AROUND TOWN

Sights and Faces Seen

"Frost Friday morning. Temperature below freezing. Texas Panhandle," reads a weather report from the New Orleans Bureau.

A young fellow washing show windows yesterday morning reported that business was "good, in fact, excellent."

Hereford building continues with work on the Ernest Medley, Mrs. Ann Hill Holman, and E. F. Hardwick houses, and the Davis-McCracken building.

Does anyone know when work on the new postoffice building is to start? On Oct. 12 The Brand published a story based on a statement by Mr. Bateson, of Parks-Bateson, the construction company, in which he stated that work would start on the basement by Oct. 20. Three weeks have passed since then and the lot in front of us continues to be a stretch of level prairie.

Judging from talk on the street, quite a bit of interest has been aroused by the talks of Wes Izzard and Major E. A. Simpson. Recommendations that the United States enter the war, if England and France cannot win alone, has caused the most comment.

Charge Filed Against Man In Highway Death

The charge grew out of an accident which occurred a week ago about three and one half miles west of here on Highway 90, and resulted in the death of J. C. Campbell, of Dumas. Carter, the complaint read, left his loaded truck parked on the pavement, and the truck driven by Campbell crashed into it.

Annual Red Cross Roll Call Drive To Begin November 11th

"There is a greater need for the Red Cross in the world today than ever before. It stands for hope, sanity and cooperation in a world afflicted with fear and wholesale conflict. Its ministrations are impartial, without thought of race or creed or color. The ideals for which it stands will survive only as they are supported by those who believe in them, both men and women," said Mrs. D. H. Alexander in explaining the ideals for which the Red Cross stands.

The 23rd Annual Roll Call begins on Armistice Day and continues through Thanksgiving day, November 30.

In the past many people residing in farm homes have not been approached for Red Cross membership. They have considered this an unjust discrimination.

This year the teachers of the rural schools are taking the roll call as a community project and are listed as follows:

MAN CONFESSES HAMMER ATTACK ON LEE RENFRO

MAN CARRIED HAMMER IN SHIRT WHILE EATING WITH RENFROS; PLANNED ATTACK TWO DAYS; WANTED AUTO TO RETURN TO SWEETWATER

C. R. Green, held in connection with the hammer-attack on Lee Renfro last night, made the following confession today. In the confession, he tells how he planned to carry out his gruesome scheme for two days.

STATE OF TEXAS; COUNTY OF DEAF SMITH:

I, C. R. Green, after having been duly warned by Swain Burkett and Jack Newell, the persons to whom this confession is made, first that I do not have to make any statement at all and second that any statement made by me may be used in evidence against me on my trial for the offense concerning which this confession is made, wish to freely and voluntarily state the following facts without any compulsion or persuasion of any kind being used on me and for the sole and only reason that the facts stated are true.

"My name is C. R. Green. I came to Deaf Smith County from Clovis. I had been working at Mountain Air, New Mexico. My mother lives at Winona near Tyler, Texas. Her name is now Inez Metcalf. Mr. Curtisinger got me a job with his son-in-law, Lee Renfro. I do not know exactly what county Lee Renfro lives in, but remember now that it is Castro County, Texas, since I have seen the markers on the highway. I had been working for Mr. Lee Renfro about three weeks. Mr. Renfro (Lee) was nice to me. We never had any arguments of any kind. I planned the things which I did to Lee Renfro yesterday and day before. That was Tuesday, October 31st and Wednesday the 1st day of November, 1939. I planned to knock Lee Renfro out with a hammer and run off with his car. I got the hammer while I was milking last night, that is November 1st, 1939, and put in the bosom of my shirt. The hammer was on the shelf out at the barn where we kept feed. I kept the hammer in my shirt until I went to bed. I ate supper with the Renfros after milking and still had the hammer in my shirt. The Renfros, Lee and wife, did not know that I had the hammer. I hid it hidden from them. I guess it was about 20 minutes till eight when I went to bed. I went to sleep pretty soon. I woke up some time after that. When I went to bed, I put the hammer down beside me in the bed. I never did change my mind about my plans. The Renfros slept in a room adjoining mine and the rooms are separated by a curtain. When I got ready to carry out my plans I went into the room where the Renfros were sleeping and felt Lee's and his wife's hair in order to tell which one was Lee Renfro. When I discovered which one was Lee Renfro, I hit him. He raised up. He ducked under the cover and hollered "Help" and I jumped behind the curtains to the room and he raised up and I told him "to lay back down and keep quiet." He then hollered for me, he called my name four or five times, then I threw the hammer at him and ran. I don't think he knew that I was the one who was hitting him. He kept calling me for help until I told him to lay down and keep quiet, and then he recognized my voice. I did not have on any clothes when I made this attack upon Lee Renfro, except my underclothes.

