Following a meeting of Chamber of Commerce directors here Monday, the date for Hereford's annual C-C Banquet was announced as Friday, March 24, to be held in the First Baptist Church.

"The banquet will be held in connection with a county-wide meeting of farmers," Mr. Alexander said, "and we are trying to secure some representative of the Spur Experiment Station as another speaker. DAMERONS ATTEND OPENING GOLDEN GATE EXPOSITION

Mr. and Mrs. W. E. Dameron returned Thursday, March 2, from an extensive visit in California, where they attended the opening of the Golden Gate Exposition at San Francisco. They left here Feb. 17, and went to California, stopping first in San Francisco to be on hand for the opening of the fair. They reported that the opening parade lasted two hours and 40 minutes, and said that among other points included in the fair were some 40,000 head of livestock in that division.

Marble Contest Is Still Open

With more than 50 entries already made in the Lions Club marble contest, the committee again this week asked that all boys under 14 years of age fill out an entry blank and join the contest. The grounds have been located on the lots across south from the courthouse, and will be scraped probably this week.

No other changes were made from the original announcement last week, and the committee said that the contest is open to boys in rural communities as well as in town.

The Brand again presents the free Entry Blank on page 7 of this issue. All interested boys may fill out the coupons and take them to The Brand, to John McLean's office or to Close Drug. Present plans are to hold the first rounds of play on Saturday, March 18. All competition will be played on Saturday in order that boys from rural areas may compete.

HOMER FINDS THAT WHISKERS AND "FLU" GO HAND IN HAND

By Homer Fox
Maybe we made a mistake about the whiskers. Who ever dreamed that whisker growing would sap a man's strength until his vitality was so low that he might even catch a jar of last year's vanishing cream? Seems like hair is supposed to be one of the things that really spreads germs. Tch, tch, Ralph Roden with all that hair on his chin and UPPER LIP waiting on the general public? Anyway our men folks are slipping some way; seems to me it is the strain of TRYING to grow these whiskers.

Junior Pioneers Plan To Sponsor Marionette Show

Preliminary plans were today announced by the Junior Pioneer Study Club for sponsoring Basil Milosoroff and his Russian Marionette Theatre in Hereford Tuesday, March 28. Proceeds from the appearance will be donated to aid the Central School Cafeteria.

In making the announcement, club leaders stated that Milosoroff, a native Russian, has one of the foremost marionette shows in the country, and that the engagement was made with much difficulty.

The presentation will be made in the Hereford High School auditorium, featuring matinee and evening appearances of the artist. They said more complete details will be announced later.

School Census Work Continues In This County

Due to error, The Brand last week stated that all children under 19 years of age must be enumerated in the school census. The statement should have read, "Children under 18 years of age as of September 1, 1939, must be enumerated."

L. W. Carlyle is Census Trustee for the Hereford Independent School District, while numerous persons have been appointed as Census Trustees in the rural districts.

"It is hard to stress the importance of a 100 percent census. Each time a scholastic is overlooked it means that the school district will suffer a financial loss to the extent of the per capita apportionment," officials said.

Deaf Smith County, in proportion to other counties, pays more taxes for school purposes because of a small scholastic population and a large territory. Therefore, it is vital that all scholastics be enumerated in order to obtain the largest possible amount from the State in per capita apportionment.

School patrons are urged to contact their local school officials for any information regarding the scholastic census.

Hereford Teachers Hold Important Posts In Canyon Conference Meet

WOMEN TO DON COWGIRL GARB UNTIL MAY 11TH

"The B. & P. W. invites all women of this community to join them in wearing cowgirl or Pioneer dress from now on through May 11, Pioneer Day. However, the event warrants the support of the entire community, so come on, ladies, let's make Hereford colorful!"

The above statement was released by The Hereford Business and Professional Women's Club Thursday morning, and members of the Pioneer Day committee declared that they had expected the women to wear cowgirl garb in conjunction with whiskers for the men in a unified effort to publicize the coming celebration.

IF YOUR MOTOR HAS COLD-WEATHER TANTRUMS

If your car acts up in cold weather... don't call it harsh names... don't yank on the choke... don't run down the battery. Above all, don't decide that it is an ornery, hard-starting brute, and let it go at that. Find out! Once you get under way—or get a tow—head for the Orange and Black 66 Shield and fill the tank with Phillips 66 Poly Gas. Its high test costs nothing extra, but what a difference! Every time

you touch the starter, whirr and you're off. With warm-up so fast that there is hardly a trace of coughing or sputtering. With a smooth, sweet flow of power that delights the heart of any winter driver. Scientific tests prove that Phillips 66 high test is rarely exceeded, even by higher priced motor fuels. Yet you pay nothing extra for this extra high test, because Phillips is the WORLD'S LARGEST PRODUCER of natural high test gasoline.

