

## Around Town

Sights and Faces Seen

The local office of the selective service this week received a post card requesting them to order for the writer one pre-fabricated wheat bin. Last week the draft board received a request for information on sugar for canning allowances. It's not really that the draft board is considered a source of all information—though they do have a surprising amount of it—it's just that that "Local Board" at the first of the address seems to "throw" the post office.

And speaking of the post office and to bring up an unpleasant subject (no connection here) the new federal automobile stamps are now on sale at the post office so begin to get in the mood to plunk down five dollars. The stamps must be on your windshield by July 1.

Emmett Milburn wonders if it rains more and worse in a good wheat year than it does when the crop is poor, or if it just receives more publicity.

And a lot of Hereford filling station operators are wondering what one Amarillo station had to brag about in getting in 500 pounds of scrap rubber on Monday, first day of the drive. Collections here ranged from 750 to 2000 pounds the first day.

Ina Mae Gilbreath, knitting chairman of the local Red Cross unit requests that all women who are now working on wine and brown sweaters, turn these in at the Red Cross rooms this week. "Whether you have finished work on the sweater or not," Mrs. Gilbreath says, "turn it in this week, as we have to get this shipment out within the next few days."

## Poultry Clinic Open To Discuss Problems

Increased poultry production is one of the prime goals of the farm war program, and in response to demands of many poultry raisers of the Hereford territory, extension service agents, in cooperation with the West Texas Feed and Seed Store, will offer a poultry disease clinic today and tomorrow, with two sessions each day, one at 10:30 o'clock in the morning, the other at 2:30 o'clock in the afternoon. Gordon Bell, district poultry specialist, and Otto Russell of Russell Poultry Remedies Company will be in charge of the clinic, admission to which is by presentation of two sick chickens—or two dead chickens, if recently dead.

All poultry producers of the county are invited to the clinic by Miss Sadie Lee Oliver and A. R. Bateman, extension service agents, and by Jack Wright of the West Texas Feed and Seed.

## Service Board Continues Classifying Registrants

Classification news from the Deaf Smith County Selective Service office this week revealed that 14 men have been classified by the board and five others will be reporting for military duty soon.

Those to report for induction are James Walter Spradley and William Roswell Schlegel, both of whom are being transferred for other boards, and Roy Nea McKnight, Richard Alvin Muller and Howard Jacob Hill.

Other classifications:

## Damage Heavy As Hail Cuts Long Path

A hail storm which cut a destructive path across the southwest part of Deaf Smith County and into Farmer and Castro Counties late Sunday afternoon accounted for heavy wheat losses in the sections struck, with damage estimated from 50 to 100 per cent on many farms in the area.

The hail belt started around Bellview, N. M., and did heavy damage around the Bootleg area, missed most of the farms in the Summerfield community but did heavy damage, sometimes in as little as five minutes time, in fields at Rance and Black. Stones were large, and in addition to leveling crops, knocked out window lights and the glass in cars which were standing out-of-doors. Windows at the Santa Fe Station at Black were knocked out, and damage in the entire area, to garden and row crops as well as to wheat, was severe.

Wheat damage was not 100 per cent in all cases, but in much of the territory struck there will be no harvest. Weeping had started this week on garden and row crops pounded by the hail.

## Rev. Goodwin Named Assembly Of God Pastor

Rev. Homer T. Goodwin this week took up his duties as pastor of the Assembly of God Church, where he takes the place of Rev. A. A. Daly, who has gone into evangelistic work.

Mr. Goodwin, who, with his wife and two children, comes here from Dallas, has been engaged in evangelistic work for the past two years. He is already known to many Hereford people, having conducted revival services here within the past few months.

## Lois Standifer To Take Industrial Training

Lois Standifer left Tuesday night for Waco where she has been accepted for enrollment in the Waco War Center, which offers training in radio, machine shop, sheet metal and industrial sewing.

One hundred-fifteen girls are already in training at the school and dormitory space is being enlarged for more.

## Bond Sales Short For First Half Month

Bond sales for the first half of June in Deaf Smith County amounted to \$7,325, chairman J. C. Ricketts reported today, adding that this brings total sales for the year to \$140,189.50.

With goal for the year set at \$398,000, the present figure is considerably short of the quota, and Deaf Smith County citizens will have to work harder at the bond-buying job if they expect to reach the \$398,000 mark by the end of December, the chairman states.

Harvest is ready to start in many sections and it is the hope of the entire committee that farmers will buy bonds to help the war effort.

## Seven Tires Are Stolen Here On Friday Night

Tire thieves made the rubber shortage a little more acute in Hereford Friday night when they made a haul of seven tires, taken from cars which were either left out-of-doors or in unlocked garages.

Sheriff J. O. Newell reports tires stolen from Jeff Gilbreath (one each from a pickup and a passenger car), C. F. Kerr (two tires, one from Reavis Kerr's small Austin car, the other from the C. F. Kerr passenger car), J. B. Elliston, W. R. Schlegel and Bill Hunter.

Hunter did not find out about his loss until he started to Amarillo Saturday, had a flat and discovered his spare was missing. Officer's surmised that the tire was taken Friday night when the others were stolen.

This is the second tire raid staged here since tire rationing orders went into effect. Five tires were stolen in April.

In all cases tires have been taken from cars which were left in driveways, on the street or in unlocked garages and officers warned car owners again to lock cars up every night.

## Younger Boys Register On June 30th

Registration of 18 and 19 year old boys and those who have reached their 20th birthday since the Feb. 19 registration will take place in Friona on Tuesday, June 30, at the Legion Hall.

The 18 and 19 year old boys are not yet in the draft age, and prospects do not point to immediate military service for this group.

Rev. Joe Wilson, in charge of the Friona registration, announces that hours will be from 7 o'clock in the morning until 9 o'clock at night.

## Hen Is An Optimist But Sabotages Production

Be optimistic. Take a lesson from the hen.

In this case the optimistic bird was a Rhode Island Red belonging to Miss Roberta Campbell, who says that the hen had a stolen nest for which a vain search had been made.

The stolen nest, when found, was discovered to contain one white door knob, on which biddy had wasted three weeks of valuable time.

Miss Campbell considers the hen a trusting bird, but not much help in getting over that much-discussed hump in production.

## Community On Eve Of Greatest Harvest

### Retailers For Victory Will Sponsor Sale

The Hereford Retailers for Victory are preparing to start off July retail sales of war stamps and bonds with a record sale on July 1. The hours will be from 12 o'clock noon until 12:15, and in the quarter hour period all merchants of Hereford will stop regular merchandise sales and specialize strictly in war bonds and stamps.

Glenn Weir, chairman of the merchants committee, announces that his group will work with the Chamber of Commerce, all merchants of the city, the B & PW club and perhaps other women's organizations to put the sale over the top.

A group of business men have co-operated to increase the regular stamp stock of all merchants and special salesmen will have receipt books on hand to take care of war bond purchases.

"Get ready now to take not only your change, but your entire purchase, in war stamps on July 1, from noon until 12:15," Mr. Weir announced this week. "This is part of a nation-wide program, and we hope that the people of Hereford will help our merchants to make the plan here an outstanding success."

### Red Cross Sewing Hours Are Changed

Beginning next Monday the Red Cross sewing room will not be open on Saturday, and the rooms will open each week Monday through Friday at 3 o'clock during the summer months.

Next week the Hereford Chapter will ship its quota of production in foreign relief work and work will be begun on comfort articles for camps and hospitals for our own armed forces.

Mrs. Carl Gilliland, production chairman, and Mrs. J. T. Gilbreath, Jr., chairman of knitting, announce that volunteers for individual work and in groups have cooperated in a wonderful manner. Several clubs are working as a unit, the north Hereford Home Demonstration Club are making afghans and the Child Study Club and the Business and Professional Women's Club are working on comfort kits, both clubs financing the various items packed in the kits.

