The Commissioners' Court this week announced the appointment of Lem Shugart as caretaker of State Park grounds and club house; the appointment became effective Feb. 1. Shugart succeeds Pat Lawhon as caretaker, and prior to his appointment served as night watchman for the City of Hereford. City officials said a new night watchman will be appointed in the near future; Almos O'Rear is filling the position until a permanent appointment is made.

Workmen have this week been busy clearing the site for Hereford's new \$75,000 federal building, to be located at the intersection of Main and Fourth Streets. The site is to be prepared by Feb. 6, when a Dallas representative of the Treasury Department will make a topographical survey.

City officials this week again warned that all stray dogs will be placed in the city pound. Taxes have been paid on 80 dogs for 1938. The total number last year was 48.

Mrs. E. J. Williams, who is convalescing from an attack of bronchial pneumonia, sends the following note: "Hardy plants for the digging, to any person who desires them. Now is a good season to replant flowers and shrubs, although they can be replanted in April with success. Why not make Deaf Smith County a beautiful spot by planting our landscape around homes, gardens and along highways. It costs nothing, but adds much to the value of your homes. Call at 612 Eleventh Street for free plants."

A new paint job on the ceiling, and other improvements are this week being completed at Halle Drug.

Dawn Community Night Is Friday

Community Night will be held in the Dawn School Friday night, Feb. 3, according to announcements today. The program will feature students of Mrs. M. H. Burum's expression class. Community Night is held at regular intervals at Dawn, and due to outstanding entertainment, has attracted general interest. Persons outside the community were also invited to attend. A special feature Friday will be a one-act play, featuring Bernadine Phillips, Rena Rae Benfro and Polly Dixon, all of Hereford. A musical reading will be given by Billy and Lily Burum, along with several other numbers.

Rev. Redford To Attend Institute

Rev. H. M. Redford, pastor of the local Christian Church, will leave for Fort Worth next Monday, where he will attend the annual institute held for Texas ministers on the campus of Texas Christian University. The institute will open Monday night and will close the following Friday. Rev. Redford will return to Hereford in time to be in the pulpit Sunday, Feb. 13, in connection with the institute a laymen's meeting will be held, under the direction of Mr. Harry Hines of Wichita Falls. A large number of the leading laymen of the Brotherhood will be present.

Two Basket Ball Games Hold Interest Of Sports Fans Here Friday Night

Two games of interest Friday night will attract local basket ball fans to the high school gym here when the Hereford boys meet the strong Tulsa quintet, and the girls encounter the undefeated Happy team. Both Hereford squads will enter the games as the under-dogs, but are conceded a good chance for victory. Hereford lost a previous game to the Tulsa team, but they met the Tulsa squad the same day of the Happy team, and the Tulsa

Fraser Sale Attended By Large Crowd

FORTY COWS AVERAGE \$229.25, SIXTEEN BULLS \$169

With little probability of an Association Sale this year, the Alton T. Fraser Dispersion Auction of Hereford's Monday, closed the season here for the immediate future. The sale closely followed that of W. O'Brien and Sons and was attended by a large crowd of buyers and interested Hereford breeders. Most of the cattle remained in the Texas Panhandle and Eastern New Mexico; three heifers went to Oklahoma and two cows went to Arkansas.

Fifty-Five Animals
Forty females and 15 bulls made up the complete offering; the females averaged \$229.25 and the bulls averaged \$169. Mr. Fraser sold 32 females and seven bulls, the 62 females bringing an average of \$247. Others who consigned in the sale, were W. E. Dameron and T. H. Hines of Hereford, and S. G. and E. J. Sanders of Canyon.

A number of the Herefords in the offering were young animals, some less than a year old, while others were well along in years. Two cows, one three years old, and the other eight, brought \$700 each, while two other cows sold at \$600 each.