OFFICIAL RULES

The National Marble Tournament Game of RINGER

RINGER is played in a ring ten (10) feet in diameter, with thirteen (13) marbles 3 inches apart arranged in the center in a cross. The object is to shoot these marbles out of the ring, the player shooting the largest number of marbles out of the ring in any game being the winner of that game. No less than two and no more than six may play in one game in RINGER, except in national championship matches two only play. All tournament play is FOR FAIR, and marbles must be returned to owners after each game.

EQUIPMENT

The playing surface shall be a smooth level area of ground, hard clay, or other suitable substance. The ring is inscribed upon this area, 10 feet in diameter, and all play within this ring (Note: The outline of this ring shall not be so deep or so wide as to check the roll of a marble).

With the center of the Ring as a point of intersection, mark two lines at right angles to each other to form a cross, which shall be a guide for placing the playing marbles. Place one marble at the center and three on each of the four branches of the cross, each marble three inches away from the next one.

The Lag Line is a straight line drawn tangent to the ring and touching it at one point. The Pitch Line is a straight line drawn tangent to the ring, directly opposite and parallel to the Lag Line. Playing marbles shall be round. All marbles in any one playing ring must be of uniform size. The standard size shall be five-eighths inch in diameter. Slight variation may be allowed by the referee for manufacturing fault.

Shooters shall be round and made of any substance except steel or any other metal, and shall be not less than one-half inch, nor more than six-eighths inch in diameter, as determined by the referee.

PLAN OF PLAY

The lag is the first operation in RINGER. To lag, the players stand to the right of the Pitch Line, or kneeling down upon it, and toss or shoot their shooters to the Lag Line across the ring. The player whose shooter comes nearest the Lag Line, on either side, wins the lag.

Players must lag before each game. The player who wins the lag shoots first, and the others follow in order as their shooters were next nearest the Lag Line. The same shooter that is used in the lag must be used in the game following the lag.

On all shots, except the lag, a player shall knuckle down so that at least one knuckle is in contact with the ground, and he shall maintain this position until the shooter has left his hand. Knuckling down is permitted, but not required in lagging.

Starting the game, each player in turn shall knuckle down just outside of the Ring Line, at any point he chooses, and shoot into the ring to knock one or more marbles out of the ring, or hit or knock out of the ring the shooter of an opposing player, or players, if any remain inside the ring.

A player continues to shoot when he knocks one or more marbles out of the Ring or hits the shooter of an opponent or knocks an opponent's shooter out of the Ring—provided his shooter remains inside the Ring. When a player's shooter passes outside the Ring, whether or not he has scored on the shot, he shall cease to shoot, but he shall be credited with the marbles he has scored.

If after a miss, a player's shooter remains inside the ring, he must leave it there and his opponents are permitted to shoot at it. If the shooter rolls outside the ring, he picks it up and on his next shot he is permitted to take roundsters and shoot from any point on the Ring Line.

PLAYING REGULATIONS

Marbles knocked out of the Ring shall be picked up by the player who knocks them out.

Whenever a marble or shooter comes to rest on the Ring Line, if its center is outside the Ring, or exactly on the Ring Line, it shall be considered out of the Ring; if its center is inside the Ring, it shall be considered inside the Ring.

A player hitting an opponent's shooter inside the Ring, but not knocking out shall pick up any marble he chooses, and shall proceed to shoot. However, he shall not hit the same opponent's shooter again until after he hits another shooter, or knocks a marble out of the Ring, or he comes around to his next turn to shoot.

A player knocking an opponent's shooter out of the Ring shall be entitled to all the marbles won by the opponent, and the opponent whose shooter has been knocked out of the Ring is out of the game, "killed." If the opponent who was knocked out of the Ring has no marbles, the player who knocked him out shall not be entitled to pick up a marble for the shot.

If a shooter knocks out two or more marbles or hits an opponent's shooter and a marble, or hits two opponents' shooters or completes any other combination play, he shall be entitled to all points scored on the shot.

When a shooter slips from a player's hand if the player calls "slips" and the referee is convinced that it is a slip, and if the shooter did not travel more than 10 inches the referee may order "no play" and permit the player to shoot again. The referee's decision is final.

The game shall end when the last marble is shot out.

SCORING

For each marble knocked out by a player, he shall be credited with the score of ONE.

For each time a player hits the shooter of an opponent, and does not knock it out of the ring, he shall be credited with the score of ONE.

For each time a player knocks an opponent's shooter out of the ring, he shall be credited with all the marbles previously scored by the hit opponent.

The player having credited to him the largest number of marbles at the completion of the game shall be winner of that game.

In games where more than two players are engaged, if two or more players lead with the same score, those in the tie shall play a new game to break the tie.

A player refusing to continue a game, once it is started, shall be disqualified, and if only two players are engaged, the game shall be forfeited to the offended player.

The score of a forfeited game shall be 13-0.

