Mrs. Hunter Has Written History Of Castro County

A new history of Castro County,
 The Moving Finger, by Mrs. Lillie
 Mae Hunter, formerly of Dimmitt
 and now of Dalhart, has been pub-
 lished by the Plains Printing Com-
 pany of Borger and is now on sale
 here at the Consumers Fuel Assn.
 and by Mrs. Hazel Sparks at 340
 Schley St.

Illustrations for the book were
 done by Bill Hacker, resident of
 Hereford since 1910. Hacker says
 that he has enjoyed drawing as a
 hobby for a number of years but
 that the pen and ink drawings in
 this publication are the first he
 has had published in book form.
 Mrs. Hunter was a resident of
 Castro County at the time the
 book was written and the story is,
 in the main, that of the building
 of Castro County, Deaf Smith
 County and its concurrent growth
 are mentioned frequently as the
 story is told. When her husband,
 Sam Hunter, bought a ranch near
 Dalhart, the author moved to
 make her home there.

Although the incidents related in
 the story come from many old-
 timers in the Dimmitt area, the
 central character in the story is
 Percy Estes of Dimmitt. Begin-
 ning with his coming to the Plains
 country in the fall of 1893 when
 this area was still open unsettled
 country, the story of Estes is car-
 ried to the present day agricul-
 tural bonanza in this area and his
 reaction to it.

Carpets Keep New Look

With proper care wall to wall carpeting will retain the new look. Correct cleaning methods have seemingly been a mystery and controversial even to carpet manufacturers. After much research a product is on the market that cleans and fluffs up beat down carpet paths plus removal of spots thereby maintaining the new look. The textile engineer of a large carpet mill says—"it's the best we've found."

The product is Blue Lustre. It is easily applied with a long handle brush. One half gallon of Blue Lustre concentrate cleans three 9 x 12 rugs.

Achievement Tea Is Given By Draper 4H

By ARGEN DRAPER
The tea that the members of the Argen H. Draper 4-H Club had on Sunday afternoon was so very nice. Most of the members had displays of their work. The displays were of sewing, cooking, record books and crafts. The girls having displays were Betty Hagar, Audni Miller, Gail Miller, Linda Tooley, Dorothea Stewart and Waltine Beavers. The girls wore the dresses they had made in the Sewing Workshops. Mrs. H. H. Miller and Mrs. Lanoy Tooley are the leaders and are doing a wonderful job. However good the leaders may be they cannot have a successful club without the help of interested neighbors. This club has a lot of adults who help them with their work. Mrs. August Frye helped Dorothea with the table arrangement. A few weeks ago Mrs. Frye had given the girls a demonstration on flower arrangement. The girls were complimentary about the demonstration and told me they learned a lot at the program and had put some of the principles into practice.

Some other friends of 4-H in the Dawn community are Miss Bertha Frye, Mrs. H. S. Fuller, Mrs. Ray Stewart, Mrs. H. R. Stewart, Mrs. Gayle Neal and Mrs. Carl Wimberley. Alice Burgess was visiting Mrs. Ray Polan so they came to the tea and appreciated the progress the 4-H members have made in their club work.

Loretta Russell and Nan Neal were visitors who are of club age so we are looking forward to having them in club. Mrs. N. R. Miller and Mrs. Carl Wimberley seemed proud of Audni and Waltine. Mrs. J. H. Hinds, I think, would have appreciated the way Dorothea played. Betty isn't taking lessons at the present but she did well. These four girls furnished tea music during the afternoon.

Sponsors of youth groups are a very important influence in this county. I see in the paper where the Farm and Ranch Club has adopted the Walcott 4-H Club as their project. Congratulations to the club members for doing this and we have always felt the Farm and Ranch Club has done many worthwhile things.

I have just learned that the W. W. Hills have moved back to Hereford. We are glad to have them back as they have both been so progressive in their ideas and active in their support of farm pro-

grams.
The H. D. Choral Club is off to a good start. It isn't too late for new members to join and we will begin on new music next meeting. We would be glad to have anyone who likes to sing.

STILL KEEPS HORSES
APACHE, Okla. (U. S. Nelson McCay) has been farming in the Apache community for more than 50 years, and he's still using horse power.
"Tractors are cheaper per acre, I know," he admits. "But I'd still rather use horses. And I'll bet down deep in their hearts all other farmers would too."

Marla English, held under hypnotic control by Morris, is taken back through time and space until her prehistoric being creates widespread terror and a series of grisly murders.

