AROUND A Town

Sights and Faces Seen

The atomic bomb and Russia's declaration of war against Japan crowded local news out of the No. 1 conversation spot in Hereford this week. Even the first good rain in ten months had to take a back seat for the big war news.

But the bombing of Hiroshima definitely stole the spotlight from Russia's war declaration. In fact, local comment could be summed up as "Looks like we don't really need their help any more."

Concerning the atom bomb: although a tide of optimism in hopes for early end of the Pacific War has been started, the optimism is definitely tinged with a sense of awe at the tremendous destructive power unleashed by man.

In the meantime, in Hereford, everybody is happy about the rain. Even the hayfever sufferers rejoice—between sneezes that are coming a lot more frequently since the drouth was broken.

It's never safe, anymore, to predict that men are going to keep their ruling place in any field; but it looks as though the Brand newsboys got rid of their feminine competition. Two little girls muscled in on the paper selling business a couple of weeks ago; but last week they failed to show up. Which might mean that they were discouraged by the unchivalrous reception they got from the paper boys—or more likely their mothers did not approve of the paper selling business.

New Principal Elected for Central School

Rual Ford, for the past two years superintendent of the Sanford Independent School, has been elected principal of Central School to take the place of O. M. Stewart, who has accepted a position as high school principal at Jal. N. M.

The new Central School principal, who holds an M. A. degree from the University of Colorado, has had 15 years experience in school work, much of it in an administrative position. Prior to his service as superintendent at Sanford, he was principal of the River Road School near Amarillo and superintendent of the Groom Public Schools.

Mr. and Mrs. Ford have bought the Joe Gaetz home on Knight Street and expect to move in this week.

Mr. Ford is a brother of Herman Ford of Hereford.

Mr. Stewart has been principal of Central School for the past three years and during much of the time Mrs. Stewart has taught in Hereford High School. The couple have taken an active part in church and club activities in addition to their school work.

Intermediate Program at Bapt. Church Aug. 12-16

Next week, August 12-16, has been designated as Intermediate Emphasis Week at First Baptist Church.

There will be planned activities Sunday through Thursday nights. Of special interest will be the sound pictures to be shown by Dr. Roy L. Johnson, pastor of the First Baptist Church, Canyon. Another interesting affair will be the Indian "Pow Wow" banquet which will be complimentary to the youngsters and which will close the week's activities on Thursday night.

Parents of Intermediate youngsters are to be special guests on Monday and Wednesday nights. All Baptist Intermediates, ages 13-16, are cordially invited to attend every service.

School Cafeteria Financial Statement Reflects Changing Financial Picture

The Central School Cafeteria, started as a depression measure to assure better diet for undernourished children, has been tremendous growth during the past four school years when the original purpose of the program declined in importance as economic conditions changed.

A financial statement of the cafeteria, issued this week by Fred W. Baird, treasurer, shows that receipts have made a 700 per cent increase during the four years—and while the cost of groceries, milk and salaries has shown a big increase, the balance at the close of each school year has shown a regular increase.

Expenses & Receipts Rise
Receipts at the cafeteria have climbed from \$1,326.55 in 1941-42 to \$9,724.68 in 1944-45. Disbursements have increased from \$1,350.77 to \$9,104.09.

The total number of meals served has more than doubled—from 21,398 to 45,353; while the cost of meals has risen approxi-

mately three times—from slightly over six cents to a little more than 20 cents per meal.

Fewer Free Meals
The number of free meals served has declined steadily, 13,406 free meals having been served in 1941-42 and 3,201 in 1944-45. However, the cost of free meals has not gone down so rapidly. In 1941-42, the cost so rapidly. In 1941-42 the cost of 1942-43, 9,850 meals cost \$1,021.45; in 1943-44, 6,308 meals cost \$1,074.88 and in '44-45 there were 3,201 free meals which cost a total of \$642.44.

Govt. Aid Increases
Donations to the cafeteria have decreased from \$151.40 in the first year covered by the report to \$6.12 last year. However, a government aid program, instituted in 1942-43 contributed a total of \$4,011.97 to the cafeteria last year and accounts for the fact that the cost of meals has been kept comparatively low.

Renewal Subscriptions For Overseas Navy Personnel Rate Request

Renewal of newspaper and magazine subscriptions for Navy, Coast Guard and Marine Corps personnel overseas now requires the submission of a written request from the serviceman. It was explained this week by Postmaster J. R. Lipscomb.

