TUESDAYS—TWICE-A-WEEK—FRIDAYS

HEREFORD, DEAF SMITH COUNTY, TEXAS, TUESDAY, FEB. 14, 1922

22nd YEAR, NO. 7.

AMARILLO IS GOING AFTER MORE WATER

HEREFORD MAN SECURES WELL CONTRACTS

LUNCHEON HOUR

Spent in General Discussion Hereford and Hereford Country

The Chamber of Commerce held a rather interesting session at their luncheon Monday. Only a few were present, and in the absence of President McDonald and Secretary Holman, our financial director, Homer Wilkinson, presided.

No program was prepared and no actions were taken. The hour was spent in a general discussion of things of interest to Hereford and the Hereford country.

The most important item of news discussed was set forth by Mayor Knight—the letting of a contract for a number of deep water test wells to be drilled this side of Amarillo, to secure sufficient water to enable that city to grow to be the best and largest in the state of Texas. Mayor Knight informs us that our president, D. L. McDonald, has been honored with this contract, and it is the Mayor's opinion (and ours as well) that, in Mr. McDonald, Amarillo has secured one of the best posted and one of the most competent men in the state in this line of work.

HEIRESS 43 TO WED REFUGEE 23

When Mrs. Marion R. Stephens, 43, of Chicago, divorced, and heiress to millions, announced she was going to marry A. A. Vonsiatsky, 23, Polish refugee to the U. S., then the news movies started to grind. The young Pole slipped an overcoat over chemical stained overalls to pose for this picture at the Baldwin Locomotive plant, Eddystone, Pa., where he works. The insert is of the heiress, who says she will live with her husband in a humble cottage near his work. She was the former wife of a prominent Chicago clubman.

Bob Renfro Puts Fire Out But is Severely Burned

Bob Renfro, small son of Mr. and Mrs. E. Renfro, was severely burned about the face and head Saturday, while trying to burn the trash from a dry tank on their place in the west part of town. The wind was blowing and the fire started with a rush toward the windmill tower. Bob, heroically, thinking to save the windmill, sprang into the thick of the fire with a rake and put the fire out.

The young man is now under the doctor's care, and although his injuries are not serious, they are painful, but as long as the doctor will leave a little hole in the bandages for him to see through and an opening for his mouth, Bob will grin and tell 'em about it.

A. E. Coneway Dies, Double Funeral Service Held

A. E. Coneway, who was so seriously hurt in an accident on the night of January 27, when the automobile in which he was riding collided with a wagon, passed away last Saturday, February 11. Double funeral services were held, the first being at the home of W. I. Valentine, Rev. M. M. Beavers officiating, assisted by Dr. E. B. Atwood. The second service was held at the St. Anthony Catholic Church Sunday afternoon and the remains were laid to rest in the Hereford cemetery.

Albert E. Coneway was born in Michigan City, Indiana, April 12, 1886. He was thirty-five years, nine months and twenty-nine days old. He is survived by his wife, five children, a brother, R. P. Coneway of Black, and his father, C. W. Coneway of Indianapolis, Ind.

Mr. Coneway's early life was spent in Indiana and on September 25, 1906 he was united in marriage to Miss Rose Klien, of Hammond, Indiana, their home being in Chicago for about ten years. Mr. Coneway and family came to the Panhandle in November, 1917, and made their home on the Hill farm near Black at which place they are now living. Mr. Coneway was a member of the local St. Anthony's Catholic Church, becoming a member at the time of his marriage. He leaves a host of friends to mourn his untimely death.

J. M. CHAPMAN, OF ADRIAN, PLANS TO INSTALL INCUBATOR

J. M. Chapman, of Adrian, was in this city last Saturday to attend the Poultry meeting and to attend to other business. Mr. and Mrs. Chapman are in the poultry business on a large scale and are preparing to install a Candee Sectional Incubator, with a capacity of 600 eggs. Mr. Chapman states that they will do custom hatching this season.

HEREFORD BANKERS HONOR LINCOLN'S 113th ANNIVERSARY

Hereford bankers honored Abraham Lincoln's 113th anniversary by leaving their curtains down and their bank doors closed all day Monday. The rest of us, who in all probability, honor Abe quite as much as our bankers, worked hard all day that we might be held in high esteem by said bankers when they opened their doors for business on Tuesday.