Need Collapsible Tubes  
One hundred comfort kits are being made and equipped in the Red Cross rooms and a tube of shaving cream goes into each kit, along with many other useful things for a soldier, but for each tube of shaving cream purchased a collapsible tube must be turned in. The shaving (Continued on Page 12)

### PROCLAMATION

Whereas, our president and national leaders of the war effort have pointed out that it will take rubber—more than now exists in present stocks or in immediate prospects for synthetic production—to win the war and to keep civilian business functioning for the duration;

And whereas the nation's untapped scrap rubber stock pile has been designated by the president as the source from which much needed rubber may be procured for the war effort and to avert possibility of gasoline rationing as a rubber conservation measure.

Now, therefore, I, C. J. Paddock, Mayor of the City of Hereford, do proclaim the dates from June 15 to July 1 as scrap rubber weeks and do earnestly urge all citizens of Hereford and surrounding territory to gather up every ounce of old rubber material and bring same to the nearest service station, which has been designated by the president as a collection center and where the sum of one cent a pound will be paid for scrap rubber.

(Signed) C. J. PADDOCK,  
Mayor of City of Hereford, Texas

## Bins Help Relieve Storage Problem, Enable Farmer To Take Loan on Crop

### Thompson In Charge Of Draft Register

County Clerk Robert L. Thompson will be in charge of the fifth selective service registration on Tuesday, June 30, when boys 18 and 19 years old and those who have reached their 20th birthday since the last registration in February, will sign up for possible military service.

The hours for registration will be from 7:30 o'clock in the morning until 7:30 o'clock in the afternoon, and the place of registration will be at the county clerk's office. Mr. Thompson has not requested any additional volunteer help, believing that available workers will be sufficient to fill out cards for the registrants, who will not in this case number much more than 100.

Though Congress and war department heads have considered the matter of military service for the teen age youths, prospects are not for any immediate draft of the boys signed up in this registration.

## Office Opens To Help With Farm Labor Problems

J. J. Boley of the U. S. Employment Service arrived in Hereford Tuesday and opened his office in the first building north of the Texas Theatre on South Main Street, where he will be ready to assist with employment problems of farmers and farm laborers.

Mr. Boley asks men needing farm help for the coming harvest and persons desiring farm work to get in touch with his office where employment contacts will be made.

## Scrap Metal Pile Weighs 82 Tons

Eighty-two tons of scrap metal had been gathered this week in the county-wide salvage drive, and though the result is much better than for any previous week, the collection is still far short of the 250-ton quota set for the county.

Committee members urge that persons bringing in scrap rubber combine their salvage jobs and make a collection of scrap metal at the same time.

## Bond Contest Sponsored By Davis-McCracken

A chance to win a \$1,000 war bond grand prize or one of 124 other valuable prizes was offered this week in a contest put on by Allis Chalmers Company and sponsored locally by Davis-McCracken Implement Company.

The contest is open to any one living on a farm, and the requirements are simple—write 100 words or less on "Why Farmers Should Buy War Savings Bonds". In addition to the \$1,000 war bond, winner of the grand award will receive a trip to the Allis-Chalmers Plant, the Great Lakes Naval Training Station and, conditions permitting, a cruise on a U. S. Navy Boat.

Entry blanks are available now at Davis-McCracken's.

## Yield Estimates To 8 Million Bu.

Press day at The Brand office found this community on the eve of perhaps the greatest harvest in the history of the Hereford territory. Estimates placed the 1942 wheat yield as high as 8,000,000 bushels, although the more conservative figured that the present harvest might run as low as 6,000,000 bushels.

A thorough check of Hereford elevators this morning disclosed that no 1942 wheat had been brought to the elevators—but each reported that several loads are expected during the day.

Friday and Saturday are expected to get the elevators crews limbered up, and by the middle of next week things will be going "full blast" unless cutting is delayed by unexpected rains.

Despite hail losses over the week-end, elevator men, farmers and old timers are setting the yield for this territory at a figure between 6,000,000 and 8,000,000 bushels. Around 260,000 acres have been seeded to wheat this year, according to figures released from the county AAA office; volunteer wheat is tentatively set at around 40,000 acres, bringing the total acreage to 300,000 in Deaf Smith County alone. The county contains approximately 960,000 acres of land—550,000 in crops (300,000 acres of which his wheat) and 410,000 acres in grass lands.

Don't Cut Too Early  
Farmers were specifically warned not to cut their wheat too early. Elevator men pointed out that the government will not advance loans on wheat which contains more than 14 per cent moisture, and said that they will be forced to turn down any wheat which tests higher than this figure.

Little difficulty is anticipated in combining the tremendous crop. An acute labor shortage, which has been expected, also seems to have been averted due to the fact that a large number of workmen and combines have moved in from outside territories. However, when harvest really gets underway, it is possible that these two factors may cause increasing trouble.

Trucking and Storage Problem  
Apparently the greatest hazards to the 1942 crop are in the shortages of trucking facilities and storage. Just how great these obstacles will prove remains to be seen as the harvest season gets underway. Vacant buildings have been rented in every possible instance and local elevators have booked every possible chance of terminal storage. Farm storage is also an undetermined factor at present. Many producers are still building granaries, but possibilities along this line are unknown—although it will afford a large amount of storage.

Elevator Storage Indefinite  
Local elevator storage is also indefinite, since no one knows just how much 1941 wheat still remains in Hereford elevators. In Hereford there is around 1,310,000 bushels of storage; Dawn and Black afford an additional 140,000 bushels, boosting the total to 1,450,000 bushels.

## Civil Service Jobs Announced Here

The U. S. Civil Service Commission announces that applications will be received for the positions of classified laborer, \$1,200-\$1,500 a year; storekeeper, \$1,280-\$1,800 a year; senior storekeeper, \$2,000; senior guard, \$1,200 and principal guard, \$1,500 a year. Employment will be with Pan-Tex Ordnance Works and Air Corps Technical School, War Department, and the Amarillo Helium Plant, Bureau of Mines, Amarillo.

Application blanks and further information regarding duties, qualifications and other requirements may be secured at the Hereford Post Office.

## Pounce On Every Ounce, Advice Followed Here In Rubber Drive

Out to do their part in the nation-wide rubber salvage drive, citizens of Hereford and surrounding territory were this week getting in the rubber scrap, with indications pointing to 100 per cent cooperation with the government in the drive to "keep 'em rolling".

With as much as 2,000 pounds of old rubber turned in at one filling station on Monday, the first day of the drive, at least seven tons had been gathered up by Wednesday as everything from old tires to preserve jars were turned in.

Filling stations are paying the government at a price of one cent a pound for the old rubber, which will be turned over to rubber re-claiming plants to be made into the many rubber articles needed vitally by the armed forces.

May Avert Gas Rationing  
Added impetus to the drive in this section of the country is the feeling that if enough scrap rubber is salvaged, national gas-

oline rationing as a rubber conservation measure will be averted. Rosiest picture is painted by some experts who hope that the campaign will bring in enough scrap to provide for some retreads for civilian tires; but even should there not be enough for any civilian use, provision for army and navy demands may prevent gas rationing in oil producing territories.

Anything Goes  
According to national heads of the drive, not one bit of rubber is too small, too worn or too old to enlist in this drive. Kitchens must be ransacked for rubber gloves, aprons, old rubber-covered dish drainers, drain board mats, faucet sprays, sink stoppers, preserve jar rings, dish sponges and ice cube trays.

Bathrooms must be searched for shower caps, soap dishes, drain plugs, rubber sponges and old shower sprays. Even the tiny rubber bulbs from the droppers in the medicine closet are worth re-claiming. The oldest hot wa-

ter bottle must not be overlooked, nor the syringes and the ice bags.

Out in the hall closet may be hanging a rubber raincoat that no one likes the looks of. With the outgrown or worn-out rubbers and galoshes, it will make a fine show in the scrap pile. From the weler of tennis balls and tennis shoes the youngsters can salvage many a valuable piece of scrap.

