## Around Town

Sights and Faces Seen

Four out of five can't tell the difference—or if they can, they prefer the substitute to the genuine article. That is the conclusion of George L. LeGrand of the City Drug Store, who says that Monday the customers were complaining about real coke which took the place of the "Victory" coke which has been several months.

Rev. M. M. Beavers, Morris Milton and Hal Beavers and Dr. W. Hendrix have returned from a fishing trip to New Mexico and report their luck as fine. Ditto for Hap Wiseman who says that he fished for trout for the first time in his life and had no trouble keeping the skillet full or every meal.

Citation for honesty: Mrs. Dave Alexander, who frankly admits that talking is her hobby. Those granaries being erected along the highway east of the railroad yards have been formally christened McCollister Addition. T. P. McCollister suggested the name—it was not thrust on him.

Arthur Brock is now employed as operator at the Texas-New Mexico Ice Plant, and Hereford High School is reported to be minus a janitor.

No Hereford girls have shown any interest in joining either the army or navy auxiliaries, but the Navy name "Waves" ought to be a lot more attractive than the army "WAAC" (pronounced "Wack" and easily transformed into "wacky"). Anyway, the director of the navy auxiliary says that the girls will not have a man in every port because they won't be going to any ports.

Sidney P. Smith and a Captain Johnson of the state selective service office were in Hereford Tuesday and Wednesday morning checking records in the local office. The state office makes regular check-ups on the proceedings in all local offices.

Margaret Connell, nurse at the Deaf Smith County Hospital, thinks that people ought to use a little more judgment about the times they choose to get sick. For instance, right now Margaret would like to take a vacation and she is entering her plea, for what it is worth, that everybody get healthy for a little while.

## Damage Almost Total In Fire At Close Plant

Damage to the \$6,000 Close Chemical Plant across the creek in South Hereford was estimated as almost total when an explosion in a barrel of high life started destructive flames which raged building Tuesday afternoon. Young Harold Close was scratching the last drag out of the high life barrel, which was placed on the loading platform, when the scratching of the can on the bottom of the barrel, or (Continued on Page 12)

## Stanton Takes Over As Head Coach At HHS

H. V. Stanton, line coach for the Hereford Whitefaces for the past three years, will be head coach this year. Supt. Knox Kinard announced today, stating that despite the omission of a football schedule by several schools in this territory, the Whitefaces already have eight games scheduled for the coming season. Only nine games appear on the usual schedule and there is still a chance for scheduling the extra game, Kinard said.

Stanton, who has done outstanding work as line coach here, has had more than 14 years experience as athletic director and was head coach at Denton for several terms. "We are very fortunate in having Mr. Stanton as our coach," the superintendent declares, adding that experienced men in the coaching field are hard to find this year and that many schools—even some in the AA classification—still do not have coaches.

Practice will start Sept. 1 for the 1942 Whitefaces and the first game of the season will be with Dimmitt on Sept. 12, when Hereford fans can look forward to seeing one of the best starting lineups to represent the local school in several years.

## LETTERMEN BACK

Lettermen returning this year will probably include Danny Russell, end; George Weems, half.

## Board Classifies Four More Men I-A

Four men were classified I-A by the local selective service board this week as 12 others were ordered to report for physical examination. Classification made by the board follow:

**I-A**  
Hoyt Glenn Roberts, Glen Norse Snoderly, Wilford Thomas Fincher and E. B. Posey, Jr.

**II-B**  
(Six Month's occupational deferment)  
Kenneth Wilbur Clayburn

**III-A**  
Charles Ival Rudd (Classified I-A by local board, the case was appealed to Appeal Board No. 9, which upheld the local classification. Appealing to state headquarters, the registrant was temporarily classified III-A, a classification which was upheld by the President.)  
Travis Vaughn (Case appealed as above, has now been classified III-A by the president.)

**I-C**  
(Already in Service)  
Paul Eugene Steele, Howard Jacob Hill.

## ORDERED FOR LOCAL PHYSICAL EXAMINATION

Aloys John Bates, Willard Alfred Sawyer, Carmel Leon Smoot, William Monroe Davis, Bruce Washington Jones, Dachtie Walter Crawford, Chris Marcus Jacobson, Louis Ralph Hagar, John V. Heuser, Noble Clyde Estes, Howard Houston Gore, Charlie Lester Hodges.

## CONSCIENTIOUS OBJECTOR

Porter Union Wyly was shipped to a conscientious objector's camp at Magnolia, Ark., on July 30, 1942.

## Lumberjills

Employed in the lumber mills of Oregon and Washington by 4000 women workers. These women are tackling jobs once considered man-killing. Enid Conradi, one of the lumberjills, is working at the Weyerhaeuser mill at Longview, Wash.

## Rains Improve Crop Prospects

Prospects for row crop and for early wheat planting were vastly improved this week as rains over most of the Hereford territory broke the hold of a long period of dry weather.

Rainfall reported from the various communities varied but totals for the fall last Friday night and Monday night came to more than two inches in most of the territory. In Hereford, 2.85 inches fell last Friday and Friday night and the rainfall Monday was .71 inches.

At Westway, two rains brought moisture amounting to about five inches, while the report from Ward was two inches. At Messenger, three rains in August have brought four inches of moisture.

Farmers say that the rains this week have insured a row crop in fields which already had a stand. The rain will also bring up volunteer wheat and enable farmers to start sowing wheat.

## Allred Speech Draws Big Crowd

James V. Allred, first senatorial candidate of the 1942 campaign to speak in Hereford, outlined his platform to a large crowd at the courthouse lawn here last Thursday night, stating that he had altered original campaign plans to make his address in Hereford and to see "the country of cattle, wheat, potatoes and good teeth."

Allred stressed his win-the-war, win-the-peace issue, together with his support of measures to bolster the home front economy during the tremendous war effort.

The U. S. senatorial candidate declared with emphasis for (Continued on page 12)

## Three Rural Schools Will Open Sept. 7

Three rural schools, Summerfield, Westway and Walcott, will start on Sept. 7, County Supt. A. J. Schroeter announced today, stating that dates for the opening of other rural schools in the county were not yet definite. A serious shortage of bus drivers and teachers will be felt this year, Schroeter says, pointing out that facilities are not yet complete in several of the county schools.

## TEACHERS LISTED

At Summerfield Mrs. Tandy Legg and Mrs. Laura Shaw will again be teachers.  
Mrs. F. W. Dodson will teach at Westway, but her assistant has not yet been named.  
At Walcott, Miss Alta Mae Fortenberry is the only teacher elected thus far.

Miss Vida Hicks will teach at Daniel, a one-teacher school.  
At Dawn, Mrs. Hazel Atchley and Miss Olson will be the teachers this year.

## OTHER OPENING DATES

Students from the Bippus district who attend Bellview School will start the new term on Aug. 31, while Daniel and Dawn will probably begin the same date as the Canyon Schools, which are expected to open sometime between Sept. 14 and 21.

## 100 Bins Made Available To Local Elevators

That 100 pre-fabricated wheat bins will be set up in Hereford was announced this week by F. G. Collier, administrative officer of the local A. C. A. office who further stated that the 100 bins will be pro-rated among Hereford elevators and will be used to store approximately 160,000 bushels of 1941 wheat moved out of the elevators.

