There ought to be some suitably smart comeback to that mossgrown expression, "Hot enough for you?"

The weather is supposed to have a discouraging effect on appetite—but the rule does not apply to small boys, such as Homer Lee Owen, who consumed eight hamburgers last Thursday.

The voluntary liquidation of the First State Bank has caused more comment than any other business change in Hereford in recent years.

Some good softball is being played out at the P. O. W. Camp this summer and Hereford folks will have an opportunity to see an all star game this afternoon when representatives of the officers and headquarters company will play the guard detachment.

Seaman L. H. Lookingbill and Lloyd Manjeot arrived this morning to spend a six day leave with their families.

Rules Demanded Returned Mail, Says Lipscomb, But Rule Book Did Not Include Reaction of Wrathful Public

A heat wave that had nothing to do with the weather was generated in Hereford last week when the post office returned a barrage of local mail because of the lack of "complete addresses" and Postmaster J. R. Lipscomb found himself the target of a public thoroughly indignant about the incident.

Mr. Lipscomb, issuing a statement to the public today pointed out that the post office is legally justified in its action, and goes on to report that a detailed account of the entire incident, including the public reaction to the returned mail has been sent to the Chief Postal Inspector in Fort Worth.

Following is Lipscomb's complete statement: "Every individual in public life should have a reason for each act that he performs which will affect the general public. About two weeks ago, after the

Crew Parachutes From Burning Super Fortress

The crash of a B-29 in Ky Higgins, pasture 26 miles east of Hereford yesterday afternoon was witnessed by three Hereford men—Jim Higgins, Ky Higgins and George Suggs—who saw the combat crew parachute from the plane.

According to official reports, the entire crew leaped to safety after the plane caught fire in mid-air; however according to the Hereford men, two of the crew appeared to be injured.

The crew members all landed within a radius of 12 miles, and military personnel from Amarillo Army Air Field arrived almost immediately to guard the wreckage and pick up the crew. The accident report was evidently radioed in by another plane which was with the bomber that crashed.

The aircraft was from Harvard, Neb., and was on a routine cross country training flight. A board of officers from Amarillo Field is investigating the accident.

More Discharges Recorded Here

Three more honorable discharges from military service recently recorded at the county clerk's office are those of J. B. Joiner, Harold Balze and June P. Miller.

Joiner, who was inducted on Jan. 17, 1941, saw service as an anti-tank gun crewman in the campaigns on New Guinea, the Bismark Archipelago, the Southern Philippines and Luzon. His decorations include the American Defense Service Medal, Good Conduct Medal, Asiatic-Pacific Theatre Campaign Ribbon (with four Bronze Stars) and Philippine Liberation Ribbon with two Bronze Stars. He was overseas for three years prior to his return to the States this month.

Balze, 29, had been in service since Mar. 5, 1941 and served as an ambulance driver in the Italian campaign. His decorations are the American Defense Service Medal, Silver Star Medal, Middle Eastern Service Ribbon, Purple Heart and Good Conduct Ribbon. He was overseas from Apr. 2, 1943 to Sept. 15, 1944 and was at Camp Maxey at the time of his discharge.

Miller, inducted on Mar. 7, 1942, served as a supply technician with the Army Air Forces in China, New Guinea, Bismark Archipelago, Southern Philippines and Luzon. He wears the Good Conduct Medal, Philippine Liberation Ribbon (with two Bronze Stars), and the Asiatic-Pacific Theater Ribbon with five Bronze Stars. He was overseas for almost two years.

Crash Victim

Captain James C. Gilliland, who was killed in the crash of an Army plane over the Gilbert Islands, according to a message received last week by his parents, Mr. and Mrs. Carl Gilliland. Captain Gilliland, in service for more than three years and on overseas duty most of that time, was county attorney of Deaf Smith County prior to his call to military service.

Grand Jury Meets 30th To Open Court

As the court docket stands at present, only light activity is in prospect for the new term of district court which will open in Hereford Monday. However, the new grand jury has one murder charge to investigate and consequently there may be a heavier criminal docket than is now on file.

Because of the new procedure by which court remains in continuous session, most civil cases are disposed of as they come up and there are therefore few civil cases facing the new court term.

