

The Hereford Brand

VOLUME 14

HEREFORD, TEXAS, FRIDAY, APRIL 10, 1914

NUMBER 10

CITY ELECTION HELD TUESDAY

Old Commission Re-elected—Administration of Affairs Receives Substantial Endorsement.

Last Tuesday the regular city election was held, resulting as follows:

For Mayor:	
W. M. Knight	86 votes
W. B. Dameron	72 "
W. H. Russell	1 "
For Commissioners:	
C. S. Garrison	141 votes
D. F. Ashbrook	133 "
Jno. L. Wilson	27 "
R. N. Mounts	11 "
H. C. Myrick	2 "
Geo. A. Stambaugh	1 "

The day was rather cold and little interest was shown except that most of the qualified voters exercised their sovereign rights at the ballot. The only contest was that for the honors of the mayor's office. The heavy vote for the commissioners is a substantial endorsement of the administration under the commission form of government. In fact, the vote indicates practically a unanimous endorsement as those who received the minority votes for commissioners were not on the ticket and their votes were largely if not altogether complimentary.

LIMIT LAND OWNERSHIP.

Senator McNealus of Dallas, in a recent speech before the labor unions in Dallas, according to a Dallas News report of the speech, suggested, as a solution of the land problem, that the ownership of land be limited to 160 acres to any one person, and that only for the purpose of cultivation. We have, in the past few years, noticed the same plan advocated by a number of writers, discussing the problem of land ownership. Such limitation, however, would be unfair, for the reason that the margin of land values has such a wide range. For instance, there are 160 acre tracts in some portions of Texas that has a real value of \$100 per acre and high, while in other portions of the state land values run as low as \$5 per acre. This land problem is a big question and there is no denying the fact that at no distance future some kind of an equitable plan must be adopted whereby the landless and homeless people may be given an opportunity to become home owners, but the plan suggested by Senator McNealus is not an equitable one and will never be adopted in Texas. A better plan would be a graduated income tax on the assessed valuations of land. Such a plan could be used to make land owning unprofitable after a reasonable amount had been reached.—Tulia Enterprise.

Sells Interest in Garage.

A business trade was closed this week, effective from April 1, whereby C. H. Dyar buys or rather trades for the interest of J. W. Barnett in the Hereford Garage. Mr. Barnett becomes sole owner of the building and Mr. Dyar gets all of the machine equipment, autos and business. Mr. Barnett will rest up for a while.

L. T. Lester, a prominent banker of Canyon, was here last Monday on

Hays as Fuel Engineer.

The friends of H. G. Hays will be pleased to know that he is making rapid progress as a fuel and heat engineer. It is not generally known that Mr. Hays, who was a citizen of this county for a number of years and who improved a farm southeast of town in a way not undertaken by any other man in the county, is now connected with his brother, J. W. Hays, in the manufacture of fuel and gas testing apparatus at Chicago. It would be difficult to explain to the non technical mind just what the machines which he and his brother have invented and are now manufacturing will do, but at the risk of the Brand's reputation, it will undertake the task, because of the fact that Harvey Hays has many warm, personal friends in this community. In operating steam plants, where coal or other fuel is used, it is well known that the combustion consists of a chemical combination between the oxygen of the air and the carbon of the fuel, producing among other things carbon dioxide. Now in a furnace, it has been shown that an almost ideal condition exists when 15 per cent of the gases in the flue is CO-2, the other gases being water vapor, etc. Their machines can test automatically or at will the amount of CO-2 in the flue gases. If it is found that less than 15 per cent exists, the fact shows that too much air or an excess of air is passing thru the furnace fire. If all of the carbon is not combined with the O of the air, it shows in the black smoke that rolls out at the top of the chimney. In either case, there is a waste of fuel and a loss in the efficiency of the plant. The Hays gas testing machines enables the fireman to know definitely what he is not doing, and to what extent. In a recent publication of the Southern Engineer, appears an article upon the subject by Mr. Hays. The article is well written and is fully illustrated.

The Brand wishes to compliment him on his work and extends to him the best wishes for his continued success.

Snow Falls on Apple Blossoms.

The fall of snow on the new, green leaves and grass and apple blossoms was the view that met the eyes of the people of Deaf Smith county last Wednesday morning. The snow fell during the previous night and it exceeded one inch. The thermometer stood at 20 degrees above at 7 o'clock, but from the present appearance of the leaves, little damage was done. The fruit in this section had been killed during the early part of the winter.

Singing School.

The singing school in charge of Prof. Taylor, being held in the Christian church here, is now in its second term and much interest is being shown by the pupils. New pupils are coming in and there is a strong feeling for a third term to follow immediately after the close of the present term. Those who are interested in vocal music should take advantage of this exceptional opportunity to learn to sing real music.

Dr. L. F. Dudgeon and Mrs. Mary Sparks, a nurse, were injured at Sweetwater when the auto in which they were riding to attend a patient overturned, pinning both beneath it. The doctor was most seriously hurt, suffering three broken ribs and an

You

Are Cordially Invited
By the
**Brotherhood
of Hereford**

To attend their sessions which are HELD EVERY SUNDAY afternoon at 3 o'clock. The meetings this month will be held at the Presbyterian Church.

If you are a stranger or a visitor in the city, you will be welcome.

Come!

Brotherhood Has Good Meeting.

Last Sunday afternoon at its regular session the Brotherhood movement was given another push forward. After the opening exercises, the first business was the final selection of a name and as a result of a vote, the name of the organization for one year will be The Brotherhood of Hereford. At this meeting there were present 135 men and many of them took part in the devotional exercises, making talks and pledging themselves for a better life. J. I. Walker lead the meeting and Dr. Johnson opening the talks that were made.

One of the most important matters to be taken up was the reading and adoption of a resolution condemning the "double standard" in society and the sin of adultery. This resolution, printed elsewhere in this issue, was passed with little discussion by a rising vote that was unanimous.

