## Nickel-A-Plane Idea Receives Local Support

### Around Town

Sights and Faces Seen

Mr. and Mrs. Henry Hellman have returned to Hereford to make their home, and have brought back some first hand information on blackout conditions in San Francisco. Blackouts are not so bad—just inconvenient, Mr. Hellman says, but adds that he prefers living in Texas.

Jim Lipscomb wants to know where the city office is going to be moved now that the Red Cross workrooms have been moved to the city hall.

Florence Wilkins just doesn't care for inventory work—in fact she can't do the job fast enough to keep warm, and even the excitement of a few falling bicycles don't make the third floor at Streu Hardware very hot, she says.

A lot of people are predicting a return of the horse and buggy days along with this automobile tire scarcity. But we have heard that horses will be scarce too, so we are coming all out for a return of the box scooter. Any child can build one—or at least they used to—and they can be almost as deadly in traffic as an automobile—and twice as noisy.

Wanted: By employees of the Triple A Office, a coffee pot, so they won't miss out on that old caffeine vitamin. Also, they want a good reason why Alex Thompson is so sweet about inviting them out to drink coffee.

### Dick Roberson Joins U. S. Army Air Corps

Dick Roberson, son of Mr. and Mrs. Frank Roberson, arrived by plane Thursday morning for a brief Christmas visit with his parents before returning to Dallas where he reported Friday morning for active duty with the Army Air Corps.

Young Roberson is an experienced pilot and for some time did stunt flying and parachute jumping.

## March of Time, Local Edition, For 1941

For the United States as a whole the biggest news of 1941 happened on the morning of Dec. 7, when Japanese planes and ships, in a surprise attack on Hawaii, settled all doubts as to America's part in World War II. Probably United States entry into the war with the Axis was the biggest ideal news of 1941, because its effects will be felt in the daily lives of every man, woman and child in Deaf Smith County, Texas. It will affect the prices they will pay, the amount and kind of goods which they buy, the work they will do, the crops they will plant, and before many months are up, it will be hard to find any family without some member in the armed forces of the nation.

But despite the magnitude of war and its implications on every-day life, the biggest news of 1941 for this particular section was made by old Mother Nature herself in the form of moisture totaling 38.29 inches for the year, and this particular section of the "Dust Bowl" set up some kind of a record in losing a what crop because of too much moisture.

Other events of the year were: JANUARY James P. Williams went to the

### Political Charges Listed By Brand

With considerable interest already seen in several political races, The Brand this week announced the following schedule for political announcements:

County Judge, Sheriff, Clerk and all district offices \$15.00; County Treasurer \$10.00; Commissioners, Constable and Justice of the Peace \$5.00.

No advance in announcement prices is being made, but as in the past all announcements are handled on a strictly cash basis. Fee includes publication of name on the Brand political calendar through both primaries—if necessary.

### Red Cross Moves To New Workrooms; Ask For More Workers

The Red Cross Sewing Rooms have been moved to the American Legion quarters at the City Hall, and Mrs. Carl Gilliland, sewing chairman, today urged that more volunteer workers report at the new headquarters, which are open every afternoon.

The new sewing rooms are convenient and well lighted and equipment is adequate for many more workers than have been taking part. Mrs. Gilliland says, pointing out that new work quotas have been received and that the need for the help of all women in the county is greater now than ever before.

### Four Hereford Men Will Enlist In Naval Reserve

Leon Hartman, George Carlyle, Gwynn Owen and Nick Koelzer will leave Monday for Dallas where they will take their final examination for entry into the Naval Reserve.

From Dallas the boys who pass the tests will be sent to San Diego, Calif., for further training before being assigned to regular duties.

### Prospective Education Director Will Be At Baptist Services Sunday

Mr. and Mrs. Manley Finch of Fort Worth, where Mr. Finch has been attending Baptist Theological Seminary, will be present at both morning and evening services of the First Baptist Church Sunday, it was announced today.

Mr. Finch is a prospective educational director for the local church and will take part in the song services Sunday.

### Local Irrigation Farmers Were Strenuously Opposed to a Bill Giving the State Power to Regulate Water Use

Louis Dupnik, J. B. Joiner, Milton Anderson, Ercel Brashear, Noel Higgins, Frank Newman and Howard Williamson were army volunteers.

Troy Womble was celebrating the 50th anniversary of his arrival in the Panhandle.

The county announced that henceforth no bounty would be paid on rabbit ears.

Harold Close was chairman of the committee for celebrating the president's birthday and Herick's Rhythm Clowns played for the Birthday Ball.

Deaths: Mrs. Clara J. Daniel, R. J. Allison, and Mrs. Mattie E. White.

