayer. Luther was wont to say that 'prayer and provender hinder no man on his journey'. The more a worker for God prays, the sharper will be his tools."—Rev. M. E. Dodd, D. D.

Formal Prayer.
"Religions forms and practices are always in danger in time of becoming lifeless, and so losing much or all of their original meaning and value. It is true of prayer; and especially of formulated, printed prayers, or those precious ones that have come down to us from the past. Such prayers have their real worth and may well be used, sometimes; but in repeating them we must seek to make them the very living petitions they were in the mouths and the hearts of their authors. What we have just said applies to the Lord's Prayer, that so many of us abuse, not by too frequent, but too thoughtless use."

The Widow's Prayer.
"And there was a widow in that city." The Bible is full of tender thought for widows, and accounts of kind deeds performed to aid them. One-half of James' definition of pure religion is "to visit the fatherless and widows in their affliction" (James 1:27). "And she came oft unto him, saying, Avenge me of mine adversary." Moffatt's translation gives better the thought of the original: "Justice against my opponent." "And he would not for awhile." Doubtless he was waiting to see

whether he might not be offered a bribe. Though the unjust judge is no parallel to God, yet in the divine plan are many postponed answers to prayer. There is always a reason for these postponements, a good reason, since God is our Judge. The blessing for which we beg may be in reality no blessing at all for us, but a curse. Or, if it be for our good at some time in the future, it may not be for our good at the present time. His negative or his delay is as kindly an answer to our prayer as his immediate and full assent to our petitions.

The Heavenly Judge.
"And shall not God avenge his elect." His chosen ones, with whom he has made a covenant of friendship and love. Christ teaches by contrast—the infinite difference between the slothful, selfish, cruel, indifferent and avaricious earthly judge, and the heavenly Judge who is all-loving and all-wise. "That cry to him day and night." For even God's dear children have trials and endure sufferings, praying constantly to be relieved from them, as Christ prayed in Gethsemane, "Let this cup pass from me."
"I say unto you, that he will

avenge them speedily." Men may think their relief is long in coming, but God will send it as swiftly as his love and wisdom see to be best; and we must remember that "one day is with the Lord as a thousand years, and a thousand years as one day."—2 Peter 3:8.

Trusted In Themselves.
"And he spake also this parable unto certain who trusted in themselves that they were righteous, and set all others at nought." This is a perfect picture of the Pharisees, that proud and overbearing sect who called all other Jews "people of the earth", that is, no better than beasts. They "trusted in themselves" rather than in God, and therefore they regarded others as nothing. They were self-righteous; "being ignorant of God's righteousness, and seeking to establish their own, they did not subject themselves to the righteousness of God." (Rom. 10:3).

Prayed With Himself.
"The Pharisee stood and prayed thus with himself." It was not a prayer at all, but only a soliloquy. He was not communing with God, but with his haughty and conceited self. "God, I thank thee that I am not as the rest of men."

It is legitimate to thank God for delivering us from besetting sins, but it never entered the Pharisee's head that he might sin or had sinned; he merely congratulated himself that he was better than others.

"I fast twice in the week." "The Pharisee's description of his fasts and tith-giving is doubtless quite correct. The Pentateuchal law prescribed one fast only in the year—the Day of Atonement in September (still alluded to as 'The Fast' in Acts 27:9). "I give tithes of all that I get." The law required a tithe (a tenth) of the crops (the grain, oil and wine) and of the herd or flock to be given for the support of the Levites, who had no land and were entirely devoted to the care of the temple and the conduct of public worship. The Levites paid to the priests a tithe of what was given them. As the animals passed out to pasture every tenth animal was set aside for the tithe. This provision for religion was extended till the Jews were paying a second tithe and a third tithe, and many more things were tithed than the Mosaic law prescribed, even to garden seeds, mints, anise and cummin, Matt. 23:23), and some

went so far as to tith not only the seeds, but the straw. In addition, of course, the Jews paid taxes to the Roman Empire.

