Recover Loot; Break Burglary Ring Here

Four migrant farm laborers were jailed early this week for complicity in the wave of farm burglaries which have been occurring in this community since Sunday, July 22.

County, city, and state officials broke up the ring Tuesday night and found part of the loot, which has been estimated at anywhere from \$1000 to \$1500, after a midnight search near the Mexican labor camp.

Charges have been filed on the following men:

Augustine Garcia alias Jesse Martinez, 23, of Dallas, charged with theft;

Jose Angel Martinez, 17, of Dallas, charged with theft;

Arnulfo Limas, 20, of Littlefield, charged with theft; and

Fred Martinez, 53, of Dallas, charged with receiving and concealing stolen goods.

Officials have been working virtually night-and-day to clear up the case since last Sunday.

Authorities found some of the loot in a ravine along an old fence row on the Tierra Blanca creek about 600 yards east of the labor camp at about 12:30 Tuesday night.

Included in the loot were: two radios, an electric shaver, an Argoflex camera, two electric clocks, glasses, seven watches, pins, necklaces, tie clasps, and costume rings, an engagement and wedding ring, and assorted costume jewelry.

This is not the entire loot, Deputy Sheriff S. B. Berry stated Wednesday. Some of the loot found has not been reported lost as yet.

Recovery of the cache Tuesday night clears-up five of the six reported burglaries.

Berry said the four would be questioned again Wednesday until the rest of the loot had been found or traced.

Apprehension of the four men is believed to clear up the entire case, Berry said.

Authorities have been watching Martinez, alias Garcia, for some time. Garcia had been employed with the crew of Simon Estrada chopping cotton in the Northwest Hereford area.

Authorities obtained his work sheet and discovered that the burglaries were committed when Garcia was not at work.

The first big break in the case came on Sunday when Garcia was picked up in town by Police Chief Floyd Reeves for a minor traffic violation. In the car at the time of his arrest was the \$75 Argoflex camera reported stolen by Dale Coleman. He was jailed on suspicion, but authorities couldn't get much from him for a while.

Garcia finally admitted taking part in the burglaries and authorities took his fingerprints and sent them to Washington and to Austin for checking.

Officials went to Barracks 15 at the labor camp where Garcia and the other three men, who claimed to be relatives of Garcia, lived. They picked-up Jose Martinez at about 6 p.m. and picked up the others between then and 11:30 p.m.

Only by cross checking their stories and questioning each one individually, did authorities break the case and implicate all four of them.

Fred Martinez was not in the burglaries, but received and concealed the stolen goods, Deputy Berry said.

Garcia pled not guilty to the charge filed against him in examiners' court on Monday and bond was set at \$1500. Bond on the others had not been set by Wednesday evening.

They will be held for grand jury action, Berry stated.

Two burglaries which have not been reported in The Brand were at the Frank Knabe place and the Kimbrough place, where the Sunbeam electric razor and a coin collection were stolen.

Of the burglaries reported so far, one occurred on Sunday, July 22; one the following Tuesday, four the following Thursday, and one the following Friday.

Berry said they were extremely bold in their burglary. The suspects told him they went to the Knabe place where two houses are side-by-side. A lady was out in the yard at one place and one

of the members of the ring went inside to loot the place while the other stayed in the yard to eat off a tree and keep watch over the lady in the yard.

The suspects told officials they usually went into a yard with a pickup to determine if someone was at home. If they were, they would offer the pretext of seeking a job or water for their radiator.

Berry said a Texas Ranger from Amarillo was here helping in the search for the loot on Tuesday night.

Officials here do not believe the four are implicated in any other than the farm break-ins, according to the evidence presented so far.

need here for adequate housing and for the merchants to open the town and stores for migrant laborers. They should be treated as an equal part of the community, the commissioner said.

Curtis Traweck said there was definitely discrimination and warned of possible recurrence of being blacklisted for labor purposes of this area. He also scored newspapers for mentioning the nationality of Mexicans in reporting court news.

Dr. Wills explained the situation from his medical as well as from a personal standpoint. In response to a questioner who wanted to know if he (Dr. Wills) would keep his family from the municipal pool if Mexicans were swimming there, Dr. Wills said he would make no effort to keep

them out.