Marriages: Loys Carmichael and Miss Elizabeth McMahon of Borger; Miss Verna Culppepper and Waymon Featherston of Clovis.

Major E. A. Simpson of Amarillo told the Lions Club that "England, Greece and China are fighting America's battles."

FEBRUARY C. W. Newsum was elected

Would you give a nickel to bring down a Japanese plane? Not everyone can do this, of course, but you can do the next best thing by joining the "Nickel-A-Plane Club" which was recently started in Hereford.

The club is operated on a pledge basis, which reads: "We the undersigned, agree to pay each week to the appointed treasurer, 5c per enemy plane shot down the previous week by American pilots; also to pay for the 78 planes shot down to date at the same rate." The petition further specified that proceeds from the drive will be donated to worthy, charitable causes, such as the Red Cross War Relief.

A drive is also underway to establish a "Penny-A-Plane" fund which will operate on the same basis. Persons wishing to join either of the organizations may do so by contacting either of the banks, which are acting as treasurers for the drive. It was reported that 50 persons have already joined the "Nickel-A-Plane" club and it is hoped that the number will reach 100 members without solicitation.

A letter is being written to the War Department to secure the accurate number of planes brought down and the information will be posted in both banks each week in order that members may calculate their contributions.

The club was said to be spreading rapidly as civilians heard of its objects and calculated the small cost of a nickel a plane as compared to the sacrifice being made by American boys in the pilot seats of American Planes.

### Certified Seed Vital To Hybrid Corn Yield

Farmers of Deaf Smith County have been showing a great deal of interest in hybrid corn following recent announcements that the Texas-grown variety of hybrid can increase corn production in the state by about 10 million bushels. But County Agent A. R. Bateman warns that only certified seed should be used, pointing out that hybrid seed has to be cross-pollinated to produce a corn which gives the maximum yield.

E. A. Miller, agronomist with the state extension service, has made a study of hybrid corn, and points out that the state service, over a period of years, has developed certain inbred strains, which when crossed with certain other inbred strains produce a hybrid seed corn which yields better than the best commercial open-pollinated varieties.

Farmers interested in planting hybrid corn are asked to get in touch with Mr. Bateman who can tell them where to procure the best Texas-grown hybrid seed.

### The annual Fat Stock Show was held with prizes totaling \$50,000.

Dr. R. Thomsen, speaker at the Chamber of Commerce Banquet, warned of America's grave responsibilities in international affairs, and Dr. W. N. Lemmon, speaking to the Lions Club, declared that the United States "had better keep an eye on Japanese expansion in the far east."

Joe Thomas, G. H. Whitaker, Jr., Claude Goldston, Donald Gaetz, Woodrow W. Benton, Dexter Schofield and Sam Weaver were listed as volunteers at the local selective service office.

Deaths: Chas. H. Carl, Mark Anthony.

Marriages: Miss Jessie Clark and J. H. Patrick of Crosbyton; Miss Lottie Allred and R. C. Anderson, and Miss Ethel Rice and S. A. Renzi of New York City.

A thief tried to get the pennies out of the scale in front of the Penney Store—failed; Ulin Streu received a fractured rib bone in a football game at the Father and Son hike; Sheriff Garland Brown of Dimmitt ran his car into a freight train on the Hereford tracks.

Miss Alma Hall was a new teacher at Hereford High School.

The territory received the first of those "million dollar rains."

Richard Petersen was awarded the Eagle Scout badge.

## Soldiers on Guard in Hawaii

During recent Army maneuvers in Hawaii, soldiers man a 75-mm. gun while guarding a vital defense post. Troops are on the alert against any attempt by Japanese forces to effect a landing on the islands.

## Boom In Defense Savings Sale Seen In First Month of War For America

### Alaskan Trip Nets Soldier An 18-Hour Visit With Family

H. V. Compton, soldier son of Mr. and Mrs. J. E. Compton was able to spend Christmas with his family, arriving here last week on a five day pass from Fort Sill, Okla.; but another son of the Comptons, Pvt. John Compton of Dutch Harbor, Alaska, was not so fortunate.

Young Compton, arriving after a long trip from the Alaskan base, was greeted with a message from the war department, ordering him to return to his post immediately. He was with his family for about 18 hours.

### Lions To Canyon For District Meeting Monday

A large delegation of Lions Club members and their wives will attend a district meeting in Canyon Monday, Jan. 5, according to announcements today.

George Jordan, president of Lions International will be guest speaker at the business-session at 5 o'clock, and at the banquet Monday evening. Lions who wish to attend should contact G. M. Hudson, local president, or John McLean, secretary, not later than Friday, Jan. 2, in order to secure reservations.

