

LATEST CANDIDATES to appear on the political horizon were these two upstanding examples of the latest styles in what the well-dressed politician wouldn't be caught dead in. George Heard, left, and Bob Lamm were speakers at a "political rally" held by the Gastmasters Club at the home of Jack Luck, 225 Ave. K, Tuesday night after a lawn sup-

per attended by members, their families and guests. They were introduced by S. S. (Fritz) Dodson and Ed Dziuk. Other parts of the program were a skit put on by Curtis Traveek, Dr. Milton C. Adams and Virgil Dodson, and the introduction of Ted Linnartz by Irving Alexander as "a member of Joe Stalin's gang over in Russia." (Staff Photo)

Way back in 1819 the canning industry came into being, no doubt the fruit of some good farmers' fertile minds. For this was the answer to their problem of marketing their produce the year 'round. Thus, agriculture and industry came together for a common good, forming a partnership which has operated to their mutual benefit ever since.

Today our farmers produce millions of tons of top-quality fruits and vegetables, and the 3,000 canning plants scattered throughout the country process them in cans and jars, bringing to our nation "good eating" in every season. Canning has now become a billion dollar harvest for the American farmer.

This alliance between farmers and canners means that the farmers can depend on a more stable price and ready outlet for their produce. In 1951, for example, the canning industry bought and packaged the crops from 1,880,500 acres of 11 major vegetables—70% of the entire crop.

To be specific, about 80% of all sweet corn and tomatoes harvested is canned; about 75% of the green peas and beans; and about one-half the asparagus; about 60% of the red sour cherries and 45% to 50% of peaches, pears and apricots.

What happens then? In 1953 the per capita consumption of canned foods averaged 102.2 pounds. Because of this great popularity, the canning industry has developed the responsibility of producing quantities of high-quality products to meet the housewives' demands—500 different foods packed in cans and jars—for convenience, nutrition, economy, variety, versatility and all-year-round availability. Mrs. Homemaker appreciates the value of the no waste, pre-cooked goodness, and points with pride to her canned foods shelf. She adds her own deft touch of the master chef—the final link in the partnership chain.

Annual Picnic Held By Progressive HD

Annual picnic supper of the Progressive Home Demonstration Club was held July 6 at the home of Mr. and Mrs. H. L. Hershey. After the supper the evening was spent in visiting.

Those attending were: Mr. and Mrs. Ira Ricketts, Mr. and Mrs. Clyde Russell, Mr. and Mrs. C.V. Burgess, Mr. and Mrs. Bill Coffin and children, Mr. and Mrs. Tom Draper, Mr. and Mrs. Hugh Clearman and children, Mr. and Mrs. Bert Coffin, Mr. and Mrs. Leon Coffin, Mr. and Mrs. Alton Kemp and baby, Mr. and Mrs. T. J. Parsons.

Others attending were Mrs. V.E. Dodson; W. H. Stephenson of Claude, Loyd, Nancy and Doris Parsons, Robert Doris and Linda Parsons, Joe Hershey, Bill, Kenneth and Chari Carmichael, Pat Sullivan, Lois Avant, Lucille Park, June Gee, Myrna Lou Coffin, Ginger Smith, Sue Seath and the

host and hostess, Mr. and Mrs. H. L. Hershey.

Earnest Langley and Bill Stanford left Saturday night for Red River Arsenal near Texarkana, where they are undergoing two weeks of reserve officers training. They plan to return to Hereford July 25.

Out-of-town relatives visiting Harley Ward, a patient in Deaf Smith County Hospital, recently were: Mr. and Mrs. J. R. Ward and Mr. and Mrs. Boyd Willis of Morton; Edgar Ward of Dallas; Mr. and Mrs. B. A. Battenfield, W. J. Ward, Sy Koeling and Clinton Ward of Clovis; Mrs. Curt Barber and J. A. Ward of Portales, N. M.; Charley Ward of Ropes; Mrs. Leslie Greene of Slaton and Mrs. Lawrence Stoddard and Duane of Amarillo.

cent Charles Walterscheid of Hereford.

Inductees are: Bailey L. Reece, J. B. Sudderth, Alfredo S. Limon, Joe B. Thompson and Edward D. Doak.

James Durwood Hamby of Hereford and Lawrence Edgar Hermesmeier Jr., of Amarillo are volunteers.

Line

(Continued from Page 1)
iacs, rapists and similar persons, who are close to being classified as mentally ill.

More Understanding Needed
While not suggesting a lack of punishment, Line was advocating a clearer understanding of some of the underlying problems in juvenile crimes, with the aim of cutting down on the number of crimes committed by adults. In Texas, crime increased 8.3 percent during the past year, compared to a 6 percent average increase for the entire United States, he added.

Several perfect attendance buttons were awarded at the meeting. These included Sam Nelson and Hugh Bookout, 1 year pins; Dave Alexander and Dr. F. C. Glendenning, two years; Emmett Milburn and Bill Stanford, three years; Bill Davis, five years; Earl Phillips, eight years, and John Patton, nine years.

Heard also received his past president's pin from President Davis.

Weekend trips in this weather are getting dangerous, and we don't mean because of the traffic. Mrs. Dorothy Landry went with her husband and some friends on a one-day trip to Dallas Sunday, and ended up in the Deaf Smith County Hospital Monday, a victim of the below-the-Caprock heat. She was released from the hospital Tuesday afternoon.

A representative of the Amarillo Social Security Office will be in Hereford at the Commissioners' Courtroom at 9:30 o'clock Wednesday morning to provide information on social security desired by the residents of Deaf Smith and surrounding counties.

Tonight the Jim Hill Hotel team will defend its softball lead in a game against Piggly Wiggly, while Rutherford's will meet the Road Knights in the second game of the semi-weekly double header. First game starts at 8 o'clock in Veterans Park.

Paul Harvey, who drove to Oklahoma City Sunday on a business trip, reports that Oklahoma City had all the aspects of a steam oven. One morning it was 100 degrees at 8 o'clock. Going in, they found that it was 110 in the shade at Binger, Okla. Harvey returned Tuesday night. Making the trip with him were Carl Green of Plainview, Amos Ward of Littlefield, and Lindel Murray of Muleshoe.

A postcard from Mrs. C. L. Smith in Amarillo asked us to announce that the Cooke County reunion will be held at Thompson Park in Amarillo July 25. Basket lunches will be opened at noon. The park is on the north side of Amarillo on Highway 87 and 287.

Jack Sanders' Dinky's Chance collected \$75.33 for his owner last Sunday at Las Mesa Park in Raton, N. M., by coming in third. A \$2 ticket paid \$3.50.

Continue Good Government for Texas by Supporting

ALLAN SHIVERS

WITH ACCOMPLISHMENTS, NOT PROMISES, ALLAN SHIVERS' LEADERSHIP HAS ACHIEVED:

BETTER SCHOOLS: Has signed or supported every major piece of public school legislation during past 20 years.

MORE HIGHWAYS: Greater mileage of roads completed during his administration than in any comparable period.

TIDELANDS: Fought to return tidelands to school children who already have gained \$32 million through victory.

OLD AGE ASSISTANCE: As senator, wrote first Texas Old Age Assistance Law Obtained pension increase amendment.

STATE HOSPITALS: Called special session of legislature that appropriated \$55 million to improve deplorable conditions.

PRISON REFORMS: System has progressed from one of worst to among nation's best during his tenure; cost reduced 50 per cent per man.

VETERANS' LAND PROGRAM: A Texas veteran and member of the American Legion and the VFW, Governor Shivers helped establish the present successful land program.

SEGREGATION: Believes in the right of local school districts to work out their own problems without outside interference. Wants to keep schools as they are now.

TEXANS WILL CONTINUE TO BUILD A GREATER TEXAS BY RETURNING ALLAN SHIVERS TO THE GOVERNOR'S OFFICE IN THE DEMOCRATIC PRIMARY, JULY 24.

TEXAS comes first with ALLAN SHIVERS

The Eagle or the Oyster?

© Fritz Henle—Courtesy Cities Service Company

Now comes the season of the year when the Red, White and Blue is glorified in oratory throughout the land. Plutarchus says, Washington, Lincoln, Franklin, Patrick, Henry and Jefferson are quoted. For speakers bold enough to break with this tradition, we suggest the examination of a speech written by Merle Thorpe, editor of SERVICE Magazine, for the July issue. Theme—"The Eagle or the Oyster?"

For a people . . . who elect opportunism rather than opportunity, who dream of security rather than success; who believe political charity is a virtue; who mock the frugal and plunder the thrifty; who adopt the rule that if I don't succeed you are to blame, that what you have is as much mine as yours; who contend that property is a shameful sign of success; who whimper that failure is the nobler cause, well-being is wicked; prudence, out-of-date; sacrifice silly—for such a people a fitting emblem is the Oyster.

who endured defeat, disease and disaster for a hundred years in order to get a foothold on the Eastern Seaboard, the while with one eye on the interior, a no-man's land, a cockpit for settling international rivalries and private grudges, disputed by wild animals and wilder redmen; who sacrificed thus for a belief in the worth and dignity of the individual;

who believed that economic freedom was as important as political freedom;

who substituted "In God We Trust," for the Old World motto "in Government We Trust";

for a nation built by men who dedicated their lives to achieve the realization of these beliefs. I give you, fellow citizens—the Eagle!

ADRIAN NEWS

By Annie Leslie
Annie Leslie returned home Saturday from a visit in Belmont, Calif., with her aunt and uncle, Mr. and Mrs. Ralph Love.
George Frank of Enid, Okla., is visiting in the home of Mr. and Mrs. Ernest Frank. George is the nephew of Bill and Ernest Frank. He arrived Sunday and plans to stay about a week.
Ann Jackson of Amarillo has been visiting for the past week in the Calvin Jackson home with Mary Jean Jackson. Ann, Mary Jean's cousin, plans to stay about two weeks.

Mrs. Ernest Frank is in Northwest Texas Hospital in Amarillo recuperating from an operation. Mrs. Frank was taken to the hospital Monday and underwent surgery Tuesday. She is doing well, but it is not known when she will be able to come home.

Mr. and Mrs. Calvin Jackson and Mary Jean vacationed in Ruidosa, N. M., and Cloudercraft, N. M., during the July 4 holiday.

Return From California
Maudine Williams and boys, Terry and David, have moved to Adrian from Oakland, Calif. The Williams lived in Adrian about two years ago. Maudine and sons are now living with her mother, Mrs. Lena Gudgell.

A. B. Fincher, son of Orb Fincher, of Amarillo is visiting with Mr. and Mrs. Luther Wagner and is working at the Fincher Cafe during the summer months.

Mr. and Mrs. O. W. Harbour of Plains visited Sunday with Jesse Finch and W. C. Edmonds. Mrs. Harbour is Mr. Edmond's sister.

CARD OF THANKS
I wish to take this means of thanking all those who made my stay in the hospital so pleasant, the wonderful nurses and doctors, the ministers and many friends who visited me. May God bless each and everyone of you is my prayer.
Mrs. M. L. Simpson.

