### "COMPETENT MEN ARE NEEDED."

Fort Worth Record.—There is an editor at Hereford who moves with the procession. He is the publisher of the Brand, a lively weekly newspaper. He has views of his own as well as convictions. The Brand says, "Competent legislators are needed." It backs up its assertion with this editorial declaration:

In making the rounds the other morning, trying to take a straw vote on the governorship situation, the news faker for the Brand met a number of prime suggestions. One man was not so much interested as to who would be governor, as he was in what kind of stuff would make up the legislature. "We need more competent men at Austin," he said. "As it has been, the law making department has been composed of lawyers, who could not command enough clients from whom they could extract a living; school teachers, who imagined they could improve on the text-book board; newspaper persons who had a hobby to ride; farmers, who thought it their business to try to get even with corporation enterprises; designing politicians, who were all the time trying to knead enough dough for their political pie, and a few business men and patriots of the state. This is the average Texas legislature." This is more than likely. If the people would give less attention to the governor's selection, and more attention to the quality of lawmakers, it would not take Texas long to rid her legislative halls of political leeches. The slate-makers stir up a great hurrah about the only office that doesn't need their attention, and thus lead the people away from the source of their relief. They cry "wolf!" and point to the executive office, when a hundred coyotes are devouring the lambs in the legislative pen.

This declaration of principles given to the readers of the Brand by its editor appealed to the editor of the Avalanche, published at Lubbock. The Avalanche reproduced the editorial and made this comment:

The Brand speaks truthfully, and is preaching the doctrine that the Avalanche has been giving the people for some time, and until this is done we will suffer for the need of good, wholesome legislation. Better men, on better pay, will accomplish more than inferior men on light pay every time. Pay the legislators more money and the office will command better men.

### Improving Home.

Mr. and Mrs. John Sherman are having considerable changes made in their house, reconstructing and adding additional rooms and porches. A force of workmen have been busy at the job for some ten days and when the work is completed, the house will be a model in every respect.

L. M. Layne and H. C. Whitworth, representatives of the Layne-Bowler Company of Houston, are registered at the Cordova and are here to engage in the drilling of irrigation wells and installing pumping plants.

Mrs. C. H. Pratt and daughter, Mae, went to Amarillo on Monday where Miss Mae will enter the training school for nurses.

Henry Wilkinson started on a trip the other day and got as far as Canyon. He then came back home after attending to some business.

### Favors Ground Silo.

It is now generally admitted that the Panhandle must develop by way of the silo and that means that thousands of them will be built in the next few years. Now multiply this number by four or five hundred dollars each and you will get an idea of the money it will take to provide our people with them. Now I believe most of this money can be kept at home and you will ask how. By adopting the under-ground silo, which requires only a small amount of shipped in material; namely, cement, the balance being labor. Our farmers can avoid the necessity of sending out millions of dollars for these shipped in silos. The patented silo man is abroad in the land this early and I think every one of us who buys the patented up ground silo pays more than a silo should cost. Now, our soil is dry and easy to dig. By plastering to the earth walls as the digging is done no scaffold is necessary and this work can be done at idle times. Some of the points in favor of the ground silo are: It will be fire proof; it will be frost proof; it will be air tight, no doors to let in air to spoil the feed; it will not depreciate in value; it will be cyclone proof. I was the first man in this county to build a silo and built an up-ground one, but I think I make a mistake and should like to see our money kept at home.

Respectfully,  
F. H. OBERTHIER.

### More Silos for Hereford Country

D. W. Jones of Lubbock, Texas, was here Friday and sold S. B. Edwards and W. E. Neal four large Ames Portable Silos of 400 tons capacity each. Mr. Edwards will erect two of these silos on his fine irrigated farm southeast of town, which will make him four silos. He will engage more extensively in fattening and preparing for the markets. Mr. Edwards now has 160 head of baby beeves, fed on ensilage out of the two silos on his place, almost ready for the market. Mr. Neal will erect two of the silos just purchased on his big irrigated farm near Dawn and will feed extensively. These gentlemen think that siloing the immense crops of feed raised on irrigated land here and feeding it to live stock is the solution of the market problem, and are backing their judgment by giving it a practical try-out in this manner.