At a previous meeting it was decided to advertise the meetings and so a placard to be placed in hotels and shops was ordered. A small ad will also appear in the Brand. Publicity even for the best of things will advance the cause.

Sheep Ranch Makes Large Increase.

G. A. Hunt and Sons, owners of the Riverdale Sheep Ranch south of Watonga, just received one of the largest shipments of sheep ever brought into Blaine county. The nineteen hundred head of sheep which they shipped in from near Hereford, Texas, last week were of the Ramoulett type. There are about thirty-five hundred head of sheep at the present time which means an enormous amount of wool will be sent to the market from Watonga this year.—Watonga (Okla.) Republican.

These sheep shipt from Hereford were bought from C. H. Pratt and this shipment makes a list of a large number of sheep that have been shipt out of this territory this year. A lot were sent to the San Angelo country and other southwest Texas places.

The March term of the Briscoe county district court at Silverton made a record for dispatch of business last week. Everything was disposed of in two days, including the work of the grand jury, which

High School Debate.

The debate held at the court house last Monday night was not largely attended, probably on account of the threatening weather, but those who did endure the occasion were seemingly pleased, especially when one of the younger debators would hurl a shaft of argument at his opponents. The subject discussed was: Resolved that the Texas Legislature at its next regular session should pass a Compulsory Education law providing that all children of and between the ages of 7 and 14, except those mentally and physically unable, should attend school at least six months during the year.

The affirmative side was championed by Buford Parmer and W. H. Ray; the negative by Joe Owen and A. C. Elliott. Supt. Ben Short of the Hereford City School acted as chairman of the occasion and introduced the speakers. For judges, the debators selected: J. H. Bowers, Frank Lambert and Elmer Dameron.

The affirmative opened the argument by a well prepared and effectively delivered speech by one of the high school young men, Buford Parmer. He was followed by another high school speaker, Joe Owen, whose speech also showed careful preparation and it, too, was well delivered. These were followed by an able address on the benefits of education by the Hon. Bill Ray in his usual logical and argumentative style, but the Brand must admit that he never discussed the subject at issue. (Opinions differ even as to this.) The last speaker talked under considerable embarrassment as he took up all of his time trying to answer the arguments of the affirmative and he never did get to deliver his prepared speech. In the rejoinders by the high school men, they showed a readiness of sharp wit and repartee in replying to their elders on the opposite side. These friendly thrusts were seemingly enjoyed even by the "kindergarten debators."

While the judges were deliberating, Gilbert Fox, in a very earnest and pleasing manner, delivered an oration. He was heartily applauded. Clyde Kibbe was also to have delivered an oration, but was ill and unable to be present.

The judges gave their decision in favor of the affirmative by two to one.

The object of this debate was to give practice to the high school team, who are now at Clarendon in the annual inter-high school debate and oratorical contest.

Files Suit Against City.

A suit was filed on April 8 against the City by L. P. Landrum, proprietor of the Hereford Nursery, to recover damages alleged to have been sustained by his wife, caused by a falling into a road drainage ditch near their home in East Hereford. The accident happened some two years ago and it is reported that Mrs. Landrum has suffered great inconvenience and pain on account of the injuries resulting from the fall.

J. P. Snyder came in yesterday morning with a number of men from the north who have come to look over the country, especially the irrigation farms. When they started out to make a run around the country there were four automobiles required.

WITH COUNTRY NEWSPAPERS

Department of Scissors and Paste-pot—Clippings and Comments—Politics et Cetera.

INTOLLERANCE.

It is not very often that the News comes to the defense of Gov. Colquitt in his numerous quarrels with others, but we can say most heartily that the action of the committee on program for the international Barac-Philathes convention to be held in Waco, in removing the Governor's name from the program, after he had been asked to deliver the address of welcome, is very contemptible, to say the least, and certainly unworthy of Christians or of persons holding positions on a Christian committee, and shows more blind, intollerant political prejudice than piety, and was solely for the purpose of trying to humiliate the governor. But it will not hurt him, and has already proved a boomerang to the committee.—Plainview News.

It is gratifying to see even the papers who have fought Mr. Colquitt all through come to his defense when he is thus offered an affront. Are we growing intollerant of the brother who happens to differ with us on religious and political questions? Are we to return to the "stake" and the "rack" to make others believe like we? Let's take a retrospective view of ourselves occasionally and "see ourselves as others see us."

Thirteen Years In Business.

Some folks are superstitious of the number 13, but not so with the enterprising firm of E. B. Black Co. For nearly thirteen years, they have been in business in Hereford, there being but one or two other firms that were then in business who are still in the same business. This speaks well for this furniture company and they are celebrating their Thirteenth Year by a special sale, the ad announcing same appearing in this week's issue. Mr. Black calls this Thirteenth Year, the Lucky Year, and so be it unto him according to his faith in the future of the country and the prosperity for this good year. In the mean time, read his ad.

The Rain and Weather.

The little shower of rain that began last Thursday night continued with a slow drizzle all day Friday, but the total precipitation would not exceed three fourths inch. Monday afternoon of this week, a new "norther" blew in and by Tuesday morning it was rather cold; in fact, the temperature went lower and lower all day until freezing was good Tuesday night.

Fred H. Oberthier, owner of the electric light plant and capitalist of Hereford, was here this week on a business deal with local people. Mr. Oberthier is a former citizen of Comanche, and the editor of the News has known him for about twenty-five years. He is one of the livest wires on the Plains, and is a great worker in town building, church matters, and most anything else that is good. We have often thought of organizing a committee and going to Hereford and kidnapping him and his family and bringing them to Plainview to be citizens.—Plainview News.

.. Six Large Mills .. Making Crown Silos!

And They are Shipped Direct from the Mills to Your Town. This Means
No Middleman, Less Expense and Less cost to You

There are other good Silos and some poor ones; the Crown is Standard and the Leader, and the only Silo on the Market absolutely guaranteed not to collapse. If the other Silos are "just as good," why don't the manufacturers guarantee them in the same manner? There's a Reason.