Grand jurors who will assemble Monday are Howard Gault, E. M. Cox, H. E. Miller, R. L. Campbell, G. W. Wilson, Colby Conkwright, J. R. Overstreet, Sylvester Slagle, J. M. Pitman, L. L. LeGrand, A. T. Frye, Orpha L. Click, Ernest May, James E. Kirby, H. E. Danforth and C. L. Bogle.

Members of the retiring grand jury are H. E. Danforth, Ed Loerwald, Ira W. Ott, S. J. Barclay, J. T. Gilbreath, Jr., George LeGrand, Maurice Tannahill, P. B. Sowell, Ernest M. (Continued on Page 12)

Legion Invites War II Vets to Aug. 11 Meet

All ex-service men of World Wars 1 and 2 are urged to attend an important meeting of the Hereford American Legion Post 192 on Tuesday night, Aug. 7, it was announced today by Harry Taylor, post commander. The meeting will start at 8:30 o'clock and will be held at the City Hall.

Officers for the year of 1946 will be elected at this meeting, Taylor said, and in addition plans for the year will be discussed. "We would especially like to have veterans of this war attend the meeting," the post commander urged. "As we believe that the American Legion can be of real service to the new veterans during the coming year, and we want to have your own viewpoint on your problems and the type of program the Legion should follow.

Invitation cards have been sent to all veterans whose addresses are known by the Legion; however, Commander Taylor urges all veterans to consider this appeal as a personal invitation and to attend the meeting.

Included in business to be discussed are plans for the War Conference to be held in Fort Worth this month.

Guest Speakers At Baptist Church

In the absence of Pastor R. H. Cagle who is in a revival at Leonard, Mrs. Charles Culpepper will be the guest speaker at the First Baptist Church Sunday morning at 10:30 A. M.

Mrs. Culpepper, along with her husband, Dr. Charles Culpepper, has done mission work in China under the Baptist Foreign Mission Board for many years. Before their return to the States, they and other Baptist missionaries were prisoners of the Japanese for a short time.

Dr. Roy L. Johnson, pastor of the First Baptist Church, Canyon, will fill the pulpit at the evening hour. All friends of the church are cordially invited to attend these services.

Airport Location Set, Plans Drawn and Building Scheduled

A privately owned and operated airport was assured this week for Hereford as W. A. (Bill) Bowman and Carl Kropff outlined their plans for a completely modern and well equipped port to be located on a quarter section 2.2 miles north of town. "Clover Airport", as it is termed in plans prepared by CAA Representative E. C. Metz, will be located on adjoining 80 acre tracts—the John Kropff and Alois Stadler farms—and the plans prepared by Metz have been submitted to CAA authorities in Fort Worth for final approval, which Kropff and Bowman feel is assured.

Runways will be completed by late September and hangars to accommodate 20 planes should be ready by January, according to present building plans.

The runways, which will be seeded in grass, will run north and south, east and west, northeast-southwest and northwest-southeast and will be a uniform 300 feet in width with lengths varying from 2,200 feet to 2,750 feet. A 500 foot space between the building clearance line and the runways is specified and hangars will be located along the dividing line on the east side of the property.

Bowman and Kropff state that they will operate a flying school in connection with the airport and will also have a super service station for planes with gas pumps located on the grounds and a complete inspection and servicing department.

The airport operators are both experienced in the aviation field. Bowman owning and operating his own plane in addition to carrying on his farming interests south of town. Kropff was one of the first aviation enthusiasts around Hereford and with his brothers built and (Continued on Page 12)

Youth Caravan In Charge of Program Starting Sunday At M. E. Church

A Youth Week program under the direction of a Youth Caravan sent out by the Methodist Church will be held at the local Methodist church next week under the joint sponsorship of the United Youth Fellowship, an organization made up of Methodist, Christian and Presbyterian young people.

Committees have been working on publicity physical arrangements, entertainment and other phases of the activity. It is expected that the response will be evident in large attendance and interest. All intermediates (ages 12-14); youth, and adults interested in youth are cordially invited to attend the sessions of Youth Week.

The main meetings will be held each evening from 7:15 until 10:15. This period will include class, discussion, program planning, worship and recreation. Warn Against Careless Sale Of Cull Spuds

Careless disposal of cull potatoes may result in increased danger of insect infestation and potato diseases, according to County Agent A. R. Bateman, who also warns against the sale of culls to truckers who may later resell the sacked spuds as "Hereford Potatoes" and bring about a lowering of the market reputation of all potatoes grown here.

