Patricia wondered what had become of that million and a half. His cabin showed that he had no money at all now except his meager salary. Why had he flung away a second fortune, to the last cent? What had happened to him out there on the West Coast?

Just then she did not pause over these questions.

"By the way, Miss Wellington," he asked her, "why did you give Bill Fornier that \$500 this afternoon?"

"Why—why because I wanted to?"

"Why did you want to?" he insisted.

"Because—well . . ." Patricia groped for words to explain her irrational act. She herself did not fully understand the strange feelings which had gripped and shaken her to the depths that afternoon in Bill Fornier's tent.

"I don't know why I did, unless—well I saw him faint while he was working, and then Poleon told me about his sickness and his family, and the fight he's putting up; and I—I just had to help him a little."

"In return for that money, Fornier wrote you out a paper giving you part interest in his claims, did he not?"

"That was merely . . . He refused to take the money outright, it hurt his pride; so I let him make that arrangement with me. He believes I meant it."

"Do I understand that you were just playing Lady Bountiful to him? That your \$500 were, ah, angel money?"

"What do you mean?" Patricia demanded. "In Craig's sharp questions she felt some lurking suspicion of her act. What under heaven did he suspect her of?"

Craig answered: "Anyone who's connected with the Wellington company or who's of the Wellington blood—I simply can't imagine 'em being bountiful to anybody or having a speck of human sympathy for any person, especially for a poor illiterate rock-hog like Bill Fornier. What did you do with the partnership agreement that Bill wrote you?"

"I've got it with me. Here," she fumbled in the back of her vanity case. "But what are you driving at? I don't get you."

"Well, then, get this," he said, with a sternness that awed her:

"Bill Fornier is facing death; these claims are all he's got on earth, all that stands between his family and complete destitution. For anybody to euvre him out of them or edge them away from him—I can't think of a more heartless and mercenary thing to do."

The reason behind Craig's sharp questioning burst upon Patricia like a bombshell.

"You mean," she gasped, "that I—I'm trying to steal those claims of his?"

"I don't know whether you are or not. You may not be. On the other hand, Warren Lovett may have put you up to this job. For Bill's sake I'm taking no chances. If you're on the level, how about tearing up Bill's partnership agreement? Here and now."

Patricia went white in the face with furious anger. She had never been so insulted in all her life.

"Why you, you scurrilous hound," she stormed at him. "If I were a man, I'd—I'd fight you. I'd hammer you till you—you . . . You're a liar! You're a low-down—lowdown—You take back what you said! Say it's a lie! . . . You won't?"

She drew back her hand and gave him a stinging slap on the cheek. "That's what I think of you and your lying suspicious!" She tore Bill Fornier's paper to bits and flung the pieces in his face.

"Don't you ever speak to me again! Don't you ever even look at me again. I hate you!"

Patricia ran down the little hollow fairly blinded by her furious tears. She felt that she had never hated any person on earth so violently as she hated Craig Tarlton.

It was not this Bill Fornier matter, no Craig's unjust and cruel suspicion about it, that stung the worst. It was his stony coldness. For him God's lake was dead; she was dead. But he wasn't dead for her. This meeting had brought her an aching, almost terrifying resurrection of that God's lake idyll.

CHAPTER IV

In the event-filled days that followed, Patricia made up her mind half a dozen times to flee from Dynamite Bay and return home. "Get away from Craig! Three thousand miles away!"—that was what her good sense warned her.

But she found it utterly impos-

sible to tear herself free. The hands of a sick man, Bill Fornier, held her there. The hands of 300 men, those homeless and disorganized prospectors, were reaching out to hold her there. And then, above everything else . . . Craig!

At Bill's tent and in the main camp she met Craig frequently. They had no more quarrels—his curt nod and "how d'you do" gave no opportunity; but every encounter was a bad emotional upset for her. She told herself, and with a good deal of truth, that she hated Craig Tarlton and wished that their paths had never crossed again; yet she contrived to meet him almost daily, and she could no more stop thinking about him than she could stop breathing.

For a few days at first she put her pride in her pocket and made little overtures of friendliness; but Craig ignored them, ignored her.

"Why," she asked herself in tears at his rebuffs, "does he single me out?" Little by little she pieced together the answer to that. He disliked her father intensely; disliked what he called the "jungle code" of the company; considered her a shallow, "snooty," aristocratic creature who had wasted the most precious years of her life in a butterfly existence.

This opinion of his had so much truth that it stung.

In a hazy way she began to understand the story of Craig's four Arctic years. His exile was altogether a voluntary one. In the city country—DeCarie told her this—he could have been free-lancing as a high-priced consultant or could have headed the staff of some big mining company. But he wanted nothing of that. Of his own personal fortunes he was entirely careless, while the carelessness of a man who had "made his million"—had indeed made it twice while still in his twenties—and could do handsomely again if he wished. He simply did not wish. A quiet cabin, his books, he wished. He simply did not wish eighteen hundred a year—that was his own free choice.

In a way he had turned monk. Certainly he was that toward her!

THE STATE OF TEXAS

To the Sheriff or Any Constable of Deaf Smith County, Greeting:

You are hereby commanded to summon W. F. Nicholas, Elda Nicholas, Minnie Law and her husband, Law, and W. G. Harrell to appear at the next regular term of the District Court of Deaf Smith County, Texas, at the courthouse thereof in Hereford, Texas on the first Monday in August, 1937, the same being the 2nd day of August, 1937, then and there to answer a petition filed in said court on the 29 day of May, 1937, in which suit Frank F. Ferry, Kent Chandler and Farwell Winston, as Trustees, are plaintiffs, and W. F. Nicholas, Elda Nicholas, Minnie Law and her husband, Law, W. G. Harrell, Phillips Petroleum Company and Oliver Farm Equip-

ment Sales Company are defendants, the nature of the Plaintiff's cause of action being alleged as follows:

That plaintiffs are Trustees under a Declaration of Trust dated December 23, 1933, recorded in the Deed Records of Deaf Smith County, Texas, and are assignees of the vendors under the contract hereinafter mentioned, which vendors were Francis C. Farwell and Frederick E. French, Trustees.

