## Around Town

Sights and Faces Seen

Bob Thompson sees a silver lining to this gas rationing business. He says we will have to develop a little home life for a change—and it would be a change.

We have a feeling that there is going to be some real action on this scrap metal drive when the school kids are organized as Junior Texas Rangers. The "Orphan Annie" idea seems to have caught on, little as we like to give credit to our most "unfavorite" comic strip.

Plug for the county clerk's office: It's definitely a mistaken idea that three day's notice is required before the issuance of a marriage license in Texas. Though that law has not been in effect for several years, couples are still going to Clovis to get the sacred knot tied.

Ethyl Robinson can really make a good "rabble-rousing" speech—when she thinks no one is listening. Just ask any of the B & PW members about Ethyl's profound thoughts on winning the war.

Arle Dean believes in giving the Whiteface opponents a little encouragement, and not a bad idea either, when they've got as much spirit and scrap as those little boys from Dimmitt.

## Mrs. Montfort Receives Details Of Son's Death

Death of Lt. Frank W. Montfort on Aug. 24 occurred when he attempted a night landing during a rainstorm, struck a group of high trees and crashed into a hillside, according to a letter received by his mother, Mrs. F. W. Montfort of Hereford last week. Mrs. Montfort had previously received only a brief War Department telegram telling of her son's death "not due to enemy action."

The letter received from Frank's squadron commander, Major A. J. Stewart, Jr., stated that Montfort had just returned from a combat mission when the fatal accident occurred. Four other members of the bomber's crew were killed instantly and the four remaining members lived and are now recovering in hospitals, according to the major's letter. Funeral services for Lieutenant Montfort were held on Thursday, Aug. 28, on the "Island in the South Pacific Battle Zone" where he had been stationed for several weeks.

Stating that Lieutenant Montfort was, in every way, a superior officer, Major Stewart wrote: "Please take comfort in your son's part in this struggle, and it must surely help to know that he died for a just and honorable cause. Victory will be ours, but it can only be won through the blood of fine young men like your son."

## Batton Is New Manager At Utility Office

Sam Batton of Littlefield took over duties in Hereford this week as local manager for the Southwestern Public Service Company, where he takes the place of E. R. Smith who goes to Plainview as local manager.

Mr. Batton, who has had 21 years experience in the electric utility field, has been manager of the Littlefield Office of Southwestern Public Service and is well acquainted with all aspects of the business.

He is a member of the Odd Fellows, Rotary and the American Legion and took an active part in all community and civic affairs in Littlefield.

Mr. Batton's family will move to Hereford soon.

## Head-On Crash Results In Truck Driver's Injury

N. W. Ayres, driver of a truck hauling materials to the camp construction project, suffered a broken knee cap yesterday morning when his truck, going back to town on the dirt road which leads to the camp, collided with a loaded truck driven toward the camp by Charlie Wright. Wright was uninjured.

The dump bed on Ayres' truck was smashed and the left fenders of both trucks were crumpled. The cabs on the trucks were not damaged.

Witnesses blamed the dust, which was fogging over the dirt road from the steady stream of cars going to the project, for the accident. Neither driver saw the other truck approaching until it was too late to avoid a head-on collision; and Ayers, in the unloaded and lighter machine, was thrown forward, his knee bumping into the ignition switch. He is in the Deaf Smith County hospital.

## CCC To Handle Soy Bean Sales

The Commodity Credit Corporation will buy soy beans from Deaf Smith County farmers, County Agent A. R. Bateman announced this week, stating that C. C. C. plans to let contracts to oil mills for processing of the beans. If farmers decide to sell to the C. C. C. the county AAA committee will handle the sale. Bateman said, but farmers must send samples of the beans to a recognized testing laboratory to get an accurate report on oil and moisture content; before any negotiations for sale of the crop can go through. Address of a qualified testing laboratory may be secured from the county agent's office.

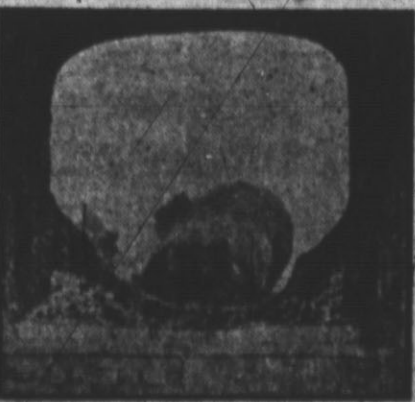

Beans of more than ten percent moisture content are not acceptable for commercial use. Bateman pointed out, adding that the price received for the beans will depend on the oil content, believed to be high in most beans produced in this area. There is a possibility that the mills may want to purchase the crop direct from the farmer, and in that event there would be no necessity of handling the deal through Commodity Credit.

Price for class 1 and 2 beans is \$1.60; for class 3 and 4, \$1.50, with \$1.40 the price quoted for lower grade beans.

## Old Cannon Go to War

Scrap you contribute to the nation's war effort will follow the same type of trip made by nine old cannon returned to steel mills in a drive sponsored by the Gary, Ind., American Legion. Here one of the cannon is dismantled at the mill.

Three hours later, the cannon goes into an open hearth furnace. All the cannon were charged into one heat at the furnace.

## Deliver YOUR Scrap, And Save a Life

Some dark night when you are walking home from the show, the lodge, the church party or some social function, imagine yourself as a member of an American night patrol behind the enemy lines. You'll begin to observe every clump of weeds, every tree—and wonder if that darkness holds some sinister danger.

You begin to wonder about your rifle, your bayonet and your ammunition supply. You'll wonder if you have a chance of surviving when the enemy makes a lunge toward you.

Yes folks, stop and think: Is that boy or yours, or that neighbor boy, going to lose his life for the lack of sufficient ammunition, the lack of a gun or a bayonet? It takes ships and planes to carry these instruments of war to him. It takes scrap to manufacture almost everything you can name in the way of war material.

Every red-blooded American who wants to win this war will bring his scrap to his leader. He will not delay but will make this job paramount to all others.

Deaf Smith County is lagging. Let's take up the slack!

A. J. SCHROETER,  
Chairman, Deaf Smith County Salvage Committee

## Dumas Rated Tough Foe For Whitefaces

The Whitefaces will meet their stiffest competition of the season tomorrow night when they line up against the Dumas Demons for a conference game on Whiteface Field.

Dumas thus far has suffered two defeats—from Perryton and Phillips; but both opposition teams are considered leaders in their district and the Dumas eleven is expected to go into the game ahead of the Whitefaces on weight and experience.

George Weems will be back at right half to start the game against Dumas, Coach Stanton stated today. Weems, the regular starter, was out of the Dimmitt game because of injuries received the previous week, but he is now fully recovered and has been going through stiff practice sessions this week.

