Scrap Rubber Pile Continues To Grow While County Sets Up One of Top Records in State

Around Town

Sights and Faces Seen

Mayor C. J. Paddock has set Monday, July 13, as Clean-up Day for Hereford and has asked that all citizens gather up trash and have it ready for the city trucks when they make their rounds Monday. Have trash in a container in an alley or at whatever place where city trucks usually pick up trash.

Mrs. Al Vaughn is taking this tire shortage seriously. Not only is she riding horseback these days, but she has gone back to real pioneer style and rides a side saddle. And that garment she wears, in case the younger generation is curious, is an old-fashioned riding skirt.

Just about the busiest place in town these days is the A. C. A. office at the court house, where many new employees have been added to take care of the extra work in compiling land measurements and taking care of contracts on the C. C. C. farm storage wheat bins.

Two Hereford cafes went under new management this week when E. E. Martin purchased the Club Cafe from A. T. Layman and H. J. Engman took over management of the Elite Cafe from Mrs. Virginia Wallace. Engman has been working at Ike's Cafe.

Horace Schloss is getting really informal these days—and the weather did it. Monday he was in town without a coat, and what is even more remarkable, without a necktie. But Judge Jim Witherspoon just about had him convinced that his costume was no cause for embarrassment.

You may have thought you were patriotic when you gathered up your scrap iron for Uncle Sam, and the rubber campaign may have stretched your patriotism even further, but when you get through saving fats for the munitions industry, your patriotism will be proved. Fats, it seems, make glycerine and glycerine makes explosives, so just start now to save all the meat fryings and waste cooking fats, and your bacon may bring home some gun powder some day.

Don't Save Tin Cans, WPB Says

DON'T start saving tin cans. That is the advice in a WPB memorandum to chairmen of all county salvage committees, pointing out that while a plant is being opened in Dallas to take care of the salvage of tin cans, this plant can only take care of salvage within a 100-mile radius of Dallas, and as yet there are no facilities in the Panhandle to take care of a tin can collection. Many people have inquired of Urlin Streu, chairman of the county salvage committee, as to whether they should save tin cans, and there seems to be a good deal of confusion on the subject, the chairman says.

At present, the War Production Board instructions are, DON'T save tin cans unless you live within a 100-mile radius of Dallas.

Rev. Noel Bryant To Coahoma Meth. Church

Rev. Noel Bryant, son of Mr. and Mrs. D. H. Bryant of Hereford, has recently taken over duties as pastor of the Methodist Church of Coahoma.

Boy Killed Instantly In Fall Yesterday

Funeral services will be held Saturday morning at 10 o'clock at St. Anthony's Catholic Church for Harold Dillard, 12-year-old son of Mr. and Mrs. Marvin Dillard, who live 15 miles northeast of Hereford.

The boy was killed instantly about 7:45 o'clock Wednesday afternoon, when he fell or was thrown from the horse he was riding in the pasture to gather up the cattle for the evening milking and feeding. The family became alarmed when the boy did not return and went to the pasture, where they found him, evidently the victim of serious head injuries.

The Dillards moved here recently from Texhoma.

In addition to the parents, Harold is survived by the following younger brothers and sisters: Marcella, Gerald, Coletta, Kenneth, and Kathleen.

Though funeral arrangements are not complete, Rev. Nathaniel Madden of St. Anthony's Church announces that services will probably be conducted by the boy's uncle, Rev. George Husman of Wichita, Kan.

Tax Collections For 1941 Good

Reporting tax collections of \$111,474.05 for all purposes in Deaf Smith County for the year 1941, a tax statement from the office of assessor-collector J. O. Newell this week revealed that tax collections at the end of the current collection period, which closed June 30, 1942, were 86.8 percent of the total levy, \$128,417.47, for the year 1941. This represents collections for state and county and district schools.

The percentage of collections, according to Fred W. Baird, deputy collector, is higher than collections in 1940 but slightly below the 88.8 percent collections in 1939. The year 1939, however, had the best tax collection report of any statement for the past 20 years, Baird says.

Percentage of the levy collector during each of the past six years is as follows: 1936, 76.3; 1937, 84.0; 1938, 81.1; 1939, 88.6; 1940, 83.3, and 1941, 86.8.

Classification Of 13 Men Announced

Five men were classified 1-A this week by the Deaf Smith County Selective Service Board, and eight men were officially put in Class 1-C after notification of their enlistment in some branch of the armed services.

Classified 1-A were Troy Miller, Womble, Everett Edward Storey, John Frederick Severance, Raymond Ferdinand Paetzold and Joseph Anthony Hellman.

Men classified 1-C were Everett Gan Campbell, William Perry Caldwell, Jessie Wayne Steele, Karl Wilson Shirley, Clyde Kenneth Hagar, Harold Robert Loerwald, Robert Stevens Peterson and Etheredge Ward, Jr.

C. P. Cockrell, Resident Since 1906, Passes

Funeral arrangements are not yet complete for Carl P. Cockrell, 61 years old, who died about 11 o'clock this morning. Mr. Cockrell had been seriously ill for about two weeks, since he was stricken with a heart attack while attending an encampment at Ceta Canyon.

Approximately 130,000 pounds of scrap rubber have been collected in the Deaf Smith County salvage drive and the official count, when the drive ends tomorrow night, is expected to show this county leading the Panhandle and perhaps the state in the amount of scrap rubber collected on a per capita basis.

"Get your scrap rubber in today and tomorrow," urges Urlin Streu, chairman of the county salvage committee, who points out that already slightly more than 20 pounds per capita have been collected here, despite the fact that the drive came at the busiest time of the year for most Hereford and Deaf Smith County people.

On a basis of ten pounds per tire, enough scrap has been collected in this county to recap about 13,000 tires, enough for everyone of the county's 2,059.