Even the nursery can yield its quota of baby pants, crib pads, bibs, nipples, pacifiers, teething rings and toys; while the bedroom should be a veritable treasure chest of rubber hair curlers, girdles, combs, dress shields, garters, suspenders and run-down rubber heels.

"Pounce On Every Ounce" is the slogan as far as the rubber salvage drive is concerned and every citizen of Hereford is urged by local, state and national officials to carry out that slogan.

MRS. JIM CLARK

The hail which came Sunday afternoon got entirely too close to this community for comfort.

W. L. Johnson in the Black Community estimated his wheat at about 50 per cent damaged. Nearer Black the damage seemed to be heavier.

H. G. (Hank) Behrends, Neal Cross, and others of the Rance Community were completely halted out.

Wheat of course was not the only loss. Feed stuff and gardens were also damaged—some of them being completely destroyed.

Seventy two persons attended Sunday School Sunday morning. Some eight or ten more came for the preaching hour.

Twenty-four children from this community were enrolled in the Daily Vacation Bible School which has been in progress the past two weeks in the Baptist Church at Hereford. A number from here attended the final services of the school Sunday evening.

Mrs. B. E. Roberson, Mrs. Rav Johnson and Mrs. Ross Roy were in Amarillo Monday. Miss Shirley Ruth Thomas, a sister of Mrs. Roy accompanied the women to Amarillo and went on to Dalhart where she works.

Mae Streu, to First Federal Savings and Loan Association of Amarillo, part of Blk. 9, Evans Addition to Town of Hereford.

J. A. Dickson to Stanley Bassett, trustee for Kansas City Life Insurance Co., S 320 acres of Section 70, Blk. K-3.

C. T. Guseman to J. C. Rickerts, all of Section 11, Township 3, Range 2.

Eldon Mericle and Miss Claudine Newman, June 2.

Leaving early Monday morning to attend Boy's Camp in Ceta Gien were Harold Clark, Bobby Coker, Bobby Clark, Jim Suttle, Paul Lance, C. J. Lance, Wayne Lee, Wendal Roberson, Harold Gowan, Rev. M. D. Rexrode and Miss Gertrude Atchley.

Planning to go to Girls Camp which started Wednesday at noon were Letha Fay Roy, Joan Walser, Charlene Lee, Dorothy Lee, Billie Ray Johnson, Jewel Clark and Mrs. M. D. Rexrode.

L. H. Lookingbill spent several days recently at his grandfather's ranch in New Mexico.

Miss Shirley Ruth Thomas of Dalhart visited her father, C. B. Thomas, Mrs. Thomas, and other relatives here over the week end.

Everett Storey has arrived home to help his father during wheat harvest. Everett's entrance into the army has been delayed because of an arm injury which he received several months ago.

Mrs. Geo. DeLozier, Mrs. R. D. Lance, Jr., and Roy Suttles were in Wichita Falls last week visiting R. D. Lance, Jr., a private at Sheppard Field.

Miss Billie Louise Lance has been in Hereford at the home of her grandmother, Mrs. C. H. Carl, the past several days recuperating from an attack of appendicitis. Her mother, Mrs. Earl Lance and Rosene and Jerry Don, have also been in the Carl home.

Attending a birthday dinner Sunday, honoring E. H. Fullwood in the R. A. Fullwood home at Hereford were Mrs. D. C. Walser and Mr. and Mrs. Charlie Noland and family.

Sunday visitors in the B. A. Atchley home were Mr. and Mrs. Bill Knox and family of Hereford and Mr. and Mrs. H. D. Hill of Ford.

A large number from this community attended the funeral services Friday afternoon at the Baptist Church in Hereford for Dr. G. F. LeGrand.

Mr. and Mrs. Ky Lawrence who

were in Hot Springs, N. M., recently report that fishing is grand although the flood waters are still rising. Some boat docks which had already been moved to higher ground once, were moved again while they were there.

Jody Young, who has been working for the Lawrences for several weeks, returned to Hot Springs with them to be drafted into the army.

The W. M. U. met Wednesday afternoon for a combined Bible lesson and missionary program. In the absence of the leader, the president, Mrs. B. E. Roberson, very capably handled the program as prepared in the Royal Service Magazine.

During the Bible lesson period a "Spelling match" with questions instead of words was featured under the direction of Mrs. Jim Clark.

Members attending were Mesdames Roberson, Clark, Ky Lawrence, L. L. Cannon, J. B. Noland, M. D. Rexrode, O. B. Sumner and one new member, Mrs. Ross Roy. July 22 is the date set for the next mission study book, Mrs. D. C. Walser will teach "Talks on Soul Winning."

Mr. and Mrs. Evans, their son and wife and two children from near Phoenix, Ariz., arrived here Thursday to make their home on the H. Trigg farm.

Mr. Evans is a brother of Joe Evans.

Edward Ray Hawkins, son of Mr. and Mrs. Walter Hawkins of Lamesa, arrived Saturday to visit his grandparents, Mr. and Mrs. B. A. Atchley.

Mr. and Mrs. Earl Lackey and family of Littlefield, Mr. and Mrs. Jack Streu and sons of Rance and Mrs. Albert Farris of Hereford were supper guests Saturday evening in the R. D. Lance home. Earl Lackey, a sister of Mrs. Lance did not know Mrs. Lance was away from home.

## BULL

By Jimmie Gillentine

Mrs. Troy Womble brought in a dish of strawberries this week, and she gets my nomination as champion strawberry grower of this section. She says that they are of the Gem variety and that they are prolific in their yields. I can vouch for the flavor. Mrs. Womble's berry patch is around 10x15 feet and she says that she has been gathering from three quarts to a gallon of strawberries daily for the past two months. She set them out in the spring of 1941.

Strawberries seem to do exceptionally well in this area, as reports of other nice yields have been noted this year. Try some of these home grown berries on breakfast cereal for a real treat.

The hail was terrible out west Sunday. E. B. Black returned from Alabama last week and drove out Sunday to look over the crop on their place in the Black Community. He estimated an easy 50,000 bushel yield. Monday morning around 10:30 o'clock he told me that he was sure they wouldn't harvest a single bushel. A most remarkable thing was that Mr. Black laughed as he told of the incident. As he walked on down toward the post office, I got to wondering what 50,000 bushels of wheat was worth compared to an ability to laugh in the face of such disaster. I have known a lot of people who would have had a nervous breakdown, and I am sure that I would be screaming to high heaven.

Medicine is probably the one profession through which man can best serve his fellow creatures, and certainly there is no other person comparable to the community doctor.

This entire section is grieving the loss of a fine old gentleman, Dr. LeGrand. During his span of life the doctor wrote approximately 175,000 prescriptions. Around 160,000 of these prescriptions were written in this community, bringing relief, comfort and happiness. Someone remarked that there are very few houses in this immediate section in which Dr. LeGrand had not been during the years he served the people of this area. Medical science reports an ever increasing span of life for mankind. This is due almost entirely to the efforts of men like Dr. LeGrand.

Have you rounded up your scrap rubber yet? If not, this should be done immediately. President Roosevelt put it squarely up to the people when he said gasoline rationing will depend entirely upon the amount of rubber which is brought in for National Defense.

This means more to Texas than you may think. The loss of your automobile may not be serious, but it would be nothing compared to the loss of your schools, or to the tremendous taxes you would be forced to pay if Texas loses its oil industry. This state gains tremendous amounts from oil. I do

not have the figures, but I can tell you that life would be extremely different in this state and community should the taxes which we derive from oil be eliminated. With this in mind, there are two distinct reasons for entering 100 per cent into the rubber salvage program. The first one, pointed out above, is purely selfish. Secondly, our country needs this rubber to win the war, and it is our duty as American Citizens to join this campaign.