The other feature, "It Conquered The World," tells the story of a sinister visitor from Venus taking over control of the earth, and scientist Peter Graves and his wife, Sally Fraser, are the only ones who manage to escape his clutches. To give a lighter side to the show, a Terrytoon cartoon, "Lion in Lion," will be on the screen along with Paramount News No. 14.

Ike Better Democrat Than Adlai, Says Supporter

A bunch of us were standing around talking the other day, and he talk got around to politics like it usually does. Some of the boys said they'd voted for Ike in '52 and were going to do it again; some of them said they'd always voted the Democratic ticket and always expected to you know how it goes around a little Texas town.

One fellow said something that made the rest of us stop and think. He said he was a Democrat, sure—always had been, and his father and grandfather before him. And he always felt like he had to vote for the best Democrat in the race, which he was going to do this year.

"And that means," he said, "that I'll have to cast my vote for Ike Eisenhower. He's a better Democrat, by my definition of a Democrat, than that other fellow ever will be."

And besides that, he said, Ike kept his promises to Texas and Texas ought to return the favor by keeping Ike.

You know, he might have had something there. "Gratitude" is one of the greatest words in the English language, and we all like to think of ourselves as being grateful when people do something for us. Like I heard a man say one time: "Texans are people who never forget anything that is done TO them—or FOR them." That's the way we think of ourselves, and it's about right.

FORESIGHT
DAYTON, Ohio (AP)—Dayton police, who refused a Philadelphia stuntwoman permission to drive across Dayton blindfolded, must have been armed with foresight. Only a week later the woman, Rhonda Doloff, landed in a Mount Gilboa, Ohio, hospital with a fractured pelvis and broken ribs, suffered when her car left the road and hit a culvert. She was driving with her eyes wide open when the accident occurred.

HERE'S HOW

Use "Place To Wonder" Decor For Boys

By VIVIAN BROWN
AP Newsfeatures Writer

Do you expect your little cowboy, Indian or space cadet to be overjoyed that his room is to be redecorated? Get set for a let-down. He'll probably retort with: "Who cares." If he's old enough to be especially voluble he'll let you know that he likes his room the way it is — bugs in jars, unsung arrows and all.

Little boys are not impressed with crisp organdy curtains and fancy wallpaper. They want a view that will not conceal the great vistas of which they dream.

A little boy's room is for wondering.

Is he impressed by the stars? Plan an astronomical layout for him—perhaps a ceiling etched with big and little dippers, planets from which he can visualize Martians soaring into outer space, stars twinkling back at his stargazing. He may make the designs himself with the aid of Mom or Dad. They may be cut out of a book, anchored with transparent tape or rubber cement. A large map may go to the wall or a large world globe may grace a desk.

Ted Moore Shows Films Of France To El Nino Club

Members of El Nino Study Club enjoyed seeing films made in France at a meeting held in the home of Mrs. Ivan Block last Monday evening.

Mrs. Elizabeth Bonesio, program leader, introduced Ted Moore who spent three months during the summer in France. Ted was sponsored by the men's service clubs of Hereford in cooperation with the American Field Service.

Pictures of the countryside, scenic spots and business areas were shown as well as of bicycle races and sports event.

Mrs. Wayne Thomas will serve as hostess for the next meeting scheduled for Oct. 8.

Those present were Mesdames Darrell Blanton, Elizabeth Bonesio, Jim Bookout, Ben Childers, T. J. Clay, Byron Durham, Bill Decker, John Jacobsen Jr., Sam Nunna, W. J. Reeves, Edgar Skypala, Wayne Thomas, Bill Waldrep, V. M. Young, Doryal Young and the hostess.

HE'S A YOUNG COW HAND... So why not give him a home-on-the-range decor. The cowboy on the wall board is made of braided nylon cord rope sculptured on board.

Static art doesn't whip up a little fellow's imagination. He needs art with movement and flowing lines that may carry him off to the distant places in his make-believe world.

The cowboy may get all the excitement of a thrill-packed "western" with a new type of wall sculpture. A leisure time project for Mom, it is put together with nylon cord rope.

Here's How... Silhouette an object, such as a cowboy and his horse with a rope on a piece of wallboard. Outline it with the cord rope. Rubber cement is a good fastener or use a stapling machine, small brads or pins. If pins are used, wire snippers may cut the ends of the pins from the back of the board. White braided nylon is a good corded rope for this purpose. Put the object up on the wall and watch your little cowpoke's enthusiasm.

If the room is large enough, a section of rail fence along one wall will put your junior cowhand in the home-on-the-range mood. An artistic parent might paint an outdoor scene about it, or a wall mural placed above it along the wall may lend further illusion to the idea.