Army Renews Drive For Volunteers

Stating that the army is putting renewed emphasis on a drive for voluntary enlistment of men between 20 and 40 years of age, Lt. Col. Joseph R. Peller, district recruiting and induction officer, this week emphasized that volunteers have an excellent opportunity of being assigned to the arm or service of their choice, with unusually attractive openings for various types of mechanical specialists.

List of specialists includes the following occupations: Electrician, automotive, mechanic, diesel, mechanic, automobile, blacksmith, construction supervisor, cook, electrician, painter, radio repairman, plumber, sheet metal worker and various other types of mechanical jobs.

Army service now open to qualified men, gives promise of advancement and increased pay, according to army news releases, which mention service in the paratroops, glider corps, army air corps and army signal corps. In making the announcement, army officers state that every effort is being made to place men in the branch of service where their training and talents may be best used. Further information may be obtained from the army recruiting office in the post office buildings in Amarillo and Lubbock.

Potato Harvest Starts This Week; Prospect Good For Crop Valued At More Than Million

Harvest of the early potato crop in Deaf Smith County was expected to begin today and by next week digging of early potatoes will be pretty well started in the Hereford territory. Growers and warehousemen stated that slightly more than 3,000 acres in the county will have been planted to potatoes by the time the late crop is put in.

Volume, Quality High
Growers point out that there has been comparatively little bug and worm damage to the crop this year and that because of a favorable season there will probably be a much heavier volume in the potato business here this year than there was last, despite the fact that there are fewer growers and a slightly smaller acreage than was reported in 1941.

Concerning the quality of the crop in the Hereford territory this year, Carl Metzger, Colorado potato expert who was here last week inspecting fields, stated that the quality of the potatoes here was the highest he had seen. Metzger, who is connected with the certified seed business, felt that prospects at Hereford were better than in any potato country he had visited.

Estimates on yields vary from 140 to 175 sacks an acre, but according to J. K. Baker of the Hereford Potato Growers Association, "We know that there are some fields which will make much higher yields." Present prices are good, ranging from \$2.50 to \$2.75 a sack and the

Area For Camp To Be 800 Acres

Government representatives in Hereford this week have been making arrangements for the erection of the \$2,000,000 internment camp, which will be located on Section 123 and the northwest quarter of Section 127, southwest of Hereford, according to reports of land-owners, at least one of whom has been given notice to give possession of his property by August 1. Eight hundred acres will go into the internment camp area.

Land on which the camp will be built belongs to L. B. Holland, who owns the west half of section 123; W. N. Hodges, who owns the east half of the section, and H. T. Robbins, who owns the grassland quarter of Section 127.

All of the land except for about a 200-yard strip off the section is in Castro County.

Rate of payment for the land has not yet been set.

323 Conservation Checks Received in This County

Approximately 323 conservation checks amounting to \$45,727.47 have been received in Deaf Smith County, F. G. Collier, administrative officer at the county A. C. A. office, announced this week. Prospect is that the checks will continue to come in regularly until all payments have been made here.

Thus far, the county office has received no instructions for procedure on making applications for parity payment, and chances are that these payments will be slow, Collier says. However, funds have been appropriated by Congress and the local office will go forward with the work as rapidly as possible as soon as instructions are received.

Candidates Must File Two Expense Accounts

All candidates are required to file two expense accounts before the first primary, July 25, and one of these is already past due. County Clerk Robert L. Thompson said this week, urging candidates who have not yet done so to file their first expense account immediately.

The second statement of expenses must be filed between Monday July 13, and July 17, at the county clerk's office, Thompson said, reminding candidates that filing of these accounts is required by law.

The final account must be filed within ten days after the primary, Thompson said.

Warehouses Ready

A survey of Hereford potato warehouses this week revealed that owners are optimistic about the crop and that new equipment is being installed to take care of the big crop.

At Hereford Potato Growers Association, the grading department is being turned around to a larger and more efficient loading space. The new dock is 170 feet long and eight feet wide and will be equipped with ventilation

Much Grain Stacked on Ground As Harvest Is About Two-Thirds Completed Over County

Maybe agricultural chemist Roy L. ... something in his claim that pulverized rock of the archeozoic era is responsible for the prodigious growth of his plants. He says two ounces will soil condition two acres of ground. His victory garden neighbors are astounded by his 4 1/2-pound tomatoes and 8-pound onions like this one. Pretty Jean Lilley samples a bite.

Business Managers, Representatives Of Clubs Invited To July 14 Meeting

Business men and club representatives were again reminded this week of the meeting scheduled for Tuesday, July 14, at 8 o'clock p. m., at the district court room, to discuss plans for a "Victory Day" celebration for Hereford.

"It will take the co-operation of all of us, if we put this celebration over the way we should," chamber of commerce spokesmen said. "And we especially urge that business men attend the meeting. We want to get your ideas on the subject and find out how much interest there is in this patriotic celebration."

Club presidents this week received letters inviting representatives to the meeting. It is pointed out that Hereford has not had a real community celebration in three years and that the projected August occasion would in some measure take the place of a Fourth of July Holiday, which few Hereford businesses took this year because of the press of harvest business.

Emergency Crop Loans Made Now

Emergency crop loans for the production of winter wheat and other small grains are now available to farmers in Deaf Smith County and applications for these loans are being received at the court house by Leo Forrest, field supervisor.

The loans will be made, as in the past, to farmers whose cash requirements are small and who cannot obtain a loan from any other source.

As in former years, money loaned will be limited to the applicant's necessary cash needs in preparing his land and seeding his 1942 grain crops.

Borrowers who obtain loans for the production of grain crops are required to give a first lien on the crop financed as security.