The additional 160,000 bushel storage is for loan wheat only. Collier said, pointing out that wheat now piled on the ground faces possibility of deterioration unless it is placed in proper storage.

H. H. Weis, Friona contractor, is erecting the bins and any inquiries concerning labor in putting up the granaries should be addressed to him.

Other bins shipped here by the Commodity Credit Corporation will be stored in Hereford, Collier said, adding that farmers who still desire the bins may make arrangements for purchase at any time at the A. C. A. office.

## Performance Reports Hampered By Tire And Labor Shortage

Work is scheduled to begin soon on general performance reports, F. G. Collier of the County A. C. A. office said this week, pointing out that the performance reports determine the amount of the conservation payment to be received by each farm operator.

Reporters from the county office must measure the conservation acreage and general crop acreage on each farm, and the tire and labor shortage will probably be a severe handicap to the progress of the work, Collier says.

## Between 3,500 and 4,000 To Be Employed On Camp Work

### Farm Bureau To Have Meeting Here Sept. 2

Wednesday, Sept. 2, has been set as the date for the Farm Bureau Federation meeting at Hereford, where farmers of Deaf Smith and surrounding counties will meet to discuss local state and national problems of vital interest to agriculture. The local meeting will start at 2:30 o'clock at the courthouse.

Subjects to be discussed will include grain storage, labor, supply, utilization of wheat and other grains in the manufacture of synthetic rubber, the maintaining of strong agricultural organizations to protect farm interests, continuation of the commodity loan program, extension of full parity protection to grain sorghums and other nonbasic crops, securing farm equipment and supplies under priority regulations and many other problems connected with farming under wartime conditions.

### Hereford Movie-Goers Get Third Chance To See 'Gone With the Wind'

Hereford movie-goers will have their third opportunity to see "Gone With The Wind" when the picture opens here next Thursday and Friday, August 19 and 20—and if the national trend holds good here, audiences will be just as good as they were for the two previous showings.

### Allotment Notices Carry Statement of Insurance Rates

Wheat allotment notices for 1943 have already been mailed, J. T. Gilbreath, chairman of the Deaf Smith County AAA committee said this week, adding that the notices also carry a statement of federal crop insurance. The new plan, whereby contracts are written for a three year period, offers some advantages, according to the A. C. A. spokesman.

The grower has the privilege of cancelling the contract and signing up for a new three-year period in any year when the yield and rate established for his farm would be more favorable to him. In other words, growers in this area who made good crops this year will be able to take advantage of the lower rates and higher yields when this year's good crop is figured in. Crop insurance rates now in effect are based on 1941 yields; this year's crops will affect rates and yields for the first time next year.

### Dr. J. W. Bruner Speaks At Baptist Church Sun.

Dr. J. W. Bruner, endowment secretary for Texas, will be speaker at services at the Baptist Church Sunday, leaders announced this week.

### Property Gets Lower Rates For Insurance

Austin.—A sweeping, state-wide reduction in fire insurance rates, announced today by Marvin Hall, State Fire Insurance Commissioner, will result in an estimated saving of \$3,200,000 to Texas policy holders during the next 12 months. The new rates involved in today's order by the Board of Insurance Commissioners, will become effective on fire insurance policies written after August 1, 1942.

The board reduction affects many classes of insured property and in the case of dwellings amounts to as much as a 25 per cent saving in future insurance costs.

A few classes of property will receive increases in rates due to unusually heavy losses experienced in these classes during the past few years, Hall said.

"The revision of rates in today's order," Commissioner Hall added, "has resulted from an extensive study of fire losses experienced in these classes. The Board of Insurance Commissioners is continuing a study of loss experience in other classes with a view of determining whether other reductions may be justified. In addition, the Board is giving serious consideration to the subject of broadening the coverage of insurance policies to give the policy holder added protection."

### O'Daniel Will Not Speak Here

Senator W. Lee O'Daniel will not speak in Hereford in his campaign for re-election, according to J. B. Elliston who talked to the Senator in Canyon Tuesday when he kept a speaking engagement there.

The O'Daniel schedule, worked out in advance to include heavily populated areas is being followed strictly and Hereford was not on the original O'Daniel speaking itinerary, according to the senator and his campaign managers.

### Ice Plant Employee Injured By Saw

Odell Ward, employee at the Texas-New Mexico Ice Plant, suffered serious injury Tuesday night when his foot was caught in an ice saw and badly mangled. The rubber heel on the man's shoe, according to other employees, probably prevented the foot from being amputated.

Between 3,500 and 4,000 persons will be employed in the construction of the Federal Prison Camp southwest of Hereford by the time work is started in full force, but work this week was still in the preliminary stages though a fairly large crew is already on hand, hauling tile and doing work preparatory to installing the sewer and water plants at the prison camp.

Sherman and Eberett is the contracting firm in charge of present operations and Mr. Fred Lawrence is superintendent of the job. So far as has been announced, no more contracts other than those for roads and drainage, elevated water tanks and storage and electrical distribution have been let and the army engineer who will probably be over-all supervisor for the job has not yet arrived in Hereford.

Hundreds of applications have been received at the U. S. Employment Office here, A. B. Cherry, director, said today, adding that some labor supply is being built up for the time when construction actually gets under way.

### Engineer's Office Opens

Offices of the U. S. Engineers were open this morning in the Harry Rice Building next door to Stambaugh Cleaners.

### Registration Dates Set For HS Students

Registration dates for high school students have been set and except for some faculty vacancies not yet filled, plans for the opening of Hereford schools on Sept. 7 are nearly complete.

Registration dates will be Aug. 24, for seniors; Aug. 25, juniors; Aug. 26, sophomores; and Aug. 27, freshmen, with Aug. 28 set as the date for all late enrollments. Parents of students registering—especially parents of freshmen and other students registering at Hereford High for the first time—are invited to come with the students, meet school officials and help work out the pupils' course of study.

Miss Lucy Hedgecock, previously announced, will teach physical education for girls and will conduct a pre-flight school for advanced students. Miss Hedgecock secured her B. S. degree from West Texas State Teacher's College, Canyon, and comes here from Stinnett.

Miss Mary Katherine Easter, who will teach history and social studies, comes from Dimmitt. Miss Easter also took her Bachelor of Arts Degree from the Teachers' College at Canyon.

Miss Charlotte Wheat of Seymour will teach in the elementary grades. Miss Wheat took her Bachelor of Arts Degree from Texas State College for Women, Denton.

Miss Mary Lou Hawkins, who comes here from Hedley, will teach history and social sciences. Miss Hawkins is a graduate of W. T. S. C. and has taught English and history in the Hedley schools for several years.

## Meeting Saturday Will Organize Scrap Drive

A meeting Saturday afternoon at three o'clock at the Deaf Smith County Courthouse will start organization for the biggest salvage drive of the War, members of the county salvage committee announced this week, stating that at the meeting leaders will be appointed for both city and rural areas.

