

AROUND TOWN

Sights and Faces Seen

Members of the Hereford High School Honor Society know that good grades result in jobs—but not necessarily easy jobs. The students have just completed the school census in Hereford, working under the direction of Supt. Knox Kinard and Miss Jean Cox.

Hollywood has a movie strike—and the war has even affected entertainment in Hereford this week. A home talent play, "Toby Doodle Dandy" scheduled to have been presented tonight, has been postponed indefinitely because one of the male leads in the cast was drafted—but suddenly.

The spring may be early, but spring vegetables will be just "old stuff" to Mr. and Mrs. J. F. Matthews of the Fairview community, who have been having spinach, lettuce and chinese cabbage from their frame garden throughout the winter. Mrs. Matthews used tow sacks to cover the garden during bad weather, and the plants were never damaged by cold.

Rev. Jimmie Alken is predicting an increase in traffic accidents—all on account of the new license plates; and the fact that a lot of folks recognize their cars by the license. The new single plates are attached to the rear of the car, and Jimmie thinks a lot of people will go wandering out in the streets in an effort to identify the old jalopy; and the result will be pedestrians knocked down.

On the other hand, it might never work out, because most motorists have now driven their present cars so long that they claim they could identify them by feeling the dents in the fenders.

Evidently Hereford sort of "grows" on the soldiers who are stationed here, for a number of men formerly stationed at the Hereford camp return here for visits. Last week-end Tech. Sgt. Jerry Kennedy who left here for Brownwood and later transferred.

Red Cross Goal Exceeded by Over \$2,000

With the \$10,900 minimum quota already oversubscribed by \$2,385.50, Deaf Smith County citizens continued this week to contribute to the Red Cross War Fund in a record wave of donations which constitute the community's tribute to the great wartime work of the American Red Cross.

Rural communities have in all cases turned in generous donations, and with a few communities still to be heard from, the quota is sure to be passed still further by the time the final count is made.

Communities which reported this week include Ward, where Mrs. Bill Hutson and Hap Higgins were in-charge of a box supper which resulted in the raising \$808.50 for the war fund. At

Community Party Benefits Red Cross War Fund Drive

A Box Supper and Tacky Party at the Bippus Community House, Saturday night at 8:30 will raise funds for the Red Cross; and the entire community, and neighbors from other parts of the county are invited to attend for an evening of real fun.

The Bippus Community House is located two miles west and three and one half miles south of the Jack Fortenberry place.

The party is sponsored by the Bippus Home Demonstration Club, whose members state that prizes will be offered in some of the games and that an entertaining program has been planned.

Death Claims E. B. Black, Civic Leader

E. B. Black, 78, pioneer businessman and outstanding citizen of Hereford, died at 12:30 o'clock Monday afternoon at the Dimmitt hospital and funeral services were held Tuesday afternoon at the Hereford Methodist Church with Rev. Marvin Boyd officiating.

Born Oct. 13, 1866 near Opelika, Ala., Mr. Black came to Hereford in 1901 from Cleburne and started his furniture store which is today the oldest business on Hereford's Main Street. The original store occupied a small frame building on the same location upon which the present business now stands.

Mr. Black's was a record of progressive business management combined with a generous acceptance of civic responsibility and leadership. His pioneering included many "firsts" in business, both in Hereford and the Panhandle; and the Black

County Federation Board Meets Saturday

Members of the board of the Deaf Smith County Federation of Women's Clubs were reminded this week that the board meeting is scheduled for Saturday afternoon, March 17, at 4:30 o'clock, at the county courtroom.

Mrs. Liston Wilson, federation president, urges that every club be represented as the board intends to take action on the plan to extend Camp Fire Girl activities to all interested girls in Hereford.

Car Shortage Again Brings Storage Crisis

With the prospect of the greatest wheat acreage in the history of the county, and with present indications pointing to another severe shortage of box-cars during the 1945 harvest, farmers should begin immediately to give serious consideration to the matter of erecting farm storage to take care of some of this year's crop, it was announced this week by County Agent A. R. Bateman.

"Elevator storage is of course more economical and more satisfactory," Bateman states, "but at the same time, considering the shortage of cars for shipping and the prospects of another large wheat crop, it becomes an ordinary safety precaution for the farmer to make provisions for storing some of his grain on the farm. If conditions improve, and the elevator storage proves adequate, these farm storage granaries may be used for other

Red Merrill Wounded In Iwo Jima Battle

Cpl. J. W. (Red) Merrill was wounded in action on Iwo Jima, his mother, Mrs. Virgil Merrill, learned this week when she received a letter from Red, written on shipboard after he had been evacuated from Iwo.

Merrill suffered head and stomach wounds and was still extremely weak at the time he wrote.

A member of the Fourth Marine Division, one of the outfits which made the first bloody assaults on the Iwo beach, Merrill has been in the Marine Corps since immediately after his graduation from Hereford High in May 1943. He had previously been wounded in action on Saipan in June, 1944.

Rain Amounted To .27 Inches

Rainfall here yesterday measured .27 inches, which fell in regular spring-shower style starting slightly before sun-up.

Beneficial in wetting the topsoil, the rain was not enough to provide much aid for growing crops; and although wheat and other small grains are still looking good, a deep soaking rain will be needed soon.

Expansion of Hospital Facilities Community Need

Faced with the problem of adequate housing, facilities and equipment, members of the Deaf Smith County Hospital Board this week indicated that they have discussed the possibility of expanding the present county hospital with a new building program.

"The idea has already been presented to the Commissioner's Court and has been discussed there," board members said.

