Short Story By Mayo Based On This Territory

"The Man with a Tractor," a short story written by Morrow Mayo, appeared in Harper's Magazine for November. Material and background for the story was gathered by Mr. Mayo during the past summer, while he and his brother, John R. Mayo operated a wheat farm in this area.

Mr. Mayo came here from California in April and remained here until July 15, during which time he and his brother operated the East Corbett wheat farm three miles west of Hereford on Harrison highway. John R. Mayo is still maintaining wheat acreage in this section at the present time.

Morrow Mayo, the author, now lives in California, where he and his wife are operating a roadside tourist camp. In addition to numerous stories and articles in leading magazines of the nation, he is also author of a realistic book about Los Angeles.

Foods Matinee Is Slated For Next Saturday

Seeking community-wide cooperation in their Thanksgiving basket drive, members of the Business and Professional Women's Club today stressed the "foods matinee" which will be given under their auspices at the Star Theatre Saturday morning, Nov. 19, at 10 o'clock.

"The only admission charge to be made will be some article of non-perishable food," Mrs. Dyalthis Braddy, president, said.

"Food secured through the matinee will be distributed to needy families at Thanksgiving in the form of special baskets."

John Roberts, manager, stated that a complete film will be shown, and said that the show will include a full-length feature.

Drive On Fake Advertising Is Sponsored Here

In connection with their campaign to protect business men from unscrupulous solicitors, fake advertising schemes, and out-of-town representatives, the Chamber of Commerce this week posted placards in all stores.

"The Chamber of Commerce maintains an advertising committee to approve all advertising schemes," leaders pointed out. "These men are willing to devote their time and energy in checking and investigating schemes—and to those propositions found worthy, they will give letters of approval to representatives."

The organization asked that all merchants co-operate by asking out-of-town solicitors, even when accompanied by local persons to present their letter from the special committee. All firms, whether C-C members or not, are being given posters and are urged to co-operate in the campaign.

Banquet Heads Activities Of Armistice Day

SPECIAL SERVICES DRAW LARGE CROWD HERE LAST THURSDAY

Hereford last Thursday observed Armistice Day by paying tribute to World War veterans and by joining in a celebration sponsored by the American Legion. Business firms closed for the day, and took part in the celebration.

The celebration officially opened with special services at the Christian Church, conducted by Rev. H. M. Redford at 11 o'clock. A police court was conducted on Main Street throughout the day with Chas. Bennett acting as judge and jury, and the occasion was climaxed with an American Legion-Auxiliary banquet Thursday evening at 7:30 o'clock at the Methodist Church. The occasion terminated with a dance in the city hall.

Attending the banquet were 88 veterans and their wives. Alex R. Bateman acted as master of ceremonies, and two Gold Star mothers were introduced. Invocation was said by Rev. Redford, post chaplain; Ralph Smith had charge of musical arrangements, including group singing of war-time songs, which proved popular, and Rev. Redford sang a solo, "Katy." F. L. Lucas and Jack Galson gave a skit on Charley McCarthy, while Chas. Bennett and Frank Givan added zest to the program by absconding with most of the bread and silverware.

Table decorations included candles, flags and flowers to lend an attractive and effective atmosphere to the occasion.

Stubble Grazing Is Dangerous

Stubble left on a field when the crop is harvested furnishes protection from wind erosion if not overgrazed. Too much grazing removes the protective cover of vegetation and trampling by livestock pulverizes the soil and permits blowing. Upper picture shows a stubble field being overgrazed. Bottom picture shows an overgrazed field which has suffered soil losses and is becoming hummocked.

PROTECTIVE STUBBLE OFFERED AS MEANS TO COMBAT EROSION

Many farmers in the so-called Dust Bowl have a protective stubble on their fields this fall for the first time since the drought period started, reports H. H. Fennell, regional conservator of the Soil Conservation Service.

"Aided by generally better rainfall conditions and a more widespread use of soil and moisture conservation practices, these farmers have been able to produce a grain sorghum crop and now have a stubble on their fields which may be expected to afford protection against soil blowing during the period of high winds," Mr. Fennell states.

"During the winter of 1937-38, there were 6,088,000 acres in the so-called Dust Bowl which were contributing to dust storms. This winter, the potential 'blow area' has been reduced to about 1,150,000 acres. By wise use of their land, the farmers have been able to make this progress in eliminating wind erosion. Their problem during the approaching period of high winds is to maintain this gain," the conservator declares.

"The greatest danger which menaces this gain lies in the overgrazing of these protective stubble fields. During the winter stubble and stalk fields are an attractive

REV. H. M. REDFORD IS PRINCIPAL SPEAKER FOR GATHERING

Sixty-four members and guests of the Business and Professional Women's Club last Monday night attended Boss' Banquet in the City Hall. Rev. H. M. Redford, principal speaker, discussed "Employer and Employee," attributing present world and labor problems to possible lack of understanding and need of co-operation.

The annual banquet was considered as one of the most outstanding ever given here. Mrs. Dyalthis Braddy acted as toastmistress; Mrs. Reed Williams introduced guests, telling jokes along with introductions, while fun and cheer were added by a solo by Mrs. Carl Mountz, and group singing.

F. H. A. PLAN OFFERS AN ANSWER TO HOUSING PROBLEM HERE

The housing problem in Hereford will become slightly less acute with nearing completion of the homes of Grant A. Fuller, manager of Kemp Lumber Company, and J. C. McCracken, Minneapolis-Moline dealer.

Both of these homes are being built under the F. H. A. plan for new construction, and both men reported satisfactory dealings with the Federal Housing Administration. Loans were secured in Hereford without going out of town.

While numerous points over the nation are taking full advantage of the F. H. A. plan, details of which

Schools To Turn Out Nov. 24-25

Announcing that the Hereford Schools will observe Thursday and Friday, Nov. 24-25 as holidays, Knox Kinard, superintendent, today said that instructors will be well represented at the State Teacher meeting in Dallas during the holiday period.