Rural and city leaders will be notified by post card of their appointment, Urlin Streu, chairman of the salvage committee said today, declaring that the presence of these leaders at the meeting Saturday afternoon is imperative.

As yet, county organization for the fat salvage drive is not complete, though a chairman has been appointed for the rural areas. As soon as a city chairman is appointed, work on an educational campaign build-up for the fat salvage drive will start.

Steel shortage serious—Because a threatened slow-up of steel production would be a serious drawback to the entire war effort, the salvage of every pound of scrap metal in the

country is urgent, national leaders say, pointing out that six million tons of scrap will be needed to keep mills operating until January 1, 1943.

Salvage drives, thus far, have only skimmed the top off the vast national scrap pile, leaders state, and the current drive backed up by a national advertising campaign should result in collection of enough scrap to keep steel mills running, build up reserves of other scrap materials.

FAPER COLLECTION RESULT  
Hereford Boy Scouts collected between six and eight thousand pounds of paper here Sunday in the final drive of the scrap paper campaign. The paper will be shipped Friday and no more waste paper will be collected until further notice.

# JUNK

## needed for War

"What's it good for?"  
"Guns, tanks, and maybe part of a plane"

in the barnyards and gullies of farms and in the basements and attics of homes is a lot of junk which is doing no good here it is, but which is needed once to help smash the Japs and Nazis.

Scrap iron and steel, for example. Even in peacetime, scrap provided about 50% of the raw material for steel. It may be rusty, old "scrap" to you, but it is actually refined steel—with most impurities removed, and can be quickly melted with new metal in the form of pig iron to produce highest quality steel for our war machines.

The production of steel has gone up, up, UP, until today America is turning out as much steel as all the rest of the world combined. But unless at least 6,000,000 additional tons of scrap steel is uncovered promptly, the full rate of production cannot be attained or increased; the necessary tanks, guns and ships cannot be produced.

The rubber situation is also critical. In spite of the recent rubber drive, there is a continuing need for large quantities of scrap rubber. Also for other waste materials and metals like brass, copper, zinc, lead and tin.

The junk which you collect is bought by industry from scrap dealers at established, government-controlled prices. Will you help?

First—collect all of your waste material and pile it up.

Then—sell it to a Junk dealer, give it to a charity, take it yourself to the nearest collection point, or get in touch with your Local Salvage Committee.

If you live on a farm, consult your County War Board or your farm implement dealer.

# HEREFORD

## BULL

By Jimmie Gillentine.

Gradually, the housing situation is getting worse. Are you familiar with the little warehouse which Wilson and Frank Gyles built on Fourth Street? Frank told me the other day that 16 people are living in this one room structure. Every day more and more people come into The Brand office seeking living quarters. The greatest scarcity at present is apartments and houses—and this thing hasn't started yet. It will probably be around September 1 before things really begin to hum.

Meanwhile, merchants are already faced with a drastic problem in securing help and merchandise. On the other hand, things are swell now as compared to what they will be later.

People who write newspaper columns are crazy. With all of the things in the world to write about, they usually manage to stick their necks out and make predictions. Before the first primary—and for no good reason at all—I stuck out my neck and predicted that there would be a run-off in the race for U. S. Senator. I also said that it would be by a very close margin and that Jimmie Allred would be elected in the second primary. Even Judge Slaton will admit that I was right in the first prediction, although he doesn't like to do so. I still believe Allred will be elected, and right now it looks very much as if he will. Allred may also carry Deaf Smith County in the second primary. The Brand is supporting O'Daniel's gaining every day. O'Daniel is scared to death. He is slinging

## Test Parachute Boat

An ingenious new one-man parachute boat for emergency use on single-seater fighter planes is being tested by American armed forces. Ralph Douglas had it inflated in less than 10 seconds in a demonstration of the new life-saver. It's attached to the pilot as

myd like a model T Ford without fenders.

I made this prediction, because I felt that people are now concerned with things much deeper than showmanship and mud-slinging. People are thinking about their country, their sons and brothers—about the future of the world. Some of them may not like Roosevelt, but they know that this country must have unity in Washington. Most of them are figuring in terms of winning the war—and winning it as soon as possible.

Understand, I am not trying to influence anyone. I am just making a prediction, which I sincerely believe is right. The Friday Star, which is published by The Brand, is supporting O'Daniel's tooth and the nail. John White, editor, is a dyed-in-the-

very low attendance rate; only seven or eight. It is sponsored by the Red Cross on a nation-wide basis and is widely endorsed by medical authorities. If you are interested, see Miss Oliver before Monday. She would all like to have some men in the class.

Odas Bull says he sure was glad when Wednesday rolled around. Dubbs Pitman, who had the Lions Club goat, left last Sunday for Lake City, Colo., and placed the animal in charge of Odus. They have been feeding oil cans to the goat, and aren't expecting any decrease in weight. Dubbs took the goat around one day this week to visit most of the business places. The thing stood in here by my desk and before I noticed he had eaten two sheets of carbon paper, the Methodist Church news items and an editorial on draft quotas, which Ed Hedrick clipped from the Daily Drovers Telegram and handed to me. Right away I could tell that a newspaper office is no place for a goat.

Good rains fell here both Thursday and Monday nights and totaled from 3 to 4 inches. Volunteer wheat is appearing in fields where there has been rain lately so early wheat sowing seems probable.

Friends and relatives of Mr. and Mrs. G. C. Hartman surprised them Saturday night with a supper which was followed by a shower of useful and lovely gifts. The affair had been scheduled for Friday night but because of the rain was postponed. Mr. and Mrs. Hartman were certain that the party would be put off for another week so were speechless when they arrived home Saturday night and the lights were flashed on to find the lawn full of guests and a long table loaded with supper.

After the gifts had been passed and admired Mr. Hartman was called outside only to find himself being picked up and taken for a ride which ended in a "ducking."

We extend congratulations and best wishes for success and happiness to Mr. and Mrs. Hartman.

The revival meeting started Friday night at the schoolhouse. Rev. Roy Johnson of Canyon is the exangellist and has been preaching some inspiring messages. He is a guest in the Henry Allmon home while here. The meetings will continue throughout this week and everyone is invited to attend.

Mrs. Maurice Tannahill was honored with a shower at the G. C. Hartman home Thursday afternoon. Forty-five guests were present. The honoree received many lovely gifts.

Mr. and Mrs. G. C. Hartman arrived home Thursday night from a wedding trip to New Mexico.

Mrs. L. B. Hooten of Tulla was a guest last week in the home of her daughter, Mrs. T. B. Cox.

Mr. and Mrs. J. A. Roe and Mrs. Vina Edmonson visited Mr. and Mrs. Henry Lloyd at Friona Sunday afternoon.

Mr. and Mrs. Grady Wilson and family and Mrs. M. F. Johnson spent Sunday in the John Johnson home in Amarillo.

Mr. and Mrs. Buren Sowell and children spent Monday in Amarillo.

Mrs. Vina Edmonson and James Nolan, Hugh Kay Roe, Mr. and Mrs. Merlin Kaul and Mr. Waters helped Mr. and Mrs. M. S. Roe paper Monday. Mr. and Mrs. Roe will move from Hereford in a few days to the O. G. Hill place where the Lomax family formerly lived.