Line-up for Hereford will be as follows: Russell, LE; Rudd, LT; Hussey, LG; Dameron, C; Brock, RG; Manjeot, RT; Hill, RE; Merrill, Q; Worley, LH; Weems, RH; L. Olson, F.

## Sudden Death For Abilene Man Here Yesterday Morning

W. W. Smith, aged about 65, died instantly here yesterday morning when he suffered a heart attack while loading potatoes at the Stanger & Jones warehouse. Smith had come here to get a truck load of potatoes to take back to his home at Abilene.

Officials, at first unable to get in touch with any of the dead man's relatives, yesterday afternoon communicated with a daughter, Mrs. S. E. Herring of Abilene, and the body will be shipped there for funeral rites.

## Junk Dealer Has Vital Part In Scrap Drive As Shown By History of One Piece of Junk

(Editor's Note: This "case history of a piece of scrap" was written by Felix McKnight of The Dallas Morning News to help out the Texas newspapers' scrap drive. Read it to get a better idea of the part played by your junk dealer in getting scrap iron converted into munitions of war.)

Mrs. Kelly finally rumaged through her attic, hauled down the old tumbledown iron bed and discarded it the other day.

It's good that Mrs. Kelly made her decision and had the old four-poster hauled down to the junk dealer.

In a few weeks Mrs. Kelly's bed will have produced enough metal to make hundreds of hand grenades—enough to wipe out an entire Jap machine gun nest, or blow to kingdom come a Nazi tank in Egypt.

Mrs. Kelly's bed is just a dot in the Texas drive for scrap. But let's follow it from the moment it leaves her door until it becomes a weapon of war.

First, it goes to the junk dealer. And let's get straight about this junk dealer. He's not the black character some fifth columnists would have you believe. He is an extremely vital cog in this urgent drive to collect scrap.

The man makes little profit and works hard. He must cut

## Machinery Ration Board Sets Regular Meeting Schedule

The Deaf Smith County Machinery Rationing Board will meet each Saturday morning at nine o'clock in the office of County Agent A. R. Bateman, J. T. Gilbreath, chairman, stated today.

The Saturday morning schedule will be followed until board members Gilbreath, C. H. Dyar, and T. W. Roberson can see just how heavy the work of machinery rationing in the county will be.

In the meantime, farmers who are unable to meet with the board on Saturday morning may get rationing applications from A. R. Bateman or from Miss Frances Young in the County AAA Office and both Miss Young and Mr. Bateman can assist farmers in preparing applications to submit to the board.

Under the machinery rationing regulations, farmers desiring to purchase any of the following equipment which is listed as Group A machinery are required to make application for a rationing certificate. If the committee approve the application, a permit for purchase of the machinery will be issued. Machinery classified in Group A includes beet lifters, beet loaders, combines, corn pickers, disc harrows, feed grinders, fertilizer spreaders, grain drills, grain elevators, hay balers, lime spreaders, manure spreaders, milk coolers, milking machines, pickup balers, potato diggers, shredders, tractors (including garden tractors).

Other machinery and equipment can be purchased by executing certification of need with the dealer.

## AAA Ruling Allows Farmers To Measure Own Land; Deaf Smith First County To Try Plan

### Thousands of Dollars In Fines Owed For Violation of Little-Known Law

A recognition of the manpower shortage in Deaf Smith County was gained this week when state and national officials of the AAA farm program ruled that farmers here and in Randall County may measure their own land for general performance reports.

The plan to be used in Deaf Smith and Randall Counties is experimental. F. G. Collier, county AAA administrator said today, but the plan may be extended if it proves practical here. It is being tried in this territory because the AAA has been unable to hire enough performance reporters to complete the work.

Farmers will not be required to qualify as regular performance reporters but will be given tracings of aerial maps of their farms and then, with the assistance of a neighbor, they can chain off the land and mark the crops and chain measurements on the map. Completion of work can then go forward rapidly at the county office and performance checks can be mailed out from the state office.

Mr. Collier requests that farmers let the AAA know approximately when they will be able to measure their land and the office will have maps and other equipment ready on that date.

## Quarterly Tire Sale Report Must Be Filed Before October 15th

The quarterly tire report required to be filed by all tire dealers should be turned in to the County War Price and Rationing Board not later than Oct. 15, Criss Renfro, member of the board, announced today.

This report must be filed by all dealers in both new and second hand tires, Mr. Renfro said, pointing out that several dealers in the county have not yet filed reports.

and the Hereford chapter raised \$1,068.50 as their part on the "Lone Star Rebekah."

Seven tanks were bought with the surplus funds raised.

## New Kind of Treasure Hunt

Former Governor Al Smith of New York hunted up 150 pounds of metal in his office to add to the scrap collection drive. Most of it's office equipment, but some treasured souvenirs are included.

ped with magnetic crains roll along side and lift the scrap, drop it into little cars which hustle off for the furnaces.

Steel mills have their own formulas—but remember this, all mills use at least 50 per cent of scrap metal to keep their furnaces going. Formulas consist of certain amounts of pig iron, cast iron, coke and melting steel and various alloys. But all include scrap—Mrs. Kelly's bed.

The bed is hurled into a furnace and left in a molten stage 12 hours. Ladies pour the molten metal into ingot holes and there it stands and cools.

Mrs. Kelly's bed now hits the crucial stage—the fabricating mill where the old iron resting spot of the old days becomes a part of a ship, a tank or a gun. Or many hand grenades.

The job that Mrs. Kelly's bed is doing could be done by you if you will quickly hand in the old lawn mower, flat iron, wood stove, skid chains, bathtubs, golf clubs, refrigerators, radiators, washing machines, kitchen sinks and a thousand other things cluttering up your garage or attic.

Wouldn't you like to know that a piece of your scrap metal went singing into a Nazi gun emplacement when the second front is opened?

## Sale Of Rubber Boots Frozen Until Oct. 5th

Sale of certain types of rubber boots and work shoes was frozen, effective midnight, Tuesday, Sept. 29, Criss Renfro of the Deaf Smith County War Price and Rationing Board said today, stating that the "freeze" period will end Monday, Oct. 5, when rationing to customers begins.

All retailers, of the rationed footwear are required to obtain OPA inventory forms from their local War Price and Rationing Board on either Thursday, Friday or Saturday of this week.

Types of rubber footwear to be rationed include the following six types:

1. Below-knee-height HEAVY boots.
2. Paos and booties, 10 inches or higher. All laced rubber footwear of this height and bootie types with or without laces.
3. Below-knee-height LIGHT boots.
4. Above-knee-height "Storm King" boots. Below hip height.
5. Paos, booties, and work shoes, less than ten inches high.
6. Hip length boots. All hip, body, thigh or sporting boots.

