

AROUND TOWN Sights and Faces Seen

Around Town just got started on naming those high school students and 1945 grads who are helping to ease the help shortage in Hereford this summer...

And we are apologizing in advance to anybody we failed to recognize. Just let us know and we'll correct the mistake.

The drought has had the effect of booming at least one business in town. Mrs. Clara McLean, county librarian, says that the library's country circulation is the largest on record...

And speaking of drought, the north side of the courthouse lawn is just about the best exhibit in town. Not even the customary bumper crop of dandelions will be harvested this year.

Trigger, Ruth Tucker's dog, is a very persistent animal but he finally had to give up and go home Tuesday morning after he had barked, scratched and whined at the door of the Hereford Insurance Agency for a couple of hours after defying all of Ruth's efforts to keep him from following her to work.

Floyd West, who lives 12 miles north of town, thinks he could tell one of those "Hereford Potato Stories" about the wheat on his place. The heads are six inches long and measure 16 grains to the mesh.

But just when local residents begin to decide that Hereford (Continued on Page 12)

Rain Falls in Vicinity Of Hereford Wednesday

Rain last night brought only a light sprinkle to Hereford, but good rains were reported in the immediate vicinity with a fairly heavy fall reported only a few miles south of town and heavier rains to the east as Amarillo had almost an inch of moisture.

Further Details of Beef Subsidy Program Announced by Local AAA

More complete details of the government beef subsidy program were announced here this week when F. G. Collier of the county AAA office outlined plans whereby feeders who comply with certain regulations will be paid 50 cents per hundred pounds for all beef cattle sold.

A few details of the program, explained by Collier, should clear up some questions which have already arisen here. According to the regulations, a local buyer who purchases beef animals for an out-of-state concern and gives his personal check to the producer, must have sold the cattle to the

More Than 175 Attend Rotary Charter Program

A new Rotary Club at Hereford received its charter Thursday night, when the 18 charter members celebrated the event by inviting representatives from Panhandle Rotary Clubs to join with them in a John Snider barbecue.

The following groups were present: Canyon, 33; Amarillo, 54; Ralls, 4; Portales, 4; Littlefield, 3; Pampa, 4; Clovis, 7; Canadian, 4. In addition to the charter members from Hereford, several local guests were present.

Soldiers from the Hereford prison camp furnished music during the evening.

John Patton, president of the new club, called the group to order. Clyde Warwick of Canyon led in group singing. Herman Ford of Hereford expressed hearty welcome to the visitors.

President J. A. Hill, first head of the Canyon Rotary Club, responded. He briefly outlined the accomplishments of Rotary and of individual Rotarians whom he had observed during the past 20 years.

Pinky Vineyard, president of the Amarillo Rotary club, expressed appreciation of that club to Hereford, and the fine (Continued on Page 12)

Mrs. Whitehead Buys Beauty Mart

Mrs. Imogene Whitehead, proprietor of The Charm-Aid Studio, this week announced her purchase of The Beauty Mart from Mrs. Ivan J. Hudson and states that she plans to consolidate the two shops in the near future.

For the present, however, she intends to continue operation of both shops in their present locations. Six operators are now employed in the two shops and every effort is being made to give high quality beauty service.

Bond Drive Heads Into Final Week

With just ten days to go until the June 30 deadline, Deaf Smith County people this week had purchased a total of \$266,138.40 worth of bonds in the Seventh War Loan; and if the history of past drives is repeated the remaining \$133,861.60 will be subscribed during the remaining few days of the drive.

However, it is pointed out that with approximately 90 per cent of the time gone, only 70 per cent of the Series E bond quota has been filled and it will take a real drive on the part of all bond purchasers to finish the job victoriously. To date, \$194,100 in E bonds has been purchased, leaving a \$55,900 balance to be subscribed within the next ten days.

War news and domestic news daily points to the necessity of increased buying of war bonds both to win the war and to check inflation; and Deaf (Continued on Page 12)

Mother of Mrs. R. S. Scott Dies Monday

Funeral services for Mrs. A. H. Manser, 72, mother of Mrs. R. S. Scott of Hereford, were held Tuesday afternoon at the First Baptist Church of Wellington, with burial at Childress.

Mrs. Manser, who had made her home in Amarillo for several years, died Monday following a major operation.

Rev. Jack Sisemore, pastor of the Lane Ave. Baptist Church of Amarillo, officiated at the funeral rites. Survivors include four sons, H. A. Manzer of Garland, L. A. Manzer of Wellington, Gerald Manzer of Amarillo and Cpl. Don Manzer of the Childress Army Air Field, and three daughters, Mrs. Chester Hamm of Bryan, Mrs. R. D. Hobbs of Amarillo and Mrs. Scott of Hereford.

Mr. and Mrs. R. S. Scott and daughter Beth were in Amarillo last week-end and attended the funeral in Wellington Tuesday.

Current Wheat Loan Program Announced Here

The 1945 government wheat loan program was outlined here this week when it was announced that the rate in Deaf Smith County is expected to be \$1.38 a bushel, as compared with \$1.35 in 1944. Although no definite rate statement had been received at the AAA office early this week, the local rate is figured at 24 cents less than the \$1.62 rate which prevails at Galveston, so it is assumed that \$1.38 (also the national average loan rate) will be the rate here.