"I had planned to knock Lee Renfro in the head and get his car and leave. I intended to get the key out of Renfro's pocket and take his car and leave. If his wife woke up I intended to look her up in the house as it had only one door and the key was on the outside. I had planned this since the first day Mr. Renfro had not sent me in the car anywhere. He left the key to the car at times and left it sitting around the house. I never ask Mr. Renfro for the car. I had been herding sheep for Mr. Renfro. I intended to take the car to Amarillo and leave it and then go to Sweetwater, that is where I had worked last year. He first offered me \$25.00 per month to work for him and said he would have work off and on all winter. I told him that I would have to have a few clothes.

"After I hit Lee last night I went to his brother's who lives near there and told him that two men had come to Lee Renfro's house and one had stuck a gun in my face and told me to get out of the house, and I told him that they had beaten me up and that one of them had gone into Lee's house and I did not know what they had done to Lee Renfro and his wife. I did not get scared until I had hit Lee Renfro with the hammer and I knew he had recognized my voice and knew that I was the one who had hit him. I started to run and wanted to get to Hereford and leave. I knew that I could get some clothes at Ed Wilson's house because I knew that he was gone from home. But after doing this I got scared and thought that I could go up to Clyde Renfro's and play crazy and get by that way.

"I have read this statement and it is true." (Signed) C. R. GREEN.

Employee Creeps Into Bedroom of Lee Renfros; Flees Later

C. R. (Nubbin) Green, who has been working for Lee Renfro the past three weeks, today confessed that he, early this morning crept into the Renfro bedroom and attacked Lee Renfro with a hammer, inflicting head wounds. He is held in Hereford jail, and is to be taken to Amarillo this afternoon by Sheriff Garland Brown, of Castro County where the attack occurred, for photographing and fingerprinting. No charges had been filed this morning.

Reading like fiction is the story Lee Renfro tells of how a gruesome figure crept into his and Mrs. Renfro's bedroom at two o'clock in the morning and attacked him with a hammer. "I was awakened by the first blow of the hammer which struck glancing off my temple," Lee said. "I turned over and called 'Nubbin,' a nickname of C. R. Green, not knowing that he was the very man striking me. He hit me again, this time in the mouth, and ran toward the door. He called, 'Lay back down there!' and I recognized his voice. He then threw the

THE SUPERIOR ANXIETIES

Some Facts and Figures You Should Know

The outstanding Hereford Sales in the past three years have been held by Mr. John B. Stribling, Rotan, Texas—sales where top cattle were offered and where record prices were obtained. These record prices were possible because in addition to his Superior Anxiety Herefords, (Mr. Stribling owned half interest in Superior Anxiety Jr., and his great son, Real Anxiety 4th) Mr. Stribling gathered top cattle from the best herds in the nation, including Mousel, ours and others.

QUESTION—How did the Superior Anxieties compare in those sales when sold along with the top cattle from the best herds in the nation?

ANSWER—1937 (May Sale) Mr. Stribling sold only two females sired by Superior Anxiety Jr., (both bred by Mr. Stribling) in that remarkable sale, featuring half of the top end of the great Mousel herd. The two Superior Anxiety Jr. heifers sold for an average of \$1112.50. The other females sold for an average of \$573.00. The Superior Anxiety Jr. heifers selling for \$539.50 above the other females in the sale.

1938 (March Sale)—Again Mr. Stribling sold only two cows sired by Superior Anxiety Jr. (one bred by Mr. Stribling, one by us) and they averaged \$1212.00. The other females in the sale averaged \$595.00; the Superior Anxiety Jr. cows selling for \$617.00 above the rest of the females in the sale. A Superior Anxiety Jr. cow, Gentle Annie 17th, bred by Mr. Stribling, topped the sale at \$1650.00; she was from the same cow family that produced Superior Anxiety Jr., her maternal grand dam was a full sister to Superior Anxiety Jr.

1939 (October Sale). In this sale Mr. Stribling sold three Superior Anxiety Jr. cows (one bred by Mr. Stribling, two by us), for an average of \$1066.00, which was \$353.00 above the other females in the sale, and the female offerings were the tops from all the herds which Mr. Stribling had selected to keep in his breeding herd.