OFFICIALS

The officials shall be a referee and a scorer, if a scorer is available, otherwise the referee shall also keep score.

The referee shall have complete charge of the play. He shall interpret these rules and have power to make decisions on any points not specifically covered by these rules. He shall have authority to disqualify any player for unsportsmanlike conduct. He shall have authority to order from the playing field or its vicinity the coach or other representative of any player, who conducts himself improperly.

The scorer shall keep a record of the game, marking score of each player, shot by shot, and at the termination of each game shall notify the referee of the score, and the referee shall announce the winner. The scorer shall assist the referee in enforcing the rule against coaching, and call to the attention of the referee any infraction of the rules.

PENALTIES

A player shall NOT: Lift his hand until the shooter has left his hand. This violation is known as "histing."

Move his hand forward until the shooter has left his hand. This violation is known as "hunching."

Smooth or otherwise rearrange the ground, or remove any obstacles. He may request the referee to clear obstruction.

Penalty (For all three violations): If any marbles were knocked out or dislocated on the shot, they shall be restored to their place, and the player shall lose his shot.

Change shooters during the course of the game. He may choose a new shooter on each lag, provided he uses that shooter in the subsequent game. PENALTY: The player shall be disqualified from the game.

Communicate in any way with his coach during the course of the game. PENALTY: Forfeiture of all marbles he has knocked out of the ring, said marbles to be returned to the game and placed on the cross.

A coach shall not give instructions to either his own or any other player engaged in the game. PENALTY: Coach shall be ordered from the playing field, if after being warned once, he continues this violation.

"Music Of The Americas" Featured On Program By Music Study Club

Music Study Club met for an interesting lesson and musical program Monday afternoon at the home of Mrs. S. P. Rosson.

Mrs. C. C. Acker, leader, conducted an imaginary tour through the Americas, stopping in each country long enough to explain the character of its music and trace its development. Beginning with a brief visit to Canada, Mrs. Acker described the music as a mixture of the Scotch and French music, developed by the early settlers. The melodies centering around a river theme which has always been a channel of Canadian song. The French Canadian oarsman often being chosen for his ability to sing rather than to row. A choral number, "Maple Leaf Forever," sung by the club with Mrs. W. J. Stanford accompanying, illustrated the Canadian music.

The next imaginary visit was made in Cuba where the Creole music (the national music) was described as one of continuous movement. It is of African origin, brought by slaves from Africa. The Cuban Rhumba being an outgrowth of Spanish, Indian and African influence.

Buenos Aires was chosen as the stopping point in South America, with an explanation of the Argentina Tango, to interest the travelers. The Tango, most universal of all dances, has been adopted for its rhythm, but the tango lyrics are shunned because the better class of South Americans prefer a higher type of verse. "Rio Rio," a Chilean folk song, sung by Mesdames J. C. McCracken, H. K. Fox, C. C. Acker, T. W. Roberson, C. R. Smith and B. M. Wiltshire, illustrated this type of music. Miss Eloyse Pitman was accompanist.

Mrs. C. C. Ferguson told about the music of Mexico, stressing the fact that while Mexico is young in musical development, a few outstanding musicians have been produced. The rhythm of Mexican music is distinctly Spanish with almost every ranch maintaining an orchestra of its own.

To illustrate the music of this country, Mrs. Homer Fox sang "Tango, Esta Noche Me Emborracho," (Discepolo), and Mrs. Troys Carmichael in a colorful Spanish costume, gave "Adios Mi Chapparrita," (Esperson), in Spanish. Mrs. G. A. F. Parker was accompanist and Mrs. A. C. Thompson played the violin obligato.

Mrs. Acker reviewed high points in the life of Stephen F. Foster in her remarks concerning the music of the United States of America, telling of the Stephen F. Foster memorial in Pittsburgh, Pa., and mentioning his best beloved compositions, including Old Folks at Home, and Old Kentucky Home, and others.

Two Stephen F. Foster numbers were sung by the entire club in conclusion. They were "Beautiful Dreamer," and "I Dream of Jeanie," Mrs. W. J. Stanford was accompanist.

Members attending the meeting were Mesdames J. C. McCracken, S. P. Rosson, C. R. Smith, G. A. F. Parker, T. W. Roberson, W. J. Stanford, A. C. Thompson, A. C. Thompson, B. M. Wiltshire, C. C. Acker, H. L. Broadwell, Troys Carmichael, W. E. Dameron, C. C. Ferguson, H. K. Fox, and Misses Ruth Conkwright and Eloyse Pitman.

MISS DUTTON IS LEADER FOR BAY VIEW STUDY CLUB PROGRAM

Miss Ruby Dutton was leader of the program at the meeting held by the Junior Bay View Club Thursday night, at the home of Mrs. Jimmie Gillettine.