Abolishment Of Office Closes Haile Question

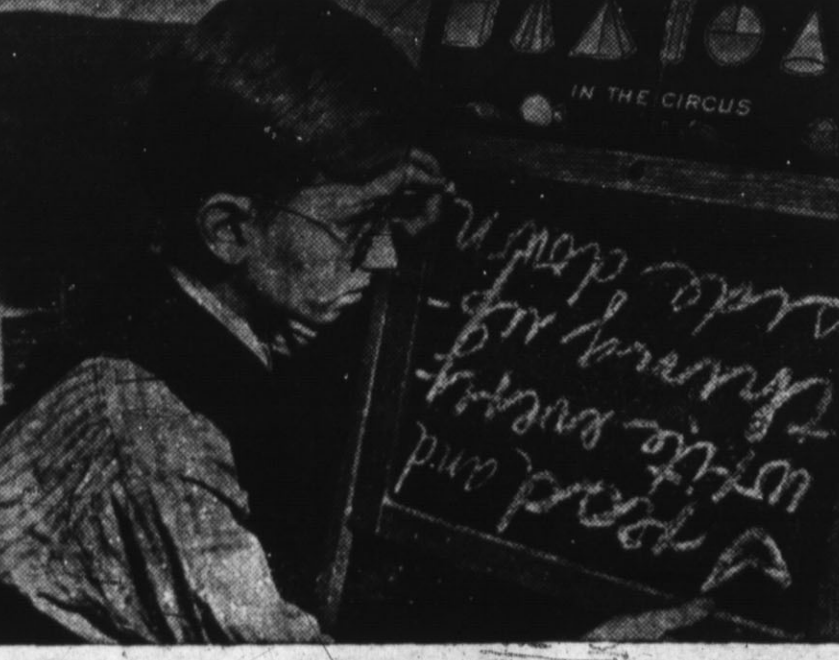

Discussion in the State Senate Chambers and in this community over the eligibility of Elster M. Haile to hold the office of State Tax Commissioner was abruptly stopped Monday, when the Senate unanimously voted to abolish the office. O'Daniel had previously gone on record as favoring abolishment of the office, a fact he announced along with appointment of Haile. Passage of the bill to abolish the office was astonishingly quick. The measure was approved 28 to 0. O'Daniel again expressed his approval, and the bill went to the House for further consideration.

Driving Cattle In City Limits Banned By Law

Following numerous complaints on the part of residents of Hereford, City Marshal Ed Cursinger today stated that it is against the law to drive cattle through the city limits, and said that the law will be rigidly enforced in the future. "Numerous ladies have complained that cattle are being driven through their yards and premises," Mr. Cursinger stated. "These homes spend quite a bit of money improving their lawns, yards and in planting trees, which in many instances are being badly damaged. We don't like to exact fines, but it is necessary to protect the interests of citizens—and future violations will be subject to fines." It was pointed out that an ordinance already covers the situation, and cattlemen were asked to observe the law and to eliminate necessity of legal action.

face team had played two games in the tournament before encountering the Tulsa team. The game is expected to be well matched and one of the best of the season. The Hereford girls have also lost to the Happy squad in a previous game. The Happy girls have won 19 straight games, and have not had a defeat this year. However, the Hereford squad is out for revenge and the game promises to be one of the best played on the gridiron this year.

Whole World Topsy-Turvy to Him

Frank Balch, 12, Chicago youth, sees everything upside-down. He originated his own method of writing by beginning at the bottom, in the lower right hand corner, and writing from left to right. Not only does he read and write in this manner, but objects are also visually upside-down. He is in the fifth grade, and averages 85 in his studies, which indicates that his visual deflection does not impede his educational progress.

Last Minute Rush Sends Poll Tax Payments To 1,062 County Total

REPORT PAYMENTS FAR ABOVE OFF-ELECTION YEAR AVERAGE
With a total of 1,062 poll tax receipts issued in Deaf Smith County at the closing date, Jan. 31, the office reported a landslide business Friday and Saturday, the Thursday report having shown 432 paid polls.

A check of the tax rolls showed polls for this year to be only 364 less than the 1,426 paid polls for last year, which being an election year was much greater than average. The voting strength of Deaf Smith County in 1938 was slightly more than 1,700, leaving approximately 274 votes in the form of "overs and unders." Calculating the same number of exemptions for 1939, the estimated voting strength of the county this year will be in the neighborhood of 1,336.

Totalled \$76 in 1937
In 1937, the last "off-election" year, this county recorded a total of 670 paid poll taxes—giving an increase of 392 paid polls over for 1939 as compared with 1937. County collectors attributed the increased poll tax payments to generally better tax payments over the county, along with the fact that important legislation and possible amendments will be placed before the people during the ensuing 12 months.

Ad valorem collections, which have not yet been compiled, were also reported to have shown a general increase in the county. Delinquent ad valorem taxes took a 1 percent penalty after Jan. 31; this penalty will continue through February, and will increase on a graduated scale during ensuing months.

