NUMBER 12

WAR CLOUDS FROM MEXICO

Bulletins Indicate Serious Trouble Brewing Between the United States and Mexico. Huerta Government Takes Defiant Stand.

The war bulletins received at this office during the week, indicate that serious trouble is likely to occur between the United States and Mexico on account of the insult offered Old Glory and the refusal of the Huerta government to make proper amends.

Two short engagements have been fought at Vera Cruz in which 12 Americans have been killed and a number wounded.

The following bulletins posted by the Brand from day to day furnished the first news of the outbreak in Old Mexico to the people of Hereford:

Monday, 11 a. m. (Special to the Brand).—Reported in Washington that a new proposal had been received from Huerta. Bryan left cabinet meeting and later announced that the report was not a fact, and that the "situation" in Mexico remained unchanged and that Huerta had not saluted Old Glory.

Monday, 5:30 p. m. (Special to the Brand).—Pres. Wilson delivered a special message to the Congress at 3 p. m. Resolution was immediately introduced to the House endorsing the action of the President. The House voted by large majority to sustain the executive. War department has ordered all American women and children to go aboard friendly ships at Vera Cruz and Tampico. Chamberlain of Oregon introduces bill appropriating fifty million dollars for the mobilization of troops and to establish blockade of Mexican ports.

Tuesday, 8:15 a. m. (Special to the Brand).—Senate at a night session held up House Resolution ordering blockade of Mexican ports to await further investigation. Objection was raised because the name of Huerta was in the House Resolution, which members of the Senate declare would have been a recognition of the Huerta government. It is thought the Senate will eliminate the name of Huerta, who has not yet saluted Old Glory.

Tuesday, 4:55 p. m. (Special to the Brand).—Washington, D. C.—Orders have been issued to Admiral Fletcher to seize custom house at Vera Cruz and to demand surrender of the city. Two Mexican Federal officers under a flag of truce are reported to have consulted with rebel officers at Loredo to effect a coalition of forces in the event of an invasion of Mexico by Americans. Special from Mexico City says that quiet exists in that city. (5:00 p. m.) It has been reported from Washington that Vera Cruz has fallen into the hands of the Americans after a short, hot fight with Federal soldiers. Congress has not declared war. Huerta has not saluted Old Glory.

Wednesday, 9:45 a. m. (Special to the Brand).—Marines landed at Vera Cruz late Tuesday evening and were fired upon by Mexican soldiers from house tops and old light house. Four Americans were killed and 20 wounded. The Americans returned the fire resulted in reported killed

200 Mexicans. Mexican sharpshooters stationed in the old light house were fired upon with 3-inch guns on the Florida. Five shots from the unerring marksmanship of the American gunners demolished the structure. (10:00 a. m.) Special from Washington to the Daily News, Amarillo, states that Mexican Charge de Affairs Algera at Washington had been requested by Huerta to ask for passports from Secretary Bryan and that Huerta had asked the United States to withdraw Nelson O'Shaughnessy from the Mexican capital. Atlantic fleets near scene of action. Hurry-up preparations being made for mobilization of troops at Atlantic and Gulf ports. Huerta has not saluted Old Glory.

Wednesday, 1:30 p. m. (Special to the Brand).—American forces in complete control of Vera Cruz. The American Consul reports that no non-combatants had been killed and that fighting had ceased except an occasional shot from the pickets. Atlantic fleet is making blockade at Tampico and Vera Cruz.

Thursday, 8:40 a. m. (Special to the Brand).—Carranza resents taking of Vera Cruz and demands that the U. S. evacuate that city. He says if the Americans wants reparation for the insult offered to the American flag, a demand should be made of him as Constitutional President of Mexico. O'Shaughnessy has been issued passports which Washington officials think means a declaration of war by Huerta.

In a second engagement at Vera Cruz yesterday 8 Americans were killed and 30 wounded, making a total of 12 fatalities. It is estimated that 150 Mexicans were killed.

Washington dispatches state that the President has been given full power, but Congress has not declared war. The Senate has passed the House Resolution with the name of Huerta omitted.

The report that became current Wednesday night that O'Shaughnessy had been killed and that the Mexicans had attacked El Paso are untrue.

Huerta has not saluted Old Glory. Thursday, 4:45 p. m. (Special to the Brand).—United States Marines captured the Mexicans breastworks 3 miles from Vera Cruz in a short engagement this morning. A message from Recruiting Officer Ben Golding at Plainview states that he has been instructed to report by wire Saturday night the war strength of the company of National Guards at Plainview.

Friday, 3:50 p. m. (Special to the Brand by the Daily News of Amarillo and Associated Press).—Secy. Bryan has authorized all Consuls to leave Mexico. Telephone message from Loredo, Texas, states that the Mexican Federals are attacking that city. (Special from Mexico City).—Mobs trample Stars and Stripes in streets of this city today and threaten to kill all Americans. Great excitement prevails. Huerta has not saluted Old Glory.