Miss Dutton chose for her subject: "Celotex," and "Houses from Sugar Cane," dividing its history into two parts; the first, years when celotex board was being established as a standard

insulating material, and of the company's recent multiplication of its one special base product into a complete line of building materials. Celotex-base products are used today for virtually everything in a house except framing. For outside sheathing or under clappboards or brick, the company dips its celotex sheets in asphalt and coats one side with aluminum powder, which gives a water and vapor-proof jacket for a house that is claimed to be as strong as ordinary wood sheathing. Another field which Celotex has ventured is the acoustical. But aside from its convenience Celotex repays a certain amount of study on its own account. It has managed to cram into its short life most of the standard props of business drama. A shoe string beginning with a revolutionary product—turning a luxury into a necessity by smart selling and advertising. Receivership, re-organization, penthouse apartments, private airplanes, shrewd finance, and a very real promise of leadership. Today it has the distinction of being the country's second largest industry.

Miss Lueta Borden continued a series of discussions on South American Countries, with an interesting description of "Argentina." She described the country geographically, its industries and various types of people, painting a word picture of life as South Americans live it. In discussing the influence of Gomez, a former ruler. Political situations and that country's attitude toward the United States were commented upon.

Miss Rhita Jean Sullivan, president, directed the business meeting when plans were made to entertain the Senior Club in the near future. The annual affair is one of the highlights of the year for both clubs and a probable date in April was decided upon.

Members attending the meeting included Nancy Conkwright, Ruth Conkwright, Eloyse Pitman, Rhita Jean Sullivan, Edna Daughette, Rub, Dutton, Lueta Borden, Katherine Kirby, Mesdames W. L. Davis, J. W. Witherspoon, J. T. Gilbreath, Jr., and the hostess.

BOOK REVIEW IS GIVEN FOR CLUB

An interesting review of "And Tell of Time," was given by Mrs. D. H. Alexander at the meeting of the Bay View Club Thursday afternoon at the court house.

The reviewer gave a brief story of the life of Laura Krey, author of the book, describing the story as the author's own living experience with its rich heritage from the past and its urban Texas background. Mrs. Alexander styled the book accurate in historical and topographical detail and easy to read. She said, "Laura Krey has achieved powerfully, but with such clever calm and gripping interest does she tell her story of love and life in a setting of struggle, squalor and rank corruption in public life that the reader feels the full force of its cumulative power only after the book is closed. Wisdom transpires so unobtrusively through the action—his mind clear and able to function more orderly among the problems of society. Unconsciously, the reader is led to hope and even believe that we of today may also fight our way back to the freedom of a democracy that is our rightful heritage from the past."

The Texas Day program was arranged by Mrs. R. P. Cogeway and Mrs. J. W. Spradley and Mrs. Essie Cardwell conducted the roll call which dealt with Texas writers, their works and achievements. Writers mentioned, included Margaret Belle Houston, Grace Noll Crowell, J. Frank Doble, Norma Patterson, Laura V. Hamner, Lexie Dean Robertson, Helen Topping Miller, Rose Jasper Nickell and Boyce House.

Mrs. Ray Barber, president, presided over the business session, when plans for next year's yearbooks were discussed. The project committee reported the placing of "Vogue" in the Deaf Smith County Library.

Members present were Mesdames Bob Wilson, J. B. Stoker, J. P. Slaton, F. T. Roloson, C. F. Moore, Paul Mathers, J. W. Kirby, A. M. Jones, G. W. Heard, E. W. Harrison, Colby Conkwright, Essie Cardwell, H. L. Broadwell, C. R. Barber and D. H. Alexander.

FOR BAND MEMBERS

Now that Hereford High Band has new uniforms, it is up to the band members to get down to work and show our appreciation. There is no reason why our band should not be the snappiest band at the contest at Plainview in April. These new uniforms should put pride in everyone that is from Hereford. They are a symbol of what can be done if the will is strong enough.

When this school year first started, no one knew how we were going to be able to get new uniforms. But they were needed, so our parents began to get busy and devised some way of financing the proposition. After much work and several contributions, they finally raised enough money. That is a good example of cooperation which the students should take to heart. Since our parents and various organizations of the town have supported us so loyally, it is up to us to make them proud of us by learning our parts for the contest, by cooperating with Mr. Smith in rehearsal and elsewhere, and by making Hereford's band a better band.

GREETINGS NEW STUDENTS

Greetings to Lois Martin, a new student from Amarillo. She is a sophomore. Her sister, Dorothy Jeane, is in the seventh grade.

SYMPATHY

The students and faculty wish to offer their deepest sympathy to the J. W. Spradley family. Their deep grief is shared by both pupils and teachers.

THROUGH THE CAMERA LENS

In the first picture, we see Jeane Williams as she is passing out of the school building. Contentedly, the pin on her lapel is from her "flame" in Dalhart. In the background we see Mary Nicks, smiling as usual. Next, Helen Francis Streu is caught ripping out a few notes of sax swing. Miss Wrenn is caught with that face in the last picture. She seems to be "arming" some sweet little thing up the walk of the school building.