The Ames Portable Silo is the invention of a Lubbock man and is designed to overcome the climate conditions which effect the ordinary silo so disastrously. The inventor to accomplish this has used 60 per cent more material than in the ordinary silo and has distributed the surplus material in a way to overcome shrinkage and expansion.

### Attended the Cattlemen's Convention.

The following Hereford prominent and near-prominent citizens attended the Cattlemen's Convention held at Oklahoma City this week: A. P. Murchison, J. D. Thompson, E. F. Connell, Joe Collins, Will O'Brien, C. R. Smith, Dr. L. L. Jones, Jno. L. Wilson, W. E. Hicks, W. J. McIntosh, T. E. Money; also J. W. Alexander and Geo. O'Brien of Dimmitt. T. E. Money returned yesterday morning.

Mr. and Mrs. L. E. Smith, who own a fine ranch some 35 miles northwest of town, were in last Monday shopping. They paid this office a social and business visit.

### THE TAX AND LAND QUESTION.

The question of taxes has been the green bone of contention since society was organized into government. Common consent and otherwise, property has been taxed in some form since Adam was driven from the garden. The question has been the cause of war and bloodshed, the cause for revolution and insurrection. All sensible men agree that taxes should be paid for the support of the government, yet few men pay their taxes without murmur. They have made taxes a by-word and a hiss. "Death and taxes are the only certain and sure things; the result of a jury trial and an election the only uncertain," they repeat. But there is no use to growl about the taxes you have been paying, you will never get the money back; the state never refunds anything. So the best thing to do is to set about to adjust the taxes so that they will be levied with fairness and equity.

The Texas Legislatures have made several attempts to adjust the matter, but so far have signally and ignominiously failed. The last effort was the "full rendition law" which should be better termed the "foolish rendition law." No county in the state, as far as any one knows, has even come half way in complying with that monstrosity. To enforce would be to burden the people and to produce terror among the tax payers.

For a tax to be just and equitable, it should be applied to all alike, rich and poor. It should not be doubled on property, visible or intangible. It should not be confiscatory. It should not take the form of a penalty on industry. It should not be placed upon labor, but upon realties, values, credits and franchises. These divisions will be discussed in their order.

When the State sends out its assessors they should be instructed to make a list of all properties to be taxed regardless of the ownership; no favoritism should be shown; the rich man's mansion and the poor man's hovel should be put down at a fair value and the tax rate should be applied equally to both. The bond holder's bonds, the money lender's notes, the corporation's franchises and other intangible assets should be listed at their true values.

The method of arriving at the true values of real estate in Texas belongs to the dark ages. When a man wants to know the value of a load of wheat he weighs it and figures it at the market price; when a man wishes to build a house, he employs a competent architect and has the contractors to figure it out at the cost of material and labor; when a man wants to sell a manufactured article like automobiles and wagons, he figures up every cost that enters into the article and sets his selling price accordingly. But when the assessor goes out with paper and pencil, he finds a house or a farm, and guesses it off at so many dollars with the help of the owner to guess low enough. And if he is going to run for office again, the guess shows how rapidly property is decreasing in value in that particular community. Realities in a town or country have both an intrinsic and relative value. The corner lot on which the bank building stands is usually the best lot, not because the soil is richer, but because of the location; it makes itself a sort of business center. Lots adjoining and around the block fall in value in relative propor-

tion. A farm located near a good town, on the main road, has a relative value greater than the farm ten miles out and on a second class road, the soil of the latter may have a greater producing value than the first. These matters should be taken into consideration when fixing the value of realties. The city of Houston is practicing with success such a system. The assessor does not fix the values, but with the consensus of opinion of the community fixes the relative values of the different lots and additions. This agreed upon, knowing how much tax is to be raised, it is only a matter of calculation to arrive at a fair and just assessment. For example, if the corner bank lot is taken as a basis at 100 per cent, the next lot to it at 80, the opposite corner in the same block at 40, on account of its distance from the center of business, accessibility, etc. After all the lots in a town are thus classified, the assessor has little to do, but to find a starting point in the values. If the citizens agree or the tax commission fixes the value of the corner lot at \$4,000, then the next would be 80 per cent of that \$3,200, and the opposite corner at 40 per cent \$1,600, and so with all the lots. This system, known as the Somers system, is being practiced by the city of Houston and it works well. It places every man's property at its true relative value. Improvements on the various lots near take at a certain fixed per cent of their cost, kind of material, age and style of building being considered. It is the only fair and equitable method so far devised.