Cancer Report
MINNEAPOLIS—In its first five years of operation, the University of Minnesota cancer detection center discovered 91 cancers in the 5,352 men and women examined. In addition 1,300 lesions considered to be pre-cancerous were found.

Highest Peak
Mount Whitney in California is the highest mountain in the United States.

Mr. and Mrs. Glenn Cluff and son, Michael, of Pomona, Calif., are visiting in the Bill Leslie home. Mrs. Cluff and Mrs. Leslie are sisters.

Rev. Ralph Odom was a dinner guest of the A. P. Jones family Sunday.

The Don Morgan and Loren Creitz families and the Jim Rhodes family of Channing had a picnic near the Canadian River Sunday.

Mrs. Al Goodin and Mrs. A. H. Jordan honored Erma Lou Jordan with a surprise birthday party on her 15th birthday, July 1. Refreshments of punch, birthday cake, nuts and minis were served to the following guests: Lyla Mae and Erma Faye Bronniman, Mary and Billie Grubley, June Whaley, Joan Sheets, Neil Pounds, Finis and Davis Brown, Jimmy Shaw, Marvarene Allen, Joan Paschal, Barbara Pinnell, Judy and Edward Pinnell, Doris Story, Judy Nell Tomlinson, John Henry Grubley, Donnie Morgan and Gladys Taylor.

Erma Lou Jordan and Judy Nell Tomlinson left July 4 for San Bernardino, Calif., for a visit with Erma Lou's sister, Mrs. James Morgan. They are expected to return by airplane Friday.

Bob Rhodes of Dalhart visited two weeks in the Don Morgan home recently. Bob is Mrs. Morgan's nephew.

Mrs. E. H. Mosteller, Alma, Jean Finley, Barbara Pinnell, June and Annie Leslie saw a show in Amarillo Sunday afternoon.

Painting and repair work is now being done at the new building. Some new furniture has been purchased.

The residents of Adrian are very proud of their new water system. The water was turned on last week and some fire hydrants have been placed at strategic spots in the city.

INSURE IN SIURE INSURANCE PLAINS INSURANCE AGENCY John H. Patton Wm. H. Patton All Forms of Insurance 213 N. Main St. Phone 50

Page Four
AS B-36 COMMANDER

On Routine Training Mission Capt. Conklin Flies 5,400 Miles

For Capt. Merlin L. Conklin, son of Mr. and Mrs. Lee R. Conklin, 504 N. Jackson in Hereford, and his Strategic Air Command crew on the B-36, it was another routine training flight—or at least that was what headquarters called it.

From the standpoint of the Air Force, it was routine, for the plane completed its mission without any unusual trouble or delay. However, for a civilian not used to thinking in the same sort of terms, it might have seemed like quite a project.

Leaving Biggs Air Force Base on a Saturday night, the mighty plane had flown to Fairbanks, Alaska, completing a simulated bombing on two U. S. cities, had done gunnery practice in simulated fighter attacks, and had flown by the sun and stars, navigating through the air just as sailors cross the trackless oceans.

Final Chore
Returning, the crew, having flown about 5,400 miles in some 31 hours, still had one more job to do—make a bomb run over the Guadalupe Bomb Range between Carlsbad, N. M., and El Paso, and drop a bomb on a target area which is small, compared to the height from which the plane is operating.

When the plane is still 25 miles away from the target area the bombardier, Capt. James W. Amis, trains his sights on the target. From then until the bomb is actually dropped, the entire crew must work to keep things on the

big plane just as they should be. In addition to Capt. Conklin, there is First Lt. Roger L. Townsend, chief engineer; First Lt. Donald J. Koranda, co-pilot; and First Lt. Harry P. Borcharding, navigator. All members of the crew belong in the 335th Bomb Squadron, 95th Bombardment Wing.

The pilot must make sure that the plane will maintain a straight course without change in altitude, the engineer must hold an exact airspeed during the bomb run by proper control of the engines, the navigator has done his part in insuring that the plane will come over the target at the proper time, and, most important, the bombardier must be an electronics and mathematics technician to control his bombsight for the crucial test.

Ground Crew Scores Hits
On the ground below, an expert crew has prepared the target area, and, when the bomb falls, can tell in seconds just what part of the target area the bomb landed in. The bombardier is scored accordingly.

Both air and ground crews have worked hard to prepare for that short interval of time during which the bomb is dropped, explodes and is checked on.

The results of their work are felt all over the world, for the flying battle ships of the Strategic Air Command are considered as some of the best "peace insurance" on which the United States has ever paid premiums.

Texas Men To Open Educational Program In India In September

COLLEGE STATION (SpI) — A small group of Texas professional and technical men are expected to arrive in East Pakistan in September to set up headquarters and begin organization of a \$1,700,000 technical assistance program between the Texas A&M College System and the University of Dacca.

The work, which will be expanded as additional field staff members are sent from Texas, is being done under a three-year contract recently signed between the Foreign Operations Administration of the United States government and the A&M System.

Texas A&M's Vice Chancellor for Agriculture, D. W. Williams, who is in charge of the system's foreign program, is now selecting the key personnel for the project. The initial group will be headed by an administrator with the title of Chief Advisor and will include teaching, research and extension specialists.

These Texans will work with the schools of the University of Dacca in the development of modern teaching, research and extension programs in agriculture, engineering, home economics, business and teacher training.

The Pakistan schools with which they will work include the East Bengal Institute of Agriculture at Dacca, the East Bengal Veterinary College at Dacca, the Ansanullah Engineering College at Dacca, the Women's Training College at Mymensingh, the Teachers Training College at Dacca, the Primary Training College at Mymensingh

and the Government College of Commerce at Chittagong.

Under the \$1,700,000 contract recently signed by the FOA and Texas A&M System, the Texas system is employed to carry out projects and activities in the fields of education, agriculture, engineering, business administration and home economics in order to strengthen the educational, research and extension program of the University of Dacca.

The field staff, which will live in Pakistan, will include the Chief Advisor and 12 professional and technical men. They will study the work of the University of Dacca and its associated schools and make recommendations for improving procedures and adding needed facilities for teaching research and extension. They will organize and supervise new projects and will supervise construction of new facilities.

A small staff will be maintained in Texas to tie in the field work with that of the System and to handle other phases of the assistance program, which will include exchange of teachers and students for training here and in Pakistan. This staff will also select a number of consultants who will visit Pakistan throughout the program for short-time work in their specialties.

The contract, which became effective on June 24, is to run for three years, but the hope has been expressed that the initial program will lead to a permanent working relationship between the two educational institutions.

For More Fun In A Boat
Use Common Sense Afloat

KNOW YOUR BOAT
Every boat has its limitations. Learn what you can expect from your boat.

HEAD INTO THE WAVES
If waves are high, head your boat at an angle towards the waves at slow speed.

BALANCE YOUR LOAD
Distribute weight evenly in the boat — from side to side and from bow to stern.

WATCH THE WEATHER
Head for shore before a storm breaks. If caught out, seat passengers on floor.

KEEP LOW
And step in the center when boarding the boat or changing seats.

USE THE RIGHT MOTOR
Too much power can damage your boat—may even swamp it. Look for OBC recommended horsepower plate.

DON'T OVERLOAD
Seats do not indicate capacity. Two or three adults may be a full load under many conditions.

AVOID SHARP TURNS
Fast, sharp turns are hard on equipment — and sometimes on people. Take it easy.

Follow the eight simple rules shown here for more safety and fun afloat this season, says the Outboard Boating Club of America, national organization of outboard boat and motor owners. Boating is the safest of outdoor sports, says OBC, if you'll use common sense and courtesy.

Open Roping Contest Scheduled Sunday Afternoon At Riders' Arena

An "open to everyone" roping contest to be held at 3 o'clock Sunday afternoon at the Riders Club arena is attracting a number of out-of-county entries, including at least two from Lovington, N. M., according to Dee Davenport, captain of the Hereford Riders roping team.

Jackpots are to be \$25, \$10 and \$1. Admission prices to see the event will be 50 and 25 cents. Last Sunday, in a matched roping event, Hereford Riders Club ropers beat the Amarillo roping team, with each team of eight men having a chance to rope 24 calves, or three calves apiece. Spicer Gripp had the lowest average time with 40.3 seconds. Following the matched event, a jackpot roping which was won by Ron Crist was held. Crist had an elapsed time of 13.2 seconds. Jack Ratjen was second with 14.1.

Hereford team members who roped last Sunday included Spicer Gripp, Jack Ratjen, Dick Ratjen, Ron Crist, Jack Streun, Harold Beauchamp, Clarence Hall and Davenport.

Buick's Bid For the Body Beautiful

Every lithe line of the 1954 fashion figure has its counterpart in the body lines of the beautiful, new Buick. Its neckline plunges to a new low—accentuating a gracefully curved silhouette—for a slim-waisted look; the beltline is lowered, calling attention to fluid beauty-in-motion. Like Dame Fashion, Buick designers decree a slightly raised hem-line to show more of the lovely means of locomotion. Every fashion point of the body beautiful highlights the Buick today.

Murdock "Wins" Match Outside Of Ring Ropes

It was through no fault of Frankie Hill Murdock that Cowboy Carlson was not sent back to the hospital Saturday night after they wrestled in the second main event at the Bull Barn.

Post Helped Winner

Both wrestlers were outside of the ring and Murdock was working on Carlson's head that he had injured at the matches last Saturday night. Both were trying to win the match and get back into the ring before the 20 second time limit was up.

When Murdock hit Carlson's head against the post on the outside of the arena it stunned him until Murdock could get into the ring and win the match.

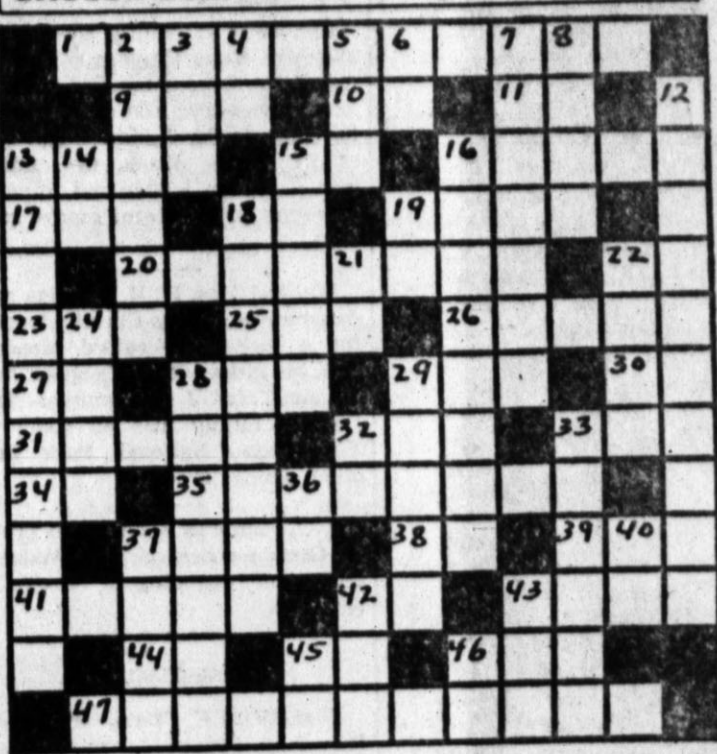

Carlson, of Ekalaka, Mont., won the first fall of this two out of three fall, one hour time limit event, in 20 minutes with an arm stretch.