It was also indicated that steps have been taken to learn from the hospital association the name and location of architects who specialize in hospital building. As a board, the group has taken no official steps or made any official recommendations. However, several board members, after viewing the hospital situation in this community, have indicated as individuals that they believe a bond election

Hereford Man Killed on Luzon

Staff Sgt. Randolph Hyde, 28 years old, was killed in action on Luzon on Feb. 21. The news was received this week by J. W. Hyde, a brother.

Sgt. Hyde, who had made his home in Hereford prior to his induction into the army, was a member of the Seventh Cavalry which has taken a prominent part in the Philippines campaign. In addition to his brother here, he is survived by a sister, Mrs. Ray Clark of California, and by two other brothers and one other sister.

Tin Collection Plan Announced

A plan for collection of tin cans was announced this week by County Judge Fred W. Baird, who says that the cans may be left at the sales pavilion and that when a truckload is collected they will be sent to the Amarillo salvage depot.

"Tin cans are needed," Judge Baird states, "but they will be entirely useless unless they are properly prepared for salvage. Cans should be clean and all labels removed; then both ends of the can should be cut out and the can mashed flat."

Cans not thus prepared will simply clutter up storage room and will be of no use whatever.

Community Meeting Scheduled To Discuss Youth Center Plan

Outstanding Array of Tricks Included In Birch Magic Show Here March 22

Look at the birdie—but don't be too sure you will see it after Birch, the magician, has waved his wand and said the magic words. Birch will present this and other stunts at the show to be presented next Thursday night at the High School Auditorium.

Norton General Ch'man Under New Ration Setup

Following a reorganization meeting this week in which E. H. Norton was named general chairman the Deaf Smith County War Price and Rationing board will in the future operate along slightly different lines, it was announced today.

Basic changes in operation will be seen in the fact that the work will be spread out among more people on various panels, rather than placed upon a few individuals as in the past.

The following statement, issued by Mr. Norton, covers the new set-up:

The Deaf Smith County War Price and Rationing Board has been reorganized to give better service to the people of the county and to conform more nearly to regulations as set up by the Office of Price Administration. The following Boards have been organized:—Tire Panel consisting of four members; Gasoline Panel consisting

A pony that vanishes into thin air is just one of the highlight stunts on the Birch magic show which will be presented next Thursday night at 8 o'clock at the High School Auditorium under the sponsorship of the Hereford Lions Club.

Fifty amazing illusions, including the pony trick, are included in the Birch show, which has recently had highly successful presentations in Canyon and Amarillo. The Birch show is the largest magic production now on tour and the master magician performs such "miracles" as silencing a beautiful girl into four parts, shooting a live canary into a burning light bulb and causing yards of rainbow silks to appear from nowhere. Equipment, scenery and effects of the Birch show are valued at \$25,000.

Pointing out that they believe Hereford is fortunate to secure a show of the quality of the Birch production, members of the Lions Club state that a full house is anticipated for the program. Tickets for the show will be \$1.10 and 55c and are now on sale at the office of John McLean or may be purchased from any member of the club.

Induction Calls Face Men Who Have Passed Army Physical Exams

There has been some confusion among selective service registrants due to a change in ruling on the frequency of physical examinations, according to the Deaf Smith County Selective Service Board. Men who have taken and passed physicals, whether last spring or at a later date, may now be called up for induction without any additional physical examination, board members state.

Although no local registrants have yet been called up in this manner, the local board has handled several transfers who were called for induction although they had not had a physical examination since last spring; and the situation is likely to be repeated with regard to local registrants.

If you are a citizen of this community interested in the welfare of Hereford boys and girls, you are invited to attend the meeting to be held next Wednesday night at 8 o'clock at the County Courtroom when a representative of the Federal Security Agency will discuss with local citizens the steps necessary to start a recreation center for Hereford's teen-agers.

Hereford firemen have offered the use of their hall for a suggested two-nights a week as the scene for a general, supervised recreation program for the high school group; and sentiment in the community seems to generally favor the immediate start of a recreation program; but the local sponsors of the movement believe that more progress can be made after the government representative, who has had wide experience in starting recreation projects, gives definite suggestions and cites examples of youth centers already in successful operation.

As suggested in the tentative program discussed by a local committee, the youth center would be a sort of "USO for teen age boys and girls." It would provide a varied recreation program under intelligent supervision and it would be designed

H. D. Clubs Hosts Food Production Training School

The Deaf Smith County Home Demonstration Clubs are sponsors of the food production training school which will be held here Monday, March 19, at the Methodist church, with two staff workers from the Texas A & M extension service in charge of the program.

The meeting will begin at ten o'clock in the morning, with a covered dish luncheon served from 12 to 1:30; and talks and demonstrations on the program will cover almost every phase of home-food production.

Of interest to every housewife in this territory, the program is planned to point the need for increased production of food and at the same time to give practical hints and demonstrations of the work which must be done to secure this increased production of food.

Miss Sadie Lee Oliver, local home demonstration agent, will be in charge of a discussion to sum up the information presented by demonstrators and extension service staff members.

Bond Sales Lag During February

Deaf Smith County lacked 36 per cent of meeting its war bond quota for February, it was announced today by the county war finance committee which reported sales of \$20,087.50 as compared with a quota of \$31,300.

"The records show that this district as a whole made 104 per cent of the quota assigned. We do not believe the people of this county want to go on record as having their neighbors carry our load," the committee statement points out.

