Bond Contest Starts Friday to Name Victory Wife or Mother

AROUND ATown

Sights and Faces Seen

Hereford's "Victory Wife" or "Victory Mother" will be named during the Seventh War Loan in a contest in which purchase of E bonds entitles the buyer to a vote for his candidate.

All wives of service men and Mothers of service men and women are eligible for the contest and votes will be tabulated on a basis of 100 votes for each \$25 War Bond purchased, with comparable values for bonds of higher denominations.

Voting places will be provided at every place where bonds are sold and the contest will continue from May 11 to June 30, with War Bond prizes for the four ladies polling the highest number of votes. First prize will be a \$100 bond; second, \$50, and third and fourth, \$25 each.

Business firms, clubs or individuals may nominate candidates, according to Robert L. Thompson, 7th War Loan chairman, who points out: "Just decide on your candidate—give her some publicity—and then put some pep into the bond sales to win the election."

Names of candidates occupying the first ten places in the contest will be published each week in the Brand.

Only E bond purchases will be counted in the contest, Thompson said.

Used Car Ads Must Give Price

Persons advertising used passenger automobiles for sale in newspapers and other publications must include in the advertisement the make of the car, the model year, the model body type, the seller's offering price, and the statement that the price is "within OPA ceiling," the District Office of Price Administration has announced.

This requirement, effective May 9, 1945, is designed to aid in the enforcement of price control on used cars.

The owner of a car may obtain its legal ceiling price by phoning his local War Price and Rationing Board or by checking the ceiling price list which is available at all OPA offices or automobile dealer shops.

A number of changes in the regulation governing used car prices, effective May 9, were also announced. These include exemption of 1925 and earlier (Continued on Back Page)

Home Nursing Classes Close May 15 to June 4

Red Cross home nursing classes, which have been in progress here for more than a month, will be closed from May 15 to June 4, it was announced today by Mrs. Bob Wilson, home nursing chairman, who states that persons desiring to take the course in June should leave their names with her or at the county Red Cross office as soon as possible.

High school graduates will be eligible to take the course, and it is believed that a number will sign up. However, Mrs. Wilson states that unless a fairly large enrollment can be secured, the classes will be discontinued for the summer.

Student Gives Opinion

The marked approval of all who have taken the special home nursing training is reflected in the statement issued by Mrs. Elver Brown, who wrote of the course:

"It sounds impossible when one states that he can learn in (Continued on Page 12)

Emmons Takes Job In Breckenridge

W. M. Emmons planned to leave today for Breckenridge where he will take over the duties of county agent. Serving as vocational agriculture instructor for several years after coming to Hereford, Mr. Emmons has recently been employed by the Soil Conservation Service.

Mrs. Emmons and daughter Diane plan to join him in Breckenridge as soon as school is out.

Out of a flock of 300 White Rock chickens, only nine had fallen victims to ordinary "infant mortality," and Dan Higgins, Jr., of the Daniel neighborhood was looking forward to a healthy crop of fryers this summer, when suddenly the chicks began to lose their pep, sit down and stretch their necks as near to giraffe proportions as possible.

Performing an autopsy, Mr. Higgins found that his sluggish chicks had been spicing their diet with shingle nails, picked up from a sack in the yard. He found shingle nails in the gizzards of 25 of the three-week-old chicks—and hopes that will be all.

Hereford came close to observing V-E Day by fasting. Or at least a lot of would-be-grocery shoppers were remarking that their cupboards and refrigerators were completely bare Tuesday afternoon.

Used Clothing Tips Scales at 10,453 Pounds

A total of 10,453 pounds of clothing was shipped from Hereford Tuesday for European relief, Bob Wilson, chairman of the United Nations Clothing Drive, announced today.

Of the total, 8,265 pounds came from the collection sponsored by the Lions Club, which had collection depots in Hereford; and 2,188 pounds were collected by various church groups. Of this, 888 pounds were sent by St. Anthony's Church, 1,200 pounds by the Church of Christ and 100 pounds by the Seventh Day Adventists.

The large amount and good quality of the clothing collected here constitutes an outstanding record, and Mr. Wilson expressed appreciation for the help of every individual and group taking part in the drive.

When Is a Prisoner Not a Prisoner

There is no argument in Hereford that Germany is defeated, but a good argument could be conjured up on any street corner this week concerning the status of prisoner at the local POW Camp following the V-E day announcement.