Bell Promoted To Lt. Colonel Rank

Major D. G. Bell, son of Mrs. A. G. Bell, has been promoted to the rank of Lt. Colonel. It was announced last week. He is stationed in Hawaii.

Estimates on the percentage of harvesting completed in Deaf Smith county ranged today from 50 to 75 per cent, with no accurate figure yet available on the portion actually in storage—either in the elevator, on the farm or shipped out to terminal storage. Most estimates placed the harvest as about two-thirds completed.

Harvest is virtually over in most fields in the south and east parts of the county, but in much of the northwestern section, which contains some of the largest acreage, harvest was only getting well-started this week.

About 100 pre-fabricated storage bins have already been delivered to farmers in this county and orders have been received for more than 350 of the granaries. Shipment is being made promptly, according to F. O. Collier of the Deaf Smith County A. C. A. office, who urges farmers who still need storage bins to get orders in promptly. Though the present contract of the Commodity Credit Corporation with down-state lumber companies has expired, negotiations are now in progress for a new contract and government spokesmen feel that the bins will continue to be manufactured as long as there is a demand for storage.

The crop in this county will come to somewhere between six and eight million bushels, most warehousemen believe, with estimates on the average yield varying from 18 to more than 30 bushels to the acre, with 25 bushels as a median figure. A comparatively large number of reports of 40 bushel yields have been turned in, and this week the yield on the Albracht farm about 3 1/2 miles east of Hereford was reported as 41 bushels to the acre. This crop is on summer fallow land. Record yield thus (Continued on Page 10)

Birthdays Set Order Numbers

Order numbers of men registered on June 30 for selective service will be arranged according to birth dates, according to national selective service headquarters, where it was stated that no lottery will be held in Washington to determine the order numbers of the latest registrants.

Pointing out that the 20-year-old men who registered on June 30 are liable for military service under the Selective Service Act of 1940, as amended, and that younger registrants also are

eligible for military service, National Headquarters says that the arrangement by birth dates will be much more efficient than a national lottery in determining order numbers for this group of registrants. When the local board has cards for two or more registrants born on the same date, such cards shall be arranged in alphabetical order.

Classification of 20-year-old men who registered June 30 is not expected to begin until classification of previously registered men is complete. Classification of the 18 and 19-year olds will be withheld until they reach the age of military liability, it is said.

To Union Service Sunday

Union church services will be held Sunday night at 8:30 o'clock at the Christian Church with children, through the intermediate age, meeting at the Methodist Church at 7:45 o'clock and other groups meeting at the Christian Church at 8 o'clock.

Following the worship service the young people's recreation committee will have an ice cream social in the basement of the Christian Church and all young people of the community are invited.

Ministers of the Methodist, Christian and Presbyterian churches state that attendance continues to be good at the evening programs and that prospects are for even better crowds as soon as harvest is completed. Rev. James Aiken, Jr., was speaker at the services last week.

Guests In City Celebrate At Birthday Party

With rising temperatures, the young people and old are seeking the out-of-doors for parties and social gatherings, most of them delightfully informal and in keeping with summertime hospitality.

One such informal affair marked birthdays for two guests last week. On Friday evening Patricia Ann McDonald celebrated her tenth birthday and Donald McDonald celebrated his seventh birthday at a picnic given on the Will S. Kerr lawn. The youngsters are children of Mr. and Mrs. Brian McDonald of Ozona, who are visiting in the C. F. Kerr home.

A picnic supper party, the birthday cake and games on the lawn provided the informal fun for the crowd.

Those attending were Mr. and

Club Party Is Given In Maxfield Home

Mrs. S. J. Maxfield was hostess on Wednesday afternoon last week at a contract party at her country home, for members of the Justrakd Club.

Contract games were enjoyed and summertime flowers were arranged in bouquets here and there about the house. After the games a colorful salad course was served to the guests.

Mrs. N. E. Milburn played high for the defense stamp score award and Mrs. Henry Sears played second high.

Members attending the club party were Mesdames Keller, Mrs. Clay Ridgway, Mr. and Mrs. Brian McDonald and children, Mr. and Mrs. C. F. Kerr and Reavis Kerr, and Mr. and Mrs. Will S. Kerr and children.

Summertime Picnic And Skating Party Entertains Group

Summertime is picnic time, especially for classmates who like to have good times together.

A picnic and skating party marked the day for such a group Thursday when one former member of the group returned after being away and was complimented with the informal get-together.

The honoree, Mrs. Nona Mills Dalton of Roswell who is visiting her parents, Mr. and Mrs. A. D. Mills, and the former classmates enjoyed a picnic supper in Hereford State Park and the skating party followed.

Those making up the party were Geraldine Kendall, Wanda Jean Whitaker, Billy Earline Sexton, Georgianne Miller, Evelyn Walker, Phyllis Jean Radovich, Mrs. A. D. Mills and the honoree.

Mrs. Jessie Ramey and daughter, Theda, of Wichita Falls, are guests in the home of Mr. and Mrs. J. M. Gilliland.

What is Sure-Fire Morale Builder? Air Corps Lt. Finds Answer At Outpost

Want to know the one subject in which soldiers in foreign service are most interested—and incidentally what you, personally, can do to build morale and make those boys better soldiers? Then read this letter from Lt. Alva Barber of the U. S. Army Air Corps, who wrote recently to his wife, a senior in Texas Tech, who gave The Brand permission to re-print part of the letter.

Lt. Barber, now in foreign service at an unannounced location writes: "Tom and I took a plane load of food to one of the more remote outposts yesterday. The man there had been on short rations for ten days and were really hungry. When we landed and stepped out, I thought they would be tickled pink because of the food, but can you guess what they asked me first? ... the first words on their lips were, 'Did you bring any mail?'"

"I was more than surprised. Can you imagine hungry men ignoring food... wanting nothing but a word from home and loved ones?"