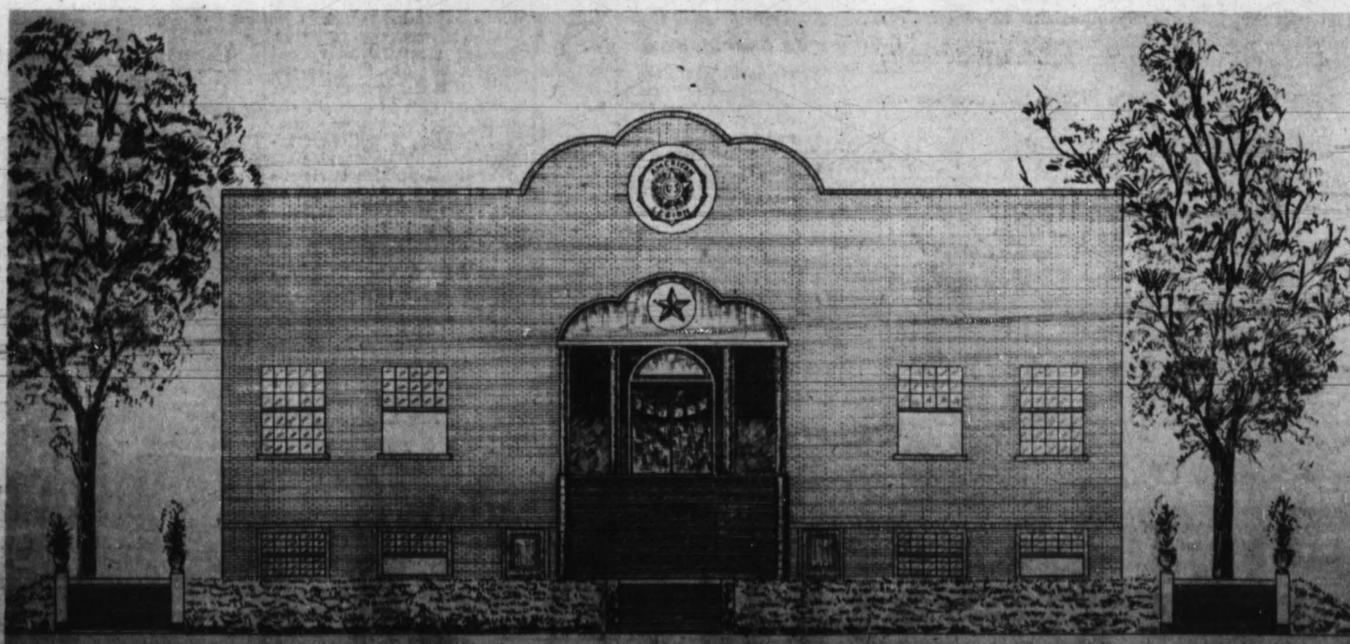

"The quota for Deaf Smith County for the month of March is \$36,200 and we feel sure only a reminder is necessary to put this quota over."

Application for Farm Payment Now Being Made

Applications for payment under the 1944 conservation program are being signed now, and farmers are requested to make application as soon as possible. F. G. Collier of the Deaf Smith County AAA office announced this week.

At the same time that applications are signed, the farmer will be asked to sign a brief plan sheet for 1945. The plan sheet this year will mention only acreage and production and will not include planned conservation practices.

Proposed Legion Memorial Hall

Pictured is an artist's conception of the war memorial and community auditorium which the Hereford American Legion Post hopes to erect in honor of the men and women from this community who have served in World War II. The picture is not the final architect's drawing of the building but does give an idea of the spacious structure planned.

The first floor of the auditorium will include offices, stage, rest rooms, banquet hall, kitchen, and recreation room. The second floor will be composed of an auditorium with a seating capacity of 750 persons and a large stage, dressing rooms, etc.

As planned by the Legion, the building will be paid for by public subscription and will be turned over to the Veteran's of World War II to be managed by them and used as a community center and auditorium. The planned location of the hall will be at the intersection of Third Street and Lee Avenue, across the street north from the West Texas Gas Company offices.

On Friday of last week W. A. Hancock, C. W. Dodson, T. J. Graves and A. H. Elliston, on being informed by Robt. L. Ball that there was a large coyote near his ranch headquarters, gathered their dogs and horses and started for the scene, all thrilled with pleasing expectancy of seeing a wolf chase. For a time the race seemed to be an even break but finally the coyote succeeded in escaping his adversaries, greatly to the chagrin of the latter. On their return, the sportsmen jumped a second wolf (?) which they chased for sometime, and lo, when they succeeded in capturing it, it proved to be a

Farm Laundries Use Unique Water Heaters

It is not necessary to have natural gas—or even a coal furnace—for heat in a home laundry. At least, several Deaf Smith county farm women have solved the problem of hot water for the laundry without the use of a standard hot water heater, according to Miss Sadie Lee Oliver, county home demonstration agent.

Mrs. Guy Walsler of Summerfield reports that she can heat a tub of water in about 15 minutes with the use of a farm weed burner. She places the burner inside a barrel through a cut-out door.

Mrs. E. K. Pinnell, of Bippus, who has recently completed a new home laundry at her place, also uses a weed burner for water heating, placing the weed burner in the fire box of a furnace. The Pinnell laundry is housed in a building equipped with running water, and practically all wash day problems have been solved.

WONDERFUL GASOLINES after the war? . . . Of course, because of today's greatly intensified programs of research and production.

The headline above clearly and simply states the outstanding position achieved by Phillips in the wartime production of combat aviation fuels. It is more than a hint of what you can expect from Phillips in peacetime gasolines for postwar cars.

Phillips is also a major producer of butadiene for synthetic rubber.

And high-octane fuel and butadiene are both synthetic chemicals . . . two of the limitless thousands of products which can be made by using petroleum and petroleum gases as a chemical raw material.

That is why we say, every time you see the Orange and Black Phillips 66 Shield, let it remind you that Phillips refineries . . . in addition to producing gasolines, lubricants, and fuel oils . . . are also gigantic chemical plants pouring out weapons for victory.