Scotty Buckner and Miss Jennie Carter, W. S. Fullwood and Miss Essie Smith made a trip to Clovis last Sunday to attend church, going over on the boys' motorcycles. It required two hours in going and only one and half hours in returning. There is no use to stay away from church these days with the present rapid modes of transportation.

Baby Beef Sells at Good Figure.

The shipment of kaffir fed baby beef from the Hillcrest Farm, mention of which was made last week, brought the top of the market in Kansas City this week, \$3.15 being the price. A shipment of finished grown steers was the only stuff on the market that brought a higher price, \$3.25. Mr. Edwards, the owner, feeder and shipper, was well pleased with the way the stuff held up. "The calves shipt fine," he said, "better than any one expected."

Hardeman's Big Wheat Crop.

There are nearly sixty thousand acres planted in wheat in Hardeman this year, by far the largest crop ever sowed. This wheat has already more than paid for itself in the way of pasturage. And what our people are going to get out of it will all be velvet. From present crop prospects twenty bushels an acre will be a moderate expectation. Over one million bushels of wheat ought to bring a few extra dollars to this county.

High Percentage of Attendance at School.

According to the last monthly report of the Hereford public school, there were on the rolls 418 pupils, 207 boys and 211 girls. The average daily attendance was 391, which is 93 per cent.

Hereford Highs Lose Game.

In a game of lively base ball last Saturday afternoon at Amarillo, the Hereford high school team was defeated by Lowery-Phillips by a score of 8 to 7. Ten innings were played before the Hereford highs would give it up.

Eracts New Ice Vault.

Fallwell & Brumley are at work finishing up a new ice house and will have it ready in a few days.

S. J. Williams says the Brand has ignored him. The Brand acknowledges the corn. He made two trips to East Texas and Oklahoma looking for something to turn up and came back without the newsfakir knowing that he had even been out of town. Therefore, the Brand makes its best bow to the gentleman and admits that the newsfakir did not get the telegram, which accounts for the derelictness of the Brand. Mr. Williams says that the Panhandle is the greatest country on earth for climate and fresh air at various velocities.

W. T. Smith, Mr. and Mrs. Rowe, Mr. and Mrs. Walter Orr and Prof. Taylor were guests of C. P. Arthur in his car for a trip to Womble school house last Sunday where an all day service was held. Rev. Jenkins of Amarillo preached in the morning and a singing was held in the afternoon. Dinner was served and those who were there report a good time for every one.

Capt. J. W. English of this city and Mrs. Margaret Peden of Chicago were married at Amarillo last Wednesday evening, Rev. Robinson of the Methodist church officiating. They returned to Hereford yesterday and are now at home to their friends.

"A Southern Cinderella."

The play put on by the United Daughters of the Confederacy last Friday night and repeated Tuesday night was well patronized. The scene was laid in a southern home after the war and depicted that proud spirit of the old southern aristocracy. The different characters represented by local talent were fully up to expectation. The cast of characters follows: Madame Charteris, proud and unbending. Mrs. Pratt; Miss Rosie Winterberry, the angel of mercy, Miss Meda Woodburn; Miss Caroline Hawkes, Miss Mabel Betts; Miss Katherine Hawkes, Miss Belle Woodburn; Miss Johnnie Beele, Miss Jewell Buster, a girl with three bows; Enid Bellamy, the cast off of the Charteris family, Miss Louise Oberthier; Mammy Judy Johnson, a colored widow woman four times, "Miss" Ambrose Gibson. The specialties put on between the acts were pleasing to all present and there were some surprises in store. So when Capt. Wright appeared in the role of a fiddler and played the southern tunes including Dixie, the old Confeds present could not hold themselves from cheering. Mrs. Stephens in a sweet southern melody and a trio by Mesdames Stephens, Hawkins and Pratt were greatly enjoyed. The ladies are to be congratulated upon the success of the two events.

Auction Sales.

There is always something that you don't want when the other fellow would be glad to get it. Getting the seller and the buyer together is the only excuse for a broker or an auctioneer. In order to get the buyers and sellers together, the Brand has undertaken to solve the problem by having every two weeks an Auction Sale. Sherm Williams will do the "crying" and his friends are expected to shed the tears. He will mount the block and will undertake to sell anything that the people will bring in. These Auction Sales will be conducted on the First and Third Saturdays of each month. The next Sale will be on May 2. If you have anything that you want to dispose of by auction, bring it in. Horses, mules, cows, hogs, farm machinery, furniture, or any old thing. It is understood that these Sales will be conducted strictly on the "square;" no side bidding or going into cahoots.

Messrs. Terrell and Shirley of the Canyon Normal came over today with the base ball boys and to enjoy the game between the Normal team and the high school. Mr. Terrell says that the school is progressing despite the set-back on account of the fire. The summer term will open as usual and will be conducted in Canyon. A large number of prospective students have already made inquiry and it is expected an increased enrollment will be made.

