You have seen an unusually large number of bruised knees among Hereford's younger set and an unusually large number of them who sit down rather cautiously these days, then blame it all on the skating rink. Our nominee for the cutest skater is Jack Knox.

Sank Ramey wants to assure people that he is not crazy after all. "To those who have seen me stop on my way about town and deliver a series of vigorous kicks at the curb, I want to say that I have a loose cartilage in my knee and it persists in getting under my knee cap. It's painful and the only way I can get it out is to kick something."

Mrs. Seed Returns From Market Trip To Dallas, Fort Worth

To markets in Fort Worth and Dallas last week went Mrs. C. W. Seed, of The Vogue. She returned Sunday night after spending a week in the two cities, selecting goods for The Vogue to show this fall. Included in her selections were a complete line of fall millinery and ready-to-wear. Mrs. Seed said.

Mrs. Webb and Mrs. Presley are already here from California and their husbands are coming. Among relatives of Mrs. Arthur who are here are her sisters, Mrs. L. L. Anderson and husband and daughter, Anna Lee; Mrs. M. P. Stone, Mrs. R. L. Campbell and husband, and Dr. S. T. Cooper, her brother all of Silverton. Many more relatives and friends are expected for the services.

Final tribute will be paid tomorrow afternoon (Friday) at 4 o'clock at the First Christian Church to C. P. "Uncle Phil" Arthur, 80 years old, one of the pioneer builders of this county and widely known as a rancher and trail driver in the early days of the cattle industry in Texas. He died in a hospital here Wednesday morning. Rev. H. M. Redford will be in charge of services and interment will be made in West Park Cemetery.

Mr. Arthur was born September 30, 1859 at Minden, La. He came to Texas early and during the 1880's drove cattle on the Chisholm Trail into Montana. In later years he worked on the Goodnight and Mill-iron ranches.

In 1903 he came to Deaf Smith county where he engaged in buying and selling cattle. He served the county two terms as tax assessor and for several years was public weigher. He was the first tax assessor to have an office in the present courthouse.

His 80th birthday last year was celebrated by a gathering of relatives from out-of-town and those residing in Hereford. "Uncle Phil" as he was affectionately known by all Hereford, leaves a large gap in the ever-thinning ranks of the men who laid the foundations for this area. He was truly one of the pioneers of the old West and was known widely among old-time cattlemen of the state.

His survivors include his wife, three daughters, Mrs. Nona Jewell of Hereford, Mrs. Ralph Webb and Mrs. Gene Presley of Marl-cop, Calif.; one brother, Will Arthur of Mill City, Ore.; five grandchildren, Mrs. Bill Gentry, Mrs. Bob Gentry, Jerry and Charles Jewell, and Dale Webb; one great grandchild, Bobby Charles Gentry, and many other relatives.

Court Issues Blunt Warning On Run-off Irrigation Water

The Commissioner's Court of Deaf Smith county this morning issued an appeal to farmers to see that run-off irrigation water does not cross or stand on the county roads. The court explained that several persons had had near-accidents when their cars struck these wet spots.

"We don't care for water in the barrow ditches, the court said, but farmers must see to it that water does not get on the road bed. "And there will be a heavy penalty if this law continues to be disregarded," Noah Ewton added.

Of this number about 9,500 sacks went through the Association warehouse and about 500 through the C. M. Carpenter plant in the Fraser Building. Mr. Carpenter had his first run Wednesday, after getting his machine ready.

Triple A Tightens Its Regulations

Evidence that the Triple A is tightening its Farm Program regulations is found in the new regulations governing the wheat crop to be harvested in 1941.

"It is very important for all wheat producers who expect to take part in the farm program to know that regulations will not permit overseeding of allotment," A. R. Bateman, county Agent, said. Allotments that are overseeded will be knocked out," he added.

Another regulation is: "Wheat will absolutely not be permitted in a mixture with other small grains. If wheat is found growing in barley or rye, for example, the entire field will be considered as wheat," Mr. Bateman said.

Rain Totals .55 Inches

Rainfall measuring .55 inches at Hereford fell here Wednesday night bringing relief from heat and dryness to the area. Added to 2.15 inches which fell here Saturday, this is 80 inches in the past five days.

Rain last night appeared to be fairly general over this district and rains fell in other sections of the Panhandle.

Moisture here will help row crops and grass to some extent but will not last very long. In general, row crops in this area were already standing the drouth unusually well.