THIS WEEK... AT THE USO Rites for S. E. Brown Held Here

People who have been inconvenienced by the sticking of the front door at the USO will want to give a vote of thanks to the Pfc. who went someplace and got a plane and fixed it. We can use a handy man like that around the USO.

Miss Elizabeth Rowe, USO Director at Clovis visited our club this week end. We are always glad to have her come over.

The G. S. O. sponsors held a meeting at the club on Saturday afternoon. Mrs. Emmett Milburn, who has been a sponsor since July, 1943, and the sponsor chairman since Mrs. Davis' resignation, asked to be relieved of duty for awhile. Mrs. Milburn has served long and faithfully and we will miss her. The ladies voted to make Mrs. Fluitt chairman and to ask Mrs. Troy Stambaugh to be a sponsor. Several new girls have made applications for membership and we would be glad to have more. We would be very glad to have some of the girls whose husbands are in service join our organization. Come in and get an application blank.

Mrs. Walter Dunlap brought us our vines for our mantel piece. Now all we have to do is water them so they will grow. Many thanks, Mrs. Dunlap. The man at the bus station brought us five mystery books last Thursday and cakes were brought in by Mrs. E. T. Brooks and Mrs. Calvin Edwards on Friday and Saturday. The men are always happy to see cake. Cooky donors for February are as follows: Mesdames Lee Conklin, Ira Ott, Buckner, Heard, Sparks, Knox, Fluitt, Fox, Frances Young and Juanita Kelly for the YWA. Mrs. Benson for the L. A. E. Club, Mrs. Jacobson and one other lady whose name was not secured for the Lone Star Club. The North Hereford Home Demonstration Club brought in about three dozen chicken salad sandwiches which disappeared in record time and were highly appreciated. There are several days when no one is scheduled to bring cookies and we would like to have some women volunteer to bring some on those days. Please phone the USO for a "cooky date."

Our mail this week included a letter from Cpl. Joe Zarobinski in France, Sgt. Inzana of Ft. Leonard Wood, Cpl. Garnett, of Fort Warren, the camp paper from Camp Howze sent by Harry Kudsk, and two birth announcements—Pfc. and Mrs. Edward Simmons of Camp Hood, La. and Sgt. and Mrs. Russell Thomas of Hereford each have a daughter.

Funeral services for Sid E. Brown, 76 years old, who died at his home here last Friday following a long illness, were held Saturday morning at the Black Funeral Home. Rev. Marvin Boyd was in charge of the funeral rites.

Mr. Brown, born in Ohio, came to Texas in 1909, settling in the Jumbo community near Hereford. He had made his home in town since his retirement from active farming.

Survivors include his wife and one daughter, Mrs. Vern McKinley of Temple, a grandson, Lt. Basil McKinley, with the Army Air Corps in England, a granddaughter, Miss Elnora McKinley of Temple, and two brothers, R. D. Brown, Warsaw, Ind., and William Brown of Dinkirk, Ohio.

Dairy Industry Discussed for Lions

Pointing out possibilities of dairy industry in this section, Mr. Vinyard and Arthur Pritchard of the Borden Company in Amarillo spoke before the Hereford Lions Club Wednesday.

In 1944, a total of \$225,000 was paid to milk producers of Deaf Smith, Parmer and Castro counties for milk, they said. The necessity of water, small farms, land adaptable to feed and farm-bred people were cited as fundamental to a good milk country.

They said the Borden Company paid \$147 average to 98 producers in this area in February, stressing the fact that steady monthly incomes can be maintained through a "milk crop," which they cited as "the greatest crop in America."

Arrives in Philippines

Pvt. Teddy G. Higgins has arrived safely in the Philippines, according to news received recently by his parents, Mr. and Mrs. Fred N. Higgins, Jr. He is home for a week, enroute from Camp Hood, Tex. to Ft. George G. Meade, Md.

out of town last week so no announcement has been made of next Monday's entertainment. Please watch the USO bulletin board and phone your sponsor for further information.

Monday night of this week we held our first dance since the new men came in. More of the G. S. O. girls were there and about 30 couples had a fine time dancing and getting acquainted. Some of the men don't dance for fear of hurting their recently healed wounds but they like to watch and to visit. The next dance will be on March 26th.

Go See Chaplain Is Good Advice, Sarge Decides

Sgt. Cecil W. Shaw, whose wife is the former Miss Bessie Frances Caraway of Hereford, is inclined to agree that the old Army slogan, "Go see the chaplain," is a good one after a recent experience during the fighting in France.

Sgt. Shaw was a member of a rifle squad assigned to defend a battalion aid station while the wounded were being evacuated during an attack by German Elite SS troops.

Shaw climbed to the rafters of a barn and fired 50 rounds at a German machine gunner who was endangering the evacuation. The gun was silenced, but Shaw was located by the enemy and many slugs tore at the walls of the barn, sent splinters flying and caused Shaw to lose his balance and fall. He lost his rifle in the darkness.

Running outside, Shaw discovered that the rest of his squad had gone. Right then he heard Krauts talking around the corner of the barn, and pulling the pin from a grenade, he heaved it around the corner and got out of there—quick.

Which is where the chaplain comes in. For back in the road, Shaw saw an army jeep driven by a chaplain, Capt. William C. Kieffman of Omaha, who will probably never see another

shelling kept up for several days in an effort to knock out Jap shore installations. "We know that we killed several Japs for we saw them go down under our fire," Bobby writes.