### Sale of Defense Savings Securities took a record spurt in Hereford in December as citizens responded to the nation's war needs by purchasing three to four times as many bonds as they had in any previous month. The percentage increase in stamp sales was even greater than the bond sale jump, according to Postmaster J. R. Lipscomb.

Bond sales for December at the Hereford Post Office and banks reached a total of \$18,550.50 (maturity value) with \$3,325.50 sold at the post office and \$15,225.00 sold at the banks.

The post office has been sold out of \$25 bonds since the middle of the month and is still having to send customers to the banks for bonds in this denomination. Stamp sales amounted to \$1,168.80, Mr. Lipscomb states, adding that sales to school children have accounted for a surprisingly large amount of the total and that many salaried persons have started the habit of putting part of every pay check into defense stamps.

As an indication of the increase in defense savings after America's war entry, officials point out that total stamp and bond sales for the first month of the campaign (in May) amounted to a little more than \$300. At the post office, previous record month was August, with a sale of \$1,775 in bonds—a figure which was nearly double in December.

### Hereford Appliance Is Holding Close-Out Sale

L. L. Womble, owner of the Hereford Appliance Company, this week announced a close-out sale on all merchandise in his stock, stating that the increasing difficulty of securing merchandise in the appliance line had made him decide to quit business.

Nearly all items are going at a lower than replacement cost, and Womble is offering some unusual values in Philco radios, Frigidaires and small appliances.

"With prices going up on many items and with some merchandise out-of-manufacture because of war priorities, these prices we are offering now will be impossible to duplicate anywhere within a few months," Womble states.

Because all merchandise is being sold at less than replacement price, all prices listed for the sale are for cash only.

### Kester Appointed Santa Fe Watch Examiner for Area

Lynn Kester, jeweler, has received notice that he has been appointed official watch examiner for the Santa Fe. He will test, repair and condition all watches of Santa Fe employees and officials in this area.

## Workers Urged To Report On Red Cross Drive At Once; Put County Over Quota in Campaign

### City Issued 12 Building Permits For Year, 1941

Building permits totaling \$29,600 were issued in Hereford in 1941, with practically all building in the form of residences, according to records at the City Office, where twelve permits were issued for the year.

Construction during the past year took a tumble from the 1940 figure of more than \$110,000 which represented the 36 building and remodeling permits issued. A poor crop year, hampered by too much moisture, is generally blamed for the recession in building for 1941.

Only \$4,300 of the total building sum was for commercial (Continued on Page 10)

That, briefly, is the situation in the Deaf Smith County war relief drive, according to S. P. Rosson, campaign chairman, who today urged all Red Cross Workers who have not yet reported their collections to turn in reports at his offices at the Rosson-Hays Implement Company.

Most of the "business district has been worked, Mr. Rosson states, but so far only about half of the workers in the residential districts have turned in a report and only three reports have been received from the rural districts, with workers from Ford, South Hereford and East Hereford having turned in their collections.

"The need for these funds is increasing daily," the chairman points out, "and I believe that (Continued on Page 10)

### Former Hereford Boy At Pearl Harbor

Anxiety over the safety of their son, George P. Walker, 17, was relieved for Mr. and Mrs. P. R. Walker of Lubbock when they received a letter last week telling of his safety.

The youth is an aviation mechanic at the Navy Aviation Station at Pearl Harbor, Hawaii. His letter was stamped "passed by censor" and dated from San Diego on Dec. 13. In it he stated that there was little he could write but not to worry about him. An added postscript to his father, who is a World War veteran, said "you will know and understand why I can't say much."

Young Walker had attended Military Academy in San Antonio and four days after his 17th birthday in July he enlisted as a seaman. In September he joined the Aviation Branch and was sent to Hawaii.

George attended Hereford High School when he lived with his parents here. They moved to Lubbock from Hereford in 1938.

### Glenn Snyders Move To Amarillo To Make Home

Mr. and Mrs. Glenn Snyder yesterday moved to Amarillo, where they will make their home.

Mr. Snyder, who has lived in and near Hereford for 25 years, has purchased the Monarch News Stand on Polk Street in Amarillo. He had operated a service station here until this fall when he sold his business in order to get into some less strenuous work.

Mrs. Snyder has been active in church and club work here. A daughter, Miss Helen Ann Snyder, attends TSCW, Denton.

## Farmers Invited To Fire-Fighter Meeting Monday

Notices have been sent to 105 farmers in Deaf Smith County to attend a meeting Monday morning at 10:30 o'clock at the district court room for the purpose of organizing fire fighting brigades throughout the county, according to A. R. Bateman, county agent, who declares that the prairie fire menace cannot be too strongly stressed.

