

AROUND TOWN

Sights and Faces Seen

Artie Dean is in the mood to give a quail hunt. Last Saturday he went out and in the course of the day got his limit of quail. As he killed the birds, he threw them in the back of the pick-up—and when he started back, he discovered that a can of gasoline had overturned on the quail. All but three were ruined by the gasoline.

Dr. R. R. Willis will address the discussion group in the County Library Friday night at 7:30 on the topic of "Socialized Medicine."

Chaparral are about to take the town. Monday night Frank Marrs, Jr., and Lilburn Ray walked up and captured one basking in the night which came through the windows of the Brand office; they released it at his home north of town. The same night John Robert and Rusty Ackley ran another chaparral down on Main Street; the second bird will be displayed as "The original Arkansas Traveler."

Mrs. Paul Foster is so proud of her Christmas decorations that she is extending special invitations by telephone for her friends to view the tree, and an elaborate snow scene in the cafe. Her decorations are among several that are creating much comment.

If Lan Shore is as good a hunter as he is a talker, he is champion. He tells D. C. Laird that he knows where he can go right up and catch wild geese by the leg—which eliminates the bother of worrying with a gun.

Berry Orr, a familiar face around town, is now employed in McLain's Grocery.

J. M. (Pete) Murchison has recently accepted a position as salesman with Brumley-Woodford motor Co.

Streu Contest Holds General Interest Here

Reporting much interest in the free Kevinator contest now being conducted by Streu Hardware, A. E. Streu today said that free Christmas cook books are being given to each lady who enters the contest and will continue to be given as long as the supply lasts.

"Entry blanks to the contest may be secured without charge or obligation at our store," Mr. Streu said. "We will be glad to explain all details of the contest—and we want to definitely point out that it is a local contest, open only to residents of the Hereford trade territory."

The contest closes Dec. 23 and the 51 prizes will be awarded on Dec. 24.

GROWERS SEEK EXTENSION OF WHEAT PLOWING

Because wheat growers in this area were forced to seed the majority of their wheat before allotments were made, the County Agricultural Conservation Committee this week petitioned the State Board in College Station for an extension of time for destroying excess acreages of wheat.

The committee, feeling that little wheat would have been grown had farmers waited too long for planting, asked that the time be extended from Dec. 15, 1938 to April 15, 1939.

The petition, which is self-ex-

Farmers Must Stabilize Land To Secure Government Grant

A. W. Gregg Buried Sunday

Friends Sunday paid final tribute to A. W. Gregg, who died at his home here, Friday evening. Mr. Gregg, sometimes called father of the Hereford Park system, had lived in this community since 1907.

A. W. Gregg Rites Are Spoken Sunday

ENTIRE COMMUNITY PAYS TRIBUTE TO 'DADDY' GREGG SUNDAY

Men, women and children from every walk of life came to the First Christian Church Sunday afternoon to pay final tribute to a beloved friend and neighbor.

The death of A. W. Gregg, affectionately known as "Daddy Gregg," is felt by the entire community as a personal bereavement. His wide interest in men and nature found expression in his keen sense of humor and in his rare ability of being able to lighten another's burden by sympathetic understanding. His fellowship with man and nature was his dominant characteristic.

Austin Whitacre Gregg was born of Virginia parentage, Sept. 15, 1845. His death came about 6:30 Friday evening, Dec. 2, having reached the unusual age of 93 years, 2 months and 17 days—being permitted to live 23 years beyond his allotted three score years and ten. He was the eldest child of Patience and Hiram Gregg. At an early age he moved with his family to Pennville, Indiana, where he grew to manhood. He was a graduate of Libre College, now Valparaiso University. At the age of 38 he was married to Miss Effie Cromwell, of California, and to this union were born six children, all of whom are living except the older son who died at the age of 12.

He said details of the budget plan are available at the store.

SOLID LISTING IS CITED AS MEANS TO OVERCOME EROSION

Opening a county-wide drive to eliminate blowing of fields, the County Committee today announced that all hazardous acres must be plowed at once if benefit grants are expected under the government program.