### New Store Opens For Business.

After a week of strenuous work on the part of manager and clerks, arranging the stock, the Fox Mercantile Company, an incorporated concern, opens its doors for business today. The new firm is located in the opera house block next door to the First State Bank. J. A. Fox is president of the company and E. D. Fox is vice-president and general manager for the dry goods department. As soon as the Ray block is completed, upon which work was begun yesterday, both the dry goods and the grocery departments will be moved into handsome new quarters. The Fox Mercantile Company will do a general merchandising business. Mr. Fox, the head of the firm, is well known in this and other sections of the state, and the Brand bespeaks for the new concern a profitable career.

### Business Changes.

This week has seen two changes made in business connections in Hereford. The first was the purchase of the Suggs' interest in the abstract business of Suggs & Jones by J. Frank Potts. Mr. Potts has recently moved to the city from north Texas where he has extensive banking and landed interests. The firm will be known as Potts & Jones, bonded abstractors.

The next change was the association of Mr. Suggs with D. F. Ashbrook in the fire insurance business, Mr. Suggs purchasing a half interest. The style of the firm will be Ashbrook & Suggs.

The Brand bespeaks for both of these new firms a success beyond their own expectations.

A. O. Swinburn, contractor of Vernon, who has the contract to erect the Ray building, came in Thursday morning and began at once to lay out the foundation.

### Work Begins on Ray Building.

J. Ray of Vernon and his contractor, A. O. Swinburn, of the same place, arrived in the city Thursday morning and the work of laying out the foundation for the new block, which Mr. Ray is to have erected was begun at once. This building is to have a 50-foot front and will be 100 feet in depth. The material is to be red brick, except the front, which will be placed with Texas-made, pressed brick, similar to those in the jewelry store building. A modern front will be constructed with deep, double thickness, plate glass show windows. The interior will be a modernly equipped merchant's emporium with every convenience. It is expected to push the work right along so that the new block will be ready for occupancy in about 60 days. It has been rented to the Fox Mercantile Company, for whom it is being built. This will make five 50-foot front buildings owned in Hereford by the Vernon capitalist. Mr. Ray was editor and owner of the Hereford Brand for some years, selling out and moving to Vernon nearly four years ago, where he owns a successful newspaper, the Vernon Record. While most of his time is devoted to newspaper work, he takes on the erection of brick buildings as sort of hobby, having built a number in Vernon, and now comes to Hereford to add this substantial evidence of his confidence in the future of the city and the surrounding territory. Mr. Ray is to be congratulated upon his firm belief in the resources of the country.

### Brotherhood Meeting.

Last Sunday at the Methodist church, 3 p. m., a large number of men, young men and elder men, gathered to perfect the Brotherhood organization. On the previous Sunday, a partial organization was made. J. E. Garrison was chosen as President; Henry Wilkinson, Secretary; Ben Short, Treasurer. At the last meeting, a number of committees were thought to be necessary and provision was made for their appointment. The names will be announced next Sunday. There were just 148 men present at the meeting last Sunday afternoon and when an enrollment was called for 116 of these handed in their names. This is considered remarkable and bespeaks for Hereford a fine spirit among the Christian men of the town. This is the sort of co-operation that will bring good results. After the business session was closed, J. I. Walker made a short address in which he emphasized the importance of living the true life in the every day business. Prayers and devotional songs made up a part of the program. The next Sunday meeting will be held at the Methodist church at 3 p. m. All men invited.

### Motorcycle on Mail Route.

Berry Orr, the official carrier on Route One, which runs out from Hereford northeast and return, a distance of some 32 miles, has adopted modern methods of making the rounds, using a motorcycle. Yesterday morning he left at 9:45, distributed and gathered the mail en route, and returned to the office at 11:15, thus making the 32 miles in one hour and 30 minutes. Thus Hereford is placing herself on record for rapid transit mail delivery.