Be Merciful to Me, a Sinner.
"But the publican, standing afar off." Possibly standing at a respectful distance from the Pharisee, but more likely in reverence he stood far off from the Holy Place, near which the Pharisee stood in order to show how close to God he lived. "Would not lift up so much as his eyes unto heaven." The ordinary Jewish attitude in prayer was standing, with eyes raised to heaven, and with arms stretched out, the palms turned upward as if to receive the blessings which God would send down from the skies. The tax-collectors felt no such confidence of blessings. "But smote his breast." In all lands a common gesture of grief and contrition. "Saying God, be thou merciful to me a sinner." Literally, "the sinner". As the Pharisee set himself above others, so the publican set himself below others. "He thinks of himself only, and of himself as the sinner, well known as such, the one fact worth mentioning about him, as one might speak about the drunkard of the village."

—Prof. A. B. Bruce.

The Reward of Humility.
"Humble yourselves in the sight of the Lord, and he will exalt you. Water always fills first the lowest places. The lower, the emptier, a man lies before God the speedier and the fuller will be the inflow of the divine glory. We are but willing to stoop to Christ, as he has stooped to us; he will yet stoop to each one of us again, and we shall find ourselves not unequally yoked with him."—Andrew Murray.

Two Went to Pray.
"Two went to pray; or rather as one went to brag, the other to pray. One stands up close, and treads on high, Where th' other dares not see his eye. One nearer to the altar trod, The other to the altar's God."—Richard Crashaw.