Little sailors will take to the salty theme in decor. Give them a ship's light lamp, put sails at the window, let the floor tile or rug be a sea green shade. A ship's

"I gotta go now," he said. "I'm goin' to interview the newspaper fellers and find out what I been thinking."

Stengel solved the shortstop problem in his own manner, by putting in GH McDougald who, all through his professional career, had only played second base and third base.

Taking a chance on such a conversion was mild for Stengel; he once used a left handed second baseman.

That took place when he was managing Brooklyn. Stengel's sec-

ond baseman made two errors in an inning and the manager came onto the diamond, rubbing his hands. He expelled the second baseman and beckoned to John Cooney, a former Braver coach, who then was playing the Brooklyn center field.

"You play second base," said Stengel and stalked back to the dugout.

Cooney had never played second base in his life. He was left handed which means that, after fielding a ball, he was ready to throw to third base, but not to first.

"So I played the rest of the game," Cooney would relate.

"How did you make the play to first?" someone asked.

"Oh," said Cooney. "I sort of jumped in the air and twirled and threw as I turned."

Members of the Friendship Class of the First Methodist Church were entertained in the home of Mrs. G. W. Newsom last Thursday evening with Mrs. Jim Black and Mrs. E. W. Hobson serving as assistant hostesses.

A question and answer period followed the covered dish supper with Miss Elizabeth Brumer, exchange student from Sweden, giving answers to questions about the customs and people of her native land.

During the supper hour informal music was provided by Jane Newsom at the piano.

Great Change In Looks Of Newspapers

IMPROVED METHODS of printing have helped to alter the appearance of the American newspaper. A printer in 15th century dress operates a replica of one of the early presses similar to those used in colonial times. The old

presses could print only a few hundred single sheets a day. In contrast, the modern bank of printing devices is capable of turning out some 2,900 80-page newspapers a minute.

AP Newsfeatures
The appearance of the front page of your newspaper seems to have changed more than the subject matter since the first newspaper was published in the United States. The news was mostly political when Benjamin Harrison's "Public Occurrences — Both Foreign and Domestic" came off of his hand - operated press in Boston Sept. 25, 1689. Historians generally agree that this long-titled paper was the first to be published in

this country. It was soon suppressed by the British colonial government.

But despite the fact that politics played an important part in the news, as it does now, most modern readers would scarcely recognize Harrison's sheet as the predecessor of their present-day newspaper.

NO HEADLINES

There were no headlines, no pictures and only four pages in the entire paper. One of these was left blank — for last-minute additions by the editor or for the reader to add a line or two before passing the paper on to the next reader.

The hand - operated press on which the hand-set type was printed could only turn out a few hundred copies a day. And the size of the pages was 4 7/8 inches by 8 5/8 inches. There were just two columns of printed matter on every page.

Few papers managed to publish steadily over a number of months or even weeks, and the cost of an individual copy was high.

Newspapers kept pretty much the same appearance until the 1830's. Then, technical advances — improved presses and cheaper paper — provided a great boon for newspaper editors. The newspaper price went down as more could be produced at less cost, and there was an era of the "penny press."

BLANKET SHEETS

To compete with the small penny pages, other publishers put out "blanket sheets" — the largest of which measured some three by five feet, in an attempt to show their readers that they were giving more for the money.

There were still no illustrations, except an occasional woodcut engraving.

Presses could produce a meager 2,000 pages an hour.

The Civil War period marked another change in appearance of the newspaper. Illustrations were no longer limited in their width to one column, although they were still wood engravings. Headlines began to appear, some which took up half of the page depth in a column. Rotary presses and a method of taking an impression — a stereotype — of the hand-set pages to use in the press allowed some 8,000 copies to be printed each hour.

TABLOIDS APPEAR

The tabloid-sized newspaper became popular in the 1920's. By this time, type was no longer set by hand, and a method had been perfected to allow newspapers to reproduce photographs.

The tabloids, most measuring about 11 by 15 inches, employed larger headlines and more pictures than had been seen before. Most standard size newspapers adopted the larger headlines and the more liberal use of pictures to meet the competition.

Modern presses now can print some 250,000 copies an hour, or 2,900 80-page newspapers a minute. Color printing is becoming more and more popular as faster, technically better, color printing methods are being developed at cheaper costs.

So regardless of the same interest in political matters, appearance of the page has been altered drastically — thanks largely to technical improvements — since the first newspaper came off the press in the U. S.

SPELLING MISCUE
SPOKANE, Wash. (AP) — When the Odd Fellows and their ladies came to town for their state convention, a big banner across a downtown street greeted them: "Welcome, Odd Fellows and Re-

becas!"
Only one thing wrong. They were (and are) Rebekahs.
OPPORTUNIST
DARLINGTON, S. C. (AP) — Lightning struck a ground wire and set

James Waldron's rural store afire. The fire burned out the store's stock.
And while the fire was burning, somebody stole more than \$100 from the cash drawer and a brand new \$15 hat.