But that is not all of the story. The top open heifer in this sale was Pretty Lady 57th at \$850.00. We bred this heifer being by Superior Anxiety 4th, he being the sire of fifteen females and six bulls offered in our sale Monday, November 6th, all of these twenty-one head being granddaughters or grandsons of Superior Anxiety Jr. We are also selling four daughters of Superior Anxiety Jr., including a full sister to Superior Anxiety 4th, selling with bull calf at side.

These cattle have breeding, type and quality good enough to CONSISTENTLY top the best sales in the nation. We want you to know our Superior Anxieties — it will be profitable to you to own some of them, for they are already at the top.

We think these good cattle were worth all they brought in the Stribling sales, and then some; but if they seem high to you, please remember these prices were not obtained in our sale, far from it, and we think these cattle will again sell way under what the same value would cost you elsewhere. We invite you to share in the bargains.

As is frequently the case the people in a community are the last to recognize anything outstanding in the community, whether it be a girl, boy, brains, talent, unusual opportunities in a community, or Hereford cattle. We simply grow up with these things and do not see them as they are. It would appear to be true in regard to the top cattle being produced here. These cattle, or a considerable portion of them, should remain in this community, or shall we continue to furnish the top cattle on which other centers are building a reputation which should stay here—at HOME?

We invite our friends and all who are interested in the sale to inspect the cattle between now and sale day. We also hope you will join us in showing our friends and visitors every consideration for we want them, when they leave Hereford, to have a good impression of ourselves and our community.

Continuing a study course of the practical type, members of the Garden Club heard J. F. Ward speak Friday on "Hedges, Their Types, Cultivation and Care." The meeting was held at the home of Mrs. N. E. Gass.

In beginning his discourse Mr. Ward said that hedges dated from a very early period and have proven profitable as well as beautiful additions to home grounds. Many plants may be used for hedges, the speaker pointed out, recommending the Chinese elm, Russian olive and Tamarix for tall growing which may be used as a wind break. He recommended the California and Amur River South as the most desirable for planting around the home, saying, "They can be used both for formal and informal planting but require a great deal of care when used formally. The Amur River South retains its foliage all through the winter months. For a low growing hedge, Boxwood and Barberry are well suited to this section. For flowering hedge the spirea and althea do well in this area and remember that the spirea does not respond to shearing because the natural "weepy" effect as well as the flowers are destroyed. What trimming is done to the althea should be done before the growth starts in the spring."

How To Plant a Hedge

The following advice on how to plant a hedge was given by Mr. Ward. "When planting a hedge dig a ditch 2 feet wide and 2 feet deep, using top soil to put around the roots of the plant, water thoroughly and keep ground moist until plants are well established. Prune all damaged roots and any other which are too long for the hole. Never double a root in the ground. After planting the hedge should be trimmed to within 4-6 in. from the ground."

Other discussions included "My experience with Sweet Peas" by Mrs. C. C. Cox who contrary to the customary habit of planting sweet peas in February, plants in May. Mrs. Cox said this year her plants began blooming all during the summer. As proof she displayed a large bowl filled with a colorful variety of the blossoms.

The November meeting which is scheduled for the 10th and will be held at the home of Mrs. N. E. Gass will be the last meeting of the club until study is resumed in March.

Members attending the meeting were Mesdames Homer Brumley, G. C. Cox, Dennis Barnard, Mark Hanna, B. E. Oberthier, C. H. Dyer, Ralph White, John E. Stanton, Ralph McCullough, F. M. Kester, W. A. Dobbins, E. Ramey and the hostess.

L. B. Russell, Smallest Man On H-S Cowboy Team, Called Sensation

A former star player on a Hereford Whiteface eleven is now making football history down at Hardin-Simmons University, Abilene.

He is L. B. Russell, son of Mr. and Mrs. W. H. Russell.

Russell, smallest man on the Cowboy squad got his chance to show his football metal a couple of weeks ago. The Cowboy offensive wasn't clicking so Coach Kimbrough put him in the game more because he didn't know what else to do and hoped the eager lad could do something.

L. B. promptly started the fireworks. All the 150 pounder did that afternoon was to return five punts for a total of 50 yards, snagged a wet ball on a dead run on two or three occasions, punted out of bounds within the 10 yard stripe five times, netted 98 yards in nine tries running, and completed one out of six passes for a six yard gain. Press observers called him the best Cowboy back on the field. And you can bet future games will see plenty of the lad, who is called by sports writers "a little piece of dynamite."