EDITH JACKSON

The smallest senior girl is no other than Edith Jackson. Edith is also one of the smartest seniors, as her records will tell you, and she works in the office three periods of each day. She has spent most of her school life in the Hereford Schools. All in fact, except one year and twelve weeks at which time she attended high school at Albuquerque, New Mexico. Her hobbies are collecting inanimate dogs of various sizes and shapes and playing the piano. She likes fried eggs cooked exceptionally well. Edith's outstanding desires are to be a court reporter and live in a pent house in Los Angeles.

ANDY SCHUMAKER

Andrew Schumaker, better known as "Andy" is nineteen years old, has blue eyes, and shaves twice a week. Andy's main interest is in the Junior Class and the first initial of her last name is Orvella Hill. Andy's hobby is hunting. His ambition is to be an engineer. Had Andy not been president of the Athletic Association, Fire Captain, Athletic Reporter, and a football player, dear old H. S. would have missed a very active young man.

RUTH ATCHLEY

Ruth Atchley needs no introduction since she has made herself well known to the students of H. S. through her participation in sports, especially in basketball. She has played basketball since the third grade and has lettered for the last four years, receiving a sweater and five golden basketballs for her outstanding playing. She was captain of this year's team. Ruth's hobbies are anything that does not have reading connected with it, but her main hobby is collecting toy dogs. At the present she has thirty-seven of the little animals. Ruth wants to do some kind of work that requires outdoor

Lucky Break For Students

The week of March 6-10 surely must feel proud of itself, for it is certainly a gala week. First and foremost, of course, is the Junior-Senior Banquet, which is held on the ninth of March. That is the night when all the junior and senior girls dress up in their prettiest evening dresses, and the junior and senior boys borrow their big brothers' suits and their fathers' ties. Then, miracle of miracles, the following day, Friday, the teachers do the going to school and the students—or shall we say pupils—get a holiday. This unexpected occurrence will be especially beneficial to juniors and seniors who need a beauty sleep, but sophomores and freshmen will probably enjoy it equally as well.

What A Party Hi-Y Has!

At last the Boys' Hi-Y had a party and what a party! The party was supposed to have started at 8:00 Friday night, March 3, but of course there were late comers, six in fact. The party was started by playing several active games, too active in fact. Then the eats came. The eats consisted of three kinds of sandwiches, olives, pickles, punch and cookies. Those attending the party, were: Geo. McLean, Edith Jackson, Paul Lyons, Bettye Sue Henslee, Myron Morgan, La Wanda Jean Reed, Robert Petersen, Vivian Olson, Billy Bob Jackson, Dorothy Banner, Geo. Walker, Virginia East, Donald Henslee, Rachel Ireland, Wesley Guthrie, Joyce Cress, Bartley Dowell, Louise Cress, R. L. Dowell, Jr. Polly Anna Crawford, Tim Sterner, F. L. Lucas, Bruce Beene, Mr. Kinard, Bob Gilliland and the hostess, Mrs. Gilliland.

This party was held on the top floor of the Court House in the Home Demonstration Rooms.

Seniors March To Victory

What a basketball game it was! On March 1, those senior boys defeated the junior boys by a score of 33 to 15. Both teams put up a fight for the victory, but only one team could win. Those juniors put up a real battle and showed good sportsmanship even if they did come out on the short end of the score. Perhaps this victory made some of the seniors rather sure of themselves, so let's have someone defeat them. The seniors are ready when any one else is.

The Home Demonstration club party was held Friday night at the school. There was a short program consisting of three piano numbers by Miss Helen Gilmore, readings by Wanda Marie Allmon and Martha Lee Rutter, and two solo numbers by Jack Earp. Jack sang "Rainbow Round My Shoulder," and "Drifting and Dreaming." After the program, games of bingo, Chinese checkers, "42," and dominoes were played. Members of the club sold popcorn balls and candy. At the close of the evening refreshments of sandwiches, cookies and cocoa were served to those present. The club realized a total of \$8.20.

BULL

By Jimmie Gillentine

Here is a poem that has been written about whiskers. It was composed by Lon Washam, who is now employed on the Indexing of County Records Project in the court house. I believe you will find the poem interesting and entertaining, and what's more it "hits the nail on the head."

WHISKERS! WHISKERS! WHISKERS!

By Lon Washam Hereford, Texas

Whiskers, whiskers! Oh my God! How they prick and how they prod!

Some are black and some are white, Some shine like candle light.

Some are thick and some are thin;

None grow out, but all grow in, Whether grown on lip or chin, None go out, but come back in.

Some look like monkeys—some goats;

Bushy chins and shaven throats! But come along day in May, Will be sports until that day.

I know we act as men insane; Faces sore with whisker pain; Yet, for love of Old Langsine, Facial comfort we resign.