Additional moisture will be needed before wheat can be drilled with any chance of it coming up. Continued dry weather will cause much wheat to be dusted in as it was last year.

Showers and cloudy weather have brought lower temperatures this week. Tuesday morning was especially cool.

Head-On Collision Snuffs Out Lives Of Four Hereford Young Persons and Amarillo Man

Coming as a shock to the entire Panhandle, four young people of Hereford and an Amarillo business man met death at 1:50 a. m. Sunday in a head-on automobile collision six miles west of Canyon. The coupe in which the four young people were riding caught on fire and charred bodies of the victims made identification difficult.

The victims were Violet Bippus, 27 years old; Mary June Decker, 17 years old; Arvid Fancher, 21 years old, Welsh, Texas, who was working here; and Roland Faulkenberry, whose home was near Weatherford, but who was working at Jacobsen Bros.; the Amarillo victim, who was alone in the other car, was Mark Taylor, manager of the Amarillo Division of the Phillips Petroleum Co. Hereford Phillips stations joined all others in the division and closed three hours Sunday for the services, which were held in Amarillo.

From gouges in the pavement, highway officers investigating the accident believe that the cars collided head-on in the middle of the highway. Exact cause of the accident was sealed with the victims by death. Mr. Taylor died instantly. The young people were pinned in the coupe by the motor which was forced into the cab. Two Amarillo youths who reached the crash scene soon after it happened, tried to open the doors of the coupe, which was already beginning to burn. The doors were twisted and jammed and wouldn't open. Flames forced the rescuers back. However, they said they could see the four persons and that there was no sign of life in the coupe. The Taylor car was going east and the coupe driven by Faulkenberry, was coming west. Force of the crash forced the coupe back 75 feet.

The bodies were removed about dawn but it was almost noon before identification was made. All bodies were taken to Canyon, except that of Mr. Taylor, which was taken to Amarillo. Sunday evening the body of Miss Bippus was brought to Hereford and that night the body of Miss Decker was also brought to Black's Funeral Home. Funerals for the two men were held at their respective homes.

low tomato juice set plant breeders to work on an improved yellow tomato and the result is the Mingold. It is large, juicy, and in all respects excels older yellow varieties. Seed will be available in commercial amounts in 1941.

The first tomatoes ripened in the garden of Mrs. O. E. Sherman about the middle of July while the first ones were picked in the garden of Mr. and Mrs. Dick Shugart much later in July.

Fifteen rhubarb plants were set in the garden at the home of Mr. and Mrs. Harry Kibbee this last spring. They now have a spread of almost three feet. After growth was well started a side dressing of chicken manure was put in a trench well away from the plants and then well irrigated.

These plants were a gift from the garden of Mr. and Mrs. Al Werner.

Most of the shrubs in the foundation planting and in the screen plantings at the home of Mr. and Mrs. Henry Allmon, Westway, have not only survived but have grown thrifflly this season. Now that days will be cooler fall growth will begin and the passer-by will soon be able to see at a glance something of the design in the planting.

The tallest shrub is Vitex angus cactus. Two other species of Vitex are in flower. The But-

terflybush (Buddleia) is most admired just now.

The shade trees west of the residence in a Buffalo grass lawn must still be supported by guy wires well wrapped to prevent damage from friction when the wind blows. The lawn has a silky texture found only in the narrowest leaved Bermuda grass which is not hardy at this altitude.

High School Footballers To Get Insurance

AUSTIN—Injury insurance for Texas' 20,000 schoolboy football players will be made available on September 1 by terms of a plan approved by the University of Texas' Interscholastic League State office.

The plan was drawn up by C. H. Kenley, San Angelo high school principal and League athletic insurance committee chairman, and calls for a per player annual premium of \$1.75, providing for the payment of up to \$100 in medical care for the more serious fractures or lacerations.

Kenley pointed out that the league simply contracts with a national insurance company to offer the Texas school player policies at a rockbottom rate. Then, if a boy is injured dur-

ing game or practice either, he added, the plan insures finances available for proper medical care.

He cited a survey of the Texas high school conference taken by his committee of coaches and principals showing that 495 of the schools last year paid \$26,657, or \$53.86 per school, for injury treatment or for individual school insurance.

When league officials voted last May to investigate injury insurance, Kenley reported that Texas schoolboy squads suffered two deaths and 1,399 injuries during the regular 12-week schedule in 1939.

43 percent of the injuries were sprains, the next largest group being fractures, 20 per cent.