"All farmers were advised early in the spring that if they expected to receive any government grant they must keep the land from blowing," A. R. Bateman, secretary of the committee, said. "Many applications will be withheld until land has been listed to prevent blowing. Unless the land has been absolutely stabilized no grant will be approved."

Some Blowing Now

Mr. Bateman said that there are many acres in this county which are subject to blowing and which need to be stabilized—and he pointed to listing as the logical prevention. He said that no great amount of land in a single community or area is in danger, but stated that there are one or two farms in almost every community which need immediate attention.

"Many farmers have taken advantage of opportunities to stabilize their land," he declared, "because they have a sincere desire to save their land and to preserve its fertility to the greatest possible extent."

"If your land is in danger, right now is the time to solid list," he continued. "Farmers should make their own inspection. They know as well as anyone whether their land is in dangerous condition or not. It is up to the farmer to meet this emergency if he expects to receive government grants. The County Committee has taken this step and will continue to do so."

Soil Expert To Speak Friday On Soil Problems

M. K. Thornton, Jr., will deliver an address on "Soil Composition and Soil Problems," as particularly regards this immediate section of the Panhandle, Friday afternoon, Dec. 9, at 2:30 o'clock in the county court room in Hereford. Mr. Thornton is Agricultural Chemist of the Extension Service in College Station and his appearance here is sponsored by the Home Demonstration Council.

"His lecture was prompted by the fact that leaves on many plants in this area are turning yellow and numerous varieties of plants are dying as a result of chlorosis," said Miss Sadie Lee Oliver, County Home Demonstration Agent. "The public is invited to attend the meeting, and because Mr. Thornton is a foremost authority on his topic, we feel that he will bring a valuable and useful message to both men and women of this territory."

By Jennie Gillette

"There is a time to be born, and a time to die, says Solomon, and it is in the moments of a truly wise man; but there is an interval between these two of infinite importance."

A. W. Gregg is gone. He will be with us no longer in the flesh, but memory of his clean life and his attainments will live down through the years, offering inspiration to his many friends who knew him and who knew of the things he loved and represented. "Daddy Gregg" loved nature; he had the soul of a great artist—a man who planted small seed and watched them grow into beautiful flowers and plants, which by toll and planning he shaped into healthy, beautiful shrubs and flowers. No man can give more than his love to God's own creations.

Daddy Gregg was equally fond of people, especially children; he liked to hunt, and above all he loved to work—keeping busy at his tasks even after he reached the ripe age of 93 years. He became a follower of the Quaker faith when he was only four years of age, and has since been a devout Christian.

It has always been a source of pleasure and personal pride when I invariably exhibited Gregg Park to out-of-town visitors. I am still proud of the park, and I shall continue to point it out with zeal to strangers—but suddenly I have realized that it can never mean to them what it signifies to me. Gregg Park will live on as a fitting tribute to a fine gentleman, and I am glad. Like all memorials, it falls short of its goal. Now, when I see the park, I shall think of those tapering fingers, those steady hands, which with the skill of a surgeon, trimmed and clipped the shrubbery; I shall think of a man who possessed undaunted courage, a pure heart—and above all, an undying love for God's creations. I am glad I was privileged to know Daddy Gregg, for I believe that by knowing him that interval between my own birth and death will be more replete and more worthwhile.

Mrs. Ed Botts of the Progressive community is moving to Portland, Oregon. She came by and changed her paper, and she said some mighty nice things about The Brand. We know she meant every word, too, or she wouldn't have renounced her paper. We are all as proud as peacocks after her visit.

## Homespun Humorist

Emerging as America's ranking homespun humorist and philosopher, Bob Burns will be seen as a small town crusading newspaper editor in his latest picture, "The Arkansas Traveler," which opens at the Star Theatre, Sunday for two days. The Sage of Van Buren, is supported by Irvin S. Cobb, Faye Bainter, and other outstanding stars of the screen.

none other than Cecil Guseman. Cecil and John Pitman spent all last week in Chicago, where they attended the International, and then they went to Indianapolis, Ind., to visit a friend. I'm not saying anything about what they did, because I don't know (for sure), and Pitty gets by unscratched—but I sure am down on that Cecil Guseman. I'll just out with it and tell you, he's been up there wearing spats.