"Those Marines are the boys that really have courage," Bobby reports, describing the initial landings on the rocky island. Though Jennings' ship was attacked, the Jap plane was shot down; and though the action was rough, Bobby reports that "We were all tired but happy for we knew we had contributed our share to the 'March to Tokyo.'"

Hybrid Sweet Corn Recommended by Local Gardeners

Hybrid sweet corn has had definite success in Deaf Smith County in recent years and more gardeners are likely to plant some variety of hybrid this year, says County Home Demonstration Agent Sadie Lee Oliver. Mrs. Ira Ricketts of Progressive is perhaps the pioneer hybrid corn grower in the community and she recommends Golden Bantam, Spangcross and Tendergold varieties.

The A & M College Extension Service is recommending Iowana Hybrid, according to Miss Oliver, who says that this variety has an exceptionally tender hull.

BEES NEED BUMBERSHOOTS ?

YES NO

They say that "bees never get caught in the rain." Maybe you claim you've seen different. But the changed natural light as a storm approaches is supposed to make bees get busy and fly home. They may be weather-wise or not. But you've simply got to be!—for Spring weather demands an oil change in the car you cannot replace, and Conoco Nth motor oil will give your engine OIL-PLATING for extreme resistance to wear—

That's really how to hold down carbon, gum and sludge.

That's really how to keep up engine power.

That's really how to get good mileage from your oil and your gasoline.

The special life-giving quality of OIL-PLATING comes from patented Conoco Nth oil's additional ingredient—a climax of notable research. This effort developed the magnet-

like effect that makes metal attract OIL-PLATING—lubricant fastened square in the path of friction. And you can credit the same intensive research with making your OIL-PLATED engine defy corrosion.

Then both worst causes of wear are curbed. And you're safer from lay-ups — junking — walking! Surely Conoco Nth is worth its slight extra cost. OIL-PLATE today. Continental Oil Company

Life Saver

For Your Car

Champlin HI-V-I . . . the new fighting aviation oil . . . gives life-preserving lubrication to the vital innards of your car.

Refined by an entirely new, dual solvent process . . . from 100% Paraffin Base Mid-Continent Crude . . . the finest obtainable . . . it has a high viscosity index and low viscosity-gravity constant.

In everyday language, that means Champlin HI-V-I has the power to penetrate in between close-fitting, moving parts, and bathe their action in a tough film of oil that stands up when others break down.

Then, thanks to this new solvent process, Champlin HI-V-I is so clear, so pure, so free from carbon, asphalt, gum and other varnish forming elements, it helps wash away sludge and other power-robbing formations in your motor.

So for a life saver, give your worn car on the ground the positive lubrication essential in the sky. Change this spring to Champlin HI-V-I.

THE MIDDLE OF MARCH THAT'S INCOME TAX TIME

We do not wish to scare you, unreasonably. But in many brackets the income tax will be more than that of last year—much more—and we leave it to your imagination what you will need to save for the income tax payable in 1945.

Cancelled checks are of tremendous help to most persons in arriving at Tax Figures—and a bank account is the first step toward a book-keeping system.

We are always glad to discuss your problems and to open an account for you!

"WE FIX FLATS"

Men of Fleet Give No News . . . But They Hunger for News from Home

Don't blame that sailor if his letters tend to be the "hello, how are you—I'm well—hope you're the same" type. For according to Grady W. Wilson, Jr., who is on duty with the Pacific Fleet, those extremely uninformative letters are probably about all the poor guy is able to write by the time he has complied with the censorship regulations—for which, incidentally, there are some excellent reasons.

Mrs. Grady Wilson this week received a letter from her son and he enclosed a mimeographed letter from war correspondent Phillip Heisler explaining the "why" for those brief navy letters.

ceived damage, etc. In fact, just about the only topic left is the food.

However, according to Correspondent Heisler, there are a few things you can be sure of—even though Johnny does not mention them: He has been shot at and has done his share of shooting and he may have seen typhoons that toss a 45,000 ton battleship around like a cork. He has traveled thousands of miles (and without an A-card) and has worked until he was ready to drop from sheer weariness. If he went to church at home, chances are he continues the practice on ship, as divine services are held regularly.

He does not really need many things you can send him. However, those little pocket-book editions are always welcome and clippings from the home town paper are always read thoroughly. He may be slightly embarrassed to ask for it, but he could probably use some colorless finger nail polish—comes in very handy to coat brass ornaments to protect them from the tarnishing salt air.

So actually, there is not much Johnny can say; but there is NO censor to prevent you from writing all about yourself, where you've been, what you've been doing and what Johnny's old friends are doing. Just to read the familiar names of people and places gives him hours of pleasure.

Since most fleet addresses contain the name of the ship, it is almost impossible for John Doe, seaman, to give any information about where he is or what he is doing without giving important information of activities of his entire fleet. Because of the importance of the weather in sea warfare, Johnny can't mention the weather, which cuts out another correspondence topic; and he can't mention the fact that his ship was under attack, that it re-

A large crowd was present Friday night at the pie supper and program which was given for the benefit of the Red Cross.

The program consisted of piano numbers, vocal selections, dialog and magic acts. Willard Osburn and J. C. Mays of Hereford provided the magic which was enjoyed. Kelly Gray, assisted by Bonnie Brumley, auctioned the 50 or more pies. R. M. Gunn paid \$50, the most paid for a pie. The pie belonged to Miss Gwendolyn Paschal. It was resold later for \$10.

Fairene Weeks received the cake as the prettiest girl and Roscoe Short the socks as the laziest man.

Proceeds from the supper amounted to \$525. Other contributions have raised the amount of donations from this community to more than \$700.

J. S. Roe in figuring the amount to give decided that \$10 each for the 5 grandsons in service might be fair enough on his part.