Here's another good thought. When you take your old tires to the service station be sure and ask for your pay in Defense Stamps. This is another form of helping our government and the boys in our armed forces.

## Messenger News

MRS. J. N. MESSENGER

This community had one-half inch of rain and hard hail Sunday, doing considerable damage. Some 50 to 80 per cent damage to wheat in some of the best fields.

The gardens and flowers are almost ruined.

Melvin Allen drove his truck to Oklahoma, returning his brothers' tractor and the plow he was using on land he is going to put in wheat this fall.

Elsie Messenger is staying with Mrs. Allen and Stephan has been doing chores.

Melvin intends to help his father in the wheat field while he is in Oklahoma.

Several from this community attended the funeral of Dr. LeGrand. His loved ones have sympathy of all that knew him and loved him for years.

### FORMER RESIDENT VISIT RELATIVES

Mr. and Mrs. Lee Biggs and family of Amarillo were guests of his sister, Mrs. Ed Cox and family, here Sunday. Also here were Mr. and Mrs. John H. Biggs of Tucumcari, N. M. They came for their two small daughters, Shirley Ann and Mona Sue, who have spent the past two weeks in Hereford with their grandmother, Mrs. Russell Carroll, and other relatives.

Betty Morrow left Saturday for Amarillo where she will spend two or three weeks with her grandmother, Mrs. Allie Wren. Betty is the daughter of Mr. and Mrs. Jerry Morrow.

Mr. and Mrs. J. E. Walker, Jr.,

Mr. and Mrs. C. M. Hicks and family went to Amarillo Sunday to see their daughter, Miss Ida Belle Hicks, a student nurse at St. Anthony's School of Nursing. While there they were also guests of other relatives.

Clinton Massie left Monday for New Orleans where he is stationed with U. S. Army Air Corps. He has spent a week's furlough here with his parents, Mr. and Mrs. O. L. Massie.

Miss Jane Smith of Amarillo returned to her home Monday after spending the week end here with Margaret Barber in the home of her parents, Mr. and Mrs. Ray Barber.

Rev. and Mrs. James Alken, Jr., and two small daughters are spending this week with her relatives in Palmer. They plan to return Saturday. They were accompanied by Mrs. E. S. Ireland who is visiting her son, Edgar in Dallas.

Mr. and Mrs. H. C. Baird returned from Colorado where their son, Bob Baird, is stationed at Ft. Morgan with the U. S. Air Corps. He was transferred there for a month's training in Gilder work after completing his upper classman's training in Tulare Calif. They were accompanied by their daughter, Miss Mary Ann Baird and Miss Billie Bea Flesher of Canyon, cousin of Mary Ann.

Mrs. Homer Fox went to Tulsa Monday to visit a brother, R. G. Glennin, who has been ill.

Bill Foraker of Fort Knox, Kan., is visiting in the home of two aunts, Mrs. Ray Barber and Mrs. Gladys Skelton. Mr. Foraker plans to stay two or three weeks, the length of his visit depending on a selective service call.

Mrs. Pearl Bibrey of Foreston and Mrs. O. R. Tippis of Wichita Falls are here for visits with relatives. They are sisters of Mrs. Heber Howton, Mrs. Jack Roberson and Mrs. J. B. Harlin.

Gaston Baer left Saturday for Los Angeles, Calif., and the latter part of this week Mr. and Mrs. Baer plan to return to Hereford. Mrs. Baer accompanied their daughter, Hertha, to Los Angeles last week. She will remain for a longer stay in California.

Mr. and Mrs. L. Z. Oldham, Mrs. Carl Oldham and small son, Don, have returned from a vacation trip spent in Houston, Galveston and Port Lavaca.

Floyd Ross, summer school student at Texas Tech, spent the week end here with his mother, Mrs. Dorothy Ross.

**BAPTIST CHURCH NEWS**  
Our Vacation Bible School closed last Sunday night with commencement exercises at the evening hour. In spite of unexpected difficulties, our attendance was fine. There were 197 enrolled and the average attendance was 148. We believe that it was the best school that we have ever had.

Next Sunday morning we will have a special service. Three men were elected by the church to be added to the deacons and they will be ordained at the regular morning service. They are Jimmie Allred, Ercel Young and Wayne Evans. Bro. Ponder our District Missionary will be with us to help us in this service. It is not often that we have such a service and we invite all who will to be present. Bro. Ponder will bring the sermon in the ordination service and the pastor will preach at the evening hour.

We invite all who are Baptists to worship with us regularly and to unite and work with us. If you are not a Baptist and do not have a church of your choice here, we invite you to worship with us while here. Let's all heed the advice of the scriptures and attend church regularly. Nehemiah asked long ago: "Why is the house of God forsaken?" That is true in the lives of many people today. Let's worship God in his house on the Sabbath day.

## Do Not Cut Your Wheat Too Early!

### The Government Loan

has been set at

**\$1.10 per Bushel**

**But Regulations Are Strict on Moisture Content!**

**AS ALL OF YOU KNOW,**

### Storage Is Short

Last year the wheat crop was meager as compared to that which is expected this season. Last year your elevator men took much wheat which ran high in moisture, due to conditions. However, conditions are reversed this season.

Due to labor shortages, lack of sufficient space for storage and General Regulations, it will be impossible to "turn and dry" wheat on a large scale. Therefore, your elevators will find it Absolutely Necessary to refuse acceptance of "wet" wheat; the Government refuses loans on wheat which runs higher than 14 Percent Moisture — and this will have to be the policy of your elevators.

The 1942 crop will likely be the hardest wheat crop any of us has ever handled. As your elevator men, we want to serve you to the best of our ability and to your best interests. We are asking, and know we will get your full co-operation.

Remember, we will gladly make a test on your samples if you are in doubt as to their moisture content.

### Young Musicians Display Talent And Delight Audience

Perhaps one of the most enjoyable events of the season for music lovers was the musicale given by two local musicians Thursday night at the First Christian Church.

Miss Nola Margaret Blue, W. T. S. C. student and daughter of Mr. and Mrs. R. G. Blue, presented three classical and four modern songs. Her sympathetic interpretation of the dramatic "I Have Lost My Euridice" (Gluck) from Orfeo and Euridice, was especially appreciated by the listeners. Although of a lilting lyric quality, her voice has a wide range with unusual richness in the lower tones.

Her songs included selections from Handel, Gluck, Schumann, Charles Huetter, Harriett Ware, C. Whitney Coombs, and Alicia Needham. Mrs. J. C. McCracken was her accompanist.

Mr. Shirley, pianist, a public school music major at T. C. U., opened the program by playing "Sonata in A" (Scarlati). He showed an intellectual concept of his selections and splendid technique was displayed in "Papillons" (Schumann), a difficult arrangement of contrast in movement. He closed his part of the program with a gay and riotous selection "Minstrels" (Debussy) which was played with much expressiveness and which delighted the audience. He is the son of Mrs. Jeff Gilbreath.

### Lou Says It's "Line Of Duty"

Combining mirth, music and romance, "Rio Rita" will open Sunday for a three day run at the Star Theatre, with Abbott and Costello, cavorting through the proceedings as spy chasers in the modern version of the hit musical comedy.

Kathryn Grayson and John Carroll offer romance and melody as a background for the antics of the comedians, and Patricia Dane, pictured above, is the "menace" of the show. Guaranteed to keep Abbott and Costello fans rolling in the aisles are the spy catching activities of the two comics.

Both students showed excellent training. They performed with ease and poise, at no time giving an effect of effort, at the same time the audience was conscious of the enormous amount of hard work and continued practice that precedes such accomplishments.

**Pen Roosters After Hatching Season Ends**

After the hatching season ends pen up the roosters, or sell them or can them. Otherwise, says George P. McCarthy, poultry husbandman of the A. and M. College Extension Service, a \$15,000,000 loss may result from production of fertile eggs during the summer. That sum would buy a lot of machineguns or cannon, but even more serious is the loss of food stocks it represents.