From Oct. 5 on, the Deaf Smith County War Price and Rationing Board will be open to workers who need certificates entitling them to buy rationed footwear. To get a certificate the applicant must fill out two copies of a form available at the Ration Board office. These can be obtained by coming to the board in person, writing for them or sending a representative.

To get a ration certificate the prospective purchaser must prove that he is engaged in vital war work under conditions which make it necessary for him to have rubber footwear.

When the certificate holder goes to the local retailer he is required to present his certificate, identify himself, surrender any worn out rubber footwear as agreed and get a retailer's signature on a specified part of the certificate as evidence that he has made the required turn-in.

## Jr. Band Mothers Meet Tuesday Afternoon, Oct. 6

## Guest Day Tea Given By Garden Club Is Lovely Early Fall Event

One of the loveliest of social affairs of the early fall season was the guest day tea given by the Garden Club at the home of Mrs. F. H. Oberthier Friday afternoon.

In keeping with the nature of the party, profusions of fall flowers decorated the Oberthier home. Mrs. Oberthier greeted the guests and others in the house party were Mesdames Ralph McCullough, Homer Brumley, A. L. Manjeot, Liston Wilson, Jim Lipscomb, P. H. Gilliland, C. C. Ferguson, E. T. Brooks and Mrs. J. P. Slaton who presided at the attractively arranged tea table. A silver and pink theme was carried out in

the dining room with jace, pink radiance roses and pink tapers burning in antique holders used for the table.

Mrs. E. W. Hardin of Amarillo was guest speaker for the occasion. Mrs. Hardin is a leader in garden circles of the state and has traveled in many lands. She gave interesting accounts of beautiful gardens she has seen while touring other countries and told of famous American gardens. Using "Gardens Around the World" as a central theme for her talk, many pictures were shown, depicting in color noted spots of the world.

Special guests attending in-

cluded Mesdames H. T. Neely, R. E. Townsend, Henry Gooch, A. C. Hawks, and Mrs. Hardin of Amarillo, Mesdames Elmer Patterson, H. K. Fox, Seth B. Holman, W. S. Fluit, R. L. ### Let's Cook Something

In the eastern states people don't know what you are talking about when you mention "chow-chow." They haven't the faintest idea how it is made nor how you eat it, but every southern housewife knows what it is and usually some member of the family demands that a jar of chow-chow be kept on the pantry shelf.

If you are not tied by taste to one particular recipe for this southern relish, try this way of making it—it is neither too hot, too sour nor too sweet.

- 3 heads cabbage
- 1-2 peck ripe tomatoes
- 1-2 peck green tomatoes
- 1 dozen small onions
- 1-2 dozen red and green peppers (seeds removed)
- 2 lbs. brown sugar
- 1 ounce celery seed
- 1 tablespoon ground mustard

Run all the vegetables through a food grinder, add 3-4 cup of fine salt and let stand in stone jar over night. Drain in wire basket the next morning, place in large kettle with a few cloves and all-spice, add the sugar, celery seed and mustard, cover with vinegar and boil a few minutes. Seal in glass jars while hot.

### Class Party Is Given At Home Of Mrs. A. M. Jones

### GRAND TRUNK BRIDGE GOES TO SCRAP FILE

SAGINAW, Mich.—One of this city's historic railroad bridges, the 800-foot span built across Saginaw River by the Grand Trunk Railroad in 1889, is being dismantled and turned over to the war production scrap-pile. The bridge, unused for 15 years, is the second such structure the Grand Trunk has voluntarily converted to war usage in this area in recent months.

An old plow provides scrap metal for 100 armor piercing projectiles (75 mm.).

The rubber required by a medium bomber can be reclaimed from 1,000 pairs of old galoshes.

Every ton of iron and steel scrap salvaged saves two tons of iron ore, one of our most precious national resources.

# "Hey, Mom...it's ALIVE!"

"HELP! HELP! I thought it was a pretty green stone, but when it stuck its neck out, I knew it was alive. It just shows you can't always judge by appearances."

That goes for motor-oil, too. When you want quality oil... and who doesn't these days?... it is best to rely on facts and on the good name of the petroleum producer. That way you're sure of getting the genuine article.

You know that Phillips is one of the great independent organizations in the petroleum industry. You know that Phillips has a well earned reputation for giving greater value. So it means something when Phillips makes this simple, straightforward statement: If you want our best oil, remember we specify that Phillips 66 Motor Oil is our finest quality... the highest grade and greatest value... among all the oils we offer to car-owners like yourself.

Because quality oil means so much to car life, remember these facts when a new 1,000-mile mark clicks up on your speedometer, and when you are making the seasonal change.

## THE COOK AND THE VITAMINS

The vitamins that really count for you are those that reach the platter through the kindness of the cook. Sunshine travels some 90,000,000 miles to make growth possible. Animals work industriously to store vitamins in meat and dairy products. And then, a dozen feet from the dining room table, enormous quantities of vitamins come to an untimely end on the kitchen stove. Yet the rules for preserving vitamins in the kitchen are extremely simple.

1. Cook in small quantities of boiling water. (Use liquids in sauces, soups, stews, etc.) (B is not destroyed by ordinary cooking but does dissolve in water).
2. Cook as short a time as possible.
3. Cook vegetables and fruits whole when possible.
4. Cook vegetables and fruits with skins on as often as possible.
5. Avoid use of soda! Destroys many vitamins.
6. Serve fruits, greens and vegetables raw as often as possible.
7. Prepare chopped fruit and vegetable salads just before serving.

## CHDA NOTES

If you have trouble with your pears turning pink, it may be one of several reasons. The pears may turn pink if you don't cool them thoroughly after canning or if you store them in too warm a pantry.

Cooking pears too long or at too high temperature may also cause them to turn pink. A lot of heat will cause them to turn blue. Pears which get overheated after they're gathered and before they're canned will change colors. Apparently heat is the chief factor.

Keep the pears cool. Can them according to directions. And store them in a well ventilated place.

Consult your county home demonstration agent if you have trouble in canning, drying or brining pears.

Also concerning pears: A Texas A & M Extension Service news story states that Kieffer pears, now abundant over much of Texas, are suitable for drying. Finish ripening them off the tree for at least ten days to two weeks. While they ripen keep them in a cool, dark well-ventilated place. When pears are ripe, remove stem and halve or quarter them. Then remove core and woody tissue in center of pear. The smaller the piece, the more quickly it dries—which preserves food value, flavor and texture.

SULPHUR FRUIT: Saves over long period, prevents darkening and loss of vitamin C; keeps insects away and speeds up drying process. (Do it out of doors.)

Place one teaspoon of sulphur per pound of prepared fruit in small piece of paper. Roll it loosely and twist ends. Then place in pan: Place pan below tray of cut fruit, so they will not come in contact with burning sulphur. Light the paper. Then quickly place a tight box or barrel over trays and pan. The covering should be tight enough to prevent loss of fumes. Sulphur pears for three hours.