Mrs. Hutcheson Is Injured In Auto Collision

The condition of Mrs. Chester Hutcheson of Tulsa, was today reported serious, as the result of an automobile accident which occurred two miles north of Tulsa Monday night. Mrs. Hutcheson will be remembered as the former Beulah Gass of this city, and is the sister of Mrs. George Stambaugh and of Nestor Gass. Mr. and Mrs. Hutcheson were returning to their home in Tulsa, after having attended the Fraser Auction Sale in Hereford, Monday. When they were approximately two miles from Tulsa, the accident occurred. They were driving behind a truck, when they met and sideswiped another car, immediately following which their car was struck by another car from the rear. They were rushed to Tulsa, where Mrs. Hutcheson was confined to the hospital. Mr. Hutcheson's injuries proved minor. Mr. and Mrs. N. E. Gass and Mrs. Stambaugh are in Tulsa to be with Mrs. Hutcheson, who is well known in this community, having been reared here and attended the public schools.

Court Docket Light As Term Opens Monday

GRAND JURY ADJOURNS WEDNESDAY; RETURN 8 INDICTMENTS

The grand jury adjourned Wednesday evening at 6 o'clock, after having been in session since Monday. Seven indictments were returned into open court by the group, three on burglary charges, three on forgery charges and one charge of driving while intoxicated. The grand jury will convene again Feb. 13, before the January term of district court closes.

With one of the lightest dockets in recent years, the January term of district court opened Monday. Judge Reese Tatum is presiding over the court and District Attorney Jas. W. Witherspoon is representing the state. A total of 27 cases were listed on the civil docket, 17 of which are appearance cases and will this week likely be set for trial.

Eight of the remaining cases are listed as non-jury cases, and two are killed as jury cases.

No petit jury was called the first week; the petit jury list for the second week follows:

Showmobile To Bring Sporting Goods To City

Featuring all types of sporting goods, A. H. Streu today announced the Showmobile will be in Hereford Friday afternoon and night, Feb. 3, to display all lines. "The Showmobile will be parked in front of or near the store," Mr. Streu stated, "and the public is invited to inspect the goods during the time it is here. A representative will be on hand to explain any new type of goods." He said that items used in every sport will be displayed in the Showmobile, including tennis, football, baseball, fishing, hunting, basket ball, golf and others, and invited all interested persons to inspect the line whether they expect to purchase anything or not.

Small Denounces Transaction Tax In This District

Gov. W. Lee O'Daniel's proposed transaction tax was this week criticized by Clint C. Small, Senator from this district. "I have a unique district," Small said, pointing out that the trade territory of this region includes New Mexico, Oklahoma and Kansas. Senator Small said that he had received letters from merchants in this district stating that the transaction tax would allow other states to take trade away from this district, especially wholesale firms, which could not compete with those in adjoining states should the tax be passed. "The bill looks like a clever attempt to get some sort of sales tax through," Small continued. Delayed through the first three weeks of the session, a flood of tax bills are expected in the Legislature within the next 10 days. Most Austin leaders predict some sort of a sales tax, probably a constitutional amendment.

Irrigated Crops To Be Discussed Friday, Feb. 10th

Addition of 30 new volumes to the County Library was this week announced by Mrs. Clara McLean, librarian. Fourteen of the books fall in the fiction class, and 16 were classed as non-fiction.

RECORDS OF EXPERIMENT STATION TO BE HEARD AT COMING MEETING

Discussion of irrigated crops, along with comparisons of yields, profits and costs will be the chief points to be discussed here Friday night, Feb. 10, when irrigation farmers meet in the courthouse at 8 o'clock.

Jones to Speak
Principal speaker for the occasion will be D. L. Jones, head of the Experiment Station at Spur, Texas. Assisted by Frank Gaines, also of the station, Mr. Jones will review actual records which the station has kept on irrigated cotton, corn and grain sorghums. The irrigation well at Spur is similar to those used in this territory, and the records have been kept in detail over a period of years.

The meeting Friday, Feb. 10, will be the first held since the organization was formed Jan. 7, and will be the first of a series to be sponsored by local irrigation farmers and interested citizens of this territory. The organization invited all irrigation farmers to attend the meeting, at which it is hoped ideas may be gained which will prove profitable to local men who have land under irrigation.

Those who are interested in cattle will also find of interest a speaker who is experienced in feeding ensilage. Efforts are being made at the present time to secure Fred Snyder, Lubbock County farmer, and in case he is not available another speaker experienced along the line, is to be contacted.

In addition to general talks along the lines of irrigation and irrigated crops, the speakers will also answer questions on the part of farmers regarding different crops.

Television Show Holds Interest Monday Evening

An interesting slant of radio science and a squint at the latest developments in television were presented to a curious minded audience Monday night at a Television Demonstration, sponsored by the Hereford H-Y Club at the high school auditorium.