"This works in with the civilian defense program," says Bateman, who is chairman of the fire fighting division of the county civilian defense committee, "but also we can figure that it is just ordinary self-protection and (Continued on Page 10)

## Scouts To Use Xmas Trees For Victory Bonfire

Here's a chance to get rid of that old Christmas tree.

"Just pile it out in the front yard Sunday afternoon and it will be collected by the Boy Scouts," according to Urlin Streu, scoutmaster, who also invited the public to join the boys in a big Victory bonfire Sunday evening at 8:30 o'clock.

"The Victory Fire will be held in the caliche pits on the south side of the creek in State Park," he said. He also asked all interested persons who wished to furnish pick-ups or trucks to aid the boys in collecting the trees to see John McLean.

## War News Summary Shows Over-all Picture Hopeful; Far East View Bleak

America today faces a new year ushered in with far from favorable reports from the Philippines, where the fall of Manila is considered imminent and the fate of General Douglas MacArthur and his men is uncertain.

Manila, declared an open city by MacArthur, has nevertheless been severely bombed by Japanese aircraft, and American and Filipino troops on all fronts are reported fighting stubbornly against superior numbers and equipment.

But while reports from Luzon were bleak, the over-all picture of the war was vastly improved from that of Jan. 1, 1941, when the myth of Hitler's invincible war machine had yet to be broken.

By this week, the myth is definitely dead with Hitler's legions still retreating in Russia and the Red Army reporting capture of the city of Kaluga, an important rail center, 118 miles below Moscow. And in the Crimea also, Russian armies were recapturing territory from the

Nazis, while in Libya, Britain's war machine continued to advance against a shattered axis army.

Even in the far east, some rays of hope could be seen, with the position of the British defenders of Singapore improved—probably because the Japanese are now concentrating on the Philippines.

In America, the week has been highlighted by the appearance of Prime Minister Churchill before the United States Congress and by continued conferences between the British leader and President Roosevelt. American people were cheered at Churchill's hopefulness and by his example, remembering that Churchill and the British people have seen hard news that would make the current American reverses look like good tidings.

On the international front, conferences between Russian officials and Anthony Eden, British foreign minister were going on, and gave promise of development of a unified action of the allies against the axis nations.

## NEWS IN THE WORLD OF RELIGION

Charles P. Taft of Washington, D. C., as one of the directors of the National Defense Health and Welfare Services, will be the principal speaker at the dinner that inaugurates the annual meeting of the Home Missions Council of North America in Trenton, N. J., on Jan. 9. Mrs. Vincent Peale will preside at the dinner; and the Rev. Dr. G. Pitt Bears, of the American Baptist Home Missionary Society, at the business sessions of the Council. Among the subjects to be considered by the delegates, who represent every major Protestant denomination in the United States are missionary activities in the new defense areas and army and navy training centers, and among the Japanese in the United States and its possessions, in the isolated rural areas of America, in the congested city centers, among the sharecroppers, among workers at government projects.

A nation-wide observance of a "minute of prayer" daily for the duration of the war is being urged upon churches and church people by the department of evangelism of the Federal Council of the Churches of Christ in America. The minute would be at 6 p. m. each day, and the first day of the general observance will be Jan. 1, 1942. Many churches and communities have already planned for special periods of prayer, and this effort of the Council is to make them at a uniform period. Churches with bells and chimes have been asked to use them to summon people to prayer.

Dr. Roswell P. Barnes and Dr. George E. Haynes, secretaries of the Federal Council of the Churches of Christ in America, have wired to President Roosevelt's Management-Labor Conference in Washington, urging that in the Conference's decisions there be provisions made against race discrimination. In the telegram they said: "We urge that in any war labor policies adopted by your conference, provision against discrimination in industry on account of race, creed, or color, especially against Negroes, in conformity with the President's previous executive order No. 8802. We think this indispensable to our defense of democracy."

In France there are 12,000 Protestant Christian refugees who depend largely upon American gifts, according to the World Council of Churches. They represent 32 nations and all major services when occasion offers. The eagerness of the refugees to hear the gospel is genuine and very evident, it is reported. The number of completely impoverished and sick people is constantly growing, the statement reveals. "Undernourishment, which has already lasted so long, and the complete wearing out of clothing, fill the relief organizations, with great concern as they look forward."

Paul Sung, of the Chinese Y. M. C. A. in Chungking recently made a trip into isolated Sikan with its mixture of Chinese and Tibetans. He met and talked with the highest Lama—religious leader of the Tibetans. "A good man, high souled, serene," was Mr. Sung's description. The Lama said: "The difference between modern civilization and the viewpoint of the lamas is that the modern person admires the man who pushes his way to the top in any walk of life, while we admire the man who renounces the world. You worship the successful, we worship the saint."