The guesses—strictly unofficial—ran all the way from the opinion that the Italians would be sent home inside of 60 days, to predictions of a civilian internecine status or continued imprisonment under F-O-W rules for perhaps another year.

"These prisoners are Fascists; the Italian Fascists did not surrender; therefore the men held here are still prisoners of war," ran one theory.

"All the armies in Italy surrendered, so Italian prisoners will be liberated—and quick" was another story.

It all boils down to the question, "When is a prisoner not a prisoner, and what happens to him then?" And the Geneva convention probably has a rule for it; but the guessers don't know the Geneva rules—and anyway, why spell a good argument?

AN EIGHTH AIR FORCE LIBERATOR STATION, England—Staff Sgt. Walter D. Lomas, waist gunner on the B-24 Liberator "Little Beaver," has recently been awarded an Oak Leaf Cluster to his Air Medal, for his services in missions over Nazi Germany.

According to the citation "Sgt. Lomas' actions in these missions reflects great credit upon himself and the armed forces of the United States."

Major Bell Describes Reconstruction Work Of Allies in Italy

Volcanoes which in Roman times terrorized the people of Italy and which have buried whole cities under molten lava, have now been harnessed to provide electric power which will be used to rebuild Italian industry.

That is the report of Major Robert Bell of the Allied Military Government in Italy who is visiting his mother, Mrs. Allan Bell, this week and who has been working on the reconstruction systems in Mussolini's one-time empire. The harnessing of steam from extinct volcanoes to power huge electric generators is a new development in electrical engineering, Major Bell says, and undoubtedly will speed up reconstruction work in Italy, where such natural fuels as coal, oil and gas were short—even before the war.

Of the reconstruction work which faces the Allied Military Government, Major Bell says that perhaps 90 per cent of the destruction was caused by the expert demolition job of the retreating Germans. "Destruction caused by Allied planes and guns does not compare with the damage done by the Germans," he says.

Major Bell, who is on a recuperative leave, expects to return to Italy. During his three years of overseas service he was on duty in the Aleutians, North Africa and Sardinia prior to going to Italy. Before starting his present work he spent two years with the Army Air Forces doing radio maintenance work.

A graduate of Texas A & M College, Major Bell in civilian life was employed by the Dallas Power and Light Company.

Overseas Subscriptions For Navy Personnel to Require Written Request

Effective July 1, all magazine and newspaper subscriptions for members of the Navy, Coast Guard and Marine Corps overseas, will require the submission to the publisher of a written request from the service man or woman for the magazine or newspaper, it was announced this week by Postmaster J. R. Lipscomb.

This is the same regulation which has been in effect for some time on overseas subscriptions for Army personnel.

As in the case of Army subscriptions, relatives may pay for subscriptions, provided they have requests for the periodicals; and these requests must be submitted to the publisher.

Farmers to Sign Release on All Matured Loans

All farm storage loans have matured, but in order to speed up the handling of grain, farmers who have not yet signed release papers and who wish to deliver grain to the Commodity Credit Corporation to satisfy the loan, are asked to stop by the AAA office and sign a release immediately.

This applies to loans on wheat, barley and grain sorghums, according to the AAA announcement which also stated that releases were desired on elevator-stored grain.

If releases are signed promptly, Commodity Credit may save from one month to six weeks in issuing shipping instructions.

The announcement also stated that farmers wishing to deliver grain must first apply for delivery forms, available at the county AAA office.

V-E Day Observed Quietly; News Comes As Anti-Climax

Stating that Clifton F. Schmidt, Jr., representative of the research department of the Crown Cork and Seal Company of Baltimore, Md., will be in Hereford next week, Marion E. Ziegler today announced that farmers of the territory are invited to a meeting Monday night at 8:30 at the courthouse to hear Mr. Schmidt discuss the planting of cork oak trees in the Hereford area.

Representative Here Ziegler, who has been doing engineering work in Hereford for several months, says that the cork company representative will give a clear picture of possibilities for growth of the trees in this area. Trees have been planted at State experiment (Continued on Page 12)

Boys 4-H Program To Get Underway

Planning to enroll as many Deaf Smith County boys as possible in 4-H club work, County Agent A. R. Bateman stated this week that the aim is to have 35 or 40 club calves on feed this summer and to start work also on pig and lamb feeding, chicken raising and gardening. "If we can get a good feeding program started," Bateman said, "we will have a calf show here next spring with winners to go on to the Amarillo and Fort Worth fat stock shows."