Texas becomes the 18th state to adopt the blanket insurance plan since Wisconsin pioneered it in 1930. Wisconsin injuries have dropped, Kenley pointed out, from 90 to 40 per thousand players.

Phillips 66 Beats Firemen In Lead-Changing Game; Dawn Defaults

July 31—The High School and Firemen had to go eight innings before the High School scored enough runs in the eighth to beat the Firemen 11 to 8, however, the game was played under protest by the Firemen from the first of the seventh on. The protest was made on the umpire's ruling of a fair ball down third base. This hit accounted for two runs for the High School and enabled them to tie the game in the seventh at eight runs all. The High School then blanketed the Firemen in their next two innings while scoring three times in the eighth.

The High School started ahead with two runs in the first and three in the second, but the Firemen climbed within one run of them in the fifth, and then scored four times in the sixth to take a three run advantage. In the next inning for the High School they scored three runs to tie the game and it was in this inning that the protest came.

Aug. 1—Summerfield held a 10 to 0 lead up to the fifth inning, lost it and then came back to score six more runs and beat the K C 16 to 10. Seven runs in the first inning gave Summerfield first blood and a long lead and they followed it up with three more runs in the next inning. The K C, however, cut loose in the fifth and tallied ten times from eight hits. Fifteen K C men came to bat in this wild inning.

In the sixth and seventh, Summerfield blanketed the K C while scoring four runs in the sixth and two in the seventh for their margin of victory.

This victory broke a two game losing streak for Summerfield, present leaders of the league.

Aug. 6—Quelling a last inning attempt by the Firemen, the Phillips 66 defeated the Fireboys 14 to 11. The lead changed often during the game with Phillips starting ahead with two runs in the first inning. They followed it up with a run in the second and third innings, but the Fireboys came up with six runs in their half of the third to take the lead. They lost it in the next inning as the Phillips 66 scored three runs from three hits and one error. The lead changed again in the next half inning when the Firemen scored two runs from no hits. In the next inning, however, Phillips put on a four run rally and followed with a three run outburst in the sixth to put the game on ice. The Firemen tried to come back with three runs in the sixth and they had two men on with no outs in the seventh but a fly out counted for the first out and then the two men on bases were trapped off bases.

In an advertisement published for the Western Life Insurance Company last week The Brand stated: "The Western Life Insurance Company of Amarillo, Texas, whose plan of life insurance is available to people from date of birth to 65 years of age, and further provide in their policies that they are unrestricted as to occupation, travel, or place of death."

Culberson's The Man According To The Houston Press

Foremost among the watchdogs who have faithfully guarded the interests of the Texas public against graft and greed is Olin Culberson leading candidate for railroad commissioner, who, through a distinguished career, has gained a solid reputation as a man who can't be fixed.

When elected county clerk of Hill County in 1920, Mr. Culberson could easily have relaxed and become the back-slapping card-pushing, do-nothing pay-roller so familiar in county offices, and enjoyed a place on the public payroll for the balance of his days.

But Mr. Culberson was no sooner in office than he discovered and smashed wide open a road-bond racket that had cost

the taxpayers a quarter of a million dollars. He dug up the evidence; and though grand jury after grand jury was indifferent, he persisted until he got indictments. The result was that two grafting public officials were sent to prison and Hill County recovered \$263,000 in cold, hard cash.

By the time the money was back in the treasury, the people had elected Mr. Culberson county judge. In that office he proceeded systematically to invest the recovered loot where the taxpayers had intended that it be spent—on road improvements. He recommended and put over a county budget system that took Hill County out of the red.

Then he retired, an undefeated public officer with a record studded with accomplishments. But he soon was drafted to lead the fight for lower gas rates in Texas.