Like a Symphony . . . the best Gasoline is Blended

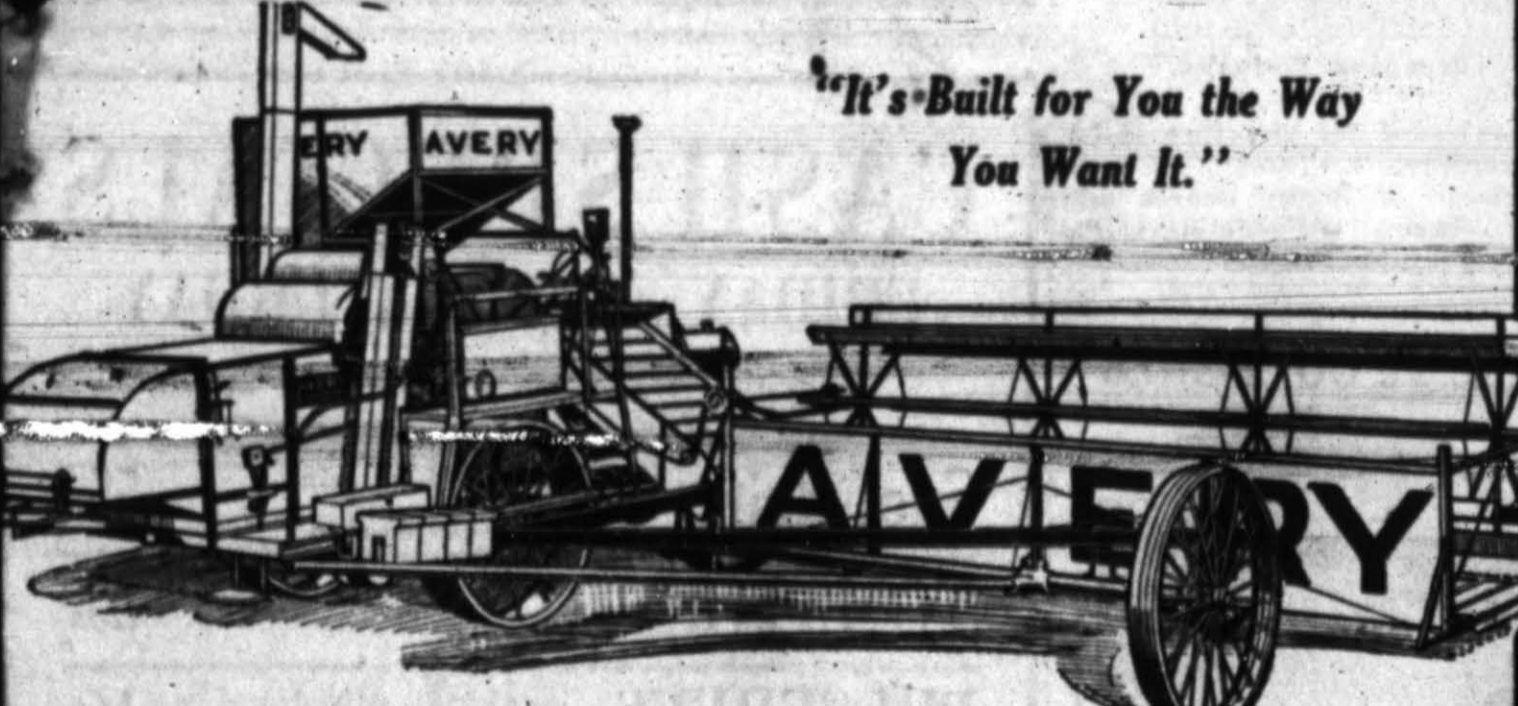

IT'S primer knowledge to the orchestra conductor that each group of instruments in the ensemble brings a necessary influence into the symphony's finished blend of tone. In the unaccompanied "compah" of the bass horns the overlay of melody provided by singing violins and mellow woodwinds is lacking. All must be blended by the baton of the conductor according to the expert formula of the composer before the perfection of the symphony is achieved.
CONOCO long has realized that harmony is as necessary to gasoline as to music. So CONOCO gasoline is blended—and balanced. One type of gasoline is no more satisfactory than is an orchestra of bass horns. So CONOCO refiners take the three types containing the elements of the perfect fuel and deftly combine them until they blend in absolute harmony.
That's why CONOCO contains Natural Gasoline, for quick starting . . . Straight-run Gasoline, for power and long mileage . . . Cracked Gasoline, for its anti-knock qualities.
No single type of gasoline can contain all these qualities. They are present, though, in CONOCO Gasoline . . . Blended there into a symphonic, harmonious whole, with CONOCO'S master refiners wielding the baton. For, after all, it's in knowing how. That's why some musical directors, as well as some refiners, achieve fame.
You'll find this triple-test gasoline with the balanced-blend wherever you see the CONOCO Red Triangle.

A nutritious ration is absolutely necessary for the health and strong development of your baby chicks. MERIT STARTING MASH is pulverized and mixed to give the exact proportions of food elements - oat groats, dried buttermilk, cod liver oil, charcoal, alfalfa leaf meal, and every other essential ingredient.

Loss during the first few days of life is often very great because of improper feeding. MERIT STARTING MASH reduces this to a minimum. Once you have your chicks well started, MERIT GROWING MASH will maintain that steady, profitable growth that prepares them for early market or quick production.

Students With High Averages Are Announced

Students whose averages, based on the first five six-weeks of the fourth year of high school, are sufficiently high to be included in the ranking to show the highest, second highest and relative ranks, are announced by Superintendent C. H. Dillehay.

The girl and boy making the highest averages are entitled to a choice of scholarship from several colleges. The University of Texas, however, will not grant scholarship to students who do not average at least 90.

The following ranking has been compiled by the superintendent: Alberta Davis, 90.42; Virginia Bowman, 90.38; Myra Hartman, 89.8; Della Weeden, 89.2; George Mitchell (highest boy), 84.45; Opal McMahon, 84.4; Robert Bell, 83.2; Marie Seed, 82.5; Lois Sowell, 82.4; Henry Kuper, 82.25, and Bill Hawkins, 81.7.

These averages are not as high as those reported by some schools but the averages in the local high school have not been much higher for the past several years, according to Mr. Dillehay.

An examination of the records for the past eight years shows that the highest average made by the girls during that time was 94%, earned by Lorene Wherry of the 1928 class. The highest for boys was accredited to Elmer Patterson, 1924 class, with 94%.

The record by years is as follows: Elmer Patterson, 94%, 1923-24; Emma Jeanne Donald, 92%, 1923-24; Mozelle Hill, 93, 1924-25; George Beams, 92 3-4, 1924-25; Lucille Hughes, 92 1/4; Oliver Rudd, 87, 1925-26; Ella Broadwell, 91 2-5, John Wherry, 88 1/4, 1926-29; Lorene Wherry, 94 1/4, Howard Eberle, 92 1/4, 1927-28; Bill Mitchell, 93 1-5, Leatrus Walsler, 89 2-5, 1928-29; Kathleen Cronin, 91 2-5, Henard East, 88, 1929-30.