The best merchants are careful buyers. Use the same good judgment in buying your silo that you would use in buying an auto and your silo will be a Crown, the Silo that gives perfect satisfaction.

"The Reason Why"

"THE FARMER'S STORY"

I gave the subject of Silos a great deal of study before I decided to invest. You ask why? In my case it meant spending a good deal of money. I am feeding extensively and knew that it would take at least three silos to cover my needs.

I made several trips, looking over the different kinds of silos, and after due consideration decided on the "Crown." I bought seven, erected four on my own place and resold the other three. I intend to put up two more later and they are going to be "Crowns."

W. A. MARGRAVE

Takes Place of June Grass

Enid, Okla., Aug. 18, 1914

Crown Lumber & Silo Co.,

Omaha, Nebraska

Gentlemen: Your telegram received. Under separate cover I am mailing you a picture of some of our 1912 prize winners to be used in your catalog. They were fed all they could eat. We are raising pure-bred Percherons and can say that we have the best of success in feeding ensilage to our stallions, mares, and colts. They like it better than alfalfa. It is the only thing I ever saw that will take the place of June grass.

The Crown Silo kept our ensilage in the best of condition.

Yours truly,

W. S. BOLES

Big Money Maker

Yuma, Neb., June 3, 1913

To Whom it may concern: This is to certify that I purchased a 100-ton Silo over one year ago, and last winter I fed 38 head of cattle two and one-half months on silage and one ton of hay. I shipped my cattle to Omaha and made a profit of \$800.00. My profit was obtained by having cheap feed.

It took ten acres to fill my silo and I positively know that a Silo is the BIGGEST MONEY MAKER a farmer could have, and my advice to all farmers and stock feeders is, if you have not gotten a silo already, get one.

I also wish to state that the CROWN Silo is in a class by its self. The handiness of the door and the union of the staves need no words of praise, as they stand for themselves.

Yours truly,

JOHN F. THOMAS

Best Silo in County

Madison, S. D., July 25, 1913.

Crown Lumber & Silo Co.,

Omaha, Neb.

Gentlemen: This is to advise you that I am satisfied with my Crown Silo and with the work Hanneman & Muggli put on it. I am sending you a sketch of it which you may use as an advertisement if you wish. We think we have the best Silo in the county.

Yours truly,

JACOB RICHTER

Competition compels us to handle the best products obtainable. After a careful investigation of several leading silos, we secured the agency for the sale of the Crown, as we consider it the most modern and down-to-date Silo on the market. Our reputation and business standing will not permit us to sell a poor one. If you want the best silo made, buy a Crown.

The Palmer Lumber Company

Status of West Texas Normal

Canyon, Tex., April 6, 1914.

In response to numerous and varied inquiries from all parts of Texas, and particularly from West Texas, concerning the present and future work and plans of the West Texas State Normal College, whose main building was destroyed by fire on March 25, the following letter is given to the public.

A conservative estimate of the loss from the fire is \$225,000. There was \$80,000 insurance on the building and \$20,000 on the furniture. It is practically certain now that the entire \$100,000 will be paid. The estimated value of property saved, consisting of books, scientific apparatus, desks, chairs, etc., is \$5,000.

While the fire was hottest the faculty met and took initial steps toward the continuation of the year's work and in less than twenty-four hours after the building was destroyed classes were meeting as usual in quarters provided in the court house, in the churches and in a few vacant business houses. The property which was saved was brought into immediate use and orders are being placed as rapidly as possible for all necessary additional equipment. The

institution was fortunate in having to its credit a few thousand dollars from the last legislative appropriation. To this amount the students have added a \$2 book for each and the Alumni have undertaken to raise \$500, and the public school children and teachers of Hartley have made a small but generous donation. With these resources the school will not seriously suffer for lack of equipment.

Perhaps the most gratifying thing about the situation is the unfaltering loyalty of the students and Alumni. Not one student has left on account of the fire and many have signified their intention to remain through the Summer. Not the least encouraging incident is the fact that five students have enrolled since the fire, three of them having come more than 200 miles. Moreover, dozens of letters are coming in daily in regard to the Summer Normal and Summer School.

In this connection it should be said that our Summer session will open on June 2 and continue until August 22, (three months). This Summer quarter is equal in all respects to any other quarter of the year and enables student-teachers to complete in three summers, the work

Alfalfa seed. Harrison. 10-2t

of an entire regular session. Likewise, on June 2, the Summer Normal will open for the purpose of preparing teachers for the State's Summer Normal examinations on July 14-17 and July 28-31. Teachers may prepare for one or both of these examinations. For housing these two schools the commodious public school building, the beautiful and comfortable Randall county court house, and the various churches of Canyon will be used. A training school will be maintained supervised by experts and affording opportunity for observation and practice teaching. For this purpose five critic teachers have been employed and Canyon will furnish the children.

A number of special educational lectures have been secured, most of the members of the regular faculty will remain, and several strong additions will be brought from the public schools of the State.

As to the rebuilding of a house for the school little can be said with absolute definiteness at this time. The matter is in the hands of the Governor and Board of Regents and every effort will be made to protect the interest of the institution. It is believed by the friends of the institution here that a fire-proof building after the model of the one that burned will be erected at the earliest practicable moment.

The tremendous growth of the school would seem to indicate that the State can afford to deal liberally with it. Beginning in September, 1910, with 135 pupils we have today on our rolls for this session 494 student teachers and 135 children in the Training School—a total of 630 pupils. Our enrollment last Summer reached 680, representing every section of the entire State. We have issued in the four years about 200 diplomas and many more first and second grade certificates. Our present Senior class consists of approximately 150 members, representing preparation for almost all kinds of public school work.