"I merely relate this incident hoping you will pass it on to someone who will realize the extreme importance of people writing to the boys in foreign service. I know, because I saw the look on the faces of some of the boys who did not get mail. If one should ask what is the surest morale builder in war time, tell them it is the writing of letters to let the boys know that they are still loved and missed and wanted back."

"With this knowledge they will win quicker and come back sooner. The extreme importance of this should not be overlooked."

Lt. Barber is a son of Mr. and Mrs. Frank Barber, former residents of Hereford. He is a graduate of Hereford High School and attended Texas Tech before joining the Army Air Corps. Mrs. Orland Newell of Hereford is a sister of Lt. Barber.

Floyd Ross Photographer in Army Air Forces

Floyd Ross, son of Mrs. Dorothy Ross, will start service Monday, July 13, at Lowry Field, Colo., in the photography division of the army air corps.

Ross has been a student at Texas Tech, where he was majoring in journalism and was photographer for the Tech Annual. He has been interested in photography since his high school days in Hereford.

Enlisted in the reserve, young Ross was called to service because of the scarcity of trained photographers in the air corps.

SEEDS of ADVICE

from
The Garden Club

YARD TALK

Prepared for the Garden Club by Miss Sadie Lee Oliver
July and August, months when most of Texas receives scant rainfall, confront the average gardener with the problem of supplying sufficient moisture for plants. Annuals and perennials, in order to produce flowers, must have an ample supply of water during this period, and shrubs and trees set out during the year which have not yet established good root systems often need assistance in order to survive the two driest months of the year. Moisture for summer growth of plants should be retained by frequent cultivation or by supplying a mulch of rotted straw or leaves. If irrigation is used it should be applied liberally and slowly about once in ten days. Then it should be conserved by cultivation.

A practice common among many flower growers of sprinkling the top of the ground every morning is particularly bad. Light sprinkling causes the roots to seek moisture near the surface where they are easily killed and are likely to be injured by winter cold.

Shade Trees
Now is the time to notice how much shade trees are needed here and there about the home in summer.

If trees are planted where they are needed and with consideration for the size they will attain within a few years, they fit into the landscape picture, and often if planted at random they have to be removed later. Generally trees should not be planted in a straight row as this gives an artificial and mechanical picture, but should be placed so as to look as if they grew naturally where they are planted.

Plan Landscape Now
While any time is a good time to plan a home landscape this part of the year presents some definite advantages. For example now is the time to take a good look at your yard. You can

note the direction of the sun morning and evening and see where trees are needed. Put down a peg on each of the spots, then next winter do something about getting trees planted there. What some people call "good luck" in growing trees, shrubs and flowers, is instead good management. During the dry, hot summer months, a period when plants especially need intelligent care, they often suffer more from mis-management of moisture than from any other one thing. Shrubs and trees set out this year or last fall need ample supply of moisture until they can establish a good root system. Even the native and hardy introduced plants require about two years in getting well enough established to withstand dry weather unaided.

In places where there is scant rainfall, contours and small dams are recommended for diverting water to trees, shrubs and flowers. These same devices will help hold the water for a few days after each rain. Once moisture has soaked into the soil, mulches or peat moss may be used to keep it there. Well rotted leaves rotted straw and hay, and rotted barnyard fertilizer may be put on in layers of one or two inches. All of these materials when worked into the beds will help hold water in the soil as well as when used on top as a mulch. Deep cultivation may destroy roots. Shallow cultivation is good, for keeping a loose top on the soil prevents evaporation below.

Paisanos of Tortilla Flat

Spencer Tracy, Hedy Lamarr and John Garfield step into something entirely new in the way of cinema roles in "Tortilla Flat," great picturization of the John Steinbeck novel which shows Sunday, Monday and Tuesday at the Star Theatre. Described as "the sort of comedy which will keep you grinning to yourself in a dark movie theatre," "Tortilla Flat," tells of the paisanos of Monterrey, who have lived for a couple of centuries on wine, song and fierce loyalty. "Tortilla Flat" was chosen picture of the month by Red Book Magazine and received the highest rating given by Liberty Magazine.

Messenger News

MRS. J. N. MESSENGER

The combines are at work again after the rains. Many of them mired down and would double up with two tractors or pull to other fields.

The wheat which was damaged by hail is making some 10 to 15 bushels to the acre; some wheat was insured, and when the hail hit, damage was estimated at 50 percent. Then came hard rain which cut down estimates 25 percent further. Where the hail hit a stalk and didn't break it; it left a weak place and rain and wind knocked it over. Some farmers are putting fingers on combines to pick up some of the heads.

There is some planting of row crops, but little good row crop is up.

We received more than two inches of rain the last week in June.

CARD OF APPRECIATION

It is with a grateful heart that I express my sincere thanks for the many expressions of friendship that have come my way during my recent illness. The remembrances and many acts of kindness have helped the long days to pass and the many little chats and visits with my friends will be held dear in my memory.
John L. Wilson.

Remember those old golf balls you tucked into the bottom of the bag for an emergency. Now is the emergency... the rubber salvage campaign. Part with those old balls even if it hurts. They may end up in the recoil mechanism of a field gun and make a hole in one Jap.

SONS in the SERVICE

Shirley At Sheppard Field

Karl Shirley, son of Mrs. Jeff Gilbreath, who has been at Ft. Sill for the past three weeks, is now stationed at Sheppard Field, Wichita Falls.

Karl volunteered for ground work in the U. S. Air Corps and will receive preliminary training at Sheppard Field.

Wagner In Hawaii

Pvt. Lawrence Wagner arrived last week in the Hawaiian Islands and likes his new station very well, according to a message received last week by his parents, Mr. and Mrs. Roy Wagner.

Private Wagner is a mechanic in the Quartermaster Corps and has been stationed at Camp Roberts, Calif.