He wears boots so much around home that I didn't even think he had a pair of shoes. I can forgive shoes—but for an old cowpuncher, I just can't swallow the spats.

Folks, I wish this was a joke. I sure do. But I got it straight and it's the truth, he's been running around all over Chicago and Indianapolis representing Hereford, Texas, in spats. Cecil said his legs got cold without the boots, so he went out and bought the spats. I hear that Mrs. Guseman sure is ashamed of what Cecil has done, but she can't help it. I guess Cecil got up there in the big town and wanted to show off a little, or maybe he has always had a suppressed desire to wear spats and never could get them on over his boots. You just don't figure out what goes on in a cowpuncher's mind when he gets to a big town, and there isn't any use trying.

Spats are alright for boys like Jack Wayland, Homer Fox, or even Meade Halle—and I wouldn't be a surprised if Grant Fuller wore them—but for Cecil they are next to impossible.

Bill Smith and Glenn Weir have formed a "Golf Club for Men over 40 and Who-Have-Ray-Windows." They are planning a new game where you side-swipe the ball rather than hit it in front. Bill said he went out Saturday to play a round of golf and that he was sure enough embarrassed, due to his bay window. "When I got the ball out where I could see it, I couldn't hit it," Bill said, "and when I got the ball where I could hit it, I couldn't see it anymore."

There is a growing agitation to let Texas Tech into the Southwestern Conference. Tech has wanted in the conference for a long, long time—and I think they deserve to be admitted.

Tech has consistently put out good football teams, and this year they are going to represent the Southwest in the Cotton Bowl at Dallas. In view of the past record of the Red Raiders, it is apparent that they will add prestige to the conference. If they can't get in this year, it looks like they might as well quit trying, because they have one of the best records in the nation. Some people say they are voted down, because the other teams are afraid of them—but I doubt this; I think the Southwest Conference already has some long trips and full schedules, and they hesitate to kick out any teams or to add extra miles to their itinerary. Anyway, Tech deserves to get in the conference and everying out in this country should help every chance they get.

Just heard a story they are telling on John Pitman while

he was in Chicago at the International. A fellow started knocking on his hotel door. "Can't open the door, it's locked," Pitty said. "Well, unlock it!" called the voice. "Can't throw the key away." "Great Heavens, man, what will you do if there is a fire?" They say Pitty hesitated a while and then answered, "Well, I guess I just won't go."

## VIEW CLUB ART PROGRAM

The "Art Program," which proved to be of unusual interest, was featured at the Bayview Club meeting held Thursday afternoon at the club rooms in the court house.

Names of favorite modern artists were given in answer to roll call which was directed by Mrs. H. L. Broadwell.

Mrs. Travis Dameron, whose subject was "Introducing The Masters of Art," traced the artistic efforts of man from prehistoric time, mentioning the Egyptian Period from 4600 to 2475 B. C. The early Babylonian Period when architecture and sculpture prevailed as types of art, the Greek period of the fourth century when the great Masters of Art first became known and the Roman Period with the beginning of mural decorations in palaces and villas. Continuing Mrs. Dameron said, "Beginning with the Early Christian and Byzantine periods (1453 A. D.), the influence of Christianity began to be seen in much of the art. Giotto, whose name has come to stand for almost all the great things that have been accomplished, was a product of this time. Some of his best works were mosaics of "Christ Walking on the Water," and "The Last Judgment." Other artists mentioned were Andrea Del Costagno, Filippo Lippo Botticelli, Da Vinci and Michael Angelo.

Mrs. Dameron described the life of Botticelli, which brought out graphic pictures of the struggle between pagan and Christian art, bringing out the significant fact that at the moment when Christianity was most disparaged, when art and thought turned most toward the un-Christian past, the artist who strove most frankly to reproduce the poetry of paganism should have unconsciously revealed how definitely the world had become Christian.