As chairman of the drive, this reporter expresses sincere thanks to all who cooperated in any way in making the drive so successful.

"Food for '45" Is Topic for Garden Club

A program on "Foods" was presented for members of the Garden Club at the meeting held Friday afternoon at the home of Mrs. Lyle Blanton. Mrs. C. C. Cox and Mrs. A. M. Jones were assistant hostesses.

Mrs. E. T. Brooks talked on "More Food for '45 and Planning the War Garden." She said gardens should be fertilized not later than November and should be spaded well before planting. She suggested planning a garden to fit the size of the family as it is much better to have a small garden well cared for than a large neglected one.

Mrs. Earl Springer spoke on "Planning and serving a Nutritive Menu," pointing out the large percentage of under nourished people, partly because of carelessness. She urged mothers to make the table attractive by studying the use of color and to make meals joyous occasions.

Miss Sadie Lee Oliver displayed garden catalogs and reference books.

Continue to Write To POWs in Germany

In response to many inquiries received from relatives and friends of servicemen listed as prisoners of war in Germany, Mrs. C. H. Dyar, Red Cross P. O. W. Chairman, this week advised that relatives should continue to send mail and packages to the men in German camps until the War Department forwards an official notice of change in status of the prisoner.

Despite the fact that many prison camps are known to have been moved and that several thousand American prisoners have been liberated by the Red Army, the Red Cross definitely urges that mail and packages

Crossing Accident Results in Large Property Damage

Whiteface cattle were slung through the air for a distance of almost a hundred yards Friday afternoon in a freak railway crossing accident when a westbound Santa Fe passenger train crashed into a cattle truck belonging to Clarence Beauford

at the railroad crossing at the state park entrance.

Ten cows were killed and the cattle trailer was splintered but A. J. Robinson, driver of the truck, escaped injury as the truck cab had already crossed the tracks when the crash occurred. Robinson was following another cattle truck, which itself had not yet turned into the highway when the train bore down on the cattle trailer.

The front end of the engine was severely dented and the train was stopped for some time while the track was cleared and damage was surveyed.

continue to go to the last-known address of the prisoner until official notice of a change is received.

Red Cross lists the following camps as having been moved: Stalags II-B and III-B, Stalags Luft 111 and IV and Oflag 64. As of January 1, there were 29,000 Americans in these camps. Stalags 8-B and 344 were reported moved several weeks ago but there were less than 100 Americans in these camps at the last count.

Approximately 10,000 Americans are believed to be in Stalag VII-A, near Moosburg, north of Munich. Of these, 4,000 were moved recently from Stalag Luft III, previously the largest American airmen's camp in Germany. Red Cross reports that 50 cartloads of food, medicines and bandages were sent from Switzerland to Moosburg last week.

SONS In the Service

Unit Gets Citation

Cpl. E. B. Posey Jr., is a member of the 534th Amphibious Tractor Battalion which recently received the Presidential Unit Citation. He is the son of Mr. and Mrs. E. B. Posey of Hereford.

The citation reads "for outstanding performance in combat during the seizure of the Japanese-held Islands of Saipan and Tinian in the Marianas from June 15 to Aug. 3, 1944."

Cpl. Posey has been on duty in the Pacific theater for the past year.

The Poseys have another son, Staff Sgt. Clyde F. (Buddy) Posey who is with the 36th mechanized squadron with the 9th Army somewhere in Germany.

Alvin E. Ward on Leave

Alvin Earl Ward, AOM 2-c, is home on a 30-day leave after 20 months' service with the Navy in the Pacific. He is a son of Mr. and Mrs. E. Ward, whose other two sons, Ervin and E. Ward, Jr., had a lucky meeting in the Philippines last month. It had been almost two years since the boys had been together.

Takes B-29 Training

Lt. A. L. Hallum, who has vol-

unteered for his second tour of combat missions, is now taking his B-29 training at Lincoln, Nebr. He writes that his next objective will probably be Japan and that personally he is ready for a change from the climate at Lincoln, "I'd better get out of Lincoln soon, or they'll be shipping me out as a cake of ice," Hallum says.

Lieutenant Hallum reports meeting George L. LeGrand in Lincoln recently and says he tried to get George L. (a B-29 gunner) on his crew, but was unable to make the change before George L. shipped out for Tucson, Ariz.

Jackson Home

Billy Bob Jackson has arrived in the states after serving 22 months in the South Pacific. Pharmacists Mate second class, he is the son of Mr. and Mrs. R. R. Jackson and his wife is the former Miss Elaine Mantovanis of Houston.

Upon his arrival in Hereford this week end he will see his little daughter Carolyn who is a year and a half old, for the first time.

Mrs. Jackson and the little daughter have been making their home here.

Receives Wings

Robert E. Teter, son of Mr. and Mrs. W. A. Teter, received his wings in the United States Army Air Corps last week at Aloe Field, Victoria. He will remain at the Victoria field for seven weeks special training.

To San Diego

Three Hereford boys report this week for training at the San Diego Naval Training Center. They are Robert Hickman, son of Mr. and Mrs. John Hickman, J. D. Greeson son of Mr. and Mrs. B. K. Greeson, and Fritz Hoffman, son of Mr. and Mrs. Joe Hoffman. They were inducted last week in Oklahoma City.

Lt. Conklin Home

Lt. Merlin Conklin, son of Mr. and Mrs. Lee Conklin, wired his parents from the west coast Saturday that he will be home the latter part of this week. They receive the message just two years from the day they received another message that he had been badly burned in a plane crash in Kansas.

Lt. Conklin, B-29 pilot, has spent the past year in the India-China theater of war with the 20th Air Force Command. Leaving the east coast on March 27 and returning by the Pacific route he has completed an around-the-world flight within the year.

