Sights and Faces Seen

Mr. and Mrs. L. Culpepper and two children, who have been living in Amarillo for the past several years, have opened a candy shop in the Cunningham building this week. Mr. Culpepper will feature home-made candies, potato chips and later will install a lunch counter to serve short orders. The new business will be known as the Candy Kitchen.

Public sentiment operates in peculiar quirk. Last year the Red Cross appealed for funds to aid the sufferers in the Ohio flood disaster, and the response from Hereford residents was more than gratifying. This year another appeal came from the Red Cross, this time for funds to aid the flood-stricken inhabitants of the San Saba region of our own state of Texas. The total contributions made in response to that call wouldn't even so much as buy a hat. Who can explain a public sentiment like that?

Fred Snyder was represented on the Kansas City livestock market last week with a consignment of 23 head of 733 pound steers. The steers sold at \$3.35 per hundred, and Fred reports an all-around successful trip.

The City Drug Store is in possession of a couple of old slipper spoons that are well over a foot long. W. L. Alexander says they were here when he came here in 1920. They are made of bone. Back in the gay days when ladies stayed so bound up in bustles and trusses that it was impossible for them to bend down to put on their shoes, slipper spoons like these were standard equipment.

Cecil Guseman was offering a nickel a dog to anybody who would kill all the prairie dogs on his place last week. Now that the county has offered to poison the dogs, Cecil has retracted his offer with the remark that he ought to get off cheaper if he let the county do it.

A series of job shifting involving a variety of occupations have resulted in quite a complex mix-up around here. Vincent Stelzer, former employee at the Star Theatre, is replacing his brother, Arnie Stelzer, at the Packard Milling Co., while Arnie is going to work for (Continued on Page 10)

Cattle Thieves Identified And Jailed Friday

RECOVER TEN HEAD OF STOLEN CATTLE; TWO MEN NOT CAUGHT

The series of cattle thefts which have occurred in Deaf Smith and neighboring counties during the past weeks have not caught local and neighboring officers asleep. Two of the four thieves identified have been caught and jailed, and ten of the thirteen head of cattle stolen from Deaf Smith County have been found and identified.

The two thieves were taken near Snyder on August 12. Cecil McDaniel, apparently one of the leaders, was jailed at Canyon and John E. Jones is now in the Hereford jail. The two remaining thieves that have been identified are still at large. They are J. M. McDaniel and Lester Ramey. Officers are exerting every effort to locate and arrest them.

August 23 Last Day Given For Absentee Votes

August 23 is the last day on which absentee votes will be accepted by the County Clerk, according to Effa Rutherford, deputy county clerk. Applications have been accepted since August 8.

A very accurate check is kept on absentee records and the corresponding tax receipt records. The run-off primary will be held on August 27.

Lights For Football Field Are Proposed

Talk of installing flood lights on the Whiteface football field has been spreading fast among Hereford merchants and football fans during the past week. The idea grew up naturally and spontaneously. It is the time of year when the thoughts of everyone turn to topics of school and prospects for a good football team. Football participants and fans, whose interest are now turning to football, look at the lights on the football field and wonder. Why can't the football field be lighted? The suggestion has enjoyed en-

FINAL PLANS FOR CAMP AT CETA GLEN MADE; FEE IS ONLY \$2

Plans for the Whiteface Training Camp to be held at Ceta Glen August 23 to September 3 were completed at a meeting with Coach Tommy McCollum last Sunday. A previous announcement had set the date for the meeting, and most of the boys who intended to go on the encampment were present. The camp will be held under the supervision of Coach McCollum and Mr. Willoughby, assistant coach. Its purpose is to offer the greatest opportunity possible for the 1938 football candidates to get into the best shape they can before the regular practice periods start. All boys who expect to try for the squad this year are urged to attend the camp if it is at all possible for them to do so.

A fee of \$2.00 and a small consignment of groceries are the only things required of the boys who attend. The trip will be made in a truck, and the date set to leave is Sunday, August 28. W. M. Emmons, vocational agriculture teacher in the Hereford High School, has announced that the FFA camp will be held this year at the same time as the football training camp and in connection with it. This announcement was made in order to accommodate those who belong to the FFA and who also wish to attend the football camp.

Noted Artist Who Painted Portrait Of Will Rogers Visits Sister Here

Visitors to the Will Rogers Celebration in Amarillo, will long remember the life-size portrait of the famous cowboy-philosopher that hung in the lobby of the Amarillo Hotel. From it the beloved actor and writer smiled down on the throng that passed under it with that special, benevolent smile that always announced his common sense philosophy.