"We are making the announcement in advance," he said, "in order that patrons who plan Thanksgiving visits may know of the two-day recess."

Progress Made On Test Well In Garcia Area

The Garcia Lake wildcat in Deaf Smith County 28 miles west of Hereford, is going right ahead with preparations to deepen. The original contract depth of 4,500 feet was reached without encountering oil in paying quantities, although several good shows were reported, and the project was refinanced with the new goal set at 7,000 feet and probably deeper if no results are obtained before that depth.

A lot of new equipment has been purchased and the hole which caved to some extent is being cleaned out. The work of cleaning out has progressed from 4,400 feet to 5,000 feet and all work is in a favorable situation. Some tools have been lost in the hole which will be either fished out or drilled around.

Prairie Dogs Poisoned On 2,500 Acres

MORE THAN 100 LARGE RATTLESNAKES ARE ALSO KILLED

While the purpose of the Department of Agriculture drive in this area is to kill prairie dogs, M. A. Lindsey, director for this county, today reported that more than 100 rattlesnakes have been killed during the past month.

To date, the campaign has been conducted only in the west part of the county, but Mr. Lindsey said that approximately 2,500 acres have been covered. Because the dogs are being poisoned and many of them die in their holes, it is impossible to estimate the number of prairie dogs killed. He said, however, that exceptionally clean kills are being made. The southeast and northeast portions of the county still remain to be worked.

Like prairie dogs, it was impossible to estimate the number of rattlesnakes which died in holes, but the crew had counted more than 100 snakes which they killed with rocks and sticks. Some of the rattlers were said to measure as long as six feet.

In co-operation with the campaign, farmers pay the labor cost and furnish grain and poison. It was estimated that 10 cents an acre is the top cost on poisoning dogs.

Miss Wynona Swepton, Home Management Supervisor, will work with Mr. Williams in carrying out the program of the Farm Security Administration in Deaf Smith County.

It is planned that the permanent office of the Farm Security Administration of Castro and Deaf Smith Counties will be moved to Hereford, provided satisfactory space can be obtained. At the present time Mr. Williams spends Tuesdays and Fridays of each week in the temporary office located in the basement of the court house.

Mrs. Williams and the three children will move to Hereford this week.

Library Week Is Set This Week

Announcing that Nov. 13-19 is the date for National Book Week, Mrs. Clara McLean, county librarian, today said that the theme for the national event is "New Books - New Worlds."

"Because the national week is observed primarily for children the larger number of new additions to the library the past week were books for children," Mrs. McLean said. She listed a few of the new books: A B C Bunny Book, Gag; arks, Newberry; Floating Island, Parrish; Forest Pool, Armer; Hansi, Bemelmans; Ola, Aulare; Real Mother Goose; stories of the opera adapted by Lawrence, include Aida, Carmen and Maensel and Gretel.

The crowd was entertained with a steak dinner.

Little Change Expected As Hereford Enters Class A Football Next Season

The fact that Hereford will play Class A football next year will mean little change from the present class of competition, according to officials. The change, however, may result in a different schedule.

Under the new interscholastic League set-up, schools with fewer than 150 students will be titled Class B; schools with more than 150 students and less than 500 students will fall in the Class division, and schools with 500 and more students will be termed Class A.A.

Hereford with an enrollment of 325 will unquestionably be in Class A, as will Canyon, Dalhart, Muleshoe and Tulla—which teams have been set out as Class A. District 1. Dimmitt, Friona and Dumas, all playing with the above five teams under the old Class B set-up, will have to be voted into the district under the new division. Vega is also petitioning for a place under the new arrangement.

The only change from this year will depend upon the decision of the district football committee. If Dimmitt, Dumas, Friona and similar teams are not included in the district, it is likely that the present split-district playoff will be disregarded and that the five teams already eligible in Class A, District 1, will be included.

AN ANTHROPOLOGICAL SURVEY OF STUDENTS

HOW TO TELL YOUR CLASS MATES FROM THE APES

Type One: The Studious Student. Very rare. Skull usually long and flat on top. Is often affected with asthma, astigmatism, or halitosis, and there have been cases combining all three. Is the lad who knows all the answers when every one else has been out the night before. Is full of scientific facts and statistics. Knows the number of illiterates in Idaho, how many people fell out of windows in 1929 and the birth rate on pullman cars. Shuns girls which is okay with the girls. Will probably pass into oblivion sometime during the next century.

Type Two: The Campus Cut-Up (or Why Teachers Buy Wrinkle Cream.) Is easily identified because of his colorful conceptions of what the well-dressed Man-about-Study-Hall should wear. Plus fours, purple shirt, ties that bid you halt at a distance of 20 feet, and queer things resembling hats worn as near the back of the neck as possible. The 'stock type has curly hair, an engaging grin, and is not too bright. The most popular species tap-dance, play the ukulele, and drive their own Model T's. Will probably degenerate into bond salesman or a radio comedian if he grows up.

Type Three: The Football Student (or Brawn over Brains)—that anthropomorphic delight known otherwise as "Spike," or "Pete," or "Flash." Chest expansion, 45. Has brains(?) in the wrong places. Goes in for small blondes, very bright sweaters, and very mediocre marks. Is shown special favor by teachers because of his Neanderthal traits, which enable him to bring home touchdowns and lots of other things. This type is invariably a 3-letter man, a second hand wise cracker and the idol of the school and girls.

Type Four: The Average Student (or Epimetheus.) Is a combination of aforementioned types, except that he's not quite so good at anything. Looks, thinks, and acts just like everyone else. Is culturally dead from the feet up. If he ever read a book which might be termed literature, he would undoubtedly remember the color of it till his dying day. Considers himself an authority on every known subject, yet writes English themes which sound like Gertrude Stein on an empty stomach. Will be greatly loved by history students because he won't do much. Likes food, orchid pajamas, slap stick comedy, and girls. If he ever becomes extinct, it will be beyond the best of use.