As pointed out by F. G. Collier, secretary of the local AAA committee, the loan price is supposed to reflect 90 per cent of parity; and if the parity figure is increased, before July 1 there will be a corresponding increase in the loan price.

For the most part, loan procedure and regulations will be the same as they have been in the past; and farm storage rulings have not been changed, except that this year no farm (Continued on Page 12)

Besides her husband she is survived by three children, Maymie Beth, Bobby and Oscar, her parents, Mr. and Mrs. Leo Wolfe of Jackboro and a brother, Ralph Wolfe, also of Jackboro. Mrs. Chenoweth grew up in Hereford and attended Hereford schools. She is the former Miss Ruth Wolf.

Assault Charge Filed Against Hereford Man

Charges of aggravated assault and battery have been filed against Charles Glandon of Hereford in connection with the whipping of his ten-year-old stepson, Bobby Ray Ashlock, and a preliminary hearing Tuesday morning set the trial for Monday, July 2, in County Court. Glandon's bail has been set at \$1,500.

According to neighbors the offense took place at the Glandon home at 501 East 11th St. Sunday afternoon; and Sheriff J. O. Newell and Constable C. F. Davis took Glandon into custody after neighbors had heard the child's screams and Mrs. W. E. Pittman called Constable Davis.

Neighbors took the boy to the doctor for medical treatment. James W. Witherspoon has been appointed special prosecutor in the case to assist County Attorney Carl Gilliland.

Sgt. Ford Receives Silver Star for Mop Up of Nazi Gunners

Sgt. Henry C. Ford, who already holds the Purple Heart for wounds received in action, has been awarded the Silver Star for gallantry in battle on Apr. 17, 1945 near Wippra, Germany, according to an official citation received here last week by his mother, Mrs. Myrtle Ford.

Entering the town ahead of their battalion, Sgt. Ford and another member of his motorized combat patrol were subjected to intense enemy small arms fire. Opening fire with their machine guns on the well-defended entrenchments, they forced 12 Germans to leave their dugouts and surrender; then, when the prisoners pointed out the approximate location of a nearby enemy anti-tank gun emplacement, Sgt. Ford and his companion voluntarily exposed themselves to heavy fire to find out the exact location of the gun.

While moving forward they surprised and captured two rocket launcher gunners and upon discovering the anti-tank gun and demanding the surrender of its crew, they killed one of the enemy who attempted to escape and captured the two remaining members.

As stated by the citation, "Sgt. Ford's aggressiveness, initiative, courageous action and devotion to duty contributed materially to the success of the operations and were a credit to himself and the armed forces of the United States."

Ford is a member of the 39th Infantry Regiment, 9th Infantry Division.

U. S. Employment Service Office Opened Here

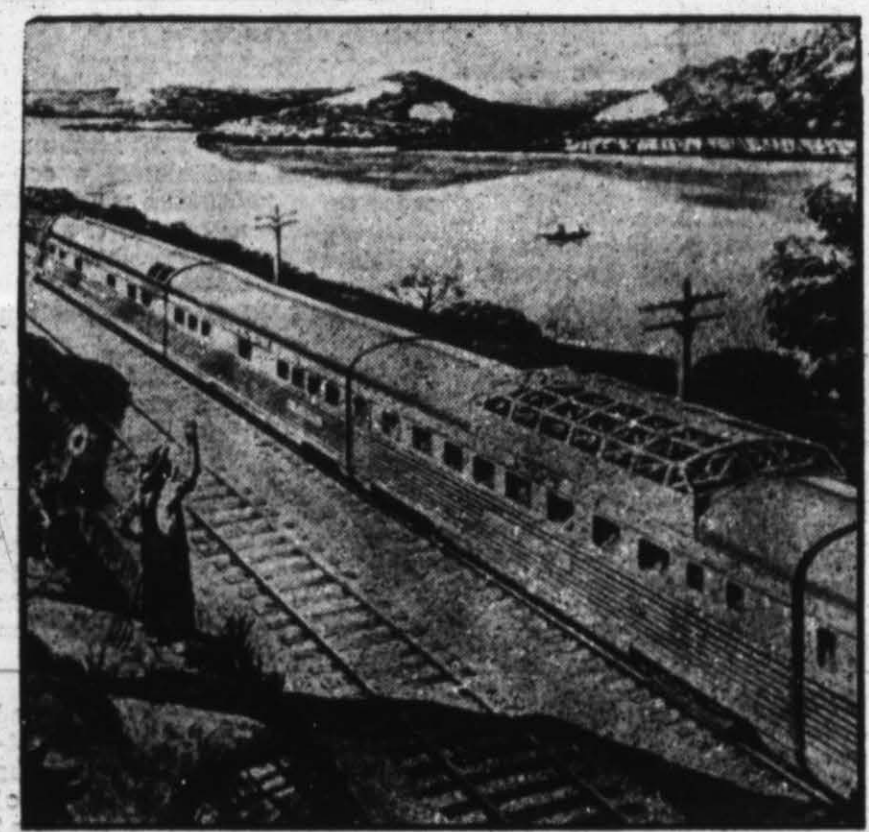

"An office of the United States Employment Service has been opened in Hereford with J. B. Bruce, a veteran of World War II in charge of the office, which is located in the City Hall Building." It was announced this week by F. A. Wells, area manpower director, Amarillo.