### Mrs. Barclay T. Bell Celebrates Her 50th Birthday.

"Friend! How sacred the word. Born in the heart of God, and given to us as a treasure from the eternities — no word in the language so heavily freighted with meaning."

On Monday, March 2nd, was the birthday of Mrs. Barclay T. Bell, Sr., of Dimmitt. By a pre-arranged plan of the ladies of Dimmitt and country round about, at 11 o'clock on this day, more than fifty persons, including the children, were in the Bell home with well-filled baskets and faces radiant with the genial glow of friendship they hold for this good woman. Soon the spreading of the feast began, and if any came burdened with cares, these anxieties were soon banished to oblivion, for the old were young again, and all behaved even as children in their mirthful glee.

For more than ten days before Mrs. Bell's birthday, Mrs. Bell conceived the plan of making a friendship quilt for Miss Millicent Griffith, principal of the Dimmitt Public School. Each block of the quilt was to be pieced by a mother who had children in school under Miss Griffith, and as Mrs. Bell had planned to have these mothers and friends of Miss Griffith in her home on this day, and there present the quilt, the day had a double significance for all present. It be Independence Day in Texas, school was dismissed at 2:30 o'clock for a quarter holiday, and soon Miss Griffith joined the company in the Bell home.

Mrs. Harvey Cash, daughter of Mr. and Mrs. Bell, spoke for her mother, and in the sweetest way expressed her heart thoughts for this expression of friendship to her mother

by the people of Dimmitt. Mrs. Cash next addressed herself to Miss Griffith, and in presenting her the beautiful quilt in its completion, told her of how many blessings and kind wishes the little stitches held in this quilt that was to protect her from the cold and blasts of this world. Mrs. Bell then read a beautiful little paper on the "ties of friendship," after which Miss Griffith in a suitable manner expressed her appreciation to all who had been so very thoughtful and kind to her in this way. After this, all were invited to the dining room once more, where coffee and cake were served.

As the shadows were now beginning to lengthen, the good byes were being said, and wishes expressed that Mrs. Bell might be left many years to the people of Dimmitt with her sweet influence and helpful ways.

Mr. and Mrs. B. T. Bell are among the first settlers of Castro county, settling on what is now the "O. Y. O." Ranch in 1891. Mr. and Mrs. Bell are both natives of Texas, and came from noted families of this state. Later, Mr. Bell purchased a number of sections of land east of Dimmitt and for nearly a score of years the home was two miles east of Dimmitt. About two years ago, Mr. Bell sold his land and now has a quiet little home in Dimmitt, where he and Mrs. Bell are near their two daughters, Mrs. Harvey Cash and Mrs. Edgar Ireland. Mrs. Bell, who was born on "Independence Day," has for the past fifty-nine years sounded the cry of liberty, and proclaimed freedom from all that is impure and debase, and her whole time is given to the good of others in her community. No family is better known in all the

country round than the Bells and the children, all grown, are eight in number. Their friends are numbered by the multitude of their acquaintances. It is the wish of the writer that Mother Bell may be left here yet a long time to live among her flowers and friends, and carry their sweet aroma in her smile wherever she goes.

### To the Voters of the 69th Judicial District.

For business reasons together with a desire to enter the private law practice, I will not remain in the race as a candidate for District Attorney.

I am profoundly grateful to my many friends who have so freely interested themselves in my behalf. To these friends and to the members of the Hereford Bar who have so generously advanced my candidacy, I acknowledge my sincerest appreciation. By being your friend I hope, in some small way, to show my appreciation of your loyal friendship.

Sincerely yours,

### What Next?

To teachers and those contemplating teaching.

Public schools will soon close. Teachers have had an average of about six months on the pay roll at perhaps an average salary of \$60 per month, netting them \$360 for the year, or an equivalent of \$30 per month for the year. In other words, the educated teacher's salary for the year is less than that of the uneducated day laborer.

The President of the Texas State Teachers Association made the statement, a couple of years ago, before the State Convention, that 6,000 teachers quit the profession in Texas annually. Can you blame them, when you compare their annual earning capacity with that of any other class of educated men and women. The bookkeeper, or stenographer or operator gets, as a beginner, from \$60 to \$100 per month twelve months in the year, and soon receive an advance in salary and it isn't long before they are promoted to assistant managers or managers of large business concerns where they draw a salary of from \$2,000 to \$5,000 per year.