In order to help its graduates and under graduates to find the places which they are best prepared to fill and in order to serve as efficiently as possible the schools of Texas by giving to school administrators specific and reliable information about some of those who make application to teach, the West Texas State Normal College conducts a teachers' bureau. This service is performed free of charge to all concerned and every reasonable effort is made to protect the confidence of those with whom the bureau has dealings. Up to date the institution

has not been able to supply the demand made upon it for trained teachers.

Notices.

This is to notify all patrons of the City Water System that all Water and Sewer rents must be paid promptly first of each quarter. Ten days will be allowed after being presented with your bill in which to make payment, after which the service will be discontinued. By order of the Commission.

R. P. Brazil, City Marshal.

Easter Millinery.

Mrs. T. N. Heifner has just received a lot of new hats, consisting of the latest shapes and styles. If you have not bought your Easter hat, come in tomorrow and she can suit your taste and supply you with the proper style of hat at a very reasonable price.

"How does you like my Robinson Crusoe? My wedding cruso?" See it at the court house, Friday, April 17.

We have plenty Bran and Shorts.

THE STORE FOR

Churches and Church Societies

At the Presbyterian church special Easter song service will be given Sunday morning. Rev. Baker, who is at Quanah attending Presbytery, will return to occupy his pulpit.

All of the churches will have Easter services next Sunday morning. Every physically able person in Hereford should attend. A report of the attendance will be made from the different places of worship.

The illustrated lectures at the First Christian church are still being largely attended. The subject is The Life of Jesus. Everyone is cordially invited. The ladies served light refreshments at the close of the lecture last Wednesday night.

A special Easter program will be given at the Baptist church Sunday night by the young ladies of the Philatian class. The exercises will begin at 8 o'clock. At the morning services, the regular sermon will be delivered and special music rendered.

The Junior Endeavors will give a special Easter program at the First Christian church Sunday evening, beginning at 8 o'clock. A part of the program will be illustrated with stereopticon slides. For Sunday morning, the pastor will read his text and sermon to the occasion of Easter.

League Benediction.

THE RURAL TEACHER

Bears Heavy Burden of Civilization.

By Peter Radford.

With the new development of rural life, there comes the demand for increased educational facilities and the impulse of universal education which is sweeping the country calls for intelligent and consecrated leadership in our rural schools. It is upon the rural teacher that one of the heaviest burdens of civilization falls for not only must he lay the foundation of education, but he must also instill into the pupils the real love for country life, which will hold them on the farm and help to stem the townward tide.

In the city, the teacher is a cog in the vast wheel of educational machinery; in the county, he is the wheel. It is he who must mold the character, inspire the ideals and shape the destiny of the farm boys and girls, and if he is fitted by nature for the task, not only will the results of his efforts be reflected in the pupils, but gradually the whole community will be leavened with a new ambition for progress.

He can organize around the school the main interests of the boys and girls and develop the impulse for co-operation, which in time will displace the old competitive individualism and make rural social life more congenial and satisfying. The possibilities for making the rural school the social and economic center of the community are almost endless and the faculties of the rural teacher may have full play, for it will take all his time and ingenuity if he attains the full measure of success.

Must Be Community Leader.

A noted college professor recently said that three things are now required of a rural teacher. The first requirement is that he must be strong enough to establish himself as a leader in the community in which he lives and labors; second, that he must have a good grasp on the organization and management of the new and scientific farm school and, third, that he must show expert ability in dealing with the modern rural school curriculum. If he lives up to the opportunities offered him as a rural leader, he will train boys and girls distinctly for rural life, not only by giving them the rudiments of agricultural training, but by enabling them to see the attractive side of farm life, and to realize that it is a scientific business and one of the most complex of all professions with opportunities as great as those of any other calling.

(CONTINUED ON PAGE TEN)

This map shows the United States divided into four climatic zones. Paint must be made to fit the climate in which it is to be used. Paint for Florida won't do for Arizona or Colorado.

When you buy Lincoln Climatic Paint you can be sure it is exactly suited for this locality. It will not crack, check or peel with the various changes of weather, because it's made especially to withstand this climate.

We have a booklet which tells all about Lincoln Climatic Paints, also a booklet telling how you can do the "Home Painting Jobs" yourself. Ask for these booklets—they are free.

BRAND PUBLISHING CO.

Entered April 17, 1901, in the postoffice at Hereford, Texas, as Second-class mail matter. First number of the paper issued February 22, 1901, as the Hereford Reporter; first number of The Brand issued March 21, 1902.

Subscription Price \$1.00 Per Year, Strictly in Advance

Any erroneous statement affecting the character or reputation of any individual or firm which may appear in The Brand, will be gladly corrected upon being brought to the attention of the publishers.

If you did not get your man in, try boosting the other's man for a while and thus show the spirit of the Brotherhood of Man.

Now that the city election is over, let's every one turn a good hand towards the betterment of the city. A clean-up campaign would be a good thing.

THERE were so many titled gentlemen in that Dallas bunch of Democrats that it is to be wondered "where are the common people." By actual count there were 498 colobels, while the Fort Worth Record, which poses as the "Keeper of the Record Straight," reported that there were some 500 loyal and "died-in-the-weel" Democrats without prefix or suffix at the Dallas meeting.

Gov. Colquhoun is not receiving much encouragement in his proposal to call a special session of the legislature to change the primary law to make majority nominations for state offices possible. Let's see. Was he chosen by a majority vote or was he a minority nominee? Yes, that's right; he fell behind the lag line. Now, he wants to make it hard for the other feller to get an easy nomination. What mortals we be!

THE Brand wishes to be taken at its word when it says that its columns should be as a public forum to the citizens of Hereford and the county. If at any time any one, man or woman, wishes to express views upon the city or county management, they will be welcome to use the columns of the Brand. The only restraint placed upon the matter will be that each one shall be responsible for what he says and therefore must sign his name to the article to be published; not that the name will be printed, if the writer does not so desire, but to show an open and fair spirit and to prevent those who would criticise public officers under cover of the printed page, from abusing the privilege.

