SANTA FE SPECIAL DRAWS BIG CROWD

Educational Train and Demonstration Equipment Attract Unusual Attention—Lectures Heard With Interest.

Hereford showed her appreciation of the Santa Fe's Educational Special Wednesday afternoon by turning out in large numbers and listening to the lectures, seeing the demonstrations and inspecting the demonstrational equipment. That Hereford thinks well of the efforts of the Santa Fe to advance the agricultural and stock interests of the Panhandle was fully shown by the fact that the three banks of the town and many of the business houses closed their doors that the business men and their clerks might also attend the lectures. Not only this, Hereford did something that no other town has yet accomplished: the district court took a recess that the officers of the court, witnesses and jurors, most of the latter being farmers, might not be denied the opportunity to take advantage of the lectures and demonstrations.

L. L. Johnson, introduced by H. M. Bainer, opened with his talk on poultry. Mr. Johnson is a poultry expert, and declared that the logical place to raise poultry is the farm. He was not unmindful of the contribution of fanciers, and declared that these have added their quota to the wealth of the real raisers by furnishing purebred birds. Marketing problems together with care and management of the poultry on the farm and on the town lot, received attention at the hands of the speaker.

H. M. Bainer addressed the crowd on better farming, declaring against the prevailing custom of extensive operations as opposed to intensive methods. He stated that there is no more hurtful practice among the people today than that of spreading over too much ground. He endorsed to the fullest possible degree the intensive method of farming, together with diversification as opposed to the one-crop plan. He urges the selection of seeds with great care, and then came admonitions as to preparation of lands, the seeding and cultivation of the crops. The intensified plan with good seed, right preparation of lands and a diversity of crops, planted at different times, were among the strong points of the talk.

J. D. Tinsley talked on dairying and silos, giving it as his opinion that the farm scheme not inclusive of the cow, can never attain to the highest possibilities. While dwelling at some length on the possibilities of dairying, he spoke favorably of beef raising even if on a small scale. He stated that all fodders and grains should be marketed on the hoof, to secure the greatest profit. The silo was declared to be the greatest single adjunct in the feeding line, and through this fully 90 per cent of the feeds raised may be saved, and in its absence fully 50 per cent is lost through blowing away and shattering.

Miss Amanda Stoltzfus and Miss Frances Lowen presided in the domestic science car, giving lecture and demonstration along the lines of home economics. They showed many things of interest and those tending to make more pleasant and easy the administration of the affairs of the home. The various styles of

cookery—good and bad, were demonstrated, the former with approval, the latter with disapproval. These ladies distributed a considerable amount of printed matter pertaining to their work at the close of the lecture-demonstration work.

The equipment consisted of nine cars, including lecture and demonstration coaches, silo and machinery cars, animal and poultry cars, living and business cars. Among those on the train at the Hereford stop were: L. F. Bacon, assistant general colonization agent in charge of train, Chicago, Ill.; C. V. Spencer, general milk agent, Chicago, Ill.; I. O. Wilson, trainmaster, Amarillo, Tex.; H. M. Bainer, agricultural demonstrator Santa Fe System, Amarillo, Tex.; J. D. Tinsley, agricultural demonstrator Gulf, Colorado & Santa Fe, Brownwood, Tex.; L. L. Johnson, assistant agricultural demonstrator, Amarillo, Tex.; H. C. McCowen, assistant agricultural demonstrator, Amarillo, Texas; Miss Frances Lowen and Miss Amanda Stoltzfus, representing department of extension University of Texas, Austin, Texas; Vaughn Benjamin, attaché Harvey Eating house system, Wellington, Kans.; J. L. Pope, chief clerk of department and in charge of publicity, Amarillo, Texas.

Former Hereford Pastor Prominent in Church Conference.

Rev. J. M. Sherman, former pastor of the Hereford Station, but now presiding elder of the Sweetwater District, made one of the best Presiding Elders' Reports heard at the Northwest Texas Conference held at Vernon this week, so says the dispatches to the daily papers. This is very gratifying to Mr. Sherman's many friends at Hereford and they offer their congratulations by wireless.

A Good Reason For Saloons.

A convincing argument from the Pineville Herald: "A Georgia town has voted in favor of saloons and here is the reason as given by a citizen: 'If we are going to stand for our women folks wearing shadow and slit skirts and our younger women learning to dance the boll weevil wiggles, Texas Tommy tango, the bunny hug, the bear dance, the half-canter, the buzzard flop and so on down the line, the men folks might just as well have their saloons and the whole push go to hell together.'"

Protect School Board.

Austin, Nov. 11.—The department of education was advised by the attorney general's department that members of the school board would not be liable for damages personally or otherwise in an official capacity where the board exercised a proper discretion in the discharge of official duties, even though it should afterward be determined that such discretion was erroneously exercised; that if their conduct was not malicious no damages would lie.