HEREFORD ORGANIZES POULTRY ASSOCIATION SATURDAY AFTERNOON

MEETING ADDRESSED BY BIOLOGIST WHITEHEAD AND COUNTY AGENT WALKER

PANHANDLE POULTRY ASSOCIATION

E. W. Kinney Elected President; Lee Biggs, Vice President And N. C. Vogele, Secretary and Treasurer. Dues One Dollar for Remainder of Year

Saturday afternoon about one hundred and twenty-five enthusiastic poultry raisers assembled at the County Court Room. At 2:30, Chairman Lee Biggs, of the Department of Poultry of the Chamber of Commerce, called the meeting to order. After a few remarks, he introduced L. C. Whitehead, who is traveling representative of the

department of the Bureau of Biological survey of the U. S. Department of Agriculture. Mr. Whitehead stated the object of his visit to Hereford was to cooperate with the farmers for the purpose of exterminating prairie dogs, and he advised an organized committee for this line of work. Mr. Whitehead also gave some pointers on how to exterminate rats, which were pleasing and helpful to the poultrymen present.

Chairman Biggs made some very helpful preliminary remarks as to the object and the good to be derived from organizing a Poultry Association. He also called for a rising vote to get the sentiment of the meeting, whether or not it was in favor of an association. All present voted in the affirmative.

The meeting proceeded by the election of officers, of which E. W. Kinney was elected President; Lee Biggs, Vice President, N. C. Vogele, Secy. Treas. Mr. Kinney immediately took charge and proceeded with the business at hand. The dues for the remainder of the year were fixed at one dollar, a committee composed of Albert Higgins, Lee Biggs and Seth B. Holman, was appointed by the chair to frame a set of rules and by-laws and instructed to report as soon as possible.

County Agent G. F. Walker, of Randall Co., made some announcements of sales and general county work relative to agricultural work and organization. The chairman then called to the attention of the meeting that a name was requisite, after which several names were mentioned. Dr. W. F. Gabbert proposed the name of Panhandle Poultry Association of Hereford, which was accepted at once. The meeting adjourned, the president requesting all present to affiliate with the new organization. The result was thirty charter members.

Announcement will be made in The Brand of the time and place of the next meeting.

FARMERS GET MARKET REPORTS BY WIRELESS

Thousands of farmers located in middle western states are twice daily receiving market reports by wireless telephone. There is no cost to the service, once the inexpensive receiving set has been installed, and which can be purchased anywhere. The Westinghouse Electric Co., from its great free broadcasting station at Newark, N. J., not only sends out market reports at 12 o'clock noon and 6 P. M. daily, but also furnishes official weather forecasts and other entertaining and educational programs. It has been estimated that more than a half million amateurs (mostly in rural districts and on farms) "listen in" every day. Pictures show the operator sending out market reports from Newark; and map shows distances the messages are received.

Auditing Committee on Water Department and Light Company's Books Submits Its Reports

The committee appointed at the mass meeting Monday of last week, to examine the books of the Water Department and Light Company makes the following report:

"Gentlemen: Your committee beg leave to report as follows: The books of the Hereford Light & Power Co. show a capitalization of \$46,800.00. We have no means of checking up this valuation, the amount of capital has been gradually added to during a period of about fourteen years. To put an independent valuation on the property other than the book valuation is the job of experts. We are not competent to do so.

"This valuation, of course, is the basis from which we could make any statement that would be of use in fixing a rate that in our opinion would justify the Light Plant to continue operation.

"The expenditures we can readily check. We find the salaries paid during 1921, of \$10,325.00, to be correct. We find the fuel bill, of \$10,558.69, accordingly correct. Interest, insurance, office rent and loss by fire, as shown by the report of the company, we find correct.

"The General expenses of \$2,305.44 are correctly shown, reflecting the various items in the Ledger, our individual opinion differ as to several items charged to expense, as to whether they properly belong in the expense account. We did not itemize these amounts, in the aggregate they would probably amount to \$250.00. These items consist of dues to the Commercial Club, donations to churches, etc., expenses of employee while acquiring a knowledge in efficiency.

"The amount of income from the sale of Electricity of \$29,479.96 is correct, as shown by the books.

"The profit on the sale of merchandise of \$905.63 also checks as correct.

"The amount of \$2,240.00, deducted for depreciation, of course, we have no means of checking other than from the valuation based on valuation shown by the books of the company.