Bateman visited Hereford schools yesterday and plans to visit rural schools within the next few days. If sufficient interest is shown, an organizational meeting will then be held in Hereford with a good motion picture program.

Funeral services for Rebecca Pearl Hennen, 24-year-old daughter of H. V. Hennen of Hereford, were held Saturday morning at the E. B. Black Funeral Home with Minister L. H. Andrews of the Church of Christ officiating. Miss Hennen died last Wednesday of a chronic heart ailment at the Austin State School, where she had been for some time.

Born in Denton, Mar. 23, 1921, she had made her home here with her parents for a number of years before going to the school in Austin.

Brothers Meet at Okinawa—This Time Not Even Surprised

"This time, we weren't even surprised."

That was the comment of Sgt. Tommy Johnson on his meeting with his brother, Pfc. Emmett J. Johnson at Okinawa. For this was the third such meeting for the brothers since they started their service in the Pacific theatre.

They had previously met in Hawaii and on Saipan.

Tommy Johnson is in the Infantry and Emmett is in the Engineers. They are sons of Mr. and Mrs. W. A. Johnson, who have seven sons in service.

Bicknell Freed From Jap Camp

After 14 months without word from her son Staff Sgt. Robert Bicknell Jr. reported missing in action in Burma on Mar. 5, 1944, Mrs. Robert Bicknell Friday received a message from the War Department stating that Sgt. Bicknell had been released from a Japanese Prisoner of War Camp.

Young Bicknell, a glider pilot, was missing after taking part in a dangerous mission in which gliders were used to land men and materials back of the Jap lines in Burma last March. He had not previously been reported as a prisoner.

Mrs. Bicknell was able to send a 25-word message to her son and hopes soon to hear from him directly. A later official message stated that Sgt. Bicknell was in good condition.

Bicknell, 22 years old, is a graduate of Friona High School and entered the Army on Oct. 19, 1942. He trained as a glider (Continued on Page 12)

Teen Towners Off to Good Beginning

"Teen-Towners" got off to a good start Friday night with the first entertainment sponsored by the organization when approximately 200 young people between the ages of 13 and 19 years old including eighth grade students, enjoyed an open house affair at Hereford City Hall.

Informality was the keynote for the frolic with table games, stunts and dancing providing the entertainment. Mr. and Mrs. Boyd London and Mr. and Mrs. R. L. Hopson were the official chaperons.

The first official meeting of the organization was held last week with plans made for summer activities outlined. At least one such entertainment will be held each week during the summer months and possibly more, depending on popular vote and attendance records.

V. O. Hopson, president, has announced that a party for members only will be held tomorrow night and guests will be admitted by membership cards. The entertainment is open to all teen agers and all are urged to obtain membership cards from Helen Acker, membership chairman, or apply at the high school for them.

Plans now provide that all affairs will be held at the City Hall from 8 until 11 o'clock in the evening.

Band Makes High Rating in Contest

The Hereford Band made a rating of "one-minus" on both sight-reading and playing in the Panhandle-wide music contest held in Canyon last Friday. The Hereford rating was beaten by only one school, Plainview, in the 1-B classification.

The local band played at the Friday night program at Canyon.

No fire sirens, no racing cars and no loud celebrations greeted the announcement of V-E Day in Hereford Tuesday, as people for the most part went about their business quietly in cooperation with President Truman's request that the work of the nation go on as usual.

Actually, the real V-E day came as an anti-climax, preceded by a false V-E Day which started some celebrations on Apr. 28, and by an AP story which scooped the official V-E Day proclamation by 24 hours.

After the magnificent fumbling of the surrender news story, there was no cause for excitement when the announcement came at 8 o'clock Tuesday morning; and Hereford people took the news in their stride, generally very much aware that hard fighting remains in the Pacific and that it will be a long time before many Hereford boys return to their homes.

However, the prayerful thankfulness with which the news was accepted was reflected in the big crowd which thronged the Methodist Church Tuesday night for a community V-E Day service, which effectively pointed out the true solemnity of the occasion.

Statements by Hereford ministers James Aiken, Jr., Marvin Boyd, L. W. Bridges and R. H. Cagle preceded the responsive reading of scriptures and of prayers emphasizing the need for penitence, thankfulness and firm resolution in the task that still lies ahead.