Ed Hall and family of near Fort Scott, Kansas, has moved to Hereford to make their home. They will live at the Cullop farm east of town. Mr. Hall is a believer in fine stock and so brings with him a lot of thorough bred hogs and proposes to engage in swine breeding and raising on an extensive scale. The Brand extends to him and his family the open hand of the Plains.

Born—To Mr. and Mrs. Troy Womble, Tuesday, April 14, a boy.

POLITICAL PRESS POT

Bolled Down Political Juice; Newspaper Comments; Branding Irons Hot From the Fire.

Quannah Tribune Chief.—At one time we were willing to grant Champ Clark some claims to statesmanship, but are now willing to admit that we had greatly over-rated him. In his speeches of late he is betraying all the envy and petty spite of a small man. Recently he intimated that President Wilson was standing in with the railroads and Great Britain to rob this country. A few more absurdities like that, and Champ will have champed his last in public life.

Quannah Tribune Chief.—No big fellow can afford to be sensitive about the taunts offered him by an insignificant runt. But if the pygmy persists, before long he will get the spanking he deserves. That is unavoidable, and that is the situation of Uncle Sam and Huerta.

Lockney Beacon.—Occasionally, we receive a proposition from some little pimp-headed writer, wanting to furnish us syndicated editorials, local paragraphs, epigrams, etc., in exchange for our hard-earned cash. Such a proposition is an insult to the intelligence of an editor. The idea of a publisher buying his opinions a la parcels post is ridiculous. The writer that would use such stuff is not an honor to the profession.

Lockney Beacon.—There is some disposition to move the Canyon Normal school to some other town other than Canyon. This would not be fair as Canyon put up her money for the original building, and she was in no wise responsible for the fire. We think to move the school from Canyon would be an outrage and a prostitution of justice. Let the Normal be rebuilt, and let Canyon continue to enjoy the continuous location of the school as her just right. The people of West Texas will not approve of any attempt to remove this school, as its present location was won in a fair and honorable fight.

War Bulletins.

The Brand has maintained at no little expense a war bulletin this week for the benefit of the anxious public. These are placed on large sheets in the show window and crowds have stood around day and night to catch the first reports of the situation in Mexico. These bulletins are in advance from 2 to 12 hours of any information from the daily papers and some 24 hours in advance of any information from the Dallas and Fort Worth dailies. The first reliable information to be received at Hereford in the form of detail newspaper report is in the Daily News of Amarillo. This paper is snapped up quickly each morning when the train arrives here, and its service is appreciated by its Hereford patrons. The Brand is under obligations to the editor and manager of the Daily News in the matter of furnishing advance bulletins.

Miss Irene Carter of Amarillo is a guest in the home of her parents, Mr. and Mrs. Champe Carter, 310 Ross Avenue.

Six Large Mills Making Crown Silos!

And They are Shipped Direct from the Mills to Your Town. This Means No Middleman, Less Expense and Less cost to You

There are other good Silos and some poor ones; the Crown is Standard and the Leader, and the only Silo on the Market absolutely guaranteed not to collapse. If the other Silos are "just as good," why don't the manufacturers guarantee them in the same manner? There's a Reason.

The best merchants are careful buyers. Use the same good judgment in buying your silo that you would use in buying an auto and your silo will be a Crown, the Silo that gives perfect satisfaction.

"The Reason Why" THE FARMER'S STORY

I gave the subject of Silos a great deal of study before I decided to invest. You ask why? In my case it meant spending a good deal of money. I am feeding extensively and know that it would take at least three silos to cover my needs.

I made several trips, looking over the different kinds of silos, and after due consideration decided on the "Crown." I bought seven, erected four on my own place and resold the other three. I intend to put up two more later and they are going to be "Crowns."

Gentlemen: Your telegram received. Under separate cover I am mailing you a picture of some of our 1912 prize winners to be used in your catalog. They were fed all they could eat. We are raising pure-bred Percherons and can say that we have the best of success in feeding ensilage to our stallions, mares, and colts. They like it better than alfalfa. It is the only thing I ever saw that will take the place of June grass.

The Crown Silo kept our ensilage in the best of condition.

Yours truly,

W. S. BOLES

Big Money Maker

Yuma, Neb., June 3, 1913

To Whom it may concern: This is to certify that I purchased a 100-ton Silo over one year ago, and last winter I fed 38 head of cattle two and one-half months on silage and one ton of hay. I shipped my cattle to Omaha and made a profit of \$800.00. My profit was obtained by having cheap feed.

It took ten acres to fill my silo and I positively know that a Silo is the BIGGEST MONEY MAKER a farmer could have, and my advice to all farmers and stock feeders is, if you have not gotten a silo already, get one.

I also wish to state that the CROWN Silo is in a class by its self. The handiness of the door and the union of the staves need no words of praise, as they stand for themselves.

Yours truly,

Gentlemen: This is to advise you that I am satisfied with my Crown Silo and with the work Hanneman & Muggli put on it. I am sending you a sketch of it which you may use as an advertisement if you wish. We think we have the best Silo in the county,

Q.—What is the meaning of our Lord's statement to the Jews, "Your fathers Abraham, rejected to see my face, and he saw it and was glad?" (C. 8.)