Wills said the sanitary conditions of the labor camp are bad, but not any worse than some he has witnessed in some homes in Hereford. There has been no instance, Dr. Wills reported, of disease emanating from the labor camp into the community.

The county health officer also scored the newspapers for advertising the inadequacies of the situation rather than the other side of the picture. The Mexican's overall health is good, he commented.

"In the hospitals, the same surgical instruments are used on Mexicans and Americans," he told the Lions club.

He insisted it be mandatory that we accept the Mexicans in our town or quit using them as laborers in our fields.

The greatest health inadequacies for Mexican laborers here,

according to Wills, are refrigeration and housing.

County Attorney Gib Howard was asked if favoritism was used in placing Mexican labor. He declined comment on the question, but gave a report on treatment of the Mexicans by the court in Deaf Smith county. There is no discrimination against any Mexican by the courts here, he said.

The situation was peaceful as far as the law enforcement officers were concerned last year, Howard told the group. There never is trouble between Mexicans and Americans, he said. All trouble, when there is trouble between the Mexicans themselves.

Kenneth Rudd said that at the present time the truck crop is small, but it will just be a matter of time before more than 90% of our income will be derived

from truck gardening. He predicted the future of the area lies in this type of agriculture—and adequate labor.

C of C Approves Chemistry for Local Products

The Hereford Chamber of Commerce voted unanimously Monday to provide funds necessary to finance a spectrographic analysis of foods and farm products produced in the county. Dr. L. B. Barnett urged the analysis at a meeting with local business and professional men, last Friday night. Results of the analyses, which will be conducted three times at regular seasons will be used for medical research on superior bone metabolism in Deaf Smith county. A laboratory in Houston will do the chemistry. The board of directors of the Chamber of Commerce will work out details of the project.

Postmaster Tells How To Address POW Mail

Directions for mailing letters to American servicemen held prisoner by the Communist armies were released this week by Postmaster Jim Lipscomb.

A directive received by Lipscomb set out the procedure for correct addressing of POW mail. It reads as follows:

The Department of Defense has issued a press release that every effort is being made to make possible communication between members of the armed forces believed to be prisoners of North Korean or Chinese Communist forces, and their families. It further relates that the Department of Defense will notify the families concerned when it receives information that a relative has been reported as a prisoner of war, and while no guarantee can be given that attempts to communicate with the reported prisoners of war will be successful, the families may write to their relatives using the following address:

Name, rank, serial number of the POW
Care of Chinese People Committee for World Peace
Peking, China.

The envelope is to contain the return address of the sender in the upper left-hand corner, and in the upper right-hand corner, in lieu of postage, the words "PRISONER OF WAR MAIL" should be written. The letters may be deposited for mailing in the usual manner.

The Department of Defense requests that the letters not be too long and that they be confined to only one per month.

No facilities are provided for transmission of parcels to prisoners.

It is requested that any letters mailed in accordance with the foregoing be dispatched without delay to the Post Office, San Francisco, Calif.

Lipscomb said there was interest among Hereford relatives on procedures for mailing POW letters. There has already been some POW mail exchanged through this method.

Six District Court Cases for August 18

The July term of district court convened Monday at 10 a.m. with District Judge Harry B. Schultz presiding.

A new grand jury was organized. After deliberating several hours, they asked to be discharged. They returned no indictments.

Judge Schultz set the pre-trial and trial dates for several cases during the coming months. Six pre-trials were set for August 18 and four cases to be tried on their merits were set for September 4. A jury will be called for September 4.

Included in these cases are:

KC's, Hereford Hdwe. Take Easy Games Mon.

Hereford Hardware continued its mastery over the Hereford Softball league Monday night by downing C & R-Jiggs and the Knights of Columbus continued their climb in the win column by defeating Summerfield.

Both teams won their games in abbreviated five-inning contests, taking advantage of the 10-run rule. Hereford Hardware clobbered C & R-Jiggs in five by a 16-0 white-washing as Dub Hair yielded five hits.

The Knights of Columbus won their game by a 15-5 margin over rapidly slipping Summerfield. C & R-Jiggs threatened only once during the game. That was

in the second inning when they loaded the bags with only one away. They failed to push across a marker.

Dub-Hair continued his mastery over local batsmen, giving up five safeties; two in the second, one in the fourth, and two in the fifth.