The primary purpose of the Hereford office will be to facilitate needed employment of veterans; however, Wells stated that all persons in need of employment, regardless of veteran status, should file their application. Likewise, all employers in Deaf Smith, Castro and Farmer counties needing workers should place their orders with the Hereford office.

Wells emphasized that the opening of this office and the services to be rendered by it will not conflict with any other agencies or community activities already established to provide service to the veterans but will facilitate such services. Bruce indicated that he is anxious to meet the community leaders and employers, as well as job seekers, and to get acquainted with all others who care to visit the office.

Early Harvest Underway in Hereford Area This Week

Seating in the Balcony

Future rail travel is illustrated in this artist's drawing of a new-type car to be placed in service on the Burlington Route. The glass-enclosed dome affords unobstructed all-around view and increases car capacity.

One of the earliest wheat harvests on record in Deaf Smith County got underway this week as combines started their rounds in many fields and the wheat trucks began to roll into local elevators. Though the harvest will be far short of last year's bumper crop, the yield will probably be greater than was at first expected; and tests on the first wheat are running high—from 58 to 61 on the first loads reported.

First wheat of the 1945 season was delivered Saturday to the Pitman Elevator by Ray Wilhelm who farms the D. F. Bennett place, ten miles southeast of Hereford. The wheat tested 59 and is making a seven bushel yield.

Frank Wilde Sunday afternoon brought in two loads to the Fraser Elevator and reports that his yield will run around 20 bushels to the acre. The wheat tested 57 and 58 and was of the Tenmarque variety.

Also among the first to bring in wheat was Cecil Gunter, who is making 40 bushels to the acre on his irrigated field east of Hereford. The grain tested 61 when it was delivered to Sears and Teter elevator.

C. P. Grimes and W. C. Towns brought in the first loads to Packard Mill, both farmers bringing in wheat on Tuesday night. Both loads tested 60 pounds with low moisture content and Grimes is making ten bushels per acre average yield.

Bond Queen Contest Standings Listed

Standings in the contest vote to elect a 7th War Loan Queen in Deaf Smith county remained approximately the same in the top brackets this week with the vote still close and changes expected during the final ten days of the bond drive.

As announced today, the standings reveal Mrs. Allan Bell in first place, with other contestants in the following order: Mrs. J. B. Harlin, Mrs. Virginia Griffith, Mrs. R. L. Dowell, Jr., Mrs. Elmer Mathies, Mrs. T. W. Roberson, Mrs. Frances Wilson, Mrs. Inez Wedel, Mrs. W. H. Russell and Mrs. Frances Smith.

B-6 and C-6 Gas Coupons Expire June 30

"B-6" and "C-6" gasoline coupons, which local War Price and Rationing Boards stopped issuing in March, will not be good for consumer use after June 30, 1945, Wm. G. Williams, District Rationing Executive announced today.

Most of these coupons have already been used, Williams said. The few remaining will be taken out of circulation, in line with OPA's customary policy of periodic invalidation of gasoline coupons.

Consumers who have any of these coupons that represent an unexpired ration may exchange them for valid coupons at their local boards.

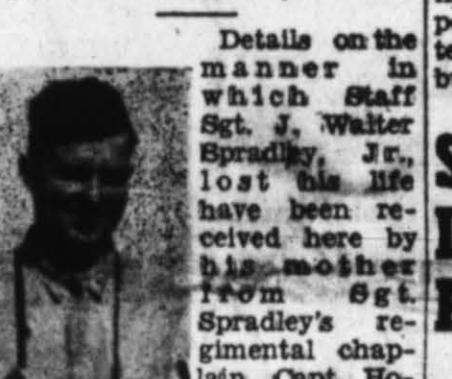

Service station operators will have 10 days, or through July 10th, 1945 to surrender these coupons to their suppliers for gasoline, or to their local boards for ration checks. Distributors have until July 20, 1945 to deposit these coupons in their ration bank accounts.

Khiva Temple to Celebrate Birthday

Khiva Temple will be 25 years old on June 25, and the occasion will be celebrated with a full form ceremonial, according to an announcement this week by H. A. Close, Potentate's Aide in Deaf Smith County, who said that a large class of candidates has already petitioned and Nobles from all over Khiva Temple's jurisdiction will be in attendance.

Special recognition will be given to charter members and a feature of the ceremonial will be a report on the bond purchases of members of Khiva Temple during the 7th War Loan. A large group of Shriner from Hereford and surrounding territory is expected to attend the birthday celebration.

Details Received on Sgt. Spradley's Death

Details on the manner in which Staff Sgt. J. Walter Spradley, Jr., lost his life have been received here by his mother from Sgt. Spradley's regimental chaplain, Capt. Homer W. Thompson, who was able to supply the information after the lifting of censorship restrictions following German's surrender.