THE Brand believes in fair play

even in politics. During the City campaign it was current talk that the Commissioners could appropriate to themselves any amount of salary their greed would dictate or desire. The truth of the matter is, the law fixes the salary at \$5.00 per month for commissioners and mayor in cities of less than 10,000 population. The Brand has been informed that the two commissioners have drawn their princely salaries, but the mayor stated in a public address at the court house that his warrants lie on the clerk's desk "untouched." He may never cash them unless he gets hungry.

It has been suggested by a good citizen that the City Commission should publish from time to time a statement showing how the taxes are spent. This is right and a good suggestion. But this self same citizen is either not a subscriber to the Brand (or has neglected to pay his subscription) for such a statement has been published each quarter as required by law and recently a complete statement showing the receipts and expenditures for the entire time the commission has been in charge of the city's affairs. Ignorance is no excuse in a day of newspapers.

We have a limited amount of Japanese Millet Seed at \$1.00 per bushel. Seed houses sell this for \$7.00 cwt. E. W. Harrison. 10-2t

Brigadier General Blas Orpinel of the Mexican Federal army, who was captured in Amarillo last week while trying to escape to Cuba, was returned to Fort Bliss last Friday by United States army officers.

Sheriff's Sale

STATE OF TEXAS }
County of Deaf Smith } By Virtue of an Order of Sale issued out of the Honorable District Court of Deaf Smith County, on the 3rd day of April, 1914, by the Clerk thereof, in the case of The First State Bank & Trust Company of Hereford, Texas, versus U. T. Miller and Florence B. Miller, No. 598, and to me, as Sheriff, directed and delivered, I will proceed to sell, within the hours prescribed by law for Sheriff's Sales, on the first Tuesday in May, A. D. 1914, it being the 5th day of said month, before the Court House door of said Deaf Smith County, in the Town of Hereford, Texas, the following described property, to-wit: First Judgment for \$139.66 is a foreclosure on the following land, to-wit: 7 1/2 acres of land out of Block No. 29, of the Evans addition to the Town of Hereford, Deaf Smith County, Texas, described by metes and bounds as follows: Beginning at the SW corner of said Block No. 29, thence East 208.71 feet, thence North 521.77 feet; thence East 208.71 feet; thence North 521.77 feet to the NE corner of said Block No. 29; thence West 417.42 feet to the NW corner of said Block; thence South 1042.55 feet to the place of beginning.

Second Judgment for \$643.75 is a foreclosure on the following land, to-wit: 1/2 of one acre out of the NE corner of the South half of the North one-half of Block No. 11, of the Evans addition to the Town of Hereford, Deaf Smith County, Texas.

Lievy on as the property of U. T. Miller and Florence B. Miller, this the 7th day of April, 1914, to satisfy two judgments amounting to \$139.66 and \$643.75 in favor of The First State Bank & Trust Company of Hereford, Texas, and cost of suit.

Given under my hand, this 7th day of April, 1914.

E. W. BAIRD, Sheriff,
Deaf Smith County, Texas.

The Brotherhood of Man.

The following poem written by Dr. Bailey of the Hereford High School has been dedicated to his friend and brother, G. M. Suggs, on account of the sentiment expressed in a talk made by Mr. Suggs at the meeting of the Brotherhood of Hereford last Sunday afternoon:

GIVE THEM FLOWERS.

Eyes that are closed in the slumber of death,
Can't gaze on the beauty of roses;
The perfume of flowers is lost to the breath
That ebbs not and flows not forever.
Hands that are rigid can never caress
The gift or the friend that is giving—
Don't wait till they're gone for your love to profess,
But show all your love to the living.
There are struggles and strivings
and sometimes a fight,
There are cares, there are tears,
there is sorrow;
Don't wait till a loved one is gone

from your sight;
All chances have flown on the morrow.
The heart that is stricken with anguish and pain,
The charm of kind greeting will strengthen;
The handclasp of friendship will ever remain,
While the shadows of life slowly lengthen.
The fairest of blooms in this valley of tears,
Their fragrance, their charm ever living,
Are the deeds that are wrought by a self-sacrifice—
There's nothing that's sweeter than giving.
The gloom is dispelled by the sunshine of smiles
From the grief-shaded faces around us;
Our hearts will then beat in a symphony sweet,
For the rapture of service has found us.

Roll of Honor For the Dimmitt Public School.

Pupils neither absent nor tardy for the 7th month ending April 3rd.
High School.—Dixon Turner, Chester Shiffett, Gano Hastings, Joe Hastings, Jeffie Vaden, Calvin Bell, Charlton Neely, Donald Duree, Worth Clifton, Kenneth Rowan, Estes Noble, Ned Neely, Douglas O'Brien, Harvey Dixon, Dollie Whitaker, Helen Talley, Helen McLean, Gettie Lovelace, Stacy Easter, Maggie Boyd, Faye Hamm, Katie Turner, Jessie Boyd, Eva Rowan, Helen Cowsert, Dora Turner, Lillie Easter.
Intermediate Grades.—Elmer Dixon, Jay Hastings, Willie Easter, Cooper Woodburn, Lake Woodburn, Fred Hamm.
Primary Grades.—Mary Cowsert, Alice McLean, Tennie Hastings, Fannie Cash, Leah Smith, Ruth Talley, Eula Smith, Aline Rowan, Gladys Hastings, Teddie Rowan, Sammie Vaden, Roy Cowsert.

The public school began a holiday yesterday at noon which will include today, Friday, in order that the teachers may attend the teachers' meeting at Memphis which holds session there today and tomorrow.

Rev. W. M. Baker left Monday afternoon for Quanah to attend a session of the Presbytery. He has an important part on the program and will also make some report of his work in connection with the endowment fund of Trinity University. Mrs. F. P. Potter, representing the ladies mission society of the Presbyterian church, also attended, the meeting of the ladies being a part of the program.