Dee Matthews arrived last week from Denver, Colo., and is visiting Mrs. J. S. Earp and Jack.

Mr. and Mrs. Buren Sowell, David and Margaret, Garie Rogers, Mr. and Mrs. Merlin Kaul and sons, Mr. and Mrs. Maurice

Tannahill, Mr. and Mrs. Orville Houser, Elwyn Hartman, Mr. and Mrs. Paul Rudd, Mr. and Mrs. W. L. Jones and Mr. and Mrs. Gordon Witherspoon and children of Hereford enjoyed a picnic at the State Park Sunday evening.

Mrs. C. H. Dickerson of May, Okla., spent several days last week visiting her son, Jim Dale, and family. Mrs. Dickerson returned to her home Friday.

Mr. and Mrs. Jess Otts, Muriel and Camella returned home Monday from Woodson where they attended a reunion of Mrs. Ott's relatives.

Mrs. Les Pellam and Loran returned home the first of the week from Hatch, N. M., where they have been visiting relatives and friends.

Miss Betty Jane Robinson of Hereford was a week end guest of Wanda Marie Allmon.

Vesta Mae Landers was a guest in the home of her aunt, Mrs.

Guy Lawrence at Hereford Friday and Saturday.

Vesta Mae and Roy Landers spent Sunday with relatives and friends at Olton. Roy arrived home the last of the week after a two weeks' visit with relatives at Okemah, Okla.

J. W. Lee left Saturday afternoon for Los Angeles, Calif. He has been visiting in the home of his uncle, Joe Landers.

Mr. and Mrs. W. W. Davison and family of Royce City are visiting this week in the Roy Lee and Sam Wilson homes. Sam Davison their son, who has been visiting here for some time, is ill at the Sam Wilson home.

Miss Neelie Reed of Clovis, N. M., spent the week end with friends here. She was a guest Saturday night in the R. M. Gunn home.

Mrs. Vincent Skypala returned home Monday night from Shulenberg and San Antonio

## G. W. NEWSOM'S FATHER ILL

G. W. Newsom received word yesterday morning that his father, J. A. Newsom of Mendeville, Mo., had suffered a heart attack and is not expected to live. He is 76 years old and has been in failing health for some time. Mr. and Mrs. Newsom left yesterday to be at his bedside.

## TAKE TRIP

Mr. and Mrs. Ernest May accompanied by their relatives, Mr. and Mrs. Lon Roselle of Bradleville, Mo., spent last week vacationing in New Mexico. The Roselles are a niece and nephew of Mrs. George Bambley. They left for their home yesterday.

### Farm Security Loans Open For Needy Families

Authority to immediately resume receiving applications from low-income and needy farm families in Deaf Smith County for loans with which to carry on their farm and home operations was received here yesterday by Bernard C. Drinkard, rural rehabilitation supervisor for the Farm Security Administration.

The information that loan funds for the FSA's supervised lending program for the current fiscal year are immediately available was received from Jesse B. C. Ger, Regional Director, with headquarters at Amarillo, Texas.

The Farm Security lending program, it was learned, will continue its policy of making small "Food for Freedom" loans to farm owners, tenants and part-time farmers. These loans are designed to assist families to produce food for home consumption. Production of food for sale will continue to be of secondary importance.

Food for Freedom loans are limited to \$500 for each family. Borrowers may use the funds for the purchase of dairy animals, feed, seed, small farming and gardening implements, canning supplies, repairs for livestock and poultry housing facilities, food storage space, medical and dental care and so forth.

In addition to the small Food for Freedom loans fall crops and gardens and other immediate needs, the Farm Security Administration, according to Mr. Drinkard, will continue making its regular rural rehabilitation loans, and community and cooperative service loans.

Farm owners, tenants and part-time farmers in Deaf Smith County who need to borrow funds for fall and winter operations or to meet their farm and home needs next spring should make application to Mr. Drinkard, with offices in the Court House at Hereford.

### NEWS IN THE WORLD OF RELIGION

With tire and gas rationing keeping the modern "family buggy" in the garage, and with the war itself focussing people's attention on the spiritual needs of individuals and of nations, with files interested in the promotion of adult Bible and study classes in America's churches are looking forward to great increases in enrollment and attendance at such classes this coming fall and winter. Not only will the American father send his boy out to Sunday School when Rally Day arrives on Sunday, September 13, and not only will mother iron her daughter's frock on Saturday night for the next day's class, says one church school leader, but father and mother will themselves be going to church school from which they have been absent too many years.

Advices reaching the Board of Missions and Church Extension of the Methodist Church from private sources in occupied China indicate that Japanese authorities are reorganizing the Christian church in the Chinese provinces under their control as they have reorganized them in Japan. All Protestant denominations are being welded into one united church with headquarters in Peking; Chinese leaders govern the church with Japanese pastors as advisers; relations are severed with English and American churches; churches must become self-supporting; a Japanese councillor must be present at each church service and church meeting. It is reported also that there has been a great influx of Japanese teachers into North China.

"Peace is not an unconditional gift of God—it is a product of righteousness," said the United Lutheran Church of America in a recent message to all its churches and members. "Righteousness and good will are God's first goals. Peace is their flower and fruit. If enduring peace is to come to mankind, it can come only to men and through men who are wholly dedicated, through faith in Christ, and by the power of his Holy Spirit to righteousness and goodwill. This faith and power, bearing fruit in righteousness and goodwill, are the only real bases of a just and lasting peace. Therefore, all Christians are challenged to abide in their lives the gifts of God's grace, through God's word and sacraments, that may become more effective exhortations and evangelists of that righteousness and good will which alone can produce a just

The Chungking (West China) committee of the Church Committee for China Relief, supported by gifts from American churches, has voted to grant \$33,735 (Chinese currency) to the Syracuse-in-China Hospital for the building of an operating and obstetrics room in a dugout in the side of one of Chungking's mountains for emergency use during air raids. This hospital is manned by Chinese doctors and nurses, and the Rev. C. Bertram Rappe is acting superintendent. It has been more frequently bombed than any other hospital in Free China but it continues to carry on its services to hundreds of civilians.

Three sentences carved on the monument to Booker T. Washington, on the campus of Tuskegee Institute, are being quoted by many ministers as especially worthy of study in these days of war, hate and misunderstanding: "There is on sense of security for any of us except in the highest intelligence and development of all." "I will let no man drag me so low as to make me hate him." "We shall prosper in proportion as we learn to dignify and glorify labor and put brains and skill into the common occupations of life."

In the congested district of Los Angeles served by the church of All Nations Foundation, where school statistics show an 83 percent population turnover in the past year—largely in the Negro and Mexican groups—the church and social agencies find increasing difficulty in securing volunteer teachers, especially of the boys' groups. According to Director Robert A. McKeen of the Foundation, this is a principal cause of increasing juvenile delinquency in Los Angeles, especially among youth between thirteen and fifteen years of age. In many parts of the United States the Boy Scouts of America are finding difficulty in holding scoutmasters—because of the draft and war industries—and many leaders are pleading that older men, including ministers, take up such forms of voluntary service for the duration in order to protect the coming generation.