The new ruling went into effect with the tightening of mailing regulations for all second class matter sent to Navy personnel overseas, but the matter of requests for renewals has not been fully understood by either the public or the publishers.

In connection with this new regulation The Brand wishes to point out that during recent weeks this office has received many notices of papers which cannot be delivered overseas—either because we have an insufficient address or because the serviceman may be enroute home. Parents of servicemen on The Brand mailing list are requested to keep the Brand informed of the correct mailing address for these men—just put the address on a post card and mail to The Brand.

Weir's Nephew Dies In Plane Crash

Mr. and Mrs. Glenn Weir received word Thursday night that their niece's husband, Jimmie Garland, was among the seven men crew on the Navy plane that crashed last week near Albuquerque, N. M. Garland who was the ship's navigator, had completed his training in Georgia and was enroute to the West Coast. Mrs. Garland who was with him in Georgia had left by plane on Tuesday. Mrs. Garland's sister, Mrs. Bob Saunders, and little daughter who have been guests of the Weirs for the past several weeks, left Friday morning for San Antonio to be with her sister.

Water Troubles Continue in City

Rains this week eased the irrigation load on the city water system and pressure is up again. But Mayor E. S. Ireland points out that the situation could again be serious if no further rain falls and the use of water for irrigation picks up.

"There is still just one city well in service," Mr. Ireland points out, "and we will have to keep our irrigation load at a minimum if we are to have enough water for essential uses."

The well which was out of use last week is back in service, but repairs are now necessary on the other city well. "If work goes satisfactorily, we should have two wells in use within the next week," Mayor Ireland said. "In the meantime the public is requested to stop all irrigation when the fire alarm sounds."

Potatoes Sell To Gov't. at Support Price

Potatoes began moving to market again this week after the announcement by the Office of Supply, Commodity Credit Corporation, of a support price buying program with prices ranging from \$2.30 for No. 1's to \$1.15 for No. 2's.

However, despite the fact that the government program seemed to inject confidence into the market; most processors stated that they were doing most of their booking through regular commercial channels and that as yet not many carloads had been sold to the government corporation.

The program was announced subject to the setting of a price for washing and grading agreeable to a committee of growers, processors and representatives of government farm agencies and the price has been set at 50 cents a hundred.

Busy Season Spells Slump In J. P. Court Business

"Maybe folks were just too busy to get into trouble."

That's the way Justice of the Peace Andy Thomas sums up the short docket of his Justice Court during the month of July—harvest time, and a period when peace officers ordinarily expect an increase in law infractions.

For there were just nine cases to appear before the Justice Court during July and just four thus far in August. Most of these were for traffic violations—driving without a license, speeding and running stop lights. In addition there was one case of "affray" (legal language for "fight") and one case of violation of the game laws.

Most of the traffic violation fines ran from \$10 to \$18. Other law infractions netted fines up to \$36.

According to this year's records, Justice Thomas is convinced that spring must turn the public's fancy to thoughts of misdemeanor. Because the heaviest docket of the year thus far was recorded in April when 32 cases were disposed of in the J. P. Court.

Brand Will Be Closed Week of Aug. 13-18

Following an example set by numerous other weekly newspapers over the country, during the past two years, The Hereford Brand will remain closed next week, August 13 to 18, inclusive.

Due to the fact that it is impossible to secure printers or housing for them, closing for a week seems to be the only way in which an overworked staff can get a few days rest—and next week will be the first vacation some of them have had in four years. The Brand will not skip an issue, however. Next week's paper will dated August 16, but will be printed August 11. We ask your cooperation in getting in advertising, notices, classified ads, news, and only such job printing as is absolutely essential.

Subscribers who receive their paper through the mail will get The Brand as usual. There will be NO STREET SALES and NO SALES THROUGH NEWSSTANDS.

In making the announcement, Brand Employees want to thank you in advance for your patience and consideration and to assure you that they are sincerely appreciated.

Clovis Man Buys O. K. Rubber Weld Shop from Osburn

W. P. Osburn this week announced the sale of his O. K. Rubber Weld Shop to Joe E. Finn of Clovis, who will take over active management of the business on Monday.

Mrs. Sears Dies Saturday After Long Illness

Mrs. Edna Agee Sears, 75 years old, died Saturday afternoon at her home in Hereford following a long illness. Funeral services were held Monday afternoon at the E. B. Black Funeral Home with Rev. R. H. Cagle officiating.

