Truck No. 13 Holds No Terrors For Manager Of REA Lines Here

Notice from J. E. Morgan district offices this week advised that a new truck is being sent to the Hereford project, and the truck was listed as No. 13.

"In fact," said the district official, "It is the thirteenth truck bought by this division, it was driven out of the factory by driver No. 13 — and when it stopped in front of the office, the speedometer registered exactly 1313 miles. We are sending this truck to you by driver No. 13 of our office, and we hope that you are not superstitious."

When John Lomax, local construction engineer, not the letter

a big smile broke over his face, and he answered as follows:

"Thanks for sending me truck No. 13. I was born on the thirteenth of October; my mother was born on the thirteenth of March, and my father was born on the thirteenth of November—each of them, like myself. In from a family of 13 children. I went through the war with the U. S. Army rifle No. 18012. When the truck gets here I am going to nasign it to local No. 13, put in 13 gallons of line - and I will bet it

All set? listen: HERE'S THE OF THE YEAR

Featuring the DYNAFLASH ENGINE and TORQUE-FREE SPRINGING - in the Most Modern Chassis in the World

> Vou won't drive a hundred yards I in a new Buick without realizing that something marvelously new and different is happening here.

It's something that happens in no other car, in no other engine.

Speeding through the intake manifold, the fuel charge hurricanes into the cylinder at something like 250 miles an hour.

Leaping to meet it is the piston, with a mique device called a Turbulator

built into its face. Then occurs something more than

high compression-literally cyclompression-as swirling gasoline vapor is compacted about the spark plug.

The spark sets off a fist-size hurricane-and gasoline gives up more performance than it ever gave up in a commercial engine before!

This livelier, smarter power might seem enough for engineers to lavish on a car in a single year.

But matching DYNAFLASH power in importance is Buick TORQUE-FREE SPRINGING and its arroflite ride. Take a Buick over a railroad cross-

ing-around a curve-over bumps. There's no thud and chatter, no tailswing or roll; you cover rough go-ing with the silk-smoothness of a panther on the prowl.

All because old-type leaf springs are gone! In their place, each wheel has a soft, shock-smothering cushion of stout coiled steel. Skid risks are blessedly reduced.

car handles more easily! That's TORQUE-FREE SPRINGING at work! If it's power you're after, you'll want Buick's DYNAFLASH engine. If it's

Rear tires last longer. The whole

comfort, you'll choose the TORQUE-FREE SPRINGING ride. With either you get the other-plus

half a score of features your Buick dealer is waiting to describe. See him now-for the engineering "must" story of the year!

Laymen's League Sponsors Banquet **Monday Evening**

MORE THAN 60 MEMBERS AND GUESTS ATTEND OYSTER DINNER

With a crowd of more than 60 rsons in attendance, the Laya's League of the First Chrisan Church Monday night enterlined members and guests with an oyster dinner.

Ellis Coombes, master of cereonies, started the program by sking each man present to introuce the person on his right.

Rev. H. M. Redford, first peaker, began by pointing to the vacant chair on his right, which he said was reserved for Jesus Christ, who was always present.

There are four kinds of peohearts, the superficial; those who make resolutions and break them, and those who are as the good in the C. H. Stewart home, Sunsoil." He traced the teaching of day. as, pointing out how He met and talked with groups on house tops, when he preached from Pet-day. er's boat, beside the well, and in he home of Mary and Martha.

"He knew how to live, and did live in that manner," Rev. Redford concluded. "He did not allow e who did not know dictate to him the manner which thould live."

E. E. Ramsey, the next speaker, talked on the "New Testament Church, Its Purpose and Funtion," Pointing out the magnanimity of his topic, Mr. Ramsey capably traced problems faced by Christ in his life and stressed the present seed of carrying out the principals and teachings of Jesus.

A quantet composed of Mrs. A Peterson, Nola Margaret Blue, Mrs. Earl Phillips, Mrs. H. M. Redford, accompanied by Coombes, were next presented. The quartet was received with enthudasm by the crowd.