While many of the technicalities explained by Mr. Hoskins, who is prominent in the field of television, was not understandable to the average listener, the fact that television really works was proved by the wonder-exhibition. Mr. Hoskins graphically described the workings of the \$10,000 machines and made his demonstrations with three students, selected from the audience. High school students will no longer wonder what a television picture looks like, even though the interesting maze of development is still a mystery.

The use of color for contrast and curves in television pictures was explained, showing how the use of green, blue and yellow in facial make-up produced a clearer picture, but without color. Answering the question "Will television soon become common," the entertainer predicted no television soon for the home. He explained that television has been in use in some form in England for over 91 years and that it was (Continued on Page 12)

Paralysis Drive Gains \$60 Here

Reporting approximately \$60 to be sent from Deaf Smith County to the State Organization for Prevention of Infantile Paralysis, John Patton, county chairman, today said that complete returns have not been made.

From the sale of "Dime Buttons," he estimated around \$20, while the Birthday party in the city hall Monday night netted around \$40. Since the March of Dimes cards are being mailed direct to headquarters, it was impossible to estimate the proceeds from this source.

According to present plans a permanent chapter is to be established in this county to work in connection with the state organization. Half of the funds in this community will be returned here to assist in local cases, the other half being placed in the national fund.

Construction Work On New Tierra Blanca Bridge Expected This Month

Although no official confirmation has been reported to County officials, press releases stated that the proposed Highway-51 Bridge across Tierra Blanca Creek has been let to Coke & Braden of Amarillo, at a figure of a little more than \$24,000. In addition to construction of the concrete bridge, it is also understood that the State Highway Department will surface Highway 51 a distance of one mile south from Federal Highway 65, leading to the top of the hill south from the new bridge.

Since no official confirmation of the contract letting has been released to the county, officials were unable to estimate when construction of the bridge will likely begin. County Judge A. J. Schroeder, however, said that it is customary to begin construction 30 days following the letting, and estimated that work will likely begin in February or early March. Designated as State Highway 51, the entire road across this county, north and south, has been taken over by the State Department for maintenance.

Home Demonstration News Notes

By MISS SADIE LEE OLIVER, HDA, Deaf Smith County

Delegates from the home demon-
stration clubs at North Hereford,
Wyche, Dawn, Westway, Ford and
Bippus attended the training school
on steamed breads at the home of
the CHDA, on Saturday, Jan. 28.
The standard recipe was varied to
fit supplies available in local stor-
es. The recipe used, follows:
2 cups white flour, 1-2 cup yellow
corn meal, 3 cups whole wheat
flour, 1-2 tablespoons soda, 2
teaspoons salt, 1-2 cup white sug-
ar, 1-2 cup brown sugar, 1-2 cups
molasses and 4 cups of sour milk.
Sift the dry ingredients. Mix the
milk and molasses, then combine
the two. Steam 55 minutes in molds
placed on the false bottom of a
pressure cooker. Dry out the
crusts by raising the temperature
to 15 lbs. Serve hot or cold. Raisins
or nuts may be added.
Those present were Mesdames
J. E. Dyer, O. L. Rutherford, F. J.
Ferguson, L. A. Smith, Frank S.
Wilde, Maurice Tammahill, Paul
Rudd, Ira Ott, Walter R. Galley,
R. L. Cockmougher and J. W. Ad-
rian.
Varied requests come to the of-
fice of the CHDA.
Mrs. R. J. Coleman discussed
foundation plans and arrangements
of trees for shade.
Mrs. Carl Wimberley put the
windbreak planting for her home
in first place. It will probably be
on the south and west sides only
since a road runs along the north
side. Large and small shrubs for a
screen planting were listed, also
adapted shrubs for foundation
plantings.
At Bippus, Ford and Sims it
will be easy enough to find pi-
tillate plants of the Buffalo grass
for lawns. These plants spread by
rhizomes as does the Bermuda grass
and make a better lawn where the
water supply is limited. The G. E.
Thiele, home at Wyche has much of
this grass growing in the natural
planting of the lawn.
Thirteen pounds of butter were
made and sold each week from
cream produced by four cows at
the Ira Ott home. Imagine their
chagrin when the yield increased to
35 pounds per week after they re-
placed a worn part on the separa-
tor.
Within a few minutes after the
week's supply was sold, Mrs. Ott
bought back a pound for a friend
at a price which surprised her.
The Prairie States Forestry Pro-
ject of the Forest Service has ad-
ded to the CHDA a book mark show-
ing a cross section of a nine
row windbreak planting.