Born in Thomasville, Mo., on Mar. 9, 1870, Mrs. Sears had lived in Texas since 1914.

During her long residence in Hereford Mrs. Sears had made many friends. She was a member of the Methodist Church and took an active part in church work as long as her health permitted.

Survivors include one son, Ralph Sears of Hereford, two nephews, W. L. Richeson of Rothville, Mo. and Lloyd Bradley of Clovis; two nieces, Mrs. Fern Vines of Clovis and Mrs. Nat Venable of Rothville, Mo., and one brother, W. E. Agee of Cliftonhill, Mo. In addition, there are several other nieces and nephews who were unable to attend the funeral. Mrs. Sears was preceded in death 15 years ago by her husband, R. O. Sears.

Palbearers were Forrest Minton, P. B. Sowell, Frank Huckert, Pearl Singleterry, Jim Minton and Marvin Morrison. Interment was in West Park Cemetery.

The new owner is experienced in the rubber weld business and expects to continue with the same quality service offered by the O. K. shop in the past.

Mrs. Finn and their son and daughter, 16 and 17 years old, plan to move to Hereford as soon as living quarters can be found.

Taylor's Meet on Okinawa

"Almost like a visit with my boys," is the way Mrs. J. L. Taylor describes a recent "partnership letter" she received from her sons, Pfc. Dueward Taylor, U. S. Army and Seaman First Class James Taylor of the Seabees, pictured above, who met recently on Okinawa.

"I know one prayer was answered," writes James, "because I have been praying that I would get to see him and sure enough it happened."

According to Dueward: "I wanted to hug James instead of shaking hands . . . and the other boys in the outfit were almost as proud to see him as I was. They ran around and found Jap things to give him."

The Taylors spent one night together and wasted no time sleeping. The only defect in the visit was pointed out by James who said, "It don't seem just right to be together and not be able to go to Mom's house for a cup of coffee."

But according to Mrs. Taylor, the next best thing to that "cup of coffee" is the knowledge that her sons have been able to meet again.

Rains Break Ten Month's Drouth Here

When 1.72 inches of rain fell here Monday night and Tuesday morning and the fall was reported general over the county, the moisture broke a drouth which many old-timers declare to be a record breaker.

For while good rains had fallen in scattered localities this spring, the last general rains over the Hereford territory fell last September, when 1.15 inches was recorded on Sept. 27-28. A total of 80 inches fell in October in three different showers and rains since that date have been even lighter.

The last good rain in Hereford prior to the moisture this week was in April when .70 of an inch fell, but the rain was far from general and other good rains in the county have fallen in isolated spots.

The rains this past week gave a "Go" signal to farming operations which had been at a standstill over most of the territory after wheat stubble was plowed under. And though the feed situation is still bad, general farming prospects were on a decided upswing this week.

Little Activity In District Court

There was little activity in District Court this week and neither the Cason murder trial nor any other criminal cases have yet been set, according to District Clerk Robert L. Thompson.

A contested divorce case—Vivian Louise Walser against W. H. Walser—was in process of trial yesterday and another contested case—Etheleen May Reno against Robert Lee Reno—has been set for today. No petit jury has yet been called for this term of court.

J. M. Malone, Jr. Dies on West Coast

J. M. Malone, Jr., U. S. Navy, was killed in an accident on the West Coast, according to a Red Cross message received here by his parents this week. No details as to the cause of death were contained in the message.

According to the Red Cross telegram, the funeral was scheduled to be held in Milwaukee, Wis., the home of young Malone's wife.

In addition to his wife and parents he is survived by a daughter, Diane Lee, born July 4 in Milwaukee.

Nine Boys at 4-H Encampment

Nine Deaf Smith County boys attended the district 4-H Club encampment at Lake McClellan last week, when 286 boys from the district gathered for a balanced program of recreation and study.

County Agent A. R. Bateman, who accompanied the local boys, characterized the program as one of the most interesting ever presented at a 4-H Club Camp, stating that outstanding leaders in a number of fields were present to direct activities.

Duke Thornton, agricultural chemist in the extension service who has recently been released from active duty as a Major in the chemical warfare division, explained some of the services of chemistry in the war and also presented exhibits of furs, leatherwork, etc., all connected with his hobby of trapping and hide tanning. E. G. Pope of the wild life division, U. S. D. A., was in charge of rifle shooting and gave an exhibition of marksmanship. Dan Russell, head of the sociology department at Texas A & M and acting head of the Boys 4-H program gave an inspirational talk described as the real highlight of the program.