A home-made stove dryer is best for dehydrating pears, since temperature can be controlled. Process should start at 130 degrees F and finish at 175 degrees F. Pears should be dried until they are rubbery or elastic but not too sticky. They

Dimmitt, outweighed by a considerable margin, put up a hard fight against the superior Whiteface eleven. Mobley, tricky backfield ace, starred for the Bobcats; and Birdwell, passing back, showed plenty of ability in shooting the pigskin.

Coach Stanton, without the services of regular right half George Weems, tried his backfield men in new positions. Williamson started at right half with Roberson substituting at that position and at quarter back, when Red Merrill was shifted to Worley's left half slot.

### McGINNIS IS CORPORAL

Charles McGinnis, mechanic in the Air Corps, has recently been promoted to corporal and according to his description of the hardships of desert training, he has probably earned that promotion.

This summer the temperature usually reached 120 degrees in the shade.

### GETS PILOT'S WINGS

Bill Shore, former Hereford boy, received his slyer pilot's

wings in graduation ceremonies Tuesday at the Roswell Air Base, advanced flying school. He received his lieutenant's commission in the Army Air Corps approximately eight months after his enlistment last February.

Before joining the Air Corps, Shore was an instructor in an engineering school at Wichita, Kan. He is a graduate of Amarillo High School.

He is the son of the late O. M. Shore, a cattleman in this territory.

Attending the graduation were Mrs. L. H. Shore of Hereford, Mrs. O. M. Shore and Miss Robb-erne Wilson of Amarillo.

### IS FIRST LIEUTENANT

Charles Bell, son of Mrs. Allan Bell of Hereford, recently received his commission as first lieutenant in the Army Air Forces according to a War Department order.

Bell is a graduate of Adrian High School, attended Texas A & M for two years and took his aviation cadet training at Calverton, Calif., Moffett Field and Scott Field, Ill. At Scott Field he specialized in communications. Upon completion of his course he was sent to the Canal Zone where he was commissioned second lieutenant in December, 1941.

Since that time he has been back to the States once, in July, when he was sent for a two week's course to a fighter command school in Florida. He is now stationed with a fighter squadron somewhere in the Caribbean War Theatre.

### LOERWALD LIKES SEABEES

Harold R. Loerwald writes "if you don't want in the Army join the Seabees of the United States Navy. It is a swell outfit."

"There may be a few hard knocks," Loerwald continues, "but erin and bear it and everything will be O. K."

Loerwald is stationed at Camp Allen, Norfolk, Va., but expects to be transferred, probably this week, as his company will have its dress parade soon.

### HENSON IN RCMP

Herve Henson, who was born in Hereford, is now a member of the Royal Canadian Air Force on combat duty in England and over the continent, friends here learned last week.

His regular station is in Scotland.

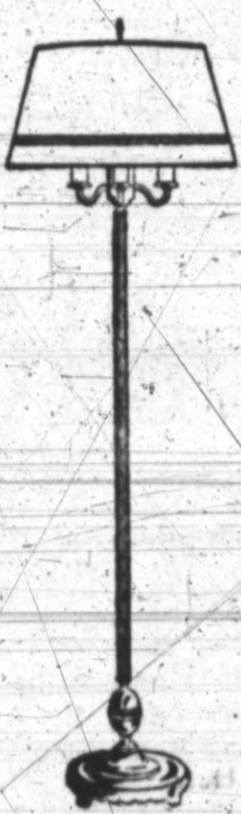

Henson's parents, pioneers of the Hereford territory, now live in Roscoe.

JACK CARTER AT BEAUTIFUL SOUTH SEA ISLAND BASE  
 Jack Carter, son of Mr. and Mrs. A. R. Carter of Hereford, is evidently stationed in one of those fabled South Sea islands, according to a letter recently received here.

Carter, who is in the Marines, is probably seeing more than beautiful scenery at his present station, which he describes as an island equipped with coconut palms, banana trees, etc. Carter says he ate so much fruit he got sick when he first arrived at the island base but that he has now learned to "take

## Miss Elsy Wilkins And Wm. F. Smith Are Wed In Impressive Ceremony

Miss Elsy Mae Wilkins, daughter of Mr. and Mrs. C. O. Wilkins, became the bride of William F. Smith, son of Mr. and Mrs. W. J. Smith, in an impressive double-ring ceremony conducted Tuesday morning at 11 o'clock at the home of the bride's parents.

Vows were spoken before Rev. James Aiken, pastor of the First Presbyterian Church, as the couple stood against a background of greenery flanked by tall baskets filled with pastel shaded dahlias. The bride was attractive in a brown and gold crepe dress with brown accessories. Her flowers were pink roses and white gladioli. Her "something old" was a gold necklace worn by the bridegroom's grandmother, the late Mrs. Clarence Smith, at her wedding.

Miss Viola Smith who attended the bride wore a gold velvet dress and her shoulder corsage was of salmon colored gladioli.

## County Federation To Hold First Quarterly Meeting Next Monday

The first quarterly meeting of the Deaf Smith County Federation of Women's Clubs will be held Monday, October 5, at the Christian Church. Hostess clubs will be The Garden Club, L. A. E. Club and the Summerfield Study Club.

A covered dish luncheon will be featured promptly at one o'clock. Entertainment during the luncheon hour will be given by Joyce Ann Miller, eight-year-old music student of Friona. She has appeared on both the Clovis and Amarillo broadcasting stations and is a member of the Hereford Voco Club.

The federation this year will have no out-of-town speakers, but will try to unify all programs that will be of interest to the clubwomen as a group.

## "Good Neighbors" Is Theme For Federated Church Council

The Good Neighbor Policy was the central theme of a talk given by Mrs. M. B. Norwood Tuesday afternoon at the Federated Council of Church Women meet held at the Presbyterian church.

She spoke on "The Migrant," saying in part, "We are all migrants, so it behooves us to be good neighbors in our relationships with each other. This is a day of change and we must be stalwart and strong if we face emergencies with courage."

"In our simple every day living is where we find our happiest work and greatest reward," said Mrs. Lee Conklin in the devotional talk. She used as her subject, "Work and Reward." She also stressed the good neighbor idea.

Other numbers on the program were a hymn "Dear Lord and Father of Mankind," a prayer read by Mrs. A. Petersen, a vocal duet sung by Mrs. A. J. Schroeter and Miss Eunice Caldwell with piano accompaniment by Mrs. T. W. Roberson.

Mrs. R. P. Coneway, president, conducted a short business session. She named a program committee to consist of Mrs. A. L. Manjeot, Mrs. A. Petersen, Mrs. M. B. Norwood and Mrs. Seth B. Holman.