Potatoes left to rot around processing houses and on farms will leave insects to infect another crop, Bateman declares. He adds that actual cases were reported last year of truckers buying culls, then sacking them and reselling them as (Continued on Page 12)

Wheat Yields Make See Saw Graph Record

Wheat yields in Deaf Smith County over a 17-year period have varied from less than one bushel in 1933 to 22 bushels in 1942, as reported by a see-saw graph prepared by the state office of the AAA and now on display at the local AAA office.

However, the general trend since 1928 has been toward a higher average with the figure rising toward slightly over eight bushels. The drought and depression years of 1932 through 1936 show the poorest averages with 1942 the top production year and 1944, 1931 and 1939 in second, third and fourth places respectively.

The figures, by years, from 1928 on are as follows:

- In 1928, slightly over seven bushels; 1928, 13 bu.; 1930, eight bushels; 1931, slightly more than 16 bu.; 1932, less than two; 1933, less than one; 1934, one bu.; 1935, 1 1/2 bu.; 1936, one; 1937, 4.2; 1938, 3.9; 1939, more than 15; 1940, 6.3; 1941, 4.1; 1942, 22; 1943, 8.3; 1944, 20.

Marksman, Spare That Insulator, Urges REA

This country is full of jackrabbits—and Leo Forrest, manager of the Deaf Smith County REA, wishes that boys would shoot at jackrabbits instead of electric insulators.

For the practice of shooting out insulators is rapidly approaching the status of a No. 1 headache for REA line crews who have to find the broken insulator and replace it—sometimes working with "hot" lines in order not to interrupt service for farmers who need the current to run irrigation motors.

Six broken insulators were found Tuesday on lines southeast of Hereford, Forrest said, adding that a .22 bullet had been found in one pole, to confirm theories as to how the insulators were damaged.

Often, Forrest points out, an insulator may be hit and will hold up until the first light rain, which will cause the line to short out. Line crews may then have to look for hours before they find the broken insulator and in the meantime customers on the line are without electric service. "It costs \$10 to replace an insulator—maybe more, depending on the time it takes to find the trouble, Forrest says, adding that the practice might even result in loss of life should a hot wire fall to the ground and charge a fence.

"I believe that the persons who have been using our insulators for targets have simply failed to think out the real dangers and expense involved," says Forrest, urging the cooperation of the public in putting a stop to the practice.

Federation Luncheon Starts Promptly at One O'clock Friday

Announcing the schedule for the Federation meeting to be held Friday at the Methodist Church, Mrs. Liston Wilson, president of the county federation of women's clubs, stated today that the covered dish luncheon will start promptly at one o'clock, with the program to begin at two o'clock and to last until four.

The program, which is under the direction of the home demonstration clubs affiliated with the federation, will be open to the public, Mrs. Wilson said, adding that the scheduled demonstration of the preparation of fruits, vegetables and chicken for storing in freezer lockers will be of general interest to housewives.

Miss Martha Buttrill, emergency state war food assistant will conduct the demonstration.

Don't Condemn Tonsils!

A few sore throats and colds are not sufficient evidence on which to condemn your Tonsils. The tonsils are useful and important organs of the body.

They are part of a very complex system known to medical men as the lymphatic system. It is composed of glands, ducts and vessels, and produces the white corpuscles of the blood. In addition, they act as the sewage system of the body carrying off the dead cells.

So, before removing the tonsils, consider their usefulness to the body.

No meetings have been held by the Garden Club during July in order that members might join with other clubs in the July Home Conservation of Vegetables and Fruits, accord-

Inaugurated as a war activity the club has had regular flower days for the USO this summer.

Regular meetings of the club will be resumed on August 24, when a garden party will be held for husbands of members and friends.

This car may have disappeared by the time you finish reading!

Every 17 Seconds (much less time than it takes to read this ad) another vitally needed car breaks down—so far beyond repair that it is gone forever.

This wouldn't be so serious if all of us lived within walking distance of our jobs. But we don't. And all you have to do is look at the acres of cars parked outside any big war plant to realize how much America's war effort depends on automobile transportation!