That heretofore, by written contract dated May 27, 1929, recorded in the Deed Records of Deaf Smith County, Texas, Volume 64, page 142, the said Francis C. Farwell and Frederick E. French, as Trustees, contracted to sell to W. F. Nicholas the following described land in Deaf Smith County, Texas, to wit: the Northwest Quarter (NW 1/4) of Section 22; the East half (E 1/2) of Section No. 27 and the North half (N 1/2) of section No 34, all in Township No. 3 North of Range No. 1 East, of a Capitol Syndicate Subdivision in Deaf Smith County, Texas, as shown by plat of such subdivision of record in the Deed Records of Deaf Smith County, Texas.

That said contract provides that the purchase price of said land is \$16,800.00, payable on or before six years from November 1, 1929; that the vendee shall each year at the proper season sow at least 80 per cent of the land described in the contract to wheat; that the vendee shall, beginning with the year 1930, pay the taxes on the tract of land described in the contract before they become delinquent; that failure of the vendee to perform the covenants imposed upon him by such contract shall nullify the same and all payments made and all improvements placed on the land shall be kept by the vendors; that such contract is assignable. That plaintiffs have performed all of the covenants imposed upon them by the terms of such contract.

That no payments have been made on the purchase price of said land and the same was not

sowed to wheat in the proper season in 1936, and taxes on the same for the years 1935 and 1936 were not paid by the defendants. That on account of the defendants' default in the payment of the purchase price of said land and in the tilling of said land, and in the payment of taxes as provided in said contract, the plaintiffs have declared the contract for the sale of said land at an end and are entitled to recover the title to and possession of said land from the defendants and each of them.

That the defendants, Elda Nicholas, Minnie Law and her husband, Law, W. G. Harrell, Phillips Petroleum Company and Oliver Farm Equipment Sales Company, are claiming some interest in and to said land, the exact nature of which is not known by the plaintiffs, but whatever right, title or interest said defendants have in the land was acquired by virtue of the contract above mentioned, and is subordinate and inferior to plaintiffs' title and claim to the land.

Plaintiffs pray that defendants be cited to appear and answer their petition, and that the plaintiffs recover title to and possession of the land and improvements; that the contract for the sale of said land be declared at an end, and for general relief.

You are hereby commanded to summon the defendants W. F. Nicholas, Elda Nicholas, Minnie Law and her husband, Law, and W. G. Harrell, and to serve this citation by making publication of this citation once each

week for four consecutive weeks previous to the return day hereof in some newspaper published in your county, but if there be no newspaper published in said county, then in any newspaper published in the nearest county in which a newspaper is published.

Herein fail not, but have you before said Court on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed

the same. Given under my hand and the seal of said court at my office in the City of Hereford, Texas, this 29 day of May, 1937.

(Seal) L. H. FOSTER, Clerk of the District Court of Deaf Smith County, Texas.

Issued: This the 29 day of May, 1937. L. H. FOSTER, Clerk of the District Court of Deaf Smith County, Texas. 26

LIVING UP TO MY AD

Giving you tops in Mileage

I know the trouble. So many oil ads yell mileage, that you can't tell one way or another. I don't want my own ads to be in that class, so I'd like you to know all I'm staking, when I personally recommend Conoco Germ Processed oil to you. In my case, you see, I'm the owner of my business. And there's nothing makes repeat customers for me like my Germ Processed oil . . . or I ought to say, the long mileage it gives you. The patent Germ Process makes this oil get fastened real firm to the bearings and cylinders and

other parts—as if they'd been built with an actual plating of oil that can't separate . . . can't thin out and burn right up. Neither is it going to run down every time you stop. Then you can't make any "dry starts" with Oil-Plating, and right there is where engineers say you will end a good half of all the wear you used to get in Summer. The less wear, the less oil your engine eats. You'll get on to this yourself, from your cool quiet Oil-Plated engine. And that's how I make another good friend for Conoco Germ Processed oil.

An Important Milestone

This year, the 161st anniversary of the signing of the Declaration of Independence, is of even greater significance as the Sesqui-Centennial of the adoption of the Constitution of the United States.

One hundred and fifty years have passed since that far-seeing body of Americans meeting in Philadelphia drew up an instrument which the Englishman McCauley was later to call the greatest charter of liberties and government ever written. In that century and a half the nation to which it gave birth has vindicated time and again the wisdom of its fathers.

With pride and with thanksgiving we salute our country on the occasion of this important anniversary.

Mrs. Rosson's Father Injured.

Mrs. S. P. Rosson left Wednesday morning for Portales, New Mexico, to see her father, who was injured last Wednesday, June 24, in a fall from his horse. Mrs. Rosson went over when the accident occurred, but finding that no bones were broken, she returned home the next day.

VESPER TEA GIVEN AT CHURCH

A unique and interesting program was given Sunday evening at the Christian church when members of the Sunshine Squad class entertained parents and guests with a Vesper Tea. The entire entertainment was arranged and presented by the class of ten girls. Mrs. J. B. Stoker is the teacher.

The program opened with a piano duet, Snowbells, by Lillie and Gertrude London, followed by a class chorus, Living for Jesus. The 23rd Psalm and Lord's Prayer were given as devotional. June Dameron sang Follow Me, accompanied by Mrs. Stoker. A clever little playlet was presented. The dramatization came as a climax to a month's study of the Bible, and written by Lillie and Gertrude London, two members of the class. The scene took place in a modern home where two sisters were discussing the Bible. When the younger girl asked where the Bible came from, the rest of the characters appeared, in costume, to show her how great men and women lived the stories of the Bible. The Scribes told how it came to be written. Those who took parts were Lillie London as Mary, Carrie Bess Putman as Ann, June

Dameron as Abraham, Gertrude London as Lot, Lois Agnes Gilbreath as Elijah, Rachel Ireland as the Woman of Zarephath, Margaret Marie Bain, as the Boy of Zarephath, and Katherine Henderson and Dorothy Coombes as the scribes. The closing response was given by the class.