A social hour followed the program and business session with Presbyterian women as hostesses.

## Troy Wombles Are Hosts At Potato Roast

Mr. and Mrs. Troy Womble were hosts with a potato roast at their home on Twenty Five Mile Avenue Friday night. Guests were members of the Rebekah Lodge. Assisting the hosts were Mrs. Edd Cox, Mrs. Arthur Rogers and Miss Mary Bradley.

After the supper party the group enjoyed games of forty-two.

Those present were Mr. and Mrs. C. C. Cox, Mr. and Mrs. John Jacobsen, Jr., Mr. and Mrs. Ernest May, Mr. and Mrs. E. E. Fridley, Mr. and Mrs. Arthur Rogers, Mr. and Mrs. Edd Cox, Miss Mary Bradley, Mrs. Ota Lee, Mrs. Edna Bowe and Mrs. Allie Elliston.

New officers for the coming year were named. They include Mrs. J. A. Loerwald, president; Mrs. W. V. Albracht, vice-president; Mrs. Frank Brinkman, secretary-treasurer. Mrs. Felix Urbanczyk was appointed chairman of the P. T. A. committee, and Mrs. Gene Loerwald was appointed reporter.

Plans were discussed for a basket dinner which will be held in St. Anthony's School Hall on October 11.

Refreshments were served to Father Nathaniel Madden and Mesdames W. J. Albracht, Felix Urbanczyk, Frank Wilde, Ed Loerwald, J. A. Loerwald, Anton Redder, M. H. Koelzer, Roy Wagner, Frank Wilhelm, Louie Huckert, John Albracht, Gene Loerwald and the hostess.

## Worley-Renner Vows Are Read In Clovis, N. M.

Marriage vows were read for Miss Gertrude Worley and Lee Renner in Clovis, N. M., on Saturday, September 19.

Attending the wedding were Mrs. Clarence Schultz, sister of the bride, and Mr. Renner's mother.

The bride is the daughter of Mr. and Mrs. M. L. Worley and attended high school here. She has been employed in Friona the past summer.

Mr. Renner attended Friona High School and the young couple plan to make their home in Friona.

## Business Students Entertain With Picnic And Party

Business school pupils of Mrs. Ralph McCullough were entertained with a backyard picnic party at the McCullough home Thursday. Red and gold flowers fringed colorful table decorations against a background of trees, shrubs and flowers.

Conversation, phonograph and radio music were enjoyed after the picnic.

Attending were Mr. and Mrs. Robert Thompson and Elaine; Mr. and Mrs. Lee Hopson, Mrs. E. Standifer, Vera Lee Hoover, Norma Livesay, Jean Lackey, Nellie Thompson, Dorothy Troxell, LaVada Cox, Lois Henderson, Billy Morton, Arrie Smith, and the McCullough family.

## Clubwomen Advised To Keep Club Work Going During War Emergency

Attractive in every detail was the opening luncheon of the Music Study Club held at the home of Mrs. H. K. Fox Monday.

The table from which the luncheon was served was marked by a centerpiece of wine-red roses and small tables for four were centered with low bowls of deep red verbenas. Place cards accented a patriotic motif with tiny American flags carrying out the theme.

A business session was held and new year books were distributed. Mrs. J. C. McCracken who is beginning her second year of a two year term as president, reminded the club members of their responsibilities during wartime, and quoted national music leaders on keeping music organizations active during the present emergency.

Members voted to send resolutions to the Senatorial Committee, investigating Petrillo, the self-made music czar, who has banned manufacture of records for radio broadcast.

Attending the luncheon meeting were Mesdames C. C. Acker, J. R. Allison, J. E. Beyer, H. L. Broadwell, H. A. Close, Ellis Coombes, R. P. Coneway, W. E. Dameron, S. P. Rossion, Glenn Snyder, W. J. Stanford, C. C.

BULL

By Jimmie Gillentine

A lot of people are getting all hot and bothered over the idea that they may freeze to death this winter. I heard one woman say she sure hated to start cooking again on her old Perfection oil stove after having used natural gas so long.

These fears are completely without basis. They are so remote that they are not worth worrying about. This winter at least, there will be no shortage of natural gas in this territory. R. C. McGivary, local manager, says this is true. Here's how the rumor got started: The gas company warned the Hereford School Board that there was a possibility of low gas pressure if equipment in the booster station wore out and could not be replaced—and that in the course of time the schools might be cut off for a day or two. Similar warnings are made to other industrial users, including laundries, flour mills, cotton gins, compresses and other large consumers of natural gas. Most of these places

used some other means of power until recently and could easily switch back to their old equipment if necessary.

Many schools over the country have decided to go ahead and operate on gas. They figure if they have to close down a few days this winter they can continue a day or two longer in the spring.

Meanwhile, the story got out here and spread like a prairie fire. Some people figured that they were going to take our gas to keep the Jap prisoners warm, and let us go cold. If they use gas to heat the prison camp, it will likely work just the other way. Gas for the camp would require another booster station, which would afford even less chance of a natural gas shortage here than in the past. All in all, there is no more likelihood of a domestic shortage now than there was last year, or the year before. It is merely a rumor, and rumors are the greatest weapons which our enemies hold.

Speaking of prisoners, here is some more proof in regard to my statement, that many of the prisoners in the concentration camp here will draw larger salaries than most people in this community—and that they will be paid by the United States Government. Judge Slaton happened to see this Associated Press clipping and was kind enough to bring it by the office:

BRITISH MAKE NAZI UNIFORMS

London—German uniforms, correct in every detail are being turned out in increasing numbers by British tailors.

"They are ordered and fitted by Germans, paid for in British money—and the whole transaction has the sanction of the British government."

"The uniforms are made for German officers, prisoners of war in this country, whose clothes have been ruined in action."

"No coupons are necessary. The uniforms are bought out of the allowance equal to each officer's weekly pay in the army

or navy which is credited to him by the British government.

"The same system for pay allowances and uniforms exists for British officers interned in Germany."

This should sound encouraging to George Stambaugh and Homer Fox. I can just see Roger Corbett, needle in hand, sewing away on a Nazi uniform.

Here's an army joke Ed Hedrick told the other day:

An army captain frequently saw a negro man hanging around the camp, so one day he asked the negro about joining the army. The negro was reluctant to join, but they needed him and the captain finally said:

"Rastus, if you will join the army and work hard for 30 days, I will give you one day leave—and anything around here you want for the day."

Reluctantly, the negro joined up. He worked hard and on the morning of the 31st day reported bright and early in the captain's office. He reminded the captain of his promise and was granted the one-day leave, but kept standing around.

"What are you waiting for?" asked the captain.

"Boss man, you done said I could have anything around heah which I wants," replied the darky, "and I wants a jeep."