Murdock won the second fall in 15 minutes with an inside step-over toe hold.

All of the excitement began in the third round even though it only lasted five minutes.

The first event was a two out of three fall one hour time limit match between Bob Cummings of

RURAL DELIVERY

THOSE WERE THE DAYS

OFF MAIN STREET

FORMAL INSTALLATION of officers for Rebekah Lodge No. 228 for the next six months was held Tuesday night at the IOOF Hall. Mrs. Julia Welty, incoming noble grand, is seated to the left and Mrs. Lucille Olson, outgoing noble grand, is seated at the right. Front row from left are: Mrs. Lydia Hopson, Miss Mary Brady, Mrs. John Hacker, Mrs. Carrie Mae Doak, Mrs. Ella

Cockrell, Mrs. Elton Malone, Mrs. Billy Jackson, Mrs. Leatrice Clark and Mrs. Bobby Meachum, the new vice grand. Back row from left are: Mrs. Ruth Rogers, Mrs. W. B. Shelton, Mrs. Ruby Smith, Mrs. Alene Lomenick, Mrs. Ada Holabaugh, Mrs. Nannie Millard and Mrs. Pauline Lady. (Travis Caraway Photo)

Personals

Cpl. Billy R. Smith, son of Mr. and Mrs. Tony Hamons of Cortez, Colo., has been cited for meritorious service with the 4th Infantry Division during Exercise Hill Top at Ft. Lewis, Wash. Cpl. Smith was a section leader and forward observer for an 81mm mortar platoon.

Mr. and Mrs. R. H. Douglas and daughter of Corpus Christi stopped for a visit in Hereford Monday with his father, R. O. Douglas, and his aunt, Mrs. J. C. Cummins. The Douglas family was en route to Yellowstone National Park and other scenic areas.

J. C. Cummins returned to Truth or Consequences, N. M., Wednesday after spending a week in Hereford.

Skiddoo!

NASHVILLE, Tenn. (AP)—U. S. Rep. J. B. Frazier Jr. was offered Tennessee license plate No. 13 for his car. But the Chattanooga congressman said he'd better not take it. Not that he was superstitious, mind you; it was that some of his constituents were, he said. They gave him No. 23 instead.

Size of Borough

New York — The Borough of Queens consists of about 1299 square miles and this approximately comprises almost 40 percent of the area of New York City.

Nocturnal Creatures

Horses, cows and dogs are believed to have been originally nocturnal in their habits, adjusting to man's daylight schedules of time as they gradually became domesticated.

Carmichael Boys Hold Double Birthday Party

Loys and Troys Carmichael, twin brothers, whose birthdays are on July 10, were honored recently at a back yard picnic supper and party given by Mrs. Troys Carmichael

at the Carmichael home, 523 Blewins.

The brothers came to Hereford from Sayre, Okla., with their parents, when they were 12 years old, and have grown up in this community. Now Loys operates a farm near Friona and Troys farms near Hereford.

Out-of-town guests at the party included Mrs. Mona Palmer and Mr. and Mrs. Boyce Carmichael

of Long Beach, Calif., and Mr. and Mrs. Loys Carmichael and daughter Susan Kay of Friona. Others present were Mr. and Mrs. Lon Griffin and Darrel Dean, Mr. and Mrs. Darrel Dirks and Davis, Mr. and Mrs. A. J. Schroeter, Mr. and Mrs. A. O. Thompson, and Troys Carmichael and daughter Merle.

Seasonal Demand Brings Recipe For Ice Cream

MRS. ART LEWIS

"I Scream, You Scream, We All Scream for Ice Cream" may be a corny expression but it seems to be representative of the general wishes of the people during this hot weather.

Since requests have come in for a recipe for homemade ice cream—especially one for ice cream that may be kept in the home freezer without its forming ice crystals.

Mrs. Art Lewis has just such a recipe, though it will more than likely have to be doubled if there is any left to go into the freezer.

VANILLA ICE CREAM (For Freezer)

Scald:
3 cups milk
Mix together:
1 tablespoon flour
1 cup sugar
¼ teaspoon salt
Put into large bowl of Mixmaster:
3 eggs
Beat on No. 4 speed—about 1 minute. Add flour and sugar mixture and beat until blended. Slowly add scalded milk while beating on No. 10 speed. Put in top of double boiler and cook over boiling water, beating constantly on No. 2 speed. (Use Mixmaster portably at stove). Cook until mixture begins to thicken. Remove from heat. Cool.

ADD:
1 tablespoon vanilla
3 cups cream (heavy or light)
Pour mixture into freezer container, filling not more than ¾ full. Freeze according to instructions furnished with freezer attachment or with your own freezer.

Makes about 2 quarts ice cream.
ICE CREAM PIE
This ice cream pie makes a perfect conclusion for a delightful dinner and is especially nice when used as a feature of a Christmas or Valentine party where bright reds are so essential.

2 cups Vanilla wafers or graham crackers
¼ cup sugar
½ cup butter
1 tablespoon water
1 quart vanilla ice cream
1 package frozen strawberries
Roll crackers very fine, stir in sugar and gradually add to softened butter, mixing thoroughly. Stir in water. Form shell by pressing mixture over bottom and sides of 9-inch pie pan. Mound the ice cream in pie shell. Allow berries to thaw only enough to separate in chunks and arrange berries around edge of shell and in center of pie. Your favorite frozen fruit may be substituted for strawberries. Wrap and freeze. Serve from the freezer. Two months' storage.

THE OPENING SALE of the Producers Market held last Friday at the Milk Jug on 25 Mile Avenue offered a variety of gift items as well as a nice selection of baked goods for Hereford women who were generous in their buying. Mrs. Leon Coffin, one of the committee working to establish the market is

shown making a sale of a white cake temptingly topped with pecans, which was one of the baked products brought in by one of the 50 women who participated in the sale last week. Another sale will be held at the same location this Friday. (Staff Photo)

Producers Market Gets Good Response

Home Demonstration Club women were well pleased with the response of the Hereford housewives to the opening of their Producers Market and Gift Shop which was opened with a Bake Sale on July 9 at the Milk Jug.

The market has been established to enable the farm women to dispose of any surplus in vegetables and frozen foods and to offer other products, such as baked goods, to homemakers.

A wide variety of food items, which included many kinds of cakes and pies, and also cookies,

rolls and some canned goods were picked up readily by the women who visited the market.

Gift items offered included aprons, little girl's dresses, pot holders, hot dish mats, pillow cases, hand-tooled leather bill folds and other things for personal use or for gifts.

Of the 50 women who brought products for the sale a large percent donated their proceeds to go into the initial operating expense of the market until it is well enough established to determine the actual cost of operation.

The Market will be open at the same location again this Friday from 10 o'clock until 6 o'clock. The committee in charge of the sale hopes to have at least a few vegetables to offer by this time, though late freezes and hail have delayed the growth of most of the garden.

Some of the women who brought baked goods last week plan to specialize in one particular item. These will include cinnamon rolls, strawberry funny cake, sour cream cake, cookie dough and cherry pie. Any other product may be offered for sale except milk products and fresh eggs which are sold by the Milk Jug.

The committee in charge is Mrs. R. C. Childers, chairman and Mrs. W. R. Scarth, Mrs. Leon Coffin, and Mrs. R. L. Wilson, Argen Draper, County Home Demonstration Agent, and Mrs. Louie Olson assisted the women with the sale last Friday.

Social Digging

ROME, N. Y.—One hundred employees of local firms have set up a community garden plot through their social and athletic assn. The group plows and divides the land, each member cultivating as much as he can handle. Members say they combine exercise with nutrition and the project has its social phase when the cultivators take a break for shop and crop talk.

Freezing Eggs Suggested When Prices Are Lowest

Freezing eggs now while they are plentiful and reasonably priced can save money for the housewife later when they are scarce and prices are high.

Preparation for freezing is a comparatively simple process and the eggs will keep in good condition for nine to 12 months.

Eggs should never be frozen in the shell, and some home economists recommend that the eggs be allowed to age from three to five days before they are frozen for best results.

Break each egg into a saucer, to be sure that it is odorless, before pouring into a clean mixing bowl, if whole eggs are to be

frozen. Break the yolks with a fork and stir until the whites and yolks are mixed thoroughly. Strain through a sieve and to one cup of whole eggs add ONE of these: ½ teaspoon corn syrup or sugar or ½ teaspoon of salt according to the kind of recipe the eggs are to be used in.

Package Usable Amounts
The eggs should be packaged in usable quantities—just enough for one meal if they are to be scrambled or for one recipe if they are to be used for baking or custards. Trays used for freezing ice cubes make convenient containers or muffin tins may be used, allowing (Continued on Page 2)

HD Chatter

by Argen Draper

Progressive Home Demonstration Club had its annual backyard supper last week. The table was loaded with good things to eat. Mrs. Alton Kemp, one of our newest members, brought a ground meat dish made with onion, pepper, kidney beans and sauce. Sometime maybe she will give us a demonstration on making it. She says it freezes well and is one of those things that gives the homemaker a 'boost on washday or for unexpected company.

There are two master gauges at the office for testing pressure cooker gauges. Any of you may

use them to check your cooker gauge. They are easy to use and accurate. If there has been very much food spillage in your preservation program, the gauge is probably low on the cooker. So gauges have remained accurate with as much as 25 years of service.

When buying a new gauge, insist on a geared gauge. That's the one with the needle coming from the center of the dial instead of the bottom.

The Poultry Meeting will be at The Hereford Locker on Wednesday afternoon, July 21 at 3 o'clock.

H D Chatter...

(Continued from Page 1)
There was a Homemakers Market or exchange here during the early thirties. It was in Mrs. Rex Lynes' Home. Some of the women who mentioned it Friday were Mrs. Tynes, Mrs. Ray Johnson, Mrs. Bess Werner, and Mrs. E.M. Cox. They said they had more customers than products for sale but that the exchange was successful.

Freezing...

(Continued from Page 1)
ing one egg for each section or cup. When the eggs are frozen

they should be removed and wrapped for storage in cartons or plastic bags from which they may be taken out one or two at a time as needed. For larger amounts to be used at one time allow eight medium-size eggs for each pint container.

Yolks frozen alone should be stirred and strained as were the whole eggs but twice the amount of sugar or syrup should be added, which would require a tablespoon of either for a cup of egg yolks.

If only the whites are to be frozen they should be strained and packaged without adding anything. The frozen eggs may be thawed for use at room temperature, in cold running water or in the refrigerator. Use thawed eggs within 24 hours and do not refreeze.