The artist responsible for this magnificent portrait is Mrs. C. D. Rice of Austin, Texas. She is a sister of Mrs. G. A. F. Parker of this city. On many occasions she has visited in Hereford, and she was the guest of Mrs. Parker last Friday, when she came down from Amarillo.

Mrs. Rice saw Will Rogers on the stage on four different occasions, and each time she studied his features and made preliminary sketches. In the course of the year during which she worked constantly on the prize portrait, she collected over three hundred pictures of the great humorist. She literally memorized the curvature of his skull, and every time a Rogers picture came to Austin, she saw it, often just to study some one feature that she felt a bit uncertain about. Her finished work is an almost perfect presentation of the beloved character, recapturing with faultless accuracy, both his likeness and his spirit!

"I think Will Rogers was one of the most honest and one of the purest men who lived in our time," Mrs. Rice said. "If I hadn't I (Continued on Page 10)

4-H Delegates Get Worthwhile Advice At Camp

Representatives of the Deaf Smith County 4-H Clubs returned last Saturday from a three-day encampment at the Sneed Ranch in Moore County, Alex R. Bateman, County Agent, took four boys with him, and the party made the trip by automobile.

Much information of great interest and vital importance to the boys was gained from the speeches and demonstrations at the camp. The Hereford delegation was part of a total attendance of 127 boys, representing the 22 counties which comprise District One of the State 4-H Club organization.

Highlights of the camp were an address by H. H. Williamson, Director of Extension, an address and demonstration by Caesar (Dutch) Hohn, Soil Conservation representative of the Extension Service, and a daffy demonstration by Hoot Gibson and his expert dairy team. Valuable and interesting instruction in classification and recognition of grasses for their value to livestock was given the boys in several field trips and demonstrations. L. C. Whitehead, Assistant State District Director of the Federal Biological Survey, gave a very interesting and educational talk on "Rodent Control and Wildlife."

Amusements consisted of swimming, pitching horse shoes, and eating, the latter activity being one of the most pleasant of the whole camp.

G-Man Parker Leaves After Visit At Home

Bill Parker, son of Mrs. G. A. F. Parker, has been visiting his mother here, for the past several days. After spending the past year in Butte, Montana, where he has been connected with the Federal Bureau of Investigation under the direction of J. Edgar Hoover, Mr. Parker has been in Washington for two weeks before coming to Texas. He visited relatives in Houston and a brother, George Parker and family, before leaving Sunday, on his return to Montana.

PROJECT SUBMITTED TO COUNTY AGENT NEEDS FEDERAL APPROVAL

A project to eliminate all the prairie dogs and other harmful rodents in the county by poison, was drawn up in the County Agent's office last Tuesday, J. E. Barker, Federal Biological Survey Agent for this district, was here in consultation with County Agent Alex R. Bateman and Cecil Guseman, for the purpose of collecting data and getting estimates preparatory to submitting the project to federal authorities for approval.

If the project gets federal approval, the actual work of putting out the grain will begin in about six weeks, Barker said. Local WPA labor will be used for the work, and the cost of grain, poison and labor will be met by the county subject to a refund to the county from the farmers on whose land the dogs are poisoned. "There are twenty sections in prairie dogs over the county as a whole," said Mr. Bateman, "and their total eradication must be accomplished at once if the land is to be saved for cultivation purposes."

According to present suggestions, the grain will be mixed in Lubbock at a cost of \$5.00 per 100 pounds. The cost of distribution and other expenses have not been estimated. Mr. Barker stated that the only way to get completely rid of the dogs is to put out clean grain at first and follow with the poison grain. If the dogs refuse to eat the clean grain there is no use putting out the poisoned grain, but if they do eat the clean grain the poisoned grain will kill about ninety percent of them. In order to finish the job and kill the remain-

Woodul Pledges His Support To Governor-elect

Walter Woodul, run-off candidate for Attorney General, is now in the second week of his "victory drive" speaking campaign. In a score of speeches, the lieutenant governor stated that the main issue in the race now is the candidates' qualifications.

Repeating the statement of Governor-elect O'Daniel that he would need a competent lawyer to help him run the affairs of the state, Woodul said that he had pledged his hearty co-operation in the governor's program.