Considerable argument followed, but the captain remembered his promise and finally sent the orderly out to drive in a jeep. The car was parked in front of the negro, who stared at it in amazement.

"So dat am a jeep," he finally drawled.

"Yes," snapped the captain. "What do you want with it?"

"I dont," answered the disappointed negro. "Til now, I thinks a jeep is a she Jap."

Kelly Gray recently proved all of the nice things I have always heard about the Westway Community. Six or seven Irish people had just finished reading me out because they missed their paper and I was about ready to give up when Kelly walked in and said he wanted me to come out to his pick-up. He handed over a big sack of

green beans, then topped it off with a nice fryer. I felt good all the rest of the day, because of his kindness; I also felt fine the next day, because of the splendid food. E. B. Posey was telling me that they had a letter from the Olin Fuquas, who are now in California. He said that Mrs. Fuqua went down and bought a two-pound fryer. It cost her \$1.63. Now you see where they get the expression, "some chicken!"

People should raise lots of chickens this year. According to announcements, neither chickens or fish will be included in the meat rationing set-up.

Bill McLean dropped in Monday for a brief visit. He is intensely interested in his work, and after a year as interne, will enter the U. S. Navy. He has already signed up for service. Just before coming here, Bill spent two weeks in a large Houston hospital. During this time he was on 24-hour call; he slept around seven hours and delivered 30 babies. Bill worked here in The Brand office one summer and we feel that he is part of the gang. We take a selfish interest in his achievements, because we know that Bill McLean will keep on "going places" and "doing things" of which this community will be proud.

Mrs. Mora Bell and Mrs. Mable Ballard visited Bonita and Amarillo chapters, Order of the Eastern Star in Amarillo Tuesday evening. The two chapters were entertaining the Worthy Grand Matron of Texas.

IMPORTANT INFORMATION

About sixty-five per cent of the money paid out by Life Insurance Companies is to the living; and only thirty-five per cent on account of the death of the insured.

Believe-It-or-Not, but every one should carry some kind of life insurance. There is a Life Insurance contract or policy that fits what you need.

If your wife and children should be left with but little or nothing in case of your death, then you want the most protection for the least money.

If you own property and owe money, Life Insurance protects that indebtedness and your estate; and if you live and it matures, it is a sure provision for old age, paying you each month so much money as long as you live, depending upon how much insurance you carry; and at your death it pays your wife as long as she lives.

Life Insurance is the basis of credit. The bigger the business man, the more Life Insurance he carries.

I know a man in this community who carries \$200,000.00 in life insurance. If he dies early, it pays his indebtedness and leaves his estate clear. If he lives and matures it, then it will give him a monthly income of \$2,000.00 per month as long as he lives.

When you buy Life Insurance, don't buy just anything that is offered you in any kind of a company. Be sure you have the kind you need; and that it is in one of our largest and strongest Life Insurance Companies. When you think of life insurance, think of me. I can serve you. Come in and let us talk it over.

## Your Obligation

"We hang together or we hang separately," said Benjamin Franklin during the Revolutionary War. Why should we think of that war when we have a big enough one of our own? For the simple reason that we are fighting to preserve an institution that they fought to establish.

There is more to be done than the combat on the battlefield. You can do this; we can vote. It will be yours and my duty to choose and be the leaders in the years to come. Why not learn how to vote intelligently now? Vote when it is your duty to vote.

Vote thoughtfully. Study your candidates carefully, learn their ideals, and their background. In fact, study them from every angle. Being wise in your voting makes for a solid foundation.

Vote sincerely. Don't let your neighbor influence you beyond your good judgement just because he is a good friend. The son of Mr. Empty-Pockets is no doubt the intellectual equal of Mr. Money-Bags. After all, a log cabin produced Abraham Lincoln and a mansion produced Franklin Roosevelt.

To establish this habit of voting, our schools give us this opportunity of putting into practice what we have learned by electing leaders for our different organizations. All of which reminds us of the important election for Student Council president and vice-president, and "Round-up" officers. Be American and vote.

## Allmon Writes Article Of Interest On Mexico

This is the first of a series of articles which will be written by members of the Spanish II class. These articles will be about subjects of interest, not only to those studying Spanish but also to the general public. Wanda Marie Allmon wrote this article.

What war started the sixteenth of September? The Mexican War started on this date, and it has become a very important date to the people of Mexico since that time.

The people of Mexico had learned many things from the Spanish people who had come to Mexico. They had learned their religion, their culture, their courtesy and their language.

The cry of Dolores was given by Miguel Hidalgo one day at early morning Mass. This cry was the starting of the war. Hidalgo was the leader of the war. Miguel Hidalgo was born in May, 1753. He was in Dolores when he made the cry to the people.

Today there are many important places named "El dieciséis de septiembre." The main street in Juarez, Mexico, is named after this date.

Hidalgo was captured in Chihuahua, Mexico, and was executed there in 1811. After his death, many of the people regarded him as a saint. He was

Thurman Williamson's teeth are going to fall right out of his head unless he learns to keep his mouth closed in first period typing class.

I'm sure the Spanish I students enjoy their class. One day a week they sing songs in Spanish.

The pep rally in assembly last Friday was really a good one. If this has anything to do with the pep of the team, they should win every game. Keep up the good work, students, and give the team your best support.

The third year homemaking girls are becoming scientists. They are going to order six white rats to use in some food experiments. We wonder who is going to take care of the rats. Certainly not the girls.

The oldest copies of "Field and Stream" must hold some fascination for Charles Skelton. At least, that is always what the student librarians start looking for when they see Charles coming.

It is rumored that some of the Boy's Social Problems class quit taking chemistry because it was too hard. Now they are at loss because they are studying the chemistry of foods. Which all goes to show you that no course is a snap.

If you ever wondered what that loud noise was issuing forth from seventh period study hall it was just Nona Deen Rose sneezing. She certainly has a volume for such a little girl.

Beverly Fraser, Wanda Lloyd, and Phyllis Radovich have been seen limping around on second floor. The reason: Nancy Bostick had been giving them a real workout in the art of pep leading. Someone certainly is doing a good job, don't you think?

Something is always happening in chemistry. Carlisle Rae Frye appears to be scared to death while doing her experiments. Miss Hancock has a little trouble while teaching certain students to balance equations.

Everyone knows who dominates the third floor between classes and after school. The Sophomores ruled over third floor last year and are still there this year.

Miss Hall's algebra class is now working equations. Jessie Ann Buckner thinks (along with some more) that she could do better by taking a short cut and leaving them out.

## Injured in Car Accident

Orville Calhoun and Billy Boone Whitaker were injured in a car accident which occurred on Twenty Five Mile Avenue last Wednesday night. "Tunky" (Orville) had a few minor face injuries, and "Tuny" (Billy Boone) suffered a broken knee cap and a sprained wrist. Orville is back in school, but Billy Boone is in the Hereford hospital. Students and teachers hope that he soon will be able to come back to school.