According to Chaplain Thompson's letter, Sgt. Spradley and three companions approached a dugout in the Hannibois Woods near Malesherbes-les-Metz, France on Nov. 9, 1944, and as they drew near, a German came out of the dugout with his hands raised in sign of surrender. However, he had a pistol in his hand and when the men were in close enough range he lowered his hand and shot Sgt. Spradley, killing him instantly. "Enemy activity was intense (Continued on Page 12)

More Soldiers Back Home, Describe Life in Prisoner of War Camps

Veterans of both the Pacific and European war continued to arrive in Hereford this week as the return of liberated prisoners and combat veterans being deployed to a new theatre reached a steady stream.

Staff Sgt. Robert Bicknell, Jr., arrived last Wednesday on a 60-day furlough following his liberation from a Jap prison camp in Burma where he was held for 14 months.

Bicknell, co-pilot of a glider, crash-landed behind the Jap lines in March, 1944, was released with many other Allied soldiers when the British captured Rangoon.

According to the official report issued by Army public relations officers, the prisoners in Bicknell's camp were marched into the yard and told to get packed for a march to a new prison. After two days, the Japs left, telling their prisoners that they were released; and the men were camped in a Burmese village when outpost guards spotted troops two miles away and investigation the next day brought about contact with the British 14th Army and truck rides to a nearby camp. From there, the men were flown to rear area hospitals.

Scouts Send Big Load of Waste Paper to Mill

Boy Scouts of Troop 1, who have collected more than 100,000 pounds of waste paper in the past three years, Saturday added 10,000 pounds to their total when another load of salvage paper was delivered to Amarillo.

The scouts urge that all residents begin saving paper now for the next big drive, which will probably be held early in September when many of the scouts will have completed summer work on farms and in stores and other business places in this vicinity.

Save only newspapers and magazines, the scouts advise, as they do not have facilities to handle other types of waste paper.

RED MERRILL HOME

Also a veteran of the war with Japan is Marine Cpl. J. W. (Red) Merrill, who is now spending a 30-day leave with his mother, Mrs. Virgil Merrill and family.

Merrill, who served with the 4th Marines, was wounded in action on Saipan last June and again on Two Jims this year. He has received the Purple Heart and wears numerous campaign ribbons.

Reporting on his treatment at Stalag Luft III and later at Stalag 7-A at Moosburg, Germany, Lieutenant Merrill stated this week that "we were not mistreated but we were certainly shy on food."

In fact, according to Lieutenant Merrill, the Red Cross really saved the lives of prisoners in German P.O.W. camps with the food parcels which were distributed. (Continued on Page 12)

OPA ACTS TO INSURE CANNED MILK SUPPLY FOR INFANTS

To make sure that supplies of canned milk continue to be available for infants and other consumers to whom it is an essential food, institutional and industrial users are no longer permitted to use their red points for canned milk. District OPA Rationing Officer Joe Brown has announced.

This restriction was necessary because increased use of canned milk by industrial and institutional users has resulted in short supplies in many areas.

District Agent Discusses Food Storage At Meeting of Westway H. D. Club

"When a home-maker has gone to the trouble and expense of canning and preserving food, she should be sure of having adequate storage space," according to Miss Doris Leggett, district home demonstration agent, who spoke to members of the Westway Home Demonstration Club at their meeting last Wednesday afternoon, giving a complete discussion of the problem of food storage in the various types of facilities—cellars, dugouts and ventilated pantries.

Canning specialists of the U. S. Department of Agriculture suggest first listing amounts of various canned foods now on hand to help in making or revising summer canning plans; then, using this rough estimate, to determine the amount of storage space which will be needed. For example, a shelf 12 inches wide will accommodate two rows of quart or pint jars, front to back. Four feet of shelf space will hold about 20 jars stored in this way or about 44 tin cans, No. 2 1-2 size, stored double-deck and two rows to the shelf.

If more space is needed, it may be possible to build some new shelves or to set in extra shelves where the present ones are spaced far apart. Best storage method is to provide shelves just the right height for different-sized jars or cans—with about a two inch space above the jars to allow for air circulation and convenient handling. For example, set shelves 9 1-2 inches apart for quart jars, 7 1-2 inches for pints and 12 inches for No. 2 1-2 tin cans, piled double-deck style. To strengthen long shelves and prevent sagging, brace about every three feet.

Next step is to clean the storage area thoroughly, rearranging the shelves so the older jars are moved to the front, where

they will be used first. If shelf space is at a premium and it is necessary to store filled jars in boxes or in some other place, be sure to keep the main storage shelves supplied with a variety of foods. Whether stored on shelves or in boxes, canned food should be kept cool, dark and dry.

Yes, Sunny-Boy, the little character who represents the Fraser Milling Company is using this newspaper space as a means of calling at your door to remind you to be sure to haul your wheat to Fraser's this harvest.

By creating a new brand of bread, Sunny-Boy Whole Wheat Bread, which will be made by bakers who will use Sunny-Boy Whole Wheat Flour, milled from YOUR WHEAT, the Fraser Milling Company is creating a bigger demand for your wheat.