C. H. Doak, president of the Santa Fe Tour Company, an organization which will conduct personal tours to the Panama-Pacific Exposition to be held at San Francisco in 1915, was in Hereford yesterday. The tours will take parties on special trains over the Santa Fe, passing the wonders of the Southwest and after seeing the great Exposition will return by another route which will give the tourists an opportunity to see the attractions of the northwest, including Salt Lake City, the Rocky Mountains and its greatest wonder, the Royal Gorge. The Company is selling contracts for the round trip, which contracts include transportation, pulman berth, meals, in fact, all expenses incident to trip except the laundry.

Free Ice.

We will fill every residence refrigerator once gratis between April 15th and 25th. Phone us when it best suits you. E. W. Harrison. 10-2t.

School Notes.

Most of the grades have recovered from the "April Fool" excitement, but the picnic spirit is still in the atmosphere.

Billie Patterson is a new pupil in the first grade.

Graham Myrick of the second grade has been absent several days of an illness.

The third grade regrets very much to lose Annie Fitzhugh Parker, who, with her mother, leaves for Mineral Wells on April 8.

Sallie Matthews of the seventh grade is out of school on account of an illness of her mother.

W. C. Pittman, who has been absent on account of a fractured kneecap, has returned.

The seventh grade broke their tardiness record of several months by having one tardy last week.

The third grade was the only grade having no tardies last week. Those having one were: second, sixth, seventh. The first had only two tardies.

Harland Lambert performed the duties of teacher in his sister's school near Dawn. He vows that he never so much as mentioned the subject of the Mexican War, but few believe this.

The mump victims of the Senior class have returned to school and are getting accustomed to discipline. These same were serenaded a week or so ago by the remainder of the class and for the occasion a "mummy" song was provided.

Clyde Kibbe of the eighth grade, who was to have taken part in the oratorical contest at Childress, is very ill.

The boys who will go to the Childress oratorical contest and track meet are: Edward Price, Jim Black, Sloan Baker, Ralph Smith, track meet; Joe Owens, Buford Farmer, Gilbert Fox, oratorical contest.

Several of the teachers are going to the Panhandle Teachers' Association at Memphis April 10-11, and consequently there will be no school on Friday.

The Rural Teacher
(CONTINUED FROM PAGE THREE)

"School for Parents" Needed.
 The duties of the rural teacher are more varied and complicated than those of the city teacher and he sometimes has to include the parents in directing his efforts for the best results. In communities where the older population is opposed to any departure of the younger generation from established customs in either social or economic life, their co-operation can often be secured by calling community meetings and instructing the parents on matters of community interest. It is related that a successful young teacher in a remote locality had weekly meetings attended by parents of his pupils which finally evolved into a "school for parents" in which they were taught how to live a community life in its broadest and biggest sense.

Social Features Essential.
 The successful rural school is the vital social and economic center of the community and the successful rural teacher is the one who realizes that the responsibility of training local leaders for the future devolves upon him. Organized play, inter-community athletics, community festivals, lyceum and debating clubs, Y. M. C. A.s, with occasional neighborhood entertainments, utilizing home talent, contests in cooking and various other phases of home economics, in corn and hog clubs and other agricultural activities are a few of the methods employed by the successful rural teacher in stimulating interest and enthusiasm while teaching them the fundamental principles of successful community life.

E. H. Fullwood, salesman for the "Wear Ever" Aluminum Cooking Utensil Co., has just finished his second delivery in Hereford. His company now authorize him to work in Castro county in addition to Deaf Smith, Randall and Palmer counties. Mr. Fullwood will canvass the four counties as soon as possible. Any one interested in "up-to-date" cooking utensils in the above named counties will have prompt attention by visiting E. H. Fullwood or phone 350, Hereford, Tex. 10-4tp

Raising Young Chicks.

The great number of young chicks that die every year for lack of proper care robs the poultryman of most of his profit. Perhaps more incubator chicks die than hen hatched chickens. There are several causes for the high death rate among incubator chicks. One is the lack of proper amount of moisture in the machine; another, is the lack of regular heat or too much heat at times, when the thermometer "runs" high. Still another is trying to hatch eggs of different ages in the same machine. All eggs should be carefully tested and none put in that are over 5 or 6 days old. To put in eggs of widely different ages delays the hatching period which should not last more than 12 hours or even less. When the extra heat comes from the live eggs and hatching chickens, it scalds the other eggs and thus weakens the chicks, even if they hatch. But another cause of the fearful loss of chicks, is the improper feeding and brooding. Often they are feed too soon and too much. Forty eight hours is not too long for a chick to wait for his first meal and then it should be light. They should, however, have water the first day and a small amount of fine grit. The best ration for young chicks is common corn bread, sometimes called egg bread. It should be well cooked and fed in a crumbly condition. The crust might be wet slightly with sour milk. If available sour milk

(buttermilk) is one one of the best liquid foods and serves as a tonic. The brooding is best done with hens, unless you can be in constant attendance at the brooders. A few hours neglect may prove fatal to the whole hatch. The young chicks should be placed with hens as soon as possible, giving them to the hen at night. Twenty or more may be given to one hen, depending upon the size of the hen and her disposition. Never use a fractious hen or one easily scared.

Saithart Women Drives Auto into River.

Mrs. C. C. Slaughter, the beautiful and accomplished wife of C. C. Slaughter, cashier of the Mercantile National bank, her baby and her mother, who had started on an overland motor trip from Ardmore, Ok., to Pueblo, were the victims of a thrilling experience when they were thrown from a ferry boat into the river. Disregarding all superstitions incidental to Friday, the thirteenth, Mrs. Slaughter, her year old baby, and mother, Mrs. C. E. Oakes of Ardmore, Ok., together with a maid and chauffeur started in the Slaughter seven passenger Locomobile from Ardmore on an 800-mile trip to Pueblo Friday morning. But before the day was ended the car with all its passengers was dropped to the bottom of a river, and this is how it happened: The touring party had driven as far as Temple, Ok., and there it was necessary to cross the Cache river by ferry. Just as the ferry started, the walking beam of the boat broke and the machine was thrown out into the water. All members of the party escaped without injuries. It was twenty-four hours, however, before the machine was rescued from its river bed. The chauffeur immediately resigned his position. Mrs. Slaughter telegraphed all particulars to her husband, who motored to Ardmore with her, but who returned last week. Mr. Slaughter wired to ship the car and to come home by rail, but Mrs. Slaughter, who is an enthusiastic motorist, replied that she would continue her trip in the machine and for him to send a chauffeur.—Pueblo Star Journal.