"Labor supply for the coming potato season will probably be adequate," County Agent A. R. Bateman said today, advising farmers to come by the farm labor office and state their needs as early as possible. Mont Baker is in charge of the local office, which is open every day, and is ready to help employers and farm laborers in making connection.

Labor Supply to Be Adequate for Potato Season

"We will have a tent city for transient workers," Bateman said. "This sort of temporary housing project helped us get labor last year, and we expect to use it again."

Concerning prison labor, the county agent said that though no official plans have been announced as to the length of imprisonment of prisoners after the end of the European war, indications are that prison labor will again be available this season. As in the past, applications for the use of prison labor will be handled by the county agent's office, and application should be made by the farmer at least ten days before he will need the labor.

Mr. Fleisher, county attorney of Randall County, died at his home in Canyon Saturday morning following a heart attack.

He had been a resident of Randall County for 26 years. He received his law degree from the University of Texas and in 1910 he and his brother, W. J. Fleisher, opened a law office in Canyon. He served two terms as county judge of Randall County.

Telephone men working!

When American armies stormed the Ruhr, Robert Lissell, Blue Network radio correspondent, reported:

"I don't think you can go more than half a mile when you're near the front without seeing telephone men working. . . . Most of the time they're ducking incoming mortars, but they do keep the lines intact. When the battalion moves forward to take a new objective, the field telephone and its platoon of line-men move right along with it, and in minutes after the battalion arrives, the battalion commander can talk to his regimental commander directing the operation."

To run this war—from factory to foxhole—takes a lot of complex telephone equipment.

Skypala in States
Pfc. Edwin R. Skypala of the Coast Artillery Corps, is back in the States after spending the past 29 months in the China-Burma-India theatre of operations. He was scheduled to arrive on approximately May 8 at Ft. Bliss, El Paso, prior to reaching his home near Hereford, where he will visit his parents, Mr. and Mrs. V. Skypala.

Is First Lieutenant
AAF, PACIFIC HEADQUARTERS—Carl D. Mountz, supply officer with a Quartermaster unit at a VI Air Service Area Command base in the Central Pacific, has been promoted to first lieutenant.
Lieutenant Mountz' wife, the former Frances J. Nelms, lives at 415 Fulton Street, Denton, and his parents, Mr. and Mrs. C. J. Mountz, live in Hereford. He was graduated from Hereford High School and prior to entering the Army in March, 1941, was employed by the Santa Fe Railroad Company in Lubbock. He was commissioned in Officer's Candidate School at Camp Lee, Va., in July, 1943, and arrived overseas in November, 1944.

The Mountain that became a Gold Mine!

...and the company that helped build 11,000,000 war-time tires

This pile of discarded automobile tires (the picture was taken in 1936) is as non-existent today as the Big Rock Candy Mountains—where the cigarettes grew on trees and the springs gushed pure lemonade.

Maybe you remember driving past those junk yards where the homeless jalopies used to rust in the rain, and the pile of tires grew mountain-high.

And then, one day in December, 1941, that mountain became a gold mine!

In a few terrible moments, America's access to the raw rubber of the Indies was cut completely.

Throughout America, junk yards, garages, and back yards were scoured for every scrap of precious rubber

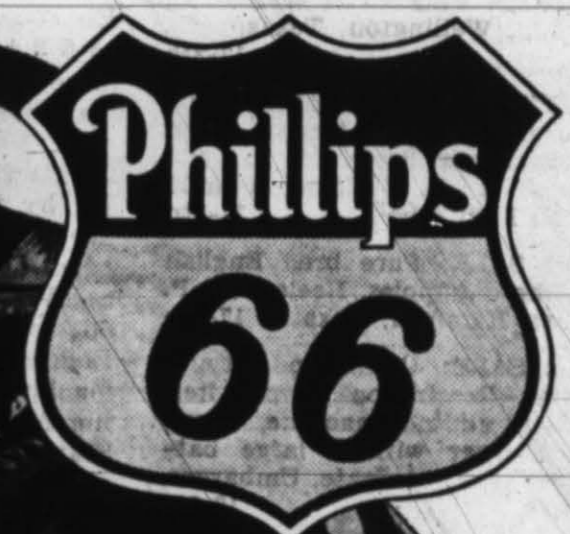

that could be found. We were on a spot—a bad one.