Pity the Jap When This Paratrooper Lands

Pvt. Frank Brashear, brother of Mrs. W. S. Rice of Westway, is fast becoming a dangerous man to have around; and Japs and Nazis acquainted with his record would do well to get a good head start on Para-trooper Brashear when he lands in their backyard.

Brashear who recently completed one phase of a course for parachute troopers at Camp Roberts, Calif., in addition to his diploma received medals and high ratings in the following divisions:

- Expert (in use of machine gun, bayonet and hand grenade).
- Sharpshooter (Browning automatic rifle).
- Marksmanship (Springfield rifle and trench mortar).

His medals are a silver cross encircled with a wreath. Only two men out of 1,258 who completed a sharpshooter rating, and the other man making this rating was a former marine. No medal is given for marksman, but Mrs. Rice states that the general gave her brother a carton of cigarettes as a reward for his high score.

Private Brashear will complete his training at Ft. Benning, Ga., where he will make five parachute jumps for his final test.

He is the son of Mr. and Mrs. George Brashear of Corpus Christi.

Westway Items

By MRS. MERLIN KAUL

There was no preaching here Sunday morning as Rev. Hardy Stephens had gone to Phoenix, Ariz., to get his family. Mrs. Stephens and the children have been visiting relatives there the past month. They arrived here in time for services Sunday night. E. H. Little, accompanied Rev. Stephens and visited his brother, Wayne, who is in the Air Corps at Chandler, Ariz.

Mrs. Mattie Strickland, Mr. and Mrs. Jack Wright and W. A. and Jimmie Hendricks all of Dallas, were guests last Sunday in the W. S. Rice home. Mrs. Strickland remained to spend the summer in the Rice home.

Doris and Florence Goldston were guests Saturday night of Ruth and Helen Marie Tucker, at Hereford.

William Ponder is building a granary at his farm this week. Dorothy Lee of Summerfield was a guest last week of her cousin, Rose Stephan.

Miss Nadine Shirley is assisting Mrs. Maurice Tannahill with her work during harvest.

Dr. Greer and Alex Norris, a carpenter, came Wednesday from Lockney, where they made the old house on Dr. Greer's place into a granary. T. B. Cox, who farms the Greer place, had 40 to 45 bushel crop there this year.

W. D. McKinney returned last week from Carlsbad, N. M., where he has been visiting. His daughter, Mrs. Callie Lindsey, returned home with him and is visiting her relatives this week.

Mr. and Mrs. Huntzinger, Mrs. Guy Lawrence, Nelda Guy and Melba Gay of Hereford, were dinner guests Sunday in the R. M. Gunn home.

Mr. and Mrs. Lester Wilson left Sunday to return to their home at Abilene. They have been living in the trailer house here and Lester has been working for his brother, Vernon Wilson.

Mrs. Johnny Price of Floydada, called on Mrs. W. R. Allmon Wednesday afternoon. Mr. and Mrs. Price were on their vacation and Mr. Price spent part of the time trucking wheat to Hereford for Mr. Godwin.

Grasshoppers have been causing a lot of grief at the

Henry Allmon home, so last week Mr. and Mrs. W. R. Allmon thought that perhaps they could save the garden in the field if they took a number of chickens there to catch the grasshoppers. So the chicks were taken to the garden one night and left so they could start catching hoppers with the coming of dawn.

It was still early when Mr. and Mrs. Allmon went to see how the chickens were getting along and there scattered over the ground they found 15 chickens which had been killed by a swift fox. Immediately they started taking the chicks back to the house and before they could return for the last group "Mr. Swift" had taken toll of 5 more. The Allmons feel that the grasshoppers now have the situation well in hand.

A number of men rushed to the Joe Evans farm Saturday afternoon when they saw fire in a wheat field there. A combine was being filled with gasoline and although the motor had been shut off the gasoline ignited and at once spread over the machine and to the field. Luckily just stubble was burned off, the men present being able to prevent the fire reaching the wheat. The boy who was servicing the combine was badly burned on the chest and will be in the hospital for two weeks at least. Damage to the combine amounted to nearly \$175.

Mrs. W. S. Rice reports that her brother, Frank, has completed his course at Camp Roberts, Calif., and received his diploma and medals last week. Frank is with the parachute troops and received very high ratings in his final tests. He will complete his training at Fort Benning, Ga.

Frank lived here a number of years with his parents, Mr. and Mrs. George Brashear, and attended school here.

Virgil Thomas of McLean was a guest last week in the home of his uncle G. C. Hartman.

Recent visitors in the Phillip Miller home included Mrs. Miller's mother, Mrs. L. C. Fisher, of Portageville, Mo., and her sister, Mrs. Roy Dillard and children, Roy Francis and Mary Jane of Wardell, Mo.

Storage Requirement Set For Volunteer Excess If Producer Wants Loan

Regular C. C. C. requirements apply to farm-stored volunteer excess wheat if the operator plans to get a government loan on such wheat.

General instructions for C. C. C. farm storage are that wheat must be stored to provide reasonable safety from damage to the quality or quantity of grain. Specific instructions are as follows:

1. A bin or granary must be of such substantial and permanent construction as to afford safe storage for grain and to protect it against rain, snow and surface water.
2. Hold the wheat without loss of quantity. Protect the wheat against weather conditions which may cause deterioration in quality.
3. Afford reasonable protection against thieves, rodents, birds, poultry and insects.
4. Permit effective fumigation

5. Provide reasonable safety against fire and wind.
 6. Require forcible breaking in order to be entered after sealing.
 7. Bins must be wholly enclosed and convenient means provided for inspection of wheat.
 8. Bin must have not less than four feet of head room between top of wheat and roof.
 9. Producers must provide locks with duplicate keys for granary—one key to be furnished the inspector at the time the granary is measured and the wheat sample taken, and one key to be retained by the producer.
 10. Wheat must be level in bin or bins and producer must be present to assist inspector in measuring bins and securing samples when he calls for that purpose.
- Wheat must be in storage not less than 30 days before bins are measured and samples taken. These restrictions apply to all farm-stored wheat, allotted and excess volunteer, provided the producer plans to get a government loan on the grain.