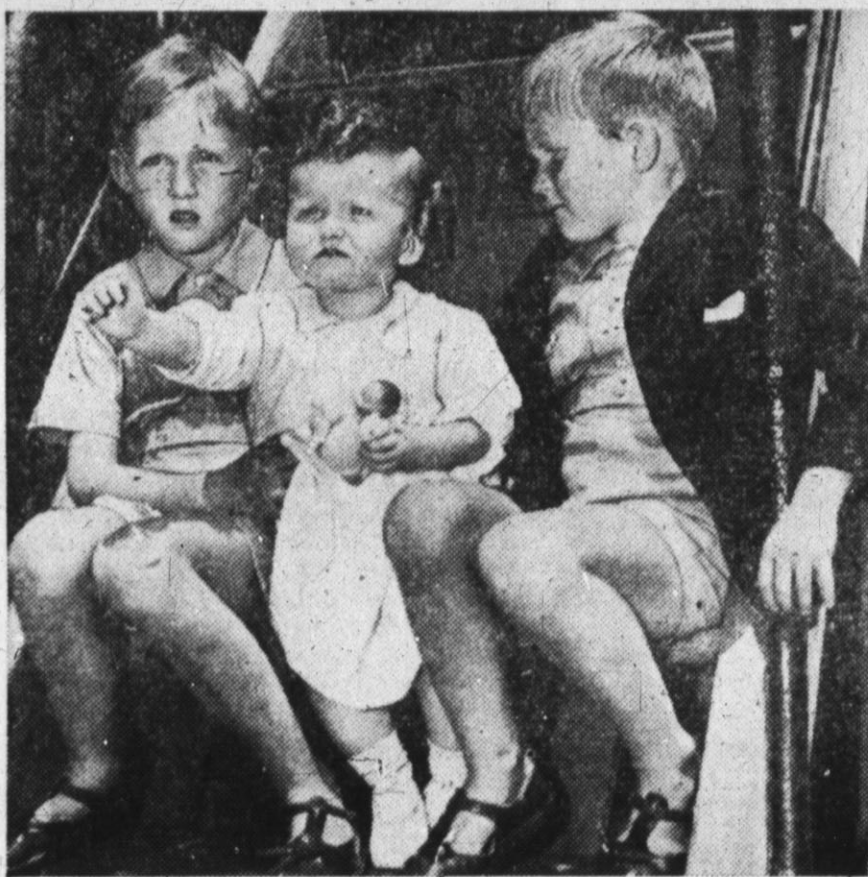

As an executive in the state gas utilities division, he got gas consumers \$180,000 in refunds and annual savings of \$572,000. He started cases still pending that in time should bring another \$2,600,000 in refunds and additional annual savings of \$509,000. He quickly gained the reputation as a perfectly honest man, an enthusiast for reasonable gas rates and a hard fighter, respected by all gas companies and hated and feared by some.

The Railroad Commission called on him to take on additional duties of breaking up hot oil rackets. It is a matter of court record that would-be bribers reported that Culberson could not be bought—to quote official records—not even by "all the money and all the oil wells in the world." Pushing aside the proffered bribe money, Mr. Culberson smashed an oil conspiracy in the Conroe field, and two men were sent to the penitentiary as a result of his work.

His hobby is his work as State Secretary of the Volunteer Firemen of Texas. This work led him to discover that fire insurance rates were too high, and he fought for reductions and won them. It is estimated that his work has brought policy-holders \$2,000,000 a year in savings.

In times like these, when the State Railroad Commission is dabbling in politics, when commission policies are wavering and fluctuating to the detriment of the state's greatest industry, when scandals and rumors of scandals are rife in oil regula-

They're Ready to Learn American Ways

Safe from the horrors of war are these three children of Maj. Arthur Lockhart of the British army who landed in New York city recently. They were members of another band of refugee British children seeking a haven in the United States. Their father is an officer in the King's Hussars, now fighting for England against the Axis powers. The young refugees are being cared for by relatives in America.

tion, Texas people have an unusual opportunity to elect a man of rare qualifications as railroad commissioner.

He is honest. He is dependable. He is able. He is zealous. Olin Culberson is that man. —The Houston Press

FAMILY HISTORY

Family lived near Miami before 1900. Grady grew up on a farm west of Silverton and was graduated from the high school of that city. Moved to a farm northwest of Canyon. Graduated from law school and was appointed assistant district attorney. Family still lives in Canyon. He married Andrine Smith, former school teacher in Childress and Tulsa. He is 38 years old. Former district attorney of 47th district, and was re-elected by majority of more than 3 to 1 after serving in office for 8 years. Voluntarily retired in 1937.

PENSIONS

"Why haven't these debts due the aged people been paid before now? I'll do more than co-operate with the governor. I'LL NOT LEAVE THOSE LEGISLATIVE HALLS UNTIL THESE DEBTS ARE PAID—while the old people are still living."

FARM PROGRAM

"I have been operating a farm near Hereford. I know what wheat chaff is like down my collar, and I'll have a lot better understanding of farmers' problems than some fellow who has never been nearer a farm than high up in some office building."

THANK YOU, FOLKS—

Thank you for managing my campaign and putting me in a near tie for first place in six short weeks. You did a wonderful job. I am running a one-man campaign and I am depending—yes, DEPENDING upon YOU to continue my battle for the average men and women.