### Talcum Powder Suggested As Heart Remedy

Atlantic City, N. J.—A new source of man power for the war effort may be tapped by an operation that successfully uses talcum powder to put new blood into sick hearts and gets help-less heart disease patients back to health and useful work.

The operation was announced by Dr. Samuel A. Thompson and Dr. Milton J. Ralsbeck of New York Medical College, at the meeting here of the American Medical Association.

The talcum powder, two teaspoons of it, is put into the space between the heart muscle and its outer envelope, called the pericardium, in an operation so simple, Dr. Thompson said that any surgeon can perform it in 20 to 25 minutes.

Apparently Permanent With a few hours after the operation the patients are free of the torturing pain of angina pectoris and within six months are back at work. The improvement is apparently permanent. The first patient given the new operation has remained well for three years and seven months.

Marked improvement followed the operation in eight of the first 14 patients and moderate

improvement in two more. The four who died would never have been operated on in the light of present knowledge, Dr. Thompson said, as their heart condition was too bad for them to stand the operation. All these first 14 patients were so helpless and tortured by the pain of their trouble that they were "sitting waiting to die," although they were still under 50 years of age and one was in his thirties. When the operation is used on patients who have not yet reached this hopeless last stage of heart trouble, the results will be even better, Dr. Thompson believes.

The patients who can be helped by the new operation are those whose hearts are being starved for blood and oxygen because the arteries supplying the heart muscle is either plugged by blood clots (coronary thrombosis) or so hardened or pinched by spasm that no blood can get through. The lack of blood supply is what causes the pain of the angina.

The talcum powder remedies this condition by causing a "tremendous" inflammation. First result of this is dilation of the blood vessels and greatly increased supply of blood to the heart muscle. This immediately relieves the angina pain. The lasting improvement comes because after the inflammation the sac surrounding the heart muscle with no space in between. In this heart sac are half-a-dozen arteries which

following the inflammation, start growing into the heart muscle, bringing it new blood to keep it nourished for its job of pumping blood to the rest of the body.

Studies in animals before the operating on patients showed that only talcum powder would cause this permanent and beneficial adhesion between the heart and the pericardium.

### Gilliland's Hand Bitten As He Tries Monk Dentistry

So, tough monkey at the Swell zoo, bit Jack Gilliland Tuesday afternoon when Gilliland was trying to file off the monkey's dangerous fangs. The injury to Gilliland's hand was serious and it was thought that poison might develop from the bite.

The monkey bit the hand of his keeper, Edgar Sowell, several weeks ago, and it was decided that his sharp fangs would have to be filed off. Gilliland completed the operation on the monkey's teeth.

### Evangelistic Services Start This Evening

Rev. D. Heckman of Clarendon and Rev. W. G. Williams of Canyon are starting evangelistic services tonight in a tent at the corner of 7th and Jackson.

Services will be held at 8:45 each night for the next ten days and the evangelists cordially invite Hereford people to hear their message.

**IN MAINTENANCE DEPT.**  
Lama Beavers, who left Hereford last month for army service, is now stationed at Camp Gruver, Okla., where he does mechanical work in the army maintenance department. Beavers is a son of Rev. and Mrs. M. M. Beavers.

### STARTS CADET TRAINING

Aviation Cadet Louis H. (Bud) Brady is now stationed at Nashville, Tenn., where he is starting the training which will end with his receiving the wings of the army air forces.

Brady, the son of Mr. and Mrs. Wes Brady, has been stationed at MacDill Field, Fla. He enlisted in the air corps ground forces last winter.

### READY FOR GLIDER TRAINING

Set. Donald Brotherton who is stationed at the Albuquerque Air Base, Albuquerque, N. M., visited Sunday with his grand-

mother, Mrs. B. L. Branson. Brotherton is in the glider pilot pool at the Albuquerque base but has not yet been assigned to glider training. He has been drilling recruits since his transfer from California a few weeks ago.

### Campfire Girls Make Plans For Annual Trip

Campfire girls will leave Saturday, August 29, for a five-day trip to Ceta Glen, according to plans made at the regular meeting of the group last Thursday night.

They will leave from the Campfire clubhouse on the morning of the 29th and will return Sept. 3. All Campfire Girls plan to make the trip, Mrs. Urlin Streu, sponsor, says.

The yearly camping trip gives

the girls a chance to make practical use of much of their training and is the highlight of the vacation period for most of the members.

The Campfire Girls will make the trip in an open truck and will use the Boy Scout camping equipment.

JUDGE E. C.

## NELSON

Candidate for Chief Justice Court of Civil Appeals

Saturday, Aug. 22nd

### DOES TRAINING COUNT?

If not, why have schools and colleges? Judge Nelson has had the best literary and legal training our country affords.

### DOES EXPERIENCE COUNT?

Should a Chief Justice have had some actual experience as a practicing lawyer? Should he have had some experience before the Court he seeks to preside over? Judge Nelson has had years of experience, both as a practicing lawyer and as a trial judge.

### SHOULD REPRESENTATION BE EQUAL?

The Lubbock area already has one of the judges of this Court; and the Vernon area has one. Isn't it fair for the northern part of the district to continue to have a representative on the Court?

### WHO SHOULD CHOOSE THE CHIEF JUSTICE?

The people? Or a group of Lubbock lawyers? Judge Nelson did not ask any group whether he might run for the office; and he has not sought any endorsements. If elected, he will be under no obligations to any such group. He will be able to chart the course of the law fairly for all. Is that what you want? If so, VOTE FOR JUDGE E. C. NELSON.

### LEGAL NOTICE

H. J. R. No. 1  
**A JOINT RESOLUTION** proposing an amendment to Article III of the Constitution of the State of Texas by adding a new section thereto to be known as Section 49a, requiring all bills passed by the Legislature on and after January 1, 1945, appropriating money for any purpose, to be sent to the Comptroller of Public Accounts for his approval, and fixing the duties of the Comptroller with reference thereto; authorizing the Legislature to provide for the issuance, sale and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by the General Revenue Fund on September 1, 1943; providing for the submission of this amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof; and providing for the necessary appropriation to defray necessary expenses for the submission of this amendment.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**  
 Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto, immediately after Section 49, a section to be known as Section 49a, to read as follows:

"Section 49a. It shall be the duty of the Comptroller of Public Accounts in advance of each Regular Session of the Legislature to prepare and submit to the Governor and to the Legislature upon its convening a statement under oath showing fully the financial condition of the State Treasury at the close of the last fiscal period and an estimate of the probable receipts and disbursements for the then current fiscal year. There shall also be contained in said statement an itemized estimate of the anticipated revenue based on the laws then in effect that will be received by and for the State from all sources showing the fund accounts to be credited during the succeeding biennium and said statement shall contain such other information as may be required by law. Supplemental statements shall be submitted at any Special Session of the Legislature and at such other times as may be necessary to show probable changes.