Mock not black, nor mock not grey,

They have had their yesterday; Better be if ye were dead, Than say one word about red.

We know we cannot come near Footprints of a Pioneer, Yet, we want this out report, We have tried to be a Sport!

One thing about it, Lon sure put his real feeling into that poem, especially the part about "prodding" and "growing in." I'll bet that Edgar Allan Poe had no deeper feeling when he wrote "The Raven."

Just one more paragraph and I'm going to take a wham at the ladies—and they sure do deserve it. There are a lot of people who are really, conscientiously trying to grow whiskers and who just simply can't get the job done. This is a physical handicap in their opinion (although I think that they should rejoice), and they want something done about it. Grant Fuller, who is a chronic griper anyway, has been around whinning about it, and although Rev. James Alken hasn't complained, I can tell that he is sure disappointed in his showing. Stas Gilliland is carrying around a magnifying glass to prove that he is really trying and there are a lot of others. Well, I am arranging for some "Booby Prizes" for these fellows. This is on the up and up, folks, and you'll find the rules later. The three winners may have their choice, in order of their ranking, of a one-year subscription to The Brand, a \$1 razor and blades, or a free manicure.

Here are the rules. If you want to enter the "Booby Prize" race, you must come by the office and register your name within the next 10 days. Then you have to come back on Pioneer Day and be judged. I will be the sole judge, and my decision will be final.

Now for the women. I can't find much fault with the B. & P. W. because they seem to be trying. They are all diked out in fancy shirts, hats and neckerchiefs. I sure appreciate their effort, but I deplore their choice of garb. In the first place, our grandmothers did not go around wearing fancy shirts and big hats, at least mine didn't. My grandmother was a pioneer and she wore gingham and calico dresses. Furthermore, she covered her head with a sunbonnet. I can see her now, tired from an afternoon of baking pies (and always a little, bitty one special to please me), as she set them out to cool, then donned that big flopping old bonnet as she went out to gather some vegetables from her garden or to feed her chickens.

One time when I was visiting her, she told me about how she and grandpa went to Indian Territory (northern Oklahoma) first and lived in a half dug-out. My Dad was just a little shaver then,

as were three others of tender age, and while alone with them one night she suddenly discovered that a polecat had entered the dug-out. Being a woman of firm character and deep resolve she ousted the skunk with dispatch—and I'm here to tell you that she didn't wait to don a silk shirt, a 10-gallon hat or a bright neckerchief. No sir.

Mrs. E. J. Williams, who is a pioneer by her own right, and who cooked many a meal for Will Rogers when he worked on their ranch near Dimmitt, is of the same opinion about the garb of the ladies. She made a special trip to tell me that she believed I was right about leaving off the powder and paint. She says: "The women ought to wear bustles. They say that they can't get the necessary material for bustles. Well—they can do like we used to do in the old days. Many's the time I've tied an ordinary bed pillow around my waist, when I didn't have a store bustle. It works just fine, and it was common in those days." Ladies, here's a challenge from a Pioneer Woman who really knows. What I want to know is this, "Is there a single woman in Hereford that is a good enough sport to do what she knows and believes is right about this matter?" It looks to me like you ladies are being a bunch of first-class pikers, whereas the men are being real, first-class sports. To make it interesting, I will personally give every woman between 20 and 60 years of age a free ticket to the Star Theatre if they will come to town and remain around on the streets as long as one hour Saturday afternoon, attired in old-fashioned bustles and bonnets. I don't want any trickery, ladies, and I will sure pay off, provided you come by The Brand office and report to me.

I hope a whole bunch of the ladies will take me up on this, because my faith in women is gradually waning, the longer my whiskers get—and it will be worth two-bits, a throw to have my esteem of the gentle sex restored. Besides, I don't think I'm taking any chance—or I sure don't know much about women.

Here's a good one on Lawrence Wombie. He sold a fellow a radio on credit a few months ago and the man popped up and moved away. He located the fellow some 300 miles from here and wrote him about the debt. Monday night, he got a long distance telephone call, and to his surprise, it was the man he had credited on the radio. "I just wanted to tell you that I'm going to pay you for that radio," the man said. Lawrence was pleased as pie until they finished talking and the fellow rang off. He then found out that the call was collect and had cost him another \$2.50.

John Roberts had some circulars printed at The Brand office this week, and Connie Shultz carried them to Dimmitt, Friona and a lot of distant points. Monday morning he discovered that the name of the theatre had been omitted from the handbills. Yes, he's still screaming.

The Lions Club is sponsoring a big marble tournament for boys under 14 years of age. So far the town kids have been coming in pretty good. Don't they play marbles out in the country any more? This is a wide-open contest, boys. You can get entry blanks at The Brand office, and when you enter, you'll get a set of rules. The first play-off is slated Saturday, Mar. 18. Enter as soon as possible and start practicing by the new International Rules, which will be used in all play. There are some nice prizes—and the winner gets to play for honors in Amarillo in April, all expenses paid. Urge all of the boys you know to enter. It's wide open and some boy is going to get a mighty nice trip.