From Sept. 30 By JUDY PINNELL

At sundown Wednesday evening, Bob Caldwell was driving from the south side of the highway in front of the Plainsman Service station, across to the elevator. A car traveling from the west with four women from Alabama collided with his car. The bumpers and the sides of the car were damaged extensively, but no one was injured.

DEFENCE "THINKING MACHINES"

SAN DIEGO, Calif. — The Naval Electronics Laboratory here is working, along with private research organizations, on electronic computers for shipboard operation on all combatant ships.

The "thinking machines" would be used to process the vast amount of data which are required for accurate fire control, guided-missile control, and anti-aircraft defense in the atom-jet-missile age at sea.

Capt. Gould Hunter, former commander of the laboratory, said the object of the computer project is to adapt electronically-operated "thinking machines" to the peculiar needs of naval warfare.

World population will double from 2.7 to 5.5 billion in the next half century, it is indicated by current growth rates.

GHOST TOWN BUYER
COLORADO SPRINGS, Colo. — T. E. Smith has bought himself a ghost town for \$551.25.

For that figure he got 36 buildings in Husted, a hamlet that has to be removed because it is on land that is part of the grounds of the U. S. Air Force Academy, under construction north of Colorado Springs.

Smith, a real estate dealer, said he is confident he can sell all the buildings before the Oct. 1 removal deadline.

STRANGE VARMINTS
PEVELY, Mo. — Farmers in this area won't believe their eyes if they happen to spot a couple of critters on the loose in these parts.

A truck carrying an animal shipment to Chicago overturned, and two coatiimondis escaped. They're cousins of the raccoon family, but have long snouts that gives them an appearance similar to that of the anteater.

NO SERVANT CAN SERVE TWO MASTERS

"Teach Me To Pray"

"Lord, you made me in your own image, and I am glad. You have given me dominion over land, and sea, and sky... made me steward over it all. Help me to be worthy of Thy trust. Master, you have even urged me to shoot for the moon, and land my atom ship on the outer firmament of space. Dear Lord, this is too much unless you go with me all the way. I need Thy help. Sometimes I almost forget about my church — my pastor — my family and my friends. Oh God! cleanse me just now. Use ME to help Thy children make a new discovery in the realm of the spirit. Dear Master, raise me up and show me how to release the tremendous power of prayer... how to show Thy children the way to the New Life in God. Give us this secret, gracious Father, ere we die! Teach ME to pray. A-men."

They were directed to First Methodist Church. The wedding started before they realized it was the wrong couple. They couldn't leave without disturbing the services so they sat through the ceremony. Then they left hurriedly for the Trinity Methodist Church, but no

How Can I?

By Anne Kubby

Q. How can I exterminate ants?
A. By keeping a small bag of sulphur in drawers and boxes. Or dampen a sponge in a solution of sugar and water, put it in a saucer and place near the haunts. It will soon be full of ants, and can then be plunged into boiling water.

Q. How can I remove discolorations from the interior of a bottle?
A. Fill nearly full with buttermilk and potato parings. Let it stand for several hours, empty, and rinse thoroughly with clean hot water.

Q. How can I keep berries fresh for a longer time?
A. Always dump fresh berries from the box into a plate or dish where the air can circulate through them.

Q. How can I tighten a loose chair rung?
A. Remove the rung and slightly split the ends. Then insert small wooden wedges where the splits are made. Replace the rung, and the harder it is pressed into its holes, the tighter it will fit.

Q. How can I relieve sun-burn?
A. For severe sunburn, when blistered, scrape raw potatoes, make a plaster on soft sterilized linen and apply as a poultice, renewing as it dries.

Q. How can I prevent the annoying buzz when using an electric fan?
A. Slip a thick newspaper or magazine under the base and the noise will usually cease.

Q. What is a substitute for castor oil?

THE BABE LIES IN STATE—Two women pause to pay their respect as the body of Babe Didrikson Zaharias lay in state in the Bethlehem Lutheran church at Beaumont where funeral services were held for the famed woman athlete who died after a long battle against cancer. (AP Wirephoto)

A. Prune juice is a good substitute for castor oil. Soak the prunes over night. Stew them in the water they are soaked in and pierce them with a fork to let out the juice when they are tender. Do not sweeten.

Q. How can I wash linen suits?
A. Wash them in hot water, prepared by scalding old dry hay and letting it stand until the water is colored. The linen will look like new.