"From and after January 1, 1945, save in the case of emergency and imperative public necessity and with a four-fifths vote of the total membership of each House, no appropriation in excess of the cash and anticipated revenue of the funds from which such appropriation is to be made shall be valid. From and after January 1, 1945, no bill containing an appropriation shall be considered as passed or be sent to the Governor for consideration until and unless the Comptroller of Public Accounts endorses his certificate thereon showing that the amount appropriated is within the amount estimated to be available in the affected funds. When the Comptroller finds an appropriation bill exceeds the estimated revenue he shall en-

dorse such finding thereon and return to the House in which same originated. Such information shall be immediately made known to both the House of Representatives and the Senate and the necessary steps shall be taken to bring such appropriation to within the revenue, either by providing additional revenue or reducing the appropriation.

"For the purpose of financing the outstanding obligations of the General Revenue Fund of the State and placing its current accounts on a cash basis the Legislature of the State of Texas is hereby authorized to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by said fund on September 1, 1943, provided such bonds shall not draw interest in excess of two (2) per cent per annum and shall mature within twenty (20) years from date."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State of Texas, at the next general election to be held on the first Tuesday after the first Monday in November, 1942, being November 3, 1942, at which election all voters favoring said proposed amendment shall write or have printed on their ballots, the words:

"For the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Those opposing said proposed Amendment shall write or have printed on their ballots, the words:

"Against the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and have same published as required by the Constitution for amendments thereto.

Sec. 4. The sum of Five Thousand Dollars (\$5,000.00), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas, not otherwise appropriated, to pay the expenses of such publication and election. 31-4tc

Article 16, of the Constitution of Texas so as to permit the accounting officers of this State to draw and pay warrants for salaries to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**  
 Section 1. That Section 33 of Article 16, of the Constitution of the State of Texas, be amended so as to read as follows:

"Section 33. The accounting officers of this State shall neither draw nor pay a warrant upon the Treasury in favor of any person, for salary or compensation as agent, officer or appointee, who holds at the same time any other office or position of honor, trust or profit, under this State or the United States, except as prescribed in this Constitution. Provided, that this restriction as to the drawing and paying of warrants upon the Treasury shall not apply to officers of the National Guard of Texas, the National Guard Reserve, the Officers Reserve Corps of the United States, nor to enlisted men of the National Guard, the National Guard Reserve, and the Organized Reserves of the United States, nor to retired officers of the United States Army, Navy, and Marine Corps, and retired warrant officers and retired enlisted men of the United States Army, Navy, and Marine Corps, nor to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the third day of November, 1942, at which all ballots shall have printed thereon:

"For the Constitutional Amendment permitting the accounting officers of this State to draw and pay warrants for salaries to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education."

"Against the Constitutional Amendment permitting the accounting officers of this State to draw and pay warrants for salaries to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education."

Sec. 3. The Governor shall issue the necessary proclamation for said election, and have the same published as required by the Constitution and laws of this State, and the sum of Five Thousand Dollars (\$5,000.00), or so much thereof as may be necessary, is hereby appropriated from any funds in the State Treasury, not otherwise appropriated, to defray the expenses of printing said proclamation and of holding said election. 31-4tc

**A JOINT RESOLUTION** proposing an amendment to the Constitution of the State of Texas authorizing the Legislature to appropriate Seventy-five Thousand (\$75,000) Dollars or so much thereof as may be necessary to pay claims incurred by John Tarleton Agriculture College for the construction of a building on the campus of such college pursuant to deficiency authorization by the Governor of Texas on August 31st, 1937.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**  
 Section 1. That the Constitution of the State of Texas be amended by adding a new section, as follows:

"The Legislature is authorized to appropriate so much money as may be necessary, not to exceed Seventy-five Thousand (\$75,000) Dollars, to pay claims incurred by John Tarleton Agricultural College for the construction of a building on the campus of such college pursuant to deficiency authorization by the Governor of Texas on August 31st, 1937."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at the next general election to be held on the first Tuesday after the first Monday in November, A. D. 1942, at which all ballots shall have printed thereon: "For the constitutional amendment authorizing the Legislature to pay for building constructed for John Tarleton Agriculture College;"

"Against the constitutional amendment authorizing the Legislature to pay for building constructed for John Tarleton Agriculture College."

Each voter shall scratch out one of said clauses on the ballot, leaving the one expressing his vote on the proposed amendment.

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State. The expenses of publication and election for such amendment shall be paid out of proper appropriation made by law. 31-4tc

**A JOINT RESOLUTION** proposing an Amendment to Article 3 of the Constitution of the State of Texas authorizing the lending of Two Million Dollars (\$2,000,000) of the Permanent School Fund for the construction of a State office building or buildings; providing for repayment to the Permanent School Fund; providing for the submission of this Amendment to the voters of this State; and providing for the necessary proclamation and expense of publication.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**  
 Section 1. That Article 3 of the Constitution of the State of Texas be amended by adding thereto a new section to be known as Section 49-b, which shall

read as follows:  
 "Section 49-b. The Legislature may provide by law for the issuance of not more than Two Million Dollars (\$2,000,000) in bonds or obligations of the State of Texas to the Permanent School Fund for the construction in the City of Austin of a State office building or buildings, and the State Board of Education is hereby directed to invest not more than Two-Million Dollars (\$2,000,000) of the Permanent School Fund therein. Such bonds shall be executed on behalf of the State of Texas by the Governor and Comptroller, and shall bear a rate of interest not to exceed three (3) per cent per annum, payable annually; they shall be of such denomination as may be prescribed by law, and shall be payable in not to exceed twenty-five (25) equal installments, beginning one (1) year from date of issuance; and the State Treasurer is hereby authorized and directed to set aside into a special fund annually at the beginning of each fiscal year until all of said bonds shall have been paid off and discharged, a sufficient amount of the first moneys coming into the Treasury for the use and benefit of the General Revenue Fund not otherwise heretofore obligated to the payment of bonds and interest, a sufficient amount to pay the interest becoming due and the bonds maturing during such fiscal year. From said fund, the Treasurer shall pay the interest on said bonds as it comes due, to the credit of the Available School Fund; and shall pay off said bonds as they become due and deposit the amounts so paid to the credit of the permanent School Fund. The power hereby granted to issue bonds is expressly limited to the amount stated and to five (5) years from and after the adoption of this grant by the people."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified voters of the State of Texas at an election to be held on the third day of November, 1942, at which election all voters favoring such proposed Amendment shall write or have printed on their ballots the words:

"For the Amendment to the Constitution of the State of Texas authorizing the investment of not more than Two Million Dollars (\$2,000,000) of the Permanent School Fund in bonds of the State of Texas to be issued for the construction of a State office building or buildings and providing for the repayment of the said sum of money to the Permanent School Fund."

Those voters opposing said Amendment shall write or have printed on their ballots the words:

"Against the Amendment to the Constitution of the State of Texas authorizing the investment of not more than Two Million Dollars (\$2,000,000) of the Permanent School Fund in bonds of the State of Texas to be issued for the construction of a State office building or buildings and providing for the repayment of the said sum of money to the Permanent School Fund."

Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and have the same published as required by the Constitution and existing laws of the State.