Will YOU—the average folk be represented next time? I'll make you a senator of whom you will be proud.

Miss Louise Homer Becomes Bride Of Mr. Swart In Church Wedding

In the First Methodist Church Wednesday evening at 8 o'clock, Miss Martha Louise Homer, daughter of Mr. and Mrs. John T. Homer, became the bride of William E. Swart, son of Mrs. Sarah Swart of Stillwater, Okla. The service was read by Rev. Marvin Norwood before a background of flowers and lighted tapers. A pink and white setting was arranged for the ceremony with pink and white gladioli and other pink and white blossoms. In the center of the altar was a large floral heart covered with sprays of silver king interwoven with pink gladioli and flanked by tall white tapers in seven branch candelabra. Bouquets of white daisies tied with pink ribbon marked the pews in the center aisle.

Preceding the ceremony Miss Thelma McMinn played "Indian Love Call" and "The Rosary." She also accompanied Mrs. A. C. Thompson who played "Ah Sweet Mystery of Life" and "Ave Maria." Miss McMinn accompanied Miss Joyce Homer, sister of the bride, who sang "I Love You Truly" and Miss Mary Tiefert, who sang "Because." She played the wedding marches and during the ceremony "To A Wild Rose" was played softly.

All the bride's attendants wore silk marquisette dresses, made identically, and carried bouquets of white rosebuds. The dresses were made with fitted bodices, full skirts and long full sleeves. Bertha Baer was the first to enter, followed by Mary-Jane Jordan and Dorothy Nelle Trimble. Bettye Perryman was maid of honor and little Patsy Lee Jordan, dressed like the bridesmaids, was flower girl.

The bride, who entered with her father, wore white net trimmed with lace, over white satin. Her gown was made with fitted lace bodice with puffed sleeves

and full lace trimmed skirt. Her veil of illusion was edged with lace, falling from a halo of seed pearls into a long train at the back. Her bouquet was of white lilies and pink rosebuds. For her only ornament, the bride chose a pearl necklace which belonged to an aunt.

Mr. Victor Walden of Dumas was best man and serving as ushers were Messrs Richard Muller, Carmen G. Rode of Floydada and Wayne H. Miles of Tucumcari, N. M.

A reception for a few friends and the bridal party was held at the home of Mrs. M. O. Green after the ceremony. Mrs. Homer and Mrs. Green presided at the wedding cake which centered the lace covered refreshment table. The dining room was decorated with baskets of pink and white gladioli and white candles furnished candlelighting.

Mr. and Mrs. Swart left after the reception on a ten days trip to points in Colorado, after which they will live in Dumas.

For traveling, the bride wore a rose-pink moss crepe shirtwaist dress with beige accessories.

Mrs. Swart is a graduate of Hereford High School and attended W. T. S. C. Canyon, for a short while.

Mr. Swart is a graduate of Oklahoma A. & M. College at Stillwater. He was a member of the Farmhouse Fraternity. He is employed with the Soil Conservation Service at Dumas.

Luncheon Has Mexican Theme

Colors taken from a Mexican theme brightened the S. P. Rosson home Saturday when Mrs. Rosson entertained with a bridge luncheon to honor Mrs. Jack Mounts of Dallas who is visiting her sisters, Mrs. C. C. Rockwell and Mrs. J. A. Pitman. Appointments for the luncheon were in bright blues, reds, greens and yellows, suggested by the bowl of zinnias that centered the luncheon table. A raffia luncheon set laid the table and Fiesta table service was used. Place cards repeated the Mexican theme.

After the luncheon games of bridge were played with high score prize going to Mrs. J. A. Pitman. Guest award was presented to Mrs. Mounts.

Enjoying the lovely affair were Mesdames Seth B. Holman, A. R. Bateman, E. B. Hedrick, J. A. Pitman, C. C. Rockwell, H. K. Fox, the honoree and the hostesses.

Mrs. Holman's new home was decorated throughout with gladioli, snap dragons, delphinium and zinnias in all the soft colors.

ed. Attending were Messers and Mesdames J. A. Pitman, C. C. Rockwell, Jimmie Gilentine, Jack Wayland, A. R. Bateman, H. K. Fox, S. P. Rosson, E. B. Hedrick, Mrs. Alton Fraser, Mrs. Holman, and the two honor guests.