Realizing this, County Agricultural Agent John Moosberg arranged a "Rooster Day" through the Shelby County USDA war board, and Mayor Y. W. Rogers of Center made it official with a proclamation which requested that:

"There shall not be heard a cock's crow within the corporate limits of the City of Center during the 150 day period beginning the morning of May 9, 1942, except such cock bird be confined in a pen or yard individually, or with one or more of his

**Baby Pipsqueak Is Doing Fine**

One of the most difficult tasks ever attempted by a bird fancier is that of raising a hummingbird. Mrs. G. Tomby, Seattle, Wash., built artificial bird nests and perches, gave flying lessons, gathered spiders, chased insects, and did a host of other tasks to raise Baby Pipsqueak. He is fed a special formula 45 times a day, and squeaks a loud complaint when he isn't fed on time. Bird experts are amazed at Baby Pipsqueak's progress.

kind, and that the owner of the birds so confined should not permit the entry of the female of the species that may or may not be producing eggs which may reach the kitchens and pantries of our city."

"But why stop with the roosters?" McCarthy asks. "Pen the broody hens. They break eggs and reduce the quality of eggs. A small pen without a nest or roost soon discourages broodiness."

Clean litter, especially in nests, helps to decrease the number of soiled eggs. If possible have at least one nest for every five hens. Gather eggs at least twice a day in a wire basket, which allows air to circulate around them and reduces the internal temperature. Many farm families have built an iceless refrigerator for holding eggs to check evaporation and reduce internal temperature. Eggs kept in this refrigerator, plans for which may be obtained from county extension agents, suffer little, if any, deterioration in quality when marketed twice weekly.

**Wedel Gets Commission As Air Corps Bombardier**  
 Louie Wedel, son of Mr. and Mrs. H. T. Wedel of Hereford Saturday night received his commission as Second Lieutenant, Air Corps, and the wings of an Aerial Bombardier in graduation exercises for a class of 70 at the Air Corps Advanced Flying School at Albuquerque, N. M.  
 Lt. Wedel was in Hereford this week visiting his family and friends and expected to be stationed for some time at an East Coast air base.  
 Prior to his advanced training at Albuquerque, Lt. Wedel was stationed at Goodfellow Field and Ellington Field, Tex. His bombardier training has been taken over a period of six months. Lt. Wedel served as an enlisted man in the Air Corps personnel from Sept. 1940, until he started training as a cadet.  
 Makes Sergeant Grade  
 George E. Brashear, brother

of Mrs. W. S. Rice of Westway, has recently been promoted to the rank of Sergeant, according to a news dispatch from Fort Clark, Tex., received here this week.  
 Brashear is in the 112th Cavalry.

**Petersen in Coast Guard**  
 Robert Petersen, son of Mr. and Mrs. A. Petersen, left Tuesday for New Orleans for enlistment in the U. S. Coast Guard. Petersen had filed application for enlistment at Amarillo and was sent to the Algiers Coast Guard Station for induction.

**Mostly Concerning Marines**

Editor's Note: We have received a letter from Cpl. Raymond Starling of the U. S. Marines who feels that we do not give enough credit to the Marines in our service column. Cpl. Starling, a buddy of Cpl. Vernon Wederbrook, sends the following information about Hereford men now serving in the marines.

Cpl. Starling lists the following Marines from Hereford: Cpl. Vernon Wederbrook; Cpl. J. E. Smith, P. F. C. J. C. Vaughn and P. F. C. R. H. Wederbrook, reported missing in action on Bataan. Added to Starling's list is the name of 2nd Lt. Charles Spradley, now ready to complete a training period in Pennsylvania.

Starling says, "The Marines have fought in every battle of the U. S. since 1776. They were armed even before the army of navy and have never lost a fight."

"The Marines are known by the following names: Devil Dogs, Soldiers of the Sea, Uncle Sam's Watch Dogs, Bull Dogs and Leathernecks."

Add Marine Corps News: Cpl. Jack Smith is now in training for the new marine paratroops, who will also get glider training. Smith returned recently from Iceland, where he went in the first Marine contingent last July, and is now in California.

The following information should be useful in stretching one pound for four quarts sugar canning allowance and will help you plan your canning methodically:

**HOW TO PLAN YOUR CANNING FRUIT**

When you buy fruit in bulk, you should know that:

- 1 bushel of apples weighs 50 pounds.
  - 1 bushel of pears weighs 58 pounds.
  - 1 bushel of peaches weighs 50 pounds.
  - 1 peck of plums weighs 14 pounds.
  - 1 quart of berries measures 4 cups.
  - 1 quart of cherries measures 5 cups.
- When you measure your fruit, you should know that these amounts will can one quart.
- 7-8 apple (2 1-2 pounds).
  - 8-10 peaches (2-2 1-2 pounds).
  - 5-6 pears (2 1-2 pounds).
  - 24-32 plus (1 1-2-2 pounds).
  - 5 cups berries (1 1-4-1 1-2 pounds).

**EQUIPMENT**

Supplies of glass jars, tin cans, jar rubbers, and closures are expected to be adequate for this year. Make the best possible use of yours. Be sure that they are really well filled with fruit.

Here are a few ways to "stretch" your sugar for canning.

Add a small amount of sugar to the fruit's own juices, instead of making the usual sugar sirup. Fruits naturally contain a great deal of water, and you can make best use of your sugar by sweetening this rather than by adding more water in the form of a sirup.

Heat the slightly sweetened fruit carefully in a saucepan. This draws out the juices, shrinks

the fruit, and drives out the air, making it possible to pack generous amounts of fruits in each jar. There should be enough juice to cover the fruit completely.

Honey may be used to replace up to one-half the sugar called for in canning, and corn sirup up to one-third.

Fruit juices are not provided for in sugar-rationing allowances but they may be bottled or put up in jars with little or no sugar. When sweet and tart juices are mixed together, no sugar is needed. Fruit for juice is processed at simmering rather than at boiling temperatures to keep the natural fruit flavors.

If you need help in your canning, consult your county home demonstration agent, your home economics teacher, or any other canning expert in your locality. Bulletins on home canning are available both at your State College of Agriculture and from the United States Department of Agriculture.

MRS. ULLMAN HUNTER

Miss Margaret Simpson went Friday to Amarillo, where she entered St. Anthony's School of Nursing.

Mr. and Mrs. Ben Fortner of Arney were guests of her sister, Mrs. Addison Hunter, and family Sunday.

This community mourns the passing of Dr. LeGrand.

He ministered to the dirty, unkept and penniless people just as carefully and tenderly as he did to the well-dressed person who

had money to pay his bills. A practiced principle of his was that "We are put here to help one another." We extend sympathy to the family.

Meedames Finis, and Addison Hunter attended a party Wednesday afternoon at Mrs. Owen Andrews honoring Mrs. T. L. Sparkman, Jr., of Frio.

Charles Younts and family of Oklahoma are working for the Bairds and living in a house on the Aiken farm until their home on the Baird farm is repaired.

Saturday, June 20 will be "sugar day," all those who want sugar for canning and preserving fruit please come between 9 a. m. and 7 p. m. to the school building to register. Do not forget your War Ration Books. You cannot get your sugar without them.

Miss Ina Vey Burdine returned Friday from a vacation spent in Lubbock and Ruidoso, N. M. In Lubbock, Miss Burdine visit-

ed her brother, Lester Burdine, and Mrs. Burdine, and joined another brother, Irvin Burdine of the Lubbock Air Base, who accompanied the group on the trip to Ruidoso.

## Till Homo Sapiens Becomes Superman Flight Surgeon Will Have Navy Job

In constant attendance to the men behind the controls of a Navy warplane is a hard working, scholarly and anonymous fellow whose job, and only job, is to keep that man just where he is flying.