INDIGESTION OVERCOME

Overcome by Simple Remedy. Hurried and careless habits of eating, irregular meals and foods that do not harmonize, tend to weaken the digestive organs and result in different forms of stomach trouble. If you are one of the unfortunates who have drifted into this condition, eat simple foods only, slowly, regularly and take Vinol, our delicious cod liver and iron tonic. Mrs. H. J. Smith, Thomasville, Ga., says: "I suffered from a stomach trouble, was tired, worn out and nervous. A friend advised me to take Vinol. My stomach trouble soon disappeared and now I eat heartily and have a perfect digestion and I wish every tired, weak woman could have Vinol, for I never spent any money in my life that did me so much good." The recovery of Mrs. Smith was due to the combined action of the medicinal elements of the cod livers—aided by the blood making and strength creating properties of tonic iron, which are contained in Vinol. We will return the purchase money every time Vinol fails to benefit. P. S. Our Saxo Salve stops itching and begins healing at once. The Corner Drug Store, Hereford, Texas.

Q.—Did the church at Pentecost have such a full understanding of God's purpose as we now enjoy? (L. T.)

Answer.—More knowledge is possible today than at the beginning of the age. Revelation, the last book of the Bible, was written about A. D. 96. The introductory words announce it as a special revelation of things not previously understood. This proves conclusively that up to that time, at least, God's plan had not been fully revealed. So far as the early church was concerned, probably none understood any part of the book. Even John, who saw the visions, was probably ignorant of the significance of what he saw. He was both a prophet and an apostle; and while as an apostle he understood and taught what was then "meat in due season," as a prophet he uttered things which in future seasons would supply "meat" for the household. To those who have earnestly and prayerfully searched the entire Bible in the past it has continually unfolded its beauties. Thus gradually God opens up His truth and reveals the exceeding riches of His grace; and consequently much more light is due now than at any previous time in the church's history.

Q.—Please explain, "The end of the commandment is love out of a pure heart and of a good conscience and of faith unfeigned." (R. H.)

Answer.—The pure heart is wholly devoid of everything opposed to love. It has a hatred not of liars, but of the lies; not of slanderers, but of the slanders; not of evil speakers, but of the evil speaking, not of the contentious but of the contentions. And of course one who has this purity of heart in which love has full control will guard his every thought and word and act that he may keep his body in subjection, that the will of God may be done in him perfectly. And if he finds that he has inadvertently violated these principles, he must have that good conscience which would be even more ready to condemn the wrong in himself than in another, and, led by it, he must hasten to make good the wrong to the best of his ability. Such an one, nevertheless, will undoubtedly find himself evil spoken of, even as did the Master and the apostles, and if he does not have the unfeigned faith in God he may be tempted not to rectify the wrongs, the injustice done. Faith in the Lord, therefore, in combination with a tender conscience and pure heart necessary to the appreciation of love, is the end, the fulfillment of the divine commandments.

Q.—Will the Harvest time with its gathering of the wheat and the burning of the tares be the end of everything? (M. C.)

Answer.—The Harvest of this Gospel Age is to be followed by another plowing time and sowing time—the new dispensation, the Golden Age—which at its close will also have a Harvest or reaping. The Bible shows that the work which God has been effecting during this age is resulting in merely a "First-Fruits" (James 1:18). In the age to follow this one the sowing will be world-wide and good seed only will be sown, for the adversary will be bound "that he should deceive the nations no more." There should be a much bigger crop of After-Fruits. Through the prophet the Lord tells us that the plowman of the new dispensation will follow closely upon the heels of the reaper of the present epoch. He declares: "The plowman shall overtake the reaper" (Amos 9:15). The Lord's plowshare, by which He will prepare mankind for the blessings of the Golden Age, is the "time of trouble" with which this age ends and the new one is to begin. When all hearts have been softened in the world-wide catastrophe, when the monuments of grasping greed and selfish ambition have crumbled in the earth-shakings, the message of love will find quick response in the hearts of chastened humanity.

Q.—Is it necessary to have Bibles in order to worship God properly? (K. D.)

Answer.—He who can look into the sky with a telescope, or even with the natural eye alone, and see there the immensity of creation, its symmetry, beauty, order, harmony and diversity, and yet doubt that the Creator of these is vastly his superior both in wisdom and power, or who can suppose for a moment that such order came by chance, without a Creator, has so far lost or ignored the faculty of reason as to properly fit the Bible description: "The fool hath said in his heart, There is no God." It is a self-evident truth that effects must be produced by competent causes. Every plant and every flower speaks vol-

umes of testimony on this subject. Intricate in construction, exquisitely beautiful in form and texture, each speaks of a wisdom and skill above the human. How short sighted the absurdity that boasts of human skill and ingenuity, and attributes to mere chance the regularity, uniformity and harmony of nature; which acknowledge the laws of nature, while denying that nature has an intelligent Lawgiver. A foundation for worship is thus laid in a knowledge of nature's God, but it is necessary to have His written Word "that the man of God may be thoroughly furnished unto every good work."—2 Timothy 3:17.

YOUR MONEY BACK IF YOU WANT IT

Leading Druggists Will Refund Purchase Price of Dodson's Liver Tone if You're Dissatisfied.