Car Load of Furniture.

Everybody knows that a furniture car is twice as large as the ordinary size freight car. With this fact in mind, think how much furniture compactly packed could be packed in one of these big, oversize cars. Well, E. B. Black Company has just received one of the big cars filled to the roof with furniture; an unusual shipment for a town no larger than Hereford.

"OCEANS OF WATER."

WITH COUNTRY NEWSPAPERS

Department of Scissors and Paste-pot—Clippings and Comments—Politics et Cetera.

Lockney Beacon.—It is said that Editor Elliott of the Hereford Brand is requiring candidates to write their own announcements. Rather a new departure. However, Friend Elliott may be actuated by the old saw, "That he that tootheth not his own horn, etc." Or is it that he has allowed his conscience to get the best of him? Our conscience never bothers us when it comes to writing up candidates, for we always find them good men—until they announce for office.

The man that wrote this "most unkindest cut of all" is named Smith. He being a newspaper person, should know that the average write-up given a candidate is merely a stereotyped form and, more often than not, does not contain the honest expression of the writer, much less his sentiment. The Brand believes, above all things, that the country weekly should be honest; therefore, it should not attempt to give a score or more of candidates a boost out of the same pot. It would be far better for the candidate himself to write his announcement or, if he preferred to get some friend to write it for him.

Commissioner Meeks' Silo Will Prove Good.

M. O. Meeks, commissioner from the north side of the county, while here this week attending a session of the court, remarked to the Brand reporter that the five silos in his community were considered by all of the owners to be the beginning of a new era in stock farming in his section. "The first year, of course, is an experiment," he said, "but as farmers in other states have made a success of silo feeding, we believe that we can also accomplish a good purpose." "We can always raise feed and even if it does not mature full grain, it makes good silage and can save what we raise and not see it dry up and blow away," he added, "and stock farming for Deaf Smith county will make the farmers prosperous and, of course, contented if they build silos."

Mothers' Club.

Mothers Club met at 3 o'clock p. m., Nov. 11, with Mrs. J. H. Bowers. This a business and social meeting combined, last meeting was postponed on account of bad weather. Fifteen members were present. A splendid program on "How a Mother is to Keep Abreast of the Times," was carried out. The following papers being read: "The School of Mothercraft," by Mrs. Hattie Rutherford; "The Culture of the Mothers," by Mrs. W. M. Cogdell; "A New Interest," by Mrs. J. H. Bowers. Talk on "The Need of Rest," by Mrs. Robert Elliott, and discussed by the members. After the social hour there were several business letters read and discussed, after which a delicious course of sandwiches, fruit salad, pickles and coffee was served. The next meeting to be with Mrs. W. M. Cogdell, Nov. 25.

Santa Fe Water Tower.
The large capacity steel water tower being erected in the yards of the Santa Fe is nearing completion. A large force of men are at work and the ring of the hammers gives a welcome sound to those who like to see improvement going forward.

Married.

A quiet wedding was celebrated at the home of the bride's mother on Friday, November 7, when Miss Iva Biggs was married to Mr. Fred Saltzman, Rev. Purser of the Baptist church officiating. The new couple have the congratulations of their friends. They will live on a ranch in this county.

Private School Opens.

The private school under the tutorship of Prof. Fred Baird opened last Monday morning with a goodly attendance. A number of the patrons of the school were present. The course of study includes only the ninth and tenth grades, but courses in commercial branches are also offered. The school occupies the building next to McGhee's photograph gallery. The students put this in good condition before the first day and since have cleaned off the plot of ground adjacent and have erected goals for basket ball games.

Mr. and Mrs. Darnell will ship their household goods to Wichita Falls, where he has a responsible position with one of the largest dry goods establishments in that city. He has been "on his job" for two weeks, but Mrs. Darnell will not leave before Sunday or Monday. The Brand regrets to have these good people leave Hereford, but wishes for them success and contentment in their new home.

When milking time came at the demonstration train, one of Hereford's brightest high school girls asked the simplest question ever: She watched the white groomed young man for a minute extracting the lactical fluid from the bovine and remarked innocently: "How do you turn it off when you get all the milk you wish for supper?"

SECOND WEEK DISTRICT COURT

Number of Important Cases Disposed of—Grand Jury Takes Recess till Monday, Nov. 17.

The Criminal Docket having been set for Monday of the second week the court called that docket Monday morning, at which time all criminal cases were continued for the term except the State of Texas vs. B. T. Bell, Jr., who was charged with disposing of mortgaged property, and after the testimony had been introduced for the state the jury was instructed by the court at the suggestion of the district attorney that a verdict of "Not Guilty" should be returned, which was accordingly done. The following civil cases have been disposed of since last week's issue of the Brand.

Florence B. Miller vs U. T. Miller, suit for partition. Judgment by default for partition as prayed for by plaintiff.