At Bippus a club member wanted
to know whether or not lard pour-
ed hot into a galvanized tub is a
safe food. Miss Grace J. Neely,
Extension Specialist in Food Pre-
servation, states: "The only data
we have in relation to meat in gal-
vanized tubs is what is found in
B-101 Canning Meat in the Home."

On page 4. You will find where
meat is stored in galvanized or zinc
tubs for even as short a period as
1-2 hour, it is likely to take up a
harmful amount of zinc. As far as
lard taking it up from the tub I
do not have any definite data on
this. You would have to use your
own judgment on that but I per-
sonally would not want to make
it a practice to put lard in galv-
anized tubs."
For more than 10 years Mrs.
Charles Heck of Namarath, has
grown frame gardens and stored
green vegetables in cold frames.
She grows vegetables in tiled gar-
dens and prefers the glazed tile
used by plumbers.
On January 29 she had parsley,
head lettuce and sorrel growing in
frames south of her residence.
These frames were covered with
colliglass. Sorrel is a tender per-
ennial related to rhubarb and has
the same pleasantly acid flavor
due to oxalic acid.
Those who visited at the home
of Mrs. Heck were Mrs. Ira Ott
and Mrs. F. D. Ferguson of Wyche,
Mr. and Mrs. Charles Robbins of
North Hereford, and Miss Sadie
Lee Oliver.

HEREFORD

BULL

By Jimmie Gillentine

Hereford, for many years outstanding as a center of fine-bred and range cattle, now has a Bull Pen for cattlemen. The Bull pen is located just west of Ernest Medkief's Service station on the highway.

Men who helped remodel the quarters were Cecil Guseman, Ike Crosthwait, Ernest Medkief, Rufus Sewell, John Pitman, H. G. Conkright, Colby Conkright, Oscar Easley, G. W. Brunley, J. L. Woodford and S. P. Rossou. The Bull Pen is furnished with chairs, a soaker, desk typewriter and the like. It also boasts a small "corral" in the back in which to close deals. In fact, the place is so nice and comfortable that I wouldn't be surprised if wives of the cattlemen don't turn it into a headquarters for bridge games. The men think that their haven is strictly masculine—but just wait—until some of the women get a glimpse of the Pen.

The Bull Pen has plenty of room for three bridge tables, and by storing the desk and typewriter in the conference room in the back, I believe they could get in four tables. It sure is going to be nice for the lads.

Boyce House, former newspaper man now located in Austin, writes in his column, "I Give You Texas," the following information regarding the Texas Railroad Commission: "A note of informality was injected into a session of the State Railroad Commission recently. For years, everyone has called Ernest O. Thompson, member of the commission, 'Colonel,' in recognition of his services during the World War, his erect carriage and military precision. But drawing Jerry Sadler, newest member of the commission, greeted him the other day as 'Red.' Thompson beamed and said, 'That's the nickname that all the fellows had for me when I was a boy, and after all, the war is over, isn't it? So, next time, you see the Colonel—beg pardon, we should have said 'Red'—greet him with his old-time title."

He also tells this joke. A revivalist called on all who wanted to go to heaven to rise. Everybody stood but one man. The preacher then called on all who wanted to go to the infernal regions to rise but still the man kept his seat. "Why didn't you get up on either proposition?" the evangelist demanded. "Well you see," the other explained, "I'm a candidate for the legislature and I don't want to commit myself; I've got friends in both places."

Here are the ticket winners in the "You Can't Take It With You" contest, and I must say that I am surprised at the number of words presented. Clifford Estes, Jr., won first place with a total of 572 words, Mrs. R. C. Valentine of the Weche Community was second with 561 words and Mrs. A. M. Jones of Hereford took third place with 538 words. I said I would give five tickets for first, three for second, and two for third. I am going to do even better, I am going to give five for first, four for second, and three for third place. In addition, I am going to give everyone who had over 400 words two tickets. At the Brand Office Friday Saturday and get your tickets. They will be good anytime during February, 1939, at the Star Theatre. Here are the winners:

Clifford Estes 5 tickets

Mrs. R. C. Valentine, 4 tickets
Mrs. A. M. Jones 3 tickets
Robert Owen Elliston, 2 tickets
Mrs. R. L. Stephens 2 tickets
Helen Francis Streu, 2 tickets
Mrs. Uurlin Streu 2 tickets
Mrs. Clay Ridgeway 2 tickets
Mrs. J. R. Hyde 1 ticket
Mrs. Rayford Ricketts, 1 ticket
Mrs. J. C. Albracht 1 ticket
Mrs. Buford Farmer 1 ticket
Mrs. R. Schroeter 1 ticket
Mrs. Will G. Harris 1 ticket

I hope these folks enjoy the show they decide to use their tickets for, because they sure did some work on the lists. Just come by The Brand Office folks. Your tickets will be ready.