Answer.—Abraham saw Christ's day with the eye of faith; believing the divine promise respecting Messiah. He may have seen His day of sacrifice, typified in the offering of Isaac his only son, but at all events he saw Messiah's coming glory-day, the longest for kingdom, and its blessings upon all the families of the earth through the promised Seed. And no wonder the prospect made him glad. He with the eye of faith beheld the heavenly city, the New Jerusalem, the glorified church, the kingdom, clear, and he beheld similarly the heavenly country—the world blessed by that kingdom. (Matthew 11:10; 16: 12-28; 19:14.)

Q.—Why should we believe there is a God? Does not the theory of evolution explain everything? (Eve.)

Answer.—None who deny the existence of an intelligent Creator claim that nature is the only God, and that from nature all forms of animal and vegetable developments proceeded without the ordering of intelligence, but governed, they say, by "the law of the survival of the fittest." In a process of evolution. This theory lacks proof for all about us we see that the various creatures are of fixed natures which do not evolve to higher natures, and though those who hold to this theory have made repeated endeavors, they have never succeeded either in blending different species or in producing a new fixed variety. No instance is known where one kind has changed to another kind. Even the transformation of the caterpillar into the butterfly is not an exception. Flying fish and singing frogs do not turn to birds, nor monkeys to men. On the contrary it is found impossible to blend the species. If unintelligent nature were the creator the process would continue. This theory we conclude is as contrary to human reason as to the Bible.

Q.—If it is true as stated in Acts 17:24 that God "dwelleth not in temples made with hands" how then do you explain Matthew 23:21—"Whoso shall swear by the temple, sweareth by it, and by Him that dwelleth therein?" (B. L. F.)

Answer.—Represented in the Shekinah glory in the Most Holy of the Temple and in the Most Holy of the Tabernacle, the Lord dwelt with Israel and His presence went thus with the typical people continually. This was God's dwelling place, but it was only a temporary, typical arrangement. In due time God began the erection of a spiritual temple. The typical temple was abandoned when He began the erection of the antitypical. The veil was rent, thus revealing that God had left this dwelling place—the Shekinah glory was gone. The change of dispensation was announced by Jesus saying, "Your house is left unto you desolate." From this time on the heavenly Father was represented in Christ and in the Church of Christ. Now "God dwelleth not in temples made with hands." We are not to think of God physically dwelling in the Tabernacle or the Temple, but rather that He was representatively present to His saints. His power and His wisdom. So during the coming dispensation God will dwell with men, will tabernacle with them representatively. Those who have His spirit at that time will represent Him. Still the heaven of the heavens is the residence of God personally, and merely in a figurative sense is He said to dwell anywhere in the earth.

Q.—Is it true that God has elected some of us to go to heaven and elected others to go to eternal torment? (C. 8.)

Answer.—Wonderful indeed are the present and future blessings of the elect, but while we are rejoicing in these privileges and hearkening to the Master's words, "Blessed are your eyes, for they see, and your ears, for they hear," we are definitely informed that our election and selection for these great honors and privileges of service are not arbitrary. We are admonished that God has established certain standards of fitness for those who aspire to this "high calling," this "heavenly calling." We are advised that there is a "mark," a standard by which we are all to be tested, and that only those who stand the tests will "make their calling and election sure" (2 Peter 1:10). All of this class, awake to their privilege, should seek with earnestness to know all that the Lord has declared respecting the terms and conditions upon which they will be counted "overcomers of the world," counted worthy to sit with their Lord in His throne and with Him to judge

POLITICAL Announcements

The Brand is authorized to announce the following as candidates for election to the respective offices, all subject to the Democratic primary and party:

H. F. MITCHELL
J. S. WYCHE
- COMMISSIONER PREC. NO. 1—
W. W. BENNETT
F. W. CURTIS
C. V. WALKER

The world—bring to the world the favorable opportunities of knowledge and obedience which will constitute its trial, test or judgment; "God has appointed a day in which to judge the world" (Acts 17:31). "Know ye not that the saints shall judge the world" (1 Corinthians 6:2). The only hope the candidate has of election is "To him that overcometh and keepeth my words unto the end," he shall reach the throne, an elect king (Revelation 2:26, 27; 3:21). Since there is no place of eternal torture of course none are elect to go there. If there were such a place, God is not a fiend that he should elect one to that dire fate.

MACON, GA., CHILD

Made Strong and Well by Vinol.
When we tell you that Vinol is the best remedy in our whole stock for making weak, puny, ailing children strong, robust and rosy we are only telling you what has been proved by hundreds of mothers.

J. L. Fleckling, Macon, Ga., says: "My child was very thin and delicate, no appetite, nervous, and did not sleep well. Doctors did not help her. Vinol was recommended and the change after a fair trial was wonderful. She sleeps soundly all night, has a splendid appetite and has gained in weight. I wish every mother knew what Vinol will do for delicate children."