Church Council Hears Mrs. Seaman

Mrs. E. C. Seaman, chairman of the Seventh District, Council of Church Women addressed members of the local organization at the meeting held at the Methodist Church Tuesday afternoon.

Mrs. Seaman's talk dealt mainly with "The background for federation and the unity among church women." She told of international movements in the church life, seeking unity of church spirit. She stressed the general theme of the afternoon's program, "Uniting the Family of God," by bringing out the thought that "Church unity lends more strength than treaties," and discussed the question: Shall the church worship God—or review God to others?

The World's Finest

Dearborn sends its heat roomward not ceilingward—keeps your walls from getting streaked with soot and throws the heat where you can feel it—LOW instead of HIGH. This plus its Sensational—Cool-Cabinet Feature is possible only because of its Revolutionary—fully patented—inner construction.

Think of a heater burning at full—yet its entire cabinet remaining cool—so cool the scarf on its cover need never be removed. It's a safer heater and better looking, too—for only Cool-Cabinets could be finished like fine furniture. By all means see it. There's nothing else like it.

Willoughby Discusses Neutrality At Boys' Hi-Y Meeting Tuesday

The Boy's Hi-Y met in the music room Friday night October 23.

Paul Lyons led the meeting in prayer.

The main program was given by Mr. John I. Willoughby who expressed his thoughts on Neutrality. Mr. Willoughby stated that the people of the United States could not be neutral in action if they weren't neutral in mind; and if they weren't neutral in mind, there wasn't any use of passing a Neutrality law. At the end of his speech the boys were allowed to ask questions.

School Contributes Penmanship Exhibits To San Antonio Show

Miss Belle Harris, writing and art teacher at Central School, has been informed that the W. S. Bennson and Co., publishers for writing material, has asked for examples of penmanship from students of Central School. The publishing company intends to use these examples at an exhibit in San Antonio for the State Teachers Association meeting.

The W. E. Bennson and Co. uses only writing examples from schools that have a high standard of penmanship ability.

Penmanship will be taken from all grades, including the seventh grade. The best of these will be sent to the publishing company for exhibition.

Confidentially Yours

Well, here I am again with a bit of news for the school gossipers. First on the list is that Jenelle Potter has been wasting a lot of lipstick on Larry Trimble. Don't get me wrong, she just drew a heart and put J. P. plus L. T. with it.

What are in those notes that Mary Anna Thompson and Mattie Williams carry close to their hearts, generally speaking, in the pockets of their blouses?

Minnie Dea Smith still likes Henry Ford, but didn't I see him wink at Billy Self in the hall the other day? Was his face red!

I may be mistaken, but I am right sure that I saw Ruth Temple Hastings and Rue Wilson's initials on Wilfred Herr's notebook.

I wonder why Edith Standifer loves the song, "Stay in My Arms, Cinderella." Can Bert Slay sing?

Can you blame Nona Dean Rose for keeping her eyes on that curly-headed Bruce Beene? I can't.

Well, I see a little group over in the corner; a little gossip I'll bet. I'll see you next week and let you know how it comes out.

Confidentially yours,

English Teacher Finds California Very Interesting

Miss Sadye Rigler was fortunate this summer in taking a trip to California. Her report on the journey follows:

"My trip to California was not exciting or novel, as this was my seventh trip out West. However, there are always points of interest on the way and in the state.

"I went the southern route and came back by Highway 66. The White Sands, near Roswell, are interesting. Near Phoenix is the Coolidge Dam, a real masterpiece of construction yet not one of the largest dams. The desert always delights me, and I have never yet found it unbearably hot. In Riverside, Calif., I visited one of the oldest missions on the west coast. It is now a museum and hotel.

"The many elegant theatres, especially Grauman's "Egyptian" and "Chinese," always have good programs. The buildings themselves are well-worth seeing. Naturally one hopes to see some of the movie stars. One day as I stopped at a traffic signal, next to me was Gene Raymond very nonchalantly waiting for the lights to change. As you would expect, he and his Packard out-distanced me in the heavy traffic on Sunset Boulevard. When I got to his home in Beverly Hills, his car was in the garage and he, I suppose, in his home. Believe it or not!