"We find there is a reduction in the

price of coal of about 13 1/2 per cent, which would amount to about \$1,368.00 during the year of 1922, providing the same reduction would maintain during the year.

"We also find there has been a reduction in salaries of about 17 1/2 per cent, which, maintained throughout the year, would amount to about \$1,800.00.

"We are unable to state, with the information obtainable, what in our opinion the light rate should be. In view of the above facts, we do not consider it necessary to investigate the books of the city.

Troy Womble,
S. J. Williams,
J. S. Jones,
Committee."

Closing Number School Lyceum On February 17

The closing number of the school lyceum course will be given at the Methodist Church Friday evening, February 17, the company to appear on that date being the famous "Bell Ringing Male Quartette."

This company is an aggregation of musicians each of whom is an artist. Their combined work represents one of the best attractions of the course. Their bell ringing has attracted much favorable press notice, as has also their singing and clearer character sketches, which add pleasing variety to the program.

An especially good entertainment is promised.

C. E. TICE EXPLAINS METHOD TO POULTRY ASSOCIATION

C. E. Tice, who with his wife operates quite a large poultry plant in connection with his farm, was in Hereford Saturday afternoon attending the meeting of the Poultry Association. Chancy showed his progressive spirit by bringing a tray of sprouted oats and explained the method by which he is producing this kind of feed.

FIVE PARTIES OF TOURISTS AT CAMP GROUNDS SUNDAY

Byron McCord reports five parties of tourists taking advantage of our convenient little camp house and camp grounds Sunday night. Mr. McCord did not learn where the parties were from, but said that the camp and everything connected with it was very

Twyman Given Ten Years in State Prison

H. G. Twyman, former drillmaster of the State Juvenile Training School, Gatesville, Texas, was found guilty of having caused the death of Dell Thames, an inmate, by a jury Saturday afternoon. His punishment was fixed at ten years in the state prison.

The jury agreed after twice reporting to the court it had been unable to reach a decision. After each report the court told the jury to try again. The case went to the jury Thursday evening. Dell Thames died a few days after being admitted to the school. The testimony was that he had been punished for failure to drill as instructed. Twyman denied the punishment he inflicted caused death, declaring that it was his belief that young Thames was dead when brought to him for attention.

The case attracted state-wide attention and resulted in an investigation of conditions at the school by the state board of control. Between his arrest and trial Twyman was at liberty under bond.

Twyman's attorneys have filed a motion for a new trial.

VILKINSON AND VALENTINE SELL 1,000 HEAD COWS

Wilkinson and Valentine sold 1,000 head of cows to L. B. Cross, of Miami, Texas, at \$40.00 per head, the deal being closed the latter part of last week and the terms specifying immediate delivery. These cows are located on the Brunson Donald Ranch near Midland, where they have been pastured since the winter of 1918-19. As said by one who knows the thoroughbred cattle business these cattle are some of the best in the Panhandle. Local cattle men say that the herd brought \$10.00 more per head at this time than what could have been realized sixty days ago, which indicates that the cattle business is coming into its own.

B. F. BENNETT SOLICITS MEMBERSHIPS WEST TEXAS C. OF C.

B. F. Bennett, Manager of the Plains Panhandle Section of the West Texas Chamber of Commerce, with headquarters at Plainview and Lubbock, arrived in this city Monday and conferred with some of the members of the local organization. Mr. Bennett made the statement that the annual meeting at Plainview in May would draw at least five thousand boosters for the Plains country, the growth being now principle on the plains. Mr. Bennett will return to Hereford the latter part of the week.

D. O. WILLIAMS RETURNS TO CLAIM

D. O. and Donald Williams went to Arabela, N. Mex., the latter part of last week. D. O. has a claim in that section of the country and has returned

Baylor Chapel Is Almost Total Loss By Fire

The F. L. Carroll chapel of Baylor University, Waco, is practically a total wreck as a result of fire, which broke out in the dome of the building Saturday afternoon, and caused an estimated loss of a quarter million dollars before brought under control.

That which multiplies the loss, however, is the fact that the second story of the building comprising the chapel with its seats, pipe organ, pianos, curtains and general equipment, is nearly a total loss. The pipe organ, say Baylor authorities, cannot be duplicated for \$11,000.

The art department, situated on the first floor, is practically demolished, only a small percent of the busts, pictures and decoration being saved.