As in the past, there will be no registration of Central School grades prior to the formal opening of school on Sept. 4.

Amendment Vote Set for August 25

The voting on four proposed constitutional amendments will be on Saturday, Aug. 25, instead of Aug. 18, as announced in a story in last week's Brand. As stated before, the election will take place in all election precincts of the county and voters are urged to take an interest in these proposed constitutional changes.

Included are an amendment to exempt service personnel from the payment of poll tax for a period of 18 months after they leave service; one to place state legislators on a full time salary of \$10 per day; one to increase membership in the Supreme Court of Texas to nine members and one to authorize an increase in Texas old age assistance payments to \$20 a month.

AAA Office to Close Saturday Afternoons

In line with the policy adopted several weeks ago by all other Federal offices, the AAA office will be closed on Saturday afternoons in the future, it was announced this week by F. G. Collier, head of the local office.

The AAA office will be closed at noon on Saturday. Other offices which have announced the Saturday afternoon closing are the OPA and Selective Service offices.

Tax Increases Carry In Two Districts

Returns from the district school elections Saturday show that at Summerfield the measure carried by a vote of 23 for the increase to one against.

At Westway the vote was 14 to one, with the majority favoring the increase.

Both elections were for the purpose of raising the tax rate from \$100 on the \$100.00 valuation to \$1.50. The final vote on increasing the tax rates in the rural districts will be held Tuesday, August 14, in District No. 7, where voting will take place at Ford, Progressive and Darril School houses. Tax payers in this district are urged to cast their ballots.

Do You Remember?

AUGUST 11, 1905

Last Friday evening August 4, was an eventful occasion for four little Junior workers. Mrs. Turrentine, Mrs. Edwards, Mrs. Newman, Messrs. Thomas and Barcus and the Misses Turrentine in company with about 30 Juniors went down on Palo Dura for a little picnic; all carried a nice little basket of supper. Games followed, such as "Cat and Mouse," "Dround the Duck" and "Black Man". The party then found a cool place under an overhanging rock and enjoyed a good rest while we listened to pretty recitations from Amzie Nash, Bessie Snyder, Loyd and James Snyder, then a song from Lucile Edwards.

About the completest surprise which has been perpetrated upon the people of Hereford for some months reached its culmination on Sunday afternoon when it was announced that Chas. B. Googer and Miss Mae Eagle had been united in the holy bonds of matrimony.

County Assessor J. S. Wyche has been zealously at work for the past six months ascertaining our wealth and for the information of the public we submit the following compilations for 1905.

Total valuations for Deaf Smith are \$1,737,729. Increase over last year, \$31,887. Total valuations for Farmer County are \$142,850. Increase over last year \$67,675.

385 polls registered in Deaf Smith and 27 registered in Farmer. The tax rolls show for Deaf

Smith County 2,141 horses, 34,850 cattle, 3,650 sheep and 570 hogs.

Miss Lenna Greer of Hereford and Miss May Smith of Midlothian have been selected to teach in the public schools of Hereford for the session of 1905-06.

Another filling station and vulcanizing shop changed hands on the first when Oscar Easley, proprietor of the Hereford Garage Station, sold the business to Paul E. Foster of Canyon.

Arthur Thompson, former proprietor of the Thompson Garage, but who recently sold that business and devoted all his time to his partnership with Barnard Hicks in the Magnolia Filling Station, became sole owner of the latter concern on August 1.

The biggest baseball treat of the season for local fans is promised for Saturday and Sunday of this week when the Whitefaces will play the strong Burk Burnett Elk outfit. The Hereford team will pitch Tate and Galbreath and have further strengthened for the contest by arranging to use "Red" Alban, home on vacation from California, and Jim Robinson, both former local diamond stars.

Wedding Rites At Powelson Home

Before a white altar decorated with greenery and pink and white roses and under a cluster of three silver wedding bells, Juanita Walraven, daughter of Mr. and Mrs. E. B. Honea of Black, became the bride of Arnold L. Powelson, son of Mr. and Mrs. Lynn C. Powelson of Summerfield, Sunday afternoon, July 29, at the Powelson home.