Let's Cook Something

There isn't anything quite so heart-warming to a housewife as the praise from her family or guests of the things she cooks.

Among Mrs. Meade Halle's collection of good recipes is this one for tomato aspic and no matter how often she uses it she never fails to get that heart warming praise. When she gets in a rut with her cooking she gets out the tomato aspic recipe and its vitamin C content makes it as good for your health as it is appetizing.

TOMATO ASPIC

- 1 3-4 cups tomato juice
- 1-4 cup vinegar
- 1 tablespoon lemon juice
- 1-3 cup sugar
- Dash of cayenne pepper
- 1 cup cabbage
- 1 cup celery
- 1-4 cup green pepper (chopped fine)
- 1 envelope Knox gelatin

Soak the gelatin in 1-3 cup of cold tomato juice, boil the remaining tomato juice and add sugar and vinegar and lemon juice. Add the hot tomato juice to the soaked gelatin and allow to start congealing. Add the diced vegetables, salt and cayenne. Place in mold and let remain in refrigerator until firm. This is delicious with any kind of meat.

birth in Amarillo, on Wednesday, of a son to Mr. and Mrs. Howard Godwin. His grandparents, Mr. and Mrs. Lyle Godwin were on hand to welcome him, and his father is expected home soon from Fort Blanding, Fla.

Mrs. D. W. Clark taught a Bible lesson to the Presbyterian Missionary Society Friday afternoon in the home of Mrs. H. G. Green.

L. M. Marshall, a former resident of Vega, who now lives in Donna, is visiting in the Allen Stagg home.

Mrs. J. T. Richardson, Mrs. Pat Robinson and Miss Oneida Jordan of Hereford were calling on Vega friends, Friday.

The scrap rubber collection in Oklahoma county has reached a 34,000 pound total.

Mrs. J. D. Harmon and 14 girls of the Girls' Auxiliary enjoyed a sunrise breakfast Friday morning.

The Fourth of July was everything but a holiday in Vega, as harvest was in full swing and all business houses open as usual.

Study Seeks To Find Best Tomato Variety

Mrs. J. T. Quinn, Mrs. John Kuhles, Mrs. Robert Wagoner, Mrs. R. L. Cocanougher, Mrs. N. G. Elliston and G. E. Thiele are combining their gardens with a study for the U. S. Dept. of Agriculture this summer.

They are planting Bison, Danmark, Porter and Rosanna tomatoes from seed sent from the

MUSKOGEE, Okla.—The police department was trying to settle down to normal routine today after an experience with a 2,000-pound angry lion.

Officer Boots Keaton said it all seemed queer, but imagined "it could happen to anybody."

Officer's James Hunter and Bun Hatfield stopped a car that was weaving from one side of the street to the other. The occupants of the automobile were apparently intoxicated.

"That was normal. We know how to handle that type," Hunter said.

"We checked the car — that's routine — and then we found it," Hatfield said.

Hunter raised the door to the luggage compartment. There was a doggone lion, about 200 pounds worth and fighting mad. The officers asked the two men in the car where they got the animal.

"We roped him alongside the highway," the driver answered. "What?"

Dryland Seed Station at Woodward, Okla., and will report to the station at the end of the year on the varieties which they find best suited to this territory.

G. E. Thiele and Henry Allmon co-operated with the experiment station in a similar study last summer.

"That's right. We were driving along when we saw this lion on the road. We weren't sure, but it looked like a lion," one of the men explained.

"I got on the running board while my partner drove, shook out my rope and got 'im. Then we stopped and walked up to the darn thing. He walloped hell out of me. We took another rope, hitched it around a tree and snagged him good. Then we put him in the luggage compartment and came to town."

That was explanation, given the police. The two men were charged with driving while intoxicated.

The lion was left in the rear of the car. It remained there 48 hours without food or water.

"I sure wasn't going to open that trunk and feed him," Officer Keaton said.

Keaton said he believed the lion was a fugitive from a circus or medicine show.

"But nobody has asked us to find a loose lion," he added.

"I'll probably have to turn the thing over to a zoo," the lion roper told police. He spent most of the morning trying to soothe jangled nerves. His companion had been released earlier.

After paying a \$5 fine for driving while intoxicated, the cowboy lion tamer was released.

Dudes Are Pretty People

That's the title of the new Hal Roach comedy which stars Jimmie Rogers, Marjorie Woodworth and Noah Beery, Jr., and is part of a double bill at the Texas Theatre Saturday and Sunday. A dude ranch is the background for some really hilarious comedy.

It's A Matter Of License

KANSAS CITY — Love, it is said, will find a way, even though the way is rough and rocky.

Esmond R. Hudson, a Dallas defense plant worker, came all the way from Dallas to get married. The object of his trip north was Miss Jeanette Gibson, Arrington, Kansas, girl who was staying at the home of her aunt in Kansas City, Kan.

He got in his car without looking at the compartment where the lion was tied and drove off. Police didn't offer any suggestions.

Hudson appeared at the marriage license bureau in Independence, Mo., and secured a license. He was one of the first applicants of the day.

Shortly before the ceremony, Hudson discovered that a Missouri marriage license is not legal in Kansas. Hurriedly he called the license bureau in Independence, and was told that neither cancellation nor transfer of the license could be made by telephone and that his best bet was to secure a Kansas license in Kansas City, Kan.