## Initiation Service Held New H. H. S. Prof. Seniors Not To Pay Class Dues

The F. H. T. club held its annual initiation service Thursday night. There was a short business meeting before the initiation. The club decided to sell hot potatoes at the football games.

The president addressed the club with words of welcome. Seven candles were then lighted from the large taper which the Mother of Homemaking held. As each girl lighted her candle, she gave a verse of poetry. The candles represented Friendship, Service, Co-operation, Knowledge, Courtesy, and Achievement. The girls who wish to become new members came forward and were given a small candle which was lighted from the candle held by the Mother of Homemaking.

After the initiation service, the program, "All Out for Uncle Sam," under the direction of Jo Ann Rosson, was given. The talks were "War Bonds and Stamps," given by Rosella Albracht and "Don't Speak Its Evil," by Jo Ann Rosson. There was a patriotic song, "I am an American" by Margaret Barber. The last talk, "U. S. O. Army, Red Cross and Army Relief Fund," was given by Pauline Loerwald.

The new members present were Jo Ann Rosson, Pauline Loerwald, Peggy Barnard, Barbara Smith, La Von Lindsey, Bonnie Lou Cooper, Bessie Frances Caraway, and Billie Jane Smith.

One of the new teachers in high school is Miss Mary Kathryn Easter, whose home is in Dimmit. Miss Easter received her college training in Wayland College in Plainview and W. T. S. C. in Canyon; she has a B. A. Degree. She is an instructor in American history, advanced civics and English I. She is also co-sponsor of the freshman class.

Miss Easter's hobby is reading, with good music as a second choice. Of all things, she likes ham sandwiches and riding in the rain. She dislikes people who brag; her favorite saying is "Dear Hannah." She just loves tennis and white roses. She is simply disgusted with the war and wants it to come to a quick end. She is bold enough to say that she likes Hereford High School and the students whom she contacts.

Welcome, Miss Easter! May you continue to like your work and the high school bunch!

## No Tom, Dick Nor Harry?

How does anyone ever expect to get all the people's names straightened out? What does a teacher do when she has four Billys in one class? Does she call them Bill, Billy, William and Willie? Just to give you an idea of how serious a problem this is, we have in H. H. ## Owen Discusses Talents

"Talents" was the subject discussed by G. P. Owen at the regular meeting of the Hi-Y last Tuesday. G. P. Owen, vice-president, gave the scripture, and Bruce Beene led the prayer. Until a regular membership has been formed, Bruce Beene will act as reporter.

Mr. G. M. Hudson, sponsor, gave the purpose, standards, activities, and projects of the Hi-Y Club.

## Did You Recognize Me?

"Hello, you. I am a little cotton plant, and I live right beside the outside gym door; I have been there nearly four months—ever since May 25. Most of my relatives live down south, where the growing season is longer; but Mr. Brock planted me here, so I guess I will have to stay. Of course, I would rather grow in nice, sandy loam than this West Texas dust, but I guess you have to take what you can get these days, what with the priorities and such; so I guess it's a good thing I don't take much water. There are two other stalks of cotton here near me, but I am the strongest and largest. Mr. Brock planted me just out of curiosity. He got the seeds from a Lubbock cotton gin.

"As you know, cotton is supposed to be king of crops in Texas. I don't feel so regal, though, just growing here day by day. Why I'll bet many of you didn't even know I was here! One thing I have seen a lot of, though, is the football boys; however, I am like a lot of girls, I would like a little more attention from the members of the Whiteface team. Well, my Mama done told me 'Little plants should be seen and not heard,' so I guess I had better conclude this little visit. Do come and see me sometime!

Most love triangles are wrecks.

## Local F. H. T. Chapter Sells Defense Stamps

A drive to further the sale of defense stamps and bonds is being sponsored by the local chapter of the Future Homemakers of Texas. The F. H. T. is a social and service organization of high school girls, functioning as a unit of the vocational educational department. The state organization for this year has dedicated itself to service to the country.

The first project to be undertaken by the Hereford Betty chapter is the selling of defense stamps and bonds. Stamps are on sale at the high school at all times particularly during the noon period. Last week the average sale of stamps per day was \$7.00. Many students bought their first stamp; books for the stamps were given and students were urged to fill them as quickly as possible.

Mr. Claude Ricketts spoke to the high school assembly Tuesday morning on the subject of defense buying. The point was brought out that money is necessary to win this war, and we are given two choices for ways of raising it—either by taxation or purchasing stamps and bonds. "Buying a bond is an investment, not a gift or a loan," said Mr. Ricketts.

## Juniors Finish Elections

The Junior class has finished the selection of its officers and candidates. Fern Pittman has been chosen as assistant reporter to the "Round-Up." Arline Millard and Ruth Tucker are nominees for assistant-editor, and Kathryn Acker and Quentin Williams are nominees for assistant business manager. Orville Calhoun has been elected Junior pep leader.

## Football Ticket Sales Amount to \$392.80

The Sophomore Class, with a total sale of \$132.00, led the school in the number of football tickets sold this season. They were rewarded by having their candidate, Lynn Morrow, elected football queen. This is the second year the class has had that honor.

The Seniors were runners-up with a total sale of \$111.00. The Juniors next with \$88.40, and the Freshmen with \$62.30. The combined sale of all classes totaled \$392.80, and this money, less Federal tax, will go to the Athletic Association.

## Tri-Hi-Y Girls To Pot Plants For Future Use

The president stressed "Pot plants for every one" at the Tri-Hi-Y club meeting Tuesday, September 22, at 7:30 in room 23. All girls will pot plants and keep them until needed for some one else.

The president called the meeting to order and welcomed Ruth Tucker as a new member. The secretary called the roll and read the minutes. The library committee, the attendance contest committee, and the finance committee each gave reports.

Miss Crawford installed the reporter, Nona Deen Rose, who was recently elected. There was a tie between courtesy contest judges; so all members voted again. Each girl filled out a program interest sheet and marked the programs that she would like for Tri-Hi-Y to have. The president then turned the program over to the program chairman, Phyllis Radovich.

The group sang "Living for Jesus." Rosemary Phillips gave the devotional. Marcella Blue gave a talk on "The History of Tri-Hi-Y." Mary Ruth Russell gave an explanation of "The Four C's." Betty Dunlap told the group "What Tri-Hi-Y Aims to do." Miss Crawford gave an inspirational talk on personal devotionals and then passed out "The Upper Room" to all the girls. The group closed with the friendship circle. After Nona Deen Rose led in prayer, the group sang "Blest Be Thee That Binds" and repeated the Tri-Hi-Y benediction.

