Rev. Fidel Reyes To Sing At Christian Church

Rev. Fidel Reyes, pastor of the Mexican Christian Church, Amarillo, will sing in the Sanctuary of the Christian Church Friday night, June 21, at 8:30. Mr. Reyes conducted the Pan-American Day Program at the High School last April and his selections met with enthusiastic response upon the part of all who heard him. Mr. Reyes is a graduate of Phillips University and chose the ministry in preference to a possible career in Grand Opera. Mr. Reyes will be accompanied by Margaret Harris Heiney of Amarillo. Mrs. Heiney needs no introduction to radio listeners in the Panhandle. No admission charge will be made but a free-will offering will be taken for the young people of the local church and for the Mexican Church in Amarillo.

Mexican Singer

Rev. Fidel Reyes, above, will sing in the Sanctuary of the First Christian Church tomorrow night. He is pastor of the Mexican Christian Church at Amarillo.

Deaf Smith county has struggled past the 6,000 mark by a margin of 49 persons according to a preliminary census report released Tuesday by Earl C. Cayton, supervisor of the census. Population of the county is set at 6,049 as compared with 5,979 in 1930, an increase of 70.

Since Hereford's population increased by 126 persons, this shows that the population outside of Hereford has decreased by 56 persons in the ten year period.

On the other hand, the number of farms in the county has increased from 630 in 1930 to 856 in 1940. The 1940 figure is way below the 1,085 farms the county had on January 1, 1935.

The 1940 figures given above are preliminary and subject to correction, Mr. Cayton said.

Deck Wells Makes Formal Announcement

Deskins Wells of Wellington authorized the Brand this week to announce him as candidate for United States Congress from the 18th district.

Offering himself as a candidate who can and will serve the entire Panhandle, Deskins Wells opened his speaking campaign in Wellington Friday night June 14.

Addressing the men and women of his home county, many of whom have known him for the entire 38 years of his life, Deck Wells laid down the platform on which he is seeking to represent the 18th Congressional District.

"When a man asks to serve you as your Congressman, you have a right to ask what he thinks the duties are," Deck Wells told his listeners early in his speech. "How does he propose to do this work? What course will he follow? I tell you that I will be a representative for the entire district and for the welfare of every person in it. My aim is to (Continued on Page 10, Sec. 1)

MISS OPAL CARAWAY of Tulla and Palmer Norton of Hereford were married Wednesday evening, June 12, at Tulla, Texas; the couple left immediately following the ceremony for a short trip in Colorado and New Mexico.

Caraway - Norton Marriage Is Solemnized

In a beautiful ceremony, Wednesday evening, June 12, the wedding of Miss Opal Caraway, daughter of Mr. and Mrs. S. A. Caraway of Tulla, and Palmer Norton, son of Mr. and Mrs. F. H. Norton, was solemnized at the home of Dr. and Mrs. W. H. Clark, with Dr. Clark, pastor of the First Baptist Church of Tulla, officiating.

The impressive ring ceremony was conducted before an improvised altar bedecked with flowers with tall palms in the background.

Only attendants were Miss Lorna Cone of Canyon and Edward Fullwood of Hereford.

The bride's dress was of ivory taffeta, made with fitted belt, the long full skirt forming a slight train in the back. The dress was made with puffed sleeves and a square neck line held by gold clips. She carried a bouquet of pink rosebuds and wore a bandeau of matching flowers in her hair. For "something old" she wore her mother's wedding ring.

Preceding the ceremony, Miss Lola Mae Burrow and Miss Rena Turney sang "I Love You Truly" and "Because" accompanied at the organ by Mrs. W.

H. Clark, who also played the wedding marches, "Indian Love Call" was played softly during the ceremony.

Reception Held
After the wedding an informal reception was held at the home of Judge and Mrs. J. T. Hale. A three tiered wedding cake topped with a miniature bridal couple centered the beautifully decorated refreshment table.

Immediately after the reception the couple left for a short trip to Colorado and New Mexico. The bride traveled in a navy silk chiffon with all-white accessories.

Mrs. Norton is a graduate of Tulla High School and Draughton Business College. She has been employed as stenographer in the Farm Security Office at Tulla for the past year.

Mr. Norton was graduated from Hereford high school and has been attending Texas A & M College. The couple plan to make their home in College Station this fall where he will be a senior at A & M College.

Hereford guests attending the wedding included Mr. and Mrs. E. H. Norton and Mrs. Mary Palmer, grandmother of the bridegroom.

Mrs. Kinard Is Party Hostess

Two two-table bridge parties were given last week by Mrs. Knox Kinard for friends to meet her sister, Miss Aline Walker, teacher in the San Angelo Public Schools, who is a house guest of the Kinards.

Thursday afternoon blue and yellow were the prevalent colors used in the floral motif with larkspur predominating. Appointments for the games emphasized those colors and gift packages were tied with blue and yellow ribbons.

Miss Walker played high for score award which she presented to Mrs. W. B. Wilson, a recent bride. Mrs. George V. Stambaugh received second high score award.

Guests included Mesdames Colby Conkright, George V. Stambaugh, C. F. Moore, Grant Fuller, Glenn Weir, A. R. Bate-man, W. B. Wilson and Miss Walker.

Mrs. Dameron Gives Club Luncheon

Blue delphinium and pink sweet peas centered the luncheon table at the home of Mrs. Travis Dameron when she entertained at lunch on Wednesday of last week for members of the Knitting Club. Mock orange blossoms in bouquet arrangements were used about the rooms.

Lace doilies laid the luncheon table and silver appointments were reflected against the dark wood tones of the table. Sewing, needlepoint, knitting and other handwork entertained the guests after the luncheon.

Attending were Mesdames Knox Kinard, Ernest Medkief, J. T. Gilbreath Jr., Ralph Hastings, W. J. Stanford, Woodrow Ireland, Henry Sears, Miss Allie Walker and the hostess.

Pastel Colors Used For Party At Conkwrighs

Pink and blue were colors for party appointments at the home of Mrs. Colby Conkwright Friday afternoon when members and guests of the Coterie Club were entertained at her home.