What Vinol did for this little girl it will do for every weak and ailing child because sickly children need the strengthening cod liver elements and the tonic iron that Vinol contains—that is why Vinol builds them up quickly and gives them a fine, healthy color. It is pleasant to take and we guarantee that the results will satisfy you—money back if they do not.

P. S.—If you have Eczema try our Saxe Salve. We guarantee it.

Churches and Church Societies

Christian Endeavor Rally at First Christian Church.

The Christian Endeavor societies of Hereford, joined by representatives of the Endeavors of Friona, Spring Lake and Summerfield, held a rally in the First Christian church Sunday afternoon. Miss Addie Whitcomb, district superintendent, and two of her assistants, Miss Daisy Davidson and Mr. Humes, all of Amarillo, were in attendance. Much interest and enthusiasm marked the sessions which were largely attended. The party from Amarillo arrived on the ten o'clock train and attended the regular morning church services. At noon the visitors from out-of-town were entertained by the local societies with a spread in the First Christian church and at two o'clock the main session of the rally opened at the same place. Most of the time was spent in the discussion of questions which have puzzled the local societies, Miss Whitcomb solving the troublesome problems and delivering an interesting address on the general work of the society. When Miss Whitcomb and her party left for the train at two-thirty the meeting was left in charge of Mr. Brownlee of Friona and the session continued until four o'clock.

Club Organized.

Dr. and Mrs. Paris entertained a number of the young men of the First Christian church at their home Tuesday night. The object of the meeting was the organization of a club. The following officers were elected: Elmer Dameron, president; Herbert Wood, vice president; and Claude Ricketts, secretary. Rev. Paris, T. E. Shirley and Mr. Dameron made short talks and offered a number of valuable suggestions as to the purpose of the club. Light refreshments were served by Mrs. Paris after which they adjourned to meet in a couple of weeks at which time more of the details of the affair will be discussed. Those interested promise some pleasant social affairs for the young people at an early date.

The Brotherhood of Hereford.
The Daughters of the King, re-

cently organized by the ladies of Hereford, is a similar organization to the one maintained by the men and known as the Brotherhood of Hereford. The object of both organizations is to develop a high regard for each other, to raise the standard of life and to promote that Christian fellowship prayed for the Master. The men are meeting this month at the Presbyterian church, 3 p. m. each Sunday. All men are invited whether Christians or not. Prof. Ben Short will lead the next meeting.

The Daughters of the King.

The ladies of Hereford have organized under the name of "The Daughters of the King." They meet each Sunday afternoon at the Methodist church at 3 o'clock. All Christian women are considered "Daughters of the King" and they are invited to attend. The motto is: "Whatever we do, do all to the glory of God." Mrs. Roloson will lead the meeting next Sunday.

Men of the Disciples Organize.

Last June a number of men, members of the Disciples of Christ, met at Fort Worth and started a move for the mutual helpfulness of the men of that church. The next meeting will be held in Gainesville, May 12, and in connection with the Texas Christian Missionary Convention, at which time definite plans will be made. R. A. Long of Kansas City, laymen leader of the Disciples of United States and who has recently subscribed one million dollars for the Men-and-Millions Movement, will deliver the principal address.

Odd Fellows to Have Special Service.

As their custom, the Odd Fellows have arranged to hold a special service next Sunday at the First Christian church. The order will go en masse to the church and special seats will be reserved for them. Rev. Paris will deliver the sermon for them.

Should Organize Cemetery Association.

That an association in Hereford for the care of the cemetery is sorely needed is apparent to every one. The organization should not be of the ladies only, but of both men and women. While the vacant lots in the cemetery belong to private parties, yet a properly organized association could acquire title to all the property and then it would be in a position to make the needed improvements. Some years ago funds were raised to put down a well and to erect a windmill, but all that remains is the well. This could be used. The association should employ a man for a part if not all his time, especially in the spring to look after the walks, drives and trees. Most of the trees are dead, but others could be planted and soon the cemetery would appear that the "living cared for the dead."

THAT THE PEOPLE MAY KNOW

Believing that all candidates for the legislature should declare their views on the different issues before the election, I take this method of discussing some matters which must be of importance to the welfare of the State. Under this caption, from week to week, I will undertake to discuss the many questions that are certain to come before the next session of the legislature. If you receive a copy of the Brand, your reading and interest in these articles will be appreciated. If you think favorable of any one of the subjects discussed, pass the paper on to your neighbor.

A. C. Elliott, Hereford,
Candidate for the Legislature for the 123rd district composed of Deaf Smith, Randall, Armstrong, Farmer, Castro, Swisher, Bailey, Lamb and Hale.

Double Taxation.

Unless the people of Texas watch with diligence the trend towards wasteful expenditures and the multiplication of useless offices, her people will soon become slaves to the god of taxation. In fact, taxes are fast becoming a burden to many of the people of the State, especially to those who would own homes and farms. It will not be many years before it will be impossible for even an ultra industrious man to purchase and improve a farm and make the payments out of the products of the soil. In many sections, this condition is true now. The high price of land; the impossible terms and the tax maw of the State presents a dark and gloomy future to the man with a family who would till the soil, that he might provide for his growing children and present them to society cultured and educated.