The building itself, located at Fifth and Speight streets, was erected in 1901, and cost \$75,000. It was insured as to the building proper, at \$75,000; while insurance of \$25,000 covered its contents. At least \$200,000 equipment, is believed to have been consumed, not counting books destroyed. No damage can be estimated on book losses.

There is no certainty as to the origin of the fire. The theory is advanced, however, that it might have started from the room where workmen, during the day, in repairing the work, had been using blow-torches. There can be no confirmation of this, however, for the present.

BUSINESS DULL AT HOSPITAL THIS WEEK SAYS P. W. PRICE

P. W. Price was heard to say on Monday that business was very dull at the hospital—only one patient—and he thinks something should be done to relieve the situation.

Bobbie Schlenker, little son of Mr. and Mrs. Oscar Schlenker of Borina, had his tonsils removed last Wednesday.

J. F. Pool, of Hedley, Texas, had his tonsils and adenoids removed Monday.

G. L. Bruner, who was operated upon last Wednesday, is recovering rapidly.

Educational Column

"I have to live with myself, and so I want to fit myself to know. I want to be able as days go by, Always to look myself straight in the eye;

I don't want to stand with the setting sun And hate myself for the things I've done.

I don't want to keep on a closet shelf, A lot of secrets about myself, And fool myself, as I come and go, Into thinking that nobody else will know

The kind of person I really am."

Miss Swisher has both the girls' and boys' Glee Clubs well organized now, and we are expecting some real music in the near future.

Mrs. Claude Higgins and Miss Hazel Hambo visited our school recently.

Mr. Blocker—"Tell some characteristic of David." Bright Pupil—"He was the sun of Moses."

We are glad to be able to state that the sore-eye epidemic in both the High and Central Schools is on the wane; and those who have been out with the mumps, in most cases, are well and back in school again.

We are so sorry to have Junior Burns out of school. Junior met with an accident on the street a few days ago that might have cost him his life. He was riding a wheel and came in contact with a passing automobile.

All are so proud to have Clyde Carroll back in school again. Clyde has been out the past two and a half months on account of severe illness.

If teaching is ever to attain the rank and dignity of one of the standard professions, the salary situation becomes fundamental. In this connection, I believe:

1. That teachers are worthy of their hire and should be paid such salaries as will attract and hold in the teaching profession the best talent of virile manhood and womanhood.
2. That the salaries should be based on services rendered without considering whether the teacher is a man or a woman—a fair principle to follow.
3. That prompt payment of teachers' salaries when due and without discount is nothing more than simple justice—Texas School Journal.

The new Pope selected is from Italy, with the title Pope Pius XI.

Hydrogen gas is the lightest known substance. Air is about 14½ times as heavy as hydrogen. The hydrogen required to fill a room 20 feet square and 10 feet high would weigh about 22 pounds.

"Dixie," the popular southern song was composed in the North. Daniel Emmett, who managed a troupe of minstrels in New York, wrote it there in 1850.

Freshman: "Have you ever seen a mosquito weep?" Sophomore: "No, but I have seen a moth ball!"

The Biology Class the past week has been studying Heredity, Variation and Environment. It may interest this class to know that Darwin's "evolution theory" is based on the following: The prodigality of nature, the struggle for existence, variation, the survival of the fittest, and heredity.

History tells us that Nero, the Emperor of Rome, played the fiddle while the city of Rome was enshrouded in flames.

Jack: "Did you ever hear of chloroform?" Mary: "Yes." Jack: "Well, don't breathe it."

The Girl Scouts of America have been holding a Convention at Savannah, Ga., and have elected Mrs. Herbert Hoover as their National President.

We read that all the theatres in New York City will be re-examined to see whether their roofs are strong enough to carry any weight of snow that might possibly fall on them.

Last week's snow storm cost New York City a million dollars. Eighteen thousand men shoveled the snow from a thousand miles of streets. Besides the cost of removing the snow, there was much damage to property.

Here are three Don'ts designed to prevent street accidents to school children. They are given out by Miss Harriett Beard, Supervisor of Child Welfare in Detroit:

- Don't dart into the street.
- Don't ride on the rear of ice wagons, or motor vehicles.
- Don't "catch on" if you ride a bicycle to and from school.