Pink roses and blue larkspur predominated in flower arrangements and appointments for the games of bridge and refreshments repeated the lovely pastel shades.

High score awards went to Mrs. J. S. Maxfield, guest and to Mrs. Grant Fuller, club member.

Those enjoying the games were Mesdames J. W. McVay, Henry Sears, J. S. Maxfield, H. A. Close, A. R. Bateman, J. W. Witherpoon, C. F. Moore and Grant Fuller.

Swallows, unlike most birds, travel by day when migrating due to the fact that they feed on wing.

College Group Enjoys Party Thursday Eve.

To compliment Miss Helen Reiche of Rockville, Mo., who is a house guest of her mother, Mrs. Ida Ricketts, Mrs. Louise LeGrand entertained a group of classmates who have attended Chillicothe Business College together at Chillicothe, Mo., at her home Thursday evening.

Star Checkers furnished the entertainment and refreshments were served to Mr. and Mrs. Clinton Jackson, Miss Edith Jackson, Charles McCreery of Chillicothe, Mo., Mr. and Mrs. Frank Marrs Jr., L. A. Ricketts and the honor guest.

Home-Coming Day At Christian Church Success

The annual "Home-Coming Day" at the Christian Church, which was observed last Sunday, June 16, was unusually well attended. Approximately 175 people were present for the sumptuous dinner served in the basement of the Church, following the morning worship service. Reports were heard from the various committees relative to the progress the Church has made during the past nine months. A memorial service was conducted by A. Lowther, Mrs. C. R. Smith led in the singing of a number of the old favorite Church hymns, and interesting talks, recalling the experiences of former days, were made by several. Three Charter Members of the Church were present, Judge L. Gough, R. H. Norton and Troy Womble. Mrs. C. R. Smith, Judge L. Gough, D. A. Shirley, and Troy Womble paid appropriate and merited tribute to such former laymen and ministers as G. R. Jewell, T. E. Shirley, and S. T. Shore who wrought so mightily for the Church in the days of its beginning. The following out-of-town former members and visitors were present:

From Amarillo: Mrs. S. H. Boozer, Mr. S. H. Boozer, Mrs. Hazel Wilson Lewis, Mrs. J. H. Wilson, Miss Floyd Wilson, Miss Lillie Hostetter, Mr. John Hostetter, Judge L. Gough, R. H. Miss Leona Tiefel Is Married To Luther Weber At Shreveport, La.

Announcement has been made here of the marriage of Miss Leona Tiefel, daughter of Mrs. Jake Tiefel, and Luther Weber, son of Mr. and Mrs. G. A. Weber of Marshall.

The couple were married Saturday evening at the Lutheran Church in Shreveport, La. The Rev. Barron, minister, read the marriage rites in the presence of relatives and a few close friends.

The bride wore an alice blue crepe frock with matching accessories and a corsage of gardenias. Her only attendant was her sister, Miss Mary Tiefel, of this city. Paul Weber, brother of the bridegroom, acted as best man.

The bride graduated from Hereford High School in 1934. She was bookkeeper in the Montgomery Ward Supply House in Weatherford for several months and since January has lived in Marshall.

The groom is a member of a prominent Marshall family, and is a graduate of the Marshall high school. At present he is foundry foreman at the Texas and Pacific Railway Shops in Marshall where the couple will make their home at 603 East Grand Avenue.

After the wedding a reception was held on the Garden Roof of the Washington Hotel in Shreveport.

A Perfect Harvest when you use a McCormick-Deering Potato Digger

3-SPEED TRANSMISSION

When your potatoes are ready to harvest, there's a world of satisfaction in turning the job over to a McCormick-Deering Potato Digger operated by tractor power take-off. The crop will be ready for storing or shipping with little loss from bruising and cutting. You'll get the job done in a hurry, too, for the McCormick-Deering is sturdily built to do this heavy work without delay. The tractor diggers include 1- and 2-row machines, available, if desired, with rubber tires, as special equipment. With tractor power you can set the shovels deep, assuring less cutting. This also carries more soil to the elevator, resulting in less bruising. Other features are accurate control of elevator speed and agitation for varying soils, and a continuous apron which prevents bruising. Besides tractor diggers, there are seven horse-drawn McCormick-Deering Diggers. Ask us for more information.

HEREFORD

BULL

By Jimmie Gilentine

Here's the latest story which is making the rounds in Hereford. Hitler, it seems threatened war on the United States and President Roosevelt after reflecting on the national debt, told him to come and get it, but added: "You will have to take Oklahoma, too."

"No," answered Hitler, "I'll fight first."

When I heard that Rayford Ricketts had caught several fish at Buffalo Lake I figured that the fish were mighty, mighty hungry. However, I didn't figure that they were on the verge of starvation. A few days ago Lawrence Womble was fishing out of the lake for bass. He was using an artificial lure and during the morning he caught two catfish. Dr. John Channer also caught a catfish on an artificial bait. In both instances the fish were common old "blue cat" and certainly were not in the game fish class. I always heard that channel cat were game fish, but on the other hand I had always heard that ordinary catfish usually ate on the bottom of the lake or stream. Nevertheless, these boys, and probably several others, have caught plain old "mud" cat on artificial lures.

D. C. Laird, an old timer, who is visiting here, still sticks with the creek fishing, however. Mr. Laird waited until the boys all went to the lake, then he got a cane pole and a frog and

went to Tierra Blanca. He came in with a five pound bass. Any old timer will tell you that D. C. used to be "tops" when it came to fishing—and he doesn't seem to have lost the knack.

We are crowded for space this week and I have to cut this short, but first I want to put in a plug for "Edison, The Man," which is showing Sunday and Monday at the Star Theatre. This film is a follow-up on "Young Tom Edison," and is considered one of the best pictures produced in recent years. Spencer Tracy is the star and plays the part of Thomas Edison. Everyone should see this film which is a tribute to an outstanding American and which is filled with tense drama as Edison invented many things which are common to us today.