General opinion points to the fact that this territory will be in exceptionally good condition during the next eight months. The fact that so many cattle are being handled around here is largely responsible for my idea along this line. This is a natural cattle country and the more cattle we handle, the better conditions are going to be for us. Of course certain agricultural commodities contribute to the welfare of the community, and continuation of agriculture will give this area a better balance than cattle alone. However, it is indeed gratifying to see the reviving interest in cattle. This includes fine-bred cattle along with range stock—and we sure are back on our way to better days.

J. A. Pitman predicts 5,000,000 bushels of wheat in this area in the 1939 harvest. He says conditions are parallel to 1929, when the last big wheat crop was made out here—and it ran around 8,000,000 bushels. He furthermore believes the price will be around 85 cents a bushel.

I sure hate to write this, but I hear rumors about Mal Stewart and sheep. Folks are telling me that Mal is surrounded by sheep—hundreds and hundreds of them. I just can't believe that Mal has gone into the sheep business. I won't believe it until he tells me so himself. I think it must be his neighbors' sheep that have broken in on him. You can hear anything now days. After hearing this stuff about Mal, I wouldn't be a bit surprised if someone told me that Dick Allred had gone on a diet—or that Jim Clark had decided to retire. Anyway, I'm leaving it up to Mal. If he has gone into the sheep business, I want to get his and Bob Higgins picture together. If he hasn't I think this malicious gossip should stop.

Mrs. J. D. Rose tells me that the Mexican Chihuahua dog, listed last week as the property of Jack Rose, belongs to J. D. Rose. The dog's name is listed as "Red," but that was because some of them could spell his real name, which is "Cachahuata," and in Spanish means "Peanut." The translation and spelling comes through courtesy of Knox Kinard and the high school Spanish department.

I have several letters regarding the Jew situation, but none of them were signed by the writers and due to the highly controversial subject, I hardly think they should be printed without the signatures. One letter, signed "Parmer's Wife," shows some unusual thought, and has several suggestions, including the exchange of unnaturalized people for the Jews. It is to be definitely understood that the Brand will run such letters, provided that they are signed by the writer—and of course, provided they will not get the paper into a libel suit because of untrue or malicious intent. On the other hand, people who do not care enough for their own convictions to affix their names to their ideas can hardly expect a newspaper to assume the responsibility for them. It has always been my firm conviction that a newspaper should endeavor to be fair, to present both sides of a question and to defend at all times the rights and interests of the people, the community and the nation. It is my

opinion that letters of the type we have been receiving should be signed by the writer, and for that reason I am filing the letters here in the office.

However, I want to personally congratulate the writers for the thought they have given the matter. While I may not personally agree with them on all points, I do appreciate their serious study along the line—and when more people give such thought and consideration to our local, state and national problems we are going to have a more prosperous nation, governed in a more equitable manner.

Heart Attack Is Fatal Sunday To Former Resident

DR. L. E. TURRENTINE FUNERAL HELD MONDAY IN TAHOKA

Funeral rites were held Monday afternoon at Tahoka for Dr. L. E. Turrentine, 52, prominent pioneer Tahoka physician. He died Sunday night in a Lubbock hospital.

The physician had returned to his home Saturday, after receiving treatment for a hip fracture in the Lubbock hospital for three weeks. Soon after returning home, he suffered an acute heart attack and re-entered the hospital about noon Sunday.

The heart attack was the second Dr. Turrentine had suffered since he fell from a jolly in Corpus Christi, Jan. 10, and received the hip injury. He lost his balance and fell about ten feet when attempting to prevent a fishing line from striking his wife and himself.

Dr. Turrentine came to Hereford with his parents, Mr. and Mrs. Daniel Turrentine when a small boy and lived here until he entered medical school in Dallas. He was the brother of George Turrentine, and of Mrs. E. W. Harrison of Hereford. Both Mrs. Harrison and Mr. Turrentine left immediately for Lubbock upon hearing of their brother's attack but were unable to reach the hospital before his death. They attended the funeral in Tahoka Monday, returning to Hereford Tuesday.