Dyalthia Brady just came in to say that the fancy hats and Pioneer Day shirts are not limited to the B. & P. W. Club. She says the committee expects all of the ladies to adopt the attire. I still say bonnets and bustles—but if you just can't see it my way, then I say "The hats and shirts are better than nothing."

D. H. Bryant arrived Saturday from Spartanburg, where he and Mrs. Bryant are spending the winter with their son, Rev. Noel Bryant, who is pastor of the Methodist Church at that place. Mr. Bryant will visit his son, Cawthon Bryant and his family here, for ten days or two weeks.

No Beards in Old Dodge City

Out at Dodge City, Kansas, the masculine population has industriously begun the growing of beards as a feature of the town celebration which will be climaxed by the world premier there of the film, "Dodge City," scheduled for late in April or early in May.

We deplore this. While there is wisdom in giving plenty of advance notice if a satisfactory crop of whiskers is to be produced by the time desired, why have them at all? Towns with mining history or even covered wagon history may, with appropriateness, embark on a program of whiskers. But Dodge City's unique background is that of the cowboy.

The cowboy was no admirer of whiskers, save, perhaps for the mustache. In fact he is credited with having ended the style of beards which came into being with the War Between the States when the boys of Lee and Grant found no time to shave between taking potshots across the Rappahannock. To be lank rider of the range mustang, a beard was only a collector of dust. He had, moreover, a certain pride in his appearance, and was unafraid of a straight razor.

Dodge City's famed first citizens did not wear beards. Bob Wright, Bat Masterson, Mysterious Dave Mather, Wyatt Earp, Clay Allison, Bill Hughtman, Dog Kelly and various others who come to mind were clean-shaven or sported only a mustache. If verification of this is needed, let Dodge City but glance at the photographs of its early population of which so many are preserved in its own famous museum.

Chaps Dodge City should wear at its celebration; 10-gallon hats, yes, colored shirts with gaudy kerchiefs, assuredly. But beards, no.

Beards were for shepherders.

The above editorial was sent me by Harry L. Rice. It was published in the Kansas City Star, and to my way of thinking, proves that Bob Higgins and Wiley Roberson should be the only exponents of whisker growing in this community.

Creeps, Rickets and "Hollow Horn"

By T. C. Richardson, Secretary Breeder-Feeder Association
These troubles in livestock are what is known as "deficiency" disease, caused by the lack of certain essential elements in the feed. Those who have green pastures and good legume hay need lose no sleep, for there is little danger of any of these troubles developing. The green feed supplies vitamin D, and lebum hay, especially alfalfa and clovers, usually carries enough lime and phosphorus to supply the needs of the animal.

At this season of the year range cattle on dry pastures and other livestock receiving only dry forage, such as bundle sorghums, grass, sorghum hay, and even some of the starchy grains, are liable to become anemic, for lack of the minerals and vitamin D. Now sunshine is also a source

of vitamin D but animals absorb it mainly through green feed and not through the skin, so we cannot depend on its ultra-violet ray alone to keep them in health and vigor.

Dairy cows may fall off in milk for lack of lime and phosphorus in their rations in spite of having all the dry hay they can eat. The mineral deficiency is easily and cheaply supplied with lime and bone meal in the proportions of two to one. Lime is supplied in the form of pulverized limestone or oyster shell and may be mixed with bone meal in open troughs, or mixed with feed. Only a fraction of an ounce a day is needed for cattle.

Mineral mixture for hogs are quite generally used tracing back to the old practice of placing ashes and salt in the hog lot. There are several formulas, one

of which can be had from your county agricultural college or agent.

Many experiments in recent years have gone to prove that creeps and rickets along with other less definitely recognizable troubles, are not true "diseases" but are due simply and solely to malnutrition, and in these the malnutrition is a deficiency of essential minerals.

What we used to call "hollow horn" hollow tail" and so on, was nothing more than lack of enough feed containing the necessary elements for health and vigor. After an animal reaches the best age of extreme weakness it is difficult to correct it, but if the minerals and vitamins are provided extreme cases seldom occur.

Mr. and Mrs. Glenn Parker and son, Sammy, Miss Minnie Mae Aldridge and Ray Joiner of Tucumcari, N. M., visited Mr. and Mrs. Geo. Parker, Sunday.

TIPS ON SEASONAL VEGETABLES GIVEN BY MISS OLIVER

"Savoy" means a crinkled leaf of the type found in seersucker fabrics. Cornell Savoy Cabbage has lost most of the strong cabbage odor due to a decrease in sulphur content. Bloomsdale Savoy Spinach is the popular home garden variety and can be washed clean.