C & R-Jiggs unveiled a new mound ace, a curve-ball artist by the name of Laceywell. He put on a good demonstration of speed, but he arrived too late to do his teammates any good. When he took the mound from Johnny Winkler in the third, Hereford Hardware already had an 8-0 lead.

The losers provided a little comedy at the start of the game, when, dramatizing their determination to down the league-leaders, they rolled a panel truck out to second base and all the players on the C & R-Jiggs team crowded around the truck for their Wheaties and milk.

They didn't help, but it put the crowd in a happy mood for an evening's entertainment.

The Knights of Columbus unloaded in the third and fifth innings to hand Summerfield another defeat in five innings of play.

KC pitcher Kinny Walterscheid limited the once-noisy Summerfield bats to only six bingles as his mates pounded out 10 safeties off the slants of Baize.

The fortunes of softball presented a strange contrast in the second game of the evening between the two teams on the field. Summerfield, who started the season like a house afire and led the league for a long time, has run into a streak of bad luck lately and now possesses an unimpressive 5-6 record.

The Knights of Columbus, who went seven straight games minus a single win, now have a 2-9 record. Their standings, however, are not indicative of their play as of late.

The KCs are a young team and should be the most formidable opposition in the league.

Dove Season Date Changes Forseen

AUSTIN—Changes in the proposed 1951 dove seasons in Texas are foreseen by the executive secretary of the Game, Fish & Oyster Commission following a conference with Clarence Cottam, assistant director of the Federal Fish & Wildlife Service.

The Fish & Wildlife Service and the state jointly set seasons on both mourning doves and white wing doves because they are migratory birds.

The executive secretary said it seems unlikely that Texas will be zoned for waterfowl hunting as recommended by the commission.

The commission, at its last regular meeting, recommended that the mourning dove season open in the north zone September 1, and open in the south zone November 15 to run 45 days. The executive secretary understood from the conference with Cottam that the opening dates may stand but that the season would run 40 instead of 45 days. The bag limits of 10 per day and 10 in possession

seemingly will continue. Shooting hour would be from noon to sunset instead of all day.

Cottam reported that the Fish & Wildlife Service disfavours the proposed two week-end hunts on white-winged doves in the Rio Grande valley. The executive secretary reported that the 1951 season probably will be Friday, Sept. 14; Sunday, Sept. 16, and Tuesday, Sept. 18, with the hours from 4 p.m. to sunset, as usual.

Cottam said the whiterings suffered too heavily from the winter freeze that destroyed much of their nesting areas in the orange groves to permit an expanded season. The commission recommended Friday, Sept. 7, and Sunday, Sept. 9, and Friday Sept. 14, and Sunday, Sept. 16.

The executive secretary reported increasing hunting pressure, plus weather hardships on both whiterings and mourning doves, as major factors in the curtailment.

Ladies Sponsor Second Scotch Foursome Sun.

The Ladies Golf association will sponsor another "Scotch Foursome" Sunday at the Hereford Golf club, according to Irma Terry, president of the association.

Play will begin at 4 p.m. All golfers are urged to participate in the event.

On Thursday, the association will sponsor a "most of any one number on the score card" event with two prizes to be awarded.

This will not penalize a golfer with a higher score, because the prizes will be given for the highest number of any one number on the card, i.e., the most four-strokes, three-strokes, or five-strokes, etc.

Bill Kannapill returned to his home in Fort Worth Sunday after a two-week visit here with his cousin, Buddy Bob Campbell.

Jean Gilliland of Dallas is visiting her grandparents, the Henry Hastings and the J. M. Gillilands, and other relatives here.

Mr. and Mrs. Don Bruhl and family left Friday for their new home in Llano.

ments tentatively fixed by the Federal authorities.

Cottam also indicated a no-zoning waterfowl policy by the Fish & Wildlife Service because of the precedent provided by such a concession to Texas. He pointed out that several states seek a zoning arrangement, some of them, like Delaware, being just a fraction the size of Texas.

The executive secretary said it was too early to anticipate the waterfowl regulations since the summer duck and geese count still is underway. He quoted Cottam as saying Texas would be allowed regulations to permit as generous hunting conditions throughout the state as possible. The commission has recom-

ended that the waterfowl season open November 10.