Racing against time, young Hudson purchased a license that would satisfy everybody and two minutes before the scheduled time for the ceremony to begin, he appeared and breathlessly answered "I do."

July 11, 1902
Miss Rose Bratton returned from Amarillo, where she has been visiting friends.

J. H. Weems was a caller in town and on his return to the ranch took a load of lumber for the new school house to be erected on the Piles place.

Lee S. Smith of Clarendon, purchased the jewelry repair business of C. L. Reynolds.

D. F. Wight, Colorado stockman, had purchased 81,000 acres of XIT land near Texline. Price paid, \$162,000.

Miss Della Palmer entertained in honor of Miss Bettie Bush of Allen, with an evening which the Brand described as "enjoyably spent in social chat, interspersed with vocal and instrumental music." Guests were Misses Lura and Empress Jewell, Leora and Leola Scott, Mary Tyger, Bettie Bush, Corinne Hough, Bruce Gass, Nettie Laughlin, Rose Bratton and Zula Vanderburgh and Messrs. Nunley, Ball, Coffee, Horn, Syms, Ferguson, Head, Davidson, Manson, Caldwell and Vanderburgh.

It rained—or to put it more poetically, as The Brand did, "just as the south bound train arrived at Hereford on Wednesday, the moisture from the heav-

ens broke loose and thoroughly saturated Mother Earth in this vicinity."

July 12, 1917
Ray Williams, son of Mr. and Mrs. J. H. Williams, stationed at an Albuquerque Army camp, wrote to The Brand praising army life.

Mrs. Dollie Davidson of Panhandle was a guest in the home of her sister, Mrs. H. H. Hawkins.

Miss Elzina Mounts, Mary and Clara Dunlap, together with Mr. Albert Monday, motored to Amarillo.

Hereford was excited over possibilities for oil development in this territory.

Miss Ethlyn Cockrell of Princeton, Mo., arrived to visit her brother, Carl Cockrell. She came as far as Woodward, Okla., with her cousin, Mrs. E. C. Eubanks of Glazier.

Announcement was made of the marriage, on July 2, of Miss Florence Daily of Childress and Mr. J. T. Guinn of Hereford.

July 24, 1932
C. W. Humble was elected post commander of the American Legion. Other new officers chosen were W. J. Smith, 1st vice commander, Volnie Downs, 2nd vice commander; Fred Oberthier, adjutant; L. H. Foster, financial officer; M. J. Johnson, chaplain; B. R. Dixon, historian; Harry Taylor, sergeant-at-arms, and Jimmy Robinson, service officer.

W. D. Kellehor was proudly exhibiting an appreciation cer-

tificate signed by the new Democratic nominee for president, Franklin D. Roosevelt. Mr. Kellehor's certificate was signed by Roosevelt when he was under secretary of the Navy in appreciation of Kellehor's gift of binoculars to help out the expanding navy program of World War I.

Miss Theda Lou Wilson was spending the week-end in Memphis with Miss Marguerite Fuller, formerly of Hereford.

Horace Schloss of Dalhart was visiting Mr. and Mrs. J. W. Witherspoon.

The end of this week will bring the wheat harvest near the finish. Several are already through except for combining barley and oats.

Wheat averages in this community as in many others, are higher than expected. Storage problems are being gradually worked out. Many farmers have received and erected the government storage bins while still others are building temporary bins of rough lumber. Some are selling their wheat and taking the 20-cent loss rather than pile it on the ground until storage can be prepared.

Miss Frances Hardesty of Portales is visiting her sister, Mrs. Frank Huckert, Mr. Huckert and children.

Mr. and Mrs. Stanford Harper have returned from Rochester, Minn., where he went through the Mayo Brothers clinic.

Mr. and Mrs. Oren Nell and family of Lubbock, and Miss Edith Nell student in the WTSC at Canyon, spent the week-end in the home of their parents, Mr. and Mrs. W. C. Nell of Black. They also visited a sister, Mrs. B. E. Roberson and a brother, Kenneth Nell of this community.

Walter Ray Hawkins of Lamesa is here assisting his grandfather, B. A. Atchley in the harvest.

Sunday afternoon visitors in the Earl Lance home were Mrs. Joe Kendall and daughters, Betty Jo and Geraldine, Mrs. J. C. Lance and Mrs. S. L. Waiser, all of Hereford.

Mr. and Mrs. Wenda Green of Plainview, spent Saturday night with her brother, Rev. M. D. Rexrode, Mrs. Rexrode and children.

Mr. and Mrs. Ted Staats and family of Tulsa, visited the B. A. Atchley home last week. Margaret Staats remained with her grandparents for a longer visit.

Mrs. C. H. Carl, Mrs. Wood Vaughn and Mr. and Mrs. Man-

ly Finch of Hereford, were welcome guests in the Earl Lance home recently when they brought a letter from Earl Lance Jr., son of Mr. and Mrs. Earl Lance, who is in the Marines. They had not heard from their son in three weeks and believed him to have been shipped to the war zone. But he had been on guard duty off the coast. He remained in harbor at San Diego until the last of the week when another letter informed his parents he was being sent out on the waters again. He did not know of course, for how long.

Sunday School attendance Sunday was 86. Monthly reports were made by the officers and teachers. Average S-S attendance the past month was 84 and an increase of 23 was reported in the enrollment.

Mrs. C. H. Carl of Hereford, visited Thursday in the home of her daughter, Mrs. Earl Lance. She and her granddaughter, Billie Louise made further plans for a trip to Decatur, where they will visit relatives. They plan to leave Sunday night or Monday with Mr. and Mrs. Manly Finch of Hereford, who will visit in East Texas points.