BAND PARENTS TO SPONSOR CHILI SUPPER

A chili supper, with pie and coffee, will be served during the noon hour, afternoon and evening of Saturday, Nov. 19. This is to be sponsored by the Band and Orchestra Parents Association. F. H. T. DISCUSS FALL STYLES; LIKES AND DISLIKES OF BOYS

At the meeting of the F. H. T. Wednesday night, fall styles were discussed.

The extreme fall styles are hair high, shoes high, collars high, and skirts high.

Mozell Shreve told what boys' likes and dislikes are in girls' clothes. Boys like sports clothes for school wear. About half of the boys like extremely feminine evening dresses, while the rest like the slinky sophisticated type.

Lois Agnes Gilbreath described school styles for high school girls. Do not wear your last year's party dresses to school; it will make you look cheap.

Special music was furnished by Troyce Stambaugh and Billie Louise Davis.

After a round table discussion on styles, the club song, "Sing Your Way Home," was sung.

BOY AND GIRL RELATIONSHIP IS TOPIC AT HI-Y MEET

An interesting program on "Boy and Girl Relationship" was held in the Girls' HI-Y meeting Tuesday evening at 7 o'clock, in Miss Crawford's room.

The group sang, "Living for Jesus," the theme song, and Billie Barber read the Scripture. Betty Sue Henstee was in charge of the program. A panel discussion was held with the following talks: Ann Cockrell, who talked on "How to Act on a Date"; Vivian Olson, who talked on "Introductions"; Ruth Temple Hastings spoke on "Conversations"; Minnie Dea Smith talked on "Blind Dates"; Helen Ruth Barber spoke on "The Age When One Should Start Having Dates"; and Marthanelle Ewton gave a talk on "Going Together Steadily." These were followed by a general discussion in which everyone took part. The HI-Y benediction was repeated before the meeting adjourned.

CHILD STUDY CLUB WILL JOIN COUNTY FEDERATION

Members of the Child Study Club voted for the organization to join the Deaf Smith County Federation of Women's Clubs at the meeting held Thursday afternoon at the Methodist Church.

The next regular meeting date has been postponed until Dec. 1, in order to observe the Thanksgiving holiday.

In discussing "Family Fireworks" Mrs. Charles Newell, leader of the

program, told what to do about family arguments among children and stressed the value of each child developing its own interests to the degree of independence of each other. She discussed the "Possessive" age, and urged the need for the parent's patience in dealing with that problem. Mrs. Newell also explained why children have to have fireside explosions to let off steam and said that parents should realize that no child can be perfect and that flaws aid in

the development of character.

Mrs. Cecil Lady gave a talk on "Mothers Make Sissies," and in answering the question, "What Makes a Boy a Sissy?" listed the following probable causes: 1, Allowed to develop into a cry-baby through petting; 2, allowed to play entirely with girls; 3, dressed too neat and prim, and 4, never allowed to get dirty while playing, and many others. Mrs. Lady quoted one author as advising mothers to let children gradually break away from parents and learn to stand by themselves with the parent's guidance.

In the round table discussion which followed, the thought was brought out that the word "sissy" was much overdrawn.

Present at the meeting were Mesdames Charles Newell, R. P. Conaway, Gordon Witherspoon, Cecil Lady, W. J. Wilson, C. P. Grimes and J. B. Whitlow.

REPORT GIVEN FOR O. E. S.

Members of the Order of Eastern Star heard a report from the Grand Chapter meeting recently held in Houston at the meeting held Tuesday evening, Nov. 8, at the Masonic Hall. Mrs. Ed Boggs, worthy matron who attended the meeting, gave the report.

Plans were made for a Thanksgiving buffet supper which will be held at the hall Friday night, Nov. 19, at 7 o'clock.

The program was built around the theme "Each Day with Christ," with Katherine Henderson making the principal talk on "The Value of Daily Devotions." A vocal duet was sung by Bettye and Ann Cockrell.

A banquet scheduled for Nov. 15 was discussed. The Fellowship Circle closed the meeting.

LUNCHEON CLUB HAS TABLE OF GUESTS

A table of guests enjoyed luncheon and bridge games with Wednesday Luncheon club members last week, when Mrs. Alton Fraser entertained at her home. A Fiesta blue tray of ruddy toned fruit against a lace cloth, formed the table's decoration from which the luncheon was served. Guests formed foursomes at small tables where later games were enjoyed. Appointments were in autumn colors suggested by lovely bouquets of bronze and orchid chrysanthemums.

Game awards went to Mrs. B. H. Withshire for the club, and to Mrs. J. W. Witherspoon for guests.

SUMMERFIELD CHILD STUDY CLUB MEETS

The Summerfield Child Study Club met Wednesday, Nov. 9, with Mrs. Lloyd Lookingbill as hostess. In a short business session plans were made for a Christmas party for the pre-school age children.

A review of interest of the book "Your Child Today and Tomorrow," by Sidome Matzner Bruenber, was given by Mrs. Ray Johnson. She placed emphasis on the fact that the task of parents would be more pleasant if they had proper understanding and sympathy with the various stages through which the child normally passes. The failure to understand the workings of the child's mind is responsible for much of the friction between parents and children.

"We cannot expect the children to understand us, if we are to have harmony, intimacy and co-operation," she said, "these must come through the parent's successful efforts at understanding the children."

Refreshments were served to Mesdames Ray Johnson, Frank Lookingbill, Guy Walser, Hollis Walser, Jim Clark, Tandy Legg, C. B. Walser and Lloyd Lookingbill.

The next meeting will be at the home of Mrs. Guy Walser, Nov. 23, with Mrs. Frank Lookingbill as leader of the program.