Mrs. Wayne Stark will visit Mr. and Mrs. Kenneth Mayes of Abilene this week.

Extensionist Tells How of Preserving Watermelon Rinds

COLLEGE STATION—Watermelons are in plentiful supply in most parts of Texas. They are so luscious looking and so good when they are red ripe and cold. Since watermelon cannot be frozen very satisfactorily, Louise Mason, Extension Foods and Nutrition Specialist, says if you want to preserve some for future use, it may be done by making watermelon rind preserves.

She says, select melons which have a thick rind. Trim off the outer green skin and the pink flesh, and use only the greenish white parts of the rind. Cut the rind into one-half or one inch cubes and weigh. Then soak the cubes for three and one-half hours in lime water (2 quarts water and 2 tablespoons lime—calcium oxide.) Next, drain and place the cubes in clear water for one hour. Again, drain off the water and boil for one and one-half hours after fresh water has been added. Then drain.

For each pound of watermelon rind (weight before soaking), Miss Mason says use one pound of sugar (2 cups) and one quart water. Make a syrup, then add the rind and boil one hour. As the syrup thickens add one-half

Vital Water Meeting at Plainview on August 9

PLAINVIEW — Groundwater users from 21 counties will gather here August 9 to tell the State Board of Water Engineers how they feel about the proposed creation of High Plains Under-ground Water Conservation District No. 1.

Irrigation farmers and other interested citizens have been invited to testify at the board's public hearing, which is set for 10 a. m. in the Plainview Municipal auditorium.

On evidence presented, the board will decide whether to declare creation of the 10,600-square mile district. If the district is established, the board will then appoint a five-man board of directors to supervise an election at which the voters may approve or reject the district.

Such districts are in operation, on a much smaller scale, in Martin and Dallam counties. They were created under House Bill 162, passed by the Texas Legislature in the spring of 1949.

The proposed district includes all of Lubbock Farmer, Hale and Swisher counties and parts of

By Mrs. R. C. Childers
There were 56 present for the basket supper and shower for Mr. and Mrs. Fred Wolfington last Friday night on the lawn of the R. C. Childers farm home. The shower came as a complete surprise to the Wolfingtons. Friends and neighbors have been wanting to do something nice for them, since the water did so much damage to their household things, but wanted to wait until they got moved into their new home. They have been into their new home several weeks now, but it is still not completed. Those attending were Mr. and

Owens, Dennis and David; Mr. Leroy Packard, the honorees, and the hostess and family.

Motor-boat riding was the entertainment for a group of young folk on the lake on the S. J. Barclay farm Sunday afternoon. The boat is large enough to carry as many as 12 or 14 at a time. Travel Tips From Home Management Specialist at A&M

COLLEGE STATION — Are you planning to "Pack up your troubles in your old kit bag" and take a vacation? Be wise, do not pack "troubles" by packing carelessly, advises Gladys Darden, Home Management Specialist for the Agricultural Extension Service of the Texas A. & M. college. A few rules or hints can spare you wrinkles, stains and other such troubles on your arrival.

First of all, "travel light," suggests Miss Darden. You can do this if you are selective in what you take. Take clothes that will serve more than one purpose; accessories that will combine well with several costumes, stress crease-resistant fabrics, quick washing and drying blouses and lingerie. Think of needs — summer days are hot but resort nights can be cool as are air-conditioned modes of transportation. nor is it always sunny weather.

Make a list before you start your actual packing, says Miss Darden. High on the list should be cosmetics, plastic cases and unbreakable plastic bottles for them, clothes brush, shoe brush, needles and basic colored threads, your favorite soap or detergent for washing hose and lingerie.

the northern part of Arkansas. Mrs. Hal Inman was a guest in the R. C. Childers home Monday. Mrs. Childers accompanied Mrs. Inman to Plainview Monday evening. They returned Tuesday morning. Mrs. Inman will spend several weeks in the Childers and Wayne Johnson homes.

Crops in the vicinity of Dimmitt, Hart, Edmonson and Plainview as observed by your correspondent were beautiful. The cotton crop especially was beautiful, one in particular just east of Hart, was the prettiest, along the way. At one place close to Edmonson, a field of martin maize was already headed out. There is a lot of cotton around Dimmitt and all along the road. Prospects are good for a cotton crop this year in that vicinity. A cotton gin is nearing completion at Dimmitt.