**In Poignant Love Story**

Distinctly out of the regular Hollywood pattern is "Hold Back the Dawn," the picture scheduled for Sunday, Monday and Tuesday at the Star Theatre, and which boasts Charles Boyer, Olivia de Havilland and Paulette Goddard heading a cast which gets the greatest possible dramatic value out of an unusual story, which details the redemption of a sort of international heel under the influence of his love for an American girl. Boyer is the scoundrel; Miss de Havilland is the trusting American girl, and Paulette Goddard is the other woman. The scene is in a Mexican border town where European refugees wait for their longed-for entry into the United States.

Gov't. Needs Stenos In Defense Program

The Government needs stenographers for National defense. One is prone to think of National defense in terms of soldiers, sailors and marines. But there are many types of defense work behind the lines. A large army of civilian personnel is now on duty as stenographers in the Government service to take the dictation of the thousands of executives and administrative officers, and transcribe it into typewritten documents. Some of this material is of lasting importance. Some of it will set into motion Government events of historical consequence.

It is estimated that the Government has approximately 85,000 stenographers, typists and secretaries on the payroll. Many young men and women are responding to the call. Thousands more are needed.

Aside from the present emergency, the opportunities for stenographers in the Government service are favorable. Good stenographers are always in demand. The positions pay \$1,440 a year to start, with a good chance for advancement to positions of greater responsibility, such as secretarial positions, in the case of those who have the ability. The examination announced by the Civil Service Commission for stenographers is open until further notice. The examination consists solely of a dictation test at 96 words a minute and transcription of notes. All persons who can qualify are urged to apply now.

The stenographer examinations are held at several hundred cities throughout the United States. In order to arrange for greater convenience to applicants, the Commission is planning to increase the number of places where the examinations will be held.

The proper application form may be obtained from the Secretary of the Board of U. S. Civil Service Examiners at any first or second class post office or from the U. S. Civil Service Commission at Washington, D. C. To provide more living quarters for Government employees, especially for those in the lower-income groups, there has been begun, under Government sponsorship, a building program for constructing thousands of apartments, dormitories, and homes in Washington, D. C.

"Gunman From Brodie"

Action aces Buck Jones and Tim McCoy together with top western comic, Raymond Hatton, form the starring trio for "Gunman From Brodie," part of the double feature bill at the Star Theatre Friday and Saturday. The story, laid in the cattle country of the southwest, is an adventurous tale of the pursuit of a band of stock thieves by undercover U. S. Marshals, and is "tops" for thrilling action, daring horsemanship and sustained interest.

## Use Good Resolutions To Impress Others

"Man, what a Christmas! I'll have to make many New Year Resolutions now so that I can make mother and dad think I'm going to improve myself. It will be a waste of time to make them because I won't really keep any of them, but—well, they make a good impression on folks."

Do you make resolutions just to make a good impression? "Making" and "Breaking" don't make good impressions; "making" and "keeping" rate high with anyone. Don't be the make-break type; start the year off right by being truthful with yourself and others and, most of all, with God.

Did you know that it made a much better impression not to make any resolutions at all than to make and break them? If you make them and break them, you are being untruthful to yourself. People think to themselves that if a person can't keep a promise made to him, then certainly he can't keep a promise to anyone. He can't be trusted. America and God need us to make good, true resolutions and keep them in this time of tyrannical rule.

Start the year off right and be true to yourself, America, and God.

## Goodbye Old Man '41, We're Ready For 1942

Well, Christmas is over, Santa Claus has come and gone, and Baby New Year has just arrived. 1941 is packed and ready to leave. As you look back over the old year, do you think of all the things you intended to do, but just never quite got around to doing? Another year of your life has gone, and what are you doing about it? Are you just letting time go by and not using it to the best advantage? All of us intended to do many things in 1941, but being human, we just put them off until the New Year slipped up on us. Now that another year is here, we should all begin to have definite purposes and plans in life and begin to accomplish them.

## Central Chatter

A new teacher in Central School is Miss Juno Glasscock. Her home is at Muleshoe, Texas, and she is now living at 706 Twenty-Five Mile Ave., with Miss Jonnie Estes.

Miss Glasscock came here from Lake Arthur, N. M., which is a small place near Roswell. Last year she taught in Littlefield, Texas. She is now teaching the second-grade taking the place of Miss Imogene Cotton.

Several years ago her sister and her husband lived in Hereford for a few months. During that time Miss Glasscock visited Hereford and enjoyed it so much that she had been looking forward to coming back.