February 12th was the birthday of Abraham Lincoln. Born in obscurity with little or no chance for an education, but yet, every day, making his own chance by using what was at hand. His great ambition was to learn. It is said, he read and studied a battered dictionary page by page. He borrowed a grammar and mastered it. By these means he learned to express his thoughts, and as a result, at the age of twenty-one while working as a grocery clerk, he found to his surprise that he could make a better speech than some of the candidates for the legislature. Afterwards he became a powerful political debater.

When Lincoln was a young boy he found a copy of the laws of Indiana.

B. FRANK BUIE, LAWYER
Office in Court House, Hereford, Texas.

Will practice in the Civil Courts. Special attention to examining abstracts of Texas land titles, repre-

The Constitution of the United States and the Declaration of Independence were included in the book. Lincoln read all three until the book was worn. This preparation, together with his inflexible honesty made him ready to fill the President's chair. He used the wooden fire shovel for a tablet and a piece of charcoal for a pencil in his early days. He said of himself that he often spent hours in chasing a thought. The appellation by which he is known is, "Honest Abe."

Miss Ethel Williamson, of the Home Economics Department, entertained the members of the School board, together with their wives and husbands and the other teachers of the High School faculty, on Saturday evening with a six o'clock dinner.

Bay View Club

Thursday's meeting of the Bay View Club had for its lesson study "The Psychological Story"—a type which opened a comparatively new field of thought, but which was none the less interesting on that account.

Mrs. J. Frank Potts, as leader, described this form and gave a number of illustrations, together with something of the author of each.

As a typical representative, Mrs. Ray Barber read "On Malvern Hills," by Henry James, later pointing out its strong features, both as illustration and as literature.

A good attendance added interest to the meeting.

Progressive Literary Program
Friday, Feb. 17, 1922.

Song—My Maryland—Audience.
Piano—The Garden Party—Margaret Bowman.

Recitation—Edna Reedy.
Recitation—Portia Jacobs.
Piano—"Falling Waters," J. L. Pruett.
—Miss Thies Hodges.

Recitation—Virginia Bowman.
Piano—Miss Elizabeth Black.

Recitation—Mary Ratcliff.
Play—by school.

Journal—Mrs. Park.
Play—Hereford Juniors.

Debate, Resolved the State of Texas should be divided. Affirmative: Mr. Russell, Mrs. Bob Higgins, Dick Norton; negative: Albert Higgins, Mrs. Rayzor, Sam Ratcliff.

DIMMITT CASTRO COUNTY

The Dimmitt boys' and girls' basketball teams added another prop to their athletic pinnacles by defeating Bovina High in two exciting games last Thursday, 24-16 and 25-10.

Tate assumed the offensive from the start and couldn't have been more effective in shooting the goals he did, if he had had a funnel. He got fourteen points.

John Knox display his abilities as a court runner and a broken field goaler, which pepped up the team throughout the game. John made seven of these for a total of 14 points.

Elmo Bell resembled thin molasses in running all over the court at once, he supplied the enthusiastic fans with sensational goals.

Their goal was just as safe from being hit as if it had been in a vault, when guarded by Hastings, Hicks and Gollehon.

The Bovina Boys displayed sportsmanship in every respect and took their defeat like men should.

Edna Ireland kept the Bovina guards guessing where she was going to be next.

Myrtle Johnson was very effective in hitting the basket and did some good court work.

Lola Bell and Mildred Woodlee started the ball in the right direction and were ready for any extra work that might fall to their lot.

Lona Woodburn and Jewell Watson kept Bovina's score to the minimum. Everyone from Dimmitt was treated royally by the good Bovina folk and we thank them for their hospitality.

A remarkable fact connected with the use of the Bible at the present time is that it has been translated into languages that know practically no other literature.

Anthracite coal was first used as fuel by two Connecticut blacksmiths, in 1708-09, and was first used in a grate as domestic fuel by Judge Jesse Fell, of Wilkes-Barre, in 1808.

Plainview Man Shot to Death Bond is Given

W. D. Jordan is out on \$5,000 bond following the fatal shooting of Oscar L. Duncan, Crystal Cafe cook at Plainview, Texas.

Jordan surrendered immediately after the shooting to Sheriff J. C. Terry. He waived preliminary hearing, and his bond was fixed at \$5,000; which he immediately made.

Duncan was shot five times in the chest and abdomen, and died without regaining consciousness, a few minutes after the shooting. Physicians were called immediately, but could do nothing.