"We Are What We Eat" - Theme Of Westway Meeting

"Kale is very rich in Vitamins A and C, being better than oranges for Vitamin C," stated Miss Sadie Lee Oliver last Thursday afternoon at the meeting of the Westway Home Demonstration Club meeting held at the home of Mrs. W. L. Jones. "Furthermore," continued Miss Oliver, "it endures cold and is a good vegetable for frame gardens."

In her discussion on Planning for the Fundamental Foods needs of the Body, Miss Oliver quotes again "we are what we eat."

"The food which we eat decides our health. It is the nation's problem when so many do not have the proper diet and are sick."

"Asparagus is one of the oldest foods. It was the favorite food of Nero. It is rich in phosphorus as is pineapple, both of which are good foods for nervous people. Asparagus should be cut every day to insure tender stalks. The top should never be cut out. The Mary or Martha Washington varieties are good and are rust proof."

Mrs. Maurice Tannahill, Home Food Supply Demonstrator, assisted by the hostess, Mrs. W. L. Jones, served spread with preserves, thus showing how to use common food to better advantage.

In the business meeting Mrs. Maurice Tannahill told some interesting incidents of their recent trip to California.

Mrs. Maurice Tannahill and Mrs. Paul Rudd volunteered to act as yard demonstrators along with Mrs. Al Werner and Mrs. R. L. Wilson and Mrs. Moody Stephan will act as Home Food Supply Demonstrators with Mrs. Maurice Tannahill.

Members present were Mesdames A. C. Pierce, W. L. Jones, Moody Stephan, R. E. Wilson, Merlin Karl, E. H. Little, Paul Rudd, Maurice Tannahill, Glenn Rutter, Al Werner, G. C. Hartman, Jim Daley, J. D. Harrell, Clyde Shepard and Miss Oliver. Visitors present were Miss Moody Aten and Mrs. Mark Benefield.

Rev. Aiken Speaks To Boys Hi-Y

The Boys' Hi-Y met Tuesday, Jan. 24, at 7 o'clock at their regular meeting place. The reading of the minutes of the preceding meeting by the secretary, was followed by a few songs and the devotional. The meeting was then turned over to the speaker of the night, Rev. Aiken, who spoke to the group on "Personality," how to gain personality and how to keep it. Rev. Aiken said that personality was not an inherited quality, but must be gained as a person goes through life. He gave the qualities of personality and several good examples of good personality, among which was the personality of Jesus Christ, which was the best of all times. After this most interesting speech by Rev. Aiken, the weekly business was discussed. Mr. Hudson handed out several posters on which the boys were to do some lettering concerning the "Television Show," which appeared Monday night in the high school auditorium. This was followed by a discussion on the Older Boys' Conference which is to be held in Amarillo, Feb. 3-4-5. Mr. Hudson handed out a program for the conference for the boys to consider. At a request several boys volunteered to give a three-minute talk on the conference theme, "Finding Christ in the Boy Next to Me." A plan was made for several items that were to be used in the program the boys are going to give in assembly and also at the conference. After a call for the cast in the program, the meeting was officially closed.

Minstrel Proves To Be Big Hit

"Why does you do me like—you do, do, do?" warbled Mr. Trimble as his feet played a "ratt-tat-tat." This, with many more wisecracks, songs and dances such as "Louisville Lou," by Mrs. Lawton provided an evening of hilarity in the high school auditorium, Jan. 27. The plot consisted of an old slave negro mammy and puppy whose "humpteen" famous children had come to visit them. While in this old cabin home, the children rehearsed a radio program which included many entertaining numbers.

The proceeds which amounted to approximately \$100 will go to buy new uniforms for the Hereford Band.

Juniors Give Production!

Q-U-I-E-T-I!
Lights! Camera! Action!
With Jack Knox directing the production, the Junior Class presented its first assembly program of this school term on Jan. 26.

The first scene pictured Mamie Dea Smith with her accordion. Her contribution was her own version of "St. Louis Blues." Berky Phillips surprised the students with an interpretation of "Alexander's Ragtime Band." The surprise came when she made a sudden change from a typical first-year piano player to a sure nuff jazzy jitterbug. As an encore she furnished many laughs as she read the "Seven Ages of Man." Next they "cut down the old apple tree," as Wesley Guthrie played "The Old Apple Tree in the Orchard," on his harmonica. As a direct contrast to Wesley's number, a waltz, "Billie," was given by Arlene Armstrong on the piano. As they stepped back into the more modern world of music, "Josephine" was played by Helen Francis Streu on her saxophone and an encore and the concluding number of the program, "Star Dust," was rendered by Helen Francis.