The Central School teachers are pretty swell. They didn't assign any lessons over the holidays.

It seems that all Central kids have been good. "Old Santa" filled their stockings and they got everything they wanted.

Mr. Kinard came around to all the rooms Thursday, Dec. 18, to wish everyone a Merry Christmas.

At the Talent Hour a few weeks ago, the following conversation was overheard:  
 Cashier: "One student ticket out of twenty-five cents!"  
 Little Boy: "No, mam, I ain't no student. I'm in Central!"

A new pupil in the 6A Class is Billy Dollar from Happy, Tex.

Happy New Year to everyone!

## Students, Help Save Paper

Members of the student council feel the need of a vice-president for that organization. Since the constitution does not provide for one, it will have to be amended by the council. The Seniors and Juniors have already expressed their approval of the idea.

The council realizes the great waste of school supplies, particularly theme paper. The group decided to sponsor a conservation project with the purpose of saving paper, for many students needlessly use their paper for "doodling" or other wasteful pastimes. Parents, the council believes, will heartily endorse this conservation project.

## F. H. T. Loses President Crawford To Pampa

The Hereford Chapter of the F. H. T. is striving to fulfill one fundamental objective—that of worthy community membership. On December 18, the group and its sponsor, Miss Davies, met in the high school gym, and a basket for an under-privileged family was filled with groceries and gifts. The gifts were varied to meet the likes of the seven children, and the groceries, with a small addition of milk, etc., would be sufficient for one week.

After the basket was packed, games were played under the able direction of Phyllis Radovich.

The festivities of the evening were interrupted for a brief business session in which Billie Louise Crawford, who is to make her home in Pampa, resigned as president. Her resignation was accepted and the vice-president, Evelyn Walker, was installed as president. Billie Louise appointed Nancy Olson to fill the unexpired term of vice-president.

The evening's entertainment was climaxed by the singing of Christmas carols and the traditional "Sing Your Way Home."

## IN OTHER CAMPS

According to the Dalhart "Hi-Times," the Senior Class play, "Don't Keep Him Waiting," was a huge success.

Another item in the "Hi-Times" told of the school assembly held Monday in honor of the 150th anniversary of the adoption of the Bill of Rights.

The Staff of the "Tulla Hornet" bought a \$25 U. S. Defense Bond to celebrate Christmas in a war-time spirit.

"The Eagle's Tale," Canyon school paper, reports that 38 ex-camps of Canyon school enlisted in the U. S. army. They must be out for the Japs!

In the last issue of the "Eagle's Tale," the staff paid tribute to the boys who are now volunteering and serving Uncle Sam in the Armed Forces of America. They're expressing the sentiments of the whole world!

## A HINT TO THE WISE

A hint to a Freshman is sufficient. However, if anyone else has a hard time in high school, just follow this:

**Behave Yourself!**  
 Push not,  
 Rush not,  
 When you come to school.  
 Loaf not,  
 Boast not,  
 Make that your rule.  
 Run not,  
 Poke not,  
 Then you'll be on time.  
 Giggle not,  
 Sniggle not,  
 And you'll be doing fine.

## Public Speaking Class Has Christmas Program

Members of the public speaking class gave a pre-Christmas program, Sunday, December 21, at the Christian Church at 6:30, then at the Methodist Church at 7:00. Mrs. Jesse Stanford accompanied the group, playing the piano and the organ.

The program consisted of Christmas carols and scripture readings. The numbers were "Gates and Doors," "Three Ships Came Sailing," "O, Little Town of Bethlehem" and "Excelsus Gloria." Some parts were solo and others in unison; some of the heavy voices and others of the light voices.

## Holidays Are Spent on Trip

The Christmas holidays are over and everyone is recovering from all the celebrations especially those who went away for the holidays. Among the lucky ones are Texie Ruth Reynolds who went to San Antonio to visit relatives. While there she visited three army camps: Fort Sam Houston, Kelly Field and Duncan Field.

Jeane Williams visited relatives at Sherman, Texas. Billie Erlene Sexton went to Shamrock for a few days visit in her old home town. Nona Mills went to Plainview to see friends and relatives. Evelyn Walker went to Portales.

Some of the teachers were away too: Mr. Anderson to Nocona, Mr. Ware to Dallas, Miss Foster to Wichita Falls and Shamrock, Miss Ramey to Dimmitt, Miss McCaslin to Canyon, Miss Pratt to Clarendon, Mr. Kinard to Orange, and Miss Davies to Lubbock.