That's why, with 5000 cars a day going into the scrap heap, all of us have plenty to worry about. That's why Uncle Sam says, "Care For Your Car For Your Country."

And it's not hard to do—especially with your Phillips 66 Service Man stand-

ing by to help you. Because he has a special Tire-Saving and Car-Saving Plan for motorists like you. If you'll take your car to him regularly he'll check your tires—look out for cuts, bruises, and nails; warn you when re-capping is necessary; see that the air-pressure is right.

He'll take a regular look at your battery, cooling system, and air filter. He'll help discover the little troubles before they become big ones. And your Phillips 66 Service Man will tell you it's a mighty good idea to have a complete lubrication job done regularly—for it's often those unseen parts of a car that cause trouble.

Mrs. Rutherford Celebrates Her 80th Birthday

Mrs. Hattie Rutherford celebrated her 80th birthday Saturday with out-of-town relatives here to share in the commemoration. Those here were her daughter, Mrs. Beulah Lee Carter, and granddaughter, Harriette Carter, and her grand-

son and his family, Mr. and Mrs. Jarrell Rutherford and son, all of Amarillo.

Mrs. Rutherford came to Deaf Smith County with her late husband, from Denton in 1900 and settled on a ranch about 20 miles north and west of Hereford. They shipped the lumber to build their home from South Texas but had to wait quite some time before they could get the brick for the chimney. After seven years they moved to Hereford to put the

children in school for even then governesses were hard to get.

Mrs. Rutherford is a member of the Methodist Church and rarely misses a Sunday morning service, and when the Red Cross sewing room is open she never misses a Monday after-

noon when she quilts or sews. Another daughter, Mrs. C. A. Percival lives in Hutchinson, Kan., and a son, James Rutherford lives in Jackson, Miss.

Dawn

By MRS. CARL WIMBERLEY
 Charles Galley who has been stationed in England arrived home Saturday for a visit with his parents, Mr. and Mrs. Lester Galley.

Mrs. R. B. Fain of Plainview visited recently in the home of her son, T. F. Fain.

Sgt. and Mrs. L. G. Airhart of Lubbock were guests Sunday in the home of Mr. and Mrs. Lloyd Airhart.

Fifty-six persons were present for Sunday School this week.

Pvt. Raymond Stewart from Chickasha, Okla., was home over the week end.

Visitors last Sunday afternoon in the home of Mr. and Mrs. Walter Galley were Mr. and Mrs. Irving Reeves and son of Hereford.

The young people enjoyed a party at the school house Friday evening with Mrs. Lloyd Airhart and Mrs. Lloyd Bentley sponsors. Those present included Misses Sallie Womble, Ida Kuhles, Arless Oglesby, Mary Frye, Ann McCabe, Dona Airhart, Doris Smith, Mrs. William Wimberley, Ted Fain, Carroll and Pat Miller, Tommie Airhart, Herschel Miller Jr., Noel Smith, Robert Miller and Jamie Airhart and the sponsors.

Miss Dorothy Airhart has been visiting the past week with her sister in Pampa.

Miss Sallie Womble returned home Tuesday from a visit with Mr. and Mrs. Eimer Womble in the Fairview community. Mrs. Womble was a dinner guest in the Baker Womble home.

Mrs. John Voss of Calif., is here now with her husband who has been farming potatoes on the C. Aubrey Wimberley place.

THIS WEEK... AT THE USO

After the very successful chicken fry of last week almost anything would seem like an anti-climax. And the dance held on Monday night was not too successful. There were enough girls but the G. I. dancers were either on guard or seeing the "Left Over" movie at camp. We say left over because the lights went out during the show on Sunday night and it was held over until Monday. It was Abbott and Costello in "The Gay Nineties" and very hilarious.

The USO entertainment for Monday, July 30 is a trip to Amarillo by G. I. truck. Whether we go swimming or rollerskating is up to the people who go. We want them to sign up their preference at the USO by Monday noon. The refreshments and transportation will be provided by the USO but each one who goes will be asked to pay his or her way into the entertainment, probably 25c. The trip up and back would be fun in itself. Sign up early.