After the program refreshments were served from a table centered with a massed arrangement of pink roses and baby's breath in a crystal bowl. Tall green candles in green and black holders burned at either side. Gertrude London and Lillie London presided at the punch bowl.

BRAND READERS CLEAR UP MYSTERY OF BUDDY COX

Following the appearance last week of an article in The Brand which sought to identify Buddy Cox, son of Mr. and Mrs. Victor Cox, readers of the paper established the identity of the six-year-old lad who literally lassoed his way into a Hollywood movie contract.

Tom H. Hanks of Dimmitt, clears up the identity of the youth with the following letter:

Lived At Dimmitt.
"I noticed your article in the June 24 issue of the Hereford Brand with regard to the inability of the citizens of Hereford to identify Mr. and Mrs. Victor Cox, whose son, Buddy Cox, was given a contract for movie work in Hollywood."

"I believe that Buddy was born and reared in Plainview, Texas, and lived there for perhaps two years before moving to Houston. He moved with his parents from Houston to Hollywood."

"Mr. Victor Cox is the brother of Ralph, James, William and Ted Cox, of Dimmitt. He is the son of Mrs. J. A. Cox of Plainview."

"I am sure that you can verify these details if you care to do so, by contacting any of the above."

"Very truly yours,
"TOM H. HANKS."
Mrs. Albert Farris of the Hereford Telephone Company, who advanced similar information as to

the identity of the youngster. The commotion followed release of the United Press news item from Hollywood recently which showed the youngster to be from Hereford. Buddy is scheduled to make his first picture with Bob Allen, Western movie star.

Is Versatile Youth.
Although Buddy only weighs 35 pounds, he ropes, rides, sings and dances. He got the contract after leaving his parents in the car outside Columbia Studios and making the contact personally, according to the UP release.

"The man says you'll have to sign the papers. I'm going to be in a picture with Bob Allen," Buddy was reported to have shouted through the window to his waiting parents after he closed the deal.

"Granny" Kring Dies Friday At Jumbo

COLORFUL CHARACTER LIVED NEAR HERE EIGHT YEARS

BY MRS. ULLMAN HUNTER.
Granny Kring, a colorful character who has lived with her son, C. Kring, in our community the last eight years passed away last Friday, June 25, at 10:55 a. m. She had been bedfast for more than a year and suffered a paralytical Sunday which caused her death. Granny was 90 years, three months and one day of age. She came to Anderson county, Texas, from Tennessee at the age of five years. From Anderson county she moved to Navarro county, and at the age of 22 years was married to Fred Kring. To this union were born 10 children, five of whom are living: Mrs. Nena Boggus, of Homan, N. M.; Mrs. Allen of Huckabee, J. H. Kring of Huckabee, and C. Kring of Hereford. Mrs. Jessie McGinnis of this community, and Mrs. Jim Baggs of Amarillo were two of several grand children. Three great grand children are known here, Mrs. C. D. Pinckert, now of Parlin, Colo.; Bill Hargett, of Black, and Charles McGinnis of Canyon. She had four great-grandchildren, Richard and Dan Pinckert and Billie Jean and Glenda Dell Hargett. Interment was made in the Stephenville Cemetery beside her husband, who died 20 years ago.

UNION SUMMER REVIVALS

Without question, Hereford's Union Summer revivals are indeed worthy of commendation. The services are held each Sunday evening, and from time to time feature services by different pastors, along with occasional outstanding guest speakers.

Although the religion of no specific denomination is advanced at these Union Summer Services, the gatherings are of general religious nature and are meeting with increasing approval as they continue.

Pastors of the churches included in the revival series have more time to devote to their Sunday morning services each Sunday in their own churches during the hot summer months. At the same time the pastor who delivers the Union service sermon also has more time to prepare his sermon. Various church members of the community are brought closer together on a common ground.

Fellowship is always a worthy cause. The Union Services have proved unusually interesting and educational. Plan now to attend these Sunday evening services; you will be well repaid for your time and effort, as you gather for worship with your friends, neighbors and acquaintances.

WHAT ABOUT THIS?

Is the greatest wheat crop ever made by any county in the history of the State of Texas going to be a detriment to Floyd county in the long run?

Good business men there are who say this is true. The three million dollars and more to be realized from the 1937 wheat crop by 1500 farmers will cost the county twice as much or more in the run of four years, this line of thought argues it will do to keep in mind. Long, agonizing years many men good and true tried to "ring the bell" again after the huge crop of 1920 here. But a reasonable market and a reasonable crop were mighty hard to make hit together and man after man went broke at it. With them went banks, machinery companies, merchants, doctors, lawyers, world without end. Some saved themselves by milking Jersey cows. Others took to sheep. A few who were unusually shrewd kept up the game and stayed even bucking the wheat business.—Floydada Hesperian.

Although Deaf Smith County somehow has managed to escape the ruination and evils of a three million dollar wheat harvest this year, the above thought advanced by our neighboring paper is one well worthy of consideration. The depression, some persons declare, has taught us how to live—how to enjoy life most thoroughly. Like graduating from high school, the diploma means nothing; it is what we have learned, and the application of that learning which really counts. So have we gone through the recent depression, and the time comes now to ask ourselves, "Have we learned anything?"

By Their Words AND OURS

Out of the three million or more dollars the 1500 Floyd County farms will realize from wheat this year, some will be wasted, of course, a little unwisely spent and some put into entertainment, fun of one kind and another, this last being not unwisely done at all, in all likelihood.—Floyd County Hesperian.

The Chinese are much given to the pastime of kite flying and some of the constructions are marvelous to behold. The Chinese kites often have two strings and these enable the operator to make

the kite do some wonderful things. It becomes an aerial messenger, as it is possible to make the kite form letters and characters by which messages may be exchanged.—Hockley County News.