"Art in the Average Home," was discussed at length by Mrs. G. A. F. Parker. She said in part, "The five principal arts are inter-related. Architecture, Sculpture and Painting are classified as Material, Literature and Music as Immaterial. Art in the home may include all of these, for every artist, as a creator, has something that calls for expression, (this is the element of personality) every artist is impelled to express the spirit of his age, (this is the element of style). As a servant of Art, he has to help the cause of art. This is pure artistry which stands the test of time—and among all nationalists becomes a part of a great tradition. People can be artists in many ways. A beautiful room, a beautiful garden, a beautiful costume should be thought of as a work of art. Some who never draw or paint or model have most interesting art experiences. "Your home is your castle." It is there tastes are cultivated, habits are formed and characters made. It is there we must do our part by expressing a sane and helpful manner, not losing our balance, but still holding to traditions of the past, for America is no longer fearful of being herself and is fast becoming an artistic nation.

Mrs. Parker cited an instance of a newspaper man who answered the question, "Of what use is beauty? Of what use is understanding and appreciation of the beauty of paintings, statues, mosaics, or the literature and music of the past?" by saying "The only use for beauty in this world is to develop taste. The people who have taken the time to develop their tastes derive more happiness from life. The more one learns to appreciate the beautiful, the more he will avoid and despise the ugly. An understanding or a liking for the works of Michael Angelo or Rembrandt are the best possible antidotes for the cheapness and vulgarity of much of our modern paintings.

In conclusion Mrs. Parker said, "We should strive to keep such cultural standards in our homes, which will help us pass safely through the crisis of a changing world."

Mrs. J. P. Salton illustrated a part of Mrs. Parker's talk by exhibiting pictures painted by Mrs. Lucy Rice of Austin, who is Mrs. Parker's sister.

Members present, were Mesdames Bob Wilson, J. B. Stoker, J. P. Salton, Ray Barber, H. L. Broadwell, E. P. Conaway, H. G. Conkwright, Colby Conkwright, Travis Dameron, E. W. Harrison, G. H. Heard, M. B. Hedrick, A. M. Jones, Paul Mathers, C. F. Moore, G. A. F. Parker and F. T. Roberson.

## BAPTIST CHURCH NEWS

Our Sunday School Enlargement Campaign closed last Sunday. Our census revealed many needs. One was met by the organization of a new department, Adult B, in which there are two men's and two women's classes, between the age of 25 and 35. Sunday School attendance was better. Help us make it grow still more.

The pastor preached at the morning service and Rev. Perkins at the evening hour. There was one addition at each service. Rev. Perkins and Rev. Ab Posey were licensed to preach at the morning hour. Five were baptized at the close of the evening service.

We start our every-member-to-raise our 1939 budget next Sunday. The pastor will bring a message at the morning hour. Come prepared to say how much you can contribute toward the church expenses next year, please.

Rev. Ab Posey will bring his first message, since being licensed to preach, next Sunday night. Let's give him a good hearing.

W. E. Barnes, pastor.

*World's most modern tractor*

Again MINNEAPOLIS-MOLINE steps ahead and OPENS THE DOOR to a revolutionary advance in farm tractors. OPENS THE DOOR and seats the farmer in a cab as comfortable as that of his modern automobile. Of course, the MM is more than a tractor with a cab—it's a "COMFORTTRACTOR" with a cab as much a part of it as the cab or an automobile. There are comfortable cushion seats for two in the roomy air ventilated and temperature controlled cab with a hot water heater in cold weather and air circulation in hot weather. COMFORTABLY seated away from the dust and elements, the farmer has at his command FIVE SPEEDS forward—from a crawl to 40 M. P. H. Gears can be shifted "on the go". The variable speed governor is controlled like a footpedal. Before the operator are the speedometer, ammeter, oil pressure gauge, and water temperature gauge. Almost any convenience he may name is at his command including such luxuries as a radio and a cigar lighter. A self-starter and powerful electric head lights obey his touch. For night work there is a powerful spot light controlled from the cab that can be turned in any direction. Naturally, POWER and UTILITY have not been sacrificed to modern conveniences; and the new Special DE LUXE Model MM Tractor promises performance records as astonishing as its comfort features. SAFETY, TOO, has been a watchword—the Cab is made of Steel. Safety glass has been used throughout. Vision is excellent.