J. L. Van Natta vs F. W. Jersig, suit for injunction. Dismissed at plaintiff's cost.

W. P. Barton vs H. B. Sites, suit on note and foreclosure of chattel mortgage. Dismissed by agreement of parties.

Henry Hicks vs W. O'Brien, suit for debt. Trial by jury and verdict returned Monday afternoon in favor of plaintiff for \$950.65 and in favor of defendant on his cross-action for \$488.43.

L. T. Lester vs First National Bank of Hereford et al, suit for debt. On trial.

The grand jury which took a recess last week will reconvene next Monday, November 17th.

The following out of town attorneys are in attendance on court this week: W. Boyce, A. S. Rollins and R. E. Underwood of Amarillo, and Geo. W. Barcus of Weatherford.

It is the purpose of the Texas Presbyterians to raise \$325,000 in the state and then to secure an additional sum to make \$500,000 from some of the educational foundation funds. Hereford has subscribed about \$1,000 to this fund and it is certain that more than that amount will be secured.

One of the finest and prettiest coops of chickens in the Santa Fe Educational Train was that belonging to H. L. Broadwell of this city. They were White Orpingtons and the owner is to be congratulated upon the good showing they made.

GREATEST HORSE SHOW.

More Than \$8,000 in Prizes Are Offered in Classes at Fort Worth Show.

Embracing a total list of more than \$8,000 in prizes and offering special attractions that are expected to draw the most representative exhibitors of Missouri and Kentucky, the National Feeders and Breeders' show has announced its official prize list for its night Horse Show, which will be held five nights during the big fall event, November 22 to 29.

The most magnificent offer that has ever been made in saddle-horse events in any of the recognized Horse Shows of America is being made in the "Horse Show Classics." This event is for five-gaited saddle horses and already the very flower of the best animals of the land are being entered. A prize of \$1,000 is being hung up in this division. The classic will last only fifteen minutes and is expected to be the most brilliant spectacle of the kind ever witnessed in a Horse Show in the Southwest.

But this is only one of the many attractions of the great Horse Show, which will be more comprehensive and beautiful than ever before. Greater prizes will be offered in the classes for roadsters, harness horses, both single and pairs, tandems, hunters and jumpers, ladies' classes and many other divisions. With the coming of the best stables of Kentucky and Missouri, not only saddle horse excellence, but the best in harness horses will be seen. Practically all of the veteran exhibitors have already entered, but stables that have seldom been seen this side of the Mississippi will cross Red River this time.

The hunters and jumpers' classes will be more elaborate than ever before, and several military posts are expected to send teams. These will struggle heroically for the honors. Push ball, polo and a number of other thrilling features of a like nature are expected to characterize the Horse Shows.

Some of the very best judges in the country will officiate in the Horse Show, men who have tied the ribbons in many others of the best shows of the land.

Texas exhibitors are making their entries rapidly, confident that increased classes of competition will not prevent them from securing their share of the awards.

Off to Conference.

Rev. J. H. Henson, pastor of the Methodist church, is attending Conference this week at Vernon. From reports a large and enthusiastic meeting is being held and the appointments for the long list of preachers is awaited with interest.

J. H. Copeland and family of Clarendon, Texas, are planning to return to Hereford about the first of the year. He will lease the Estes farm south of town.

EASY RELIEF

FROM CONSTIPATION

The Remedy That Replaces Calomel—Causes No Restriction of Habit or Diet.

It is a mistake to take calomel when your liver is lazy and needs toning up. Hundreds of people in this section have discovered that Dodson's Liver Tone is a thousand times better and safer and its action is just as sure. There are none of the bad after-effects of calomel to Dodson's Liver Tone and no danger of salivation.

For attacks of constipation or biliousness one or two spoonfuls of this mild, pleasant tasting, vegetable liquid are enough and Betts-Clark gives a personal guarantee that every bottle will do all that is claimed for it. Money back in any case where it fails.

Dodson's Liver Tone costs only 50 cents for a large bottle. Remember the name because there are any number of remedies sold in imitation of Dodson's claims. Some of them have names very similar to Dodson's Liver Tone—and are in same color package. These imitations are not guaranteed and may be very harmful. Go to Betts-Clark and you will surely get the genuine.

Buys Morgan Farm; Will Make Improvements.

E. W. Morgan and Marlin Putty have sold their farm located some 9 miles northeast of Hereford to Chas. E. Harding of Chicago for the sum of \$30,550.00. This makes Mr. Harding the owner of some 35 sections of land near Hereford and gives him two irrigation wells. A greater part of his land is known as the Green Valley Ranch upon which the McDonald Company recently finished a fine well for irrigation purposes. The Morgan-Putty farm is fairly well improved and has one of the largest wells. Mr. Harding will, at once, put the entire section under a high state of cultivation by irrigation. The old houses and barns will be remodeled, two or three new farm bungalows will be built at different quarters on the farm and probably another well installed. Driveways, bordered by a double row of fast growing trees, will divide the sections into quarters; in fact, this farm is to be made a model for the Hereford country. Mr. Morgan, who with his family came here some two years ago, will remain in the county and purchase and improve another irrigation farm.