## Younger Set Entertained With Gay Holiday Affair At Clubhouse

December 29 was circled in red on the social calendar for members of the 1941 graduating class of Hereford High School, because on that evening the Senior Mothers' Organization for that class entertained with a buffet supper party at the clubhouse for sons and daughters who were members of the class. President of the Senior Mothers' Organization was Mrs. F. L. Lucas and Mrs. C. C. Cox was secretary-treasurer.

The club house presented an inviting scene, decorated throughout in gay holiday suggestions. The cheery flames of cedar logs in the fireplace at the east end of the clubroom caught the gleam of tinsel and bright ornaments to be reflected by brilliant colored lights. Tables for four were arranged about the large rooms and pine-cones and Christmas greenery were used as centerpieces. The supper menu repeated the holiday colors.

### Old Tack's Alaska Pictures Feature at Sportsmen's Meeting on Jan. 7th

Colored motion pictures of Old Tack's recent Alaskan hunting trip will be shown at the Sportsmen's Round-up to be held Jan. 7 at the Amarillo Hotel in Amarillo, according to an announcement of E. E. Karl, secretary of the Panhandle Outdoor Sportsmen's Club. Mr. Karl states that the program will start at 6:30 o'clock and will also include discussion of the proposed "Universal Hunting and Fishing License Law" on which the Panhandle Sportsmen's Club has been working for some time.

It is generally believed by sportsmen that the proposed law would be of greater assistance in re-stocking streams and replenishing game in this part of the state, and all land-owners, hunters and fishermen should be vitally interested in the provisions set out in this proposed regulation.

After refreshments are served, the pictures taken by Gene Howe and Jack Lamb will be shown. Members of the State Game, Fish and Oyster Commission are expected to attend the Round-Up and all state senators and representatives of the fifth game region are being invited.

Sportsmen desiring to see the picture and attend the meeting will be admitted upon the presentation of a 1942 membership card in some outdoor sportsmen's club. If they do have such membership, they will be asked to join the Panhandle Outdoor Sportsmen's Club (one year membership, \$1.00) before being admitted. One outer guest will be admitted with each paid membership.

Early to bed, early to rise. And your girl goes out with other guys.

# Will You Give

# 1c

## for each Japanese Plane

# Shot Down

## by an American Pilot?

HEY, you with the fifty dollar suit! You there, buying that hundred buck radio like a Hollander buys a new stew pan. We want to talk to you.

That's right, you're the fellow, driving that farm tractor that'd probably bust an English squire, and going to town on Saturday across a prairie you can darn near drop all Belgium into... more horsepower under your foot than an Italian ever sees. You, mister, ignoring those skyscrapers a Londoner goggles at, and taking your sleepy-time shut-eye eight thousand feet above the Mississippi between business deals. Selling vacuum cleaners over a li'l county big as Denmark and tending a punch press for more than Petain's salary. Sure, we're talking to you!

Say, friend, what the matter with you lately? You've been acting like a fifth grade kid in a sixth grade room. Whoever gave you the insane idea that you are a sissy, your country a jellyfish and your statesmen just plain dumb? Where did you get the crazy notion that the English are smarter than you, the Germans better organized, the Japs cleverer and laughing up their kimono sleeves when they're really scared petrified? Why, you've been getting the jumps every time you read a Washington news release.

Listen, you bewildered, long-legged, overgrown Tarzan you've grown up into a giant and you don't know it yet. You're still carrying around that old "I'm just a little colonial" complex from the dim and distant past; still apologizing for living on the right side of the Atlantic Ocean.

Wake up? Why, do you know what they're calling the U. S. A. over in London? Big Brother of the British Empire! Get that. Not daughter. Not just brother. But BIG Brother. That from old Mother England herself! You figure it out!

Look. Let's get things straight. You are so doggone lucky they ought to name you Steve Brodie. You've got everything. Take this matter of backyards. Englishmen, Italians, Spaniards

—they live in countries. And they have all built up wonderful national cultures of their own. But you own a continent. A whole new world. You have built up a completely NEW way of life, actually a dazzling new civilization that is the hope of the present and the key to all the future.

No need to remind you of what you've done, what you can do. It's all in the school books written down. The Panama Canal. Grand Coulee Dam. The Bridge of Ships in 1918. New York. Detroit. Miami. Los Angeles. You do the goldarnest, the biggest things in the world and next minute forget you've done them. For all your talking you are much, much too modest; and with the whole world leaning on you — brother, that's dangerous. You might sell yourself the wrong bill of goods and let someone else run the show.

Let's forget the flag-waving. That's Hitler's stuff anyway—childish. Forget we've got the biggest navy in the world and getting bigger every hour. Forget we're turning out more planes this MINUTE than the Nazis, now at their frantic peak. Forget all that. Forget even that we'll take this war business in our stride and the headaches that will follow it, and lick 'em all, one by one.