Q. How can I relieve the painful sting of mosquito bites?
A. Bathe the parts with spirits of camphor, or witch hazel.

Q. How can I prevent window screens from rusting, when they are not made of copper or bronze?
A. Wipe them carefully with machine oil. The odor of the oil will also keep away mosquitoes and flies.

Q. How can I remove tar from linen?
A. Rub thoroughly with oil of turpentine, or lard, let it stand for a while, and then wash in soap and hot water.

Long Time Ago

45 Years Ago
 Texas cattle won premiums over Illinois cattle at the Illinois State Fair, which closed at Springfield last week. While in attendance at the annual meeting of the Commercial Secretaries and Business Men's Assn. of Texas session at Dallas Thursday, F. C. Lassiter of the Texas Cattle Raisers Assn. received a telegram that his herd carried off nearly every prize worthy of mention.

Beauty At Home
Q. How can I prepare a hair-bleach at home?
A. It can be mixed with ordinary peroxide and ammonia, but you'll do better buying one of the oil-bleach preparations. These keep the hair in much better condition, and help you to avoid the harsh, brassy look. All of these are color-controlled, and give you a choice of ash blonde, silver blonde, champagne, and other blonde variations. Always be sure the peroxide you mix with them is 20-volume and guaranteed to be "live."

25 Years Ago
 The Pepperetts have changed the name of their organization from pep squad to pep club and have a whole group to new yell and songs as well as the old ones ever popular. They will drill with the band and the Cowhands in trick formation between halves at the game. George W. Brumley, noted authority on hog raising, who has probably done more than any other one person to originate and stimulate the production and sale of hogs in the Panhandle, in an interview with the Brand Wednesday, said he believed there was more future to the hog industry than any of which he knew. "Of course, five cents a pound isn't much for hogs," said Brumley, "but whoever heard of feeding 16 cent maize? Feed is cheaper than it has ever been, and I believe hogs can be produced for two or three cents a pound."

NOT FOR CHILDREN
 DETROIT (AP)—Blackie, the talking mynah bird, has been banished from the Detroit Children's Zoo until he cleans up his language. Somewhere Blackie picked up a string of bad words and took to lacing his poly-wants-a-craeker routine with blistering expletives. Trainers have him in a back room of the aviary at the main zoo, teaching him to tone down his talk.

USEFUL HALLOWEEN PRANK
 AXTELL, Neb. (AP)—Old timers have recalled a civic project effected some 40 years ago. The city fathers wanted to remove the many hitching posts along the main street but fear of public opinion prompted them to go easy. They decided against any formal action but made a deal with the town's youngsters to include the removal of the posts in their planned Halloween pranks. It worked and the hitching posts never were replaced.

Passes have been sent to the following honoring them on the occasion of their anniversary October 4-6.

FROM A NEW 'INNER CAR' PROVED IN ACTION

came the magic that made possible so wonderfully different a Ford. In the toughest on-road tests ever given to a car, this "Inner Ford" demonstrated that a '57 Ford rides you sweet and low... that it takes the bumps without a bobble, the curves without the pitch... and, that in power, it "takes nothing from nobody!". Nothing on wheels hurries, handles or holds up like a Ford!

Here Today!

A new kind of FORD with the mark of tomorrow

You're in for a thrill when you see this new knock-out named Ford! But save your superlatives till you drive it! That's where the fun really starts. It's fun just knowing that others who see you wish they were you. For you're commanding the longest, lowest, heaviest, biggest car ever to sport such a low price tag. There's head-room to spare for a new fall bonnet... stretch-out space for a "Daddy-Longlegs".

You'll find that the tough and ready new "Inner Ford" is built to take the roughest road you'll care to travel. New outboard rear springs and ball-joint front suspension let Ford take the turns without the tilt. New swept-back control arms help take bounce out of bumps.

Best of all, Ford's library-like quiet is built in. And the new "Inner Ford" is why. For never be-

fore in Ford's field has there been a body with so much extra bracing so firmly anchored to its foundation. And you can choose from three big Silver Anniversary V-8's with up to 245 horsepower. There's also a new Mileage Maker Six with 144 horsepower, the most modern Six in the industry.

You can pick your Ford tailored to your desires and your budget, too! Choose from nine Fairlane or Fairlane 500 models or from five Custom or Custom 300 models. Or take your pick from Ford's five longer, lower, new station wagons. Whichever model you select, you'll get a car that's been re-invented from the wheels up!

So there's the new kind of Ford. Big! Gracious! Spacious! A luxury car true... but one that any new-car buyer can easily afford. Come in! See what wonder-cars you can buy now at low Ford prices.