Rev. Dean Resigns Pastorate.

Tulia Herald.—At the prayer meeting service at the Baptist church Wednesday evening, Rev. O. W. Dean tendered his resignation as pastor of the church, to take effect at the conclusion of the services on the fourth Sunday. He and family will then leave for their new home in Seymour where Mr. Dean will serve, having been called to the pastorate of that church. Rev. Dean has been here some eighteen months, but in that short time he has endeared himself with the people, and many are the expressions of regret that he and his estimable family are to leave.

MANY NEW CLASSES.

Grass and Feeder Cattle and Jerseys Will Have Inauguration at Fort Worth Show From November 22 to 25.

Every livestock producer in Texas will find something to interest him at the National Feeders and Breeders Show, which will be held in Fort Worth November 22 to 29. Beginning on a comparatively small scale some eighteen years ago, the show has grown rapidly until today it is representative of every class and type of livestock that is produced in Texas.

More improvements have been made within the past year than ever before in its history. Many classes in all divisions have been added.

Prominent among the new classes are those for grass and feeder cattle. In previous years, the National Feeders and Breeders Show has specialized on fat cattle—the marketable kind—but it has been brought to the realization that the other classes had a right to substantial recognition. During the past two years, Fort Worth has leaped into prominence as the second greatest feeder market in the world. These added classes are expected to bring a host of new exhibitors and feeder buyers from all over the Southwest—in fact, the entire country—are being apprised of the exhibit and are expected to flock to Fort Worth by the hundreds during the show.

Realizing the growing importance of the Jersey industry in the Southwest—particularly in Texas—the management of the show has created classes for this kind of cattle this fall for the first time. Already, a number of entries have been received and it is expected that the exhibit will be the finest in the Jersey line ever witnessed in Texas. The Laster prize-winning herd, which has swept like wildfire through the shows of the North, will exhibit at Fort Worth alone of the big Texas shows this fall.

More than \$17,000 in prizes will be awarded at the great livestock exposition this fall, to say nothing of a prize list of more than \$8,000, which will be offered in the night Horse Show. This is the largest premium list yet issued and the exhibitors throughout the State are showing their appreciation by sending in their entries earlier than ever before. Despite the fact that the change of date from spring to fall will interfere at first with the bill sales of the producer, the step has met with almost unqualified approval.

Mr. Herbst Takes a Wife.

Friends in Hereford are in receipt of invitations to the marriage of Miss Berenice Taylor to Mr. Albert Frederick Herbst at Lampasas, Texas, the home of the bride, the event to be celebrated Wednesday evening, November 26, 8 o'clock. The couple will make their home at San Bonito, Texas. This is a most agreeable surprise to Mr. Herbst's large circle of friends in this city and they join with the Brand in their hearty congratulations upon this happy occasion.

COD LIVER OIL AND IRON

Two Most World-Famed Tonics Combined in Vinol.

Cod Liver oil and Iron have proved to be the two most successful tonics the world has ever known—iron for the blood and the medicinal curative elements of cod liver oil as a strength and tissue builder for body and nerves, and for the successful treatment of throat and lung troubles.

Two eminent French chemists discovered a method of separating the curative medicinal elements of the cod's livers from the oil or grease which is thrown away, but to these medicinal elements tonic iron is now added, thus combining in Vinol the two most world famed tonics.

As a body-builder and strength creator for weak, run-down people, for feeble old people, delicate children, to restore strength after sickness; and for chronic coughs, colds, bronchitis or pulmonary troubles we ask you to try Vinol with the understanding that your money will be returned if it does not help you.

It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill."

I wish every suffering woman would give

CARDUI

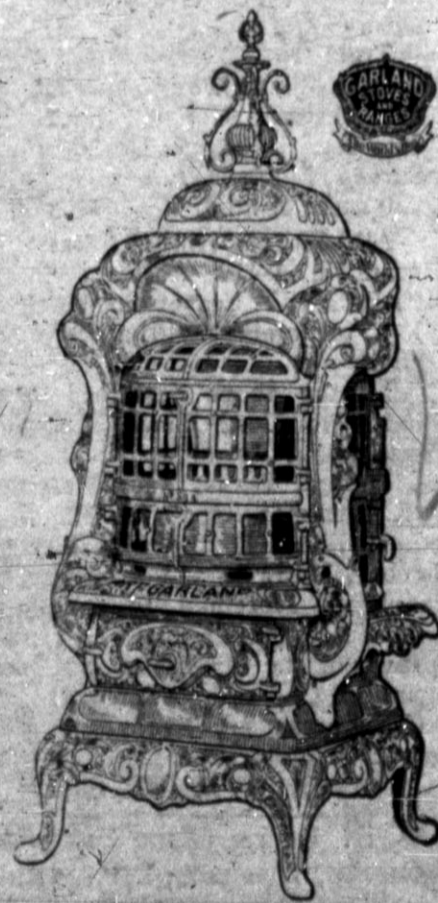

The Woman's Tonic

a trial. I still use Cardui when I feel a little bad, and it always does me good."