The fact that we got off the spot is due, to a great extent, to companies such as Phillips. For it was Phillips chemical research ability and Phillips production facilities that produced an important share of the vital butadiene which is so essential to the manufacture of synthetic rubber!

Today, we think we have a well-earned right to stick out our chests—because the Phillips Petroleum Company is one of the largest producers of butadiene in the United States!

With today's ever-increasing emphasis on the chemical production of new and better things from petroleum, let the Phillips 66 Shield remind you that Phillips refineries, in addition to producing gasolines, lubricants, and fuel oils... are also gigantic chemical plants pouring out weapons for victory.

THIS WEEK... AT THE USO

The best laid plans of mice
and men-and G. S. O. girls-
often are changed. But we don't
mind as long as it is for V. E.
day. The girls had everything
ready on Monday night for the
"Kid Party" but the restriction
made it necessary to change the
date to next week. So get ready
for the party next Monday.

There were two marriages last
week. Miss Joanna Adams and
Lefty Halsted were married on
Thursday. Then on Saturday
Miss Louise Abney of Fort
Worth and Pvt. Leroy Thurmond
launched into the sea of
matrimony. Our best wishes to
both couples.

Everyone was surprised to see
Pfc. and Mrs. Mike Konesky on
Saturday. Lucy has been living
with Mike's family in Pennsyl-
vania and accompanied him to
Hereford on his way back to Ft.
Lewis, Wash.

The wives had their day at
the USO last Tuesday and de-
cided to make it a weekly meet-
ing. Twenty wives and 6 chil-
ren attended last week and we
hope the attendance will grow.
The USO furnishes coffee and
potato chips. The wives bring
sandwiches and one wife makes
a cake for the group. This week
Mrs. Allen made a lovely cake
which was enjoyed by all.

Shell craft classes were such
a success that most of our shells
were used up. However a larger
order is on the way and we will
soon have our case full again.
Everyone has admired the work
and we are greatly indebted to
Mrs. Whitver for her time and
effort. It was her suggestion and
cooperation that made it all
possible.

Since furloughs are permitted
again there is much coming and
going. Some of the men haven't
been home in over a year and
some for two years. We won't
name them here because we
would probably miss some but
we are sure that the furloughs
are all appreciated.

We are sorry that Mrs. D. H.
Alexander's name was left off
of the list of cookie donors last
week.

Letters received last week
were from Phyllis Tanglely,
Chuck Dodd, and Tony Inzana.
We send the Hereford Brand to
Tony and all the men who went
from here to Ft. Leonard Wood
with him. He says they read it
page by page and enjoy it all.

E. E. Fridley spent the first
three days of the week in Clo-
vis, N. M., and Lubbock.

Miss Jean Tilton and Foster Hill Wed

In the presence of members of their immediate families and a few close friends, Miss Jean Tilton, daughter of Mr. and Mrs. C. R. Tilton of Elmwood, Okla., and Foster Hill wed Friday at high noon at the home of the bridegroom's parents, Mr. and Mrs. O. G. Hill.

Photo by A. O. Thompson
Wears White Chiffon For her wedding gown the

Rev. R. H. Cagle, pastor of the First Baptist Church, performed the ring ceremony before an improvised altar banked with greenery and pastel shades of seasonal flowers and lighted by white tapers.

Preceding the ceremony Mrs. C. J. Mountz sang I Love You Truly accompanied at the piano by Mrs. T. W. Roberson who also played the wedding march.

The bride, who was given in marriage by her father, and her attendants descended the wide stairway to the strains of The Bridal Chorus from Lohengrin. Miss Betty Hall of Booker was bridesmaid. She wore daffodil yellow taffeta made colonial style and carried an arm bouquet of orchid colored flowers.

bride chose white chiffon made with bodice effect and sweetheart neckline of embroidered lace. The long full skirt ended in a short train in back and the full-length veil of illusion fell from a halo of lace matching the neck trim. She carried a white Bible topped with a colonial bouquet tied with cascading white satin ribbon flecked with pink carnation petals.

Taylor Thurmond of Higgins, cousin of the bridegroom, served as best man.

Following the ceremony an informal reception was held with pastel colors carried out in decorations and appointments. The lace covered table held a three tiered wedding cake, topped with a miniature soldier and his bride, as a centerpiece. Pink and white blossoms and white tapers in candelabra adorned one end of the table while at the other end of the table was placed the punch bowl. Mrs. Agnes Cunningham of Booker presided and Mrs. Taylor Thurmond of Higgins served the wedding cake.