A. Petersen next spoke on the Origin and Purpose of the Lay- Plainview, Friday. men's League, tracing it back to Mr. and Mrs. Earl Lust, Earline Walser home this week end. the Medieval ages and the gallant and Loyd attended the Home-Com-

the need of men and their activity in Canyon, Saturday. in churches of today, saying, "In recent years religion has placed emphasis upon children. When more men take interest in church work, it will be more effective with children, who naturally respect the interests and belief of their fathers." He predicted that Laymen's Leagues will be started

A. Lowther made the final talk of the evening in a clever manner, presenting the ideas and thoughts of an empty church pew in an al-

Trade In Your Smooth Tires For SAFE FISK TIRES

Right now, during fall and early winter, is the MOST PRACTICAL TIME to buy tires. By breaking in your tires while the weather is cool you will find that they will have a slower tread wear - thus giving you longer wear. Furthermore, the streamlined tread of the Famous FISK Tires assures you of the utmost in Safety; the flexible rubber cleats are insulated by ribbons of white rubber. This construction permits each cleat to act independently, and provides greatest traction and braking power ever built into a tire.

Are You Courageous?

The eternal six weeks report has

been given. A number of sudens are met wih the gloomy prospects that low grades bring. The question now

confronting them is this: Do I have

the courage to face the coming six

weeks struggle for passing grades?

If you have any determination and

pride, along with self-confidence,

you will have not only the courage

to face the future but also the

will to make up for lost time and

Failure and low grades can be

remedied. It is not so terrible to

make failing grades once, but when this becomes a regular occurrence

you should realize that something

is lacking or undeveloped in your

'make-up.' Low grades should not

become a regular occurrence. Stu-

down on the job of becoming edu-

COLLEGE STATION-Slaughter supplies of hogs during the coming fall and winter are expected Bureau of Agricultural Economics was the case in 1937. "Yankee reports, which have been localized Doodle," "Believe Me If All Those for Texas by E. M. Regenbrecht, Endearing Young Charms," and swine husbandryman of the Texas many others, Games of "42," "Ana-A. & M. Extension Service.

Regenbrecht pointed out that the relatively small supply of hogs for slaughter, plus a fairly high level Those attending were: Mesdames of consumer demand for meats, probably will result in hog prices this fall and winter as high those of a year ago, when the average price of hogs at Chicago, was \$9.90. "It now appears fairly /certain

that the 1937 corn crop/will be much larger than in 1936 and about the 1928-32 average," Reg-R. A. Freeman, A. G. Bell, W. V. Tolbert, E. L. Brown, J. Paul

enbrecht said, "With lower cor prices and a relatively high level of hog prices in prospect, the outlook for 1937-38 is very favorable for hog feeding and hog produc-

One result of the big corn crop and the small supply of hogs will be that weights of hogs marketed in 1937-38 will probably be considerably heavier than those of a year ago, according to Regento be somewhat smaller than those brecht. A second result will be of a year earlier, according to larger spring pig crop in 1938 that

Six Hereford Students In Canyon Band

CANYON-Don't ever think that it is all play and little work in a college band .

The Buffalo band of West Texas State College practices on the instruments four days a week and also holds four drill practices each week. Its calendar for this term is well filled with appearances, at the college and in other towns in the Panhandle. Professor C. E. Strain is director, and Bill Fields is drum major.

Hereford this year is represented by six students in the college band: J. T. Carroll, cornet; Dean Storey, trombone__ Hugh Harmon, baritone; Ernest Echeihagen, bass; Howard Williamson, French horn, and La Nelle Scheihagen, alto.

DIVISION SALE

NOVEMBER 1, 1937

Linebred Anxiety 4th HEREFORDS

OTHERS' JUDGEMENT

"I consider the cattle in the Dameron Sale the most valuable collection of choice cattle ever offered the public in the Panhandle, There are more top cattle in this sale than I have ever seen offered before. You will agree with me when you see the cattle go through the ring next monday. A lot of these cattle ought to stay here."