## Glee Club Makes First Appearance

Making their first appearance of the year at the high school last Thursday, the Glee Club presented a very pleasing program of semi-classical songs. The girls were dressed in their new uniforms of maroon flannel skirts and boleros and white satin blouses. These girls made a pretty picture as they sang "Sleepy Hollow Tune," "Napoli," "Out of the Dusk to You," "The World is Waiting for the Sunrise," and "I'll Take You Home Again Kathleen." The high school quartet sang "Grandfather's Clock" and "Kentucky Babe."

On Wednesday before giving the program at the high school, the girls sang at Central School. They were received with much enthusiasm. The club plans to take another program to the other school in the near future.

## IDEAS OF DEMOCRACY ARE EXPRESSED IN "LA PRENSA"

In a recent edition of "La Prensa," a Spanish newspaper to which the Spanish department of Hereford High School subscribes, Mr. Hudson, director of Spanish in this school, found an editorial which he thought very good. This article "Anhelos de Democracia," expressed the ideas of the editor on democracy in the United States and in Central and South America.

Mr. Hudson composed a letter in Spanish congratulating Senior Lozano, editor of "La Prensa," on his views. Senior Lozano had Mr. Hudson's letter printed in the paper and sent Mr. Hudson a letter thanking him for his interest.

It is by taking an active interest in the affairs of Central, South, and North America, that Pan-American peace can be promoted.

## BOYS' HI-Y HAS REGULAR MEETING

The Boys' HI-Y met as usual on Tuesday night at 7:00. A scripture reading was given by Bruce Beene, followed by a short talk given by Myron Morgan. Mr. Hudson also finished handing out some of the boys' registration cards. The president took charge and the club discussed the weekly business. They decided to attend church the first Sunday in every month in a group. The meeting was then adjourned.

## SENIORS GIVE FIRST IN SERIES OF PROGRAMS

After the business meeting last Wednesday, the Senior class enjoyed entertainment prepared by Jerry Jowell. Miss Rigler gave the class some amusing "daffynitions" and told a few jokes on different members of the class. Jean Williams, our very talented musician, played "Alexander's Ragtime Band" and "Small Fry," on her accordion. The class enjoyed these numbers, and we hope to use our class talent for many more of these class meeting programs.

## H. H. S. Gives Good Training

Genece Standifer, a senior of 1938 and a former student of Hereford High, is now attending Draughon's Business University at Oklahoma City, Okla. She writes your alumni reporter about the life of a business college.

Draughon's Business University is located in the center of Oklahoma City and offers more subjects than any other business university in the South. It is a busy college, not only in studies but in outside activities. There are various clubs: a D. D. D. Club (Draughon's Dizzy Dames), a Glee Club, Orchestra, Basket Ball, Dancing and Bridge Club. Draughon's is one of the very few business universities which publish a school paper. It is called "Draughon's Broadcaster."

The D. D. D. Club is an all-girls club which plans all of the school activities. It corresponds with the Student Faculty Association of Hereford High. The boys

are asked to help and have an active part in the school, but they cannot join this particular club.

Genece says, "I feel that my training received at H. H. S. and the experience as President of S. F. A. has caused me to be what I am today." She has the honor of being the secretary and treasurer of the Glee Club, and the president of the D. D. D. Club, which is the highest office in the university. Genece is majoring in accounting and likes the work very much.

## "BOYS' IS TOPIC OF GIRLS' HI-Y

The Girls' HI-Y met November 29 for their regular meeting in Miss Crawford's room, at 7 o'clock.

Mary Louise Dean, who was in charge of the program, read the scripture. The group sang the theme song, "Living for Jesus." Ann Cockrell and Rachel Ireland played a clarinet duet. "Put it Yourself in the Boy's Place," was a very interesting talk by Margaret Ann Miller. Rena Rae Renfro gave a talk on "An Ideal Boy." Vivian Olson played a piano solo. After this, Mary Louise led in a round-table discussion on "Boys' HI-Y."

Miss Crawford presented the girls with their National Membership Cards, and the meeting was adjourned.

### Supervisor Warns Against Possible Garden Drouths

December is the month to offset next spring's possible drouth in the farm garden, warns Miss Wynona Swepton, Fannin County Home Supervisor for the Farm Security Administration.

"Don't wait until plants start growing to water the plot," she says. "Water now. Turn the surplus water from the well into the garden and thoroughly water the land."