Furloughs and discharges and transfers have kept us busy saying "Hello" and "Good bye" lately. We were sorry to see Cpl. Frank Andracki, Sgt. Burns and wife, and Cpl. Edwards leave but we know they were glad to get their discharges. Sgt. Garnett got an emergency furlough last week. Mr. LeRoy Thurman wrote us a card to let us know that he was a Mr. now. We also had letters from Sgt. Lenson, who with Mike Faklis, is out in Saipan.

Pfc. Tony Ringes brought us a paper weight from the coal mines of Pa. when he came from furlough. We have a turtle on the desk too. Mrs. W. C. Hromas made it out of shells.

Mrs. Kyle has agreed to teach dancing at the USO if enough people are interested. Please let us know what time or day you would prefer. She will have other classes beside ball room dancing if any one is interested.

We received a card from Mrs. Mike Konesky (Lucy) written just before she got to Washington.

So many children have been interested in our shell craft that we have decided to hold a morning class on Thursday mornings for them. Mrs. Kendall, the wife of one of the soldiers, will teach it. Each child will pay ten cents in addition to the cost of the pin or shells to defray expenses.

Flowers were brought in this week by Mesdames Lynn Kester, Cox, Williams, and Hromas.

Correction on last week's column. Each person attending the chicken fry got more than one piece of chicken. In fact everyone had all they wanted and we have been hearing all week how super everything was.

Sgt. Allen returned from San Antonio on Friday night and on Saturday night he and Mrs. Allen left on their furlough. If you think that was fast work you should try to keep track of the Nehamkins. They came back from furlough in Ohio and in less than a week left for an industrial furlough in Chicago.

They were to be gone a month and in four days they were back in Hereford. They should, really know how to travel by now.

If any of the GSO girls would like to change their USO hostess schedule will they please consult Mrs. Olson or Troyce Stambaugh. If no change is desired each girl will continue as scheduled through August.

We are very grateful to Furr Food Store for the donation of 3 crates of small juicy oranges.

The population of Dawn increased about 100 this week when that many Mexicans moved here from Lubbock for the potato harvest.

Buck Anderson took Mrs. L. E. Miller to Happy Sunday to visit in the home of Mr. and Mrs. Martin Campbell.

Mr. and Mrs. N. R. Miller and Mrs. O. T. Hewitt at South Plains.

Miss Vera Frye and Mrs. L. A. Lytle of Amarillo were guests in the home of Mr. and Mrs. A. H. Frye Saturday night and Sunday.

Raymond Stewart and Johnnie B. Caraway were special guests at a dinner in the home of Mr. and Mrs. J. R. Oglesby Sunday.

Mrs. Hazel Atchley is visiting this week in the home of Mr. and Mrs. J. G. Gandy in Hereford.

Sgt. George Neill of Amarillo and Wendell Roberson of Summerfield were visitors over the week end in the home of Mr. and Mrs. W. C. Neill.

Mr. and Mrs. Staywell of Calif., visited Monday until Wednesday in the home of Mr. and Mrs. H. V. McCabe.

Brymer Urges More Political Interest

Addressing Lions Club members on the topic "Business Men in Politics," Wade Brymer, secretary of the First Federal Savings and Loan Association, pointed out the importance of business men all over the country taking an active interest in federal politics.

He stressed the probable decline of our present economic system under America's political system and cited a definite need for a "ceiling on taxes" if production continues after the war.

"We must work our way out of the hole" Mr. Brymer declared, citing a general decline in natural resources, upheavals in labor circles and the dwindling of incentive toward production.

Galley Brothers Get Furloughs Together

Sgt. Charles Galley arrived Saturday for a furlough in the home of his parents, Mr. and Mrs. Lester Galley, after being stationed in England for the past 18 months. Upon his arrival in the States he wired his brother, Pvt. Orval Galley, who is stationed at Charleston, S. C., with the Army Medical Corps and who also was able to arrange a furlough, arriving here on Sunday.

Sgt. Galley, a ground crewman with the 8th Air Force, helped with the maintenance work on B-17's. He will report from here to Fort Sam Houston and expects to be stationed in Florida.

Auto Sales on Warranted Basis Regulated by OPA

The deadline for registration and authorization of all sellers of used vehicles who wish to sell on a warranted basis is Aug. 1, according to Earl Kerr, District OPA Director.