"Certainly he will need a lawyer of ripe experience and proven ability for that mighty task," he said. In this election you will have the choice of a candidate of ripe experience and one who has been occupied most of the time since obtaining his law degree from an Eastern College a few years ago with holding full-time political appointments under Governor Allied as assistant attorney general and secretary of state, and as a Washington representative of the State Planning Board, and campaigning for attorney general. I believe you want to give him more time to prepare himself for this important position."

"I'll vote for electric cookery"

- Before Mother got her Westinghouse range, I could almost yell my head off and she would never come to my distress. Always said she was too busy cooking. She was fussy and grumpy, too—all because of that hot kitchen of ours.
- But now, I just barely whimper and I get all the attention I want. Our meals are cooked automatically . . . and that gives Mother time to take me out for the afternoon. Foods taste better too . . . because the wholesome flavors are sealed in.
- Yessir—I'll vote for a Westinghouse electric range everytime—because its faster, cheaper and, well—it's just better, that's all.

THIS CREDIT Extended so CHEERFULLY is Being ABUSED by some who go elsewhere to trade, when they have CASH!

Credit on Groceries is a serious matter with us, and we feel that it is an important service which you appreciate. However, we also sell for cash . . . and nothing makes us happier than to have a Customer whom we have favored with credit, remember us when he has cash to spend. Ball Game Stars Fathers vs Sons

Football played family style will be the program at the softball ball next Friday night, when the teams of Father vs Son line up for the battle. Cecil Wilkins is manager of the Fathers, and George Clark is manager of the Sons. The plan is for the Sons to draw the positions and for the Fathers to play the same positions that are drawn by their respective sons. This will result in Father and Son playing the same position on opposing teams, and the result should be definite proof as to which one is the better. It ought to be a great occasion for all concerned.

So far the following players have signed up. This is only a list of the Fathers, it being superfluous to name both Father and Son: Paul Foster, Cecil Wilkins, W. L. Ayres, A. Brock, Cliff Estes, W. L. Davis, Boyd London, A. A. Foster, Tom Stanford, A. Dowell, Guy Smith, Bob Allison, A. Petersen and Mont E. Baker.

Terrell Lauds Commission In Amarillo Talk

Judge C. V. Terrell, chairman of the Texas Railroad Commission and run-off candidate for re-election to the Commission, addressed a large and expectant crowd at the dedication of the Will Rogers Highway in Amarillo, Tuesday night.

"Based on my record during two terms on the commission, I am confident that I shall win in the August 27 election," stated the veteran Texas fighter for fair business dealings.

He pointed out the extreme importance of the commission to the well-being of every person in Texas, especially the school children. It was through the efforts of the Railroad Commission that the Texas permanent fund of 58 million dollars for the benefit of

school children was established and the appointment of a yearly per capita fund of \$22.00 accomplished.

Judge Terrell also spoke of the gratification he felt for his endorsement by Texas and National leaders. He explained that the duties of the commission require a man of unusual experience as well as talent to fulfill them.

Terrell will speak Thursday at Coleman, Brownwood, Comanche and Meridan, with a night rally at Waco, from where he will broadcast at 8:15 over Texas stations.

BEAUTIES OF THE COMMON PLACE

Nothing muddies the sheen of our days so completely as the habit of taking things for granted. Now that my eyes are open to this truth, my senses find miracles and loveliness everywhere in things I once overlooked: the sunny flavor of orange juice and the ruby redness of currant jelly on hot brown toast; a green bowl filled with vermillino petals—stimulus from a neighbors garden their centers minute yellow, stars in the gray dawn a robin's song crimson clear against the brown chirp of sparrows; rain and under its luminous gray mist, grass glowing like green flame—April rain. Every day brings with it some new sense of exquisite regard for common things. And age finds me, that remembered no matter how or where old beauty will be with me, lending color to any possible bleakness.

Soporifics Are Discovered As Habit-Forming

AUSTIN, Texas — "Thirty-five years ago, a German scientist produced a derivative of barbituric acid possessing hypnotic qualities. For years it was considered as non-habit forming and harmless, and the type of drug was sold freely over the counter without a doctor's prescription. But more recently the medical profession has realized that barbiturates such as allonal, amyto, luminal, veronal, neonal et cetra are far from harmless and definitely habit forming when used indiscriminately", warns Dr. Geo. W. Cox, State Health Officer.