The gambling fraternity is very bitter against Governor Allred. They only have themselves to blame, however. If their crookedness had not gone beyond bounds, sentiment against them would not have become so strong.—Quanah Tribune Chief.

Most people fail to do the good that lies before them because they are hunting some material formula for reforming the world.—Plainview Community Weekly.

Definitely, said Judge S. W. Lowe, the depression is over. The County Judge sold for cash, with-

Funds were being raised for the erection of a new school building in Hereford. Either brick or wood was proposed as building material, but contributors seemed to prefer brick as donations for that kind of building were in many

This part of the Panhandle was preparing to equip an exhibition car over railroads of the North and East. This car would contain principal items of importance from this region, and it was proposed to exhibit it in all the principal

According to Station Agent J. W. Lacey, railroad business in Hereford more than doubled that of the preceding year.

The local committee was at work raising \$15,000 as bonus for the construction of a new railroad through here. Of the amount asked about \$9,000 had already been subscribed.

Engineers were busy on the Santa Fe here, straightening the curve just west of town and reducing the grade.

out thought of a trade-in, a vehicle of the type that has not been sold in many years, especially since the stock market crash. HMT (Hug Me Tight) Buggy was sold for cash by Judge Lowe to Hugh Brown. The deal was consummated Wednesday, after pending 30 days. Mr. Brown has always owned a buggy and when his old faithful carriage creaked with age, he had some difficulty locating another. Yes, definitely, says the Judge, the depression is over when one can sell a buggy for cash in this day of automobiles.—Clarendon News.

Widespread objection to and much discussion about it, has come out of the showing of the brief feature of a March of Time movie release, shown a few days ago in Amarillo. Leading the parade of objections has been Ed Bishop Dalhart Texan, publisher. He has been given support in his objection to the picture by a number of leading civic organizations including an intensive campaign by the Amarillo Junior of Commerce to halt further showing of the picture. The March of Time picture—filmed in Dallam county and other parts of the Panhandle, was, at the time it was made, represented to be an educational picture designed to show the work being done and the headway already made to check soil erosion by wind. Those who have seen the picture have condemned it, declaring that it is as bad and as detrimental to the Panhandle as was last year's film by the Resettlement Administration, "The Plow that Broke the Plains"—Moore County News.

Fifty four farmers have taken advantage of the offerfree advantage of the offer of free trees which are being supplied by the Soil Conservation to the county agents office.

According to the records in county Agents Stovall's office 2321 trees have been delivered since Saturday morning. This is slightly more than one-half of the number available as 5,000 were supplied.

The trees are Chinese elm, desert willow and honey locust. Anyone interested in securing trees should contact the county agent's office.—Ochiltree County Herald

Nine years ago this fall, in Sherman, ground was broken for the first building of the home for aged members and orphan children of the Supreme Forest Woodmen Circle. The official groundbreaking ceremony fell on the birthday of Mrs. Dora Alexander Talley, then national secretary of the society.

Today word was received from national headquarters in Omaha, Neb., that the board of directors had unanimously decided to name the administration building of the home for the woman whose birthday was celebrated so uniquely in November, 1928—Mrs. Dora Alexander Talley, now national president.

The tribute to Mrs. Talley was well deserved. It was said, for the home is responsible to Mrs. Talley for its very existence. It was in her mind, more than a decade ago, that the home was born. She has followed its every step from the time the land near Sherman was purchased until the present. She has supervised the home activities and is beloved by all its residents.

The first and largest building of the \$500,000 home will be given its new name in a special dedicatory service in Sherman on or about Mrs. Talley's birthday this year, the directors announced.

WHEN COOKING EGGS, HEAT THEM GENTLY

Low heat is the rule cooking eggs because eggs are protein food. High temperatures harden most proteins. Moderate heat keeps them tender. This fundamental principal of cooking, say specialists of the Bureau of Home Economics, applies to eggs, meats, cheese and fish. They say never actually boil an egg, but "soft-cook" or "hard-cook" it with water at the simmering point. Scramble eggs in a double boiler, instead of directly over a flame.

Poached or "dropped" eggs are slipped into lightly salted boiling water which cools a little as each egg goes in, and is kept just under the boiling point until they are "set" sufficiently to lift out. Fried eggs never will be leathery or have hard edges if cooked in a covered pan with a small amount of moderately hot fat. The cover helps the enclosed steam to cook the yolk delicately with the white. Omelets, whether flat or fluffy, require slow cooking at low heat, with enough fat to keep them

from sticking to the pan. In custards, eggs thicken the sweetened milk when the mixture is carefully cooked. Soft custard is stirred in a double boiler with the water just below boiling. It must be removed from the heat as soon as it begins to thicken or it will curdle. A baked custard is not stirred, but is set in a pan of water in the oven and cooked at low heat. A soufflé also needs a very moderate oven and will not fall if slowly baked in this way. Sponge cakes and angel food cakes, because they contain so many eggs, require a moderate or low oven.

Shower At Schroeter Home In Honor of Mrs. Wayne Dyer

A lovely miscellaneous shower was given Friday night to honor Mrs. Wayne Dyer, who before her marriage on June 4, was Miss Vendell Brooks, daughter of Mr. and Mrs. J. H. Brooks of this city. Misses Evelyn Van Sweringen and Opal Cawthon, and Misses Edwin Mauk and A. J. Schroeter were hostesses for the affair which was given at the home of Mrs. Schroeter.

Pink and white carried out the colors used in the wedding in flower decorations and appointments.

An attractive arrangement of pink and white larkspur centered the table which was covered with an Irish linen cloth. Plate favors were dainty corsages fashioned from pink and white larkspur. The honoree was presented with a pink rosebud corsage. An appropriate program was given by Misses Troy Moore, Bill Mitchell, A. J. Schroeter and Miss Ruby Thompson. A clever contest called Love in a Kitchen, introduced the shower when the honor guest received the prize package.