"In order to protect buyers from illegal charges we must be sure that sellers who charge warranted prices have repair a service facilities to enable them to fulfill the conditions of the warranty," Kerr said.

Each seller who wishes to change warranted prices on or after August 1 will receive an application for an "Authorization to Sell at Warranted Prices" from his War Price and Rationing Board. In this application, dealers must record information about their repair and service facilities. This must be mailed to the District OPA office immediately so that the dealer may receive his authorization by Aug. 1.

Authorizations will be mailed to dealers who establish the facts of adequate repair and service facilities. No warranted price sales can be made on or after Aug. 1 unless the Authorization is displayed at the seller's place of business.

All other authorizations to charge warranted prices, including special authorizations issued to dealers in the past, become null and void August 1.

Tax Elections Scheduled In Five Districts

School tax elections have been scheduled for five districts in Deaf Smith County, it was announced this week by County Supt. Fred W. Baird who stated that the elections are for the purpose of authorizing increases in the school tax rates in these districts.

Two elections will be held on Saturday, July 28—when voting will take part in the Wyche and Walcott Districts. Wyche voters will ballot on a proposed increase in the school tax rate from \$1.00 to not more than \$1.50 on the \$100.00 valuation. The proposed rate change in Walcott district is from 50 cents to not more than \$1.00 on the \$100 valuation. Elections will take place at the Wyche and Walcott schoolhouses.

On the following Saturday, August 4, elections will be held in the Summerfield County Line District No. 1 and in Westway District No. 5. Both votes are for the purpose of authorizing increases from \$1.00 to not more than \$1.50 in the tax rate and voting will be held at the Summerfield and Westway schoolhouses.

Final election is for Ford District No. 7, with voting scheduled at Progressive, Daniel and Ford schoolhouses and the C. H. Hammock residence. Tax rate from 50 cents to \$1.00 and the election will take place on Tuesday, August 14.

Every tax paying property owner who possesses the necessary poll tax requirements is qualified to vote in these elections, states county Supt. Baird, adding that the voter must also possess the necessary residence qualifications—that is, he must have lived in the state for one year and in the district for six months prior to the date of the election.

"No election is of more importance to you than that which affects the education of your child," Mr. Baird states, urging that every qualified voter take part in the elections.

Mr. and Mrs. Glenn Lomas of San Antonio are guests of his brother and family, Mr. and Mrs. Harry Lomas. He has been discharged from the U. S. Army after participating in the African campaign and in the European theater of war.

Sugarless Canning Recipes Suggested To Save Fruit and Combat Shortages

"Every homemaker who knows the facts about fruit this year will understand the urgency of putting up all possible fruit, even with short supplies of sugar," it was emphasized this week by Miss Sadie Lee Oliver, CHDA, who said that grocery shelves cannot possibly provide enough fruit for civilians next winter, because a larger share than usual is going to the armed forces. Homemakers should therefore make full use of peaches—which will be fairly plentiful—and all other fruits which come on the market.

Use adaptability and ingenuity in solving the sugar problem, Miss Oliver advises, pointing out that when sugar is used, a very light syrup will be found satisfactory. Also, honey and light corn syrup may be used to stretch the sugar supply; and fruits may even be preserved without the use of sugar. Possible ways of preserving fruit without sugar are home drying, freezing, canning unsweetened juice or simply canning the fruit with juice or water in the place of the usual sugar syrup. Of the sweet fruit spreads, fruit butters are the most economical of sugar.

Generally the most satisfactory way to dry fruit at home is on trays in gas or electric ovens, where the temperature can be regulated, or in home dehydrators. But in sunny, dry climates, fruits may be sundried. Fruits which may be dried at home include peaches, apricots, pears, plums, prunes, apples, berries, cherries, figs and grapes.

Most berries (except strawberries) and cherries and currants may be frozen without the addition of sugar or other sweetening.

Many of the fully ripe, sweet fruits may be canned successfully as juice without sweetening. The juice of ripe blackberries, apples and grapes may be canned and served without sweetening. Currant, elderberry and cranberry juice may be canned "straight" and then have sweetening added before serving. Sweet juice canned with a tart juice often makes an appetizing blend.