Headache, backache, side ache, nervousness, tired, worn-out feelings, etc., are sure signs of womanly trouble. Signs that you need Cardui, the woman's tonic. You cannot make a mistake in trying Cardui for your trouble. It has been helping weak, ailing women for more than fifty years.

BRAND PUBLISHING CO.

Entered April 17, 1901, in the postoffice at Hereford, Texas, as Second-class mail matter. First number of the paper issued February 23, 1901, as the Hereford Reporter; first number of The Brand issued March 21, 1902.

Subscription Price \$1.00 Per Year,
Strictly in Advance

Any erroneous statement affecting the character or reputation of any individual or firm which may appear in The Brand, will be gladly corrected upon being brought to the attention of the publishers.

All reading matter appearing in The Brand marked "A" or "B" with figures prefixed or "ads." is paid advertising.

WHAT is a Democrat? What is a progressive Democrat? What is a prohibition Democrat? What is an anti prohibition Democrat? What is a prohibition progressive Democrat? What is an anti prohibition progressive Democrat? Texas has all these and then some more. Take your choice. No attempt is made to answer all these questions.

The Brand is in receipt of the initial copy of The Portales Valley News, J. E. Henderson, editor and proprietor. Mr. Henderson, more familiarly known at Hereford by his many friends as Eagle, has been "raised up" in a print shop and his adventure as head of a newspaper is looked upon as a decided promotion. The Brand joins with the rest in wishing for this young editor that deserving success which must come to him who stickstuit.

WHO WILL PAY INCOME TAX.

It has been asked if Hereford will enjoy the distinction of having a person who will pay an income tax. It is hoped. In order to enjoy this honor, the income must reach as much as \$3,000 per year for a single person and \$4,000 for a married man. This places a premium on marriages and should encourage some of the Hereford men bachelors to find for themselves a wife in order to escape the tax on that extra thousand. It must be understood that no tax is payable if the income simply touches the figures set, but the tax will be due only on such amount above. Thus if a single man's annual income should be \$4,000, he will pay a small tax rate on the extra \$1,000.

A POLITICAL PREDICAMENT.

If the prohibition Democrats hold county conventions and a state convention for the purpose of "eliminating" candidates and by these acts "eliminate" a lot of other Democrats who are not willing to make prohibition a state-wide political issue, will not they constitute for themselves a new political party?

What is a political party? A political party is an organization having a recognized head with duly elected committees and the machinery of precinct, county and state conventions.

This being an accepted definition, these "elimination" conventions will certainly produce a new and separate party from the regularly organized and recognized Democratic party of Texas. Having then self-eliminated themselves from the Democratic party, would the selected candidate for governor have any rights before the state Democratic committee when it meets to arrange for the regular and legal primaries? Suppose that the Democratic state executive committee should say to the elimination candidate: "No, you cannot get on our primary ticket." Each party under the law has a right

to hold its nominating primaries and as you have been nominated on a previous ticket and by different methods, we cannot permit your name to be placed on the regular Democratic primary ticket. This WOULD be a political predicament. In that event, those who did not "enter" the elimination primaries would have complete control of the primaries, conventions and "machinery" of the regular Democratic party of Texas. Will some political student or member of the Bench Congress crack this political nut?

The Texas Sheep

The sheep is the greatest politician of all animals. He has entered every campaign since the beginning of government and in a number of elections his fleece has been the paramount issue. Sheep have been mentioned in the platform of every political party and wool has been listed in the tariff schedules of every nation on the globe. As a statesman he has pretty well held his own and although occasionally beaten at the polls and ejected from legislative halls, his friends invariably resubmit the issue, and today his fleece is protected by a tariff of 11 cents per pound.

1910 VALUE PER HEAD \$2.90.

He is the most economical of all animals; his flesh is the purest of foods and has always been an acceptable sacrifice to the gods; his fleece makes the finest of garments and has clothed mankind since the creation of the world. He is a very prolific animal and while furnishing food and clothing rapidly replenishes his kind. He is the only animal that possesses three natural and unfailing sources of revenue—food, clothing and reproduction—and he has so successfully managed these gigantic lines of industry since the beginning of time that today he is a captain of industry among the animals.

The sheep is the only animal that has been humiliated by being compelled to compete with vegetable fibres on the markets, but notwithstanding the progress of his powerful rival, King Cotton, he has held his own and today he is worth more on the market than at any time during the past half a century and his fleece is the yard-stick for computing values of all vegetable fibres, and King Cotton must get prices from the sheep before entering the market.