R. N. Coke moved his dairy herd and equipment from Canyon to his place here Tuesday. The Cookes formerly operated a dairy on their farm here but sold out over a year ago. This spring, he bought another dairy herd at Canyon, so he is moving them to his present location for production.

Add a travel iron, extra hangers, and tissue paper.

Here are a few tricks a seasoned traveler gets to know—stuff shoes and purses with tissue paper and crumple tissue in every dress fold. Fold a jacket with the lining outward, sleeves straight down—it will hang out in a short time. Fold skirt back over a roll of tissue paper. Put shoes, heavy or bulky articles on the bottom layer of your suitcase. Pack articles in the order needed—as pajamas on the top for an overnight trip. Unpack as soon as possible after your arrival, concludes Miss Darden.

The Bole roamed both coasts of Korea, disrupting rail communications, smashing enemy troop

Mr. and Mrs. T. N. Evans of Santa Anna, Texas, visited in the home of Mrs. Evans' sister, Mrs. W. B. Phillips Sr. over the week-end.

FACTS ABOUT MONEY!

OLD NEW YORK

During the history of coinage, many things have been used as a medium of exchange . . . for instance, cattle, tobacco, animal skins, and even woodpecker's scalps were all used for this purpose. Strangely enough, in the days when modern New York was Old New Amsterdam, onions, codfish and wooden bowls were all used for money.

Recent Bride Is Honored

Mrs. Glenn Manning, the former Miss Joan Orr, was named honoree Friday evening at a miscellaneous shower given at the home of Mrs. H. V. Stanton. Assisting with the shower were Mrs. Elmer Patterson, Miss Nelda Guy Lawrence, Miss Gerry Patterson, and Miss Pat Walton.

Pastel-shaded garden flowers were used about the house in decorations and a program of readings and games was presented by Gerry Patterson and Pat Walton. The shower was introduced when the honoree was awarded the prize in a word-building contest.

Refreshments were served to Mesdames Ronald Matthews, John Jacobsen Sr., Floyd Walton Sr., A. O. Thompson, Roy Manning, Marcus Matthews, the hon-

oree and the hostesses. Many who were unable to attend the party sent gifts.

COOL COOKING

Of course—
it's Electric!

It's electric because electricity is coolest of all heat producing methods. Only when you cook electrically does all the heat go into the cooking job. For only on an electric range do you have pan-hugging heat, with the utensil setting right on the heating element. And only in an electric range oven do you have complete six-sided insulation, for only matchless, flameless electric cooking can be completely insulated—without oxygen because it's without flame.

Cook the cool way—the way that lets you prepare an entire meal without raising the temperature of your kitchen more than one degree. Of course, it's electric.

Owens Serving With Famed 5th Cavalry Reg't

WITH THE 1ST CAVALRY DIVISION, U. S. ARMY, IN KOREA — (Delayed) — A Hereford, Texas, Army man is on the frontlines serving with one of the most famous infantry regiments battling Communists in the Korean war.

Private John D. Owen, son of Mrs. Donie S. Owen, Hereford, is in the 1st Cavalry Division's 5th Cavalry Regiment.

Owen's colorful unit splashed ashore in Korea in July, 1950. It was one of two regiments that completely crushed three North Korean divisions early in the war near Waegwan.

After UN forces had punched through Communist lines in September and rolled into North Korea, Owen's regiment made the historic October 19 capture of the vital North Korean capital city of Pyongyang.

More recently, the 5th Cavalry sent a task force against an estimated three enemy divisions pressuring a French-American bastion at Chipvong-ni. The regiment's armored-infantry force completely crushed the enemy threat, killed at least 2,500 Chinese and freed the encircled UN forces.

Enlistments Open To Draftees After Pre-Induction Exam

Men who have had their pre-induction physical will be able to enlist in the service of their choice during the month of August, according to M/Sgt. Hicklin Harrel, local recruiting officer.

Harrel said the Air Force quota for the Amarillo area is now three men every two days.

Further information on enlistment by pre-induction men may be obtained at the recruiting office on the third floor of county courthouse in Hereford.