Two Boys in Pacific

Mrs. W. H. Nunn writes from Tulla that her son, Harvey, Jr., on duty somewhere in the Pacific theatre, is fine but would certainly like to see a field of wheat again. Mrs. Nunn's other son, Elmore, is also in the Pacific; and she has not heard from him since Dec. 2. He is stationed on a battleship, and interruptions in mail service sometimes last for several months.

Takes Electrician Course

CHANUTE FIELD, ILL. — Pfc. James T. Matthews of Hereford has recently completed a course in airplane electrical mechanics at this school of the Army Air Forces Training Command.

At Chanute Field he also received training in various other technical phases of airplane maintenance.

ALLIED FORCE HEADQUARTERS, Italy—Cpl. Loy U. Botsford, Hereford, Texas, is enrolled in a course given by the Mediterranean Theater Branch of Armed Forces Institute.

Courses train soldiers to qualify for greater responsibilities in the Army and for jobs in civilian life. Four hundred subjects offered here range from the technicalities of electrical engineering to the cultural back-

ground of the Mediterranean Theater Ribbon with six Battle Participation Stars. He is serving as a clerk with Headquarters, 98th Bomb Group. The Group has received the Unit Citation.

Awarded Combat Badge

Pfc. Clyde-Battles of Hereford, who fought against the enemy in the European theatre, was one of 15 veterans awarded Combat Infantryman's Badges by Col. John P. Wheeler, Commanding Officer of the Army Ground and Service Forces Redistribution Station, Hot Springs, Ark., in an impressive ceremony last week.

The Station's band played military music and personnel of the Station Complement stood in formation while the presentation was being made.

The Combat Infantryman's Badge is presented only to those infantrymen who have been in actual combat and have performed their duties in battle so well that they deserve the decoration in recognition of their courage, resourcefulness, and ability as fighting foot soldiers.

Graduates at Chanute

CHANUTE FIELD, ILL.—Sgt. George W. Lutz, son of Mr. and Mrs. George Lutz of Rt. 4, Hereford, has completed training and been graduated from this school of the Army Air Forces Training Command.

While attending this school he received instruction in the electronics course and in various technical skills vital to plane maintenance.

Likes Hereford Hospitality

Ensign J. H. Early, who visited Hereford in 1935, in 1943 and again in February of this year, writes in to express his thanks and appreciation for the kindness shown him by Hereford people on his three visits here. "In the 11 years I have served in the United States Navy," Early writes, "I have traveled over a good part of the civilized world and some not so civilized. No place, including my own home town (which I will not mention) have I found such sincere friendliness... as in Hereford."

Ensign Early concludes that the people of Hereford are "real folks" and he is looking forward to his next visit here.

Shaping the FUTURE

To a large extent, every man shapes his own future. By making good use of the tools that time and circumstances provide for his use, he increases his own chances for success.

No man ever won success alone. In the background there are always other people and other things which make his upward climb possible. Often he is the man that capitalizes opportunities that others see—but fail to grasp.

Junior Red Cross Packs Gift Boxes

The Hereford Junior Red Cross is now busy filling gift boxes for children in the liberated countries; and Mrs. Clyde Cave, Junior Red Cross chairman, has asked members to bring materials to school, where they will be assembled for packing.

These gift boxes will contain principally school and health materials, Mrs. Cave said, listing the following as some of the items which can be used:

Three pencils in flat case, penholder, dozen pen points, box of crayons, three small pads of paper, felt penwipers, blotter, cake of toilet soap, washcloth, pocket comb, case containing needles, thread and thimble, matched buttons on small card, handkerchief, small bag of marbles.

Boys and girls in liberated countries lack many things which we take for granted," Mrs. Cave said, pointing out that the gifts are sure to be prized by the children who will receive them. "Be sure to send materials that are new, clean and of the best quality. Send only items made in America because they represent your country as well as yourself."

As proof of the fact that Junior Red Cross work is thoroughly appreciated by the children of England and the liberated countries, Mrs. Cave quotes from a letter from Miss Gerry Walker, sister of Mrs. W. M. Emmons of Hereford and a Red Cross worker stationed in England. Miss Walker writes of an experience at Christmas when she was in charge of a children's party: "The Junior Red Cross had sent gift boxes and candy, and when Santa Claus came in with the gifts, the children just screamed with happiness. If the school students at home could see how these gifts are appreciated they would send even more things."

red to the Air Corps and is stationed at Roswell, spent the week-end with Hereford friends.

Little Pat Elliston, son of Mr. and Mrs. N. G. Elliston of Wyche, fell on the floor last week and rammed a splinter up his arm with the result that Pat was a pretty sick boy until he was taken to the doctor. The arm is better now, but Pat is still disappointed because he thought that when a boy was sick enough to go to the doctor he got "his own way about everything."

Westway, a pie supper and program were arranged by Mrs. Merlin Kaul, community chairman, who reported that the pie auction raised \$575.22, with an additional \$81.50 coming in other donations.

In the Fairview—Daniel—Willadorado neighborhood donations

amounted to \$272.50 with the drive conducted by Mrs. J. F. Matthews, Mrs. E. W. Womble, Mrs. C. R. Hughes, Neil Downing and E. T. Allred.

In the Bippus community C. L. Bogle, Mrs. E. K. Pinnell and Mrs. C. F. Rickels, the volunteer committee, took up donations amounting to \$266. George C. Messenger, who conducted the campaign in his community, has turned in donations amounting to \$77.50 and states that the drive is not yet complete.

Ford Community gave \$148; the volunteer worker was Mrs. F. D. Ferguson.