However, your cooperation and wheat is needed if this program is to succeed. That is why we are taking this opportunity of calling at your home to ask you again for your wheat. When you haul your wheat to Fraser's, you can store it, sell it, or have it handled in any manner you desire!

HOW and WHY CHIROPRACTIC METHODS are DIFFERENT

Chiropractors use the word "adjustment" instead of "treatment," because the word "adjust" exactly expresses what they do. It means "to make accurate; to bring into a true relative position." As Chiropractors employ it, it means to correct the position of a vertebra which is out of alignment, so that it assumes its proper relation with the vertebra above and below.

"To treat" means: "The application or giving of remedies for the cure of diseases; medical or surgical care of a patient."

Explanation may further clarify the distinction between the words.

To soften hard water you treat it with borax or some other chemical; you do not adjust it. Soil is treated by adding to it the chemical which it lacks, but it is not adjusted. However, if your sewing machine takes too long or too short a stitch, you adjust it; you do not treat it.

The Chiropractor applies no remedy, medicine, liniment, lotion or operation to act upon the disease or the diseased organ. He merely corrects the mechanical obstruction, which has acted as a hindrance to Nature's efforts to "treat the disease." That is why Chiropractic results are real and permanent.

Thus, it is evident, that the Chiropractor cannot be said to "treat" for the fundamental fact upon which the science of Chiropractic is based is that there is an intelligence which builds, controls, repairs and adapts the body to the requirements of life through the nervous system.

Not a muscle moves, not a gland secretes, not one function of the acts of nutrition, breathing, circulation, etc., is carried on except through nerve stimulus. It is the Chiropractic premise that the power which heals the body wounds, mends its broken bones and adapts it perfectly to its environment is self-sufficient—capable beyond all wisdom of man. All that is necessary in the restoration of health to diseased organs is to open the lines of communication and allow the normal power to flow through. This requires an adjustment, and the fact that Chiropractic succeeds where other methods have failed should commend it to thoughtful, intelligent people.

The word "adjust" indicates the difference between finding the primary cause and correcting it, and "treating" effects of that cause for temporary relief or for the suppression of symptoms.

Chiropractic teaches that disease is not a substantial thing which lies in wait just around the corner to pounce upon and invade the unsuspecting victim. Disease does not invade our bodies. It does not attack us from without. Disease is merely a condition within the body which prevents a normal expression of function.

Are these functions within our bodies a mere happenstance? Does the stomach digest our foods without intelligent direction? Does the heart beat seventy-two times each minute by mere accident? Is it only an accident that maintains the bodily temperature at 98.6 degrees? We need but a cursory thought to realize that all these must be in response to immutable law.

Cut the nerves leading to the stomach, and it can no longer digest the foods. Cut those leading to the heart, and it ceases to beat. Destroy the thermal center in the brain and death results. In brief, the Chiropractor recognizes that all function within the human body results from an intelligent control exercised through the nervous system must be free from interference, or function will be deranged.

It is the providence of the Chiropractor to discover where nerve transmission is interfered with and to remove such interference.

It should be remembered that nerve interference develops gradually. It is also true that relief must be brought about gradually. Don't come to the Chiropractor expecting instant freedom from a condition which has existed perhaps for years. Be as reasonable in your conception of Chiropractic as you are in other matters.

THIS WEEK... AT THE USO

Something new has been added. A juke box and two electric fans were sent to us from the USO at Abilene, Tex., last week. They were delivered on Wednesday afternoon and Sgt. Snoots and another enlisted man whose name escapes my short memory for the moment helped uncrate and set them up. LeRoy Thurman worked on the juke box and it really gave out with the music until Saturday. Then something went wrong and we were out of music again. So it will be off and on from here on we expect, but we hope to keep it running most of the time. Mrs. Troy Stambaugh gave us some

money to buy new records with too. Thanks everyone for your help. Scheduling the girls for USO duty has helped a lot. And the men do appreciate having someone besides another G.I. to talk with or to beat at some game. Flowers were furnished this week by Mrs. C. H. Dyar, Mrs. Jesse Stanford, Mrs. Lynn Kester, Mrs. T. A. Sullens and Mrs. Allan Bell. Judging from the rapidity with which the peanut brittle disappeared on Saturday we would think that the men like it very much. A wife of a service man who is overseas brought it in and we went her to know that the men surely did enjoy it. We were delightfully surprised to see Cpl. and Mrs. Pete Pacelli at the USO on Saturday. Pete is on his way to Camp Beale and is leaving Lois with