The application of the constitutional requirement—Taxation shall be equal and uniform—would bring immediate relief. To apply this rule assessing taxes would take half the burden from the shoulders of the man who has bought a farm or home on time and expects and hopes to pay for it by the sweat of his brow. An example: A young man is working upon a small salary; he marries the idol of his heart; children soon come to bless his fireside; he sees his salary is failing to keep pace with his increasing expenses. He and his better half skimp and save, work and labor day in and day out, in order to save the nest egg to buy a home, perhaps a little farm. After years of hard toil, they have saved up a thousand dollars; this will make the first payment on the land (it is not a home yet, not even a farm) and perhaps put up a shack to serve as a mere shelter. He moves out and begins his happy labors. After the first of January, the tax assessor comes around to list his land. "How much did you pay for this land?" he asks. "Twenty-five dollars," is the answer. "And your house cost about \$200 and you have otherwise improved your land by plowing and fencing, till it is worth now at full rendition \$30.00 per acre. One hundred and sixty acres at \$30 makes \$4,800. You have a fine piece of land and should do well; good day." After the assessor was gone, he thought of the remaining \$3,200 and interest at 10 per cent he still owed, and it would require \$1,120 to meet the payment in the fall. The young farmer ponders this question: "Why should I pay taxes on what I do not own? I still owe \$3,200 on my land and am paying a high rate of interest on that, and then I have done all this plowing myself, put up the fences, and with a little hired help put up the little house. Am I to be taxed for my industry? By actual proportion, I have only \$800 cash equity in the

THE fact that the State of Texas paid \$1,000.00 for the journal which contains the original fields of the Capital Snyder survey is indication that she is not going to let up on the investigation until she is satisfied that no excess of land was "thrown in" for good measure.

ALL this talk about moving the State Normal from Canyon is a mere clap trap and any one who proposes such a measure has certainly not considered the question. The State is under contract to establish and maintain a school at Canyon and, if by any means, she should move that school to another point, she would sacrifice her honor and violate a sacred contract with the people of Randall county.

AN exchange advises that where coal is high and where people live out of tin cans, they should economize by using the cans as fuel in their stoves. They make a hot fire and will save 50 per cent of the cost of coal. Yes, burning tin cans; never heard of it. Try it. Fill each can with small lumps of coal and after the fire has been started in the usual way, lay on two or three of the filled cans, and see the last wonder of the age.

Santa Fe Co-Operation.
(Special to the Brand).