Refreshments accentuating the pink and white color theme were served to Misses Pres Dyer, B. R. Dixon, Orland Newell, Troy Moore, Bill Mitchell, J. H. Brooks, W. A. Dobbins, H. H. Marshall, J. W. Spradley, C. O. Wilkins, Barrett Sowell, Miss Ruby Thompson, the honor guest and the hostesses. Many who were unable to attend sent gifts.

ZONE MEETING HELD AT DIMMITT

A zone meeting of the Missionary Societies of the Methodist Church held the regular quarterly meeting at Dimmitt Wednesday. Representatives from Friona, Bovina, Oklahoma Land, Hereford, Dimmitt and Dimmitt Circuit were present. District officers present were Mrs. J. O. Haymes, district secretary; Mrs. E. J. Cole, social service superintendent, and Mrs. Martin, superintendent of children's work, all of Amarillo.

The theme for the meeting was Prayer, and the entire day's program was built around the subject of prayer and its place in our daily lives.

Reports from societies represented were given and a special offering was made for Miss Mattie Mae Swisher, a member, who is ill in St. Anthony's hospital, Amarillo. Members from Hereford attending were Misses J. E. Beyer, H. H. Hawkins, A. C. Thompson, J. B. Hammer, Florence McClellan, J. F. Ward, E. W. Harrison, J. C. Cummings, G. A. F. Parker, T. C. Willett, Mrs. Freeman and Mrs. Gilpin.

YOUNG COUPLE GIVEN SHOWER

A group of friends and co-workers in the BYPU of the First Baptist church met in the church Friday night, bringing a shower of gifts for Mr. and Mrs. Jimmy Allred, newlyweds. Mr. Allred is general director of the BYPU. Games were enjoyed on the church lawn and the shower was introduced when the honor guests were given a package of old-fashioned clothes and told to dress for a journey. Each was given a basket and the end of a string was placed in their hands. As they wound the string they were led to gift packages along the journey of life. A lovely shower of gifts was disclosed at the end of the journey.

Those attending were Messrs. and Misses O. H. Carl, Walter Ayers and Walter Jr., Mack Beach and Maxine Beach, J. B. Harlin, Jack Roberson, W. A. Long, Mrs. O. T. CHRISTIAN WOMEN HEAR BOOK REVIEW

On Tuesday afternoon, June 23, the Woman's Missionary Society of the First Christian church met at the home of Mrs. H. M. Redford to hear Mrs. R. E. Wales of Amarillo, district secretary of Foreign Missions, review Emory Ross' most recent book, Africa and the Modern Missionary Movement.

Emory Ross is one of the best informed and most influential men connected with Christian work in Africa. His thesis is that all the world is interested in Africa because of its great and varied supply of raw materials, and that if Christian relations can be established between all interested powers of the continent that a future world-war will be eliminated. Mrs. Wales gave a comprehensive review of the book and offered many suggestions for the upbuilding of the local organization. Refreshments were served to 25 members on Augusts.

Miss Pauline Smith returned to her home in Dallas Friday after spending two weeks visiting with relatives here. Miss Smith is the daughter of Mr. and Mrs. Joe Smith, one-time Hereford residents.

McFarland Boy May Return To His Home Today

Maurice McFarland, 15-year-old son of Mr. and Mrs. J. P. McFarland of near Friona, was today reported to have greatly improved from an accidental gunshot wound, and his family hoped to be able to return him to his home from an Amarillo hospital this afternoon.

The victim of an accident shot from a .22 rifle which he carried, Maurice was last Tuesday night rushed to Amarillo, and little hope was held for him. Reports stated that the discharge from the gun had left parts of the bullet in his head, and that the right side of his body was paralyzed.

The McFarland family today held hopes for his complete recovery, however, reporting that he was able to move fingers and his legs on the paralyzed side.

The accident occurred when Maurice pushed open a gate with the butt of the rifle, which he was carrying a pail of milk in his other hand. The bullet entered just above his right eye.

DANCE PUPILS ENTERTAINED

Dance pupils of Miss Lueta Borden were entertained with a matinee and lawn party Monday afternoon. Guests met at the home of Miss Borden and went in a group to the Star Theatre where they were guests of John Roberts, manager, for the picture, Maytime. Later at the Borden home games and stunts on the lawn were enjoyed.

Delightful refreshments were served to Mary Ann Baird, Orvella Hill, Cornelia Baeman, Gloria Brown, Dorothy Wilde, Barbara Galbraith, Cecelia Guseman, Juanita Beauford, Wanda Jean Smith, Helen Acker, Kathryn Acker, Troyce Stambaugh, Virginia Simpson, Barbara Hunter, Dolores Ashlock, Margaret Simpson, John Samuel Coombes, Wilton Lillard, Marlon Borden and Harriette Carter.

MR. AND MRS. COOMBS ENTERTAIN WITH 42

Red rambler roses and pastel-shaded larkspur were combined with lacy sprays of baby's breath in the floral decorations for the 42 party given at the home of Mr. and Mrs. Ellis Coombs Friday night.

Five tables of players enjoyed the games, when Mrs. J. B. Stoker made high score for the ladies and W. E. Dameron played high for the men. Refreshments were served to Messrs. and Misses, E. G. Blue, A. Petersen, L. Z. Oldham, L. T. Reese, F. M. Kester, W. E. Dameron, C. H. Dyer, Earl Phillips, J. B. Stoker, Rev. and Mrs. H. M. Redford, F. L. Lucas, Miss Frances Dameron and the hosts.

Marcia Robbins underwent a major operation Saturday and was today reported to be improving nicely.

Rich deposits of the relatively rare fluor spar, a mineral which is all but indispensable to porcelain, glass and steel manufacturers, have been found in the Big Bend country, according to the Texas Planning Board's mineral resources committee which predicts that the Big Bend section ultimately will prove a source of wealth equal to that which the East Texas oil field has yielded. Gold, silver, lead, zinc and copper are being mined in the Big Bend now.

Resettlement Loans Total \$48,575 Here

FOOD, FEED, SEED AND SUPPLIES BOUGHT WITH FUNDS

The Resettlement Administration has loaned farmers in Deaf Smith county a total of \$48,575 since July 1, 1936, according to Elvis Burch, supervisor for this county with office in the court house.