The teaching profession is a noble charitable one, but are you content to work in the charity department of your state when they allow you no pension or protection in old age, or will you go into the great broad field of business where you can lay up something for a rainy day and provide your own protection for old age.

Make a comparison of the teacher who has graduated from the high school, spent two or three years in a state normal and hundreds of dollars preparing himself, then had from three to five years experience in the public schools, with the bookkeeper, stenographer or operator who has only spent from three to six months in obtaining his education and from \$100 to \$200 and has had from three to five years experience in the business world, and you will find that the one who has spent only a few months in obtaining his education and couple of hundred dollars, is drawing twice the salary of the teacher who spent some three or four years preparing for his profession, and spent from \$500 to \$1,000.

More evidence on this subject can be had by writing the Tyler Commercial College of Tyler, Texas, for their large illustrated catalog, giving full particulars regarding America's largest commercial training school, the school that had 2060 enrollments last year, and read what teachers have to say who have attended this institution, of the advantages it offers to those entering the business world where they can greatly increase their earning capacity, enabling them to own homes of their own, and enjoy the comforts that should rightly be theirs. 1t

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

**CONSTIPATION MAY CAUSE APPENDICITIS**

It Pays to be Watchful and Careful. Dodson's Liver Tone is Recommended and Guaranteed.

In a number of cases it has seemed that appendicitis has resulted from chronic constipation. Hence it is well to be watchful and keep the system in as good working order as possible, for if you never suffer from constipation you are likely to lessen your liability to other complications and troubles.

But that does not mean that it is wise for you to use calomel, a poison that stays in the system and often leaves bad effects behind it, even after you may have appeared to be benefited temporarily. As a matter of fact, calomel is exceedingly dangerous to many people, perhaps to you. So it is just as well not to take chances.

For constipation, biliousness, liver complaint, sick headache, etc., Dodson's Liver Tone is guaranteed by Betts & Clark, who will cheerfully refund purchase price (50c.) instantly to you in the event that it fails to give complete satisfaction.

Dodson's Liver Tone is a vegetable liquid, perfectly harmless, easy to take and highly effective without pain, ache or gripe and leaving no bad after-effects. It assists nature and builds you up instead of weakening you. So many people have been immensely benefited by this

good remedy that it's worth your looking into at once. Make no mistake—ask for Dodson's Liver Tone.

WILL there be two parties in Texas, after the July primaries? If so, what will be their names and what will be their platforms? Who can tell?

THE greatest question for the next Texas Legislature to settle will be the equalization of taxes. The full rendition law has placed the burden upon the small home owner and the man of small, visible holdings.

JUST because a man wants to see all property taxed alike, is no sign that he wants to rob the rich by law or enrich the poor by legal process. All honest men are willing to pay a uniform tax with their neighbors; a tax dodger is a tax dodger be he rich or poor.

**Keep One Kind.**

This section of the state offers better opportunities to the poultry raising than the casual observer will see. During the last two years thousands of chickens have been shipped to the large central markets, Denver, Kansas City, Los Angeles, and even New York City being some of the points. And the prices have been fair. If the farmers in the Hereford district are mindy of the by-products of the ranch, they can produce a neat little income with little cost. Chickens raised around the barns and feed lots are better than city bred chickens for the table. But the eggs will bring the quickest and most cash. The farmer does not have time to raise fancy, show chickens; all he needs is a good strain, some that he likes, and the kind that lays eggs. If the "woman of the house" is to look after the chicken department, her choice should be taken. But whatever breed is taken up, the first thing to do is to clean out all of the mongrel or mixed stock. Don't have a crazy quilt affair in hen house. If you are not prepared with separate pens and houses, during the breeding season, sell or kill off the roosters you do not want or need. Sell all the old hens and boarders."