Rev. Charles Truman Gordon of Gilmer, Tex., read the double ring ceremony. Mrs. Carl Muntz of Hereford sang "I Love You Truly" as pre-nuptial music, and played the wedding march from Lohengrin. After the ceremony she sang "Juanita."

The bride, who was given in marriage by her father, wore a traditional white satin full-skirted gown made with fitted bodice and sweetheart neckline and with long sleeves trimmed with lace. For "something old" she wore an engagement ring which had belonged to the bridegroom's mother, and her "something new" was matching earrings and bracelet, the gift of the bridegroom. She carried a Bible topped by a rosebud corsage. The Bible belongs to the bridegroom's brother, Delbert, who is now serving on the Pacific war front; and to her "something borrowed" the bride added a blue ribbon bookmark.

Mrs. Roy Jones, the bride's sister, was matron of honor and was attired in a floor-length, pink net gown. Miss Jo Ann Pittner, bridesmaid, wore a floor-length gown with a blue jersey bodice and full net skirt.

Little Fionnie Lue Honea, the bride's sister, was flower girl. Eva May Powelson, sister of the bridegroom, carried the rings on a white satin pillow, and Jeannie Russell, cousin of the bridegroom, carried the train.

Calvin Honea, brother of the bride, served as best man. The bride's mother wore a black afternoon frock with white accessories. The bridegroom's mother wore a navy blue and rose dress with white accessories.

After the ceremony, a reception was held at the Powelson home. Mrs. Roy Jones was in charge of the guest book, assisted by Miss Mildred Pittner.

After the bride and groom had cut the first piece of wedding cake at the lace laid table, Miss Jo Ann Pittner and L. C. Honea served the other guests, assisted by Mrs. Allen Powelson, a great aunt of the bridegroom.

Following the ceremony the couple left for a short trip to

Colorado.

Mrs. Powelson, formerly of Texarkana, is a graduate of Texarkana High School and makes her home at Black.

Mr. Powelson, reared near Hereford, recently received his C. D. D. discharge from the Army after seeing service on the European front. He plans to return to school.

Out-of-town guests were Mrs. Cecil Gaudin and daughter Betty and Mrs. Lewis Camberon and children Jean and Harold of Texarkana. Mrs. Odie Terrell and son Donald Charles of Laredo and Miss Norma Hunter of Friona.

ROUGH ON RATS!

ROUGH ON RUBBER!

Landing Wheels of a Boeing B-29 Superfortress.

You're Looking At A "Run-Down Heel"!

Out where the palm trees wave and they carve the air strips out of coral, the ground crews were going nuts.

It was the tires on those rear landing-wheels! Like the heels on a well-walked pair of shoes, those big tires just seemed to get an awful lot of the gaff.

Result—at one time those big rubber doughnuts were being chewed up and torn to shreds in about fifteen landings!

Suppose you had to have new heels after wearing a pair of shoes only fifteen times! It would mean plenty of expense, trouble, and bother, wouldn't it? Well mister, just multiply that worn-out heel on the B-29 by all the jeeps and peeps and planes and you'll begin to get some idea of Uncle Sam's rubber troubles!

That's why it was so important that some way be found to keep America's mechanized might rolling on rubber—when practically all raw rubber stocks were in the hands of the Japs. America's Synthetic Rubber Program had to work out!

Well, it did work out. And one of the most important reasons why it did was the tremendous production of butadiene—essential ingredient of synthetic rubber—by oil companies such as Phillips!

Today, we know that when you see the Orange and Black 66 sign, you think of good motor oil and gasoline. In the future, when peace comes, we hope you'll remember Phillips as one of the greatest producers of wartime butadiene, and of the essential chemical ingredients for medicines, explosives, aviation fuel, and dozens of other things vital to the defeat of Germany and Japan.

Texas Soldier Says Home on the Range Was Never Like This

Pfc. Raymond Davis, nephew of Mrs. Bessie Doerfler of Umbarger, can say truthfully that "home was never like this" after some of his recent experiences in the Philippines.

Davis and his buddies of an anti-tank company were conducting a motorized patrol over a mountain road when a sudden barrage of rifle fire and grenades made their truck too hot for comfort and the men spilled out of the truck—fast. Which was when Pvt. Davis decided that his Texas individualism did not pay, for he took out over the right side of the truck while the other men went over the left; and while his buddies took cover under the truck, Davis found himself the main target for the Japs as he tried to get across the road and tumble into a ditch. Once in his ready made foxhole he was able to pick off one Nip who had shot one of his company. Davis was aiming at another Jap when he was pinned down by fire from the opposite side of the road—then to make things worse the Japs started heaving rocks at him.