Purpose of this rehabilitation loan program, he explained, is to enable each farm family to get a new start under more favorable conditions. In emergency cases this agency has provided money for food and other necessities until they were able to provide for themselves. The loans have been made for the purchase of necessary farm supplies, livestock, household needs, feed, seed, farm debt adjustment and for food.

When these rehabilitation loans were made the county supervisor provided agricultural assistance and guidance and in most cases the home management supervisor assisted the farm women in home management plans. While the county supervisor works on a farm plan to show which crops can best be grown on the farmers' land, and how he can make the most money from his farm, the home management supervisor works with the farm women in connection with the home.

It is interesting to note that many farmers do not need a loan after they have produced one crop. The rural rehabilitation program of this federal agency has been welcomed in every section of the county. It has been shown that a small loan for necessary items on the farm and proper farming practices would put many of the county's temporarily distressed families on their feet permanently.

Rehabilitation loans made to farmers in Region 12 of the Resettlement Administration from July 1, 1936, to June 12, 1937, amounted to \$2,522,888.20.

HOT ENOUGH FOR YOU?

It took an all-time record of 155 quarts of nitroglycerin to extinguish this fire at the Continental Oil Company well at Mountain Field, New Mexico. The blow record eight days but was finally caused by Bryan and Floyd T. Kinsley, found fire-burners, flows to the street by Chicago. To insure these was the best that high-pressure fire hose carrying a full stream of water burned like paper during the explosion.

Messenger News

BY MRS. J. N. MESSENGER

Continued dry hot weather is beginning to tell on the wheat. Late wheat has been cut short from what had been expected two weeks ago.

Prof. Wells, his wife and little daughter attended Sunday school Sunday. They are the new teachers. Miss Loyd will teach here again this year.

J. L. Smith went to Oklahoma Saturday to get his son, Hoyt, and several more men to help in the wheat harvest. They plan to start cutting this week.

Most wheat in this area will not be ready for harvest for ten days. Gardens look good where they have been watered. Things grew so rank and so fast following the heavy rains that the hot days burn them quickly where not irrigated. Numerous bugs in the gardens also hinder production. If anyone knows how to kill the pests readers of the Brand would appreciate publication of the information.

THE STATE OF TEXAS

To the Sheriff or Any Constable of Deaf Smith County, Greeting:

You are hereby commanded to summon W. F. Nicholas, Eida Nicholas, Minnie Law and her husband, Law, and W. G. Harrell to appear at the next regular term of the District Court of Deaf Smith County, Texas, at the courthouse thereof, in Hereford Texas, on the first Monday in August, 1937, the same being the 2nd day of August, 1937, then and there to answer a petition filed in said court on the 29th day of May, 1937, the file number of which is 2348, in which suit John V. Farwell, Arthur L. Farwell and Farwell Winston, as Trustees, are plaintiffs, and W. F. Nicholas, Eida Nicholas, Minnie Law and her husband, Law, W. G. Harrell, Phillips Petroleum Company and Oliver Farm Equipment Sales Company are defendants, the nature of plaintiffs' cause of action being alleged as follows:

The plaintiffs are trustees under a Declaration of Trust dated November 1, 1933, recorded in the Deed Records of Deaf Smith County, Texas, and are the assignees of the vendors under the contract hereinafter mentioned, which vendors were John V. Farwell, Arthur L. Farwell and Francis C. Farwell.

That heretofore, by written contract dated May 27, 1929, recorded in the Deed Records of Deaf Smith County, Texas, Volume 75, page 584, and in Volume 64, page 140, the said John V. Farwell, Arthur L. Farwell and Francis C. Farwell contracted to sell to W. F. Nicholas the following land in Deaf Smith County, Texas, to-wit: the Northeast Quarter (NE 1/4) of Section No. 21, of Township 3 North, Range 1 East, of a Capitol Syndicate Subdivision, as shown by plat of such subdivision of record in the Deed Records of Deaf Smith County, Texas.

That said contract provides that the purchase price of said land is \$3,200.00, payable on or before six years from November 1, 1929; that the vendee shall each year at the proper season sow at least 80 per cent of the land described in the contract to wheat; that the vendee shall, beginning with the year 1930, pay the taxes on the tract of land described in the contract before they become delinquent; that failure of the vendee to perform the covenants imposed upon him by such contract shall nullify the same and all payments made and all improvements placed on the land shall be kept by the vendors; that such contract is assignable. That plaintiffs have performed all of the covenants imposed upon them by the terms of such contract.

That no payments have been made on the purchase price of said land and the same was not sowed to wheat in the proper season in 1936, and taxes on the same for the years 1935 and 1936 were not paid by the defendants. That on account of the defendants' default in the payment of the purchase price of said land, and in the tilling of said land, and in the payment of said taxes as provided in said contract, the plaintiffs have declared the contract for the sale of said land at an end and are entitled to recover the title to and possession of said land from the defendants and each of them.

That the defendants Eida Nicholas, Minnie Law and her husband, Law, W. G. Harrell, Phillips Petroleum Company and Oliver Farm Equipment Sales Company, are claiming some interest in and to said land, the exact nature of which is not known by the plaintiffs, but whatever right, title or interest said defendants have in the land was acquired by virtue of the contract above mentioned, and is subordinate and inferior to plaintiffs' title and claim to the land.

Plaintiffs pray that defendants be cited to appear and answer their petition, and that the plaintiffs recover title to and possession of the land and improvements; that the contract for the sale of said land be declared at an end, and for general relief.

You are hereby commanded to summon the defendants W. F. Nicholas, Eida Nicholas, Minnie Law and her husband, Law, and W. G. Harrell, and to serve this citation by making publication of this citation once each week for four consecutive weeks previous to the return day hereof in some newspaper published in your county, but if there be no newspaper published in said county, then in any newspaper published in the nearest county in which a newspaper is published.