Fruits do not need sugar in canning to keep from spoiling, but sugar helps hold flavor, color and shape. Homemakers who put up fruit with no sugar need to understand that it will not look or taste like that canned with sugar, but it may be sweetened to taste before it is served. Jars of fruit may be filled with juice or water instead of the usual sugar syrup. Juice is preferable and may be made from the riper, softer fruit which does not hold its shape in canning. Fruits probably best suited to home can-

NORFOLK, VA.—Lt. Charles D. Hardesty, 23, son of C. D. Hardesty, Hereford manager of the Southwestern Public Service Company, has been awarded the Air Medal for outstanding performance of duty and meritorious achievement while participating in hazardous flights during the winter season over North Atlantic waters.

Commodore Gordon Rowe, USN, commander fleet air, Quonset, R. I., presented the medal and read the citation at ceremonies at the Naval Auxiliary Air Station, Oceana, Va.

According to the citation, "Lieutenant Hardesty, a U. S. Navy pilot, conducted many anti-submarine aerial flights from an aircraft carrier during adverse weather conditions involving constant hazards due to winds of gale force, icing, low visibility, blizzards, rough seas and unstable flight deck. Hardesty met these conditions with great skill, fortitude and distinction, helping to bring about a substantial curtailment of enemy submarine activity. His courageous and persistent performance reflects credit on the United States Naval Service."

A delightfully informal compliment to Chas. Skelton and C. W. Reeves who will leave soon for duty with the Marines was the dance given at the club house Tuesday night by Fred Close, Roger Corbett and Jimmie Easley.

son, Tuesday afternoon. Feature of the meeting was a nature hike for the study of trees when 13 different varieties were counted.

The next meeting will also be held at Mrs. Wilson's home and a lesson on Indian symbols will be held.

Thirteen members of the group and four guests attended the meeting. The guests were Sonya Yeats, Margaret McDonald, Beth Walker and Ellen Birch.

Potato Digging Gains Speed in Hereford Area

Potato digging picked up speed this week and shipments grew progressively heavier as farmers began a job which is expected to continue until September.

Both yields and quality continued high, though some farmers said that the extremely hot weather of the past few days might do some damage. However, the early potatoes continued to run 80 per cent No. 1 and yields were in the 150 sack class.

Hereford Potato Growers As-

sociation expect to have shipped out 100 loads of spuds by tonight and shipments are heavy from other processing plants in Hereford. A new plant was opened this week in Dawn by Wimberly Bros.

Boy's Arm Broken In Riding Accident

Walker's arm was broken at the shoulder and the break was considered so serious that he was taken Wednesday to receive special treatment from a bone specialist in Oklahoma City.

Completes Atlantic Duty

Ens. Sidney Morris Easley, 23, USNR, son of Mrs. S. L. Easley of Hereford, has returned from a tour of duty as pilot of a Navy search plane that operated from a base in the south Atlantic.

Attached to a patrol bombing squadron, he flew a four-engine Martin Mariner. In carrying out their war against the U-boats operating in the South Atlantic area, he and his squadron mates flew long, unescorted searches, day and night, in all kinds of weather. They not only provided air cover for convoys but also made innumerable lone patrol sweeps in an effort to locate and destroy enemy submarines.

One of the outstanding feats of the squadron was locating a German blockade runner. The enemy vessel's position was relayed to surface craft which arrived and promptly destroyed it. On four other occasions, crews from the squadron spotted survivors of sea disasters and directed aid to them.

Ensign Easley entered the Navy in August, 1942. After training at the Naval Air Station, Corpus Christi, Tex., he won his wings in April, 1944. He was on duty in the Atlantic for ten months.

**OFFICE OF DEFENSE TRANSPORTATION
GENERAL ORDER 52
Effective 12:01 am, June 30, 1945**

"No carrier shall reserve, assign or allocate seating or sleeping space on a passenger train more than 120 hours in advance of scheduled departure time of such train. No carrier shall issue a ticket for a reserved seat or sleeping space on a passenger train more than 120 hours in advance of scheduled departure of such train, except in the case of tickets for reservations made prior to the effective date of this Order which have not been picked up."