Immediately after the wedding the couple left on a short trip but will return here before he reports to Camp Howze for Army service. He is a graduate of Hereford High School and attended Texas Technological College for one year. He has been in service four months.

Mrs. Hill will complete her high school work at Elmwood this month and will then join her husband at Gainesville.

Out-of-town guests at the wedding included Mr. and Mrs. C. R. Tilton of Elmwood, Okla., the bride's parents Mrs. J. C. Randolph, Enid, Okla., Mr. and Mrs. Charles Austin and daughter, Mrs. Agnes Cunningham and Miss Betty Hall, all of Booker, Mrs. Kenneth B. Niles and son, Enid, Mr. and Mrs. Taylor Thurmond, Higgins, and Cpl. R. A. Daniel of Dalhart.

Mrs. Cawthon Bryant was elected district secretary of the status of women in the Methodist Northwest Texas Conference at a district meeting held in Amarillo last Thursday. Mrs. F. L. Terrell of Hereford also attended the meeting.

Mrs. Clyde Rehmeyer of Amarillo has been visiting in the home of Mr. and Mrs. G. W. Newsom this week.

Mr. and Mrs. Lee Benefield and her father, Dr. J. M. Postell returned Saturday from a brief business trip to Dallas and Oklahoma City.

Pioneer Club Elects Mrs. Gililand

Mrs. P. H. Gililand was named new leader of the Pioneer Club at the final meeting of the year at the home of Mrs. E. S. Ireland Tuesday.

The meeting was in the form of a covered dish luncheon with incoming officers as honor guests. A special table was arranged for the new leaders with red peonies forming attractive decorations. Quartet tables decorated with arrangements of iris were laid for other members.

After the luncheon Mrs. N. E. Gass, retiring president, introduced the guest speaker, Mrs. R. L. Campbell district vice-president of Home Demonstration Clubs, who talked on "Health and Nutrition."

Reports were heard and Mrs. Ray Johnson conducted the candlelight installation services. Each old officer lighted the torch for her successor as duties of office were outlined.

New officers include Mrs. P. H. Gililand, president; Mrs. Burl France, vice-president; Mrs. George Benson, recording secretary; Mrs. N. E. Gass, corresponding secretary; Mrs. F. L. Terrell, treasurer; Mrs. A. L. Manjeot, federation director; Ms. B. E. Roberson, parliamentarian and Mrs. R. A. Tynes, historian and custodian.

A surprise linen shower was featured for Mrs. H. D. Reed who is moving to Amarillo next week.

Those present were Mesdames Fred Barrett, Geo. Benson, J. E. Beyer, A. B. Christian, Noah Ewton, Burl France, N. E. Gass, J. M. Gililand, P. H. Gililand, Bob Higgins, O. G. Hill, Ray Johnson, J. B. Jones, F. M. Kester, Wirt Phillips, H. D. Reed, B. E. Roberson, F. L. Terrell, R. A. Tynes and the hostess.

Club Gives Mother-Daughter Banquet

The annual Mother-Daughter Banquet held by Tri-Hi-Y Club of Hereford High School is always a happy occasion but the holiday atmosphere that prevailed this year rivaled the excitement of a three-ring circus for the theme "Circus Day" was so well carried out. Place cards in bright yellow carried clown designs with programs and the menu inside.

Ringmistress was Marcella Blue and the invocation was given by Beverley Barkley. A toast to the ringleaders was given by Dorothy Dishman followed by a toast to all-star cast by Mrs. C. B. Williams.

Then the ringmistress fired the starting gun with Rosemary Phillips and Jo Anne Jett in charge of side-shows. Rosemary Phillips played "My Mother's Bible" on the bells. Helen Acker took the role of the stellar attraction, giving "Mother Mac-Cree" as a musical reading with piano accompaniment by Marie Williams. Beverley Fraser told of "Training the Artists of the Sawdust" (club members) and Mrs. Ray Johnson talked on "Problems of the ringleaders" (parents).

"Under the Big Top" the group heard Lonidene Edmonson speak of the training and influence in the home.