her family in Amarillo until he finds out what Uncle Sam wants him to do next. By the time Elton Young got back to the USO after the Orr-Obert nuptials he was still shaking. You would have thought that he was the one who had married. He will forget and though he says "Never again" now, we predict that he will go through it again. Wanted—A small lampshade for a dresser light, some new records, and rides to Amarillo. Once in a while some of our service men have to stay in the hospital in Amarillo and their wives would like to visit them as often as possible. So if you are going to Amarillo, why don't you call us and see if we have any passengers for you? —Oh yes, if you have some iced tea glasses—or any kind of tall tumblers, the USO would appreciate having them. Did you know that names don't mean a thing? We have an Eisenhower, a Patton, and a Wainwright out here in our Camp but none of them are Generals. About sixty people enjoyed the lawn party at Mrs. Fluit's home on Monday night. They made ice cream and the GSO girls and sponsors had made the cake to go with it. They played games and visited and when it got cold they went into the house and played more games and sang songs. Our thanks to the sponsors and GSO girls for all their work. Next Monday night will be a "Tie and Apron" dance. It sounds like a lot of fun is in store. Everybody out! A little bird told us that a number of our men were sent to Chicago this week. We miss them and hope they won't have to stay there too long. We were glad to see Jimmy Woodard out of the hospital again. And Mrs. De Loche and little boy came back Monday too. Mrs. Jewell Cook and two daughters and her father, Mr. Tomlinson, came from Galesburg, Ill., about two weeks ago. Mr. Tomlinson likes it here and says that if they can find a place to live he would like very much to make this his home. Letters were received from Mrs. Lewin and Mrs. Thomas, and a card from Johnny Guffre in Paris and Pvt. Leonard Palmer on emergency furlough in New York.

Jumbo
PAULINE BISHOP
Leon Matthews arrived home Friday with an honorable discharge from the United States Navy Reserve. Leon had been in the Navy eighteen months and had served 10 months at the submarine base at Pearl Harbor. Since April, he had been stationed at the U. S. Navy Repair Base in New Orleans, La. He is the son of Mr. and Mrs. L. A. Matthews. Mrs. Harold Sagraves and Miss Winifred Shipley of Clovis, Miss Gail Ross of Tunapah, Nev. and Miss Margaret Simpson of Amarillo were guests in the M. L. Simpson home Saturday night. Mr. and Mrs. Elmer McNabb spent the week-end with relatives in Dumas. Mrs. Clyde Renfro assisted with the Daily Vacation Bible School handwork at the First Baptist Church in Hereford the past two weeks. O. C. has attended the school. Mr. and Mrs. Finis Hunter and daughters were in Lubbock Monday. Their daughter, Norma, plans to enter school there in September. Mr. and Mrs. L. A. Matthews and Leon and Mrs. Howard Bishop spent Sunday in Clovis with Mr. and Mrs. L. C. Matthews. Walter Braunsweig of Cheyenne, Wyo., is spending the summer with his sister, Mrs. Marvin Spencer.

Frio
BY MRS. O. ANDREWS
Rev. Allen was unable to be present at Frio last Sunday, but S. W. Anderson preached in his place. Sixty-nine were present for Sunday School. Mrs. Dora Mae Barnett expected to undergo a major operation the first of this week at Amarillo. She underwent such an operation six weeks ago. The community wishes for her a speedy recovery. Mrs. Raymond Sevier and sons of El Paso visited the Dee Sevier and Carl Sevier homes last week. She is the former Miss Stella Fortenberry, who taught at Frio three year ago. Several friends visited with her while she was here. The Mobleys and Miss Christine Lindley took Sunday dinner with the T. L. Sparkman, Sr., family. A fire of undetermined origin destroyed a large stack of baled hay, one feed stack and partially destroyed another feed stack on the J. E. Andrews farm last Thursday night. The blaze attracted the neighbors who, aided by fire trucks from the POW camp, finally extinguished the blaze by morning. Neighboring buildings were saved only by water being hauled and thrown by bucket until the fire truck could get there. The Denmans, formerly of Grand Falls, are living temporarily on the Chisholm farm while they look for a farm. Showers for the bride originated in Holland. Earrings are still worn by some fishermen on the Belgian coast. Keats was 18 years of age when he wrote "On Death."

Santa Fe SYSTEM LINES
ALONG THE ROUTE TO TOKYO

Now, you may naturally ask, "What's so special about Santa Fe?" Well, it's a little more comfort, a little easier to get accommodations, a little more space for clothes, sweaters, than other railroads—low heads and greater loads and more space for extra baggage than other railroads. In the mountains, the railroads that make us so provide better service. The western part of the Santa Fe system is needed to get Japan in top priority. So—again we ask, "Unless you stop it, our freight cars are not stopping up ahead of having down!" This means, in the war days to come, there will be more passenger and freight cars on the Santa Fe system.

Hereford Potatoes Prove Introduction for GI's.

A conversation in which Pfc. Harvey Artho of Dawn overheard Pfc. L. D. Don't Worry About Us!
We'll do it!

THEY tell us that the fat salvage problem has got to be licked in the small cities, the towns and on the farms.

Our country has to have one hundred million more pounds of used fats this year over last. And we're the people who must save it.

We've rolled up our sleeves! We'll save every drop and bit it is possible to scrape—and keep on doing it till the last Jap is licked.