According to the Federal agricultural department census report on Jan. 1, 1910, we had 1,000,000 head of sheep and the latest estimate placed upon them is \$5,586,000. During the past decade we have shown an increase in number of sheep of half a million head in total value of approximately \$2,500,000.

Texas is the home of the sheep and the mountain regions afford cheap grazing and the mild climate is well adapted to sheep raising and wool growing.

I have from 900 to 1,200 nice, young sheep to put out on shares. Harvey Cash, Dimmitt, Tex. 36tf

CLASH OF FEEDS.

Fort Worth Show, November 22 to 29, Will Be Virtual Education to Producers.

A significant clash of "feeds as well as breeds" will be witnessed in the magnificent hog exhibits that will be made in the National Feeders and Breeders' Show, which will be held at Fort Worth November 22 to 29.

Hog producers throughout Texas and Oklahoma have been forwarding entries in great numbers and it is learned that the hogs that will be on display have been fattened on a variety of feeds—principally kaffir corn, milo maize, Indian corn and peanuts. The supremacy of corn as a feed for hogs will be questioned and feeders and breeders are awaiting with interest the decisions of the judges. From the Panhandle is coming the hog that has never eaten a grain of corn in its life, but is sleek and well-finished on kaffir corn and milo maize. From other sections of the State will come hogs that roamed at will through acres of peanuts and have attained the "battleship" state. And the corn-fed variety, pampered with the "golden" grains, will be on hand to defend the title he has held so long. It is expected that the latter will not have altogether easy going.

The awards in the hog department will be more liberal than ever before and a number of new classes have been added. Entries have already been received in great number. Producer, big and little, will meet in competition.

The grass-fatted sheep of South west Texas, that section which has been in such a flourishing condition this year, will compete with its more pampered relatives that have been nurtured and carefully fed on the stock farms of North Texas. This will be the first time that South-west Texas sheep have been entered in the show, but the producers, who have raised the standards of their breeds greatly within the past few years, anticipate carrying off many prizes. Additional classes and more prizes have been added in the sheep division. For the first time, Oxford Downs and Rambouillets will be given recognition. All of the standard breeds will be represented in the magnificent exhibit. The foremost breeders in the State have already entered and the small farmer is showing greater interest than ever before.

Avoid Sedative Cough Medicines.
If you want to contribute directly to the occurrence of capillary-bronchitis and pneumonia, use cough medicines that contain codeine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. It cleans out the culture beds or breeding places for the germs of pneumonia and other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world wide reputation for its cures. It contains no morphine or other sedative. For sale by all dealers.—Advertisement.

Irrigation Well at Kress,

Tulia Herald.—The gratifying intelligence come from the Kress section that the irrigation well of D. W. McGlassen, which was put down on his farm near the old post office of Wright, is a success, and that upon being tested last Saturday, a flow of 1,000 gallons per minute was secured. This was the initial trial. The average depth of water in this section is only 50 feet; and the second stratum was reached at a depth of 200 feet, but the drilling continued to a depth of 270 feet to ascertain the depth of the water bearing sands. Our informant said that when properly completed it is expected that the flow will be greatly increased, probably to form 1,500 to 2,000 gallons or more. This is the first success in this work in this county, and is first of the many which will follow.

Gentlemen:

"Your Time is Out."

So many subscribers write to the
Brand when renewing their subscrip-
tions that they do not want to miss a
single copy of the paper, that the
management adopted, nearly two
years ago, the method of notifying
subscribers when their time was out.
One notice is sent and then, if no re-
mittance is received in a reasonable
time, the expired names are dropped
from the list. The management re-
grets to do this, but it is a matter of
business importance. So if you get
a notice any time this month, it
would be well for you to renew your
subscription at once, as no back
numbers can be supplied. The
notice is headed, "Your Time Is

be found the Yellow Label which has
the date to which you have paid your
subscription. If there be an error
in the date, "kick," but kick as
politely as you can and call the at-
tention of the management to the
error; it will be corrected gladly.

Irrigation Near Dimmitt.

Dimmitt, the county seat of Castro
county, is all worked up over the
success of the test well recently put
down on the Davis section 2½ miles
northeast of that place. Water was
"struck" at 118 feet and the loca-
tion of the well is thought to be the
highest point in that section of the
shallow water. The drillers contin-
ued 100 feet below the water level
and said that they found an abun-
dance of water the full depth, thus
assuring an ample water supply for
an irrigation well. Mr. Davis,
whose home is in Nebraska, has let
a contract for a 26 inch well, and
will get ready to irrigate a part of
the section next year. He is much
pleased with the test and the pros-
pects. This makes the third well
for Castro county. One on the Flag
Ranch in the extreme southwest
corner of the county, one on the Ricketts
farm, recently bought by the Smiths
from Kansas, and the last, the Davis
well on Section 4, League 2, Delta
county school land.