Budget Saving

BOSTON (U.S. — Rep. Ernest A. Johnson of Worcester, a barber, and Charles E. Shepard, a farmer who is budget director for a legislature ways and means committee, worked out a system which allows state agencies to use existing funds to make necessary repairs and replace essential equipment as the need arises. Such out-of-hand repairs, with only the approval of the state budget commissioner, are credited with being far more economical than waiting a year for an appropriation while the state property deteriorates. Johnson thinks savings are as high as a million dollars a year.

Two doctors from the Emory University (Ga.) School of Medicine told a meeting of researchers here that the drug, andromedotoxin, already has been effective in lowering blood pressure in animals.

Frio News

By Mrs. Owen Anderws

George Lindley, brother of H. E. Lindley, died in Amarillo Sunday night. Funeral services were held at Wellington Tuesday morning. Among those attending from here were Mr. and Mrs. Sam Lindley, and Mr. and Mrs. T. L. Sparkman Sr.

Mrs. Earl Cole underwent major surgery at the Deaf Smith County Hospital Tuesday morning. She was resting well afterward.

Mr. and Mrs. T. L. Sparkman visited in the home of her brother, F. J. Springer, at Kress Sunday.

Mr. and Mrs. Clyde Swartzell of Canyon are parents of a daughter which weighed 7 pounds and 10 ounces. The baby was born at the Canyon hospital Monday. Mrs. Swartzell is the former Miss Leta Dene Springer.

Mrs. Robert Simpson and her daughter, Mrs. Billy Gene Cotton, were honored at a surprise gathering of relatives Sunday on their birthdays. They had lunch at Dameron Park in Hereford.

Those attending were: the Robert Simpsons, Mr. and Mrs. Billy Gene Cotton, Mr. and Mrs. C. E. Roberts, parents of Mrs. Simpson from Wellington, Mr. and Mrs. Odie Roberts of Lubbock, Mr. and Mrs. Wayne Roberts of Earth, Mr. and Mrs. Campbell and family of Summerfield, Mr. and Mrs. Glenn Roberts and children. The children of Glenn Roberts had been visiting their grandparents and other relatives at Wellington and returned home as the grandparents, Mr. and Mrs. C. E. Roberts, came for the Sunday visit.

Mr. and Mrs. Billy Gene Cotton, who have been here for two weeks vacation, returned to their job at Roswell Monday. They have been visiting her parents, the Robert Simpsons.

Kim Johnson of Pampa visited last week in the home of his aunt, Mrs. H. F. Benson. Kim's parents, Mr. and Mrs. Carl Johnson, came Saturday to visit and took him back home.

Mr. and Mrs. Earl Cole of Hereford visited the H. D. Robbins Sunday.

Relatives Visit
Distant relatives who called at

the H. D. Robbins home Sunday afternoon were Mr. and Mrs. Robert Milam and children of Phoenix, Ariz. They had been to Sparta, Tenn., to visit relatives and were on their way home.

Mr. and Mrs. David Yandell of Taboka spent the weekend at the home of Mrs. Yandell's sister, Mrs. Olin Parris. Rose Marie, daughter of the Yandells, who visited here last week, and Walker Parris, son of the Parrises, went back with the Yandells.

Mr. and Mrs. Leonard Irwin, Bill and Danny, Mr. and Mrs. Lester Irwin, Connie and Ronnie were visiting relatives at Washington, Okla., during the weekend.

Mr. and Mrs. E. H. Little, Peggy and Becky and Miss Lyla Robbins visited an uncle of E. H. Little's at Gunnison, Colo., last week and then traveled on to Yellowstone Park. They were away about a week.

Stevie, son of Frank Robbins, spent Saturday night in the home of his aunt, Mrs. Weldon Stephens. Sunday the Robbins had dinner with the Stephens.

Carole Robbins spent Saturday night with her cousin, Peggy Little.

Mrs. Herb Schmidt and sons Tommie and Dale visited the first of the week with her parents, the Hinds, at Cordell, Okla., and Herbs parents, the D. P. Schmidts, at Clinton, Okla., and other relatives.

The Young Women's Association met Tuesday afternoon for their regular meeting in the home of Miss Tawana Thompson. Lyla Robbins was elected as counselor.

Present for the meeting were Misses Ginger Brock, Veradelle Andrews, Winnie Jo Irwin, Frances Andrews, Velma Irwin, Mrs. D.W. Ward and the hostess. Others present were: Mrs. Lester Irwin and daughters and Judy and Linda Ward.

Similar Process
The process of melting glass in a ceramic container is compared by engineers to obtaining pure water by the application of heat to ice in a container which is composed of sugar.

Give Off Moisture
Trees continually evaporate moisture into the air.

Timetable Span
Geologic timetables usually are based on millions of years.

Gland Stimulant
Potassium stimulates the adrenal glands.

Santa Fe First To Completely Deiselize System

Santa Fe Railway, the first railroad in the nation to use Diesel locomotives in all three branches of service — passenger, freight and switching — is now completely Dieselized.

Ever since Santa Fe acquired its first Diesel locomotive in 1935, the company has been a leader in the use of this type of power, and announcement by President Fred G. Gurley makes the railroad the largest in the nation with a completely Dieselized operation.

First Diesel on the Santa Fe was a 600-horsepower switcher which went into service in the Chicago yards in 1935, and since then Diesels have operated an estimated 300 million miles on the Santa Fe System.

Also in 1935, Santa Fe tested its first passenger Diesel (two units totaling 3,600 horsepower) and placed it in service on the "Super Chief" between Chicago and Los Angeles in 1936 on a schedule of 39-34 hours. Today's passenger Diesels for the most part are three and four units totaling 6,000 horsepower.

The Dieselized "Super Chief" arrived in Los Angeles one minute ahead of schedule on its initial run to break the speed record of 44 hours and 54 minutes held until that time by Death Valley Scotty's "Coyote Special," set in 1905.

At the time the "Super" took over, Santa Fe's "Chief" was the fastest long distance train in the west, covering the Chicago-Los Angeles run in 55 hours.

More and more Diesel-electric power was added and today Santa Fe has three famous streamliners — the "Super Chief," the "Chief" and "El Capitan" — running to the West Coast on schedules of 39½ hours. Another streamliner to the Pacific Coast, the "San Francisco Chief," is scheduled to be added this summer.

In 1940 the road placed in service a four-unit 5,400 horsepower Diesel electric locomotive and started replacing steam engines with this type of power. By 1945 the road had 80 of these locomotives in the world's largest fleet of Diesels.

The road now owns 977 Diesel locomotives totaling 1,622 units with a total of 2,263,210 horsepower, which have operated approximately three hundred million locomotive miles since 1935. Included in the engine fleet are 90 passenger locomotives totaling 245 units, 552 freight locomotives totaling 1,040 units and 335 switching locomotives totaling 337 units.

Service and maintenance of the Diesels is carried on at huge shops located in Barstow and San Bernardino, Calif., Cleburne, Tex., and Argentine, Kans., where the newest shop building on the system is in process of completion.

Free Drinks Popular
ASKOV, Minn. — Milk consumption at the consolidated school here jumped 47 per cent for a day when youngsters were given all they wanted "on the house." The Security State Bank of Askov picked up the check for 214 quarts of milk.

Neat Burglary
WATERBURY, Conn. — A burglar carefully removed a pane of glass from a door to enter Jesse Biancard's home. Just as carefully, the burglar replaced the glass after hauling out 65 bed-sheets, 2 pillows, 24 pounds of flour, and 2 one-pound boxes of baking powder.

We Cannot Accept All Cases, But We Can Help All Cases We Accept

NOT A FREAK, but an experimental variety of maize which headed out on July 4, just two months after it was planted by Grant Hanna on his place northwest of Hereford. Hanna said the headed out variety is just one of six which he planted on his two-acre test plant this year. It is the only test plot for this variety of grain sorghum in the Panhandle area. From the looks of the four rows, he is expecting by September 1.

Household Scrapbook

By Roberta Lee

Skin Lotion
To make a lotion for whitening the skin mix 2 tablespoonfuls of oatmeal, ½ tablespoonful of powdered borax, and ½ pint rosewater. Let it stand for 2 or 3 days, then strain well and add ½ ounce of alcohol.

Bathing Cap
If the bathing cap is stuck together, soak it in clear, cold water. Always, before putting it away, dry the cap thoroughly to prevent its sticking together.

Zinc
To clean zinc cut a lemon into halves, take one half and rub the zinc. Allow it to remain for an hour; then wipe off. It will make the zinc like new.

Moths in Rugs
If moths get into a rug, cover the place with a wet towel. Apply a hot iron until the towel is dry. This kills both the moths and the eggs. Then sprinkle with salt every week before sweeping.

A Precaution
An excellent investment for every home is a small flashlight kept in the medicine cabinet, to prevent the wrong bottle from being taken when the room is dark or dimly lighted.

Perspiring Hands
Hands that perspire while sewing, which results in soiled materials, can be remedied by bathing them in strong allum water.

Hard-boiled Eggs
When hard-boiled eggs are to be served cold, place them in cold water immediately upon taking them from the hot water. This prevents the yolks from darkening, and also makes the shells come off easily.

Ink Stains
It will prove easy to remove ink stains from hands by rubbing for a short time with a ripe tomato, or with the inside of a banana peel.

Book Mold
To avoid book mold, which often occurs during damp weather, scatter a few drops of oil of lavender in the book cases. Or wipe over the shelves with oil of cedar.

Index File
Instead of using a scrapbook, it would be preferable if the housewife would buy a quantity of small 3 x 5 cards at any stationery store or printing office. Paste each household suggestion or recipe on a card and then file it alphabetically.

This Tastes Good In Texas

Extra Special Onions
1 can condensed cream of mushroom soup
10 to 12 small onions
1-3 cup chopped walnuts
¼ cup pimento strips
¼ cup grated cheese
Cook onions in water until tender. Drain. Combine soup, onions, walnuts and pimento. Put in a baking dish and sprinkle with cheese. Bake in a moderate oven (350 degrees) for 30 minutes, or until cheese is melted. Six servings.

Let's Eat This For One Day
Breakfast
Tomato Juice
Scrambled Eggs
Whole Wheat Muffins
Margarine
Coffee and Milk
Dinner
Broiled Steaks
Fresh Buttered Squash

Extra Special Onions
Whole Wheat Toast Strips
Prune-Orange Bars
Milk

Timely Tips
1. Boiling salted water in a larger amount than used for other vegetables is needed for cooking onions.
2. Onions contain some minerals and vitamins.

Historic Desk
SCHENECTADY, N. Y. —The Albany County Historical Society has given to Union College a desk used nearly a century ago by alumnus Chester A. Arthur, 21st President of the United States. The desk, ornate with silver plating, was used by Arthur while serving as quarter-master-general of New York State during the early years of the Civil War. Arthur was a member of the class of 1848 at Union.

Praying Jury
SAN FRANCISCO —The 1951 County Grand jury started each of its sessions with a prayer. A member proudly declared it was "the first Grand Jury in the city's history to do this."