Herein fail not, but have you before said Court on the first day of the next term thereof, this writ, with your return thereon showing how you have executed the same.

Given under my hand and the seal of said court at my office in the City of Hereford, Texas, this the 29th day of May, 1937.

Director Of Woodmen Circle Dies June 22

Mrs. Itasca L. Young of Philadelphia, a director of the Supreme Forest Woodmen Circle, died in a Dallas hospital June 22, according to information received at national headquarters of the society. She had been ill for many months. It was said, but planned to attend the meeting of the society's board of directors in Omaha, Neb., last week, only to be confined in Dallas.

Mrs. Young was 54 years of age, joined the Woodmen Circle in 1909 and became a field worker three years later. She held various offices in the society in Texas which was her home state, until 1919 when she was made state manager of Pennsylvania. She was elected to the national board of directors in 1925, and re-elected each succeeding term.

It was largely through her efforts that the Pennsylvania Cottage, the second main unit in the society's home for aged members and orphan children, was erected in Sherman, Texas. As a member of the home committee since 1933, she took an important part in the development of the home. Surviving are a son, Maurice, and a sister, Mrs. Ethel Nelson, of Dallas.

What a Few CASE

Owners Have to Say

Summed up and stated in plain talk-- IT'S A CASE OF BUYING A BETTER TRACTOR WHEN YOU BUY A CASE

T. W. MEDLIN

When Mr. Medlin came here to start handling his large tract of land he investigated the power problem thoroughly and after doing so bought two Case model L tractors. He has had no delays and practically no expense. Through his influence we have delivered a model L on rubber to each of his associates, Mr. Frank Knabe and Mr. Tom Carter, in the last few days.

W. E. UPTON

Mr. Upton bought the first model L in this territory and shortly after bought a CC. He has had wonderful success with these tractors and we are very anxious for anyone interested in tractors to have a talk with him.

C. W. FRYE

Everyone knows that Carl Frye knows his tractors and that he operated the first tractor that came to this county. In 1919 he bought a model L and in 1931 he bought a CC. He has just given us his order for a new motor lift CC for his irrigated farm near Summerfield. Go to Mr. Frye's place and look at his good barns, good cows, good crops and GOOD TRACTORS.

J. G. EVANS

Mr. Evans is a man who pays close attention to what he buys in farm machinery. He has bought one model L and two model CC's with full equipment from us and we think that if you will drive out and see his 2000 acres of good wheat and the fine row crops he has coming on, you will say his judgment in tractors was not so bad.

Our Customers Are Our Best Salesmen

Ask the Man Who Owns

A Case Tractor

because he knows!

Of the more than 200 CASE owners in this territory today, come our best salesmen. Others are enthusiastic over the new CASE Model L and CC TRACTORS, because they have either seen or known Case performance; because their neighbors who own Case tractors have shown or told them the facts. One of these Case owners is likely a friend of yours. We refer you to him as another one of our boosters and salesmen. "Because He Knows What Case Will Do!"

J. L. HOFFMAN

Mr. Hoffman and his two sons, Bob and Eddie, bought a model L and a model CC from us several years ago. They have had wonderful success with these machines. After seeing their machines work we have sold most of their neighbors. J. H. Reinart has bought two model CC's; Gus Theile has bought two model CC's; Ira Ott has bought a CC; N. G. Elliston has bought a CC; R. W. Elliston has bought a CC, and Ben Koelner has bought a CC. So you see these CASE TRACTORS are like the measles--when one takes them most everyone around is liable to get them.

Farmers Plow Up Merchants' Hopes In League Softball Game

HOMER SAYS FARM LADS REALLY WENT OUT TO SLOP PIGS

BY HOMER FOX
Last Thursday night the A. & M. boys locked horns with the Merchants in a bloody Pitchers Battle trying to see who could give the most walks and the Mainstreet Gang won, but lost the ball game 16 to 12.

Gillispie was chinking for the Counter Hoppers and Dick Coffee for the brave Farm Lads. The Farmers received a couple of walks in the first half but failed to cash in. The Merchants made four runs in their half. White was safe on an error at first, Bainum was safe on a F. C. Coffee chucked a bundle of Kafir at Caldwell and he hit it to Castro county for a Home Run. Knox singled, Morgan booted Carlyle's grounder, Foster and Gentry both hit to left and the lights went out or something, and two more runs came in. The Cotton Pickers evened it up

in the second. Marcum (Bull) popped to short, Schroeter singled, Coffee Walked, Sherman Walked, Coffee was out at second on Pit-

Want Dimples? Device Will Make 'Em

It's simple now to have those charming dimples. All you have to do is apply this dimpling machine shown being demonstrated by Miss Evangeline Gilbert of Rochester, N. Y., on the face of Bobby Joyce of Hollywood. The device was on exhibition at the National Inventors' congress held in New York recently.

but still they WALKED. Bateman Walker, the gate keeper Walked, the water boy Walked, the lights started Walking. The Mayor called time out while the County Judge decided there should be three outs or everybody would have to walk home. The Main Streeters couldn't do a thing in their half, but the Hay Pitchers grabbed a couple more eyes in the third, after Marcum (Bull) scratched his first single of the season, it was so unusual that Bull headed for third, but Chief Bateman blocked him into the right direction or something. Sherman was safe on an error in right and a couple more bobbles and a bonehead, two runs were in. With two walks in the fourth and a bunch of errors the Farmers made two more and Long took Gillispie's place in the box for the Merchants.