### Rev. James M. Sherman.

From Clarendon News.—Rev. James Morgan Sherman, son of Morgan Dans and Amanda E. Sherman, was born in Lampassas, Texas, Nov. 7, 1858. While yet a child he was converted and joined the Methodist Episcopal Church, South. He was licensed to preach under Rev. James Mackey, Presiding Elder, and was admitted on trial in the old Northwest Texas Conference Nov. 1880.

He served the following charges in his conference: North Georgetown, two years; Florence Circuit, two years; Round Rock Circuit, four years. In 1888 he was appointed to the Clarendon station and remained here one year, and was then

appointed to the Burnet station where he served four years; in 1902-1906 he was Presiding Elder of the Clarendon District; 1906-1909 he served Gatesville District; 1910, Merkel; 1911-1912, Hereford; and in 1913 he was made Presiding Elder of Sweetwater District and while in charge there the end came. He died in the sanitarium at Temple, Texas. Such are the brief annals of the life of this good man.

Brother Sherman was a good man and a strong preacher of gospel. He was possessed of a strong will, a kind heart and a trained mind. In his ministry and in all the affairs of life, he was eminently successful. He was the friend of all that was pure and good and he spurned and

shunned all that was evil. In the highest and best sense he was a true man of God.

Perhaps it was here in Clarendon he did his best work, taking part in the founding of the Clarendon College, and in the erection of its first building. More than any other place on earth he loved Clarendon, and all who know him here, as in every other place, loved him for his works sake and for the magnificent character he possessed.

He was a man of the strongest convictions, always standing firm and unswerving for what he believed to be right, and yet he had only patience and kindness for those who saw things different from him. He was a faithful minister of the gospel of Jesus Christ, a loving husband and kind devoted father. He leaves a wife and five children who mourn their loss, but he also leaves to them a priceless legacy in a good name, and a lofty Christian character.

Conscious almost to the last, he expressed himself ready when the end came. His death was a complete triumph.

"Servant of God, well done,  
Rest from thy loved employ,  
The battle fought, the victory won,  
Enter thy Master's joy."

J. W. STORY.

At two o'clock the funeral services were conducted at the church with Rev. J. W. Story in charge. Rev. H. M. Long made a beautiful and impressive prayer, a comfort to the bereaved and a solace to the brotherhood. Rev. B. W. Dodson of Memphis and Rev. C. W. West of Claude each read a lesson. Rev. Clemmons of Colorado City, a boyhood friend of the deceased, made a very touching talk, as did Rev. J. T. Griswold of Childress and Rev. Bryant of Hedley. Bro. Story gave a brief sketch of the life and work of Bro. Sherman. Each speaker bore tribute to his great and good life. They spoke of him as never being cold, indifferent or backslidden in his religious life. He was consistent and was a beautiful Christian character, loving his church and being "faithful unto death." He had a passion for the souls of men, and people who heard him felt they were in the presence of his Master.

Bro. Sherman had been chosen at the last conference to represent the Northwest Texas Conference in the General Conference in May at Oklahoma City. No man in the conference was more loved and honored or respected than Bro. Sherman. He was brought to Clarendon because he loved this place and all Clarendon feels proud that his body found its last resting place here. He was deliberate, true to his convictions and wise in counsel. Those in attendance from a distance were: Rev. J. A. Laney and wife of Tolbert; John Sherman and wife of Hereford; Mrs. Ella Lamb of Burnet; Miss Dameron of Hereford.

### LESS DYSPESIA NOW —HERE'S THE REASON

The fact that there is less dyspepsia and indigestion in this community than there used to be is largely, we believe, due to the extensive use of Rexall Dyspepsia Tablets, hundreds of packages of which we have sold. No wonder we have faith in them. No wonder we are willing to offer them to you for trial entirely at our risk.

Among other things, they contain Pepsin and Bismuth, two of the greatest digestive aids known to medical science. They soothe the inflamed stomach, allay pain, check heartburn and distress, help to digest the food, and tend to quickly restore the stomach to its natural, comfortable, healthy state. There is no red tape about our guarantee. It means just what it says. We'll ask you no questions. Your word is enough for us. If Rexall Dyspepsia Tablets don't restore your stomach to health and make your digestion easy and comfortable, we want you to come back for your money. They are sold only at the 7,000 Rexall Stores, and in this town only by us. Three sizes, 25c, 50c and \$1.00.