LA NELLE SCHEIHAGEN LEAVES FOR NEW YORK

La Nelle Scheihagen plans to leave tomorrow for New York City where she will do social service work under the supervision of the Y. W. C. A. and the Y. M. C. A. Daily Vacation Bible School Ends At Dawn

The Daily Vacation Bible School held at the Dawn school house for the past two weeks under the direction of Rev. C. N. Wylie of Canyon ended Friday. A closing program was given and handiwork made by the children was shown Friday night.

Among the outstanding exhibits were the Holy Libraries made by the intermediate group. The libraries consisted of miniature bookcases filled with blocks of wood representing books of the Bible. Despite the rain and illness there was an average daily attendance of 36 with an enrollment of 45 members ranging in age from 4 to 14. The school was held from 8:30 to 11:30 every morning.

Teachers included Mrs. Don Fleming, Misses Jerry Fleming, and Inez Miller, beginners dept; Mrs. Wylie and Mrs. Walter Galley, primary dept.; Miss Alma Miller, intermediate dept.; and Mrs. N. R. Miller, music.

During the last week Rev. Wylie was assisted by Rev. Eason of Wichita Falls. Pupils and parents enjoyed a picnic at Buffalo Lake Thursday.

Warming Up World's First Plastic Airplane

Here is the world's first complete plastic airplane, "baked" in an oven just like a cake, being warmed up for its first trial flight. The plane is built of spruce plies over wood, coated with phenolic resin plastic liquid, then molded and baked. It is claimed such planes can be made more quickly.

Band Practice Times Changed

Due to conflicts in time with the Bible school, practice hours for the orchestra, grade school band and tonette band have been changed, director Ralph Smith has announced.

In the future the orchestra will practice at 10:30 a. m., the grade school band at 2 p. m. and the tonette band at 3 p. m. The high school band will practice at the usual hour, 8:30 p. m. Practice periods are on Tuesdays and Fridays of each week, in the high school auditorium.

Mr. and Mrs. Glenn Weir spent Father's Day in Friona with his parents, Mr. and Mrs. V. C. Weir. They were accompanied by C. L. Lillard who is spending the summer here with his sister, Mrs. Louis Woodford.

Miss Jonnie Estes of Amarillo spent Friday to Sunday visiting friend and relatives.

lion and one and one-half million bushels; others set the mark as high as two million bushels. The below-normal conditions

are attributed to dry weather; considerable damage was also reported from the late freeze which occurred here.

Because of unsettled conditions and the low market price, most of the 1940 wheat was expected to go into the government loan program.

Local elevator operators reported that they are ready for the coming harvest, and that the majority of the 1940 crop will likely remain in this community since storage here is almost equal to the crop which is anticipated.

Spud Growers

(Continued from Page 1, Sec. 1)

stress was laid by Mr. Boardman on the fact that this will probably be the most important meeting of the year.

"Several things of importance regarding care of crops from now on, and the advisability of starting a small advertising campaign will be discussed," he added.

It was also announced that a certain amount of preferred stock in the association was still available. Due to lack of time not all of the merchants have been given an opportunity to buy stock. Merchants and other interested individuals may make their wishes known by telephoning 283 and asking for Miss Francis McLeod.

Harvest To Start Soon
Harvest of the 1940 crop of Irish potatoes is expected to start between the first and tenth of July. Mr. Boardman estimated that acreage planted to potatoes so far this year is over 2,000, a tremendous increase of 700 per cent in a year's time.

The warehouse under construction by the association was being roofed this week. Hay for the roof has been baled at Bovina. An eight-inch layer of dirt will be placed over the straw. Fronts of the two cellars will be stuccoed.

Post Office

(Continued from Page 1, Sec. 1)

Program for the dedication has been worked out and is announced as follows.

Master of Ceremonies will be Jesse Stanford; Invocation, Father Nathaniel; "The Star Spangled Banner," White Face Band; Flag Raising Ceremony, Boy Scouts; Address, James W. Witherspoon; "America" sung by the group with the High School Glee Club leading; Benediction, Rev. H. M. Redford, Chaplain of the American Legion.

At conclusion of the dedication the building will be thrown open for inspection by the public. Boy Scouts of Troop 1 will serve as guides. Postal employees will demonstrate workings of the office.

Construction work on the government farm and ranch production has been underway since last November. Original plans called for completion by

June 4, but delays caused by unseasonable weather during the winter caused extension of the time. Parks-Bateson Construction Co. of Dallas constructed the building. For the most part local labor was used in the work.

Deck Wells

(Continued from Page 1, Sec. 1)

preserve our democratic form of government at all costs."

Continuing, Deck Wells outlined the ten points in his platform:

1. An immediate defense program to enable the United States to adequately resist any and all potential threats of invasion of the Americas. In addition to fulfilling all modern-mechanized needs of the air force, the army, and the navy, the defense program must be supported by sound and prosperous conditions of American agriculture, labor and industry.

2. Strict enforcement of immigration laws, curtailment of immigration quotas, and rigid check on activities of all aliens by the United States Department of Justice. There is no place in the United States for any 5th column activities.

3. Recognition that international affairs might necessitate the United States furnishing planes and armaments to foreign powers; but oppose to sending American soldiers to fight on the lands of Europe.

4. Continuation of the Government farm and ranch program to the end that soil resources be conserved, and the plans called for completion by

be assured of their rightful share of the national income.

5. Opposed to Federal control of the Texas oil and gas industry.

6. Continuation of the C. C. C. W. P. A., and P. W. A. programs, with their future work related where possible to the immediate needs of the emergency defense program. Wages and rates of pay in Texas should be equal to those paid in other states.

7. Continuation of the Federal Social Security Program with government payments to the groups designated in the Social Security Act.

8. Continuation of the recognition of the right to collective bargaining.

9. Represent the entire Eight-

eenth Congressional District including every person, every county, and every town and city in this district.

10. Dedicate my efforts and my life to the preservation of Democracy which has made us the freest, happiest, richest, and most tolerant people on the face of the earth.

"With the richest nation on earth, the highest standard of living, vast capacity in industry and agriculture, over seventy per cent of the world's gold stored in our land, it would be folly for us to relax our vigilance one second. Every other nation looks at us with envious and greedy eyes. We should defend what is our own," Deck Wells warned.