With the score 8 to 4, the Never-work Bunch were very unhappy. The Farmers had run over their third Baseman four times, almost brained the Short stop, the fielders had all left their bushel baskets in town and couldn't catch one and the Pitcher couldn't get one over in a dray wagon, but they managed to get one across off Speed Marcum (Bull) who is now flinging for the Kafir Corn Heavers. The A. & M. made two more

in the 5th. But this Cash Register Mashing Bunch came back in the fifth and showed the Cow-Walking Bunch what a bunch of town boys can do. First they swiped all the frog nets the Farmers' outfielders had been using, then proceeded to pour the wood to that infant basketball. Boy, it looked like a black duster the way those babies were beating out that trail. Anyway, they wound up with 5 runs and the score was tied. Then came the sad, fatal seventh. These Farmers really went out to slop the Pigs. Schroeter was safe on an error by left, and went all the way 'round. Daniel popped to second, Sherman slapped Long's Hamburger ball for a single and also went all the way 'round when center let it through. Pitman singled but just got to third—he couldn't have made it home on a horse. Clayton singled. Left lost Patton's ball in the lights, then Long Flang a Ham Hock to Marcum (Bull) and he splattered it all over the field for two home runs. Six runs ahead in the last frame and sure wishing the Merchant's didn't have another bat. Carlyle singled, and Paul Foster took Bull's fast one far out over the outfield for a home run, but that was all they could do anyway most of the boys were pretty Tired!

Hereford Views Crosthwaits King of Trains Return Here

Due to a washout on the main line between Lamy, New Mexico, and Albuquerque, all of Santa Fe's limited trains have been routed over the southern route during the past week. The temporary arrangement brought through Hereford some of the crack trains of the United States.

A large crowd Wednesday morning viewed the million dollar "Super Chief," described as the most beautiful train ever built. The train passed through here at 11:30 o'clock on its westward trip from Chicago to Los Angeles. The Super Chief, a streamlined locomotive, travels between 90 and 110 miles an hour, making one round trip weekly from Chicago to Los Angeles in 39 hours, 45 minutes, each way.

Public Opinion

The Brand: In your last issue of The Brand I heartily endorse the suggestion of Mr. John E. Warren of Oakland, California, that the correspondents state the distance and direction of the point that the news is coming from. I have been tempted to write to that effect many times, but refrained for fear it may not meet with your approval.

We read with much interest each week your paper and are happy to learn that you are having such nice rains and that prospects are good for a fruitful harvest. Very sincerely,
MRS. JAS. STANTON,
Osborn, Missouri.

Rooster Eats \$100 Ring

Up at Seattle, Washington, Mrs. William Morgan lost a \$100 diamond ring and she promptly suspected her 18 small roosters, which had a habit of pecking at it.

But she waited until they were of frying size, then the Morgan family started eating one a day. Mrs. Morgan found the diamond in the gizzard of the eighteenth saw by that time the family was plenty tired of fried chicken.

Try the Hereford merchants before going elsewhere to buy.

Crosthwaits Return Here

Mr. and Mrs. I. O. (Ike) Crosthwait and daughter, Faye, who left Hereford the latter part of May for Los Angeles, California, to live, returned to Hereford to again make their home. Enroute they stopped in Plainview to spend Thursday night with their daughter, Mrs. Frank Daniels and Mr. Daniels. Mr. Crosthwait and Faye coming over Friday, Mrs. Crosthwait remaining with her daughter until she can get possession of her home. Mrs. Rigler and daughter, Miss Sayde, have been occupying the Crosthwait home during their absence. The Riglers expect to move into one of Mrs. G. A. F. Parker's apartments this weekend and the Crosthwaits will then occupy their home. Meanwhile Mr. Crosthwait is looking after the harvesting of his wheat on his farm west of town.

Independence

IT is one of the characteristics of a free people that they should seek for themselves as individuals the independence that they have achieved collectively as a nation. There is no more clearer reason, then, why America is a country in which thrift and financial foresight have been the twin keystones of progress.

Just as the financial well-being of the United States rests upon its commercial and savings banks, so the integrity of these banks rests in turn upon the thrift, industry and confidence of the American people. As one of those banks it is with pride that we, on the Fourth of July, greet those persevering men and women who through their banking institutions have made America a great and prosperous nation.

bushels; H. H. Boardman's dry land wheat was measuring in the 20 bushel class; Phillip Miller reported a 30 bushel yield; T. W. Medlin also reported 30 bushels; T. J. Carter's wheat was running from 25 to 30 bushels; Jeff Gilbreath, on land which was irrigated before planting, was cutting around 20 bushels; Frank Gyles reported 12 bushels on his wheat. While the yields listed are above the average, they represent a fair margin for early wheat in this territory and help bring the 12 and 15 bushels yields up to the average of 20 to 25 bushels on early wheat.

To Hit Peak Soon.

Harvest is scheduled to get under way in earnest the latter part of this week and to continue full tilt through the first week in July. Enough wheat is expected to come in next week to accurately estimate the yield for this area, and to estimate the crop.

While farmers were literally snowed under this week, implement dealers, repair shops and other lines of business put in some busy days. Despite the work, however, the populace is glad to again record a fair harvest after five years of scant yields.

Much of the early wheat has been irrigated, while other matured early enough to escape rust. A considerable drop in yield is predicted by grain men and old timers as harvesting continues and swings into its final stages. The yield is expected to far surpass that of recent years, however, and hundreds of farmers in this section are again getting back on their feet.

T. J. Carter brought in the first wheat to Hereford that was produced in Deaf Smith county. He sold the first load to Pitman Grain Company at \$1.25 a bushel and the second, to Fraser Grain Company at the same price.

Mrs. T. D. Cole of Amarillo has been visiting her sisters, Mrs. C. P. Cockrell and Mrs. Buri France, here the past several days.

Mitchell Wins Cowboy Suit

By winning in a used car campaign for dealerships of the Hereford class, E. N. Mitchell, Brunley-Woodford salesman, was recently awarded a complete cowboy outfit by General Motors. He also received script money to be used at the Chevrolet Rodeo to be held on the Harding Ranch in Palo Duro Canyon during July.

By making their quota, employees of the local dealership hope to also qualify for the outing.

Mrs. H. L. Johnson and daughter, Betty Jean, of Amarillo visited her sister, Mrs. C. H. Dyar, here Tuesday. Mrs. Clara Nance, mother of Mrs. Dyar and Mrs. Johnson, who has been ill for several weeks at the home of Mrs. Dyar, is much improved.