War Surplus
RICHMOND, Va. —N. E. Warinner is using a World War II surplus mine detector in his weekend hobby—finding Civil War relics on battlefields in the Richmond area. With it he has collected 100 items. The latest find was a 100-pound, rust-coated, unexploded naval shell. He believes the shell was fired on Fort Harrison from a gunboat on the James River, two miles away.

Atomic Flowers
ATLANTIC CITY, N. J. —University of North Dakota scientists told a biologists' meeting here that a single tulip bulb exposed to cobalt radiation will produce up to four blooming plants at a time instead of the normal one. Cobalt 60, a radioactive element, was used in the experiments.

Muddy Research
CHARLOTTESVILLE, Va. —Scientists here are spending a lot of time playing with mud. They must know the consistency and strength of the underwater soil before construction starts on the 7,200-foot underwater tunnel under Hampton Roads, from Hampton to Willoughby. The Virginia Council of Highway Investigation and Research is doing the checkup for the \$4 million dollar project. Mud is being brought up from holes as deep as 200 feet for the study.

Sunny Rain Needed
HOLLYWOOD —A movie studio was shooting a murky weather scene and the script called for provide the necessary sprinkles in the right places. Everything went along fine until the sky clouded up and it began to rain. The director ordered the rain-making machines turned off, the equipment packed into trucks and the film shooting halted. "We'll have to wait until a sunny day to film the rain scene," he said.

Phillipine Fibers
MANILLA —The Philippines have eyes set on the world fiber market. Ramie is the islands' best bet although abaca, cotton, jute and kenaf are getting attention from government agronomists now experimenting in a 1,282-acre plantation at Davao on Mindanao. Philippine ramie plants are among the world's tallest, 10 feet or more, have high tensile strength and are convertible into various textiles. Another fiber the islands hope to place on a better competitive position is jute which grows wild. The threatened decline of jute production in Pakistan because of a food shortage there is expected to give Philippine jute a place in the world market.

Kiss Brings Disaster
MARSHALL, Minn. —Sgt. John H. Martin leaned over to kiss his bride, and thus ended their honeymoon plans. The Martins' car skidded into a curb and she was hospitalized. Martin paid \$10 fine and costs for careless driving.

COUNTY LIBRARY WORKERS are kidded so much about their supposedly soft jobs that they called for a picture when they went out to clean the library windows. At left is Carolyn Virden, while Janice Craig is working on the window at the right. Both girls claim that library work is at least as hard as any other

type of office work, since they handle numbers of books and magazines, dust and do other chores to keep the place presentable, and seldom have time to settle down with one of the latest novels in some quiet corner of the library. (Staff Photo)

How Can I?

By Anne Ashley

Q. How can I renovate hat bands?

A. Brush with a sponge or small brush, with a solution made by dissolving 1½ oz. of white castile soap in 4 oz. of alcohol to which is added 1 oz. each of sulphuric ether and water of ammonia. Rinse in clear rain water.

Q. How can I re-size a rug?

A. Dissolve 1 pound of granulated glue in 1 gallon of boiling water. Tack the rug, face down, on the floor and apply the hot glue to the back with a whitewash brush.

Q. How can I remove old varnish and paint?

A. Dissolve thoroughly one quart of good caustic soda in three quarts of lukewarm water and apply with a coarse sponge.

Q. How can I drive away red ants?

A. Use camphor gum, or pieces of cotton dipped in spirits of camphor and place about the haunts except near food. Or, spray with oil of sassafras, or strew whole or ground cloves about the pantry shelves.

Q. How can I remove spots from wall paper?

A. Place a sheet of blotting paper and a warm iron over it over the grease spots on the wall paper. Care should be taken that the iron is not too hot.

Q. How can I remedy an oily skin?

A. Wash daily with hot castile soap suds. Follow this by rinsing in hot, then in cold water.

Q. When is the best time to sprinkle the lawn?

A. The early morning is the best time. Be sure to give it a thorough wetting, it promotes deep, healthy roots in contrast to the shallow root system of grass which is just lightly sprinkled.

Q. How can I prevent mildew?

A. Do not place any damp articles in the clothes hamper. This will produce mildew, as well as unpleasant odors, and also prove an attraction for roaches.

Q. How can I cover scratches in walnut furniture?

A. Cover the scratches with tincture of iodine. Then polish in the usual way.

Q. How can I keep the tea kettle and coffee pot sweet and clean?

A. Place a tablespoonful of bicarbonate of soda in it, nearly fill it with water and boil; then rinse several times with clear warm water. Boil occasionally in a strong solution of water and borax.

Q. How can I get rid of spiders?

A. Saturate pieces of cotton wool in oil of pennyroyal and place them in the haunts of the spiders.

One-Foot Theft

NEW HAVEN, Conn. (U)—The thief who stole a salesman's suitcase from an automobile got rid of it quickly. Policemen found it in a nearby hallway almost as soon as the theft was reported. The suitcase was filled with shoes—all for the left foot.

Read the Classifieds

Beauty at Home

By Lynn Carter

Q. What dressing technique will minimize the appearance of legs that are too fat?

A. Avoid the reddish or very light shades of hose, for the more neutral and inconspicuous the color, the more flattering they will be. Backless shoes lengthen the line of the ankles and make them seem slimmer, as do high heels. Don't make the mistake of wearing very long skirts in an attempt to hide your legs, as this will only call attention to them. Keep your legs defuzzed, wear the sheerest hose you can find, have good-looking, well-cared for shoes, and your legs will look sleek and well-proportioned.

Q. What is the best way to rouge a very round face?

A. You can create the illusion of length by placing your rouge on the fall part of the cheek and blending it in well. Smooth it well in toward the nose so as to lessen the highlights in center of face.

Q. What is a good astringent lotion for a very oily type of skin?

A. Squeeze a bit of lemon juice into a bowl of ice water, and splash this on the skin after washing and massaging briskly—before makeup.

Q. How can I mix a good bleach for hands and arms?

A. Cucumber juice, mixed with equal parts rose water and glycerine.

Q. My naturally blonde hair seems to be turning darker. Is there something I can do to combat this?

A. A rinse made of camomile leaves will help. This should be used as a final rinse after the shampoo.

Q. How can I make a smoother job of applying my cake makeup?

A. Dampen the sponge slightly before applying. Use smooth, even strokes over face and neck, and be sure to avoid any sharp lines of demarcation.

Q. What exercise is recommended

WAYS AND MEANS out carrying out various club programs were topics for after-dinner conversation following the Jaycee dinner meeting Monday night when state president Rocky Ford of Midland, right, visited the club. Ford had a briefcase full of material on various projects which have been carried out

by Jaycee clubs over the state, and was more than willing to talk about it. Shown with him are, from left: Harold Loerwald, Samuel G. Nelson, and Hereford Jaycee president Dennis Lomas, who blinked just as the picture was taken. (Staff Photo)

Texas Jaycee Prexy, Veep Shows Ways To Boost Club

Texas' top men in the Jaycee organization met with Hereford Jaycees Monday night to discuss various problems, and to give them a boost on various activities. Texas president Rocky Ford of Midland and vice president Jack Allen of Perryton drove in from opposite directions to give the local organization details of the proposed state redistricting, and to suggest ways of helping the club along. Allen took the floor first following the dinner, and suggested that Hereford Jaycees do their part in the state extension program by helping to get a club started at either Dimmitt or Canyon, with particular emphasis on Canyon, since he felt that Canyon should be more than ready for such an organization. Other work which he told about that the Jaycees, as a state organization, are giving general backing to includes helping released prisoners, who come out without either money or a job, get oriented. "This sort of thing just

won't work out unless the individual club members are interested," Allen added. "Voice" Contest He also mentioned the "Voice of Democracy" contest which is to be carried on in the schools again this year, and suggested that Hereford Jaycees back the program here. There will be local, regional, state and national winners in the contest. At the bi-regional meeting in Lubbock this weekend, the problem of changing districts one and two into three districts, as was voted at the state meeting, will be discussed in detail, Allen said, and he felt it best for the individual clubs to have a chance to discuss the problems connected with the change. When Ford was introduced, he gave few of the high points of the national convention, then began telling about ways in which various clubs over the state have worked to acquaint the local citizens with the work they were doing. He suggested membership

drives, with some device such as a rabbit or a goat, rather than an extended drive, which usually doesn't work very well. Following that part of the meeting, Dennis Lomas, president, brought up several items of business. Help For Day Nursery The members voted to help with their time and labor at the Migrant Labor camp, where the Business and Professional Women's Club has brought in a woman to help with the day nursery for the summer. After some discussion about plans for completing the club house, a vote was carried to complete the club house, but no definite plans made on the matter. Jaycees were to start Tuesday night working on picking up donations which will be sent to Mexicans who lost their homes in the Rio Grande Valley. This material is to be shipped to Laredo as soon as is possible. Road The Brand Classified Ads

German Radio Popular

BONN, Germany — Resurgent Germany is moving into overseas broadcasting in a big way. The Deutsche Welle (German Wave), in operation just a year, has won a big audience throughout the world. It's the German equivalent of the Voice of America, the British Broadcasting Corporation's overseas broadcasts and Russian short-wave broadcasting. This year the Germans will start building the most powerful short-wave transmitters ever used for German overseas broadcasting—200,000 watts compared with the two 20,000 watt transmitters now in use. Broadcasts will be added in English, French, Spanish and Portuguese. Deutsche Welle now broadcasts only in German. Deutsche Welle has won faithful listeners from Moscow to Chile and from Japan to South Africa.

Delayed Explosion

MANILA (AP)—A Filipino family in central Luzon cooked its meals for nine years on a Japanese cannon shell before it blew up. The family escaped uninjured but their home and several others went up in flames.

Catfish Gets Lost

MAUCH CHUNK, Pa. — This is 11-year-old Dale Stauffer's fish story: Dale battled a large fish for quite a few minutes at a nearby stream and finally beached it. Before he had a chance to measure the fish a cat grabbed it and ran away with it. The Rev. Samuel F. Stauffer, a Lutheran minister and Dale's father, said he saw the whole thing. He even helped Dale chase the cat. The fish was not recovered.

Toy Ticket Pays Off

NEW YORK — A motorist who found a parking ticket on his windshield had no way of knowing it came from a toy kit that children use to play cops. So he sent a \$5 fine to the Traffic Summons Control Bureau.

Coal Economies

About 10 percent of France's railways has been electrified and has reduced imports of required coal by more than two million tons annually.

MEMO TO ADVERTISERS

WHO is this man?

He's your man. He is one of the large staff of experienced A.B.C.* circulation auditors who are working constantly to provide you and other advertisers with the FACTS you need to protect your advertising dollars. He visits our office at regular intervals to make exacting audits of our circulation records. He has access to all of our books and records in obtaining the FACTS about our circulation—for your information. The circulation facts obtained by the A.B.C. auditor—your man—are condensed in easy-to-read A.B.C. reports which tell you: How much circulation we have; where the circulation goes, how it was obtained and many other FACTS about the audience this newspaper provides for your messages about your merchandise and service. Ask for a copy of our A.B.C. report. See for yourself why your advertising in this newspaper is a sound business investment, made on the basis of FACTS.