R. D. Lance Jr., underwent an appendicitis operation last Wednesday at the Camp Hospital in Lincoln, Neb., where he is enrolled in a mechanic school. Word received by relatives here Monday was that his condition was excellent. He will be in the hospital about 20 days. Friends caring to write him may address the letters to Private R. D. Lance Jr., 38015443 Class 42-42, YMCA, Lincoln, Neb.

TOM: Gosh, Ann, I'm glad I could get back in time for our wedding anniversary. Being on the road as much as I am, it seems like I'm never home. Here's something for you.
ANN: You darling! Flowers!
TOM: It could have been a new hat if that blamed car of mine hadn't had to have a new set of piston rings.
ANN: I know wives shouldn't interfere in their husband's business, Tom, but Mrs. Reardon was telling me how much money Jack saved on the maintenance of his car. He drives even more than you do.
TOM: What all did she tell you, Ann?
ANN: Well, Jack Reardon uses Conoco Nth motor oil. That's the oil that OIL-PLATES the engine and saves a lot of wear and tear. And it contains a new synthetic that helps keep the oil from fouling up, too. Mrs. Reardon says Jack has to make his car last two or three years longer now and Conoco Nth motor oil will help him do it!
TOM: That settles it, Ann! I'm going to change right now to Conoco Nth!
ANN: Good boy! And maybe I can still get that new hat?

You'll agree that it's orchids to Conoco Nth motor oil, once you prove to yourself how it is so economical, clean-running and wear-saving. See Your Conoco Mileage Merchant today! Continental Oil Company

Three talks were made on "The Woman in Missions" by Mesdames E. H. Norton, Hall and D. H. Alexander. Mrs. Mary Draper of Rawlins, Wyo., was a guest.

After the program, a social hour was held at each session.

Wheat Offering Benefits Tipton Orphan's Home

Leaders of the Church of Christ this week reminded members and other interested citizens of the drive being conducted by the church to get a wheat offering for the Tipton Orphan's Home.

Contributions of wheat can now be stored in Rev. H. P. Cooper's car shed on the west side of the Church of Christ and when all contributions have been received the wheat will be taken to the orphan's home in a truck supplied by the orphanage. Elevator storage has been donated and the elevator will give the orphanage 100 pounds of fresh flour for every three bushels of wheat.

"This project gives us a splendid opportunity to share the benefits of our fine harvest," church leaders say.

registered vehicles, with some re-cap jobs left over. Committee members point out that if the response to the rubber drive had been as good all over the country as it is in Deaf Smith County, chances of gasoline rationing and tire requisition would be considerably lessened.

Results for the week have not been tabulated and will not be until Friday, but it is certain the final results will show an even greater oversubscription of the U. S. O. quota than was shown last week, when the county reported 20 percent over its quota. Proceeds of the sale of donated scrap rubber go to the U. S. O.

HEREFORD BULL

By Jimmie Gillentine

Marie Carrol was in the living room, comfortably draped in a chair. She had figured things from every angle and they always added up to the same total: "Life was just a bowl of cherries". Suddenly her reverie was broken. Cold fingers seemed to entwine about her heart as a cool, moist thing rasped across her leg. She jumped and yelled, then she ran. The thing still continued to rasp across her legs coming faster and faster. Then she realized it was only their pet bulldog, Buzz.

It all started like this. Marie kept hearing about the paint which is being substituted for stockings, so she decided to buy some. She spent quite a few minutes getting the paint applied just so-so, and while it was drying, Buzz made the discovery that it was good enough to eat. Now she figures that at least one stocking substitute has gone to the dogs.

Miles Roberson dropped in Wednesday afternoon with a hard luck story. It happens that the bank reports are being published this week, as of the close of business June 30th, 1942. Wednesday, he says the First State reached a new goal. Their deposits passed the million dollar mark—for the first time in the bank's history. On June 30, deposits totaled \$761,237.60, and on Wednesday, July 8, they had jumped to \$1,003,720.00, giving an increase of \$242,482.40 in eight days.

Rev. Marvin Norwood told Alex Thompson he used to wonder where all of the Thompsons came from until a few weeks ago. Rev. Norwood says he happened to be down near Ft. Worth and he saw a big sign which read: "Thompson Manufacturing Company". It answered the question to his satisfaction.

Sherman Morgan went fishing with Frank Codgell this week. In line with war news dispatchers, they are "SOMEWHERE IN NEW MEXICO". Able Crume is working in his place on the linotype machine, which faces my desk—and she keeps on giving me a dirty look every once in a while, like she wishes I would hurry up and quit. Which I am. Therefore, the brevity of this column—as everyone would know anyway—is not in the least to be attributed to laziness on my part.

"Tomorrow will be another day," says the optimist. "Yes," says the pessimist, "but so was yesterday."

Around Town

(Continued from Page 1)

Leona Hood Termain, who formerly resided in the E. B. Black home, visited here last week after 13 years' absence. She is now employed in the War Price and Ration office in Claude, Texas. While here she visited with Mrs. E. B. Hammer, Mrs. Jessie Stanford and E. B. Black.

It may not have received as much publicity as some of the other labor shortages, but take it from the Brand, there is really a shortage of delivery boys. With most of the regular boys at work in the harvest we have had everybody from little sister to mamma taking over brother's paper route, so if you have been troubled by some slightly haphazard delivery service, just know that The Brand and the delivery boys—and girls—are doing the best they can and that the situation will be remedied as soon as possible.

When did you last houseclean your desk? Now's a good time to do it. The rubber salvage campaign needs those dried out gum rubbers, the split rubber bands, the pencil erasers and the paste spreaders lurking in the back corners of your desk.

Much Grain

far reported is by George Robertson of Wehe, who made 81 bushels an acre off of ten acres of irrigated land.

"Out of the mouths of babes" comes another suggestion for the rubber salvage campaign: nipples. One thousand of them contain the rubber equivalent of three signal corps radio sets.