This procedure has a twofold purpose, Miss Swepton says. First it will give underground water for the coming year; secondly it will assist in killing insects when it freezes and expands the soil. It will also help with the rotting of the vegetation in the soil.

Before breaking garden land make a heavy application of well-rotted barn manure at the rate of five tons for one-fourth acre, Miss Swepton advises. Fresh manure may be used but should be applied in the fall or winter and turned under early to decompose.

Here are some garden rules she sets:

Locate the plot near the house so the housewife need not walk a mile for an onion.

Have a windbreak if possible. Plant two rows of trees on the windward side not closer than 75 to 100 feet, eight feet apart in the row, allowing ten feet between rows. Low growing, bushy trees may be planted on the windward side with taller, faster growing trees on the inside.

Locate the garden near the well to utilize the surplus water from the tank.

Select mellow sandy soil or garden loam soil. Start plants in cold frames for early gardens.

### Suggestions Are Needed!

A very depressing problem of the Band parents at the present is that of raising money for the purpose of getting new uniforms for the band. At the last meeting, the parents discussed the ideas of having a "negro minstrel" and having a "Stunt Night" again; either is to be in January or February.

A very good suggestion was made, that of the Band Fathers issuing a challenge to the Lions Club to play a football game. The Band Mothers will act as the rip-roaring pep squad urging the fathers-on to victory.

Now all of this is serious business; so if anything comes out of these suggestions, everyone's cooperation is to be heeded without a moment's hesitation.

## Interesting Reports Given Friday in State Federated Club Meeting

Interesting reports from the State Federated Clubs meet held in Austin recently, were given Friday by Mrs. Wes Izzard and Mrs. Griggs of Amarillo, when the State Federated Club of Women's Clubs held its quarterly meeting at the Christian Church.

Hostess clubs were the Bayview Club, the Progressive Workers' Club and the Child Study Club. Mrs. Ray Barber, president of the Bayview club, acting as official hostess presented the speakers with single yellow chrysantheum corsages and members of the Hereford Choral Club entertained with two musical selections with Miss Mattie Mae Swisher directing and Mrs. Ellis Combes accompanying, before the luncheon at noon. Members of the chorus included Mesdames Cliff Estes, O. G. Hill, A. Petersen, Sank Ramey, H. M. Redford, Earl Phillips and Miss Frances Dameron.

Tables for the luncheon were beautifully decorated to carry out a guletide theme. Crimson tapers in a greenery base were arranged at intervals the length of the tables and Christmas roping lined the walls of the room.

After the luncheon, Mrs. Homer Brumley, press and publicity department chairman, took charge of the meeting and introduced the speakers. After a short talk on "Why Club Reports and How to Give Them," Mrs. Griggs gave a comprehensive report of the State Federation meet held recently in Austin. She dwelt briefly on the theme for the Forty-First annual convention of the State Organization which was "Let us attach ourselves to those things which endure and adjust ourselves to those which change," and told about the re-naming of the Federation Home with a saving of sixty-one hundred dollars. She explained the loan made by Mrs. Clara Driscoll of Corpus Christi, which made the financing plan possible. The plan included limiting the federation's budget to \$8,000 a year for five years, creating a sinking fund with each member club paying an additional \$5 a year to regular dues. Mrs. Griggs said that through the employment of a paid executive secretary it is the purpose of the organization to centralize all state club activities at the federation home. She reported that Mrs. Sadie Orr Dunbar, of Washington, D. C., president of the general federation, will stress patriotism, religion and the placing of responsibility on the individual, during her administration and quoted Mrs.

Dunbar who said, "If club women will emphasize these points, then we need have no fear of the sign of the swastika flying over the White House."

Mrs. Izzard spoke on the work of the citizenship, legislative and press and publicity departments of the federation. She scored the use of outside speakers for regular club programs, saying, "Club members need to do the work themselves."

She listed the following objectives which will be stressed by the national organization during the coming year, 1—Know the constitution of the United States; 2—emphasize the privilege of voting; 3—law observance; 4—a study of immigration problems; 5—tax information, and 7—aid in stamping out communism.

Mrs. Izzard also reported that the seventh district and the fifth district tied for first place on the number of new clubs federated during the year.