The State of Texas: To the Sheriff or any Constable of Deaf Smith County, Greeting.

You are hereby commanded that by making publication of this citation in some newspaper published in Deaf Smith County, Texas, for four weeks previous to the return day hereof, you summon William E. Richard, George Findlay, W. W. Ryan, Geo. G. Wright, John Mosness and the American-Canadian Land Company a partnership composed of Sam. S. Wright, J. W. Wright and E. Vanmetre, all of whom are non-residents of the State of Texas, to be and appear before the District Court of Deaf Smith County, Texas, at the next regular term thereof, to be holden at the court house of said county in Hereford, Texas, on the 4th day of May, 1914, then and there to answer the petition of The Capitol Freehold Land & Investment Company, Limited, as plaintiff, filed in said court on the 4th day of March, 1914, against William E. Richard, George Findlay, W. W. Ryan, Geo. G. Wright, John Mosness and the American Canadian Land Company, as defendants, said suit being No.

784. The nature of plaintiff's demand is as follows:

Suit to recover the amount due on two series of notes, each series consisting of nine separate notes, all dated March 13, 1907, executed by William E. Richard, each for the sum of \$208.00, bearing interest from date at the rate of six per cent per annum until maturity, and seven per cent thereafter, the notes of each series maturing one on the first day of November of each year for nine consecutive years beginning November 1, 1907, the annual interest payments due on said respective notes are evidenced by interest coupons, which interest coupons bear interest from maturity at the rate of seven per cent per annum; all of said principal notes and interest coupons were executed by the said William E. Richard payable to the order of himself, by him indorsed to the joint order of John V. Farwell, Jr. and W. J. Littlejohn, and by them indorsed without recourse to plaintiff. Plaintiff further alleges that the payment of said two series of notes is secured respectively by two certain deeds of trust in writing of even date with

said notes, executed by said William E. Richard, wherein George Findlay is trustee, one of said deeds of trust to secure the payment of one of said series of notes conveying the SE 1/4 of Sec. 30, township 2 North, Range 4 East, of a Capitol Syndicate Sub-division situated in Deaf Smith and Parmer counties, Texas, and being a part of Capitol League No. 448; the other deed of trust securing the other series of notes conveying to George Findlay, Trustee, the SW 1/4 of said Section No. 30, situated in Deaf Smith and Parmer counties, Texas, and being a part of Capitol Leagues Nos. 448 and 449. Plaintiff further alleges that said two sets of notes were also given in part payment for the respective tracts of land described in said deeds of trust, and a vendor's lien was retained in the conveyance of such, executed by the Capitol Freehold Land & Investment Company, Limited, Sir William Quartus Ewart and Sir Herbert Eustace Maxwell as trustees, whereby they conveyed said land to the said William E. Richard.

Plaintiff further alleges that the defendants W. W. Ryan and George G. Wright claim some interest in said land by reason of a deed of trust thereon executed by the said William E. Richard to secure the payment of certain indebtedness to the said George G. Wright. Also, that the American-Canadian Land Company executed and caused to be placed of record, a contract whereby said partnership purported to convey said land to John Mosness; that all of said respective claims, if any, are inferior to the superior lien and rights of the plaintiff.

Plaintiff alleges that no part of the principal or interest becoming due on said notes has been paid, except the interest becoming due November 1, 1907, and prays for judgment against William E. Richard for the amount of principal and interest due on said notes, with foreclosure against all of the defendants against said respective tracts of land.

Herein fail not, but have you before the next said regular term of this court, this writ with your return thereon, showing how you have executed the same.

Witness my hand and seal of office this the 4th day of March, A. D. 1914.

# A PERSONAL WORD

When you buy trees and plants from us, you are assured of getting stock which has received our very best care in growing. We trust they will flourish with you. We assure you, that after giving from two to four years care in growing different kinds of trees, we feel a lively interest in their growth after we send them out.

Our boast is that we grow stock as good as can be grown. We have been growing it for several years. All the experience we have had is offered freely to any one who will inquire of us on any subject on tree and plant growth.

We have introduced some of the leading fruits of the day and they are not surpassed by any others.

You owe it to yourself to find out about us; what we have and what we are doing.