"One night I went to Olvera Street, the original Spanish section of Los Angeles. The entire street is kept almost as it was when the Padres came to that section. On both sides and down the center are booths where all kinds of articles are sold. Various types of amusement are furnished. Cafes tempt or repel, just depending on one's desires for food. On this particular night in Olvera Street, I saw Leo Carrillo, the beloved Mexican actor, whom both Mexicans and Americans nearly mobbed for his autograph.

"Quite contrary to this setting of gaiety is a highly interesting place to see—the Forest Lawn Memorial Park in Glendale. It covers acres and acres, and the beautiful lawns and drives, the exquisite statuary, and the churches make this cemetery seem a much less gruesome place than ordinarily. The mausoleum itself is a beautiful building. Two famous churches are there: The Wee Kirk O' the Heather, and the Little Church of the

Impressive "Rosebud" Service Presented By Hi-Y At Kendall Home

The Girl's Hi-Y met Tuesday evening in the home of Mrs. Joe Kendall for the annual "Rosebud" service.

The program was opened by the song "Living For Jesus," accompanied by Bernadine Phillips, followed by a prayer for Clean Womanhood by Wanda Jean Reed. Billie Louise Crawford gave the scripture, reading Proverbs 31:10-31. Miss Irene Crawford, sponsor, then took charge of a most impressive program.

The story told by Miss Crawford was of the love which a girl, Melissa, had for her brother, Tad, and how she tried to keep him from the dangers which confront modern youth. The story was illustrated by a rosebud. At the end of the service, each girl was presented with a beautiful, white rosebud and a copy of "My Creed."

Flowers. In the latter, more than 8,000 couples have been wed.

"Los Angeles now has one of the largest union depots in the United States; it is a show-place of California. The Union Air Terminal in Glendale is another place of interest. I especially enjoyed visiting the Pan-American Air Terminal in Glendale; all the signs and announcements were in Spanish. At San Pedro, the Los Angeles harbor I saw the huge steam ships come and go. I also saw the fleet which was just out a short distance about the only kind of terminus that I did not see was the one that serves the "hitch-hikers."

"Parks, parks, everywhere. There is beautiful natural scenery in the mountains and palisades, and certainly the ocean always has its majestic charm. The residences, apartments, business buildings, schools and churches are as pretty and up-to-date as you will see anywhere.

"I did not go to San Francisco, but spent three delightful weeks in Los Angeles."

Christmas times when the kids get new fangled toys I sometimes am inclined to agree with those newspaper cartoons which captioned "Born 30 Years Too Soon." With scientific advancement in all lines, kids now days have such high-powered toys that the old ideal of having a train with ample trackage is now common place. I still get quite a kick out of playing with the children's toys each year, and generally pester the nephews and nieces until I am a very unpopular person. In the respect of toys I am quite sure that I was born 30 years too soon.

On the other hand, when Halloween rolls around each year, I think that the boys and girls of today were born 30 years too late. The little tots get a kick out of wearing masks and sheets—but the older boys have to be content with merely soaping windows and other gentle types of sport.

When Frank Barber, Harry Seed and Walter Dunlap were boys, it was a different story. The fun they had on Halloween can never again be enjoyed in the average small town, because civilization has advanced during the past 30 years—and with it came modern plumbing and modern bathrooms. Back in the days when Roger Corbett, and George Connell and Son Woods got so much fun out of turning over privies, things were not quite so comfortable maybe—but the kids sure enjoyed it. C. F. Moore admits he was pretty good at tick-tacking in his youth—but still insists he didn't have a thing to do with putting a cow and a goat in the high school auditorium at Floydada.

When you get to thinking over pranks of this sort, old times come to mind—and they're probably among the most enjoyable memories you'll ever have.

Maybe it was because he was such a prankster that most of us will miss Bill Smith so much—and again, maybe it was because he was such a swell fellow. No man ever lived in Hereford who enjoyed a practical joke more than Bill, and very few persons ever pulled so many. However, when the occasion called, Bill was always ready to do his part for the community and for his neighbors. Probably no more public spirited citizen ever resided in this community. He gave several years of his youth in defense of his nation during the World War, and since his return to Hereford he has given unstintingly in promotion of football, band work, civic organizations, and other worthwhile enterprises. Like everyone else, Bill is bound to have had his troubles—but no one ever heard him complain.