"It is true that these slumber-producing drugs play an important part in certain insomnia conditions, as well as in the promotion of sleep when pain makes it impossible to obtain it otherwise. However, it is one thing to have this type of drug prescribed by a physician and administered under his supervision and quite another to employ it regularly without professional sanction.

"It cannot be too strongly stated that the prolonged use of these sleep-inducers can produce serious reactions including skin affections, impairment of speech and gait, paralysis of the eye muscles, and in extreme cases have been known to cause death. Plainly, any drug that possesses such possibilities should not be self-administered by the general public.

"Moreover, it should be understood that insomnia is a symptom of an underlying condition which may be due to any one of a variety of psychological or mental causes. The absurdity of habitual self-administration of any hypnotic or remove insomnia becomes apparent.

"Consequently, if the temptation arises to use a sleep-producing drug on the say-so of a friend, it should be avoided. And if al-

ready relying on sleep-producing medication, the brakes should be applied at once with the assistance of your family physician," Dr. Cox further advised.

"To quote a recent author on

this subject: "The only safe rule regarding sleeping pills or poisons is to realize that if anything of that kind is needed, one definitely needs a physician's advice first."

Mrs. Alnetta Ramsey of Bellview, O., sued her husband for divorce, declaring that in their 24 years of married life they had moved 33 times and she had become tired of it.

An Open Letter . . .

To begin with, I am no politician. I am just an old country boy, who has been treated mighty nice by the people of Hereford and Deaf Smith County.

When I first came here some years ago, I wondered where my next meal was coming from, and since I have lived here I have at least had a living. This was made possible by the kindness, the patronage and the co-operation of the people. I am indeed grateful to the people of this area for the kindness shown me, and I want you to know that I appreciate what you have done for me.

I announced for the office of Commissioner of Precinct No. 2 at the solicitation of business men and farmers — and with the idea of showing my appreciation for your kindness in the past, I decided to make the race . . . If elected to the office, I am going to do my best to repay the debt of gratitude which I owe the people of this area. And the salary this office pays will be most helpful and appreciated. With this in mind, I ask your consideration in the second primary, August 27.

—G. W. Brumley.

"HEALTH TALK" GIVEN FOR DAWN DEMONSTRATION CLUB

"If we would put into practice what we know about foods, it would be to good health what cleanliness is to surgery," stated Miss Sadie Lee Oliver, Deaf Smith County Home Demonstration Agent at the meeting of the Dawn Demonstration Club held on Wednesday afternoon of last week at the Dawn school house.

"Fresh green vegetables are rich in vitamin A, a lack of which affects the eyes and other parts of the body," said Miss Oliver as she outlined plans for a cold frame garden. She listed such vegetables as kohlrabi, endive, upland cress, tender green or mustard spinach, Japanese turnips and winter radishes as suitable to plant now. Well rounded school lunces were discussed and the need for green vegetables in a balanced lunch was suggested.

Those attending the meeting were Mesdames; W. J. Stewart, W. A. Mag, R. A. Frye, Minnie Smith, H. E. Miller, Carl Wimberley, Miss Virginia Oliver and Miss Sadie Lee Oliver.

the winter to keep the bulbs from freezing.

In discussing "Hyacinths for the Out of Doors," Mrs. C. E. Dyar said "Buy Hyacinths by name and never by color, as time of blooming and size may vary. Plant bulbs late in September or early October for spring blossoms. Hyacinths require lots of sunshine and a well-drained location."

After the program the group toured the Brumley flower garden. The next meeting will be held at the home of Mrs. C. H. Dyar with Mrs. Ralph White in charge of the program. Bulbs will again furnish topics for study. Mrs. Claude Ricketts will speak on "Tulips" and Miss Ella Aikman will tell about the indoor culture of bulbs.

Standing rules for 1938 were read and adopted. Each club will have two elected delegates to Council. Material for the tufted bedspread to be made and sold by 4-H club girls will be purchased by the Council.

Mrs. R. A. Frye and Mrs. Ira Ott selected the best reporters stories to date. These are sent to the Extension Service Editor each month.

Yearbooks were delivered to the four clubs represented at council. These will be sold at cost to club members.

Those present were Mesdames Clinton Homfield, J. Webb Adrian, R. A. Frye, George S. Parker, N. G. Elliston, and Ira Ott.

CHILD STUDY CLUB MEETS

Mrs. Chas. Newell, president, presided over the business session, when further plans for the merging of the Child Psychology Club and the Child Study Club were discussed.