*The Audit Bureau of Circulations, of which this newspaper is a member, is a cooperative, nonprofit association of 6450 advertisers, advertising agencies and publishers. Organized in 1914, A.B.C. established a definition for paid circulation, rules and standards for measuring circulation and methods for auditing and reporting circulation FACTS.

TED LINNARTZ claimed that he was chef for the Toastmaster's party held Tuesday night at the Jack Luck home on Avenue K. The boiled winners and cold cuts were claimed as fine examples of his culinary abilities. For some reason this cheese-cake pose failed to draw any admiring whistles. (Staff Photo)

Hospital Notes

Patients in Hospital

Miles, Virgil Bomar, Dorothy Lundry, Fred Lookingbill, Harry Schulz, Julia Castillo, Jose Salcedo, Pedro Perez Jr., Joaquin J. Rickman, Gloria Cortez, Vivian Alvarez, Woodrow Welby, Josie Cole, Johnnie Leona Cole, Richard H. Parker, Mrs. J. H. Pitman, Harley Len Ward, Mrs. Virgil LaPlant, Mrs. Lloyd Olson, Alice Ann Koenig, Mrs. Jay Sullivan, Olivia Dieon, Mrs. Mattie R. McGee.

Patients Dismissed
 Mrs. Richard E. Boyd, 7-12; Genancio Ybarra, 7-12; H. G. Shulk,

7-13; Anita Jo Taylor, 7-10; Hazel Oralee Calhoun, 7-9; Antonia Garcia, 7-9; James R. Drummond, 7-10; Viciana Garza, 7-10; Sausa Garcia, 7-9; Mrs. M. L. Simpson, 7-10; Irene Ward, 7-11; Don DeBuck, 7-11; Alva Altis Tees, 7-10; D. R. Carmichael, 7-9; Mrs. Lorenzo Torres, 7-10; Nola Terry, 7-10.

Births
 A daughter to Mr. and Mrs. R. E. Smith, 7-12. Sons to Mrs. Olivia Dieon, 7-11; Mrs. Julia Castillo, 7-11; Mrs. Dorothy Baher, 7-14.

Word Origin
 The word "Nippon" meaning Japan is derived from the two Japanese words which mean "sun" and "rising".

Oil Recovery
 Flooding oil wells with water is a common means used in the secondary recovery of petroleum.

Water Cooler!
 ATLANTIC CITY, N. J. (AP)—A glass of ice water drops stomach temperature more than a third. That was the report a group of University of Pennsylvania researchers made here at a meeting of biologists.

After you drink a glass of ice water, your stomach temperature falls from around 98 degrees to 32 degrees and doesn't return to normal until 35 minutes later.

Heavy Payroll
 LYNCHBURG, Va. —It was a heavy pay day for Headquarters Company, 2nd Battalion, Virginia National Guard. The guardsmen wanted to show Lynchburg merchants just how much money the guard spends in the city. The \$3,000 payroll was in silver dollars.

Stupid Intelligence!
 BOSTON —Signs of brains—being stupid about following directions.

That is the conclusion of George W. Flood who for 20 years has been answering a barrage of traveler questions at an information booth in Boston's subway.

"The worst people to handle are the intelligent ones," said Flood. "They don't pay any attention."

Snap, Snap, Snap
 WATERBURY, Conn. (AP)—Richard Steppittis climbed a tree to take some pictures. Snap went the camera. Snap went a limb. Snap went his ankle.

Machine Age
 Glass making was a handicraft for 5,000 years until about 1908 when machine methods were introduced.

Covered By Ice
 It is now believed by scientists that in the ice age four million square miles of the North American continent were covered by a layer of ice.

Pine Used
 So't pine for many years supplied the major lumber requirements for most of the United States.

Flag Approved
 The flag of the United States was fixed in 1818 except for the placing and pattern of the white stars.

First Island
 New Guinea was the first of the South Sea Islands known to Europeans.

Hardy Berries
 Red raspberries are more hardy than either the black or purple variety.

English Spoken
 English is the official language of Liberia.

Inhabited Islands
 Of about 250 Fiji islands, only 80 are inhabited.

Streetcar Fun
 LOS ANGELES (AP)—Commuters on the streetcar route between here and suburban Bellflower have never had it so good.

Their conductor, V. C. Prettyman, has roped off a special section of the car for card players. Now, the card fiends have a board, cards, score sheets—and an ample supply of kibitzers.

Endrin, Insecticide Newcomer, Taking Insect Control Spotlight

COLLEGE STATION—Endrin, a newcomer to the insecticide world, this year takes the cotton insecticide spotlight. Entomologists report that it comes as close to an all-purpose cotton insect control as anything yet tested.

A close relative to dieldrin, endrin is now widely used to control bollworms, boll weevils, trips, cotton leafworms, cotton fleahoppers and lygus bugs.

Endrin appears for the first time this year in the official Texas cotton insect control recommendations. U. S. Department of Agriculture researchers have tried it under a wide variation of growing conditions in Texas, Louisiana, South Carolina and Mexico.

In Texas, endrin is recommended for boll weevil and cotton leafworm control at rates of one-fourth to one-third of a pound to the acre. Bollworm treatments call for applications of one-third of a pound per acre.

This welcomed newcomer, however, does not control pink bollworms, aphids and spider mites. And like other insecticides, specialists caution users of endrin to adhere closely to the directions of the manufacturer. It is toxic not only to cotton pests, but also to man and warm-blooded animals.

Cash For Squirrels
 GALT, Mo. (AP)—Home on an Army furlough, Justin Holt helped his brother put up hay. He lost his billfold containing \$28.

Months later the billfold, not a bit damaged and with the cash still in good shape, turned up below a squirrel den tree. The Holts figured some bushy-tail was attracted to the leather wallet and hid it in his nest. Then, apparently the squirrel's interest faded and he pushed it out of the nest.

Dixie Forgets Flag
 MARTINSVILLE, Va. (AP)—A flag had been hanging in a hotel here for years. A couple of strangers wanted to know what it was. Nobody seemed to know.

A reporter looked in the dictionary under "flag." There it was—the first flag of the Confederacy, used until the familiar Stars and Bars flag was adopted.

No Rough Stuff!
 NEW YORK (AP)—The nation's largest city wants no "Bullies" on its 19,000-man police force. Police Commissioner Francis W. H. Adams warned 200 trainees against assuming a "chesty" or "tough guy" attitude.

Citizens, he said, will "comply readily with your firm and good-natured directions" but "as readily resent arbitrary and discourteous actions."

Drinks For The Road
 ST. CLOUD, Minn. (AP)—Two highway department trucks gathered 1,495 empty beer cans and bottles, and 3 whisky bottles along eight miles of a highway in this area. The cans and bottle harvest was made at the suggestion of the St. Cloud Daily Times as an indication of the amount of drinking done in motor vehicles. The cans and bottles were taken to the city dump after recycling.

Oil Formula
 Petroleum is defined as a complex mixture of hydrocarbons and their sulphur, nitrogen and oxygen derivatives in varying proportions.

Too Speedy
 In the early days of railroads the locomotives were looked upon with suspicion because many people believed they would travel faster than the human body could safely stand.

Population Shift
 It is estimated that in three generations about 80 percent of the total population will be direct descendants of those persons who are now living on farms in the United States.

Triplet Sheep
 REDDING, Calif. (AP)—Two sets of rare triplet lambs were born on the J. S. Hencratt Ranch at nearby Cottonwood. The same ram sired both sets.

Farm Crops
 The six major farm crops of the Philippine Islands are rice, corn, abaca (Manila hemp), coconut, sugar cane and tobacco, along with some minor crops.

'T WAS A BALMY SUMMER'S afternoon when the children gathered to help Johnny Wolf, 6, son of Mr. and Mrs. B. E. Wolf, 117 Lake St., celebrate his birthday. Shown at the party are, from left: Andy Channer, Kent Lindsey, Robby Lindsey, Stephen Wolf, Linda Boardman, Johnny Wolf, Alice

Martin, Charles Ray Dones, Charlotte Babione and Judy Martin. A train cake, with individual cars labeled with the names of those attending the party, was the show piece. Pink lemonade and strawberry ice cream were served to round out the afternoon's entertainment. (Staff Photo)

Long Time Ago

45 Years Ago

A contract made this week between the Electric Light Company and the city settles the water supply. The big well at the plant will be used and a 15 horse-power electric motor will bring up about 100 gallons of water per minute. A large stand pipe will be erected just east of the plant. It has been estimated that the contract will save the city about \$50 per month. The contract is optional with the city, so that at any time it wishes to put in its own plant, it may do so.

S. T. Jackson, representing the Southern Structural Steel Company finished his work at the county jail Wednesday and left Thursday for the Company's headquarters at Santone. While here he put in two new cells and a corridor of the latest approved pattern. The new cells and corridor have several important improvements over the old cells and corridor. The locking device is a special feature and effective, while the steel work is so constructed that it would withstand the most faithful efforts of the "saw artist." The new additions double the capacity of the jail.

Mr. Jackson is a pleasant gentleman to meet and made many friends while here.

More than 1,400 bushels of wheat have already been promised Rev.

C. E. Saxon of this city for gifts to Buckner's Orphan Home at Dallas. Included in that amount, reports Rev. Saxon, are 10 truck loads totaling close to 1,000 bushels and gifts of from five to 50 bushels each from 9 other individuals. Rev. Saxon hopes to collect 2,000 bushels of wheat here to fill the large car which has been reserved for the shipment to the home.

Jowell N. Murchison, deputy tax collector, has been occupied for the past 10 days in assessing the city school taxes and expects to conclude the work by the end of the week.

The territory embraced in the Hereford Independent school district includes a total of 72 sections of land and last year had an assessed valuation of \$3,845,170. For this year the valuation is expected to exceed \$4,000,000. The present school tax rate is \$1.00 on each \$100 valuation. Funds from this tax supports the Hereford high school and the ward schools.

Work has just been completed on the installation of a new drop curtain at the Star Theatre. Beautiful draperies as a background for the silver screen have added much to the attractiveness of the stage. Other improvements are planned in the near future, states Mr. Parker, owner of the theatre.

Reelect ALLAN SHIVERS

Texas' Greatest Governor

A Real Democrat With A Dynamic, Positive Program For A Greater Texas

A Man Who Can Stand On His Record

• WEST TEXAS — Allan Shivers has visited and done more for West Texas than any other Governor. He is a friend of West Texas.

• STATE HOSPITALS — Cure, rather than mere care is the watchword in our greatly improved and more efficiently staffed state institutions.

• TIDELANDS — Refusing to compromise high principles for political advantage, he battled courageously for and obtained the tidelands back for the school children of Texas. Our Permanent School Fund was enriched by \$32,000,000 as result of the conclusive victory.

• PUBLIC SCHOOLS — Allan Shivers has helped to make public schools in the State of Texas more outstanding than they have ever been. During his tenure in office, the annual salaries of public school teachers in the State of Texas has been increased by \$1,100.