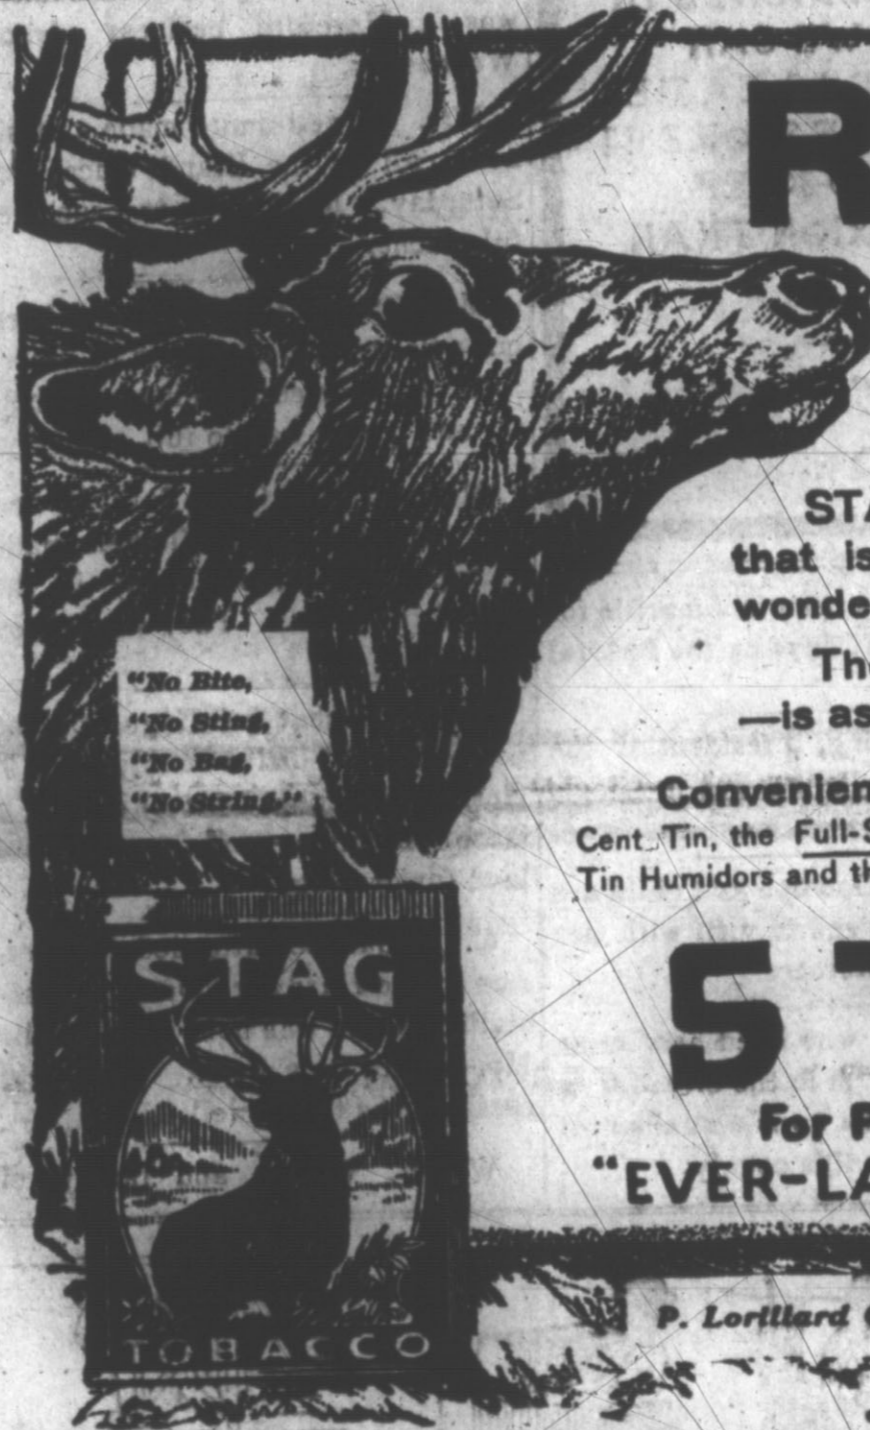

Chicago.—The Atchison, Topeka & Santa Fe Railway company, according to an announcement from the office of President E. P. Ripley, will, through its division superintendents, give local public officials in Santa Fe territory the benefit of its knowledge and experience in matters pertaining to the construction of buildings, highways, bridges,

sewers and other work of that character, when invited to do so. There will be no charge for the service.

President Ripley takes the position that the Santa Fe, being a heavy tax payer in every city and township traversed by its lines, is interested in all public improvements to the extent of having the best work done with the funds available. Many townships and small cities in which public improvements are contemplated

are not in position to engage for their needs the high priced engineering talent found on the market. To these localities the Santa Fe suggests co-operation, and will, upon request to superintendents, furnish information from competent engineers and architects regarding the work in hand. The new policy is effective at once.

Dr. R. H. Buekner was in from his ranch Tuesday on business.

A PERSONAL WORD

When you buy trees and plants from us, you are assured of getting stock which has received our very best care in growing. We trust they will flourish with you. We assure you, that after giving from two to four years care in growing different kinds of trees, we feel a lively interest in their growth after we send them out.

Our boast is that we grow stock as good as can be grown. We have been growing it for several years. All the experience we have had is offered freely to any one who will inquire of us on any subject on tree and plant growth.

We have introduced some of the leading fruits of the day and they are not surpassed by any others.

You owe it to yourself to find out about us; what we have and what we are doing.

FIX UP YOUR LIVER AND FEEL GOOD

Why Risk Being "All Knocked Out" by Calomel? Dodson's Liver Tone Takes its Place and is Safe.

When you are constipated and your liver is sluggish it is no longer necessary to try to fix yourself up with calomel, which everyone now knows to be a poison that sometimes remains in the system and causes evil after-effects—and is often very dangerous to many people.

Dodson's Liver Tone is guaranteed to take the place of calomel, to be a pleasant-tasting, easy-acting vegetable liquid, with no bad effects and causing no pain nor gripe nor interference with your regular duties, habits or diet. If you are not entirely satisfied with Dodson's Liver Tone, go back to the store where you bought it and get your money back. It belongs to you and Dodson wants you to have it.

Betts & Clark sell and recommend

COULD SCARCELY WALK ABOUT

And For Three Summers Mrs. Vincent Was Unable to Attend to Any of Her Housework.

Pleasant Hill, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst. I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework. I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off. I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly believe I would have died if I hadn't taken it. After I began taking Cardui, I was greatly helped, and all three bottles relieved me entirely. I fattened up, and grew so much stronger in three months, I felt like another person altogether." Cardui is purely vegetable and gentle-acting. Its ingredients have a mild, tonic effect, on the womanly constitution. Cardui makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, sallow cheeks, fresh and rosy. Cardui has helped more than a million weak women, during the past 50 years. It will surely do for you, what it has done for them. Try Cardui today.

land and if I fail to meet the interest and payments, I will lose all my labor also. The State of Texas certainly does not mean to fine me for being industrious and also make me pay taxes on what I still owe on the land? But when he goes to pay his taxes, he finds it only too true. This is not only double, taxation, but it penalizes the man who would improve his farm. The writer is opposed to any system of taxation which fines a home owner for his industry. Improvements and conveniences on the farm should not be taxed; but if at all, at a small per cent of their actual cost or value. If this double tax was removed and a fairer method employed, it would encourage home building and home owning and would turn the tide from the crowded and dirty streets of the city back to the free and pure air of the country. The State of Texas is adapted to agricultural pursuits and it should encourage in every way, home owning and farm improving. With a system of farm-land credits properly safe-guarded and protected and the removal of that baneful and

burdensome double tax, thousands of landless men would join the great army of farmers, the backbone and sinew of the State and Texas would become one of the greatest commonwealths in the Union.