But DON'T forget—Don't EVER forget—the uncompromising fact that America today remains the great pillar and strength of mankind, the hope of the world. Don't forget that, like or not, this world of the future is going to be an American world, the era now dawning an American Age. And don't forget that America can meet her responsibilities as the world's great leader and example only if Americans hold up their heads, bravely and intelligently, and recognize them now. As a free American you must help carry part of that heritage of responsibility.

Englishmen believe in America. Germans are going to believe in it. For all of Hitler, many of them do now! It is time that Americans believed in America, too.

### Civilians Asked To Enroll Now For Defense Job

A. J. Schroeter, chairman of the county civilian defense board, this week urged Deaf Smith County people to register for civilian defense work. "We can't do any real planning for civilian defense until we have an inventory of our people and what work they can do," Schroeter declares. Every person in the county is asked to fill out a volunteer enrollment card which gives to the civilian defense organization information as to his capabilities and work which he would be willing to do. "And there is some defense job which every citizen can fill," the county chairman points out.

Such work as ambulance service, nursing, clerical work, fire fighting, road repair, plumbing and electrical repair are among those listed on the enrollment card; and there are many others.

Some civilian defense services will require special training, and courses will be organized. Tentative plans have already been made for a course in First Aid to be offered soon.

Miss Ruth Bowsler is in charge of the volunteer enrollment service, and will be glad to help citizens fill out their cards, which are available now at the county judge's office.

### Lt. F. W. Montfort At Hickam Field, Honolulu

Word has been received here from Lieutenant F. W. Montfort, stationed at Hickam Field, Honolulu, that he is safe and happy. He is the son of Mrs. F. W. Montfort and a brother of Mrs. Homer Brumley.

Montfort, who is with the 26th Bombardment Squadron of the Air Corps, stated that the morale of the soldiers there was high and that all were anxious to get at the Japs. The letter was almost three weeks enroute from Honolulu.

### New Adult Study Class At Methodist Church

The literature, religion and membership of the Methodist Church will be topics discussed in a new adult study class to be organized next Sunday morning at the church school hour. It was announced today by Rev. Marvin B. Norwood, who states that the class is primarily for parents of children of church school age and for any other adults who are not now attending a class.

Mrs. Marvin B. Norwood will teach the 13 lesson course and explains that there will be no formal class organization or membership obligations.

"Any adult interested in learning more about the church, with inspiration for larger Christian living, is invited to attend," Mr. Norwood declares, adding that attendance at the first session, next Sunday, will probably add to the understanding of the course.

common sense for us to have a plan mapped out whereby we can be ready to fight any fires which may occur.

Unusually rank growth of vegetation this year has created a real fire hazard, the county agent points out, and stockmen, especially, should be making plans for fire fighting.

The meeting Monday is expected to develop organized fire fighting forces in every section of the county.

our people will come through if they realize fully what a very great need there is for this money. Don't wait for a Red Cross worker to solicit your help," he continues, "just bring your donations to our headquarters."

A telegram received from Norman H. Davis, national Red Cross chairman, expresses the needs of the Red Cross and brings home the important part which this organization is playing in the war, and Mr. Rosson asks Deaf Smith County citizens to read it, and then do their part willingly.

The bombing of Pearl Harbor, Honolulu, Manila; the invasion of the Philippines; the submarine attacks in the Atlantic and Pacific—have dramatically brought home to us the cruelties of this war. Where ever our heroic soldiers, sailors and airmen are so valiantly defending our soil, there also will you find the flag of the Red Cross, unfurled alongside the Stars and Stripes. Red Cross men are on every front.

Funds are urgently needed to keep intact these frontlines of mercy. The enemy respects nei-

ther holidays nor week-ends. The Red Cross War Fund should be pushed to rapid over-subscription. Partnership in this time of need gives all the people an opportunity to participate. The Red Cross is a people's partnership in a time of need. It is patriotism in action to give to the Red Cross.

Miseries of war cannot be measured by quotas and mathematical yardsticks nor personal conveniences. The president, the American people, and our fighting men expect much of us. An avalanche of giving now will help the Red Cross to deliver the goods.

Norman H. Davis, Chairman.

drive to Madrid from Albuquerque was made before dark and the witnessing of the lights being turned on there was indeed impressive. It is said that the custom of the illumination of the Bible scenes upon the mountain sides, originated over 20 years ago, following a mine accident in which many men were killed. Each year more scenes are added and as one drives through the winding streets of the town, the Christmas carols are heard creating an atmosphere of "Peace on Earth, Good Will Toward Men."

The Syms also witnessed the Christmas Ceremonial Dances of the Indians on the Ysleta Grant.