The third quarterly meeting of the Deaf Smith County Federation of Women's Club will be held on Feb. 24, with members of the Lone Star Study Club, L. A. E. Club, B. & P. W. Club and Dawn Study Club as hostesses.

### HUSBANDS ARE ENTERTAINED

Mr. and Mrs. Harry Lomas were hosts at their home, Friday night, when members of the Pleasure Hour Bridge Club entertained with an evening bridge party with husbands as honored guests.

Prizes were awarded to couples holding high scores. They were Mr. and Mrs. Chris Renfro and Mr. and Mrs. Boyd London.

Those attending were Messrs. and Mesdames Buford Farmer, Chris Renfro, Earl Phillips, B. R. Dixon, Roy Jowell, Boyd London, the hosts and Mr. and Mrs. Ralph Smith, who were special guests.

### DANCE AT CLUBHOUSE HONORS LEE MORGAN

Mr. and Mrs. Lee Morgan were honored at a lovely dance given at the clubhouse, Thursday night. The dance was one of the highlights of the past week's social affairs and was one of several courtesies extended to Mr. and Mrs. Morgan, who are moving to Washington, D. C. to make their home.

Hosts were Mr. and Mrs. J. W. Witherspoon, Mr. and Mrs. Frank Cogdell, Mr. and Mrs. N. E. Milburn, Mr. and Mrs. Grant Fuller and Dr. and Mrs. R. R. Willis.

Those attending were Messrs. and Mesdames Meade Halle, Ernest Medkief, Travis Dameron, O. G. Hill, Miles Kelly, S. P. Rosson, C. C. Acker, W. L. Davis, J. C. McCracken, B. M. Wiltshire, Ralph Roden, J. M. Posey, George Stambaugh, Alton Fraser, Messrs. Kellar Muse, Sherman Morgan, O. J.

Beene, John Cochran, George Jones, R. A. Daniel, Misses Dorothy McDonald, Rostile Johnson, Lorene George, the honor guests and the hosts.

### JOURNEY SHOWER GIVEN FOR MRS. LEE MORGAN

A journey shower, complimenting Mrs. Lee Morgan, who with her husband, left last week for Washington, D. C., was featured Thursday afternoon when members of the London Bridge Club met for games at the home of Mrs. N. E. Milburn. Special guests formed two tables of players, with high score awards going to Mrs. B. M. Wiltshire for the guests, and to Mrs. J. T. Gilbreath, for club members.

The shower was introduced when prizes were presented. Members present were Mesdames Ernest Medkief, J. T. Gilbreath, Jr., R. R. Willis, Nelson McRight, Frank Cogdell, Lee Morgan, Sherman Morgan and the hostess.

Special guests included Mesdames J. M. Posey, George V. Stambaugh, B. M. Wiltshire, Grant Fuller, Imogene Kelly, Jack Wayland, Fred Brown, W. M. Emmons and J. W. Witherspoon.

### TWO ARE HOSTESSES FOR SUMMERFIELD STUDY CLUB

Mrs. C. R. Walser and Mrs. R. L. Wilson were co-hostesses for the Summerfield Study Club at the Walser home, Thursday afternoon.

During the brief business session plans were made for the club Christmas basket which is filled each year and given to some needy family.

Mrs. Lloyd Lookingbill read a paper on "Italian Women Speak Their Mind," stressing the point that since the Fascist Party determines every policy these women are recognized as important only as mothers. The government desiring to increase the future man power of that nation.

A discussion on "The Transition of Turkish Women from the Harem to the Halls of Parliament," was presented by Mrs. Andrew Behrends. She told how the veil has been discarded by Turkish women and polygamy abolished since the World War, when a new republic was founded in Turkey. Since that time the women of Turkey have been allowed the privileges that women of other progressive countries enjoy.

Mrs. B. E. Roberson told interesting facts concerning "The Women of Australia." She said these women enjoy activities much like the American women, although they seldom hold executive positions.

A review of "Humanity Uprooted," by Maurice Hendels, was given by Mrs. L. Ridling. The author gives an authentic picture of Russian women, who are developing free individualism but lack the feminine attributes of the American women.