**OFFICE OF DEFENSE TRANSPORTATION
GENERAL ORDER 53**

"On and after 12 o'clock noon, July 15, 1945, no common carrier by railroad or sleeping car company shall operate or transport any railway car containing sleeping space or sleeping accommodations to a point of distance 450 miles or less from the point of origin of such car, such distance being measured by the shortest distance by railroad over which sleeping cars are operated between such points... Each common carrier by railroad shall forthwith cancel all reservations for space after 12 o'clock noon on July 15, 1945."

What about Travel now....

under the new Government rulings?

The Government has curtailed civilian travel by ordering the railroads not to make reservations on passenger trains more than five days in advance of departure and by banning sleeping car service on trips of 450 miles or less.

A lot of people are assuming that, with the European war over, the travel situation on trains should have eased up by now.

But they are finding out that it's harder than ever to get space. They're asking themselves, "Why?"

The reason is simply that the railroads are being called upon to repair a job of moving over 3,000,000 soldiers. But this time it is to be done in 6 to 9 months whereas originally it took more than 2 years to move these men.

The railroads are still operating with the same number of passenger cars that they had when the war started. Building new passenger cars has not been permitted since Pearl Harbor.

Many Pullman cars have been converted into hospital cars, and, of course, more Pullmans and coaches than ever are being withdrawn from civilian service to use in the movement of men to the Pacific.

The great bulk of traffic for the Pacific funnels into 4 railroads to ports of embarkation in California. Santa Fe, with its improved facilities, is carrying a large part of this traffic.

This all adds up to the fact that only a very limited amount of space is left over for civilian travel.

Of course we like to see our friends and make new acquaintances. But you, too, agree that the troops and materials needed to whip Japan must come first.

New cars are now on order. Santa Fe has enough new chair cars on order to seat 3186 people. 16 new lunch counter-diners are also on order. A substantial number of new sleeping cars will be placed in service on the Santa Fe as soon as War Production Board orders permit.

Serving electricity the "high-line" way assures you of an adequate supply of cheap electric power 24 hours a day. From town to town—from factory to factory—from farm to farm, electricity from our power stations, strategically located in the territory we serve, comes to you at a lower cost than ever before.

Cities and towns that receive their electric service the "high-line" way have a definite advantage. With adequate and dependable power, new industries are more attracted; better service for all. Yes, the "high-line" way is the modern way!

TOWN AND FARM WOMEN BEATING CITY FOLKS AT FAT SAVING

Our government knows that city women have done an outstanding job saving used fats—but, now that you town and farm women have rolled up your sleeves, you are providing more used fats per kitchen than any other group in the U. S. Keep it up! 1,000,000 more pounds of used fats are needed this year to help make vital war supplies. Without your record savings, we'll never make that quota. Save every drop. Remember, it's the small amounts that fill the salvage can faster. Drippings, skimmings, scrapings, and fat scraps melted down. Your butcher will give you 2 red points and up to 4 a pound. If you have any difficulty, call your Home Demonstration or County Agent. Approved by WFA and OPA. Paid for by Industry.

"No. 1" potatoes in other parts of the State. "This practice could eventually result in serious damage to the market for all potatoes raised here," Bateman emphasizes.

Because cut potatoes draw a ceiling price of only 25 cents, the most economical use for them is as livestock feed, the county agent states, urging that both producers and processors be sure that culls are used for this purpose.

mail of local origin for local delivery to the sender for address, as that was the sender's obligation; and it was our obligation to deliver it as addressed unless the addressee had left

a forwarding address or change of local address in which case it would be delivered according to order.

"We discontinued our directory service last August and instituted a rubber stamp campaign to try to get the mailing public to address the bulk of their mail so that we could get by with delivering a small portion of it that was not addressed. A few of the heaviest mailers prepared mailing lists and submitted them to us to have the correct mailing addresses inserted but the majority of the business firms and individual mailers did nothing about it except to get vexed about the rubber stamp impression on their mail, requesting their cooperation. We do not blame the public at all because they have always done it that way but we had come to an impasse that had to be broken before another annual inspection which was due any time after July 1, 1945. That was the reason for a few pieces of your mail being returned on those two days.

"A complete report of this inspection, what had been done to try to correct it and the public reaction to the returned mail was sent to the office of the Chief Inspector at Fort Worth who did not issue any specific instructions; so you address as much of your mail as possible as in the past and we will continue to deliver as much of it as possible as in the past until we are stopped again."