By Jimmie Gilentine

It looks like Hereford is soon going to have the fundamentals of a good "Doghouse Quartet." For instance, there's Charley Whitehead who recently got a card from Hedy Lamarr. Charley has long admired Hedy, but he was as surprised as the next one to get the card, which was postmarked in California. My contention is that it just goes to prove "you never can tell about these bald headed men"—but Mrs. Whitehead's contention is that Charley hasn't got any business getting cards from women, especially glamour girls. Therefore, Charley is now in the dog house, and I guess he should be. For instance there's Wilson Gyles, a young man with a nice crop of hair and no bay window. I think if anyone is to get cards from Hedy Lamarr it should be Wilson Gyles.

Alex Thompson sent me

a post card from Texarkana; it was something about a man in Texas and a donkey in Louisiana, but I couldn't figure the thing out.

Mont Baker who has recently completed his new home tells me that Hedy Lamarr can write him all of the cards she likes. Mont has the most modern, most complete dog house in West Texas. Mont built this dog house himself, folks, and it has everything from running water to a radio.

"That's where I'll stay most of the time," Mont says, "So I just fixed 'er up right."

Mont says even Alice Faye or Ann Sheridan can send him cards, he don't mind because his dog house is so nice and comfortable. Mont has done something that Harold Close should have done years ago. I don't know a man who stays in the dog house more than Harold Close, unless it would be Glenn Weir or Ernest Medkief.

Among other building activities is a new garage constructed recently by J. E. Beyer. The Beyers bought a new car and it happened that the new model was bigger than their old car, all of which resulted in the new garage.

I always figured that running for office was something I wouldn't like. Last Sunday I

Sino-Japanese War Goes Savagely Ahead

While the war in Europe has diverted attention away from the Sino-Japanese conflicts, scenes like the one above show that hostilities are still in progress. The Japanese soldier is one of a party wiping out the streets of Ichang, one of the most important strategic points in the defending army of Generalissimo Chiang Kai-shek. A bomb explodes in the background.

talked a few minutes with Deck Wells, who is a shadow of his former self. Shortly after Deck entered the race last June he gained six pounds, weighing 136. He now weighs 122, having lost 14 pounds since the congressional race got well underway. Deck likes it, though, and I think that he will make a real congressman. Despite his lead of 6,000 votes over his nearest opponent, Deck is getting out at 6 o'clock each morning and is working up till 12 and 1 o'clock each night. I believe that he has more stamina and energy than any man I ever saw. He is mighty proud that he carried his home county by 81 per cent, far more than any other candidate in the race carried his home county—and he is proud that he got the big farm and cattle vote of the entire district. Deck repeated, "Tell the people that I will not move to Amarillo. I am still the candidate for the entire Panhandle and I really am proud of the Deaf Smith County vote. I will be out there soon."

C. F. Moore, Alton Miller and George Brumley were hardly back from the Lions International Convention in Havana, Cuba, before I got a letter about them. The letter came from Edwin Radlinsky, executive secretary of the Chamber of Commerce at Fort Pierce, Florida.

"I lied to them about this country and they lied to me about that country," Mr. Radlinsky started off. He continued that the Hereford men left some folders from the Hereford Chamber of Commerce and was high in his praise of the folder and the material which it contained, adding: "If we were not from Fort Pierce, we would sure wish we were from Hereford." He also took our Hereford boys fishing off the coast and reports that they made a nice catch. He is even sending a picture of the men and the fish. I guess after talking with George Brumley he decided they were the kind of fellows no one would believe at home unless they had a picture to prove what they said.

Anyway, the boys had a nice trip and they did some real advertising for Hereford, especially regarding our fine cattle. They said that cattle in the Florida country are really scrawny.

Judging from the final vote tabulations, Wells is extremely strong in the agricultural districts and small towns, having carried ten counties with predominately rural interests.

Part of every Texas oil dollar finds its way INTO YOUR POCKET

EVERY merchant in our State—every business and professional man—every worker, shares in Texas oil's huge expenditures.

Many Texas cities with all their varied businesses and employment exist and prosper today because of oil.

Last year petroleum created a direct buying power in our state of 550 million dollars.

Of this, Texas retail merchants received 324 million dollars, landlords 44 million, utilities 38 million and professional men 22 million, while 83 million more went for insurance and savings.

This huge sum is distributed and redistributed in an endless chain of income for our State and its people.

Texas oil payrolls are over 60 per cent of all the wages paid to all Texas workers. Directly or indirectly, you get a part of your income from oil.

If you're a Texan, you're in the oil business.