All in all, Hereford has been blessed with Clarence Smith and with the Smith family for 35 years—and although we hate to lose them, we should rejoice over the many fine things they have contributed to this community. Clarence Smith is truly an old timer in the community. When you are in Ruidoso look them up. They will appreciate seeing you—and it will be a highlight of your trip.

Elmer Dameron has such bad luck that he should be in the newspaper business. Right on the eve of his Hereford Auction next Monday he has developed a severe head cold, and was forced to spend last Sunday in bed. He is feeling considerably better; but he has been carrying on his work under severe handicap. Elmer plans to hold the greatest sale of his career as a breeder next Monday. The sale is probably the best advertised sale to be held in Hereford in the past decade, and scores of cattlemen from other states are expected here as guests of the community and of Mr. Dameron Nov. 6. Let's show them every possible courtesy, and go out of our way to make their visit here a pleasant one.

Not many people seem interested in running a special train to the Hereford-Canyon game Nov. 17. The fare will be about 50c for the round trip. Are you interested? I promise we'll beat Canyon, and if we don't Dave Alexander has promis-

ed to walk home.

Speck Lunsford fed the Lions Club Wednesday with fish, which he says he caught. Anyway, the fish came from Galveston and since Speck was kind enough to give me some shrimp, I'm pretty sure he did catch some of the fish. Speck is full of fish stories, and the only difference between he and J. H. Pitman is that Speck brings home plenty of fish. Likewise, Urilin Streu and Fred Pitner did some fishing last week in New Mexico, returning with some unusually large trout. They camped out while on the trip, but reported that the air was a "bit nippy" early mornings.

Lee Benefield, who operates a farm near Hereford, received somewhat of a shock last Friday. Seeing an automobile similar to that of his sister-in-law, Mrs. Mark Benefield, waved "Very Cordially" to the lady occupant—to discover that she was a total stranger. Lee was somewhat upset, and when the lady discovers his identity, he will be more upset than ever.

Gov. O'Daniel likens his tenure of office to that of Mr. Smith in the movie, "Mr. Smith Goes to Washington" and advises his admirers to be sure and see the picture. I haven't seen the film but understand that it is a real comedy with something funny happening every minute. After all, Gov. O'Daniel has done some mighty funny things during his tenure of office, among which is not included the fulfillment of his campaign promises. He says some of the things have been beyond his power to accomplish. Gov. O'Daniel should have thought about this before he made the promises. I don't know why he is commercializing from the governor's chair on "Mr. Smith Goes to Washington," but I am going to see it and find out what a governor does with his time.

Between The Goal Posts

By FRED HARRELL

Take A Rest
The Whiteface Herd takes a rest this week before facing Tulla's Terrible Hornets on November 10, next Friday week, in the last home game that Tulla will see this season. Tulla will come over here as cocky as all get-out, and scribes and drug store quarterbacks over District 1-A have already decided that Tulla will beat us by at least 6 touchdowns. So we'll just beat them to the draw and admit that, on paper at least, Tulla looks better than Hereford by that margin. Notice we said "on paper." There's considerable difference between that and the good green turf of Whiteface Field.

Facts That Count
Fans can take some comfort for the fact that the Whiteface line showed to be superior to Dalhart's on both defense and offense. It was the offensive line that opened those holes that Leonard Johnson bored through to prove himself the best ball carrier on the Whiteface team last Friday night. It was Johnson who carried the ball around 45 yards on successive line plunges to place the ball on Dalhart's one yard line from where Ernie Schumacher took it over on the fourth down.

Looks Like Tulla
While conference play is not over yet, Dumas has still to play Canyon and Tulla. Canyon has played no conference games, and Tulla has played only Dalhart. Hereford has lost any chance at the district championship, so we see no harm in generously admitting that the Swisher county boys look like they will be the winners.

STANDINGS
Here are the conference standings as they appear today.

Team	GP	W	L	Standings
Tulla	1	1	0	1000
Dalhart	3	2	1	.867
Hereford	2	1	1	.500
Dumas	2	0	2	.000
Canyon				No games played

From this chart, Hereford by beating Canyon, granting that Tulla beats us, will still finish the season with a record of having won half its conference games. That won't be anything to be ashamed of.

Dope From 2-A
Since the champions of this district will meet the champions of District 2-A for the regional championship we pass along for what it is worth the information that Perryton beat White Deer last week 21-0 for their third straight conference win. Dopesters from Perryton are already saying that they have the championship in the bag.

BAPTIST CHURCH NEWS

We had a good day last Sunday. There were two additions by baptism and one by letter during the day. There is still room for improvement. Let's make it better next Sunday.