Betts & Clark may not be willing to guarantee the safety and reliability of calomel for constipation and sluggish liver, but these stores will and do stand back of Dodson's Liver Tone—with an unconditional guarantee to refund the full purchase price (50c.) instantly without question if you are not satisfied in every with Liver Tone and its results.

If you take calomel, perhaps you will seem to get temporary relief, but it often happens that the after-effects are at least unpleasant and sometimes dangerous. Calomel in large doses is a poison and actually deadly to some—perhaps to you—and hence its use means taking chances.

With Dodson's Liver Tone you are always safe. Its reliability is so certain that it can be sold with the

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

money-back guarantee. It is a vegetable liquid, pleasant to take, and it cannot harm. It clears up the dulled and aching head and cleans out the clogged system in what many have found to be a wonderful way. Dodson's Liver Tone will do for you what it has done for thousands—and you run no risk in trying it. Ask Betts & Clark about Dodson's and the guarantee.

Trades Illinois Property For Hereford Farm.

Dan Shane has returned from Illinois where he went to inspect some property with a view of exchanging his farm near Hereford. E. T. Barnett, brother of our townsman, J. W. Barnett, had been here some days ago and looked at Mr. Shane's farm and the two went back to Illinois to close the trade which has been done. The Hereford farm which Mr. Barnett acquires contains 320 acres of fine, smooth land in the shallow water district, it being only 35 and 45 feet to water on the half section. Mr. Barnett and his family will move here at once and Mr. Shane and his family will go to Illinois. This realty deal was made by Pitman & Wear, real estate men of Hereford.

Resolutions Adopted by the Brotherhood of Hereford.

Whereas, this organization of Christian men, banded together for the upbuilding of righteousness and of extending the helping hand, has set itself and so declares against all sin and for righteousness; and

Whereas, while all sin is offensive to God and hurtful to man, yet we recognize that some sins are more hurtful to society than others; and

Whereas, we know of no sin so baneful to our social order, or more offensive to God, or destructive to happiness of man than the sin of

adultery, when the oily tongue of the lecherous seducer draws itself across the family hearthstone, he works ruin to his victim, brings sorrow and shame to the family and mars the quiet and happiness of the whole community.

Therefore, resolved that it is the same of this Brotherhood, that we believe our conventional social standard to be essentially wrong, in that it visits all the shame and ostracism on the victim, while it allows the real culprit to go unpunished, uncensured; that this is contrary to our Savior's example, when he refused to condemn the woman while the men were guilty.

Resolved further that is the sense of this Brotherhood that the seducer should be punished rather than the seduced; that we favor a single standard of morality for both sexes; that purity should be demanded of men as well as of women, and believing that their violation of our social law is in a large majority of cases chargeable to the seductive wooings and false promises of the man and that he should be more severely disciplined rather than the unfortunate victim of his lecherous passions;

Therefore, be it further resolved, that we pledge our moral, and if need be, our financial support, to the end that this heinous crime shall be driven from our midst.

"OCEANS OF WATER."

We may not be the nearest to you, but we will come the nearest pleasing you. Betts & Clark. 14tf

THE WOMAN IN THE FIELD
The Farm Woman Needs Relief More Than Her City Sister.

By Peter Radford.

Much has been said and more written about the woman in the factory and behind the counter, but how about the woman who works in the field? I want to say a few words in her behalf. I regret a necessity that compels woman to work for a livelihood and I favor not only shortening her hours, but freeing her from manual labor entirely. I crave for society that high standard of excellence where the home is woman's throne and her life is devoted to molding the character and elevating the thought of the rising generation. But so long as want, greed and misfortune prevail in this world, women, through choice or necessity, will work, and perhaps they will work at one task or another as many hours per day as they please.

We may pity the weak and admire the strong in their struggle, but the farm woman is entitled to her share of sympathy and reward.

All Must Toil.

The labor problem, as relates to men, is a most vexatious one and when we apply it to women it becomes more seriously complicated. We will always have to work unless some political genius can put a law on the statute book that will enable us to live without labor. So long as every person must meet toil face to face, the best we can do is to equitably distribute the burdens and reward of labor, and if there is to be a revision of wages and a shortening of hours, I want the farm woman to get her share. She has more reason to complain than any other class of toilers. She has, as a rule, fewer comforts, fewer pleasures, less recreation and less opportunity for enjoyment than her sister in the city. She has not so many conveniences and fewer luxuries and less to be thankful for than women who live in the town, but she toils on, a model of consistency, patience and womanly devotion. Certainly she should be the first to be rewarded.

The Real Labor Problem is on the Farm.

The great dailies with flaming headlines deplore the lot of women who toil in the cities, the city pulpit thunders with sympathy for her and the legislators orate in her behalf, but not a line is written, a word said or a speech delivered in the interest of the million women who labor on the farm. Where one woman works in the cities in Texas, there are a hundred mothers toiling in the field, and no mention is made of it. Is the woman in the city entitled to any more consideration than the woman on the farm? I contend that she is not.

The city woman may be more easily restrained by legislation and she may have a more attentive audience when she cries aloud, but the real labor problem, insofar as it relates to women and children, is on the farm. It is there we find the mother, drenched in perspiration, and the child, its lips wet with mother's milk, wielding the hoe and gathering the harvest, toiling day in and day out without hope of reward.

The City Life Puny.

The farm women work from sun until sun. They do their housework and lull a half million babes to sleep after the chickens go to roost and they get breakfast and milk the cows before the lark sings. The city woman frequently chafes under hardships that the farm women would consider a blessing. The city people are great talkers and oftentimes greatly magnify their troubles and enlarge their accomplishments. This characteristic permeates organized society as well as enters into the individual life of cities. There are orphan asylums which are doing commendable work and should be encouraged, that boast of their accomplishments, but I have seen widows in the country make a crop, drink branch water and eat corn-bread and molasses and raise more children and better children than many of these city orphan asylums. The cities need to get back to the soil with their ideals. They are hysterical, puny and feeble in their conception of life, its requirements and its opportunities.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Patron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.