• ROADS — Allan Shivers was one of the original sponsors of the farm-to-market road system in Texas. During his administration, more miles of farm-to-market roads and state highways have been built than in any other comparable period. Last year for instance, Texas added almost 9,000 miles to farm-to-market roads and state highways to its network of roads — an all-time record. The fact that the highway program of Allan Shivers' administration is promoting safety as well as convenience is evidenced by the fact that the state last year had the second best safety record in the nation.

• SEGREGATION — Allan Shivers believes local school districts should be given maximum authority to deal with this problem, because he believes in local control of schools. He has said, "There is nothing more local than a school."

• PRISON REFORM — Administration of the Texas Prison System today is recognized by experts as being among the best in the nation; when Allan Shivers first took office, the system was classed as one of the worst in the country.

• INSURANCE REGULATION — As far back as 1951, Allan Shivers asked the Legislature to strengthen Texas insurance laws to protect the public. Action is being taken to weed out unsound

companies. The clean-up campaign launched by Allan Shivers' administration will be continued.

• AGRICULTURE — Allan Shivers has secured funds for soil conservation, for an emergency feed program, for farm and ranch loans, and for a cheap hay program for drought-stricken areas. Allan Shivers believes a full, fixed parity price support program should be maintained until a better, long-range workable program is created to give a better break to farmers and ranchers -- to assure them of a bigger share of our national income.

• DUVAL COUNTY — Governor Shivers was the first Governor who has taken action to rid Duval County of boss-rule, fear and intimidation, "last" records and ballots, and misappropriation of public funds.

• ECONOMY — Texas operates on a cash basis without either a sales tax or a state income tax. Allan Shivers is opposed to both and will have neither as long as he is Governor. Efficient operation during Allan Shivers' administration has enabled Texas to perform maximum service to its people with economy.

• COMMUNISM — Allan Shivers is proud to be listed among the worst enemies of the Communist Party. Texas was the first State in the Union to pass a law making membership in the Communist Party a felony. This law was proposed by Allan Shivers and passed by the special session of the Legislature early this year.

The vicious, all-out attack, well-financed and well-planned, being waged against Allan Shivers this year has among its chief sponsors well-known members of the radical, leftist element -- some of whom are pinkos, some of whom are one-worlders, and some of whom are labor bosses and professional do-gooders from the Eastern States. Allan Shivers has fought and defeated this gang before, and with the help of real Texans, he can and will do it again.

Allan Shivers' administration has been outstanding because he will not tolerate anything that is not good for Texas, and consequently for Texans. Texans will do themselves a favor and the state a service if they keep Allan Shivers in Austin for another term.

Former U-Boat Crewman Now Living In Paris

Paris, Tex., —(AP)—To their Paris neighbors, Walter and Ruth Janick are just another American couple. Walter works as a parts clerk for a Paris implement company. His wife cooks hamburgers at a local dairy bar.

But 14 years ago, the two were proud, robust members of Hitler's Youth.

Walter joined the Nazi Navy and volunteered for submarine duty. They assigned him to the U-67 one of the famed Nazi raiders that prowled Allied shipping lanes. U-67 had sent 29 Allied ships to the bottom when she was hit herself.

Walter and two other crewmen were on deck when the end came. They were tossed into the mid-Atlantic and swam for four hours before an American destroyer picked them up. From there, they were taken to Washington, D. C., for interrogation, then to prisoner-of-war camps in Stringtown, Okla., and Phoenix, Ariz.

After the war, the small, bright-eyed German went home. Somehow he found his refugee parents

in the town of Ansbach, Germany. He went to work as a truck driver for the American Exchange, met and married Ruth, an old school chum from his home town.

Walter worked for a division manager named Hank Smolarz of Paris. Ruth was the Smolarz's housekeeper. So when the Smolarz family came back to America, they invited the Janicks to join them in Paris.

In November, 1952, the German couple came to the United States. Walter went to work for a Paris Motor Company, Ruth for the Tolzar family.

Four months of saving and they bought a 1941 model car. Later they swapped it for a 1950, and two months ago, they drove up to Stringtown, Okla., to visit the prison where Walter was held.

Ruth gave her husband a shotgun for Christmas. "In Germany," grins the U-Boat crewman, "hunting and fishing is only for the rich. Here I hunt when I please and fish every weekend."

The Janicks are saving their money carefully. Soon her mother will join them in America. Since the war, she has been alone in Ansbach. Ruth's father was one of the thousands of German soldiers still missing on the Russian front.

"Ruth and I love this country," Walter said in perfect English. "It is our country now. Soon we hope to become citizens."

"Our neighbors don't ask if we are German or Nazis. They accept us as Americans. And that, we are."

"Yes, if there is another war, I will fight for my country. America."

Annexed to U. S. After the Hawaiians had established themselves as a republic, they voluntarily had the islands annexed to the United States in the status of a territorial possession.

CHIP SHOTS

By Bud Posey

J. M. Posey won the weekly putting tournament last week by shooting a sensational 13-under-par 59 but barely nosing over Dr. J. H. Chanener, who had a 12-under-par 6.

Other winners were: Jeff Minton—62; F. M. Cogdell—63; Lloyd Neill—64; W. W. Gilbreath—64; Dale Taylor—65; Bob Lindsey—66.

Bob Lindsey defeated Dale Tinnin on the first extra hole after both players tied with 66's.

Sybil Nell Gilbreath won the ladies division with a 6 under par 66. Second was Helen Ann McWhorter with a 67, and third was Rowena Posey with a 69.

The putting tournament scheduled for Friday will be a partnership affair. All putters must be registered by Friday night at 8:45 o'clock at which time partners will be drawn. Play will be 36 holes of medal play. Entrance fee will be 50 cents with a men's division and ladies' division.

A mixed Scotch Foursomes match was held last Sunday afternoon at 4 o'clock with both 18 men and 18 ladies participating. Winners of the event were Dup Reeves and Mrs. Dale Tinnin, who fired a net 2 to win by three strokes. Other winners were: Mutt Wheeler and Gert Neill—29—(one ball each); Earl Stagner and Juanita Sims—30—(one ball each); Dale Tinnin and Mrs. Bruce Woodell—30—(one ball each).

Others who played were: J. A. McWhorter and Mary Harmon; J. M. Posey and Dugan Butler; Joe Butler and Rowena Posey; Harvey Brock and Sue Loving; Etnem, Sherman and Lucille Posey; Lloyd Neill and Virginia Wheeler; Iona Reeves and Bruce Woodell; Jimmy Butler and Jeff Gilbreath; Pick Harmon and Rita Heiberg; Bob Lindsey and Ola Mae Trimble; Bob Lamm and Teresa Adams; Frank Cogdell and Dell Sherman; Fred Sims and Hattie Gilbreath; Dr. J. H. Chanener and Jay Stagner; Earl Hendricks and Jo Brock.

Best amateurs are to act as team captains at the Scotch foursomes to be played at the golf course Sunday afternoon at 3 o'clock.

Three men and one lady will make up a foursome. Ladies will receive one stroke per hole handicap.

Matches will be scored on the following point system:

Each bogey on each hole—two points; each par on each hole—three points; each eagle on each hole—four points; any hole-in-one—10 points.

Play will be over nine holes and entry fee will be 50 cents.

Golf ball prizes will be awarded to the three highest scoring foursomes.

MORE MONEY for SCHOOLS

During Governor Allan Shivers' administration more money has been spent for schools than ever before.

The result?—Better schools, more and higher paid teachers, and better guidance for your children.

Since Allan Shivers became your governor, school funds, have increased from 145 million to 211 million dollars per year. Teachers get \$1600 a year more. Your child receives individual attention from 15,000 more teachers.

This educational climb is your child's guarantee of a profitable and happy future. For you it means assurance about his growing-up years. It means a better Texas for everyone.

IN DEAF SMITH COUNTY \$234,738.46 was spent for your child's education during the last fiscal year. He got better teachers with higher salaries and an administration that had more money to spend for his needs. Texas veterans received more educational aid.

The money went for other—but mighty important—things too, like school buses and cafeterias with hot noontime lunches. It meant more vocational help for your child. It went for many things, all necessary for a better education for him.

Texas comes first with Allan Shivers

Back BEN RAMSEY For LIEUTENANT GOVERNOR

BEN RAMSEY, as a man who has fought the battle of voter and self conservation, backs up the state's financial challenge. A diversified educational program, increasing bond issues, and transportation, power and recreation, Ramsey says, is necessary to the state's welfare and economy.

People will usually go to any extreme to put over a practical joke or to prove a point. Thus came about possibly one of the most expensive mailings in the history of The Brand.

It all started when Mr. and Mrs. Joe Reinauer decided to spend a few days in California and his brother, John, came down from Oklahoma City to take things over for Joe. It happened that Mrs. Reinauer said something about missing The Brand Sunday morning. John heard the remark, but didn't say a word. Saturday, however, he camped in The Brand office until the first pages came off the press, then he grabbed it up and went to the depot for special mailing, having already secured stamps and prepared a wrapper. He sent the paper out "Air Mail - Special Delivery" at a cost of 68 cents; 48 cents air mail and 20 cents for special delivery. On our entire circulation, I figure this would cost \$2,040.00.

"I want them to get it before breakfast Sunday morning," said John. He had checked out TWA flights - and, unless something skipped a cog along the way, the Reinauers got their Brand early Sunday morning.

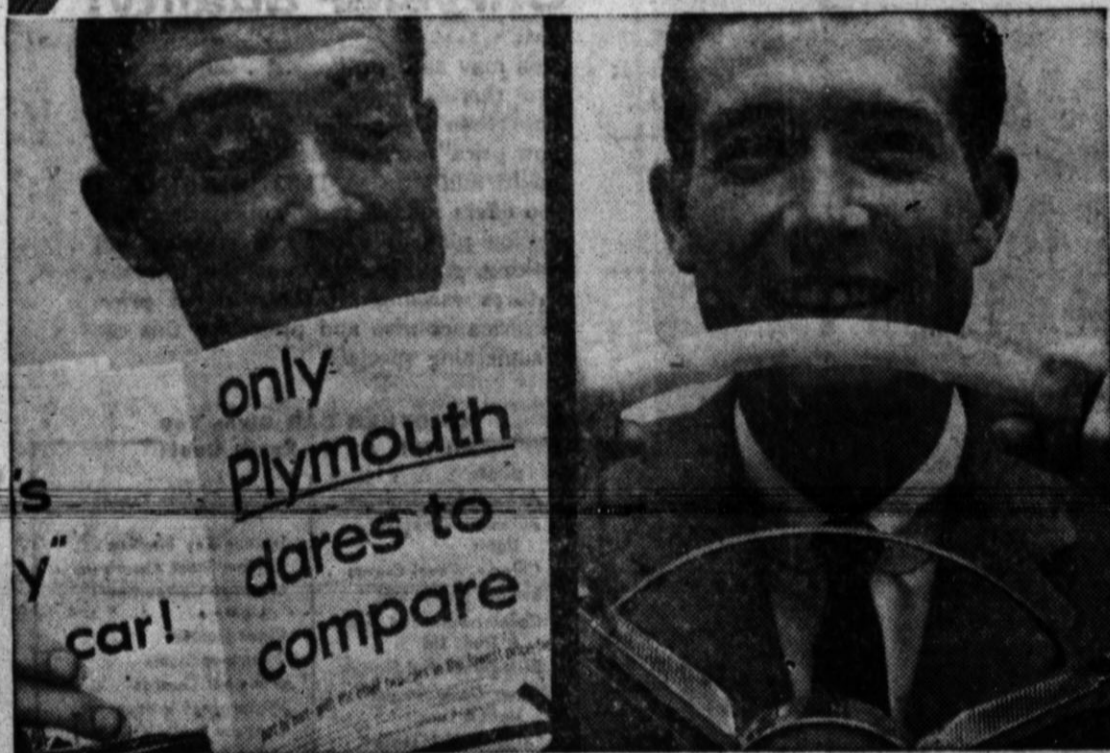

Incidentally, this should have been one of the nicest trips the Joe Reinauers ever took. John was telling me during the waiting period that they had been digging potatoes all day Saturday and that the yields were running 180 bags No. 1's to the acre.