Mrs. W. W. Hill, who canvassed the territory from the Hereford city limits to her home on 25 Mile Avenue, took up \$200 for the Red Cross in that neighborhood.

Communities which have already reported are Dawn and Wyche, and the complete county tabulation will probably be ready next week.

to meet the recreation needs of the young people and to fill a need in community life recognized by both boys and girls and their parents.

Local sponsors feel that a good start has been made—but in order for the project to be a success it must have the interested support of the community as a whole. This support, they feel, will be forthcoming, when the citizens attend Wednesday nights meeting and hear the facts presented by a competent youth leader.

Members said that they would appreciate the views of every interested person in the community before any definite steps are made. Present members of the hospital board are: Frank Givan, Ezra Norton, H. E. Henslee, Dr. R. R. Wills, J. J. Clark, and Jas. W. Witherspoon.

commodities besides wheat and the expense will not be wasted."

"Considering 300,000 to 400,000 acres in wheat, and with average moisture conditions, the county could produce from six to 12 million bushels of wheat," Bate-man says. "And while there will probably be a fair supply of wheat conveyers to be attached to trucks, making it easy to move the grain from the truck to the granary, there will undoubtedly be a shortage of 'shovel labor'."

"In view of this fact," the county agent points out, "farmers should not plan to store the wheat on the ground, then have it shoveled into trucks for delivery to the elevator at a later date."

According to the county agent, there seems to be adequate lumber for the construction of farm storage elevators, or farmers may buy prefabricated bins of 3,000 bushel capacity. The bins, which have never been erected, will sell at a price of \$285 and may be purchased through the local AAA Office.

Death Claims

(Continued from page 1)

Funeral Home owned the first motor driven hearse in this section of the country. In 1930 Mr. Black built the present Funeral Home and as evidence of his continued active interest in his business, he completed the remodeling of his furniture store last year.

Mr. Black had extensive ranch holdings and at one time owned one of the largest registered Hereford Herds in this territory.

A leader in the Methodist Church, he was the first Sunday School Superintendent in the local church and continued

in the position for 25 years. A member of the choir for 40 years, he held some church office throughout his 44 years of residence in Hereford.

A trustee of the old common school district in 1904, Mr. Black led in the movement for establishment of the Hereford Independent School District and aided in the community campaign for the building of Central School in 1907; in 1925 he again did outstanding work toward the construction of the new high school building.

He was a Mason and twice president of the Hereford Chamber of Commerce, and in 1932 was elected mayor of the city, piloting the municipal government through the most difficult depression years and keeping city finances solvent at a time when many towns were defaulting on their obligations.

Thoroughly loyal to his town and community, Mr. Black helped lay the foundation stones upon which nearly all phases of community progress were built. Survivors include two sons, James E. Black of Hereford and William A. Black of Lubbock, two daughters, Mrs. W. J. Stanford of Hereford and Mrs. Elizabeth Birkmeyer of Amarillo, and six grandchildren.

Last Rites for Louis F. Bezner Held Saturday

Funeral services for Louis F. Bezner, 65, a resident of Hereford from 1925 to 1942, were held Saturday morning from St. Anthony's Church. The choir sang the Requiem Mass, which was read by Father Albert Heald; and Father James Salvi sang "Meritum Passiones."

Mr. Bezner, who was born at Mt. Carmel, Ia., on Oct. 19, 1876, came to Texas in 1895 with his parents, who were pioneer settlers at Lindsey, Tex. Since 1942, Mr. Bezner had made his home with his son Leo at Bushland, Tex.

Survivors include his wife, five sons, Leo, of Bushland, Frank of Hereford, Alban of Amarillo, T-5 Edward J. Bezner who is serving with the U. S. Army in England, and Louis Bezner, Jr., with the Navy in the South Pacific; seven daughters, Mrs. Corneliuss Drerup of Hale Center, Mrs. James Borer of Toledo, O., Mrs. Mike Kocan, Colorado Springs, Colo., Mrs. James Reynolds of Bushland, Sister Anna Clare, S. A., of Lake Placid, N. Y., and Misses Rita and Elizabeth Bezner of Amarillo; three brothers, Albert, John and Jake Bezner, all of Cooke County, Tex.; three sisters, Sister Mary Alban, C. D. P. of Laredo; and Mrs. Lena Schmitt and Mrs.

John Schmitt, both of Lindsey, and 18 grandchildren.

Palbearers were Matt Jesko, Ed Loerwald, Lawrence Jeitzen, Henry Hoffman, Joe Reinart and John Paetzold.

Relatives and friends from out-of-town, here for the funeral, included Sister Alban of Laredo, Evelyn Bezner, a postulant of Our Lady of the Lake, San Antonio; Mr. and Mrs. Jake Bezner and Mrs. Lena Schmitt of Lindsey; Sister Felicitas, S. A., of Washington, D. C., and Misses Orva Bowles, Ruth Jameson, Margaret Simpson and Anna Topken of St. Anthony's School of Nursing in Amarillo where Elizabeth Bezner is a cadet nurse. All of Mr. Bezner's children, with the exception of the two sons in service, were present at the last rites.

Penney Celebrates 12th Anniversary in Hereford

The J. C. Penney Company, celebrating its 12th anniversary in Hereford, today announced special events for this week-end and next week.

S. B. McLallen, store manager, states that during each day for the coming week a special sale of some item of war-scarce merchandise will be featured. Such items as work clothes, towels, etc. are included in the list.

"Since these items are on the 'hard-to-get' list, we may have to limit quantities in some cases," McLallen says, inviting customers to read the Penney ad and take advantage of the special values featured for their anniversary week.