Bible characters were described and word games suggested the Thanksgiving theme.

Present were Mesdames Travis Caraway, Dean Robbs, J. W. Cockrell, Edgar Russell, Misses Dorothy Funderburg, Ines Funderburg, Kitty Kloe Harlin, Molly Jo Robertson, Cora Lee Rice, Audrey Cockrell, Odessa Long, Maxine Adams, Dorothy Neil Adams, Thornton Shirley and the hostess, Mrs. Wiley Robertson and son, Donald, were special guests, who furnished musical entertainment.

STUDIO OF SINGING WILL PRESENT A THANKSGIVING CONCERT

Miss Mattie Mae Swisher's Studio of Singing will present a Thanksgiving Concert at the Methodist Church Sunday afternoon, Nov. 20, at 4 o'clock. The public is invited to attend.

The program which will be in keeping with the Thanksgiving spirit will be divided into two parts, the first in the form of a Junior choir, given by a vested group of boys and girls under the age of 15 years. The stage will be decorated with fruits and vegetables, contributed by choir members, which will later be distributed as Thanksgiving cheer through the county welfare committee.

The second half of the program will be solos, duets and group numbers, with Mrs. John Jacobson, Billy Louise Davis and Miss Swisher accompanying.

Those taking parts will be Adeline Koelber, Nellie Jo Shreve, Nadine Newell, Tom Wilson, Bobby Jennings, Mary Tiefert, Joyce Homler, Jacqueline Newell, Patsy Ann Slagle, Mary Louise Grady, Norma Jean McCullough and Mary Estelle LeGrand.

MRS. PRESTON WALKER IS HOSTESS FOR AUXILIARY

Members of the Woman's Auxiliary of the Presbyterian Church met with Mrs. Preston Walker, Tuesday afternoon.

The meeting opened with the devotional on Fellowship, given by Mrs. Henry Hastings.

Topics for study had to do with "The Southern Mountaineer," with Mrs. D. H. Alexander leading.

A series of "Little Talks" on Mission work furnished the program. Mrs. Arthur Rogers reviewed

"Women in Missions," which told of the march of life for those in the mountain regions. She described how a hundred years of education was being crowded into the lives of the mountaineer in a ten-year period of time, and what missionaries were doing to help adjustments.

Mrs. Lee Conklin talked about "The Reunion of Students" in the Presbyterian school at Asheville, N. C. She traced the influence of the school as it has been manifested by students who have made good since leaving the school.

Mrs. Rex Higgins told about the Dorland-Bell school for girls at Asheville. She gave an account of the way the school is supported, and described the work done there.

The Thanksgiving theme was emphasized in a clever little skit presented by Mrs. D. H. Alexander. It told the story of "Thanksgiving at Cousin Martha's."

A union meeting of all the Missionary Societies of the town will be held Tuesday, Nov. 29 at the Methodist Church. The next regular meeting of the Auxiliary will be held December 6, at the home of Mrs. Henry Hastings.

POLLYANNA CIBOLE ENJOYS THANKSGIVING PROGRAM

A Thanksgiving program was enjoyed by members of the Pollyanna Circle of the Woman's Missionary Society of the Methodist Church at the meeting held Thursday afternoon, at the home of Mrs. Margaret Helfner.

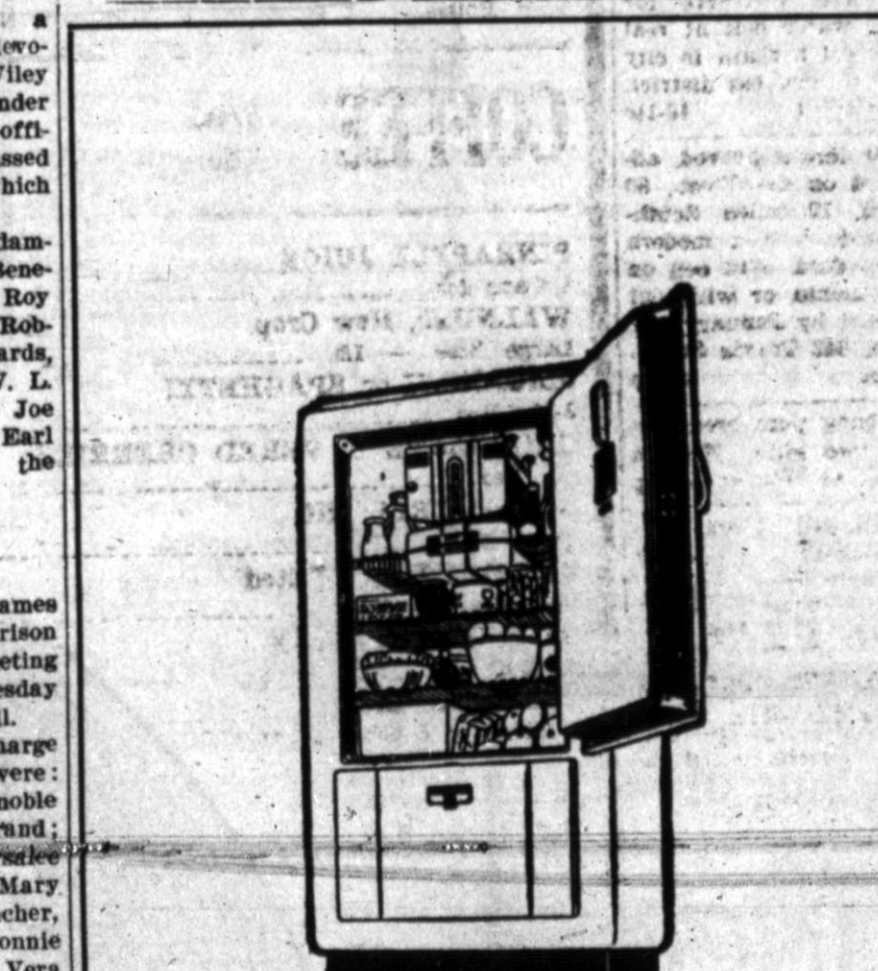

The meeting was opened with a prayer led by Mrs. J. F. Ward, followed by the devotional given by Mrs. W. T. Batchelor.