A turnip of upright habit of growth is the Shogoin, which also has a low sulphur content. Plant lice cannot hide on its exposed leaf surfaces. They have been quoted as saying, "We are a goin' away from here."

An almost coreless sweet tender carrot for home gardens is the Nantes (nancy) never found in commercial gardens.

A lettuce more tender than the usual head varieties shipped in is New York, also called Wonder-

ful and Los Angeles. Kentucky Wonder Beans of a bush type have been developed. The Yellow Crookneck Squash of high vitamin A content has had the Crook taken out of the neck thus making it more easily handled without breakage.

Sorrel is a close relative of rhubarb readily grown from seed, with slight protection in winter is perennial and provides a deep green (high vitamin A content) acid salad crop.

Endive, curled or plain, is a cool season salad crop easily grown.

New Band Uniforms Arrive Here Tuesday

Ten Members Attend Band Clinic March 3

CONDITIONS FOR COMING CONTEST

Ten members of the Hereford High School Band were busily engaged Thursday getting their O. K.'s. The reason? They were preparing to go to the band clinic in Littlefield on Friday, March 3. This clinic was held for Class B bands in the Panhandle. The purpose was to run over the contest pieces that these bands would be required to play at the coming contest to be held in Plainview.

D. O. Wiley, director of the Texas Tech Band, was the supervisor of this affair. The band was made up of students from eleven different towns and consisted of seventy-four members. The towns represented were as follows: Slaton, Brownfield, Lubbock, Clovis, Portales, Lamesa, Levelland, Hereford, Littlefield, Post and Floydada.

The band started rehearsal at nine o'clock Friday morning. After going over the various contest pieces and others of similar nature, the band adjourned at 12 for lunch. Rehearsal was resumed again at two and lasted until three-thirty.

At seven-thirty the band gave a concert in the auditorium for which admission was charged. The concert consisted of the pieces which the band had previously rehearsed. At the close of the concert, Mr. Wiley remarked that the band had done very well indeed for the amount of practice which they had had.

Those from Hereford who attended were Mr. and Mrs. Ralph Smith, Orvella Hill, Helen Frances Streu, Virginia Newell, Jeane Williams, Merlin Conklin, E. B. Posey, Floyd Ross, Clifford and John Estes, and Glen Smith. Incidentally these persons had the privilege of being the first to go on a band trip in the new uniforms.

A real blizzard hit here last Monday. It started with a light snow around 10 a. m., and by 11

BAND MEMBERS PUT ON NEW "DUDS"

Exclamations of joy and pride were prevalent all over building when the announcement went around that all the band members were to meet in the auditorium at six o'clock, Tuesday, February 28. At last the band uniforms have arrived! The long waited for and much needed uniforms were finally here!

Mr. Smith and Mr. Berenson began giving them out to eager band members shortly after six o'clock last Tuesday. Each uniform was tailor-made for a certain student. Every student was requested to try on his uniform to see that everything fitted correctly. By the time everyone had put on his uniform, a casual spectator would have thought that he had just stepped into a building full of cadets at West Point.

The uniforms are maroon with white trimmings. One consists of a maroon military coat with a white Sam Brown belt, maroon and white trimmed cap. White shirts and maroon ties will be worn underneath the coats.

If it were not for the fine work of Mr. Smith and the band parents led by Mrs. O. G. Hill, Hereford High's band would not be having the joy of being dressed in these exquisite new uniforms. Mr. Smith and the Band forms. All the band members wish to express their deepest gratitude for the effort and of Parents have spent in getting these uniforms.

FLU EPIDEMIC COMPARABLE TO THAT OF 1918 PREVAILS HERE

It was estimated that more than 400 persons were confined to bed in Hereford Sunday and Monday as the epidemic hit a high point, while scores of persons over the surrounding territory were likewise suffering from colds and flu.

'Course I am not trying to cover the whole town, 'cause I know there are a lot of fellows that have perfectly good looking whiskers and don't even feel bad. Just to tell the truth, I have been out myself since Friday, but Monday morning I had to take the side whiskers off, and I still have about the cutest moustache (someone told me that meant bowlegged) and if this moustache of mine can't make a pair of bow legs look like thirty cents I will eat my hat, 'cause it is growing just like a Locust Tree Root. Besides I feel so bad tonight that I think these crooked "upper lipper" whiskers, have to come off if I have to count every Fish, Turtle, Tadpole and Polly Wog in the bottom of the Tierra Blanca.

If I had to look like Urlin Streu and J. M. Posey for two months, I had just as soon be a catfish anyway, 'cause they can't grow but a few whiskers anyway.

It is possible that the Pioneer Gals dug way back in History and figured out just what this whisker growing would do to the male end of our community and appreciate more when the wives

After all, we will have pay for taking them off, and probably be more than glad to do it, but I still say that it ain't fair to make a guy like Ralph Roden pay for growing them when he can't see them, and then have to pay to take them off.