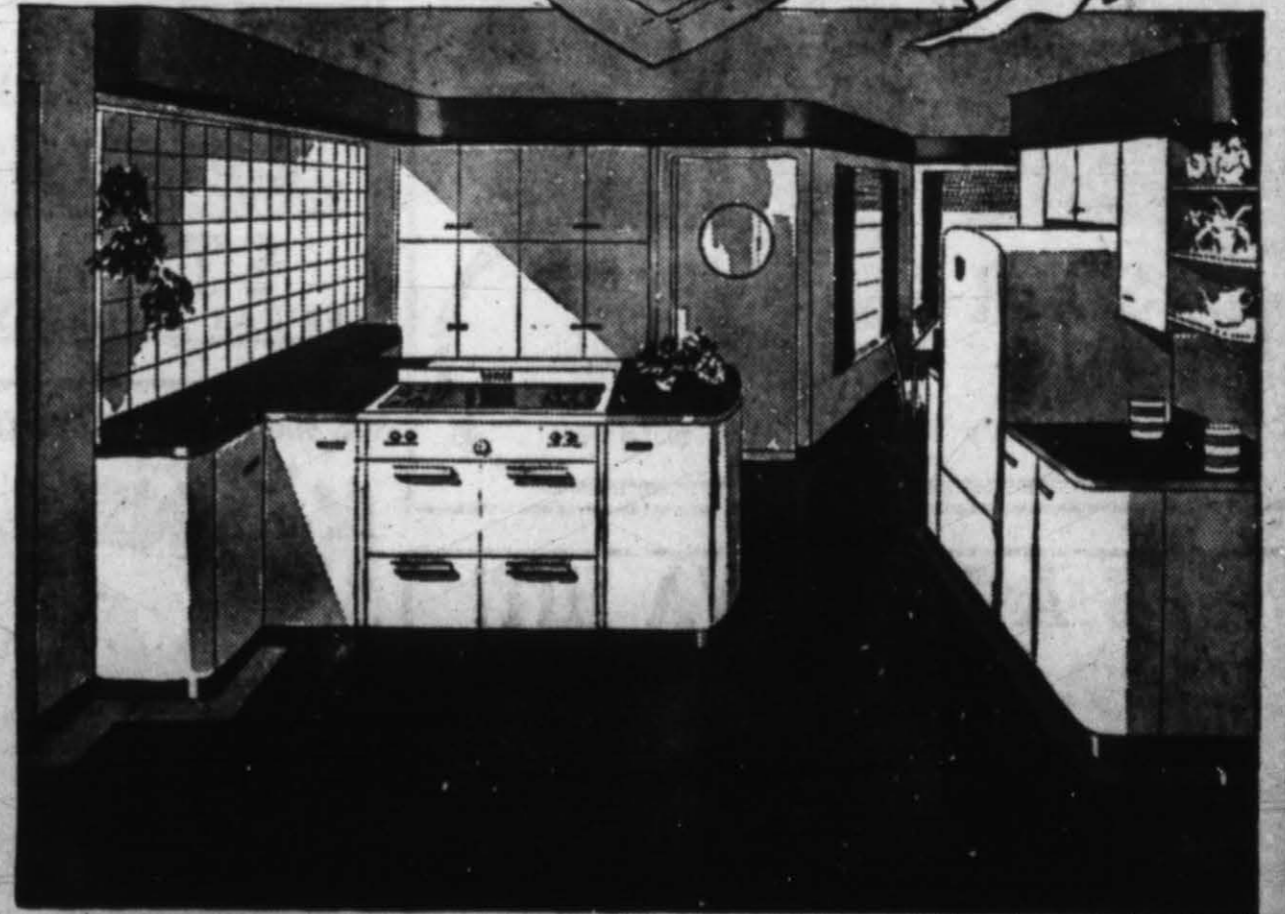

HOW TO DO IT: Save all used fats in a tin can. Keep it handy to the stove. Scrape your broilers and roasting pans, skim soups and gravies, for every drop counts. Keep solid pieces of fat, such as meat trimmings and table scraps, in a bowl. Melt down when your oven's going, add the liquid fat to the salvage can. Take the can to your butcher as soon as it's full. He will give you four cents and two red points for every pound. Your County Agent or Home Demonstration Agent can give you full particulars.

100,000,000 More Pounds of Used Fats Are Needed This Year!

Approved by WFA and OPA. Paid for by Industry.

BLUEPRINT for peace IN THE KITCHEN

The new Modern CP Gas Range will offer a solid foundation for that New Freedom Gas Kitchen to be planned, come the peace. In it you'll find every modern convenience that your heart could possibly desire. It'll be beautiful to look at—that's a certainty. It'll cook, bake, broil, fry, saute, cook the "waterless" way and do everything else that you've ever wanted a range to do. That's a promise made to you by the manufacturers of the new CP gas ranges.

About all you can do now is to dream, but after peace has come, you will be glad you included the new Modern CP Gas Range in your New Freedom Gas Kitchen, and that you bought War Bonds to make that dream come true.

...buted regularly. "Right after I was shot down," says Lieutenant Dowell, "I received a Red Cross 'capture parcel' and it was just like when I was a little kid and Santa Claus came to see me. That was just about the most welcome present I ever received."