Other parts on the program were a prayer by Mrs. M. L. Steele, sponsor of the group, and a Thanksgiving story by Mrs. C. B. Williams, who also read a Thanksgiving poem.

An old-fashioned "Experience Meeting" was conducted with every one present taking part.

Refreshments carried out the harvest theme, and were served to Mesdames M. L. Steele, Nannie Jewell, W. A. Allen, Alice Sweigart, V. A. Haynes, M. M. Beavers, C. E. Wade, A. C. Thompson, J. F. Ward, J. B. Jones, L. A. Petree, C. B. Williams, J. B. Hammer, Emil Bowser, W. T. Batchelor, E. J. Hudson, L. J. Bennett, K. I. Greer, E. E. Rogers, Olive Smith, W. H. The Human Side of BANKING

Because we deal in such cold and inflexible commodities as cash, facts and credit, it is perhaps logical to think of banking as being also cold and unbending.

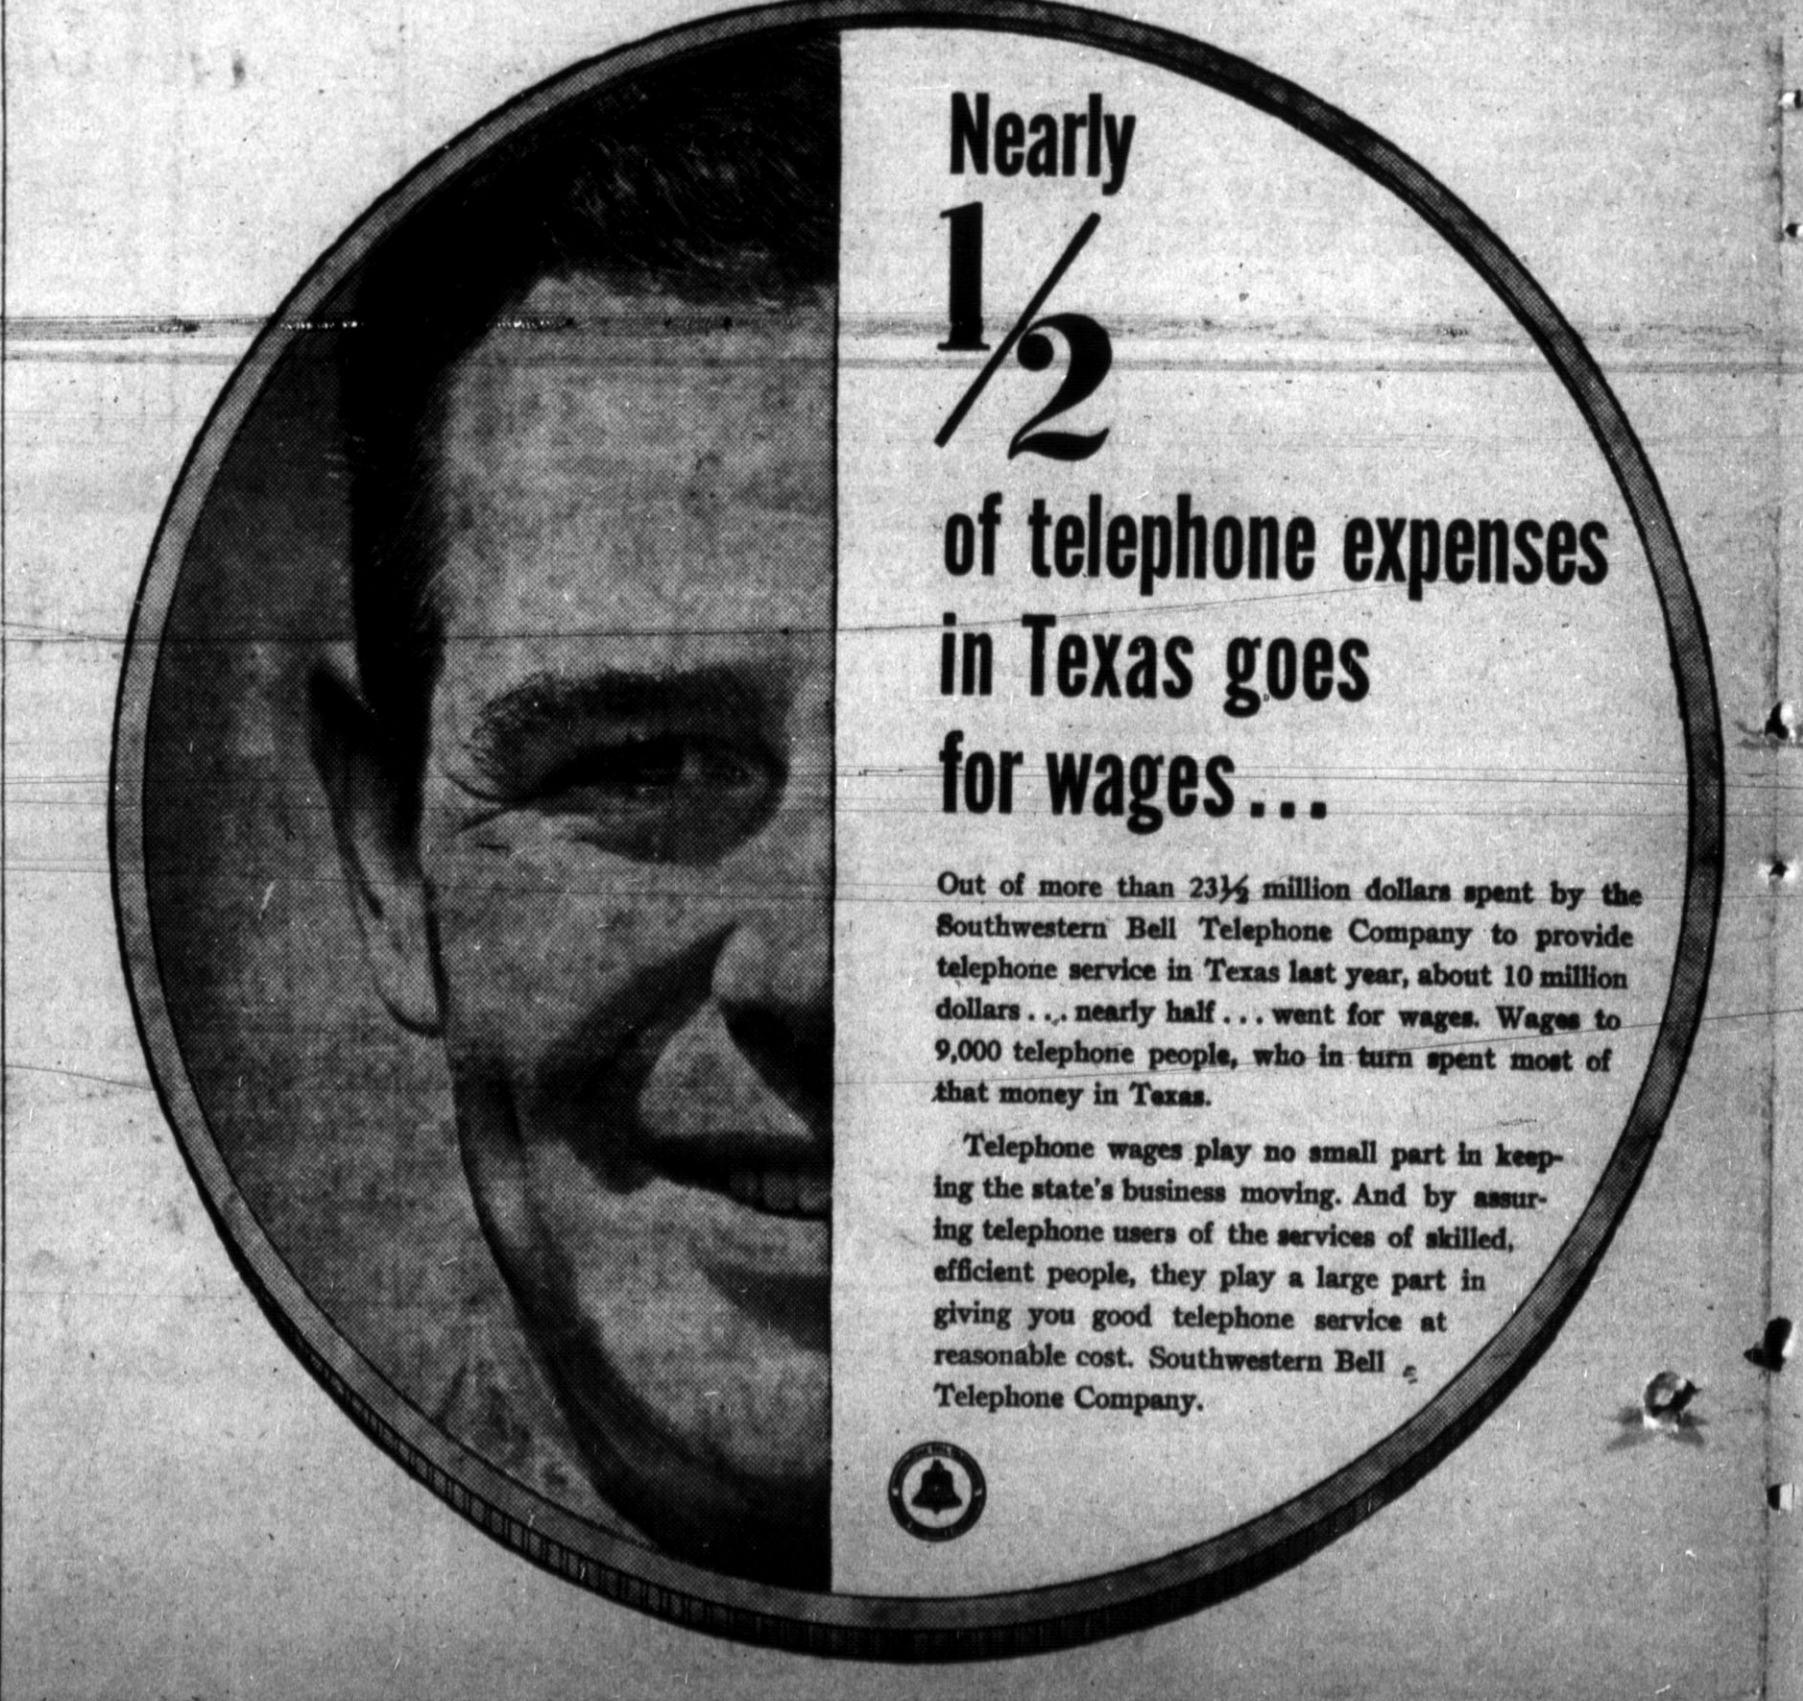

But banking has its human side. The problems of people—real people just like you and your neighbors—enter into almost every action we take and every decision we make. In our daily work we try never to lose sight of this human side of our business.

We think you will like the aura of warmth and friendliness which you will find at this bank.

Nearly 1/2 of telephone expenses in Texas goes for wages...

Out of more than 23 1/2 million dollars spent by the Southwestern Bell Telephone Company to provide telephone service in Texas last year, about 10 million dollars... nearly half... went for wages. Wages to 9,000 telephone people, who in turn spent most of that money in Texas.