Large Crowd Attends Negro Minstrel Here Friday Night

BAND PARENTS REPORT \$100 TO AID DRIVE FOR UNIFORMS

Scenes of the old south were lived again Friday night when "The Lacy Moon Minstrels" presented a different kind of negro minstrel at the high school auditorium.

The show sponsored and manned by members of the Band and Orchestra Parents' Association was set deep in the Old South, its story unfolding against a background of traditional "nigger atmosphere." The large audience came expecting to be entertained and both young and old pronounced the performance highly enjoyable.

O. T. Williams as George Randall and Mrs. Williams as his wife, Grace, presented realistic characterizations of friendly, wealthy plantation owners. Their son, Eugene (Joe Kendall) and his fiancée, Sylvia (Mrs. Louie LeGrand) furnished the romantic element. The first scene was supposed to be in Mammy and Pappy Washington's cabin, by the Swannee River. All of their ten children, who compose "The Lacy Moon Minstrels," come home for a visit and staged a radio performance for "Mammy and Pappy." John Olson was "intertocutor," steered the show smoothly and Mrs. Elmo Lawson, who really hails from Kentucky, made a big hit in a re-statement of "Charlton" act. Sank Ramsey put on a one-man show with a sermon on "Humpty Dumpty."

Those taking parts included "Pappy" Washington, Ralph McCullough; "Mammy" Washington, Mrs. Ralph McCullough; Epidemic, A. Peterson; Phutaro Lysurgis, John Olson; Walla Walla, Elmo Lawson; Shadrack, Sank Ramsey; Backbird, Jeff Robertson; Denver, J. H. Trimble; Augusta Georgia, Mrs. Elmo Lawson; Tacoma, Mrs. O. G. Hill; Columbia, Mrs. Joe Kendall; Charlotte, Mrs. Earl Phillips; Missana, Mrs. A. Peterson; Josephine Biddle, Mrs. Wiley Robertson; Odorita Pettibone, Mrs. Earl Beavers; Lincoln Pettibone, Sank Ramsey; Ephraim Smith, Carl Cookrell; Hamilton Alexander, Jeff Robertson; Clematis Petunia Pettibone, Mrs. Earl Phillips.

Band Director Ralph Smith directed the show and Mrs. H. A. Close was piano accompanist. Highlight—the entire cast singing "Way Down Upon the Swannee River."

Clever dialogue, plenty of action and lack of any serious purpose whatsoever made more entertainment than the admission price and the cast deserves generous praise.

Funds from the performance augmented a \$1,156 fund being raised for band uniforms recently purchased. Proceeds Friday night amounted to more than one hundred dollars.

Weekly Auction Has Good Crowd

The sale at the Hereford Livestock Company this week was good with an increased volume in consignments. The sale was attended by buyers from over a large area and the sale was fast.

Livestock sold at satisfactory prices, feeder cattle running as high as nine cents a pound; one good milk cow brought \$52. A large percentage of the cattle were bought by Armour and Company.

Auctioneers still voiced a demand for more cattle and livestock, stating that the weekly demand is far above the supply.

Wheat Acreage In West Texas To Be Smaller

College Station.—Figures show that Texas wheat farmers evidently are determined to help keep the surplus of their product from growing larger, were released this week at Texas A. and M. College campus headquarters of the AAA.

George Slaughter, chairman of the Texas Agricultural Conservation Committee of the AAA, said the Texas winter wheat acreage that likely will be harvested this summer is around 3,131,000 acres, a reduction of some 763,000 acres as compared with 3,894,000 acres harvested in the summer of 1938. The AAA's Texas wheat acreage allotment this year was 3,684,835 acres.

Slaughter further reported that growers the nation over seeded a little more than 46 million acres for harvest this summer, while last season the acreage was around 56 and a third million.

This, Slaughter observed, is the largest national acreage cut that winter wheat farmers have ever made in a single year, but is still half million more than the acreage acreage for the ten years from 1926 to '36.

"Low prices and the probably big carryover at the end of this marketing year didn't make it look like good business to plant so much wheat," Slaughter asserted, in giving his interpretation of the reason for the acreage reduction.

"Wheat acreage allotments under the AAA have furnished a guide to farmers who wanted to plant according to market demand; and only about 15 percent of the 60,000-odd Texas wheat growers declined to plant within their allotments, according to current estimates."

Slings is the easiest roughage to feed in all kinds of weather conditions, and the trench silo is the cheapest and most efficient way of storing feed.

The performance was brought to Hereford at a loss to the H-Y organization but the club feels highly repaid in that the demonstration was informative and profitable to the student body.