Dowell's plane picked up some flak over Metz on Oct. 12, 1944, and he bailed out after the plane continued to lose altitude. It was "just about two minutes," he states, until a Wehrmacht man picked him up and he was on his way to pris-

on. Though there was not much to do in the prison camp, Dowell points out that American ingenuity helped solve the problem, with some of the boys, college graduates, teaching courses in their special fields. Also, there was a good library at Stalag Luft III—and then, Lieutenant Dowell adds, "There was always sleep."

"I don't know whether I lost weight or not; the Germans didn't furnish any scales," says Dowell. "But I gained 20 pounds in a hurry after I was released."

The liberation of Dowell's camp took place on Sunday, Apr. 29, when units of Patton's Third Army came into Mooseburg.

Following a 60 day leave in Hereford, Lieutenant Dowell will report to Miami Beach, Fla. for reassignment.

His Baking Builds Morale

WITH THE 12th AAF SERVICE COMMAND IN ITALY—Cpl. Jimmie Fullwood, veteran of more than two years of overseas service, has proved himself one of the most versatile men in his unit by switching over from the duties of company clerk to those of baker; and according to members of his outfit he is turning out the best pies and cakes ever made in the European Theatre of Operations.

Cpl. Fullwood arrived in North Africa early in 1943, later took part in the Italian campaign and the invasion of southern France. He wears two bronze battle stars for his participation in these campaigns.

Cpl. Fullwood is the son of Mrs. R. E. Edwards, formerly of Hereford, and nephew of Mr. and Mrs. Bob Fullwood of Hereford.

sible to recover the body at once. Later, when enemy activity subsided, Sgt. Spradley's body was picked up, identified and given the regular Protestant burial service, in the U. S.

Military Cemetery at Limay, France.

Chaplain Thompson concludes: "You have, and it is needless for me to say so, every reason to be justly proud of your son. He was an excellent squad leader and all who knew him liked him. Now that Victory in Europe has been won, we are sure that he did not die in vain."

mented Charter 5986 to the new Club. Hereford made the 60th Rotary club in this district, consisting of 2,850 members. The district comprises approximately one-fourth of Texas. Governor Cook has been working with the Hereford group during the organization period and expressed the greatest pleasure in the fine co-operation of the Hereford business and professional men. He introduced the 16 charter members and their Rotary Anns.

is actually on the map, along comes something to deflate local pride. For instance, a Houston Port Book which shows all the railroad routes in the Southwest and practically every town on the roads—does not show Hereford at all. It's a severe blow to the Chamber of Commerce.

Mr. and Mrs. A. B. London have been "up in the air" all week because they know that their son's Black Hawk Division is in the States, but up to yesterday morning had not received any message from Jack. However, they think he is on his way home; for they realize that, with about 15,000 men in the outfit, the telephone and telegraph wires might be a little crowded.

Not All B Card Holders Eligible For Extra Gas

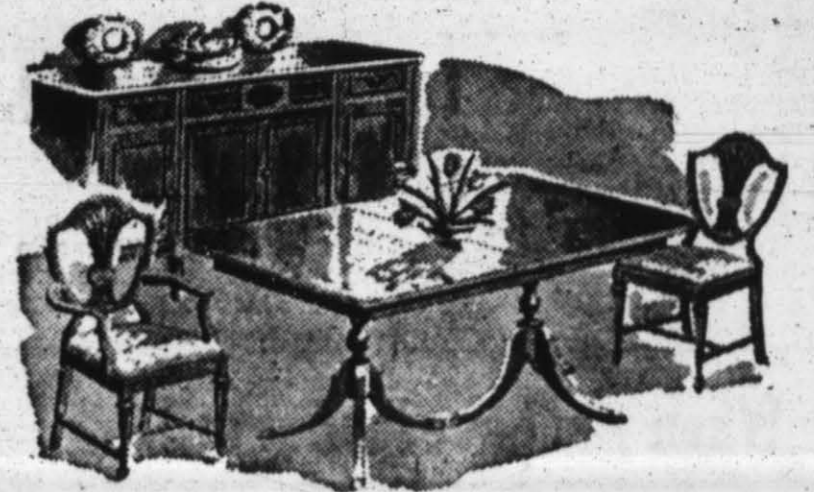

"Sunday driving isn't back yet, and probably won't be for some time to come," District OPA Rationing Executive William G. Williams declared today in explaining eligibility requirements for increased gasoline rations. Not every "B" coupon holder will be eligible for increased gasoline rations now that ceilings have been raised to 650 miles per month throughout

the country, Williams said. Only those "B" ration holders whose essential occupational driving needs exceed the present "B" ceiling of 475 miles a month will be eligible for an increase. The amount of the increase for eligible B-card holders will vary with their actual occupational driving needs but in no case may their total rations exceed the new ceiling, he said.

Most "B" ration holders—such as home-to-work drivers who are getting what they need under the 475 ceiling—should not apply for any increase since their applications will have to

be rejected and will only add to the work of the local War Price and Rationing Boards. Williams also announced that motorists are no longer required to use the "A", "B", "C" and "T" windshield markers. "Although V-E Day has made possible a 10 percent increase in the amount of gasoline in filling stations, the supply is still a long way from meeting public demand. Ration Boards will have to continue to say "no" to many car owners who do not need additional gasoline for essential driving."