It's GREAT to be

A man died last night . . . died with an arm torn away, his stomach contorted by short rationing . . . died writhing with his face turned into earth churned soft by the feet of troops. He lies there still . . . powerless now to hear his young son crying, to stop the leather-heeled marauder who sacks his home, to see the flames leap up as they spread across the open town he left so recently.

But he, the dead soldier, was no American.

Too bad, that. If this had been his country he might have sat in the ball park last night and watched the great DiMag blast one over the left field fence. Or he might have heard Bing Crosby on the radio. He'd have come home from work, walking with his coat over his arm . . . or he'd have hopped a bus, or an elevated, or a street car. Or he'd have driven his own jalopy, yelling "Howdy!" to Jim Brown as he turned the corner into his own street. His young name-

sake would have been jumping for the funny papers before he'd have been able to get into the house; and once inside his wife would have told him about the new blossoms in the garden as he washed for dinner. Maybe he'd have topped off the meal with cherry pie and later in the evening he might have orated long and loud on the virtues or evils of his favorite subject — politics. He might have done all that and gone to bed with no greater worry than the thought of having to pay the light bill in the morning.

That's what it is to be an American. It's waking up with nothing to mar the sky but a cloud that looks like rain. It's celebrating the Fourth of July — INDEPENDENCE DAY — with a family picnic. It's writing a letter to the editor and telling him what's wrong with the government, or its a year going by without seeing a soldier. It means all this to be an American . . . and it's GREAT!!

Legion Mothers to Combat Parachutists

A million mothers, equipped with guns by July 1, to combat parachutists, is the aim of the National Legion of Mothers of America, says Mrs. E. Johnson, New York regional director of that body. She is shown second from the right. Mrs. Charlotte Young, a member, appears pointing a rifle.

College at Canyon. She has done graduate work at the University of New Mexico at Albuquerque.

Mr. Story is a graduate of Hereford High School and a graduate of West Texas State College. He also received a Vocational Agriculture Degree from New Mexico State College, Las Cruces. He taught vocational agriculture in Cliff, New Mexico last year and will be there next year.

The couple left immediately after the wedding for a short trip to points in New Mexico.

Hereford relatives attending the wedding included Mr. and Mrs. J. D. Story, Mr. and Mrs. Joe Story and family, Mr. and Mrs. A. L. Behrens and family, Mr. and Mrs. Mack Noland and C. H. Churchhill.

Fatal injuries to workers in the oil industry are now at the rate of only one in 2,078 work years.

Miss Fae Wheeler Becomes Bride Of Chas. Dean Story

Miss Fae Wheeler, daughter of Mrs. Elsie Wheeler of Amarillo, and Dean Story, son of Mr. and Mrs. J. D. Story, of this city were married Saturday morning in the Central Presbyterian Church of Amarillo with the Rev. R. Thomsen, pastor, officiating.

Mrs. J. Francis Brown played pre-nuptial music and accompanied Miss Helen Strite who played violin numbers. Mrs. Brown also played the wedding marches and "Liebestraum" was played softly as the vows were spoken.

California palms, pink and white gladioli and lighted tapers in white candelabra formed an attractive background for the ceremony.

The bride, who was given in marriage by her brother, Harry Wheeler Jr. of Seymour, wore a blue redingote ensemble of pale blue combined with navy. She wore a Lilly Dache hat of navy taffeta and navy blue accessories. Her flowers were sweet-heart roses. Her "something old" was an old gold necklace, set with pearls and diamonds.

Mrs. Harry Wheeler Jr., sister-in-law of the bride, was matron

of honor. Her dress was of chartreuse silk and her picture hat in leghorn yellow matched her flowers which were yellow gladioli. George W. Smith of Portales, who served as best man was a classmate of Mr. Story. They graduated from Hereford high school the same year, from West Texas, and New Mexico State College the same years, making a total of nine years as schoolmates.

Ushers were Raymond Glass, cousin of the bride, and Selby Wheeler, the bride's brother.

Mrs. Story, who has taught school in New Mexico for the past three years attended the University of Texas for one year and received a Bachelor of Science Degree in Vocational Home Economics at West Texas State

THOMPSON SERVICE STATION

Across from the Bull Barn... on Highway 60

There are so many ways to vary in cooking summer vegetables. So much depends on the likes and dislikes of the average family. But here are two cheese combinations that are sure to please. Mrs. John P. Slaton is responsible for both recipes and if you are in a cooking rut they'll pull you out in a hurry. Mrs. Slaton has studied food. It's preparation and how to prepare combinations of foods for years and among other things, she has found that the old-fashioned squash becomes more interesting when well blended with other foods. Here's her recipe for Spanish Squash:

SPANISH SQUASH

- 1 large or two small yellow squash
1 medium sized onion
2 tablespoons fat
1 teaspoon salt
1 teaspoon sugar
2 cups canned tomatoes
1 cup grated cheese
1/2 cup buttered bread crumbs

Cut squash in cubes, cook until almost tender and drain well. Brown the chopped onion in the fat, adding salt, sugar and tomatoes. Place a layer of squash in casserole, then a layer of tomato mixture, sprinkle with cheese and dot with pepper. Continue this method until ingredients are used and cover top with buttered crumbs. Bake in a hot oven about 25 minutes.

MACARONI LOAF

- 1 cup hot milk
1 cup cooked macaroni cut fine
1 cup bread crumbs
1 cup grated cheese
3 eggs (well beaten)

Mix these ingredients together thoroughly, shape into loaf and bake in a greased pan for 20 minutes in a moderate oven. The loaf should be cooked just long enough to set mixture and slightly brown. While the loaf is baking prepare this sauce:

- 1 cup mushrooms cut fine and browned in 1/2 cup butter
2 tablespoons flour
1/2 teaspoon salt
1/2 cup canned chicken soup (or broth)
2 tablespoons stuffed olives
2 tablespoons pimientos—cut fine

Cook all this together until thickened. When loaf is done, slice and pour sauce over slices. Serve piping hot.