Sec. 4. The sum of Eight Thousand Dollars (\$8,000), or so much thereof as may be necessary, is hereby appropriated out of any fund in the Treasury of the State not otherwise appropriated to pay the expenses of said publication and election. 31-4tc

H. J. R. No. 24  
**A JOINT RESOLUTION** proposing an Amendment to Article V of the Constitution of Texas by providing that the Legislature shall have the power by local or general law, in counties having a population in excess of two hundred thousand (200,000) inhabitants to create other courts having exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters;

fixing the time for an election therefor; prescribing the form of ballot; providing for a proclamation of such election and the advertisement thereof; and making an appropriation therefor.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**  
 Section 1. Article V of the Constitution of the State of Texas be amended by adding thereto a new section to be known as Section 22-a and reading as follows:

"Section 22-a. The Legislature shall have the power, by local or general law (without the necessity of advertising any such local law), in counties having a population in excess of two hundred thousand (200,000) inhabitants according to the then last Federal Census, to create other courts having either exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified voters of the State of Texas at an election to be held on the third day of November, 1942, at which election all voters favoring such proposed Amendment shall write or have printed on their ballots the words:

"For the Amendment to the Constitution of the State of Texas authorizing the investment of not more than Two Million Dollars (\$2,000,000) of the Permanent School Fund in bonds of the State of Texas to be issued for the construction of a State office building or buildings and providing for the repayment of the said sum of money to the Permanent School Fund."

tutional Amendment shall be submitted to the qualified voters of the State of Texas at a special election to be held on the first Tuesday after the first Monday in November, 1942, at which time all voters favoring such proposed Amendment shall have written or printed on their ballots the following:

"For the Amendment to the Constitution, providing that the Legislature may in certain counties create other courts having either exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters."

Those voters opposed to such Amendment shall have written or printed on their ballots the following:

"Against the Amendment to the Constitution, providing that the Legislature may in certain counties create other courts having either exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters."

If it appears from the returns of said election that a majority of the votes cast is in favor of the Amendment, the same shall become part of the Constitution of the State of Texas.

Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have it published as required by the Constitution and existing laws of this State.

Sec. 4. The sum of Ten Thousand Dollars (\$10,000) or so much thereof as may be necessary is hereby appropriated out of the State Treasury not otherwise appropriated to pay the expenses of said publication and election. 31-4tc

College Station.—Modern home makers keep vitamins and minerals in mind as they decide on the day's menus. One food which contains several minerals is molasses, according to Hazel Phipps, Extension Service specialist in food preparation.

By preparing any one of the following desserts a homemaker will supply her family with a dessert rich in iron, calcium and phosphorus.

**SORGHUM MOLASSES CAKE**  
1 c sorghum  
1-2 c sour milk  
1 t. salt  
1 t. baking powder  
1-4 c fat  
1-4 c finely chopped nuts  
1 t. cinnamon  
1 egg  
1 3-4 c flour  
1-4 t. soda

Mix well together the fat, molasses, egg, and sour milk. Mix and sift together the flour, salt, cinnamon, soda and baking powder. Combine the two mixtures and beat to a smooth batter. Pour into a greased and floured pan about one inch thick and sprinkle over with chopped nuts. Bake about 30 minutes in a moderate oven 350 degrees F.

**DROP COOKIES**  
1-2 c fat  
1-2 t. salt  
2 t. baking powder  
1 c cane sirup  
1 t. vanilla  
1-4 t. soda  
1 egg, beaten  
2 1-4 c flour  
1-2 t. ginger

Heat the sirup and the fat until the fat is just melted and add to the beaten egg. Sift together the dry ingredients and add the liquid. Stir well and drop by spoonfuls on a greased baking sheet. Bake in moderate oven 375 degrees to 400 degrees F. until brown. Remove from the sheet while hot.

**CANDIED SWEET POTATOES**  
6 medium sized sweet potatoes  
4 T butter  
1 c sirup  
1-2 t. salt

Partly cook the sweet potatoes in boiling water, cool and skin. Cut the sweet potatoes in halves lengthwise or in three pieces if they are large. Put in a greased baking dish large enough for just one layer, not packing too closely. Heat the sirup, salt and butter, and pour over sweet potatoes. Bake in a moderate oven for 1 hour or more, basting often.

Mr. and Mrs. L. C. Ackers and Mrs. Anna Moores of Clarendon spent the week end with Mrs. G. E. Benson and family.

Mr. and Mrs. L. C. Ackers and

there stole into the world a host of heroes. During the one year 1809, William Gladstone was born at Liverpool, Alfred Tennyson at Somersby and Oliver Wendell Holmes made his first appearance in Massachusetts. On the very selfsame day of that year, Charles Darwin made his debut at Shrewsbury and Abraham Lincoln drew his first breath in old Kentucky. Music was enriched by the advent of Frederic Chopin at Warsaw and of Felix Mendelssohn at Hamburg, but nobody thought of babies, everybody was thinking of battles. Yet, viewing them each in the truer perspective which the distance of a hundred and fifty years enables us to command, we may well ask ourselves which of the battles of 1809 mattered more than the babies of 1809? August, 1942, Parent's Magazine.

Mr. and Mrs. Dick Norton of Kansas City, Mo., are visiting Mrs. Norton's parents, Mr. and Mrs. Chas. Hodges.

Betty Sue and Margaret Anne Brotherton of Littlefield are visiting their grandmother, Mrs. B. L. Branson.

From Here, There and Everywhere

The annual toll of farm fires in this country is estimated at 3,500 lives lost. Two-thirds of the national fire loss occurs on farms and in rural communities.

Of the 28,000 railroad passenger cars in the U. S., 14,000 are coaches, 6,500 sleepers, 5,400 baggage-and-coach cars, 700 parlor cars and 500 lounge cars.

Marvin Hall, State Fire Insurance Commissioner, cautions against prolonged storage of waste paper in churches, schools, club houses and similar public

buildings. He suggests storage of waste paper collections in buildings that can be protected against the outbreak of fire due to carelessness.

To feed and clothe the troops in one Army Corps Area requires 98,000 miles of highway and 131 miles of government-owned railways connecting 20,000 buildings of nearly 2,500,000 acres of military reservations.

Three employees of a Cincinnati, O., plant lived within three blocks of each other and drove 36 miles to work each day. Each saved 8,200 miles of driving a year by pooling his car through a Labor-Management committee. The rubber in a tennis ball is equal to that in one roll of adhesive plaster used by the Army.

1-4 t. soda

Mix well together the fat, molasses, egg, and sour milk. Mix and sift together the flour, salt, cinnamon, soda and baking powder. Combine the two mixtures and beat to a smooth batter. Pour into a greased and floured pan about one inch thick and sprinkle over with chopped nuts. Bake about 30 minutes in a moderate oven 350 degrees F.

**DROP COOKIES**  
1-2 c fat  
1-2 t. salt  
2 t. baking powder  
1 c cane sirup  
1 t. vanilla  
1-4 t. soda  
1 egg, beaten  
2 1-4 c flour  
1-2 t. ginger

Heat the sirup and the fat until the fat is just melted and add to the beaten egg. Sift together the dry ingredients and add the liquid. Stir well and drop by spoonfuls on a greased baking sheet. Bake in moderate oven 375 degrees to 400 degrees F. until brown. Remove from the sheet while hot.