Also hear that Hardy Benson literally "went to town" on wheat this year. Hardy cut an average of 23 bushels to the acre on his dry land, then turned around and harvested 42 bushels to the acre on some irrigated wheat. Hardy, until now, has always had good prospects - only to have something happen at the last minute. He lost a lot of the yield to the late freeze and to hail damage - but isn't complaining. Not even a little bit.

Fun for the whole family! Enjoy "That's My Boy" each Saturday evening on CBS-TV.

The Passing Scene by Chon Day

The Travelers Safety Service

"There must be something wrong with it. It keeps hitting things."

"Reckless driving does not determine who is right but who is left."

As we left the State of Arkansas and traveled into Kentucky, we spotted a likely place in the distance to spend the night. On a far-off hillside, we could see a beautiful monastery. However, when we arrived in Eddyville, Ky., we found the building was instead the Kentucky State Penitentiary and the students at this school were roaming the streets of Eddyville, so we quickly decided to drive to Princeton, Ky., to spend the night.

The natives here in Princeton were quite excited over the possibility of rain from the mountain tops hanging above, as they said: "We need rain the worst way, because it has not rained here since June 16." They claimed their potatoes need more rain and one of the farmers said the largest potato crop in the state was at Eddyville, and was on the penitentiary property, this being 40 acres.

From Princeton we drove to famous Kentucky Lake, where we ran into more Clabber Girl signs.

We have seen many interesting things on our first two days of travel, a drive-in theatre and washeteria (this should give Francis an idea; stopped in Beaver Dam for breakfast. Found they had plenty of breakfast cereal, but no milk; and we passed worlds of cancer-infested fields, tobacco to us Texans. Smoking pipes has become quite popular again in this section, and one man explained to me their system of irrigation by saying it had been tried in Kentucky, and they "bored some holes in the ground and fetched water on the fields with some guineys, but it took a heap of water for one batch of tobacco."

After miles and miles behind truck after truck, and were I to attempt to describe each of the trucks we had followed, I could write page upon page. We finally reached the Pennsylvania and New Jersey Turnpike and have now arrived in the City of New York. I can hardly say that was our big mistake, better we should have stayed in Texas. We arrived at the Lincoln Tunnel at 10 a.m. and at 11:50 a.m., we arrived at the Hotel. We passed the New Yorker Hotel four times, but the police and cab drivers pushed us on down 34th Street, past 5th Avenue, to the banks of the Hudson River. Consequently, we had to go 30 blocks out of the way to get back around again.

New York City is a fabulous place. It has 13,000 taxicabs, 16,000 policemen, and 13,000 firemen - and 37,000 Lions. All of the above are on the street in front of our hotel every day at noon. Perhaps the people who impress us most are the New York taxi drivers. There are 23,000 employed in the city every 24 hours, and they have no mercy or respect for anyone, more especially a Texan. If you start across the street and the first taxi misses you, don't worry; before you can adjust your hat, six more will have shot at you. And if you can make it from curb to curb you can consider yourself a native of New York City.

All of the Lions Club meetings are being held in Madison Square Garden, which I must admit is three or four times larger than the Bull Barn in Hereford. Five hundred policemen man the building and the crowd at the Garden; and, when you enter or leave the building, should you take the wrong door, you are apt to spend

THE REAL McCOYS BY JOHN and GEORGE

WE BETTER GET SOMEONE TO TRY IT THAT'S INSURED WITH John McLean Insurance Agency 24 Years of Insurance Know How Phone 273

the rest of the day trying to find what direction to take back to your hotel. The hotels are interesting: You must line up to get on the elevator, to get to get into the hall, to get to the rest room, and as you leave your room there is a sign which says: "Have you left anything?" From the prices here, it should read, "Have you anything left?"

Amazingly, everything in New York City is done wrong: Trains run underground, people don't sleep at night, they don't have alleys, they dump garbage in the river, people eat chili for breakfast, they have delicatessens instead of super markets. Airports are on top of buildings, no front yards, streets run under the river. All in all, it's not such a bad place, except should you ever plan to visit New York, be sure to bring two things with you: They are money - and more money! You need both to get around here.

We took a boat ride around Manhattan Island and saw everything you'd expect to see in New York City: Statue of Liberty, Ellis Island, George Washington Bridge, etc.

New York City and the trip have been eventful and, in closing, before you hear from me again, let me tell you of the little worm that stuck his head out in the early spring, and as he looked around he noticed another worm in a hole nearby. He said: "Hey, how about my coming over to visit you?" The other worm said: "Don't be silly, you fool. I'm your other END."

Use of Coal

There is good evidence that the Chinese used coal long before the Christian era.

CONGRESSMAN WALTER ROGERS SAYS

Texas Law On Robbery Stricter Than National Sabotage Law

The bill being considered was HR 9580, a bill to revise and extend the laws relating to espionage and sabotage, and for other purposes. The penalty provided for sabotage during time of war or national emergency was fixed at not to exceed a \$10,000.00 fine, and not to exceed 30 years in prison, or both such fine and imprisonment.

Other situations involving sabotage would be punishable by a fine of not more than \$10,000.00 or a prison term of not more than 10 years, or both such fine and imprisonment. The hour was late, the Members were very tired and wanted to go home. It was a bad time to be offering amendments, but the Republican leaders had indicated that we would finish the bill before the House adjourned.

This simply meant that if an

amendment was going to be offered to the bill, it had to be offered at that time. The espionage section of the bill provided for the death penalty as an extreme, but the sabotage portion of the bill did not. Therefore, I offered amendments to the bill that would empower a court to impose a penalty on saboteurs of death, imprisonment for any term of years, including life imprisonment, or a fine up to 10 thousand dollars, or both fine and imprisonment.

In other words, I merely attempted to enlarge the authority of the court so that it could exact the death penalty or life imprisonment if the circumstances of the case warranted it. Frankly, I have always felt that the court should have full power to assess a punishment commensurate with the crime committed, and I can think

of no worse crime than sabotage, espionage, or treason. A 17 year old boy in Texas can receive the death penalty for robbery with firearms, while a mature man could contaminate the water system of a defense installation, that could result in untold agony and death to thousands of people, and if tried under the act that we were considering, the most that he could receive in punishment would be 30 years in prison and a \$10,000.00 fine.

This just doesn't make sense to me, and I feel sure that if the House of Representatives had the opportunity to consider these amendments under different circumstances, they would not turn them down as they did the other evening. We are never going to be able to thoroughly defeat Communism or the other "isms" that would destroy our way of life, unless the courts have the full power to mete out penalties that will not only punish the criminal, but will be a potent deterrent to the crime involved.

RED CHINA AND THE UN
The recent high level public

The Passing Scene by Jefferson Machamer

"There's a 1400 mile weekend trip planned to the split second."

No one noticed that the door was locked until one of them started into the house. They were supposed to be keeping an eye on Mary Catherine, but they soon discovered that the baby sitters were prisoners of the baby and the baby didn't realize it. Mary Catherine was playing in the back yard, and if one of her friends hadn't come into the house to get a drink of water, I suppose the baby sitters would have had to wait it out. They finally found the stray cat and promptly evicted it, over the loud protests and opposition of Mary Catherine.

VISITORS
Visitors last week included Mr. and Mrs. W. E. Vedder and children, Meredith and Gene, of Amarillo; Mr. and Mrs. Don M. Conley and children, Donna, Bobby and Billy, of Pampa; Herb Bulke, of Amarillo; Kenneth Kendrick, of Stratford; and Mr. and Mrs. R. B. Norman, of Amarillo. Glad to see them all.

statements on the Red China-UN issue kicked off debate on foreign policy and foreign relations that has been smoldering for some time. The reason being that if Red China gets into the United Nations, it will be by virtue of the votes of nations that are supposed to be our friends. As Secretary of State Foster Dulles recently said, we do not anticipate that Red China will be voted into the UN. However, should such a tragedy occur, the circumstances present at that time should determine whether or not this nation stayed in the UN or gave up its membership.

In other words, it is entirely possible that the best interests of this country could be served by permitting our potential enemies to guess what we will or will not do at some future date, rather than continue to telegraph our punches as we seem to have been doing for some time. I know of no one in this country who wants to see Red China admitted to the UN. Certainly I, as a Member of Congress, would vigorously and bitter-

ly oppose such entry. However, if Red China should gain admission by a narrow margin, the subsequent action or course of this nation should be determined by thorough analysis of the world situation at that time.

Certainly we would not want to do something that would aid and abet Communist forces in their quest for world domination. Giving the other team our signals is not going to help us win the game.

LIFE AT THE ROGERS HOUSE HOLD
The other afternoon our Mary Catherine, who is five years old, received as a gift from one of her little friends, a stray cat. Jean was away from home at the time, so Mary Catherine deposited her treasure in the house and closed all doors so that it could not escape. For fear the cat might be able to get some of them open, she locked several, including one that leads to a screened porch. It just happened that Susan, the 12 year old was entertaining some friends on this porch at the time.

TO GIVE US POWER FOR LIVING AND TO COMBAT ATHEISTICISMS WE NEED GREATER CHURCHES AND A GREATER FAITH

PAST GRAND KNIGHTS of Knights of Columbus Council 2778 were presented with their gold service emblems at the communion breakfast held Sunday morning in the basement of the parochial school. Two other past Grand Knights who were not able to be present were also to receive their emblems from the council. Shown making the presentations is, at left, Rev. Bartholomeu Paytas, S.A., pastor of St. Anthony's Catholic Church. The past Grand Knights are, from left: John

S. Albracht, Frank J. Bezner, Eugene Loerwald, Ed Jesko, Andrew Kershen and Clarence Betzen. Those not present to receive the emblem are Alton C. Robinson and Ben Janacek. This was the first time such a presentation has been made since the council was instituted here in 1937. The Grand Knight is the head of the council in Hereford. There were about 150 persons, including wives and children of council members, present at the breakfast. (Staff Photo)

CHURCH

(Continued from Page 13)

Grace Gospel Church

Thirtieth and Avenue K