You may have to cook this loaf more than once to get just right for it is more or less like a soufflé and is apt to fall. With care you should get excellent results and the experiment is well worth the effort.

Miss Ruby Dutton Becomes Bride Of Mr. Mulkey In Canyon Rites

Of interest in Hereford is the wedding of Miss Ruby Dutton and Fred Mulkey which was solemnized at San Jacinto Methodist Church in Amarillo Saturday afternoon.

The bride is the daughter of Mr. and Mrs. Earl Dutton of Canyon and the bridegroom is the son of B. J. Mulkey of Happy. Rev. H. Clyde Smith, read the double ring ceremony as the couple stood before the altar of the church. They were attended by Mr. and Mrs. Lee Shaller of Canadian.

The bride was attractive in a pink sheer street length dress made princess style. She wore a white picture hat with other white accessories, and carried a bouquet of white gardenias. Mrs. Mulkey is a graduate of West Texas State College at Canyon. She has been a member of the Central School faculty in Hereford for the past three years.

Mrs. Mulkey is a brother of Mrs. J. G. Evans of Hereford. Mr. and Mrs. Mulkey left immediately after the wedding for a short wedding trip after which they will be at home on the Walter Graham ranch southeast of Hereford.

"DESSERT BRIDGE" ENTERTAINS CLUB

An evening party in the form of a dessert-bridge, entertained members of the Wednesday Night Bridge Club last week at the home of Mr. and Mrs. Bob Wilson.

Decorations carried out a deep purple theme with delphinium, snap dragons and pansies providing the floral accent.

Miss Ona Hamner was a special guest and Mr. and Mrs. Jim Lipscomb played high in bridge games for score award. Lovely refreshments were served before the games.

Those enjoying the evening's entertainment were Messers and Mesdames Jim Lipscomb, John H. Olson, Jim Black, Roy Jewell, Reed Williams, Miss Hamner and the hosts.

THE RECORD... Facts That Concern You No. 19 of a series

ABOUT BEER AND ALE

AN OPEN FORUM OF QUESTIONS AND ANSWERS

QUESTION: WHY IS BEER CALLED THE BEVERAGE OF MODERATION?

ANSWER: Because beer's alcoholic content is low. Temperate, moderate nations of the world... and their people... prefer beer.

QUESTION: DO BEER AND ALE REALLY AID THE FARMERS?

ANSWER: Since re-legalization the brewing industry has bought 25,000,000 pounds of farm products. That has helped farmers... particularly during the depression years.

QUESTION: JUST WHAT ARE BEER AND ALE MADE OF?

ANSWER: Beer is made by a natural fermentation process... from malted barley and other grains, hops, yeast, water. Nature makes beer. The brewer makes it good beer (and ale).

QUESTION: HOW MUCH DO BEER TAXES CONTRIBUTE TO THE COST OF GOVERNMENT?

ANSWER: Beer contributes \$1,000,000 a day... \$400,000,000 a year... to help pay the costs of government... local, state and federal. Everybody benefits from this contribution.

QUESTION: DO BEER AND ALE MAKE JOBS FOR WORKERS?

ANSWER: Beer and ale have already made a million jobs. This employment is wide-spread... all over the country. More than 100 other industries benefit from beer and ale.

QUESTION: HOW IS THE BREWING INDUSTRY COOPERATING WITH LAW ENFORCEMENT OFFICERS?

ANSWER: The Brewing Industry is actively on the side of law and order. A "self-regulation" plan to eliminate retail abuses has already been put into effect in a number of states in cooperation with law enforcement authorities. This plan is being extended. We would like to tell you about it. Write for an interesting free booklet. Address: United Brewers Industrial Foundation, 19 East 40th Street, New York, N.Y.

Committees Are Listed For Fall Flower Show

Committees for the Fall Flower Show were listed at the meeting held by the Garden Club at the home of Mrs. C. C. Ferguson Friday afternoon.

Committees for the show included general arrangements, Mrs. F. M. Kester, chairman, Mrs. F. H. Oberthier, Mrs. L. H. Shore and Mrs. N. E. Gass; Place, Mrs. Jim Lipscomb, chairman, Mrs. Ralph McCullough and Mrs. C. H. Dyar; Exhibits, Mrs. L. H. Shore, chairman, Mrs. Ralph White, Mrs. Dennis Barnard, Mrs. E. Ramey, Mrs. J. P. Slaton, and Miss Sadie Lee Oliver; Publicity, Mrs. Ralph McCullough, chairman, Mrs. C. C. Cox and Mrs. Clyde Cocanougher; Registration, Mrs. J. P. Slaton, chairman, Mrs. W. A. Dobbins, Mrs. Jim Lipscomb and Mrs. Homer Brumley; Committee to select judges, Mrs. F. H. Oberthier; Entertainment, Mrs. C. C. Ferguson, Mrs. W. A. Dobbins, Mrs. C. H. Dyar and Mrs. N. E. Gass. The arrangement committee will also serve as an information committee.

The meeting opened with roll call which featured "Names of migratory birds" which members had seen and identified.

Mrs. Clyde Cocanougher was leader of the program on "Bulbs". She brought out the thought that the popularity of bulbs increased from year to year because no other type of plant gives such generous results.

In discussing the "Selection of Bulbs" Mrs. J. P. Slaton urged gardeners to purchase bulbs for next spring now. She described the true bulb, which does not reach its full size the first year, the gladiola and crocus which are of the croce variety and the dahlia—a tuber bulb.

Mrs. W. A. Dobbins told how to prepare a bed for bulbs, saying that the preparation of the bulb bed is all the labor attached to making a bulb garden. She advocated making the garden on paper first in order to eliminate mistakes. She continued, saying "Drainage is essential to bulbs. Plant on a slope if possible and do not attempt to make a bulb garden without adding peat, leaf mold or a mixture of rotted manure and leaf mold."

Mrs. F. M. Kester talked on the cutting of flowers and care of bulbs after flowering.

In keeping with the club motto to "Civic Beauty a Public Duty," members of the club urge all Hereford home owners to sponsor at least one flower bed and to keep in mind the Flower Show dates in planning flower gardens. The date is September 20, and flowers for exhibition should be cultivated during the summer months.