Jordan is said by some of the witnesses, of which there were several, to have entered the back door of the cafe and after some words with Duncan have begun shooting.

Duncan, 27, leaves his widow, Jordan, 41, has a wife and two children. Both men have lived in Plainview about six years. They operated the Cozy cafe as partners until about four months ago.

There are about one thousand, five hundred glaciers in Switzerland and the total area they cover is over one thousand square miles.

WITH WEATHER CONDITIONS

favorable, it means you will need at least a few implements to start that crop with. We want to remind you that we have extremely low prices on everything in that line, as well as on harness and leather goods.

GARRISON BROTHERS

Egg Profits

Pencil and Paper Thistles and Thorns

It's folly to attempt to figure a profit from the poultry industry—unless the first premise is correct.

Egg profits do not come from inferior feed. No more than choice fruits from thistles and thorns.

If you are going into the poultry business—then it is for egg profits. And the whole result of your effort is going to hinge on the feed you select.

That is the reason we call your particular attention to PURINA HEN CHOW in Checker Board Sacks, which is the best known chicken feed.

Jones & McLean Grain Co.
Fone No. 1

Notice!

We are closing our uptown office for the present and we can be found at the Plant—phone 35. We will have at that place some lamps, fuses and some other small merchandise.

Our uptown office will be open from the 1st to the 10th of the month hereafter to accommodate persons in paying light bills. Persons who have not paid last month's bills please send us Checks through the mails or deposit to our credit in First State Bank & Trust Co.

Hereford Light & Power Company
"Your Electrical Servants"

FUNDAMENTALLY, credit is good or bad according as it is set to work in a productive way, or as it deserves merely to put off the day of reckoning. To make credit a constructive agency takes more than good lenders; it takes good borrowers. And the borrowers must come with sound business propositions.

Whenever there is a difficult business or economic situation, the idea is usually entertained that more credit will solve the difficulty. In many cases, credit is a most important factor, but it is seldom, if ever, a determining factor unless there is something else to go along with it and make it effective. To continue to extend to a man who is operating inefficiently and at a loss, or who is behind the times and is not adjusting his methods to meet changing conditions, is merely to put him ultimately deeper than ever in the hole.

We are in the market for some well secured cattle loans on the basis of bank balance.

STRAYED—From J. H. Weems residence, one Jersey cow with wire around neck; branded 5 on right hip. Phone 281, Hereford Dairy 7-2t P.

last Thursday. We have not learned their decision in regard to the need of the road. If it were allowed, it would give to eight families the benefit of the present mally route, costing only four miles extra drive and no doubling on the road.

Last Friday evening the Excelsior Literary Society rendered the best program yet, each doing his part well and then the debate was "worth the money." It was free, of course, but it was lots of fun. None of the debaters had ever tried debating in public before; but we can see timber for future statesmen in our crowd.

Mrs. Wm. Negeline is on the sick list the past few days.

We are glad to welcome the Felix Robinson family again into our neighborhood.

BETHEL

Mr. Demsy, of Hart, Texas, bought bundle feed at the Bagwell farm last week.

Owing to the high cost of living and

the droughty times, a number of people have stored their 20th century vehicles and are using those of the 19th century.

Mrs. A. M. Brownlee's condition is improving.

T. M. Buster sold implements and horses at the auction sale on his farm west of Dimmitt, Wednesday, the 8th. He is to make Canyon his home in the future.

Bagwell Brothers moved a granary from Floyd county to their farm near Dimmitt last week.

Mr. Fred Hankins, of Hart, has been stacking feed for his brother, O. B. Hankins, this week. Mr. O. B. is expecting to go with his brother on his return home, where he will spend several weeks in learning to walk again.

Flowers are found growing up to the line of perpetual snow in all mountainous countries.