He is the flight surgeon, the man of medicine who must keep vigil day and night over the health of the "eyes of the fleet."

Until the day when homo sapiens becomes superman, the Navy pilot is subject to the same bodily ills as is any other mortal. What's more, because of the nature of his work and the medium of space which is his office he is subject to other physical and mental troubles which are not native to earth creatures.

Long after Hippocrates, Harvey, and Pasteur, these doctors of the Twentieth Century are still pioneering trends of the medical science. No longer concerned with simple drugs, with elementary functions of body parts, their task is to lick the bad effects brought on principally by two things—high speeds and high altitudes.

At the U. S. Naval Air Station, Corpus Christi, Texas, these surgeons, members of the Aviation Medicine Department, are concerned with watching the effects both in respect to cadets, the commissioned officers engaged in advanced training or instructors and other members of the flying personnel.

Most of them young men, all have had plenty of flying time, although not all can pilot a

plane themselves. They have to keep in close familiarity with the air and with the sensation of hurtling through it in order to understand the problems with which they daily confront. In brief, they have learned that high speeds produce fatigue and altitudes respiratory troubles. Nervous disorders are not uncommon, but generally they can be traced to a weakness inherent in the particular individual which probably would have manifested itself sometime later in life even if he had never set foot in a plane.

Generally speaking, improved oxygen equipment, improved methods of sealing cabin type planes plus a greater physical strength of the flying personnel (toward which the Navy's new physical fitness program is now hard at work) will go far toward curing flying disorders. However, the flight surgeon must continue to keep check on the men who live "upstairs," cure those of the unfit who are curable, and recommended that other cases be grounded for all time.

Their almost constant job is that examination. They examine the cadets when they arrive at the Station, the pilot officers when they arrive, and all aviation personnel who have completed hospital treatment. In addition they must examine other members of the flying body, machine gunners, bombardiers, radiomen, etc.

### Big Demand for Tomatoes Brings Home Canning

Civilians will have difficulty in buying processed tomatoes over the grocery counters this fall and winter, forecasts Jennie Camp, specialist in home production planning of the A. and M. College Extension Service. An abundant crop in Texas is indicated, but advance orders from the Quartermaster General's department of the United States Army will absorb practically all of the 100 million cases of tomatoes processed in the nation this season.

In view of this, Miss Camp says, "every patriotic housewife, institutional manager and dietitian; every school lunch room supervisor, and restaurant and hotel dining room manager should collect and get in readiness immediately every available glass and second-hand tin container, and see that sealing supplies for these are on hand. They should obtain the latest approved recipes, improvise water bath containers for processing tomato products, and supply themselves with some kind of efficient juicer and puree-making equipment so that as many persons as possible may have tomatoes "some way every day," unless citrus, melons, raw cabbage or strawberries are available as substitutes."

Miss Camp suggests that farm housewives and other buyers should pool their needs under the neighborhood, community and county agricultural Victory leaders, interview local wholesale and retail vegetable distributors and contract with them to supply the high quality tomatoes they will need in addition to what their own gardens will produce.

Ripe or green tomatoes are a rich and cheap source of vitamin C which prevents bleeding gums, loose teeth, sore joints, and loss of appetite and weight. Ripe tomatoes have abundant vitamin A which guards against "dry eye" and night blindness.

## State President of Rebekah Lodge Is Honored Friday At IOOF Hall

Members of the Rebekah Lodge in Hereford and in Dimmitt were co-hostesses at an entertainment given to honor the state president, Mrs. Ruby Jobe of Waco, at the I. O. O. F. Hall Friday night.

Preceding the business session Mrs. Ursalee Jacobsen and Mrs. Gertrude Bailey entertained with a piano duet. After the welcoming drill put on by team members, Mrs. McDowell of Dimmitt presented the honor guest with a gift from the Hereford and Dimmitt organizations and with a corsage. Appropriate music concluded the presentation. After the program a social hour was enjoyed with Wanda Lee

Terry entertaining informally with accordion music.

The following Hereford members made up the arrangement committees Mrs. E. E. Fridley, floor work; Mrs. Arthur Rogers, Mrs. C. M. Hicks and Mrs. J. W. Terry, refreshments; Mrs. Myrtle Witherspoon, Mrs. Ora Lee, Mrs. Lee Cocanougher and Mrs. A. D. Mills, decoration; and Mrs. Hazel Sparks, Mrs. Gertrude Bailey and Mrs. Ursalee Jacobsen, program.

Won't be so bad if the girls do have to go without permanents during the war; the men won't be home to see them anyhow.

## E. H. Fullwood Honor Guest At Family Dinner

E. H. Fullwood, of McAllen, who is visiting his son, R. A. Fullwood in Hereford, was honored on his 81st birthday Sunday when Mrs. R. A. Fullwood entertained with a family dinner in his honor.

Present were Mr. and Mrs. Chas. Noland and children, Bobby and Betty, Mrs. D. C. Walser and children, Joan, Gloria and Carol, Jimmie Fullwood, who is home on furlough from his duties at an Arkansas army post, Ralph Fullwood and the host and hostesses.

Mr. Fullwood, who formerly lived in Hereford, moved to McAllen about eight years ago. He was the recipient of many gifts and of many birthday wishes at the family gathering.

## June Party Is Given For Win One Class

Hostesses for the June party should be doing the happier he for the Win One Class of the

Methodist Church entertained Tuesday afternoon at the home of Mrs. J. E. Beyer. The hostesses included Mesdames Wm. McGehee, T. H. Coursey, D. H. Bryant, E. J. Hudson, E. W. Harrison, I. H. Spratt, J. B. Phillips and Mrs. Beyer.

The devotional was conducted by Mrs. M. M. Beavers and the class president, Mrs. D. H. Bryant, conducted a short business meeting.

The social hour was directed by Mrs. D. W. Hawkins who chose a Flag Day theme. She read a poem on The Flag and conducted an interesting quiz on the generals and other high ranking officers in the army and navy.

Besides the hostesses those attending were Mesdames L. Ellis, M. L. Steele, G. A. F. Parker, J. F. Ward, W. B. Anthony, Hattie Rutherford, H. H. Hawkins, Rose Conklin, Randel, J. B. Hammer, M. M. Beavers, H. M. Benefield, D. W. Hawkins and two guests, Mrs. J. W. Beene and Mrs. Mildred Johnson of Higginsville, Mo., who is visiting her aunt, Mrs. Margaret Heifner.

The more things a loafer should be doing, the happier he is loafing.

Mr. and Mrs. R. M. Gunn, Mrs. Joe Landers and Ross Joe and Mrs. Guy Lawrence and daughters of Hereford left Tuesday morning by train for Wemoke, Okla., where they were called by the death of Ross Gunn, brother of Mr. Gunn. Ross Gunn passed away Wednesday after illness of several months. He has visited here often and has many friends who are sorry to hear of his death. Funeral services were held Friday afternoon at Wemoke. This community extends sincere sympathy to the Gunn family in their bereavement.

Everyone was sorry to hear of the death of Dr. LeGrand, Wednesday. Not only have we lost a doctor but also a friend. Many from here attended the funeral Friday afternoon.

Mrs. Arthur Reed passed away Wednesday morning at the hospital in Hereford after a long illness. Mrs. Reed was a sister of T. J. Grady, and E. J. Parsons. T. J. Parsons and family formerly lived here and now live in Borger. The body of Mrs. Reed was taken to Claude where funeral services were held.

In spite of the rain Sunday night several members of Mrs. Kaul's Sunday School Class went to her home where a weiner roast had been scheduled. The weiners were roasted over the flame on the stove and served with pickles, potato chips, and coffee. Those present included Vesta Mae and Ray Landers, Grady and Howard Gore, Nannette Little, Mr. and Mrs. Merlin Kaul, Larry Carroll and Walter Lynn Kaul.