G. R. JOWELL,

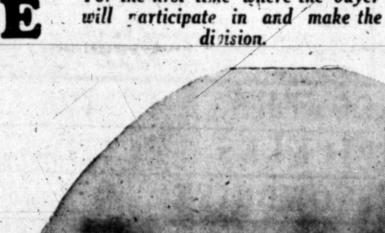

"I have carefully gone through the Dameron herd, and find the cattle to be all, if not more, than they are represented to be. This offering will be a big surprise, to anyone who has not seen the cattle, for they are wonderful individuals and are backed up with the best of bloodlines. No one who is looking for the best will be disappointed in them. It will be an outstanding offering."

EARL GARTIN, Auctioneer.

"It is my opinion that few sales in the past have included as many good females, in proportion to the number offered, as will be included in the W. E. Dameron herd division sale on Monday, November 1st."

> O. R. PETERSON Daily Drovers Telegram, K. C., Mo.

This is the first Hereford Sale to be held in a long time, too long in fact, and buyers are expected from all parts of the country. Many of these distant buyers will return home with some of the Sires and females offered in this sale, to be used in many of the best herds in the United States. If these cattle are good enough to go into these herds - they are good enough to stay in this territory and ought to stay here.

For the first time where the buyer

HEREFORD SALES PAVILION

33 BULLS-101 COWS

The buyer may take his choice of each pair offered!

OTHER'S JUDGEMENT

"Some Hereford breeders demand certain combinations of bloodlines; some demand definite standards of individual excellence, and others demand popular families of breeding combined with modern individuality to meet their ideals. Whatever may be the demands of Hereford breeders, they can find the kind of cows that will fulfill their requirements in the W. E. Dameron sale. The conformation of these cows is what better breeders look for; they are deep, thick, wide and have strong backs and good heads. Their feminine character is one of their special qualifications; their ability to produce good calves is another. Any breeder of good Herefords will like these cows, for I doubt if there are any better."

> FRANK W. FARLEY For The Hereford Journal,

Bob Mousel says Mr. Dameron has eliminated the many hazards of chance and offers breeders the most selective choices. "I am enthused," he said, " the cattle are good enough for anyone that de sires and demands the 'best,' They are not ordinary - but extraordinary. There is a reason. To be convinced, the public should get a catalogue and then see the cattle."

BOB MOUSEL.

All cattle in this sale are now housed in the Hereford Sales Pavillon and you are invited, if interested, to inspect them anytime before the sale date. Any person interested in these cattle and who have not already received a catalog, may obtain one by calling at the office of W. E. Dameron, over the First National Bank.

Mrs. Ray Johnson, president, called attention to the general federation radio programs broadcast by NBC, every third Thursday, at 4:30. Mrs. Johnson also announced the State Convention dates to be November 8-11, in Austin.

Those attending were Mesdames: H. D. Reed, B. E. Roberson, H. L. Cannon, Ray Johnson, Bob Wilson, Jim Lipscomb, H. A. Close, Alton Miller, Homer Brumley, Wily Roberson, Elmer Patterson, Misses Lillie Hostetler and Olive Perkins.

TRAIL MAKERS CLASS HAS HALLOWE'EN PARTY

Trail Makers Class of the First Christian Church were entertained with a Hallowe'en Party Friday night at the church.

Appropriate games and contests furnished entertainment for Rena Rae Renfro, Mattie Louise Lawnon, Rue Wilson, Rachel Ireland, Nona Dean Rose, Kathryn Henderson Nadine Newell, Seletta Robinson, Ruth Temple Hastings, Billy Dameron, Jack London, F. L. Lucas, Richard Petersen, Wayne Phillips Daniel Russell, Billy Davis, A. J. Robinson, Larry Trimble and A. Petersen, teacher of the class.