A Marvelous Escape.

"My little boy had a marvelous escape,"
writes P. E. Bastians of Prince Albert, Cape
of Good Hope. "It occurred in the middle
of the night. He got a very severe attack
of croup. As luck would have it, I had a
large bottle of Chamberlain's Cough Rem-
edy in the house. After following the di-
rections for an hour and twenty minutes he
was through all danger." Sold by all deal-
ers.—Advertisement.

After I renewed my subscription
on the Brand, I always get two
Papers, you made a mistake in my
name, made it Leeman, and it should
be Seemann, we German write the
L and S a good deal alike. I am
sorry that this thing did happen,
think you will straighten this out
as it is no use sending two Papers.

Yours respectfully,

reasons, thusly about subscriptions:
When a person pays for a year's
subscription, he makes a contract
for one year only and is under no
obligation whatever to pay for the
paper for another year if the pub-
lisher continues to send the paper to
him. However, the post office de-
partment has ruled that if a person
takes a paper from the office after
the expiration of his subscription, he
becomes liable for the time he so
takes the paper. The Brand thinks
this contrary to good business prin-
ciples and should not be used by
newspapers. Therefore, the man-
agement does not want anyone to
feel under any obligations to pay
for any "overtime" they should re-
ceive the Brand, but if you should
be summarily cut off the list after
"your time is out," do not feel, in
the least way, censured or put out.
Several, however, have spoken to
the management to continue sending
them a paper, and in such cases, the
obligation to pay for back subscrip-
tion is just as obligatory as any
other honest debt. 41-3t

The Remington-UMC
Autoloading always ready

**REMINGTON
UMC**

**AUTOLOADING
SHOTGUNS**

ANY way you look at it, the Autoloader is the
highest development in modern shotgun
design. It puts five loads at your disposal by
merely pressing the trigger. It puts the recoil to useful
work—to eject the empty and slip in the fresh shell.
It saves the gunner's shoulder—rids his sport of
annoyances—increases his shooting average.

Your danger is that in your enthusiasm over the
autoloading principle, you may forget to insist on
getting the finest embodiment of that principle—the
Remington-UMC Autoloading Shotgun.

The peculiar advantages of the Remington-UMC are too
many to detail here. What you want to do is to get one
of the Remington-UMC dealers in this section to demon-
strate them to you on the gun itself.

H. C. MYRICK

The stock industry of the county is fairly well represented. Horses and mules, together 2,697, were put down at \$139,410; range cattle, 19,809, at \$463,070. This seems a small number. Jacks and jennettes, 43, at \$4,320; only 397 hogs, at \$1,960. Sheep, 37,077 in number were valued at \$68,640, while 5 dogs in the county got on the list at \$20. The vehicles and autos number 489 and call for a value of \$23,720. A lot of other things which are taxable are put down as follows: Merchandise, \$101,640; machinery, \$23,500; steam engines, \$17,960; miscellaneous property, \$15,300; money on hand, \$14,760; notes and bonds, \$50,470. The county has only 24 1/2 miles of the Santa Fe railroad, valued at \$164,740; rolling stock proportion at \$27,502; and the intangible assets at \$130,553. Telegraph lines 22 miles, \$1,307. The banks are assessed at \$150,000. The total assessed valuation is \$5,992,272, from which \$65,351 will be raised for the following purposes: State tax, ad valorem, \$13,782; state school, \$10,186; Confederate pensions, \$2,995; county ad valorem, \$7,490; county special, \$23,969; district schools, \$6,276.

"OCEANS OF WATER."

NATURE'S GIFT FROM THE SUNNY SOUTH FINDS A READY WELCOME IN THE TEXAS HOME.

Vegetation from West Texas Compounded Into Famous Remedy.

Nature in all its glory has given to Texas a national reputation that will live throughout the ages and cement the affections of man for all that is pure and beautiful in life. It has placed Texas in the front rank as a crop producing state and we could supply the world with food for a period of thirty days. Texas is the garden spot of America. We produce more cotton than any other two states in the Union. Our grainaries are filled with cereals from the Texas farms. Our fruits decorate the tables of the nations, while the products of our forests play a prominent part in the construction of empires. To build and progress should be the ambition of man, but to preserve what we have is far more important. The rich juice of the Texas vegetables does both. It builds clear, pure blood and preserves the corpuscles of rich fluid that surges through our veins, combating disease and fortifying against the ravages of pestilence. When compounded properly it becomes an elixir of life and is a great aid to increasing the population by prolonging life. The correct blend has been discovered in RENALT REMEDY, which for years has been a staple medicine in the home of the Texas farmer and ranchman. It is a medical compound made from the vegetation of Texas and is an excellent remedy for all bodily ills. It contains the elements that lend themselves readily to administering quick relief to disorders of the kidneys. Liver, bladder, blood and stomach, are strengthened and built up through personal contact with RENALT. It has a pleasing taste and leaves no after effect.