Plans for a bake sale to be sponsored by the club next Saturday, June 22, were made. The sale will be held at Weir's Grocery Store. The next meeting will be held

Texas Editors Back President's Defense Program

Pledge of full support of the President's program of preparedness was voted in first order of business in the 1940 convention of the Texas Press Association at Mineral Wells. Some convention photographs show: (1) Walter Murray, host publisher of The Index; (2) Charles K. Devall (with Mrs. Devall), Kilgore Herald, new president; (3) Secretary Sam F. Huxton, registered 88-year-old Elmer T. Merriman (4) of Corpus Christi; (5) Retiring President Walter Buckner, San Marcos Record; (6) Editor-Legislator James E. Taylor, Kovens Tribune; (7) Frank Zelske, Bellville Times, who reported Austin County's population is 100 per cent ready to shoulder arms for Uncle Sam; (8) Sam Fore, Floresville Chronicle-Journal, who responded to welcome to Mineral Wells, sounded preparedness keynote of convention.

TEXAS OUT-O-DOORS

GAR RODEOS LATEST SPORT

The campaign of the State Game Department to get sportsmen fishing for gar is bearing fruit. In fact, it is catching on at such a surprising rate that several cities are now planning gar rodeos, believe it or not!

And gar fishing with a simple noose of No. 30 hair wire is guaranteed to be as sporting a proposition as you will find in Texas waters. Veteran bass fishermen have been known to desert that sport and go in for gar angling almost exclusively. Fishing with light tackle adds

at the home of Mrs. Jim Lipscomb.

to the sport, but any kind of a line and pole, from a flyrod to a bamboo pole, can be used.

The sport is not as simple as it sounds. The first time or two out the fisherman misses about five times as many gar as he catches, but when he gets the knack of jerking the noose closed around the gar's snout then he is really having fun. When you find a concentration of gar it isn't many minutes between bites, whether you catch gar or not.

The Game Department is urging anglers to fish for gar, not only for the thrilling sport that is in it, but because every gar taken out of the water saves many game fish. A request to the Game Department, Austin, will bring a free leaflet detailing how to make the noose and how to fish for gar.

GEORGIA BREEM FISHING GOOD

Reports are coming into the State Game Department office from various sections of the state concerning the excellent luck anglers are having fishing for those large red-eared bream, a fish which had been overlooked by most anglers before the Department started a campaign to acquaint piscators with the fun of catching them.

The red-ears often reach a length of twelve and thirteen inches. You fish for them on the bottom of streams or lakes and the lighter the tackle used the more sport there is in it.

Once for once, bream have more fighting ability than any fish found in Texas waters. Should the sportsmen of the state fish for gar and bream, of which there is an abundance of each, in sufficient numbers, the balance between game and rough fish could be restored in Texas waters.

SNAKE SWALLOWED BIG CATFISH

More evidence that snakes do cut into the supply of fish in Texas came to light recently when the Game Department was forwarded the stomach of a three-foot water snake. In the stomach was a twelve inch channel cat which weighed approximately a pound.

COOPERATION, PLUS

Raising and lowering of the water level in artificial lakes in Texas destroys millions of fish eggs each year. However, the West Texas Utilities Company co-operated during the last spawning season by holding the water in Lake Nasworthy near San Angelo at a regular level. This was done despite a ten-foot rise in one of the creeks running into the lake.

Another company which has promised its co-operation along the same line next season is the Central Power and Light Company. It will maintain the water level on Lake Walk for a four or five month's period starting about Jan. 1.

EXPLODES HUNTER'S THEORY

Many hunters have always preached the theory that bearded hen turkeys should be killed because they do not raise young. That theory was exploded recently when a Game Department warden captain saw two heavily bearded hens with several young. One was seen with thirteen young turkeys in the Kerrville State Park and Bob Tevault of Galveston also witnessed the sight. The other bearded hen had eight young and was sighted near the south fork of the Guadalupe River.

FEEDING TURKEY SAVED CROP

The feeding of wild turkeys by the Game Department last summer, when a drought hit part of the Hill Country and southwest Texas counties enabled those sections to carry through brood stock which would have otherwise perished, according to reports of game wardens to the Austin office.

CHDA NOTES

By Sadie Lee Oliver

Kitchen improvement for greater convenience and more attractive appearance seems to be of increasing interest.

A contract has been made for a new kitchen cabinet to be built in this week at the Hardy Benson home in Ford.

Recent improvements made in the kitchen at the home of Mrs. Frank Wilde have added much to the convenience and pleasure of the worker in that room.

Home plans including storage units are being studied by the O. L. Rutherford whose home was burned recently.

A book of plans for kitchen storage units has been considered by Mrs. Lee Cocanougher at whose home the carpenters are now constructing additional rooms and re-arranging kitchen space.

Work has been almost completed on home improvement done by Mr. and Mrs. Kropff north of town. She is especially pleased with her attractive "new" kitchen which has been refinished and re-arranged.

A kitchen cabinet should have toe space which provides comfortable posture for the worker. She should be able to reach all of the first two shelves in

the upper cabinet and to the edge of the third one. When shelves have been built too far apart for this a four inch shelf may be placed at the back of each space far enough below the next shelf to provide storage for spices, cups, water glasses, dessert dishes, etc. A filing cabinet for cookie sheets, pie pans, trays, platters, and steak plates can be built inside a cabinet door. Doors of 5 ply wood cost less to construct and have no dust catching panels. The newer kitchen cabinets have shallow drawers for storage; in these fewer items are lost below the top layer.

MARRIAGE LICENSES ISSUED Lester F. Bunyon and Miss Opal Shedd.

180,000 bu. Federally Licensed Grain Storage

TO OUR FRIENDS and CUSTOMERS:

Frequently people ask us questions regarding our business in Hereford. Many are interested in what it costs us to operate, others want to know how many men we employ, or what territory we cover.

We sincerely appreciate the interest which is being shown by our friends and neighbors in our business — for after all, it is just as much your business as ours. With this in mind we have attempted to set forth on this space a few of the things in which you might be interested.