WILL HE EVER WIN

a blue ribbon?

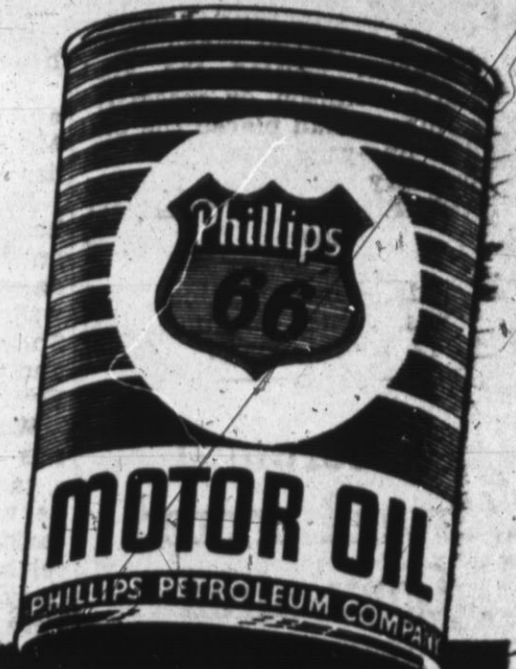

It's HARD to tell... but EASY to pick a winning oil

FOUR thousand dogs sleep and snarl, sit up and blink, strut and pose for the judges at the annual show in Madison Square Garden. Blue-bloods seeking blue ribbons. Rash indeed is the man who would try to predict which dog will finally be selected as the grand winner, the "best in show."

But you don't have to be an expert yourself... you need no technical training... to choose a winning oil for your motor. It's easy to tell. This is why:

Of the many oils refined by Phillips, we have set apart one as our best. Without reservations of any kind, we frankly publish the fact that Phillips 66 Motor Oil is our finest quality... the highest grade and greatest value... among all the oils we offer.

Now you know how to get a blue ribbon oil. Just drain and refill with Phillips 66 Motor Oil at the Orange and Black 66 Shield.

Phillips Finest Quality

The pastor plans to preach next Sunday morning on "The Things That Make For Peace." Read the 14th chapter of Romans. The subject for the evening preaching service will be "Consecration Illustrated by The Baptism of Jesus" based on Matthew 3:13-17. The evening message will be short and will be followed by a baptismal service for those candidates who have united with the church but have not been immersed.

We are in the midst of our fall Sunday School Training School. Four books are being taught. They are outlines of Bible History taught by Mrs. Art Manjoet; When Do Teachers Teach? taught by Mrs. W. E. Barnes; Building a Standard Sunday School, taught by Mr. Earl Wilson; and Studies in Ephesians, taught by the Pastor. If you can't attend every night, come every night you can and maybe we can arrange for you to finish the course if you want to. If not come study the Bible with us as much as you can.

W. E. Barnes, Pastor.

Dalhart Sets Whitetails Back

Taking the ball on the first play after Hereford had kicked off out of bounds, Sechrist, shifty Dalhart back ran 65 yards for a touchdown. Thereafter Dalhart kept up a steady barrage of end runs, line plunges and passes to roll up a final score of 26-7 over an out-played but not out-fought Whitefaces Eleven.

Hereford's lone tally came late in the last quarter when Ernie Schumacher crossed the goal line after Johnson, on successive line plunges, had placed the ball on the one-yard line.

Summary of the game follows:

Hallowe'en Passes After Elves And Goblins Hold Sway

Hallowe'en passed into history again Tuesday night with city officials reporting things rather quiet. Depredations were light among the more serious being the taking of a number of water cover meters, which the city is seeking to recover by offering five cents for each one returned; and turning of a water hose into a gasoline storage tank of a filling station, ruining 100 gallons of gasoline.

Taken as a whole downtown show windows presented probably the cleanest appearance of the year after window washers had removed the soap smears yesterday morning. Fifteen window washers were seen working simultaneously just after stores opened.

The watchman at the the high school reported several attempts to release air from tire of cars parked there while Wex Izzard was speaking.

Other pranks consisted of leaving old boxes in the streets, strewing bundles of feed about, removing steps, and various other forms of prankishness.

Izzard Says

Association, and Miss Ruby Dutton introduced the speaker following a short musical program. Mr. Izzard based his talk on the four viewpoints: The historical; the political, the emotional, and the American. He warned particularly against letting hate influence our viewpoint.