When a Jap officer led his men in an effort to storm the truck from the rear, two of the patrol who had remained in the truck rose up and four 45 slugs put a stop to the career of one Son of Heaven, and sent the others away from their target. Climbing out of his ditch Pvt. Davis decided that "home on the range" was dull compared to life with the Japs.

Davis is a son of Mr. and Mrs. N. E. Davis of Roaring Springs. He has received the Purple Heart for wounds received in earlier action on Luzon.

Guests in the W. L. Alexander home the past week were his sister, Mrs. Bailey Montgomery and son, Lt. Jack Montgomery, of Christoval. Also their daughter, Mrs. Joe Billingsley and daughter of Stillwater, Okla. Mrs. Billingsley returned to Christoval with her aunt for a visit there Sunday.

THIS WEEK... AT THE USO

Some of the remarks heard on Tuesday at the USO: "Well, what do you know—it can rain in Hereford." "I've been here two years and I am sure glad that Uncle Sam let me stay long enough to see it rain."

The dance on Monday night was attended by about 30 people and everyone who went reported a very good time. The entertainment committee met and planned the following for August:

Aug. 13—Lawn Party at W. E. Dunlap home.

Aug. 20—Formal dance with Camp Orchestra.

Aug. 27—Watermelon and Bingo party.

On Tuesday the wives had special treats at their luncheon fried chicken, and watermelon. We purchased the chickens from R. M. Dunn and he donated one of them so the wives wouldn't go hungry. One of the soldiers said he was going to get a pass and dress as a lady and come but he didn't show up.

The Monday morning paper announced that the curfew had been lifted entirely in the 8th Service Command—So far

seas, and Thomas Elliston, who is visiting this week from Kellogg, Ida. Other out-of-town guests were Mrs. Elliston's granddaughters, Mrs. W. L. Branson of Amarillo and Mrs. Bob Curry of Pampa. Mrs. H. P. Barnard, Jr., a daughter, from Rhone, N. Y. is also visiting in the Elliston home.

We received cards and letters from Mrs. Patton, Mrs. Smith (Dumas), and Arthur Gregg this week. We also received a "return to sender" letter from the European theater of operations. It was one we had written to Pop Frye so he is evidently on his way home.

There will be a new schedule for GSO girls made out Sept. 1st. Not so many have been reporting for duty lately so we are asking that if you can't come on the night scheduled that you will come some other night during the week. When the girls go back to college a new program will have to be made out. Frankie Freeman, Dorothy Wilbourne and Lois Krawalc joined the GSO this week.

We promised you some scandal this week because last week's column was so short but we give up. The men stationed here are allergic to scandal or else they just don't tell us about it. We think we have a fine group here and I know the citizens of

FARM TELEPHONE SERVICE...

...over electric power lines

You've heard about a way to send telephone conversations over electric power lines, called "power line carrier." It's just one of the many ways the telephone company plans to extend and improve telephone service to farmers when the wartime job eases up. Here's how it works:

A talking current from the telephone central office uses the same wire that carries current for power and light. Near the farmhouse, a "carrier coupler" takes the telephone current off the power line, and standard telephone wires carry it to the house.

The telephone itself is a modern handset instrument. It's attached to a special equipment box that looks like a small table radio.

In many cases, power line carrier may prove more practical than building new telephone lines. In other cases, other methods may be more suitable—such as the use of new high-strength steel wire which takes fewer telephone poles and has greater resistance to storms. Telephone men are exploring every means of making farm telephone service better and easier to get.

Burleson at Longview

Mrs. Leona Burleson was surprised Sunday by a call from her son, Pfc. Leonard Burleson, who she thought was in France. He is now in Longview in the hospital and had been there only three days when he called his mother.

Pfc. Burleson had been in the hospital in Germany and then in France. He was on the move so he told his mother several weeks ago not to write any more until he had a more permanent address and during this time he was transferred to the states.

Knox in San Francisco

Jack Knox, who is a baker with the Seabees, has landed in San Francisco from Guam. He called his parents, Mr. and Mrs. Boyd Knox, Sunday morning. Jack has been overseas for 30 months.