An impressive inductee service and installation of new officers provided a more serious side to the program with the girls all wearing long white robes and the old officers forming the Tri-Hi-Y triangle and square. Inductees were Barbara Smith, Jo Ann Witherspoon, Betty Ray Ziegler, Billie Ray Johnson, Mary Catherine Carroll, and Mary Helen McGilvary.

Marcella Blue, president, directed the induction program with Beverley Barkley, Jackie Wright Rosemary Phillips and Virginia Lyons explaining the club's objectives. Helen Tucker gave the meaning and significance of the Tri-Hi-Y pin, followed by a reading "Standing Four-square" by Betty Jane Robinson and a vocal solo, "I Would Be True" sung by Ludie Virginia Turner.

New officers were installed each repeating the pledge as led by Miss Irene Crawford, Tri-Hi-Y sponsor.

New officers include Jessie Ann Buckner, president; Helen Tucker, vice-president; Dorothy Dishman, secretary; Frankie White, treasurer; Ruth Moreman, historian; Beverley Barkley and Barbara Burney, program; Ludie Virginia Turner, song leader, and Nina Beth Hartman, reporter.

Special guests besides the mothers were Mrs. W. E. Dameron, official Tri-Hi-Y mother and Mrs. Knox Kinard.

2 DOWN and 1 to Go!

BUT don't let up yet

It's not over yet. We still face a dangerous and determined foe, well entrenched over a half-million square miles, and imbued with the courage of a fanatic. He has sworn to fight a thousand years, and lose millions of men; if necessary, he will destroy himself in order to destroy us. Will we let him?

Reddy Kilowatt is proud he could help us win. Electric power played a large part in turning out the pilots, guns and ammunition to beat Hitler. However, Reddy isn't quitting now. With his belt hitched up and his jaws set, he's ready to go after the third gang. Can we do less?

Two down—one to go. Good! But the game isn't over until the last gun barks. Only the final score pays off. It's up to the home front no less than the fighting front. Now is the time to dig in and WIN.

RFC Announces Sale of Surplus Electric Motors

Advertising of the sale of 3,000 electric power units has been started by the Surplus Property Division of the Reconstruction Finance Corporation with the placing of ads in 291 publications with a total circulation of approximately ten million, it was announced this week.

A thirty-inch advertisement, such as appeared in The Brand last week, will appear before May 14 in 221 weeklies, 59 larger city Sunday newspapers and in full-page size in the majority of 11 sectional and State farm publications which are circulated within a 500 mile radius of Anniston, Ala., and Sydney, Nebr., points of storage for the units.

The War Food Administration and County AAA committees have also been requested to aid in publicizing the sale to individual farmers, farmer cooperatives and service dealers.

The units and their parts are well-known types made to meet the requirements of the U. S. Army, and are described by the RFC as "compactly designed, self-contained, gasoline-engine-driven power units." They will supply 115, 120 or 125 volts at 50 or 60 cycles and they generate 3,000 watts.

They may be used to generate power for household, farm and illuminating purposes. They may also be used as supplemental or stand-by units by those who must be independent of temporary power interruptions on brooders, household refrigerators and home deep-freeze equipment.

The price of the units ranges from \$178 to \$490, F. O. B. shipping point, depending on their condition. Some of the units have never been used, while others have been used regularly and need some repairs. A single

user or dealer may buy from one to not more than 50 of the units. Shipping weight is 900 pounds per unit.

Prospective buyers of the sets have been advised to place their order with the RFC Regional Disposing office for the region in which they live, or call their county AAA committee. A list of RFC regional offices was contained in the ad which appeared in last week's Brand.

STRAIGHT TALK ABOUT THE 7th WAR LOAN

THE 7th WAR LOAN

starts May 14. Americans, as individuals, are taking on their biggest quota to date—7 billion dollars, 4 billions in E Bonds alone.

You may be wondering, "Why this biggest of all individual quotas now? Haven't we already reached the peak?"

A fair question—requiring a straight answer.

The Money Is Needed for War

The Battle of Japan has just begun. It must be backed up, paid for, fought for by a free people, intent on sweeping the Pacific clear of fascist hate—forever.

With the war in the West our first and major concern, we have not yet been able to go all-out in the East. But neither has the Jap.

The war to crush Japan will be bigger, tougher, and longer than most Americans expect. The Allied Military Command has estimated that it will take years, not months.

The destruction of Japan's armies has not yet reached the annual rate of normal replacements—between 200,000 and 250,000 men a year. And the Jap, as our men in the Pacific know, fights to the death.