Telephone wages play no small part in keeping the state's business moving. And by assuring telephone users of the services of skilled, efficient people, they play a large part in giving you good telephone service at reasonable cost. Southwestern Bell Telephone Company.

HEREFORD

Old Homer Fox is just about to bust wide open with pride, and I don't blame him much. Several years ago Homer coached a "peewee football team," and among the youngsters who got their first football training under Homer was Pies Baker.

Today Pies is considered the best player to ever attend the Eastern New Mexico Junior College at Portales. The following phrase was grouped around a big picture of Baker in the Aggie-Mustang game over at Portales: "When Vaughn Corley scooped the Silver City team last week he asked a couple of Silver City citizens where this guy Baker was. Not knowing Corley's identity, they replied, out of the corner of their mouths, 'Branchau heard that Vaughn Corley is up here today and Baker's so good that he's being kept under wraps today.' In other words, Mustang partisans are pinning a lot of hopes on their 160-pound halfback—the best hog-side carrier they've ever had.

Most everyone remembers Pies' top-notch playing in the Whiteface line-up; he is the son of Mr. and Mrs. Omer Baker, who now live at Berger, and is also a nephew of Mont Baker.

Do you realize that it's only 38 more days until Christmas? It seems almost incredible that Christmas can be so near, and equally unbelievable is the nice, warm weather we have seen this fall. After 20 years in the Panhandle of Texas, it seems that our weather has been milder and more pleasant than I ever saw. However, right now I am in the mood for a good snow, and the quicker it starts the better I will like it.

Some people just don't appreciate what you do for them. After all of the publicity I have given Bob Higgins about his sheep, I now learn that he says he wouldn't hire me for a sheep herder.

He has been telling around that I wouldn't make a good sheep herder. I guess he ought to know, but it don't make me a bit mad. The less I have to do with sheep the better I like it. Wilson Gyles has been trying to get into the sheep business, and I understand that Cecil Gunter is also a sheep man—but I still don't like them. If things keep on going like they are now, Bob is going to come in here some day wanting us to change the Hereford Brand to the "Sheep's Bleat"—but I promise right now that I won't change this column to the "Ewe's You" or anything like that.

Sometimes I get to thinking that we don't pay one-thousandth enough time to selection of public officials, but just recently I have changed it to one-millionth. It's all about a letter from the Horticultural Inspection and Quarantines department of the State of Texas.

Old Joe Ballinger went over to the county agent's office and had them write about having his potatoes certified. The reply follows: "We do not have any certification standards set up on Irish potatoes, nor do we have a project of this nature under way. We do have a Sweet Potato Certification Project, of which Mr. W. T. McKay, Post-office Box 111, Arlington, is in field charge. If you will direct any further inquiries to Mr. McKay, he will be able to assist you, we feel sure."

Of course, we can't blame the state for not taking an interest in Irish potatoes—but it does look like that they would realize that some difference exists between Irish potatoes and sweet potatoes. It reminds me of the story they tell over at Clovis.

A rancher in the Clovis area applied for a government loan, and the department in question decided to give him some advice about how to operate his ranch. In making the application the old boy had to list up his equipment, expenses, etc. In the list was seven cattle-guards. According to the story, some smart aleck clerk or efficiency expert wrote him and said, "We note that you list seven cattle-guards; after checking your cattle, we recommend that you fire five of them—two will be enough."

Some one had better watch out. The post office has sold

only 30 duck stamps—and I hear that Amarillo is sending a bunch of special game wardens down into this country. By comparison, those federal duck stamps are mighty cheap at \$1 a throw.

Speaking of hunting, there is a bunch in this neck of the woods that really hunt in style. They are Carl McQuire of Texico, Lawrence Lillard of Friona, Roger Brumley of Hereford, Bill Shirley of Lasbuddy, John Aldridge of Farwell, O. V. Clark and Gwyn Wallace of Pittsburg, Alex Bateman of Hereford, G. D. Anderson of Farwell, and Bert Shackelford of Friona. They went out on the Reynolds ranch near Luna, N. M., and Mr. Clark brought out two negro cooks from Pittsburg, Texas. One of these negroes, about 50 years old, was so enthused that he planned a big banquet, which he prepared and served. He also made some menus, a copy of which follows: Tomato and grapefruit cocktail, sliced onion pickle, Wild Turkey and Squirrel ala Chasue, Boston brown potatoes, candied yams, French fritters, ala Lafitte, Mrs. McQuire's pineapple cake, demi tasse coffee; music by radio; toastmaster, Alex Bateman; president, Mr. Gabe Anderson; secretary-treasurer, Bert Shackelford.

While I fully appreciate the interest of the old dorky, I feel that it might have been pity—but don't tell Alex. The one thing that made me suspect this was the fact that there was absolutely no mention of venison in the menu. Alex swears he got a nine-point buck, but I have listened to some of Noah Ewton and Lama Beavers' fish stories, and it would have been mighty convincing to me if that menu had just casually mentioned deer meat somewhere.

The Business and Professional Women's banquet Monday night was a whiz. Dyalitha Brady as toastmistress, and Cecil Williams as introducer of guests, got off some good jokes. They surprised me and I think they slipped up on Rev. H. M. Redford once or twice. I didn't know we had so much talent around Hereford. They had a roast pig, and Dr. R. R. Willis did the carving; Jess Stanford also carved a big turkey. Both of these men are to be commended for their ability—and Dyalitha, who acted as referee, declared that both of them managed to keep one foot on the floor at all times. Do you realize that carving is fast becoming a lost art. The South, once famous for its fine hosts, based a lot of its hospitality upon the men folk's ability to carve. Carving is a technique that requires study and practice; it is an art that we should make some effort to retain.

G. M. Hudson is running an economics class for boys, and if they study carving I hope that he will invite me to the class on those days. Without any reflection whatsoever, I am also asking that Doc Willis and Jesse also be invited. I know that they are interested, and they might be able to give us a few good pointers.