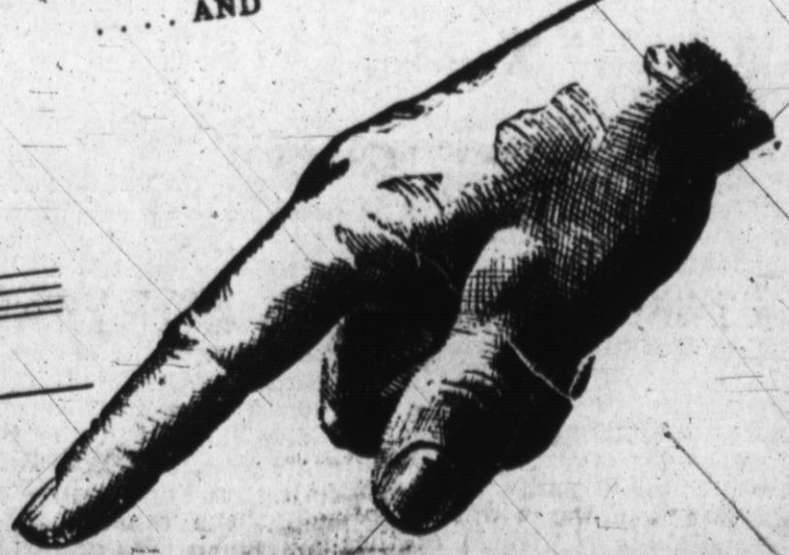

Wheat is our business. We are interested in the seed before it is planted, we are interested in filling our elevators with fine Hard Winter Wheat grown in this community — and we are interested in sending out the finished product to consumers over Texas and New Mexico.

In achieving these things — the sale of seed, purchases of wheat and in turn the sale of fine flour — with your help we have built up one of the largest manufacturing concerns in West Texas. Naturally, we are proud of our product and we are also proud of our fine personnel, which makes this product possible. We are also proud of the fine spirit of co-operation which has been accorded us by farmers, business men, and others of this community.

In thanking you for your business in past years and in the coming harvest, we feel that it is only right that our employees be allowed to join us — for their livelihood depends upon your business. They are always glad to be of assistance to you in any department.

Signed by,
ALTON T. FRASER,

Serving the HEREFORD TERRITORY

... for the FARMER

Farmers of the Hereford territory have a MARKET every day in the year at the store of those who wish to go into the business of offering a storage service which is available at all times. We have Storage facilities for 180,000 bushels of grain.

Too, Fraser Milling Company has a store where men who use the most made flour can get it. There is "no long waiting" for the flour.

We also maintain a store where men and women to help you with your flour needs.

We furthermore feel that it is our duty to insure the growth of the community, growing it out over a vast territory. The market for Hereford Wheat flour is such that some 67 families are employed in the business, producing approximately 268 direct jobs with cattle, eggs, milk and seeds.

... for the LABORER

67 men would have to work for Fraser Milling Company were it not for the government statistics of our community. This means that 268 are directly employed in the company.

Steady employment, good wages and hours and fair wages have been our policy. We want our employees to be of the type of men and women you like to see in our country likes to be of.

... for the BUSINESS MAN

Fraser Milling Company in Hereford pays \$15,000 per month in taxes to the local merchants. This means that \$180,000 of the money which we pay out is spent in the stores of Hereford.

Did you ever stop to think of the amount of money which comes into Hereford being a local business man? He is vitally interested in the same thing we are interested. Therefore, we are interested in you and contribute to local organizations for Community Welfare and betterment.

The following employees of the organization, who appreciate your patronage and every opportunity to serve you:

Last year we spent \$3,681.69 on Advertising. Of course
our primary motive was advertising Sunny Boy Flour and other
Fraser Products — but every time we went on the air or through
the Press, we advertised Hereford, Texas. Likewise, Hereford,
Texas, is plainly printed on our sacks, on our literature and on our
Trucks.

The point is, we are interested in this community just as you,
our friends and neighbors. When the community grows, We
grow — just as you personally benefit and prosper.

We are helping you to consume a portion of the products
which you indirectly or directly produce. By doing this, you are
helping yourself.

Furthermore, it is our aim to produce Flour and Mill Products

here, plus modern equipment and skilled workmen are making
this possible — and laboratory tests have proved our products
unsurpassed.

Hereford Persons Are In Favor Of Sending Full Material Aid To The Allies

The majority of Hereford persons, if a series of interviews give an accurate reflection of general opinion here, are in favor of giving all possible aid to the allies—short of men. Several were of the opinion that it would be all right to send men, saying that it would be better to fight on foreign soil than at home. Those who felt that the war is strictly none of our business were few.

A large number of persons were interviewed Saturday, before the capitulation of France. Another group was interviewed after the news came that France wanted to quit.

The persons below were asked their opinions after news of France's capitulation was known: Mrs. Ann Trantham: "I think we ought to send help over there—all we can."

Carl Oldham: "We should send them all the help we can, but as for going in the war, we'd better stay at home."

Gaston Baer: "I think we ought to stay home and build a defense around our homes. If they come over here, we'll fight them, with Gaston Baer leading, with a pair of boxing gloves on."

Joe Bishop: "If we're going to get in, we'd better do it now."

Phil Radovich: "We should think clearly, soundly for the future of humanity as a whole. Our biggest problem here is to make people obey the fundamental principles of this country. We shouldn't permit foreigners who oppose our form of government to stay here. We shouldn't send soldiers over there, but do everything in our power to defend this country."

George Cantrell: "I don't think we should ever send our man power over there."

George Byrd: "We should ship everything we can get our hands on to Britain. They need supplies and need them fast whether they can pay for them or not."

T. J. Walker: "Since we've waited so long, I don't know

Belgium's Royal Family

With King Leopold having surrendered Belgium, and his parliament repudiating the action, the status of Belgium's royal family is uncertain. Left to right, Princess Josephine Charlotte, Prince Albert of Liege, and Crown Prince Baudoin, all Leopold's children, Dowager Queen Elizabeth (his mother), the king, and his brother, Prince Charles.

whether we can do anything now that would do much good. If Germany wins, this last depression won't be a taste of what we may see."