As far as Japan is concerned, the outer Empire—and the men who defend it—are expendable. The Jap will fight the Battle of Japan from inside the inner Empire, of which Iwo Jima was an outpost. And Iwo Jima, according to Admiral Nimitz, was a pattern of the resistance our forces may expect to meet in future offensives.

New Tasks, New Needs

The single greatest obstacle to our crushing of Japan is distance. While in the Battle of Europe supply ships from our bases in England had only an overnight run to make, ships in the Pacific have long-reach round trips taking up to 5 months to make.

To crush Japan will take time, heroic and back-breaking effort, overpowering equipment. Millions of fighting men—freshly outfitted and equipped—will have to be moved from

Europe halfway around the globe and supplied day-in, day-out by hundreds of new ships now building.

More of everything will be needed. More B-29's. More tanks, half-tracks, jeeps, and trucks. More rockets, mortars, airborne radar.

A whole new air force is in creation—huge new bombers dwarfing the Superfortress—fast new jet-propelled combat planes, the P-50 or "Shooting Star," coming off the lines by thousands.

These are just some of the 101 ways in which your dollars are needed more than ever to bring America's might to its full strength—so that we may crush our foe the faster, make an end of killing, and bring our men back home.

And Let Us Forget

The sick, wounded, and disabled will require medical attention and care.

Many millions of dollars will be required for mustering-out pay and benefits voted by Congress to help our veterans get started again in civilian life.

That's the least we can do in return for what they've done for us.

Winning the Peace

There are other weighty reasons for supporting the 7th War Loan—reasons that take us from the present to the future.

By investing in the 7th War Loan, the patriotic American is safeguarding his own future, his country's future.

By putting every dollar over rock-bottom expenses into the purchase of War Bonds, he is delivering a body blow to wartime inflation—thus putting a lid on the cost of living and maintaining intact the purchasing power of the dollar. At the same time, too, he is insuring the country and himself against the catastrophe of a possible postwar deflation—with its depression, unemployment, misery, and heartache.

So save for your country—save for yourself. In helping your country, you are also helping yourself! Come peace, we'll all need money for education, replacements, retirement, new homes; a new start—and we'll need a lot of it. And there isn't a better or safer highroad to your goal than United States Saving Bonds.

Making 2 = 3

This year there will be only two War Loan Drives, not three. But in those two drives the Government will have to raise almost as much money from individuals as in the three drives last year. That means bigger extra bonds in the 7th. Because only by buying more can we make 2 take the place of 3.

The 26 million Americans who buy bonds on payroll savings are already off to a flying start! These patriotic men and women began their buying in April. And they will keep on buying extra bonds through May and June!

It's now up to the rest of us. It's our turn to swing in line. To raise the vast sum needed; every American will have to dig deeper into current income—dig deeper into cash reserves. Only by buying bigger extra bonds can we stretch 2 into 3!

Let all Americans do their part—for their own sake, for their country's.

If you have an income—whether from work, land, or capital—you have a quota in the 7th War Loan. Find out what that quota is—and make it!

Adequate Garbage Disposal Called Great Civic Need

TO the Brand:

It has been some time since I read the letters relative to the building of an airport at Hereford. That would be fine for the accommodation of the few, but there is a crying need for something of more importance. And for the whole town.

And that is an incinerator for the garbage. As the situation is now, a few people have chickens, which can eat part of the garbage. Or garbage may be buried—only to be dug up by dog and scattered, whereby it may be carried into people's houses and cause diseases.

Polio and typhoid epidemics may be started in this way. Are you, and you and you going to start the ball to rolling. If you are interested, let it be known now. Don't wait for the other fellow to start the campaign. You are just as responsible as he is.

MATCH THEIR SPIRIT in the MIGHTY 7th WAR LOAN DRIVE

Yes, despite their long months and years of privation and suffering, those gallant men, just released from filthy Jap Prison Camps, still have their good old fighting spirit. They're itching to get back into the fight and give the Japs a taste of their own medicine.

Let's show them that we're not quitting either! Let's match their spirit with our dollars! Let's make this MIGHTY 7th War Loan the mightiest of them all!

But to come even close to matching their sacrifices, everyone here at home must buy War Bonds until it hurts. Buy double or treble the extra War Bonds you've bought in any previous drive.