Things I bet you didn't know—Marvin Jones does not drive an automobile; he always goes with someone else or hires a chauffeur. . . . Old Tack's column is the last piece of copy with the Amarillo News; the linotype operators tear it into small strips and pass it around in order to get the paper out on time. . . . Harold Close is

Messenger Club Enjoys Meeting At Bussell Home

"The family will eat more vegetables when they are correctly cooked and attractively served," said Miss Sadie Lee Oliver in presenting her demonstration on cooking vegetables to the Messenger Home Demonstration Club, in the B. E. Bussell home, Thursday afternoon, Nov. 10.

"Strong flavored vegetables should be cooked in lots of water and in an open kettle," continued Miss Oliver, "while mild flavored vegetables are cooked in a small amount of water. The over-cooking of vegetables with sulphur content causes them to be less digestible. Hot cole slaw, green beans with onions, Harvard beets, asparagus with Hollandaise sauce and glazed carrots were the vegetables prepared and served by Miss Oliver.

The next meeting will be held at 2 o'clock Thursday afternoon, Dec. 1, in the home of Mrs. Wilson Wylie. A demonstration on making Nantchotel cheese will be given and club officers will be elected for next year.

Attending the meeting, were Mrs. J. T. Quinn, Mrs. Alta Wylie, Mrs. Pat Brantly, Mrs. R. J. Coleman, Miss Sadie Lee Oliver, Miss Jewell Bussell, Mrs. Thornton and Mrs. K. E. Bussell.

However, if the smaller schools are voted into the district, Hereford will continue with the same schedule and will likely play the same teams in a split-district conference. Muleshoe, however, will play in district 1 rather than their present district just south, which this year included Floydada.

A meeting of the committee is expected within a few days and detail announcements will be released at that time.

It was also announced that the post-conference game considered for the Whiteface squad has been definitely called off. The Tulla game was the last which will be played by Hereford this season.

November Set As Parcel Post Month

Announcing National Parcel Post Month, Mrs. Jessie W. Pickett, postmistress, today said that the department is now observing its Silver Anniversary.

"We are all familiar with the fact that parcel post was inaugurated after a demand from the public for a transportation system for merchandise between rural areas and congested centers. Our first parcel post package went through the mail in 1913, and in the 25 years since 1913, it has reached second place in postal revenue.

Behind Tottering Throne of France

History began by making her a special darling, wearing a crown on her pretty head when she was eighteen, blessed with charm, grace and wealth as a young wife—with a heart she never asked the penalty of her follies.

Then... destiny, having raised her to the pinnacle... dragged her down, the revolution tore her from the Royal Palace and threw her into a common jail. She went from Golden Coach to a Peasant's cart... from love to hatred... and from the fire of Hades, Marie Antoinette emerged one of the great women of all time. (Was she sinner or saint?)

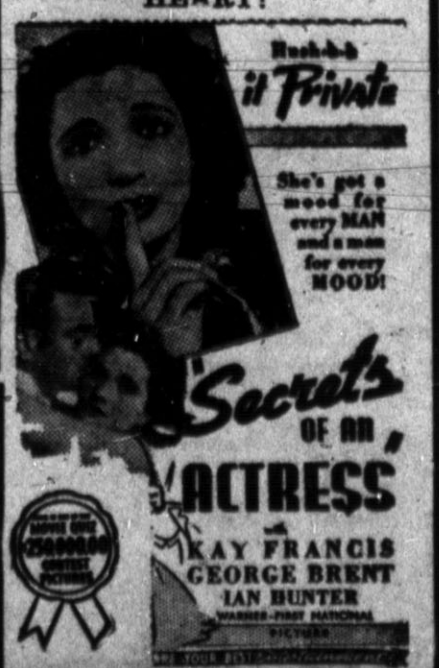

Mrs. Asa Martin of Aztec, New Mexico, and grandchildren, Bobby and Davie Lou Eddy of Durango, Colorado, spent the past week end in the home of Mrs. S. E. Askren. They also visited in the Wiley Roberson home while here.

can be secured at your lumber yard, numerous persons are considering F. H. A. homes as a means of ending the housing shortage here.

The F. H. A. payments per month are about as great as the amount of rent one has to pay. The interest rates are the same as the ordinary investment bond will pay, 5 per cent. There is an additional interest rate of one-fourth of one per cent, which pays for the insurance feature of the loan. All loan companies now collect one-

twelfth of insurance and taxes, which they also add to the monthly payment. The procedure does away with the task of digging up taxes and insurance in a lump sum.

For example: a man with a lot in Hereford featuring available utilities and worth \$500, wants to build a \$3,000 house. This gives a valuation of \$3,800, around 80 percent of which can be borrowed through F. H. A. The payments will run slightly less than \$20 a month, plus one-twelfth of the insurance and taxes, totaling around \$25 a month. The owner in this case would be required to have an income of four times this amount—or \$100 a month.

source of forage and in many cases the temptation to use them to the fullest extent is too strong to resist. When too much of the protective cover of vegetation is removed and the surface is pulverized by trampling of livestock, the field becomes a 'blow hazard' which may damage other fields throughout the area.

The maintenance of sufficient crop residue to hold the soil in place against the action of the wind and water is an essential part of good farming, it is pointed out.

The question uppermost in the mind of farmers having stubble and stalk fields containing available forage should be "How much of

this residue is needed to hold the soil in place?" rather than "How many head of livestock can this forage support?"

The answer to this question varies with local conditions as determined by the amount of stubble or stalks available, and the kind of soil.

When the stubble is insufficient because of a poor crop, the safest plan, farmers have learned from experience within recent years, is to keep stock off the field entirely, especially where the soil is sandy. However, when an excess of forage is available it can be utilized economically for livestock provided it is not eaten close enough to expose the soil to blowing.