## Schools Enroll 975

The enrollment in high school has increased since last year. 311 enrolled last year, and this year there are 337. There are 73 Seniors, (incidentally, that's the largest Senior class on Hereford High School's record), 74 Juniors, 89 Sophomores, and 91 Freshmen.

Central School boasts of almost twice as many students. There are 638 enrolled. In the first grade, there are 78 students; in the second, 64; in the third, 38; in the fourth, 79; in the fifth, 80; in the sixth, 90; in the seventh, 92; and in the eighth, 117.

This makes a total of 975 students enrolled in the Hereford Public Schools.

Yes, the Sophomores are really some workers this year (as they were last year) with the aid of J. W. Robinson, who sold more football tickets than anyone else in high school. Last Friday night on the football field, Lynn Morrow was the center of attraction. Lynn is Hereford High's 1942 football queen. She is 5 feet 3 inches tall and has brown hair and long, long eye lashes which seem to flicker in Foster Hill's direction, or is it someone else's?

Say! What's this I have been hearing about romance in World history class? It seem like Londene Martin has been taking the lead this year. Ask her about it.

# Between The Goal Posts

By Mary Kate Brotherton

My ego got a shot in the arm this week when a gentleman asked me (the prize off-the-beam sports writer in case I hadn't told you) what the score of the game with Dimmitt was. I will not give this gentleman's name, because he has a fine reputation and far be it from me to damage it; but anyway, he has inspired me to bigger and better things—Next week, I will not mind if a wild north wind takes off a few more locks of my thinning hair; I will not even be discouraged when I seem to see three separate players (including a couple of guards) going over for a touchdown. After all, most people seem to be confused these days.

Johnson, were line substitutes who added to their experience Friday night. And the other boys, who maybe did not get to play, are due a vote of thanks from the fans. It's their determination and their willingness to take a lot of punishment in stiff work-outs, which makes it possible for the other boys to look good in conference competition. And in the meantime, these kids are getting ready to represent the Whitefaces next year or the year after that and they really deserve a hand. Dumas should be the stiffest competition of the year. They have produced some plenty good teams up there in the past, and indications are that the Demons who tangle with the Maroon and White tomorrow night will be tough boys to handle. Nostradamus Brotherton is giving it to the Whitefaces—but purely on faith—"a tough fight, mom, but we win"—I hope.

But in the game Friday night the blocking was noticeably improved, with the Whiteface line working as a unit to carve a path for the ball carriers—and every boy in that backfield can make paths to touchdown territory when he gets a chance. With those new backfield combinations Coach Stanton is working, it looks as though Williamson, Robinson, Merrill, Weems Worley and Olson will all see plenty of play before the season is over.

Billy Dameron, who put in some hard work last year with not much reward in the form of play in conference games, is developing into a first rate man at center; and Earl Hussey, who has been shifted from center to left guard, a position he played some last year, is proving a hard man to stop. Clyde Brock shows the advantage of experience in handling his right guard post and he and tackles Kenneth Budd and Lloyd Manjeot really show what the scribes mean by "mowing down" opposition.

Danny Russell hit his stride in the Dimmitt game and looked like a triple threat man—the sort opposing teams will be out to stop. Foster Hill, who has not had as much experience as Russell, is still in there plugging and doing a more than adequate job.

# B&PW Club Groups Are Planning Work Toward National Defense

Miss Hattilu White of Amarillo, state president of the Business and Professional Women's Clubs, outlined the coming year's program and its relation toward an offensive war at the meeting held by members of the local B. & P. W. Club, at the home of Mrs. Jimmie Robinson Monday night.

The speaker emphasized the community offensive and the things business and professional women's clubs can do to win the war on the home front. She pointed out that few people realize that this is total war and that it can be lost, and so far, that it is being lost.

After Miss White's talk, club members discussed possible projects that the club can undertake here in Hereford.

Refreshments were served the out-of-town speaker and Mrs. Mildred Buthker of Amarillo and Mesdames Bessie Smith, Jewell Dodson, Ann Holman, Cecil Williams, Ursula Jacobsen, Barbara Roies, Dyalhia Bradley and Lois Moore and Misses Ona Faye Smith, Inez Clark, Virginia Bowman, Clara Wedel, Mary Kate Brotherton, and the hostess.

The weather may feel like hunting season, but take it from Joe Bishop, the fish are still biting. Tuesday he caught seven bass within an hour.

Arthur Thompson says he is just plain lucky to have his filling station located within waving distance of the railroad tracks because Tuesday he happened to notice a soldier, waving frantically from the window of an east-bound troop train. The boy looked familiar and sure enough it was Arthur Thompson, Jr., who is in the supply department of the ground aviation forces and has been stationed at Alameda, Calif.

## AAA Ruling

(Continued from Page 1)

"We will have to have this notice," Mr. Collier says. "Because it will take some time to prepare the maps for the farmer-reporter's use."

Farmers are required to get the counter-signature of the neighbor who helps measure their land on a statement attesting to the accuracy of measurements.

"These farmers will not be paid for their work," the AAA administrator states. "But we believe that they will be eager to do the work to speed up delivery of their performance check." At present the AAA has only three performance reporters and farmers who do not wish to measure their own land will have to wait till this crew can get to the job.

## Thousands Of

(Continued from Page 1)

Record of Defunct Businesses—A check of the registry books reveals that in all 116 firm names have been put on record. Of these, 86 are no longer in business here. But while some firms have been lax in the matter of having names recorded, others have made a habit of getting the name registered—for instance, the C. F. Kerr Hardware Co. is registered three times. If records were complete, The Assumed Name File would make an excellent business history of Hereford and Deaf Smith County from 1921 onwards. However, judging from the incompleteness of present records, chances are that a history compiled from the register would be very sketchy indeed.

### 36 Registered

Following are firms now doing business in Hereford which are properly registered: Blanton Butane Gas Co., City Drug, Close Drug, C. F. Kerr Hardware Co., Davis-McCracken; Hereford Creamery Co., Halle Drug, Hereford Truck Line, Hereford Brand, Hereford Store Co., Hereford Wrecking Co., Hereford Implement, Kerr Implement Co., Kinsey Motor Co., Moore Inde-

pendent Oil Co., Olson Service Station, O. K. Rubber Welding System, Popular Store, Pitman Grain Co., Pitman Service Station, Packard Milling Co., Rockwell Bros. & Co., Roberson Battery and Electric Co., Strau Hardware Co., Sears Grain Co., Sowell's Service Station, Whiteface Printing Co., Western Auto Associated Store, West Texas Feed and Seed Store.

Which would leave, according to last counts, approximately 70 firms which are not registered and, legally, are candidates for that stiff \$25 a day fine. How much do you owe? Figure it up to sort of get in the mood for the March income tax.

Next to silver, the most consistently produced Texas metal is mercury.