Refreshments were served to Mesdames J. B. Noland, R. L. Wilson, Ben Wilhelm, Tandy Legg, Hollis Walser, Lloyd Lookingbill, Guy Walser, Ky Lawrence, D. C. Walser, Ray Johnson, Lee Curry, Jim Clark, Lloyd Ridling, Britt Clark, L. L. Cannon, B. E. Roberson, A. L. Behrends and Mrs. Walser.

### STUDY CLUB MEETS WITH MRS. MARLIN GILLILLAND

Mrs. Marlin Gilliland was hostess for members of the Junior Bayview Club at her home Thursday evening.

During the short business session Mrs. Elizabeth Womble was voted into the club as a new member.

Two interesting articles taken from a recent issue of Fortune Magazine furnished topics for discussion. Mrs. Jack Wayland, who chose the "United States Debutante," for her discussion, described the "coming out" parties and their accompanying preliminaries as an eight-million-dollar per year business. She said there are about 800 debutantes presented yearly with an approximate expenditure of \$8,000 dollars each. Three million dollars is annually spent on champagne, flowers, orchestra and engraved invitations. The rest going to the dress maker and to the household expenses for the party.

Mrs. Wayland pointed out the change in the motive for the annual society event. Formerly the eligible bachelor was the prompting reason but in recent years, colleagues who could not afford matrimony formed the bulk of attendance.

In discussing "Great Britain's Europe," Miss Eloyse Pitman quoted Fortune Magazine as declaring that Prime Minister Chamberlain yielded to Hitler at Munich because "the cost of world war is bound to be economic dominion of Europe by Russia or the United States," and Chamberlain did not like either alternative. Continuing Miss Pitman said "Fortune explains that England no longer has a choice between good and evil. She must make the best of the worst in the hope of pulling at least a few charred, imperial chestnuts from a smouldering world fire. For the immediate menace to the British Empire comes from sources outside of Germany—from Italian, Japanese, Indian and Arab sapping."

The diplomatic logic of England still resides in balancing the power, not necessarily in Europe, but wherever it chances to lie.

Members present included Lucia Borden, Ruth Conkwright, Edna Daughette, Ruby Dutton, Katherine Kirby, Eloyse Pitman, Rhita Jean Sullivan, Mesdames Jack Wayland, W. L. Davis, J. W. Witherspoon, Jimmie Gilentine, Frances McClendon, J. T. Gilbreath, Jr., Alton Fraser and the hostess.

### FLASH!

The Whiteface Printing office has been moved (and what a job). We are now in our new location across the street from the Service-U-Like Filling Station (free advertising), and if you want something printed that we have sense enough to handle, just give phone No. 277. Ring, or if you prefer you can call 6, old Herb Sindt's Prairie Dairie number, as they have their office here (West Third), also.

### SECOND FLASH!

If we had plenty of money to pay for a large ad we would like to use the entire space telling the many readers of The Hereford Brand how glad we are to be back, however, money ain't so plentiful, and we have lots of time, so we will use more time and less advertising in welcoming ourselves back to the town of "More People—More Farms."

(R. V., tell those good printers of yours to set the above in 8-point and not to lead it, 'cause I ain't got much money.)

Why shouldn't I come right out with it? If people want to switch they will. Using Conoco Bronz-z-z they don't want to, and why should they? Just suppose it is 20 degrees colder today and they bought their Special Winter Blend Conoco Bronz-z-z yesterday. Just the same, they can start right up, and they won't lose out on mileage, either—because their Conoco Bronz-z-z is refinery-adjusted according to all the weather records ever made here at this exact time of year. Probably most of my customers don't even think of that, because they just know they can start. That's all—they start. That's what everybody wants—quick-starting—and so that's what I've got here . . . quick-starting Conoco Bronz-z-z.

### Beating The Frost King

By T. C. RICHARDSON, Secretary Breeder-Feeder Association. Late feed crops which need more time to mature their seed are in danger of frost at almost any time now.

It is preferable to permit the seed to mature, since the feeding value of the ensilage is greater than if it is cut in the "dough" stage, which was formerly recommended.

As possible; add water according to the degree of dryness; you can even make ensilage from cured fodder by using enough water, but that isn't the way it ought to be done.