TRIO OF HOSTESSES ENTERTAIN WITH BRIDGE PARTY

Attractive in detail were the appointments for the bridge party given Tuesday afternoon, Mesdames Will S. Kerr, Paul Mathers and John Olson were hostesses at the Kerr home.

Black and gold were combined to carry out the Hallowe'en color motif. Marigolds in bronze bowls and daisles in tall floor baskets furnished the floral decorations. Black cats, and weird witches decorated tallies and other bridge accessorles. The same colors were repeated in prize wrappings and

refreshments. High score prize went to Mrs. H. A. Close and second high to Miss Mabel Gass.

Other guests included Mesdames Woodrow Ireland, Ernest Medkief, Travis Dameron, O. C. Holt, Tom McCollum, Paul Foster, John Coffee, Barnard Hicks, C. C. Ferguson, R. G. Blue, C. C. Rockwell, J. W. Witherspoon, R. P. Coneway, J. T. Gilbreath Jr., Lee Morgan, J. M. Posey, Grant Fuller, Glenn Snyder, Charles Brooks, F. H. Oberthier, Tom Carter, Glenn Weir, W. J. Stanford, A. R. Bateman, J. J. Clark, Colby Conkwright, C., H. Dyar, Hubert Freeman and Nelson McRight,

MRS. JACK ROSE IS HOSTESS FOR STUDY CLUB

Mrs. Jack Rose-was hostess for the Ploneer Study Club Tuesday afternoon. Mrs. Wirt Phillips was assistant hostess. The program consisted of a book

review, given by Mrs. Ray Johnson. In her discussion of the book, "Think For Yourself," by Robert P. Crawford, assistant to Chan-cellor Burnett of the University of Nebraska, Mrs. Johnson said, "The thesis of this book is that any one can learn to think originally, but few do." She described the book as easy to read and stimulating, and listed four classes in which the author places thinkers: Day Dreamers, Imitators, Problem Solvers and Creators. A general discussion concern-

ing the book was conducted. Refreshments in keeping with the Hallowe'en season were served to the following members: Meslames Horace Baird, A. A. Foster, Carl Frye, J. M. Gilliland, Cecil Guseman, J. B. Jones, Ray Johnson, Wm. McGehee, H. D.

The history of the organization which has borne his name for more than 65 years, is one of continuous development and im-

exclusive manufacturer of centrifugal pumps, indicates not only outstanding merit of both design and construction, but also marks the progress of a Pioneer to the position of acklowledged leadership. The submersible needs no further assurance of merit than to bear the name Byron Jackson.

provement of centrifugal type pumps. The growth of the company from a small, one-man shop to the world's largest

Dependable Operation and Higher Efficiencies

. . . are features of the SUBMERSIBLE which will bring its owner worthwhile savings in operation and maintenance.

Correctness of Design and Construction

The CORRECTNESS of design and construction of the SUBMERSIBLE has been thoroughly tested in the laboratory and proved by many years of successful field operation under all conditions of service. Several hundred installations, representing thousands of horse-power, are in service today, proving the adaptability of SUBMERSIBLES to a practically unlimited range of capacities and heads.

The BYRON JACKSON SUBMERSIBLE

is a short-coupled pumping unit made up of an electric motor mounted below a deepwell turbine pump to which it is direct-connected. Both motor and pump operate completely submerged in water. Regardless of how deep the unit is installed in the well, there is no long shaft and bearings, from a motor on the surface to the underground pump, which cause 3-4 of all pump troubles. The only rotating parts are thoseinside of the motor and pump case. Electric power is delivered from the switch-box to the submerged motor through conductors which are lead covered and steel armored.

VITAL FEATURE:- Long Operation Without Adding Oil

A vital feature of the SUBMERSIBLE is the operation of the motor over long periods of time without adding to the oil. When oil is needed, a relay stops the motor, and oil is then added through the oil - tube from the surface without disturbing the installation in any manner. Many SUBMERSIBLES now in service have operated for more

GREEN MACHINERY COMPANY

than five years without rennewal of or addition of oil.