Father Nathaniel: "We should do everything possible to keep this country out of war. I certainly believe in a war of defense."

J. Wallace Robinson: "We should speed up this preparedness program—full speed ahead. I also think we ought to have compulsory military training."

Joe Sheppard: "I think the U. S. ought to send our airplanes and navy to England today, and give all other assistance possible."

Ed Skypala: "If I was single, I'd go over there and fight the Nazis now, even if I am a German. I'd like to go over there and talk to Hitler, d. his old soul."

BEFORE FRANCE QUIT
The persons listed below were interviewed before the capitulation of France. They reflect views based on conditions as they were Saturday:

Fred W. Baird: "We should stay out of European entanglements as long as possible. Not that we should shirk responsibilities, but it is not our business. It's the other fellow's quarrel, not ours—at least not yet. I see no particular objection to selling goods to the allies on a business basis."

Jess Sparkman: "I believe that if it takes everything we've got, including man power, to stop Germany and Italy, we should give it. If the allies lose, we will be isolated. Without our foreign trade our standard of living will be lowered. I'd much rather fight them over there and know my people were safe at home instead of being the targets of the same bombs and shells as I would be."

Jean Morgan: "It's none of our business. We ought to stay out."

Cliff Estes: "Give everything we can. If the allies can't pay, sell it on the credit. If they pay for it later, all right. If they don't, all right. They're fighting our fight. I think giving them tanks, guns and airplanes is the easiest way to do our part."

A. J. Schroeter: "Give all the help we can without detriment to ourselves. We should use all relief labor for work in factories to speed our defense preparations. We should arm to the teeth and be ready."

Carl Hill: "I say give them all the help we can. We're doing right by humanity by sending food supplies, even if persons we feed are shot, or burned or run over the next day."

Ben Bates: "We should have had our defense plans going long ago. It looks like we've been asleep. We ought to send the allies 1,000 planes a day with flour, meal and meat."

Virginia Erie Reed: "We should give all the help we can short of war."

Mrs. Ray Hulse: "If we must declare war, we should do it now. I hope we can stay out, but if we have to get in, I'd rather do it now."

Robert L. Thompson: "Give every possible help short of war and pay no attention to whether or not the allies can pay the bills. It will be cheaper to furnish guns and ammunition than to furnish lives. If we are going to side with the allies we ought to do something besides talk."

Grant A. Fuller: "If we take care of our own backyard, we'll have all we can do."

Mat Gilliland: "If we don't put Hitler down now it will be the greatest mistake in history. If necessary, we ought to go over and do it."

Alvy C. Malone: "Keep sending material, airplanes and guns until the allies run out of men."

Marion DeFever: "Send them everything they need in the way of commodities, like we are doing."

Onias Carroll: "Give the allies all they want, except men."

C. J. Paddock: "Anything we have that the allies want that'll do them any good, let them have it."

Emmett Milburn: "I don't see how we can do much more than we are doing."

Finis J. Owen: "Do like we have

been doing, but stay on our own soil. We should prepare to protect our own country. If they mess with our islands, we shouldn't wait till the next day to start fighting, but start that night. We should send them all the surplus material we have, but be sure it is declared surplus before we send it."

Evelyn Sachs: "I'd rather we fought our battles at home."

V. E. Dodson: "Send all the material we can. If we don't send our material, we will later have to fight alone. We shouldn't send men. But we should send everything, even if it strains our own defense to do so. Even if the Nazis win, we can prepare for our defense as quickly as they can recuperate."

E. E. Fridley: "Hitler isn't going to stop with England. We ought to fortify to take care of ourselves."

R. O. Douglas: "All the obligation we have to go over there is in order to protect ourselves. Our big job now is to clean out the disloyal foreigners we have allowed to come into this country."

J. W. Atkins: "I believe the same as Mr. Douglas does."

Leonard H. Foster: "I believe we ought to send the allies everything we can—short of an expeditionary force."

Rev. H. M. Redford: "Either the totalitarian states or the democracies will control the seas eventually. We certainly don't want the totalitarian states to be in control. We should arm as quickly as possible. Join the allies as soon as possible and fight the war on foreign soil. We should have a strong navy, backed by plenty of planes to take the war to them. The longer we wait, the worse it will be. Get in now with all our power. Our navy plus the British navy can control the seas, even if France falls and England falls."

Jim Glover: "We ought to take a vote to see whether we send men or supplies."

Geo. LeGrand: "Give all the help we can, but keep plenty for our own defense at home."

Henry Jowell: "I'd rather fight them over there than over here."

Frank W. Lookingbill: "Give everything we can spare, but no more. Let them have guns and airplanes, and let them use them."

"I agree with my husband." Chas. Felts: "If Henry Ford can make 1,000 planes a day I say give them to the allies."

Mrs. Louis Woodford: "Give them everything—short of men."

Mont Baker: "I don't think we ought to wait as long as those fellows over there did to get ready."

Ed Curtsinger: "What Hitler needs is a d. m. good killing."

Bub Newell: "If we were anything like ready, I think we ought to go over and fight them before they come over here."

R. H. Sewell: "I think they ought to be stopped, but we are not prepared to do anything. We ought to find a way to stop them with the least loss of our lives."

Andy Thomas: "Let them have their fight. Then prepare ourselves to the utmost for anything that comes. I don't see that we have any responsibility to keep the peace in Europe."

The Gulf Coast area of Texas has 33 oil refineries with a capacity of 1,047,950 barrels of crude daily, or more than any other entire state.

A \$3,000 Home

Shunning expensive materials and eliminating the dining room to reduce waste space to a minimum, the builders of this home have produced a dwelling that could well serve as a standard in its price range. For the purposes of economy, the kitchen and bathroom are located together, thus centralizing the plumbing and saving materials. The home has a full-sized basement. Valued at \$3,000, the Federal Housing Administration insured a mortgage on the property of \$2,400. A mortgage of this amount may be paid off over a period of 25 years with average monthly payments of less than \$14, exclusive of local taxes and hazard insurance.