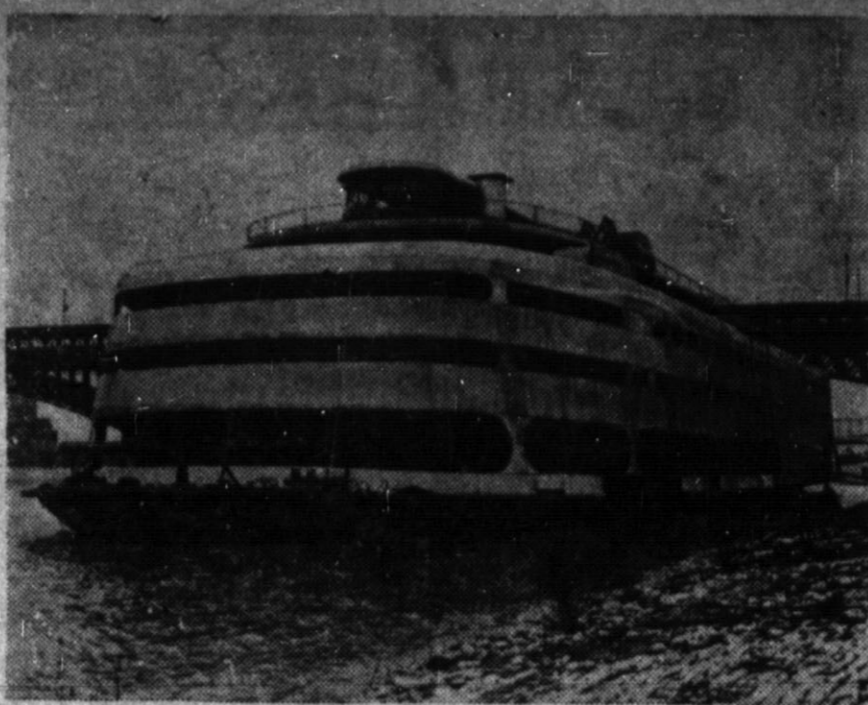

The lesson subject for the afternoon dealt with "Teaching Children to Obey." In discussing "Children Like to Mind," Mrs. Gordon Witherspoon stressed the dangerous results of nagging and urged wise mothers to plan ahead directed tasks and play.

The next meeting will be held at the church Thursday, August 25, at 4 o'clock.

Those present included Mesdames Elcer Patterson, J. B. Coonaugh, Cone Johnston, Chas. Newell, R. P. Coneway, Woodrow Wilson, Gordon Witherspoon, C. P. Grimes, Dorothy Noland and Mandie Story.

Texas at her finger tips ...ready for your call

AT the finger tips of your telephone operator stands many million dollars' worth of equipment in Texas... buildings, switchboards in 315 offices; two and a half million miles of wire... ready day and night to carry your voice the length and breadth of Texas, and beyond.

Last year it took more than 23 million dollars to operate this system for you. Part of this was for materials and supplies. More than four million dollars went for local, state, and federal taxes, to help pay for your roads, schools, police protection, and so on. More than 11 million dollars for wages, to nearly 9,000 workers who are your neighbors in Texas, and who spent that 11 million dollars in this state... no small item in keeping Texas business moving.

The telephone company, like the men and women who operate it, is a part of Texas. Its investment here has been made to meet this state's need for friendly, dependable telephone service. It serves its own interests best by giving you the service you want, at reasonable cost to you.

Officials Set Wheat Acreage For 1939 Crop

SUBSIDY PAYMENTS SET AT 26 TO 30 CENTS; COTTON REDUCED

Secretary of Agriculture Wallace announced this week that the total wheat acreage allotted under the agriculture department's farm program for 1939 had been set at 65,000,000 acres. This statement was made in a conference with President Roosevelt in which the Agriculture Secretary talked of plans to sell 100,000,000 bushels of American wheat on foreign markets this year.

In connection with the slight reduction in the allotted wheat acreage as compared to that of last year, federal farm officials announced the new 1939 subsidies. Wheat farmers will be offered from 26 to 30 cents a bushel—compared with 12 cents this year—for reducing their 1939 wheat acreage by 31 per cent to comply with the federal program.

Wheat, corn and rice growers will receive increased subsidies this year for compliance with the federal farm program, but payments will be reduced on some crops. Cotton acreage allotment and subsidy payments have not been set yet, but federal officials predicted a payment of 3.6 to 4 cents as compared to 5 cents this year. Only those planters who keep within the prescribed allotments can receive payments.