In speaking of RENALT, A. C. Chase, Master Mechanic, Stock Yards Company, Fort Worth, said: "I have used RENALT as put up by the Ferrel-Saunders Company and cheerfully recommend it to sufferers from Kidney and Stomach troubles. As a sufferer for years RENALT was recommended to me and has done more good than any or all of the doctors and other remedies tried."

If your druggist cannot supply you accept no substitute, but send us \$1.00 in stamps, postoffice order or express order and full size bottle will be sent you prepaid. FERREL-SAUNDERS CO., Fort Worth, Texas.

Hereford to be on New Auto Highway.

The logging of a new borderland auto highway from Amarillo to Albuquerque, at which point connection is made with the Ocean to Ocean highway, will start from Albuquerque on Monday, Nov. 17. The proposed line will run from there to Santa Rosa, House, Clovis and will then follow the Santa Fe Ry from Clovis through Hereford to Amarillo, where connection is made with the Colorado to Gulf highway. This is a short cut, and, during the the World's Fair at San Francisco in 1915, thousands of autos will use this cut off. Marcus Dods of the blue book company will be with the party, and this new route, if adopted, will appear in the new blue book, which goes to press in a few weeks. A meeting of the citizens here will be called to meet the party on their

arrival and perfect an organization which will see to it that the road is put in order and properly dragged after each rain from Summerfield on our west county line to near Umbarger on our east county line.

Information About the County.

The following information taken from the assessor's rolls should be of considerable interest to the tax payers of the county:

Seventy five per cent of the land in Deaf Smith county is owned by non-residents, they holding title to 710,069 acres valued at \$42,848,220. Residents were assessed for 231,559 acres valued at \$1,030,550, and 3,702 acres have unknown owners. The non-resident owners are assessed on an average of \$4 per acre while the local people pay tax on \$5 per acre. This does not include the town of Hereford assessments, but farm and pasture lands only.

School Notes.

Third Grade.—Jake Williams has reentered school.

The third grade pupils have a program each Friday afternoon and would be pleased to have visitors.

Fourth Grade.—Guy Gilliland, who has just recovered from typhoid fever, has started to school.

Sixth Grade.—The girls of the sixth grade with some from the seventh have organized a basketball team.

Seventh Grade.—Sallie Matthews has just returned from New Mexico and entered school.

The members of the seventh grade have subscribed for Current Events, and each Friday in their afternoon exercises topics from this are discussed.

High School.—Every one is better pleased with their grades this month than they were last.

The Junior Latin class created quite a sensation Monday by having a vocabulary match.

The boys' basketball team will play the Clovis team Friday, Nov. 14.

The eighth grade basketball team will play Friona Saturday, Nov. 15.

The basketball girls were defeated by small majority in the game at Canyon Saturday evening at 8:30, but the girls "put up" a good game and made some excellent throws. This leaves an even standing between the two teams, Hereford having won once and Canyon once. Another game will be played soon between the two on Hereford court.

HORSE SHOW PAGEANT.

Oriental Splendor Will Meet Occidental Fashion at Fort Worth Show.

Oriental pomp and splendor will meet with Occidental fashion in the gorgeous ceremonies that surround the coronation of the Queen of the Horse Show Pageant, which will feature the opening night of the National Feeders and Breeders' Show, which will be held at Fort Worth November 22 to 29.

Following the beautiful custom inaugurated at last spring's show, which caused the opening night to be a State-wide society event, unparalleled in brilliance, the management of the National Feeders and Breeders' Show is going to even greater expense this fall to make the event one long to be remembered in Texas society circles.

The magnificent spectacle of coronation, which is being arranged by a committee of Fort Worth society women, will have to do with the reception of ten Oriental queens and their retinues, garbed in the exact costumes of the different Eastern courts, before the Queen of the Horse Show pageant, her maids of honor, princesses of the realm and loyal retainers. For color, no Oriental bazaar will outstrip it; for fashion of the present day, the women of Texas need not go to cities afar.

More than fifty beautiful princesses, representing an equal number of cities throughout Texas, will visit the show and be members of the royal party. A round of social entertainment, more brilliant than ever before, has been arranged. These princesses will come from representative families in the different cities and will be symbolical of the manner in which the National Feeders and Breeders' Show represents the State.

The Queen of the Horse Show pageant will be a Fort Worth girl, whose identity will be a guarded secret until the night of the coronation, when her royal chariot, surrounded by gallant retainers, will be drawn into the vast Coliseum building. She will be accompanied by her maids of honor, who will be debutantes of the present season.

The management of the show promises an unrivaled spectacle, in which more than 300 people will take part and it is certain that the event is one that will be long remembered in State society circles. The Coliseum will be bedecked in appropriate fall colors.