Easy to Operate
Easy to Clean
The De Laval bowl can be completely taken apart for washing. The discs, bowl parts, and tinware have no tubes, crevices, holes or corrugated surfaces which are hard to clean.
The De Laval discs are washed as a single piece and the whole machine can be thoroughly cleaned in five minutes.
There is no part of the De Laval bowl which cannot be easily reached and seen, so that the operator can always tell whether or not every part has been properly cleaned.
The ease with which the De Laval can be thoroughly washed and kept in a sanitary condition is one reason why practically all creamerymen prefer De Laval, and is also one of the reasons why butter made from De Laval cream scores highest at the National Dairy Show.
Sooner or later you will buy a De Laval

A CAKE RECIPE

Try This
1 1/4 cups Sugar
1/2 cup Butter
1 Egg
1 cup Sour Milk
1 teaspoon Soda
1/4 teaspoon Cloves
1 teaspoon Cocoa
1/4 teaspoon Cinnamon
2-3 cups
AMARYLLIS FLOUR
After sifting
Pinch Salt
Pinch of Citron
1 cup Chopped Raisins
1 cup Currants
3/4 cup Nut Meats
It's Good
Furnishing a cake recipe to tickle the palates of all the family is a very easy task. Furnishing flour which will never fail on this or any other baking recipe is quite another performance.
We feel this has been accomplished in Amaryllis Flour. We urge that it be submitted to the most severe test to be found in any cook book. It is the housewife in her kitchen tests who soon learns the real qualities of Flour. Amaryllis Flour stands all tests.
Amaryllis Flour is ground from wheat raised right here in the Panhandle. There is no better wheat grown. Modern perfection of small unit rollers makes it possible to produce BETTER flour here than may be had from large milling centers with mixed and unbalanced grains.
Try a sack of Amaryllis Flour today.

Card of Thanks
Mrs. A. E. Conaway and family, Mr. and Mrs. Ray Conaway acknowledge with grateful appreciation the kind expressions of sympathy of their many friends and acquaintances.

The Secretary
If he writes a letter, it is too long; if he sends a postal, it is too short; if he goes to a committee meeting, he's butting in; if he stays away, he's a shirker; if the crowd is slim at a luncheon, he should have called the members up; if he calls them up, he's a pest; if he duns a member for his dues, he is insulting; if he does not collect them, he's lazy; if a meeting is a howling success, the entertainment committee is praised; if it's a failure, the secretary is to blame; if he asks for suggestions, he's incompetent; if he doesn't, he's bull headed.

Ashes to ashes.
Dust to dust;
If others won't do it,
The secretary must.
—Selected.

W. A. Johnson Candidate for Lieut. Governor

W. A. Johnson, of Memphis, Texas, former lieutenant governor of Texas, has announced his candidacy for that office for a second term. His statement says, in part:

"Upon the earnest solicitation of friends, after mature deliberation, I have decided to submit my candidacy for a second term as lieutenant governor of Texas. I had the honor to serve in this responsible position during the last term of Governor Hobby, and was defeated for reelection by the enormous use of money in the primary in 1920. During that campaign I had the responsible duty of remaining at Austin, tied up in the legislature and later as acting governor, during the progress of the campaign. As the result I was unable to refute numerous untrue statements that were being circulated by my opponents.

"One of the most effective of these was that I, while acting governor, had pardoned Watson of Teague. This was absolutely false, as Watson was pardoned by R. M. Johnston, while president pro tempore of the Senate and acting governor. I had no more to do with it than any other man in Texas. Another false report was that I was against equal suffrage and prohibition,

when the fact is that while I was lieutenant governor and president of the Senate, a ruling made by me, while in the chair, was alone responsible for Texas being able to ratify the equal suffrage amendment.

"I was the first man in the legislature to introduce a resolution to investigate the dealings of Jim Ferguson. The people now all endorse this. I was the first man to ever write a pool hall bill and introduce it. After several years effort, these infamous dens of vice are barred from the state. I was the author of the bill to raise the 'age of consent' for girls from 15 to 18 years, now the law of the commonwealth. I have always stood, both in the legislature and out, for the advancement of our educational system. I have served with enthusiasm as a member of my local school board, also as one of the regents of the University of Texas. I have also served as one of the Agricultural Experiment Station board. I have the University, A. & M. College, C. I. A., and Normals very much on my heart, as well as the betterment of rural schools."

Ben Franklin liked books.

Within their covers he found wisdom—the wisdom which when put into practice—earned for him a reputation as a great American.

Franklin's philosophy may be summed up in one word—THRIFT.

"Spend less than you make if you would succeed."—said Franklin's famed "Poor Richard."

BE A PROSPEROUS FARMER

The prosperity of the country is judged largely by the small farmer, WHY? Because the stranger or the prospective buyer observes keenly the condition of the small farmer—if he has fat stock, well kept buildings, fences and land he is at once considered a progressive farmer in a progressive land.