Hawkins Gets Smith-Hughes And Good Job

William Dean Hawkins, son of Mr. and Mrs. D. W. Hawkins, spent several days here last week before going to Springer, N. M., where he has been elected as teacher of Vocational Agriculture in the public schools. He was awarded the position after receiving the Smith-Hughes degree in Agriculture at the close of the first summer school session at Texas Technological College at Lubbock.

Mr. Hawkins is a former student of Hereford High School. He received his bachelor's degree from West Texas State College at Canyon in 1936, and since that time he has been teaching and taking graduate work toward the Smith-Hughes degree.

Cattle Thieves

at one time from the same field, nine of them belonging to Skypals were found with the two thieves caught, and they have been identified by the rightful owners.

Three more head have been reported stolen in Deaf Smith County. These, belonged to H. H. Caraway and have not been discovered yet. Wallace Cox, deputy sheriff, and Mr. Caraway left today for Lubbock and Lamesa, where some stolen stock that has been recovered has not been identified. It is expected that the three head belonging to Caraway will be found in this bunch.

The two men still at large are wanted for cattle theft in eight or nine counties, Sheriff J. O. Newell said.

of the great saga of the Southwest in the form of a pageant at Butler Field in Amarillo. The title of the pageant was "Old Southwest Days," and in it were depicted the high spots in the history of the Southwest with the person and spirit of Will Rogers the central theme.

The giant celebration was the result of months of hard work and preparation on the part of people from all over the state. Amarillo literally went cowboy, and every possible arrangement was made in an effort to restore the true spirit of the Old Southwest to the present for the occasion.

N. Y. A. Allocates

County Superintendent, has been notified of the number of jobs allotted in Deaf Smith County, and he has been requested to organize an advisory committee of local school officials to recommend an equitable distribution of jobs within the county on the basis of youth need and availability of school facilities. As soon as this is done, Mr. Kellam said, the NYA State Office will be in a position to approve schools for participation.

School officials requiring information concerning the 1938-39 School Aid quotas should communicate with their county superintendent. They should furnish him with data which will assist the county committee in recommending the distribution of jobs, Mr. Kellam said.

As for the last three years, boys and girls in secondary schools between the ages of 16 and 24 will be enabled to earn a wage not exceeding \$6 a month. They will be selected for employment by their own school officials, who will plan and supervise their work

assignments. Students seeking part-time NYA School Aid jobs should apply to the superintendent or principal of the school they plan to attend, since the officials of schools approved by the NYA for participation in the program select the students for the jobs, Mr. Kellam said.

Noted Artist

wouldn't have spent a year of my time painting his portrait, but considering his character, if I can do anything to help remember him, I will be repaid."

This simple confession explains why the production is so nearly the perfect painting.

Mrs. Rice had her picture on display in the Morton Galleries of New York for two weeks. She has been offered several thousand dollars for the portrait.

The distinguished artist has studied in New York and Princeton in this country, and in France and Italy on the Continent. She also made a trip to Corsica and

Africa, and in Corsica she was requested to paint the portrait of the highest government official.

Probably her most famous work is of Dr. Fredrick Evy of the University of Texas. This picture is an experiment in which Dr. Evy sat once a year, each year seeing the artist increase in experience and skill.

Several State-owned paintings done by Mrs. Rice, include a life-sized portrait of John Garner, which hangs in the Senate chamber, and pictures of Dan Moody, Ross Sterling and "Ma" Ferguson.

Federal Agent

ing ten per cent, it is necessary to use the rather expensive but 100 per cent effective carbon method, Mr. Barker said.

In case the project fails to receive Federal approval Mr. Bate-man stated that the county would work out some sort of plan in cooperation with the farmers. It is his belief that the problem is too important to be left unhelped.

The only way to kill the dogs is to follow the plan outlined by Mr. Barker, and the full co-operation of the farmers with county and federal workers will be required to do the job as it ought to be done.

Wheat Problem

ing that this condition can and should be remedied at once by government action to raise the loan value of wheat. In fact, that this loan value is much higher in other areas was brought out to show that such a low and harmful rate in this area is nothing short of unfair discrimination.

Copies of this petition were mailed to farmers and business men in neighboring districts and their support was asked. Five towns responded to that appeal and have pledged their full support of