## Let's Cook Something

Chicken Spaghetti takes you right back to Dixie. There is really no reason why you should not transplant this typical Southern delight to cooler territory. Follow directions carefully and your very first reaction will be enthusiastic.

Mrs. Travis Dameron brought the recipe from her home in Franklin, La., and you'll find it a particularly welcome addition to your collection of choice recipes.

- 1 five pound hen
- 1 cup chopped green onions with tops
- 2 cups chopped celery
- 1 can concentrated tomato paste
- 1 quart canned tomatoes (sieved)
- 3 or 4 tablespoons chicken fat - or if chicken is not fat use cooking oil or butter
- 1 chopped green pepper
- salt, pepper and Worcestershire sauce to taste
- 4 heaping tablespoons flour

Cut chicken as for frying. Brown the flour in the fat, add onions and cook until soft. Add about one quart of water and then add the tomato paste, tomatoes, celery and green pepper. Add another quart of water, put in the chicken pieces and cover well not letting steam escape. Bring to a boil and then reduce the heat, allowing to cook two or more hours - until chicken is tender and leaving the bones. Remove the chicken from the mixture and let the tomato sauce cook (without lid) until thick.

Boil a large amount of water and drop in two packages of spaghetti. When tender add salt and let cool. Drain through a sieve and dash with cold water. Drain the spaghetti thoroughly, reheat and serve with chicken and thickened tomato sauce.

## SEEDS of ADVICE from The Garden Club

### PRUNING OF SHRUBS

By Mrs. John P. Slaton  
The scientific method is the best way to care for shrubs. Miss Sadie Hatfield, extension garden specialist, makes the following suggestions.

Pruning is a fairly easy task, lack of confidence being the most common obstacle. With a little study and some sharp tools a beginner can do a very good job. The result to be obtained in pruning is beauty in the landscape and comfort and convenience for the home by planting shrubs where they are needed, and pruning to make shade where shade is needed; and pruning to let in the sunshine where sunshine is needed.

If shrubs are over grown or are allowed to spread over the walks and driveways they are a nuisance. Pruning solves that problem.

Shrubs that are being transplanted should be pruned in order that there will be less top to support while a new root system is being formed. Should any roots be bruised or broken they should be cut off. Some plants should be pruned in the winter, as for example the broad-leaved evergreens and the summer flowering shrubs. Also the vitex, butterfly bush, crepe myrtle and others.

Shrubs which bloom in the spring should be pruned as soon as the blooming is over for it is then that they begin forming bloom buds for next year. Among the spring blooming shrubs grown in this locality are forsythia (golden bell), lilac (syringa), weigela, snowball, philadelphus (mock orange) and the beauty bush (kolkwitzia).

Evergreens, like cedars, arbor vitae and junipers, are hard to prune and should only be pruned where large growth is needed. Only dwarf varieties should be used for foundation plantings. If they are set to not be crowded they usually develop good form without pruning. Dead limbs, diseased limbs and limbs that rub against each other should be removed any time they are discovered.

Should you have an Abelia or an Italian Jasmine or any shrub that sends out long runners, cut the ends and the plant will grow into a compact form which is more desirable.

Root pruning is sometimes necessary. Plants with vigorous growth, like hedges will sap the life from nearby plants unless the roots are pruned. To do this take a long narrow spade and thrust it into the ground 12 or 14 inches deep. If the roots are too large to be cut in this summer, dig a narrow trench 12 or 14 inches deep, cutting the roots as you go.

Root pruning has a tendency to check vegetable growth and encourage the production of flowers and fruit.

### Vega News

**MRS. D. E. MCKENDREE**  
Rev. William B. Waldrop of Fort Worth and Miss Norma V. Godsey were married last Thursday evening in Oklahoma City, Okla. Dr. J. Howard Williams spoke the ceremony. Rev. Waldrop is pastor of the Baptist Church in Adrian and has just closed a successful revival there and we of the Vega Baptist Church were fortunate to have him preach for us last Sunday night after which he baptized six candidates into membership of the Adrian Church. Mrs. Waldrop is formerly of Paris, and our heartiest congratulations go to this couple and with for them a successful life in their work together.

Mr. and Mrs. J. L. Bowers and daughter of Lancaster, Pa., attended Sunday School in the Baptist Church Sunday, after which Mr. Bowers rendered a very inspiring talk to those present. He is assistant teacher to the men's Bible Class in the Congregational Church in Lancaster, which has a membership of more than 200. They were en route to Arizona for a vacation and just stopped to worship with us for that day.

# Estimated Half Million Bushel Loss In Damaging Hail Storm Sunday Afternoon

By J. W. WHITE  
Editor Of Friona Star

Probably the most destructive and the most widespread hail storm on record for Farmer County struck late Sunday afternoon, when an estimated half million bushels of wheat, almost ready for harvest, was destroyed in a storm of from three to five minutes duration.

From the best available reports reaching the Star office, the storm originated somewhere near Grady, N. M., and spread east and a little south in its mad race of destruction.

Only meager reports from the Rhea community have been received, but what has been learned indicates great destruction in that locality.

Practically the entire southwest half of Farmer county was not reached by the storm. Robert Leach, who lives nearby west of Friona, stated that his crop was unhurt, and no damage is reported from the Bovina territory or from Homeland or Hub, which is located directly south of Friona.

Reports state that many fields of wheat in the southwestern part of Deaf Smith County were completely destroyed. Deaf Smith County farmers, Fred Perry, Lewis Smith and his father and brother; W. P. Brookfield, George Messenger and others, report heavy damage.

Farmers in Farmer County, just across the Deaf Smith County line, report partial or complete loss of their crops. Among these are M. C. Osborn, S. F. Warren, J. A. Wimberley, F. P. Lillard and E. E. Taylor, who suffered only partial damage, estimated from 50 to 75 percent. Also included in this group are D. H. Meade and W. C. Osborn.

Among others from north of Friona who report a total loss of crops are H. C. Davis, E. R. New, Wayne Stark, T. J. Crawford, J. A. Blackwell, F. N. and Nelson Welch, A. S. Curry and E. M. Sherrieb.

Those near Friona on the north and to the southeast of Friona are John White, total loss; C. V. Goodwine and James Bragg, south of town, partial loss; Elmer Euler, total loss; and from Mr. Euler's place eastward, all farms heard from report total loss.

In the Black locality, seven miles northeast of Friona, the storm appears to have been at its worst, as all crops were destroyed and windows smashed in many of the homes. Dudley Robinson, living in the east part of the county, reports a total loss on his farm. Roy Price, living two miles east of Black, reports that in addition to the loss of his crop, every pane of glass in his home was broken out and some damage sustained by his livestock. Mr. Price also stated that the farms adjoining him on the north, owned by Barnett brothers, were severely damaged but some of the crops may be salvaged; but to the south and east of him the destruction was complete, including the farms of his father and brother, W. H. and Ralph Price; J. W. Cobb and W. H. Flippin; from other hearsay reports it appears that all farms in that locality suffered either partial or total losses.

Lakeview community, southeast of Friona, is also reported as badly damaged, many of the losses being total; and E. B. Whitefield and T. Manderscheid, living south of Lakeview, report

heavy damage. Bill Shirley of Lazbuddy while in Friona Monday reported that practically all the wheat in his locality was a total loss, the damage extending as far to the west as the Jesko settlement, which is almost due south of Friona.

J. M. Osborn, cashier of the Muleshoe Bank, Monday stated that the hail destruction had extended as far south as Muleshoe and perhaps farther, with damage averaging about the same as is reported for this part of Farmer county.

Reports come from F. N. Welch seven miles northeast of town, that he and his son, Nelson Welch, have lost an estimated \$20,000.00 worth of wheat. Mr. Welch had just completed the building of a grain elevator on his farm for the storing and handling of his immense wheat crop.