He stated that while he hoped that by some means or other the United States could stay out of the war, he believed that as a last desperate resort, we should save England and France from defeat, saying that they stood for the things we in America cherished and that Germany and Russia represented everything we were opposed to.

He predicted that in 25 years at the most the sea of the British Empire would be moved from England to Canada.

Dameron Sale

cattle. The sale next Monday will be the first held by Mr. Dameron since Nov. 1, 1937, when he sold 67 Herefords in a Division Sale.

Like Mr. Dameron's last sale, the coming auction features Superior Anxiety Herefords, which are of first quality. Bloodlines in his catalog trace back to such outstanding sires as Superior Mischieff, Superior Anxiety, and Superior Anxiety Jr.

Because Herefords from the Dameron herd and from other herds in this community have consistently made Hereford history during the past decade, un-

usual interest is being centered on the sale here Nov. 6. The recent John B. Stribling sale at Rotan featured three Superior Anxiety Jr. Cows, which averaged \$1,066—which was \$353 above the average of other cows in the sale. A heifer bred by Mr. Dameron, Pretty Lady 57th, topped the open heifer division at \$850. This heifer was sired by Superior Anxiety Jr. 4th, and in his sale here Monday Mr. Dameron has consigned 15 females and six bulls by the same sire—all being granddaughters and grandsons of the renowned Superior Anxiety Jr.

Cattle from the Dameron herd like those from many other outstanding herds of this community, have invariably been purchased here and resold at top prices in sales sponsored by other breeders. For this reason Hereford is retaining its reputation as a breeding ground of fine cattle, and is even increasing the prestige which the community has enjoyed since it was started in 1890.

and supplies so that they could win. He believes that the present war will line up into a battle between the Democracies and the Dictators.

Mr. Simpson praised Hitler as a man having great ability in organization. When he came to power, Major Simpson said, Germany had almost nothing, while now she again is a major power in Europe. Hitler, he said, had built the finest system of highways of any European nation.

"The cash and carry system of selling goods to England and France should be used as long as possible," Major Simpson stated. After that if necessary we should give them war supplies, and as a last resort send our army again to Europe rather than see England and France crushed and the dictators victorious.

Green had been employed as a shepherd.

Mayor C. J. Paddock and Ed Curtisinger said that this morning before making the statement, Green told them he intended only to take the pickup and use it to go home.

The hammer used in the attack was practically new, Lee having bought it only a few days before. It was brought into Here-

hammer at me and ran from the house. My wife and I then struggled from the house to my pickup and I drove to my father-in-law's house, Ed Curtisinger, and called Dr. Willis."

The story is here taken up by Clyde Renfro, a brother who lives near Lee. He reports that Green appeared at his house a little after two, clad only in his underwear, and told him that he, Lee and Mrs. Renfro had been hijacked. Green seemed to be seriously injured.

Clyde jumped into his car, leaving Green, and drove to Lee's farm where he found the hammer and the bed splattered with blood. Worried as he was, Clyde drove back to his house and brought Green to the Dea Smith county hospital, after furnishing him with a shirt and trousers.

Dr. Willis was called to the hospital, and found that Green, who seemed to be seriously hurt, was not. The man was then brought to the Hereford jail, by Amos O'Rear, night-watchman, accompanied by Ed Mauk and J. D. Curtisinger, Jr.

"He seemed as nice a fellow as I ever knew," Lee Renfro stated this morning. "We had no warning that he planned to do anything like this."

According to the statement by Green, he had originally planned the attack Hallowe'en night, and Wednesday night, and had been carrying the hammer for that purpose.

Lee Renfro said that if the first blow of the hammer, had been as hard and straight as the second, which hit him in the mouth, it would probably have killed him. He thought that the first blow was glancing because Green had to lean over Mrs. Renfro in order to strike him. The second blow knocked out six of his front teeth.

The Renfro home is located 14 miles Southeast of Hereford in the Jumbo community. The room in which the Renfro's slept is separated only by a curtained doorway from the room where Green had his bed.

ford by Ed Curtisinger and Sheriff Jack Newell, who went out to the Renfro farm about 3 a. m. looking for Green, unaware that Clyde was bringing him in to the hospital.

Mrs. Renfro is a daughter of Ed Curtisinger and Lee is the son of Mrs. Lee Lambert and the nephew of John and Chris Renfro; he was reared here. They have been married about two months.