Best Time of Year For Hatching.

In this climate, the best time for hatching chickens, especially the leghorns, is in April and May. The fact that the leghorn is a quick maturing fowl, the pullets soon become old enough to lay. A large output of eggs in the fall and all winter is what the poultrymen in the Panhandle needs. The leghorn will lay them when no other breed will. A pullet at six months and often at five will begin to hunt for places to lay. An April hatched leghorn should begin to lay the latter part of October, if properly raised. Eggs for hatching in incubators should be fresh, not over five or six days old.

Big Agricultural Land Opening

TWELVE HUNDRED AND FIFTY TRACTS of five and ten acres each to be granted to prospective settlers in throwing open Twenty Acres of Rich, Northern Georgia Land, which is admirably adapted to the growing of celery, sweet and Irish potatoes, cantaloupe, water melons, peaches, etc. etc.—in fact, all staple crops grown in this fertile section, as well as a large variety of semi-tropical fruits, and the famous immensely profitable peach-shell pecans.

An Opportunity to Secure Rich Productive Land Without Capital

You will not be required to leave your present surroundings now. All we ask of those to whom we grant tracts is that they plant, or arrange to have planted, a crop of one of the above-mentioned products within three years, after which we will have it operated (harvested and replanted) for grantees, in consideration of 25 per cent. of the net profits derived from the sale of the crops, thereby allowing the grantee to pursue his or her present occupation until such time as they determine just as a source of income, when statistics show that the yield of one acre of celery amounted to \$1,988.45, and that one acre of well-cared-for peach-shell pecans, in full bearing, should net its owner as high as \$600.00 per year. We are of the opinion that after it is proven by actual results obtained in operating the land that they will need no further urging, and waste no time in looking for a land of plenty. We also require grantees to occupy the land within ten years, or sell it to someone who will occupy it; otherwise it reverts back to the grantor.

The land included in this opening is located directly on and adjoining the Atlanta, Birmingham and Atlantic Railroad, about twenty-five miles west of Brunswick, a thriving city of fifteen thousand, having direct steamship service to New York and Boston, and excellent railroad transportation facilities to all points. The average temperature for six months of the year, from April to October, is 77 degrees; the climate is most healthful, delightful, and invigorating, and there is an ample rainfall of 51 inches per year.

OUR AIM IS FOR MUTUALLY BENEFICIAL RESULTS
 As we are extremely desirous of having settlers locate on this property, and assist in its development, and thereby greatly increase the value of surrounding and intervening property, which we will hold, and to increase the traffic along the Atlanta, Birmingham and Atlantic Railroad, and thus facilitate the service, we feel warranted in granting these tracts to those who register with us. We also have in mind business and residence plots which we will offer for sale after the opening, but which will not be included in it. We have money-making afterward considerations in this liberal-minded opening, similar to those of the

Northern Pacific and other railroads when they granted their lands, and we expect to benefit thereby, as well as the ones who will receive the tracts.

We have also planned to develop what is designed to be the best equipped, most up-to-date, scientific, commercial farm and orchard in existence. It will consist of six thousand acres, and will be included in this opening. All the modern and scientific methods of the best of the experiments and scientific methods in vogue thereon. While we are arranging to prevent over-registration, we will avoid many disappointments, such as occurred in other land openings conducted by the United States Government and railroads, by granting those who register in excess of the number of tracts to be granted, an interest in this commercial farm and orchard enterprise, in the hope that they may later locate in one of our town sites.

As soon as the land will cheerfully be permitted, and the opening will be held at Brownstown, Wayne County, Georgia, one of the stations of the A. B. & A. Railroad, which is located on this property, and will occur as soon after the closing of registrations as arrangements can be made.

The presence of those registered will not be necessary at Brownstown on the opening day, unless they wish to attend, for there will be no favoritism shown anyone. It will be conducted by a committee selected for the purpose, and those registered will be notified of what they have been granted, as soon as possible.

With the ever-increasing population of this country there is no corresponding increase in the area of land, and naturally as the population increases and seeks the land in pursuit of health, happiness and independence, it will continue to be harder to secure.

The prosperous and contented class in Europe today are the descendants of those who secured land there when it was plentiful, while the descendants of those who obtained no land are now the peasants and slaves. You must realize that this may be your last chance to secure land in this country without a large outlay of capital, so it should not be necessary to urge you to act at once by forwarding us the application for registration attached to this announcement.