The hail stones in the region of Black are reported to have been much larger than elsewhere. Roy Price reported some to have fallen at his place as large as his fist. Roy also states that on going to his barn immediately after the storm, he found the hall on the ground to be shoe-top deep, many of the smaller ones rolling into his shoes as he walked; and that along the side of the building where hail had drifted, it was knee-deep and was still several inches deep on Monday morning.

Mrs. E. M. Sherrieb, four miles northeast of Friona, while trying to get her chickens into shelter, was so severely pelted by the hail that she felt somewhat dazed when she got in to shelter, and showed large blue spots on her arms where some of the larger hailstones had struck her.

Gardens, of course, and all other grain crops were totally destroyed where they came within range of the hail storm.

It is estimated that the above report will stand for all farmers whose land adjoins that of those who are mentioned here.

## Public Is Invited To Memorial Service Held By Odd Fellows-Rebeksahs

The public is invited to the annual memorial service of the Odd Fellow and Rebekah Lodges which will be held tomorrow night, the program to start at 9:30 o'clock, at the lodge hall.

Mrs. Lee Hopson, Noble Grand of the Rebekah Lodge, announces that flowers should be brought to the lodge hall at 6:30 o'clock Friday afternoon.

Mrs. Hopson and Ted Mathews, Noble Grand of the I. O. O. F., will be in charge of the program.

## HOSPITAL NOTES

C. B. Hawkins, to be dismissed today.

Mrs. Frank Gyles, condition good.

Mrs. R. C. Medlin, maternity, boy, born June 12, to be dismissed today.

Mrs. Carl Shirley, maternity, girl, born June 14, dismissed June 17.

Mrs. C. M. Carpentier, maternity, boy, born June 15, dismissed June 17.

## Christian Church Scene Of Next Union Service

Next Union evening service of the Methodist, Christian and Presbyterian Churches will be held Sunday night at the Christian Church, it was announced this week. Age level meetings through the intermediate, will be at the Methodist Church. Young People and adults will have special meetings at the Christian Church, starting at 8 o'clock. Regular services are at 8:30.

Young people of the three churches have divided into four discussion groups for the summer program and first recreational activity will be a picnic Friday night, June 19, at 8:30 o'clock on the Presbyterian Church lawn. Sponsors extend a cordial invitation to all young people of Hereford and surrounding communities to attend this meeting. Each person is asked to bring his own lunch and following the picnic supper an appropriate program of games has been planned.

Adults have selected the theme of "Prayer" as their topic of discussion and Rev. James Aiken, Jr., will be leader of the special programs.

Services last week were at the Presbyterian Church, with attendance down slightly from the first program because of the rain Sunday night. Ministers of the co-operating churches are pleased with the response to the union service program.

## Include Herbs In Your Victory Garden

With imports restricted by wartime conditions, most Texans may profitably include a few herbs in their victory gardens, says Jennie Camp, specialist in home production planning for the A. and M. College Extension Service.

Many herbs are well adapted to Texas conditions and a few might be grown commercially in Texas, the specialist says, calling attention to a recent report prepared by S. H. Yarnell, chief of the Texas Agricultural Experiment Station's division of horticulture. Among the herbs and spices which might be grown with garden care in the state are basil, dill, mint, sage, parsley, anise, bergamot, catnip, chives, dittany, fennel, hyssop, marjoram, mustard, rosemary, savory, tarragon, and lemon verbena.

Using herbs in cooking is an art, Miss Camp says—an art which is practiced too little. They give stimulating flavors to drinks and distinctive flavors to warmed-over dishes "and in many other ways can aid the homemaker in making cooking an adventure rather than daily chore." Here are some rules for cooking

## LOCALS

Mr. and Mrs. Knox Kinard returned Tuesday from Orange where they have been looking after business interests for a couple of weeks.

Attention Wheat Haulers: 5 and 7-ton hydraulic jacks, the last shipment, will receive Milburn Service Station—25-3tc.

Mrs. Grace Casebolt will return to her home in Roswell Saturday after a short visit here with her mother, Mrs. Hugh Witherspoon.

Roy T. Nunn and family of Tecumseh, Okla., are visiting this week in the home of his father, R. T. Nunn.

Charles Ferguson of Los Angeles arrived Tuesday for a visit with his mother, Mrs. C. C. Ferguson, and will be joined here the latter part of the week by his wife, who has been visiting relatives in Houston. Mr. Ferguson for two years was associated with the Los Angeles and San Francisco opera companies. Both he and his wife are now engaged in defense work in Los Angeles.

Mr. and Mrs. Glenn Weir went to Friona Tuesday to see his father, J. G. Weir, who has been seriously ill for a week.

Miss Vivian Olson went Monday to Amarillo, where she will be employed by the Universal Credit Company. She is the daughter of Mr. and Mrs. John Olson and has just returned from Waxahachie where she has attended Trinity University for the past two years.

MRS. GYLES IN HOSPITAL—Mrs. Frank Gyles who underwent a major operation at Deaf Smith County Hospital Monday is reported to be recovering satisfactorily.

## WEST POINT GRADUATE HERE

Surprising his aunt, Mrs. D. H. Alexander, with an unexpected visit last Thursday was Lt. Alton Donnell, graduate of West Point Military Academy, who has been stationed in Greenland.

Lt. Donnell was accompanied by his wife and his father, L. A. Donnell of Canyon. He is a member of the engineering corps and has been in charge of construction at an army base in Greenland.

## LT. STANFORD HOME

Mrs. W. J. Stanford and her father, E. B. Black, have returned from a month's visit with relatives in Opelika, Ala. They also visited with Mrs. Stanford's son, Lt. Wm. Stanford, who was stationed in Georgia, at an officers training camp. Lt. Stanford returned to Hereford with them for a brief visit and plans to leave Friday for Colorado Springs, where he will be located at Camp Carson.

with herbs: Use them sparingly. Blend them judiciously. Don't use herbs in every dish.

Parsley and fennel are good with poultry, veal, venison and fish. Thyme, marjoram, and savory also combine well with these meats, while lamb or mutton may have mint sauce or mint jelly. A dish of mint or tarragon will make fruit salads more delightful. Chives, mint, parsley, pepper grass, watercress, and sorrel will give other salads new and unknown tangs, the specialist says. Poppy and caraway seeds add interest to breads, rolls and pickles. Woodruff, mint, lemon verbena, balm, rose geranium, and anise are good in beverages.

## CHDA NOTES

By Sadie Lee Oliver

Just about the best insurance you can take out on your canning results is to make a careful test of your pressure cooker before regular canning operations start. The county council has a thermometer, which is kept at CHDA office and is available to any housewife who wants to make a scientific test of the pressure in her cooker. A check-up now may save you much loss of time and valuable canning materials—Remember, this year it is unapologetic to waste anything—food most of all.

Mrs. Lee Curry of Summerfield is going in for variety in her garden this summer and is paying that there need be no sameness in garden produce in this section. Mrs. Curry has cauliflower, collards and cabbage, ground almond (the chufa nut), spaghetti squash, "coffee", a variety of the soy bean, and daisies, a tropical plant with leaves like elephant ears.

Mrs. Frank Wilhelm was puzzled about what to do with three or four pounds of sheared wool, which she did not consider enough for selling and did not know how else to use. She solved her problem by scouring the wool and now plans to use it in a wool quilt.

Most people favor that which will return them something for nothing or much for little.

are used only for storage of 1941 wheat to which title is held by the Commodity Credit Corporation, which is using the bins to relieve congested elevator space and give warehousemen more room to take care of the 1942 crop. The bins shipped here have been set up at Dawn.

## Community

(Continued from Page 1)

Just what hazards may come from tire rationing and shortage of trucks is another factor which remains to be seen. Ru-

mors indicate that wheat hauling will be high this season. However, an influx of outside trucks could easily remedy this situation. Meanwhile, producers are anxiously awaiting the first opportunity to begin cutting the 1942 crop, fearful of hail, excessive rains and other hazards which could easily snatch the crops from them.