**CANDIED SWEET POTATOES**  
6 medium sized sweet potatoes  
4 T butter  
1 c sirup  
1-2 t. salt

Partly cook the sweet potatoes in boiling water, cool and skin. Cut the sweet potatoes in halves lengthwise or in three pieces if they are large. Put in a greased baking dish large enough for just one layer, not packing too closely. Heat the sirup, salt and butter, and pour over sweet potatoes. Bake in a moderate oven for 1 hour or more, basting often.

**Let's Cook Something**

**WHATS COOKING?** That question poses a problem these war-time days when housewives are liable to be seen toting ration books around in order to get anything to cook. The situation is not too bad, however, for amazing results are being obtained with substitutes.

Designed for August is this fresh peach pie recipe which has become a favorite in the W. L. Davis family. Mrs. Davis got the recipe from a friend in Plainview. Don't put off trying it until all the fresh peaches are gone, however, frozen peaches or the canned short-cake type can be used.

**FRESH PEACH PIE**

- 2 cups sliced peaches, sweetened and drained. Arrange in baked pie shell. Make a custard of:
- 1 cup sweet milk
- 1 egg
- 3 heaping tablespoons sugar
- 2 1-2 teaspoon flour
- 1-2 teaspoon vanilla
- pinch of salt

When custard has cooked until thick remove from fire and allow to cool. Pour over peaches in pie shell. Top with 1-2 pint cream whipped stiff and sprinkle with cinnamon and coconut. Put the pie together about an hour before serving. It is much better if not allowed to stand too long before serving.

**He Married the Boss**

Fred McMurray is secretary to advertising executive Rosalind Russell in the laugh riot, "Take A Letter, Darling," which opens Sunday for a three day run at the Star. Constance Moore as a lady whose mind is more on men than on business and McDonald Carey, hailed as a new find as the four-times-married tobacco tycoon, complete the romantic complications. Critics and the public rank "Take A Letter, Darling" as one of the all-time top comedies to come out of Hollywood, back to and including "It Happened One Night."

Rev. and Mrs. Manney, Mrs. L. B. King and Fern McKee of Amarillo were dinner guests of the Edwards' last Sunday.

Miss Edah Park of Hereford spent Sunday in the home of her parents, Mr. and Mrs. J. L. Park. Mrs. O. B. Russell and family visited in the Lynn Powelson home Sunday afternoon.

Mr. and Mrs. J. L. Park and Edah visited Mr. and Mrs. J. L. Clegg Sunday afternoon.

Mr. and Mrs. Arnold Hershey and Marvin Charles visited in the Horace Hershey home Sunday.

Mr. and Mrs. Horace Hershey and sons visited in the L. A. Smith home at Dawn Friday.

Miss Thelma McMinn of Hereford and Lucille Park met Edah Park in Amarillo Thursday. She is here from Denver.

Mrs. G. H. Brookes left Wednesday to visit her daughter in Amarillo after visiting her son, Elliot and Mrs. Brookes.

Rev. and Mrs. James Aiken and children left Monday for San Antonio to spend a two week vacation with relatives. They will visit other relatives in south Texas before returning home.

**Your Money Buys More**

You can't win this war with flag-waving, with slogans or with cheers.

It takes planes, tanks, guns, bombs, shells, ships . . . and these don't grow on trees.

Your money will buy the stuff to beat the Japs . . . but it takes more than just a little . . . it takes every dime and dollar you can rake and scrape and spare.

When you buy a soda, or a stick of gum or a pack of cigarettes . . . spend another dime for Democracy . . . and add another War Stamp to your collection.

OFFICIAL UNITED STATES TREASURY TEXAS  
**WAR BOND QUOTAS FOR AUGUST**

WASHINGTON, D. C., Aug. 10.—Henry Morgenthau, Jr., Secretary of the Treasury, today announced the August War Bond Quotas for the 47 counties in the nation totaling \$815,000,000.

The August quota for the State of Texas is \$27,250,000. In arriving at the county quotas for August the Treasury Department took into consideration major factors affecting incomes which in turn cause significant variations in sales during the twelve-month period.

Hereafter actual bond sales in the various states will be compared with quotas on a cumulative basis. The amount by which sales fall short of or exceed quotas in any month will be added to or subtracted from quotas for future months.

Quotas by counties are:

- Anderson, \$110,000; Andrews, \$2,000; Angelina, \$98,000; Aransas, \$12,400; Archer, \$17,000; Armstrong, \$3,200; Atascosa, \$35,000; Austin, \$45,700;

**Property Gets**

(Continued from Page 1)

Individual property owners than any other class. Premiums on insured dwellings last year accounted for approximately 40 per cent of the fire insurance business written in Texas.

Savings to insurance buyers in Texas as a result of today's order, coupled with reductions during the past six years, reach an approximate total of \$10,000,000, Hall said.

Hall stated that in some instances the savings on fire insurance premiums since the early part of 1936 will amount to 63 per cent. As an example, he said the annual costs of \$5000 fire insurance on a one-story, frame dwelling with shingle roof and tenant occupancy before June 15, 1936 was \$37.50. Now the same amount of insurance on the same type dwelling will cost \$13.88. This will vary slightly in Texas towns according to their respective key rates and fire record credits.

In recounting the substantial insurance savings effected during recent years, the Board recognizes that many factors have contributed to the continued downward revision in fire insurance rates. These include fire prevention practices; the cooperation of city officials with both the insurance department and local fire departments in providing more adequate protection against fires; active cooperation of the firemen; helpfulness of insurance agents in extending aid to insurance buyers, and the cooperation of the insurance companies.

The good fire record credits benefiting 506 Texas towns and cities this year will mean a total saving over normal insurance costs in the amount estimated at over \$2,773,000. In 1939 the Board of Insurance Commissioners made the maximum 25 per cent good fire record credit applicable to all towns and cities. Prior to that time the maximum benefits applied only to towns and cities with an annual volume of \$20,000 or more in insurance premiums.

the regulation of labor, "outlawry of vicious practices" and for "real parity" for agricultural products. Also in Allred's farm program is a platform for the reduction of the rate of interest on government farm and ranch loans to three per cent and for extension of the rural electrification program.

A Hereford delegation met Allred at Dimmitt, where he kept a speaking engagement earlier in the afternoon, and accompanied him here. While here the former governor and federal judge talked to many citizens on the special problems created by the war in this farming and ranching section.

some other cause made the liquid igniter, caused an explosion and started the fire inside the building. Close tried to call the fire department but was unable to make a connection and rushed to town for his father, H. A. Close. Discovering that the fire alarm would not work, Mr. Close drove the truck to the scene of the blaze only to find that the hose was not long enough to reach from the creek to the chemical plant. A trip to town for the fire department's chemical truck revealed that the truck had two flat tires and was out of gas. Damage to the chemical plant was almost complete and value of the property was only partially covered by insurance. The blaze would have caused serious damage in any case, but Mr. Close believes that if fire fighting equipment had arrived soon enough, some property might have been saved.