Cawthons Hear from Sons

Mr. and Mrs. E. W. Cawthon received a letter last week from an officer on Okinawa saying that their son, Pfc. C. W. Cawthon, who is with the engineers, had helped to finish an excellent job on that island. C. W. was in battle for 82 days but is now enjoying a long needed rest.

Ensign E. W. Cawthon, Jr., was in Oregon last week accord-

ing to a letter his parents received from him the end of the week. E. W. Jr., is with the Navy Air Transport Command.

Another son of the E. W. Cawthons was home on a 15-day furlough recently. Pvt. Billy Cawthon is stationed at Puche, La.

Cpl. Vaughn Directs Salvage

Cpl. Carlos Vaughn who is stationed at Camp Edwards, Mass., has been appointed salvage director in charge of 10 salvage trucks. He received a meritorious award last month for a suggestion for improving salvage methods at Camp Edwards.

Cpl. Vaughn writes that the weather on Cape Cod is fine most of the time but that a few days are extremely hot and damp. 'A trip back to Hereford this year will be impossible as Mrs. Vaughn has been in bad health' but he writes he has been keeping up with Hereford people through The Brand.

What else have you got for him... beside those big plans?

There's your son.

Proud of him? Sure you are . . . and you've got big plans for him, too.

But plans alone are not enough. A little cash is going to come in mighty handy to a young man starting his career in 1955.

Maybe those dollars you put aside now will give him a better start than you had. Maybe they'll help him get the extra train-

ing he'll need to be a doctor or a lawyer or an engineer. Surely they'll help him through the first tough time when he's "on his own."

He's your son . . . his future is yours. Back that future with series E War Bonds.

And 10 years from now his, "Thanks, Dad," will give you the biggest return you've ever had from any investment.

First Military Plane Commissioned In 1907 By Army Signal Corps

Although on Aug. 1, 1907, an Aeronautical Division "to study the flying machine and the possibilities of adapting it to military purposes" was established in the Office of the Chief Signal Officer, U. S. Army, there were no airplanes.

Late in 1907 the Army asked for bids for an airplane capable of flying for 60 minutes and of attaining a speed of 40 miles per hour while carrying two men whose combined weight did not exceed 350 pounds. On Feb. 10, 1908, the contract was signed for the Wright Brothers' plane.

The first airplane delivered by the Wrights crashed during trial flights at Fort Myer, Va., in Sept., 1908, injuring Orville Wright and killing Lt. Thomas E. Selfridge, his passenger. Until the accident, however, the plane had performed well, and the Wrights were given a second chance. In June, 1909, they re-

turned to Fort Myer with a new biplane. It had approximately a 40 foot wing spread and a wing area of 500 square feet. It weighed 800 pounds, empty. Two propellers, mounted in the rear, were chain-driven by a small gasoline engine. The landing gear consisted of a pair of runners, Orville Wright piloted the plane with Lt. (later Major General) Frank P. Lahm riding as passenger. Wright kept the plane aloft for one hour, 20 minutes and 40 seconds. The Army accepted it—the world's first military airplane.

Under the terms of the contract the Wright Brothers had to teach two Army officers to pilot the airplane. Lts. Lahm and F. E. Humphreys were the first students. Lt. (later Major General) Benjamin Foulois was the next pilot trained. When Lts. Lahm and Humphreys were called back to their respective posts in the Cavalry and Engineers, Lt. Foulois became the only officer available for flying duty. In the following months a few more pilots were trained—among them Lt. Henry H. Arnold, now Commanding General of the AAF.

When America went to war April 6, 1917, the Aviation Section had 65 officers (35 of them fliers) and 1087 enlisted men. The total of airplanes was 55, all of which were obsolete compared to the planes being used over the Western Front. However, \$640,000,000—the largest sum ever appropriated for a single purpose to that date—was voted by Congress on July 24, 1917, for the development of military aviation.

In the closing months of the war, U. S. air squadrons chalked up an impressive record in aerial combat. Observation, the original concept of an airplane's usefulness, became a secondary function. The airplane was recognized as a weapon in itself.

The 23 years between wars, in spite of the small number of personnel and limited appropriations, nevertheless saw progress in the Army's air arm. New techniques, tactics and equipment were tested. From peacetime research came almost all present-day combat planes. High level precision bombing was developed. Aerial formations and tactics were evolved. Perhaps the most important was the formation of a small body of devoted and highly skilled men who knew aviation from top to bottom. They were the men who organized the program for training the hundreds of thousands recruited for air duty when war came again.
